An overview of environmental law, from its common law roots to its role in the modern regulatory state, including an examination of major federal environment statutes and the policy debates inherent in them. Other areas covered include civil and criminal enforcement, standing to sue, land use control, and regulatory takings.
Recommended: ENSP101 and ENSP102.
Restriction: Junior standing or higher. And must be a major in the Environmental Science and Policy program; or permission of Environmental Science and Policy program.

ENSP340 Water: Science, Ethics, and Policy (3 Credits)
Exploration of the science, policy, and ethical aspects of water resource protection and management. Focus on water pollution, water availability, ecosystems, and sustainability
Recommended: ENSP101 and ENSP102.
Restriction: Must have earned a minimum of 60 credits. And must be a major in the Environmental Science and Policy program; or permission of Environmental Science and Policy program.

ENSP342 Environmental Threats to Oceans and Coasts: Towards an Integrated Policy Response (3 Credits)
An interdisciplinary study of the challenges of maintaining the health and vitality of oceans and coasts in the face of climate change, extreme weather, and other threats including pollution, and oil and gas development. Exploration of four broad themes: resource management, conservation and stewardship, pollution, and coastal zone management. Also, an analysis of current efforts to integrate these themes through ecosystem-based management; marine spatial planning; and related policy responses.
Recommended: ENSP101 and ENSP102.
Restriction: Must have earned a minimum of 60 credits. And must be a major in the Environmental Science and Policy program; or permission of Environmental Science and Policy program.

ENSP350 Energy Resources: Science and Policy in the 21st Century (3 Credits)
Energy resource production and consumption, including historical context, current trends in the U.S. and globally, and social and environmental implications. Includes fuel-source formation, history of use, modern trends in consumption, production, pricing and trade, reserves and resources, environmental and social impacts, future outlook and potential new technologies related to energy efficiency and conservation.
Prerequisite: ENSP101 and ENSP102.
Restriction: Must have earned a minimum of 60 credits; and permission of AGNR-Dean-Environmental Science & Policy Program.
Credit Only Granted for: ENST405, ENSP350, ENST605, or MEES698Z.

ENSP360 Every Drop Counts: Water, Food and Global Public Health (3 Credits)
In-depth interdisciplinary study of the public health issues related to water use for global food production. Topics will include accessibility and availability of safe water for agriculture worldwide, potential microbiological and chemical hazards in agricultural water, alternative water sources such as reclaimed wastewater and return flows, food safety approaches to managing agricultural water, and agricultural influences on surface and groundwater quality. Political, social, and economic factors relating to agricultural water will be addressed, with special focus on regions that are leaders in innovative water management and regions where access to clean water for agriculture is a major challenge.
Prerequisite: ENSP101 or MIEH300; or permission of department.
Cross-listed with: MIEH333.
Credit Only Granted for: MIEH333 or ENSP360.

ENSP370 Principles of Environmental Justice: Theory and Practice (3 Credits)
Explores the issue of environmental justice from the social science, policy, and legal perspectives. The course will begin with a theoretical foundation of environmental justice, and the historical, social and economic roots of environmental injustices and environmental racism. We will explore the different contexts within which environmental injustice manifests itself including domestic and international examples such as injustices in the food system, climate justice, environmental privilege, and urban environmental justice and pollution. We will study the ways in which people and communities have combated environmental injustices by looking at the history of the environmental justice movement, which was created to address the increasingly disproportionate impacts of environmental harms on low income populations and communities of color.
Recommended: ENSP101 and ENSP102.
Restriction: Junior standing or higher. Must be a major in the Environmental Science and Policy program; permission of Environmental Science and Policy program.

ENSP386 Internship (3-6 Credits)
Restriction: Must have internship proposal approved by the concentration advisor, the director of ENSP and the student's internship sponsor.

ENSP399 Special Topics in Environmental Science and Policy (1-3 Credits)
A substantive and specialized examination of contemporary issues in environmental science or policy.
Restriction: Must be in Environmental Science and Policy program; or permission of AGNR-Dean-Environmental Science & Policy Program.
Repeatable to: 12 credits if content differs.

ENSP400 Capstone in Environmental Science and Policy (3 Credits)
Integration of physical, biological, and social sciences with applications to environmental science and policy. Problem-solving and multi-disciplinary case study evaluations pertinent to contemporary and future issues related to the environment.
Prerequisite: ENSP101; and ENSP102.
Restriction: Must be in Environmental Science and Policy program; and senior standing; and permission of the Environmental Science and Policy Program.

ENSP489 Special Topics in Environmental Science and Policy (1-3 Credits)
A lecture and or laboratory series organized to study a selected phase of Environmental Science and Policy not covered by existing courses. Credit according to time scheduled and organization of the course.
Repeatable to: 6 credits if content differs.

ENSP499 Honors Thesis Research (1-6 Credits)
Individual research, thesis, and oral defense. The research project will be conducted under the supervision of a faculty member.
Restriction: Must be in the ENSP Honors program; and permission of AGNR-Dean-Environmental Science & Policy Program.
Repeatable to: 6 credits.

ENST - Environmental Science and Technology

ENST100 International Crop Production-Issues and Challenges in the 21st Century (3 Credits)
Examines the role of crop production in elevating humans out of poverty in developing countries. It will introduce students to the basic principles of plant and soil science underlying the international production of food crops and world food security. The role of multinational agencies such as the World Bank in the promotion of sustainable crop production using environmentally-sound technologies will also be discussed.

ENST101 Ecological Discovery and Natural Solutions (1 Credit)
The UMD Environmental Science and Technology (ENST) Department seeks to develop and apply scientific tools and processes to advance solutions to some of society's greatest environmental challenges. This seminar provides a unique and exciting opportunity to learn directly from faculty and researchers in the Department about what they study, teach, and share with society. Students will learn about the wide variety of research being conducted in the Department and how it relates to potential solutions to current environmental challenges. The course will cover research in the following areas: urban green spaces, aquaponics, bioenergy, wildlife management, aquatic toxicology, urban green spaces, wetland restoration, water resources, ecosystem health, soil chemistry, and more. It is anticipated that the course will include short visits to ENST laboratories and facilities. The course will also include information about academic, internship, and career opportunities related to ENST.
Credit Only Granted for: ENST499K or ENST101.
Formerly: ENST499K.

ENST111 Field Exploration in Environmental Science and Technology (4 Credits)
Immerse yourself in the diverse aspects of the Environmental Science and Technology Department (ENST) with the Field Exploration in Environmental Science and Technology course. In this hands-on course, both the outdoors and the laboratory serve as your classroom. You will travel by foot, bus, and boat to a variety of ecosystems, from forests and wetlands to urban rivers and the open Bay. Along the way, you will explore many of the ecological challenges posed by human activities. Under expert guidance, you will learn and apply field methods and laboratory techniques, gaining a deeper understanding of how environmental scientists address humanity's grand challenges through scientific data collection and analysis. Each field experience, corresponding discussion, and laboratory analysis is designed to enhance your ecological literacy by engaging directly with the environment and the professionals working to understand and protect it.
Restriction: Must be in the Environmental Science and Technology program; or by permission of the Environmental Science and Technology department.

ENST115 Bats in Society: Human-Wildlife Relationships, Conflicts, & Solutions (3 Credits)
How might an understanding of human-wildlife conflicts shape our approach to disease, ecology, and conservation? Should we care that we are losing wildlife, like bats? Across the globe, human societies have significantly harmed bat populations both intentionally and unintentionally. This course will delve into different bat population crisis causes as well as current and potential solutions, while addressing complex human-wildlife conflicts that need to be considered while solving them. During the course, students will get hands-on experience using highly sophisticated bat acoustic technology to identify bats to species-level. Lecture and discussion sections will focus on bat ecology, management techniques, newest bat identification techniques, data interpretation, and scientific presentation skills.
Credit Only Granted for: ENST115 or ENST215.
Formerly: ENST215.
Additional Information: Students should expect to spend 1-3 hours across multiple nights deploying bat detectors (which will be provided by the instructor) at a location of their choosing. Safety protocols will be discussed and implemented.

ENST200 Fundamentals of Soil Science (4 Credits)
Study and management of soils as natural bodies, media for plant growth, and ecosystem components. Morphology, composition, formation, and conservation of soils. Chemical, biological, and physical properties are discussed in relation to the production of plants, the functioning of hydrologic and nutrient cycles, the protection of environmental quality, and engineering uses of soils.
Corequisite: CHEM131 and CHEM132; or permission of AGNR-Environmental Science & Technology department.
Credit Only Granted for: ENST200 or NRSC200.
Formerly: NRSC200.

ENST214 Introduction to Natural Resources Management (3 Credits)
Lectures, discussion, and readings in social, biological, and human dimension issues facing natural resource managers in the United States. Coverage will include history and philosophical discussions of fishery, wildlife, and forestry sciences; conservation and management; principles of community, habitat, and animal ecology and management; and interrelations of wildlife, fish, and forestry.
Prerequisite: BSCI160 and BSCI161; or permission of instructor.
Restriction: Must be in the ENST Natural Resources Management or ENSP Wildlife Ecology & Management programs; and must have completed less than 90 credits; or permission of instructor.

ENST233 Introduction to Environmental Health (4 Credits)
Examines how humans are affected by the quality of our air, water, soil and food supply as well as how human activities alter these survival necessities. Students will learn how the evolution and prosperity of human populations have resulted in degradation of our environment and the impact of environmental degradation on the health of people. The implications of individual and collective choices for sustainable food production, population management, and resource utilization will be explored.

ENST281 Computer Aided Design in Ecology (2 Credits)
Basics of Computer Aided Drawing (CAD) applied to design of constructed ecosystems. Use of campus stormwater wetland as case study.

ENST282 Ecological Innovation and Entrepreneurship (3 Credits)
Ecotechnology innovation is taught with design thinking, which uses an iterative cycle of developing customer empathy, learning ecological technology, appreciating environmental stewardship, brainstorming, rapid prototyping, user experience, testing and redesign. Environment entrepreneurship is based on the Lean Startup process, which uses customer discovery, encourages quick product development, reduces start-up costs, tests ideas quickly, and employs designed experiments. A multidisciplinary academic setting embraces designing, building, testing and marketing novel technologies that enhance the environmental needs of humans. Students will learn in an active environment that requires working creatively, collaboratively, diligently, and precisely to create a business model and tangible prototype for a new commercial product.

ENST283 Artificial Intelligence for Environmental Good (3 Credits)
Explore the exciting world of generative AI to tackle real-world environmental challenges. This course blends science, ethics, and practical skills. You will learn the science and ethics of large language models, like ChatGPT, master cutting-edge AI skills, apply them to analyze a practical and complex environmental problem so you can develop a nature-based solution, all while working in a supportive, collaborative setting.
Credit Only Granted for: ENST499E or ENST283.
Formerly: ENST499E.

ENST301 Field Soil Morphology I (1 Credit)
This is a field-oriented course that introduces students to the techniques used to (1) describe soil morphology, and site and profile characteristics, (2) make land use interpretations based on soil characteristics, and (3) classify soils. This class is designed to prepare students for the Regional Collegiate Soil Judging Contest and for students to gain experience in the description and interpretation of soils in the field.
Restriction: Permission of AGNR-Environmental Science & Technology department.
Formerly: ENST308.

ENST302 Field Soil Morphology II (1 Credit)
This is the second field-oriented course in a three course sequence that provides intermediate training for students in the techniques used to (1) describe soil morphology, and site and profile characteristics, (2) make land use interpretations based on soil characteristics, and (3) classify soils. This class is designed to prepare students for the Regional Collegiate Soil Judging Contest and for students to gain experience in the description and interpretation of soils in the field.
Prerequisite: ENST301.
Restriction: Permission of AGNR-Environmental Science & Technology department.

ENST303 Field Soil Morphology III (1 Credit)
This is the third field-oriented course in a three course sequence that provides intermediate training for students in the techniques used to (1) describe soil morphology, and site and profile characteristics, (2) make land use interpretations based on soil characteristics, and (3) classify soils. This class is designed to prepare students for the Regional Collegiate Soil Judging Contest and for students to gain experience in the description and interpretation of soils in the field.
Prerequisite: ENST302.
Restriction: Permission of AGNR-Environmental Science & Technology department.

ENST309 Advanced Field Soil Morphology (1 Credit)
This is a field-oriented course that provides advanced training for students in the techniques used to (1) describe soil morphology, and site and profile characteristics, (2) make land use interpretations based on soil characteristics, and (3) classify soils. This class is designed to prepare students for the National Collegiate Soil Judging Contest and for students to gain experience in the description and interpretation of soils in the field. Students will be exposed to a variety of soil landscapes and geology from outside of the northeastern U.S.
Prerequisite: ENST301.
Restriction: Permission of AGNR-Environmental Science & Technology department.
Repeatable to: 3 credits if content differs.

ENST321 Statistics for Environmental Scientists (3 Credits)
Introduces students to statistical methods used in environmental science to analyze, interpret, and communicate data related to environmental science. The course emphasizes solving problems and independent learning and inquiry. Students will learn key concepts in descriptive and inferential statistics, probability distributions, hypothesis testing, regression modeling, and time series analysis. The course also covers advanced topics such as model selection and spatial data analysis. Hands-on exercises using real-world environmental datasets and statistical software (R) will provide students with practical skills in data visualization, analysis, and decision-making. By the end of the course, students will be equipped to critically evaluate environmental data and apply statistical tools to address pressing environmental challenges.
Prerequisite: MATH115.
Restriction: Must be in the Environmental Science and Technology program; or permission of the Environmental Science and Technology department.

ENST333 Ecosystem Health and Protection (3 Credits)
Discussion of the philosophies, principles, and practices for assessing ecosystem health with emphasis on an ecosystem perspective rather than a human health perspective. Degradation associated with human activities will be emphasized. Topics will range from local to regional to global issues, including a discussion on global warming and its possible impacts on ecosystems. Concepts will be clarified using case histories from the Chesapeake Bay watershed.
Prerequisite: ENST233 or permission of instructor.

ENST334 Environmental Toxicology (3 Credits)
Concepts and case histories in ecotoxicology. Emphasis on origin and variety of environmental pollutants, routes of biological exposure, modes of toxicological action and effects on individual organisms, populations and ecosystems. Ecotoxicological issues in the Chesapeake Bay will be used as examples.
Prerequisite: CHEM131, CHEM132, and BSCI207; or permission of AGNR-Environmental Science & Technology department.

ENST344 Principles of Aquaponics: The Circular Food Production System (3 Credits)
In the last few years, aquaponics has attracted a lot of attention around the globe, especially in the context of urban farming. This course addresses the question: how does an aquaponics system work and what knowledge is needed to successfully run an aquaponic system? The different parts of this course will give the students an understanding of important topics in the field of aquaponics and develop a broad knowledge base: from water chemistry, fish and plant physiology, to engineering and microbiology and show them how to plan and design such a sustainable production system. Aquaponics is a technique that combines aquaculture (fish farming) and hydroponics (soil-less plant cultivation) in a circulatory system with the aim of recycling nutrients from fish farming wastewater. Also, aquaponics can serve as a learning model for inter-and transdisciplinary thinking and acting.
Prerequisite: BSCI160 or BSCI170; and CHEM131 or CHEM135.
Credit Only Granted for: ENST499O or ENST344.
Formerly: ENST499O.

ENST360 Ecosystem Ecology (4 Credits)
The study of ecology has a long and interesting history, from early society's efforts to understand and alter their environment as a matter of survival to the challenges the modern world is facing that are global in scale. Through the course text, distributed supplemental chapter readings and an understanding of the scientific literature, this course will cover the essential concepts and principles of ecosystem ecology as well as its history and past and present controversies. Several of the basic methods and tools of field research and the applied management of ecosystems will be discussed and demonstrated with several field excursions in the natural environs of the DC area. Central to this course will be the understanding that modern human society is an integral part of nature, with the power to impact and influence elements of the natural world at multiple scales. An analysis of policy implications for the biosphere will be discussed.
Prerequisite: BSCI160 and BSCI161; or BSCI106.
Restriction: Must be in the Environmental Science and Technology major; or permission of instructor.

ENST373 Natural History of the Chesapeake Bay (3 Credits)
Consideration of the major groups of organisms associated with the Chesapeake Bay and current issues that determine humans' present and future uses for the Chesapeake and its biota.
Cross-listed with: BSCI373.
Credit Only Granted for: BSCI373 or ENST373.

ENST379 Environmental Science and Technology Undergraduate Teaching Assistant (1-3 Credits)
A weekly teaching practicum and concurrent internship as an undergraduate teaching assistant in an Environmental Science and Technology course. By exploring the theories and best practices of teaching and learning in the various fields of environmental science, students will acquire foundational skills and knowledge for effective college teaching. Essential topics include teaching methods, classroom management, student engagement, and the basics of course design with emphasis placed on understanding diverse student needs, promoting inclusive teaching practices, and fostering critical thinking. Through interactive activities and peer & instructor feedback, students will gain hands-on experience in creating positive and impactful learning environments.
Restriction: Permission of the Environmental Science and Technology department; and permission of instructor; and must be in the Environmental Science and Technology program.
Repeatable to: 6 credits.
Additional Information: Students should have taken the course for which they will TA.

ENST388 Honors Thesis Research (3-6 Credits)
Undergraduate honors thesis research conducted under the direction of an AGNR faculty member in partial fulfillment of the requirements of the College of AGNR Honors Program. The thesis will be defended to a faculty committee.
Restriction: Permission of AGNR-Environmental Science & Technology department.
Repeatable to: 6 credits if content differs.

ENST389 Internship (3 Credits)
Credit will be granted for practical work carried out by students placed in work environment related to their stated career goals. Students must do an in-depth study in some portion of the work experience and produce a special project or report related to this study. A student work log is also recommended. An evaluation from the external supervisor of the project will be required. Credit arranged with supervising faculty member.
Restriction: Must be in Environmental Sci & Tech program.
Repeatable to: 6 credits if content differs.

ENST403 Invasive Species Ecology (3 Credits)
We will examine ecological, evolutionary, and anthropogenic processes facilitating or resisting biological invasions, and consider their environmental, economic, and human health impacts. We will consider various management strategies to mitigate invasions and identify areas of future research. Field trips and detailed discussion of recent findings and controversies in the literature will help illustrate fundamental concepts of invasions among various ecosystems.
Credit Only Granted for: ENST403, ENST603, or ENST689R.

ENST404 Ecological and Natural Resources Ethics (3 Credits)
Bridges science and management with ethical theory and concepts to help scientists, regulators, and managers understand how to deal with potential ethical dilemmas that arise in natural resource and environmental management implementation and policy development.
Prerequisite: ENST214 and ENST360.
Recommended: ENST314, ENST410, and ENST460.
Restriction: Senior standing or higher. Jointly offered with ENST604.
Credit Only Granted for: ENST604 or ENST404.

ENST405 Energy and Environment (3 Credits)
Introduction to the role of energy in environmental and human-dominated systems. Discussion of the historical and modern production and consumption of energy. Introduction to energy systems computer simulation and energy auditing.
Prerequisite: MATH140 or MATH120; or must have completed MATH220.
Restriction: Junior standing or higher. And must be in Environmental Sci & Tech program; or must be in Environmental Sci & Tech: Ecological Tech Design program; or must be in Environmental Sci & Tech: Environmental Health program; or must be in Environmental Sci & Tech: Soil & Watershed Science program; or must be in Environmental Sci & Tech: Natural Resources Mgmt program. Jointly offered with ENST605.
Credit Only Granted for: ENST405, ENSP350, ENST605, or MEES698Z.

ENST410 Ecosystem Services: An Integrated Analysis (3 Credits)
The importance of our ecosystems and the services they provide will be discussed. Basic principles used to analyze ecosystem services will be discussed and applied using case studies & field exercises. Forestland, wetlands and our marine resources are increasingly recognized for their ecosystem services provided to society, to include clean air and water, wildlife habitat, biodiversity, carbon storage and pollination services. This course will prepare students to deal with the complex issues involved in understanding those and other ecosystem services and their importance to society and environmental sustainability. Slowly, new markets are emerging for these services. Students will analyze the ecological, policy and financial dimensions of enhancing, restoring, and sustaining ecosystem services. New and on-going government programs and private business ventures will be discussed.
Prerequisite: ENST360 or BSCI361; or permission of instructor.
Restriction: Must be in one of the following programs (Environmental Sci & Tech: Ecological Tech Design; Environmental Sci & Tech; Environmental Sci & Tech: Natural Resources Mgmt; Environmental Sci & Tech: Soil & Watershed Science; Environmental Sci & Tech: Environmental Health).

ENST411 Principles of Soil Fertility (3 Credits)
Soil factors affecting plant growth and quality with emphasis on the bio-availability of mineral nutrients. The management of soil systems to enhance plant growth by means of crop rotations, microbial activities, and use of organic and inorganic amendments.
Prerequisite: ENST200; or students who have taken courses with comparable content may contact the department. Jointly offered with ENS T611.
Credit Only Granted for: ENST411 or NRSC411.
Formerly: NRS C411.

ENST414 Soil Morphology, Genesis and Classification (4 Credits)
Processes and factors of soil genesis. Taxonomy of soils of the world by U.S. System. Soil morphological characteristics, composition, classification, survey and field trips to examine and describe soils.
Prerequisite: Must have completed or be concurrently enrolled in ENST200.

ENST415 Renewable Energy (3 Credits)
An overview of renewable energy technologies and their current applications. Emphasis will be placed on technological readiness, efficiency and sustainability of renewable energy alternatives. Technologies include solar thermal, photovoltaics, biodiesel, ethanol, anaerobic digestion, wind, hydroelectric, and microbial fuel cells.
Prerequisite: CHEM131, PHYS121, and MATH113; or permission of AGNR-Environmental Science & Technology department.

ENST417 Soil Hydrology and Physics (3 Credits)
A study of soil water interactions: the hydrologic cycle; the unique properties of water and soil; the soil components and their interactions; the field water cycle; transport processes involving water, heat and solutes; human effects on soil and groundwater; as well as the measurement, prediction, and control of the physical processes taking place in and through the soil.
Prerequisite: ENST200; and (MATH113 or MATH115).

ENST421 Soil Chemistry (4 Credits)
The chemistry and composition of mineral and organic colloids in soils, including ion exchange, oxidation-reduction, acidity, surface charge, and solution chemistry. Lectures and readings pertain to plant nutrition, waste disposal, and groundwater quality.
Prerequisite: ENST200.

ENST422 Soil Microbial Ecology (3 Credits)
The interdisciplinary study of soil microorganisms and their interactions with the mineral matrix; resulting in processes such as nutrient cycling, decontamination, and natural product production. We will focus on the diversity of soil communities, their survival strategies, and the new strategies used to study these communities.
Prerequisite: ENST200; or 1 course in BCHM; or must have completed a course in microbiology; or students who have taken courses with comparable content may contact the department.
Jointly offered with: ENST622.

ENST423 Soil-Water Pollution (3 Credits)
Reaction and fate of pesticides, agricultural fertilizers, industrial and animal wastes in soil and water with emphasis on their relation to the environment.
Prerequisite: ENST200.

ENST430 Wetland Soils (3 Credits)
The soils of wetlands including hydrology, chemistry, and genesis are discussed. Federal and regional guidelines for wetland soils are covered with an emphasis on validating interpretations through field observations.
Prerequisite: ENST200.
Credit Only Granted for: ENST430 or ENST630.

ENST432 Environmental Microbiology (3 Credits)
Microorganisms are everywhere and mediate many of the processes that we observe everyday. These organisms are the unseen catalysts for numerous industrial processes and are critical to many emerging technologies and novel products. Environmental microbiologists ask: How do microorganisms in the environment benefit society? This course will answer this question by examining microbes in bioremediation, food safety, climate change, and biotechnology.
Prerequisite: CHEM131 and CHEM132.

ENST434 Toxic Contaminants: Sources, Fate, and Effects (3 Credits)
Study of the release to the environment, transport through natural compartments, persistence and ultimate fate of various classes of contaminants produced as a result of human activities. Topics will culminate in discussions of impacts to wildlife and human health. Students should emerge with a practical appreciation of the actual risks from exposure to a variety of environmental contaminants and an understanding of the environmental and human health implications of continuing the contaminating activities.
Prerequisite: ENST333 and ENST334.

ENST436 Emerging Environmental Threats (3 Credits)
Examine new and potential environmental concerns in the air, water, soil, space, and the built environment. Emphasis on studying the intrinsic links between ecosystem and human health. Topics will include climate change, resource consumption, biodiversity change, infectious disease, non-traditional pollutants, and other complex and significant environmental concerns.
Prerequisite: ENST233; or permission of AGNR-Environmental Science & Technology department.

ENST441 Sustainable Agriculture (3 Credits)
Environmental, social and economic needs for alternatives to the conventional, high-input farming systems which currently predominate in industrial countries. Strategies and practices that minimize the use of non-renewable resources.

ENST450 Wetland Ecology (3 Credits)
Plant and animal communities, biogeochemistry, and ecosystem properties of wetlands. Lectures are supplemented by field trips and in-class labs. Hands-on activities include identification of wetland plant species, wetland delineation, and collection and analysis of field data on wetland vegetation, soil, and hydrology. Wading boots (at least hip length) are strongly recommended.
Prerequisite: BIOM301 and ENST360, or equivalent courses in data analysis and ecology; or permission of AGNR-Environmental Science & Technology department.
Jointly offered with: ENST650.
Credit Only Granted for: ENST450, ENST650, or MEES650.

ENST452 Wetland Restoration (3 Credits)
Design, construction, and evaluation of wetlands restored or created to provide ecosystem services or to mitigate losses due to development. Topics include fundamental properties of wetlands, ecological restoration theory, site selection and goal-setting, design plans, practices for establishing wetland hydrology, substrate, and vegetation, and restored ecosystem monitoring.
Prerequisite: (BSCI160 and BSCI161; or BSCI106); and (BSCI362, ENST450, ENST360, or BSCI361).

ENST453 Watershed Science: Water Balance, Open Channel Flow, and Near Surface Hydrology (3 Credits)
Definition and delineation of watersheds based on the stream orders. Discussion of the principle of conservation of mass in the context of life cycles (water cycle, carbon cycle, photosynthesis, aerobic cycle, anaerobic cycle, and nitrogen cycle) as it relates to our Biosystem. Conceptual study of hydrologic cycle components and their prediction using empirical and physical-based models is covered. Role of water as the dynamic force within the context of its interaction with landscapes of diverse geology and land cover will be discussed. Elements of watershed management is discussed.
Prerequisite: MATH120, ENST200, GEOG306 or BIOM301.
Recommended: PHYS121.
Credit Only Granted for: ENST453 or ENST653.

ENST456 Spatial Analysis and Ecological Sampling (3 Credits)
Teaches ENST students ecological sampling methods and applied spatial analysis skills. Students will work in small groups on research projects they develop and test during the semester. Students will develop a research hypothesis, test their hypothesis, display it visually in QGIS, and analyze it with appropriate statistical methods in QGIS and R Studio culminating in a final presentation.
Recommended: GEOG306 and GEOG373.
Restriction: Senior standing or higher; and permission of instructor.
Additional Information: Students will need to provide an 8GB (or larger) thumb drive for data storage.

ENST460 Principles of Wildlife Management (3 Credits)
Ecological principles and requirements of wildlife as basis for management, and introduction to the scientific literature. Conflicts in wildlife management, government administration of wildlife resources, legislation, and history of the wildlife management profession.
Prerequisite: Must have completed two semesters of biology laboratory; and (ENST360; or BSCI361). Or permission of AGNR-Environmental Science & Technology department.

ENST461 Urban Wildlife Management (3 Credits)
Ecology and management of wildlife in urban areas. For students in biological sciences, geography, landscape design, natural resources management, recreation and urban studies. Planning, design, and wildlife conservation in landscape ecology. Public attitudes, preferences, and values, review of private conservation organizations.

ENST462 Field Techniques in Wildlife Management (3 Credits)
Hands-on experience with field techniques in wildlife management focusing on various methods of conducting indices, estimates, and censuses of wildlife populations. Includes capture and handling of amphibians, reptiles, birds, and mammals by use of drift fences, cover boards, mist nets, box traps, and dart guns.
Prerequisite: ENST460. And BSCI160 and BSCI161; or BSCI106. And BSCI170 and BSCI171; or BSCI105.
Recommended: ENST461.
Restriction: Permission of AGNR-College of Agriculture & Natural Resources.

ENST470 Ideas into Impact (3 Credits)
This will be a capstone-type course based around developing proposals for projects emphasizing research, monitoring, design, restoration, managament, entrepreneurship, or other approaches to ecological or environmental questions, issues, or problems.
Restriction: Junior or Senior standing only; Permission of AGNR-Environmental Science & Technology department.

ENST472 Capstone (3 Credits)
This capstone course focuses on professional project preparation, presentation, and critical evaluation on environmental science research. Students will develop and present original projects and critique projects presented by others.
Restriction: Must be in a major within AGNR-Environmental Science & Technology department; and permission of AGNR-Environmental Science & Technology department.
Additional Information: This is the pinnacle course for students majoring in ENST and is therefore recommended in one of the students' final semesters.

ENST481 Ecological Design (4 Credits)
An advanced survey course on the field of ecological design. Principles of design are illustrated with case studies from biologically-based waste treatment systems, ecosystem management and sustainable development. Concepts covered include ecology, ecological engineering, nutrient cycling, emergy, lifecycle analysis, and design process. Technologies include treatment wetlands, living machines, anaerobic digestion, rain gardens, bioswales, bioremediation, algal turf scrubbers, and green building design.
Prerequisite: (MATH120 or MATH140; or must have completed MATH220); and (PHYS121 and CHEM131); and (BSCI361; or students who have taken courses with comparable content may contact the department). Or permission of instructor.
Jointly offered with: MEES681.
Restriction: Permission of AGNR-Environmental Science & Technology department.
Credit Only Granted for: ENST481, ENST681, or MEES681.

ENST485 Water Management in Urban Environment (3 Credits)
Historically, with the exception of certain locations, water has been available in sufficient quantities, and providing supporting infrastructure has been relatively straightforward. In urban areas, the concentration of people and the drastic changes in land use, have altered the fluxes of water, sediments, chemicals, and microorganisms. As the population increases and the number of large urban areas keeps growing (both in U.S. and internationally), managing water in urban areas is becoming more challenging. Water must be supplied for domestic, commercial, and industrial use, as well as irrigation and maintaining and enhancing local environments (e.g., urban streams). In addition, stormwater must be managed to prevent flooding and environmental damage, and used water, which contains organic matter, nutrients, and other constituents that can be extracted and reused, must be collected and managed. In this course we take a systems approach to urban water hydrology, engineering, planning and management. We will explore urban water cycle, urban runoff and drainage characteristics, urban water supply and demand, stormwater collection and treatment and designing best management practices. Additionally, we look at the climate impacts on the urban water cycle.
Prerequisite: MATH120, MATH130, MATH136, or MATH140.

ENST486 Senior Professional Experience (3 Credits)
Students will arrange an off-campus professional-level work experience related to Environmental Science and Technology (ENST) to develop expertise in a specific area of their ENST concentration curriculum. Classroom sessions will frame student experiences within the broader discipline of Environmental Science and Technology. This course will tie together current practices in the ENST career industry, proposal writing, critical analysis, and culminate in a final paper and presentation.
Prerequisite: ENST389.
Restriction: Must be in the Environmental Science and Technology program; and permission of AGNR-Environmental Science & Technology department.
Additional Information: The course has two types of activities: lecture and experiential learning. Students are expected to work on their professional-level experience for 90 hours and participate in a 2-hour lecture every other week, during the semester to develop their Senior Integrative Experience (SIE) project. Each student's research question, proposal methodology, analysis, paper, and presentation will follow learning outcomes of all ENST SIE course options.

ENST487 Environmental Conflicts and Decision Making (2 Credits)
Study major cases which focus on environmental science with concentration on the role and techniques of negotiation, collaborative decision making, and adaptive resource management as an environmental conflict resolution process.
Restriction: Senior standing. And must be in one of the following programs (Environmental Sci & Tech: Natural Resources Mgmt; Environmental Sci&Pol-Wildlife Ecology & Mgmt) ; or permission of AGNR-Environmental Science & Technology department.

ENST489 Research Experience (3 Credits)
An advanced research-based course in the field of environmental science and technology.
Restriction: Permission of AGNR-Environmental Science & Technology department.
Repeatable to: 6 credits.

ENST499 Special Topics in Environmental Science and Technology (1-4 Credits)
An independent study, and/or lecture, and/or laboratory series organized to study a selected phase of Environmental Science and Technology not covered by existing courses. Credit arranged with supervising faculty member.
Restriction: Permission of AGNR-Environmental Science & Technology department.

EPIB - Epidemiology and Biostatistics

EPIB300 Biostatistics for Public Health Practice (3 Credits)
An examination of biostatistical concepts and procedures as they relate to contemporary issues in public health. Focus on applications, hands-on-experience, and interpretations of statistical findings in public health research.
Prerequisite: Minimum grade of C- in CHEM131 and CHEM132.
Restriction: Must be in Public Health Science program; and must have earned a minimum of 60 credits.
Credit Only Granted for: EPIB300, EPIB315 or HLTH300.

EPIB301 Epidemiology for Public Health Practice (3 Credits)
An examination of the discipline of epidemiology and its application to public health issues and practices, covering current epidemiological concepts and methods.
Restriction: Must be in Public Health Science program; or must be in Community Health program. And must have earned a minimum of 45 credits.

EPIB315 Biostatistics for Public Health Practice (3 Credits)
An examination of biostatistical concepts and procedures as they relate to contemporary issues in public health. Focus on applications, hands-on-experience, and interpretations of statistical findings in public health research.
Prerequisite: Minimum grade of C- in EPIB301; or must have completed or be concurrently enrolled in HLTH200.
Restriction: Must be in one of the following programs (Public Health Science; Community Health).
Credit Only Granted for: EPIB300 or EPIB315.
Formerly: EPIB300.
Additional Information: Course is cross-listed; students should check program advising information to determine which counts for their major. Note that EPIB300 (old number) is still offered for students under previous curriculum.

EPIB330 Introduction to Infectious Disease Epidemiology (3 Credits)
Introduces students to the study of infectious disease through the application of epidemiologic methods. Students will review how infectious diseases impact global health, and examine epidemiological concepts related to infectious disease. These concepts include infectious disease transmission, prevention and control; study design; and outbreak and epidemic investigations. Infectious disease topics of concern to public health professionals will be covered including the COVID-19 pandemic, sexually transmitted infections, foodborne infections, healthcare-acquired infections and neglected tropical diseases, and future trends in the field of infectious diseases.
Prerequisite: EPIB301.

EPIB399 Epidemiology and Biostatistics Independent Study (1-3 Credits)
The EPIB undergraduate independent study is an opportunity for undergraduates from other departments in the SPH or the university to work with an Epidemiology and Biostatistics faculty member on research or special projects that are based out of EPIB.
Restriction: Must have earned a minimum of 60 credits; and minimum cumulative GPA of 3.0.
Repeatable to: 6 credits if content differs.

EPIB463 Introduction to Programming in R (3 Credits)
An introduction to basic programming in R; including principles, data analysis tasks such as the calculation of summary statistics and the creation of graphs; and the implementation of statistical analysis concepts such as T-tests, ANOVA and correlation.
Prerequisite: EPIB315.
Jointly offered with: EPIB695.
Credit Only Granted for: EPIB463 or EPIB695.

EPIB489 Special Topics in Epidemiology or Biostatistics (1-6 Credits)
Special topics in epidemiology or biostatistics.
Repeatable to: 6 credits if content differs.

FGSM - Federal and Global Fellows

FGSM310 Political Engagement and Advocacy (3 Credits)
An examination of questions and issues in the practice of political engagement and advocacy. Guest lecturers drawn from political, civic engagement, and advocacy arenas will visit class and participate in discussions.
Cross-listed with: HNUH318T.
Restriction: Must be in the Federal Fellows Program; and permission of instructor.
Credit Only Granted for: HNUH318T or FGSM310.

FGSM320 Public Health Policy (3 Credits)
An exploration of the major questions and issues facing the U.S. health care system as well as the formulation and implementation of health policy.
Cross-listed with: HNUH328T.
Restriction: Must be in the Federal Fellows Program; and permission of instructor.
Credit Only Granted for: UNIV348P, HNUH328T or FGSM320.
Formerly: UNIV348P.

FGSM330 Homeland and National Security Policy (3 Credits)
An examination of the concept of U.S. homeland and national security, threats, and major vulnerabilities in the context of recent history.
Cross-listed with: HNUH338T.
Restriction: Must be in the Federal Fellows Program; and permission of instructor.
Credit Only Granted for: UNIV348T, HNUH338T or FGSM330.
Formerly: UNIV348T.

FGSM340 Energy and Environmental Policy (3 Credits)
An examination of issues of energy and environmental sustainability through an investigation of policy-making in energy, climate change, and sustainable development.
Cross-listed with: HNUH348T.
Restriction: Must be in the Federal Fellows Program; and permission of instructor.
Credit Only Granted for: UNIV348E, HNUH348T or FGSM340.
Formerly: UNIV348E.

FGSM350 Critical Regions and International Relations (3 Credits)
An examination of international relations and foreign policy challenges in critical regions.
Cross-listed with: HNUH358T.
Restriction: Must be in the Global Fellows Program; and permission of instructor.
Credit Only Granted for: HNUH358T or FGSM350.

FGSM355 U.S. Intelligence and Policymaking (3 Credits)
Examines the role of intelligence in supporting U.S. security strategy and policy. Students will learn how the U.S. Intelligence Community (IC) is structured and organized, and will explore how intelligence is deployed to support the warfighter, diplomats, and senior-level decisionmakers. The course emphasizes the development of critical thinking and analytic skills, as well as professional writing and oral presentation abilities that are necessary for successful work in national security organizations. The course will feature guest lecturers from real-world practitioners to supplement course readings.
Cross-listed with: HNUH359T.
Restriction: Must be in the Global Fellows Program; and Permission of Department.
Credit Only Granted for: HNUH359T or FGSM355.

FGSM360 U.S. Diplomacy and Policymaking (3 Credits)
An examination of questions and issues in the practice of contemporary diplomacy and policy-making. Guest lecturers drawn from Washington policy-making and foreign service communities will visit class and participate in discussion.
Cross-listed with: HNUH368T.
Restriction: Must be in the Global Fellows Program; and permission of instructor.
Credit Only Granted for: HNIUH368T or FGSM360.

FGSM370 Science Diplomacy: Foreign Policy & Science, Technology, and Innovation (3 Credits)
An exploration of the critical roles scientific knowledge and technological innovation play in the formation and implementation of foreign policy issues, including energy and climate change, public health, space and innovation, and economic development.
Cross-listed with: HNUH378T.
Restriction: Must be in the Global Fellows Program; and permission of instructor.
Credit Only Granted for: UNIV389F, HNUH378T or FGSM370.
Formerly: UNIV389F.

FGSM380 Responses to Global Challenges (3 Credits)
An examination of global issues and responses primarily from the perspective of the practitioner. The focus will be on social, humanitarian, and human rights issues in different global contexts.
Cross-listed with: HNUH388T.
Restriction: Must be in the Global Fellows Program; and permission of instructor.
Credit Only Granted for: UNIV389B, HNUH388T or FGSM380.
Formerly: UNIV389B.

FGSM390 Global Health Challenges and Water Security (3 Credits)
An examination of questions and issues of global health and water security. Expert practitioners will also visit class and participate in discussions.
Cross-listed with: HNUH398T.
Restriction: Must be in the Global Fellows Program; and permission of instructor.
Credit Only Granted for: HNUH398T, HONR378M, or FGSM390.

FGSM398 Federal and Global Experiential Learning (3-9 Credits)
This is the experiential course component of the Federal Fellows Program and Global Fellows Program.
Cross-listed with: HNUH398P.
Restriction: Permission of instructor.
Repeatable to: 9 credits if content differs.
Credit Only Granted for: FGSM398 or HNUH398P.

FIRE - First-Year Innovation & Research Experience

FIRE120 FIRE SEMESTER 1 (3 Credits)
Engages the research process through the design, research, collaborative authorship and iterative review-based refinement of research proposals. Students find and analyze primary literature, think creatively, author and communicate research proposals in a scholarly fashion and work collaboratively to solve scientific and societal problems using technology, delegation and productive team communication.
Additional Information: This is the first course in the FIRE (First-Year Innovation & Research Experience) program sequence.

FIRE198 FIRE SEMESTER 2 (2 Credits)
This is the second course in the FIRE (First-Year Innovation & Research Experience) program sequence. Students in this course join a research stream and gain discipline-specific training in that lab. This course focuses on the concepts related to the process of independent research including collaboration with peers, communication of ideas, troubleshooting unexpected outcomes, and discipline-specific methodologies.
Recommended: FIRE120.

FIRE298 FIRE Semester 3 (3 Credits)
Capstone course in the FIRE (First-Year Innovation & Research Experience) program sequence. Students in this course transition from trainee to practitioner in their lab. This course focuses on the concepts related to the process of independent research including collaboration with peers, communication of ideas, troubleshooting unexpected outcomes, and discipline-specific methodologies.
Prerequisite: FIRE198.
Repeatable to: 3 credits.

FIRE398 FIRE Research Leadership (1-3 Credits)
Earn academic credit for the time spent supporting, mentoring, and leading students in FIRE Research streams.
Prerequisite: FIRE298.
Repeatable to: 12 credits.

FMSC - Family Science

FMSC110 Families and Global Health (3 Credits)
Students will explore, define, and study global health, social determinants of health, health inequalities, gender inequality, family violence, and maternal and child health using a global perspective.

FMSC111 Credit Cards and College Students (1 Credit)
Provides college students with factual information about basic money management skills, emphasizing the responsible use of credit, specifically credit cards. Topics will include financial goals, spending plan, wise use of credit, debt management, consumer credit protection, and ID Theft. Online lessons will include video clips and interactive class activities. Students will learn the basics to build a strong financial future.
Recommended: Moderate level of computer literacy, especially Internet and ELMS. Reliable computer and Internet access.
Credit Only Granted for: FMSC111, FMSC341 or FMSC498D.
Formerly: FMSC498D.

FMSC123 Personal Financial Literacy: From Distress to Success (3 Credits)
Exploring strategic thinking, career, education, financial planning during college years as the foundation for success in living a meaningful life. While introducing relevant institutions and tools techniques that are critical for financial planning, this course applies value-based goal setting and strategic planning that inform individuals' paths for a successful career, educational attainment, and optimum (mental, physical and financial) wellbeing throughout their life cycle. The course particularly emphasizes the individual's responsibility of living in an institution rich society, where, continuous learning, understanding institutions, rational decision-making, valuing relationships and networking, early career development, record keeping, budgeting, generating income and wealth, purposeful spending, saving and investing, tax planning, appropriate use of loans, risk taking and insurance, and retirement planning are well rewarded and ensure the optimum use of college years and the rest of life-course.

FMSC126 International Family Law: Parent/Child Relationship in the Americas (3 Credits)
In this Global Classroom, U.S. students will work synchronously online with their international peers in Brazil to critically think about cutting-edge ethical, legal, and policy, issues in the field of International Family Law focusing on the parent/child relationship. Topics range from education, foster care, to human development. Students contrast parents' rights to raise their children as they see fit with the tension when the state steps in to provide protection in areas like medical decision making and child abuse and consider the social, cultural, racial, religious, economic, or socioeconomic contexts that influence each of these topics. In so doing, students will be challenged to think critically and see their place in creating actionable change in a global society.

FMSC170 Modern Families (3 Credits)
What is a Family? Engage in examination of the current trends and controversial issues in family life, including issues of marriage, reproductive technologies, adoption, child custody, remarriage, and marital violence.
Credit Only Granted for: FMSC170 or FMSC298F.
Formerly: FMSC298F.

FMSC177 BE WELL: Building Emotional Wellness through ExperientiaL Learning (1 Credit)
Students on UMD campus experience new challenges to their mental health and well-being every semester, and there are limited resources to help students manage their own health or to support their peers. This experiential skill development workshop course is designed to assist students in developing their knowledge in ways to recognize, manage, and cope with symptoms of stress, anxiety, and depression. There is a focus on coping with pandemic-related and course-related concerns, relationship issues, and a range of other student concerns.

FMSC186 Family Law and Ethics in Assisted Reproduction (1 Credit)
For students interested in studying the law, public health and/or family science, this course examines the cutting-edge law and ethics of assisted reproduction including the technologies of sperm and egg donation, in vitro fertilization, surrogacy, and reproductive organ transplants, and the impact on families.

FMSC190 Man Up! Where Are The Fathers? (3 Credits)
An examination of changing fatherhood roles, health, and inequality in diverse families. Focus will be on masculinities and disparities among men by race and class; provider role expectations; and trauma and violence faced by men in contemporary society.

FMSC215 Foster Care and Adoption; Law, Policy, and Family (1 Credit)
In this Student Initiated Course, students will examine their preconceived notions of foster care and adoption as they work to become agents for change in the systems. Regular guest speakers will share their experiences. Along with your student instructor you'll explore various outcomes of the systems including trauma, mental health and later-life outcomes. Your faculty instructor will encourage you to critically think about legal and policy issues, both in Maryland and internationally, like the foster to prison pipeline and adopting from other cultures. Students will examine contentious issues like legal interventions, LGBTQ, Native American Indian, transracial, religious and others relating to the systems and the socioeconomic impacts on families. Classes are student-driven and discussion-based, allowing students to explore ethical considerations and possible life paths.

FMSC260 Couples, Marriage, and Families: Intimate Relationship Across the Life Course (3 Credits)
Covers the different aspects of couple relationships and family life. This includes common problems in couple relationships, and resources to strengthen couple and family relationships. You will also learn about stages of relationships, theories of love and family, policy related to couples and family formation, and how research is conducted with couples and families. Together, we will discuss and explore issues that couples and families face in modern times and will consider how many of these issues have changed due to policy, technology, attitudes, and a variety of other societal factors that impact relationships in the 21st century. You will also learn important methods of strengthening current and future relationships.

FMSC265 Teaching Menstrual Health: Dispelling Myths and Misconceptions (3 Credits)
Provides a platform to teach UMD undergraduate students and BHU Bachelor of Education students about the intersections of gender, culture, and health. We will explore how menstruation is addressed in different cultures and uncover myths and misconceptions that impact individuals, their families and communities. Furthermore, the course emphasizes the health cost (physical and mental) of not educating youth about this vital process and discusses the need for an intervention. The course provides essential skills to participating students for the development of an intervention. Key concepts include: theoretical understanding of menstrual health and its impact on girls and women's lives from cross cultural perspectives, the importance of deconstructing myths and misconceptions and the importance of educating both girls and boys; cultural taboos and patriarchal power relations that contribute to myths, misconceptions and practices; public health interventions addressing the cost of ignoring adolescent health issues including menstrual health; the impact of providing agency to young girls and boys to challenge the status-quo; and links between knowledge about menstruation, human rights, gender equality and the SDGs.

FMSC270 Sex, Drugs, and Social Media: Adolescent Health and Development (3 Credits)
This course will ask: How can families, schools, communities, and society help adolescents to navigate contemporary stressors and develop into physically and mentally healthy adults? To do this, we will use research, and an understanding of adolescent development, to explore and analyze issues affecting the health and behavior of American adolescents. Such issues include (but are not limited to) sex education, the role of social media in mental health, substance use, policing in schools, dating violence, suicide prevention, access to sexual and reproductive health care, and school start times. We will consider how adolescent well-being is shaped by social contexts, including the role of parents and family members, peers, schools, communities, social media, and culture. We will examine policies and programs that affect adolescents, how effective they are at promoting adolescent health, and how they might be improved to better support healthy adolescent development.

FMSC280 Global, Child & Family Health: Getting There Via E-Communications (3 Credits)
Students will learn about global maternal, child and family health issues and how these issues may affect their lives. Interdisciplinary teams of students will collaborate to develop programs aimed at improving global family health through the use of information and communications technologies.
Credit Only Granted for: FMSC280 or FMSC289G.
Formerly: FMSC289G.

FMSC286 Assisted Reproduction Law and Policy in the US and Brazil (3 Credits)
In this Global Classroom, U.S. students will work synchronously online with their international partners in Brazil to critically think about cutting-edge ethical, legal, policy and scientific issues in the field of Assisted Reproduction Technologies (ART) in the two countries. This course looks at conventional families created in unconventional ways to examine such topics as sperm and egg donation, in vitro fertilization, surrogacy, reproductive organ transplants and more - while considering the social, cultural, racial, religious, economic, or socioeconomic contexts that influence each. Students will work with their foreign peers in small groups to compare ART in each country and then create proposed legislation for either the U.S. or Brazil which their international group will present online to their colleges and submit to the country's legislators. In so doing, students will be challenged to think critically and see their place in creating actionable change in a global society.
Credit Only Granted for: FMSC186 or FMSC286.
Additional Information: This is a global classroom course where students will learn online, meet once a week in a synchronous class on Webex with their Brazilian classmates, and work individually via Webex in small international groups.

FMSC289 Special Topics in Family Science (3 Credits)
Topics of special interest under the general guidance of the Department of Family Science.
Repeatable to: 9 credits if content differs.

FMSC290 Family Economics (3 Credits)
Application of economic methodology to study families under various economic situations. Examination of how decisions about marriage, divorce, fertility, consumption and time use are influenced by labor/housing markets, tax structure, social welfare benefits and other economic considerations.
Credit Only Granted for: FMSC290 or FMST290.
Formerly: FMST290.

FMSC298 Special Topics in Family Science (1-3 Credits)
Topics of special interest under the general guidance of the Department of Family Studies.
Repeatable to: 12 credits if content differs.
Formerly: FMST298.

FMSC302 Research Methods in Family Science (3 Credits)
Introduction to the methods of the social and behavioral sciences employed in family science. The role of theory, the development of hypotheses, measurement, design, and data analysis.
Prerequisite: Must have completed an introductory statistics course.
Restriction: Must be in a major within SPHL-Family Science department.
Credit Only Granted for: FMSC302 or FMST302.
Formerly: FMST302.

FMSC310 Maternal, Child and Family Health (3 Credits)
Overview of the major issues in Maternal, Child, and Family Health in the U.S. and the world. The course will cover the social, political, environmental, and economic factors that shape the health of women, children, and families throughout the life course. It will employ the core disciplines of public health -- 1) epidemiology/biostatistics, 2) environmental health, 3) health policy and administration, and 4) social and behavioral health -- to examine these factors. The course introduces specific issues and interventions and places these issues and interventions within their broad sociohistorical context.
Credit Only Granted for: FMSC310, FMSC410 or FMSC498A.
Formerly: FMSC498A and FMSC410.
Additional Information: A comprehensive understanding of maternal, child, and family health, with additional emphasis on environmental health, needs assessment and evaluation, enabling students to more effectively address issues in the workplace.

FMSC330 Family Health: Health Happens in Families (3 Credits)
The objective of this gateway course is to help you understand and apply basic theories and empirical data on family health. The course is designed to provide you with skills to think critically about theories including: Life Course Theory, the Bio-Ecological and Social-Ecological Models, and Systems Theory. We will ask questions about the distinct qualities and intersections of contexts and characteristics that impact the functioning of families. We will apply theory and research to topical issues in family health that are impacted by social structures such as conflict, crisis, migration, incarceration and inequalities.
Restriction: Sophomore standing or higher.

FMSC332 Children in Families (3 Credits)
A family life education approach to the study of children and families. Emphasis on the interaction of children with parents, siblings, extended kin, and the community.
Prerequisite: PSYC100 or FMSC105.
Credit Only Granted for: FMSC332 or FMST332.
Formerly: FMST332.

FMSC340 Mental Health and Healing in Families (3 Credits)
Using an interdisciplinary approach to study mental health, mental wellness, and substance use, we will answer questions such as: How has our understanding and treatment of mental health changed throughout history? What are the current prevalence patterns and risk factors associated with mental health conditions? What is the prevention to postvention continuum? What is the role of relationships, families, and communities in addressing mental health? How do we diagnose and treat various mental health disorders using the best available research? And, what are the various mental health disciplines and how do they differ? This course is designed to examine mental health issues across the life course. We will explore the influence of social contexts, including racism and additional forms of othering, on mental health and wellness, and introduce the health systems that support mental health prevention and treatment.

FMSC341 Personal and Family Finance (3 Credits)
Individual and family financial strategies with emphasis on financial planning, savings, investments, insurance, income taxes, housing, and use of credit. Planning, analyzing, and controlling financial resources to resolve personal/family financial problems and to attain financial security.
Credit Only Granted for: FMSC341 or FMST341.
Formerly: FMST341.

FMSC374 Working with Diverse Families in Public Health Services (3 Credits)
Focuses on the "doing" and modeling of skills required in navigating diverse social environments with families. These skills are necessary to engage in authentic work as family scientists, public health professionals, and family health practitioners. Using an intersectional framework, we will examine cultural, ethnic, and linguistic diversity for families impacted by challenges to equity and privilege. The course material emphasizes deep knowledge and skill building towards cultural sensitivity, including history, values, language, religion, and communication with families across multiple racial and ethnic backgrounds. Students will also explore differences emerging from experiences of poverty, sexual orientation and gender identity, and disability. The goal of the course is to support students in developing a family/professional alliance for health and well-being.
Prerequisite: FMSC110.

FMSC381 Family Inequality (3 Credits)
Social, political, cultural and economic factors influencing income and wealth in American families.
Prerequisite: SOCY100 or SOCY105.
Restriction: Must be in a major within SPHL-Family Science department.

FMSC382 Family Mediation and Negotiation (3 Credits)
Investigates mediation as a forum of peaceful intervention. It is designed to provide students with an introduction and basic understanding of the essential principles of mediation and opportunities to put those principles to work. In so doing, students will obtain an in-depth knowledge of a practical "hands on" approach to divorce mediation as the conduct mediation skill builders and facilitate a successful mediation. Students will learn major mediation interventions and how such interventions may help establish a new dynamic among family members in their communications and relationships. To assist in understanding, we will discuss family law issues and ethics. The course also includes a focus on negotiation theory and skills and students will conduct a negotiation. We will use multi-media presentations, real life mediation observation, lecture and class discussion, role-play, and academic review and critic to reach the course goals and objectives.
Recommended: FMSC487 and FMSC341.
Credit Only Granted for: FMSC498M or FMSC382.
Formerly: FMSC498M.

FMSC383 Health and Human Services Delivery and Evaluation (3 Credits)
Processes of service delivery with special emphasis upon relationships among managers, service providers and clients. The impact of human service systems on families.
Prerequisite: FMSC330.
Restriction: Must be in a major within SPHL-Family Science department.

FMSC386 Experiential Learning (3-6 Credits)
Prerequisite: Permission of SPHL-Family Science department.
Restriction: Junior standing or higher.
Credit Only Granted for: FMSC386 or FMST386.
Formerly: FMST386.

FMSC399 Independent Study (1-6 Credits)
Prerequisite: Permission of SPHL-Family Science department.
Repeatable to: 12 credits.
Formerly: FMST399.

FMSC420 African American Families (3 Credits)
Examination of the history, structure, cultural foundation, and diversity of African American family life is the focus of this class. Presentations and discussions enable students to identify, analyze, and assess: (1) the major theoretical perspectives used in the study of African American families; (2) the impact of social policy on African American families; and (3) specific areas of family life (e.g., marriage and divorce, parenting, child development, health disparities).
Recommended: FMSC330.
Credit Only Granted for: FMSC420 or FMSC498F.
Formerly: FMSC498F.

FMSC431 Family Crises, Emergencies and Interventions (3 Credits)
Examines the stressors in life that may lead families into a state of crisis or emergency and what can be done to help families when the need arises. Both internal stressors, such as substance abuse, finances, divorce, illness or parent-child conflict, and external stressors, such as community violence and natural disasters, are examined. Using theories and techniques for intervention and enhancement, the course examines factors involved in stressors turning into a family crisis and how factors such as emergency preparedness, social support and public policy can be a source of family resilience or protect families from negative outcomes.
Prerequisite: PSYC100.

FMSC432 Adult Development and Aging in Families (3 Credits)
Theory, research, history, and programming related to adult development and aging in the intergenerational context of family.
Prerequisite: PSYC100; and (SOCY100 or SOCY105). And FMSC332; or must have completed a comparable development course.
Restriction: Must be in a major within SPHL-Family Science department.
Credit Only Granted for: FMSC432 or FMST432.
Formerly: FMST432.

FMSC440 Death and Loss in Family Life (3 Credits)
Examination of how families experience grief and loss resulting from the death of a family member, including health and financial consequences. Overview of historical, social, psychological, cultural, medical, and legal dimensions of death in families from diverse backgrounds. Exploration of how the health care system and funeral home industry assist families in managing death and loss.
Recommended: Moderate level of computer literacy, especially Internet and ELMS. Reliable computer and Internet access.
Credit Only Granted for: FMSC440 or FMSC498B.
Formerly: FMSC498B.

FMSC445 Sexuality: Issues in Family Therapy and Service Delivery (3 Credits)
Typical, dysfunctional, and pathological sexual functioning, including effects on individuals, couples, and family systems. Sensitizes students to sexual issues, explores how perceptions of such issues affect work with people, and emphasizes implications for marriage and family therapy.
Prerequisite: A basic course in human sexuality; and permission of instructor. Jointly offered with FMSC645.
Credit Only Granted for: FMSC445 or FMSC645.

FMSC460 Violence in Families (3 Credits)
Theories of child, spouse, and elder abuse in the family setting. Emphasis on historical, psychological, sociological and legal trends relating to physical, emotional, and sexual abuse. Introduction to methods for prevention and remediation.
Prerequisite: SOCY100, SOCY105, or PSYC100.
Credit Only Granted for: FMSC460 or FMST460.
Formerly: FMST460.

FMSC477 Internship and Analysis in Family Science (3 Credits)
A supervised internship and a seminar requiring analysis. Opportunities to integrate theory and practice including 120 hours of contracted field experience. Summer or fall internship contracts due May 1; Spring contracts due December 1. See department for application procedures.
Prerequisite: FMSC383; and 9 credits in FMSC courses; and permission of SPHL-Family Science department.
Restriction: Must be in a major within SPHL-Family Science department.
Credit Only Granted for: FMSC477, FMST347, or FMST477.
Formerly: FMST477.

FMSC485 Introduction to Family Therapy (3 Credits)
The fundamental theoretical concepts and clinical procedures of marital and family therapy including premarital and divorce therapy issues.
Prerequisite: FMSC330; or 1 course from PSYC300-499 course range.
Credit Only Granted for: FMSC485 or FMST485.
Formerly: FMST485.

FMSC486 Law, Public Health and the Cuban Family (4 Credits)
A short-term summer study abroad course that is a comparative law and public health course. Students travel to Havana, Cuba to compare family problems in a capitalist versus socialist society within the context of legal, public health, social, cultural and economic changes.
Recommended: FMSC487.
Jointly offered with: FMSC686.
Credit Only Granted for: FMSC486, FMSC686 or MIEH698B.
Additional Information: This is a study abroad course which will primarily occur in Cuba. Additionally, the course involves an online component prior to and following the trip.

FMSC487 Family Law (3 Credits)
Designed for students interested in studying the law, public health, and family science, this course provides students with a general overview of family law and the impact on healthy families. The course also includes the study of cutting-edge issues such as marriage equality, assisted reproduction and ethical issues that may arise.

FMSC498 Special Topics: Family Science (1-3 Credits)
Special course topics in family studies.
Prerequisite: Permission of SPHL-Family Science department.
Repeatable to: 6 credits if content differs.
Formerly: FMST498.

FREN - French

FREN103 Intensive Elementary French (4 Credits)
Covers speaking, reading, writing, listening, and culture of French-speaking world.
Prerequisite: Must have appropriate World Language Placement (WLP) score.
Restriction: Must not be a native/fluent speaker of French.

FREN169 Special Topics in Study Abroad I (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

FREN203 Intensive Intermediate French (4 Credits)
Covers speaking, reading, writing, listening, and culture of French-speaking world.
Prerequisite: FREN103; or must have appropriate World Language Placement (WLP) score.
Restriction: Must not be a native/fluent speaker of French.
Credit Only Granted for: FREN201 or FREN203.

FREN204 French Grammar and Composition (3 Credits)
Intensive study of French grammar and composition.
Prerequisite: FREN203; or must have appropriate World Language Placement (WLP) score.
Restriction: Not open to native/fluent speakers of French.

FREN211 French Reading and Conversation (3 Credits)
Practice in spoken French at intermediate level based on readings in a variety of genres. Written homework and exams.
Prerequisite: FREN203.
Restriction: Must not be a native/fluent speaker of French.

FREN241 Women Writers of French Expression in Translation (3 Credits)
Works and ideas of 20th century women writers of French in Canada, Africa, the Caribbean and France. Taught in English.

FREN242 Francophone Writers of Africa and the African Diaspora (3 Credits)
An analysis of the works and ideas of 20th and 21st century Francophone writers (Africa, the Caribbeans, France). Taught in English.

FREN243 Masterpieces in French and Francophone Cinemas (3 Credits)
This course, taught in English, will present a large array of films directed by famous French directors (Jean Renoir, Robert Bresson, Jean-Luc Godard, Agnes Varda, etc..) and Francophone filmmakers (Arcand, Sembene) who were internationally known in their time and have had a considerable influence on today's filmmakers in the U.S. (Tarantino, Lynch, Lee, etc..) and abroad (Sissoko, Angelopoulos, VonTrier, ect..).

FREN250 Introduction to Cultural and Textual Analysis (3 Credits)
Introduction to cultural and textual analysis of selected readings from various genres in French literature. Taught in French.
Prerequisite: FREN204; or students who have taken courses with comparable content may contact the department.
Restriction: Must not be a native/fluent speaker of French.
Credit Only Granted for: FREN250 or FREN250H.

FREN269 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

FREN298 Aspects of French Civilization (3 Credits)
Topic to be determined each semester. Historical or thematic approaches to French art, literature, and culture. Taught in English.
Repeatable to: 6 credits if content differs.
Additional Information: Credit may not be applied to French major.

FREN301 Composition and Style (3 Credits)
Grammatical analysis, elements of style; range of written genres.
Prerequisite: FREN250; or students who have taken courses with comparable content may contact the department.
Restriction: Must not be a native/fluent speaker of French.

FREN302 Introduction to Translation (3 Credits)
Hands-on practice in translation to include a variety of formats and texts (for example, advertising, legal, technical, literary, journalistic, media...) into French and/or English. Includes an extensive overview of translation techniques, theories and approaches. Taught mainly in French.
Prerequisite: FREN301; or students who have taken courses with comparable content may contact the department.

FREN303 Translation: English to French (3 Credits)
Practicum in translation primarily from English to French; contrastive analysis.
Prerequisite: FREN301; or students who have taken courses with comparable content may contact the department.

FREN306 Commercial French I (3 Credits)
Introduction to commercial French including correspondence and business terminology. Emphasis on cross-cultural concepts needed for successful interaction within business settings. Taught in French.
Prerequisite: FREN301; or students who have taken courses with comparable content may contact the department.

FREN311 Advanced Oral Expression (3 Credits)
Linguistic and thematic analysis of written, audio, and visual texts. Focus on aural and oral skills. Some written assignments and evaluation.
Prerequisite: FREN250; or students who have taken courses with comparable content may contact the department.
Restriction: Must not be a native/fluent speaker of French.

FREN312 France Today (3 Credits)
Analysis and discussion of current events and institutions using various French media resources.
Prerequisite: FREN301; or students who have taken courses with comparable content may contact the department.
Restriction: Must not be a native/fluent speaker of French.

FREN313 Current Issues in the French-Speaking World (3 Credits)
Analysis and discussion of current events and institutions in the French-speaking world using various French-language media resources with an emphasis on countries and regions outside of France.
Prerequisite: FREN301; or students who have taken courses with comparable content may contact the department.

FREN351 From Romanticism to the Age of Modernism and Beyond (3 Credits)
A survey of the chief authors and major movements of French literature from Pre-Romanticism to the present.
Prerequisite: FREN301; or students who have taken courses with comparable content may contact the department.

FREN352 From the Age of Epic and Romance to the Enlightenment (3 Credits)
A survey of the chief authors and major movements of French literature from the Middle Ages to the end of the 18th century.
Prerequisite: FREN301; or students who have taken courses with comparable content may contact the department.

FREN369 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

FREN386 Experiential Learning (3-6 Credits)
Prerequisite: Permission of ARHU-School of Languages, Literatures, and Cultures department.
Restriction: Junior standing or higher.

FREN387 Critical Writing on France and the French-Speaking World (3 Credits)
Intensive writing course based on focused study of issues and concerns drawn from French and Francophone literatures, films, and cultures. Elements of style, review of grammar. Taught in French.
Prerequisite: FREN301.
Restriction: Not open to Native speakers.

FREN388 Language House Colloquium (1 Credit)
The Language House Colloquium is a one-credit course for students residing in the Language House Immersion Program. The course focuses on the further development of skills in the target language and the acquiring of cultural knowledge of the countries that speak the target language. The course is designed to supplement the learning that takes place on a daily basis in the Language House program.
Restriction: Must be a resident of Language House.
Repeatable to: 4 credits.

FREN399 Directed Study in French (1-3 Credits)
Advanced undergraduates develop syllabus, reading list, and course requirements with interested faculty member. Designed for in-depth study of material not offered in regular courses or as expansion of course material. To be planned during semester preceding registration.
Prerequisite: Permission of ARHU-School of Languages, Literatures, and Cultures department.
Repeatable to: 3 credits.

FREN407 History of the French Language (3 Credits)
Evolution of the French language from Latin to modern French. Taught in French.
Prerequisite: FREN351 or FREN352; or permission of ARHU-French & Italian Languages & Literatures department.

FREN414 French for International Relations (3 Credits)
Historically, French has played a key role in the development and organization of International Relations. It remains an important tool for diplomats and an official working language of major international organizations. Students will be introduced to the French vocabulary and terminology specific to diplomatic discourse and the field of International Relations. Through French-speaking media analysis and simulated work-related situations in an international context, students will learn how to pitch a project, present a country situation, give a thematic presentation, and engage in successful negotiations. Students will also acquire the skills and proficiency to understand and produce professional documents used in the International Relations field. Taught in French.
Prerequisite: FREN387.

FREN421 Francophone African Film (3 Credits)
Imaginary and Memory in the reality of Francophone African Film from 1960-present. Taught in English.
Cross-listed with: CINE421.
Credit Only Granted for: FREN421, CINE421 or FILM421.
Formerly: FILM421.

FREN423 Women and French Cinema (3 Credits)
Cultural identity, social boundaries and gender roles in French film as well as introduction to film textual analysis and diverse film theories (semiotics, film and psychoanalysis, feminist film theory, structuralism, narratology, spectatorship and cultural studies). Taught in English.
Cross-listed with: CINE423.
Credit Only Granted for: FREN423, CINE423 or FILM423.
Formerly: FILM423.

FREN429 Studies in French Literature and Culture of the Renaissance (3 Credits)
Selected topics in French literature of the Renaissance.
Prerequisite: FREN387; and (FREN351 or FREN352). Or permission of ARHU-French & Italian Languages & Literatures department.
Repeatable to: 6 credits if content differs.

FREN439 Studies in 17th Century French Literature and Culture (3 Credits)
Selected topics in seventeenth-century French literature.
Prerequisite: FREN387; and (FREN351 or FREN352). Or permission of ARHU-French & Italian Languages & Literatures department.
Repeatable to: 6 credits if content differs.

FREN449 Studies in 18th Century French Literature and Culture (3 Credits)
Selected topics in eighteenth-century French literature.
Prerequisite: FREN387; and (FREN351 or FREN352). Or permission of ARHU-French & Italian Languages & Literatures department.
Repeatable to: 6 credits if content differs.

FREN459 Studies in 19th Century French Literature and Culture (3 Credits)
Selected topics in nineteenth-century French literature.
Prerequisite: FREN387; and (FREN351 or FREN352). Or permission of ARHU-French & Italian Languages & Literatures department.
Repeatable to: 6 credits if content differs.

FREN469 Studies in 20th Century French Literature and Culture (3 Credits)
Selected topics in twentieth-century French literature.
Prerequisite: FREN387; and (FREN351 or FREN352). Or permission of ARHU-French & Italian Languages & Literatures department.
Repeatable to: 6 credits if content differs.

FREN472 The Construction of French Identity II: From the Revolution to the Early Twentieth Century (3 Credits)
French life, customs, culture, traditions (1750 to the early twentieth century).
Prerequisite: FREN387; or permission of ARHU-French & Italian Languages & Literatures department.

FREN474 Contemporary France: A Sociocritical Approach (3 Credits)
A sociocritical approach to understanding modern French society through the study of print and non-print media documents (autobiography, film, and paraliterature), with reference to the Francophone world. Taught in French.
Prerequisite: FREN387; or permission of ARHU-French & Italian Languages & Literatures department.
Recommended: FREN473.

FREN478 Themes and Movements of French Literature in Translation (3 Credits)
Studies treatments of thematic problems or literary or historical movements in French literature. Topic to be determined each semester. Taught in English.

FREN479 Masterworks of French Literature in Translation (3 Credits)
Treats the works of one or more major French writers. Topic to be determined each semester. Taught in English.

FREN480 French Cinema: A Cultural Approach (in Translation) (3 Credits)
A study of French culture, civilization, and literature through the medium of film. Taught in English.
Cross-listed with: CINE420.
Credit Only Granted for: FREN480, CINE420 or FILM420.
Formerly: FILM420.

FREN482 Gender and Ethnicity in Modern French Literature (3 Credits)
Literature by women writers of France and other French speaking areas with a focus on the relationship between gender, ethnicity and writing. Taught in English.

FREN488 Special Topics in Francophone Studies (3 Credits)
Topic and language of instruction to be announced when offered.
Repeatable to: 9 credits if content differs.

FREN489 Seminar in Themes or Movements of French Literature (3 Credits)
Seminar on selected themes or movements of French literature.
Prerequisite: FREN387; and (FREN351 or FREN352). Or permission of ARHU-French & Italian Languages & Literatures department.
Repeatable to: 6 credits if content differs.

FREN495 Honors Thesis Research (3 Credits)
The writing of a paper under the direction of a professor in this department and an oral examination. Required to fulfill the departmental honors requirement.
Restriction: Must be admitted to the departmental honors program.

FREN498 Special Topics in French Literature (3 Credits)
Selected topics in French literature.
Prerequisite: FREN387; and (FREN351 or FREN352). Or permission of ARHU-French & Italian Languages & Literatures department.
Repeatable to: 6 credits if content differs.

FREN499 Special Topics in French Studies (3 Credits)
An aspect of French studies, the specific topic to be announced each time the course is offered.
Prerequisite: FREN387; or permission of ARHU-French & Italian Languages & Literatures department.
Repeatable to: 6 credits if content differs.

GBHL - Global Health

GBHL200 Introduction to Global Health (3 Credits)
Designed to introduce you to global health. Global health challenges are immensely complex and underscore the multiple interconnections among social, economic, environmental, and biotechnological dimensions of health problems worldwide. Global health encompasses health care systems, medical practices, and ideas about illness in cross-cultural contexts, as well as issues of health development, global health inequity, racism and other -isms, and human rights issues. We will explore theoretical frameworks and practical perspectives shaping the global health ecosystem domestically, internationally, and virtually.
Credit Only Granted for: GBHL200 or MIEH400.
Formerly: MIEH400.

GBHL210 Careers in Global Health (1 Credit)
Designed to introduce you to the global health careerscape: the various paths, current and emerging trends, possible employers, and essential skills for future professionals. We will use campus and external resources for career exploration as you identify opportunities to build your professional network and gain experience. Prepare to engage in future global health experiential learning through research, internships, study abroad or field work
Recommended: Sophomore standing.
Restriction: Must have earned fewer than 90 credits.

GBHL310 Introduction to Global Health Literacy (3 Credits)
The ability to access, understand, appraise, and use information is critical for the improved health and well being of populations around the world. This course will address how population health is affected by politics, culture, geography, and/or social determinants of health, with a focus on contemporary global health challenges including climate-related disasters and pandemic preparedness. Students will explore and gain skills related to health communication and education.
Prerequisite: Must have completed Fundamental Studies: Academic Writing.
Recommended: Enrolled in or completed SPHL100 or GBHL200.
Restriction: Must have earned a minimum of 30 credits; and must not not have taken HLTH431.

GBHL386 Global Health Experiential Learning (2-6 Credits)
Supervised internship, independent study, or field work in global health conducted with oversight from faculty in the UMD Global Health program.
Prerequisite: Minimum grade of C- in GBHL200 and GBHL210.
Recommended: Upper level Global Health major courses.
Restriction: Must have earned a minimum of 60 credits; and Permission of SPH-Global, Environmental, and Occupational Health department.

GBHL389 Global Health Research (2-6 Credits)
Provides undergraduate students with the opportunity to earn academic credit for assisting a faculty member with their global health research. Research projects should address public health challenges through the lens of environmental, biological, geopolitical, socioeconomic, and cultural factors.
Recommended: Minimum grade of C- in GBHL200 and GBHL210.
Restriction: Permission of Global, Environmental, and Occupational Health department.
Repeatable to: 6 credits if content differs.
Additional Information: Students must identify a UMD faculty mentor prior to obtaining departmental permission.

GBHL399 Global Health Internship (2-6 Credits)
The Global Health internship course provides students with academic, research and professional development accompanying a time-limited, supervised period of professional experience carried out in a related professional organization or research setting.
Prerequisite: GBHL200 and GBHL210 completed with a C- or higher.
Restriction: Global Health major; 45 credits completed; permission of Global Health program required.
Repeatable to: 6 credits if content differs.
Additional Information: Students identify and secure their own internship placement. Prior to registration, Global Health majors must meet with an advisor and complete internship verification, expectations and responsibilities. This is completed the semester prior to beginning the internship.

GBHL497 Global Health Capstone (3 Credits)
In this seminar course, Global Health majors in their final semester integrate and apply interdisciplinary knowledge, skills, and perspectives to address a global health challenge. Capstone projects may focus on research, system, policy analysis; or intervention development and assessment. Students will align their global health interests with their career goals, preparing for their next academic or professional steps.
Prerequisite: Minimum grade of C- in GBHL200, GBHL210, EPIB301 and EPIB315; and must have completed or be enrolled in second GBHL Experiential Learning course.
Restriction: Global Health major in final semester; and must have earned more than 100 credits.

GEMS - Gemstone

GEMS100 Freshman Honors Colloquium: Introduction to Gemstone (1 Credit)
Orienting new Gemstone students to the university and to the program through a variety of team building activities, resources, and skill exploration exercises. Students will also examine and discuss areas such as liberal education, diversity, service, arts, current events, academic integrity, and leadership style.
Restriction: Must be in the Gemstone program.

GEMS101 Introduction to Team Research (3 Credits)
An introduction to the basic concepts and tools needed to evaluate and conduct research. It sets the stage for the research lifecycle and teaches students what they need to know and do before embarking on research endeavors. Students will engage in the early stages of the research process and navigate the consumption and analysis of primary literature while working on interdisciplinary teams. They will undergo the iterative process of identifying gaps in the literature and think creatively about how a team of undergraduates could contribute to solving the world's grand challenges while recognizing constraints such as feasibility, timelines, budgets, novelty, and more. Students will learn skills for collaboration and navigating interdisciplinary teams and together will author and communicate components of a preliminary research proposal.
Restriction: Must be in the Gemstone program.

GEMS102 Research Topic Exploration and Team Formation (1 Credit)
Under the guidance of staff and visiting speakers, students will develop research topics that they will pursue for the remainder of their participation in the Gemstone program, and form into interdisciplinary teams around these topics.
Restriction: Must be in the Gemstone program.

GEMS104 Topics in Science, Technology and Society (STS) (3 Credits)
An examination of how cultural, economic, political and social forces shape scientific and technological systems and, conversely, how scientific and technological systems have affected the culture, economies, organization and politics of societies. Students in the course will form small teams to carry out semester-long research on socio/technical topics related to the course theme chosen for that specific semester.
Prerequisite: GEMS100.
Restriction: Must be in the Gemstone program.

GEMS202 Team Dynamics and Research Methodology (2 Credits)
This experiential course is designed to foster an understanding of effective team dynamics and basic research methodology. It will teach skills applicable to Gemstone team research and the writing of a team thesis. Upperclass Gemstone students serve as discussion facilitators. Students participate in their Gemstone teams and develop a draft of their team thesis proposal.
Prerequisite: GEMS100, GEMS102, and GEMS104.
Corequisite: GEMS296.
Restriction: Must be in the Gemstone program; and sophomore standing or higher.

GEMS208 Special Topics in Leadership and Team Development (1-3 Credits)
Principles, methods and types of leadership and team development with an emphasis on group discussion and decision making. Reading, discussion and exploration of the basic team concept, communications for winning scenarios, goal setting, problem solving, conflict resolution and research methods.
Restriction: Must be in the Gemstone program.

GEMS296 Team Project Seminar I (1 Credit)
This is the first of six seminars during which Gemstone students carry out multidisciplinary research with the guidance of a faculty mentor. The teams develop their working relationship, start their literature search, define their research question, and set short & long term goals.
Prerequisite: GEMS100, GEMS102, and GEMS104.
Corequisite: GEMS202.
Restriction: Must be in the Gemstone program with sophomore standing in a research team.

GEMS297 Team Project Seminar II (2 Credits)
This is the second of six seminars during which Gemstone students carry out interdisciplinary research with the guidance of a faculty mentor. The team develops its website, prepares and presents its research proposal and begins its research project.
Restriction: Must be in the Gemstone program with sophomore standing in a research team.

GEMS396 Team Project Seminar III (2 Credits)
This is the third of six seminars during which Gemstone students carry out interdisciplinary research with the guidance of a faculty mentor. The team presents its progress at the Gemstone Colloquia.
Prerequisite: GEMS297.
Restriction: Must be in the Gemstone program with junior standing in a research team.

GEMS397 Team Project Seminar IV (2 Credits)
This is the fourth of six seminars during which Gemstone students carry out interdisciplinary research with the guidance of a faculty mentor. The team further develops its website. Also they will prepare and present the team project in the poster session of Undergraduate Research Day.
Prerequisite: GEMS396.
Restriction: Must be in the Gemstone program with junior standing in a research team.

GEMS496 Project Writing Seminar (2 Credits)
This is the fifth of six seminars during which Gemstone students carry out research with the guidance of a faculty mentor. The team finishes the analysis of their data and writes and edits its team thesis.
Prerequisite: GEMS397.
Restriction: Must be in the Gemstone program.

GEMS497 Team Thesis Defense (2 Credits)
Gemstone teams will complete the team research project and thesis. The team will formally present the thesis to experts in the area of interest at a Team Thesis Conference before final submission.
Prerequisite: GEMS396.
Restriction: Must be in the Gemstone program.

GEOG - Geographical Sciences

GEOG100 Introduction to Geography (3 Credits)
An introduction to the broad field of geography as it is applicable to the general education student. The course presents the basic rationale of variations in human occupancy of the earth and stresses geographic concepts relevant to understanding world, regional and local issues.

GEOG110 The World Today: Global Perspectives (3 Credits)
The most critical issue facing the world today is the sustainability of both human and physical systems in the 21st century. This class uses the context of regions of the world to explore the 21st century issues of climate change, development, politics, economy, and demography. Each region will be used to highlight aspects of sustainability.

GEOG130 Development Geography: Environmental & Social Justice (3 Credits)
The geography of economic, social, and environmental well-being and inequality. The course will provide an integrated perspective on the causes, interconnections, and consequences across time and space of, among others, globalization, climate change, poverty, employment, migration and urban growth, agricultural productivity, rural development, policies and international trade. Portraits of selected countries and regions will be developed.

GEOG140 Natural Disasters: Earthquakes, Floods, and Fires (3 Credits)
Catastrophic Environmental Events (CCE) that are becoming more common in this time of global environmental change and it is essential that today's students be equipped with the knowledge and skills to be leaders as we, as a society, understand the upheaval that these CCEs are causing. Students will examine how CEEs shape human society and ecosystem from the interdisciplinary perspective afforded by the field of Geography. Students will use the latest geographic science concepts and techniques in exploring these events. Using satellite imagery they will gain a multi-scale perspective of the ecological and societal aspects of the events.

GEOG156 How NASA Sees the Earth (3 Credits)
The world of Earth science data is complex and can be overwhelming with a wide range of data sources and formats, hefty downloads and the need for complicated analytical tools. To make use of enormous volumes of available data and geoinformation products, one has to know where and how to search and obtain the data, how to analyze the data, and how to extract useful information and knowledge. In this course, you will learn about the state-of-the-art Web-based tools that allow you to efficiently display and analyze a large number of datasets in a way many professionals working in the Earth science domain would. You will learn how to visualize multiple Earth science datasets produced by NASA in a variety of ways directly on the Internet, without the need to download, manage and store them. Students will be introduced to comprehensive functions to analyze the data and generate customized maps, animations, multi-variable correlations, regional subsetting, etc.
Cross-listed with: INST156.
Credit Only Granted for: GEOG156 or INST156.

GEOG158 Special Topics in Study Abroad I (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

GEOG170 Mapping our Digital World (3 Credits)
Introduction to technical methods used in gathering, analyzing, and mapping geospatial information for applications such as urban mobility, environmental monitoring, situational awareness, and disaster management. Topics include Geographic Information Systems (GIS), cartography, map projections, satellite and airborne remote sensing, the global positioning system (GPS), and introductory statistics and probability. The course is a gateway to more advanced technical classes in geospatial science.

GEOG172 Earth From Space (3 Credits)
Earth observations from space enable the mapping and monitoring of our changing planet. This survey course reviews current observational capabilities and examines scientific applications in quantifying global environmental change. Drivers and outcomes of key dynamics will be illustrated and discussed, including sea and continental ice loss, deforestation, ocean warming, urbanization, agricultural expansion and intensification, and vegetation response to climate change.

GEOG198 Selected Topics in Geography (1-3 Credits)
Readings and discussion on selected topics in the field of geography or GIS
Repeatable to: 12 credits if content differs.

GEOG201 Geography of Environmental Systems (3 Credits)
A systematic introduction to the processes and associated forms of the atmosphere and earth's surfaces emphasizing the interaction between climatology, hydrology and geomorphology.

GEOG202 Introduction to Human Geography (3 Credits)
Introduction to what geographers do and how they do it. Systematic study of issues regarding social and cultural systems from a global to a local scale. Looks at the distribution of these variables and answers the question "Why here, and not there"?

GEOG211 Geography of Environmental Systems Laboratory (1 Credit)
A laboratory course to accompany GEOG 201. Analysis of the components of the earth's energy balance using basic instrumentation; weather map interpretation; soil analysis; the application of map and air photo interpretation techniques to landform analysis.
Prerequisite: Must have completed or be concurrently enrolled in GEOL120, GEOL100, or GEOG201.

GEOG212 Career Planning for Geographical Sciences, GIS, and ENSP Majors (1 Credit)
Increase student knowledge of professional development opportunities in Geographical Sciences through classroom activities and invited speakers, and to build awareness of career development tools and strategies.
Restriction: Must be in one of the following programs (Geography; GEOG-GIS & Computer Cartography).

GEOG258 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

GEOG272 Introduction to Earth Observation Science (3 Credits)
Concepts and principles of Earth observation and remote sensing in relation to photographic, thermal infrared and radar imaging. Methods of obtaining quantitative information from remotely-sensed images. Interpretation of remotely-sensed images emphasizing the study of spatial and environmental relationships.
Credit Only Granted for: GEOG272 or GEOG372.
Formerly: GEOG372.

GEOG276 Principles of Python Programming and Geocomputing (3 Credits)
Introduces conceptual and practical aspects of scientific computing using the Python programming language. The main focus is on developing proficiency for the basic elements of the development environment, foundational syntax including variables, logical operators, looping, conditional statements, nesting, and common programming patterns for mathematical and textual computing. In addition, essential data structures and functionality for scientific computing, such as arrays, dataframes, and data visualization will be introduced. Throughout the course, students will also become exposed to various applications in the domain of the social and environmental sciences.

GEOG298 Special Topics in Geography (3 Credits)
An introductory course dealing with special topics in geography.
Repeatable to: 6 credits if content differs.

GEOG301 Advanced Geographical Environmental Systems (3 Credits)
This course will provide the students with an overview of the key elements of physical geography, including biogeography (factors and processes that control the geographical distributions of plants and animals, climatology (processes associated with controlling variations in weather and climate), and geomorphology (factors and processes that control changes to the physical structure of the earth surface in relation to geological structures).
Prerequisite: GEOG201 and GEOG211.
Credit Only Granted for: GEOG398B or GEOG301.
Formerly: GEOG398B.

GEOG306 Introduction to Quantitative Methods for the Geographical Environmental Sciences (3 Credits)
Essentials in the quantitative analysis of spatial and other data, with a particular emphasis on statistics and programming. Topics include data display, data description and summary, statistical inference and significance tests, analysis of variance, correlation, regression, and some advanced concepts, such as matrix methods, principal component analysis, and spatial statistics. Students will develop expertise in data analysis using advanced statistical software.

GEOG328 Topics in Regional Geography (3 Credits)
Selected topics in regional geography.
Repeatable to: 6 credits if content differs.

GEOG330 As the World Turns: Society and Sustainability in a Time of Great Change (3 Credits)
Cultural geography course on society and sustainability. Culture is the basic building block that is key to sustainability of societies. Course will cover sustainability of societies on different scales, examining local, regional, and worldwide issues. Sustainability will be examined as a key element of environmental sustainability. How societies adjust to rapid world change will be examined as a positive and/or negative factor in sustainability.
Credit Only Granted for: GEOG330, GEOG360, or GEOG362.
Formerly: GEOG362.

GEOG331 Introduction to Human Dimensions of Global Change (3 Credits)
Introduction to global-scale interrelationship between human beings and the environment. The development of global issues including but not limited to the environment, food, energy, technology, population, and policy.
Prerequisite: ANTH220, ANTH260, GEOG202, or GEOG201; or permission of BSOS-Geography department.
Credit Only Granted for: GEOG331 or GEOG361.
Formerly: GEOG361.

GEOG332 Economic Geography (3 Credits)
Principles of managing scarce resources in a world where everyone faces tradeoffs across both time and space. Focuses on the relationship between globalization processes and changing patterns of locational advantages, production, trade, population, socioeconomic and environmental grace and sustainability.
Credit Only Granted for: GEOG203, GEOG303, or GEOG332.
Formerly: GEOG303.

GEOG333 The Social Geography of Metropolitan Areas in Global Perspective (3 Credits)
A socio-spatial approach to human interaction within the urban environments: ways people perceive, define, behave in, and structure world cities and metropolitan areas. Cultural and social differences define spatial patterns of social activities which further define distinctions in distribution and interaction of people and their social institutions.
Prerequisite: GEOG201 and GEOG202; or permission of BSOS-Geography department.
Credit Only Granted for: GEOG456 or GEOG333.
Formerly: GEOG456.

GEOG340 Geomorphology (3 Credits)
Survey of landform types and role of processes in their generation. Frequency of occurrence and implications for land utilization. Emphasis on coastal, fluvial, and glacial landforms in different environmental settings. Landform regions of Maryland.

GEOG346 Cycles in the Earth System (3 Credits)
The Earth System operates through some fundamental cycles such as water, energy, and the Carbon Cycle. This course will build on GEOL/GEOG/AOSC123 starting with concept of feedbacks within the Earth System, global energy balance and the Greenhouse Effect. A brief introduction to the atmospheric and oceanic circulation will lead to the water cycle connecting the land, ocean, and atmosphere to the Earth System. Introduction to the Global carbon, nitrogen, and sulfur cycles will be followed by the concept of long-term climate regulation and short-term climate variability. The concepts of cycles, feedbacks, forcings, and responses in the Earth System will be applied to Global Warming and Ozone Depletion.
Prerequisite: GEOG123, AOSC123, GEOL123, or MATH140; or permission of CMNS-Geology department.
Recommended: PHYS171, PHYS141, PHYS161, or MATH141. Cross-listed with GEOL346.
Credit Only Granted for: AOSC346, GEOG346, or GEOL346.

GEOG358 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

GEOG371 Programming for Image Analysis (3 Credits)
Introduces application programing interface (API) functions and image processing techniques for efficient processing of satellite images. The main programing language of the course is Python. The course will use a Geospatial Data Abstraction Library (GDAL) which provides a unified way of manipulating images incorporating geospatial information. For image processing, the course will use Python-based libraries such as scikit-image and OpenCV.
Prerequisite: GEOG276, GEOG306, and GEOG272.

GEOG373 Geographic Information Systems (3 Credits)
Characteristics and organization of geographic data; creation and use of digital geospatial databases; metadata; spatial data models for thematic mapping and map analysis; use of geographic information system in society, government, and business. Practical training with use of advanced software and geographic databases.

GEOG376 Programming for Geospatial Analysis (3 Credits)
Covers conceptual and practical aspects of geospatial data modeling and analysis techniques using the Python programming language. The main focus is on developing a solid understanding of the programmatic conventions needed to create, manipulate, and process geospatial data types, such as point, line, & polygon vectors, networks, trajectories, and space-time extensions. In addition, students will develop a proficiency in applying these data structures to perform automated geospatial analysis, such as GIS operations, agent-based models, and spatial statistics.
Prerequisite: GEOG276 and GEOG373; Must have completed or be concurrently enrolled in MATH120, MATH130, or MATH140; or must have completed MATH220.
Recommended: GEOG306.

GEOG377 Artificial Intelligence for Spatial Data (3 Credits)
Covers the basics of deep learning and expand to a variety of network architectures widely used for spatio-temporal data including convolutional networks, recurrent networks, transformers, generative adversarial networks, diffusion models, etc. with tasks on classification, segmentation, estimation, forecasting, generation, clustering and more. Covers training strategies, transfer learning, domain adaptation, meta-learning, self-supervised learning, knowledge-guided learning, spatial-aware learning, etc. Recent advances such as large foundation models, with discussions on both general-purpose and geospatial-focused foundation models, and ethics aspects such as fairness. The techniques will be discussed in the context of spatial and spatio-temporal data. The implementation side will be based on Python. Students will do projects based on research topics or interests, with applications (domain-driven) or technically innovative (general methodology-driven).
Credit Only Granted for: GEOG398E or GEOG377.
Formerly: GEOG398E.

GEOG384 Internship in Geography I (3 Credits)
Supervised field training to provide career experience. Introduction to professional level activities, demands, opportunities. Placement at a public agency, non-profit organization, or private firm. Participation requires application to the internship advisor in preceding semester.
Prerequisite: GEOG211, GEOG306, GEOG212, and GEOG201; and (ENGL393 or ENGL390).
Restriction: Must be in Geography program.

GEOG385 Internship in Geography II (3 Credits)
Supervised field training to provide career experience. Introduction to professional-level activities, demands, opportunities. Placement at a public agency, nonprofit organization, or private firm. Participation requires application to the internship advisor in preceding semester.
Prerequisite: GEOG211, GEOG306, GEOG212, and GEOG201; and must have completed a Junior (Professional) English course.
Restriction: Must be in Geography program.

GEOG396 Honors Research (3 Credits)
First course in the departmental honors sequence. Student development of a potential research topic under the guidance of a faculty advisor, culminating in a written and oral presentation of a research proposal.
Restriction: Permission of BSOS-Geography department; and senior standing or higher; and must be in Geography program.
Formerly: GEOG397.

GEOG397 Honors Thesis (3 Credits)
Second course in the departmental honors sequence. Student research under the auspices of a faculty advisor, culminating in a research paper to be defended orally before the geography honors committee.
Prerequisite: GEOG396.
Restriction: Must be in Geography program; and senior standing or higher.
Formerly: GEOG399.

GEOG398 Special Topics in Geography (1-3 Credits)
An introductory course dealing with special topics in geography.
Restriction: Permission of BSOS-Geography department.
Repeatable to: 6 credits if content differs.
Credit Only Granted for: GEOG298 or GEOG398.
Formerly: GEOG298.

GEOG413 Migration: Latin America and the United States (3 Credits)
Develops an understanding of the push and pull factors that have contributed to human mobility (migration) that has transformed the Americas. The class is divided in two parts: immigration and emigration from Latin American and Latin America migration to the United States. We will be interested in studying the migration shifts that have occurred in Latin America and the theories that help explain them. The themes that will be addressed are the history of migration with Latin America and to North America, the impact of this migration on both sending and receiving countries, and the various policy strategies and issues concerning migration.
Prerequisite: GEOG313; or permission of BSOS-Geography department.
Recommended: HIST250; or USLT201; or LASC234.
Credit Only Granted for: GEOG413, or GEOG498M.
Formerly: GEOG498M.

GEOG415 Land Use, Climate Change, and Sustainability (3 Credits)
The issues of climate change and land use change as two interlinked global and regional environmental issues and their implications for society and resource use are explored.
Prerequisite: GEOG306; or permission of BSOS-Geography department.
Recommended: GEOG340; or GEOG342; or GEOG331. Or GEOG201; and GEOG211.
Credit Only Granted for: GEOG415 or GEOG498D.
Formerly: GEOG498D.

GEOG416 Conceptualizing and Modeling Human-Environmental Interactions (3 Credits)
Develops skills to carry out research that integrates environmental and economic aspects of sustainability by introducing extensively used quantitative tools for analyzing human-environmental interactions in the field of ecological economics. These include, e.g., index number calculations and decomposition analysis, Environmental Kuznets Curve (EKC), environmental input-output analysis and life-cycle analysis, and multi-criteria decisions aid (MCDA). Students will need laptops to run models during class.
Prerequisite: Permission of BSOS-Geography department.
Corequisite: MATH130, MATH140, or MATH120; or MATH220.

GEOG417 Land Cover Characterization Using Multi-Spectral Remotely Sensed Data Sets (3 Credits)
Students will be introduced to the image processing steps required for characterizing land cover extent and change. Key components of land cover characterization, including image interpretation, algorithm implementation, feature space selection, thematic output definition, and scripting will be discussed and implemented.
Prerequisite: GEOG272 and GEOG306; or permission of BSOS-Geography department.
Jointly offered with: GEOG617.
Credit Only Granted for: GEOG417 or GEOG617.

GEOG418 Field and Laboratory Techniques in Environmental Science (1-3 Credits)
Lecture and laboratory learning each week. A variable credit course that introduces field and laboratory analyses in environmental science. Individual learning contract are developed with instructor.
Restriction: Permission of BSOS-Geography department.
Credit Only Granted for: GEOG418 or GEOG448.
Formerly: GEOG448.

GEOG421 Changing Geographies of China (3 Credits)
Covers physical geography, history, and economic and political systems of the world's most populous country. The major focus will be on geographical issues in China's contemporary development: agriculture, population, urbanization, resource and energy, and environment.
Prerequisite: Permission of BSOS-Geography department. Or GEOG202; and GEOG201; and (GEOG435, GEOG333, or GEOG332).
Recommended: GEOG130; or GEOG140.
Credit Only Granted for: GEOG328B or GEOG421.
Formerly: GEOG328B.

GEOG422 Changing Geographies of Sub-Saharan Africa (3 Credits)
Students will develop an understanding of the geographic contexts of SubSaharan Africa, including an overview of the physical, bioclimatic, historical, cultural, political, demographic, health and economic geographies of Sub-Saharan Africa. Students will fill in the map of Africa by studying the spatial distribution within each of these geographic domains. In addition to an overview of geography South of the Sahara, the Congo will be taken as a more intensive case study through additional readings, lectures and discussions.
Prerequisite: Permission of BSOS-Geography department. Or GEOG201; and GEOG202; and (GEOG335 or GEOG333).
Recommended: GEOG130 or GEOG110.
Credit Only Granted for: GEOG328C, GEOG422.
Formerly: GEOG328C.

GEOG423 Latin America (3 Credits)
A geography of Latin America and the Caribbean in the contemporary world: political and cultural regions, population and natural resource distribution, economic and social development, poverty, crime, urbanization, migration trends, and natural disasters.
Prerequisite: Permission of BSOS-Geography department. Or GEOG201 and GEOG202; and (GEOG332, GEOG435, or GEOG333).
Recommended: GEOG130 and GEOG110.
Credit Only Granted for: GEOG313 or GEOG423.
Formerly: GEOG313.

GEOG431 Culture and Natural Resource Management (3 Credits)
Basic issues concerning the natural history of humans from the perspective of the geographer. Basic components of selected behavioral and natural systems, their evolution and adaptation, and survival strategies.
Credit Only Granted for: GEOG421 or GEOG431.
Formerly: GEOG421.

GEOG432 Spatial Econometrics (3 Credits)
An introduction to modern econometric techniques in general and spatial econometrics in particular, using the popular open source statistical computer language R. A focus on using statistical computing to produce analytical reports for real-world applications, research papers, and dissertations.
Prerequisite: Permission of BSOS-Geography department.
Jointly offered with: GEOG732.
Credit Only Granted for: GEOG432 or GEOG732.

GEOG438 Seminar in Human Geography (3 Credits)
Selected topics in human geography.
Recommended: GEOG201; or GEOG211.
Restriction: Permission of BSOS-Geography department.
Repeatable to: 6 credits if content differs.

GEOG440 Polar Remote Sensing (3 Credits)
The harsh environment of the vast polar regions makes them some of the most inaccessible places on Earth. With widespread environmental change already underway, satellite remote sensing provides the only means by which to obtain year-round observations of the polar climate system. The objective of this course is to provide students with an overview of polar remote sensing techniques, including the physical principles of active and passive sensors, orbits, electromagnetic radiation, atmospheric transmission, calibration and validation. We will focus on measurements of the polar oceans, sea ice, glaciers, ice sheets, snow and permafrost, and examine the response of the cryosphere to climate change.
Prerequisite: PHYS171 or PHYS161; and AOSC401 or GEOG301; or with permission of instructor.
Cross-listed with: AOSC440.
Jointly offered with: AOSC642.
Credit Only Granted for: AOSC440, GEOG440, AOSC642, or GEOG640.

GEOG441 The Coastal Ocean (3 Credits)
Introduction to coastal oceanography, focusing on the physical, biological, and geological aspects of ocean areqs on the inner continental shelves. Wave, currents, and tidal dynamics of bays, open coast, estuaries, and deltas. Sedimentary environments of major coastal types. Ecology and biogeochemical relationships, including benthic and planktonic characteristics. Coastal evolution with sea level rise. Human impacts: eutrophication, modification of sedimentation. The coastal future: rising sea level, hypoxia, and increased storminess.
Prerequisite: GEOG140; or students who have taken courses with comparable content may contact the department; or permission of BSOS-Geography department.
Credit Only Granted for: GEOG441 or GEOG498C.
Formerly: GEOG498C.

GEOG442 Biogeography and Environmental Change (3 Credits)
Biogeographical topics of global significance, including a consideration of measurement techniques, and both descriptive and mechanistic modeling. Topics may include: scale in biogeography, biodiversity, carbon geography, climate and vegetation, interannual variability in the biosphere, land cover, global biospheric responses to climate change, NASA's Mission to Planet Earth and Earth Observation System. The class focuses on both natural and athropogenic controls, impacts of biography on climate and ecosystem services and different methods in biogeography.
Prerequisite: GEOG301. And GEOG201 and GEOG211; or permission of BSOS-Geography department. Jointly offered with GEOG642.
Credit Only Granted for: GEOG642, GEOG442, GEOG447, or GEOG484.
Formerly: GEOG4 47.

GEOG458 Special Topics in Study Abroad IV (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

GEOG461 Machine Learning for Computational Earth Observation Science (CEOS) (3 Credits)
Provides an introduction to machine learning methods and models with an emphasis on Earth observation. Topics will include supervised (decision trees, random forest, neural networks, support vector machine, Gaussian process and ensemble techniques), and unsupervised techniques (clustering/segmentation, dimension reduction, multi-dimensional data visualization). The course will highlight the state-of-the-art deep learning models; object-based versus pixel-based image classification; how to deal with missing data and non-uniform coverage of data; and large scale land cover land use mapping from heterogenous satellite data. Practical part will include satellite image classification by applying classification models and biophysical parameters retrieval by applying regression models.
Prerequisite: GEOG371.

GEOG470 Algorithms for Geospatial Computing (3 Credits)
An introduction to fundamental geospatial objects and geometric algorithms for spatio-temporal data processing and analysis. Point data representation and analysis: spatial data models and data structures, algorithms for spatial queries, point clustering algorithms. Surface and scalar field modeling, such as terrains: raster and triangle-based models (TINs), algorithms for building and querying TINs. Algorithms for natural and urban terrain analysis: morphology computation and visibility analysis. Applications to processing and analysis of LiDAR (Light Detection And Ranging) data in the context of terrain reconstruction, urban modeling, forest management and bathymetry reconstruction for coastal data management. Road network computation and analysis: algorithms for route computation in road networks, and for road network reconstruction from GPS and satellite data.
Prerequisite: GEOG276; or a minimum grade of C- in CMSC330 and CMSC351; or permission of instructor.
Cross-listed with: CMSC401.
Jointly offered with: GEOG770.
Credit Only Granted for: CMSC498Q, CMSC401, CMSC788I, GEOG470, GEOG498I, GEOG770, or GEOG788I.
Formerly: GEOG498I.

GEOG471 Technologies for Computational Earth Observations (3 Credits)
An introduction and exploration of cutting-edge novel remote sensing datasets and their associated science uses and applications. We present several modules focused on different technologies (multispectral, lidar, radar, thermal), and for each have both hands-on lab assignments, lectures, and applications case studies. Data fusion techniques, and common analysis and processing pitfalls are presented and discussed. Hands-on computer labs allow students to explore each dataset via online tutorials. After all datasets are presented, students download their own datasets in an area of interest to them, and work toward a unique student-driven project for presentation to the class. The sky is literally the limit in this interactive course which provides a research experience opportunity for students in a supportive atmosphere.
Prerequisite: GEOG371 or permission of instructor.

GEOG472 Remote Sensing: Digital Processing and Analysis (3 Credits)
Digital image processing and analysis applied to satellite and aircraft land remote sensing data. Consideration is given to image preprocessing techniques including radiometric calibration, geometric registration as well as atmospheric correction. Analysis methods include digital image exploration, feature extraction, thematic classification, change detection, and biophysical characterization. An application-oriented course project will be completed through the self-guided computer labs.
Prerequisite: GEOG272 and GEOG306; or students who have taken courses with comparable content may contact the department.

GEOG473 Geographic Information Systems and Spatial Analysis (3 Credits)
Analytical uses of geographic information systems; data models for building geographic data bases; types of geographic data and spatial problems; practical experience using advanced software for thematic domains such as terrain analysis, land suitability modeling, demographic analysis, and transportation studies.
Prerequisite: GEOG306 and GEOG373; or students who have taken courses with comparable content may contact the department.
Credit Only Granted for: GEOG473 or GEOG482.
Formerly: GEOG482.

GEOG475 Geographic Visualization and Digital Mapping (3 Credits)
An overview of the basic concepts and techniques that underlie digital map making and the broader field of geographic visualization for intermediate GIS users. This includes the use of color, map symbolization, map layout, and also the contribution to geographic visualization from the fields of scientific visualization, information visualization, and cognition. Fundamentals of dynamic map design and web mapping will be introduced through the use of animated and interactive maps.
Prerequisite: GEOG373 and GEOG306.

GEOG476 Object-Oriented Computer Programming for GIS (3 Credits)
Expands on conceptual and practical aspects of programming for geographic applications. The main focus of this course is to provide students more advanced programming in object oriented programming languages (i.e. Python). In addition, students will develop a proficiency in applying these advanced programming principles to manipulating spatial data sources within the Geographic Information Systems (GIS).
Prerequisite: GEOG373 and GEOG376; or permission of BSOS-Geography department. And must have completed MATH220; or must have completed or be concurrently enrolled in MATH120, MATH130, or MATH140.
Restriction: Must be in Geography program; or must be in GIS minor.

GEOG498 Topical Investigations (1-3 Credits)
Independent study under individual guidance.
Prerequisite: Restricted to advanced undergraduate students; and 24 credits in GEOG courses. Or restricted to graduate students.
Repeatable to: 6 credits if content differs.

GEOL - Geology

GEOL100 Physical Geology (3 Credits)
A general survey of the rocks and minerals composing the earth, its surface features and the agents that form them, and the dynamic forces of plate tectonics.
Credit Only Granted for: GEOL100 or GEOL120.
Additional Information: CORE Distributive Studies Physical Science Laboratory Course only when taken concurrently with GEOL 110.

GEOL102 Historical Geology (4 Credits)
Earth's history as revealed through the principles of stratigraphy and the processes of physical geology. Emphasis on formations and geologic development of the North American continent.
Prerequisite: GEOL120 or GEOL100; and GEOL110. Or permission of CMNS-Geology department.

GEOL104 Dinosaurs: A Natural History (3 Credits)
Dinosaurs, their evolution, and our understanding of their fossil record. Students will examine the geologic record and the tools used by paleontologists to determine: geologic ages and ancient environments; evolutionary history and extinctions; dinosaurian biology and behavior; and their survival as birds. Mechanisms of global change ranging from plate tectonics to asteroid impact will be discussed.

GEOL110 Physical Geology Laboratory (1 Credit)
The basic materials and tools of physical geology stressing familiarization with rocks and minerals and the use of maps in geologic interpretations.
Prerequisite: Must have completed or be concurrently enrolled in GEOL120 or GEOL100.
Additional Information: CORE Distributive Studies Physical Science Laboratory Course only when taken concurrently with GEOL 100.

GEOL120 Environmental Geology (3 Credits)
A review of geologic factors underlying many environmental problems and the interactions between population and physical environment: geologic hazards, land-use planning, conservation, mineral resources, waste disposal, land reclamation, and the geologic aspects of health and disease. The course is aimed at lower division students in education and liberal arts, and should be useful to any student concerned with geologic perspectives of environmental problems.
Credit Only Granted for: GEOL100 or GEOL120.

GEOL123 Causes and Consequences of Global Change (3 Credits)
Study of the major components of Earth's climate system and climate change history. Discussion of 21st century climate change prediction, mitigation and adaptation efforts.
Cross-listed with: AOSC123.
Credit Only Granted for: AOSC123, GEOG123, or GEOL123.

GEOL124 Evolution of Life and Environment on Planet Earth (3 Credits)
An exploration of how life has shaped Earth's physical environments, both in the contemporary Earth and over the long course of Earth history. Topics range from evidence for the origin and diversification of life and its impact on Earth environments to the mind-set and methods of the scientists who interpret it, and what those methods tell us about future interactions between life and the environment, both on Earth and in the Solar System.

GEOL200 Earth's Fury: Earthquakes, Volcanoes, and Tsunami (3 Credits)
Earthquakes, volcanic eruptions, and tsunami frequently remind us of the dangers associated with living on a constantly changing planet. How do people prepare for these rare but dramatic events? Student will study the science behind earthquakes and volcanoes, how it guides monitoring, forecasting, prevention, and response, and the cultural and ethical aspects of these events.

GEOL204 Dinosaurs, Early Humans, Ancestors, and Evolution; The Fossil Record of Vanished Worlds of the Prehistoric Past (3 Credits)
What good is the fossil record? What relevance or insights might the remains of ancient living things have for our modern world? This course examines how the record of ancient life was made, and how we use diverse scientific techniques to reveal the information it contains. We will look at how the various inhabitants of our planet changed through time, and how different ecosystems such as reefs, forests, and grasslands were assembled. We will see how our own species came to be, and of our spread across the world from our ancestral home in Africa. We'll examine how the fossil record contains evidence of climate changes and extinction events far exceeding what we are currently experiencing, and how we can use these as warnings for our future. We'll address who are the owners and stakeholders in the evidence of the fossil world. Students will learn how to read and interpret the primary scientific literature, and how to present scientific information to others through various media.

GEOL212 Planetary Geology (3 Credits)
An examination of the geologic and geochemical processes at work in the solar system from the perspectives supplied by space age exploration of the planets and other solar system bodies.
Credit Only Granted for: ASTR330 or GEOL212.

GEOL224 Observations and Measurements of the Natural World (3 Credits)
A scientific research team experience focused on evaluating environmental controls on water quality in urbanized streams of College Park. Training in field, laboratory, and digital visualization techniques to gain hands on knowledge of the scientific method through detailed observations, measurements, manipulations, and interpretations of data gathered during the course.

GEOL288 Field Studies I (1 Credit)
Examination and investigation of Earth Science phenomena in the field, particularly geology. Involves fieldwork of one week or longer duration, which work normally includes both observation and data collection. Particular programs may require certain prerequisites. Permission of Instructor is required. Special fees may be necessary.
Repeatable to: 3 credits if content differs.

GEOL322 Mineralogy (4 Credits)
Basic mineralogy for geology majors. The principles of morphologic crystallography, crystal chemistry, and determinative mineralogy.
Prerequisite: GEOL120 or GEOL100; and GEOL110. And CHEM131 and CHEM132; or (CHEM135 and CHEM136); or CHEM103.
Restriction: Permission of instructor is required for non-degree seeking students.

GEOL329 Instructional Assistance Practicum (1-2 Credits)
Undergraduate teaching assistantship in Geosciences. Individual instruction course. Contact department or instructor to obtain section number.

GEOL331 Principles of Paleontology (4 Credits)
A review of the theory, principles, and applications of Paleontology. A systematic overview of the morphology, evolution, and relationships of the major fossil-producing taxa.
Prerequisite: GEOL102; or (BSCI207 or BSCI392); or permission of CMNS-Geology department.
Cross-listed with: BSCI333.
Restriction: Permission of instructor is required of non-degree seeking students.
Credit Only Granted for: GEOL331 or BSCI333.

GEOL340 Geomorphology (4 Credits)
Analysis of landforms, organized on the basis of the geologic processes that have operated during the late Cenozoic. Constructional and erosional landforms related to physical systems operating on geologic structures through time.
Prerequisite: GEOL120 or GEOL100.
Restriction: Permission of instructor is required of non-degree seeking students.

GEOL341 Structural Geology (4 Credits)
Study of the deformation of Earth's lithosphere, especially stress, rheology, strain, and the origin and significance of structural features. Development of 3-dimensional thinking through drafting and drawing of structures, construction of geologic maps and cross-sections, and stereographic and orthographic representation of structures. Improvement of scientific writing. Two weekend field trips.
Prerequisite: GEOL120 or GEOL100; and GEOL102; and GEOL110. Or permission of CMNS-Geology department.
Restriction: Permission of instructor is required of non-degree seeking students.

GEOL342 Sedimentation and Stratigraphy (4 Credits)
Description, origin, and distribution of sediments and sedimentary rocks.
Prerequisite: GEOL120 or GEOL100; and GEOL110; and GEOL322. And CHEM103; or (CHEM131 and CHEM132); or (CHEM135 and CHEM136).
Restriction: Permission of instructor is required of non-degree-seeking students.

GEOL346 Cycles in the Earth System (3 Credits)
The Earth System operates through some fundamental cycles such as water, energy, and the Carbon Cycle. This course will build on GEOL/GEOG/AOSC123 starting with concept of feedbacks within the Earth System, global energy balance and the Greenhouse Effect. A brief introduction to the atmospheric and oceanic circulation will lead to the water cycle connecting the land, ocean, and atmosphere to the Earth System. Introduction to the Global carbon, nitrogen, and sulfur cycles will be followed by the concept of long-term climate regulation and short-term climate variability. The concepts of cycles, feedbacks, forcings, and responses in the Earth System will be applied to Global Warming and Ozone Depletion.
Prerequisite: MATH140; and (GEOG123, AOSC123, or GEOL123). Or permission of CMNS-Geology department.
Recommended: PHYS171, PHYS141, PHYS161, or MATH141.
Restriction: Non-degree-seeking students require the permission of the instructor. Cross-listed with GEOG346.
Credit Only Granted for: AOSC346, GEOG346, or GEOL346.

GEOL351 Statistics for Geoscientists (3 Credits)
Practical approach to basic statistics applied in the geosciences. Experimental design, elementary statistics and probability, sequence analysis, spatial analysis, linear regression, nonparametric statistics, bivariate, multivariate and principal components analysis of variance, hypothesis testing. Problem sets and participatory discussion of statistical applications in the current literature.
Prerequisite: MATH115.
Restriction: Non-degree-seeking students require the permission of the instructor.

GEOL375 Introduction to the Blue Ocean (3 Credits)
The global ocean is a major component of the Earth System that shapes life on earth, including our weather and climate. We explore the observation-based interdisciplinary science of oceanography, identifying its strong connections to related sciences like meteorology, and geography. We apply this developing understanding to environmental issues such as marine pollution, fish and fisheries, as well as to climate variability and to the changes to the marine environment that are resulting from steadily rising levels of atmospheric greenhouse gasses. Focusses include the biogeochemical and physical changes we can observe in the nearby Chesapeake Bay and the coastal waters of Eastern Shore, Maryland.
Prerequisite: MATH120 or higher.
Recommended: MATH121, MATH141, PHYS161, or PHYS171.
Cross-listed with: AOSC375.
Credit Only Granted for: AOSC375 or GEOL375.

GEOL386 Experiential Learning (3-6 Credits)
Prerequisite: Permission of CMNS-Geology department.
Restriction: Junior standing or higher.

GEOL388 Field Studies II (3 Credits)
Examination and investigation of Earth Science phenomena in the field, particularly geology. Involves field work of one week or a longer duration, which would normally involve both observations and data collection, with associated classroom lectures and/or laboratory study, normally including additional analysis of collected observations and data. Particular programs may require certain prerequisites. Permission of instructor required. Special fees may be necessary.
Restriction: Non-degree-seeking students require the permission of the instructor.
Repeatable to: 6 credits if content differs.

GEOL391 Biology of Extinct Animals (3 Credits)
A survey of extinct animals that have few, if any, direct living descendants. The principles governing the functional design of animals will be used to infer life styles for extinct, and frequently bizarre, organisms.
Prerequisite: BSCI160 and BSCI161; or BSCI106.
Cross-listed with: BSCI392.
Credit Only Granted for: GEOL391 or BSCI392.

GEOL392 Biology of Extinct Animals Laboratory (1 Credit)
An overview of the techniques used in paleobiological reconstructions of extinct animals.
Prerequisite: Must have completed or be concurrently enrolled in BSCI392.
Cross-listed with: BSCI393.
Credit Only Granted for: GEOL392 or BSCI393.

GEOL393 Geology Senior Thesis I: Proposal (3 Credits)
The first semester of the two-semester Geology Senior Thesis. Emphasis is on developing a plan for original research in the geosciences and presenting that plan both in writing and in public presentations that adhere to geosciences professional standards.
Prerequisite: PHYS141 or (PHYS161 and PHYS174); and MATH141; and (CHEM131 and CHEM132) or (CHEM135 and CHEM136); and must have completed at least two upper-level geology courses and be concurrently enrolled in a third.
Restriction: Junior standing or higher; and must be in Geology program.

GEOL394 Geology Senior Thesis II: Research (3 Credits)
The second semester of the two-semester Geology Senior Thesis. Investigation of specific original research question in geosciences. Emphasis is on completion of original research proposed in GEOL393 and presentation of results both in writing and in public presentations that adhere to geosciences professional standards.
Prerequisite: GEOL393; and must have completed at least three upper level GEOL courses.
Restriction: Must be in Geology program; and junior standing or higher.

GEOL412 Geology of the Terrestrial Planets (3 Credits)
Geological features of Mercury, Venus, Mars and the Moon with an emphasis on results from recent NASA planetary mission. Topics include interior structure, impact cratering, tectonic and volcanic history, surface conditions, climate change, and habitability.
Prerequisite: GEOL341 or GEOL340.
Credit Only Granted for: GEOL489A or GEOL412.
Formerly: GEOL489A.

GEOL413 Geoscientific Modeling (3 Credits)
A model is a simplified representation of reality. Modeling is implicit or explicit in almost everything we do as geoscientists. Model construction, coding, and the concepts of parsimony vs complexity, robustness, validation, uncertainty, and the scientific interpretation of simulation results. Problem sets, independent study and participatory discussion of modeling applications in the current literature.
Prerequisite: MATH115; and two 400-level GEOL courses.
Recommended: Some experience in computer programming.
Jointly offered with: GEOL613.
Restriction: Non-degree-seeking students require the permission of the instructor.
Credit Only Granted for: GEOL413, GEOL489G, GEOL613 or GEOL789G.
Formerly: GEOL489G.

GEOL423 Optical Mineralogy (4 Credits)
The optical behavior of crystals with emphasis on the theory and application of the petrographic microscope.
Prerequisite: GEOL100 or GEOL120; and GEOL110; and GEOL322. And CHEM131 and CHEM132; or (CHEM135 and CHEM136); or CHEM103.
Restriction: Non-degree-seeking students require the permission of the instructor.

GEOL431 Vertebrate Paleobiology (4 Credits)
A survey of the evolution of the vertebrates, encompassing information from the diversity of living members, but concentrating on the contribution of the fossil record. Emphasis is on the phylogenetic systematics, comparative and functional anatomy, developmental biology, and stratigraphic distribution of major extinct and extant groups.
Prerequisite: BSCI207, BSCI392, GEOL104, GEOL204, or GEOL331; or permission of CMNS-Geology department.

GEOL435 Environmental Geochemistry (3 Credits)
An understanding of geochemical cycles of Earth's surface systems including soils, rivers, lakes, and estuaries and causes and implications of alteration of geochemical cycles. Topics include chemical weathering, soils, chemical composition of inland waters, hydrologic tracers, salinization, eutrophication, nutrient and metal pollution, and global geochemical cycles.
Prerequisite: MATH115; and (GEOL100 or GEOL120); and (GEOL436 or GEOL444). And CHEM131 and CHEM132; or (CHEM135 and CHEM136).
Restriction: Nondegree-seeking students require the permission of the instructor.
Credit Only Granted for: GEOL489W or GEOL435.
Formerly: GEOL489W.

GEOL436 Principles of Biogeochemistry (3 Credits)
An introduction to the basic principles of biogeochemistry including aspects of organic geochemistry, biochemistry, microbiology, global geochemical cycles, the origin of life and paleoenvironmental evolution.
Prerequisite: MATH120 or MATH140; or must have completed MATH220. And (GEOL100 or GEOL120); and GEOL322. And CHEM131 and CHEM132; or (CHEM135 and CHEM136).
Cross-listed with: AOSC436.
Restriction: Non-degree-seeking students require the permission of the instructor.
Credit Only Granted for: GEOL436 or AOSC436.

GEOL437 Global Climate Change: Past and Present (3 Credits)
Introduction to the processes by which climate varies, the paleoclimate record, and projections of climate change into the 21st century, including discussion of climate sensitivity to external radiative forcing.
Prerequisite: MATH115 or MATH140; and (GEOL100 or GEOL120); and (CHEM131 or CHEM135); and (CHEM132 or CHEM136).
Cross-listed with: AOSC437.
Credit Only Granted for: AOSC437 or GEOL437.

GEOL443 Petrology (4 Credits)
Study of igneous and metamorphic rocks: petrogenesis, distributions, chemical and mineralogical relations, macroscopic and microscopic descriptions, geologic significance.
Prerequisite: GEOL322. And CHEM131 and CHEM132; or (CHEM135 and CHEM136); or CHEM103. And must have completed or be concurrently enrolled in GEOL423; and (GEOL100 or GEOL120); and GEOL110.
Corequisite: Permission of CMNS-Geology department.
Restriction: Non-degree-seeking students require the permission of the instructor.

GEOL444 Low Temperature Geochemistry (4 Credits)
Basic chemical principles, thermodynamics, and kinetics of low-temperature inorganic and organic geochemical reactions in a wide range of surface environments. These geochemical tools will be used to provide a context for understanding elemental cycling and climate change. Laboratories will include problem sets as well as wet chemical and mass spectrometric techniques used in low temperature geochemistry.
Prerequisite: GEOL322, GEOL100, and MATH115. And CHEM103; or (CHEM131 and CHEM132); or (CHEM135 and CHEM136).
Restriction: Non-degree-seeking students require the permission of the instructor.

GEOL445 High Temperature Geochemistry (4 Credits)
Review of chemical principles and their use in understanding processes of Earth, and solar system formation and differentiation. Topics include nucleosynthesis and cosmochemical abundances of elements, bonding and element partitioning, equilibrium thermodynamics and phase stabilities, radiogenic isotopes and geochronology, kinetics, and diffusion.
Prerequisite: GEOL322, GEOL100, and MATH115. And CHEM131 and CHEM132; or (CHEM135 and CHEM136); or CHEM103.
Restriction: Non-degree-seeking students require the permission of the instructor.

GEOL446 Geophysics (3 Credits)
An introduction to modern geophysics. Topics include: global plate tectonics, plate motion, triple junctions, geomagnetism, earthquakes and faulting, reflection and refraction seismology, gravity and isostasy, heat flow and mantle dynamics, deep interior of the Earth, geophysical observations and measurements.
Prerequisite: PHYS141, MATH141, and MATH140; and (GEOL100 or GEOL120).
Restriction: Non-degree-seeking students require the permission of the instructor.

GEOL447 Observational Geophysics (3 Credits)
An introduction to practical signal processing, data analysis, and inverse theory in geophysics.
Prerequisite: MATH140 and MATH141; and (PHYS141, PHYS161, or PHYS171).

GEOL451 Groundwater (3 Credits)
An introduction to the basic geologic parameters associated with the hydrologic cycle. Problems in the accumulation, distribution, and movement of groundwater will be analyzed.
Prerequisite: GEOL110 and MATH140; and (GEOL120 or GEOL100); and (CHEM131 and CHEM132; or (CHEM135 and CHEM136); or CHEM103). Or permission of CMNS-Geology department.
Restriction: Non-degree-seeking students require the permission of the instructor; and junior standing or higher.

GEOL452 Watershed and Wetland Hydrology (3 Credits)
Physical processes by which water moves in watershed and wetland systems. Topics include: precipitation, infiltration, flow in the unsaturated zone, streamflow generation processes, and groundwater flow.
Restriction: Junior standing or higher; and all other students require the permission of the instructor.

GEOL453 Ecosystem Restoration (3 Credits)
Overview of ecosystem functions across biomes/geologic settings, and considerations and tradeoffs in ecosystem restoration strategies. Specific case studies and discussions will be aimed at understanding how structure can influence biophysical and biogeochemical processes supporting ecosystems, and then describes how rates, timing, and location of physical, chemical, and ecosystem processes can be altered by different restoration strategies to enhance ecosystem services.
Prerequisite: MATH120 or MATH140; or must have completed MATH220. And (CHEM131 or CHEM135); and (CHEM132 or CHEM136); and (GEOL100, GEOL120, or ENST200).
Restriction: Junior standing or higher; and permission of instructor is required of non-degree-seeking students.
Credit Only Granted for: GEOL453 or GEOL489L.
Formerly: GEOL489L.

GEOL455 Marine Geophysics (3 Credits)
Plate tectonics, earthquakes and faulting, isostasy and gravity, heat and mantle dynamics, ocean ridges and transform faults, hydrothermal vents, trenches and oceanic islands, subduction zones, accretionary and erosion wedges, sedimentary basins and continental rifts. Exploration of the oceans using geophysical methods.
Prerequisite: MATH141 and MATH140; and (GEOL120 or GEOL100). Or permission of CMNS-Geology department.
Restriction: Non-degree-seeking students require the permission of the instructor.
Credit Only Granted for: GEOL455 or GEOL489E.
Formerly: GEOL489E.

GEOL456 Engineering Geology (3 Credits)
An overview of engineering geology with an emphasis on physical understanding of natural hazards and natural resources. General theories of stress and strain, failure criteria, frictional stability, fluid flow in porous media and poroelasticity are introduced. Quantitative approaches on earthquakes, landslides, land subsidence, and geotechnical aspects of oil/gas exploration are discussed.
Prerequisite: PHYS141 and MATH141; and (GEOL120 or GEOL100). Or permission of CMNS-Geology department.
Restriction: Non-degree-seeking students require the permission of the instructor.
Credit Only Granted for: GEOL456 or GEOL489Z.
Formerly: GEOL489Z.

GEOL457 Seismology (3 Credits)
General overview of the basics of seismology, starting with wave propagation, seismic reflection and refraction. Applications to the determination of the seismic velocity and anisotropy structure of the Earth. Earthquake generation, postseismic deformation and creep events, relation to faulting and plate tectonics.
Prerequisite: GEOL120 or GEOL100; and (MATH141, GEOL110, and MATH140). Or permission of CMNS-Geology department.
Recommended: PHYS171, PHYS141, or PHYS161.
Restriction: Non-degree-seeking students require the permission of the instructor.
Credit Only Granted for: GEOL457 or GEOL489A.
Formerly: GEOL489A.

GEOL460 Field Geophysics (4 Credits)
Students will become familiar with geophysical instrumentation used for both scientific and industrial applications. Students will be given an introduction to the use of geophysical instrumentation for data collection, processing, and analysis, design of field experiments for investigating field geophysical problems, and an introduction to the theory of instrument design and use. Instruments that will be covered include (but are not limited to): broadband seismometers, geophones, ground-penetrating radar, magnetotellurics, and Global Positioning Satellites.
Prerequisite: GEOL100 or GEOL120, MATH140, MATH141, and (PHYS141, PHYS161, or PHYS171).
Restriction: Non-degree-seeking students require the permission of the instructor.

GEOL463 Economic Geology (3 Credits)
The geological setting, and mineralogy of ore bodies, as well as the chemical and physical factors affecting the source, transport and deposition of metallic ores, petroleum and natural gas will be covered. The economics of mineral resources will be discussed.
Prerequisite: GEOL322; and (CHEM131 or CHEM135); and (CHEM132 or CHEM136).
Restriction: Non-degree-seeking students require the permission of the instructor.

GEOL471 Geochemical Methods of Analysis (3 Credits)
Principles and application of geochemical analysis as applied to a variety of geological problems. X-ray and optical spectroscopy, X-ray diffraction, atomic absorption, electron microprobe, and electron microscopy.
Prerequisite: CHEM131 and CHEM132; or (CHEM135 and CHEM136); or CHEM103.
Restriction: Non-degree-seeking students require the permission of the instructor.

GEOL472 Active Tectonics (3 Credits)
Provides overview of the theories, findings, and tools of Active Tectonics. The course is designed for graduate and senior undergraduate students who have basic mathematics background and have taken Structural Geology or relevant courses. Topics covered in this class include: stress and strain, crustal structure and lithosphere rheology, rock friction, geodesy, earthquake cycles, slow earthquakes, earthquake modeling, and earthquake hazards.
Prerequisite: GEOL341.
Recommended: GEOL340, GEOL447, GEOL457.
Restriction: Non-degree-seeking students require the permission of the instructor.

GEOL473 Origin and Evolution of the Continents (3 Credits)
Introduction to current theories regarding the origin and evolution of the continents. Emphasis on development of critical reading and reasoning skills, and improvement of verbal and written communication.
Prerequisite: GEOL445 and GEOL443; or permission of instructor.
Restriction: Non-degree-seeking students require the permission of the instructor.
Formerly: GEOL489I.

GEOL488 Geology Colloquium (1 Credit)
Contemporary research topics and issues in geosciences are explored through the weekly Geology departmental colloquium and discussion of its contents.
Prerequisite: At least one 300 or 400-level Geology course of at least 3 credits.
Restriction: May not be taken concurrently with GEOL497 or GEOL497H.
Repeatable to: 4 credits.

GEOL489 Special Topics (3 Credits)
Recent advances in geology.
Prerequisite: Must have completed at least 2 upper-level GEOL courses plus one additional GEOL course.
Corequisite: GEOL393.
Restriction: Must be in Geology program; and junior standing or higher.

GEOL490 Geology Field Camp (6 Credits)
Intense field geology course taught off campus during the summer. Students describe and compile maps of formations and structures from outcrops, subsurface, and remotely sensed data. Special fees required.
Prerequisite: GEOL341 and GEOL443.
Restriction: Non-degree-seeking students require the permission of the instructor.

GEOL491 Environmental Geology Field Camp (3-6 Credits)
Intensive field course designed for students of environmental geology. Students will learn to make maps, to describe soil profiles and site characteristics, to monitor hydrologic and groundwater conditions, and to measure geologic structures and stratigraphic sections.
Prerequisite: GEOL341, GEOL342, and GEOL451; or permission of CMNS-Geology department.
Restriction: Non-degree-seeking students require the permission of the instructor.
Credit Only Granted for: GEOL490 or GEOL491.

GEOL497 Recent Advances: Geology (3 Credits)
A survey of important recent advances in geological sciences in the context of the methods and practices of scientific research.
Prerequisite: Must have completed at least 2 upper-level GEOL courses.
Corequisite: GEOL393; and a third upper-level geology course.
Restriction: Must be in Geology program; and GPA of 3.0 or better in both overall and in all courses required for the major; and senior standing; and to be taken as late as possible in the program.
Credit Only Granted for: GEOL497 or GEOL489H.
Formerly: GEOL489H.

GEOL499 Special Problems in Geology (1-3 Credits)
Intensive study of a special geologic subject or technique selected after consultation with instructor. Intended to provide training or instruction not available in other courses which will aid the student's development in his or her field of major interest.
Prerequisite: (GEOL120 or GEOL100; and (GEOL102 and GEOL110)); or students who have taken courses with comparable content may contact the department. And permission of CMNS-Geology department.
Restriction: Non-degree-seeking students require the permission of the instructor.

GERS - German Studies

GERS103 Intensive Elementary German (4 Credits)
Covers speaking, reading, writing, listening, and culture of German-speaking world.
Prerequisite: Must have appropriate World Language Placement (WLP) score.
Restriction: Must not be a fluent/native speaker of German.
Credit Only Granted for: GERS103 or GERM103.
Formerly: GERM103.

GERS141 Yiddish I (3 Credits)
Introduction to the Yiddish language, with emphasis on speaking, reading, and writing skills. Students will also learn the history of the language, its significance to Jewish culture, its origins and basic structure.
Cross-listed with: JWST281.
Credit Only Granted for: JWST281, GERM148Y or GERS141.

GERS142 Yiddish II (3 Credits)
Introduction to the Yiddish language, with emphasis on speaking, reading, and writing skills. Students will also learn the history of the language, its significance to Jewish culture, its origins and basic structure.
Prerequisite: JWST281; or permission of ARHU-Meyerhoff Program & Center for Jewish Studies.
Cross-listed with: JWST282.
Credit Only Granted for: GERM149Z, GERS142 or JWST282.

GERS148 Germanic Languages - Elementary I (3 Credits)
Basic instruction in a Germanic language other than German; Yiddish and Swedish are offered regularly, Danish, Netherlandic, and Norwegian when demand is sufficient. Subtitle will reflect the language. May be repeated in a different language.
Repeatable to: 6 credits if content differs.
Formerly: GERM148.

GERS149 Germanic Languages - Elementary II (3 Credits)
Continuation of GERM148. May be repeated in a different language. Subtitle will reflect the language.
Prerequisite: GERM148.
Repeatable to: 6 credits.
Formerly: GERM149.

GERS169 Special Topics in Study Abroad I (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.
Formerly: GERM169.

GERS203 Intensive Intermediate German (4 Credits)
Covers speaking, reading, writing, listening, and culture of German-speaking world.
Prerequisite: GERS103; or must have appropriate World Language Placement (WLP) score.
Restriction: Must not be a fluent/native speaker of German.
Credit Only Granted for: GERM203 or GERS203.
Formerly: GERM203.

GERS204 German Grammar Review (3 Credits)
An in-depth study and analysis of selected grammatical topics in a contextualized framework.
Prerequisite: GERS203; or Must have appropriate World Language Placement (WLP) score.
Restriction: Must not be a fluent/native speaker of German.
Credit Only Granted for: GERM204 or GERS204.
Formerly: GERM204.

GERS248 Germanic Languages Intermediate - I (3 Credits)
Intermediate instruction in a Germanic language other than German. May be repeated in a different language. Subtitle will reflect the language.
Prerequisite: GERM149.
Repeatable to: 6 credits.
Formerly: GERM248.

GERS249 Germanic Languages - Intermediate II (3 Credits)
Continuation of GERM248. May be repeated in a different language. Subtitle will reflect the language.
Prerequisite: GERM248.
Repeatable to: 6 credits.
Formerly: GERM249.

GERS255 Once Upon a Time: Fairy Tales of the Brothers Grimm (3 Credits)
A critical examination of how fairy tales and folklore pervade and influence diverse facets of Western culture, ranging from issues of politics and national identity, ethics and morality, violence and fear, education and pedagogy, to gender and sexuality in the establishment and regulation of social norms. Taking the German tales collected by Jacob and Wilhelm Grimm as its focal point, the magical and often terrifying world of fairy tales within the German, European, and American cultural traditions from Romanticism to today will be explored. Taught in English.
Credit Only Granted for: GERM255 or GERS255.
Formerly: GERM255.

GERS269 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.
Formerly: GERM269.

GERS289 Selected Topics in the Cultures of the German-Speaking Countries (3 Credits)
Topics in the cultures of the German-speaking countries.
Prerequisite: Permission of instructor.
Repeatable to: 6 credits if content differs.
Formerly: GERM289.

GERS299 Special Topics in German Studies (3 Credits)
Selected topics on language, literature, or culture of the German-speaking world.
Prerequisite: Permission of ARHU-School of Languages, Literatures, and Cultures department.
Repeatable to: 9 credits if content differs.

GERS301 Conversation and Composition I: The German-Speaking World (3 Credits)
Practice in contemporary spoken and written German. Systematic review of grammar, and exercises in composition. Emphasis on cultural contrasts in the German-speaking world.
Prerequisite: GERS204; or students who have taken courses with comparable content may contact the department.
Credit Only Granted for: GERM301 or GERS301.
Formerly: GERM301.

GERS302 Conversation and Composition II: Current Topics in German-Speaking Society (3 Credits)
Further practice in contemporary spoken and written German. Contemporary social, political, and cultural themes.
Prerequisite: GERS301; or students who have taken courses with comparable content may contact the department.
Credit Only Granted for: GERM302 or GERS302.
Formerly: GERM302.

GERS315 Practicum in Translation I (3 Credits)
Problems and strategies of translation from German to English.
Prerequisite: GERS301; or students who have taken courses with comparable content may contact the department.
Credit Only Granted for: GERM315 or GERS315.
Formerly: GERM315.

GERS319 Selected Topics in German Language Studies (1-3 Credits)
The analysis of the German language as a reflection of cultural, functional, and social practice in the German-speaking world.
Prerequisite: GERS203; or students who have taken courses with comparable content may contact the department.
Repeatable to: 6 credits if content differs.

GERS320 Survey of German Studies (3 Credits)
Approaches to analysis of German cultural products such as literature, film, poetry, architecture and works of art. Taught in German.
Prerequisite: GERS301; or students who have taken courses with comparable content may contact the department.
Credit Only Granted for: GERM320 or GERS320.
Formerly: GERM320.

GERS322 Highlights of German Literature and Culture (3 Credits)
Selected literary masterworks, social and cultural issues, and historical events in German-speaking countries from the Enlightenment, Romanticism, Junges Deutschland, Realism, Naturalism and its counter currents, Expressionism to the present. Taught in German.
Prerequisite: GERS302; or students who have taken courses with comparable content may contact the department.
Credit Only Granted for: GERM322 or GERS322.
Formerly: GERM322.

GERS331 Kafka and Film: The Uncanny in Literature and Film (3 Credits)
Analysis of major works by Franz Kafka (1883-1924), his affinity to the cinema and use of cinematic means and techniques (e.g. the gaze, flashback, parallel action, gesture and body language, etc.) in his writings, as well as examination of adaptations of Kafka narratives (e.g. the Orson Welles and David Jones adaptations of The Trial, 1961, 1992) and other films that use Kafkaian themes (e.g. Steven Soderbergh's 'Kafka', 1991).
Cross-listed with: CINE331.
Credit Only Granted for: GERM331, GERS331, or CINE331.

GERS339 German Literature In Translation (3 Credits)
Selected movements, genres or other special topics in German literature. Readings and instruction in English. May not be counted in the fulfillment of German major requirements in German literature.
Repeatable to: 6 credits if content differs.
Formerly: GERM339.

GERS349 Germanic Literatures in Translation (3 Credits)
Study of an important author, period or theme in a Germanic literature other than German: Yiddish, Netherlandic or Scandinavian. Taught in English.
Repeatable to: 6 credits if content differs.
Formerly: GERM349.

GERS356 German for the Professions (3 Credits)
An examination of the structures and work conditions of various industries in the German-speaking world including understanding and navigating company culture, professional development, and preparation for an internship or job where German is spoken.
Prerequisite: GERS301.
Credit Only Granted for: GERM319B, GERM356 or GERS356.
Formerly: GERM356.

GERS367 Literature in the Climate Crisis (3 Credits)
An investigation of the relationship between climate and art & literature. Introduction to ecological thinking followed by study of artistic and literary works thematically grouped by the four elements: Earth, Water, Air, and Fire. Readings from the German literary tradition (Goethe, Tieck, Stifter, Kafka, Frisch, Wolf) and contemporary research in the environmental humanities, with additional readings and viewings from elsewhere on the planet. Taught in English.
Recommended: 200-level General Education and/or humanities course; and sophomore standing.
Cross-listed with: CMLT399E.
Credit Only Granted for: GERM399E, CMLT399E, or GERS367.
Formerly: GERM399E.
Additional Information: Priority in enrollment will be given to German majors.

GERS369 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.
Formerly: GERS369.

GERS383 The 'Warrior' in German Culture: From Valiant Knights to Brazen Terrorists (3 Credits)
Acknowledging the nexus between acts of military aggression and political apparatuses, this course examines the semiotic significance of literary and cinematic manifestations of the warrior at critical junctures in German history. Taking the warrior as its focal point, this course explores the intricate web connecting various forms of military conflict, political systems of power, and social conventions within Western civilization from Antiquity to today. Taught in English.

GERS385 German Cinema (3 Credits)
A history of German cinema from the golden age of silent films to the flourishing film culture of the 21st Century. Focuses on changing ideas of the role and purpose of national cinema, as well as the cinematic representation of nation and national identity. Taught in English.
Cross-listed with: CINE385.
Credit Only Granted for: GERM385, GERS385, CINE385 or FILM385.
Formerly: FILM385.

GERS386 Experiential Learning (1-6 Credits)
Internship and practicum.
Prerequisite: Permission of ARHU-School of Languages, Literatures, and Cultures department.
Restriction: Junior standing or higher.
Credit Only Granted for: GERM386 or GERS386.
Formerly: GERM386.

GERS388 Language House Spring Colloquium (1 Credit)
For students residing in the Language House Immersion Program. Focuses on the development of skills in the target language and acquiring the cultural knowledge of the countries that speak the target language.
Restriction: Must be a resident of Language House.
Repeatable to: 8 credits.
Formerly: GERM388.

GERS389 Topics in German Culture (3 Credits)
Topics in the cultures of the German-speaking peoples. Taught in English.
Repeatable to: 6 credits if content differs.

GERS397 Honors Reading (Independent Study) (3 Credits)
Supervised reading to be taken normally only by students admitted into honors program.
Credit Only Granted for: GERM397 or GERS397.
Formerly: GERM397.

GERS398 Honors Research (3 Credits)
Prepares students to write an honors thesis. Under the direction of a German department faculty member, the student will select a thesis topic and conduct the necessary research.
Prerequisite: Permission of ARHU-School of Languages, Literatures, and Cultures department.
Repeatable to: 6 credits if content differs.
Credit Only Granted for: GERM398 or GER398.
Formerly: GERM398.

GERS399 Selected Topics in German Studies (3 Credits)
Selected topics on the language, literature, and culture of the German-speaking world.
Prerequisite: Permission of ARHU-School of Languages, Literatures, and Cultures department.
Repeatable to: 9 credits if content differs.

GERS402 Advanced Conversation and Composition (3 Credits)
Advanced instruction in and acquisition of written and oral communication skills in German
Prerequisite: GERS302; or students who have taken courses with comparable content may contact the department.
Restriction: Must not have completed GERS401 or GERS403.
Credit Only Granted for: (GERM401 and GERM403), GERM402, or GERS402.
Formerly: GERM402.

GERS411 German for International Business I (3 Credits)
Advanced skills in German for international business, including understanding and writing correspondence, reports, graphics, ads, etc., according to current German commercial style.
Credit Only Granted for: GERM411 or GERS411.
Formerly: GERM411.

GERS415 German/English Translation I (3 Credits)
An intensive presentation of German grammar limited exclusively to reading skill; graded readings in the arts and sciences. Instruction in English; cannot be used to satisfy the arts and humanities foreign language requirement.
Restriction: Must not have completed GERS103, GERS203, GERS204, GERS301, or GERS302.

GERS419 Selected Topics in German Language Studies (3 Credits)
The analysis of the German language as a reflection of cultural, functional, and social practice in the German-speaking world.
Prerequisite: GERS302; and permission of ARHU-School of Languages, Literatures, and Cultures department.
Repeatable to: 6 credits if content differs.
Credit Only Granted for: GERM419 or GERS419.
Formerly: GERM419.

GERS436 The Usual Suspects: Criminals in German Literature and Film (3 Credits)
An examination of how historical, cultural and political discourses in German-speaking countries influence social norms and criteria for judging what is considered socially acceptable or "deviant". Texts and films span from the 18th to 21st centuries. Taught in German.
Prerequisite: GERS320 or GERS322; or permission of instructor.
Credit Only Granted for: GERM436 or GERS436.
Formerly: GERM436.

GERS439 Selected Topics in German Literature (3 Credits)
Special study of an author, school, genre, or theme. Taught in German.
Prerequisite: GERS320, GERS321, or GERS322; or permission of ARHU-School of Languages, Literatures, and Cultures department.
Repeatable to: 6 credits if content differs.
Formerly: GERM439.

GERS441 Border Crossings and Cultural Transfers (3 Credits)
Border Crossings and Cultural Transfers emphasizes the transnational and global dimensions of German culture, analyzing the interrelationship of dominant and minority cultures within Germany and/or the impact of German cultures abroad. Topics include migration, exile, (post)colonialism, and globalization. Taught in German.
Prerequisite: GERS320 or GERS322.
Credit Only Granted for: GERM441 or GERS441.
Formerly: GERM441.

GERS442 Gender and Sexuality in German Literature and Society (3 Credits)
Gender and Sexuality in German Literature and Society analyzes gender and sexuality as key discourses for understanding German-speaking literatures, cultures, and societies. Topics include the history of sexuality; death and desire; and representations of gender in German literature. Taught in German.
Prerequisite: GERS320 or GERS322.
Credit Only Granted for: GERM442 or GERS442.
Formerly: GERM442.

GERS443 Literature as Cultural Discourse (3 Credits)
Investigates literature as cultural discourse in the construction of knowledge, emphasizing a discursive approach to analyzing a range of literary texts. Taught in German.
Prerequisite: GERS320 or GERS322.

GERS444 The German-Jewish Experience (3 Credits)
Focuses on the German-Jewish experience as a key dimension of European history, literature, and culture. Topics include Heinrich Heine, German-Jewish authors and texts, and the Holocaust in literature and film.
Prerequisite: GERS320 or GERS322.
Credit Only Granted for: GERM444 or GERS444.
Formerly: GERM444.
Additional Information: Taught in German.

GERS449 Selected Topics in German Studies (3 Credits)
Study of a linguistic, literary or cultural topic in Yiddish, Netherlandic, or Scandinavian studies.
Prerequisite: Permission of ARHU-School of Languages, Literatures, and Cultures department.
Repeatable to: 6 credits if content differs.
Formerly: GERM449.

GERS457 Germany: Energy Transition, Climate Change, and Sustainability (3 Credits)
Interdisciplinary examination of Germany as a leading model in dealing with contemporary issues of sustainability as well as the economic, social, and political impacts of climate change in a global world. Students will learn the basics of climate change, examine policy tools (e.g. carbon taxes, regulations, incentives, etc.) and technological innovations to curb the causes of climate change and promote sustainable practices. Students will also learn how cultural values and traditions inform policy making by examining the history of the environmental movement in German cultural artifacts (e.g., art, literature, grass-roots social movements, etc.). Designed to appeal to students with a variety of backgrounds (technical, policy and government, and humanities), the course blends site visits (e.g. coal mines, government offices, technical universities, artist studios, grass-roots collectives, museums, parks, etc.) with academic lectures by experts in pertinent fields and faculty-led discussion groups. Students will receive an overarching and holistic overview of the economic, political, and cultural costs of climate change as well as current efforts to offset the negative impacts through greater sustainability. Taught in English.
Cross-listed with: AREC357.
Credit Only Granted for: AREC357 or GERS457.

GERS458 Literary or Media Genres (3 Credits)
Literary or Media Genres studies the formal and stylistic dimensions of specific genres, emphasizing genre as a social, political, and aesthetic category. Topics include pop literature; the history of German drama; and German film genres among others.
Prerequisite: GERS320 or GERS322.
Repeatable to: 6 credits if content differs.
Formerly: GERM458.
Additional Information: Taught in German.

GERS473 Variation in Contemporary German Language (3 Credits)
Examines the unique, multilingual society that is modern Germany, exploring issues such as regional varieties, gendered language, language reform (and resistance to it), public and media speech, the influence of American English on colloquial speech and in specific fields, and the problems of immigrant communities acquiring both dialect and standard German.
Prerequisite: GERS302; or permission of instructor.
Credit Only Granted for: GERM473, GERS473, GERM673, or GERS673.
Formerly: GERM473.

GERS489 Social Issues in German Culture (3 Credits)
Special topics course examining the cultural constructions and representations of important social, political, and linguistic issues, investigating their connection to German values and institutions. Taught in German.
Prerequisite: GERS320 or GERS322.
Repeatable to: 6 credits if content differs.
Formerly: GERM489.

GERS498 Honors Thesis Writing (3 Credits)
Required for students pursuing departmental honors in German languages and literatures. Under the direction of a German department faculty member, students write their honors theses.
Restriction: Permission of ARHU-School of Languages, Literatures, and Cultures department.
Repeatable to: 6 credits if content differs.
Formerly: GERM498.

GERS499 Directed Study (1-3 Credits)
Student-driven, independent study of a specialized topic in coordination with a faculty advisor.
Restriction: Permission of ARHU-School of Languages, Literatures, and Cultures department.
Repeatable to: 6 credits if content differs.
Formerly: GERM499.

GREK - Greek

GREK101 Elementary Ancient Greek I (4 Credits)
Study of basic grammar, development of reading facility, and introduction to Athenian life and culture in the fifth century B.C.
Restriction: A student who has had two units of Greek in high school may register for GREK101 for purposes of review but not for credit.

GREK102 Elementary Ancient Greek II (4 Credits)
Continuing development of basic grammar and reading skills; study and discussion of central aspects of Greek culture.
Prerequisite: GREK101; or students who have taken courses with comparable content may contact the department.

GREK111 Elementary Modern Greek I (3 Credits)
An introduction to the language and culture of modern Greece. Students begin to acquire the basic tools of the language and to communicate, in simple everyday situations. This is the first of our two-semester sequence in Elementary Modern Greek and contributes to the fulfillment of the Global Engagement requirement of the College of Arts and Humanities.
Restriction: Must not be a native speaker of Greek.

GREK112 Elementary Modern Greek II (3 Credits)
It is designed for students who have already completed the first semester course (GREK111) and/or those whose level of proficiency in Greek is not advanced enough for the intermediate level. Like GREK111, an introduction is provided to the language and culture of modern Greece. Students acquire the basic tools of the language and learn to communicate in simple, everyday situations. This is the second of our two-semester sequence in Elementary Modern Greek and contributes to the fulfillment of the Global Engagement requirement of the College of Arts and Humanities.
Prerequisite: GREK111; or permission of instructor.

GREK201 Intermediate Ancient Greek (4 Credits)
Advancing beyond the basic skills developed in GREK 101 and GREK 102; review of selected grammatical concepts; continuous reading of passages from Greek literature.
Prerequisite: GREK102; or students who have taken courses with comparable content may contact the department.

GREK211 Intermediate Modern Greek I (3 Credits)
A continuation of the study of basic structures and the development of fluency in functional, spoken and written communication. This is the first of our two-semester sequence in Intermediate Modern Greek and contributes to the fulfillment of the Global Engagement requirement of the College of Arts and Humanities.
Prerequisite: GREK112; or permission of instructor.

GREK212 Intermediate Modern Greek II (3 Credits)
A continuation in the development of fluency in spoken and written communication along with the exploration of syntactic and grammatical structures. Comprehension and vocabulary enrichment are further developed through selected readings from Modern Greek prose and poetry. This is the second of our two-semester sequence in Intermediate Modern Greek and contributes to the fulfillment of the Global Engagement requirement of the College of Arts and Humanities.
Prerequisite: GREK211; or permission of instructor.

GREK269 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

GREK301 Scenes from Athenian Life (3 Credits)
Makes the transition from study of Greek grammar to reading. Focus on selected aspects of life in Athens: marriage, friendship, the courts, festival, theatre. Reading short works by three authors: Lysias, Plato, and a playwright (e.g., Menander). Readings are in ancient Greek.
Credit Only Granted for: GREK301 or GREK351.
Formerly: GREK351.

GREK369 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

GREK386 Experiential Learning (3-6 Credits)
Restriction: Must have a Learning Proposal approved by the Office of Experiential Learning Programs, faculty sponsor, and student's internship sponsor; and junior standing or higher.

GREK388 Intermediate Ancient Greek Readings (3 Credits)
The reading of one or more selected Greek authors from the archaic period through late antiquity. Appropriate for those at an intermediate level in the study of ancient Greek.
Prerequisite: GREK201; or students who have taken courses with comparable content may contact the department.

GREK398 Advanced Modern Greek (3 Credits)
Develops advanced communication skills in the modern Greek language: speaking, listening, reading, and writing.
Prerequisite: GREK212; or permission of ARHU-Classics department.
Repeatable to: 6 credits.

GREK399 Topics in Advanced Modern Greek Language & Culture (3 Credits)
Development of communicative skills in advanced Modern Greek. Topics will be drawn from the social and folk life of modern Greece.
Prerequisite: GREK212; or permission of ARHU-Classics department.
Repeatable to: 6 credits.

GREK411 Modern Greek Literature and History (3 Credits)
Students will study historical and political events in Greece during the 19th and 20th centuries through the viewpoint of the man of letters. Poetry, prose, plays, and essays reflect national emancipation, social reconstruction, and political struggles. Readings and discussion are in Modern Greek.
Prerequisite: Students must have earned a grade of C- or better in a 300-level Modern Greek course.
Restriction: Permission of instructor.
Credit Only Granted for: GREK311 or GREK411.
Formerly: GREK311.

GREK415 Homer (3 Credits)
Extensive readings in Greek from the Iliad or the Odyssey, with special attention to the features of Homeric style and the relationship between the two epics.
Prerequisite: Permission of ARHU-Classics department.

GREK472 History and Development of the Greek Language (3 Credits)
Mastery of ancient Greek through grammar review, prose composition, and analysis of historical developments in Greek writers' modes of expression.
Restriction: Permission of instructor.

GREK488 Greek Readings (3 Credits)
The reading of one or more selected Greek authors. Reports.
Prerequisite: Permission of ARHU-Classics department.
Repeatable to: 6 credits if content differs.
Additional Information: Readings are in ancient Greek.

GREK499 Independent Study in Greek Language and Literature (1-3 Credits)
Prerequisite: Permission of ARHU-Classics department.
Repeatable to: 6 credits if content differs.

GVPT - Government and Politics

GVPT101 Introduction to Political Science (3 Credits)
A study of the basic principles and concepts of political science.

GVPT105 Introduction to Political Ethics (3 Credits)
An examination of major theories of political life and politics as they pertain to international politics, conflict, and culture. Emphasis will be given to theories of ethics and morality that pertain to international studies, such as human rights.
Restriction: Must be in the College Park Scholars program; and must be in International Studies program or Public Leadership program.

GVPT158 Special Topics in Study Abroad I (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

GVPT170 American Government (3 Credits)
A comprehensive study of national government in the United States.

GVPT200 International Political Relations (3 Credits)
A study of the major factors underlying international relations, the causes of conflict and cooperation among international actors, the role of international institutions, the interactions of domestic and foreign policies, and major issues in security, economy and the environment.

GVPT201 Scope and Methods for Political Science Research (3 Credits)
An introduction to empirical research in political science.
Credit Only Granted for: GVPT100 or GVPT201.
Formerly: GVPT100.

GVPT202 Law or Politics? The U.S. Supreme Court and Individual Rights (3 Credits)
A thorough examination of the state of individual rights before the U.S. Supreme Court. The course will consider how recent cases the Court has decided and current pending cases have shaped the meaning of the U.S. Constitution. A critical component will involve peer deliberation over the proper roles of law and politics and their impacts on the current state of individual rights in the United States. Students will examine constitutional case studies throughout the semester and contribute to group and classroom discussions of issues being considered by the sitting Court. Students will also learn the foundational concepts of how the Court operates as both a legal and political institution, as well as its place in the larger political system. Special emphasis will be given to the social scientific study of the Supreme Court.

GVPT203 The Challenge of Authoritarianism (3 Credits)
An introduction to the persistent challenge of authoritarianism. The course explores the nature of authoritarianism and its evolution from ancient through modern times. Students will study how authoritarian regimes vary, why citizens sometimes comply with them, and when and how citizens rebel. The course concludes with a review of contemporary authoritarianism, focusing on its resilience in the Middle East and East Asia and its potential for a resurgence in the US and Europe.

GVPT204 Uncertain Partners: US and China in a Changing World (3 Credits)
The rapid ascent of the People's Republic of China (PRC) as a major political and economic power has meant that its relationship with the United States has become central in contemporary international politics. To an increasing extent, some of the biggest global challenges--ranging from nuclear proliferation, to climate change, to economic growth--require U.S.-China cooperation if they are to be managed effectively. Yet the U.S.-China relationship is at times turbulent, and its future remains highly uncertain. Will the U.S. and China be able to forge a closer partnership that will enable them to cooperate in dealing with some of the vexing challenges facing the international community? Or are they more likely to drift toward a more adversarial relationship, as China's growing power--and the US reaction--generate a vicious cycle of mutual mistrust? In this class, students will grapple with these questions as they learn about the history of U.S.-China relations, and about many of the current issues facing the relationship.
Credit Only Granted for: GVPT204 or GVPT289J.
Formerly: GVPT289J.

GVPT205 Special Topics in International Ethics, Conflict, and Immigration (3 Credits)
An examination of issues in international ethics, conflict generated at the international level, and problems in immigration policy and law, including theories of rights and immigration, and ideological sources of international violence.
Prerequisite: GVPT105.
Recommended: GVPT241.
Restriction: Must be in College Park Scholars program; and must be in GVPT international Studies program.

GVPT206 Appetite for Change: Politics and the Globalization of Food (3 Credits)
An overview of the major forces transforming the food system--political, economic, technological, environmental--and the political debates surrounding them.
Credit Only Granted for: GVPT206 or GVPT289A.
Formerly: GVPT289A.

GVPT207 Racial and Ethnic Politics in the Obama Era (3 Credits)
This course seeks to understand the meaning and significance of Barack Obama as the first African American president. The course examines the extent to which the United States of America has entered into a post-racial society. We also examine the policy challenges Obama has faced as the first African American president. One example is the passing of comprehensive health care reform. We discuss whether opposition to health care is driven by people's racial attitudes or their different views about the role of government. Others topics that the course will examine are: how Obama became the first African American president; the strategies his campaign used to motivate citizens to the voting booth; the public's reaction to Obama's election; racial group identity during the Obama era; Trump's victory as a response to Obama.
Credit Only Granted for: GVPT207 or GVPT289O.
Formerly: GVPT289O.

GVPT208 Political Science Topics in Study Abroad (3 Credits)
The study of topics in political science taken as part of an approved study abroad program.
Repeatable to: 9 credits if content differs.

GVPT210 Religions, Beliefs, and World Affairs (3 Credits)
Introduces students to an increasingly important question: what is the relationship between religion and politics around the world? For a long period in the 20th Century, religion seemed to be decreasing in importance. Eventually, it was thought, religion would simply go away and secularism, development, and rationality would rule the day. In the last generation, however, events like the Iranian Revolution, the rise of the Christian Right, 9/11, the Tibetan monks protest, the spread of Truth and Reconciliation Commissions, and numerous wars fought in the name of God have brought religion back to prominence in world affairs. In this course, we will explore the contemporary impact of religions on politics around the world, through four broad themes: how to understand religion in politics , the relationship between religion and the state, religious groups as sources of conflict and peace, and contemporary religio-political challenges.
Credit Only Granted for: GVPT210 or GVPT289L.
Formerly: GVPT289L.

GVPT211 Peace in our time? Conflict and Conflict Resolution in International Politics (3 Credits)
Is the world getting more peaceful? Wars rage in much of the world, leading millions of people to flee as refugees or internally displaced persons. Terrorist attacks kill thousands, and can occur in any corner of the planet. At the same time many actors use strategies such as peacekeeping, mediation, and human rights promotion to resolve conflicts and build peace. In this course, we examine conflict, peace, and conflict resolution in contemporary international politics. We interrogate concepts such as peace, conflict, and violence and the different forms they take. We discuss theoretical explanations for why individuals and groups have disputes and why they choose to use violence (or not) in these disputes. We analyze conflict resolution strategies such as mediation and peacekeeping theoretically and empirically. This discussion prepares students to develop an argument for whether the world is getting more peaceful and what this could mean about the future of violence and peace.
Credit Only Granted for: HNUH228A or GVPT211.
Formerly: HNUH228A.

GVPT217 Mock Trial (3 Credits)
Experience the excitement and reward of arguing, and perhaps winning your client's case in court. Mock Trial is designed for students who are interested in learning practical techniques for shaping the evidence, using the law, and exploiting the courtroom to create a coherent and convincing case theory.
Cross-listed with: MLAW217.
Credit Only Granted for: MLAW217, GVPT217, or GVPT319A.
Formerly: GVPT319A.

GVPT221 Introduction to Formal Theories of Political Behavior and Politics (3 Credits)
An introduction to the theories of rational choice including theories of negotiation and bargaining, elections and voting in democracies, community organizing and the contrast between the roles and performances of government and market.
Prerequisite: GVPT170.

GVPT228 The Craft of Political Science Research (4 Credits)
An introduction to research design and statistics applicable to political science.
Prerequisite: GVPT100 and GVPT170.
Restriction: Must be in a major in BSOS-College of Behavioral & Social Sciences; and sophomore standing or higher.
Repeatable to: 8 credits if content differs.
Formerly: GVPT227.

GVPT241 The Study of Political Philosophy: Ancient and Modern (3 Credits)
Examines some of the salient continuities and breaks between the ancient and modern traditions in Western political philosophy.

GVPT258 Introduction to Political Science Topics in Study Abroad (3 Credits)
The study of topics in political science taken as part of an approve study abroad program.
Repeatable to: 9 credits if content differs.

GVPT273 Introduction to Environmental Politics (3 Credits)
An overview of modern environmental philosophy, politics, and policy, exploring environmental politics in the US by way of comparison with other developed and developing countries.

GVPT280 The Study of Comparative Politics (3 Credits)
An introduction to the comparative study of politics and governance, including the analytical concepts for studies of politics and a survey of the major types of regimes, including democratic and authoritarian/communist regimes.

GVPT282 The Politics of Global Development (3 Credits)
A study of the domestic governmental institutions; processes and problems such as conflict and economic development; and the socio-economic environments that are common to lower-income countries around the world.

GVPT289 Special Topics in Government and Politics (1-6 Credits)
Substantive issues of and theoretical approaches to political phenomenon. Topics and credit vary.
Repeatable to: 6 credits if content differs.

GVPT289D How to Make Better Decisions (3 Credits)
The problem with decisions is that we rarely, if ever, find out if our decisions were good or bad. Was choosing your major, for instance, a good decision or could you have made a better one? I don't think most of us would ever know the answer to this question. So, is it possible that we regularly make bad decisions but don't know that we do? And, if so, how can we fix something if we don't know it is broken? In fact, we do regularly make bad decisions. This has been shown in many experimental studies some of which will be covered in this class. What is more, for some types of decision problems we are hardwired to make mistakes. This means that we are bound to go wrong regardless of how much we know or how smart we are. So, what can we do to remedy this problem? Quite a bit, as it turns out.

GVPT301 Identity and Conflict (3 Credits)
An examination of identity as a source of civil conflict. The course explores how identity is embedded in context, how identity is manipulated for political ends, and how identity conflict may be resolved.

GVPT306 Global Environmental Politics (3 Credits)
Focus on three processes of international environmental policy development- identifying problems, negotiating solutions, and implementing agreements- through a range of case studies, including global climate change.
Prerequisite: GVPT200.
Restriction: Must be in one of the following programs (Government & Politics; Government & Politics: International Relations) ; or permission of BSOS-Government & Politics department.

GVPT308 Political Science Topics in Study Abroad II (3 Credits)
The study of topics in political science taken as part of an approved study abroad program.
Repeatable to: 9 credits if content differs.

GVPT309 Topics in International Relations (3 Credits)
The study of topics in international relations.
Repeatable to: 6 credits if content differs.

GVPT317 Mock Trial II: Advanced Trial Advocacy (3 Credits)
Development of trial advocacy skills through participation in practice trials and intercollegiate mock trial competitions. Student may have an opportunity to represent the university in intercollegiate mock trial tournaments, including the National Mock Trial Championships.
Prerequisite: GVPT217.
Credit Only Granted for: GVPT317 or GVPT319B.
Formerly: GVPT319B.

GVPT318 Classroom to Careers (1 Credit)
Embarking on a career post-college is both an exhilarating and a challenging journey. This course is designed to demystify the transition from university to professional life for GVPT students. Throughout the course, students will engage in a structured process to identify their professional interests and navigate through potential career avenues. Additionally, weekly sessions will feature in-person meetings with GVPT alumni from diverse sectors, offering students a unique opportunity to gain insights from several real-world professional trajectories. By the course's conclusion, students will not only have a framework for career planning but also gain firsthand narratives that bridge the gap between academic study and professional endeavor.
Restriction: Must be in Government and Politics program.
Repeatable to: 2 credits if content differs.

GVPT319 Topics in Social Advocacy (1-3 Credits)
Reading, research and discussion of variety of topics related to social advocacy.
Repeatable to: 6 credits if content differs.

GVPT320 Advanced Empirical Research (3 Credits)
Allows students to build on the knowledge of statistical inference they gained from GVPT201. Topics include data collection, data cleaning, data analysis, and data visualization. By the time students complete this class, they will be able to do basic statistical modeling using OLS regression independently.
Prerequisite: GVPT201.
Restriction: Must be in Government & Politics or Government & Politics: International Relations program.

GVPT331 Courts, Law and Justice (3 Credits)
An introductory course to the study of law with emphasis on how lawyers and judges think and argue. Topics include, contract law, property, family law, torts, and criminal procedure.
Prerequisite: GVPT170.

GVPT339 Topics in Public Law (3 Credits)
The study of topics in public law.
Repeatable to: 6 credits if content differs.

GVPT349 Topics in Political Philosophy (3 Credits)
The study of topics in political philosophy.
Repeatable to: 6 credits if content differs.

GVPT354 International Development and Conflict Management (3 Credits)
Serves as the gateway course for the Minor in International Development and Conflict Management. Provides an introductory foundation in the theory and practice of international development and conflict management. Introduces the structures, key players, intersections, and main trends in the evolution of the fields. Explores causal factors that drive economic growth, poverty, inequality, and conflict, as well as the resources, methods, and tools available to track and address these issues.
Restriction: Sophomore standing or higher; and must be in one of the following minor programs (International Development and Conflict Management; Global Engineering Leadership; Global Poverty, Global Terrorism Studies) or have permission from the Center for International Development and Conflict Management program director, or must be in the Government and Politics major with permission of the Government and Politics department.
Additional Information: Students enrolled in MIDCM are expected to take the course during the Fall semester after admission to the program.

GVPT355 Capstone in International Conflict Management (3 Credits)
Serves as one of the two capstone courses for the Minor in International Development and Conflict Management. Focuses on advanced theory and the practice and profession of international conflict management and is designed to provide students an introduction to, and a chance to engage with, a core set of practical skills relevant to the field.
Prerequisite: GVPT354.
Restriction: Enrollment is restricted to students in the Minor in International Development and Conflict Management; and sophomore standing or higher; and permission of BSOS-Government & Politics department.

GVPT356 Capstone in International Development (3 Credits)
Serves as one of the two capstone courses for the Minor in International Development and Conflict Management. Focuses on advanced theory and the practice and profession of international development and is designed to provide students an introduction to, and a chance to engage with, a core set of practical skills relevant to the field.
Prerequisite: GVPT354.
Restriction: Enrollment is restricted to students in the Minor in International Development and Conflict Management; and sophomore standing or higher; and permission of BSOS-Government & Politics department.

GVPT357 IDCM Practicum Course (1 Credit)
Fulfills the practicum requirement for students who are completing the International Development and Conflict Management (IDCM) minor program. A main purpose of the course is to amplify the value of each student's practical experiences - typically an internship - by reflecting on, consolidating, and translating that background in preparation for pursuing post-graduation paths that relate to the fields of international development and conflict management. It is taken in conjunction with the student's practicum experience, either concurrently or afterward.
Prerequisite: GVPT354.
Restriction: Must be in the International Development and Conflict Management minor; and permission of the Program Director for International Development and Conflict Management.
Credit Only Granted for: BSOS388E or GVPT357.
Formerly: BSOS388E.
Additional Information: Students must have requested and received approval for their practicum experience prior to enrollment.

GVPT358 Study Abroad Seminar in Political Science (3 Credits)
The study of topics in political science.
Repeatable to: 9 credits if content differs.

GVPT359 Topics in Comparative Politics (3 Credits)
The study of topics in comparative politics.
Repeatable to: 6 credits if content differs.

GVPT360 International Negotiations (3 Credits)
A study of the complexities of international negotiation and cross-cultural decision-making. Students will apply advanced computer technology in an interactive simulation involving actual negotiations.
Prerequisite: GVPT200.

GVPT368 Special Topics in Government and Politics (3 Credits)
The study of topics in government and politics.
Repeatable to: 6 credits if content differs.

GVPT368C Asian American Politics (3 Credits)
Students will gain a greater understanding of 1) the role of Asian Americans in US politics, 2) the political attitudes and behaviors of Asian Americans and 3) how to conduct research on Asian American politics. Though the class will concentrate on Asian Americans, issues related to Asian American politics will be examined within the larger context of America's multicultural political landscape.
Cross-listed with: AAST443, AMST498J.
Credit Only Granted for: AAST498T, AAST443, GVPT368C or AMST 498J.
Formerly: AAST498T.

GVPT368P Political Psychology, Israel, and the Middle East (3 Credits)
What is the role of perceptions and misperceptions in international politics? How do emotions impact policy-making processes? Does social psychology matter when analyzing domestic politics or foreign policy? Political psychology is an interdisciplinary academic field dedicated to the analysis of the nexus between psychological and political processes. This course will identify and employ multiple pertinent political psychology theories to account for Israeli domestic politics and foreign policy as well as other major political events throughout the Middle East including nuclear proliferation, terrorism, and territorial expansionism
Cross-listed with: ISRL383.
Credit Only Granted for: ISRL329Q, ISRL383 or GVPT368P..
Formerly: ISRL329Q.

GVPT373 Geographic Information Systems for Redistricting (3 Credits)
Local, state and federal governments must periodically draw and redraw political boundaries to account for shifts in the population. This course will be an introduction and overview of district drawing and redistricting as an important application of GIS research in political science and public policy. This class will equip students to use convenient GIS tools to create and consider alternative district scenarios to find the best possible solution. After finishing this class students will be able to draw districts to define police beats, sales territories, congressional and state legislative districts, school and fire protection districts, and numerous other boundaries.Recommended: at least one course in statistics.
Prerequisite: GVPT392.
Recommended: at least one course in statistics.

GVPT376 Applied Field Research in Government and Politics (3-6 Credits)
Students in this course participate as interns in an agency of government or in some other appropriate political organization. Assignments are arranged to provide students with insights into both theoretical and practical aspects of politics. Under the tutelage of the host agency and an academic advisor, students conduct a major research project of mutual interest to the student and his or her host agency in the field of government and politics.
Prerequisite: GVPT170.
Corequisite: GVPT377.

GVPT377 Experiential Learning: Government and Politics Internship Program (3 Credits)
The application of major concepts of political science to the realities of the political process. The course connects internship experiences with larger themes of political science. Students must be admitted to the GVPT Internship Program.
Prerequisite: GVPT170.
Credit Only Granted for: GVPT377 or GVPT388W.
Formerly: GVPT388W.

GVPT379 Topics in American Politics (3 Credits)
The study of topics in American politics.
Repeatable to: 6 credits if content differs.

GVPT386 Experiential Learning (3-6 Credits)
Restriction: Permission of BSOS-Government & Politics department; and junior standing or higher.

GVPT388 Topical Investigations (1-3 Credits)
Independent research and writing on selected topics in government and politics.
Prerequisite: 1 course from GVPT200-299 course range.
Repeatable to: 6 credits if content differs.

GVPT389 Experiential Learning II (3-6 Credits)
Experiential credit for working in government & politics related internships, research, and teaching opportunities.
Restriction: Permission of BSOS-Government & Politics department; and junior standing or higher.
Repeatable to: 6 credits.

GVPT390 Game Theory (3 Credits)
Introduction to game theory with applications to political science, economics and sociology. Topics include preference theory, expected utility theory, Nash equilibria, subgame perfection, repeated games, folk theorems, and evolutionary stability.
Restriction: Must not have completed ECON414.
Credit Only Granted for: GVPT399A, GVPT390, CMSC474 or ECON414.
Formerly: GVPT399A.

GVPT392 Introduction to Geographic Information Systems for Social Science Research (3 Credits)
Introduction to the use of Geographic Information Systems for conducting research in the social sciences. Overview of spatially embedded nature of many social science phenomena and content of theories common to spatial thinking. Students will obtain hands-on experience with various GIS tools and methods most frequently employed by social scientists.
Credit Only Granted for: GVPT392, GVPT429A, or GVPT729D.
Formerly: GVPT429A, GVPT729D.

GVPT393 Intermediate Geographic Information Systems (3 Credits)
Part II of a two-semester course that integrates Geographic Information Systems with social science research. Lectures and readings will motivate the use of GIS by exposure to research applications in international relations; political and non-profit fundraising; environmental justice; public health; race relations; business and economics.
Prerequisite: Must have completed one GIS course and at least one course in statistics.
Credit Only Granted for: GVPT368I, GVPT393 or GEOG498W.
Formerly: GVPT368I.

GVPT396 Introduction to Honors Research (3 Credits)
A required course for all honors students designed to emphasize library research, methodology, and writing skills in political science and political philosophy. A written proposal, bibliography and research design for an honors paper required of all students as a final project.
Restriction: Must be in Government & Politics Honors Program; and must have permission of the Government & Politics Honors Program.

GVPT397 Honors Research (3 Credits)
Individual reading and research. Preparation of an original paper.
Prerequisite: GVPT396.
Restriction: Must be in Government & Politics Honors Program.

GVPT399 Seminar in Government and Politics (3 Credits)
Reading, research, discussion, analysis, and writing in the area of politics. Both substantive issues and methodological approaches will be considered. Primarily for government and politics undergraduate majors.
Prerequisite: 1 course from GVPT200-299 course range.

GVPT402 International Law (3 Credits)
A study of the basic character, general principles and specific rules of international law, with emphasis on recent and contemporary trends in the field and its relation to other aspects of international affairs.
Prerequisite: GVPT200.
Restriction: Must be in Government & Politics program; and junior standing or higher.

GVPT404 Political Economy of Foreign Aid (3 Credits)
The world spends hundreds of billions of dollars on foreign aid every year. The effects of this aid spending are controversial. Research supports both pessimistic and optimistic views of foreign aid's effectiveness, with little consensus. Where does aid money go? What are the motivations of aid donors? Is foreign aid effective at achieving its goals? Why or why not? This course is designed to survey the promise and the challenges of foreign aid as a policy tool. The first half of the course will focus on the motivations and goals of foreign aid. We will consider various foreign aid donors, such as countries, institutions, and individuals, to understand the motivations behind and effects of foreign aid. We will create a typology of foreign aid agendas, motivations, and donors. The second half of the course will consider the challenges specific to foreign aid. This includes both technical challenges and political challenges. We will consider the strategies that aid donors and organizations have taken to try to overcome these challenges.
Recommended: GVPT200.
Restriction: Must be in Government & Politics or Government & Politics: International Relations program.
Credit Only Granted for: GVPT409R or GVPT404.
Formerly: GVPT409R.

GVPT406 International Organizations (3 Credits)
A basic introduction to the full range of international organizations that have come into being over the past century and one-half, including those that aspire to be universal or global, those with a geopolitical or regional focus, and those that address specific structural or functional areas of human endeavor or issue areas.
Prerequisite: GVPT200.
Restriction: Must be in Government & Politics program; and junior standing or higher. Or must be in Government & Politics: International Relations program; and junior standing or higher.

GVPT407 International Political Economy (3 Credits)
Introduces the field of international political economy, which analyzes the ways in which economic and political changes produce both economic and political reactions.
Prerequisite: GVPT200.
Restriction: Must be in Government & Politics program; and junior standing or higher.

GVPT409 Seminar in International Relations and World Politics (3 Credits)
Reading, writing, and research on topics in international relations and world politics. Both substantive issues and methodological approaches will be considered.
Prerequisite: GVPT200.
Restriction: Must be in one of the following programs (Government & Politics; Government & Politics: International Relations) ; and junior standing or higher.
Repeatable to: 9 credits if content differs.

GVPT410 Politics of Nationalist and Ethnic Conflict (3 Credits)
An examination of the major causes and consequences of ethnic, nationalist, and separatist conflict. The course will focus on both theories of ethnicity and nationalism, as well as theories of conflict related to these issues. The course will also explore empirical trends in ethnic and nationalist politics.
Prerequisite: GVPT200.
Restriction: Must be in one of the following programs (Government & Politics; Government & Politics: International Relations).
Credit Only Granted for: GVPT409M or GVPT410.
Formerly: GVPT409M.

GVPT411 Conflict in the International System (3 Credits)
In this course, we will examine conflict, peace, and conflict resolution in contemporary international politics. We will interrogate what we mean by concepts such as peace, conflict, and violence, the different forms that these phenomena can take, and how we can measure their occurrence. We will discuss theoretical explanations for why individuals and groups have disputes, why these actors choose to use violence (or not) in these disputes, and ways in which violent disputes can be resolved peacefully. We will examine these arguments in a detailed study of conflicts in the Middle East, as well as by evaluating published articles that examine the effectiveness of conflict management strategies such as peacekeeping.
Prerequisite: GVPT200.
Restriction: Must be in Government & Politics or Government & Politics: International Relations program.
Credit Only Granted for: GVPT409P or GVPT411.
Formerly: GVPT409P.

GVPT413 Peace, Justice, and Conflict Resolution (3 Credits)
An examination of classic and contemporary perspectives on peace, justice, and conflict resolution after armed conflict. The goal of this course is to expose students to the advantages, risks, and challenges of the most prominent methods of conflict mitigation and resolution, including mediation and arbitration; peacekeeping, peacemaking, and peacebuilding; the protection of civilians, Responsibility to Protect, and humanitarian assistance; elections, democratization, and power-sharing; and transitional reconciliation and justice. We will do this by reading, discussing, and synthesizing classic and cutting-edge Political Science research on these topics.
Recommended: GVPT200.
Restriction: Must be in Government & Politics or Government & Politics: International Relations program.
Credit Only Granted for: GVPT409A or GVPT413.
Formerly: GVPT409A.

GVPT414 International Relations of East Asia (3 Credits)
An examination of international relations in East Asia, focusing mostly on Northeast Asia. The course will provide some background on the evolution of international politics in the region over the past several decades, and will examine several contemporary issues--including the North Korean nuclear issue, the relationship across the Taiwan Strait, and maritime disputes in the East and South China Seas--in depth.
Prerequisite: GVPT200.
Restriction: Must be in Government & Politics or Government & Politics: International Relations program.
Credit Only Granted for: GVPT409E or GVPT414.
Formerly: GVPT409E.

GVPT417 Seminar in Advanced Topics in Environmental Policy Analysis (3 Credits)
A series of critical tools and methods used to analyze environmental policy. This class should be of interest to students who are either considering a career or graduate studies in environmental protection.
Prerequisite: GVPT273.
Restriction: Must be in one of the following programs (Government & Politics; Environmental Sci&Policy-Env Politics & Policy).
Credit Only Granted for: GVPT419B or GVPT417.
Formerly: GVPT419B.

GVPT419 Seminar in Public Policy (3 Credits)
Reading, writing, and research on topics in public policy. Both substantive issues and methodological approaches will be considered.
Prerequisite: GVPT241 and GVPT170.
Recommended: GVPT270.
Restriction: Must be in Government & Politics program.
Repeatable to: 6 credits if content differs.

GVPT420 The Logic and Practice of Measuring Political Behavior (3 Credits)
Introduction to concepts and practices used for measuring political behavior. Political analysis is an increasingly quantitative field. It is crucial for students of political behavior to learn how to define concepts in concrete ways, examine different methods of measuring concepts, learn how to test the quality of chosen measures, learn how to construct richer measures out of multiple questions, and finally how to examine the relationship between multiple measures of similar concepts. Common pitfalls, errors, bias, and ethics will be examined along the way.
Prerequisite: GVPT201.
Restriction: Must be in Government & Politics program; or must be in Government & Politics: International Relations program.

GVPT421 Advanced Quantitative Methods (3 Credits)
Advanced quantitative methods for political science research.
Prerequisite: GVPT201.
Restriction: Must be in one of the following programs (Government & Politics; Government & Politics: International Relations).

GVPT422 Quantitative Political Analysis (3 Credits)
Introduction to quantitative methods of data analysis, including selected statistical methods, block analysis, content analysis, and scale construction.
Prerequisite: GVPT241 and GVPT170.
Recommended: GVPT220.
Restriction: Must be in Government & Politics program.

GVPT423 Elections and Electoral Behavior (3 Credits)
An examination of various topics relating to elections; the focus includes the legal structure under which elections are conducted, the selection and nomination process, the conduct of election campaigns, and patterns of political participation and voting choice in different types of elections.
Prerequisite: GVPT241 and GVPT170.
Restriction: Must be in Government & Politics program.

GVPT424 Quantitative Study of International Relations (3 Credits)
A comprehensive introduction to the quantitative study of international conflict. Students will perform statistical analysis of international conflict data using the R software platform.
Prerequisite: GVPT201.
Restriction: Must be in one of the following programs (Government & Politics; Government & Politics: International Relations).
Credit Only Granted for: GVPT409H (Fall 2015 and Fall 2016) or GVPT424.
Formerly: GVPT409H (Fall 2015 and Fall 2016).

GVPT428 Topics in Formal Theories of Political Behavior and Politics (3 Credits)
An evaluation of theories of political behavior such as game, social choice and voting theory, and their applications to problems of distribution and social justice, community organizing, responsive public policy, institutional design, and alliance and coalition formation.
Prerequisite: GVPT241 and GVPT221.
Restriction: Must be in Government & Politics program.
Repeatable to: 6 credits if content differs.

GVPT429 Problems in Political Behavior (3 Credits)
The problem approach to political behavior with emphasis on theoretical and empirical studies on selected aspects of the political process.
Prerequisite: GVPT241.
Recommended: GVPT220.
Restriction: Must be in Government & Politics program.

GVPT431 Introduction to Constitutional Law (3 Credits)
A systematic inquiry into the general principles of the American constitutional system, with special reference to the role of the judiciary in the interpretation and enforcement of the federal constitution.
Prerequisite: GVPT170 and GVPT331.
Restriction: Must be in one of the following programs (Government & Politics; Government & Politics: International Relations) ; and junior standing or higher.

GVPT432 Civil Rights and the Constitution (3 Credits)
A study of civil rights in the American constitutional context, emphasizing freedom of religion, freedom of expression, minority discrimination, and the rights of defendants.
Prerequisite: GVPT170 and GVPT331.
Restriction: Must be in one of the following programs (Government & Politics; Government & Politics: International Relations).

GVPT439 Seminar in Public Law (3 Credits)
Reading, writing, and research on topics in public law. Both substantive issues and methodological approaches will be considered.
Prerequisite: GVPT241 and GVPT170.
Recommended: GVPT331.
Restriction: Must be in Government & Politics program; and junior standing or higher.
Repeatable to: 6 credits if content differs.

GVPT442 History of Political Theory--Medieval to Recent (3 Credits)
A survey of the principal theories set forth in the works of writers from Machiavelli to Nietzsche.
Prerequisite: GVPT241.
Restriction: Must be in Government & Politics program.

GVPT443 Contemporary Political Theory (3 Credits)
A survey of the principal political theories and ideologies set forth in the works of writers from Karl Marx to the present.
Prerequisite: GVPT241.
Restriction: Must be in Government & Politics program.

GVPT445 Marxism and Postmarxism (3 Credits)
The study of Marxist thought and an assessment of the critical transformations and reassessments of the theory and practice of Marxism.
Restriction: Must be in a major within BSOS-Government & Politics department.

GVPT448 Non-Western Political Thought (3 Credits)
Examination of works by major authors and general themes of political thought originating in Asia, the Middle East, and Africa. This is not a survey of all non-Western political thought, but a course to be limited by the professor with each offering.
Prerequisite: GVPT241.
Restriction: Must be in Government & Politics program.
Additional Information: Permission of department required for repeat.

GVPT449 Seminar in Political Philosophy (3 Credits)
Reading, writing, and research on topics in political philosophy. Both substantive issues and methodological approaches will be considered.
Prerequisite: GVPT241.
Restriction: Must be in Government & Politics program.
Repeatable to: 6 credits if content differs.

GVPT454 Seminar in the International Relations of China (3 Credits)
Explores the foreign relations behavior of the People's Republic of China, with focus on the contemporary era.
Prerequisite: GVPT200.
Restriction: Must be in Government & Politics program; and junior standing or higher. Or must be in Government & Politics: International Relations program; and junior standing or higher.

GVPT456 The Politics of Terrorism (3 Credits)
Examination of the definition, causes and organization of terrorist activity, along with key domestic and international counter- and anti-terrorism responses. Special emphasis on challanges and opportunities to the scientific study of terrorism.
Prerequisite: GVPT200.
Restriction: Must be in Government & Politics program; or must be in Government & Politics: International Relations program.
Credit Only Granted for: GVPT456 or GVPT459T.
Formerly: GVPT459T.

GVPT457 American Foreign Relations (3 Credits)
The principles and machinery of the conduct of American foreign relations and an analysis of the major foreign policies of the United States.
Prerequisite: GVPT200.
Restriction: Must be in Government & Politics program; and junior standing or higher.

GVPT458 Special Topics in Study Abroad IV (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

GVPT459 Seminar in Comparative Politics (3 Credits)
Reading, writing, and research on topics in comparative politics. Both substantive issues and methodological approaches will be considered.
Prerequisite: GVPT200; and (GVPT282 or GVPT280).
Restriction: Must be in Government & Politics program; or must be in Government & Politics: International Relations program.
Repeatable to: 6 credits if content differs.

GVPT460 State Politics and Government (3 Credits)
A study of the structure, procedures and policies of state governments with special emphasis on intergovernmental relationships, and with illustrations from Maryland governmental arrangements.
Prerequisite: GVPT241 and GVPT170.
Recommended: GVPT260.
Restriction: Must be in Government & Politics program; or must be in Government & Politics: International Relations program.

GVPT461 Local Politics and Government (3 Credits)
An introduction to local government and politics in the U.S. context. The course explores the evolution of local jurisdictions, particularly cities, and the politics of local level decision making.
Prerequisite: GVPT170.
Restriction: Must be in Government & Politics program; or must be in Government & Politics: International Relations program.
Credit Only Granted for: GVPT461 or GVPT479L.
Formerly: GVPT479L.

GVPT473 The U.S. Congress (3 Credits)
A detailed survey of lawmaking and the legislative process, emphasizing the U.S. Congress, and its members.
Prerequisite: GVPT241 and GVPT170.
Restriction: Junior standing or higher. And must be in Government & Politics program; or must be in Government & Politics: International Relations program.

GVPT474 Political Parties (3 Credits)
A descriptive and analytical examination of American political parties, nominations, elections, and political leadership.
Prerequisite: GVPT241 and GVPT170.
Restriction: Must be in Government & Politics program.

GVPT475 The Presidency and the Executive Branch (3 Credits)
An examination of the U.S. presidency in historical and contemporary perspective: nomination and electoral politics and the president's place in policy-making, administration, and public opinion.
Prerequisite: GVPT241 and GVPT170.
Restriction: Must be in Government & Politics program; and junior standing or higher.

GVPT476 The Business Government Relationship (3 Credits)
Examines the structures, process, and outcomes of business and government and the politics and products of their cooperative-adversarial relationships in the United States. The design integrates interest group and administrative politics and the public policy process.
Prerequisite: GVPT241 and GVPT170.
Recommended: GVPT270.
Restriction: Must be in Government & Politics program.

GVPT477 Voting and Participation (3 Credits)
A study of the factors that influence individual vote choice and voter participation in the U.S. The course will introduce political science research pertaining to both topics and will engage current controversies over such things as political campaign laws and the various state and federal rules that govern election administration.
Prerequisite: GVPT170 and GVPT241.
Restriction: Must be in Government & Politics program.

GVPT479 Seminar in American Politics (3 Credits)
Reading, writing, and research on topics in American politics. Both substantive issues and methodological approaches will be considered.
Prerequisite: GVPT241 and GVPT170.
Restriction: Must be in Government & Politics program; and junior standing or higher.
Repeatable to: 6 credits if content differs.

GVPT481 Government and Administration of Russia and the States of the Former Soviet Union (3 Credits)
A comparative study of the governmental systems and political processes of the states of the former Soviet Union.
Prerequisite: GVPT200; and (GVPT282 or GVPT280).
Restriction: Must be in Government & Politics program.

GVPT482 Government and Politics of Latin America (3 Credits)
A comparative study of the governmental systems and political processes of the Latin American countries.
Restriction: Must be in Government & Politics program; or must be in Government & Politics: International Relations program.

GVPT484 Government and Politics of Africa (3 Credits)
A comparative study of the governmental systems and political processes of the African countries, with special emphasis on the problems of nation-building in emergent countries.
Prerequisite: GVPT282 or GVPT280.
Restriction: Must be in one of the following programs (Government & Politics; Government & Politics: International Relations).

GVPT485 Government and Politics of the Middle East (3 Credits)
A comparative study of the governmental systems and political processes of Middle Eastern countries, with special emphasis on the problems of nation-building in emergent countries.
Prerequisite: GVPT200; and (GVPT282 or GVPT280).
Restriction: Must be in Government & Politics program.
Credit Only Granted for: GVPT485 or GVPT459E.
Formerly: GVPT459E.

GVPT487 Government and Politics of China (3 Credits)
Discussion of major issues in the study of the domestic politics of the People's Republic of China.
Restriction: Must be in one of the following programs (Government & Politics; Government & Politics: International Relations) ; and junior standing or higher.
Credit Only Granted for: GVPT359A or GVPT487.
Formerly: GVPT359A.

HACS - ACES-Cybersecurity

HACS100 Foundations in Cybersecurity I (2 Credits)
Interdisciplinary foundational course of the ACES program. Through lectures, lab activities, and discussions, students will learn and practice various aspects of cybersecurity. Weekly technical lectures will introduce students to the operating system UNIX. Students will partner with the Division of Information Technology in a project to engage the University of Maryland community in a cyber- hygiene and cyber-ethics campaign based on the concepts learned in class.
Restriction: Must be a first-semester student in the ACES (Advanced Cybersecurity Experience for Students) Living-Learning Program.

HACS101 Applied Cybersecurity Foundations (2 Credits)
Prepares students for team research that will be conducted in HACS 200. Students gain an understanding across the breadth of cybersecurity including system monitoring, networking basics and penetration testing. An applied approach to statistics is also included to prepare students to assess the data collected for their research projects. The course is conducted with a hands-on approach applying virtual environments to practice the concepts learned in the technical lectures each week.
Prerequisite: Minimum grade of C- in HACS100.
Restriction: Must be a second-semester student in the ACES (Advanced Cybersecurity Experience for Students) Living-Learning Program.

HACS200 Applied Cybersecurity Foundations II (2 Credits)
Students will apply the skills learned in HACS 100 and 101 to practice cybersecurity research through team led projects employing honeypots, carrying that project through all stages - proposal, implementation, and analysis. Weekly lectures will supplement project work by addressing trends observed in honeypot attacks and protections needed, along with data collection and analysis tools, and other foundational cybersecurity concepts.
Prerequisite: Minimum grade of C- in HACS101.
Restriction: Must be a third-semester student in the ACES (Advanced Cybersecurity Experience for Students) Living-Learning Program.

HACS201 Introduction to UNIX (1 Credit)
Introduction to the operating system UNIX through lectures and hands-on assignments.
Restriction: Must be a first-year student in the ACES (Advanced Cybersecurity Experience for Students) Minor Program.
Credit Only Granted for: HACS201 or CMSC216.
Additional Information: Required course for students who have not completed the ACES Living-Learning Program or taken CMSC216.

HACS202 Group Project in Cybersecurity (3 Credits)
The group project in this course will combine technical, analytical, and communication skills, further engaging students in the practice of cybersecurity. Students will learn about design concepts and data analysis as they engage in a team project designing, deploying, and collecting and analyzing data from a honeypot. The hands-on nature of the course will give students experiential insight about how and why attackers attack and how to engage in protective measures to prevent attacks.
Restriction: Must be a first-year student in the ACES (Advanced Cybersecurity Experience for Students) Minor Program; and cannot have been an ACES Living-Learning Program student (i.e., have taken HACS100, HACS101 and HACS200).

HACS208 Seminar in Cybersecurity (3 Credits)
Explores various lenses of cybersecurity in order to promote an interdisciplinary understanding of the field. Although each section may focus on a different topic, each integrates active student engagement, communication, critical communication, critical thinking, and teamwork.
Restriction: Must be a student in the ACES (Advanced Cybersecurity Experience for Students) Living-Learning Program.
Repeatable to: 6 credits if content differs.

HACS208A Accounting and Economic Aspects of Cybersecurity (3 Credits)
In today's interconnected digital world, cybersecurity has become one of the most important issues confronting organizations in both the private and public sectors of an economy. Indeed, cybersecurity is a national and economic security priority in countries throughout the world. This is an interdisciplinary Honors Seminar offered as part of UMD's ACES program. The primary objective of this course is to discuss the relationships among accounting, economics and cybersecurity, with a focus on the important roles of accounting and economics in understanding the issues related to cybersecurity. A basic framework for assessing the interactions among accounting, economics, and cybersecurity will be developed and discussed. A secondary objective of the course is to assist ACES students in developing their ability to conduct original and applied research on topics related to "accounting and economic aspects of cybersecurity."
Restriction: Must be a student in the ACES (Advanced Cybersecurity Experience for Students) Living-Learning Program.

HACS208E Introduction to Reverse Engineering (3 Credits)
An introduction to software reverse engineering tools and methodologies. Fundamental topics will be introduced: compilers, linkers, loaders, assembly language, as well as static and dynamic analysis tools. We will motivate some reasons for software reverse engineering and examine the background material necessary for an understanding of the subject. This will include computer architecture and low-level systems programming, as well as an introduction to x86_64 assembly language. We will apply this newly acquired knowledge while learning about static and dynamic analysis tools used by practitioners of software reverse engineering.
Restriction: Must be a student in the ACES (Advanced Cybersecurity Experience for Students) Living-Learning Program.

HACS208I Security Incident Handling and Management (3 Credits)
Examines the many roles, capabilities, organizations, and objectives involved in security incident handling and management. Core course content includes three major components: learning about the skill sets that people use, participating in role playing exercises that increasingly build upon this knowledge, and finally conducting exercises in a lab environment simulating security incident discovery, handling, and management.
Restriction: Must be a student in the ACES (Advanced Cybersecurity Experience for Students) Living-Learning Program.

HACS208M Project Management Techniques for IT Professionals (3 Credits)
This course aims to build an in-depth understanding of project management methodologies for IT professionals. The course explores the application of Project Management Institute (PMI) guidelines for managing projects and PMP certification. Topics include an overview of PMI standards and project management, various roles in managing technical projects, work breakdown structures, security considerations, risk assessment, testing, and implementation. The students will have an opportunity to learn how to apply PMI guidelines in a real world software development project.
Restriction: Must be a student in the ACES (Advanced Cybersecurity Experience for Students) Living-Learning Program.

HACS208N Digital Forensics (3 Credits)
Explores the various fields of digital forensics, such as memory, hard drive, and network traffic analysis. This course covers the legalities involved with forensic investigations and the wide variety of digital forensics tools, including both open source and proprietary. This course includes the different types of forensic artifacts that can be acquired and analyzed and review the careers and certifications relevant to the field.
Restriction: Must be a student in the ACES (Advanced Cybersecurity Experience for Students) Living-Learning Program.

HACS208P Beyond Technology, the Policy Implications of Cyberspace (3 Credits)
Explores the key issues facing policy makers attempting to manage the problem of cybersecurity from its technical foundations to the domestic and international policy considerations surrounding governance, response, and critical infrastructure risk management. The course is designed for students with little to no background in information technology, and will provide the principles to understand the current debates shaping a rapidly evolving security landscape.
Restriction: Must be a student in the ACES (Advanced Cybersecurity Experience for Students) Living-Learning Program.

HACS208Z Methods for Solving (And not Solving) Puzzles (3 Credits)
Surveys modern problems from different domains in computer science and cybersecurity to train our minds to appropriately approach puzzles we encounter in the future. This course covers graph theory, including what a graph is and the kinds of objects it can model, connectivity types, and vertex/edge covers algorithms. This course covers computer networks, including the models used for network stacks and what algorithms are used to solve difficult problems present in our current networks. This course covers algorithm analysis, including greedy algorithms, big O complexity, and how to analyze the capabilities and limitations of an algorithm. This course introduces cryptography, including the difference between public-key and symmetric-key cryptography, how RSA works, and the cryptanalysis of well-known cryptosystems.
Restriction: Must be a student in the ACES (Advanced Cybersecurity Experience for Students) Living-Learning Program.

HACS279 Undergraduate Research in Cybersecurity (1-3 Credits)
The Advanced Cybersecurity Experience for Students (ACES) program encourages its students to engage in research in order to gain greater insight into a specific area within cybersecurity, obtain an appreciation for the subtleties and difficulties associated with the production of knowledge and fundamental new applications, and to prepare for graduate school and the workforce.
Restriction: Must be a student in the ACES (Advanced Cybersecurity Experience for Students) Living-Learning Program; and permission of UGST-HCOL-ACES Cybersecurity Program.
Repeatable to: 6 credits if content differs.

HACS287 Undergraduate Research in Cybersecurity (3 Credits)
The Advanced Cybersecurity Experience for Students (ACES) program encourages its students to engage in research in order to gain greater insight into a specific area within cybersecurity, obtain an appreciation for the subtleties and difficulties associated with the production of knowledge and fundamental new applications, and to prepare for graduate school and the workforce.
Restriction: Must be a student in the ACES (Advanced Cybersecurity Experience for Students) Living-Learning Program; and permission of UGST-HCOL-ACES Cybersecurity Program.

HACS297 Cybersecurity Experience Reflection (3 Credits)
Cybersecurity experience is defined as an experiential learning activity either with a University of Maryland entity (such as the Division of Information Technology, the ACES competition team or in an ACES outreach program), or with an external organization that will provide valuable, hands-on experience to supplement the knowledge learned in the other ACES coursework.
Restriction: Must be a student in the ACES (Advanced Cybersecurity Experience for Students) Living-Learning Program; and permission of UGST-HCOL-ACES Cybersecurity Program.

HACS318 Cybersecurity Professionals Colloquium Series (1 Credit)
The Cybersecurity Professionals Colloquium Series explores various lenses of cybersecurity in order to promote an interdisciplinary understanding of the field. The colloquium series consists of guest lectures of cybersecurity professionals. In written assignments, students will not only summarize the lecture content but also reflect on the significance of the lecture content for the field of cybersecurity.
Restriction: Must be a student in the ACES (Advanced Cybersecurity Experience for Students) Minor Program.
Repeatable to: 2 credits.

HACS402 Applied Security Analysis and Visualization (3 Credits)
Focuses on exploratory and statistical data analysis, data and information visualization, and the presentation and communication of analysis results. These topics will be presented and explored in the context of and with applications to cybersecurity related data.
Restriction: Must be a student in the ACES (Advanced Cybersecurity Experience for Students) Minor Program.

HACS408 Advanced Seminar in Cybersecurity (3 Credits)
Explores various lenses of cybersecurity in order to promote an interdisciplinary understanding of the field. Although each section may focus on a different topic, each integrates active student engagement, communication, critical communication, critical thinking, and teamwork.
Restriction: Must be a student in the ACES (Advanced Cybersecurity Experience for Students) Minor Program.
Repeatable to: 9 credits if content differs.

HACS408C Interpersonal Cyber Communications (3 Credits)
Designed to prepare students to participate in culturally responsible and environmentally appropriate communication in the workforce. Students will explore the industry standards for writing technical reports, as well as the variances between persuasive, team, written, and oral communication styles.
Restriction: Must be a student in the ACES (Advanced Cybersecurity Experience for Students) Minor Program.

HACS408L Analytical and Forensic Techniques for Cybersecurity (3 Credits)
Explores forensic artifacts contained in digital devices, security mechanisms available to protect digital devices and mechanisms available to cybersecurity professionals for analysis of digital devices. Topics include file structure and recovery of IoT and cell phone forensic data, network data capture and analysis, enterprise mobile device management analysis and forensic investigation of digital devices (IoT, telematics systems, etc.) that interact with cell phone and other devices. Incident response, timeline analysis, and detection and analysis of artifacts will be explored in a hands-on and lab-centric course using a variety of open-source tools and commercial cloud services.
Restriction: Must be a student in the ACES (Advanced Cybersecurity Experience for Students) Minor Program.

HACS408M Introduction to Cyber Threats and Risk Management (3 Credits)
Provides an exploration of cyber risk management and present-day cyber threats, their impacts, and their mitigations. Students will take a multi-disciplinary approach to understanding threats and risks including the technical, policy, and social aspects. This course is guided by real-world cyber threats and examples.
Restriction: Must be a student in the ACES (Advanced Cybersecurity Experience for Students) Minor Program.

HACS408O Internet of Things Security (3 Credits)
This increasingly interconnected world brings a need for understanding cybersecurity challenges associated with embedded devices and systems. This course will expose students to topics in Internet of Things (IoT) and Cyber Physical System (CPS) device types, IoT/CPS threat categories, security services, distributed networking, activity privacy, and intrusion detection for embedded environments. In addition to individual homework assignments, students will participate in a semester long group project involving research, design, and implementation.
Restriction: Must be a student in the ACES (Advanced Cybersecurity Experience for Students) Minor Program.

HACS408T Penetration Testing (3 Credits)
A hands-on, technically rigorous experience that prepares students for real-world work in penetration testing and offensive security. This course will allow students to gain proficiency and become comfortable using the tools, techniques, and methodologies that represent the state of the art in penetration testing today. Students should be comfortable on the command line, and a technical exposure to networking and basic proficiency in some scripting language (Bash, Ruby, or Python) is expected.
Restriction: Must be a student in the ACES (Advanced Cybersecurity Experience for Students) Minor Program.

HACS408V Data Analysis and Visualization for Cybersecurity (3 Credits)
Focuses on exploratory and statistical data analysis, data and information visualization, and the presentation and communication of analysis results. These topics will be presented and explored in the context of and with applications to cyber security related data. Examples and illustrations will often involve the R programming language, but prior experience with R is not required and submitted work may involve the use of other languages and tools at times.
Restriction: Must be a student in the ACES (Advanced Cybersecurity Experience for Students) Minor Program.

HACS479 Undergraduate Research in Cybersecurity (1-3 Credits)
The Advanced Cybersecurity Experience for Students (ACES) program encourages its students to engage in research in order to gain greater insight into a specific area within cybersecurity, obtain an appreciation for the subtleties and difficulties associated with the production of knowledge and fundamental new applications, and to prepare for graduate school and the workforce.
Restriction: Must be a student in the ACES (Advanced Cybersecurity Experience for Students) Minor Program; and permission of UGST-HCOL-ACES Cybersecurity Program.
Repeatable to: 6 credits if content differs.

HACS487 Undergraduate Research in Cybersecurity (3 Credits)
A semester-long, individualized academic research project. Students work with a faculty supervisor to design and research an original topic. Students engage in research to gain greater insight into a specific area within cybersecurity, obtain an appreciation for the subtleties and difficulties associated with the production of knowledge and fundamental new applications, and prepare for graduate school and/or the workforce.
Restriction: Must be a student in the ACES (Advanced Cybersecurity Experience for Students) Minor Program; and permission of UGST-HCOL-ACES Cybersecurity Program.

HACS497 Cybersecurity Experience Reflection (3 Credits)
Cybersecurity experience is defined as an experiential learning activity either with a University of Maryland entity or with an external organization that will provide valuable, hands-on experience to supplement the knowledge learned in other ACES coursework. This course is intended to help students reflect on their cybersecurity experience and to learn from others' cybersecurity experiences. It is also intended to help students gain professional skills that will aid in their future career.
Prerequisite: Students may enroll concurrently with or after completing a cybersecurity related internship experience of at least 135 hours.
Restriction: Must be a student in the ACES (Advanced Cybersecurity Experience for Students) Minor Program; and must not have taken HACS297.
Credit Only Granted for: HACS297 or HACS497.

HACS498 Cybersecurity Group Problem Solving (3 Credits)
The Advanced Cybersecurity Experience for Students (ACES) program encourages its students to engage in team problem solving activities in order to gain greater insight into a specific area within cybersecurity and to obtain an appreciation for the subtleties and difficulties associated with these activities in order to prepare students for graduate school and the workforce. Students engage in a semester long problem solving or development project under the mentorship of a industry specialist and with the guidance of university faculty. Through the exercise the students will develop teamwork experience and professional communication skills in addition to experience of the project itself. The project might be evaluation, creation, testing or analysis of some area of cybersecurity as needed by the mentor-sponsor. A contract of what will be accomplished is required must be agreed upon by the mentor, the student and the ACES leadership before the project can begin.
Restriction: Must be a student in the ACES (Advanced Cybersecurity Experience for Students) Minor Program; and permission of UGST-HCOL-ACES Cybersecurity Program.
Repeatable to: 6 credits.

HBUS - Interdisciplinary Business Honors

HBUS100 The Future of Work: Interdisciplinary Foundations and Horizons of Business (3 Credits)
What should the future of work look like? Traditional hierarchies have come under increased scrutiny today for many reasons especially because it may not promote diversity, equity, and inclusion in the workplace. Moreover, they may not encourage experimentation, innovation, and business success. Not surprisingly then, companies are redefining what the future of work should look like. What are the shared responsibilities of an employer and employee? How can technology improve productivity and promote equity? What culture should businesses promote to welcome all employees and ensuring accountability? This course will address these and related questions.

HBUS105 The Future of Analysis: Making Data Driven Decisions in Business (3 Credits)
Students will address questions regarding how business is being shaped by the increased use of data. The course draws from various quantitative, computation, and technical fields to develop a big picture understanding of data science in business. Through examples and applications, students will address the challenging questions related to artificial intelligence, data science bias, and privacy.
Prerequisite: HBUS100.

HBUS200 Business and Deliberation: Innovation and Equity in Conditions of Uncertainty and Diversity (3 Credits)
How can managers better promote a diversity of thought within their organization? When business leaders tap into the plurality of perspectives among their employees, they can improve on many dimensions. Unfortunately, many businesses fail to create a culture of inclusion that puts them at a disadvantage when managing uncertainty. How can managers better listen to internal and external stakeholders? How can these diverse perspectives better inform business decision making? How can businesses with multiple objectives - such as triple bottom line companies - better engage with their employees, customers, and corporate partners? This course will address these and related questions.
Prerequisite: HBUS100 and HBUS105.

HBUS205 Capstone in Interdisciplinary Business (3 Credits)
As the capstone course in the Interdisciplinary Business Honors (IBH) Program, this course will give students the opportunity to apply what they have learned in the IBH program to a real-world company. This company will help present students with an opportunity to address a pressing challenge
Prerequisite: HBUS100, HBUS105, and HBUS200.
Restriction: Must be in the Interdisciplinary Business Honors Program.

HBUS307 Business Experience Reflection (3 Credits)
This course includes reflection on a completed business experience and preparation for future professional experiences. A business experience is defined as an experiential learning activity either with an external organization, i.e. an internship, or with a University of Maryland organization, that will provide valuable, hands-on experiences to supplement the knowledge learned in the IBH curriculum.
Restriction: Must be a student in the Interdisciplinary Business Honors Program; and permission of the IBH Program.

HDCC - Design Cultures and Creativity

HDCC105 Introduction to Design Cultures and Creativity I (3 Credits)
History, concepts, and technologies of creative design expression, coupled with an introduction to development for particular platforms and devices.
Restriction: Must be in the Design Cultures and Creativity Honors College Living/Learning program.

HDCC106 Seminar in Design Cultures & Creativity (3 Credits)
Introduction to the methods and theory of design production, with emphasis on creative and expressive platforms.
Restriction: Must be in the Design Cultures and Creativity Honors College Living/Learning program.

HDCC201 Capstone Proposal Through Design Thinking (1 Credit)
Engages principles of design thinking to prepare second-year students in the Design Cultures and Creativity (DCC) program to create a proposal for their spring Capstone Project.
Prerequisite: HDCC105 and HDCC106.
Restriction: Must be in the Design Cultures and Creativity Honors College Living/Learning program.

HDCC208 Seminar in Digital Cultures and Creativity (3 Credits)
An advanced seminar in specific aspects of digital culture and creativity, designed to keep students abreast of the latest developments in new media and the online world. Possible topics include mobile gaming, digital storytelling, and electronic music.
Prerequisite: HDCC106 and HDCC105.
Restriction: Must be in the Digital Cultures and Creativity Honors College Living/Learning program.
Repeatable to: 6 credits if content differs.

HDCC209 Capstone in Design Cultures and Creativity (3 Credits)
Capstone for Design Cultures and Creativity in which students will develop their program capstone projects under the supervision of a faculty mentor, with regular checkpoints and presentations to track progress.
Prerequisite: HDCC208.
Restriction: Must be in the Design Cultures and Creativity Honors College Living/Learning program.
Repeatable to: 6 credits if content differs.

HDCC379 Design Cultures and Creativity Independent Study (1-3 Credits)
Involves research and/or creative scholarship directed by individual DCC faculty outside of the formal classroom structure.
Prerequisite: HDCC105.
Restriction: Must be enrolled in the Design Cultures and Creativity Honors College living-learning program; and permission of UGST-HCOL-Design Cultures & Creativity Program.
Repeatable to: 6 credits if content differs.

HEBR - Hebrew

HEBR102 Elementary Hebrew I-B (3 Credits)
Modern Israeli Hebrew. Emphasis on conversation. Study of linguistic structure and development of audio-lingual, writing and reading ability. Corresponds to the second half of HEBR111.
Restriction: Must not have completed HEBR111.
Credit Only Granted for: HEBR102 or HEBR111.

HEBR103 Elementary Hebrew II-A (3 Credits)
Continuation of HEBR102 and HEBR111. Modern Israeli Hebrew. Emphasis on conversation. Study of linguistic structure and development of audio-lingual, writing, and reading ability. Corresponds to the first half of HEBR112.
Prerequisite: HEBR111 or HEBR102; or must have placement by the Hebrew coordinator.
Restriction: Must not have completed HEBR112.
Credit Only Granted for: (HEBR103 and HEBR104) or HEBR112.

HEBR104 Elementary Hebrew II-B (3 Credits)
Continuation of HEBR103. Modern Israeli Hebrew. Emphasis on conversation. Study of linguistic structure and development of audio-lingual, writing, and reading ability. Corresponds to the second half of HEBR112.
Prerequisite: HEBR103; or must have placement by the Hebrew coordinator.
Restriction: Must not have completed HEBR112.
Credit Only Granted for: (HEBR103 and HEBR104) or HEBR112.

HEBR106 Intensive Elementary Hebrew I (4 Credits)
An intensive study of fundamentals of Hebrew reading, writing, listening and Israeli culture. Covers present tense in all verb categories, basic syntax and builds vocabulary.
Prerequisite: Must have appropriate World Language Placement (WLP) score.
Credit Only Granted for: HEBR111 or HEBR106.

HEBR107 Intensive Elementary Hebrew II (4 Credits)
A continuation of intensive study of fundamentals of Hebrew reading, writing, listening, speaking and Israeli culture. Covers past tense in all verb categories, basic syntax and builds vocabulary.
Prerequisite: HEBR106 or HEBR111; or must have appropriate score on World Language Placement (WLP); or students who have taken courses with comparable content may contact the department.
Credit Only Granted for: HEBR107 or HEBR112.

HEBR199 Special Topics in Hebrew (3 Credits)
Topics in language, literature, and culture. Varies by semester and instructor.
Prerequisite: Permission of ARHU-School of Languages, Literatures, and Cultures department.
Repeatable to: 9 credits if content differs.

HEBR203 Intermediate Hebrew II-A (3 Credits)
Continuation of HEBR211 Study of linguistic structure, further development of audio-lingual, reading, writing, and speaking skills. Reading of texts and newspapers designed to give some knowledge of Hebrew life, thought and culture. Corresponds to the first half of HEBR212.
Prerequisite: HEBR212; or must have placement by the Hebrew coordinator.
Restriction: Must not have completed HEBR212.
Credit Only Granted for: (HEBR203 and HEBR204) or HEBR212.

HEBR204 Intermediate Hebrew II-B (3 Credits)
Continuation of HEBR203. Study of linguistic structure, further development of audio-lingual, reading, writing, and speaking skills. Reading of texts and newspapers designed to give some knowledge of Hebrew life, thought and culture. Corresponds to the second half of HEBR212.
Prerequisite: HEBR203; or must have placement by the Hebrew coordinator.
Restriction: Must not have completed HEBR212.
Credit Only Granted for: (HEBR203 and HEBR204) or HEBR212.

HEBR206 Intermediate Intensive Hebrew I (4 Credits)
Provides a comprehensive review of the fundamentals of Hebrew grammar and oral skills, and introduces new skills in future tense verb conjugation, and communication in reading, writing, listening and speaking.
Prerequisite: Must have completed HEBR107 OR HEBR112; or must have appropriate World Language Placement (WLP) score.
Restriction: Must not be a fluent/native speaker of Hebrew.
Credit Only Granted for: HEBR206 or HEBR211.

HEBR207 Intensive Intermediate Hebrew II (4 Credits)
A review of the fundamentals of Hebrew grammar, reading, writing, listening and speaking.
Prerequisite: Must have completed HEBR206 OR HEBR211; or have the appropriate Score on the World Language Placement (WLP); or students who have taken courses with comparable content may contact the department.
Credit Only Granted for: HEBR207 or HEBR212.

HEBR212 Intermediate Hebrew II (6 Credits)
Continuation of HEBR211.
Prerequisite: HEBR211; or permission of ARHU-School of Languages, Literatures, and Cultures department.
Restriction: Must not have completed HEBR203; and must not have completed HEBR204.
Credit Only Granted for: (HEBR203 and HEBR204) or HEBR212.

HEBR249 Special Topics in Hebrew Studies (1-3 Credits)
A broad range of cultural and societal topics pertaining to the communication of Hebrew.
Prerequisite: Must have completed HEBR206; or HEBR211; or must have appropriate score on Foreign Language Placement Assessment; or students who have taken courses with comparable content may contact the department.
Repeatable to: 9 credits if content differs.

HEBR269 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

HEBR298 Special Topics in Jewish Studies (3 Credits)
Repeatable to: 6 credits if content differs.

HEBR298B Introduction to the Hebrew Bible/Old Testament (3 Credits)
Origins of the Hebrew Bible (Old Testament), with attention to literary formations, archaeology, and social-political settings. Explorations of major questions, including who wrote the Bible, and when; relationships of the biblical tradition to the mythology and religious structures of ancient Israel's near eastern neighbors; and dynamics of politics, religious leadership, and law.
Cross-listed with: JWST262, ENGL262.
Credit Only Granted for: JWST262, HEBR298B, or ENGL262.

HEBR298O Jewish Languages in America (3 Credits)
With a particular focus on language minority intra-group relationships -- the convergences, divergences, feelings of solidarity and tensions of difference within the group--this course will examine the history, current functional use and identity implications of Jewish languages in the United States.
Cross-listed with: JWST285.
Credit Only Granted for: JWST285, JWST219O or HEBR298O.
Formerly: JWST219O.

HEBR313 Conversation and Composition I (3 Credits)
A practical language course recommended for all students continuing with Hebrew. Review of grammar and composition. Selected readings. Oral and written exercises.
Prerequisite: HEBR212; or students who have taken courses with comparable content may contact the department.

HEBR314 Conversation and Composition II (3 Credits)
A practical language course recommended for all students continuing with Hebrew. Review of grammar and composition. Selected readings. Oral and written exercises.
Prerequisite: HEBR313; or students who have taken courses with comparable content may contact the department.

HEBR369 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

HEBR381 Introduction to Hebrew Cultural Studies (3 Credits)
Critical study of Israeli culture with emphasis on literature, film, and art as sites of struggle over political and social meaning during times of cultural transformation. Focus on the historical development of Israeli identity and gender, in particular within the military and Zionist youth movements. Taught in Hebrew.
Prerequisite: HEBR314; or permission of instructor.

HEBR386 Experiential Learning (3-6 Credits)
Restriction: Must have a Learning Proposal approved by the Office of Experiential Learning Programs, faculty sponsor, and student's internship sponsor; and junior standing or higher.

HEBR388 Language House Colloquium (1 Credit)
For students residing in the Language House Immersion Program. Focuses on the development of skills in the target language and acquiring the cultural knowledge of the countries that speak the target language.
Restriction: Must be a resident in the Language House Immersion program.
Repeatable to: 8 credits.

HEBR430 Critical Issues in Israeli Cinema (3 Credits)
Critical investigation of Zionist and Israeli culture and politics through film.
Cross-listed with: CINE430.
Credit Only Granted for: HEBR430, CINE430 or FILM430.
Formerly: FILM430.

HEBR498 Special Topics in Hebrew (3 Credits)
Repeatable to: 6 credits if content differs.

HEBR499 Independent Study in Hebrew (1-3 Credits)
Independent study under faculty supervision.
Prerequisite: Permission of instructor.
Repeatable to: 6 credits if content differs.

HEIP - Entrepreneurship and Innovation

HEIP143 Foundations of Entrepreneurship and Innovation (1 Credit)
Foundational ideas and terms in entrepreneurship and innovation are introduced, with attention to developing students understanding of cultivating a business in diverse, global environments; leading and collaborating in a competitive world; developing an entrepreneurial mind for an entrepreneurial world; and industry dynamics of technological innovation.
Restriction: Must be in the Entrepreneurship and Innovation Program (EIP).

HEIP144 Contemporary Issues in Entrepreneurship and Innovation (3 Credits)
Inspires entrepreneurial innovation and creativity through interactive lectures, workshops, and case studies on contemporary issues to include energy, life sciences, healthcare, and technology. Explores entrepreneurial innovation sources, structures and dynamics. Helps students develop skills for generating ideas and addressing current issues and problems.
Prerequisite: HEIP143.
Restriction: Must be in the Entrepreneurship and Innovation Program (EIP).

HEIP240 Exploring International Entrepreneurship and Innovation (3 Credits)
An introduction to the opportunities and challenges of entrepreneurship and innovation from an international perspective.
Restriction: Must be an EIP student in good-standing.

HEIP241 EIP Capstone: Creating Enterprise with Social Impact (2 Credits)
Addresses the global necessity to develop and implement solutions to critical social and environmental concerns in ways that are both technologically viable and economically sustainable. Through group exercises, guest speakers, discussions, and experiential learning activities, students will develop the skills to create businesses that achieve the double bottom line of both profitability and social benefit.
Restriction: Must be in the Entrepreneurship and Innovation Program (EIP).

HESI - Higher Ed, Student Affairs, and International Ed Policy

HESI202 Race and Diversity in Higher Education (3 Credits)
Will discuss contemporary and controversial issues on race and diversity in higher education. Addresses the question: How should race influence college admissions and campus climate? Will expose students to different viewpoints on the role of race in higher education settings.

HESI220 Adaptive Strategies for Multicultural Leadership and Dialogue (3 Credits)
As U.S. society becomes increasingly complex along multiple and continually evolving dimensions of individual and group identities, successful leaders will benefit from learning adaptive strategies and practices that will help them to navigate this complexity and adapt effectively in a climate of constant change. This class will focus on specific strategies, concepts, and insights for successful leadership and dialogue in twenty-first century U.S. multicultural society.
Restriction: Must not have completed BSCV301; and junior standing or lower.
Credit Only Granted for: EDCP318L or HESI220.
Formerly: EDCP318L.

HESI221 Leadership, Power and Privilege (3 Credits)
Critical analysis of social issues, contemplative practice, and dialogue are used to examine how power and privilege operate at individual, institutional, and societal levels to impact leadership perceptions and behaviors.

HESI298 Special Problems in Higher Education, Student Affairs, and International Education Policy (1-6 Credits)
Individual instruction in special problems related to higher education, student affairs and international education policy.
Restriction: Permission of EDUC-Counseling, Higher Education and Special Education department.

HESI310 Transfer2Terp Learning Community: Applying Your Strengths at the University of Maryland and Beyond (3 Credits)
Students will identify their strengths and learn how to apply them both in and outside of the classroom. Students will work side by side with the faculty and staff in the Adele H. Stamp Student Union to learn about their strengths while applying them to leadership positions.
Restriction: Priority will be given to students transferring from Maryland Community Colleges; or permission of EDUC-Counseling, Higher Education and Special Education department.

HESI318 Applied Contextual Leadership (3 Credits)
Course will utilize experiential learning opportunities to develop and apply the knowledge and skills of leadership into specific contexts of leadership practice.
Restriction: Permission of EDUC-Counseling, Higher Education and Special Education department.
Repeatable to: 6 credits if content differs.
Credit Only Granted for: HESI318 or EDCP318.
Formerly: EDCP318.

HESI418 Special Topics in Leadership (3 Credits)
The special topics and leadership course will address a single topic related to leadership through the semester. In-depth study and analysis on the topic will be the basis for the course. Topics include gender and leadership, ethics and leadership, and culture and leadership. Leadership will serve as the foundation in the course.
Repeatable to: 6 credits if content differs.
Credit Only Granted for: HESI418 or EDCP418.
Formerly: EDCP418.

HESI421 Leadership and the Black Community (3 Credits)
Examines leadership from the perspective of the African American experience. Specifically, we will explore the concept and differing meanings of "leader and leadership" within the African-American community in the United States. Issues of leaders and leadership will be examined as influenced by political, cultural, and historic events. The course will place particular emphasis on colleges and universities as a microcosm of the larger society and as a cultural site for exploring and assessing issues of African American leadership.
Credit Only Granted for: HESI418B or HESI421.
Formerly: HESI 418B.

HESI422 Women and Leadership (3 Credits)
The primary goal of this course is for students to develop an understanding of women's leadership and women's ways of influencing organizations. The course will rely heavily on the idea that you must know yourself first before you explore how "you" fit into the organization and how that organization fits into a broader context such as nation, culture, or community. We will talk about the social constructs of leadership and gender, including systems and structures, and the role media, television, movies, and sports play in defining women and their leadership in a cultural context. The exploration of women leaders will be broad based including the role that gender identity and expression, race, sexual orientation, country of origin, and ethnicity/culture play in women's definition and the expression of their leadership.
Credit Only Granted for: HESI418G or HESI422.
Formerly: HESI418G.

HESI423 Leadership and Ethnicity (3 Credits)
Examines the concept of leadership from the standpoint of race, ethnicity, and culture. Specifically, we will explore the concept and differing meanings of leader and leadership within racial/ethnic communities in the United States. Issues of leaders and leadership will be examined as influenced by political, cultural, and historic events. The course will place particular emphasis on colleges and universities as a microcosm of the larger society and as a cultural site for exploring and assessing issues of race, ethnicity, diversity and leadership.
Credit Only Granted for: HESI418D or HESI423.
Formerly: HESI418D.

HESI424 Leadership and the Jewish Community (3 Credits)
Offers students the opportunity to critically examine leadership and leadership identity development in relation to Jewish culture and identity. Explores how Jewish culture and ethnicity influence leadership styles and the role that leadership has played within Jewish history. Students will explore general leadership theories as well as personal leadership identity development in both an overall sense and as a member of the Jewish community. Examines leaders within the Jewish movement and how their leadership has influenced Jewish communities and explores issues facing the Jewish community both on college campuses and in the world and prepare student leaders to act as advocates for the Jewish community.
Credit Only Granted for: HESI418F or HESI424.
Formerly: HESI418F.

HESI470 Introduction to Student Personnel (3 Credits)
A systematic analysis of research and theoretical literature on a variety of major problems in the organization and administration of student personnel services in higher education. Included will be discussion of such topics as the student personnel philosophy in education, counseling services, discipline, housing, student activities, financial aid, health, remedial services, etc.
Restriction: Permission of EDUC-Counseling, Higher Education and Special Education department.
Credit Only Granted for: EDCP470 or HESI470.
Formerly: EDCP470.

HESI489 Field Experiences in Higher Education, Student Affairs, and International Education Poli (1-4 Credits)
Planned field experience in education and community related activities. Credit not to be granted for experiences accrued prior to registration.
Restriction: Permission of EDUC-Counseling, Higher Education and Special Education department.

HESI498 Special Problems in Higher Education, Student Affairs, and International Education Policy (1-3 Credits)
Available only to HESI students who have formal plans for individual study of approved problems.
Prerequisite: Available only to HISA, HIED, and HIEP students who have formal plans for individual study of approved problems.
Restriction: Permission of EDUC-Counseling, Higher Education and Special Education department.

HESI499 Workshops, Clinics, Institutes (1-6 Credits)
The following type of educational enterprise may be scheduled under this course heading: workshops conducted by the Higher Education, Student Affairs, and International Education Policy program (or developed cooperatively with other departments, colleges and universities) and not otherwise covered in the present course listings.
Repeatable to: 6 credits.

HESP - Hearing and Speech Sciences

HESP120 Introduction to Linguistics (3 Credits)
An introduction to the scientific study of natural language with focus on the basic concepts of phonology, syntax, semantics and pragmatics, with subsequent attention to the applied aspects of linguistic principles.
Additional Information: HESP120 is required for HESP majors. HESP majors may not substitute LING200.

HESP150 Introduction to Language Science (3 Credits)
Language science is the scientific study of how humans acquire, use, comprehend, and produce language. Most people in all societies learn and use their native language or languages with apparent ease - but don't be fooled: languages are highly complex, and speaking and understanding language requires some amazing feats of mental acrobatics. Thus there are many opportunities for difficulties with language, which is the focus of our field. Understanding difficulties with speech, language, and hearing require first understanding how processing works when language is successful - the psychological (behavioral) and neurobiological (brain) factors that enable people to learn and use language despite its intricacies, the structure and properties of language itself, and how knowledge of language is acquired, represented, and processed in the mind and brain.

HESP202 Introduction to Hearing and Speech Sciences (3 Credits)
An introduction to communication sciences and disorders; a survey of the bases of normal speech, language and hearing ability, major forms of communicative disorders and their treatment.

HESP204 Multicultural Issues in Communication Disorders (3 Credits)
Enables students to understand cultural influences on communication, communication disorders, language, and society. Exploration of (self and others') perceptions, stereotypes, media influences and identity will be used to understand how society shapes and responds to language usage. We will also examine the legal and ethical implications of serving culturally and linguistically diverse populations.

HESP214 The Research Behind Headlines on Words, Thought, and Behavior (3 Credits)
How does the human mind use language? Type "Language Science News" into your Google search bar. Among the more than 3 billion hits, headlines like "What is love? It depends what language you speak" and "Science's English dominance hinders diversity" invite you to think about the impact of words on thought and behavior. These are stories about how humans acquire and use language, but they ultimately address big questions about how we experience knowledge itself. In a world of unprecedented access to science journalism, did you ever read a headline about human behavior and wonder: How do we know? This class takes up the elegant ways cognitive scientists design experiments to answer crucial questions about language and thought, brain and behavior, that have no intuitive answers. Students will dive deep into the media coverage of their favorite claims about what we know, debate the psychological science behind these claims, and develop transferable critical-thinking skills in the process.
Cross-listed with: HNUH278A.
Credit Only Granted for: HNUH278A or HESP214.

HESP258 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

HESP300 Introduction to Psycholinguistics (3 Credits)
An introduction to current theories of language and an investigation of their relationship to human communication behavior. Survey of the experimental literature relating to this question.
Prerequisite: Minimum grade of C- in HESP202; or permission of BSOS-Hearing & Speech Sciences department.
Recommended: HESP120.

HESP303 Phonetic transcription (2 Credits)
An introduction to broad and narrow phonetic transcription, and to physiology of speech production. The primary goal of the course is to provide knowledge about phonetics and the ability to use this knowledge in an applied setting.
Prerequisite: Permission of instructor.

HESP305 Anatomy and Physiology of the Speech Mechanism (3 Credits)
Anatomy, physiology, and neurology of speech mechanism.
Prerequisite: Minimum grade of C- in HESP202; or permission of BSOS-Hearing & Speech Sciences department.

HESP306 Anatomy and Physiology of Speech & Hearing (4 Credits)
This is a 4-credit course focusing on the biological and neurological bases of human speech production and human hearing, namely the anatomy, physiology, and neurology of the vocal/speech mechanism and the hearing mechanism.Specifically, respiration, phonation, resonance, articulation, swallowing, and hearing will be highlighted. A strong understanding of normal anatomy and physiology is essential for the successful evaluation and treatment of patients with speech, language, swallowing and hearing disorders.
Prerequisite: Permission of instructor.

HESP307 Speech & Hearing Science (4 Credits)
Human hearing is exquisitely sensitive, allowing us to hear extremely faint sounds, to follow the sounds of a friend's voice in a loud party, and to appreciate subtle differences between words in the language. This course provides an introduction to the basic physics of sound, the acoustic properties of the sounds of speech, and the mechanisms by which those sounds are perceived by the listener.
Prerequisite: HESP303.

HESP311 Anatomy, Pathology and Physiology of the Auditory System (3 Credits)
Gross anatomy of the ear and pathways for transmission of sound energy through the peripheral and central auditory system. Causes, development and effects of pathological conditions contributing to temporary or chronic hearing impairments.
Prerequisite: Minimum grade of C- in HESP202; or permission of BSOS-Hearing & Speech Sciences department.

HESP313 Neurobiology for Speech and Hearing (2 Credits)
This course is designed to provide an understanding of normal neuroanatomy and neurophysiology of speech and language. It will also provide preliminary information regarding pathologic processes, especially those affecting speech and language

HESP359 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

HESP386 Experiential Learning (1-3 Credits)
Students will have the opportunity observe and/or participate in therapy activities provided by a speech-language pathologist or audiologist in this experiential learning course.
Restriction: Junior standing or higher; and permission of BSOS-Hearing & Speech Sciences department.

HESP389 LEAP Classroom Internship (1-3 Credits)
Participation in a language-based, literacy-rich preschool classroom for children with speech-language disorders. Students will learn behavior management techniques, curriculum planning and implementation, facilitation of play among children, data collection and teaching srategies.
Prerequisite: HESP202; or students who have taken courses with comparable content may contact the department.
Restriction: Permission of BSOS-Hearing & Speech Sciences department.

HESP396 SIGNA Undergraduate Peer Mentor Clinical Practicum (2 Credits)
Students are paired with neurodivergent UMD students to support mentoring in social communication and executive functioning skills. Peer mentors are selected based on a rigorous application process for fall and spring semesters. Selected peer mentors will engage in an orientation process which includes in depth information on neurodiversity and the intersectionality of DEI; attend a weekly lecture and group sessions to acquire up-to-date knowledge and application of knowledge with neurodiverse populations; and manage meetings with neurodivergent students one-to-one on a weekly basis to support carryover of social coaching and executive functioning strategies.
Prerequisite: HESP202.
Recommended: Coursework in PSYC, EDUC, Human Development, Disability Studies.
Restriction: Sophomore standing or higher; and permission by instructor .

HESP397 SIGNA Undergraduate Peer Coach Clinical Practicum (3 Credits)
Students co-lead weekly groups for neurodivergent college students, coaching on topics and strategies pertaining to social communication and executive functioning skills. Peer coaches create outlines for weekly groups which are individualized by needs and interests. Peer coaches plan monthly social outings for SIGNA personnel to support generalization of executive functioning and social communication skills. Peer coaches are selected based on a rigorous application process for fall and spring semesters. Students who previously served in a peer mentor role in SIGNA are given priority consideration as peer coaches. Peer coaches will engage in an orientation process which includes in depth information on neurodiversity; attend weekly lectures to acquire up-to-date knowledge of neurodiverse populations; and attend group debrief meetings with the course instructor on a weekly basis to support implementation of social coaching and executive functioning feedback from groups.
Prerequisite: HESP202.
Recommended: Coursework in PSYC, EDUC, Human Development, Disability Studies, HESP396.
Restriction: Junior standing or higher; and permission of instructor.

HESP400 Speech and Language Development in Children (3 Credits)
Analysis of the normal processes of speech and language development in children.
Prerequisite: Minimum grade of C- in HESP300; or permission of BSOS-Hearing & Speech Sciences department.
Recommended: LING200 or HESP120.
Restriction: Must be in Hearing and Speech Sciences program; or permission of BSOS-Hearing & Speech Sciences department.

HESP402 Language and Phonological Disorders in Children (3 Credits)
Etiology, assessment and treatment of language and phonological disorders in children.
Prerequisite: Minimum grade of C- in HESP400; or permission of BSOS-Hearing & Speech Sciences department.
Restriction: Must be in Hearing and Speech Sciences program.

HESP403 Introduction to Phonetic Science (3 Credits)
An introduction to physiological, acoustic and perceptual phonetics; broad and narrow phonetic transcription; current models of speech production and perception.
Prerequisite: Minimum grade of C- in HESP305; or permission of BSOS-Hearing & Speech Sciences department.
Restriction: Must be in Hearing and Speech Sciences program; or permission of BSOS-Hearing & Speech Sciences department.

HESP406 Acquired Neurogenic Communication Disorders in Adults (3 Credits)
Survey of the dysarthrias and aphasias in adults from an interdisciplinary point of view.
Prerequisite: Minimum grade of C- in HESP300 and HESP305; or permission of BSOS-Hearing & Speech Sciences department.
Restriction: Must be in Hearing and Speech Sciences program; or permission of BSOS-Hearing & Speech Sciences department.

HESP407 Bases of Hearing Science (3 Credits)
Fundamentals of hearing, including the physics of sound, anatomy and physiology of peripheral and central auditory nervous system, psychophysical procedures used in measurement of auditory sensation and perception, and topics in psychological acoustics.
Prerequisite: Minimum grade of C- in HESP311; or permission of BSOS-Hearing & Speech Sciences department.
Restriction: Must be in Hearing and Speech Sciences program; or permission of BSOS-Hearing & Speech Sciences department.

HESP411 Introduction to Audiology (3 Credits)
An introduction to the field of audiology. Evaluation and remediation of hearing handicaps.
Prerequisite: Minimum grade of C- in HESP311; or permission of BSOS-Hearing & Speech Sciences department.
Restriction: Must be in Hearing and Speech Sciences program; or permission of BSOS-Hearing & Speech Sciences department.

HESP413 Aural Rehabilitation/Habilitation (3 Credits)
The fundamental aspects of aural rehabilitation therapy for both adults and children are introduced to students. Class time will consist of lectures, discussions, and hands-on activities.
Prerequisite: HESP411.
Restriction: Sophomore standing or higher.

HESP415 Principles and Methods in Speech-Language Pathology (2 Credits)
The principles and methods required to provide treatment of speech and language disorders to children and adults. Topics include writing goals and objectives, programming,teaching strategies,session design, data collection, behavior modification and counseling.
Prerequisite: HESP400.
Restriction: Must be in Hearing and Speech Sciences program.

HESP416 Principles and Methods in Audiology (2 Credits)
Relate previous knowledge of anatomy/physiology and pathologies of the auditory system and integrate this information into clinical application.
Prerequisite: Minimum grade of C- in HESP411.
Restriction: Must be in Hearing and Speech Sciences program; and permission of BSOS-Hearing & Speech Sciences department.

HESP417 Principles and Methods in Speech-Language Pathology and Audiology (3 Credits)
The principles underlying the treatment of speech, language and hearing disorders in children and adults.
Prerequisite: HESP400 and HESP411; or permission of BSOS-Hearing & Speech Sciences department.
Restriction: Must be in Hearing and Speech Sciences program; or permission of BSOS-Hearing & Speech Sciences department.

HESP418 Clinical Practice in Speech-Language Pathology and Audiology (3 Credits)
Supervised observation with some direct participation in clinical methods for the treatment of disorders of articulation, fluency, child and adult language; evaluation and habilitation/rehabilitation of hearing impaired children and adults.
Prerequisite: Minimum grade of C- in HESP417.
Restriction: Permission of BSOS-Hearing & Speech Sciences department.
Repeatable to: 6 credits.

HESP420 Deaf Culture and ASL for the CSD Professional (3 Credits)
Studying Deaf Culture and American Sign Language (ASL) is crucial in enhancing the culturally competent practice of allied health/Communication Sciences and Disorders (CSD) professionals. This course explores the politics of (dis)ability through the lens of the experience of d/Deafness and the emergence of the Deaf community as a linguistic and cultural group in the United States, as well as issues that impact the provision of services to this population.
Prerequisite: HESP202 and EDSP220.
Credit Only Granted for: HESP498A or HESP420.
Formerly: HESP498A.

HESP422 Neurological Bases of Human Communication (3 Credits)
Basic neurology as it pertains to anatomy and physiology substrates of speech and language.
Prerequisite: HESP305; or permission of instructor.
Credit Only Granted for: HESP498 or HESP422.

HESP458 Global Perspectives in Communication Sciences and Disorders (3 Credits)
Provides students with a supervised and multidisciplinary international service learning (ISL) opportunity for the reciprocal exchange of cultural perspectives, knowledge, and skills. Through interactions with Ghana health and educational professionals as well as patients/clients and their families, students will gain perspective on broader health issues such as determinants of health, health disparities, and the global burden of disease. Students will have learning opportunities in governmental and non-governmental organizations (NGOs) to gain knowledge of and experience with varied healthcare and educational systems in under-resourced communities. In addition to observing and working with Ghana Speech-Language Therapists (SLT) and other rehabilitative professionals, students will assist faculty in the provision of educational workshops for professionals and/or outreach activities for the community.
Prerequisite: HESP202, HESP300, HESP311, and HESP400; and one course from (HESP406, HESP411, or HESP402).
Jointly offered with: HESP659.
Restriction: Must be a major in Hearing and Speech Sciences .
Repeatable to: 6 credits.
Credit Only Granted for: HESP659 or HESP458.
Additional Information: This course will require students to travel out of the country.

HESP468 Professional Development in Research and Academia (1 Credit)
The purpose of this seminar is to complement your honors project with practical advice on how to navigate successful careers in research and academia. As you progress through your undergraduate years (especially if you work in a lab), you will likely make several unofficial observations about life as a graduate student, postdoc, or professor, and overhear conversations that include new terminology that may be confusing (e.g., research mentorship, grants, conference abstract, tenure). This can create a mysterious aura around what it is like to obtain your PhD and work in academia generally. In this class, we will cover tips and skills that are often passed along informally in the lab; but here, we will discuss these issues overtly from a range of perspectives, experiences, and best practices.
Restriction: Must be in the Hearing and Speech Sciences Honors program; or permission of Hearing and Speech Sciences department.
Repeatable to: 3 credits if content differs.
Additional Information: This course would be taken for three semesters.

HESP469 Honor Thesis Research (1-3 Credits)
Student will develop thesis proposal, conduct research, analyze results, develop and defend final written document.
Prerequisite: Permission of honors thesis advisor required.
Repeatable to: 6 credits if content differs.

HESP489 Undergraduate Research Experience (1-3 Credits)
Undergraduate research experience working under HESP faculty or outside affiliates.
Prerequisite: HESP202.
Restriction: Permission of BSOS-Hearing & Speech Sciences department; and sophomore standing or higher.
Repeatable to: 6 credits.
Formerly: HESP388.

HESP498 Seminar (3 Credits)
Selected topics in human communication and its disorders.
Restriction: Permission of BSOS-Hearing & Speech Sciences department.
Repeatable to: 6 credits if content differs.

HESP499 Independent Study (1-3 Credits)
A directed study of selected topics pertaining to human communication and its disorders.
Restriction: Permission of BSOS-Hearing & Speech Sciences department.
Repeatable to: 6 credits if content differs.

HGLO - Honors Global Communities

HGLO100 The Student in the University: Global Communities (1 Credit)
Students will develop a sense of community within the program, become familiar with campus resources, gain skills and information to prepare for the Global Experience Semester, and explore the surrounding international community.
Restriction: Must be enrolled in Honors Global Communities Living-Learning Program.
Credit Only Granted for: BSGC100 or HGLO100.
Formerly: BSGC100.

HGLO101 Saving the World With Data (3 Credits)
The world is grappling with many intractable issues, like climate change, pandemics, democratic backsliding, and inequality. How can we use data analysis to help us better understand and work to solve these problems? In this class students will engage with a wide range of issues affecting the entire globe. In addition, they will also gain valuable data science skills by learning the basics of coding in R. No previous programing experience is required.
Restriction: Must be in Honors Global Communities Living-Learning program.
Credit Only Granted for: HGLO101 or BSGC101.
Formerly: BSGC101.

HGLO208 Using Data to Answer Hard Questions (3 Credits)
In this class, students will learn more advanced data science techniques and gain an understanding of hypothesis formation and general research design.
Prerequisite: GVPT201.
Restriction: Must be enrolled in Honors Global Communities Living-Learning Program.
Repeatable to: 6 credits if content differs.

HGLO397 Exploring Global Challenges and Solutions in Panama (3 Credits)
This study abroad course utilizes the framework of the UN Sustainable Development Goals (SDGs) to explore and analyze global challenges and solutions in Panama City, Panama. Pre-departure seminars will cover critical issues in Panama and the US, including history, politics, sustainable development, indigenous advocacy, and cultural heritage. Students will utilize data science to understand and analyze challenges related to food security, global health (HIV/AIDS education), human rights, and indigenous advocacy. The travel component includes site visits to non-governmental organizations such as the World Food Programme, Fundacion PROBIDSIDA, and Embera Indian Village, as well as multiple arts and cultural landmarks.
Credit Only Granted for: HGLO398A or HGLO397.
Formerly: HGLO398A.
Additional Information: This is an education abroad course requiring travel during Spring Break.

HHUM - Honors Humanities

HHUM105 Honors Humanities: Introduction to the Arts and Humanities (3 Credits)
Introduction to the university, the different fields of the arts and humanities, and the history of how the university and the humanities have evolved across the world from ancient times to the present. Primary emphasis on reading and discussion of literary artifacts to assess the meaning and social status of the arts and humanities in the past and their personal and social value for the future.
Restriction: Must be an entering freshmen in the Honors Humanities Program.
Credit Only Granted for: ARHU105 or HHUM105.
Formerly: ARHU105.

HHUM106 Honors Humanities: The Humanities in Practice (3 Credits)
The application of the disciplines, methods and traditions of the Humanities to contemporary problems and issues such as social injustice, immigration, income inequality, and the role of social media. Students will apply to such issues the tools of the Humanities: research and historical analysis, critical reasoning, communication and persuasion, ethical debate, and imagination. The course will utilize the institutions of Washington, D.C. to explore contemporary problems and will guide students in the creation of their individual proposals for the capstone project that is the culmination of the curriculum in Honors Humanities.
Recommended: HHUM105.
Restriction: Must be in the Honors Humanities Program.
Additional Information: Priority enrollment will be given to students in Honors Humanities.

HHUM205 Second Year Seminar in Honors Humanities (3 Credits)
Seminar on basic issues and methodologies in the humanities and arts.
Credit Only Granted for: ARHU205 or HHUM205.
Formerly: ARHU205.

HHUM206 Honors Humanities Keystone Project (3 Credits)
Design, execution and completion of students' chosen Keystone Projects in the form of research, creativity, or service. Students will have formulated tentative plans for their projects in HHUM106; in this course they will revise and augment those proposals, articulate their connections with the traditions and methods of the humanities, formulate a work plan for completing the project within one semester, and work with their fellow students to workshop their materials as they develop. The course will culminate in a presentation of the project at the annual Keystone Symposium and with the submission of the project in its final form.

HHUM288 Seminar: Selected Issues in Honors Humanities (3 Credits)
Seminar on important topics in Arts and Humanities for students in the Honors Humanities Program.
Restriction: Must be in the Honors Humanities Program.
Repeatable to: 9 credits if content differs.
Credit Only Granted for: ARHU288 or HHUM288.
Formerly: ARHU288.

HHUM328 Internship in Honors Humanities (1-3 Credits)
Supervised service-learning in Honors Humanities.
Prerequisite: HHUM105; and permission of the Honors Humanities Director.
Restriction: Sophomore standing or higher.
Repeatable to: 3 credits.
Credit Only Granted for: ARHU328 or HHUM328.
Formerly: ARHU328.

HHUM329 Undergraduate Teaching Assistantship (1-3 Credits)
Supervised pedagogical service-learning in the Honors Humanities curriculum.
Prerequisite: HHUM106, HHUM205, and HHUM105; and permission of the Honors Humanities Director.
Credit Only Granted for: ARHU329 or HHUM329.
Formerly: ARHU329.

HISP - Historic Preservation

HISP200 The Everyday and the American Environment (3 Credits)
An introduction to the theories of the everyday within the context of the American built environment. Focuses primarily on the American experience of underrepresented, minority, and/or immigrant communities; both historical and contemporary. Attempts to challenge what is meant by American in describing the American everyday built environment.Jointly offered with HISP615.

HISP319 Special Topics in Historic Preservation (1-6 Credits)
Students will explore technical aspects of preservation taught by practitioners whose expertise are of special benefit to undergraduate students.
Repeatable to: 12 credits.

HIST - History

HIST106 American Jewish Experience (3 Credits)
History of the Jews in America from Colonial times to the present. Emphasis on the waves of migration from Germany and Eastern Europe; the changing nature of the American Jewish community and its participation in American social, economic, and political life.
Cross-listed with: JWST141.
Credit Only Granted for: HIST106 or JWST141.

HIST108 Freshman/Sophomore Seminar in History (3 Credits)
Seminar for freshmen and sophomores on a specific historical case study and historical "problem," taught by a professor who specializes in the field. Participants will learn about the subject by doing the work of historians: carefully considering primary and secondary sources, discussing them in a seminar format, and preparing original written work drawn upon these materials. Seminar topics will range widely and the offerings will vary each semester; these are "special topics" courses.
Repeatable to: 6 credits if content differs.

HIST108B Freshman/Sophomore Seminar in History; Gandhi: The Individual in History (3 Credits)
Uses the life and legacy of Mohandas K. Gandhi, in modern India and beyond, as a starting point to explore the relationship between individuals in world history and the social contexts that produced them. Topics include non-violence, diet, sexuality, politics, law, technology, the environment, and representations in film and other media.

HIST108C Martin Luther King Jr. (3 Credits)
Examines the life and work of Martin Luther King, Jr. We immediately rethink the image of King who liberals and conservatives construct as a dreamer of better race relations. We engage the complexities of an individual, who articulated a moral compass of the nation, to explore racial justice in post-World War II America. This course gives special attention to King's post-1965 radicalism when he called for a reordering of American society, an end to the war in Vietnam, and supported sanitation workers striking for better wages and working conditions. Topics include King's notion of the "beloved community", the Social Gospel, liberalism, "socially conscious democracy", militancy, the politics of martyrdom, poverty and racial justice, and compensatory treatment. Primary sources form the core of our readings.
Cross-listed with: AAAS298M, AMST189C.
Credit Only Granted for: HIST108C, AASP298M, AAAS298M, or AMST189C.

HIST110 The Ancient World (3 Credits)
Interpretation of select literature and art of the ancient Mediterranean world with a view to illuminating the antecedents of modern culture; religion and myth in the ancient Near East; Greek philosophical, scientific, and literary invention; and the Roman tradition in politics and administration.

HIST111 The Medieval World (3 Credits)
The development of Europe in the Middle Ages; the role of religious values in shaping new social, economic, and political institutions; medieval literature, art and architecture.

HIST113 The Making of Modern Europe (3 Credits)
Evolution of modern nation states since late medieval times. Industrial-economic structure and demography. Emergence of modern secular society.

HIST120 Islamic Civilization (3 Credits)
Introduction to society and culture in the Middle East since the advent of Islam: as a personal and communal faith; as artistic and literary highlights of intellectual and cultural life; and as the interplay between politics and religion under the major Islamic regimes.
Cross-listed with: RELS120.
Credit Only Granted for: HIST120 or RELS120.

HIST122 African Civilization to 1800 (3 Credits)
History of Africa from earliest times to 1800. Topics of study include origins of African societies, Nile Valley civilization, medieval African states and societies, Islam, oral traditions, African slavery and the slave trade, and early African-European interactions.

HIST123 Sub-Saharan Africa Since 1800 (3 Credits)
Overviews early mid-19th-century changes in African societies, European conquest and African resistances in the late 19th-century, colonial states and societies, African nationalisms and decolonization and the independence era. Struggles over social, economic, and political changes are emphasized.

HIST131 The History of the American Dream (3 Credits)
An introduction to the way Americans thought of themselves in the past, and their often conflicting visions of what constituted the American Dream. Central questions will include whether or not Americans have always envisioned their country as a land of equality, opportunity, democracy, and freedom and whether or not their ideas of what these values meant changed or remained the same over time.
Credit Only Granted for: HIST131 or HIST289J.
Formerly: HIST289J.

HIST132 Fighting Slavery (3 Credits)
An examination of the different tools and tactics, means and methods that Americans have used to escape slavery or try to eliminate it.

HIST133 God Wills It! The Crusades in Medieval and Modern Perspectives (3 Credits)
An examination of the identities and convictions both of the Western Europeans who participated in the Crusades and of the Easterners (Muslim, Christian, and Jewish) whom they encountered in the Holy Land. Focuses on the era of the first four great Crusades, from about 1095 to 1215. Consideration of the cultural impact of these movements on both Western Europe and the Middle East.
Cross-listed with: RELS133.
Credit Only Granted for: HIST133, RELS133 or RELS289D.
Formerly: RELS289D.

HIST134 Spies, Assassins, Martyrs, and Witches: Famous Trials in American History (3 Credits)
Examination of some of the most famous trials in American history and their enduring hold on the imagination.

HIST135 Civil Discourse or Urban Riot: Why Cities Don't (Often) Explode (3 Credits)
An examination of the mechanisms that promote peaceful co-existence in urban societies and a discussion of how and why city streets sometimes become violent.
Cross-listed with: JWST289E.
Credit Only Granted for: HIST135 or JWST289E.

HIST136 Moneyland: Business in American Culture (3 Credits)
An exploration of American business culture and institutions from colonial times to the present with emphasis on how inherited and acquired identities (social capital) have shaped Americans' experiences as entrepreneurs, managers, workers, and consumers.

HIST137 Pursuits of Happiness: Ordinary Lives in the American Revolution (3 Credits)
Investigates the search for personal fulfillment unleashed by the American Revolution; explores the many different meanings ascribed to the notion of the "pursuit of happiness" by Americans in the early national period.
Credit Only Granted for: HIST137 or HNUH218A.

HIST142 Looking at America through a Global Lens (3 Credits)
Looking at America will focus on a thematic approach to the study of foreign -- negative and positive -- perceptions of America in the 20th century.
Credit Only Granted for: HIST289I or HIST142.
Formerly: HIST289I.

HIST143 Power, Ritual, and Society in Western History (3 Credits)
Introduces students to influential works of political thinking, in the Western tradition from classical Antiquity to the present, that treat the relationship between power, ritual, and society. Investigates ritual and its relationships to power, both in reality and the imagination of political thinkers.
Credit Only Granted for: HIST289F or HIST143.
Formerly: HIST289F.

HIST146 Comparative History of Crime and Punishment (3 Credits)
Explores the transformation of crime and punishment in England, France, and America over five centuries. Focus is on the connections between forms of government, cultural norms, and punishment. How do ideas about government and its rightful exercise connect to which actions are deemed crimes, who is punished, and how they are punished? "Crimes" covered in this course will range from high crimes such as murder, theft, witchcraft, heresy, sedition, and treason to crimes of property and morals crimes such as non-attendance at church and drunkenness.
Credit Only Granted for: HIST289L or HIST146.
Formerly: HIST289L.

HIST147 History of Satan: Conceptions of Ultimate Evil from Antiquity to the Present (3 Credits)
Traces the concept of Satan in the Jewish and Christian traditions from the Hebrew Bible, through the early modern witch crazes, to the "Satanic Panic" of the '80s and modern conspiracy theories. We'll examine both how our darkest fears have changed over the centuries, and which elements have stayed remarkably consistent across time. In the process, we'll seek to answer our Big Question: How do ideas about the devil reflect the norms and anxieties of the cultures that produce them?

HIST187 God, Land, Power, and the People: Moral Issues in the Jewish Historical Experience (3 Credits)
Examines the complicated relationship between theology, nationalism, sovereignty, and the ethical exercise of social control using case studies drawn from the Jewish historical experience. The universal and age-old issues implicit in the exercise of power have gained special moral force for Jews with the creation of the State of Israel, a Jewish and a democratic state with substantial non-Jewish minorities and hundreds of thousands of non-citizen subjects. Can these be reconciled? Jewish efforts over the ages and in recent times to define justice provide concrete examples through which to examine and discuss crucial abstract principles.
Cross-listed with: ISRL187, JWST187.
Credit Only Granted for: HIST187, JWST187 or ISRL187.

HIST189 Topics in History (1-3 Credits)
Thematic exploration of a topic in history at an introductory level with emphasis on understanding what historians do and how history is relevant in the contemporary world.
Repeatable to: 6 credits if content differs.

HIST200 Interpreting American History: Beginnings to 1877 (3 Credits)
The United States from colonial times to the end of the Civil War. Establishment and development of American institutions.
Credit Only Granted for: HIST156 or HIST200.
Formerly: HIST156.

HIST201 Interpreting American History: From 1865 to the Present (3 Credits)
The United States from the end of the Civil War to the present. Economic, social, intellectual, and political developments. Rise of industry and emergence of the United States as a world power.
Credit Only Granted for: HIST157 or HIST201.
Formerly: HIST157.

HIST204 Introduction to the History of Science (3 Credits)
An exploration of the roots of modern science from the ancient Greeks through the medieval and early modern periods. Focus on the men and women who helped to create the sciences and to change public perceptions of their disciplines.
Credit Only Granted for: HIST174 or HIST204.
Formerly: HIST174.

HIST205 Environmental History (3 Credits)
An exploration of the way different societies have used, imagined, and managed nature. Includes examination of questions of land use, pollution, conservation, and the ideology of nature, especially but not exclusively in Europe and North America.

HIST206 Introduction to the History of Technology (3 Credits)
Introduction to the history of major technological changes and innovations; examination of the revolutionizing potential of technology.
Credit Only Granted for: HIST175 or HIST206.
Formerly: HIST175.

HIST208 Historical Research and Methods Seminar (3 Credits)
Reading and research skills and methods. Research papers will be based on the topic of the seminar.
Restriction: Must be in History program.
Repeatable to: 6 credits if content differs.
Credit Only Granted for: HIST208 or HIST220.
Formerly: HIST220.

HIST210 Love, Labor, and Citizenship: Women in America to 1880 (3 Credits)
An examination of the economic, family, and political roles of colonial slave, immigrant and frontier women in America from the pre-industrial colonial period through the early stages of 19th-century industrialization and urbanization.
Cross-listed with: WGSS210.
Credit Only Granted for: HIST210, WMST210 or WGSS210.
Formerly: WMST210.

HIST211 Women in America Since 1880 (3 Credits)
An examination of women's changing roles in working class and middle class families, the effects of industrialization on women's economic activities and status, and women's involvement in political and social struggles, including those for women's rights, birth control, and civil rights.
Cross-listed with: WGSS211.
Credit Only Granted for: HIST211, WMST211 or WGSS211.
Formerly: WMST211.

HIST212 Women in Western Europe 1750-Present (3 Credits)
An analysis of the economic, family, and political roles of European women from 1750 to the present. The effects of industrialization on women's work and status, the demographic parameters of women's lives, and women's participation in political events from market riots to suffrage struggles.
Cross-listed with: WGSS212.
Credit Only Granted for: HIST212, WMST212 or WGSS212.
Formerly: WMST212.

HIST213 History of Sexuality in America (3 Credits)
Explores the social construction of sexualities from the first colonial settlement to the modern era in the United States. Analyzes the implications of these understandings for power relations in U.S history.
Cross-listed with: WGSS298L.
Credit Only Granted for: HIST213, WMST298L or WGSS298L.

HIST215 Women in Western Europe to 1750 (3 Credits)
An exploration of the theories and rhetoric about the nature and existence of women in the West, focusing on the experience of women from the hegemony of Classical Greece to the French Revolution, an era that marks the beginning of a continuous process of change. Emphasis will be on the period between 1250 and 1750, when the Western European world was fundamentally altered in every aspect and in every level of society, culture, and government.
Credit Only Granted for: HIST215 or HIST219A.
Formerly: HIST219A.

HIST217 From Mary Wollstonecraft's Vindication to Bridget Jones's Diary: Women and Gender in Modern Britain: 1790-Present (3 Credits)
Starting with Britain's first feminist writer in the 1790s, Mary Wollstonecraft, and ending with the post-feminist fictional Bridget Jones, this course will examine the economic, social, political, and cultural lives of women in Britain since the late 18th century. We will meet famous British women (Queens Victoria and Elizabeth II, Virginia Woolf, Margaret Thatcher, etc) as well as ordinary women (industrial workers, Victorian prostitutes, war nurses and munitions workers, feminist activists, mothers, among others) to understand how class, gender, race, and history intersect. The course aims to provide an introduction to debates about gender and history and employs a variety of primary sources (including novels, autobiography, political pamphlets and social investigations, film) supplemented by secondary sources, to explore women's engagement in public life over the last 230 years.

HIST219 Special Topics in History (3 Credits)

HIST219I Religions of the Ancient Near East (3 Credits)
Introduction to ancient Near Eastern religious systems and mythology, from the third millennium BCE through the fourth century BCE. Particular emphasis on Mesopotamia and ancient Israel.
Cross-listed with: RELS225, JWST225.
Credit Only Granted for: JWST225, HIST219I, RELS225, or RELS219A.
Formerly: RELS219A.

HIST219N Introduction to Humanities, Health, and Medicine (3 Credits)
An overview of the historical, cultural, ethical, and spiritual dimensions of medicine, human health, disease, and death from the points of view of various humanistic disciplines.
Cross-listed with: ARHU230, ENGL254, WGSS230.
Restriction: Permission of ARHU-History Department.
Credit Only Granted for: ARHU230 , ENGL289C, ENGL254, ARHU298A, HIST219N, or WGSS230.

HIST219T Discovering the World of Ancient Rome (3 Credits)
An exploration of the cultural traits and developments of ancient Roman civilization from its roots in Etruscan culture, through the rise of the Roman Republic, to the expansion of Roman cultural influence in the ancient world and the emergence of the Roman Empire. Drawing upon the evidence of the archaeological remains as well as ancient historical and literary documents, students gain a basic familiarity with the principal monuments and artifacts of ancient Roman civilization, the various institutions and values that characterized the Romans, and the significant historical events that transformed the culture over the course of antiquity.
Cross-listed with: CLAS190.
Credit Only Granted for: CLAS190 or HIST219T.

HIST219X Modern Iran (3 Credits)
General sociopolitical introduction to modern Iran from establishment of the Qajar dynasty in the late 18th century to the present day. Taught in English.
Cross-listed with: PERS251.
Credit Only Granted for: PERS251 or HIST219X.

HIST220 The Atlantic World in the Age of Exploration, Conquest, and Settlement (3 Credits)
Study of encounters, exchanges, and clashes between Native Americans, Europeans, and Africans in the early modern Atlantic World. Examines conquest and colonial systems; movement of men and women and mixing of peoples, and the persistence of native folkways.
Credit Only Granted for: HIST219V or HIST220.
Formerly: HIST219V.

HIST221 Asian American History (3 Credits)
Introduction to the history of Asian Americans and Asians in the United States and the Americas and to the field of Asian American Studies, from an interdisciplinary perspective. Topics include theories of race and ethnicity; Asian migration and diaspora to the Americas; Asian American work and labor issues; gender, family, and communities; nationalism and nativism, and anti-Asian movements; Asian Americans in World War II, the Cold War, and the issues in the civil rights & post-civil rights era.
Cross-listed with: AAST201.
Credit Only Granted for: AAST201 or HIST221.

HIST222 Immigration and Ethnicity in America (3 Credits)
The history of immigration and the development of diverse populations i the United States are examined. Topics include related political controversies, the social experiences of immigrants, ethnicity, generations, migration, inter-group relations, race, and diversity in American culture.
Credit Only Granted for: AAST222, HIST222, or SOCY222.

HIST223 Globalizing the American Revolution (3 Credits)
How is the American Revolution a creation story in the making of our multi-cultural and interconnected modern world? Consider the Declaration of Independence. When first published on July 5, 1776, it was printed by an immigrant Irishman on Dutch paper that had been brought over from England. This was the first such declaration of independence ever issued, but its ideas and forms traveled far and wide. More than 100 other declarations of independence have been issued since then. The people that declaration mobilized are similarly diverse: the American Revolution is as much the story of Creek farmers, Spanish soldiers, French slaves, Canadian fugitives, Indian tea-growers, and African statesmen as it is of the Minutemen and Sons of Liberty. In this globe-trotting class, students will be positioned to debate how the familiar story of the American Revolution changes when we place it in transnational context.
Cross-listed with: HNUH218C.
Credit Only Granted for: HNUH218C or HIST223.

HIST224 Modern Military History, 1494-1815 (3 Credits)
Survey of global military history from the European "discovery" of the Americas to the end of the Napoleonic Wars. Explores how the creation of professional armies, advancement of weapons technology, and evolution of military-civilian relations in Europe during these three centuries sparked the "Rise of the West".

HIST225 Modern Military History, 1815-Present (3 Credits)
The military history of Europe through an examination of the economic, financial, strategic, tactical, and technological aspects of the development of military institutions and warfare from the Congress of Vienna in 1815 to the present.

HIST226 Revolution, Regret, and Reform: The People and Principles in American Political History (3 Credits)
Explores American political history from Independence through the present day. Interrogates the roots of American political ideas, the dynamics of partisan competition, the interaction of class, ethnicity, race, and politics, the evolution of policy preferences, the growth of the state, and the transformation of grassroots expectations and ambitions, among other important themes. By exploring the writings of major figures as well as the preferences of anonymous voters--and everyone in between, this course will help students identify the overarching themes and the important forgotten moments in our nation's political development. Students will end the semester armed with a mastery of this history, an understanding of the methods of political historians and scholars in related fields, and a contextualization of our contemporary political world.
Credit Only Granted for: HONR299G or HIST226.
Formerly: HONR299G.

HIST227 Frederick Douglass's America (3 Credits)
What does it mean to be free in the United States? The concept of freedom was embedded in the nation's political culture in the Declaration of Independence, and it has remained a cherished and contested ideal. We can interrogate this concept through the life and times of Frederick Douglass (1818-1895), who dreamed eloquently of freedom, thought carefully about its limits, and worked ardently to build a firmer freedom for a broader population. With Douglass as our guide, we will examine the survival of slavery in a nation built on freedom, images of the expanding United States as a land of opportunity, and the complex meanings and tremendous costs of freedom struggles during the nineteenth century. This history will push you to think critically about the contested concepts that shape our lives, and to consider the values and the perils of a society that positions freedom as its highest ideal.
Credit Only Granted for: HNUH218B or HIST227.
Formerly: HNUH218B.

HIST231 London and the British Empire (3 Credits)
Focuses on the people, places, and policies that shaped the development of the British Empire, the single largest trans-cultural phenomenon in the world since 1500. Students examine how ideology, migration, technology and resistance shaped the expansion and eventual retrenchment of British imperial power in the Atlantic world and the Indian sub-continent. With the nation's capital as our classroom, students explore the complex workings and legacies of the British Empire from the perspective of its nerve center. The curriculum illuminates the experience of empire for subjects both in the colonies and the metropole and will pay particular attention to the maritime origins of empire, the lives of black Britons and the abolition of slavery, and the rise and fall of the British in India.
Cross-listed with: HONR231.
Credit Only Granted for: HIST219K, HONR249B, HONR231, or HIST231.
Formerly: HIST219K.

HIST232 The Historical Development of London (3 Credits)
Study Abroad in London, England. The history of London, beginning with its foundation by the Romans, continuing with the city's progressive political and cultural domination of England, the British Isles and the British Empire, and concluding with a look at the city in the 20th century. Students look at London through the eyes of contemporaries and historians while forming their own impressions of the city during course-based walking tours of the city.
Restriction: Permission of Study Abroad Office required.
Credit Only Granted for: GNED288 and HIST232.
Formerly: GNED288.

HIST233 Empire! The British Imperial Experience 1558-1997 (3 Credits)
Britain's empire from the mid-sixteenth century to the late twentieth century, focusing on the encounter between Britain and indigenous peoples. Topics include the origins of British imperialism in Ireland and North America, the slave trade, the East India Company and India, women in empire, transportation and the making of Australia, sex in empire, missionaries, racial theories, and decolonization.
Credit Only Granted for: HIST219P or HIST233.
Formerly: HIST219P.

HIST234 Invaders, Conquerors, Usurpers: A History of Pre-Modern Britain to 1485 (3 Credits)
British history from Roman times to the 15th century. The Anglo-Saxon, Scandinavian, and Norman invasions; the coming of Christianity; Magna Carta, the development of Parliament, legal institutions, and the Common Law; the decline of medieval kingship.

HIST235 Divorced, Beheaded, Deposed: England and Britain 1485-1689 (3 Credits)
British history from the War of the Roses to the Hanoverian succession; Yorkist and Tudor society and politics; the Renaissance and Reformation in England, Henry VIII through Elizabeth I; 17th-century crises and revolutions; intellectual and cultural changes; the beginnings of empire; the achievement of political and intellectual order.

HIST236 From Peacocks to Punks: Modern Britain from 1688 to Today (3 Credits)
British history from the Glorious Revolution of 1688 to the present. The revolution of 1688; the structure of 18th-century society and politics; economic and social change in the Industrial Revolution; 19th- and 20th-century political and social reform; imperialism; the impact of the First and Second World Wars on British society.

HIST237 Russian Civilization (3 Credits)
An overview of Russian history stressing the main lines of development of the Russian state and the evolution of Russian culture to the present day.

HIST240 Europe in the Twentieth Century (3 Credits)
Political, cultural, and economic developments in 20th-century Europe.
Credit Only Granted for: HIST240 or HIST337.
Formerly: HIST337.

HIST241 The Soviet Century (3 Credits)
The twentieth century was the "Soviet Century," or a twentieth century defined by the Soviet Union's birth, growth and demise. Beginning with this premise, the course starts with the revolutionary seeds of Soviet rule, the Russian empire and the revolution of 1905, and concludes with an examination of the former Soviet space in the aftermath of the Soviet collapse in 1991. Key topics include: 1) The origins, timing and intent of state-sponsored violence and terror 2) Agricultural and industrial modernization and 3) The Soviet Union as a new type of multi-ethnic state or empire. The last theme will get particular emphasis, and the course seeks to dismantle the long-standing notion that "Russian" and "Soviet" are the same thing. Instead, it emphasizes the Soviet Union as a multi-ethnic, multi-confessional society, one in which Russians interacted with myriad other ethnic groups, including Ukrainians, Kazakhs, Tatars, Armenians, Lithuanians, Tatars and others.

HIST244 What Do Conspiracy Theories Reveal about American History? (3 Credits)
Explores a range of conspiracy theories and moral panics from the colonial period to the early twenty-first century by explaining the historical conditions under which conspiracies took root and the fears and anxieties underlying paranoia in American history

HIST245 Reformers, Radicals, and Revolutionaries: The Middle East in the Twentieth Century (3 Credits)
The 20th century was a period of dramatic changes in the Middle East. Within the global context of the two World Wars and the Cold War, countries in the region struggled with the effects of colonialism and painful processes of decolonization. The course offers a thematic-comparative approach to issues such as social and political reform, nationalism, the colonial experience, independence struggles, models of governance, political violence, and Islamism. Course lectures and the analysis and discussion of primary sources will lead students to understand that the peoples of the Middle East found answers to the challenges posed by Western dominance based on their specific historical, cultural and socio-economic circumstances.
Cross-listed with: RELS219K.
Credit Only Granted for: RELS219K or HIST245.

HIST247 Modern India and South Asia (3 Credits)
Surveys the making of modern India, as well as Pakistan and Bangladesh, from the onset of colonialism in the 18th century to the present day. Focuses on three key themes: state formation and the persistence of regional identities; the negotiation of religious, ethnic, caste, and gender differences; and economic development and inequality.
Credit Only Granted for: HIST219J or HIST247.
Formerly: HIST219J.

HIST250 History of Colonial Latin America (3 Credits)
Introductory survey of the history of Latin America from pre-Columbian Indian cultures to the beginning of the wars for independence (ca. 1810), covering cultural, political, social, and economic developments. Major themes include conquest, colonialism, indigenous culture, African slavery, religion, race and ethnicity, and gender ideologies.
Cross-listed with: LACS250.
Credit Only Granted for: LASC250, HIST250, OR LACS250.
Formerly: LASC250.

HIST251 Latin America Since Independence (3 Credits)
Introductory survey of the history of Latin America from the era of independence (c. 1810-1825) through the early 1980s. Major themes include independence and sovereignty, postcolonialism and neocolonialism, nation- and state-building, liberalism, citizenship, economic development and modernization, social organization and stratification, race and ethnicity, gender relations, identity politics, reform and revolution, authoritarianism and democratization, and inter-American relations.
Cross-listed with: LACS251.
Credit Only Granted for: HIST251, LASC251, or LACS251.
Formerly: LASC251.

HIST254 African-American History to 1865 (3 Credits)
Survey of the principal developments in the history and culture of the peoples of African descent in colonial North America and the United States to 1865. Examines the African past, the Atlantic slave trade, variation in slavery, the growth of free black communities, the transformations of families and cultural forms, and patterns of resistance.
Cross-listed with: AAAS254.
Credit Only Granted for: HIST254, AAAS254 or AASP298C.

HIST255 African-American History, 1865 - Present (3 Credits)
An introductory course in the African-American experience in the United States from 1865 to the present. Topics include the aftermath of the Civil War on US race relations, the rise of segregation, northern migration, World War I and II, Civil Rights Movements, and the Black Power Movement.
Cross-listed with: AAAS255.
Credit Only Granted for: HIST255, AASP255, AAAS255 or AASP298A.

HIST261 Medicine in an Age of Empires, 1500-1800 (3 Credits)
An introduction to the broad shifts in European medicine of early modern period, a period that saw the extension of overseas empires and the emergence of medicine as a profession. The course offers a thematic and comparative look at the intertwined experiences of disease, empire, and global commerce that reshaped expectations of what medicine could or should do, for whom, and at what cost.

HIST266 The United States in World Affairs (3 Credits)
A study of the United States as an emerging world power and the American response to changing status in world affairs. Emphasis on the relationship between internal and external development of the nation.

HIST269 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

HIST270 Science Fiction, Afrofuturism, and Colonialism (3 Credits)
Explores the history of science fiction writing in the context of genuine historical events and issues in the background of authors and in the narratives they create. There is a deep intersection with colonialism and racism -- one which was then traduced by two generations of sci-fi authors, and via Afrofuturism and dystopian Scifi, who turned around the genre to create a new set of plots and social messages. Students will leave the class with an appreciation of the difference between historical methodology and narrative, whether under the guise of fiction or speculative nonfiction. Students will encounter and understand cinematic and visual vocabularies as well as textual tropes.

HIST281 Inventing Traditions: The Making of Rabbinic Judaism (3 Credits)
Introduces the dramatic literary and cultural (as well as political and demographic) innovations that reshaped Judaism in late antiquity. Examines the fundamental works and genres of rabbinic literature and the religious movement that produced them. Special emphasis on the rabbinic uses of "tradition" to enhance authority and legitimacy, and to foster group identity.
Cross-listed with: JWST230, RELS230.
Credit Only Granted for: HIST281, JWST230, RELS219C or RELS230.
Formerly: RELS219C.

HIST283 History of the Jewish People II (3 Credits)
Political, economic, social, and cultural development within Jewish history from the end of Middle Ages to the present. Special attention to twentieth-century developments including the Nazi holocaust and its aftermath, the Zionist movement and the creation of the State of Israel; rise of the contemporary American Jewish community.
Credit Only Granted for: HIST283, HIST283H, JWST235, or JWST235H.

HIST284 East Asian Civilization I (3 Credits)
An interdisciplinary survey of the development of East Asian cultures. An historical approach drawing on all facets of East Asian traditional life, to gain an appreciation of the different and complex cultures of the area.

HIST285 East Asian Civilization II (3 Credits)
A survey of the historical development of modern Asia since 1700. Primarily concerned with the efforts of East Asians to preserve their traditional cultures in the face of Western expansion in the 18th and 19th centuries, and their attempts to survive as nations in the 20th century.

HIST286 Urban Dreams and Nightmares: The Jewish Experience of Cities (3 Credits)
Cities give expression to man's power while they highlight human limitations. It is urban social diversity that makes great wealth and thriving culture possible, but it also fixes discrimination behind walls constructed from paper and stone. Nations make cities symbols of the sacred and the glorious, while they ignore the poverty and social alienation that city life breeds. Jews, intensively urbanized for millennia, provide a special vantage point from which to study the beauty and the tragedy implicit in city-building. Our sources will include the Bible, poems, plays and novels but also US Supreme Court rulings and news of riots in Israel. We will survey how Jews have shaped, and been shaped by, the urban challenge over time and space.
Cross-listed with: JWST275.
Credit Only Granted for: HIST286 or JWST275.

HIST287 Why the Jews? Historical and Cultural Investigations (3 Credits)
Examines the history and culture of the Jews from the thirteenth century BCE/BC to the present through an examination of significant themes or problems (such as "religion" or "diaspora") that shape our understanding of the Jewish people. A primary focus in the course will be on texts, artifacts, and other cultural products by Jews and others that illustrate the history of the Jews help understand their cultural heritage.
Restriction: Must not have completed HIST282, HIST283, JWST234, or JWST235. Cross-listed with JWST233.
Credit Only Granted for: HIST287 or JWST233.

HIST289A Jews, Christians, and Muslims in Medieval Spain: Tolerance, Oppression, and the Problematic Past (3 Credits)
For 800 years, medieval Spain was home to one of the most religiously diverse societies in European history. Despite frequent hostilities, the interactions of Spanish Jews, Christians, and Muslims produced a flowering of science, theology, and literature in an often remarkably tolerant climate. Students will learn how medieval Spanish people themselves experienced interreligious contact and conflict. They will also discover the modern pressures, prejudices, and ideals that have shaped historians interpretations of medieval Spain.
Cross-listed with: RELS289C.
Credit Only Granted for: HIST289A or RELS289C.

HIST289N The Politics of Sexuality in America: A Historical Approach (3 Credits)
Why do particular issues about sexuality hold such an important place in American political debates? What animates these controversies and what can a historical perspective on these issues add to our understanding of modern sexual politics? This class explores the historical sexual politics that undergird contemporary debates concerning sexuality in America. It focuses on topics that garner significant public attention - Reproductive rights - LGBTQ rights - Sexting - and explores the histories that undergird Americans disagreements.
Cross-listed with: WGSS298N.
Credit Only Granted for: HIST289N or WGSS298N.

HIST289O Lawlessness: From Pirates to Body-snatchers, Exploring the Legitimacy of Illicit Activity (3 Credits)
Explores motives of and responses to the lawless behavior of pirates, body snatchers, bandits, vigilantes, smugglers and others worldwide from the 1500s to today.

HIST289R Pocketbook Politics: A History of American Buying and Selling (3 Credits)
Provides a thematic approach to consumerism as it emerged in the United States over the course of three centuries. The history of consumption is a prism through which many aspects of social and political life may be viewed. How does what we wear, what we listen to, or what we eat shape our identities?

HIST289T Jesus, Mani, and Muhammad: The Dynamics of New Religious Movements (3 Credits)
We examine three significant ancient religious figures: Jesus (d. 30s CE), Mani (d. 276 CE), and Muhammad (d. 632). All three were founders of long-lasting religions that were part of a dramatic change in the society and religion of the ancient world. Special areas of focus: the biographies of these founding figures, and how we know them; a historical approach to religious founders; and the sociology of new religious movements.
Cross-listed with: RELS273.
Credit Only Granted for: RELS273 or RELS289M or HIST289T.
Formerly: RELS289M.

HIST289V What Does It Mean to be An American? (3 Credits)
This course seeks to understand the on-going crisis over national identity and purpose by examining the many factors that go into the big stew known as America.

HIST289Y Zombies, Fear, and Contagion: A Cultural History of Public Health, Medicine, and Technology (3 Credits)
Historically examines how our fear of zombies reflects changing fears about the body, and anxieties about western medical and technological advancements.

HIST290 Can Jews be Arabs? Identity and Crisis for the Jews of Arab Lands in Modern Times (3 Credits)
For centuries, Jews inhabited the Islamic lands of the Middle East and North Africa. Their population has dropped from nearly one million a century ago to several tens of thousands today, mostly in Turkey and Iran. The vibrant and ancient Jewish communities of Iraq, Egypt, Syria, Morocco, Algeria, Libya, and several other countries were practically gone by 1970. One popular explanation for this exodus is that an "age-old schism between Jews and Muslims," in the words of the prominent historian Martin Gilbert, drove Jewish men and women to leave their historic homelands in the years following the first Arab-Israeli war of 1948. However, recent research into these communities offers a more complex picture of their lives in Islamic lands in the 19th and 20th centuries and subsequent departure.
Cross-listed with: JWST290.
Credit Only Granted for: JWST289A, HIST219C or HIST290.

HIST291 Jewish Texts and Cultures of the Second Temple Period (3 Credits)
An introduction to the literature, history, and culture of Jews in the period between the sixth century BCE and the second century CE. Special topics may include the rise of the formation of the biblical canon, scriptural interpretation, sectarian and revolutionary movements, and growth of the diaspora.
Cross-listed with: JWST231.
Credit Only Granted for: HIST291 or JWST231.

HIST299 Directed Research (1-3 Credits)
Closely guided research in primary sources for students currently enrolled in selected 100- or 200-level surveys in the Department of History.
Restriction: Permission of ARHU-History department.
Repeatable to: 9 credits if content differs.

HIST304 The Baddest Decade: The 1970s in American Film and American History (3 Credits)
The history of the United States and of its cinema in the 1970s.
Cross-listed with: CINE352.
Credit Only Granted for: CINE352, FILM352 or HIST304.
Formerly: FILM352.

HIST306 History of Religion in America (3 Credits)
A history of religion, religious movements, and churches in America from the early Colonial period to the present, with special attention to the relation between church and society.
Cross-listed with: RELS346.
Credit Only Granted for: HIST306 or RELS346.

HIST307 The Holocaust of European Jewry (3 Credits)
Roots of Nazi Jewish policy in the 1930's and during World War II: the process of destruction and the implementation of the "final solution of the Jewish problem" in Europe, and the responses made by the Jews to their concentration and annihilation.
Cross-listed with: JWST345.
Credit Only Granted for: HIST307 or JWST345.

HIST310 History of South Africa (3 Credits)
Explores the roots of Apartheid and the anti-Apartheid movement from precolonial times to the present: the social history of work and identity, the rise of kingdoms (Zulu, Sotho), conquest and colonial administration, urban and rural mass politics, gender relations, and the transition to democracy.
Formerly: HIST419E.

HIST319 Special Topics in History (3 Credits)
Repeatable to: 6 credits if content differs.

HIST320 Early Christianity: Jesus to Constantine (3 Credits)
Social and religious history of early Christianity from its origin in the first century to the reign of Constantine.
Cross-listed with: JWST331.
Credit Only Granted for: HIST320 or JWST331.

HIST321 Archaeology and the Quest for Ancient Israel (3 Credits)
The Hebrew Bible/Old Testament tells the story of "Biblical Israel" in ways that overlap with but are not identical to the evidence for "ancient Israel" provided by archaeological sources. Close attention to archaeology and inscriptional evidence allows for an understanding of biblical literature in light of its ancient Near Eastern context. Primary focus is on the Iron Age (ca. 1200-540 BCE), whose archaeology and inscriptions will be explored alongside biblical texts set during the this period but often written much later. Class discussion will address modern controversies regarding ancient Israel, including questions of origins (what does proto-Israelite mean?), problems of historiography (minimalist vs. maximalist), and archaeological dating (low chronology vs. high chronology).
Cross-listed with: JWST324.
Credit Only Granted for: HIST321 or JWST324.

HIST324 Classical Greece (3 Credits)
The ancient Greeks from Homer to Socrates, 800-400 B.C. Society and religion of the city-state, the art and literature of Periclean Athens, the Peloponnesian War, and the intellectual circle of Socrates.

HIST325 Alexander the Great and the Hellenistic Age (3 Credits)
History of the Greeks 400-30 B.C.: Alexander and the changes he wrought in the Mediterranean world; the rise of monarchies and leagues; new directions in religion, art, literature, and science; and Hellenization of the Near East, including the Jews.

HIST326 The Roman Republic (3 Credits)
Ancient Rome 753-44 B.C., from its founding to the assassination of Julius Caesar. Rome's conquest of the Mediterranean world, the social and political forces that brought it about, and the consequent transformation and decline of the Republic.

HIST327 The Roman Empire (3 Credits)
Roman history from Augustus to Heraclius, 44BC-641AD: The Imperial court and government; the diversity of culture in provinces and cities and the progress of Romanization; Roman religion and its transformation in late antiquity; the Roman army and defense of the frontiers.

HIST328 Selected Topics in History (3 Credits)
Repeatable to: 9 credits.

HIST328D Inventing Ancient Greek Culture (3 Credits)
Who were the ancient Greeks, and were they the founders of Western civilization' The course examines the foundations of ancient Greece. Through an analysis of the historical, archaeological, and linguistic evidence, it sheds light on the so-called Black Athena Controversy, which raised doubts about the ancient Greek contribution to Western culture. The course also focuses on the impact of modern identity politics on scholarly discussions of antiquity and the ways in which the Culture Wars of the 1980s and 1990s have influenced analyses of the ancient Greek world.
Cross-listed with: CLAS311.
Credit Only Granted for: CLAS311 or HIST328D.

HIST328W Women in Classical Antiquity (3 Credits)
A study of women's image and reality in ancient Greek and Roman societies through an examination of literary, linguistic, historical, legal, and artistic evidence; special emphasis in women's role in the family, views of female sexuality, and the place of women in creative art. Readings in primary sources in translation and modern critical writings.
Cross-listed with: CLAS320, WGSS320.
Credit Only Granted for: CLAS320, WMST320, WGSS320 or HIST328W.

HIST329 Special Topics in History (1-3 Credits)
Repeatable to: 9 credits.

HIST330 Europe in the Making: The Early Medieval West (A.D. 300-1000) (3 Credits)
From one empire to another. Rome to Charlemagne. This period is approached as a crucible in which classical, Christian, and Germanic elements merged, yielding new experimental syntheses. This course will deal with issues of authority, cultural trends, and the formation of group solidarity.
Cross-listed with: RELS340.
Credit Only Granted for: HIST330 or RELS340.

HIST331 Europe in the High Middle Ages: 1000-1500 (3 Credits)
Medieval civilization in the 11th through 15th centuries. Emphasis on cultural and political developments of the high Middle Ages with study of the principal sources of medieval thought and learning, art and architecture, and political theory prior to the Renaissance.
Cross-listed with: RELS341.
Credit Only Granted for: HIST331 or RELS341.

HIST332 Renaissance Europe (3 Credits)
Intellectual developments in Italy and Northern Europe from 1300 to 1550 and their influence on the arts and religion; social and economic trends, including the rise of the commercial economy in cities; the family and the role of women in society; expansion of Europe overseas and the beginnings of colonization; emergence of the state and consequent changes in political theory.
Cross-listed with: RELS342.
Credit Only Granted for: HIST332 or RELS342.

HIST333 The European Reformations (3 Credits)
Examination of developments in European religion between 1450 and 1700; the late-medieval Church and its critics; rise of Protestant thought in Germany and its spread throughout Europe; reform efforts in the Catholic Church; religious wars and violence and their impact on state and society; consequences of religious reform in society and its impact on the family and women.
Cross-listed with: RELS343.
Credit Only Granted for: HIST333 or RELS343.

HIST338 Special Topics in History (3 Credits)
Thematic exploration of a topic in history.
Repeatable to: 9 credits if content differs.

HIST339 Special Topics in History (3 Credits)
Thematic exploration of a topic in history.
Repeatable to: 9 credits if content differs.

HIST339G Greek and Roman Athletics (3 Credits)
The origin and evolution of athletics in ancient Greece and Rome studied as recreation, as play, as education, as a profession and as mass entertainment.
Cross-listed with: CLAS315.
Credit Only Granted for: CLAS315 or HIST339G.

HIST339J Ancient Slavery and its American Impacts (3 Credits)
Interrogates how slavery permeated the ancient Mediterranean societies of Greece and Rome. We will pay particular attention to how hierarchical inequalities are institutionalized, experienced, and represented and to how different marginalized and dominant groups interacted. Enslaved persons performed necessary labor in Greece and Rome and their work was essential for the formation of ancient society in agriculture, mining, domestic spaces, literature, finance, and government. Studying ancient slavery offers a chance to examine Greece and Rome from the bottom up, parsing the scant literary and material evidence for the lives and struggles of enslaved persons. We will practice several different approaches in order to tease out the systematic, economic, political, and personal effects of slavery in the ancient world. The United States of America was also founded as a slave society, and discussions of slavery in the Americas often look back to the ancient Mediterranean. The course will therefore conclude with a unit on how enslavers and abolitionists in the United States utilized and responded to slavery in antiquity.
Cross-listed with: CLAS340.
Credit Only Granted for: CLAS340 or HIST339J.

HIST343 Empires, Revolutions, and Cold Wars: Modern Central and Eastern Europe (3 Credits)
We live in an international system upended by Russia's full-scale invasion of Ukraine in 2022. Central and Eastern Europe -- a region largely taken for granted since the end of the Cold War -- is now once again the key battleground for the future of the rules-based global order. This course will offer a broad overview of that region's history since the late 1700s -- through empires, revolutions, and cold wars -- and provide students with the critical tools to develop their own views on that history.
Credit Only Granted for: HIST328L or HIST343.
Formerly: HIST328L.

HIST345 From Body Snatchers to Jack the Ripper: Scandal and Crime in Victorian Britain (3 Credits)
Rumors of the Queen's affairs, grave robbers feeding the medical profession's study of anatomy, female poisoners terrifying the nation's husbands, white slave traders at train stations, and a serial killer targeting London's poorest prostitutes: These are just some of the cases we will use to explore the larger social, legal, moral, and political context of 19th Century Britain and the role of the media in creating sensation and scandal. This course will answer such questions as: Why was the Victorian public fascinated by murder, whether done by an unhappy wife or a Jekyll-Hyde figure lurking at night in London's slums? What do certain crimes and scandals tell us about what it meant to be "Victorian," and how certain stereotypes we may have about Victorians today are not true at all? How did these scandals/crimes become part of popular culture at the time and how/why do they continue to be part of the entertainment we enjoy today?
Credit Only Granted for: HIST329P or HIST345.
Formerly: HIST329P.

HIST352 America in the Colonial Era, 1600-1763 (3 Credits)
The founding of the English colonies in America and their European backgrounds, the reasons for the instability of colonial society to 1689 and the emergence of stable societies after 1689; the development of colonial regionalism, political institutions, social divisions, the economy, religion, education, urban and frontier problems in the eighteenth century.
Prerequisite: HIST200, HIST210, HIST213, or HIST254; or must have completed HIST156; or permission of instructor.

HIST353 America in the Revolutionary Era, 1763-1815 (3 Credits)
The background and course of the American Revolution and early nationhood through the War of 1812. Emphasis on how the Revolution shaped American political and social development, the creation of a new government under the Constitution, and the challenges facing the new nation.

HIST354 Ante-Bellum America 1815-1861 (3 Credits)
Traces how the strong nationalism after the War of 1812 transformed int the sectionalism that led to Civil War. The course concentrates on the controversies over slavery and other issues contributing to North-South antagonism, including Jacksonian democracy, capitalism, racism, immigration, manifest destiny and religious, social, and intellectual movements, each of which produced its own social tendencies and tensions.

HIST355 Civil War and the Rise of Industrialization, 1860-1900 (3 Credits)
Civil War, sectional and class conflicts and their impact on American life and institutions from the beginning of the Civil War through the Gilded Age; social, economic, and political reconstruction of the Union; industrialization, urbanization, and technological changes.
Credit Only Granted for: HIST355 or HIST364.

HIST356 Emergence of Modern America, 1900-1945 (3 Credits)
The emergence of modern institutions and identities, 1900-1945. These institutions may include corporate enterprises and the welfare state; identities include homosexuality, the New Woman, and the New Negro.

HIST357 Recent America: 1945-Present (3 Credits)
American history from the inauguration of Harry S. Truman to the present with emphasis upon politics and foreign relations, but with consideration of special topics such as radicalism, conservatism, and labor.

HIST360 Women and the Civil Rights Movement (3 Credits)
Twentieth-century U.S. civil rights movement from the vantage point of women, considering both women's involvement in the legal campaigns and political protests and the impact of civil rights struggles on women's condition, status, and identity.

HIST361 Metropolitan Change and Modern America: Cities, Suburbs, Hinterlands (3 Credits)
An exploration of the forces that have transformed metropolitan and rural life since the mid-19th century. What role have politics, policy, economics, and ideology/culture played in creating an urbanized and then a "suburbanized" nation?
Credit Only Granted for: HIST419B or HIST361.
Formerly: HIST419B.

HIST363 Mobility in History: Planes, Trains, Automobiles (3 Credits)
From walking, bicycling, riding ships and trains to driving cars and to flying: Humans and their modes of transportation have changed dramatically in history. In this class, students will explore the social, cultural, and environmental aspects of passenger and freight transportation in the 19th and 20th centuries. The focus is on the societal expectations and imaginations that have shaped how humans move about.
Credit Only Granted for: HIST329X or HIST363.
Formerly: HIST329X.

HIST369 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

HIST370 Jews and Judaism in Antiquity I: Sixth Century BCE through the First Century CE (3 Credits)
Political, social, and religious history of the Jews from the Persian period to the Judean revolt of 66-70 CE. Special attention to the rise of sectarian and revolutionary movements.
Cross-listed with: JWST325.
Credit Only Granted for: HIST370 or JWST325.

HIST371 Jews and Judaism in Antiquity II: First through Seventh Century (3 Credits)
Political, social, and religious history of the Jews from the destruction of the Jerusalem Temple in 70 CE to the Muslim conquests. Special attention to the political transformations in Judaism under late Roman Christianity, and the rise of the Rabbinic movement.
Recommended: HIST370.
Cross-listed with: JWST326.
Credit Only Granted for: HIST371 or JWST326.

HIST373 Martyrs & Merchants, Lawyers & Mystics, Magicians & Messiahs: Jews Between Medieval and Modern Times (3 Credits)
In an era marked by traumatic expulsions, inquisitorial barbarism, and enforced ghettoization, Jews reinvented themselves. Through their international networks of trade, Jews learned how to negotiate with kings and to govern new, large urban communities in new lands. They took advantage of the printing press to reorganize their literary traditions of law, biblical studies and mysticism, and created new hierarchies of religious status. And they flocked to hear new kinds of enthusiast preachers, celebrating the man they saw as the messiah finally come. We will together explore the contradictory forces that ultimately gave birth to the modern Jew.
Recommended: HIST287 or JWST233; HIST 332; .
Cross-listed with: JWST333.
Credit Only Granted for: JWST333 or HIST373.

HIST375 Modern Jewish History II: World Jewry Since 1870 (3 Credits)
Social, political, economic, and cultural change in the Jewish world since 1870. Emphasis on emancipation, assimilation, and new forms of Jewish identity in Western and Eastern European Jewry from the 19th Century to the present.Cross-listed with JWST344.
Credit Only Granted for: HIST375 or JWST344.

HIST376 History of Modern Israel (3 Credits)
History of modern Israel since the beginning of the Zionist settlement in 1882. Attention to different interpretations and narratives of Israel's history, including the historical and ideological roots of Zionism, the establishment of the State of Israel, ideological forces, wars, and the triumphs and crises of democracy.Cross-listed with ISRL342.
Credit Only Granted for: HIST376 or ISRL342.

HIST377 Mizrahi Identity in Israel (3 Credits)
It is impossible to understand Israeli society today without examining the Mizrahi experience. Despite the common misconception that Israel is predominantly made up of Jews from European origin, the fact of the matter is that Jews of Mizrahi origin, whose parents and grandparents immigrated to Israel from the Middle East and North Africa, represent a major part of the Israeli population. Moreover, Ashkenazi-Mizrahi relations continue to be a major source of tension in Israeli politics, and issues of race continue to come up on social media and polarize the Israeli society. This course brings to light narratives of Mizrahi identity in Israel and explores the trajectory of the Mizrahi struggle for equality and against racism through its various milestones: the 1959 Wadi Salib Revolt, the Black Panthers Movement in the 1970s, the emergence of the Israeli Sephardi-Orthodox party Shas, and the new wave of Mizrahi activism in the 21st century.
Cross-listed with: ISRL330, JWST334.
Credit Only Granted for: JWST319D, JWST334, HIST377, HIST329Z, ISRL329M, or ISRL330.
Formerly: ISRL329M.

HIST381 The Israeli Settler Movement: The Road to One State? (3 Credits)
Explores the Israeli settler movement over the last four decades, from its position on the fringes of Israeli society in the 1970s and 1980s to its rise to prominence in Israeli politics today. Topics will include the history of the Israeli settlement project in the West Bank, the emergence of Gush Emunim and its ideological foundations in Jewish messianism, its violent offshoots, and the influence of the settler movement on the Israeli political system. Study of these topics illuminates some of the most important driving forces of modern history such as nationalism, religious fundamentalism, colonialism and the ability of a determined minority to influence a country's policies.
Cross-listed with: JWST332, ISRL344.
Credit Only Granted for: HIST329G, HIST381, ISRL329G, ISRL344, JWST332 or JWST319N.
Formerly: JWST319N.

HIST382 Law and Culture in Late Imperial China (3 Credits)
An exploration of Chinese law and its social/cultural implications in the late imperial period (1550s-1900s). Major interpretations of the conceptions of law and justice, the functioning of the judicial system, and local courts. An introduction to society and culture, politics and the bureaucracy, family and gender relations, and literature and popular religion of China through the lens of law.

HIST383 City God, Dragon Boat, and Monkey King: Popular Culture and Society in Imperial China (3 Credits)
Explores popular culture, society, and religion in China, with a focus on the late imperial periods (1368-1911). Together we will read and discuss a variety of (translated) primary sources and secondary sources, including the famous sixteenth-century popular novel The Journey to the West, which features the adventures of the powerful Monkey King in his quest for pleasure, immorality, and salvation. We will raise and address questions about popular culture, vernacular literature, folk religion, ritual operas, and everyday life of ordinary people in late imperial China.
Credit Only Granted for: HIST319A or HIST383.
Formerly: HIST319A.

HIST384 Global History of Capitalism (3 Credits)
Surveys the development of capitalism since the 1500s from a global perspective, focusing on Asia, Africa, and Latin America. Topics include markets, entrepreneurship, commodity flows, labor migration, conflicts between states and empires, and environmental impacts. Engagement with primary sources and key debates, tracking changing ideas and interpretations of capitalism over time.
Credit Only Granted for: HIST329L or HIST384.
Formerly: HIST329L.

HIST386 Experiential Learning (3-6 Credits)
The History Department's Internship program. Pre-professional experience in historical research, analysis, and writing in a variety of work settings.
Restriction: Permission of ARHU-History department; and junior standing or higher.

HIST395 Honors Colloquium I (3 Credits)
History and theory: the conceptual underpinnings of the historical discipline. Students evaluate several contrasting theories of history. Prerequisite for other honors courses.
Restriction: Permission of ARHU-History department; and must be in History program.

HIST396 Honors Colloquium II (3 Credits)
Uses a seminar approach to examine a major problem of historical interpretation across two or more diverse cultures in different periods. Topics vary and include: religion and society, the city in history, gender, slavery and emancipation, and modernization.
Prerequisite: Permission of ARHU-History department; or HIST395.
Restriction: Must be in History program.

HIST398 Honors Thesis Directed Study (2 Credits)
Individual research and preparation of History Honors Theses.
Prerequisite: HIST395 and HIST396.
Corequisite: HIST399.
Restriction: Must be in History Honors program.
Repeatable to: 4 credits if content differs.
Additional Information: This course must be taken twice to fulfill the requirements for the honors program in history.

HIST399 Honors Thesis Senior Seminar (1 Credit)
Senior seminar with honors director. Focus on preparation of thesis.
Prerequisite: HIST395 and HIST396.
Corequisite: HIST398.
Restriction: Must be in the History Honors program.
Repeatable to: 2 credits if content differs.
Additional Information: This course must be taken twice to meet the requirements for the honors program in history.

HIST401 Science and Gender (3 Credits)
Examines the role of women and gender in the history of science. Includes consideration of barriers to women's participation in science; women's role as scientific subjects and researchers; and questions about the scientific construction of gender and the gendered construction of science.
Credit Only Granted for: HIST401 or HIST429R.
Formerly: HIST429R.

HIST403 Trashed! Garbage and Recycling in History (3 Credits)
What counts as valuable and what counts as trash? Who gets to decide? Who produces trash and who picks it up? By answering these questions, students will explore how humans have produced, dealt with, and ignored trash and recycling in the 19th and 20th century in both urban and rural settings.
Credit Only Granted for: HIST403 or HIST428P.
Formerly: HIST428P.

HIST405 Environmental History (3 Credits)
An introduction to the key issues and methods of environmental history. The scope of the subject is discussed, as well as its relationship with other disciplines, such as ecology, anthropology, and geography. A primary focus is environmental change in history with emphasis on the American experience.

HIST406 History of Technology (3 Credits)
The changing character of technology in modern history, beginning with the Middle Ages. Concentrates on the Industrial Revolution and its aftermath, the nature of technological knowledge and the sources of technological change.

HIST407 Technology and Inequality (3 Credits)
How are social inequality and technology related? Have technologies exacerbated social tensions or have they ameliorated them? In the age of climate change, pandemics, and economic transformations, this class looks at technology in history to examine previous transitions in production, infrastructures, computing, and pollution. The emphasis is on the interplay between society and technology in the 19th and 20th centuries.

HIST408 Senior Seminar (3 Credits)
A capstone course for history majors, designed to increase historical knowledge and the ability to analyze texts and arguments. Topics will focus on the literature of a particular field and primary-source research.
Restriction: Must be in History program.
Repeatable to: 6 credits if content differs.

HIST412 History of Women and Gender in Africa (3 Credits)
An examination of socio-economic and cultural change in Africa from the dawn of the colonial era in the 19th century to independence in the mid-twentieth century. Major focus on how African women understood and responded to the expansion of European empires, changes in the colonial economy, and impact of westernization and urbanization.
Credit Only Granted for: HIST412 or HIST428L.
Formerly: HIST428L.

HIST415 Ideas and Politics in Europe Since 1900 (3 Credits)
Examination of intersection of ideas and politics in Europe since 1900. Focus will be on advocates of liberalism, social democracy, fascism, Nazism, communism, and conservatism and their impact on politics and policy since 1900.

HIST416 History of Slavery and the Slave Trade in Africa (3 Credits)
Examines the history and impact of the slave trade on African states, societies, and economies. Investigates the meaning of slavery in Africa, the local uses of slavery there and Africa's connections to the Trans-Saharan, Red Sea, and Trans-Atlantic slave trades.
Credit Only Granted for: HIST416 or HIST419Y.
Formerly: HIST419Y.

HIST417 Colonial Encounters: Natives, Spaniards, and Africans in the New World (3 Credits)
An exploration of the discourses and practices of the Spanish colonial project in the New World and the ways in which Indians and Blacks were incorporated into or excluded from that project. Also examines native and African resistance and adaptation to Spanish rule, and the process of transformation and hybridization of Spanish, native and African cultures in Spanish America. An analysis of recent historiographical developments that have profoundly changed the understanding of the Spanish conquest and colonization of the New World.
Recommended: HIST220 and HIST250.
Credit Only Granted for: HIST417 or HIST428Y.
Formerly: HIST428Y.

HIST418 Jews and Judaism: Selected Historical Topics (3 Credits)
Prerequisite: HIST281, HIST283, HIST106, HIST286, or HIST282; or permission of instructor.
Repeatable to: 6 credits if content differs.

HIST419 Special Topics in History (3 Credits)
Repeatable to: 9 credits if content differs.

HIST419Q Before the Holocaust: The Golden Age of Eastern European Jewry (3 Credits)
An exploration of the history of the Jews of Eastern Europe from the period of the Polish Lithuanian Commonwealth until the Holocaust. Topics to be covered include religious, political, social, and cultural transformation of Jewish life in Eastern Europe in the context of the general political changes in the area.
Cross-listed with: JWST370.
Credit Only Granted for: JWST419E, JWST370, or HIST419Q.
Formerly: JWST419E.

HIST421 Medieval Heresies (3 Credits)
An examination of twelfth- and thirteenth-century heresies in the medieval West. Consideration of why so many heretics emerged, and how the church attempted to deal with them, and what effect their persecution had on Europe both then and later. Special attention given to groups that stood on the fine line between heresy and orthodox religion.
Credit Only Granted for: HIST408L or HIST421.
Formerly: HIST408L.

HIST425 Imperial Russia (3 Credits)
The rise and fall of the Russian Empire, Peter the Great to the collapse of tsarism in revolution. Emphasis on the evolution of autocracy, social groups, national identities, and cultural change.

HIST428 Selected Topics in History (3 Credits)
Repeatable to: 9 credits.

HIST429 Special Topics in History (3 Credits)
Repeatable to: 9 credits.

HIST429X Tradition and Change: Jewish Religion in the Modern World (3 Credits)
An exploration of the history of the different modern Jewish religious movements that developed in Europe, starting with messianic movements and ending with Reform and Orthodoxy. Emphasis will be placed on the influence of the academic study of Judaism on the development of modern Jewish religious ideologies and practices.
Cross-listed with: JWST347, RELS347.
Credit Only Granted for: RELS347, JWST347, HIST429X, or RELS419R.
Formerly: RELS419R.

HIST430 Reformations in Politics, Religion, and Gender: England 1485-1603 (3 Credits)
An examination of the political, religious, and social forces in English life, 1485-1603, with special emphasis on Tudor government, the English reformation, and the Elizabethan era.

HIST431 Becoming Great Britain, 1603-1704 (3 Credits)
An examination of the political, religious, and social forces in English life, 1603-1714, with special emphasis on Puritanism and the English revolutions.

HIST434 Victoria's Secrets: Sex and Class in Nineteenth Century Britain (3 Credits)
Queen Victoria, Jack the Ripper, Sherlock Holmes, Oscar Wilde, and Charles Darwin--all of them were "Victorians" yet just what did that word mean and what values did it encompass? This course will examine the social and cultural life of Great Britain from 1830 to 1900, and encompass the worlds of the elite upper classes to the slums of London's East End. We will pay particular attention to the various meanings of Victorianism and the myths and practices of progress, morality, reform, and imperial conquest that defined the era. We will focus on the "Two Nations" residing within Britain and how government and moral reformers addressed conditions of social inequality, poverty, and crime. Victorian medicine and science and their intersection with empire will be covered. We will also address Victorian notions of class, race, gender, and sexuality and how they were shaped by and influenced the politics and culture of everyday life.
Credit Only Granted for: HIST419A or HIST434.
Formerly: HIST419A.

HIST436 Napoleon, the French Revolution and the World (3 Credits)
An argument for the broad continuity between the revolutionary and Napoleonic wars.

HIST437 Modern France from Napoleon to DeGaulle (3 Credits)
The changing political and cultural values of French society in response to recurrent crises throughout the 19th and 20th centuries. Students should have had some previous survey of either Western civilization or European history.

HIST441 Germany Since 1900 (3 Credits)
Course places Nazism in context of German and European history. Topics include collapse of German democracy and the establishment of the Nazi dictatorship; the role of Hitler; the response of political, military, economic, diplomatic, legal, media, theological elites and the broader population; the mix of terror, consent and coercion; propaganda and Nazi culture; contours of Nazi racial ideology and anti-Semitism and their impact on domestic and foreign racial policy; the economic history of the Nazi regime; foreign policy from rearmament to launching World War II to expansion and defeat; Jewish policy from the years of persecution to those of extermination; Nazi policy in Eastern and Western Europe, towards the United States, and towards North Africa and the Middle East; why the Allies won World War II and why and how Nazi Germany was defeated; the nature of the Allied occupation after 1945; the Nuremberg war crime trials; aftermath of facing and avoiding the crimes of the Nazi regime in West and East Germany.

HIST442 Twentieth-Century Russia (3 Credits)
Russia and the Soviet Union from the fall of the tsars to the post-communist present. Impact of Leninism, Stalinism, and Soviet Communism on state, society, culture, and nationality.

HIST444 America in the 1960s (3 Credits)
Celebrated and vilified, the years between 1960 and 1970 represented a watershed in twentieth-century American history. Although history rarely falls neatly within 10-year divisions, the 1960s - as both historical era and historical idea - witnessed enormous political, social, and cultural changes. This course will examine the seminal events, actors, and movements that continue to shape our nation.
Credit Only Granted for: HIST319V or HIST444.
Formerly: HIST319V.

HIST450 American Capitalism: 1600-1900 (3 Credits)
This course explores the transformation of economic life in what became the United States from pre-colonial times to 1900, with special emphasis on economic interactions among Native American, Mexican, and European societies; how and why capitalism took root and became dominant; economic dimensions of the Revolutionary and Civil Wars; why the North, South, and West followed distinct economic paths; the revolutions in transportation and communications; slavery as a business system; causes and consequences of industrialization; and trends in the distribution of wealth and income.

HIST451 American Capitalism: 1900 to Present (3 Credits)
An examination of the evolution of American capitalism from 1900 to the present, with special attention on the emergence of the United States as the world's leading economic power; the impact of big business on work and government regulation; causes and consequences of the Great Depression; the role of business in the two world wars; postwar growth followed by the decline of U.S. global competitiveness; why consumerism occupied a central role in U.S. history; the influence of economic theory on policymaking; realities and mythologies of Reaganomics and Clintonomics; and the economic impact of the digital revolution.

HIST452 Diplomatic History of the United States to 1914 (3 Credits)
American foreign relations from the American Revolution to the beginning of World War I. International developments and domestic influences that contributed to American expansion in world affairs. Analyses of significant individuals active in American diplomacy and foreign policy.

HIST453 Diplomatic History of the United States from 1914 (3 Credits)
American foreign relations in the 20th century. World War I, the Great Depression, World War II, the Cold War, the Korean War, and Vietnam. A continuation of HIST452.

HIST454 Constitutional History of the United States: From Colonial Origins to 1865 (3 Credits)
The interaction of government, law, and politics in the constitutional system. The nature and purpose of constitutions and constitutionalism; the relationship between the constitution and social forces and influences, the way in which constitutional principles, rules, ideas, and institutions affect events and are in turn affected by events. The origins of American politics and constitutionalism through the Constitutional Convention of 1787. Major constitutional problems such as the origins of judicial review, democratization of government, slavery in the territories, secession, and civil war.

HIST455 Constitutional History of the United States: Since 1865 (3 Credits)
American public law and government, with emphasis on the interaction of government, law, and politics, and the relationship between the constitution and social forces and influences, the way in which constitutional principles, rules, ideas, and institutions affect events and are in turn affected by events. Major crises in American government and politics such as Reconstruction,the rise of corporate power, civil liberties during wartime, the New Deal era, the civil disorders of the 1960s.

HIST459 Society in America: Historical Topics (3 Credits)
A consideration of selected aspects of American society from colonial times to the present. Special emphasis on regionalism, immigration, nativism, minorities, urbanization, and social responses to technological changes.
Repeatable to: 6 credits if content differs.

HIST460 History of Labor in the United States (3 Credits)
The American working class in terms of its composition; its myths and utopias; its social conditions; and its impact on American institutions.

HIST462 Slavery, Sectionalism, and the U.S. Civil War (3 Credits)
Slavery, sectionalism, and the coming of the Civil War. Resources and strategy of the Confederacy and the Union, the war's changing character, emancipation and its consequences, conditions on the home front, and the wartime origins of Reconstruction.

HIST465 Oral History of Immigration (3 Credits)
Uses oral history to explore experiences of migrants to the Washington, D.C. area since the mid-twentieth century in projects based on engagement with local immigrants.
Credit Only Granted for: HIST428M or HIST465.
Formerly: HIST428M.

HIST466 Immigration and Ethnicity in the U.S. (3 Credits)
Seminar exploring historical problems relating to US immigration, race, and ethnicity since 1848, with emphasis on cultural impacts of migration on immigrants, their children, and U.S. society.
Credit Only Granted for: AAST498L or HIST466.

HIST467 Women and Reform Movements in the Twentieth-Century United States (3 Credits)
Investigation of women's participation in such twentieth-century reform movements as the labor movement, the struggle for racial justice, social welfare reform, and women's movements. Will ask how race, class, and gender were implicated in the ways that women agitated for social political change.
Recommended: HIST201, HIST211, or HIST255.
Credit Only Granted for: HIST467 or HIST429E.
Formerly: HIST429E.

HIST469 Study Abroad Special Topics IV (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

HIST470 Corporations on Trial (3 Credits)
Examines legal challenges to corporations around the world over the past 200 years through selected case studies. Topics include globalization, empires, the world wars, and the emergence of human rights, corporate social responsibility, and environmental justice.
Credit Only Granted for: HIST419X or HIST470.
Formerly: HIST419X.

HIST473 History of the Caribbean (3 Credits)
Offers a concise introduction to the history of the Caribbean regions from the Columbian voyages to the 20th century. Special emphasis is given to the dynamics of local social and cultural formations within the framework of the political and economic history of the Atlantic world.

HIST476 Jews in Medieval Times 1000-1450 (3 Credits)
Social and cultural life of Jewish communities spread throughout Islam and Christendom. Major topics include the Gaonate, kehila organizations, legal, rationalist, and mystical thought, and the context of rising animosity against Jews linked to the Crusades and changing Church doctrines.
Recommended: HIST282, HIST330, HIST331, or JWST234.
Cross-listed with: JWST432.
Credit Only Granted for: HIST476 or JWST432.

HIST481 A History of Modern China (3 Credits)
Modern China from 1644 to the People's Republic of China. Emphasis on the coming of the West to China and the various stages of the Chinese reaction.

HIST482 History of Japan to 1800 (3 Credits)
Traditional Japanese civilization from the age of Shinto mythology and introduction of continental learning down to the rule of military families, the transition to a money economy, and the creation of a townsmen's culture. A survey of political, economic, religious, and cultural history.

HIST483 History of Japan Since 1800 (3 Credits)
Japan's renewed contact with the Western world and emergence as a modern state, industrial society, and world power, 1800-1931; and Japan's road to war, occupation, and recovery, 1931 to the present.

HIST490 Seven Revolutions in Modern Africa (1945-) (3 Credits)
Seven Revolutions samples theoretical, contemporaneously produced, and leading scholarly (secondary) texts about seven revolutionary situations faced by Africans from ca. 1952 through to the 21st century. In past years we have devoted weeks or double weeks to the Mau Mau (Kenya), Ethiopian derg, Zimbabwe's factions and structural racism, Guinea and women's subalternity, Patrice Lumumba's assassination, race vs. settler as a framework, Liberia's intersection with continental history in the 1980s, among other focuses.
Credit Only Granted for: HIST428B or HIST490.
Formerly: HIST428B.

HIST491 History of the Ottoman Empire (3 Credits)
Survey of the Ottoman Turkish Empire from 1300 A.D. to its collapse during World War I. Emphasis on the empire's social and political institutions and its expansion into Europe, the Arab East and North Africa.

HIST492 Women and Society in the Middle East (3 Credits)
Examines the customs, values and institutions that have shaped women's experience in the Middle East in the past and in the contemporary Middle East.
Recommended: Prior coursework in Middle East studies or gender studies.
Cross-listed with: WGSS456.
Credit Only Granted for: HIST492, WMST456 or WGSS456.
Formerly: WMST456.

HIST495 Women in Medieval Culture and Society (3 Credits)
Medieval women's identity and cultural roles: the condition, rank and rights of medieval women; their access to power; a study of women's writings and the constraints of social constructs upon the female authorial voice; and contemporary assumptions about women.
Cross-listed with: WGSS455.
Credit Only Granted for: HIST495, WMST455 or WGSS455.
Formerly: WMST455.

HIST499 Independent Study (1-3 Credits)
Restriction: Permission of ARHU-History department.
Repeatable to: 6 credits.

HISX - History Education Abroad

HISX200 World of the Vikings (3 Credits)
The history and worldview of pre-Christian Scandinavians as reflected in medieval textual sources and in poems and artifacts from the Viking Age (793--1066 CE). We examine Norse society, political structures, gender ideals, religion and mythology. You learn about Viking expansion, colonies and conquests. An essential part of this interdisciplinary course is dedicated to medieval Icelandic sagas and how Vikings are portrayed in modern public history and contemporary popular culture.
Additional Information: This course is offered as part of the Maryland-in-Stockholm study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMStockholm. Education Abroad processes registrations for this course on behalf of students.

HISX205 Rome: Republic and Empire (3 Credits)
Explores the Roman Republic and Empire, from the development of Italic culture in the Bronze Age through the dissolution of the empire in late antiquity. Via primary sources, students examine the development of political forms and ideas in the Mediterranean and their impact on Rome, the relationship of art and literature to society and politics, and developments in the areas of religion, science, and the economy.
Credit Only Granted for: HISX205 or HIST269Y.
Formerly: HIST269Y.
Additional Information: This course is offered as part of the Maryland-in-Rome study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMRome. Education Abroad processes registrations for this course on behalf of students.

HISX206 Mediterranean Culture and History (3 Credits)
Offers a broad introduction to the main stages of evolution of the Mediterranean using as a framework, not History, but its cultures, religions and peoples. The main topics covered are: Judaism, Christianity, Islam, Greece, Rome, Germanics, Byzantines, the Atlantic and the Mediterranean, the Renaissance, the Mediterranean family and the Modernization of Mediterranean Societies.
Additional Information: This course is offered as part of the Maryland-in-Barcelona study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMBarcelona. Education Abroad processes registrations for this course on behalf of students.

HISX207 Roman Civilization and Daily Life (3 Credits)
Explores the daily life of the Roman people including daily habits, duties, pleasures, family life, and belief and value systems. Students will examine remnants of society left at Pompeii to learn about everyday life, and ultimately death, in the context of the ancient Roman world and integrate archaeological, art historical, and primary literary material into a single, coherent intellectual narrative in order to gain a complex understanding of Roman Civilization at its height.
Additional Information: This course is offered as part of the Maryland-in-Perugia study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMPerugia. Education Abroad processes registrations for this course on behalf of students.

HISX300 Scandinavia in the Middle Ages: from Viking Warriors to Christian Knights (3 Credits)
Focuses on the development of Denmark, Norway, and Sweden as kingdoms in the Middle Ages, both in terms of internal relations and contact, conflict, and exchanges with continental Europe and the wider world. We examine state building and law-making, Christianization and church organization, feuds, rebellions, and warfare, the Baltic crusades and forced conversion of pagans, literary and cultural developments, as well as migration and border-crossing. The aim of the course is to consider these phenomena in the intersection between cultural adaptation and domestic creativity; to what extent does Scandinavia adapt to wider European trends, and to what extent are they independently formed?
Additional Information: This course is offered as part of the Maryland-in-Stockholm study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMStockholm. Education Abroad processes registrations for this course on behalf of students.

HISX301 History of Sweden in Europe and the World (3 Credits)
Sweden's historical relationships to the Baltic Region, Europe and the US. We will look at the Great Power Era, the poverty and mass emigration of the 19th century, the internationally famous inter-war Middle Way; we will then consider Sweden's role in World War II and the Cold War, as well as the current impact of neoliberalism and globalization. Our focus, throughout, will be on Sweden's international profile and power, and the influence of this, in turn, on Sweden's national identity and future.
Additional Information: This course is offered as part of the Maryland-in-Stockholm study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMStockholm. Education Abroad processes registrations for this course on behalf of students.

HISX302 Barcelona: the City and its History (3 Credits)
This is a course that emphasizes the historical development of Barcelona from Pre-Roman times until nowadays. Although this course has a dominant historical approximation, other disciplines will be also taken into account, such as art, literature, architecture and urbanism.
Additional Information: This course is offered as part of the Maryland-in-Barcelona study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMBarcelona. Education Abroad processes registrations for this course on behalf of students.

HISX311 The History & Culture of Italian Food (3 Credits)
Examines the relationship between food, culture and identity in Italy through a variety of readings, discussions, outdoor activities and tasting experiences. Traces the historical evolution of Italian food culture through a multi-disciplinary (historical, anthropological, sociological, geographical) approach, using food workshops to supplement lectures and class discussions.
Additional Information: This course is offered as part of the Maryland-in-Florence study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMFlorence. Education Abroad processes registrations for this course on behalf of students.

HISX317 Medicine and Disease Before Biomedicine (3 Credits)
Explores the origins of medicine as we understand it today with topics such as the consequences of the Black Death and if Western medicine is truly all-Western. Focuses on four themes from Antiquity through the Scientific Revolution and the transformation of theory, changes in practice, birth of medical institutions, and global transfers of knowledge.
Additional Information: This course is offered as part of the Maryland-in-Florence study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMFlorence. Education Abroad processes registrations for this course on behalf of students.

HLSA - Health Services Administration

HLSA300 Introduction to Health Policy and Services (3 Credits)
A multidimensional view of public health policy and services. Through interactive discussion of assigned readings, team-based learning, and supplementary lecture, students will learn about the nature of and development of policy, public health policy, and financing and delivery of health care services. This course will place a significant emphasis on a team-based learning approach to understanding the health care system and health care reform.
Prerequisite: Must have completed or be concurrently enrolled in SPHL100 or PHSC300.
Restriction: Must be in Public Health Science program; and must have earned a minimum of 60 credits.
Credit Only Granted for: SPHL498P or HLSA300.
Formerly: SPHL498P.

HLSA465 Redesigning Mental Health Services (3 Credits)
Students will use Design Thinking to create, reshape, redesign and transform the ways in which mental health and wellness is perceived and addressed on the campus. This course will incorporate students and the UMD community as stakeholders in designing, planning and contributing to developing solutions that leverage existing mental health resources or create new pathways to improve mental health and wellness at UMD. Students will learn and use design thinking skills to enhance public health practice skills in project proposals and grant writing.
Prerequisite: HLTH366.
Recommended: EPIB301.

HLSA484 Redesigning Health Care: Developing a Clinic to Meet Community Needs (3 Credits)
Provides an opportunity for students to learn a key entrepreneurial skill, Human Centered Design Thinking, while helping to build, reshape, redesign and transform delivery of health care in the Mona Center, a new community center and clinic in Prince George's County. This new, modern vision for a health and wellness clinic embraces student involvement in designing, planning and contributing to innovative programs, solutions, and processes to improve the clinic's ability to meet community and patient needs by addressing the social determinants of health as well as traditional clinical health status. Students in the class will develop empathy for patients, providers and other stakeholders, define problems, select a specific problem for intervention, understand problems based on stakeholder input, ideate, reframe and suggest options to solve or address the problem, prototype solutions, test ideas, and make recommendations to inform implementation and ongoing measurement and monitoring of impact.
Restriction: Must have completed a minimum of 60 credits.
Additional Information: Selected class sessions will be on-site at local organizations such as Mona Clinic in Temple Hills, MD, HAIR Network shops in Hyattsville and the Sarvis Empowerment Cafe in Riverdale. The course also requires off-campus work at nearby locations.

HLSC - Integrated Life Sciences

HLSC100 Students in the University: Integrated Life Sciences (1 Credit)
In a small classroom setting, Integrated Life Sciences students learn about academic resources on and off campus.
Restriction: Must be in the Honors College Integrated Life Sciences program.
Credit Only Granted for: EDCP108O, HLSC100, HONR100, or UNIV100H.

HLSC102 Service-Learning in the Life Sciences (1 Credit)
The Integrated Life Sciences (ILS) Honors Program includes a rigorous academic curriculum, a research requirement, a living-learning component, and a service-learning experience. Service has been a tradition since 2012 and was initiated by our students, who wanted service incorporated as part of the ILS mission and values. Our students have contributed more than 6,000 hours of their time and talent to campus and local organizations, and this experiential learning has provided an opportunity to apply classroom studies to the real world. In general, these service experiences are directly relevant to their future careers as life scientists, because they contribute to improved access for all people to quality health care, to engaging STEM education, and/or to sustainable environments. The service-learning experience is introduced in the fall semester of the first year of ILS in HLSC100, and completed with a 1-credit course in the spring.
Prerequisite: HLSC100.
Restriction: Must be in the Honors College Integrated Life Sciences program.

HLSC207 Principles of Biology III Organismal Biology (3 Credits)
The diversity, structure and function of organisms as understood from the perspective of their common physicochemical principles and unique evolutionary histories.
Prerequisite: BSCI160, BSCI161, BSCI170, and BSCI171; Or students who have taken courses with comparable content may contact the department.
Restriction: Must be in the Honors College Integrated Life Sciences program.
Credit Only Granted for: BSCI207, BSCI279D, or HLSC207.

HLSC217 The British Masters of Science (3 Credits)
The British Masters of Science will look at the British Scientists who have been at the forefront of some of history's greatest advances and have shaped science as we know it today. This London study abroad program will explore these scientific masters in the city where they made their great contributions, visiting the places where they lived and worked to experience the historic foundations of science.
Restriction: Must be in the Integrated Life Sciences Honors Program.

HLSC227 Topics in Scientific Integrity and Medical Ethics (1 Credit)
Explores ethical issues related to scientific research and integrity as well as issues surrounding medical ethics such as use of limited resources, euthanasia, and physician-assisted suicide. This is a topics class, so we won't be going into detail of philosophical arguments, but we may bring them up as relevant. Moreover, especially as applied to medical ethics, there may be no "right" answer. Instead, we would like you to be able to think critically about the issue, and make a moral argument (as opposed to a logistical argument).
Restriction: Must be in a major in UGST-HCOL-Integrated Life Sciences Program.

HLSC280 Integrative and Quantitative Concepts in Biology (3 Credits)
Designed for entering students enrolled in the Honors College Integrated Life Sciences (ILS) program, this course uses an active learning approach to emphasize inquiry, critical thinking, quantitative reasoning, and hands-on data analysis. This course will cover a variety of bioinformatic related topics, including genome assembly and scaffolding, sequence alignment algorithms, epigenetics, a bioinformatic examination of the central dogma in molecular biology, gene finding, proteomic analysis, the evolution of molecules, cells and organisms, molecular switches, and biological networks.
Prerequisite: BSCI170.
Restriction: Must be in the Honors College Integrated Life Sciences program.
Credit Only Granted for: HLSC208 or HLSC280.
Formerly: HLSC208.

HLSC322 Principles of Genetics and Genomics (4 Credits)
Principles and mechanisms of heredity and gene expression, with a focus on the application of genomics to contemporary medicine, biotechnology, and societal issues.
Prerequisite: CHEM131, CHEM132, BSCI160, BSCI161, BSCI170, and BSCI171; or must have completed BSCI170, BSCI171 and two semesters of Chemistry.
Restriction: Must be in a major in UGST-HCOL-Integrated Life Sciences Program.
Credit Only Granted for: HLSC322 or BSCI222.

HLSC329 Teaching Practicum in the Life Sciences (1 Credit)
A guide and support for the undergraduate teaching assistants (UTAs) in the Integrated Life Sciences (ILS) honors living-learning program. UTAs will develop a greater understanding of teaching and learning in the life sciences, with a focus on the academic values of ILS, by exploring education research and theory, discussing learning strategies and techniques, and reflecting on their practice. Students take this course while serving as a undergraduate teaching assistant in the Integrated Life Sciences courses.
Restriction: By departmental permission only.
Repeatable to: 3 credits.

HLSC374 Mathematical Modeling in Biology (4 Credits)
Students will learn empowering mathematical techniques through the understanding of biological models. Models are chosen from a variety of biological disciplines. Mathematical skills that will be developed along the way include: solving non-linear difference equations, eigenvector analysis, and the implementation of these algorithms as computer models.
Prerequisite: MATH131, MATH136, or MATH141.
Cross-listed with: BSCI374.
Credit Only Granted for: BSCI374, BSCI474, or HLSC374.
Formerly: BSCI474.
Additional Information: The HLSC374 version of this course is restricted to students in the Honors College Integrated Life Sciences program.

HLTH - Health

HLTH106 Drug Use and Abuse (3 Credits)
An interdisciplinary analysis of contemporary drug issues and problems. The course will examine physiological, psychological, social, philosophical, historical, legal and health aspects of drug use and abuse. Special attention will be focused on those general motivations for drug use that attend life on the college campus.

HLTH124 Introduction to Behavioral and Community Health (1 Credit)
Required of first semester Community Health majors to expose them to introductory-level concepts within the field of behavioral and community health as well as the Community Health degree program. Includes discussion on the delivery of behavioral and community health at the local, state, national, and global levels; career opportunities in the diverse sectors of the community health field; undergraduate programmatic information; and strategies for student success.
Restriction: Must be in a major within the SPHL-Behavioral & Community Health department.

HLTH130 Introduction to Public and Community Health (3 Credits)
An introduction to the theory and practice of public and community health. The influence of public health professionals on the past, present, and future health status of society through the examination of critical health issues will be described. Programming models, theories and policy development are included.

HLTH140 Personal and Community Health (3 Credits)
Meaning and significance of physical, mental and social health as related to the individual and to society; important phases of national health problems; constructive methods of promoting health of the individual and the community.

HLTH170 The Corporate Footprint: How Industries Influence the Public's Health (3 Credits)
As public health advocates strive to protect, promote and advance the health of our communities, they sometimes find their efforts in conflict with the activities of corporations and their industry associations. This course will provide an overview of how various industries from Big Pharma to Tobacco Corporations have launched successful campaigns to influence policymakers, counter science and at times mislead the public on the harms of products to the health of communities. Students will also contemplate whether the relationship between corporations and public health advocates can ever be collaborative rather than contentious.

HLTH200 Introduction to Research in Community Health (3 Credits)
An overview of specific components and steps involved in the community health research process. Content includes, foundations of research, sampling, measurement design, and analysis in a community context.
Restriction: Must be in a major within the SPHL-Behavioral and Community Health department.

HLTH212 Unraveling the Human Body: Anatomy and Physiology from a Public Health Perspective (4 Credits)
Focuses on human structure and function and provides a foundation for public health professionals by equipping them with an integrated understanding of the dynamic human body, its various biological processes, and associated diseases. The course begins at the simplest level of cellular organization and progresses to tissues, organs, and organ systems. Specific body systems covered include Cardiovascular, Respiratory, Endocrine, Nervous, Digestive, Male and Female Reproductive, Musculoskeletal, Skeletal, and Immune. The complementary structure and function of the healthy body is highlighted as its systems work together to maintain a constant homeostatic environment. Clinical examples are provided to help the student understand the disease process as a disruption of normal structure and function. This will allow them to communicate to various audiences how disease functions within the human body as well as discuss lifestyle factors that are associated with disease onset and progression.
Prerequisite: BSCI170, BSCI171, and HLTH140.
Restriction: Must be in the Public Health Practice program.
Credit Only Granted for: BSCI201 or HLTH212.

HLTH230 Introduction to Health Behavior (3 Credits)
Psychological, social psychological, and sociological approaches to the following health areas: development of health attitudes and behavior, patient-provider interaction and the organization of health care.

HLTH234 Global Health Messages: Understanding Exposure & Impact (3 Credits)
Using a global perspective, this course teaches students to be critical consumers of current and historical health communication interventions. It also provides students with the skills to develop media interventions that target specific and general populations. Students will discover the array of diverse media messages that influence the health and well-being of individuals and communities.
Restriction: Must not be in the Community Health program.

HLTH246 The U.S. Tobacco Epidemic (3 Credits)
Tobacco is the leading cause of preventable death in the U.S. Course provides an overview of the tobacco epidemic including history, health effects, economic costs, policy, surveillance, and prevention, in addition to additional products like e-cigarettes, vaping and hookahs. .

HLTH264 Digital Health & Social Media (3 Credits)
Examines the current and potential use of digital health and social media to influence public health. Provides an overview of knowledge, skills and terminology necessary to optimize the effectiveness of these technologies to contribute to the enhancement of individual and community health.
Restriction: Must not be in the Public Health Practice program.

HLTH285 Controlling Stress and Tension (3 Credits)
Health problems related to stress and tension. Analysis of causative psychosocial stressors and intervening physiological mechanisms. Emphasis on prevention and control of stress through techniques such as biofeedback, meditation and neuromuscular relaxation.

HLTH289 Topical Investigations (1-3 Credits)
Independent study by an individual student or an experimental course in special areas of knowledge not covered by regularly scheduled courses.
Repeatable to: 6 credits if content differs.

HLTH292 Community Health Engagement (3 Credits)
An exploration and application of basic community health concepts. An integral part of the course is service learning, that includes evaluating, planning and implementing a community health program with a local community partner.
Restriction: Must not be in Public Health Practice program.

HLTH302 Methods of Community Health Assessment (3 Credits)
Examination of research and evaluation tools that can be applied to community health promotion. Includes the application of qualitative research methods, community needs and strengths assessments, asset mapping, and monitoring and evaluating process, outcome and impact evaluation.
Prerequisite: Minimum grade of C- in HLTH200 and EPIB301.
Restriction: Must be in a major within the SPHL-Behavioral and Community Health Department.

HLTH306 Macro Level Influences on Community Health (3 Credits)
An examination of the effects and influences of policy decisions at the local, state and national levels on community health delivery. Historical and contemporary policy issues will be included with a focus on how the policies have impacted community organizations and the overall health of communities.
Prerequisite: Minimum grade of C- in HLTH124.
Restriction: Must be in a major within the SPHL-Behavioral & Community Health department.

HLTH325 Poor in America: Health and Wellbeing (3 Credits)
Using the ecological framework, students will explore the complicated relationship between poverty and health and well-being in the United States.
Recommended: HLTH130; or HLTH140.

HLTH364 Social Media & Digital Tools for Community & Public Health (3 Credits)
Examination of the characteristics and uses of media platforms and digital technologies to expand the capability to identify and reduce community and public health risks at all levels of prevention. Also considered will be the potential threats these new media can play on individual choice, privacy, confidentiality, and social influence -- which themselves can pose health threats to community and public health.
Prerequisite: Completion of HLTH230 with a C- or higher.
Restriction: Must be in a major within the SPHL-Behavioral and Community Health department; Restricted to majors who entered the program in Fall 2018 or later.

HLTH366 Behavioral and Community Issues in Public Health (3 Credits)
The exploration of how social and behavioral science theories and public health concepts and methods can be applied to both the health-illness experience and community interventions.
Prerequisite: HLTH130, HLTH230, PSYC100, SOCY100, SOCY105, or ANTH260.
Restriction: Must be in Public Health Science program; or permission of SPHL-Behavioral & Community Health department. And must have earned a minimum of 45 credits.
Additional Information: This course will initially be restricted to Public Health Science (PHSC) majors, but could ultimately be opened to other majors, particularly those in HLTH.

HLTH371 Communicating Safety and Health (3 Credits)
The communication and evaluation of safety and health information. Emphasis on various types of communications and recipient factors which contribute to their success or failure.
Restriction: Must be in a major within SPHL-Behavioral & Community Health department.

HLTH377 Human Sexuality (3 Credits)
The biological and developmental aspects of human sexuality; the psychological and emotional aspects of sexual behavior; sexual identity; the historical, cultural, social, linguistic, legal and moral forces affecting sexual issues; the importance of communication, disclosure and intimacy in interpersonal relationships; and research trends in the area of human sexuality.

HLTH386 Experiential Learning (3-6 Credits)
Prerequisite: Permission of SPHL-Behavioral & Community Health department.
Restriction: Junior standing or higher.

HLTH389 Independent Study in Public Health Practice (1-6 Credits)
Independent study by an individual student.
Repeatable to: 6 credits if content differs.

HLTH391 Making a Difference: Applying Community Health (3 Credits)
The exploration and application of community health concepts including theoretical models, advocacy, cultural competency, asset mapping, and needs assessment. Includes planning, implementing and evaluating a community health program with a designated community partner.
Prerequisite: SPHL100, HLTH124, HLTH140, HLTH200, HLTH230, EPIB301, EPIB315, BSCI170, BSCI201, and HLTH302. Students must have completed or be concurrently enrolled in HLTH364.
Corequisite: HLTH490.
Restriction: Must be in a major within the SPHL-Behavioral and Community Health department.

HLTH399 Community Health Field Work (1-6 Credits)
Students will gain practical experience under conditions conducive to educational and professional development. The internship is a supervised period of community/public health activities, carried out in a relevant professional organization, that emphasizes the application of theory and previous coursework.
Prerequisite: Minimum grade of C- in HLTH124, HLTH140, and SPHL100.
Restriction: Must be in Community Health program; and must have earned a minimum of 45 credits.
Repeatable to: 6 credits if content differs.
Additional Information: Students will have the opportunity to be matched with regular DBCH partners who have requested an intern for the designated semester. Most field work experiences will be off-campus.

HLTH402 Disability is Not an Outcome: An Introduction to Understanding Disability (3 Credits)
With an intent to disrupt traditional understandings of disability as a health outcome to be prevented, this course will introduce students to disability as an identity, a community, a population of interest to public health professionals. To change this understanding students will explore historical representations of disability, ableism, and lived experiences of people with disabilities. Disability is a multi-layered concept that broadly describes a wide range of people. Although geared toward public health scholars, the mix of readings, discussions, and assignments will help students reflect and integrate learning into their own fields of study. The course examines factors that led to systemic oppression, and methods and strategies of moving toward a more inclusive society.

HLTH410 Honors Seminar (3 Credits)
Undergraduate majors with a strong academic record are provided the opportunity to engage in challenging educational experiences related to the social and behavioral aspects of public health. Students will learn the skills and knowledge to develop, propose, defend, and complete an honors thesis or honors project.
Prerequisite: HLTH200; and must have completed 2 other courses in HLTH.
Restriction: Minimum cumulative GPA of 3.5; and must have completed 45 credits before applying.

HLTH420 Effective Strategies for Public Health Practice (3 Credits)
The purpose of this course is to present the interrelationships of curriculum planning, methodology and the selection and use of successful public health presentation strategies. Special problems associated with public health presentations are discussed, and students become familiar with a variety of resources as well as with planning for and implementing demonstration presentations.
Prerequisite: Minimum grade of C- in HLTH140 and HLTH230 .
Restriction: Must be in a major within the SPHL-Behavioral and Community Health department.

HLTH424 Lesbian, Gay, Bisexual & Transgender Health (3 Credits)
The preparation of students to be knowledgeable advocates for the health of lesbian, gay, bisexual, and transgender (LGBT) populations. Course focus is defined by the Healthy People 2020 federal health objectives for LGBT populations: data collection for research, culturally competent healthcare, bullying in schools, suicide, homelessness, and sexually transmitted diseases including HIV.
Recommended: Students should have some familiarity with basic psychology, sociology and/or epidemiology.
Restriction: This course is restricted to students who have completed a minimum of 60 credits. Jointly offered with HLTH624.
Credit Only Granted for: HLTH424 or HLTH6 24.

HLTH430 Health Education in the Workplace (3 Credits)
A survey of the role of health education in work settings. Examination of occupational stress, the health effects of shift work, women's health in the workplace, health education approaches to informing workers and management, and health promotion programs in the workplace.

HLTH431 Health Literacy in Action (3 Credits)
This course introduces the concept of health literacy and develops the knowledge and skills to understand the field and engage productively about health literacy with healthcare providers, systems, and policy makers. The class explores diverse perspectives about health information and communication, and different pathways and strategies to help create the conditions for more informed and engaged individuals and communities.
Recommended: HLTH 371; or equivalent.
Repeatable to: 0 credit.
Credit Only Granted for: HLTH431 or HLTH498L.
Formerly: HLTH498L.

HLTH432 Medical Terminology (3 Credits)
Provides the framework for understanding medical language and terminology used by health care professionals. Students will gain an understanding of the rules of building and analyzing medical terms from word origins and will learn correct pronunciation, definitions, and spelling for all of the body systems, major pathological conditions, common disorders, prescribed medications, and more. Whether a student is interested in learning more about the medical field or they want to acquire practical knowledge for future personal use, this course provides the foundation for understanding the language of medicine.
Credit Only Granted for: HLTH432 or HLTH498T.
Formerly: HLTH498T.

HLTH434 Introduction to Public Health Informatics (3 Credits)
Provides an overview of the field of public health informatics and the influence of technology on the public's health and well-being. Emphasizes the application of various technologies and computer/internet applications to support public health research and practice, including strategies to address new and emerging threats.
Restriction: Must be in one of the following programs (Public Health Practice; Public Health Science) ; and must have earned a minimum of 60 credits.
Credit Only Granted for: HLTH434 or HLTH498E.
Formerly: HLTH498E.

HLTH452 Global Health and Social Justice (3 Credits)
Evaluates the relationship between social justice and population health through critical discourse analysis of social determinants of health and applications of community-based methods for reducing population health inequities within and across national borders. The class aims to stimulate students' critical analysis to identify, describe, measure and apply consequences of injustices in population ill-health exposures and practices (policies, interventions and services). Students will apply critical thinking about how social injustices create preventable health disparities, unequal social determinants, poor environmental exposures and diseases among vulnerable populations in much of low-income countries.
Jointly offered with: HLTH602.
Credit Only Granted for: HLTH452 or HLTH602.

HLTH460 Multicultural Population Health (3 Credits)
Health concerns of U.S. ethnic minority groups and factors placing them at elevated risk for disease and injury. Health education concepts and strategies to reduce disparities between their health status and the health status of the general population.
Prerequisite: HLTH140, HLTH230, or HLTH366; or permission of SPHL-Behavioral & Community Health department.
Restriction: Must be in a major within the SPHL-Behavioral & Community Health department; or must be in the Anti-Black Racism Minor.

HLTH471 Women's Health (3 Credits)
The women's health movement from the perspective of consumerism and feminism. The physician-patient relationship in the gynecological and other medical settings. The gynecological exam, gynecological problems, contraception, abortion, pregnancy, breast and cervical cancer and surgical procedures. Psychological aspects of gynecological concerns.
Cross-listed with: WGSS471.
Restriction: Must be in a program in the Harriet Tubman Department of Women, Gender, and Sexuality Studies; or must be in a major within SPHL-Behavioral & Community Health department.
Credit Only Granted for: HLTH471, WMST471, or WGSS471..
Formerly: WMST471.

HLTH489 Field Laboratory Projects (1-6 Credits)
A course designed to meet the needs of persons in the field with respect to workshop and research projects in special areas of knowledge not covered by regularly structured courses.
Repeatable to: 6 credits.

HLTH490 Professional Preparation in Community Health (3 Credits)
The development of skills necessary for joining the public health work force post-graduation, as well as assistance in obtaining an appropriate internship that will serve as a final semester, capstone experience. Students will be exposed to various relevant professional experiences, and will be afforded the opportunity to strengthen their own individual skills by selecting from a menu of skills-based learning modules that best suit their perceived needs.
Prerequisite: Minimum grade of C- in EPIB301, EPIB315, SPHL100, HLTH124, HLTH140, HLTH200, HLTH230, HLTH302, BSCI170, BSCI171, and BSCI201; and students must have completed or be concurrently enrolled in HLTH364.
Corequisite: HLTH391.
Restriction: Must be in a major within the Behavioral and Community Health department.

HLTH491 Community Health Internship (12 Credits)
Integrating theory with practice in a community health setting.
Prerequisite: Minimum grade of C- in HLTH420 and HLTH490.
Restriction: Must have completed all program requirements and be in the last semester of the Community Health degree program.

HLTH492 BS/MPH Community Health Internship (9 Credits)
Integrating theory with practice in a community health setting.
Prerequisite: Minimum grade of C- in HLTH490.
Restriction: Must be a Public Health Practice major who has been admitted to the combined BS/MPH degree program.

HLTH498 Special Topics in Health (3 Credits)
Topics of special interest in areas not covered by regularly scheduled courses.
Repeatable to: 6 credits if content differs.

HNUH - University Honors

HNUH100 Gateway Seminar (1 Credit)
First-semester orientation and exploration seminar required of all UH students.

HNUH218A Pursuits of Happiness: Ordinary Lives in the American Revolution (3 Credits)
Dedicated to telling the stories of ordinary people in the American Revolution, to recovering the voices and experiences of all the founders of this country whose lives and contributions have been obscured by our tendency to worship a dozen or so well-to-do and well-educated men in suits as if they alone conceived and executed the American Revolution and the founding of the United States. So we'll be talking this semester about the marginalized, the downtrodden, the rank and file, the rabble - all the people who never make it onto monuments or money. The point of this is to allow us all to recognize the fundamental fact that fighting a Revolution is a collective act that requires a genuine mass movement. Declaring independence on a piece of parchment on a summer's day in Philadelphia in 1776 doesn't mean anything unless tens of thousands of people are willing to support that cause and fight to make it a reality. To revolt, then, is not an individual act - it's for crowds, for mobs, and for whole communities to do together. Declaring independence is a fundamentally cooperative act.
Credit Only Granted for: HNUH218A or HIST137.

HNUH218C Globalizing the American Revolution (3 Credits)
How is the American Revolution a creation story in the making of our multi-cultural and interconnected modern world? Consider the Declaration of Independence. When first published on July 5, 1776, it was printed by an immigrant Irishman on Dutch paper that had been brought over from England. This was the first such declaration of independence ever issued, but its ideas and forms traveled far and wide. More than 100 other declarations of independence have been issued since then. The people that declaration mobilized are similarly diverse: the American Revolution is as much the story of Creek farmers, Spanish soldiers, French slaves, Canadian fugitives, Indian tea-growers, and African statesmen as it is of the Minutemen and Sons of Liberty. In this globe-trotting class, students will be positioned to debate how the familiar story of the American Revolution changes when we place it in transnational context.
Cross-listed with: HIST223.
Credit Only Granted for: HNUH218C or HIST223.

HNUH218R Stealing from the Poor, Giving to the Rich: The Political Economy of Global Capitalism (3 Credits)
Street names and museum exhibits are being renamed in Europe to erase the ghosts of their colonial history. Yet, this speaks of the colonial "era" as the past, when in fact it is very much our present. The economic principle driving colonialism--capitalism--encouraged an insatiable appetite for territorial acquisition, human bondage, and destruction that stole wealth, life, and joy from racialized "others" to fuel European development. We maintain and further these thefts, oppressions, and exploitations through our purchasing habits and justify them through cultural ideas and ignorance. What would it mean to undo these oppressions? What must we understand to begin this process? This course surveys colonial capitalism and its legacies in Sub-Saharan Africa, the Americas, Asia, the Middle East, and North Africa to explore how history informs the present robbing of the Global South for the Global North's development, as well as pathways towards resistance and reconciliation.

HNUH218U Finding Feminist Freedom (3 Credits)
"I'm the one that'll make you pay." So goes one verse of what has become a Latin American feminist hymn, "Cancion sin miedo" ("Fearless Song," by Vivir Quintana). Transnationally, feminists today--particularly in the Global South--are on fire: militant, unafraid, angry, and, above all, driven by a desire to build a world where the promise of freedom for all is finally fulfilled. But what is freedom? Is freedom an abstract concept or a lived experience? Is it individual or collective? What is the meaning of 'feminist freedom'? These questions will be gauged by discussing, analyzing, and interpreting texts in feminist theory; decolonial and transnational feminist approaches; and feminist film, documentary, performance, and protest. At the end of the course, you will have learned that there is not one feminism, but many, become familiar with feminist theory and practice, and be equipped to live your own version of a feminist life.

HNUH218V Black Bodies and Green Spaces: From 1619 to Today (3 Credits)
From the antebellum plantation slave, who used uncultivated land as a place of deliverance, healing and route to freedom, to the Central Park bird watcher, whose green space presence was perceived as a threat to White physical safety, black bodies have a vexed relationship to green space. This course critically examines how systemic racism has shaped the experience, connection, and relationship to nature among Black Americans. Students will conduct in-depth analysis, critical thinking, and discussion on topics ranging from slavery and nature; The Great Migration; and Jim Crow, segregation, and parks; to green space inequity and "Moving While Black" (Treyvon to Ahmaud). While some environments (built, natural, virtual) within the United States have represented the essence of anti-Black racism and indignity, this course will further explore how many Black Americans still regarded nature as a space of freedom, humanity, and spirituality.

HNUH218W Freedom and Captivity: Prisons, Punishment, and Citizenship (3 Credits)
What does freedom mean if you're incarcerated? How is freedom, citizenship, and social membership mediated through the power of the state? What are the implications of punishment on how freedom is constructed, understood, and experienced? The United States purports to be a beacon of freedom while simultaneously incarcerating more people than any other country in the world. Throughout the course, we will discuss the writings of scholars, theorists, historians, and--most importantly--incarcerated people to interrogate the concept of "freedom" from the vantage point of the prison. Students will use these insights to analyze the complex tensions and relationships between social ideals and practice.

HNUH218X Uprising, Riot, Revolt: Violence in Story and Theory (3 Credits)
How does violence connect to revolution? Is violence the result of lone wolf actors, oppressive social structures, or just blind fate? Is it a side-effect of revolution or its driving force? Is violence a way to fight injustice, or is it a problem of evil? Why is one person's uprising another person's riot? In this seminar, we will explore literature, politics, and religion to debate the meaning and causes of violence. By examining the writings of a prison psychiatrist, historians, activists, theorists, and theologians alongside classic and contemporary literary works, we will disrupt common understandings of violence. In conducting interviews with community members, engaging in classroom debate, and sharing ideas in a project-poster session, we will investigate violence in the UMD community and wider DC area, and propose ways toward revolutionary change.

HNUH218Z Soundtrack to Revolution: Black Protest Music from Slave Ship to Soundcloud (3 Credits)
Invites students to hear a tradition of black protest music that reverberates from the slave ship to Soundcloud and beyond. Together we will ponder how black people have created, performed, broadcast, and mobilized music for protest, self-making, community-building, cultural critique, agitation, venting, healing, and joy. To hear what protest music sounds like, we will listen to Paul Robeson, Mahalia Jackson, Billie Holiday, Abbey Lincoln and Max Roach, Nina Simone, Fela Kuti, Marvin Gaye, Aretha Franklin, Bob Marley, Michael Jackson, Public Enemy, NWA, Lil' Kim, Lauryn Hill, Beyonce, and others. Must protest music set overt political statements to melody? How have black people mobilized music and art to shape their political conditions? What can music accomplish that artforms like literature and visual art cannot? How have various social justice and liberation movements deployed music? How has new media technology transformed protest? How does revolution sound to you?

HNUH219P Transform Maryland: Management Consulting Internship (3 Credits)
This three-credit internship, open to all majors, offers a fully immersive consulting experience that affords undergraduate students the opportunity to engage with a real client. Working in dynamic teams, students learn advanced management consulting strategies, and apply critical thinking and solution design to real world cases, all while developing general professional acumen. The internship innovates real University of Maryland business processes. Managed by senior members of the DIT's Enterprise Planning and Continuous Improvement unit, the internship matches teams with top-tier professionals and a senior university administrator as a project client. Supported by professional coaching from practicing talent managers and management consultants, students research and benchmark against other schools, analyze and synthesize results, and formulate actionable recommendations for the client. The internship culminates in a recommendation pitch to campus leadership.

HNUH219T Transform Maryland: Consulting Practicum (3 Credits)
In this experiential learning opportunity, a team of students undertakes a real-world practicum to develop consulting skills and improve an operational process at the University of Maryland. A new project is selected each semester and the course culminates in a presentation to key members of the UMD leadership team. Through concepts drawn from multiple disciplines, students learn and apply an analytical, systems approach to problem solving. Working with oversight from experts in the industry, students partner with university officials to understand and map a business process that affects students, identify opportunities for process innovation, and apply user-centered design to develop a persuasive narrative to recommend solutions and leverage the potential for technology to streamline the process. This practicum prepares students to consult for real-world change, while practicing competencies they will use in their professional internship experience the following semester (HNUH219P).

HNUH228B Redesigning Life: Prospects and Consequences (3 Credits)
What is at stake for our world as humans seek to redesign biological organisms? Biotechnology advances are enabling us to read, edit and write genomes, including our own. This revolution has been fueled by the quest to understand and cure disease. Yet, these innovations have far-reaching consequences beyond medicine and will reshape our world in ways we can only imagine - or fear. The course will challenge students to confront the risks and rewards for them, their family, their community, and their future, as biotechnology moves out of specialized laboratories and into homes. A demystifying, low-tech approach will introduce them to contemporary genome redesign, clarifying the current limitations and future goals of the field. Students will debate whether redesigning plants and animals will enhance or inhibit momentum in human genome engineering, and formulate their own arguments about who should be able to use these tools and where, who decides, and how much society is willing to risk.

HNUH228C The Fiction of Fact: Race, Science and Storytelling (3 Credits)
What is a fact? Science is often viewed as an unbiased, fact-based, analytical discipline. However, throughout history, science has sometimes been the most potent weapon for creating and supporting political fictions and social hierarchies. Not unlike the discipline of the humanities, the sciences practice interpretation: scientists observe behaviors, of subject or objects, and necessarily provide an interpretation of the data. But it is the recourse to the "real" that has made science so powerful in underwriting cultural constructs. Whether we observe how science is manipulated in the public sphere, or how it is practiced for good or ill, it has been used to naturalize hierarchies of race, class or gender. Through a range of materials–fiction, film, visual arts, scientific articles, public humanities and political theses - this course will explore one of the most potent cases of this phenomenon of "scientific" storytelling: the case of race.

HNUH228R The Picture of Health and Illness: Modern Medicine in Illustration (3 Credits)
From prehistoric carvings, through King Tut's burial mask and Michelangelo's David, to the Lincoln Memorial and Body Worlds, images have long been used to communicate what people can and should be. After the "Scientific Revolution" in Europe, when identity was increasingly tied to biology, medical illustrations communicated theories of the ideal body and how it should, and should not, look. Doctors working in the midst of scientific revolution unequivocally tied health to race, gender, and sexuality by enlisting engravers, photographers, and printers to depict the healthy body as a European man and all others as weak, flawed, or ill. This course takes up questions about science, illustration, and identity. Can science tell us who we really are? Do pictures reveal the truth about our bodies? In this class, students will develop their own theory of how science continues to shape who we think we can be and how we might resist those limitations.

HNUH228U A Life Worth Living: The Legacy of Eugenics in Genetics (3 Credits)
Should parents be able to choose their child's eye color? Or alter their child's genome to eliminate a hereditary disability? While these might seem like different concerns, both are eugenic questions. In this class students will learn about the legacy of eugenics and its role in the development of genetics by analyzing science fiction works through the lens of disability studies. We'll explore the past to identify who has historically been considered "fit" and look to the future to consider what kinds of embodiments, and life experiences, society seems willing to let disappear.

HNUH228V At What Cost? An Examination of the Societal and Ethical Impact of Modern Biological Research (3 Credits)
The results of modern biological research are pervasive - from cutting edge medical treatments, to debates about mandatory vaccination, to genetic engineering breakthroughs. This course will examine the social, ethical, and biological costs of research. The focus will be on the larger issues that surround the biology - questions of ethical research, the perception of science versus reality, the intersection of science and society, and even we may need to reconsider the meanings of "self" and "human". Students will reflect on the lessons learned to propose how research can proceed in a way that balances the demands of discovery with social justice and the ethical use of animals and the environment.

HNUH228W Planetary Protection vs. Planetary Imperialism (3 Credits)
International space agencies, such as NASA, ESA, and CNSA, continue to push the boundaries of deep space exploration, buoyed by public excitement, scientific ambition, and political motivation. However, the invasion of alien environments warrants an ethical consideration. What are the risks of forward contamination? What are the potential consequences of reverse contamination? How do we avoid a "space race" incentivized by imperialism? What happens next if we do discover life on another planetary body? This course equips students to grapple with such questions in light of the current state of planetary science, world affairs, and the near-term prospects for the commercialization of spaceflight.

HNUH228X How to Wage War Without Firing A Single Shot: A History of Soft Power and the Cold War (3 Credits)
If you close your eyes and think about war, the first images that pop into your mind are probably soldiers, battles, and military technology--NOT jeans, kitchens, and hockey! And yet, during the Cold War, it was precisely realms like fashion, sports, and music that, for many people of the time, came to define the conflict between the United States and the USSR. This course will explore soft power, or countries' ability to get what they want through attraction rather than traditional force, in the context of the Cold War.

HNUH228Y Interrogating Issues of Piracy/Pirates amidst the Shadowy Landscapes of War & Peace (3 Credits)
Who are pirates and what constitutes piracy in a given era? To what extent do changing notions of piracy reflect major societal transformations at the national, regional and global levels, as well as reveal the contested and often overlapping boundaries of war and peace? How can we use pirates/piracy as a "tool" to engender an historical, economic, political, social, and cultural understanding of global forces and change? Do the legends and myths surrounding infamous pirates represent the realities and relationships of early and new forms of piracy? Could piracy be conceived as a form of counterculture? To what extent do piracy, rivalry, state building, war-making, peace-making all belong on the same continuum? This course examines pirates/piracy as an integral part of major global processes. We will investigate when and why piracy emerged and flourished, and how lawbreakers and lawmakers relate to one another on the murky terrains of power, then explore alternative ways to (re)configure who is a pirate and what constitutes piracy, especially within the dynamics of today's neo-liberal globalization.

HNUH229P Climate in Crisis: Strategy and Advocacy (3 Credits)
This theory and practice track examines theoretical frameworks for understanding climate change and concrete cases that shed light on the complexity of managing it. In this, the practical component of the Climate in Crisis track, we explore several domestic energy and climate policy case studies, examining the competing roles played by various interest groups that influence legislative and regulatory outcomes, with a focus on differing organizational advocacy strategies. Once we have mastered organizational advocacy strategies, students bring those tools to bear on the most recent US Federal policy mandates and legislation. In 229T, students will complement this work with a deep dive into the nature of public goods and climate change policy, among other crucial considerations.

HNUH229T Climate in Crisis: Socio-Environmental Sustainability (3 Credits)
What does it mean to achieve sustainability and how does use of a socio-environmental lens help move the world in that direction? In this, the theory component of the Climate in Crisis track, students will develop an understanding of socio-environmental systems, what they have in common with other complex adaptive systems and the approaches used to study them. With a focus on why a socio-environmental systems approach can help illuminate the environmental, socio-cultural, economic, and intersectional dimensions of sustainability, we will explore what different disciplines bring to this complex topic and use qualitative and quantitative approaches to grapple with problems of sustainability. How do we work with stakeholders to identify the vulnerable, the equitable paths forward, and the trade-offs? Who are the winners and losers of policy decisions? In HNUH229P, students will complement the work of this course with hands-on engagement at the level of Federal policy and legislation.

HNUH238B Systemic Racism in Public Opinion and Policy Attitudes (3 Credits)
If we believe that racism is bad, why do we still support racist policies? No matter how hard we work to end it, the challenge of racism seems here to stay. Though attitudes toward racial segregation in schools have changed, schools are more racially isolated than ever. There is a disconnect in American public life between support for the idea of equality and resistance to policies aimed at addressing racism, and a deep divide over how to eliminate inequality. This course focuses on public opinion and how these attitudes inform public policy. Can we address systemic inequality through public engagement and by changing the national narrative with the support of evidence? Does change come from shifting views or shifting policies? Students will explore these issues through a case study on racial equity in the Honors College. By developing skills in evidence-based op-ed writing and survey-based experiments, students will add their voices to these pressing public debates of our time.

HNUH238C Surveillant Society, Surveillant Selves (3 Credits)
Do the social and individual benefits of surveillance outweigh its risks? Surveillance is a ubiquitous practice in contemporary society. Governments surveil populations; corporations surveil customers and users; and individuals surveil themselves and others. From red light cameras and doorbell security cameras to geo-tracking apps and smart appliances, surveillant practices shape 21st-century lifestyles. Many take these practices for granted as acceptable trade-offs for individual and collective benefits. Others sound the alarm on the dangers of being tracked and monitored, with concerns over individual liberty, social inequalities, and more. In this course we will debate how surveillance shapes social practices and selves. Students will draw their own conclusions about the role of surveillance in society, and what, if anything, should be done to change it.

HNUH238R Invasive: Feminist Perspectives on Power, Politics, and Ecosurveillance (3 Credits)
Invasive species play a key role in 60% of plant and animal extinctions, constituting a serious threat to global biodiversity and costing over $423 billion annually. But what is at stake in the impulse to frame a species as "invasive"? What modes of watching, tracking, and surveilling emerge in the context of invasive species management? What are the material and ethical implications of these practices? As the cost of invasive species management has quadrupled every decade since 1970 and is likely to continue to increase, what alternatives exist? Reading through the lens of feminist science studies, this course asks what species movement might teach us about the possibilities and challenges of multispecies environmental ethics. Students will examine theoretical, historical, cultural, and practice-based accounts to better understand how our collective and individual actions continue to unevenly shape the biodiversity of our changing planet.

HNUH238U Unequal Opportunity? Race and the Future of American Education (3 Credits)
America's schools are dynamic microcosms of society at large. They simultaneously reflect, reproduce, and shape what happens outside of the classroom, including the many ways that racism affects us all. The educational mechanisms that operate for the benefit of some and to the detriment of others are often hard to see, often because they are hidden in plain sight. For example, national tests are standardized. When racialized differences in test scores appear, they are called "achievement gaps" and the disparity is attributed to essential differences or cultural deficiency rather than inequitable access and opportunity. In this course students will learn methods to critically examine such commonplace notions as the achievement gap and to document their effects on society. They will also develop strategies for self-reflection that enable them to confront inequity in their own educational experience and work to create change.

HNUH238V Still Separate and Unequal? The Enduring Role of Segregation in American Life (3 Credits)
Racial segregation remains an enduring feature of American life today though many believe segregation is a relic of the past. Using an interdisciplinary approach that incorporates history, sociology, political science, and public policy, this course highlights the complex ways in which legacies of segregation continue to shape life in the US. We will identify how federal, state, and local governments endorsed systemic racism through policies that defined the racial geography and resources of racial groups in the US. Students will engage with policy experts to consider the promise and limits of policies that promote integration within communities and the connection between race, spatial location, and current political divisions.

HNUH238X Learning as Deliberation: The Struggle for the Future of Higher Education (3 Credits)
It has been nearly a millennium since European university students first gathered in halls to listen to lectures. With some technological additions (lights, whiteboards, Powerpoints), introductory courses at U.S. universities look pretty much the same. For the past few decades, financial consultants, educators, and students have questioned whether this model of learning makes sense in the 21st century. In 2020, a pandemic gave this question a new urgency. Nothing about the old way of doing things seems inevitable anymore; everything seems up for debate. Should we get rid of lecture halls? What about dorms? The SATs? Tuition? This seminar invites students to deliberate about the current policies and politics of public higher education in the United States. We will study how ancient ideas about merit, democracy, and equity (or lack thereof) have shaped decisions about what higher education should offer and to whom. We will look to alternative traditions of learning with roots in indigenous worldviews, abolitionist organizing, and feminist collaboration, and study how these traditions have challenged and complemented public higher education. As we explore theories and practices of the past and present, students will learn to articulate and advocate for their own priorities as 21st-century citizens of UMD.

HNUH238Z Learning as Deliberation: The Struggle for the Future of Public Education (3 Credits)
This seminar invites students to deliberate about the historical roots of the policies and politics of public education in the United States. We will study how ideas about merit, democracy, and equity (or lack thereof) have shaped decisions about what public education should offer and to whom. We will look to alternative traditions of learning and study how these traditions have challenged and complemented public education. As we explore theories and practices of the past and present, students will learn to articulate and advocate for their own priorities in public higher education as 21st-century citizens of UMD. This course uses project based pedagogy. Students will create a proposal for teaching a facet of American History (Pedagogical Design Project) and engage in peer critique (presentation QA) to hone their critical skills.

HNUH239I Globalization & Sustainability; How Does the Transformation of Global Value Chains Drive Equity and Sustainability? (3 Credits)
We live in an increasingly interconnected world. This course explores the fundamentals of international trade that form the basis for the complex modern network of global value chains and how these relationships can be adapted to address their vulnerability while also transformed to build a more equitable and sustainable future.
Cross-listed with: BMGT271.
Credit Only Granted for: BMGT271 or HNUH239I.

HNUH239P Geopolitics of Finance: A Simulation of the Roller Coasters of Capitalism (3 Credits)
Explores the intersection of money, markets, politics, and power; and the periodic financial crises that leave a lasting, sometimes devastating impact on the global landscape. Students will examine the detritus of 200 years of crises in the United States, from 19th-century booms and busts, to early 20th-century crashes. They will take the roller coaster ride of the 2008 financial crisis, reliving events that left the world reshaped. Students will be primed to examine the ripple effects of financial crises and the role they have played in changing the global socio-economic landscape over the last two centuries. This course is self-contained but paired with HNUH239T in the Geopolitics of Finance track, which explores how globalization has brought about fundamental changes to our daily lives by making the world more interdependent.
Credit Only Granted for: HONR299F or HNUH239P.
Formerly: HONR299F.

HNUH239T Globalization & Innovation: Culture, Creativity, and Competitiveness (3 Credits)
Introduces students to the creative possibilities of the global economy: cross-cultural innovation, collaborative design-driven solutions, and enduring innovation with global purchase. Covers innovations in global business that are transforming the future through an embrace of diverse cultural perspectives. Working with interactive idealized design, out-of-the-box-thinking, and strategic exploration tools, students will explore and experience relevant design to new and cross-cultural value creation. Through rapid prototyping, immersive reflections, and innovative design activities, students will experience how to translate insight into action, and action into tangible results. The evolutionary application of frameworks in this course culminates in a capstone project. This course is self-contained but paired with HNUH239I in the Strategic Cross-cultural Change track, which explores how globalization has brought about fundamental changes to our daily lives by making the world more interdependent.

HNUH248A Identity, Places, & Spaces (3 Credits)
Students in this interdisciplinary course will explore multi-layered issues related to privilege and oppression through their own life experiences via exposure to theory, research, film, memoirs, and current events. Students will evaluate and critique common assumptions about the meaning and experiences of privilege and oppression using Intersectionality theory as a guiding framework. The human experience related to various social identities (i.e., race, gender and gender identity, sexual orientation, social class, religion, age, and ability) will be addressed.

HNUH248B Setting the Table: The Challenges and Opportunities for Sustainable Agriculture (3 Credits)
What will the farm of the future look like? Our current food system is plagued with paradoxes. An estimated 41.2 million Americans are classified as food insecure, but we produce 4,000 calories per person per day. Between 2008 and 2012, 1.6 million acres of long-term grasslands were converted to crop production, yet more than 350,000 acres of farmland were lost to development annually. This course will investigate what determines the food we eat and how we can make changes today that will improve both food access and the environment for future generations. Students will learn agribusiness, as well as alternative food movements and regenerative agriculture. They will meet experts from the USDA and Maryland producers. By growing their own vegetables, tracking food consumption, and exploring family history linked to farming, students will leave the course as conscious consumers empowered to navigate food system reform.

HNUH248C The Societal Impact of Artificial Intelligence (3 Credits)
How will AI change society? AI is changing not only business, but the nature of society itself. This course investigates the nature of those changes and forecasts their future development. With a focus on the implications to business, including the nature of human jobs as AI does an increasing amount of work, students will debate the implications of AI through a variety of lenses. From definitions of consciousness and the potential for robots to claim rights to the gender implications of AI, we will explore its philosophical and political implications. As AI is also capital, we will interrogate what the advance of AI means to capitalists and for labor. Finally, we will enter the debate around whether AI will require more than machine learning to approximate general intelligence and whether it can truly be creative. Through the exploration of the unprecedented pitfalls and opportunities that AI represents, students will learn how best to cope with a world that is dependent on AI.

HNUH248R Artificial Intelligence: Critical Examinations through Science Fiction and Technology (3 Credits)
AI permeates our world, but science fiction (SF) told stories about it centuries before AI became a reality in the 1950s, shaping our understanding and expectations through words and images. In this course, students will trace AI's evolution through SF to critically examine how key SF works have shaped how we think about AI and intelligence. Through an exploration of existing AI, like autonomous weapon systems, generative AI, and AI assistants, as well as a visit to UMD's AI department, students will learn to be critical viewers, readers, and developers as they grapple with AI's moral and social implications. Using the context of SF and technological developments, we will explore what the creation, existence, and evolution of fictional and real AI means for technology and humanity.

HNUH248V How Can We Study Environmental Problems? (3 Credits)
How do we study environmental problems? The course provides an overview of the ways social scientists collect information about environmental issues and environmental change, most of which are driven by society and the social world. The course focuses on learning how to collect data that are reliable and applicable to research questions. Through the lens of specific case studies of environmental efforts currently underway, students will learn how to construct a testable hypothesis, design a small-scale research project, and write up the findings of this work to understand environmental issues. They will develop a critical eye to the structure of social science research: identifying the object of inquiry, noting what is being tested; how it is operationalized; and evaluating the quality of the research conducted. The course requires no background or prerequisites.
Credit Only Granted for: HONR249D or HNUH248V.
Formerly: HONR249D.

HNUH248X My Hometown, Our Wilderness: Ecology of Identity (3 Credits)
What has been the setting of your life? Suburbs? Cities? A farm? We may be used to thinking of environments as equal access across society, since everyone is free to visit our National Parks or spend a day at the beach. But there are striking ways in which identity affects our habitat. Race, class, gender, sexual preference, and other markers have strong influences on where we spend our time, what we eat, and how we work and relax. Suburbs, cities, wilds, and farms are not just physical places, they exhibit histories of social inclusion and exclusion. For example, the money and free time of affluent Americans serves as a portal to leisure spaces that would be inaccessible to working-class Americans who lack the ability to take time off, drive or fly long distances, and pay for it all. We'll profile identity ecology through the poetry of African American urban naturalists, essays of wilderness-loving men like Edward Abbey, the comedy of white environmental outrage, and the racialized class tensions in resorts like Aspen, CO. This survey will support your in-depth personal exploration of identity ecology in a collaborative video media project.

HNUH248Y How Do You "Man Up?": Men, Masculinity, and Mental Health (3 Credits)
In August 2018, the American Psychological Association released guidelines regarding the best practices for researchers and mental health professionals when working with boys and men. Many reacted with the question, "are we treating masculinity as a mental health issue?" This course aims to answer that question by taking a historical perspective on how American society has viewed masculinity from the beginning of psychology as a field of study until present day. An intersectional approach will be taken to better understand how race, ethnicity, sexual orientation, gender identity, and socioeconomic status impact men and masculinity. We will address the questions: How does one prove their manhood? How much of masculinity is biological versus socialized? What experiences are unique to men? And how do psychologists and mental health professionals understand and address mental health concerns among men?

HNUH249P National Security: US Foreign Policy (3 Credits)
Following the terrorist attacks of September 11, 2001, the U.S. launched a major effort to dismantle the Taliban and create a sustainable democracy in Afghanistan. In 2021, the Taliban took control of the country. Was the U.S. effort doomed to fail? To answer this question, UH students will partner with peers at the American University of Afghanistan through a virtual global classroom to examine the lessons learned from the U.S. and international presence in Afghanistan over the past 20 years. Through reading assignments and virtual meetings with former senior U.S. and Afghan officials, students will examine the reasons behind the downfall of the country and analyze whether the outcome could have been changed. Students are not expected to have any prior knowledge about the conflict in Afghanistan. This course is self-contained but paired with HNUH249T in the National Security track, which explores debates around efforts to protect the nation from terrorism while preserving our values.
Credit Only Granted for: HNUH249P or HONR269T.
Formerly: HONR269T.

HNUH249T National Security: Domestic Dilemmas (3 Credits)
The police detain a man thought to be plotting a terrorist attack the next day in a U.S. city that would kill or injure thousands. They want to subject him to "enhanced interrogation," which some consider to be torture. Should the police be permitted to use enhanced interrogation techniques? Who decides? This course will ask key questions raised during the efforts of our national security apparatus to protect the nation. Given the tension between the powers of the government to protect citizens, and the necessary limits on that power, what are the fundamental principles that should govern our efforts to protect the nation while preserving our values? Students will try their hand at finding the delicate balance of these principles in difficult national security dilemmas. This course is self-contained but paired with HNUH249P in the National Security track, which explores post-9/11 policy decisions around the U.S. effort to create a sustainable democracy in Afghanistan.
Credit Only Granted for: HNUH249T or HONR278D.
Formerly: HONR278D.

HNUH258B The Ecology of Childhood Poverty (3 Credits)
How does poverty shape the relationship between humans and their environment? It may seem obvious that being poor in childhood has enduring effects on development. What is less obvious is how experiencing poverty in childhood shapes relationships between children and their surroundings, including family interactions, peer relationships, adult dynamics, and the health of the community. Less clear still is the extent to which positive interactions with caretakers and social supports can protect children from potential harm as they grow up. This course focuses on the complexity of poverty as a social force and community concern. Students will investigate the nature of poverty through an interdisciplinary lens that includes social theory, developmental psychology, and empirical studies. After analyzing various approaches to the study of child poverty, students will be in a position to use research on parenting and poverty to evaluate public policy and social programs in their own backyard.

HNUH258C Nature at Risk: Extinction, Consequences, and Strategies (3 Credits)
How should we prioritize among all the species at risk of extinction? This course will grapple with the complex and consequential process of extinction from biological, geographical, and mathematical perspectives. Core themes will include the 1) nature(s) of extinction risks, 2) potential consequences of different kinds of extinction, and 3) considerations involved in setting priorities. Students will explore, handle, and analyze relevant data (e.g., evolutionary trees, species occurrence records, population censuses) to better understand extinction processes. With the aid of AI-generated hypothetical species, we will investigate hidden biases, debate the consequences of our choices, and explore possible prioritization strategies.

HNUH258Q Where the Waters Blend: Contemporary Indigenous Perspectives on History, Traditions, and Modern Issues (3 Credits)
In this unique cultural and personal learning experience, students will explore the history, traditions, and contemporary issues faced by Maryland's Indigenous people, particularly the Piscataway. The course emphasizes the interconnectedness of culture and environment, highlighting how Indigenous Ecological Knowledges shape our understanding of biodiversity and interconnected life. The experiential work of the course asks students to consider how the past matters, particularly when it is embodied in the land they live on, and their present obligations to it. On-campus and place-based learning focuses on the impacts of colonization on the Piscataway - cultural suppression, land displacement, and their effects today - and fosters students' capacity to challenge paradigms that marginalize Indigenous people in our region, nation, and world. Students will emerge with a greater understanding of Maryland's land, the critical role of biodiversity, and the resilience of the Piscataway culture.
Cross-listed with: CPSP220.
Credit Only Granted for: HNUH268W, HNUH258Q or CPSP220.
Formerly: HNUH268W.

HNUH258U The Basis of Behavior: Evolution and the Origin of Actions (3 Credits)
Why do some monkeys spend time grooming each other in large groups, while others lose their minds with rage if another monkey comes too close? Complex organisms exhibit behaviors that both fascinate and confound, and the way an animal behaves dictates how it interacts with its environment, with profound consequences. Individual behaviors can have dramatic effects on individual fitness, an individual's groupmates, and even the evolution of species. This leads to a fundamental question in behavioral evolution: why do animals do the things they do? The answer lies in the interaction between individual experiences and eons of natural selection. In this seminar, students investigate what organisms were, what they have become, and why. With a focus on the transitions in behavior that caused single cells to evolve over time into complex societies, students will apply evolutionary principles to individual development and explore how and why individuals choose certain behaviors over others.

HNUH258X Carnal Knowledge: Health, Data, and Power from Enlightenment to WebMD (3 Credits)
"Carnal knowledge" may sound provocative but, in a literal sense, it describes information derived from and about the human body. Consider a ship captain observing the tattoos of sailors to understand their origins, a surgeon examining a cadaver for signs of saintliness, or a natural philosopher ingesting an herb to determine its toxicity. These are instances of carnal knowledge. Historically, such intimate acts turned the body into a site of data collection and a powerful source of information. Both by choice and by force, the instrumentalization of the human body was used to solve scientific problems as well as to justify hierarchies of race and sex. Through a deep engagement with this material, students will connect topics such as the transatlantic slave trade to cell lines as they uncover the embodied relationship between information and power that still shapes our world today.

HNUH258Y The Power of the Writing Voice (3 Credits)
Words have power to ignite political storms, protest movements, and revolutions. Throughout history, writers have used their voices to create stories that have transformed the world. This course will examine powerful voices in history that have inspired social, political, economic, environmental and cultural change. Students will critically examine the power of these voices through the written word, lectures, and various other media. By critically listening to revolutionary speeches and "Soul" music, and by critically reading literature and essays, students will sharpen their own writing voices. As students explore the complex, dynamic relationships between the written word and cultural change, they will gain insight into the nature of power and influence.

HNUH259P Drawn to D.C.: Mapping the City (3 Credits)
Spaces, materials, objects, structures--the building-blocks of cities--index the values of the societies that produce them. By their very nature cities are memory devices. Yet, in an increasingly transient and virtual world, with access to a seemingly infinite amount of memory, what is the status of the spaces we inhabit? This course will explore the relationship among memory, the body and the built environment. Beginning with the role cities play in our individual lives and the construction of personal memories, we will take account of what we forget by remembering and what experiences are missing. Through lectures, seminars and discussions, students will produce short experimental books and pamphlets remapping Washington D.C. and the many invisible - personal - cities it contains. No previous art or design experience required. This course is self-contained but paired with HNUH259T in the Drawn to D.C. track, which explores the created spaces we inhabit, and how they inhabit us.
Restriction: Must have matriculated in University Honors starting in Fall 2020 or later.

HNUH259T Drawn to D.C.: Reading the City (3 Credits)
A movement known as the Metropolitan Revolution has recognized cities as sites of concentrated economic growth and political power. What does that movement have to do with you? Not only does the city change who you are, but the ambitions and fears that you bring to it also alter what is already there. With Washington, D.C. as a case study, this course considers cities in the context of the ambitious plans that developed them and the unbuilt spaces that open us to imagining them anew. From the ideological tensions and competing policies that politicize urban space, to the construction challenges and social implications of choices made, why we build is as important as what we build. We will experience Washington through its history of spaces, stories, music, art; and learn to see ourselves as co-designers of its present. This course is self-contained but paired with HNUH259P in the Drawn to D.C. track, which explores the created spaces we inhabit, and how they inhabit us.

HNUH268A Arbitrating our Bodily Rights: What it Means to Consent (3 Credits)
Both American law and conventional morality support the view that human beings have bodily rights - ones we can waive by giving another person our consent to do what would otherwise be a rights violation. Yet, debate about the sovereignty of an individual's body and the potential rights of others--including the state--over our bodies lies at the core of some of the most contentious issues facing us as a society. This class will investigate the thorny debates that pertain to consent in sexual relations, medicine and research, and bodily markets. What types threats, offers, or cognitive incapacities undermine true consent? How do we evaluate the moral or legal significance of bodily rights when they come into tension with the government's interest? After evaluating arguments, exploring distinctions, and using philosophical tools to arrive at reasoned conclusions about consent, students will learn to apply these conceptual tools to cases from fiction and current events.

HNUH268B Global Heritage (3 Credits)
What traction does the past have in society today? This course explores globally how the past gains traction in society today and becomes remade in the present. That inquiry will be guided by the idea of heritage, as it mobilizes the past within a broad spectrum of social, political, economic, and environmental issues. We will examine western relationships to the past as intimately tied to property and the drive to plunder, collect, and catalogue. Increasingly, conceptions of heritage include landscapes, as well as intangibles such as music, dance, and folklore. This broad definition honors the diversity of present-day relations to the past, even as it strains heritage management models that are organized around definitions and regulations, and bear the weight of historical injustice. Close examination of heritage at work within global crisis and struggle prompts questions on who owns the past, and who owns up to it. What do we owe the past, and will we be good ancestors to the future?

HNUH268C Inclusion and Exclusion: Deportation in American Life (3 Credits)
What is the "American Dream" under threat of deportation? The United States proclaims to be welcoming but ideas about sovereignty, the nation, the border, good and bad immigrants, and crime in the United States coalesce to support the retention of some people and the displacement of others from its territory. Who the US deports is related to why it deports and on whose behalf such policies are made. This course acquaints students with current theories, methodologies, and debates in the field of the Humanities to grapple with the most pressing domestic questions about immigration and deportation. A variety of frameworks and approaches including critical ethnic studies, history, social movements, and geography, will challenge students to take a position on immigration law and deportation, and their effects on different communities - on all of us.

HNUH268H Contested Bodies: Religion, Race, and Narrative (3 Credits)
What does your body express about who you are and what you believe? How do you perceive your body, and what role do public expectations, social values, and cultural norms play in that perception? With Muslim women as our primary case study, this course asks students to engage with the lived experience of bodies perceived as passive, vulnerable, or even violent in the Western context, and to evaluate their construction of agency. Through engagement with politics, religion, race, and transnational feminism, we will explore how bodies are expressed, contested, subjugated, and violated within various configurations of power and governance. We will encounter personal narratives--and create our own--to understand how bodies also resist the persistent forces that seek to shape their image.

HNUH268W Where the Waters Blend: Contemporary Indigenous Perspectives on History, Traditions, and Modern Issues (3 Credits)
In this unique cultural and personal learning experience, students will explore the history, traditions, and contemporary issues faced by Maryland's Indigenous people. The experiential work of the course asks students to consider how the past matters, particularly when it is embodied in the land they live on, and their present obligations to it. On-campus and place-based learning, focused on the precolonial and colonial histories of Maryland's Indigenous people, and their contemporary issues create opportunities for students to reflect upon and interrogate their understanding of Maryland's past, present, and future. Students will emerge from this course with a greater understanding of the Maryland's Indigenous people and an increased capacity to challenge colonial and postcolonial paradigms that marginalize the Indigenous people in our region, nation, and across the globe.

HNUH268X Sex for Sale: Prostitution in Transnational Perspective (3 Credits)
Can sex be sold? Is prostitution work or violence, and who gets to decide if it is legal or illegal? The sex industry has provoked considerable debate in academia, policy circles, and aid organizations globally. This interdisciplinary seminar will engage with these debates through an exploration of histories of prostitution across time and space, and in a variety of theoretical and material contexts. Our main focus will be on the nineteenth- and twentieth-century U.S., Europe, and the Middle East, but we will also explore cases from Asia, Latin America, and Africa. We will use this transnational lens to interrogate social and cultural assumptions about bodies, agency, and social institutions. We will also consider a variety of social movements from anti-prostitution to SlutWalks, and regulatory policies from criminalization to legalization, and how they intersect with race. This course invites students to move beyond the surface and form their own approach to these body politics.

HNUH268Y The Politics of Disability: Life Narratives & Identity (3 Credits)
The politics of disability are fraught and contentious. This course takes up the experience of disability by asking how and why differently-abled bodies are excluded, marginalized, or threatened. Students will examine these questions through the psychosocial and cultural history of disability, as well as through life narratives and real-world exploration. Beginning with the history of disability, students will gain an understanding of how current disability identity and culture has develop in the US. Students will experience and also produce personal life narratives related to bodily politics and gain insights that help them navigate the politics and participate in the change-making advocacy of disability.
Credit Only Granted for: HONR218V or HNUH268Y.
Formerly: HONR218V.

HNUH268Z Body Boundaries: The science behind asexuality, coloniality, and immortality (3 Credits)
Animal bodies have clear boundaries across space and time - or do they? Although the most familiar animals have clearly delimited bodies and persist only for a certain amount of time, evolution has produced many remarkable animals that defy simple definitions of bodies. Some animals shatter their bodies into pieces to reproduce, generating a collection of identical clones. Others remain physically attached to their siblings or offspring - coordinating activities across attached individuals and functioning as a meta-organism. Still others continually renew their bodies and attain immortality. In this seminar, we will explore the naturally-occurring phenomena that challenge our concept of body. As we analyze the complex ways that bodies relate to one another in the world and broaden the definition of body, students will engage in authentic scientific practices with transferable skills.
Credit Only Granted for: HONR258A or HNUH268Z.
Formerly: HONR258A.

HNUH269P Building Community: How to Make Friends (3 Credits)
In 2017, U.S. Surgeon General Vivek Murthy deemed loneliness an "epidemic." While the rise of social media is meant to foster connection, over 23% of adults report being lonely and social networks have been shrinking for decades. Despite increasing rates of loneliness, it is still possible to overcome these trends and find connection. We tend to assume that we should know how to connect with others intuitively, but, as rising rates of loneliness indicate, this is not the case: connection is something we must learn and practice. In this applied course, students will learn the science of connection and engage in practical activities designed to help them make and keep friends. They will leave the course better able to foster meaningful connections. This course is self-contained but paired with HNUH269T in the Building Community track, where you will learn the social value of showing up, for the world and for yourself.
Credit Only Granted for: HNUH248U or HNUH269P.
Formerly: HNUH248U.

HNUH278A The Research Behind Headlines on Words, Thought, and Behavior (3 Credits)
How does the human mind use language? Type "Language Science News" into your Google search bar. Among the more than 3 billion hits, headlines like "What is love? It depends what language you speak" and "Science's English dominance hinders diversity" invite you to think about the impact of words on thought and behavior. These are stories about how humans acquire and use language, but they ultimately address big questions about how we experience knowledge itself. In a world of unprecedented access to science journalism, did you ever read a headline about human behavior and wonder: How do we know? This class takes up the elegant ways cognitive scientists design experiments to answer crucial questions about language and thought, brain and behavior, that have no intuitive answers. Students will dive deep into the media coverage of their favorite claims about what we know, debate the psychological science behind these claims, and develop transferable critical-thinking skills in the process.
Cross-listed with: HESP214.
Credit Only Granted for: HNUH278A or HESP214.

HNUH278B Democratic Habits (3 Credits)
How do ordinary citizens power democracy? At the age of 18, every American citizen is endowed with the right to vote, but what if democracy demands more than voting? With democratic processes seemingly in peril all around us, what can and should ordinary citizens do to safeguard democracy? Looking beyond the basic right to vote, this class will instead explore the complex ecosystem of citizenship practices necessary for collective self-governance. Turning to both philosophy and history, the course material addresses the power and peril of such civic habits as mutual aid, economic participation, tolerance, attention, organizing, protest, and more. We consider what resources these habits require, what virtues they inspire, and what happens when they conflict with each other. Students in this course will acquire the tools to develop and act on their own answer to the pressing question of what it will take to save democracy.

HNUH278C Riding the Korean Wave: Kdrama, Race, and Global Culture (3 Credits)
How does culture construct our knowledge of the world and ourselves? Using Korean dramas, aka Kdramas, as a case study, this course will explore how various media negotiate blackness for global audiences. As a viral, billion-dollar art form, Kdramas provide an ideal window through which to explore recent trends in our global culture, including colorism, "Black as cool," travel as consumption, and immigration. They illuminate the politics of culture. We will examine how moral panics and social dilemmas are presented in the fictitious world of "Kdramaland," and how they inform our understandings of South Korean society, our own societies, and the world. Drawing on social science research by Koreans and non-Koreans alike, students will debate the ways the culture of the Korean wave reflects, reproduces, and challenges social inequities of marginalized and minoritized groups, as well as how those groups respond, to illuminate the larger global forces at work in intercultural exchange.

HNUH278U Indigenous Knowledge, Supernatural Remedy, and Collective Action: Lessons from Agrarian Societies (3 Credits)
How were human communities sustained before the rise of capitalism, individualism, and secularism? Where can we look to imagine a world in which modern science, polity, and ethics are not the defining system of civil social? Through an exploration of stories from late medieval Europe, China, Southeast Asia, and other regional communities, with a particular focus on the East, this course aims at de-orientalizing the narratives of the Western world by recovering the collective practices of the global past and present. Interrogating the idea that human history has been a linear process of industrialization and secularization, this course encourages students to reflect on the limits and problems of modernization, and learn from cultures whose practices were displaced or silenced by colonial knowledge production. Students will be empowered to consider, and even envision, alternative versions of modernity and the future of our world.

HNUH278V Climate Change, Infectious Disease, and Civil Society (3 Credits)
Viruses that are lethal to human life have been on earth for centuries. Why are they surging now? And how can we respond to the recent breakneck spread of Coronavirus? This class begins its journey with Homo sapiens, our ancestor that dispersed out of Africa and carried infectious diseases across the planet. Human expansion into new ecosystems also provided opportunities for us to acquire new pathogens. While all of human history is marked by diseases caused by human migration, the Industrial Revolution greatly accelerated human mobility while planting the seeds of the human impact on climate change. Today, the increasingly rapid movement of people and goods, combined with a warming planet and the large-scale disruption of major ecosystems has witnessed an unprecedented spread of infectious diseases. Students will explore how these trends impact our lives and collectively challenge themselves to do what must be done to save our planet and ourselves.

HNUH278X A Way with Words: Order and Knowledge in Enlightenment Europe (3 Credits)
"Without language, things cannot well be expressed or published to the World," wrote Edward Phillips in The New World of English Words (1658). In this course, we will interrogate the power of words to communicate and classify, to impose meaning and order in the historical moment that brought about many of our modern institutions and ways of thinking: the European Enlightenment. From the binomial taxonomies with which Linnaeus ordered "chaos and confusion" to the racist taxonomies deployed to reinforce inequities, we will survey how language facilitated the consolidation of European power at home and abroad. We will further develop the visual literacy to decode how images convey knowledge. Looking back to the period that gave shape to many modern languages, institutions, and divisions of knowledge, we will be poised to face today's crises.

HNUH278Y Science in an Age of Truthiness (3 Credits)
Scientific research has the power to advance understanding, create new technologies, and improve our lives. And yet scientific language - which is essential for these achievements - can be appear opaque and untrustworthy to non-scientists. Indeed, the fact that scientific understanding develops over time can even make the knowledge seem capricious. As a result, science is both unfairly maligned and unrealistically praised, sometimes even in the same breath. Through both the philosophy of science and historical scientific literature, we will survey how scientists have done and expressed science. Students will be empowered to critically evaluate current conceptions of science as these are revealed in the debates around climate change and COVID-19.
Credit Only Granted for: HONR299I or HNUH278Y.
Formerly: HONR299I.

HNUH278Z War of Words: Disinformation and Manipulation (3 Credits)
Examines a global phenomenon that has taken on massive proportions in the world: the spread of disinformation. We will explore types of false information, from misinformation to propaganda, that are designed to manipulate public opinion. We will survey the historical origins of these tactics, from conspiracy theory to racist propaganda, and how they have been used by governments, interest groups and businesses. Through a hands-on exploration of deep fakes and the alteration of text and image, this course will give students the practical skills they need to verify information and fact check. Students will leave the course conversant in the basics of digital safety for content producers.

HNUH288A Welcome to the Party: Race, Nightlife, and Identity in America (3 Credits)
How does play shape our humanity and national identity? We often define people by the work that they do, whereas we tend to think of leisure and after work playfulness as a release from that identity. This course takes up a particular form of play--nightlife--to reckon with how it shapes what it means to be human and how it impacts nationhood, particularly around matters of race and oppression. Spanning from slavery to the present, this course examines how nightlife has been used to deny black people's humanity and been a vital site of playfulness, manifest as joy, resistance, self-making, and aesthetic innovation. Using performance studies to make sense of the world, our explorations will range from cakewalk dance competitions on plantations to queer night clubs. Once students better understand how nightlife is vital to the making and the unmaking of black people's humanity, they will grapple with play as a meaning-maker in their own lives and in our democracy.

HNUH288B Race, Reproduction and Rights (3 Credits)
Can humanity thrive without ensuring reproductive freedom? The 2022 US Supreme Court decision that the right to an abortion is unconstitutional has generated impassioned debate about women's rights and access to reproductive health care in the US and globally. This debate opens space to think beyond "pro-choice or pro-life" polarization and create conditions that promote equity, respect for rights, and a healthy society. These conditions would need to address injustices such as the racism, gender inequalities, marginalization, and colonization that produce disparities in reproductive health care and jeopardize the well-being of individuals, families, communities, and countries. Who controls the bodies of marginalized women and men? What is the meaning of reproductive rights for people who have little power? This course challenges students to bring together multiple disciplines, become critical data consumers, and develop innovative ways to use this knowledge to influence policy.

HNUH288C Abortion in U.S. Society (3 Credits)
How do and can we talk about abortion in contemporary society? Civil discussion around the topic of abortion is almost non-existent between people with extremely different views in the U.S. It is such a taboo topic that an exchange of ideas can even be difficult for those with slightly different views--i.e., those who believe abortion should not be regulated by the government (more than any other health care is) and those who believe abortion should be legal and regulated by governments. Although it is an issue about which Americans care deeply, the very people who need most to talk about it seem unable to find any common ground upon which to begin. This course provides students with a solid base of knowledge needed to form opinions and engage in civil debate. Through an exploration of the different ways we talk about abortion in the U.S. and the sources of those strategies, students will learn to find their voice in the controversial topic.

HNUH288U The Body Knows: Creating Healthy Intimacy on College Campuses (3 Credits)
How do we figure out what we physically desire? How do we know where our boundaries are and how do we communicate that to others? What would it look like to create a campus community where young people are confident about their sexuality and their ability to communicate the nuances of their needs to potential partners? This course is designed as a creative workshop to help students put their own embodied knowledge in conversation with theories and practices of healthy intimacy. Core texts explore the history of sexual violence as a tool of colonization, the relationship between feminism and sex-positivity in popular culture, and the consent theories that have become central to college campus responses to sexual violence. With the help of performance-based techniques, students will have the opportunity to research issues specific to UMD, design curricula for their peers, and advocate for an end to sexual violence on campus.

HNUH288X The Human Interface, from Anatomy to Avatar (3 Credits)
Anthropomorphized pets post on Instagram, FitBits transmit biodata, bots influence elections... In the digital world designed by and for human beings, all sorts of actors imitate people, while people are objectified through surveillance and data mining. Despite a frequent distinction between the internet and 'IRL,' physical bodies are wrapped up in every aspect of existence online: from the factory workers who build our technology to the postures and gestures those devices require us to adopt. Exploring this range of bodily phenomena, this course considers what constitutes a "human body" online and how digitality and connectivity inform our understanding of personhood. From RPGs and dance challenges to AI and visceral responses to internet content, students will analyze the complex relationships between the technological and the embodied, the social and the political, the past and the future.

HNUH288Y What You Are and Why it Matters (3 Credits)
Who you are is interesting and important, but not the subject of this course. What you are is closer to our topic but not yet specific enough; after all, you are many things: a student, a citizen, a driver, a Terp, and so on. This course asks deeper and more elusive questions: what kind of being are you? What is your fundamental nature--the nature you share with others and that simultaneously grounds your individuality? We will work to answer these questions and investigate the limits of our nature, from the possibilities of time travel and teletransportation to the realities of dissociative identity disorder and conjoined twins. The insights we glean will help us grapple with the nature of human existence--from what happens when you die, to our responsibilities toward others, to nothing less than the meaning of life.

HNUH288Z Non-Human Animals in Human Society (3 Credits)
As humans, we share our lives with other animals in diverse and conflicting ways. Non-human animals can be consumed as food, used for scientific research, and treasured as companions. They are commercialized, worshipped, and stereotyped. Our complex relationships with other animals emerge from and fuel debates about what makes "us" different from "them." In this course, we will ask (and attempt to answer) questions such as: What roles do we open to (or force on) non-human animals in American culture and why? Who makes these decisions and what is their effect on animal life? We will explore the evolution of modern human-animal relationships to contextualize major social and scientific debates that have arisen in the last century, including what it means to be human in this context, and why they matter.

HNUH300 Vantage Point Seminar (2 Credits)
Goal-setting and project-design seminar required of all UH students and taken in the second semester of the sophomore year or the first semester of the junior year.

HNUH318T Political Engagement and Advocacy (3 Credits)
An examination of questions and issues in the practice of political engagement and advocacy. Guest lecturers drawn from political, civic engagement, and advocacy arenas will visit class and participate in discussions.
Cross-listed with: FGSM310.
Restriction: Must be in the Federal Fellows Program; and permission of instructor.
Credit Only Granted for: HNUH318T or FGSM310.

HNUH328T Public Health Policy (3 Credits)
An exploration of the major questions and issues facing the U.S. health care system as well as the formulation and implementation of health policy.
Cross-listed with: FGSM320.
Restriction: Must be in the Federal Fellows Program; and permission of instructor.
Credit Only Granted for: UNIV348P, HNUH328T or FGSM320.
Formerly: UNIV348P.

HNUH338T Homeland and National Security Policy (3 Credits)
An examination of the concept of U.S. homeland and national security, threats, and major vulnerabilities in the context of recent history.
Cross-listed with: FGSM330.
Restriction: Must be in the Federal Fellows Program; and permission of instructor.
Credit Only Granted for: UNIV348T, HNUH338T or FGSM330.
Formerly: UNIV348T.

HNUH348T Energy and Environmental Policy (3 Credits)
An examination of issues of energy and environmental sustainability through an investigation of policy-making in energy, climate change, and sustainable development.
Cross-listed with: FGSM340.
Restriction: Must be in the Federal Fellows Program; and permission of instructor.
Credit Only Granted for: UNIV348E, HNUH348T or FGSM340.
Formerly: UNIV348E.

HNUH358T Critical Regions and International Relations (3 Credits)
An examination of international relations and foreign policy challenges in critical regions.
Cross-listed with: FGSM350.
Restriction: Must be in the Global Fellows Program; and permission of instructor.
Credit Only Granted for: HNUH358T or FGSM350.

HNUH359T U.S. Intelligence and Policymaking (3 Credits)
Examines the role of intelligence in supporting U.S. security strategy and policy. Students will learn how the U.S. Intelligence Community (IC) is structured and organized, and will explore how intelligence is deployed to support the warfighter, diplomats, and senior-level decisionmakers. The course emphasizes the development of critical thinking and analytic skills, as well as professional writing and oral presentation abilities that are necessary for successful work in national security organizations. The course will feature guest lecturers from real-world practitioners to supplement course readings.
Cross-listed with: FGSM355.
Restriction: Must be in the Global Fellows Program; and Permission of Department.
Credit Only Granted for: HNUH359T or FGSM355.

HNUH368T U.S. Diplomacy and Policymaking (3 Credits)
An examination of questions and issues in the practice of contemporary diplomacy and policy-making. Guest lecturers drawn from Washington policy-making and foreign service communities will visit class and participate in discussion.
Cross-listed with: FGSM360.
Restriction: Must be in the Global Fellows Program; and permission of instructor.
Credit Only Granted for: HNIUH368T or FGSM360.

HNUH378T Science Diplomacy: Foreign Policy & Science, Technology, and Innovation (3 Credits)
An exploration of the critical roles scientific knowledge and technological innovation play in the formation and implementation of foreign policy issues, including energy and climate change, public health, space and innovation, and economic development.
Cross-listed with: FGSM370.
Restriction: Must be in the Global Fellows Program; and permission of instructor.
Credit Only Granted for: UNIV389F, HNUH378T or FGSM370.
Formerly: UNIV389F.

HNUH388T Responses to Global Challenges (3 Credits)
An examination of global issues and responses primarily from the perspective of the practitioner. The focus will be on social, humanitarian, and human rights issues in different global contexts.
Cross-listed with: FGSM380.
Restriction: Must be in the Global Fellows Program; and permission of instructor.
Credit Only Granted for: UNIV389B, HNUH388T or FGSM380.
Formerly: UNIV389B.

HNUH398P Federal and Global Experiential Learning (3-9 Credits)
This is the experiential course component of the Federal Fellows Program and Global Fellows Program.
Cross-listed with: FGSM398.
Restriction: Permission of instructor.
Repeatable to: 9 credits if content differs.
Credit Only Granted for: FGSM398 or HNUH398P.

HNUH398T Global Health Challenges and Water Security (3 Credits)
An examination of questions and issues of global health and water security. Expert practitioners will also visit class and participate in discussions.
Cross-listed with: FGSM390.
Restriction: Must be in the Global Fellows Program; and permission of instructor.
Credit Only Granted for: HNUH398T, HONR378M, or FGSM390.

HONR - Honors

HONR100 Honors Colloquium (1 Credit)
Attendance at various additional activities and events is required. Reading and discussion on the personal and social value of higher education; development of a coherent general education program; exploration of the educational and cultural resources of the campus and metropolitan area; participation in a community service project; and other activities designed to broaden students' conception of what it means to be an educated person.
Restriction: Permission of University Honors Program.

HONR149 Honors Colloquium (3 Credits)
A colloquium on a variety of topics.
Restriction: Permission of University Honors Program.
Repeatable to: 9 credits if content differs.

HONR168 Honors Seminar (1-3 Credits)
Restriction: Permission of University Honors Program.
Repeatable to: 9 credits if content differs.

HONR169 Honors Seminar (1-3 Credits)
Restriction: Permission of University Honors Program.
Repeatable to: 9 credits if content differs.

HONR208 Honors Seminar (1-3 Credits)
Restriction: Permission of University Honors Program.
Repeatable to: 9 credits if content differs.

HONR209 Honors Seminar (1-3 Credits)
Restriction: Permission of University Honors Program.
Repeatable to: 9 credits if content differs.

HONR218 Honors Seminar (1-3 Credits)
Restriction: Permission of University Honors Program.
Repeatable to: 9 credits if content differs.

HONR219 Honors Seminar (1-3 Credits)
Restriction: Permission of University Honors Program.
Repeatable to: 9 credits if content differs.

HONR228 Honors Seminar (1-3 Credits)
Restriction: Permission of University Honors Program.
Repeatable to: 9 credits if content differs.

HONR231 London and the British Empire (3 Credits)
Focuses on the people, places, and policies that shaped the development of the British Empire, the single largest trans-cultural phenomenon in the world since 1500. Students examine how ideology, migration, technology and resistance shaped the expansion and eventual retrenchment of British imperial power in the Atlantic world and the Indian sub-continent. With the nation's capital as our classroom, students explore the complex workings and legacies of the British Empire from the perspective of its nerve center. The curriculum illuminates the experience of empire for subjects both in the colonies and the metropole and will pay particular attention to the maritime origins of empire, the lives of black Britons and the abolition of slavery, and the rise and fall of the British in India.
Cross-listed with: HIST231.
Credit Only Granted for: HIST219K, HONR249B, HONR231, or HIST231.
Formerly: HIST219K.

HONR259 Honors Seminar (1-3 Credits)
Restriction: Permission of University Honors Program.
Repeatable to: 9 credits if content differs.

HONR268 Honors Seminar (1-3 Credits)
Restriction: Permission of University Honors Program.
Repeatable to: 9 credits if content differs.

HONR268G The Science of Birdwatching (3 Credits)
In this course you will learn the skill of birdwatching (or "birding") and will contribute your observations to a world database of sightings that help establish trends in overall bird populations. Birding (and bird feeding) is one of the most popular pastimes in the United States, with tens of billions of dollars spent annually by enthusiasts. Birds also tell us about the health of our natural environment: by noting where birds are, and where they are absent, scientists can learn about harmful changes to our world ecosystem and how to reverse them. We can help out by becoming responsible citizen scientists. This course will feature regular field trips to observe birds in their natural habitats. No prior birding experience is needed.

HONR269 Honors Seminar (1-3 Credits)
Restriction: Permission of University Honors Program.
Repeatable to: 9 credits if content differs.

HONR288 Honors Seminar (1-3 Credits)
Restriction: Permission of University Honors Program.
Repeatable to: 9 credits if content differs.

HONR298A Impacts of Globalization (3 Credits)
Introduces students to key global concepts, discusses a range of perspectives on globalization and cultural competence, and offers an applied learning experience.
Prerequisite: CPBE100; or by permission.
Cross-listed with: CPBE270.
Restriction: Students must be matriculated into the College Park Scholars Business, Society & Entrepreneurship (CPBE) program; or by permission.
Credit Only Granted for: CPBE270 or HONR298A.

HONR300 Intergroup Dialogue Facilitator Development & Practicum (3 Credits)
Facilitation is an artform and a science. This course is designed to introduce students to foundational dialogue facilitation skills and social justice frameworks needed to effectively facilitate group interactions across and within social differences. Students will apply the skills learned by facilitating a multi-session dialogue course with either the Common Ground or the Words of Engagement Intergroup Dialogue Program (WeIDP).
Cross-listed with: EDDI300, CPSP300.
Restriction: Permission of the Counseling, Higher Education, and Special Education department.
Credit Only Granted for: WEID300, CPSP300, HONR300, or EDDI300.
Formerly: WEID300.
Additional Information: Students must be given permission to enroll and be admitted to the intergroup dialogue facilitator program.

HONR318 Advanced Honors Seminar (3 Credits)
A series of seminars, often interdisciplinary in character, and sometimes team taught. The subjects will vary from semester to semester.
Restriction: Permission of University Honors Program.
Repeatable to: 9 credits if content differs.

HONR328 Advanced Honors Seminar (3 Credits)
A series of seminars, often interdisciplinary in character, and sometimes team taught. The subjects will vary from semester to semester.
Restriction: Permission of University Honors Program.
Repeatable to: 9 credits if content differs.

HONR349 Honors Colloquium (1-3 Credits)
A series of seminars, often interdisciplinary and sometimes team taught. Subjects may vary.
Restriction: University or departmental Honors student. Or permission of instructor; and permission of Director of University Honors.
Repeatable to: 3 credits if content differs.

HONR358 Honors Practicum (3 Credits)
For student section leaders of HONR100 or HONR200.
Restriction: Permission of University Honors Program.
Repeatable to: 9 credits if content differs.
Formerly: HONR379.

HONR359 Honors Workshop (1-6 Credits)
Honors workshops are small seminar classes which concentrate on skill development.
Restriction: Permission of University Honors Program.
Repeatable to: 9 credits if content differs.

HONR368 Advanced Honors Seminar (3 Credits)
A series of seminars, often interdisciplinary in character and sometimes team-taught. The subjects will vary from semester to semester.
Restriction: Permission of University Honors Program.
Repeatable to: 9 credits if content differs.

HONR368A MGA Legislative Seminar (3 Credits)
Prepares students to intern for the Maryland General Assembly. Introduces standard legislative genres and assigns extended practice in researching legislative issues.
Prerequisite: Students who have taken courses with comparable content may contact the department; or ENGL101.
Cross-listed with: ENGL381.
Restriction: Permission of ARHU-English department.
Credit Only Granted for: HONR368A or ENGL381.
Additional Information: Application required. Contact english@umd.edu for more information.

HONR379 Honors Independent Study (1-6 Credits)
Involves reading or research directed by individual faculty, especially in areas outside of the student's major. Open only to University honors students.
Restriction: Permission of University Honors Program.
Repeatable to: 6 credits if content differs.

HONR379W Maryland General Assembly Writing Internship (6 Credits)
Experiential learning at the Maryland General Assembly (early January through early April). Interns participate in standard office tasks, research legislative issues, and draft legislative texts such as constituent letters, notes on bills, newsletters, policy memos, and testimony. Specific assignments vary according to the host legislator's needs and the intern's schedule.
Prerequisite: ENGL381 or HONR368A.
Cross-listed with: ENGL388M.
Restriction: Minimum cumulative GPA of 3.0; and must have earned a minimum of 60 credits; and must be admitted to the MGA program.
Credit Only Granted for: ENGL388M or HONR379W.

HONR386 Experiential Learning (3-6 Credits)
Prerequisite: Must have a Learning Proposal approved by the Office of Experiential Learning Programs, faculty sponsor, and student's internship sponsor.
Restriction: Junior standing or higher.

HONR388 Honors Thesis or Project (3-6 Credits)
Repeatable to: 6 credits if content differs.
Formerly: HONR370.

HONR389 Guided Honors Teaching (3 Credits)
For HONR100 and HONR200 section leaders. Guided teaching experience for selected students in the University Honors Program.
Restriction: Permission of University Honors Program.
Repeatable to: 9 credits if content differs.

IDEA - Academy for Innovation & Entrepreneurship

IDEA201 Innovation Tools & Mindsets (1 Credit)
Challenges assumptions around what is needed to innovate and who innovators are. Through hands-on activities and reflection, you'll be invited to step out of your comfort zone, think and work in new ways, and gain confidence in your creative abilities.
Credit Only Granted for: IDEA201 or IDEA258A.
Formerly: IDEA258A.

IDEA210 Innovation + Sustainability: Designing your own Sustainable Future (3 Credits)
This hands-on, project-based course tackles the intersection of environment, creativity, and business to develop sustainable solutions to pressing environmental problems. Students work in teams and use design thinking and other human-centered methods to address real-world design challenges. Students will integrate entrepreneurial methods to shape their college and career journey towards a more sustainable future and learn how to motivate and empower others to adopt more sustainable behaviors.
Credit Only Granted for: CPSP249E or IDEA210.

IDEA258 Special Topics in Innovation (1-3 Credits)
Special topics in innovation
Repeatable to: 6 credits if content differs.

IDEA311 Design Your Purpose (1 Credit)
What do you want to do once you graduate? What about with your life? These are the big questions we begin to tackle in this course. Use design methods and mindsets to explore your personal and professional development goals and explore potential career paths. Using empathy, brainstorming, and prototyping techniques, you'll imagine potential futures for yourself and test them to see if they are a good fit for you.
Credit Only Granted for: IDEA311 or IDEA379A.
Formerly: IDEA379A.

IDEA345 Becoming a Design Thinker (1 Credit)
Learn design thinking tools and mindsets to create change in meaningful ways and cultivate your curiosity in this dynamic, hands-on course. Encounter new approaches to learning from others, synthesizing qualitative data, visualizing your ideas, and navigating ambiguity (among others!) while applying the tools and techniques to real-world applications. No prior experience or knowledge of design thinking is needed.
Credit Only Granted for: IDEA247 or IDEA345.
Formerly: IDEA247.

IDEA358 Special Topics in Innovation and Entrepreneurship (1-3 Credits)
Special topics in innovation and entrepreneurship applying concepts in real-world applications
Repeatable to: 4 credits if content differs.

IDEA369 Peer Innovation Coaching (2 Credits)
Deepen your role as an Academy for Innovation and Entrepreneurship Peer Innovation Coach (PIC), where you will be coaching and guiding student teams in the classroom as they learn to use innovation methods. There is both an experiential component and a classroom component. The experiential component involves coaching and teaching innovation class sessions throughout campus, and the classroom component involves discussions, reflection assignments and scenario role-playing to help improve your coaching and teaching. While some of the content in the classroom component will be seeded by a set of course readings, much of it will also be seeded by your own experiences in the experiential component.
Prerequisite: IDEA247; and permission from the Academy for Innovation and Entrepreneurship.
Repeatable to: 6 credits.
Formerly: IDEA358A.

IDEA379 Advanced Topics in Innovation (1-3 Credits)
Advanced topics in innovation
Recommended: IDEA247.
Restriction: Permission of the Academy for Innovation and Entrepreneurship.
Repeatable to: 6 credits if content differs.

IDEA398 Special Topics in Coaching (1-3 Credits)
Special topics in coaching others
Restriction: Permission of the Academy for Innovation and Entrepreneurship.
Repeatable to: 6 credits.

IDEA398C Special Topics in Coaching: Carillon Peer Mentors (2 Credits)
Prepares students to serve as Peer Mentors in the Carillon Studio (IDEA101). Students gain exposure to a variety of design abilities, methods, and mindsets that prepare them to apply human-centered design to their work in and beyond the classroom. Each Peer Mentor is paired with an IDEA101 instructor, and together they teach aspects of design to first-year students in Carillon Communities, leading them through individual and team projects that encourage them to creatively solve problems. Students build upon their prior experiences in Carillon Communities as they develop skills in communication, leadership, mentorship, and design thinking.
Prerequisite: IDEA101.
Restriction: Permission of the Academy for Innovation and Entrepreneurship.

IDEA459 The Innovation Studio (3 Credits)
In this class, we'll use human-centered design practices to develop performance-based and curricular experiments for future implementation at the National Orchestral Institute + Festival (NOI+F) at UMD. Students will have the opportunity to connect the work we do in class to their own interests related to the visual and performing arts. Experience with classical music performance and/or human-centered design practices is optional. The class is highly experiential, collaborative, and reflective. This work is done through a partnership between NOI+F and the Academy for Innovation and Entrepreneurship to create innovation-related experiences at the festival every year.
Jointly offered with: IDEA659.
Restriction: Permission from the Academy for Innovation & Entrepreneurship required.
Repeatable to: 6 credits.

IDEA498 Independent Study: Experiments in Innovation (1-3 Credits)
Apply design thinking and/or lean startup concepts to your own real-world project, which may involve a partner organization. This course requires a high degree of self-direction in all aspects of the project including defining specific milestones and deliverables. There will be regular coaching from an Academy for Innovation and Entrepreneurship team member.
Prerequisite: Permission from the Academy for Innovation and Entrepreneurship.
Repeatable to: 6 credits.

IMDM - Immersive Media Design

IMDM101 Introduction to Immersive Media (3 Credits)
An introduction to the basic practices, concepts and issues in Immersive Media Design. Conducted as a hybrid studio/lecture course, students will work collaboratively in teams to complete both research and practical projects, including surveying current artists and practice in immersive media; completing studio-based interactive projects that fuse computational media into physical objects; and working in teams to ideate and execute large scale, immersive media works.
Restriction: Must not have earned more than 60 credits; or permission of IMDM - Immersive Media Design program.
Credit Only Granted for: CMSC101 or IMDM101.
Formerly: CMSC101.

IMDM127 Creative Coding for Digital Media (3 Credits)
An introduction to the principles of Computer Science supported by exercises in computer programming with an emphasis on creative coding, algorithmic image creation and manipulation, and interactive experiences. Students will make use of both exploratory coding approaches, and problem/solution-driven approaches, to design and implement software with visual and auditory output. The course also includes an introduction to a wide variety of issues relating to computer science and software, including software design and construction, problem-solving, and fundamental questions about the nature, limitations, and ethical use of computers and algorithms. It also explores how creativity tools can be used and as well as providing some insight into how they are implemented. The course is targeted to students with a broad diversity in backgrounds and interests. No prerequisites are assumed beyond high school algebra.
Restriction: Must not have completed any courses from CMSC131-499 course range; and must not be concurrently enrolled in CMSC131.
Credit Only Granted for: IMDM127 or CMSC125.

IMDM150 Digital Media Theory and Culture (3 Credits)
An introduction to the fundamental structures and themes of digital culture in contemporary society. This course will provide you with a theoretical grounding in which to understand the current landscape of digital media culture, design and art. As an introductory course for the Immersive Media Design major, the focus will be on contextualizing immersive digital media such as virtual reality, augmented reality, immersive projection, and electronic art installation through reading, writing and discussion. Students will have opportunities to experience a range of these technologies first hand.
Restriction: Must be in the Immersive Media Design program; or permission of IMDM - Immersive Media Design program.

IMDM227 Introduction to Computational Media (3 Credits)
Comprehensive introduction to programming for visual, auditory and tactile art. Introduction to basic programming constructs, algorithms, data structures, and data transformations for creating and managing multimedia content, and conducting user interaction. Emphasis on programming and software design including the interfaces between hardware and software in multimedia devices, creating graphical user interfaces, and basic graphics and sound rendering.
Prerequisite: Minimum grade of C- in IMDM101 and IMDM150; and minimum grade of C- in CMSC131 or (IMDM127 and CMSC122).
Restriction: Must be in the Immersive Media Design program or Permission of IMDM - Immersive Media Design program.

IMDM290 Collaborative Studio I: Image + Time (3 Credits)
Concept-driven and team-based collaborative studio course in which students work together in groups to create intellectually engaging and technically innovative works of Immersive Media Design. Student teams will combine their skill sets, technical and artistic, to produce creative works that combine image manipulation, generative images, creation, image and animation output technologies, video and audio recording, manipulation and production, and other forms of digital media assets that can be integrated into immersive media pipelines such as virtual reality, augmented reality, and other interactive forms. In working collaboratively, student teams will use team and assest management processes and tools that reflects contemporary practices in the fields of art, design, software, and the creative industries.
Prerequisite: Minimum grade of C- in IMDM227 and ARTT255.
Restriction: Restricted to Immersive Media Design Students.

IMDM298 Selected Topics in Immersive Media (1-3 Credits)
Selected topics in current and emerging areas of immersive media.
Restriction: Permission of IMDM - Immersive Media Design program.
Repeatable to: 6 credits if content differs.

IMDM327 Computational Virtual Reality (3 Credits)
Introduction to mechanisms and programming for virtual reality, augmented reality, and related technologies. Covers elements of a standard VR system, including creating, managing and rendering visual and audio VR content, tracking orientation and positions of head mounted display (HMD) and controller, rendering stereo imagery for VR headsets, and implementing approaches for user interactivity.
Prerequisite: Minimum grade of C- in IMDM227 and CMSC132.
Restriction: Must be in the Immersive Media Design, Computing program; or Permission of IMDM - Immersive Media Design program.

IMDM350 Advanced Digital Media Theory (3 Credits)
Advanced theories and concepts pertinent to the fields of immersive media design, new media art, design, and cultural technology. Also looks at ways in which contemporary societal norms are being shaped by game culture, social and mobile media, AR/VR escapism, network aesthetics, hacktivism, open-source culture, neural networks, artificial intelligence, and machine learning, among others. This course addresses the broad range of ways in which the accelerating pace of technological advances influence how we mediate the world around us and examines the environmental, social, political, and ethical implications of its use.
Prerequisite: Minimum grade of C- in IMDM150.
Restriction: Must be in the Immersive Media Design, Emerging Creatives program; or Permission of IMDM - Immersive Media Design program.

IMDM390 Collaborative Studio II: Experiential Computing (3 Credits)
A concept-driven, team-based collaborative studio course connecting inquiry, knowledge, and practice. Students will work together to create experiential works of immersive media. This course moves beyond the technical applications of software and emphasizes innovative thinking, social engagement, and problem-solving. Student teams will draw upon their unique skills to create works that participants can inhabit in a way that can only be achieved using new and emerging technologies. The process starts with small-scale "sketch" creation and evolves into larger-scale compelling works of immersive media. Teams will need to organize research methods and goals, engage in production, and explore how to communicate, display, and document their work. As projects develop, feedback will be provided through periodic presentations, peer-critique sessions, and instructor reviews.
Prerequisite: Minimum grade of C- in IMDM290.
Restriction: Must be in the Immersive Media Design program or Permission of IMDM - Immersive Media Design program.

IMDM398 Special Topics in Immersive Media Design (1-3 Credits)
Seminar course covering special topics in current and emerging areas of Immersive Media Design.
Restriction: Restricted to Immersive Media Design majors with 60 credit hours completed; and permission of Immersive Media Design program.
Repeatable to: 6 credits if content differs.

IMDM399 Independent Study (1-3 Credits)
A directed study in specific readings or topics selected by a student under faculty supervision.
Prerequisite: 6 credits in IMDM courses.
Restriction: Permission of IMDM-Immersive Media Design.
Repeatable to: 6 credits if content differs.

IMDM490 Senior Capstone I (3 Credits)
The first course in a two-semester senior capstone sequence. During IMDM490 students will research, design and prototype a large-scale immersive media design project, in preparation for fully implementing and exhibiting the project in IMDM491 Capstone II. Students will have the opportunity to apply design and technical skills they have acquired in previous courses as well as focus on the organizational and production skills needed for a substantial, longer term project to achieve an artistic or technical goal.
Prerequisite: Minimum grade of C- in IMDM290.
Restriction: Must be in Immersive Media Design major Computing or Emerging Creatives track; and must have earned a minimum of 86 credits.

IMDM491 Senior Capstone II (3 Credits)
The second course in a two-semester senior capstone sequence. During IMDM491 students will continue to design, prototype and realize a large-scale immersive media design project intended for public exhibition. In doing so, students will adapt and improve their project in response to critical feedback from instructors and peers, to find an exhibition venue, and to market the project through public relations, social networking, and other strategies of promotion.
Prerequisite: Minimum grade of C- in IMDM490.
Restriction: Must be in the Immersive Media Design program.

IMDM498 Special Topics in Immersive Media (1-3 Credits)
Special topics in current and emerging areas of Immersive Media Design.
Restriction: Permission of Immersive Media Design program.
Repeatable to: 9 credits if content differs.

IMDM499 Independent Undergraduate Research (1-3 Credits)
Directed research under the supervision of a faculty member in immersive media. Students and supervising faculty member will agree to a research plan which must be approved by the department. As part of each research plan, students should produce a final paper on their research.
Restriction: Must be in one of the following programs (Immersive Media Design: Computing, Immersive Media Design: Emerging Creatives); and Permission of IMDM-Immersive Media Design.
Repeatable to: 6 credits.

IMMR - Immigration Studies

IMMR200 Introduction to Immigration and Migration Studies (3 Credits)
Introduces concepts and theoretical interpretations about the causes of international migration; provides an historical overview of the main flows of immigration to the U.S.; analyzes economic, political, social, and cultural aspects that impact the immigrants' settlement process.

IMMR219 Special Topics in Immigration and Migration Studies (3 Credits)
Thematic exploration of a topic in immigration or migration studies history at an introductory level withemphasis on understanding how the movement of people is relevant in the contemporary world.
Repeatable to: 6 credits if content differs.

IMMR219C Immigration Policy, Immigrant Lives (3 Credits)
An examination of the phenomenon of international migration, or immigration. Students develop awareness of how immigration has been framed in the general public and examined by social science disciplines, most prominently anthropology. Examination of case studies of different immigrant groups in distinct geographic contexts will illuminate the varied incorporation experiences of immigrants into U.S. society.
Cross-listed with: ANTH264.
Credit Only Granted for: ANTH264 or IMMR219C.

IMMR319 Special Topics in Immigration and Migration Studies (3 Credits)
Thematic exploration of a topic in immigration or migration studies with emphasis on understanding how the movement of people is relevant in the contemporary world.
Repeatable to: 6 credits if content differs.

IMMR394 Growing Up Asian American: The Asian Immigrant Family and the Second Generation (3 Credits)
An interdisciplinary course examines the experiences of children of Asian immigrants in the U.S., focusing on intergenerational dynamics in the Asian immigrant family, their intersections with race, gender, class, sexuality, and religion, and how these shape second-generation Asian American life. Topics include identity and personhood, the model minority myth and education, work and leisure, language and communication, filiality and disownment, mental health and suicide.
Cross-listed with: AAST394, AMST324.
Credit Only Granted for: AAST394, AAST398E, AMST324, AMST328V, IMMR319G or IMMR394.
Formerly: AAST398E.

IMMR399 Internship in Immigration/Migration Studies (1-6 Credits)
Internship experience with an organization that works with or studies migration or immigrant populations. This experiential learning course provides training that enriches the students' academic field of study and the IMMR transcript notation. Students submit a final written report of how the experience ties into their major field of study.
Prerequisite: HIST222, IMMR200, or IMMR400; and permission of the Center for Global Migration Studies required.
Restriction: Minimum cumulative GPA of 2.5; and must have earned a minimum of 60 credits.
Repeatable to: 6.0 credits if content differs.
Additional Information: This course is intended primarily for students seeking the Immigration and Migration Studies transcript notation, but exceptions will be considered for students with educational or career interests that lie in this area. Student internships must be approved by the Executive Director of the Center for Global Migration Studies. Students must secure an appropriate faculty mentor for the internship course. An internship course will be approved only if a faculty supervisor is available.

IMMR400 Vital Voices: Oral Histories of the Immigrant Experience (3 Credits)
An exploration of the dynamic subject of U.S. immigrant experience through the scope of individual immigrant life stories in a global context. Course will include an overview of U.S. and global immigration patterns and an introduction to the practice of oral history.
Recommended: HIST222; or IMMR200.
Credit Only Granted for: HIST428N, IMMR400, THET428I, or THET498V.
Formerly: HIST428N.

IMMR419 Special Topics in Immigration and Migration Studies (3 Credits)
Thematic exploration of a topic in immigration or migration studies history with emphasis on understanding how the movement of people is relevant in the contemporary world.
Repeatable to: 6 credits if content differs.

INAG - Institute of Applied Agriculture

INAG100 Introduction to Plant Science (4 Credits)
A general introduction to plant science designed to provide the students with a working knowledge of the fundamental structures and processes of plants. Content includes plant anatomy, physiology, genetics and environmental relationships.
Restriction: Must be a student in the Institute of Applied Agriculture; or permission of AGNR-Institute of Applied Agriculture department.
Credit Only Granted for: INAG100, PLSC100, PLSC101, PLSC110 or PLSC112.

INAG102 Agricultural Entrepreneurship (3 Credits)
This course introduces fundamental concepts related to launching a profitable agricultural business. Topics include idea generation, opportunity recognition, conducting feasibility studies, assembling the entrepreneurial team, and financing the new venture, among others. Students will learn knowledge and skills relevant to starting a new agricultural business.
Restriction: Must be in a major in AGNR-College of Agriculture & Natural Resources; or permission of AGNR-Institute of Applied Agriculture department.
Additional Information: Priority in enrollment will be given to students within the Institute of Applied Agriculture. May not count toward any BMGT major or minor requirement.

INAG103 Agricultural Marketing (3 Credits)
Principles of market demand are used to develop a consumer oriented market strategy for agricultural businesses. Topics include market structures, target marketing, market segmentation, niche marketing and direct marketing. Market concepts unique to agriculture products are also covered.
Restriction: Must be in a major in AGNR-College of Agriculture & Natural Resources; or permission of AGNR-Institute of Applied Agriculture department.
Additional Information: Priority in enrollment will be given to students within the Institute of Applied Agriculture. Course cannot be used to fulfill a requirement for a Robert H. Smith School of Business major or minor.

INAG105 Soils and Fertilizers (3 Credits)
Soils and Fertilizers is an introductory course for students entering careers related to applied agricultural production. The course is divided into three subject areas: soil properties, soil fertility, and environmental concerns of using soils for agricultural production. Emphasis is placed upon the characteristics of Maryland soils which are similar to the soils in the mid-Atlantic region. The importance of nutrient management and non-point source pollution of the Chesapeake Bay are covered in the course.
Restriction: Must be in a major in AGNR-College of Agriculture & Natural Resources; or permission of AGNR-Institute of Applied Agriculture department.

INAG106 Pesticide Use and Safety (2 Credits)
An overview of pesticide use and safety. Topics include environmental protection, labeling, personal safety, first aid, formulation and chemistry, equipment, disposal, storage, record-keeping and liability. The course prepares students to take the Maryland State test for a private applicator's license.
Restriction: Must be in a major in AGNR-Institute of Applied Agriculture department; or must be in a major in AGNR-College of Agriculture & Natural Resources; or permission of AGNR-Institute of Applied Agriculture department.
Additional Information: Priority enrollment will be given to students in the IAA program or to students in the College of Agriculture and Natural Resources (AGNR).

INAG110 Oral Communication (3 Credits)
A study of how perception, self-concept, and verbal and nonverbal communications affect the communication process as it emerges in the workplace. The course provides skill training in speech writing, public speaking, group communication, interpersonal communication, listening, and responding.
Credit Only Granted for: COMM107, COMM200, INAG110, JOUR130, THET285.

INAG123 People, Planet, and Profit: Digging Into Sustainable Agriculture (3 Credits)
Is it possible for agricultural producers to make a living and feed the world nutritious, culturally inclusive food while protecting--or even restoring--the environment? This course investigates the principles and practices of sustainable agriculture and their relationship to the greater food system. We will explore the social (people), environmental (planet), and economic (profit) impacts of agriculture - from challenges to opportunities. INAG123 applies the principles of sustainability to various agricultural production practices and systems - at a range of different scales - to see what lessons these varied models can offer. Along the way, we will consider domestic issues such as food safety and distribution, food justice, cultural relevance, biodiversity, farming communities, and effects on local economies.

INAG131 Introduction to Agricultural Policy and Communication (3 Credits)
Introduction to Agricultural Policy and Communication equips students with the knowledge and skills needed to engage in real-world communication around timely issues in agriculture. This course covers basics of United States government and the policymaking process, current and historical policy issues in agriculture, advocacy communication strategies and tactics, and careers in policy and advocacy. This course focuses on practical skills application, as well as exposure to government and advocacy work in action, including field trips and guest speakers. Throughout the course, students will learn and practice communication methods both individually and in team-directed agriculture-related projects.
Restriction: Must be a student in the Institute of Applied Agriculture; or must be in a major in AGNR-College of Agriculture & Natural Resources; or permission of AGNR-Institute of Applied Agriculture department.

INAG132 Agricultural Leadership and Teamwork (3 Credits)
Introduces fundamental concepts related to leadership and teamwork in agricultural organizations. Topics include leadership practices and skills; relationships between leadership, authority, power, and ethics; team decision-making and management; and organizational culture and change. Students will develop effective leadership skills necessary for leading agricultural organizations.
Restriction: Students at the Institute of Applied Agriculture (IAA); or students at the College of Agriculture and Natural Resources (AGNR); or permission may be granted to other students based on available space.

INAG201 Agricultural Human Resources Management (3 Credits)
The course introduces students to the study and application of the basic principles of human relations and personnel management. A variety of approaches to recruiting, training, delegating, motivating, and appraising employees are among the topics discussed.
Restriction: Must be in a major in AGNR-College of Agriculture & Natural Resources; or permission of AGNR-Institute of Applied Agriculture department.
Additional Information: May not count toward any BMGT major or minor requirement.

INAG203 Agricultural Finance (3 Credits)
This course introduces fundamental concepts related to the financial management of an agricultural business. Topics include financial statement analysis, financial planning, the relationship between risk and return, the time value of money, costs associated with borrowed funds, sources of capital, financial markets and intermediaries in agriculture, and personal finance, among others. Students will gain financial knowledge and skills necessary for managing a profitable agricultural business.
Restriction: Students at the Institute of Applied Agriculture (IAA); or students at the College of Agriculture and Natural Resources (AGNR); or permission may be granted to other students based on available space.
Additional Information: Course cannot be used to fulfill a requirement for a Robert H. Smith School of Business major or minor.

INAG204 Agricultural Business Management (3 Credits)
This course integrates various concepts related to managing a profitable agricultural business. Topics include business management and decision making, preparing a business plan, financial analysis and budgeting, risk and investment management, and small business taxes, among others. Students will gain relevant knowledge and skills as they complete the comprehensive business plan for successfully managing an agricultural business.
Recommended: INAG102.
Restriction: Must be in a major in AGNR-College of Agriculture & Natural Resources; or permission of AGNR-Institute of Applied Agriculture department.
Additional Information: Priority in enrollment will be given to students within the Institute of Applied Agriculture. May not count toward any BMGT major or minor requirement.

INAG205 Analyzing Alternative Enterprises (3 Credits)
This course identifies and analyzes alternative crops, livestock, and other agricultural business enterprises. Students assess sustainability, geographic adaptability and potential profitability of businesses through lectures, class projects, and presentations from farmers, entrepreneurs, and managers engaged in alternative enterprises. Topics may include value added approaches, organic crop production, and recreational agricultural pursuits.
Restriction: Must be in a major in AGNR-College of Agriculture & Natural Resources; or permission of AGNR-Institute of Applied Agriculture department.
Additional Information: Priority in enrollment will be given to students within the Institute of Applied Agriculture.

INAG206 Agricultural Business Law (3 Credits)
This course introduces various legal concepts and their relationships to agricultural business and transactions. Topics include torts, criminal law, contracts, promissory notes, property, partnerships, business entities, employment, and bankruptcy, among others. Students will gain a general understanding of the legal system that will help them manage and/or operate profitable agricultural businesses.
Restriction: Students at the Institute of Applied Agriculture (IAA); or students at the College of Agriculture and Natural Resources (AGNR); or permission may be granted to other students based on available space.
Additional Information: Course cannot be used to fulfill a requirement for a Robert H. Smith School of Business major or minor.

INAG207 Power and Machinery (4 Credits)
The basic principles of compact equipment management, including selection, maintenance, operation, adjustment and troubleshooting of agricultural machinery and power units. Covers methods of power development, measurement, and transmission, through power trains both mechanical and hydraulic. Each student will complete a systematic disassembly, analysis, diagnosis and reassembly of a small engine.
Prerequisite: INAG250 or PLSC204.
Restriction: Must be in a major within the AGNR-Institute of Applied Agriculture department; or permission of AGNR-Institute of Applied Agriculture department.
Additional Information: Priority will be given to IAA students and permission will be granted to AGNR students and others on a space available basis.

INAG208 Understanding Turfgrass: Preparation for Intercollegiate Turfgrass Competitions (1 Credit)
This course reinforces students' understanding of turf agronomic and integrated pest management principles of turfgrass management. This class is designed to prepare students for intercollegiate turf science competitions: the Golf Course Superintendents Association of America Turf Bowl and the Sports Field Managers Association Student Challenge. While the basic content areas in the course schedule will remain the same, this course will be tailored each year to reflect current trends in the turf industry.
Restriction: Must be in the Institute of Applied Agriculture; or must be in a major in the College of Agriculture and Natural Resources; or by permission of the department.
Repeatable to: 4 credits.

INAG213 Crop Production Practices (3 Credits)
Crop Production Practices covers the applied methods of producing various vegetable and agronomic crops in Maryland. This course focuses on commercial scale production where economics impact production decisions. Topics include crop rotation, cropping systems, nutrient management, and integrated pest control strategies. Throughout the course, economically, socially and ecologically sustainable production practices will be addressed.
Restriction: Must be in a major in AGNR-College of Agriculture & Natural Resources; or permission of AGNR-Institute of Applied Agriculture department.
Additional Information: Priority in enrollment will be given to students within the Institute of Applied Agriculture.

INAG214 Agronomic Principles of Golf Turf Management (3 Credits)
An in-depth study of golf course management practices such as turfgrass selection, fertilization, mowing, irrigation, and cultivation practices. Weed control programs will be discussed in detail for the different playing surfaces on the golf course. Field plot work, laboratory work, and field trips will reinforce lecture material.
Recommended: INAG107; or PLSC305.
Restriction: Must be in a major within the AGNR-Institute of Applied Agriculture department; or must be in one of the following programs (Plant Sciences; Plant Sciences: Horticulture & Crop Production; Plant Sciences: Landscape Management; Plant Sciences: Plant Science; Plant Sciences: Turf & Golf Course Mgmt; Plant Sciences: Urban Forestry) ; or permission of instructor.
Additional Information: Enrollment priority is given to students within the Institute of Applied Agriculture (IAA) and the Plant Science and Landscape Architecture Department.

INAG215 Business Management Principles for Turf Facilities (3 Credits)
An advanced course in turfgrass management with emphasis on development of maintenance operating budgets for labor, fertilization, pest control, and supplemental cultural practices for golf courses and athletic field facilities. An overview of the current trend in golf course design and construction and in athletic field construction practices will be covered. Students will be responsible for a presentation concerning some phase of turfgrass management relating to golf course or athletic field operations.
Recommended: INAG107; or PLSC305.
Restriction: Must be in a major within the AGNR-Institute of Applied Agriculture department; or must be in one of the following programs (Plant Sciences; Plant Sciences: Horticulture & Crop Production; Plant Sciences: Landscape Management; Plant Sciences: Plant Science; Plant Sciences: Turf & Golf Course Mgmt) ; or permission of AGNR-Institute of Applied Agriculture department.
Additional Information: Enrollment priority is given to students majoring in Turfgrass and Golf Course Management in the Institute of Applied Agriculture and Plant Science and Landscape Architecture.

INAG224 Greenhouse and Plant Production Management (3 Credits)
Principles of managing greenhouses--structures, coverings, lighting, irrigation, heating and cooling systems--and their effects on plant production. Plant propagation methods and environments will be analyzed and practiced.
Restriction: This course is open to students in AGNR. Priority enrollment will be given to students in the Institute of Applied Agriculture. All other majors will be granted permission based on available space.
Credit Only Granted for: INAG 114 or INAG 224.

INAG226 Diseases of Ornamentals and Turf (3 Credits)
The course will cover various topics such as plant pathology, disease control practices, and an in depth coverage of the major diseases of ornamentals and turfgrasses in the Mid-Atlantic region. Emphasis will be placed on identification of disease signs and symptoms. Over 50 diseases will be covered during the semester.
Recommended: Completion of one of the following is recommended: PLSC 253, PLSC 254, INAG 107, PLSC 305.
Additional Information: Priority in enrollment will be given to students within the Institute of Applied Agriculture.

INAG231 Insects of Ornamentals and Turf (3 Credits)
A study of the major insect pests and beneficial insects of ornamental plants and turfgrasses in the Mid-Atlantic region. The student will be responsible for insect identification, life history, and control practices of approximately 100 insects. An insect collection consisting of both insect pests and beneficial insects is required.
Recommended: PLSC253, PLSC254, or PLSC305; or INAG107.
Restriction: Must be in a major in AGNR-College of Agriculture & Natural Resources; or permission of AGNR-Institute of Applied Agriculture department.
Additional Information: Priority enrollment will be given to students in the IAA program.

INAG235 Irrigation and Drainage (3 Credits)
An overview of U.S. and state water doctrines and plant water use rates. Irrigation systems for residential and athletic field use will be discussed covering such topics as hydraulics, sprinkler spacing, pipe selection and sizing, pumps, controllers, valves, and irrigation trouble shooting. Surface and subsurface drainage for turfgrass sites will also be covered.
Restriction: Must be in a major within the AGNR-Institute of Applied Agriculture department; or must be in a major in AGNR-College of Agriculture Natural Resources; or permission of AGNR-Institute of Applied Agriculture department.
Credit Only Granted for: INAG235 or PLSC235.
Additional Information: Priority enrollment will be given to IAA and PLSC majors. By permission for available seats.

INAG237 GPS & Drone Applications in Surveying (3 Credits)
The principles of land measurement using Global Positioning System (GPS) devices and Unmanned Aerial Vehicles (UAVs--i.e. drones) to collect data and generate maps. Students will use Pix4D and Trimble TerraFlex software to post-process collected data and learn how we can use this data to make informed land management decisions. Students will also be prepared to successfully earn their Part 107 Commercial Drone Pilots License as part of the course.
Restriction: Must be an Institute of Applied Agriculture student; or permission of the Institute of Applied Agriculture.
Additional Information: Course is open to Institute of Applied Agriculture students and permission will be granted to other students based on available seats, with priority given to students from majors in the College of Agriculture and Natural Resources.

INAG242 Golf Course Design and Construction (3 Credits)
An appreciation and understanding of the game of golf is obtained through lectures on the history, organizations, and rules of the game. Golf course design theories, great architects and their courses, and construction specifications are discussed. Students will complete two golf course design projects.

INAG244 Herbaceous Plants (3 Credits)
Herbaceous plants are integral components of residential and commercial landscapes. Students will become familiar with 250 annual and perennial plants. The emphasis will be on plant management requirements and seasonal variation in the landscape.
Restriction: Must be in a major within the AGNR-Institute of Applied Agriculture department; or must be in a major in AGNR-College of Agriculture & Natural Resources; or permission of AGNR-Institute of Applied Agriculture department.
Credit Only Granted for: INAG244 or PLSC244.

INAG248 Topics in Sustainable Agriculture (2 Credits)
Through readings, class discussions, and guest speakers, this seminar course exposes students to current trends, concerns and research in sustainable agriculture and food systems. It allows students to explore various interest areas and discuss a variety of topics as they relate to sustainable practices.
Recommended: INAG123.
Repeatable to: 2 credits if content differs.
Additional Information: The topics covered in this course change every year, guided by student interest, current research, and availability of guest speakers.

INAG250 Fundamentals of Agricultural Mechanics (4 Credits)
Comprehensive coverage of the fundamentals of agriculture-related mechanics. Lecture and lab exercises will cover a broad range of topics including electricity, plumbing, welding processes, and wood and metal working applications. Emphasis will be given to the design and installation of electrical circuits. It will also include project planning and implementation, including development of safety protocols for each area of study.
Restriction: Must be in a major in AGNR-College of Agriculture & Natural Resources, OR Permission of AGNR-Institute of Applied Agriculture Department.
Credit Only Granted for: PLSC204 or INAG250.
Additional Information: Priority given to IAA majors and AGNR students whose major requires this course. Permission will be granted to other students on seats available basis.

INAG251 Landscape Construction (3 Credits)
An introductory course in the basics of hardscape topics in landscape construction. Covers fundamental construction layout using surveying techniques; GPS; elements of construction dealing with wood, concrete, masonry, pavers, and/or electrical amenities used in hardscape construction. Emphasis will be placed on safety, interpretation of construction drawings or plans, specifications for specific structures, materials selection, cost estimations, site preparation and typical construction techniques.
Prerequisite: INAG250 or PLSC204.
Restriction: Must be in a major in AGNR-College of Agriculture & Natural Resources.
Additional Information: Priority enrollment is given to Landscape Management majors in the Institute of Applied Agriculture.

INAG252 Agricultural Public Relations (3 Credits)
Introduces the fundamental concepts and procedures of public relations in agriculture. Topics include understanding external audiences; key practices in agricultural media relations, social media, executive communication, and crisis communication; and managing the research, planning, and evaluation aspects of the public relations process. Students will gain the public relations knowledge and skills necessary for communicating effectively with an organization's external audiences.
Recommended: INAG103.

INAG253 Agricultural Strategic Communication (3 Credits)
Introduces the fundamental concepts and applications of strategic communication in agricultural organizations. Topics include strategic communication planning; communication and culture; communication and change; managing internal and external communication; and corporate responsibility. Students will learn how to use communication to accomplish organizational goals.
Recommended: INAG252.

INAG272 Principles of Arboriculture (3 Credits)
The establishment and maintenance of healthy trees in an urban setting will be studied. Lectures will focus on the environmental constraints to tree development in the city, and the role of physiological processes in regulating tree vigor. Laboratory exercises will cover the unique aspects of urban soils, tree valuation procedures, pruning and training, and supervised climbing.
Cross-listed with: PLSC272.
Credit Only Granted for: INAG272 or PLSC272.

INAG288 Internship (1 Credit)
On-site internship training in the student's major area of study. Students must complete a minimum of 320 working hours at an approved work site. Course work also includes weekly written assignments and a site visit assessment.
Restriction: Must be enrolled in the Institute of Applied Agriculture; or permission of the Institute of Applied Agriculture.
Repeatable to: 2 credits.

INAG289 Internship Experience & Professional Development (3 Credits)
Professional development and reflective analysis of the experience from the Practicum (INAG 288). Based on their 320-hours of internship work experience, students will write an internship report and analysis, deliver an oral presentation, and develop professional skills and materials needed to enter their careers.
Prerequisite: INAG288.
Restriction: Must be enrolled in the Institute of Applied Agriculture students; or permission of the Institute of Applied Agriculture.

INST - Information Studies

INST101 Bits and Bytes of Computer and Information Sciences (1 Credit)
Students are introduced to the fields (and disciplines) of computer science and information science within a small classroom setting. They will learn to make a successful transition from high school to the university, while exploring study skills, student success plans and research opportunities.
Cross-listed with: CMSC100.
Restriction: For first time freshmen and first time transfer students; or permission of CMNS-Computer Science department.
Credit Only Granted for: CMSC100 or INST101.

INST104 Design Across Campus (3 Credits)
What is design, who does it, and how is it done? There is no one answer to this question--it depends on who you ask. The answers to these questions vary across disciplines and across the University campus. This course, designed with modules from contributors in UMD programs including Information Studies, Human-Computer Interaction, Graphic Design, Immersive Media Arts, Journalism, Architecture, Landscape Architecture, Engineering, and Policy, will introduce students to the goals and values, approaches, skills, and practices of diverse fields of design. It will enable students to identify grand challenges in design and serve as a sorting hat to help students find a design practice that matches their own values, approaches, skills and goals.

INST123 Databases for All (3 Credits)
An introduction to relational databases for students with no previous programming experience. Provides a means for students of diverse backgrounds to successfully learn how to store, retrieve, and maintain data in relational databases. Topics include a brief comparison of database systems with an emphasis on relational databases, fundamental relational database concepts, and data types. Includes technical approaches to accessing information stored in relational databases.
Restriction: Must not have completed or be currently taking INST327 or BMGT402.

INST126 Introduction to Programming for Information Science (3 Credits)
An introduction to computer programming for students with very limited or no previous programming experience. Topics include fundamental programming concepts such as variables, data types, assignments, arrays, conditionals, loops, functions, and I/O operations.
Prerequisite: Math placement of STAT100 or higher.
Restriction: Must not have completed INST326; and must be in Information Science, Technology and Information Design, or Social Data Science programs.

INST127 Introduction to Programming for Information Science Lab (1 Credit)
Laboratory component of INST126, Introduction to Programming for Information Professionals, is designed to complement the lecture and provide structured exercises and activities for students to practice and develop programming skills. INST 126 is an introduction to computer programming for students with very limited or no previous programming experience. Topics include fundamental programming concepts such as variables, data types, assignments, arrays, conditionals, loops, functions, and I/O operations.
Corequisite: INST126.

INST151 Becoming A Social Media Influencer (3 Credits)
Teaches students how to create, grow, and manage influential social media accounts. Topics will include tools for content creation, analyzing and strategizing with analytics, building community, and defining their niche and approach.
Credit Only Granted for: INST408N or INST151.
Formerly: INST408N.

INST152 "Fake Checking": Battling Misinformation and Disinformation in the Real World (3 Credits)
Examining the phenomenon of "fake news" using the principles of information literacy, students will develop their skills in locating, analyzing, and evaluating different information sources -- in the classroom, in their personal lives, and in the workplace.

INST153 Records Scandals & Data Vandals: Public & Private Sector Controversies Ripped From The Headlines (3 Credits)
Expressly organized around case studies about well-known individuals and organizations involved in scandals and controversies that have generated headlines around the world. It places these events in a larger historical, legal, technological, ethical and societal context. Drawing upon contemporaneous records in a variety of media, as well as presentations from invited speakers representing the greater archival, historical, and public interest communities, the course seeks to deepen students' appreciation of the role that records and information plays in issues going to the heart of government transparency, corporate accountability, and social justice.

INST154 Apollo at 50 (3 Credits)
Examines Apollo mission, one of the greatest engineering accomplishments of all time, in which Neil Armstrong walked on the moon. Since the mission, people have asked: if we can land on the moon, why can't we eliminate poverty? Why can't we cure cancer? Why can't we prevent global warming? Asks what were the social, political, financial, scientific, engineering, operational, and human aspects of the Apollo program that came together to make the moon landings possible?

INST155 Social Networking (3 Credits)
Introduces methods for analyzing and understanding how people use social media - social networking websites, blogging and microblogging, and other forms of online interaction and content generation - and their societal implications. Introduces students to the science and social science of network analysis. Through real world examples, including analysis of their own social networks, students develop skills for describing and understanding the patterns and usage of services like Facebook, Twitter, YouTube, and others.
Credit Only Granted for: INFM289I or INST155.
Formerly: INFM289I.

INST156 How NASA Sees the Earth (3 Credits)
The world of Earth science data is complex and can be overwhelming with a wide range of data sources and formats, hefty downloads and the need for complicated analytical tools. To make use of enormous volumes of available data and geoinformation products, one has to know where and how to search and obtain the data, how to analyze the data, and how to extract useful information and knowledge. In this course, you will learn about the state-of-the-art Web-based tools that allow you to efficiently display and analyze a large number of datasets in a way many professionals working in the Earth science domain would. You will learn how to visualize multiple Earth science datasets produced by NASA in a variety of ways directly on the Internet, without the need to download, manage and store them. Students will be introduced to comprehensive functions to analyze the data and generate customized maps, animations, multi-variable correlations, regional subsetting, etc.
Cross-listed with: GEOG156.
Credit Only Granted for: GEOG156 or INST156.

INST201 Introduction to Information Science (3 Credits)
Examining the effects of new information technologies on how we conduct business, interact with friends, and go through our daily lives. Understanding how technical and social factors have influenced the evolution of information society. Evaluating the transformative power of information in education, policy, and entertainment, and the dark side of these changes.
Credit Only Granted for: INST201 or INST301.
Formerly: INST301.

INST204 Designing Fair Systems (3 Credits)
Reviews how specific values are built into different automated decision-making systems as an inevitable result of constructing mechanisms meant to produce specific outcomes. These values create differential outcomes for the different people enmeshed in these systems, but both these values and these systems can be changed to support different values and different outcomes. The class serves as an introduction to the emerging field of algorithmic bias that bridges the disciplines of information science, computer science, law, policy, philosophy, sociology, urban planning, and others.
Credit Only Granted for: INST208D or INST204.
Formerly: INST208D.

INST208 Special Topics in Information Studies (1-6 Credits)
Covers special topics in information studies.
Repeatable to: 9 credits if content differs.

INST210 The Nuts & Bolts of Getting Hired (1 Credit)
Have you thought about finding an internship, getting a job, or starting your career? Perhaps you're confused about how to begin. Welcome to The Nuts and Bolts of Getting Hired, where you'll learn the skills necessary to develop your professional tool kit and obtain the internship or job that can help you build the career you want. This course will help you prepare for the next step in your career by exploring the following topics: Identifying your career goals, mastering the skills of crafting a professional resume, effective interviewing, strategic networking, and professional communication.
Restriction: Must be in the Information Science program, Technology and Information Design program, or Social Data Science program.
Credit Only Granted for: INST208C or INST210.
Formerly: INST208C.

INST227 Fundamentals of Academic Peer Mentoring in Information Studies (1 Credit)
Students will be exposed to scholarship of teaching and learning in support of developing applied skills to support active learning as an iSchool academic peer mentor. Students will learn to effectively coach and support the performance of other people. Guided online and face-to-face participation will culminate in a portfolio of teaching activities and professional development.
Restriction: Permission of the College of Information Studies.

INST228 Academic Peer Mentor Experience in Information Science (1-3 Credits)
Students who are participating in instructional activities for undergraduate courses offered by the College of Information Studies, or by faculty members of the College through other units, can take this course to earn course credit for their AMP work.
Prerequisite: Must have completed or be concurrently enrolled in TLTC333.
Restriction: Permission of INFO-College of Information Studies required.
Repeatable to: 6 credits if content differs.
Formerly: INST208M.

INST232 Health Justice: Investigating the Roles of Information in Preventing & Addressing Health Disparities (3 Credits)
How do we ensure that every individual has the information they need to live a long and healthy life? In this course, we explore health justice - the conviction and enactment of the idea that every person is morally entitled to a fair and sufficient capability to be healthy. We especially focus on the ways in which information-related factors, such as people's access to health information, their strategies for seeking (or avoiding) health information, and their health and digital health literacy, contribute to health (in)justice. Our goal in this class is to promote health justice for all by identifying information-related solutions that will help to facilitate people's access to health information and improve their abilities to find, assess, and make use of information to optimize their own and others' health.
Restriction: Must be a student in the Health Justice Carillon Community.

INST301 Introduction to Information Science (3 Credits)
Examining the effects of new information technologies on how we conduct business, interact with friends, and go through our daily lives. Understanding how technical and social factors have influenced the evolution of information society. Evaluating the transformative power of information in education, policy, and entertainment, and the dark side of these changes.
Restriction: Must be in Information Science program; and restricted to students in the Information Science Program on the Universities at Shady Grove campus.
Credit Only Granted for: INST201 or INST301.

INST308 Education Abroad in Information Studies (1-3 Credits)
Covers special topics in information studies in education abroad settings.
Prerequisite: Minimum grade of C- in MATH115 or higher; minimum grade of C- in INST126; and 1 course with a minimum grade of C- from (PSYC100, SOCY105, BSOS233).
Restriction: Must be in the Information Science program, Technology and Information Design program, or Social Data Science program.
Repeatable to: 9 credits if content differs.

INST309 Independent Study in Information Science (1-3 Credits)
Individual independent study of an aspect of information science, selected according to student interest and need in consultation with a member of the iSchool faculty. Repeatable to 6 credits if content differs.
Prerequisite: Must have completed INST301

INST311 Information Organization (3 Credits)
Examines the theories, concepts, and principles of information, information representation and organization, record structures, description, and classification. Topics to be covered in this course include the methods and strategies to develop systems for storage, organization, and retrieval of information in a variety of organizational and institutional settings, as well as policy, ethical, and social implications of these systems.
Prerequisite: Minimum grade of C- in PSYC100 or SOCY105.
Restriction: Must be in the Information Science program.

INST314 Statistics for Information Science (3 Credits)
Basic concepts in statistics including measure construction, data exploration, hypothesis development, hypothesis testing, pattern identification, and statistical analysis. The course also provides an overview of commonly used data manipulation and analytic tools. Through homework assignments, projects, and in-class activities, you will practice working with these techniques and tools to create information resources that can be used in individual and organizational decision-making and problem-solving.
Prerequisite: Minimum grade of C- in INST126 or GEOG276; and minimum grade of C- in STAT100, and MATH115 (or higher).
Restriction: Must be in Information Science or Social Data Science program.

INST320 Leadership in Collaborative Learning Communities for Information Studies (3 Credits)
This course is the experiential learning component for student leaders selected by the College of Information Studies to facilitate Guided Study Sessions. Student leaders plan and facilitate study sessions that supplement courses by providing additional opportunities to engage with the material. In this course, student leaders will explore and apply evidence-based learning strategies while developing an understanding of how we learn. Throughout this course you will apply principles of teaching and learning, group facilitation, and leadership into the design of your guided study session.
Restriction: Must be in the Information Science, Technology and Information Design, or Social Data Science program; and permission of the INFO College.

INST326 Object-Oriented Programming for Information Science (3 Credits)
An introduction to programming, emphasizing understanding and implementation of applications using object-oriented techniques. Topics to be covered include program design and testing as well as implementation of programs.
Prerequisite: Minimum grade of C- in INST126 or GEOG276.
Restriction: Must be in Information Science or Social Data Science program.

INST327 Database Design and Modeling (3 Credits)
Introduction to databases, the relational model, entity-relationship diagrams, user-oriented database design and normalization, and Structured Query Language (SQL). Through labs, tests, and a project, students develop both theoretical and practical knowledge of relational database systems.
Prerequisite: Minimum grade of C- in INST126 or GEOG276.
Restriction: Must be in Information Science or Social Data Science program.
Credit Only Granted for: INST327 or BMGT402.

INST335 Organizations, Management and Teamwork (3 Credits)
Examines principles, methods and types of leadership with an emphasis on goal setting, motivation, problem solving, and conflict resolution. Examines principles of developing teams and managing team projects through planning and execution, including estimating costs, managing risks, scheduling, staff and resource allocation, communication, tracking, and control. Trains students to recognize and capitalize on opportunities to use information to increase efficiency, improve performance, and support innovation within teams and organizations. Focuses on strategic use of emerging technologies and new information resources to execute information-enabled change.
Prerequisite: 1 course with a minimum grade of C- from (INST201, INST301); and minimum grade of C- in PSYC100.
Restriction: Must be in Information Science program.

INST341 Introduction to Digital Curation (3 Credits)
Explores various dimensions and contexts for digital curation, which includes all activities involving the management, representation and preservation of both born-digital and digitized information. Focuses on opportunities, challenges and demands of every-increasing digital data and networked information infrastructure.
Prerequisite: Must have completed with a C- or higher, or be concurrently enrolled in INST311.
Restriction: Must be in Technology and Information Design or Information Science programs.

INST346 Technologies, Infrastructure and Architecture (3 Credits)
Examines the basic concepts of computer hardware, systems software, networking, client/server architectures, cloud computing, distributed systems, and high performance computing as applied to information rich domains. Technology and architectures will be discussed within the contexts of solving social issues, supportingscience, and conducting business operations. Current computing topics such as web environments, IoT, security, management, and policy will also be reviewed.
Prerequisite: Minimum grade of C- from INST201 or INST301; and minimum grade of C- in INST326 and INST327.
Restriction: Must be in the Information Science program; and must have earned a minimum of 60 credits.
Credit Only Granted for: INST346 or BMGT405.

INST347 Cloud Computing for Information Science (3 Credits)
What is cloud computing? Where does cloud computing occur? How can we use cloud computing to solve problems and create opportunities in information science? In this course, the foundations and operation of cloud computing, with a focus on information science applications, will be presented. Key cloud functions such as computing, storage, databases, and networking will be examined. Major cloud providers will be contrasted. The course will conclude with a practical application of cloud services to design and implement a cloud solution to a social, technical, or environmental problem.
Prerequisite: Minimum grade of C- in INST346.
Restriction: Must be in the Information Science major.

INST352 Information User Needs and Assessment (3 Credits)
Focuses on use of information by individuals, including the theories, concepts, and principles of information, information behavior and mental models. Methods for determining information behavior and user needs, including accessibility issues will be examined and strategies for using information technology to support individual users and their specific needs will be explored.
Prerequisite: Minimum grade of C- from INST201 or INST301; and minimum grade of C- in INST311.
Restriction: Must be in Technology and Information Design or Information Science programs.

INST354 Decision-Making for Information Science (3 Credits)
Examines the use of information in organizational and individual decision-making, including the roles of information professionals and information systems in informed decision-making through techniques such as data analysis and regression, optimization, sensitivity analysis, decision trees, risk analysis and business simulation models.
Prerequisite: Minimum grade of C- from INST201 or INST301; and minimum grade of C- in INST314 and PSYC100.
Restriction: Must be in the Information Science program.

INST362 User-Centered Design (3 Credits)
Introduction to human-computer interaction (HCI), with a focus on how HCI connects psychology, information systems, computer science, and human factors. User-centered design and user interface implementation methods discussed include identifying user needs, understanding user behaviors, envisioning interfaces, and utilizing prototyping tools, with an emphasis on incorporating people in the design process from initial field observations to summative usability testing.
Prerequisite: Minimum grade of C- from INST201 or INST301; and minimum grade of C- from PSYC100 or SOCY105; and minimum grade of C- in INST326 and STAT100.
Restriction: Must be in the Information Science program or Technology and Information Design program; and must have earned a minimum of 60 credits.

INST363 Fundamentals of Technology Innovation (3 Credits)
Introduces students to the fundamentals of technology innovation, and how leaders approach innovation in the information science field. The course explores approaches and perspectives on how to develop an individual's capabilities to be better at leading others in an innovative environment. Combining theory and practice, students will be introduced to problem solving and explore ways to become an exceptional innovation leader.
Restriction: Must be in the Technology Innovation Leadership Minor; or permission of INFO-College of Information Studies.
Credit Only Granted for: INST408T or INST363.
Formerly: INST408T.

INST364 Human-Centered Cybersecurity (3 Credits)
Cybersecurity is fundamentally a problem of human interaction with technology, but its technical challenges are better understood than its human challenges. This course is designed to give you an overview of human interactions with cybersecurity technology, from users to system designers. Using the information gleaned in this course, you should be able to make better predictions about how people react to cybersecurity policies and tools, and how those reactions shape organizational behavior. The earlier part of the course focuses on explanations for behavior, while the later parts of the course focus more on the development and evaluation of tools for assisting people in cybersecurity.
Prerequisite: Minimum grade of C- from INST201 or INST301; and minimum grade of C- in INST327, STAT100, MATH115, and PSYC100.
Restriction: Must be in the Information Science program; or must be in the Information Risk Management, Ethics, and Privacy Minor.

INST366 Privacy, Security and Ethics for Big Data (3 Credits)
Evaluates major privacy and security questions raised by big data, Internet of things (IoT), wearables, ubiquitous sensing, social sharing platforms, and other AI-driven systems. Covers history of research ethics and considers how ethical frameworks can and should be applied to digital data.
Prerequisite: Minimum grade of C- from INST126 or GEOG276; and minimum grade of C- in STAT100; and minimum grade of C- in one of the following (AASP101, ANTH210, ANTH260, ECON200, ECON201,GEOG202, GVPT170, PSYC100, SOCY100, or SOCY105).
Restriction: Must be in the Information Science, Technology and Information Design, or Social Data Science programs; or must be in the Information Risk Management, Ethics, and Privacy Minor.

INST367 Prototyping and Development Studio (3 Credits)
Covers interaction design--the process of defining products and the broad services built around them--and user experience research--how you determine what to design and how successful your design is. When interacting with systems, people build expectations and mental models of how things work, based upon their previous experience with similar products or processes, and the successful or unsuccessful nature of their interactions determines the success of your design. This course is about how to design for digital interactions that will resonate with your audiences (how the features and functions of a product get translated into something people find usable, useful, and desirable), and the research that goes on throughout that process (from contextual inquiry to evaluating the final product), with a particular emphasis on prototyping and iteration.
Prerequisite: Minimum grade of C- in INST380.
Restriction: Must be in the Technology and Information Design program.
Credit Only Granted for: INST398A or INST367.
Formerly: INST398A.

INST371 Teaching and Learning in Information Studies (3 Credits)
Introduces students to foundational theories and practices of teaching and learning, with an emphasis on how they intersect with ideas from the Information Sciences. Covers foundational theories related to teaching and learning, social and cultural dimensions of learning, designing for learning, evaluating educational technologies, and ways of creating equitable, effective, and accessible learning experiences. Students will design learning activities for others, analyze educational tools and technologies, and explore ways to help teach others about the big ideas of Information Science.
Prerequisite: Minimum grade of C- in INST201; and minimum grade of C- from PSYC100 or SOCY105.
Restriction: Must be in the Information Science program or Technology and Information Design program.

INST377 Dynamic Web Applications (3 Credits)
An exploration of the basic methods and tools for developing dynamic, database-driven websites, including acquiring, installing, and running web servers, database servers, and connectability applications.
Prerequisite: 1 course with a minimum grade of C- from (INST201, INST301, or BSOS233); and minimum grade of C- in INST327, STAT100, and MATH115 (or higher).
Restriction: Restricted to Information Science and Social Data Science.
Credit Only Granted for: INST377 or BMGT406.

INST380 Technology and Information Design: Do Good Now (3 Credits)
Climate change. Poverty. Racism. Pressing social issues are big, complex, and difficult. They can feel overwhelming to understand and impossible to address. You might care deeply about an issue, and want to make a difference, but don't know where to start. Sometimes you might not even try. This course will equip and empower you to delve deep into understanding a social issue of your choosing. Through course materials and activities, you'll try out your changemaker muscles and mindsets. Our goal is that this course will empower you to be an informed, engaged citizen who contributes to your community with and beyond your profession. Along the way, we'll address questions like, "What is social change?" and "What happens when our actions have unintended consequences?" We'll talk about the importance of understanding, empathy, agency, and community, and reflect on how these concepts relate to us as individuals.
Prerequisite: Minimum grade of C- in INST201, INST126, STAT100; minimum grade of C- from (PSYC100, SOCY105).
Restriction: Must be in the Technology and Information Design program.
Credit Only Granted for: ARHU380, BSOS388B, PLCY388D, or PLCY380.

INST381 Design Thinking for Visual Communication (3 Credits)
In an age where technology increasingly permeates our daily existence, there remain certain human qualities that machines cannot replicate: creativity, curiosity, and empathy. This course endeavors to delve into the dynamic relationship between the pillars of aesthetics and the core skills of Design Thinking (DT), all with the goal of enhancing the design process. Throughout the course, we will witness instances where DT bolsters Visual Communication (VC), and conversely, where VC lends its support to the DT process. Our exploration will revolve around three pivotal questions: How can we engage users and establish meaningful connections with them? How can we empathize with users' challenges and provide them with effective solutions? How can we embrace a holistic approach to design?
Prerequisite: Minimum grade of C- in PSYC100 or SOCY105; and minimum grade of C- in INST126, INST201, and STAT100; and minimum grade of C- in MATH115 or higher.
Restriction: Must be in the Technology and Information Design major.
Credit Only Granted for: INST398J or INST381.
Formerly: INST398J.

INST388 "Maker Movement" Approach to Computing (1 Credit)
Informed by the "maker movement," this course allows students to merge their personal interests and hobbies with computing. This course is great for students new to computing who want to explore real world applications, or for more advanced students wanting an opportunity to engage in depth with a niche topic.
Recommended: C- or higher in INST126 or comparable introductory programming course.
Repeatable to: 3 credits if content differs.

INST389 Supervised Internship in Information Science (1-3 Credits)
Course will provide students with the knowledge, skills, and experiences that will help shape their goals as they begin their successful high-impact Information Career. It will prepare them to work an in an environment in which suitability for high-status positions is not determined by specific skills, but rather by ability to take initiative in complex, dynamic situations. Students must have an internship arranged before enrolling.
Prerequisite: Minimum grade of C- in MATH115 or higher; minimum grade of C- in INST126 or GEOG276; and minimum grade of C- in (PSYC100, SOCY105, or BSOS233).
Restriction: Must be in the Information Science program, Technology and Information Design program, or Social Data Science program.
Repeatable to: 6 credits.

INST398 Special Topics in Information Studies (3 Credits)
Selected topics in information studies.
Prerequisite: Minimum grade of C- in STAT100 or MATH115 or higher; and minimum grade of C- in INST126 or GEOG276; and minimum grade of C- in (PSYC100, SOCY105, or BSOS233).
Restriction: Must be in the Information Science program, Technology and Information Design program, or Social Data Science program.
Repeatable to: 9 credits if content differs.

INST401 Design and Human Disability and Aging (3 Credits)
Focuses on the design of consumer products and information systems to enable their use by persons with a wider range of physical, sensory, and cognitive abilities. Overviews aging and major types of impairment as they relate to resulting problems using consumer products and information systems. Focuses on principles of design of mass market products.
Prerequisite: Minimum grade of C- from INST362 or INST367.
Restriction: Must be in Technology and Information Design or Information Science programs.
Credit Only Granted for: INST408B or INST401.
Formerly: INST408B.

INST402 Designing Patient-Centered Technologies (3 Credits)
Companies have created a vast array of apps and other technologies for understanding managing personal health and wellness, but many of them have been created with little understanding of audience needs or potential ethical issues. Course introduces students to the unique challenges of studying people's health and wellness needs as well as designing and evaluating technologies to meet those needs.
Prerequisite: Minimum grade of C- from INST362 or INST367.
Restriction: Must be in Technology and Information Design or Information Science programs.

INST403 Computational Journalism (3 Credits)
Designed to teach the application of computational methods in journalism and reporting. The methods include natural language processing, visualization, and web data mining. The course will also cover the necessity and impact of journalistic ethics in designing computation solutions.
Prerequisite: Permission of the Philip Merrill College of Journalism.
Cross-listed with: JOUR473.
Jointly offered with: JOUR773.
Credit Only Granted for: JOUR479V, JOUR473, INST408I or INST403.
Formerly: JOUR479V and INST408I.

INST405 Game Design (3 Credits)
Games are a structured form of play that are typically undertaken for recreational--but sometimes also educational and even professional--purposes. But what constitutes a successful game? In this course, you will learn the fundamentals of game design: applying elements and principles of game design, such as goals, rules, and challenges to create games, such as board games, card games, and digital games. You will be introduced to the basic tools and methods of game design: paper and digital prototyping, design iteration, design critique, and user testing. As part of the course, you will be designing several games of different types. You will also learn how to use your skills to deconstruct and critique the components of existing games, as well as gain an understanding of the role of the game designer in real-world game development teams.
Prerequisite: Minimum grade of C- in INST126, STAT100 or INST201; and minimum grade of C- from PSYC100 or SOCY105.
Restriction: Must be in the Information Science program or Technology and Information Design program.
Credit Only Granted for: INST408J or INST405.
Formerly: INST408J.

INST406 Cross Disciplinary Design Communication Lab (3 Credits)
Explores the world of communicating the ideas behind the things we make. In design, the product tends to be the prize: a manifestation of experience, sensibilities, and observations. But products do not always articulate a complete picture of what they are and how they came to be. Communication--speaking, writing, depicting, presenting to various audiences--is an under-leveraged component of design, connecting the product with emotion, process, context, and most importantly, the audience.
Prerequisite: Minimum grade of C- in INST380; and a minimum grade of C- in Professional Writing General Education requirement.
Restriction: Must be in the Technology and Information Design program.

INST407 Leading and Sustaining a Culture of Innovation (3 Credits)
Successful leaders know that the key to value creation and sustained growth lies in innovation -- continuously seeking opportunities to create value whether by launching new products and services, entering new markets, or rethinking key processes. This course will focus on the most efficient leadership strategies, change management, team motivation, technology team management for information management within organizations. We will examine some of the best ways to foster innovative behaviors within a team and organization. Students will engage with a course-long culture change challenge.
Restriction: Must be in Technology Innovation Leadership minor; or permission of INFO-College of Information Studies.
Credit Only Granted for: INST408L or INST407.
Formerly: INST408L.

INST408 Special Topics in Information Science (1-6 Credits)
Selected topics in information studies.
Prerequisite: Minimum of a C- from (STAT100, MATH115 or higher); minimum of a C- from (INST126 or GEOG276); minimum of a C- from (PSYC100, SOCY105, or BSOS233).
Restriction: Must be in Information Science, Technology and Information Design, or Social Data Science program.
Repeatable to: 9 credits if content differs.

INST410 Managing with Data and Simulations (3 Credits)
General principles of modeling, data analysis, and decision-making methods. Approaches to evaluating and assessing effective concepts, methods, and procedures of modeling and data analysis for decision making in management, advocacy, and communication situations. Ethical considerations in management, advocacy, and communication situations in professional life.
Prerequisite: Minimum grade of C- in INST126 and STAT100; minimum grade of C- in PSYC100 or SOCY105; minimum grade of C- in INST201 or INST301; and minimum grade of C- in MATH115 or higher.
Restriction: Must be in the Information Science or Technology and Information Design programs.
Credit Only Granted for: INST408M or INST410.
Formerly: INST408M.

INST414 Data Science Techniques (3 Credits)
An exploration of how to extract insights from large-scale datasets. The course will cover the complete analytical funnel from data extraction and cleaning to data analysis and insights interpretation and visualization. The data analysis component will focus on techniques in both supervised and unsupervised learning to extract information from datasets. Topics will include clustering, classification, and regression techniques. Through homework assignments, a project, exams and in-class activities, students will practice working with these techniques and tools to extract relevant information from structured and unstructured data.
Prerequisite: Minimum grade of C- in MATH115 (or higher) and STAT100; and a minimum grade of C- from INST126 or GEOG276; and a minimum grade of C- from one of the following (INST201, INST301, or BSOS233); and a minimum grade of C- from one of the following (AASP101, ANTH210, ANTH260, ECON200, ECON201, GEOG202, GVPT170, PSYC100, or SOCY100); and a minimum grade of C- from BSOS233 or INST314.
Recommended: Minimum C- in MATH140 and (INST326, BSOS326, or GEOG376).
Restriction: Must be in Information Science or Social Data Science program.

INST422 Modeling and Simulating Systemic Problems (3 Credits)
General principles of systems thinking and feedback dynamics modeling. Approaches, methods, and tools for identifying, articulating, and addressing non-linear, feedback-driven, systemic problems. Approaches to evaluating and assessing systems thinking and feedback dynamics models. Ethical considerations in systems thinking and feedback dynamics modeling practice.
Prerequisite: Minimum grade of a C- in INST201, STAT100, and INST126; and minimum of a C- in PSYC100 or SOCY105.
Restriction: Must be in the Information Science, Technology and Information Design, or Global Health major.

INST441 Digital Curation Ethics and Policy (3 Credits)
Explores via case studies the legal, ethical, and technological challenges in developing and implementing policies for managing digital assets and information. Emphasizes access questions pertinent to managing sensitive information and the roles and responsibilities of information professionals.
Prerequisite: Minimum grade of C- from INST341 or INST380.
Restriction: Must be in the Information Science program or Technology and Information Design program.

INST442 Digital Curation Across Disciplines (3 Credits)
Examines how to apply digital curation principles, tools, and strategies in managing diverse data collections and digital information in different disciplinary settings. Explores differences among data curation principles and practices across diverse settings, ranging from scientific organizations (such as business and academic research laboratories and computational science settings), to humanities-based institutions (such as cultural heritage organizations) to social science-based institutions (such as data-intensive professional environments).
Prerequisite: Must have completed with a C- or higher, or be concurrently enrolled in INST341 or INST380.
Restriction: Must be in the Information Science program or Technology and Information Design program.

INST443 Tools and Methods for Digital Curation (3 Credits)
Introduces students to the application of digital tools and methods in a variety of organizational settings, academic disciplines, and economic sectors.
Prerequisite: Must have completed with a minimum grade of C-, or be concurrently enrolled, in INST341 or INST380.
Restriction: Must be in the Information Science program or Technology and Information Design program.

INST447 Data Sources and Manipulation (3 Credits)
Examines approaches to locating, acquiring, manipulating, and disseminating data. Imperfection, biases, and other problems in data are examined, and methods for identifying and correcting such problems are introduced. The course covers other topics such as automated collection of large data sets, and extracting, transforming, and reformatting a variety of data and file types.
Prerequisite: Minimum grade of C- in STAT100 and INST327; and a minimum grade of C- from one of the following (INST201, INST301, BSOS233); and a minimum grade of C- from one of the following (AASP101, ANTH210, ANTH260, ECON200, ECON201, GEOG202, GVPT170, PSYC100, or SOCY100); and a minimum grade of C- from BSOS233 or INST314; and a minimum grade of C- from one of the following (BSOS331, GEOG273, or INST326).
Restriction: Must be in Information Science or Social Data Science program.

INST450 Introduction to CRM in Salesforce (3 Credits)
Students learn how to configure Salesforce so that they are able to collect, analyze and retrieve all of the vital information associated with their customer base. Moreover, students use Force.com fundamentals to understand Salesforce online application development and the deployment of next-generation cloud apps. The course offers practical hands-on learning that ensures students' job success as well as the theoretical knowledge needed to pass both Salesforce certification exams (ADM201 & Platform App Builder).
Prerequisite: INST327.
Credit Only Granted for: INST408P or INST450.
Formerly: INST408P.

INST451 Consumer Health Informatics (3 Credits)
Explores people's health-related information needs and whether, how, and why people seek out and use (or do not seek out and use) health information and the types of health information they find useful. We will also cover the important and interrelated topics of information avoidance, health behaviors, health literacy, digital health literacy, doctor-patient communication, and patient-to-patient communication through support groups and online communities. Throughout the course, we will also focus on the important concept of health justice - a world in which everyone has an adequate and equitable capability to be healthy.
Prerequisite: Minimum grade of C- in INST126, INST201 or STAT100; and minimum grade of C- from PSYC100 or SOCY105.
Restriction: Must be in the Information Science program or Technology and Information Design program.
Credit Only Granted for: INST408A or INST451.
Formerly: INST408A.

INST452 Health Data Analytics (3 Credits)
Health data analytics involves the extrapolation of actionable insights from patient data, using data sources such as electronic health records (EHRs), claims data, surveillance data, and surveys. Health data is complex, often unstructured and incomplete, and is organized for clinical care rather than to meet analytic needs. This course will involve the use of various analytical methods in order to translate large and complex data, whether structured or unstructured, into insights that improve decision-making from both the patient and provider perspectives. Healthcare data are rich and hold so much potential, but a challenge is presented to patients, providers, and even government agencies when it comes to figuring out how to leverage these data. Students in this course will learn foundational topics in data analytics focused on health data and will apply this knowledge to real health datasets through hands-on labs integrated into the lectures.
Prerequisite: Minimum grade of C- in INST126 or GEOG276; and minimum grade of C- in PSYC100 or BSOS233; and minimum grade of C- in STAT100 or MATH115 or higher.
Restriction: Must be in the Information Science program or Social Data Science program.

INST453 Project Management for Information Science (3 Credits)
Provides a comprehensive overview of project management, focusing on the needs of information resources (IR). The course covers the concepts and techniques for planning and execution of projects including developing work breakdown structure, estimating costs, managing risks, scheduling, staff and resource allocation, team building, communication, tracking, control, and other aspects of successful project completion.
Credit Only Granted for: BMGT485, ENCE320, ENCE325, INST408O or INST453.
Formerly: INST408O.

INST454 Project Development Studio (3 Credits)
Allows students to develop a self-selected project or product, such as a game UI system or a task management app, while building advanced design skills. Students bring an initial idea to the class, and through lectures, discussions, weekly critiques, and project milestones, they progress their concepts into tangible, public-facing work. Emphasizing industry-standard methodologies, the course focuses on three core activities: externalizing ideas, engaging in constructive critique, and documenting design decisions and progress. This hands-on approach fosters self-directed learning, collaborative reflection, and a comprehensive understanding of design and development.
Prerequisite: Minimum grade of C- in INST104, INST126, INST204, and INST380; and must have completed or be concurrently enrolled in INST367.
Restriction: Must be in the Technology and Information Design program.

INST455 Information Assurance and Compliance (3 Credits)
Examines the protection of organizational data, personalized information, intellectual property and the associated assurance of the data's transfer, storage and communication. Students will understand how to manage these concerns and respond to both emergent and existing threats within the information domain. We will look at the key principles of Information Assurance, compliance and best practices in the real world.
Credit Only Granted for: INST408U or INST455.
Formerly: INST408U.

INST456 Risk Management Leadership in the Information Age (3 Credits)
Helps students assess and mitigate a range of vulnerabilities within an organization's data networks, allowing them to understand how to protect the integrity, security, and confidentiality of information.
Credit Only Granted for: INST408B or INST456.
Formerly: INST408B.

INST461 Emerging Technologies and Risk Management (3 Credits)
Focuses on how people and companies can achieve various tangible and intangible benefits and assess risk in using and incorporating emerging technologies (i.e. mobile devices, social media, robotic process automation, 3-D printing, cloud computing, blockchain technologies, artificial intelligence, etc.) into the activities and operations of a company.
Credit Only Granted for: INST408Z or INST461.
Formerly: INST408Z.

INST462 Introduction to Data Visualization (3 Credits)
Exploration of the theories, methods, and techniques of visualization of information, including the effects of human perception, the aesthetics of information design, the mechanics of visual display, and the semiotics of iconography.
Prerequisite: Minimum grade of C- in STAT100; minimum grade of a C- from one of the following (INST201, INST301, or BSOS233); minimum grade of C- in INST126 or GEOG276; a minimum grade of C- from one of the following (AASP101, ANTH210, ANTH260, ECON200, ECON201, GEOG202, GVPT170, PSYC100, SOCY100, or SOCY105); and a minimum grade of C- from BSOS233 or INST314.
Restriction: Must be in Information Science or Social Data Science program.

INST463 Technology Socialprenuer (3 Credits)
Introduces students to the role of technology and entrepreneurship in our society. Students will be able to choose an existing society issue and develop creative entrepreneurial ideas to solve it using innovative technologies. The course allows students to meet industry professionals and learn more about various social problems and projects companies focus on and try to solve in the modern world. Students are also able to contribute to those solutions.
Credit Only Granted for: INST398B or INST463.
Formerly: INST398B.

INST464 Decision Making for Cybersecurity (3 Credits)
Discusses human and organizational decision making from a variety of perspectives. Applies different risk assessment and decision making frameworks that are relevant to personal and organization cybersecurity, with a focus on the quantitative Factor Analysis of Information Risk (FAIR) model. Considers monetary, social and societal costs of cybersecurity decisions. Considers a range of questions relating to cybersecurity, from whether to install a game on a smartphone to how to allocate scarce information security resources in an organization.
Prerequisite: Must have earned a minimum grade of C- in INST201, INST126, MATH115, PSYC100, and INST364.
Restriction: Must be in Information Science program.
Credit Only Granted for: INST408W or INST464.
Formerly: INST408W.

INST466 Technology, Culture, and Society (3 Credits)
Individual, cultural, and societal outcomes associated with development of information & communication technologies (ICTs), including pro- and anti-social factors. Unpacking how gender, race, ethnicity, sexual orientation, disabilities, and political affiliations affect consumption and production of online experiences. Unpacking how structures of dominance, power and privilege manifest at individual, institutional and cultural levels.
Prerequisite: Minimum grade of C- in INST201 or INST301; and minimum grade of C- in PSYC100 or SOCY105.
Restriction: Must be in the Information Science program or Technology and Information Design program.

INST467 Fundamentals of Cybersecurity for Policy Makers (3 Credits)
Explores the key issues facing policy makers attempting to manage the problem of cybersecurity from its technical foundations to the domestic and international policy considerations surrounding governance, response, critical infrastructure risk management, and privacy. Designed for students with little to no background in information technology, and will provide the principles to understand the current debates shaping a rapidly evolving security landscape.
Prerequisite: Must have completed with a C- or be concurrently enrolled in INST364.
Restriction: Must be in Information Science program.
Credit Only Granted for: INST408V, PLCY388C, or INST467.
Formerly: INST408V.

INST470 Competitive Business Intelligence (3 Credits)
Competitive intelligence (CI) is a derivative of governmental intelligence, as well as business marketing, economics, and management, that is defined similarly: the collection, evaluation, analysis, and application of legally available information relevant to the plans, decisions, and operations of one's organization. Topics will include an overview and comparison of the intelligence process in government and in business (i.e., the intelligence cycle), a detailed consideration of the requirements and the analytical segments of that process, a survey of current analytical tools, a survey of information sources and information acquisition activities, a survey of required personnel, physical and information security policies, and the necessary efforts in creating an effective CI unit within any business enterprise.
Credit Only Granted for: INST408K or INST470.
Formerly: INST408K.

INST480 Technology Design Ethics (3 Credits)
Recent years have seen increasing attention to technology design ethics: the steps necessary to ensure that technologies support (and don't undermine) human values, human rights, and human flourishing. But what ethical design looks like can vary based on contexts, industries, and individual workplaces. This course will explore, critique, and expand on tools meant to prioritize ethics in technology workplaces. We will experiment with, assess, and then create our own checklists, toolkits, games, and other creative interventions to make ethical conversations central to technology design.
Prerequisite: Must have completed or be concurrently enrolled in INST204.

INST490 Integrated Capstone for Information Science (3 Credits)
The capstone provides a platform for Information Science students where they can apply a subset of the concepts, methods, and tools they learn as part of the Information Science program to addressing an information problem or fulfilling an information need.
Prerequisite: Minimum grade of C- in INST311, INST314, INST326, INST327, INST335, INST346, INST352, and INST362.
Restriction: Must be in Information Science program; and must have earned a minimum of 90 credits; and permission of INFO-College of Information Studies.

ISRL - Israel Studies

ISRL187 God, Land, Power, and the People: Moral Issues in the Jewish Historical Experience (3 Credits)
Examines the complicated relationship between theology, nationalism, sovereignty, and the ethical exercise of social control using case studies drawn from the Jewish historical experience. The universal and age-old issues implicit in the exercise of power have gained special moral force for Jews with the creation of the State of Israel, a Jewish and a democratic state with substantial non-Jewish minorities and hundreds of thousands of non-citizen subjects. Can these be reconciled? Jewish efforts over the ages and in recent times to define justice provide concrete examples through which to examine and discuss crucial abstract principles.
Cross-listed with: HIST187, JWST187.
Credit Only Granted for: HIST187, JWST187 or ISRL187.

ISRL249 Selected Topics in Israel Studies (3 Credits)
Topics in the study of Zionism and contemporary Israel from the 1880's to the present. Future offerings may address history, politics, or culture.
Recommended: ISRL142.
Repeatable to: 6 credits if content differs.

ISRL256 Zionism and Sexual Revolution (3 Credits)
A study of the changes within European Jewish communities that influenced the development of particular fantasies about and representations of gender, love, and sex in Palestine and Israel. We will investigate the broader intellectual and cultural contexts needed to understand the gender and sexual revolutions of the 19th and 20th centuries, and will examine how European and, later, Israeli Jews adopted and adapted these ideas and cultural forms. We will closely analyze a variety of texts (stories, plays, photographs, and films) and will consider the relationship between ideology and aesthetics.
Cross-listed with: JWST256.
Credit Only Granted for: ISRL249N, JWST219G, ISRL256, or JWST256.
Formerly: ISRL249N or JWST219G.

ISRL269 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

ISRL283 The Israeli/Palestinian Conflict: Fundamental Questions (3 Credits)
As has become evident virtually every year, the Palestinian-Israeli conflict retains its capacity to mobilize both sides against each other. Why are Palestinian Arabs and Israeli Jews unable to resolve their differences? This course uncovers some of the deeper explanations as to why the conflict persists, even as it changes over the decades.
Credit Only Granted for: ISRL283 or ISRL289I..
Formerly: ISRL289I.

ISRL289 New Explorations in Israel Studies (3 Credits)
Investigation of critical and innovative responses in Israel Studies. Although the topic will vary, the course will encourage intellectual exploration by students of fundamental problems and critical methods.

ISRL299 Independent Study in Israel Studies (1-3 Credits)
This lower-level independent study allows students to work closely with an Israel Studies faculty member of their choice, pending prior approval of the faculty member. In this independent study, students will focus on a topic specific to Israel Studies.
Prerequisite: Permission of ARHU-Meyerhoff Program & Center for Jewish Studies.
Repeatable to: 6 credits.

ISRL329 Special Topics in Israel Studies (3 Credits)
Topics in the study of Zionism and contemporary Israel from the 1880's to the present at an intermediate level. Individual sections may address history, politics, or culture.
Repeatable to: 9 credits if content differs.

ISRL329G The Israeli Settler Movement: The Road to One State? (3 Credits)
Explores the Israeli settler movement over the last four decades, from its position on the fringes of Israeli society in the 1970s and 1980s to its rise to prominence in Israeli politics today. Topics will include the history of the Israeli settlement project in the West Bank, the emergence of Gush Emunim and its ideological foundations in Jewish messianism, its violent offshoots, and the influence of the settler movement on the Israeli political system. Study of these topics illuminates some of the most important driving forces of modern history such as nationalism, religious fundamentalism, colonialism and the ability of a determined minority to influence a country's policies.
Cross-listed with: JWST332, HIST381.
Credit Only Granted for: HIST329G, HIST381, ISRL329G, JWST332 or JWST319N.
Formerly: JWST319N.

ISRL330 Mizrahi Identity in Israel (3 Credits)
It is impossible to understand Israeli society today without examining the Mizrahi experience. Despite the common misconception that Israel is predominantly made up of Jews from European origin, the fact of the matter is that Jews of Mizrahi origin, whose parents and grandparents immigrated to Israel from the Middle East and North Africa, represent a major part of the Israeli population. Moreover, Ashkenazi-Mizrahi relations continue to be a major source of tension in Israeli politics, and issues of race continue to come up on social media and polarize the Israeli society. This course brings to light narratives of Mizrahi identity in Israel and explores the trajectory of the Mizrahi struggle for equality and against racism through its various milestones: the 1959 Wadi Salib Revolt, the Black Panthers Movement in the 1970s, the emergence of the Israeli Sephardi-Orthodox party Shas, and the new wave of Mizrahi activism in the 21st century.
Cross-listed with: HIST377, JWST334.
Credit Only Granted for: JWST319D, JWST334, HIST377, HIST329Z, ISRL329M, or ISRL330.
Formerly: ISRL329M.

ISRL342 History of Modern Israel (3 Credits)
History of modern Israel since the beginning of the Zionist settlement in 1882. Attention to different interpretations and narratives of Israel's history, including the historical and ideological roots of Zionism, the establishment of the State of Israel, ideological forces, wars, and the triumphs and crises of democracy.Cross-listed with HIST376.
Credit Only Granted for: HIST376 or ISRL342.

ISRL343 Global Migration and the Israeli Case Study (3 Credits)
Over 70% of Israel's population is made of first, second or third generation immigrants, who came from over 70 countries, making Israel an ultimate immigrant society. This course will focus on the history of Israel as a case study for the understanding of the historical phenomena of modern immigration.
Cross-listed with: SOCY398G.
Credit Only Granted for: ISRL349K, GVPT368G, SOCY398G, SOCY398I, or ISRL343.
Formerly: ISRL349K.

ISRL344 The Israeli Settler Movement: The Road to One State? (3 Credits)
Explores the Israeli settler movement over the last four decades, from its position on the fringes of Israeli society in the 1970s and 1980s to its rise to prominence in Israeli politics today. Topics will include the history of the Israeli settlement project in the West Bank, the emergence of Gush Emunim and its ideological foundations in Jewish messianism, its violent offshoots, and the influence of the settler movement on the Israeli political system. Study of these topics illuminates some of the most important driving forces of modern history such as nationalism, religious fundamentalism, colonialism and the ability of a determined minority to influence a country's policies.
Cross-listed with: JWST332, HIST381.
Credit Only Granted for: HIST329G, HIST381, ISRL329G, ISRL344, JWST332 or JWST319N.
Formerly: JWST319N.

ISRL349 Investigating Topics in Israel Studies (3-6 Credits)
Topics in the study of Zionism and contemporary Israel from the 1880's to the present at an intermediate level. Individual sections may address history, politics, or culture.
Recommended: ISRL142 and ISRL249.

ISRL350 The End of the Israel-Arab Conflict?? (3 Credits)
Violence between Jews/Israelis and Arabs/Palestinians on both an inter-communal and inter-state level has been pervasive in the Holy Land for over a century. However, in the past few years, Israel has signed treaties with several Arab countries and more are likely in the near future. Is the larger Israel-Arab conflict ended, or nearly so? This course will examine the last 30 years to understand what has changed about these conflicts and what remains, and then explore different scenarios as to how peace may be possible and what it might look like.

ISRL369 Special Topics in Study Abroad (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

ISRL372 Jewry of Muscle: Zionism and Jewish Masculinity (3 Credits)
Part of the Zionist cultural project involved creating a new Jewish masculinity that would replace the diasporic "sissy Jew" with a strong, healthy new "Jewry of Muscle." Using literary and cinematic sources, we will analyze how these Zionist and Israeli cultural productions served to build (and sometimes undermine) this new model of Jewish masculinity.
Cross-listed with: JWST372.
Credit Only Granted for: JWST319K, ISRL329K, JWST372 or ISRL372.
Formerly: JWST319K or ISRL329K.

ISRL375 Jews and Representations of Race (3 Credits)
Attention to the evolution of Western concepts of "race" from late medieval to modern times requires addressing the meaning of the term "race." How did constructions of Jewish "racial" identities fit into this broader discussion? As Christian Europe's primary minority for centuries, "the Jews" provide evidence for constructions of race as a means of grouping populations culturally and materially. How did Jews interact with the racial discourse of diverse time periods, and how did they negotiate their political realities by both adopting and challenging aspects of the rhetoric of antisemitism as well as the rhetoric of "whiteness" versus "blackness"?
Cross-listed with: JWST375.
Credit Only Granted for: ISRL375, JWST375, ISRL349Z, or JWST319M.
Formerly: ISRL349Z or JWST319M.

ISRL380 Israel: Politics and Society (3 Credits)
Addresses the main issues in Israeli politics and society by focusing on the role of Zionism in the Jewish state, the institutional foundations of Israeli democracy, the main political parties and blocs and their different ideological principles and visions, as well as the main social groups, movements, and institutions that comprise Israeli civil society.
Credit Only Granted for: ISRL329C, ISRL380, or GVPT368D.
Formerly: ISRL329C .

ISRL381 Israeli Foreign and Security Policy (3 Credits)
An overview of Israeli foreign and security policy from 1948 to the present. We will examine how Israel's foreign and security policies reflect its Jewish origins, Zionist ideology, its relations with its neighbors and world powers, and its regional quest for recognition and legitimacy.
Credit Only Granted for: ISRL381, ISRL329P or GVPT368E.
Formerly: ISRL329P.

ISRL382 U.S. Foreign Policy and the Arab-Israeli Conflict (3 Credits)
What are the United States' interests in the Middle East? Who and/or what determines those interests? How are these interests pursued? This course will provide an overview of American diplomacy in the Middle East as it unfolded since the mid-1940s with an emphasis on the Israeli-Arab/Palestinian conflicts. We will first examine the overarching ideational and institutional factors that shape and guide U.S. foreign policy, and then turn to analyze major issues and challenges American diplomacy faces in the Middle East. The course seeks to integrate U.S. foreign policy and the Arab-Israeli conflict into a broader analytical framework dealing with mediation, conflict resolution and management, alliance and politics, and patron-client relations.
Credit Only Granted for: ISRL382, ISRL349F or GVPT368A.
Formerly: ISRL349F.

ISRL383 Political Psychology, Israel, and the Middle East (3 Credits)
What is the role of perceptions and misperceptions in international politics? How do emotions impact policy-making processes? Does social psychology matter when analyzing domestic politics or foreign policy? Political psychology is an interdisciplinary academic field dedicated to the analysis of the nexus between psychological and political processes. This course will identify and employ multiple pertinent political psychology theories to account for Israeli domestic politics and foreign policy as well as other major political events throughout the Middle East including nuclear proliferation, terrorism, and territorial expansionism
Cross-listed with: GVPT368P.
Credit Only Granted for: ISRL329Q, ISRL383 or GVPT368P..
Formerly: ISRL329Q.

ISRL448 Seminar in Israel Studies (3 Credits)
Intensive study of an Israel Studies topic. Expected work product is a substantial research or analysis paper or appropriate equivalent.
Recommended: ISRL349 and ISRL249.
Restriction: Must be in the Israel Studies Minor.

ISRL449 Advanced Topics in Israel Studies (3 Credits)
Topics in the study of Zionism and contemporary Israel from the 1880s to the present at the advanced level. Individual sections may address history, politics, or culture. Some Sections may have language or course prerequisites.
Recommended: ISRL349 or ISRL249.
Repeatable to: 6 credits if content differs.

ISRL499 Advanced Independent Study in Israel Studies (1-3 Credits)
This upper-level independent study allows students to work closely with an Israel Studies faculty member of their choice, pending prior approval of the faculty member. In this independent study, students will focus on a topic specific to Israel Studies.
Prerequisite: Permission of ARHU-Meyerhoff Program & Center for Jewish Studies.
Repeatable to: 6 credits.

ITAL - Italian

ITAL103 Intensive Elementary Italian (4 Credits)
Covers speaking, reading, writing, listening, and culture of Italian-speaking world.
Prerequisite: Must have appropriate World Language Placement (WLP) score.
Restriction: Not open to fluent/native speakers of Italian.
Credit Only Granted for: ITAL103 or ITAL121.

ITAL169 Special Topics in Study Abroad I (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

ITAL203 Intensive Intermediate Italian (4 Credits)
Covers speaking, reading, writing, listening, and culture of Italian-speaking world.
Prerequisite: ITAL103; or must have appropriate World Language Placement (WLP) score.
Restriction: Must not have completed ITAL122; and must not be a fluent/native speaker of Italian.
Credit Only Granted for: ITAL203 or ITAL122.

ITAL204 Advanced Intermediate Italian (3 Credits)
An intensive study of Italian language and culture. This course completes the sequence of ITAL 103 and 203. After a brief review of important material of Intermediate Italian (ITAL 203), we will cover the last four chapters of Parliamo italiano (Unita 9-12). ITAL 204 is designed to reinforce and deepen the students' knowledge of Italian and its idiomatic usage, and to improve their reading and writing skills through a more in-depth study of more complex grammatical forms. Students are encouraged to practice Italian using grammatical concepts in an active manner. There will be oral and written exercises, short readings, and vocabulary expansion. Special attention will be given to readings, oral comprehension and written compositions. To improve their listening and reading comprehension, students will also view and analyze film clips, and read short articles in newspapers and magazines on current events and global issues pertaining to Italy and the European Union.
Prerequisite: ITAL203 or equivalent; or must have appropriate World Language Placement (WLP) score.

ITAL207 Speaking and Writing in Italian (3 Credits)
An intensive upper intermediate language course that focuses on Italian speaking and writing. The course, which is taught entirely in Italian, is designed to reinforce and deepen the students' knowledge of the Italian language and its idiomatic usage, and to improve their speaking ability and listening comprehension. Students will be given practice both in speaking extemporaneously and giving oral reports written on a wide range of topics dealing with contemporary Italy. One of the main objectives of the course is to prepare students to take upper level courses (300-400 levels) in Italian language, literature, and culture
Prerequisite: ITAL204; or students who have taken courses with comparable content may contact the department.
Restriction: Must not be a fluent/native speaker of Italian.

ITAL211 Intermediate Conversation (3 Credits)
Practice in spoken Italian based on reading and listening exercises in a variety of genres. Written assignments and exams.
Prerequisite: ITAL203; or permission of ARHU-School of Languages, Literatures, and Cultures department.
Restriction: Must not be a fluent/native speaker of Italian.

ITAL252 Stories of Italy (3 Credits)
Introduction to fictions across time and space in Italy.
Prerequisite: ITAL207; or permission of ARHU-School of Languages, Literatures, and Cultures department.
Restriction: Must not be a fluent/native speaker of Italian.

ITAL261 Cuisine, Culture, and Society in Italy Yesterday and Today (3 Credits)
Exposes students to an important aspect of Italian culture: the art of gastronomy. Provides an in-depth understanding of the close relationship between food and culture, while enriching their knowledge of the Italian language through reading and analysis of various texts which deal with the preparation and adaptation of Italian food in different cultural settings. Taught in Italian.
Prerequisite: ITAL204; or permission of ARHU-School of Languages, Literatures, and Cultures department.

ITAL269 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

ITAL301 Italian Composition (3 Credits)
Techniques of composition; grammatical analysis; various genres; vocabulary.
Prerequisite: ITAL207; or students who have taken courses with comparable content may contact the department.

ITAL306 Commercial Italian I (3 Credits)
An introduction to Italian Business language and culture. Special emphasis on communicative strategies used in business transactions and applications. Reading and discussion of relevant articles relating to business world from on-line newspapers and magazines.
Prerequisite: ITAL301; or permission of ARHU-School of Languages, Literatures, and Cultures department.

ITAL311 Advanced Oral Expression: Current Events (3 Credits)
Oral expression; development of idiomatic forms and vocabulary to level of the Italian press.
Prerequisite: ITAL207; or permission of ARHU-School of Languages, Literatures, and Cultures department.

ITAL361 Survey of Italian Society and Culture: From Fascism to the Seventies (3 Credits)
Development of Italian society and culture from Fascism to the 1970s. Literature, cinema, economy, popular culture, and daily life. Taught in Italian.
Prerequisite: ITAL207.

ITAL362 Survey of Italian Society and Culture: From the 1980s to thePresent Day (3 Credits)
Development of Italian society and culture from the 1980s to the present. Literature, cinema, economy, popular culture, daily life. Taught in Italian.
Prerequisite: ITAL207; or permission of ARHU-School of Languages, Literatures, and Cultures department.

ITAL369 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

ITAL386 Experiential Learning (3-6 Credits)
Prerequisite: Must have a Learning Proposal approved by the Office of Experiential Learning Programs, faculty sponsor, and student's internship sponsor.
Restriction: Junior standing or higher.

ITAL388 Language House Colloquium (1 Credit)
The Language House Colloquium is a one-credit course for students residing in the Language House Immersion Program. The course focuses on the further development of skills in the target language and the acquiring of cultural knowledge of the countries that speak the target language. The course is designed to supplement the learning that takes place on a daily basis in the Language House program.
Restriction: Must be a resident in Language House.
Repeatable to: 4 credits.

ITAL399 Directed Study in Italian (1-3 Credits)
Intended for undergraduates who wish to work on an individual basis with a professor of their choice.
Prerequisite: Permission of ARHU-School of Languages, Literatures, and Cultures department.
Repeatable to: 3 credits.

ITAL411 Monsters and Demons: the Faces of Evil in Dante's Inferno (3 Credits)
An interdisciplinary study of Dante's Inferno as represented in the Divine Comedy. Special emphasis on Dante's own portrayal of monsters and demons and their roles in the poet's eschatological vision of Hell.Taught in English

ITAL421 The Italian Renaissance (3 Credits)
A study of major trends of thought in Renaissance literature, art, and science. Taught in English.

ITAL431 Italian Civilization in Translation (3 Credits)
Political, social, intellectual, literary and artistic forces shaping contemporary Italy from the late Middle Ages to the present. Taught in English.

ITAL433 Holocaust in Italian Literature and Cinema (3 Credits)
Review of literature and theoretical writings of Italy's most famous survivor, Primo Levi, to a sampling of Italian films that focus in vastly different and often extremely controversial ways on the experience of the concentration camp, while addressing a series of central questions from the brutal realities of the camps to the "compromises" made in order to survive, the need to bear witness, and the idea of the survivor's guilt.
Cross-listed with: CINE433.
Credit Only Granted for: CINE433, FILM433 or ITAL433.
Formerly: FILM433.

ITAL436 Italian Cinema I: Neorealism (3 Credits)
Explores representations of Italy in cinema with special focus on identity formation and the movement of Italian neorealism and post neorealism. Taught in English.
Cross-listed with: CINE441.
Credit Only Granted for: CINE441, FILM441 or ITAL436.
Formerly: FILM441.

ITAL441 The Dark Side of the Italian Renaissance (3 Credits)
Examines the dark aspects of the Italian Renaissance, focusing on artistic and literary patronage as a strategy of self-promotion and as a means to achieve and preserve power. From the Northern court of Milan to the Southern Kingdom of Naples, we journey through the Italian peninsula, a land that gave birth to illustrious artists and poets in one of the most troubled periods of Italian history, marked by political conflict, bloody rivalries, family betrayals, and wars. What hides beneath the image of some of these benevolent and enlightened patrons of learning, often praised as "ideal rulers" by artists and writers of the Renaissance, are ambitious and crafty politicians, who sought their own interests and goals in their ruthless pursuit of power
Recommended: Some knowledge of Italian at the elementary or intermediate level.

ITAL469 Study Abroad Special Topics IV (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

ITAL471 Italian Cinema: A Cultural Approach in Translation (3 Credits)
The culture of Italy through the medium of film from the silent days up to the present. Taught in English.

ITAL473 Italian Cinema II (In Translation) (3 Credits)
A study of Italian society and culture through the medium of film from the mid 1970's to the present. Taught in English.
Cross-listed with: CINE431.
Credit Only Granted for: ITAL473, CINE431 or FILM431.
Formerly: FILM431.

ITAL475 The Italian Opera Libretto in English (3 Credits)
History and analysis of Italian opera librettos from Monteverdi through Mozart to Verdi and Puccini. Taught in English.
Prerequisite: Must have completed one course in literature.

ITAL478 Colloquium in Italian (1 Credit)
Colloquium section taught in Italian to accompany 400-level Italian courses taught in English. Discussion, presentations, readings.
Prerequisite: ITAL311; or students who have taken courses with comparable content may contact the department.
Corequisite: ITAL498, ITAL411, ITAL431, ITAL421, ITAL473, ITAL475, ITAL471, or ITAL499.
Repeatable to: 6 credits.

ITAL498 Special Topics in Italian Literature (3 Credits)
Repeatable to: 6 credits if content differs.

ITAL499 Special Topics in Italian Studies (3 Credits)
Repeatable to: 6 credits if content differs.

ITAX - Italian Education Abroad

ITAX100 Introduction to Italian Language and Culture (3 Credits)
Open to students with no previous training in Italian, the course introduces features of the Italian language needed for interaction in everyday practical situations, such as the caffe, restaurant, accommodation and in shops. The course satisfies a limited number of immediate needs necessary for survival in the target language culture. Cultural topics, such as Italian gestures, the Italian family, the working world, religion, and women in Italy, will also be studied in order to familiarize the student with certain aspects of contemporary Italian society and culture.
Additional Information: This course is offered as part of the Maryland-in-Rome study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMRome. Education Abroad processes registrations for this course on behalf of students.

ITAX101 Living Perugia: Elementary Language, Culture, and Reflection (4 Credits)
The specific goals of the introductory course is to give students a basic lexicon to interact with everyday life, events and activities of their new host country, while at the same time teaching them the key building blocks of Italian grammar. The central objectives are therefore to provide students with the necessary tools by which they can engage - little by little - with the local community in a meaningful way, and to stimulate students to observe and reflect upon various aspects of the new culture surrounding them.
Credit Only Granted for: ITAL169 or ITAX101.
Formerly: ITAL169.
Additional Information: This course is offered as part of the Maryland-in-Perugia study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMPerugia. Education Abroad processes registrations for this course on behalf of students.

ITAX103 The Florence Experience I (4 Credits)
Students will develop basic cultural and linguistic/communicative competences (speaking, writing, reading and understanding) in Italian through an interdisciplinary experience. Introduces students to various aspects of contemporary Florentine life and Italian culture via field trips, interviews with local Florentines, and cultural activities facilitated by professional directors and playwrights.
Additional Information: This course is offered as part of the Maryland-in-Florence study abroad program. Students must apply for this program through Education Abroad: More information at https://globalmaryland.umd.edu/offices/education-abroad/program/11293. Education Abroad processes registrations for this course on behalf of students.

ITAX110 Introduction To Italian Language and Culture (3 Credits)
Introduces features of the Italian language needed for interaction in everyday practical situations, such as the cafe, restaurant, accommodations and in shops. Equips students with necessary skills for survival in the target language culture. Cultural topics, such as Italian gestures, the Italian family, the working world, religion, and women in Italy, are studied in order to familiarize the student with certain aspects of contemporary Italian society and culture.
Credit Only Granted for: ITAL169R or ITAX110.
Additional Information: This course is offered as part of the Maryland-in-Rome study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMRome. Education Abroad processes registrations for this course on behalf of students.

ITAX201 Cultural Diversity in Italy (3 Credits)
The different practices and experiences of cultural diversity and its challenges in contemporary Italy. The course will analyze the transition of Italy from a country of emigration to a country of both emigration and immigration.
Additional Information: This course is offered as part of the Maryland-in-Rome study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMRome. Education Abroad processes registrations for this course on behalf of students.

ITAX301 Florence: The Story of the City (3 Credits)
Explores how the history of Florence is highly representative of the history of Italy as the cradle of many philosophical, artistic, and political ideas that were key in shaping the Western World. Students in this course will visit both well-known and hidden landscapes of Florence, identify its most celebrated spaces, and understand how the city has changed and how it has been shaped by the character of its people.
Additional Information: This course is offered as part of the Maryland-in-Florence study abroad program. Students must apply for this program through Education Abroad: More information at https://globalmaryland.umd.edu/offices/education-abroad/program/11293. Education Abroad processes registrations for this course on behalf of students.

ITAX302 History of Fashion (3 Credits)
Creativity, a taste for beauty, tradition and imagination have always been part of Italian culture, being key factors in the shaping of its extraordinary artistic heritage, and in the emergence of a specifically Italian style. Students will explore the evolution of Italian Fashion from the fourteenth century through a multi-faceted approach that includes site visits and considers the impact of gender and political structures, Renaissance art, the Florentine silk economy, the emergence of writings on Fashion and style, design experiments connected to the birth of Opera, and Hollywood and Cinecitta industries on clothing, costume, style, and production in our time. Course is taught in English.
Additional Information: This course is offered as part of the Maryland-in-Florence study abroad program. Students must apply for this program through Education Abroad: More information at https://globalmaryland.umd.edu/offices/education-abroad/program/11293. Education Abroad processes registrations for this course on behalf of students.

ITAX304 The History and Culture of Food in Italy (3 Credits)
Explores the history of food in Italy as a gateway to understanding present Italian culture. Students will examine the factors that have shaped Italian food, cuisine, and taste, the variations in eating habits of different socio-economic classes, and the essential role played by food in constructing Italian identities to shed light on fundamental patterns in Italian history and society.
Additional Information: This course is offered as part of the Maryland-in-Perugia study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMPerugia. Education Abroad processes registrations for this course on behalf of students.

IVSP - Individual Studies Program

IVSP317 Progress Report (1 Credit)
A written analysis of the program. Students register for IVSP317 only once, the semester before the final term.
Restriction: Must be in Individual Studies program.

IVSP318 Independent Learning Activities (1-6 Credits)
An independent study course which students can use for a variety of out-of-class internship and research opportunities.
Restriction: Must be in Individual Studies program; and permission of faculty sponsor.
Repeatable to: 9 credits if content differs.

JAPN - Japanese

JAPN101 Elementary Japanese I (6 Credits)
Introduction to basic patterns of contemporary spoken Japanese and to the two phonetic syllabaries (Katakana and Hiragana).
Prerequisite: Must have appropriate World Language Placement (WLP) score.

JAPN102 Elementary Japanese II (6 Credits)
Continued introduction to the basic spoken patterns of contemporary Japanese.
Prerequisite: Minimum grade of C- in JAPN101; or appropriate World Language Placement (WLP) score.

JAPN201 Intermediate Japanese I (6 Credits)
Contemporary spoken and written Japanese.
Prerequisite: Minimum grade of C- in JAPN102; or or appropriate World Language Placement (WLP) score.

JAPN202 Intermediate Japanese II (6 Credits)
Contemporary spoken and written Japanese.
Prerequisite: Minimum grade of C- in JAPN201; or appropriate World Language Placement (WLP) score.

JAPN269 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

JAPN298 Special Topics Japanese Literature (3 Credits)
Special topics in Japanese literature.
Repeatable to: 9 credits if content differs.

JAPN301 Advanced Japanese I (6 Credits)
Advanced conversation, oral comprehension, and selected readings.
Prerequisite: Minimum grade of C- in JAPN202; or permission of instructor.

JAPN302 Advanced Japanese II (6 Credits)
Continued readings in varied modern texts and advanced conversation and oral comprehension.
Prerequisite: Minimum grade of C- in JAPN301; or permission of instructor.

JAPN311 Traditional Japanese Language and Culture (3 Credits)
Introduction to classical Japanese language (kobun) through representative texts and genres from the literary traditions of the Heian period (794-1185) to the Early Modern period (1600-1868). Taught in Japanese and English.
Prerequisite: Minimum grade of C- in JAPN202; or permission of instructor.

JAPN316 Women and Japanese Literature: Japanese Literature in Translation (3 Credits)
Close critical reading of a range of Japanese literary texts that deal in some significant manner with gender, sex and sexuality. Taught in English.

JAPN325 Modern Japanese Literature and Film (In Translation) (3 Credits)
Explores and questions the significance of some of modern Japan's most dynamic historical transformations, pressing social issues, and modes of cultural expression. Covers the Meiji period (1868-1912) to the 21st century.

JAPN345 Mapping Premodern Japan (3 Credits)
Mapping Premodern Japan investigates travel in Japan through concentrated study of a key route in the premodern period. We will explore the role travel played in larger social, political, economic, and cultural structures and how stories of travel shaped ideas of identity, place, and national culture. We will analyze scholarship, conduct research, and learn the process for developing authentic scholarship in Cultural Studies. The course will culminate in a digital humanities final project in which students will conduct research on the major site of study and present their findings using digital storytelling. Taught in English.

JAPN369 Special Topics in Study Abroad (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

JAPN388 Language House Spring Colloquium (1 Credit)
For students residing in the Language House Immersion Program. Focuses on the development of skills in the target language and acquiring the cultural knowledge of the countries that speak the target language.
Restriction: Must be a resident of Language House.
Repeatable to: 8 credits.

JAPN401 Readings in Modern Japanese Literature (3 Credits)
Development of advanced reading, vocabulary, grammar, and translation skills through selected readings in Japanese drawn primarily from modern literature.
Prerequisite: Minimum grade of C- in JAPN302; or permission of instructor.

JAPN402 Readings in Japanese Cultural Studies (3 Credits)
Development of advanced reading, vocabulary, grammar, and translation skills through selected readings in Japanese drawn from the fields of history, social sciences, cultural studies, film studies, and popular culture.
Prerequisite: Minimum grade of C- in JAPN302; or permission of instructor.

JAPN407 The Art of Translation (3 Credits)
Theory and practice of translation. Variety of genres. Japanese to English.
Prerequisite: 1 course with a minimum grade of C- from (JAPN401, JAPN402); or students who have taken courses with comparable content may contact the department.

JAPN408 Special Topics in Japanese (3 Credits)
Topic in the Study of Japanese, to be announced each time course is offered. Taught in Japanese.
Prerequisite: Minimum grade of C- in JAPN302; or permission of instructor.

JAPN412 Classical Japanese (3 Credits)
Advanced classical Japanese.

JAPN418 Japanese Literature in Translation (3 Credits)
Representative works of Japanese literature in translation.
Repeatable to: 9 credits if content differs.

JAPN421 History of the Japanese Language (3 Credits)
Investigation of the origin of the Japanese language, its relationship with other languages, and its development. Taught in English, but presumes knowledge of Kanji (Chinese characters).
Prerequisite: JAPN102; or permission of ARHU-School of Languages, Literatures, and Cultures department.

JAPN424 Japan From the Margins (3 Credits)
Japan from the Margins takes as its focus the history and representations of various others in Japanese society. They include ethnic Ainu, Okinawans, and Koreans, a historical outcaste group called the Burakumin, and people marginalized for their non-normative gender and sexual practices. Students learn about the historical specificities of each group as well as their common experiences of institutional discrimination as they grapple with larger questions regarding prejudice, nationalism, and social justice. Taught in English.

JAPN425 The Atomic Bomb in Literature and Memory (3 Credits)
Study of declassified documents and commentary on the United States decision to use the bomb in 1945, the many ways Japanese writers have attempted to express their indescribable experiences in Hiroshima and Nagasaki, and the shaping of historical narratives and national identities in post-war Japan and the U.S. Taught in English.

JAPN428 Seminar in Japanese Discourse and Conversation Analysis (3 Credits)
Presentation and discussion of classic and current readings in English and Japanese on theories and actual practice of discourse and conversation analysis. Students will learn transcription techniques and have an opportunity to apply them in a final term paper.
Prerequisite: JAPN302.
Recommended: JAPN422.
Repeatable to: 6 credits if content differs.

JAPN438 Topics in Japanese Pragmatics (3 Credits)
Basic concepts in the field of pragmatics (the study of language in context) such as deixis and indexicality, speech acts, ellipsis, and politeness. Readings in English on English and Japanese examples.
Prerequisite: JAPN201.
Recommended: JAPN422.
Repeatable to: 9 credits if content differs. Jointly offered with JAPN638.

JAPN445 Performance and Sexuality in Early Modern Japan (3 Credits)
Explores the intersections between performance and sexuality in early modern Japan. Our main sites will be the stage, the brothels, and everyday life as we examine how people of the period performed gender and sexuality. We will draw from popular fiction, kabuki, puppet theatre, woodblock prints, guides to the pleasure quarters, and censorship edicts. Taught in English.

JAPN447 Technologies of Japanese Performance (3 Credits)
Explores technologies of performance in Japan across the centuries. We will focus on concepts of likeness and liveness as they manifest in performance's mythical origins, the traditions of noh drama, the popular, commercial theatres of kabuki, bunraku, and Takarazuka, and contemporary experiments with robotics, Vocaloids, and other new technologies. Taught in English.
Cross-listed with: THET447.
Credit Only Granted for: THET447 or JAPN447.

JAPN498 Special Topics in Japanese Studies (3 Credits)
Special topics in Japanese studies. Taught in English.

JAPN499 Directed Study in Japanese (1-3 Credits)
Prerequisite: Permission of instructor.
Repeatable to: 6 credits if content differs.

JOUR - Journalism

JOUR130 Self-Presentation in the Age of YouTube (3 Credits)
Students, as they make use of evolving technologies, need to be able to present themselves effectively in front of any number of different audiences through any number of different outlets. Whether in an interview on radio, a guest presentation at a conference, in comments on a video blog, in commentary on TV, in the lead on a self-produced YouTube video, or as spokesperson in front of investors or management, professionals need strong oral communication skills. This class focuses on strengthening those skills through active individual and group presentations, as well as, through discussion of key techniques and group critique of presentation publicly available in the social media space on sites such as YouTube.
Credit Only Granted for: COMM107, COMM200, ENES143, INAG110, JOUR130 or THET285.
Additional Information: May not count toward the Journalism major.

JOUR150 Introduction to Mass Communication (3 Credits)
Survey of the functions and effects of the mass media in the United States. A consumer's introduction to newspapers, television, radio, film, sound recording, books, magazines, and new media technology.
Additional Information: Not applicable toward journalism major.

JOUR152 Introduction to Storytelling with Code (1 Credit)
An introduction to the ways markup and programming languages and computational thinking are transforming news reporting and storytelling.
Prerequisite: Must have completed or be concurrently enrolled in JOUR200.

JOUR175 Media Literacy (3 Credits)
An analysis of the information, values and underlying messages conveyed via television, newspapers, the internet, magazines, radio and film. Examines the accuracy of those messages and explores how media shape views of politics, culture and society.
Additional Information: Not applicable toward journalism major.

JOUR181 Grammar for Journalists (1 Credit)
The basic grammatical structures of standard American written English and its conventions of punctuation, diction and usage in journalistic writing.
Credit Only Granted for: ENGL181, ENGL281, or JOUR181.

JOUR199 Survey Apprenticeship (1 Credit)
College-monitored experience in approved mass-communications organizations and industries.
Prerequisite: Permission of JOUR-Philip Merrill College of Journalism.
Repeatable to: 6 credits if content differs.
Formerly: JOUR198.

JOUR200 Journalism History, Roles and Structures (3 Credits)
Introduction to the study of journalism from the standpoint of media history and sociology.

JOUR201 News Writing and Reporting I (3 Credits)
Introduction to news for the print and electronic media, development of new concepts: laboratory in news-gathering tools and writing skills. Students who earned 80% or higher on the JOUR181 diagnostic are exempt from the JOUR181 prerequisite.
Prerequisite: Minimum grade of C- in ENGL101, JOUR181, and JOUR200; and permission of JOUR-Philip Merrill College of Journalism.
Restriction: For students intending to be journalism majors; and permission of JOUR-Philip Merrill College of Journalism.

JOUR202 News Editing (3 Credits)
Copy editing, fact checking, verification and research across media platforms, including social, with consideration of story play and placement, graphic principles, headlines and SEO.
Prerequisite: JOUR201.
Restriction: Must be in a major in JOUR-Philip Merrill College of Journalism.

JOUR203 Introduction to Multimedia Skills (3 Credits)
Examining the basics of producing and editing digital photos, video, and audio. Topics include: framing, lighting, and other aspects of composition; sequencing, using wide, medium, and tight shots; and ethical considerations when collecting sound and visuals.
Prerequisite: JOUR201.
Restriction: Must be in a major in JOUR-Philip Merrill College of Journalism.
Credit Only Granted for: JOUR203 or JOUR328G.
Formerly: JOUR328G.

JOUR267 Introduction to Social Media and Audience Engagement (3 Credits)
Provides students with an overview of how journalists use social media to gather information, tell stories and reach their target audience. Students will develop skills in social content creation, audience engagement and sourcing and verification.
Credit Only Granted for: JOUR268 or JOUR267.
Formerly: JOUR268.

JOUR281 Media Law and Ethics in the Digital Age (3 Credits)
What are our legal rights and ethical responsibilities as citizens of the digital world? That is the big question we will be exploring this semester. Along the way, you will learn the constitutional foundations of free speech and consider their present-day applications to information gathering and sharing by citizens through social media and online platforms. You will come away with a practical working knowledge of the First Amendment, public access laws, libel, privacy, copyright. You'll develop critical thinking skills for recognizing and dealing with common ethical issues in digital communication.
Credit Only Granted for: JOUR289E or JOUR281.
Formerly: JOUR289E.
Additional Information: This course is intended for non-journalism majors.

JOUR282 Beyond Facebook: How Social Media are Transforming Society, Culture, Business and Politics (3 Credits)
How has social media changed the world, and how has the world changed social media? This course explores how social media has influenced relationships, culture, industry, politics, and the information environment, as well as how significant global events and technological advancements have contributed to the evolution of social media. This course gives students a broad contextual understanding of social media that they may apply in their daily lives as well as future academic inquiry.
Credit Only Granted for: JOUR289F or JOUR282.
Formerly: JOUR289F.

JOUR283 Probing War: Investigative Narratives and American Conflicts (3 Credits)
What role should the American news media play when the United States is at war? Students will explore the realities of war through the work of journalists who pushed beyond the daily headlines, some risking life and limb, to challenge official versions and document uncomfortable realities about American conflicts.
Credit Only Granted for: JOUR283 or JOUR289J.
Formerly: JOUR289J.

JOUR284 Scandal: Exposing Corruption, Justice, and Vice in America (3 Credits)
What are the ingredients of a juicy scandal? Money? Sex? Power? How are scandals uncovered? Why does society punish some scoundrels but not others? Come explore both serious and salacious scandals with a professor who's an expert in both--and who once exposed many scandals himself when he was an investigative reporter. This class examines scandals in politics, science, religion, social media, business, government, sports, and higher education; feeding frenzies, tabloid scandalmongering, undercover reporting, apologies, and cancel culture. Learn why even trivial scandals matter--and how scandals reflect what we value and ultimately who we are.
Credit Only Granted for: JOUR289P, JOUR284 or HONR239J.
Formerly: JOUR289P, HONR239J .

JOUR289I Information 3.0: Exploring Technological Tools (3 Credits)
In a mobile social media world with unlimited amounts of digital information available on demand, what does the future hold for a population that spends hours on their devices seeking, selecting, and sharing more entertaining content than critical information about national and world issues? This course explores innovative ways for producing digital content and engaging diverse audiences with important topics, such as those related to every student's major. Students also utilize new metric tools to answer the question asking how today's digital audiences consume various forms of media and content.

JOUR320 News Writing and Reporting II: Multiplatform (3 Credits)
Principles and practices of news reporting; covering news beats and other news sources, including researching news stories for accuracy, comprehensiveness and interpretation. Due to rigorous publication requirement, plan your schedule accordingly.
Prerequisite: Must have completed or be concurrently enrolled in JOUR152; and minimum grade of C- in JOUR201; and must have completed or be concurrently enrolled in JOUR262 or JOUR370.
Restriction: Must be in a major in JOUR-Philip Merrill College of Journalism.

JOUR325 Capital News Service Bureau (9 Credits)
Advanced journalism training. Students report as part of college's Capital News Service program.
Prerequisite: JOUR320; and permission of JOUR-Philip Merrill College of Journalism.

JOUR327 Urban Affairs Reporting (3 Credits)
Students are immersed in coverage of issues affecting cities, working on a semester-long multi-platform reporting project based in Baltimore.
Prerequisite: JOUR320; and permission of instructor. Jointly offered with JOUR627.
Credit Only Granted for: JOUR327 or JOUR627.

JOUR328 Special Topics in News Writing and Reporting (1-3 Credits)
Advanced training and practice in writing and reporting news.
Repeatable to: 6 credits if content differs.

JOUR334 Audio and Podcast Reporting (3 Credits)
Students will learn the tools needed to report and produce short- and long-form audio storytelling, including writing, reporting, interviewing, production, editing, hosting and delivery. Field reporting and audio gathering outside of class are required, along with writing and mixing broadcast-quality audio stories. Students will work together to produce a complete radio broadcast on deadline, with live and pre-recorded elements. Various interests in audio reporting are welcome and encouraged.
Prerequisite: JOUR360.
Formerly: JOUR368L.

JOUR343 Investigative Reporting (3 Credits)
Students will learn the essentials of accountability reporting while producing a publishable, in-depth project on an issue with national significance and impact on people's lives. Substantial fieldwork, teamwork and persistence are required.
Prerequisite: JOUR320; or must have completed or be concurrently enrolled in JOUR361. And permission of instructor.
Credit Only Granted for: JOUR328I or JOUR343.
Formerly: JOUR328I.

JOUR347 News Videography (3 Credits)
Introduction to shooting, editing and production of video stories for broadcast and the Web; includes newsgathering in the field.
Prerequisite: Must have completed or be concurrently enrolled in JOUR201.
Jointly offered with: JOUR603.
Restriction: Permission of JOUR-Philip Merrill College of Journalism.
Credit Only Granted for: JOUR262, JOUR347 or JOUR603.
Formerly: JOUR262.

JOUR352 Interactive Design and Development (3 Credits)
Conceptualize, wireframe, design and build responsive Web pages using HTML, style sheets and other coding tools; work with open source interactive tools, JavaScript libraries, multimedia and text to create charts, timelines, maps and other forms of nonfiction storytelling.
Prerequisite: JOUR152; and JOUR201; and must have completed or be concurrently enrolled in JOUR262 or JOUR370. Or permission of JOUR-Philip Merrill College of Journalism.
Restriction: Must be in a major in JOUR-Philip Merrill College of Journalism. Jointly offered with JOUR652.
Credit Only Granted for: JOUR352 or JOUR652.

JOUR353 News Bureau: Multimedia Reporting (6 Credits)
Advanced reporting and writing in an online environment focusing on multimedia, non-traditional storytelling and investigative reporting.
Prerequisite: JOUR352; and permission of JOUR-Philip Merrill College of Journalism; and (JOUR320 or JOUR360).

JOUR355 News Bureau: Multimedia Editing and Production (6 Credits)
Advanced online journalism training. Students work as multimedia and social media editors and producers, building interactive content and special reports.
Prerequisite: JOUR320 or JOUR360; and JOUR352; and permission of JOUR-Philip Merrill College of Journalism.

JOUR357 Capital News Service Broadcast Immersion (6 Credits)
Advanced broadcast journalism training. Students report as part of the College's Capital News Service program.
Prerequisite: JOUR361; and permission of JOUR-Philip Merrill College of Journalism.

JOUR358 Special Topics in Visual Communication (3 Credits)
Advanced training and practice in visual communication.
Prerequisite: JOUR320 or JOUR360.
Repeatable to: 6 credits if content differs.

JOUR360 News Writing and Reporting II: Broadcast (3 Credits)
Writing and reporting for broadcast media: production of news stories.
Prerequisite: Minimum grade of C- in JOUR201.
Restriction: Must be in a major in JOUR-Philip Merrill College of Journalism.

JOUR361 Television Reporting and Production (3 Credits)
Writing and editing for the broadcast media. Interpretive and documentary news stories.
Prerequisite: JOUR262 and JOUR360.

JOUR362 Broadcast News Producing (3 Credits)
Producing TV news.
Prerequisite: JOUR347 and JOUR360.
Jointly offered with: JOUR662.
Credit Only Granted for: JOUR362 or JOUR662.

JOUR364 Advanced Audio and Podcast Reporting (3 Credits)
Students will receive professional skills training in the reporting, writing, editing, voicing and production of radio news. Students will be required to do extensive field reporting, along with writing and mixing radio pieces. They will also participate in other aspects of radio news production, including editing, directing, live interviewing and hosting. By the end of the semester, students will have created all the elements of a complete radio broadcast. The class will also delve into the history and evolution of radio news and its future in podcasting and other forms.
Prerequisite: JOUR 334.
Jointly offered with: JOUR664.

JOUR367 Broadcast News Bureau (9 Credits)
Advanced broadcast journalism training. Students report as part of the college's Capital News Service program.
Prerequisite: JOUR361; and permission of JOUR-Philip Merrill College of Journalism.

JOUR368 Topics in Broadcast and Electronic Media (1-3 Credits)
Advanced research, analysis and/or practice of selected topics in broadcast journalism.
Repeatable to: 6 credits if content differs.

JOUR370 Photojournalism (3 Credits)
Examining the basics of shooting, editing and storytelling with still photos taken with 35mm digital cameras. Students shoot portraits, feature photos and action shots. Final project is a photo story/essay.
Prerequisite: Must have completed or be concurrently enrolled in JOUR201.
Restriction: Permission of JOUR-Philip Merrill College of Journalism.
Credit Only Granted for: JOUR370 or JOUR670.
Additional Information: Students are required to borrow, rent or purchase a 35mm digital camera. Contact department for camera specifications.

JOUR371 Feature Writing (3 Credits)
Research and writing feature articles.
Prerequisite: JOUR320.

JOUR382 Sports Reporting and Writing (3 Credits)
Gives students full and wide-ranging instruction in all aspects of sports reporting and writing, including how to report, write, edit and lay out sports stories, incorporating photography and multimedia. We will also discuss ethics, objectivity, fairness and the future of sports journalism.
Prerequisite: JOUR320; and permission of JOUR-Philip Merrill College of Journalism.
Jointly offered with: JOUR682.
Credit Only Granted for: JOUR382 or JOUR682.

JOUR383 Advanced Photojournalism (3 Credits)
Provides a deeper dive into the storytelling medium of photojournalism. Students will learn the skills necessary to tell in-depth, long-term stories through the use of still photography. Topics of discussion will include the history of photojournalism, changing approaches to the photo story/essay, how to approach a variety of potential subjects and situations, finding long-term photo story projects and organizing images for a variety of digital and traditional formats.
Prerequisite: JOUR370.
Restriction: Permission of Philip Merrill College of Journalism.
Credit Only Granted for: JOUR368N or JOUR383 .
Formerly: JOUR368N.

JOUR384 Social Media Content Creation, Audience Engagement and Analytics (3 Credits)
Provides students with an overview of social media best practices for journalists and will work to develop their skills in social content creation, audience engagement, sourcing and verification and analytics. By the end of this course, students will have the practical skills needed to manage a social media account for themselves or to contribute to the management of a news organization's social media presence.
Prerequisite: JOUR320 or JOUR360.
Jointly offered with: JOUR657.
Credit Only Granted for: JOUR368D or JOUR384 .
Formerly: JOUR368D.

JOUR388 Supervised Sports Communication Internship (1-3 Credits)
This course is designed to give students who have been offered media internships with sports teams and media companies the opportunity to receive degree credit for their work. The internship would allow them to acquire skills and apply classroom training in a professional setting under guidance of a company supervisor.
Prerequisite: Minimum grade of C- in JOUR201.
Restriction: Must have permission of the College of Journalism.
Repeatable to: 3 credits.
Additional Information: This will not replace the JOUR396 journalism internship course required for majors. It is instead an opportunity for students to explore other career paths that their degree prepares them for.

JOUR389 News Coverage of Special Topics (1-3 Credits)
Advanced training and practice in writing and reporting news in one specialized field of interest.
Repeatable to: 6 credits.

JOUR396 Supervised Internship (2 Credits)
Students will complete a minimum of 90 hours in a supervised journalism internship over a minimum of 10 weeks in spring and fall, and eight weeks in summer. Emphasis is on relating academic training to professional experience. To enroll, students must do the following: Fill out the internship proposal form, have their internship supervisor fill it out, and meet with the college's internship director to receive permission to register. No requests to register after the Schedule Adjustment Period will be granted.
Prerequisite: Must have earned a grade of C- or better in JOUR201.
Restriction: Must be a major in the JOUR-Philip Merrill College of Journalism.
Credit Only Granted for: JOUR326, JOUR366, or JOUR396.

JOUR398 Independent Study (1-3 Credits)
Individual projects in journalism.
Repeatable to: 3 credits.

JOUR399 Supervised Internship (1 Credit)
Supervised news internship experience; relation of academic training to professional experience.
Prerequisite: Minimum grade of C- in JOUR320 and JOUR360.
Repeatable to: 3 credits if content differs.
Credit Only Granted for: JOUR326, JOUR366, JOUR396, or JOUR399.

JOUR402 Journalism Law and Ethics (3 Credits)
An examination of the legal rights and ethical problems and constraints of mass media, including libel, privacy, copyright, monopoly and contempt.
Prerequisite: JOUR201.
Credit Only Granted for: JOUR402 OR JOUR400 and JOUR300.

JOUR405 Breaking News With Numbers: Statistics for Journalists (3 Credits)
Common statistical tools, software and data visualization techniques will be used to allow students to analyze data and solve problems relevant to reporting and writing about politics, sports, criminal justice, business and other fields.
Prerequisite: Minimum grade of C- in JOUR201; and (MATH107 or MATH110; or must have completed a higher level math course).
Restriction: Must be in a major in JOUR-Philip Merrill College of Journalism.

JOUR434 Salzburg Seminar: Global Media Literacy (3 Credits)
An advanced analysis of the information, values underlying messages conveyed via television, newspapers, the Internet, magazines, radio and film from a cross-cultural perspective. Examines the accuracy of messages and explores how distinctive global media shape views of politics culture and society with nations, across regions and internationally.
Restriction: Must be in Salzburg Academy program. Jointly offered with JOUR734.
Credit Only Granted for: JOUR434 or JOUR734.

JOUR435 Salzburg Seminar: Global Change, Global Cooperation (3 Credits)
Practical and theoretical examination of a global problem (or problems) of contemporary importance from a cross-cultural, perspective. Analytical framework used to examine how media shape global problems, events and/or issues regionally.
Restriction: Must be in Salzburg Academy program. Jointly offered with JOUR735.
Credit Only Granted for: JOUR435 or JOUR735.

JOUR443 Sports, Society, Culture and the Media (3 Credits)
Designed to explore how sports, society, culture and the media critically relate to each other and the vast audiences of fans and interested parties. Students will study how journalists impact change; how sports shape culture; and how sports are seen throughout the world. College sports, children and sports, the business of sports, the history of sports media and the future of sports in society will be studied as well.
Restriction: Junior standing or higher.
Credit Only Granted for: JOUR459G or JOUR443.
Formerly: JOUR459G.

JOUR447 Sports, Protest and the Media (3 Credits)
Addresses why activists, whether athletes or not, have long commanded ceremonial and ritualistic games to promote a cause or take a stand. It examines the important role of media as collectors, editors, interpreters and disseminators of information or news about athletic competitions, athletes and political pronouncements revolving around athletic events and their participants.
Credit Only Granted for: JOUR447 or JOUR458M.
Formerly: JOUR458M.

JOUR451 Advertising and Society (3 Credits)
Advertising as an institution with manifest economic purposes and latent social effects. Influences of advertising on people, and related issues of ethics and social responsibility.
Restriction: Junior standing or higher.

JOUR452 Women in the Media (3 Credits)
Participation and portrayal of women in the mass media from colonial to contemporary times.
Cross-listed with: WGSS452.
Credit Only Granted for: JOUR452, WMST452 or WGSS452.
Formerly: WMST 452.

JOUR453 Media Coverage of Diversity (3 Credits)
Analysis of media coverage of issues relating to diversity in the United States, with special attention to race, ethnicity, class, gender, sexual orientation and religious affiliation.
Restriction: Junior standing or higher.

JOUR455 Media Entrepreneurship (3 Credits)
Basic business and entrepreneurship concepts will be covered and will explore how technology is transforming the business of media. Students develop and pitch ideas for media businesses, learn startup basics, do exercises in Internet advertising and business plan analysis, use social networks and other digital communication tools, and perform other hands-on exercises in business development and presentation.

JOUR456 Literature in Journalism (3 Credits)
From Truman Capote's In Cold Blood to Mark Bowden's Black Hawk Down, students will examine how literary works can help writers approach a subject in a different way than more traditional forms of journalism, including the advantages and limitations of the style.
Credit Only Granted for: JOUR456 or JOUR673.

JOUR458 Special Topics in Journalism (3 Credits)
Issues of special concerns and current interest.
Repeatable to: 6 credits if content differs.

JOUR459 Special Topics in Journalism (1-3 Credits)
Issues of special concern and current interest. Open to all students.
Repeatable to: 6 credits if content differs.

JOUR471 Follow the Money: Reporting on Business (3 Credits)
Business and economics reporting is one of the strongest sectors of journalism with lucrative employment opportunities. This class, designed for journalism and non-journalism majors, introduces students to the main economic and business themes that dominate news coverage. Topics will include: corporate money and power in Washington, the ups and downs of the stock market, rising income inequality, the immigration crisis, why we have a trade war with China and technology disruptors. This class will be helpful to students who want to enhance their career opportunities by understanding how the economy works, why globalization is important and how the biggest corporations--including technology companies--have such a big influence on the way we live.
Restriction: Must have permission of the College of Journalism.
Credit Only Granted for: JOUR479C or JOUR471.
Formerly: JOUR479C.

JOUR472 Data Journalism (3 Credits)
A practical, skills-based course in the basics of modern data journalism, data literacy and data storytelling. Students will learn to use data visualization, data analysis and other data-driven reporting techniques.
Prerequisite: JOUR320 or JOUR360.
Jointly offered with: JOUR772.
Credit Only Granted for: JOUR472 or JOUR772.

JOUR473 Computational Journalism (3 Credits)
Designed to teach the application of computational methods in journalism and reporting. The methods include natural language processing, visualization, and web data mining. The course will also cover the necessity and impact of journalistic ethics in designing computation solutions.
Prerequisite: Permission of the Philip Merrill College of Journalism.
Cross-listed with: INST403.
Jointly offered with: JOUR773.
Credit Only Granted for: JOUR479V, JOUR473, INST408I or INST403.
Formerly: JOUR479V and INST408I.

JOUR475 Understanding Audiences and Analytics (3 Credits)
As journalism evolves, it may be more important than ever to understand what were once simply called "audiences" -- who they are, how they consume news, and what that engagement means for them and for society. Students will learn to think critically about news audiences and contemporary issues in audience research.
Prerequisite: Student must have completed a university statistics course.
Credit Only Granted for: JOUR479O or JOUR475.
Formerly: JOUR479O.

JOUR476 Researching Emerging Media in Journalism: Past, Present and Future (3 Credits)
Students will examine developments billed as innovative in the current technology-laden news ecology -- such as social media, mobile reporting and virtual reality -- and the blurring of lines between hard news, informed opinion and advocacy. While questions about the future cannot be answered with any certainty, an exploration of the past allows us to see what happened when new technologies, information systems and practices appeared as possible tools for use by journalists and the communities they served. Students will learn to use resources for researching emerging media, including UMD library databases and open access sources. The course will include presentations by the instructor, discussions, field trips, in-class exercises and student presentations. Each student will engage in a research project to understand the experience of emerging media in a decade between 1820 and 1980. Students will also write an essay contemplating current trends and the future of emerging media.
Prerequisite: Must have completed a university statistics course.

JOUR479 Special Topics in Data Gathering and Analysis (1-3 Credits)
Special research topics for reporting and writing.
Repeatable to: 3 credits.

JOUR480 Capstone Colloquium: The Business of News (1 Credit)
Students will learn the basic news business concepts and examine how revenue and cost structures for media businesses are evolving in new directions. Topics include basic principles and concepts that drive media businesses in the Internet age, including revenue sources, dynamics of online advertising and subscriptions, mobile media strategies, user metrics, engaging audiences, and market dynamics.
Restriction: Must be in a major in JOUR-Philip Merrill College of Journalism; and junior standing or higher; and permission of JOUR-Philip Merrill College of Journalism.

JWST - Jewish Studies

JWST141 American Jewish Experience (3 Credits)
History of the Jews in America from Colonial times to the present. Emphasis on the waves of migration from Germany and Eastern Europe; the changing nature of the American Jewish community and its participation in American social, economic, and political life.
Cross-listed with: HIST106.
Credit Only Granted for: HIST106 or JWST141.

JWST171 Is Judaism a Religion? (3 Credits)
Jewish identity can be framed in terms of ethnicity, culture, and religious practice, but also in terms of more contemporary social constructions including social action, political engagement, and intellectual pursuit. In the context of such diverse social and individual frames, what does it mean to identify Judaism as a religion? Attention to Jewish society in historical and global perspective will provide a backdrop for a particular focus on contemporary Jews in the United States and Israel.
Cross-listed with: RELS171.
Credit Only Granted for: JWST171 or RELS171.

JWST187 God, Land, Power, and the People: Moral Issues in the Jewish Historical Experience (3 Credits)
Examines the complicated relationship between theology, nationalism, sovereignty, and the ethical exercise of social control using case studies drawn from the Jewish historical experience. The universal and age-old issues implicit in the exercise of power have gained special moral force for Jews with the creation of the State of Israel, a Jewish and a democratic state with substantial non-Jewish minorities and hundreds of thousands of non-citizen subjects. Can these be reconciled? Jewish efforts over the ages and in recent times to define justice provide concrete examples through which to examine and discuss crucial abstract principles.
Cross-listed with: HIST187, ISRL187.
Credit Only Granted for: HIST187, JWST187 or ISRL187.

JWST219 Special Topics in Jewish Studies (3 Credits)
Repeatable to: 9 credits if content differs.

JWST225 Religions of the Ancient Near East (3 Credits)
Introduction to ancient Near Eastern religious systems and mythology, from the third millennium BCE through the fourth century BCE. Particular emphasis on Mesopotamia and ancient Israel.
Cross-listed with: RELS225, HIST219I.
Credit Only Granted for: JWST225, HIST219I, RELS225, or RELS219A.
Formerly: RELS219A.

JWST230 Inventing Traditions: The Making of Rabbinic Judaism (3 Credits)
Introduces the dramatic literary and cultural (as well as political and demographic) innovations that reshaped Judaism in late antiquity. Examines the fundamental works and genres of rabbinic literature and the religious movement that produced them. Special emphasis on the rabbinic uses of "tradition" to enhance authority and legitimacy, and to foster group identity.
Cross-listed with: HIST281, RELS230.
Credit Only Granted for: HIST281, JWST230, RELS219C or RELS230.
Formerly: RELS219C.

JWST231 Jewish Texts and Cultures of the Second Temple Period (3 Credits)
An introduction to the literature, history, and culture of Jews in the period between the sixth century BCE and the second century CE. Special topics may include the rise of the formation of the biblical canon, scriptural interpretation, sectarian and revolutionary movements, and growth of the diaspora.
Cross-listed with: HIST291.
Credit Only Granted for: HIST291 or JWST231.

JWST233 Why the Jews? Historical and Cultural Investigations (3 Credits)
Examines the history and culture of the Jews from the thirteenth century BCE/BC to the present through an examination of significant themes or problems (such as "religion" or "diaspora") that shape our understanding of the Jewish people. A primary focus in the course will be on texts, artifacts, and other cultural products by Jews and others that illustrate the history of the Jews help understand their cultural heritage.
Restriction: Must not have completed HIST282, HIST283, JWST234, or JWST235. Cross-listed with HIST287.
Credit Only Granted for: JWST233 or HIST287.

JWST235 History of the Jewish People II (3 Credits)
Political, economic, social and cultural development within Jewish history from the end of the Middle Ages to the present. Special attention to the twentieth century developments including the Nazi Holocaust and its aftermath, the Zionist movement and the creation of the State of Israel, and the rise of the contemporary American-Jewish community.
Credit Only Granted for: HIST283, HIST283H, JWST235, or JWST235H.

JWST250 Fundamental Concepts of Judaism (3 Credits)
A conceptional introduction to Judaism, analyzing its fundamental concepts from both analytical and historical perspectives. Discussion of "normative" Judaism as well as other conceptions of Judaism. Topics include: God, the Jewish people, authority, ethics, the sacred and the profane, particularism and universalism.
Cross-listed with: PHIL234, RELS250.
Credit Only Granted for: JWST250, PHIL234, or RELS250.

JWST256 Zionism and Sexual Revolution (3 Credits)
A study of the changes within European Jewish communities that influenced the development of particular fantasies about and representations of gender, love, and sex in Palestine and Israel. We will investigate the broader intellectual and cultural contexts needed to understand the gender and sexual revolutions of the 19th and 20th centuries, and will examine how European and, later, Israeli Jews adopted and adapted these ideas and cultural forms. We will closely analyze a variety of texts (stories, plays, photographs, and films) and will consider the relationship between ideology and aesthetics.
Cross-listed with: ISRL256.
Credit Only Granted for: ISRL249N, JWST219G, ISRL256, or JWST256.
Formerly: ISRL249N or JWST219G.

JWST262 Introduction to the Hebrew Bible/Old Testament (3 Credits)
Origins of the Hebrew Bible (Old Testament), with attention to literary formations, archaeology, and social-political settings. Explorations of major questions, including who wrote the Bible, and when; relationships of the biblical tradition to the mythology and religious structures of ancient Israel's near eastern neighbors; and dynamics of politics, religious leadership, and law.
Cross-listed with: ENGL262, HEBR298B.
Credit Only Granted for: JWST262, HEBR298B, or ENGL262.

JWST269 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

JWST272 Diversify and Multiply: Jewish Culture and the Production of an Identity (3 Credits)
Provides students with a unique exploration of cultural products produced by a diverse array of Jewish creators of literature, comedy and film. The texts, films, and performing arts touch on the central social, economic, and cultural issues of Jews during the ages, and up to the 21st century. This course will explore Jewish creativity throughout history, as well as the Jewish encounter with modernity as a whole. We will be diving into prominent creators such as Tiffany Haddish, Larry David, Sholem Aleichem, Adam Sandler, S. Y. Abramovitsch, Judd Apatow, Philip Roth, Amy Schumer, I. B. Singer, Ben Stiller, Franz Kafka, Dan Levy, and others. Examining their creations will open a window to the diverse methods of construction of modern Jewish identities.
Cross-listed with: CMLT242.
Credit Only Granted for: JWST272, CMLT242, or ISRL249G.

JWST274 Jerusalem in Antiquity: The History of Sacred Space in a Holy City (3 Credits)
Examines the complex history of Jerusalem's status as a holy city, with a focus on constructions of sacred space in Judaism, Christianity, and Islam.
Cross-listed with: RELS274.
Credit Only Granted for: JWST274, RELS274, JWST289J or RELS289J.
Formerly: JWST289J, RELS289J.

JWST275 Urban Dreams and Nightmares: The Jewish Experience of Cities (3 Credits)
Cities give expression to man's power while they highlight human limitations. It is urban social diversity that makes great wealth and thriving culture possible, but it also fixes discrimination behind walls constructed from paper and stone. Nations make cities symbols of the sacred and the glorious, while they ignore the poverty and social alienation that city life breeds. Jews, intensively urbanized for millennia, provide a special vantage point from which to study the beauty and the tragedy implicit in city-building. Our sources will include the Bible, poems, plays and novels but also US Supreme Court rulings and news of riots in Israel. We will survey how Jews have shaped, and been shaped by, the urban challenge over time and space.
Cross-listed with: HIST286.
Credit Only Granted for: HIST286 or JWST275.

JWST281 Yiddish I (3 Credits)
Introduction to the Yiddish language, with emphasis on speaking, reading, and writing skills. Students will also learn the history of the language, its significance to Jewish culture, its origins and basic structure.
Cross-listed with: GERS141.
Credit Only Granted for: JWST281, GERM148Y or GERS141.

JWST282 Yiddish II (3 Credits)
Introduction to the Yiddish language, with emphasis on speaking, reading, and writing skills. Students will also learn the history of the language, its significance to Jewish culture, its origins and basic structure.
Prerequisite: JWST281; or permission of ARHU-Meyerhoff Program & Center for Jewish Studies.
Cross-listed with: GERS142.
Credit Only Granted for: GERM149Z, GERS142 or JWST282.

JWST285 Jewish Languages in America (3 Credits)
With a particular focus on language minority intra-group relationships -- the convergences, divergences, feelings of solidarity and tensions of difference within the group--this course will examine the history, current functional use and identity implications of Jewish languages in the United States.
Cross-listed with: HEBR298O.
Credit Only Granted for: JWST285, JWST219O or HEBR298O.
Formerly: JWST219O.

JWST289 New Explorations in Jewish Studies (3 Credits)
Investigation of critical and innovative responses in Jewish Studies. Although the topic will vary, the course will encourage intellectual exploration by students of fundamental problems and critical methods.

JWST289E Civil Discourse or Urban Riot: Why Cities Don't (Often) Explode (3 Credits)
An examination of the mechanisms that promote peaceful co-existence in urban societies and a discussion of how and why city streets sometimes become violent.
Cross-listed with: HIST135.
Credit Only Granted for: HIST135 or JWST289E.

JWST290 Can Jews be Arabs? Identity and Crisis for the Jews of Arab Lands in Modern Times (3 Credits)
For centuries, Jews inhabited the Islamic lands of the Middle East and North Africa. Their population has dropped from nearly one million a century ago to several tens of thousands today, mostly in Turkey and Iran. The vibrant and ancient Jewish communities of Iraq, Egypt, Syria, Morocco, Algeria, Libya, and several other countries were practically gone by 1970. One popular explanation for this exodus is that an "age-old schism between Jews and Muslims," in the words of the prominent historian Martin Gilbert, drove Jewish men and women to leave their historic homelands in the years following the first Arab-Israeli war of 1948. However, recent research into these communities offers a more complex picture of their lives in Islamic lands in the 19th and 20th centuries and subsequent departure.
Cross-listed with: HIST290.
Credit Only Granted for: JWST289A, HIST219C or HIST290.

JWST298 Elementary/Introductory Language Module for Jewish Studies (1-3 Credits)
A supplementary language module for students enrolled in designated Jewish Studies classes. Language of instruction English, texts in original language.
Prerequisite: HEBR212 or JWST282; or permission of ARHU-Meyerhoff Program & Center for Jewish Studies.
Repeatable to: 9 credits if content differs.

JWST299 Independent Study in Jewish Studies (1-3 Credits)
This lower-level independent study allows students in to work closely with a Jewish Studies faculty member of their choice, pending the prior approval of the faculty member. In this independent study, students will focus on a topic specific to Jewish Studies.
Prerequisite: Permission of ARHU-Meyerhoff Program & Center for Jewish Studies.
Repeatable to: 6 credits if content differs.

JWST304 Critical Approaches to Israeli Culture (3 Credits)
An examination of the intersections of literature, society, philosophy, and politics in the making of modern Israeli culture. Special attention will be paid to the Zionist emphasis on making "new" Jews and its implications when expressed in literature and society.
Formerly: JWST419B and JWST419K.

JWST314 Pedagogy and Instruction in the Hebrew Classroom (3 Credits)
An exploration of applied linguistic theory and issues in Hebrew teaching to current and future Hebrew and Judaic studies teachers. First and second language acquisition theories, past and present language teaching methodologies, effective approaches to teaching and testing in the four skill areas (listening, speaking, reading, and writing), as well as knowledge of the role of identity, context, and affective factors in Hebrew language learning. Taught in English.
Credit Only Granted for: JWST314, JWST419F, or JWST429C.
Formerly: JWST419F and JWST429C.

JWST315 Culture and Identity in Jewish and Hebrew Education (3 Credits)
An in-depth examination of heterogeneous natures of various language learning settings. Social and psychological theories of second language and identity acquisition, anomie and language/identity attrition, and conflicts of class, religion, ethnicity, and power relations that affect Jewish and Hebrew education. Taught in English.
Credit Only Granted for: JWST429P or JWST315.
Formerly: JWST429P.

JWST319 Special Topics in Jewish Studies (1-6 Credits)
Topics in Jewish Studies.
Repeatable to: 12 credits if content differs.

JWST319D Mizrahi Identity in Israel (3 Credits)
It is impossible to understand Israeli society today without examining the Mizrahi experience. Despite the common misconception that Israel is predominantly made up of Jews from European origin, the fact of the matter is that Jews of Mizrahi origin, whose parents and grandparents immigrated to Israel from the Middle East and North Africa, represent a major part of the Israeli population. Moreover, Ashkenazi-Mizrahi relations continue to be a major source of tension in Israeli politics, and issues of race continue to come up on social media and polarize the Israeli society. This course brings to light narratives of Mizrahi identity in Israel and explores the trajectory of the Mizrahi struggle for equality and against racism through its various milestones: the 1959 Wadi Salib Revolt, the Black Panthers Movement in the 1970s, the emergence of the Israeli Sephardi-Orthodox party Shas, and the new wave of Mizrahi activism in the 21st century.
Cross-listed with: ISRL330, HIST377.
Credit Only Granted for: JWST319D, HIST377, HIST329Z, ISRL329M, or ISRL330.
Formerly: ISRL329M.

JWST319P Arts & Humanities in Social Innovation, Change, and Justice: Do Good Now (3 Credits)
The course serves as the core course for the Arts-and-Humanities track in PLCY's minor in "Nonprofit Leadership and Social Innovation." Students will be introduced to the role that the Arts and Humanities can play in social innovation and social change, while exploring various mechanisms for achieving impact with a focus on advancing social justice, equity and systems change. This course deepens understandings of nonprofit leadership, entrepreneurship and social innovation by guiding students through the creation and implementation of social change projects and ventures of their choice.
Cross-listed with: ARHU380.
Credit Only Granted for: ARHU380, BSOS388B, JWST319P, or PLCY388D.

JWST319Y Archaeological Methods and Practice (3 Credits)
A team-taught, interdisciplinary course discussing theories, methods, and ethical issues in the practice of archaeology.
Prerequisite: ANTH240, ARTH200, CLAS180, or CLAS190.
Cross-listed with: ANTH305, ARTH305, CLAS305.
Credit Only Granted for: ANTH305, ARTH305, CLAS305, or JWST319Y.

JWST324 Archaeology and the Quest for Ancient Israel (3 Credits)
The Hebrew Bible/Old Testament tells the story of "Biblical Israel" in ways that overlap with but are not identical to the evidence for "ancient Israel" provided by archaeological sources. Close attention to archaeology and inscriptional evidence allows for an understanding of biblical literature in light of its ancient Near Eastern context. Primary focus is on the Iron Age (ca. 1200-540 BCE), whose archaeology and inscriptions will be explored alongside biblical texts set during the this period but often written much later. Class discussion will address modern controversies regarding ancient Israel, including questions of origins (what does proto-Israelite mean?), problems of historiography (minimalist vs. maximalist), and archaeological dating (low chronology vs. high chronology).
Cross-listed with: HIST321.
Credit Only Granted for: HIST321 or JWST324.

JWST325 Jews and Judaism in Antiquity I: Sixth Century BCE through the First Century CE (3 Credits)
Political, social, and religious history of the Jews from the Persian period to the Judean revolt of 66-70 CE. Special attention to the rise of sectarian and revolutionary movements.
Cross-listed with: HIST370.
Credit Only Granted for: HIST370 or JWST325.

JWST326 Jews and Judaism in Antiquity II: First through Seventh Century (3 Credits)
Political, social, and religious history of the Jews from the destruction of the Jerusalem Temple in 70 CE to the Muslim conquests. Special attention to the political transformations in Judaism under late Roman Christianity, and the rise of the Rabbinic movement.
Recommended: HIST370.
Cross-listed with: HIST371.
Credit Only Granted for: HIST371 or JWST326.

JWST331 Early Christianity: Jesus to Constantine (3 Credits)
Social and religious history of early Christianity from its origin in the first century to the reign of Constantine.
Cross-listed with: HIST320.
Credit Only Granted for: HIST320 or JWST331.

JWST332 The Israeli Settler Movement: The Road to One State? (3 Credits)
Explores the Israeli settler movement over the last four decades, from its position on the fringes of Israeli society in the 1970s and 1980s to its rise to prominence in Israeli politics today. Topics will include the history of the Israeli settlement project in the West Bank, the emergence of Gush Emunim and its ideological foundations in Jewish messianism, its violent offshoots, and the influence of the settler movement on the Israeli political system. Study of these topics illuminates some of the most important driving forces of modern history such as nationalism, religious fundamentalism, colonialism and the ability of a determined minority to influence a country's policies.
Cross-listed with: HIST381, ISRL344.
Credit Only Granted for: HIST329G, HIST381, ISRL329G, ISRL344, JWST332 or JWST319N.
Formerly: JWST319N.

JWST333 Martyrs & Merchants, Lawyers & Mystics, Magicians & Messiahs: Jews Between Medieval and Modern Times (3 Credits)
In an era marked by traumatic expulsions, inquisitorial barbarism, and enforced ghettoization, Jews reinvented themselves. Through their international networks of trade, Jews learned how to negotiate with kings and to govern new, large urban communities in new lands. They took advantage of the printing press to reorganize their literary traditions of law, biblical studies and mysticism, and created new hierarchies of religious status. And they flocked to hear new kinds of enthusiast preachers, celebrating the man they saw as the messiah finally come. We will together explore the contradictory forces that ultimately gave birth to the modern Jew.
Recommended: HIST287 or JWST233; HIST 332; .
Cross-listed with: HIST373.
Credit Only Granted for: JWST333 or HIST373.

JWST334 Mizrahi Identity in Israel (3 Credits)
It is impossible to understand Israeli society today without examining the Mizrahi experience. Despite the common misconception that Israel is predominantly made up of Jews from European origin, the fact of the matter is that Jews of Mizrahi origin, whose parents and grandparents immigrated to Israel from the Middle East and North Africa, represent a major part of the Israeli population. Moreover, Ashkenazi-Mizrahi relations continue to be a major source of tension in Israeli politics, and issues of race continue to come up on social media and polarize the Israeli society. This course brings to light narratives of Mizrahi identity in Israel and explores the trajectory of the Mizrahi struggle for equality and against racism through its various milestones: the 1959 Wadi Salib Revolt, the Black Panthers Movement in the 1970s, the emergence of the Israeli Sephardi-Orthodox party Shas, and the new wave of Mizrahi activism in the 21st century.
Cross-listed with: ISRL330, HIST377.
Credit Only Granted for: JWST319D, JWST334, HIST377, HIST329Z, ISRL329M, or ISRL330.
Formerly: ISRL329M.

JWST341 American Jewish Literature (3 Credits)
An exploration of the role played by literature in the development of American Jewish ethnic identity. Primary materials include essays, poetry, plays, short stories, novels, films and music.Cross-listed with ENGL331.
Credit Only Granted for: ENGL331 or JWST341.

JWST344 Modern Jewish History II: World Jewry Since 1870 (3 Credits)
Social, political, economic, and cultural change in the Jewish world since 1870. Emphasis on emancipation, assimilation, and new forms of Jewish identity in Western and Eastern European Jewry from the 19th Century to the present.Cross-listed with HIST375.
Credit Only Granted for: HIST375 or JWST344.

JWST345 The Holocaust of European Jewry (3 Credits)
Roots of Nazi Jewish policy in the 1930's and during World War II: the process of destruction and the implementation of the "final solution of the Jewish problem" in Europe, and the responses made by the Jews to their concentration and annihilation.
Cross-listed with: HIST307.
Credit Only Granted for: HIST307 or JWST345.

JWST346 Representing the Holocaust (3 Credits)
Different perspectives on how the Holocaust should be represented. Examination of a wide range of texts including fiction, memoirs, critical essays, poems and films in different languages (in translation). Emphasis on the international and comparative nature of Holocaust literary studies and investigation into the propriety of literary representation of historical catastrophe. Consideration of our own role as readers serving as witnesses to an event that has marked itself indelibly in the aesthetic history of the twentieth century.
Credit Only Granted for: ENGL379J, JWST419I, ENGL332, or JWST346.
Formerly: ENGL379J and JWST419I.

JWST347 Tradition and Change: Jewish Religion in the Modern World (3 Credits)
An exploration of the history of the different modern Jewish religious movements that developed in Europe, starting with messianic movements and ending with Reform and Orthodoxy. Emphasis will be placed on the influence of the academic study of Judaism on the development of modern Jewish religious ideologies and practices.
Cross-listed with: HIST429X, RELS347.
Credit Only Granted for: RELS347, JWST347, HIST429X, or RELS419R.
Formerly: RELS419R.

JWST369 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

JWST370 Before the Holocaust: The Golden Age of Eastern European Jewry (3 Credits)
An exploration of the history of the Jews of Eastern Europe from the period of the Polish Lithuanian Commonwealth until the Holocaust. Topics to be covered include religious, political, social, and cultural transformation of Jewish life in Eastern Europe in the context of the general political changes in the area.
Cross-listed with: HIST419Q.
Credit Only Granted for: JWST419E, JWST370, or HIST419Q.
Formerly: JWST419E.

JWST372 Jewry of Muscle: Zionism and Jewish Masculinity (3 Credits)
Part of the Zionist cultural project involved creating a new Jewish masculinity that would replace the diasporic "sissy Jew" with a strong, healthy new "Jewry of Muscle." Using literary and cinematic sources, we will analyze how these Zionist and Israeli cultural productions served to build (and sometimes undermine) this new model of Jewish masculinity.
Cross-listed with: ISRL372.
Credit Only Granted for: JWST319K, ISRL329K, JWST372 or ISRL372.
Formerly: JWST319K or ISRL329K.

JWST373 Sexuality in Jewish Literature and Culture (3 Credits)
Provides students with a unique exploration of texts and films created by various Jewish authors and filmmakers, and the way they dealt with questions of gender and sexuality. The texts and films touch on the central social, economic, and cultural issues of European, American, and Israeli Jewry during the middle ages, and up to the 19th, 20th and 21st centuries. It will explore how the categories of gender and sexuality changed and were represented in rich and contrasting ways according to the authors' social norms and ideological convictions. Focusing on sexuality and gender in Jewish culture can help us better understand Jewish social norms, creativity, and history, in particular modern Jewish literatures, visual medias, and the Jewish encounter with modernity as a whole. We will be reading prominent writers and filmmakers such as Sholem Aleichem, Philip Roth, S. Y., Jill Soloway, Abramovitsch, Todd Solondz, Celia Dropkin, I. B. Singer, Sholem Ash, Boaz Davidson, Judd Apatow, Tseruyah Shalev, and others. This is a discussion-based course; however, it also emphasizes developing the skills of analytical and abstract thinking and critical writing about texts and other cultural productions. This course does not require proficiency of any foreign language or any specific historical knowledge.
Credit Only Granted for: JWST319L or JWST373.
Formerly: JWST319L.

JWST374 Yiddish and the Supernatural: Demons, Golems, and Dybbuks (3 Credits)
Yiddish folklore is marked by a fascination with the mystical world and a rich tapestry of supernatural tales. Explore how Jewish communities have used storytelling to grapple with questions of faith, morality, identity, and the unknown, and how the golems, demons, and dybbuks of this tradition have been adapted in literary translations and cinematic adaptations. Through literary analysis, historical inquiry, and creative interpretation, this course examines the enduring power of these stories in Jewish culture and the broader traditions of magical realism and horror. All texts will be available in English translation.

JWST375 Jews and Representations of Race (3 Credits)
Attention to the evolution of Western concepts of "race" from late medieval to modern times requires addressing the meaning of the term "race." How did constructions of Jewish "racial" identities fit into this broader discussion? As Christian Europe's primary minority for centuries, "the Jews" provide evidence for constructions of race as a means of grouping populations culturally and materially. How did Jews interact with the racial discourse of diverse time periods, and how did they negotiate their political realities by both adopting and challenging aspects of the rhetoric of antisemitism as well as the rhetoric of "whiteness" versus "blackness"?
Cross-listed with: ISRL375.
Credit Only Granted for: ISRL375, JWST375, ISRL349Z, or JWST319M.
Formerly: ISRL349Z or JWST319M.

JWST386 Experiential Learning in Jewish Studies (3 Credits)
The Jewish Studies Program's internship program. Pre-professional experience in research, analysis, and writing related to Jewish Studies in a variety of work settings.
Prerequisite: Permission of ARHU-Meyerhoff Program & Center for Jewish Studies.
Restriction: Junior standing or higher.

JWST408 Honors Seminar in Jewish Studies (3 Credits)
An in-depth exploration of a theme in Jewish history, literature, culture or thought. Course subject and readings will vary from year to year, but will generally cut across periods, locations, or disciplines. Students are expected to engage the course material critically and to use the seminar as an opportunity to develop an independent research agenda.
Prerequisite: Permission of ARHU-Meyerhoff Program & Center for Jewish Studies.
Restriction: Junior standing or higher.

JWST409 Research Seminar in Jewish Studies (3-4 Credits)
A capstone course for Jewish Studies. Guides students through advanced source material and subject matter, research skills, and presentation techniques. A substantive paper based on independent research and analysis is one expected outcome.
Prerequisite: Must have completed two upper-level courses in an appropriate area of Jewish Studies; or permission of ARHU-Meyerhoff Program & Center for Jewish Studies.
Repeatable to: 9 credits if content differs.
Formerly: JWST309.

JWST418 Honors Thesis Research in Jewish Studies (3-6 Credits)
Guided research on a thesis under the supervision of the Jewish Studies faculty.
Repeatable to: 6 credits if content differs.

JWST419 Special Topics in Jewish Studies (3 Credits)
Repeatable to: 9 credits if content differs.

JWST427 The Epic of Gilgamesh (3 Credits)
One of the most famous tales from the ancient world, the Epic of Gilgamesh inspires readers with tales of friendship and loss, mortality, and the search for meaning. The story itself grew and changed over time and took on new meanings. Through study of the epic, its development over time, and the sources it drew from, this class will examine the meaning of the Gilgamesh epic and its impact on ancient Mesopotamian culture.
Prerequisite: JWST225, RELS225, HIST219I, or permission of the instructor.
Recommended: JWST262, ENGL262, or HEBR298B.
Cross-listed with: RELS427.
Credit Only Granted for: JWST419G, RELS419G, RELS427 or JWST427.
Formerly: JWST419G.

JWST429 Advanced Topics in Jewish Studies (3-4 Credits)
Special topics at an advanced level for Jewish Studies. Primarily intended for majors and graduate students.
Repeatable to: 12 credits if content differs.

JWST430 Dead Sea Scrolls (3 Credits)
A study of the Dead Sea Scrolls in their ancient and modern settings, and in terms of contemporary scholarly interpretations of their meaning. Interpretations of the historical significance of these documents, their connections to ancient Jewish sectarian movements, and their implications for our understanding of Judaism, Christianity, and the history of the Bible.
Prerequisite: Must have completed one JWST course or one RELS course; or permission of ARHU-Meyerhoff Program & Center for Jewish Studies. Cross-listed with RELS430.
Credit Only Granted for: JWST430 or RELS430.

JWST432 Jews in Medieval Times 1000-1450 (3 Credits)
Social and cultural life of Jewish communities spread throughout Islam and Christendom. Major topics include the Gaonate, kehila organizations, legal, rationalist, and mystical thought, and the context of rising animosity against Jews linked to the Crusades and changing Church doctrines.
Recommended: HIST282, HIST330, HIST331, or JWST234.
Cross-listed with: HIST476.
Credit Only Granted for: HIST476 or JWST432.

JWST452 The Golden Age of Jewish Philosophy (3 Credits)
Jewish philosophy from Maimonides in the 12th century to the expulsion of the Jews from Spain at the end of the 15th Century. Topics include the limitations of human knowledge, creation of the world, foreknowledge and free will, and the existence of God.
Prerequisite: 3 credits in PHIL courses; or permission of ARHU-Meyerhoff Program & Center for Jewish Studies; or permission of ARHU-Philosophy department.
Cross-listed with: PHIL417.
Credit Only Granted for: JWST452 or PHIL417.

JWST459 Readings in Medieval Hebrew (3-4 Credits)
Readings and analysis of Hebrew texts and literature from the Middle Ages. Language of instruction in English; all texts in Hebrew.
Repeatable to: 9 credits if content differs.
Credit Only Granted for: JWST459 or JWST466.
Formerly: JWST466.

JWST468 Readings in the Hebrew Bible (3-4 Credits)
Readings in the Hebrew text of the Bible. Emphasis in close reading, grammar analysis, and modern interpretations of the Bible. Language of instruction English; all texts in Hebrew.
Prerequisite: HEBR313; or permission of instructor.
Repeatable to: 9 credits if content differs.
Formerly: HEBR441 and HEBR442.

JWST469 Readings in Rabbinic Hebrew (3-4 Credits)
Readings in classical rabbinic texts and related corpora. Emphasis on grammar and reading skills as well as critical analysis of the material. Language of instruction: English; all texts in original language.
Prerequisite: HEBR313; or permission of instructor.
Repeatable to: 9 credits if content differs.

JWST471 Modern Hebrew Literature in Translation (3 Credits)
An exploration of modern Hebrew prose, poetry, and literary essays written from the 1880s through the present in Europe, Palestine, and Israel. An investigation of the challenges confronting authors such as Mendele Mokher Sforim, Avraham Mapu, Chaim Nahman Bialik, Dvorah Baron, S.Y. Agnon, and David Fogel as they tried to create a contemporary secular literature out of an ancient sacred language. All texts in English translation.

JWST478 Readings in Modern Hebrew (3 Credits)
Variable topics in Modern Hebrew Literature.
Prerequisite: HEBR313; or permission of instructor.
Restriction: Junior standing or higher.
Repeatable to: 12 credits if content differs.

JWST491 Judaism and the Construction of Gender (3 Credits)
The study of Jewish culture, religious practice, communal authority, and literature through the frame of such critical categories of analysis as gender, sexuality, masculinity, power, ethics, and the feminine.
Prerequisite: 1 course in JWST; or 1 course in LGBT; or 1 course in WMST or WGSS.
Cross-listed with: WGSS491.
Credit Only Granted for: JWST491, WMST491 or WGSS491.
Formerly: WMST491.

JWST492 Sex, Gender, and Jewish Identity (3 Credits)
An exploration of Jewish embodiment, including dynamics related to biological sex, culturally-framed gender, and sexuality. Topics of discussion may include transgender and intersex Jews, stereotypes and gender performance, modesty, genetics, and body alteration. Focus is on contemporary Jewish culture, framed within the larger historical and textual tradition.
Prerequisite: 1 course in WGSS; or 1 course in JWST; or 1 course in LGBT; or permission of instructor.
Cross-listed with: LGBT448W, WGSS492.
Credit Only Granted for: JWST492, JWST409G, LGBT448W, WMST498W or WGSS492.
Formerly: WMST498W and JWST409G.

JWST498 Advanced Language Module for Jewish Studies (1-3 Credits)
A supplementary language module for students enrolled in designated Jewish Studies classes. Language of instruction English, texts in original language.
Prerequisite: HEBR212 or JWST282; or permission of ARHU-Meyerhoff Program & Center for Jewish Studies.

JWST499 Independent Study in Jewish Studies (1-3 Credits)
Prerequisite: Permission of ARHU-Meyerhoff Program & Center for Jewish Studies.
Repeatable to: 6 credits if content differs.

KNES - Kinesiology

KNES112 Fitness Conditioning (1 Credit)
Students will learn a comprehensive overview of physical conditioning through a variety of training techniques (HIIT, resistance training, functional training, etc.) and the vast benefits of proper physical conditioning. This course will help students better understand the impact that aerobic, anaerobic, and resistance training have on the human body, including physical and mental health, preparation for sports, and general fitness at a beginning level.
Credit Only Granted for: KNES161N or KNES112.
Formerly: KNES161N.

KNES120A Fitness Walking (1 Credit)
Provides students a comprehensive overview of walking as well as the physical and mental health benefits of engaging in walking. This class will help students better understand the impact walking has on cardiovascular and exercise health across a lifespan, how to create and implement fitness goals, the importance of proper technique and safety, and the intersection of public health and physical activity.
Restriction: Must be in a major within the Kinesiology department.
Credit Only Granted for: KNES120 or KNES120A.
Formerly: KNES120A.

KNES124 Group Cycling (1 Credit)
Students will learn the fundamentals of indoor cycling, muscles that are activated, training concepts and techniques, as well as the importance of flexibility and prevention of injuries. This course is designed to teach intermediate cycling and ensure safe cycling techniques during a cycling program.
Credit Only Granted for: KNES161C or KNES124.
Formerly: KNES161C.

KNES136 Beginning Golf (1 Credit)
Student will learn the game of golf through the development of new skills and improve on existing skills, while expanding knowledge about the game. This is a beginning golf class intended for those who have little or no previous playing experience.
Credit Only Granted for: KNES137N or KNES136.
Formerly: KNES137N.
Additional Information: This course meets at the University of Maryland Golf Course.

KNES151 Professional Lifeguard Training (1 Credit)
Lifeguarding will prepare students to respond to emergencies, promote safety in aquatic environments, and may even appeal to a future employer looking for a proven leader. Throughout the course, students will work towards American Red Cross certification requirements, including lifeguarding, CPR/AED, and First Aid. This class will also place an emphasis on professionalism, communication, teamwork, problem solving, and emergency response.
Recommended: Intermediate swimming skills, confidence in deep water.
Credit Only Granted for: KNES151 or KNES154W.
Formerly: KNES154W.
Additional Information: Students may obtain a lifeguard certificate/credential by passing a separate exam and skills test from the certifying organization. This is optional, and not required to earn course credit in the KNES151 course.

KNES153 Aquatic High Intensity Interval Training Fitness (1 Credit)
Aquatic HIIT Fitness is designed to lead students through a robust workout in a shallow water environment. Throughout the course, students will increase their level of fitness, build muscle and experience a different type of workout.
Recommended: Ability to perform high intensity exercises in an aquatic environment.
Additional Information: Students are not required to be strong swimmers to enroll in this course. All class activities will take place in shallow water (less than 5ft) or on the pool deck.

KNES156 Pickleball (1 Credit)
Provides students with a comprehensive overview of pickleball. This course will help students to better understand the basic skills and etiquette of pickleball, how to score and play in tournament situations, how to apply and articulate the basic rules of pickleball during singles and double play, and explain the health benefits of pickleball.
Restriction: Must be in a major within the Kinesiology department.

KNES173 Beginner BJJ & Martial Arts (2 Credits)
This is a coed physical activity course which introduces students to Brazilian Jiu-Jitsu through physically participating in fundamentals of the Art. Brazilian Jiu-Jitsu (BJJ) is a Brazilian martial art derived from the Japanese style, with a focus on grappling with particular emphasis on ground techniques. Students will learn basic escapes/submissions from ground positions. The student will learn and develop rudimentary skills necessary to progress in the above mentioned style. The course is taught at a beginner level and sparring (rolling) will not be permitted.

KNES180 Volleyball (1 Credit)
This course is intended for students with some volleyball experience. It will provide students with a comprehensive overview of the sport by integrating volleyball skills and tactics with a historical/sociocultural appreciation and value of the sport and its function or benefit in the greater sport world. Students will learn the rules and etiquette of volleyball, and implement their understandings in a series of skill & formation practices or tests, written assignment or exam, and tournament activities.
Restriction: Must be in a major within the SPHL-Kinesiology department.
Credit Only Granted for: KNES180 or KNES160N.
Formerly: KNES160N.

KNES182 Soccer (1 Credit)
Provides students with a comprehensive overview of the sport by integrating fundamental and beginning soccer skills with a historical appreciation for and current cultural importance of the sport. Students will learn the rules of soccer, basic soccer-specific training activities and use their understanding of rules and concepts in game related activities
Restriction: Must be in a major within the SPHL-Kinesiology department.
Credit Only Granted for: KNES182 or KNES152N.
Formerly: KNES152N.

KNES186 Basketball (1 Credit)
Basketball will provide students a comprehensive overview of the sport by integrating fundamental and advanced basketball skills with a historical appreciation for the sport and its function in the greater sporting world. Students will learn the rules of basketball, proper techniques and the basic principles of team offense and defense and implement their understanding of each in a series of informal and formal activities.
Restriction: Must be in a major within the SPHL-Kinesiology department.

KNES190 Flag Football (1 Credit)
Introduction to Flag Football will provide students with an overview of the game, terminology, rules, skills, and strategies. Students will develop and refine motor skills and movement patterns as they relate to flag football, as well as apply flag football concepts and strategies while focusing on team communication. Students will recognize and discuss the value of physical activity for health, enjoyment, challenge, inclusivity, confidence, fitness, and social interaction, specifically as it relates to flag football and NFL FLAG.
Restriction: Must be in a major within the SPHL-Kinesiology department.

KNES200 Introduction to Kinesiology (3 Credits)
Kinesiology is the interdisciplinary study of physical activity that includes seven sub-disciplines: 1) exercise physiology; 2) biomechanics; 3) sport psychology; 4) motor development; 5) motor control; 6) sport history; and 7) sport sociology. This course will examine these areas of study within Kinesiology from scientific and applied perspectives.
Restriction: Must be a Kinesiology major within first 2 semesters; or must not be in Kinesiology program and have less than 45 credits.
Credit Only Granted for: KNES200 or KNES201.

KNES201 Kinesiological Principles of Physical Activity (1 Credit)
An introduction to Kinesiology, the study of human movement, through the experience of learning a specific motor skill or being engaged in physical activity. Emphasis on the theories and knowledge underlying the learning and performance of all motor and sport skills.
Corequisite: Any physical activity course, e.g., KNES 100-190; or permission of SPHL-Kinesiology department.
Restriction: Must be in a major in SPHL-School of Public Health.
Credit Only Granted for: KNES200 or KNES201.

KNES214 Science and Methods of Personal Fitness Instruction (3 Credits)
Basic concepts of human anatomy, exercise physiology, applied kinesiology, nutrition and the physiology of exercise training. Includes the CORE knowledge required for the American Council on Exercise (ACE) Personal Trainer certification.
Credit Only Granted for: KNES214 or KNES210 and KNES211, or KNES210 and KNES212, or KNES289N.
Formerly: KNES210/KNES211, KNES210/KNES212, and KNES289N.

KNES218 Laboratory in Teaching (1 Credit)
The course is designed to prepare the student for the student teaching experience by assisting in a class.
Prerequisite: Permission of SPHL-Kinesiology department.
Repeatable to: 2 credits.

KNES222 Gambling in the New Millennium: Poker, The Preakness, Point-spreads, Powerball and Public Policy (3 Credits)
Is gambling in the public interest? Students will critically examine the various implications of "what it means to gamble" through investigations of various gambling forms, different sectors of the gambling industry and the related economics, along with consumer behavior, sport, public policy and public health in this context.
Recommended: ENGL101 and COMM107.

KNES225 Hoop Dreams: Black Masculinity and Sport (3 Credits)
Has sport disadvantaged African American males? This course critically examines sport as a site where notions of black masculinity are publicly debated, critiqued, challenged, celebrated, and also transformed. Utilizing an interdisciplinary approach, this course explores how sport has been invoked across the political and ideological spectrum to interrogate a number of issues impacting the life chances of young, African Americans males including educational attainment, poverty, social mobility, racism, cultural production, and notions of masculinity.

KNES226 The Cybernetic Human (3 Credits)
Can the profound and rapid technological advances experienced in the 21st century change what it means to be human or the nature of humanity? Emergent technologies, new materials, increased computer power, engineering innovations, and groundbreaking work in the sciences of cognition and action provide myriad opportunities for repairing and enhancing the human body and brain. Examines the ethical, social, and technological implications of an increasing synergism of technology and the body in sports and the arts, at work or home, rehabilitating the body and the brain, and society at large.

KNES235 Swimming Pool Management (2 Credits)
Analysis of the position of the swimming pool manager. The systematic treatment of swimming pool water; swimming pool first aid; and laws pertaining to swimming pool operation. Qualifies the student for a pool operator's license in most Maryland counties.
Credit Only Granted for: KNES235 or KNES335.
Formerly: KNES335.

KNES243 Sports Finance & Business Intelligence (3 Credits)
As society has evolved with advances in technology, so have the financial and analytical fundamentals of spectator sports leagues. In this course, students will examine modern business principles in for-profit sports leagues, understand current practices for successful operation and revenue generation, and explore how analytics and emerging categories play a crucial role in an organization's growth and competitiveness in their respective markets.

KNES246 Transformational Leader in Sport: The Art and Science of Coaching (3 Credits)
Highlights the expectations and ethical problems facing developmental sport programs and youth athletic coaches today. Explores the continuum of coaching from Buttermaker (Bad News Bears) to Belichick (New England Patriots). We first examine the issues of sports, physical inactivity and obesity from a physiological, psychological, social, political, and economic perspective. Next, we will focus on how transformational leadership behaviors, knowledge, and communication influence changes in intrapersonal, interpersonal, and environmental aspects. Finally, we will employ a practical, manageable method for coaches to develop their athletes and programs.

KNES260 Science of Physical Activity and Cardiovascular Health (3 Credits)
Course details (1) the public health importance of and the processes underlying cardiovascular disease, (2) the risk factors for cardiovascular disease and the methods whereby they were identified, and (3) the principles of the scientific evidence supporting the use of physical activity to prevent cardiovascular disease.

KNES264 Foundations of Food, Physical Activity, and Health (3 Credits)
Designed for both kinesiology majors and non-majors to explore the basics of nutrition, activity & exercise, and human health. What is a calorie? What is metabolic rate? How do our daily activities alter our metabolism? What are the short- and long-term benefits of exercise? How do equity and access to food and physical activity affect health? Is sedentary behavior a greater health risk than being overweight? This blended course allows students to investigate nutrition and physical activity they encounter in their everyday life, as well as examine how differences in equity and access can affect health.
Credit Only Granted for: KNES264, KNES289F or NFSC100.
Formerly: KNES289F.

KNES265 Mathematical, Physical, & Statistical Basis of Kinesiology (3 Credits)
Mathematical, physical, and statistical foundations for human movement quantification, analysis, and evaluation. Upon successful completion, this course is expected to better prepare students for the science Core courses, such as biomechanics, exercise physiology, and motor control, that are required for Kinesiology majors.
Credit Only Granted for: KNES265 or KNES289P.
Formerly: KNES289P.

KNES282 Basic Care and Prevention of Athletic Injuries (3 Credits)
Theoretical and practical foundations of the prevention, treatment and rehabilitation of athletically related injuries. Topics include: physical conditioning, preventive taping, recognition of injuries, first aid and CPR.
Restriction: Must be in a major within the SPHL-Kinesiology department.

KNES285 History of Physical Culture, Sport, & Science in America (3 Credits)
Examines the history of physical culture in America, focusing on the period from the end of the Civil War to the Cold War. Physical culture refers to a broad range of movement practices including sport, play, rehabilitative exercise, health and fitness training, and recreation and leisure. More specifically, we challenge the idea that historical physical culture practices--and the scientific processes from which they were derived--were 'neutral' or 'objective'; rather, we explore the cultural, social, political, and economic contexts shaping physical culture knowledge, study, structures, and policies across American history. The goal is for you to learn and apply techniques of historical analysis to develop a critical understanding of how knowledge about, and practices of, physical culture supported a particular social order via the construction of difference, norms, and/or hierarchies, and ultimately contributed to some of the inequalities that endure today.
Restriction: Restricted to majors or non-majors with less than or equal to 60 credits.
Credit Only Granted for: KNES285 or KNES293.

KNES286 Empowering Healthy Physical Activity (3 Credits)
Learn evidence-based techniques that health professionals use to promote physical activity programs that meet the needs of diverse populations. Develop and implement an intervention plan targeting a specific population.

KNES287 Sport and American Society (3 Credits)
Sport will be related to such social problems as delinquency, segregation, collective behavior, and leisure; to social processes such as socialization, stratification, mobility, and social control; and to those familiar social institutions the family, the school, the church, the military, the economy, the polity, and the mass media.
Recommended: Minimum grade of C- in KNES285.

KNES289 Topical Investigations (1-6 Credits)
Independent study by an individual student or a group of students in special areas of knowledge not covered by regularly scheduled courses.
Repeatable to: 6 credits.

KNES289R Hoop Dreams: Black Masculinity and Sport (3 Credits)
Has sport disadvantaged African American males? This course critically examines sport as a site where notions of black masculinity are publicly debated, critiqued, challenged, celebrated, and also transformed. Utilizing an interdisciplinary approach, this course explores how sport has been invoked across the political and ideological spectrum to interrogate a number of issues impacting the life chances of young, African Americans males including educational attainment, poverty, social mobility, racism, cultural production, and notions of masculinity.

KNES289W The Cybernetic Human (3 Credits)
Can the profound and rapid technological advances experienced in the 21st century change what it means to be human or the nature of humanity? Emergent technologies, new materials, increased computer power, engineering innovations, and groundbreaking work in the sciences of cognition and action provide myriad opportunities for repairing and enhancing the human body and brain. Examines the ethical, social, and technological implications of an increasing synergism of technology and the body in sports and the arts, at work or home, rehabilitating the body and the brain, and society at large.

KNES293 History of Sport in America (3 Credits)
The growth and development of sport in America. The transformation of sport within the perspective of American history, including class sport, professionalization, amateurism, and international involvement.

KNES300 Biomechanics of Human Motion (4 Credits)
The study of human movement and the physical and physiological principles upon which it depends. Body mechanics, posture, motor efficiency, sports, the performance of a typical individual and the influence of growth and development upon motor performance.
Prerequisite: Minimum grade of C- in BSCI201; and minimum grade of C- in MATH113 or higher.
Recommended: KNES265 or PHYS121.
Restriction: Must be in a major within SPHL-Kinesiology department.

KNES305 Principles & Application of Exercise Rehabilitation (3 Credits)
In-depth analysis of the basic principles of rehabilitation and exercise programming for common injuries encountered in a clinical setting. Basic assessment techniques, ranges of motion, muscular anatomy, rehabilitative protocols, and exercise modalities are a major focus.
Prerequisite: Minimum grade of C- in BSCI201 and BSCI202; and 1 course with a minimum grade of C- from (KNES300, KNES350, KNES360, KNES370, KNES385).
Restriction: Must be in a major within the SPHL-Kinesiology department; and must have earned a minimum of 75 credits.

KNES306 Prosthetics for Limb Amputations (3 Credits)
Introduction to the science of prosthetics and the artificial devices that are designed, developed and fit to replace the missing body part or parts lost through trauma, disease or congenital conditions.
Prerequisite: Minimum grade of C- in BSCI201, BSCI202, and KNES300.
Restriction: Must be in a major within the SPHL-Kinesiology department; and must have earned a minimum of 75 credits.

KNES320 Physiological Basis of Physical Activity and Human Health (4 Credits)
A study of the responses and chronic adaptations to physical activity and exercise, with particular emphasis on the interaction between human health and physical activity. The laboratory component of course will focus on the assessment of physical activity and measurement of physiological adaptations to exercise. Students are expected to gain an understanding and appreciation for the benefits of physical activity and exercise in the context of public health.
Prerequisite: Minimum grade of C- in BSCI201 and BSCI202.
Restriction: Must be in Public Health Science program.
Credit Only Granted for: KNES360 or KNES320.

KNES332 Exercise Testing & Prescription for Fitness Professionals (3 Credits)
Practical applications of exercise physiology and psychology to target fitness instruction for the general adult population Includes discussion of certification standards and professional development as well as evaluation of program safety and current trends.
Prerequisite: Minimum grade of C- in KNES360.
Restriction: Must be in a major within the SPHL-Kinesiology department; and must have earned a minimum of 75 credits.

KNES333 Motor Development and Fitness for Individuals with Disabilities (3 Credits)
Implications of Federal and State regulations for planning and implementing motor development and physical fitness programs for individuals with disabilities. Evaluation strategies for assessing motor performance and fitness levels in educational programs for these individuals.
Prerequisite: Minimum grade of C- in KNES370.
Restriction: Must be in a major within the SPHL-Kinesiology department; and must have earned a minimum of 60 credits.

KNES334 Adapted Physical Activity: Empowering People with Disabilities to Lead a Healthy and Active Lifestyle (3 Credits)
Study of the field of adapted physical activity and its impact on the health and wellness of individuals with disabilities. Students will design an adapted physical activity program proposal and develop the skills needed to empower people with disabilities to participate in physical activity and sports programs. Students will explore their own perceptions towards disability and how people with disabilities are portrayed in our society. They will study the etiology of disabling conditions and the implications for participating in physical activity.
Prerequisite: KNES370; or students not in the Kinesiology major may contact the instructor for permission.
Restriction: Must have earned a minimum of 75 credits.

KNES340 The Foundations of Public Health in Kinesiology (3 Credits)
An investigation of the role of physical activity and inactivity in relation to health and well-being through a public health perspective. Past and current perspectives on health promotion, health education, and social policies and approaches will be examined for various populations.
Prerequisite: Minimum grade of C- in KNES287; and minimum grade of C- in SPHL100.
Restriction: Must be in a major within the SPHL-Kinesiology department; and must have earned a minimum of 75 credits.
Credit Only Granted for: KNES340 or KNES400.
Formerly: KNES400.

KNES342 Sport, Commerce, and Culture in the Global Marketplace (3 Credits)
The Sport, Commerce, and Culture in the Global Marketplace study abroad program is designed for students who are interested in the relationship between sport, culture, and the contemporary global economy.
Recommended: KNES287.
Credit Only Granted for: KNES389A or KNES342.
Formerly: KNES389A.

KNES346 Sport for Development (3 Credits)
Examines how sport-based programs and organizations are used by governments, multinational corporations, and non-government organizations (NGO's) to reach personal, community, national and international development objectives; focuses on theorizing the histories of international development and contemporary global issues; contextualizes the interrelationship of theory, institutions, and practices of domestic and international sport for development and peace programing.
Prerequisite: Must have earned a minimum grade of C- in KNES287.
Recommended: KNES485.
Restriction: Must be a major within the SPHL-Kinesiology department and must have earned a minimum of 75 credits.

KNES347 Sport Economics (3 Credits)
Through combining fantasy football with a sports business simulation, students will develop a better understanding of the sports industry through the application of economic concepts. Topics include: sports teams and leagues, public finance of stadiums and sports events, and labor issues in sports.
Prerequisite: Minimum grade of C- in KNES287.
Recommended: KNES355, ECON111, and ECON200.
Restriction: Must have earned a minimum of 75 credits.
Credit Only Granted for: KNES347 or KNES389I.
Formerly: KNES389I.

KNES350 The Psychology of Sports & Exercise (3 Credits)
An exploration of personality factors, including but not limited to motivation, aggression and emotion, as they affect sports participation and motor skill performance.
Restriction: Must have earned a minimum of 45 credits.

KNES352 Global Perspectives of Physical Activity (3 Credits)
Introduces global perspectives of physical activity to students within the School of Public Health who are studying abroad. Students will be able to creatively explore the physical activity culture in their host city by engaging in a variety of assignments, including a group podcast and data uploads. Additionally, students will demonstrate overall knowledge gained from the course by writing a case study report that focuses on how they are physically active abroad versus at home, tying in key concepts of public and global health.
Prerequisite: Minimum grade of C- in SPHL100 and any KNES Core course.
Restriction: Must be in a major in SPHL-School of Public Health.

KNES354 Sports Finance & Business Intelligence (3 Credits)
As society has evolved with advances in technology, so have the financial and analytical fundamentals of spectator sports leagues. In this course, students will examine modern business principles in for-profit sports leagues, understand current practices for successful operation and revenue generation, and explore how analytics and emerging categories play a crucial role in an organization's growth and competitiveness in their respective markets. Through their foundational understanding and data analysis, students gain competency in identifying threats to revenue growth and explore emerging categories to offset those threats and further diversify the product offerings to enhance the viability of sports organizations.
Prerequisite: At least 1 course from the Kinesiology core courses at the 300-level or higher completed with a minimum grade of C-.
Restriction: Must have earned a minimum of 75 credits.
Credit Only Granted for: KNES243 or KNES354.
Formerly: KNES243.

KNES355 Sport Management (3 Credits)
Application of concepts and issues related to management principles and business concerns across various sections of the sport industry. Principles pertaining to the management of sport organizations.
Prerequisite: Minimum grade of C- in KNES287.
Restriction: Must be in a major within the SPHL-Kinesiology department; and must have earned a minimum of 75 credits.

KNES360 Physiology of Exercise (4 Credits)
A study of the physiology of exercise, including concepts of work, muscular contraction, energy transformation, metabolism, oxygen debt, and nutrition and athletic performance. Emphasis on cardiovascular and respiratory function in relation to physical activity and training.
Prerequisite: Minimum grade of C- in BSCI201 and BSCI202; or permission of SPHL-Kinesiology department.
Restriction: Must be in one of the following programs (Kinesiology; Public Health Science).

KNES370 Motor Development (3 Credits)
Motor development across the life span. The developmental sequences of motor skills from birth to old age; neuromaturation of neuromuscular system; analysis of the underlying mechanisms of motor skill development; and correlates of motor development.
Restriction: Must be in a major within SPHL-Kinesiology department.

KNES385 Motor Control and Learning (4 Credits)
This introductory course investigates how humans control and adapt their movements to perform and learn a variety of motor skills, ranging from activities of daily living to elite athlete performance. This course examines the underlying cognitive, sensory and motor processes of control and adaptation of human movements both at the behavioral and neurophysiological levels. Relevant applications to movement rehabilitation as well as performance optimization are employed to illustrate the concepts discussed in class. The cognitive, sensory and motor mechanisms underlying motor control are explored first and then in a motor learning context.
Prerequisite: Minimum grade of C- in BSCI201, and a minimum grade of C- in MATH113 or higher.
Recommended: KNES265 or PHYS121.
Restriction: Must be in a major within SPHL-Kinesiology department.

KNES386 Service Learning in Kinesiology (3 Credits)
Provides students practical experiences by applying classroom concepts and skills to real-world situations in the local community. Students will serve as volunteer coaches and mentors with a community organization focused on promoting physical activity and social-emotional learning/ well being.
Prerequisite: Must have completed three KNES core classes.
Restriction: Must be in a major within the SPHL-Kinesiology department; and must have earned a minimum of 75 credits; and must have permission from the Kinesiology department.
Additional Information: Coaching days and times will vary by the community organization, and some locations may be off-campus.

KNES389 Topical Investigations (1-3 Credits)
Independent study by an individual student or a group of students in special areas of knowledge not covered by regularly scheduled courses.
Repeatable to: 6 credits.

KNES400 The Foundations of Public Health in Kinesiology (3 Credits)
An investigation of the role of physical activity and inactivity in relation to health and well-being through a public health perspective. Past and current perspectives on health promotion, health education, and social policies and approaches will be examined for various populations.
Prerequisite: Minimum grade of C- in KNES287; and minimum grade of C- in SPHL100.
Restriction: Must be in a major within the SPHL-Kinesiology department; and must have earned a minimum of 75 credits.
Credit Only Granted for: KNES340 or KNES400.
Formerly: KNES400.

KNES401 Zip Code: Prediction of Physical Activity & Health (3 Credits)
An exploration of the relationship and impacts of built and other social environments on health, including physical activity, social equity, gentrification, and many others.
Prerequisite: Minimum grade of C- in SPHL100.
Restriction: Must have earned a minimum of 75 credits; and must be in a major within, SPHL-Kinesiology department.

KNES402 Biomechanics of Sport (3 Credits)
Mechanical determinants influencing sport techniques. A quantitative, scientific basis for sport analysis with emphasis on the application to numerous sport activities. Evaluation and quantification of the filmed performance of athletes.
Prerequisite: Minimum grade of C- in KNES300.
Restriction: Must be in a major within the SPHL-Kinesiology department; and must have earned a minimum of 75 credits.

KNES405 Principles & Techniques of Manual Muscle Testing (3 Credits)
It is critical for sports medicine and sport performance specialists to understand the location and inter-relationships of the structures of the body that impact human movement. Thus, the primary purpose of this course is to facilitate an in-depth, understanding of the muscles of the body. Specifically, students will learn the origins, insertions, primary and secondary functions, as well as nervous innervations of the major muscle groups of the body. In addition, students will develop palpation skills and learn to grade the function of each muscle through manual muscle testing techniques. These skills form the foundation for assessing functional movement as well as performing safe and effective manual therapy techniques. Thus, while the focus of the class will be to develop sound, introductory palpation and manual muscle testing skills, basic principles of functional movement and manual therapy will also be addressed through hands-on application as well as case study.
Prerequisite: Minimum grade of C- in BSCI201 and BSCI202; and 1 course with a minimum grade of C- from Kinesiology core courses at the 300-level or higher.
Restriction: Must be in a major within the SPHL-Kinesiology department; and must have earned a minimum of 75 credits.
Additional Information: This course emphasizes hands-on application of skills. Course participation is critical.

KNES440 Psychology of Athletic Performance (3 Credits)
Examines the psychological factors, mechanisms, and processes in athletic performance. Utilizes a social psychological approach to focus on the study and review of individual performance in both the interpersonal and social context.
Prerequisite: Minimum grade of C- in KNES350.
Restriction: Must have earned a minimum of 75 credits.

KNES442 Psychology of Exercise and Health (3 Credits)
Examines the antecedents and consequences of exerciese behavior. Explores motivation, attitude, control, socialization. Proposes intervention strategies at the individual, organizational and societal levels.
Prerequisite: Minimum grade of C- in KNES350.
Restriction: Must be in a major within the SPHL-Kinesiology department; and must have earned a minimum of 75 credits.

KNES445 Exercise and Brain Health (3 Credits)
Examines the evidence for exercise to affect brain function and brain health in children, in adults, and in old age. Covers the adaptations to acute and chronic exercise within brain networks related to emotion, stress reactivity, memory, and executive function, and the effectiveness of physical activity and exercise as treatments for depression, anxiety disorders, and cognitive impairment.
Prerequisite: Minimum grade of C- in KNES350.
Restriction: Must be in a major within the SPHL-Kinesiology department; and must have earned a minimum of 75 credits.

KNES450 From the Olympics to the Rehabilitation Clinic: Mental Skills Training Applications (3 Credits)
The examination and application of the major concepts of human performance psychology in, and beyond, the professional, collegiate, amateur and youth sport athletic spaces to allied health practitioner (PT, OT, OR, PA, RN), athletic and personal training, and tactical athlete (i.e., military, law enforcement, and firefighting) environments. An essential component of the class will be the reliance on reading and reviewing both classic articles and the recent evidence-based research in which applied strategies and techniques are based. Students will be taught to critically analyze the research by 1) understanding the purpose of the research, 2) identifying the experimental design and how it contrasts the difference between experimental and control conditions, 3) understanding the outcome of the research, and 4) understanding how the outcome of the research may be applicable to the human performance and allied health environments.
Prerequisite: Minimum grade of C- in KNES350.
Restriction: Must be in a major within the SPHL-Kinesiology department; and must have earned a minimum of 75 credits.
Credit Only Granted for: KNES498G or KNES450.
Formerly: KNES498G.

KNES451 Children and Sport: A Psychosocial Perspective (3 Credits)
Examination of youth sports from a psychosocial perspective, including the impact of highly structured sports on young athletes and the complex social network of coaches, parents and peers.
Prerequisite: Minimum grade of C- in KNES350.
Restriction: Must be in a major within the SPHL-Kinesiology department; and must have earned a minimum of 75 credits.

KNES457 Managing Youth Programs: Educational, Fitness and Sport (3 Credits)
An examination of the basic functions involved in managing physical education, fitness, and youth sports programs. Focus on leadership skills, organizational management, and techniques for applying learned skills in a variety of organizational settings that serve the nation's youth.
Prerequisite: Minimum grade of C- in KNES350 and KNES370.
Restriction: Must be in a major within the SPHL-Kinesiology department; and must have earned a minimum of 75 credits.

KNES460 Physiology of Aging and the Impact of Physical Activity (3 Credits)
Biology of the aging process in healthy individuals and those with chronic disease, the effects of acute exercise and exercise training on the physiological decline that occurs in humans, and the role that regular physical activity plays on enhancing the quality of life and activities of daily living in individuals.
Prerequisite: 1 course with a minimum grade of C- from (KNES320, KNES360).
Restriction: Must be in one of the following programs (Kinesiology; Public Health Science); and must have earned a minimum of 75 credits.

KNES461 Exercise and Body Composition (3 Credits)
An in-depth overview on how body composition is measured, what it is composed of, and the physiological and biochemical signals that change it. The effects of acute and chronic exercise on food storage, breakdown, and use as an energy source, is the major focus. This information is applied to important issues in public health and athletic performance.
Prerequisite: 1 course with a minimum grade of C- from (KNES320, KNES360).
Restriction: Must be in one of the following programs (Kinesiology; Public Health Science) ; and must have earned a minimum of 75 credits.

KNES462 Neural Basis of Human Movement (3 Credits)
An introduction to the neural substrates which underlie postural and volitional movement. Neuroanatomical and neurophysiological basis of motor functioning; past and present conceptualizations of motor control and coordination; movement disorders; and maturation of the neuromuscular system. Students with career goals in allied health or medical fields will benefit from this overview of both the peripheral and the central nervous system, with a special focus on the control of motor behavior. Topics covered will range from neural signaling to sensory processing, to central control of movement, and to relevant 'higher' cognitive processes pertaining to movement execution and recovery.
Prerequisite: Minimum grade of C- in BSCI201, BSCI202, and KNES385; or permission of SPHL-Kinesiology department.
Restriction: Must have earned a minimum of 75 credits.

KNES463 Principles and Methods of Physical Activity Interventions (3 Credits)
Understanding of the planning, implementation, and evaluation of physical activity interventions. Intervention methods and practical strategies fo formulate well-conceived physical activity interventions across a variety of settings and participant populations.
Prerequisite: Minimum grade of C- in KNES350 and KNES360.
Restriction: Must have earned a minimum of 75 credits.

KNES464 Exercise Metabolism: Role in Health and Disease (3 Credits)
Examines the role of metabolism in kinesiology, especially as it relates to physical inactivity, health and disease. Includes bioenergetics, substrate utilization, cell signaling, and metabolic gene expression and their impact on chronic health conditions or disease.
Prerequisite: Minimum grade of C- in KNES360.
Restriction: Must have earned a minimum of 75 credits.

KNES465 Physical Activity and Disease Prevention and Treatment (3 Credits)
Critically examines the scientific evidence that supports the use of physical activity to prevent and treat age-related diseases, including cardiovascular disease, diabetes, abnormal lipoprotein-lipid levels, hypertension, obesity, osteoporosis and cancer.
Prerequisite: 1 course with a minimum grade of C- from (KNES320, KNES360).
Restriction: Must have earned a minimum of 75 credits.

KNES466 Graded Exercise Testing (3 Credits)
Functional and diagnostic examination of the cardiovascular responses to graded exercise testing. Emphasis on electrophysiology, mechanisms of arrhythmias, normal electrical activation of the heart, axis termination and the normal 12-lead electrocardiogram.
Prerequisite: Minimum grade of C- in KNES360.
Restriction: Must be in a major within the SPHL-Kinesiology department; and must have earned a minimum of 75 credits.

KNES467 Genetics in Physical Activity and Sport (3 Credits)
Dedicated to understanding the role of genetics in kinesiology, especially within the contexts of physical activity and sport. Specific genes and phenotypes will be explored.
Prerequisite: Minimum grade of C- in KNES360. And must be concurrently enrolled in STAT100 or have completed STAT100 with a minimum grade of C-; or students who have taken courses with comparable content may contact the department.
Restriction: Must have earned a minimum of 75 credits.

KNES474 Quantitative Methods in Cognitive Motor Behavior - MATLAB (3 Credits)
Includes basic computer programming, algorithm, and quantitative techniques for time-series data with an emphasis on, but not limited to, human movement. These topics will be taught using MATLAB, a programming language and environment for numerical computation, data analysis, and visualization.
Prerequisite: MATH115 or equivalent; or permission of Kinesiology department.
Recommended: MATH240.
Restriction: Must have earned a minimum of 75 credits.

KNES476 Honors Thesis Proposal (3 Credits)
Development of honors thesis proposal based on preliminary research and literature review. Presentation of formal proposal to the thesis committee and fellow honors students.
Corequisite: KNES478.
Restriction: Must be a KNES Honors student; and senior standing.

KNES477 Honors Thesis (3 Credits)
Advisement will be on the individual basis. Thesis must be defended in the honors seminar.
Prerequisite: KNES476.
Corequisite: KNES478.
Restriction: Must be a KNES Honors student; and senior standing.

KNES478 Honors Seminar (1-3 Credits)
Guided discussion of research topics of current interest.
Restriction: Must be a KNES Honors student; and junior standing or higher.
Repeatable to: 4 credits if content differs.

KNES482 Socio-behavioral Aspects of Human Movement (3 Credits)
Derivation, formulation, and application of research in the socio-behavioral aspects of human movement.
Prerequisite: KNES293, KNES350, and KNES287.

KNES483 Sport Marketing and Media (3 Credits)
Industry practices in sport marketing and media. Marketing strategies and consumer behavior in different sport contexts. Critical examination of selected social and economic issues related to the buying and selling of sport.
Prerequisite: Minimum grade of C- in KNES287.
Recommended: KNES355.
Restriction: Must be in a major within the SPHL-Kinesiology department; and must have earned a minimum of 75 credits.

KNES484 Sporting Hollywood (3 Credits)
Popular representations of sport within the film media related to wider social discourses on bodies and the politics of various categories of subjectivity (gender, sex, race, class and nationality).
Prerequisite: Minimum grade of C- in KNES285 and KNES287.
Restriction: Must be in a major within the SPHL-Kinesiology department; and must have earned a minimum of 75 credits.

KNES485 Sport and Globalization (3 Credits)
Examination of sport culture from a global perspective; focuses on theorizing the similarities and differences between various national sporting cultures.
Prerequisite: Minimum grade of C- in KNES287.
Restriction: Must be in a major within the SPHL-Kinesiology department; and must have earned a minimum of 75 credits.

KNES487 Women, Sports and Culture (3 Credits)
A study of the historical barriers to women's participation in physical activity, efforts to dismantle those barriers, and the differentiation that exists in women's sport and physical culture today. Exploration of the historical and contemporary factors involving female athletes in U.S. culture.
Prerequisite: Minimum grade of C- in KNES287.
Restriction: Must be in a major within the SPHL-Kinesiology department; and must have earned a minimum of 75 credits.

KNES497 Kinesiology Senior Seminar (3 Credits)
Discussions of contemporary issues vital to the discipline, critiques of research in the student's area/areas of special interest, completion of a major project where the student will be asked to demonstrate the ability to carry out investigative processes in problem solving and critical writing under faculty direction.
Prerequisite: A professional writing course with a minimum grade of C-; and must have completed 6 KNES core courses and 2 KNES option courses, all with a C- or higher; and must have completed STAT100 with a C- or better.
Restriction: Senior standing or higher; and must be in Kinesiology program; and permission of department.

KNES498 Special Topics in Kinesiology (3 Credits)
Topics of special interest in areas not covered by regularly scheduled courses.
Prerequisite: Permission of SPHL-Kinesiology department.
Repeatable to: 99 credits if content differs.

KORA - Korean

KORA101 Elementary Korean I (3 Credits)
Introduction to the Korean language. Primary emphasis on oral skills, but Hangul, the Korean alphabet, will also be introduced.
Prerequisite: Must have appropriate World Language Placement (WLP) score; and permission of ARHU-School of Languages, Literatures, and Cultures department.

KORA102 Elementary Korean II (3 Credits)
Continued training in elementary spoken and written Korean.
Prerequisite: KORA101; or must have appropriate World Language Placement (WLP) score.
Restriction: Must be a non-Heritage student; and permission of instructor required for new students.

KORA103 Intensive Elementary Korean I (6 Credits)
Intensive introduction to the Korean language at the elementary level through a highly interactive approach, including oral, reading, and writing skills (Hangeul alphabet). Substantial cultural component familiarizes students with various aspects of Korean culture. Designed for students with no formal education in the Korean language. Taught in Korean.
Prerequisite: Must have appropriate World Language Placement (WLP) score.
Restriction: Must not be a native/fluent speaker of Korean; and must be in the Summer Language Institute; and must have permission of the School of Languages, Literatures, and Cultures.
Credit Only Granted for: KORA101 or KORA103.
Additional Information: Native/fluent speakers of Korean or students who have previously attended school in Korea should take the WLP and see the Korean Program Advisor to identify the correct Korean course for which to register.

KORA104 Intensive Elementary Korean II (6 Credits)
Continuation of KORA103 or KORA101. Intensive training in elementary level Korean including formal and informal speech styles through a highly interactive approach. Continues to build and enhance accuracy in basic literacy skills, vocabulary, and grammar, as well as situational appropriateness. Substantial cultural component familiarizes students with various aspects of Korean culture. Taught in Korean.
Prerequisite: KORA101 or KORA103; or equivalent, as determined by the World Language Placement (WLP).
Restriction: Must not be a native/fluent speaker of Korean; and must be in the Summer Language Institute; and must have permission of the School of Languages, Literatures, and Cultures.
Credit Only Granted for: KORA102 or KORA104.
Additional Information: Native/fluent speakers of Korean or students who have previously attended school in Korea should take the WLP and see the Korean Program Advisor to identify the correct Korean course for which to register.

KORA201 Intermediate Korean I (3 Credits)
An intermediate-level course designed for non-Heritage students. It begins the second year of instruction in the University's two-track Korean Program.
Prerequisite: KORA102; or permission of instructor.

KORA202 Intermediate Korean II (3 Credits)
The second stage of an intermediate-level course designed for non-Heritage students. It continues the second year of instruction in the University's two track Korean Program.
Prerequisite: KORA201; or permission of instructor.

KORA203 Intensive Intermediate Korean I (6 Credits)
Builds upon the foundation established in KORA104 or KORA102, further developing students' communicative competence in Korean. This course expands vocabulary and grammatical structures to enable more complex communication. Students will also continue to develop their reading and writing skills, expanding vocabulary and mastering fundamental grammatical structures, including present and past tense conjugations, particles, and sentence patterns. Students will also develop their understanding of Korean culture and etiquette through weekly cultural events.
Prerequisite: KORA102 or KORA104 or equivalent, as determined by the World Language Placement (WLP).
Restriction: Must not be a native/fluent speaker of Korean; and must be in the Summer Language Institute; and must have permission of the School of Languages, Literatures, and Cultures.
Credit Only Granted for: KORA201 OR KORA203.
Additional Information: Native/fluent speakers of Korean or students who have previously attended school in Korea should take the WLP and see the Korean Program Advisor to identify the correct Korean course for which to register.

KORA204 Intensive Intermediate Korean II (6 Credits)
This course is a continuation of KORA203 or KORA201. This course will focus on developing fluency and accuracy in a wide range of communicative situations. This course introduces more nuanced grammatical structures, including various verb endings, complex sentence constructions, and idiomatic expressions. Emphasis is placed on developing students' narrative skills, presenting their interests, expressing their opinions, and understanding more complex texts and dialogues. Students will also refine their cultural understanding through hands-on experience and lectures.
Prerequisite: KORA201 or KORA203; or equivalent, as determined by the World Language Placement (WLP).
Restriction: Must not be a native/fluent speaker of Korean; and must be in the Summer Language Institute; and must have permission of the School of Languages, Literatures, and Cultures.
Credit Only Granted for: KORA202 or KORA204.
Additional Information: Native/fluent speakers of Korean or students who have previously attended school in Korea should take the WLP and see the Korean Program Advisor to identify the correct Korean course for which to register.

KORA241 History of the Korean Language (3 Credits)
The origins of the Korean language and its development from earliest recorded times to the present. The relationship of Korean to other languages. Taught in English.

KORA269 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

KORA345 Korean Language and Linguistics (3 Credits)
An exploration of Korean language and society, in particular the role and nature of the alphabet, Korean sounds, lexical and grammatical structures, and usage in today's South Korea.
Prerequisite: KORA102 or KORA211; or permission of ARHU-School of Languages, Literatures, and Cultures department.

KORA369 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

KORA398 Special Topics in Korean Studies (3 Credits)
Study of particular aspect of Korean language, literature, and/or culture. Topic and language of instruction to be announced when course is offered.
Repeatable to: 9 credits if content differs.

KORA499 Independent Study Korean (1-3 Credits)
Independent study under faculty supervision.
Prerequisite: Permission of instructor.
Repeatable to: 6 credits if content differs.

LACS - Latin American and Caribbean Studies

LACS148 Special Topics in Latin American and Caribbean Studies (3 Credits)
Topics to be announced when offered.
Repeatable to: 6 credits if content differs.
Formerly: LASC148.

LACS234 Issues in Latin American and Caribbean Studies I (3 Credits)
Interdisciplinary study of major issues in Latin America and the Caribbean, including Latin America's cultural mosaic, migration and urbanization. Democratization and the role of religions. Taught in English.
Cross-listed with: PORT234, SPAN234.
Credit Only Granted for: LASC234, PORT234, SPAN234, or LACS234.
Formerly: LASC234.

LACS235 Issues in Latin American and Caribbean Studies II (3 Credits)
Major issues shaping Latin American and Caribbean societies including the changing constructions of race, ethnicity, gender and class as well as expressions of popular cultures and revolutionary practices. Taught in English.
Cross-listed with: PORT235, SPAN235.
Credit Only Granted for: LASC235, PORT235, SPAN235, or LACS235.
Formerly: LASC235.

LACS248 Special Topics in Latin American and Caribbean Studies (3 Credits)
Topics to be announced when offered.
Repeatable to: 6 credits.
Formerly: LASC248.

LACS250 History of Colonial Latin America (3 Credits)
Introductory survey of the history of Latin America from pre-Columbian Indian cultures to the beginning of the wars for independence (ca. 1810), covering cultural, political, social, and economic developments. Major themes include conquest, colonialism, indigenous culture, African slavery, religion, race and ethnicity, and gender ideologies.
Cross-listed with: HIST250.
Credit Only Granted for: LASC250, HIST250, OR LACS250.
Formerly: LASC250.

LACS251 Latin America Since Independence (3 Credits)
Introductory survey of the history of Latin America from the era of independence (c. 1810-1825) through the early 1980s. Major themes include independence and sovereignty, postcolonialism and neocolonialism, nation- and state-building, liberalism, citizenship, economic development and modernization, social organization and stratification, race and ethnicity, gender relations, identity politics, reform and revolution, authoritarianism and democratization, and inter-American relations.
Cross-listed with: HIST251.
Credit Only Granted for: HIST251, LASC251, or LACS251.
Formerly: LASC251.

LACS269 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.
Formerly: LASC269.

LACS286 Internship in Latin American/Caribbean Studies (1-6 Credits)
Internship experience with an organization that works with or studies Latin American and/or the Caribbean. This is an experiential learning course that provides semester-long training that enriches the student's academic field of study and the LASC Certificate. Students submit a final written report of how the experience ties into their major field of study.
Prerequisite: LASC234, SPAN234, LASC235, SPAN235, LACS250, HIST250, LACS251, or HIST251; and permission of Latin American and Caribbean Studies Center required.
Restriction: Minimum cumulative GPA of 2.5; and cannot have more than 60 credits total.
Credit Only Granted for: LASC286 or LACS286.
Formerly: LASC286.
Additional Information: The course is primarily intended for students seeking the Certificate in Latin American and Caribbean Studies, but exceptions will be considered for students with educational or career interests which lie in this area. Student internships must be approved by the Director and students must secure an appropriate faculty mentor to supervise the internship course.

LACS348 Special Topics in Latin American and Caribbean Studies (3 Credits)
Topics to be announced when offered.
Repeatable to: 6 credits if content differs.

LACS348E Caribbean Literature in English (3 Credits)
Political and literary traditions that intersect in the fiction, poetry, and drama written in English by Caribbean writers, primarily during the 20th century.
Cross-listed with: ENGL362.
Credit Only Granted for: ENGL362, LASC348E, or LACS348E.

LACS369 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.
Formerly: LASC369.

LACS370 Education, Technology and Society: Ecuador in Context (3 Credits)
Set in the UNESCO World Heritage site of Cuenca, Ecuador, students in this short-term study abroad course use theory from Science and Technology Studies (STS) to explore, discuss and critique the design, development and implementation of technology-based social programs in Ecuador. The program looks at education and technology throughout multiple lenses and contexts. Collaboration with the University of Cuenca, participating students have the opportunity for both university and field-based research and practice. UMD students work alongside students and faculty from the leaders and practitioners from UCuenca, government agencies, nongovernmental organizations, small business and local communities.
Recommended: 1 course from (ENES240, ENES200, or ENEE200).
Cross-listed with: ENES359T, CPSS370.
Restriction: Minimum cumulative GPA of 2.5.
Credit Only Granted for: ENES259T, ENES359T, CPSP279T, LASC269T, CPSS370, or LACS370.
Formerly: ENES259T.

LACS448 Special Topics in Latin American and Caribbean Studies (3 Credits)
Intensive study of a selected topic related to Latin American and Caribbean Studies.
Restriction: Junior standing or higher.
Repeatable to: 6 credits if content differs.

LACS458 Senior Capstone Course in Latin American and Caribbean Studies (3 Credits)
Capstone course for advanced students in the Latin American and Caribbean Studies Certificate Program or other students with appropriate preparation. Interdisciplinary topics will vary each semester.
Prerequisite: LASC234 and LASC235; or permission of ARHU-School of Languages, Literatures, and Cultures department.
Restriction: Must be in Latin American and Caribbean Studies Certificate program; and senior standing.

LACS486 Internship in Latin American/Caribbean Studies (1-6 Credits)
Internship experience with an organization that works with or studies Latin American and/or the Caribbean. This is an experiential learning course that provides semester-long training that enriches the student's academic field of study and the LACS Certificate. Students submit a final written report of their experience, including critical analysis of the institutional relevance to their major field of study and to Latin American and Caribbean Studies. Students will also be asked to give an oral presentation.
Prerequisite: Student must have completed at least two LACS courses, one of which must be a required/core course (LACS/SPAN234, LACS/SPAN235, LACS/HIST250, or LACS/HIST251); and permission of Latin American Studies Center required.
Restriction: Minimum cumulative GPA of 2.5; and must have earned a minimum of 60 credits.
Credit Only Granted for: LASC486 OR LACS486.
Formerly: LASC486.
Additional Information: The course is primarily intended for students seeking the Certificate in Latin American and Caribbean Studies, but exceptions will be considered for students with educational or career interests which lie in this area. Student internships must be approved by the Director, and students must secure an appropriate faculty mentor for the internship course. An internship course will be approved only if a faculty supervisor is available.

LACS499 Independent Study in Latin American and Caribbean Studies (1-3 Credits)
Independent Study in Latin American and Caribbean Studies.
Restriction: Permission of instructor.
Repeatable to: 6 credits.
Formerly: LASC499.

LARC - Landscape Architecture

LARC121 Computer Visualization in Design (3 Credits)
Students are provided with the opportunity to 1) explore basic design principles and practice, 2) explore and apply computer concepts and principles, 3) learn and apply basic computer tools used in landscape architecture and allied disciplines, and 4) demonstrate competency in design vocabulary and computer applications through demonstrated deliverables used in the built environment design fields.

LARC131 Computer Visualization I (3 Credits)
Provides the opportunity to 1) explore basic design principles and practice 2) explore and apply computer concepts and principles, 3) learn and apply basic computer tools used in landscape architecture and allied disciplines and 4) demonstrate competency in design vocabulary and computer applications through demonstrated deliverables used in the built environment design fields.
Restriction: Permission of AGNR-Plant Science & Landscape Architecture department; and must be in Landscape Architecture program.
Credit Only Granted for: LARC120 or LARC131.
Formerly: LARC120.

LARC151 Urban Agriculture: Designing and Assessing Edible Landscapes (3 Credits)
Students will examine the growing development of urban agriculture and edible landscapes. Urban agriculture has seen a recent growth and interest in cities across the globe. From Paris to New York, from Baltimore to Detroit, urban agriculture is an emerging land use to address a variety of needs. Redevelopment, food deserts, community engagement and environmental justice are just some of the issues and topics that are connected to the recent growth of urban agriculture. This course will take a critical examination of urban agriculture's contribution to the food system, its input and outputs in the urban landscape, and the planning and design of urban agriculture and edible landscapes.

LARC152 Greening Cities: Who Wins, Who Loses, and Who Cares? (3 Credits)
"Greening Cities" can have many interpretations: improving or adding urban economic activity, realizing energy efficiency, greening urban transport systems, etc. An important component of livable and sustainable cities and metropolitan ecosystems are the plants and landscapes that are inhabited by plants. With the majority of humans now living in cities, a survey of urban ecosystem principles and an examination of design and planning strategies for plant and landscape resources in urban and metropolitan regions is critical.
Credit Only Granted for: LARC152 or PLSC289I.
Formerly: PLSC289I.

LARC160 Introduction to Landscape Architecture and Environmental Design (3 Credits)
History, theory, philosophy and current practice of the profession of landscape architecture. Explores the interactive relationship between humans and their environment by examining people's perceptions of and changing attitude towards the landscape, as well as, an examination of how these are related to ecological and cultural influences. Topics include urban, ecological, community and creative design.

LARC162 Environmental Justice: Same World, Different Built Environment (3 Credits)
Environmental Justice will be explored in the context of the built environment. What unequal public built environmental threats exist? How can these threats be prevented or eliminated? Public schools, public parks, access to clean water, air pollution, tree coverage are among the built environments examined in the course.

LARC188 Special Topics in Landscape Architecture (1-3 Credits)
A lecture course for students interested in Landscape Architecture to cover topics not formally taught in existing courses. An introductory class on a group of closely-related topics for students with an interest in this discipline.
Repeatable to: 6 credits if content differs.

LARC220 Landscape Visualization II (4 Credits)
Basic techniques and application of various media for graphic communication associated with landscape architecture.
Corequisite: LARC230.
Restriction: Permission of AGNR-Plant Science & Landscape Architecture department; and sophomore standing or higher; and must be in Landscape Architecture program.
Credit Only Granted for: LARC489R or LARC220.
Formerly: LARC489R.

LARC221 Digital Design Tools (3 Credits)
The development and application of computing skills as used by the landscape architecture profession. This Computer-Aided Design and Drafting (CADD) course develops computer drafting using a variety of software programs. It also introduces students to Geographic Information Systems (GIS) mapping technologies.
Prerequisite: LARC120 and LARC141.
Recommended: LARC240 and LARC265.
Restriction: Sophomore standing or higher; and must be in Landscape Architecture program.

LARC230 Design Fundamentals Studio (5 Credits)
Introduction to the fundamentals of basic design focusing on creative problem solving associated with landscape architecture. Here you will explore design with different geometries, organizing principles, concept development, spatial definition, land formation, structures and plants. Emphasis will be given on how to represent design ideas using measured drafting techniques and presentation board organization. A series of foundational exercises will culminate in the redesign of a small public space.
Prerequisite: Must have completed or be concurrently enrolled in LARC265 and LARC266.
Corequisite: LARC220.
Restriction: Permission of AGNR-Plant Science & Landscape Architecture department; and sophomore standing or higher; and must be in Landscape Architecture program.
Credit Only Granted for: LARC141 or LARC230.
Formerly: LARC141.

LARC231 Site Planning and Design Studio (5 Credits)
An examination of the influence of landscape character and site features (natural and cultural) on landscape architecture, architecture and planning through application in the studio setting.
Prerequisite: LARC220, LARC265, LARC266, and LARC230.
Corequisite: LARC411 and LARC221.
Restriction: Must be in Landscape Architecture program; and sophomore standing or higher.
Credit Only Granted for: LARC340 or LARC231.
Formerly: LARC340.

LARC240 Graphic Communication and Design Studio (4 Credits)
Exploration of graphic presentation techniques and original concept development for landscape architecture planning and design.
Prerequisite: LARC141 and LARC263.
Corequisite: LARC221 and LARC265.
Restriction: Sophomore standing or higher; and must be in Landscape Architecture program.

LARC263 History of Landscape Architecture (3 Credits)
A survey of landscape architecture history from the ancient Western civilizations to the twentieth century with consideration of parallel developments in the Eastern World, European Africa and the Americas.

LARC265 Site Analysis and Ecological Principles (3 Credits)
Principles and methods of site analysis with an emphasis on the application of ecological principles in landscape architecture, architecture and planning.
Prerequisite: LARC141.
Corequisite: LARC240 and LARC221.
Restriction: Permission of AGNR-Plant Science & Landscape Architecture department; and sophomore standing or higher; and must be in Landscape Architecture program.
Credit Only Granted for: LARC265 or ARCH460.

LARC266 Site and Landscape Ecology Field Studies (1 Credit)
Field Excursions that are essential to apply theory and principles explored in the LARC265 to real world environments.
Prerequisite: Must have completed or be concurrently enrolled in LARC230 or LARC640.
Corequisite: LARC265.
Restriction: Sophomore standing or higher; and must be in Landscape Architecture program.
Additional Information: This course requires field trips.

LARC320 Principles of Site Engineering (3 Credits)
The study and application of landscape construction principles as applied to grading, drainage, site layout, storm water management, and vehicular and pedestrian circulation.
Prerequisite: LARC221.
Corequisite: LARC340.
Restriction: Must be in Landscape Architecture program; and junior standing or higher.

LARC321 Landscape Structures and Materials (3 Credits)
An examination of the use, properties, and detailing of materials used in landscape construction. The use and design of structures in the landscape.
Prerequisite: LARC320; and LARC340.
Restriction: Must be in Landscape Architecture program.
Credit Only Granted for: LARC321 or PLSC321.

LARC330 Urban Design Studio (5 Credits)
The landscape architect's role within the interdisciplinary urban design process, focusing on urban site design issues. Pedestrian friendly site design and the future of sustainable development will be studied.
Prerequisite: LARC411 and LARC231.
Corequisite: LARC412.
Restriction: Junior standing or higher; and must be in Landscape Architecture program.
Credit Only Granted for: LARC330 or LARC440.
Formerly: LARC440.

LARC331 Regional Design and GIS Studio (5 Credits)
An examination of the landscape architect's role within the interdisciplinary regional design field incorporating GIS technologies, spatial modeling, and the regional design process.
Prerequisite: LARC330 and LARC412.
Corequisite: LARC413.
Restriction: Must be in Landscape Architecture program.
Credit Only Granted for: LARC341 or LARC331.
Formerly: LARC341.

LARC388 Honors Thesis Research (3-6 Credits)
Undergraduate honors thesis research conducted under the direction of an AGNR faculty member in partial fulfillment of the requirements of the College of AGNR Honors Program. The thesis will be defended to a faculty committee.
Prerequisite: Must be in the AGNR Honors Program.
Repeatable to: 6 credits if content differs.

LARC389 Internship in Landscape Architecture (3 Credits)
A supervised internship where students earn credit for work experience related to their career goals. Each student must keep a work log, work on a special project, and produce a report related to this project. An evaluation from the external supervisor of the project is required. Participation requires application to the internship advisor in the preceding semester.
Prerequisite: LARC221; and LARC240; and LARC265.
Restriction: Must be in Landscape Architecture program; and junior standing or higher.
Repeatable to: 6 credits.

LARC398 Seminar (1 Credit)

LARC411 Construction Technology I: Principles of Site Engineering (4 Credits)
First of three courses in the landscape architecture engineering and construction sequence that focuses on the principles, procedures, and applications of site grading. Included in this subject area are the topics of relief visualization and representation, slope and contour calculations, grading objectives and methodology, structure siting principles, drainage principles, contour manipulation procedures, stormwater management, horizontal and vertical road alignment, and cut-fill calculations.
Corequisite: LARC231 or LARC641.
Restriction: Must be in Landscape Architecture program.
Credit Only Granted for: LARC320, LARC411 or LARC720.
Formerly: LARC320.

LARC412 Construction Technology II: Materials and Structures (4 Credits)
Second of three courses in the landscape architecture engineering and construction sequence focuses on site construction, soil and water-centric Best Design Practices (BDPs). Included in this subject area are the topics of construction operations and earthwork, soil erosion and sediment control, retaining wall, soil and constructed media, shoreline construction, bioretention and planting systems and green roofs
Prerequisite: LARC411.
Corequisite: LARC330 or LARC642.
Restriction: Must be in Landscape Architecture program.
Credit Only Granted for: LARC321, LARC412 or LARC721.
Formerly: LARC321.

LARC413 Construction Technology III: Water Soil-Centric Practices (4 Credits)
Third of three courses in the landscape architecture engineering and construction sequence focuses on site construction, soil and water-centric Best Design Practices (BDPs). Included in this subject area are the topics of construction operations and earthwork, soil erosion and sediment control, retaining wall, soil and constructed media, shoreline construction, bioretention and planting systems and green roofs.
Prerequisite: LARC412.
Restriction: Must be in Landscape Architecture program.

LARC420 Professional Practice (3 Credits)
An introduction to and comparative study of the professional concerns of design firms. Focus on planning, legal, ethical, marketing and management considerations of interdisciplinary practices.
Prerequisite: LARC321.
Restriction: Must be in Landscape Architecture program.

LARC421 Computer-Aided Design and Drafting (CADD): Urban Construction (3 Credits)
This Computer-Aided Design and Drafting (CADD) course applies computer drafting using AutoCAD. It focuses on providing the technical skills for students who are working in built environment professions. Drawing types may include (but not be limited to) site plan drawings, construction detailing, grading plans, site layout plans and sheet layout conventions.
Credit Only Granted for: LARC489O or LARC421.
Formerly: LARC489O.

LARC430 Community Design Studio (5 Credits)
Studio that emphasizes the integration of critical thinking skills and methodologies introduced throughout the landscape architecture curriculum. Students apply design and analysis methodologies, evaluate alternative solutions, involve community residents and engage in final design development, using the master plan and site design process, report writing, and oral and graphic presentations. Final presentations are open to the university and the community.
Prerequisite: LARC331 and LARC413; and must have completed or be concurrently enrolled in LARC420.
Restriction: Senior standing; and must be in Landscape Architecture program.

LARC440 Urban Design Studio (5 Credits)
The landscape architect's role within the interdisciplinary urban design process, focusing on urban site design issues. Pedestrian friendly site design and the future of sustainable development will be studied.
Prerequisite: LARC321; and LARC340; and LARC341.
Restriction: Must be in Landscape Architecture program.

LARC451 Sustainable Communities (3 Credits)
Explores concepts, strategies and examples of community design which address the needs of a growing population while preserving the environment and its resources.

LARC452 Green Infrastructure and Community Greening (3 Credits)
A critical look and exploration of green infrastructure (GI) elements in the built environment in contributing to ecosystems services and the sustainability of the built environment. The course explores the science, issues, challenges, and the policy, planning and design solutions offered by green infrastructure.
Prerequisite: PLSC110 and PLSC111; or (PLSC112 and PLSC113); or permission of instructor.
Restriction: Junior standing or higher.
Credit Only Granted for: LARC489G or LARC452.
Formerly: LARC489G.

LARC453 Introduction to GIS and Hydrologic Modeling (3 Credits)
Introduction to Geographic Information Systems (GIS) and their application to hydrologic modeling. Basic GIS skills are used to manipulate and analyze spatial data to populate NRCS TR-55 hydrologic model for use in sizing constructed wetlands, bio-retention cells, and minor flood zones. No prior knowledge of GIS or hydrologic modeling is required. Stormwater and erosion control permitting as well as basic design principles for Maryland Environmental Site Design standards are introduced.

LARC454 Principles for Planting Design (3 Credits)
Emphasis will be placed on the analysis of natural systems of the landscape as they relate to visual thinking and to the rigor of the design process. Planting Design will familiarize you with native habitats, reinforce the application of design principles, and assess human response to the built environment in terms of developing a planting scheme. Students will acquire an understanding of and an appreciation for complex, interdependent relationships that exist in a healthy plant community. Students will graphically represent planting plans as communication tools suitable for client and contractor discussion as well as the basic construction documentation process through plant schedules, details, technical specifications, soil analysis, cost estimating, site preparation, and landscape maintenance procedures.
Prerequisite: PLSC253 or equivalent; and LARC220 or LARC620.
Restriction: Permission of Landscape Architecture program; and must be in Landscape Architecture program; or permission of Landscape Architecture program.
Credit Only Granted for: LARC454 or LARC489E.
Formerly: LARC489E.

LARC461 People and the Environment (3 Credits)
Focus is placed on human and environmental interactions. Students will look at both natural and built environments and how they influence human health and well-being. Many environmental settings will be examined. These include hospitals, public housing neighborhoods, school settings, retirement communities, transportation corridors and green spaces. We will also explore how racial and socio-economic factors affect living and working environmental conditions. Ultimately, students will be using this knowledge to create environments that support individuals, families and various community groups' health and well-being.
Credit Only Granted for: LARC489K or LARC461.
Formerly: LARC489K.

LARC470 Landscape Architecture Seminar (3 Credits)
A combination of self-directed study, seminar, and lecture formats. An introduction to aspects of research methods, critical analysis, and proposal writing with a focus on urban and community design.
Prerequisite: LARC321; and LARC341.
Corequisite: LARC440.
Restriction: Senior standing; and must be in Landscape Architecture program.

LARC471 Capstone Praxis Studio (5 Credits)
A capstone experience with projects of varied thematic content that emphasize the integration of critical thinking skills and methodologies introduced throughout the landscape architecture curriculum. Students apply design and analysis methodologies, evaluate alternative solutions, involve community residents and engage in final design development, using the master plan and site design process, report writing, and oral and graphic presentations. Final presentations are open to the university and the community.
Prerequisite: LARC430.
Restriction: Senior standing; and must be in Landscape Architecture program.

LARC489 Special Topics in Landscape Architecture (1-4 Credits)
Credit according to time scheduled and organization of course. A lecture and/or studio course organized as an in-depth study of a selected specialization of landscape architecture not covered by existing courses.
Prerequisite: Permission of AGNR-Plant Science & Landscape Architecture department.
Repeatable to: 4 credits if content differs.

LARC499 Independent Studies in Landscape Architecture (1-4 Credits)
Independent studies in landscape architecture including field, studio or library research under the direction of a faculty member.
Prerequisite: 12 credits in LARC courses; or permission of AGNR-Plant Science & Landscape Architecture department.
Restriction: Must be in Landscape Architecture program; or must be in Plant Sciences program.
Repeatable to: 4 credits if content differs.

LASX - Certificate in Latin American Studies Education Abroad

LASX301 Human Rights and Cultural Representations (3 Credits)
The cultural and human responses to the violence of genocide politics in the Holocaust will serve as an excellent start point to analyze political repression in Latin America (focus on Guatemala, Uruguay, Argentina and Chile). This course discusses not only the impact of trauma, the legacy of memory and the role of the national states during dictatorships in these countries, but also how to make these experiences productive to reconstruct selves and societies.
Additional Information: This course is offered as part of the Maryland-in-Buenos Aires study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/miba. Education Abroad processes registrations for this course on behalf of students.

LATN - Latin

LATN101 Elementary Latin I (4 Credits)
Additional Information: A student who has two units of Latin in high school may register for LATN101 for the purposes of review, but ordinarily not for credit.

LATN102 Elementary Latin II (4 Credits)
Prerequisite: Must have completed LATN101 at University of Maryland, College Park; or permission of ARHU-Classics department.

LATN201 Intermediate Latin (4 Credits)
Prerequisite: Must have completed LATN102 at University of Maryland, College Park; or permission of ARHU-Classics department.
Formerly: LATN203.

LATN269 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

LATN301 Plautus (3 Credits)
Plautine drama. Literary, linguistic and socio-cultural aspects. Readings are in Latin.

LATN302 Ovid (3 Credits)
Major works of Ovidian poetry. Literary and moral atmosphere of Augustan age. Readings are in Latin.

LATN303 Petronius (3 Credits)
Reading and analysis of Petronius' Satyricon with an emphasis on the literary climate of the Neronian Age and on the emergence of the novel as a literary genre. Readings are in Latin.

LATN304 Cicero and Sallust (3 Credits)
Selected speeches of Cicero and selections from the historian Sallust. Rhetorical, social and political context. Readings are in Latin.
Prerequisite: LATN201; or students who have taken courses with comparable content may contact the department.

LATN351 Horace and Catullus (3 Credits)
Readings are in Latin.
Prerequisite: LATN201; or students who have taken courses with comparable content may contact the department.

LATN369 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

LATN386 Experiential Learning (3-6 Credits)
Prerequisite: Must have a Learning Proposal approved by the Office of Experiential Learning Programs, faculty sponsor, and student's internship sponsor.
Restriction: Junior standing or higher.

LATN388 Special Topics in Latin Language and Literature (3 Credits)
Readings in Latin at the intermediate level.
Prerequisite: LATN201; or permission of the department.
Repeatable to: 6 credits if content differs.

LATN405 Lucretius (3 Credits)
Readings are in Latin.

LATN410 Latin Historians (3 Credits)
Latin historical writing as a literary genre. Influences, style, and literary techniques. Readings are in Latin.

LATN415 Vergil's Aeneid (3 Credits)
Vergil's Aeneid: readings of selections in Latin and of the entire epic in English translation along with critical essays.
Formerly: LATN305.

LATN472 Historical Development of the Latin Language (3 Credits)
An analysis of the development of the Latin language from archaic times to the Middle Ages.
Credit Only Granted for: LATN472 or LING431.

LATN488 Latin Readings (3 Credits)
The reading of one or more selected Latin authors from antiquity through the Renaissance. Reports.
Prerequisite: Permission of ARHU-Classics department.
Repeatable to: 6 credits if content differs.
Additional Information: Readings are in Latin.

LATN499 Independent Study in Latin Language and Literature (1-3 Credits)
Prerequisite: Permission of ARHU-Classics department.
Repeatable to: 6 credits if content differs.

LBSC - Library Science

LBSC208 Special Topics in Information Studies (3 Credits)
Special topics in aspects of information use, technology, and policy.
Repeatable to: 6 credits if content differs.

LBSC386 Experiential Learning (3-6 Credits)
Restriction: Junior standing or higher; and must have learning proposal approved by the Office of Experiential Learning Programs, faculty sponsor, and student's internship sponsor.

LBSC499 Workshops, Clinics, and Institutes (1-9 Credits)
Workshops, clinics, and institutes developed around specific topics or problems. Primarily for practicing librarians.
Repeatable to: 9 credits.

LEAD - Leadership Education and Development

LEAD217 Introduction to Leadership (3 Credits)
Surveys the study and practice of leadership and provides students with a variety of experiences to wrestle with large leadership questions. What is leadership? Who can be a leader? How is leadership an important aspect of understanding self and others? Students will explore and respond to these questions through a variety of leadership theories and models, self-assessments, critical reflection, active-learning, group projects, and research. The course will introduce students to critical theory and critical perspectives of leadership to help students broaden their perspectives on leadership and develop more complex thought and practice of leadership.
Restriction: Freshman standing; or sophomore standing.
Credit Only Granted for: LEAD217 or HESI217.
Formerly: HESI217.

LEAD305 Leadership and Ethics (3 Credits)
Encourages students to explore the ethical demands of leadership. Through the examination of moral and ethical frameworks, students will develop their efficacy in analyzing multiple perspectives, decision-making, and navigating complexity. This course focuses on values-based leadership and one's responsibilities and commitments in the context of leadership for the common good and for purposeful change. The course assists students in identifying and examining ethical leadership as it relates to values, authenticity, context, controversy, and dilemmas.

LEAD315 Leadership in Groups and Organizations (3 Credits)
Assists students in acquiring and integrating leadership knowledge within group and organizational contexts. Individual (self), relational (others), and contextual (context) influences on leadership will be examined using theories and frameworks that will help students learn to navigate complex organizational environments and practice leadership that is process-based and relationship-oriented. Through hands-on activities, personal exploration, and critical analysis of leadership within groups and organizations, students will gain greater insight into the historical, cultural, and environmental elements of leadership.
Prerequisite: LEAD217 or HESI217.
Credit Only Granted for: LEAD315 or HESI315.
Formerly: HESI315.

LEAD320 Social Action Seminar (2 Credits)
The purpose of the Social Action Sequence (LEAD 320 & LEAD 321) is to examine the connections between leadership and social change, and learn how our own leadership knowledge and practice can be used to advance progress toward more just and equitable communities. In LEAD 320 (2-credits), students will have the opportunity to conduct a semester-long project to increase their knowledge and understanding of a social issue of their interest, and design resources and an action plan for engaging in work related to this social issue in their own communities.
Prerequisite: HESI217 or LEAD 217; and HESI315 or LEAD315.
Restriction: Must be in the Leadership Studies Minor or Leadership Studies Certificate program.
Credit Only Granted for: HESI320 or LEAD320.
Formerly: HESI320.
Additional Information: May fulfill a requirement for the Leadership Studies Certificate only if taken sequentially with LEAD321 course.

LEAD321 Advanced Social Action Seminar (1 Credit)
The purpose of the Social Action Sequence (LEAD 320 & LEAD 321) is to examine the connections between leadership and social change, and learn how our own leadership knowledge and practice can be used to advance progress toward more just and equitable communities. Together we will explore socially-responsible approaches to leadership as the groundwork for this sequence. In LEAD 321 (1-credit), students will implement their action plan for regular engagement in their community related to their chosen social issue, practicing leadership approaches and skills to advance social change within their spheres of influence.
Prerequisite: HESI217 or LEAD217; and HESI315 or LEAD315; and HESI320 or LEAD320.
Restriction: Must be in the Leadership Studies Minor or Leadership Studies Certificate program.
Credit Only Granted for: HESI321 or LEAD321.
Formerly: HESI321.
Additional Information: May fulfill a requirement for Leadership Studies Certificate only if taken sequentially with LEAD 320 course.

LEAD417 Leadership Studies Capstone (3 Credits)
As the final academic experience in the Leadership Studies Minor/Certificate, this seminar is designed to be both retrospective and integrative, encouraging you to synthesize relevant concepts and experiences and to formulate your own informed perspective on the implications of leadership. This course will serve as a place to critically think about the field of leadership studies and the implications of leadership in multiple settings for life-long practice. You will be expected to demonstrate skill in analysis of pertinent literature, write with purpose and clarity, facilitate the learning and development of others, and engage in thoughtful group discussion. In this seminar, you will submit scholarly products to demonstrate a mature understanding of your leadership trajectory in past, present and future contexts.
Prerequisite: HESI217 or LEAD217; and HESI315 or LEAD315.
Restriction: Permission of Counseling, Higher Education, and Special Education department required; Restricted to students in Leadership Studies Minor and Certificate only .
Credit Only Granted for: LEAD417 or HESI417.
Formerly: HESI417.

LGBT - Lesbian Gay Bisexual Transgender Studies

LGBT200 Introduction to Lesbian, Gay, Bisexual, and Transgender Studies (3 Credits)
An interdisciplinary study of the historical and social contexts of personal, cultural and political aspects of LGBT life. Sources from a variety of fields, such as anthropology, history, psychology, sociology, and women's studies, focusing on writings by and about LGBT people.
Credit Only Granted for: LGBT200.

LGBT264 Quare/Queer Contentions: Exploration of Sexualities in the Black Community (3 Credits)
Centering the subjectivities of queer people of color generally and more specifically, Black people (as the word "quare" invites us to do), Quare/Queer Contentions takes up key moments within the history of the Black community and asks us to consider the work and presence of LGBTQ people in these moments. The course also contends with the everyday experiences of LGBTQ subjects in the Black community. Quare/Queer Contentions, therefore, interrogates the material realities of Black queer people in the context of family, religion, cultural/creative work, among others. Interdisciplinary in orientation, the course will employ primary and secondary texts, film, art, autobiographical narratives and policy data.
Cross-listed with: AAAS264, WGSS264.
Credit Only Granted for: LGBT264, AASP264, AAAS264, WMST264 or WGSS264.

LGBT265 LGBTQ+ Literatures and Media (3 Credits)
A study of literary and cultural expressions of queer and trans identities, positionalities, and analytics through an exploration of literature, art, and media. We will examine historical and political power relations by considering the intersections of sexuality and gender with race, class, nation, and disability. Topics include the social construction and regulation of sexuality and gender, performance and performativity, intersectionality, and the relationship between aesthetic forms and queer/trans subjectivity. Our interpretations will be informed by queer and trans theories.
Cross-listed with: ENGL265.
Restriction: Must not have completed LGBT265.
Credit Only Granted for: ENGL265 or LGBT265.

LGBT298 Special Topics in Lesbian, Gay, Bisexual, and Transgender Studies (3 Credits)
Study of particular themes and issues in LGBT studies.
Repeatable to: 9 credits if content differs.

LGBT310 Transgender Studies (3 Credits)
Introduces students to the interdisciplinary field of transgender studies, providing a history of the field and engaging current debates within it. Students will explore the emergence and consolidation of trans identities, practices, cultures, and knowledges across medical, historical, sociological, cultural, and artistic contexts, paying particular attention to dynamics of race, class, and ability, to global and transnational difference, and to the implications of transgender studies for understanding gender and sexuality overall.
Cross-listed with: WGSS310.
Credit Only Granted for: LGBT310, WMST310 or WGSS310.

LGBT327 Lesbian, Gay, Bisexual, and Transgender Film and Video (3 Credits)
Comparative analysis of forms, themes, and the politics of representation in film and video by and/or about LGBT people.
Cross-listed with: ENGL359F.
Restriction: Junior standing or higher.
Credit Only Granted for: LGBT327 or ENGL359F.

LGBT350 LGBTQ+ Public Speaking and Facilitation (3 Credits)
Guides students through oral communication skills around LGBTQ+ topics. The course centers the experiences of minoritized intersectional LGBTQ+ communities, and students will use speaking, presentation, and facilitation skills to educate the UMD community about sexual orientation and gender identity and expression through panel discussions in classes, residence halls, and other university settings. Students who have received training for this purpose enter into these discussions prepared to disseminate accurate information, to answer questions that students, staff, and faculty may have about the realities of LGBTQ+ lives. Students will receive training that is rooted in queer theory and social justice education, building on the prerequisite course LGBT 200.
Prerequisite: LGBT200.
Restriction: Must have permission of LGBT Studies Program.

LGBT359 Special Topics in LGBTQ+ Literatures and Media (3 Credits)
Selected study of a topic pertinent to literary and cultural expressions of LGBTQ+ identities, positionalities, and analytics through an exploration of literature, art, and/or media.
Cross-listed with: ENGL359.
Repeatable to: 9 credits if content differs.

LGBT386 Lesbian, Gay, Bisexual, and Transgender Community Organization Internship (3-6 Credits)
Supervised internship experience with a community organization that expressly serves lesbian, gay, bisexual, and transgender people. Students will be expected to relate course material to experience in an analysis of an organization's activities.
Prerequisite: 9 credits in LGBT courses.
Restriction: Permission of LGBT Studies Program.

LGBT398 Special Topics in Lesbian, Gay, Bisexual, and Transgender Studies (3 Credits)
In-depth study of particular themes and issues in LGBT studies.
Prerequisite: LGBT200.
Restriction: Sophomore standing or higher.
Repeatable to: 9 credits if content differs.

LGBT448 Special Topics in Lesbian, Gay, Bisexual, and Transgender Studies (3 Credits)
In-depth study of particular themes and issues in LGBT studies.
Prerequisite: LGBT200; or permission of LGBT Studies Program.
Restriction: Junior standing or higher.
Repeatable to: 9 credits if content differs.

LGBT448W Sex, Gender, and Jewish Identity (3 Credits)
An exploration of Jewish embodiment, including dynamics related to biological sex, culturally-framed gender, and sexuality. Topics of discussion may include transgender and intersex Jews, stereotypes and gender performance, modesty, genetics, and body alteration. Focus is on contemporary Jewish culture, framed within the larger historical and textual tradition.
Prerequisite: 1 course in WGSS; or 1 course in JWST; or 1 course in LGBT; or permission of instructor.
Cross-listed with: JWST492, WGSS492.
Credit Only Granted for: JWST492, JWST409G, LGBT448W, WMST498W or WGSS492.
Formerly: WMST498W and JWST409G.

LGBT459 Selected Topics in Sexuality and Literature (3 Credits)
Detailed study of sexuality as an aspect of literary and cultural expression.
Prerequisite: Must have completed two lower-level English courses, at least one in literature.
Repeatable to: 9 credits if content differs.

LGBT488 Seminar in Lesbian, Gay, Bisexual, and Transgender Studies (1-3 Credits)
Developments in theories and methods of LGBT Studies, with emphasis upon interaction between the humanities and the social sciences in the elaboration of this interdisciplinary area of scholarship.
Prerequisite: 9 credits in LGBT courses; and permission of LGBT Studies Program.
Recommended: LGBT200. And ENGL265; or CMLT291.
Repeatable to: 9 credits if content differs.
Formerly: CMLT498Y.

LGBT499 Independent Study (1-3 Credits)
Directed research and analysis in LGBT Studies on a topic selected by the student.
Prerequisite: LGBT200; and permission of LGBT Studies Program.
Restriction: Senior standing.
Repeatable to: 6 credits if content differs.

LGBX - Lesbian Gay Bisexual Transgender Studies Education Abroad

LGBX200 Gender, Equality, and Sexuality in Scandinavia (3 Credits)
Sweden is one of the most gender equal countries in the world and is well-known for its progressive culture supported by forward-thinking laws and legislation. This course explores how concepts of gender, body, sexuality and race intersect in current debates about changing family structures, children's rights, and new ethical dilemmas in a changing Scandinavia.
Cross-listed with: WMSX200.
Credit Only Granted for: WMSX200 or LGBX200.
Additional Information: This course is offered as part of the Maryland-in-Stockholm study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMStockholm. Education Abroad processes registrations for this course on behalf of students.

LGBX201 Sex Education and Sexual Reform in Europe (3 Credits)
Provides insight to the ways in which sexual reform and sex education has shaped not only the history of sexuality in Europe, but also the very core of the various national identities. We will look into the different movements, campaigns, policies, and public debates regarding sexuality. We will discover the ways in which sex and sexuality are conveyed in sexual education aimed at children and youth by reading and watching examples of sex educational material.
Cross-listed with: WMSX201.
Credit Only Granted for: WMSX201 or LGBX201.
Additional Information: This course is offered as part of the Maryland-in-Stockholm study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMStockholm. Education Abroad processes registrations for this course on behalf of students.

LGBX202 Transgender in Scandinavia (3 Credits)
This course explores the history of trans activism with a special focus on Sweden, and how legislative and medical discourses change how we think about gender identities and rights. We also explore topics such as transphobia, gender disclosure and HIV criminalization laws, reproductive rights, gender-neutral pronouns, transgender children and their families, and how race and class intersect with being trans.
Cross-listed with: WMSX202.
Credit Only Granted for: WMSX202 or LGBX202.
Additional Information: This course is offered as part of the Maryland-in-Stockholm study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMStockholm. Education Abroad processes registrations for this course on behalf of students.

LING - Linguistics

LING200 Introductory Linguistics (3 Credits)
An exploration of the nature of human language. Introduction to the basic concepts and methodology of modern linguistic analysis (sound systems, word formation, sentence structure). Examination of the factors that contribute to dialect differences and the social implications of language variation. Additional topics may include: semantics, pragmatics, language change, writing systems, typology, language universals, comparison with other communication systems.
Credit Only Granted for: HESP120 or LING200.
Additional Information: This course serves as the prerequisite for further courses in linguistics.

LING240 Language and Mind (3 Credits)
The study of language as a cognitive phenomenon. Ways of representing people's knowledge of their native language, ways in which that knowledge is attained naturally by children, and how it is used in speaking and listening. Additional topics may include: animal communication, language and the brain, language and thought.
Prerequisite: Minimum grade of C- in LING200.
Additional Information: Required for Linguistics majors and recommended for students in related fields.

LING248 Introduction to Laboratory Research in Linguistics (2-3 Credits)
Individualized, collaborative research course aimed at developing skills for laboratory research in language acquisition, sentence processing or neurolinguistics. Learning to conduct research in laboratory linguistics as part of a research team that will create original research in the field.
Recommended: LING200 or LING240.
Restriction: Permission of instructor.
Repeatable to: 6 credits if content differs.
Additional Information: A two-semester commitment is required, i.e. Ling248 is followed by Ling448.

LING260 Meaning through Language: Why are we so good at it? (3 Credits)
What is it about us humans and our languages that allows us to communicate in ways unmatched by other animals or powerful AI models? The question is ancient, but recent decades have seen great progress in the cognitive science of language, while expanding the diversity of languages investigated. We know much more about how languages vary, how they develop in children, how they are encoded in the mind, and relate to other domains of cognition. Major developments in statistical computation and research on animal cognition also illuminate what is (not) possible without the particular structure of the human mind. We bring this all to bear on our Big Question: What makes human language special from the viewpoint of meaning? Students will come to understand the major features of language as a vehicle for complex thought and a tool for communication. They will use this understanding in analyzing common semantic patterns and everyday conversational dynamics.

LING262 HERITAGE LANGUAGES AND THEIR SPEAKERS (3 Credits)
An interdisciplinary examination of the phenomenon of heritage language (a bilingual's home language which is distinct from the dominant language of the wider society). Relationship between linguistic structure, cultural and social aspects of language use, and language change. Interpretations of experimental and theoretical work. Relevance of heritage languages for linguistic theory, language policy, and education.
Additional Information: One class per week will be in-field instruction in collecting data from heritage speakers.

LING269 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

LING272 Biophysics of Language (3 Credits)
Examines the nature of mental representation of language in the physiology of the mind/brain, how it evolved, how it emerges in learners' minds, and how it decays through injury and illness. Insights from linguistics, cognitive psychology, neuroscience, animal behavior, molecular biology, and biophysics are brought to bear on how an abstract systematic behavior can arise within an animal brain.

LING311 Syntax I (3 Credits)
Basic concepts, analytical techniques of generative syntax, relation to empirical limits imposed by viewing grammars as representations of a component of human mind. Aspects of current theories.
Prerequisite: LING240.

LING312 Syntax II (3 Credits)
Continuation of LING311. Development of theories of syntax. Criteria for revising theories. Methods and strategies of scientific efforts to explain natural phenomena.
Prerequisite: LING311.

LING320 Phonetics (3 Credits)
Representations and models of acoustic and articulatory phonetics. Develops concepts and skills for description, measurement and scientific analysis of the sound systems of human languages, including various varieties of English.
Prerequisite: Minimum grade of C- in LING200 or LING240.
Additional Information: This course counts as a core course for the linguistics major. Only one of Ling320 or HESP403 can be used to count towards the Linguistics major.

LING321 Phonology I (3 Credits)
Properties of sound systems of human languages, basic concepts and analytical techniques of generative phonology. Empirical limits imposed by viewing grammars as cognitive representations. Physiological properties and phonological systems; articulatory phonetics and distinctive feature theory.
Prerequisite: LING240.

LING322 Phonology II (3 Credits)
Continuation of LING321. Further investigation of phonological phenomena and phonological theory. Revising and elaborating the theory of the phonological representation; interaction of phonology and morphology.
Prerequisite: LING321.

LING330 Historical Linguistics (3 Credits)
A traditional presentation of language change. Language types and families, sounds and writing systems, grammatical categories. Reconstruction of proto-languages by internal and comparative methods.
Prerequisite: LING321.
Recommended: LING311.

LING350 Philosophy of Language (3 Credits)
The nature and function of language and other forms of symbolism from a philosophical perspective.
Prerequisite: LING311; or 2 courses in PHIL and (PHIL170 or PHIL370); or permission of ARHU-Philosophy department.
Cross-listed with: PHIL360.
Credit Only Granted for: LING350 or PHIL360.

LING369 Special Topics in Study Abroad (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

LING386 Experiential Learning (3-6 Credits)
Prerequisite: Must have a Learning Proposal approved by the Office of Experiential Learning Programs, faculty sponsor, and student's internship sponsor.
Restriction: Junior standing or higher.

LING410 Grammar and Meaning (3 Credits)
The basic notions of semantic theory: reference, quantification, scope relations, compositionality, thematic relations, tense and time, etc. The role these notions play in grammars of natural languages. Properties of logical form and relationship with syntax.
Prerequisite: Permission of instructor; or LING311.

LING419 Topics in Syntax (3 Credits)
Topics vary.
Prerequisite: LING311.
Repeatable to: 12 credits if content differs.

LING420 Word Formation (3 Credits)
Examination of shape and meaning of possible words, both across languages and within particular languages. Interaction between principles of word formation and other components of a grammar: syntax, logical form and phonology.
Prerequisite: LING321 and LING311.

LING429 Topics in Phonology (3 Credits)
Advanced seminar in phonology. Topics vary.
Prerequisite: LING322.
Repeatable to: 6 credits if content differs.

LING439 Topics in Diachronic Linguistics (3 Credits)
Repeatable to: 6 credits if content differs.

LING440 Grammars and Cognition (3 Credits)
Relationship between the structure, development and functioning of grammars and the structure, development and functioning of other mental systems. Interpretations of experimental and observational work on children's language, aphasia, speech production and comprehension.
Prerequisite: LING321 and LING311.

LING444 Child Language Acquisition (3 Credits)
Examines language acquisition in infancy and early childhood: the nature of children's linguistic representations and how these develop naturally. Role of (possible) innate linguistic structure and interaction of such structure with experience. Evaluation of methods and results of current and classic research leading to contemporary models of language development.
Prerequisite: LING311.

LING448 Advanced Laboratory Research in Linguistics (2-3 Credits)
Individualized, collaborative research course aimed at developing skills for laboratory research in language acquisition, sentence processing or neurolinguistics. Conducting a research project in laboratory linguistics as part of a team creating original research relevant to current issues in linguistics.
Prerequisite: LING248; and (LING200 or LING240).
Restriction: Permission of instructor.
Repeatable to: 6 credits if content differs.
Additional Information: This course is part of a two-semester sequence. Ling248 is a prerequisite. Ling248 and Ling448 must be completed in the same laboratory.

LING449 Topics in Psycholinguistics (3 Credits)
Critical evaluation of primary research in psycholinguistics. Relating theoretical hypotheses to experimental hypotheses and predictions. Evaluation of experimental results. Emphasis on hands-on experience and experimental methodologies. Specific topics vary.
Prerequisite: LING321 and LING311; or permission of ARHU-Linguistics department.
Repeatable to: 6 credits if content differs.

LING451 Grammars and Variation (3 Credits)
Grammars and the use of language in a variety of styles: formal, casual, literary, etc. Consequences for concepts of grammars. Variation theory. Literary styles.
Prerequisite: LING311.

LING460 Diversity and Unity in Human Languages (3 Credits)
Fundamentals of grammatical typology as they relate to issues in social attitudes towards language. Linguistic structure of standard and non-standard languages and dialects. Relationship of different writing systems to linguistic structure. Issues in bilingualism and multilingualism.
Prerequisite: LING240 or LING200.

LING499 Directed Studies in Linguistics (1-3 Credits)
Independent study or research on language under the supervision of a faculty member.
Prerequisite: Permission of ARHU-Linguistics department.
Repeatable to: 6 credits if content differs.

MATH - Mathematics

MATH107 Introduction to Math Modeling and Probability (3 Credits)
A goal is to convey the power of mathematics as shown by a variety of problems which can be modeled and solved by quantitative means. Also included is an introduction to probability. Topics include data analysis, equations, systems of equations, inequalities, elementary linear programming, Venn diagrams, counting, basic probability, permutations, combinations, tree diagrams, standard normal and normal distributions. The mathematics of finance is covered. The course includes problem solving and decision making in economics, management, and social sciences.
Prerequisite: Must have math eligibility of MATH107 or higher; and math eligibility is based on Math Placement Exam or successful completion of MATH003 with appropriate eligibility.
Restriction: Not open to students majoring in mathematics, engineering, business, life sciences, and the physical sciences; must not have completed STAT100, MATH113, MATH120, MATH135, MATH136 or MATH140 with a C- or better; must not have completed any MATH or STAT course with a prerequisite of MATH120, MATH136, or MATH140.
Formerly: MATH110 and MATH111.

MATH113 College Algebra and Trigonometry (3 Credits)
Topics include elementary functions including graphs and applications of: polynomial, rational, exponential, and logarithmic functions. Systems of equations and applications. Trigonometric functions: angle and radian measure, graphs and applications.
Prerequisite: Must have math eligibility of MATH113 or higher; and math eligibility is based on the Math Placement Exam or the successful completion of MATH 003 with appropriate eligibility.
Restriction: Must not have completed MATH115, MATH120, MATH135, MATH136 or MATH140 with a grade of C- or higher; and must not have completed any course with a prerequisite of MATH120, MATH130, MATH136, or MATH140.

MATH115 Precalculus (3 Credits)
Preparation for MATH120, MATH135 or MATH140. Elementary functions and graphs: polynomials, rational functions, exponential and logarithmic functions, trigonometric functions. Algebraic techniques preparatory for calculus.
Prerequisite: Must have math eligibility of MATH115 or higher; and math eligibility is based on the Math Placement Exam or the successful completion of MATH003 with appropriate eligibility. Or MATH113.
Restriction: Must not have completed MATH140 with a grade of C- or better; and must not have completed any MATH or STAT course with a prerequisite of MATH140 or MATH141.

MATH120 Elementary Calculus I (3 Credits)
Basic ideas of differential and integral calculus, with emphasis on elementary techniques of differentiation and applications.
Prerequisite: 1 course with a minimum grade of C- from (MATH113, MATH115). Or must have math eligibility of MATH120 or higher; and math eligibility is based on the Math Placement Test.
Restriction: Not open to students majoring in mathematics, engineering, the biological sciences, biochemistry, chemistry, or the physical sciences; Must not have completed MATH130, MATH136 or MATH140 with a grade of C- or higher.
Formerly: MATH220.

MATH121 Elementary Calculus II (3 Credits)
Trigonometric functions, techniques of integration, infinite series, differential equations, probability.
Prerequisite: MATH120, MATH130, MATH136, or MATH140.
Restriction: Not open to students majoring in mathematics, engineering, the biological sciences, biochemistry, chemistry, or the physical sciences; Must not have completed MATH141 with a grade of C- or higher.
Formerly: MATH221.

MATH135 Discrete Mathematics for Life Sciences (4 Credits)
Basic discrete mathematics, with emphasis on relevant models and techniques to the life sciences.
Prerequisite: Minimum grade of C- in MATH113 or MATH115; or must have math eligibility of MATH120 or higher; and math eligibility is based on the Math Placement Test.
Restriction: Must be in the Biological Sciences or Neuroscience major; and not open to students majoring in mathematics, engineering, or the physical sciences.

MATH136 Calculus for Life Sciences (4 Credits)
Continuation of MATH135, including basic ideas of differential and integral calculus, with emphasis on elementary techniques and applications to the life sciences.
Prerequisite: Minimum grade of C- in MATH135.
Restriction: Must be in the Biological Sciences or Neuroscience major; Must not have completed MATH140 with a grade of C- or higher.

MATH140 Calculus I (4 Credits)
Introduction to calculus, including functions, limits, continuity, derivatives and applications of the derivative, sketching of graphs of functions, definite and indefinite integrals, and calculation of area. The course is especially recommended for science, engineering and mathematics majors.
Prerequisite: Minimum grade of C- in MATH115.

MATH141 Calculus II (4 Credits)
Continuation of MATH140, including techniques of integration, improper integrals, applications of integration (such as volumes, work, arc length, moments), inverse functions, exponential and logarithmic functions, sequences and series.
Prerequisite: Minimum grade of C- in MATH140.

MATH199 Special Topics in Mathematics (3 Credits)
Many games have a mathematical component. We will introduce several games, play them, and investigate the underlying mathematics. Students will work in teams on projects that involve developing strategies for new games.
Prerequisite: Permission of CMNS-Mathematics department.

MATH206 Introduction to Matlab (1 Credit)
This course is intended to prepare students for subsequent courses requiring computation with MATLAB. Covers basics of MATLAB including simple commands, variables, solving equations, graphing differentiation and integration, matrices and vectors, functions, M-files and fundamentals of programming in the MATLAB environment. When offered in Winter and Summer terms, the course is offered in a format suitable for online distance learning.
Prerequisite: 1 course with a minimum grade of C- from (MATH136, MATH140).

MATH212 Elements of Numbers and Operations (3 Credits)
Reviews and extends topics of arithmetic and number theory related to the elementary school curriculum, particularly number systems and operations with natural numbers, integers, and rationals.
Prerequisite: Must have completed one year of college preparatory algebra.
Restriction: Must be in one of the following programs (Early Childhood Education; Special Education; Elementary Education; Middle School Education).

MATH213 Elements of Geometry and Measurement (3 Credits)
Properties of geometric objects in two and three dimensions; parallel lines, curves and polygons; ratio, proportion, similarity; transformational geometry and measurement, constructions, justifications and proofs.
Prerequisite: MATH212.
Restriction: Must be in one of the following programs (Early Childhood Education; Special Education; Elementary Education; Middle School Education).

MATH214 Elements of Probability and Statistics (3 Credits)
Permutations and combinations; probability; collecting and representing data; using statistics to analyze and interpret data.
Prerequisite: MATH212.
Restriction: Must be in one of the following programs (Early Childhood Education; Special Education; Elementary Education; Middle School Education).

MATH240 Introduction to Linear Algebra (4 Credits)
Basic concepts of linear algebra: vector spaces, applications to line and plane geometry, linear equations and matrices, similar matrices, linear transformations, eigenvalues, determinants and quadratic forms.
Prerequisite: 1 course with a minimum grade of C- from (MATH131, MATH141).
Credit Only Granted for: MATH240, MATH341, or MATH461.

MATH241 Calculus III (4 Credits)
Introduction to multivariable calculus, including vectors and vector-valued functions, partial derivatives and applications of partial derivatives (such as tangent planes and Lagrange multipliers), multiple integrals, volume, surface area, and the classical theorems of Green, Stokes and Gauss.
Prerequisite: Minimum grade of C- in MATH141.
Credit Only Granted for: MATH241 or MATH340.

MATH243 Introduction to Linear Algebra and Differential Equations (4 Credits)
The basics of linear algebra and differential equations, with an emphasis on general physical and engineering applications. Aimed at students who need the material for future coursework but do not need as much depth and rigor as provided by MATH240 and MATH246.
Prerequisite: Minimum grade of C- in MATH141.
Credit Only Granted for: ENEE290 or MATH243.
Additional Information: Does not satisfy requirements for the Mathematics or Computer Science major. Does not satisfy prerequisite requirements for courses requiring MATH240 or MATH246.

MATH246 Differential Equations for Scientists and Engineers (3 Credits)
An introduction to the basic methods of solving ordinary differential equations. Equations of first and second order, linear differential equations, Laplace transforms, numerical methods and the qualitative theory of differential equations.
Prerequisite: Minimum grade of C- in MATH141.
Credit Only Granted for: MATH246 or MATH341.

MATH274 History of Mathematics (3 Credits)
An overview of aspects in the history of mathematics from its beginning in the concrete problem solving of ancient times through the development of abstraction in the 19th and 20th centuries. The course considers both mathematical ideas and the context in which they developed in various civilizations around the world.
Prerequisite: MATH120, MATH130, MATH136, or MATH140; or must have completed MATH220.

MATH299 Selected Topics in Mathematics (1-3 Credits)
Topics of special interest under the general guidance of the departmental committee on undergraduate studies.
Prerequisite: Permission of CMNS-Mathematics department.

MATH310 Introduction to Mathematical Proof (3 Credits)
To develop the students' ability to construct a rigorous proof of a mathematical claim. Students will also be made aware of mathematical results that are of interest to those wishing to analyze a particular mathematical model. Topics will be drawn from logic, set theory, structure of the number line, elementary topology, metric spaces, functions, sequences and continuity.
Prerequisite: Minimum grade of C- in MATH141; and must have completed or be concurrently enrolled in MATH240, MATH341, or MATH461; and must have completed or be concurrently enrolled in MATH241 or MATH340.
Restriction: Must be in a major within the CMNS-Mathematics department; or permission of the CMNS-Mathematics department.
Additional Information: Math majors may not use this course to satisfy an upper-level requirement.

MATH312 Mathematical Reasoning and Proof for Pre-Service Middle School Teachers (3 Credits)
Reasoning and proof as addressed in the middle school curriculum. Topics include proportional reasoning, logic and proof, types of numbers, field axioms, Euclidean and non-Euclidean geometry.
Prerequisite: MATH212 and MATH213.
Restriction: Must be in one of the following programs (Elementary Education; Special Education; Middle School Education).

MATH314 Introduction to Probability, Data, Analysis and Statistics for Preservice Middle School Teachers (3 Credits)
Analysis of bivariate data, probability and randomness, law of large numbers, central limit theorem, probabilities for independent and dependent events, counting techniques, random variables and probability distributions, expected values, sampling distributions, and confidence intervals.
Prerequisite: MATH214.
Restriction: Must be in one of the following programs (Elementary Education; Special Education; Middle School Education).

MATH315 Algebra for Preservice Middle School Teachers (3 Credits)
Algebraic concepts and techniques developed in the middle grades, with their larger mathematical context. Equations, inequalities and functions (linear, polynomial, exponential, logarithmic), with multiple representations of relationships. Common misconceptions of beginning algebra students.
Prerequisite: MATH212.
Restriction: Must be in one of the following programs (Elementary Education; Special Education; Middle School Education).

MATH340 Multivariable Calculus, Linear Algebra and Differential Equations I (Honors) (4 Credits)
First semester of the MATH340-341 sequence which gives a unified and enriched treatment of multivariable calculus, linear algebra and ordinary differential equations, with supplementary material from subjects such as differential geometry, Fourier series and calculus of variations. Students completing MATH340-341 will have covered the material of MATH240, MATH241, and MATH246, and may not also receive credit for MATH240, MATH241 or MATH246.
Prerequisite: MATH141 and MATH140; and permission of CMNS-Mathematics department; and permission will be granted only to incoming freshmen.
Credit Only Granted for: MATH241 or MATH340.

MATH341 Multivariable Calculus, Linear Algebra, Differential Equations II (Honors) (4 Credits)
A continuation of MATH340.
Prerequisite: Minimum grade of C- in MATH340.
Restriction: Open to second semester Freshmen only.
Credit Only Granted for: MATH240, MATH246, MATH341 or MATH461.

MATH386 Experiential Learning (3-6 Credits)
Prerequisite: Must have learning proposal approved by the CMNS Mathematics Department.

MATH401 Applications of Linear Algebra (3 Credits)
Various applications of linear algebra: theory of finite games, linear programming, matrix methods as applied to finite Markov chains, random walk, incidence matrices, graphs and directed graphs, networks and transportation problems.
Prerequisite: 1 course with a minimum grade of C- from (MATH461, MATH240, MATH341).

MATH402 Algebraic Structures (3 Credits)
For students having only limited experience with rigorous mathematical proofs. Parallels MATH403. Students planning graduate work in mathematics should take MATH403. Groups, rings, integral domains and fields, detailed study of several groups; properties of integers and polynomials. Emphasis is on the origin of the mathematical ideas studied and the logical structure of the subject.
Prerequisite: 1 course with a minimum grade of C- from (MATH240, MATH341, MATH461).
Restriction: Must not be in any of the following programs (Mathematics (Master's); Mathematics (Doctoral)).
Credit Only Granted for: MATH402 or MATH403.

MATH403 Introduction to Abstract Algebra (3 Credits)
Integers; groups, rings, integral domains, fields.
Prerequisite: 1 course with a minimum grade of C- from (MATH240, MATH461, MATH340); and 1 course with a minimum grade of C- from (MATH341, MATH241); and minimum grade of C- in MATH310. Or students who have taken courses with comparable content may contact the department.
Credit Only Granted for: MATH402 or MATH403.

MATH404 Field Theory (3 Credits)
Algebraic and transcendental elements, Galois theory, constructions with straight-edge and compass, solutions of equations of low degrees, insolubility of the quintic equation, Sylow theorems, fundamental theorem of finite Abelian groups.
Prerequisite: Minimum grade of C- in MATH403.

MATH405 Linear Algebra (3 Credits)
An abstract treatment of finite dimensional vector spaces. Linear transformations and their invariants.
Prerequisite: 1 course with a minimum grade of C- from (MATH240, MATH461, MATH341); and minimum grade of C- in MATH310.

MATH406 Introduction to Number Theory (3 Credits)
Integers, divisibility, prime numbers, unique factorization, congruences, quadratic reciprocity, Diophantine equations and arithmetic functions.
Prerequisite: 1 course with a minimum grade of C- from (MATH240, MATH241, MATH246, MATH340, MATH341, MATH461); or permission of CMNS-Mathematics department.

MATH410 Advanced Calculus I (3 Credits)
Subjects covered: sequences and series of numbers, continuity and differentiability of real-valued functions of one variable, the Riemann integral, sequences of functions and power series.
Prerequisite: 1 course with a minimum grade of C- from (MATH240, MATH461, MATH341); and 1 course with a minimum grade of C- from (MATH340, MATH241); and minimum grade of C- in MATH310.

MATH411 Advanced Calculus II (3 Credits)
Continuation of MATH410. Topics include: The topology of sets in Rn, the derivative matrix, the general chain rule, inverse and implicit function theorems with applications, smooth curves and surfaces in R3, Lagrange multipliers. Additional topics may include: Metric spaces, the contraction principle, the existence and uniqueness theorem for nonlinear first order differential equations, the Riemann integral of Rn, introduction to integration on curves and surfaces, Green's theorem.
Prerequisite: Minimum grade of C- in MATH410; and permission of CMNS-Mathematics department.

MATH416 Applied Harmonic Analysis: An Introduction to Signal Processing (3 Credits)
Introduces students to the mathematical concepts arising in signal analysis from the applied harmonic analysis point of view. Topics include applied linear algebra, Fourier series, discrete Fourier transform, Fourier transform, Shannon Sampling Theorem, wavelet bases, multiresolution analysis, and discrete wavelet transform.
Prerequisite: Minimum grade of C- in MATH141; and 1 course with a minimum grade of C- from (MATH240, MATH461, MATH341); and familiarity with MATLAB is required.

MATH420 Mathematical Modeling (3 Credits)
The course will develop skills in data-driven mathematical modeling through individual and group projects. Emphasis will be placed on both analytical and computational methods, and on effective oral and written presentation of results.
Prerequisite: 1 course with a minimum grade of C- from (MATH240, MATH461, MATH341); and 1 course with a minimum grade of C- from (MATH241, MATH340); and 1 course with a minimum grade of C- from (MATH246, MATH341); and 1 course with a minimum grade of C- from (STAT400, STAT410); and 1 course with a minimum grade C- from (CMSC106, CMSC131).
Recommended: AMSC460 or AMSC466.
Cross-listed with: AMSC420.
Credit Only Granted for: AMSC420 or MATH420.

MATH423 Linear Optimization (3 Credits)
Mathematical formulation of linear programming, graphical solutions, simplex method, duality, transportation problems, assignment problems, and game theory.
Prerequisite: 1 course with a minimum grade of C- from (MATH240, MATH401, MATH461, or MATH341).
Credit Only Granted for: MATH423 or MATH498T.
Formerly: MATH498T.

MATH424 Introduction to the Mathematics of Finance (3 Credits)
Introduction to the mathematical models used in finance and economics with emphasis on pricing derivative instruments. Designed for students in mathematics, computer science, engineering, finance and physics. Financial markets and instruments; elements from basic probability theory; interest rates and present value analysis; normal distribution of stock returns; option pricing; arbitrage pricing theory; the multiperiod binomial model; the Black-Scholes option pricing formula; proof of the Black-Scholes option pricing formula and applications; trading and hedging of options; Delta hedging; utility functions and portfolio theory; elementary stochastic calculus; Ito's Lemma; the Black-Scholes equation and its conversion to the heat equation.
Prerequisite: Minimum grade of C- in MATH141; and 1 course with a minimum grade of C- from (STAT400, STAT410); and permission of CMNS-Mathematics department.
Recommended: MATH246, MATH240, MATH241, MATH340, or MATH341.
Credit Only Granted for: BMGT444, MATH424.

MATH430 Euclidean and Non-Euclidean Geometries (3 Credits)
Hilbert's axioms for Euclidean geometry. Neutral geometry: the consistency of the hyperbolic parallel postulate and the inconsistency of the elliptic parallel postulate with neutral geometry. Models of hyperbolic geometry. Existence and properties of isometries.
Prerequisite: 1 course with a minimum grade of C- from (MATH240, MATH341, MATH461).

MATH431 Geometry for Computer Applications (3 Credits)
Topics from projective geometry and transformation geometry, emphasizing the two-dimensional representation of three-dimensional objects and objects moving about in the plane and space. The emphasis will be on formulas and algorithms of immediate use in computer graphics.
Prerequisite: 1 course with a minimum grade of C- from (MATH461, MATH240, MATH341).

MATH432 Introduction to Topology (3 Credits)
Metric spaces, topological spaces, connectedness, compactness (including Heine-Borel and Bolzano-Weierstrass theorems), Cantor sets, continuous maps and homeomorphisms, fundamental group (homotopy, covering spaces, the fundamental theorem of algebra, Brouwer fixed point theorem), surfaces (e.g., Euler characteristic, the index of a vector field, hairy sphere theorem), elements of combinatorial topology (graphs and trees, planarity, coloring problems).
Prerequisite: Minimum grade of C- in MATH410.

MATH436 Differential Geometry of Curves and Surfaces I (3 Credits)
Curves in the plane and Euclidean space, moving frames, surfaces in Euclidean space, orientability of surfaces; Gaussian and mean curvatures; surfaces of revolution, ruled surfaces, minimal surfaces, special curves on surfaces, "Theorema Egregium"; the intrinsic geometry of surfaces.
Prerequisite: 1 course with a minimum grade of C- from (MATH241, MATH340); and 1 course with a minimum grade of C- from (MATH461, MATH240, MATH341); and must have completed two 400-level MATH courses with a minimum grade of C- (not including MATH461, and 480's).

MATH437 Differential Forms (3 Credits)
Introduction to differential forms and their applications, and unites the fundamental theorems of multivariable calculus in a general Stokes Theorem that is valid in great generality. It develops this theory and technique to perform calculations in analysis and geometry. Topics include an introduction to topological spaces, the Gauss-Bonnet Theorem, Gauss's formula for the linking number, and the Cauchy Integral Theorem. Applications include Maxwell's equations of electromagnetism, connections and gauge theory, and symplectic geometry and Hamiltonian dynamics.
Prerequisite: 1 course with a minimum grade of C- from (MATH241, MATH340); and 1 course with a minimum grade of C- from (MATH240, MATH341, MATH461).
Recommended: MATH405, MATH403, MATH436, MATH410, or MATH432.

MATH445 Elementary Mathematical Logic (3 Credits)
Elementary development of propositional and predicate logic, including semantics and deductive systems and with a discussion of completeness, incompleteness and the decision problem.
Prerequisite: Minimum grade of C- in MATH141.

MATH446 Axiomatic Set Theory (3 Credits)
Development of a system of axiomatic set theory, choice principles, induction principles, ordinal arithmetic including discussion of cancellation laws, divisibility, canonical expansions, cardinal arithmetic including connections with the axiom of choice, Hartog's theorem, Konig's theorem, properties of regular, singular and inaccessible cardinals.
Prerequisite: 1 course with a minimum grade of C- from (MATH403, MATH410).

MATH452 Introduction to Dynamics and Chaos (3 Credits)
An introduction to mathematical dynamics and chaos. Orbits, bifurcations, Cantor sets and horseshoes, symbolic dynamics, fractal dimension, notions of stability, flows and chaos. Includes motivation and historical perspectives, as well as examples of fundamental maps studied in dynamics and applications of dynamics.
Prerequisite: MATH341; or MATH246 and one of (MATH240 or MATH461).
Cross-listed with: AMSC452.
Credit Only Granted for: AMSC452 or MATH452.

MATH456 Cryptography (3 Credits)
The theory, application, and implementation of mathematical techniques used to secure modern communications. Topics include symmetric and public-key encryption, message integrity, hash functions, block-cipher design and analysis, number theory, and digital signatures.
Prerequisite: (CMSC106, CMSC131, or ENEE150; or equivalent programming experience); and (2 courses from (CMSC330, CMSC351, ENEE324, or ENEE380); or any one of these courses and a 400-level MATH course, or two 400-level MATH courses); and Permission of CMNS-Mathematics department or permission of instructor.
Cross-listed with: CMSC456, ENEE456.
Credit Only Granted for: MATH456, CMSC456 or ENEE456.

MATH461 Linear Algebra for Scientists and Engineers (3 Credits)
Basic concepts of linear algebra. This course is similar to MATH240, but with more extensive coverage of the topics needed in applied linear algebra: change of basis, complex eigenvalues, diagonalization, the Jordan canonical form.
Prerequisite: Minimum grade of C- in MATH141.
Credit Only Granted for: MATH240, MATH341, or MATH461.
Additional Information: This course may not be used towards the upper level math requirements for MATH/STAT majors.

MATH462 Partial Differential Equations (3 Credits)
Linear spaces and operators, orthogonality, Sturm-Liouville problems and eigenfunction expansions for ordinary differential equations. Introduction to partial differential equations, including the heat equation, wave equation and Laplace's equation. Boundary value problems, initial value problems and initial-boundary value problems.
Prerequisite: 1 course with a minimum grade of C- from (MATH241, MATH340); and 1 course with a minimum grade of C- from (MATH246, MATH341).

MATH463 Complex Variables (3 Credits)
The algebra of complex numbers, analytic functions, mapping properties of the elementary functions. Cauchy integral formula. Theory of residues and application to evaluation of integrals. Conformal mapping.
Prerequisite: 1 course with a minimum grade of C- from (MATH241, MATH340).

MATH464 Transform Methods (3 Credits)
Fourier transform, Fourier series, discrete fast Fourier transform (DFT and FFT). Laplace transform. Poisson summations, and sampling. Optional Topics: Distributions and operational calculus, PDEs, Wavelet transform, Radon transform and applications such as Imaging, Speech Processing, PDEs of Mathematical Physics, Communications, Inverse Problems.
Prerequisite: 1 course with a minimum grade of C- from (MATH246, MATH341).

MATH470 Mathematics for Secondary Education (3 Credits)
An advanced perspective on some of the core mathematics underlying high school mathematics courses. Topics include number systems, functions of one variable, equations, inequalities, trigonometric functions, curve fitting, and polynomials. The course includes an analysis of alternate approaches to mathematical ideas and problems, and makes connections between ideas that may have been studied separately in different high school and college courses.
Prerequisite: MATH141 and MATH140; and must have completed one 400-level MATH course (not to include MATH461, 478, and 480's).
Restriction: Must be in the Secondary Math Education major.

MATH475 Combinatorics and Graph Theory (3 Credits)
General enumeration methods, difference equations, generating functions. Elements of graph theory, matrix representations of graphs, applications of graph theory to transport networks, matching theory and graphical algorithms.
Prerequisite: 1 course with a minimum grade of C- from (MATH240, MATH341, MATH461); and 1 course with a minimum grade of C- from (MATH241, MATH340); and permission of CMNS-Mathematics department. Cross-listed with CMSC475.
Credit Only Granted for: MATH475 or CMSC475.

MATH478 Selected Topics For Teachers of Mathematics (1-3 Credits)
Prerequisite: Permission of CMNS-Mathematics department.
Additional Information: Math majors may not use this course to fulfill the upper-level math requirement.

MATH480 Algebra for Middle School Teachers (3 Credits)
Prepares teachers with elementary certification to teach Algebra 1 in middle school. Focuses on basic algebra concepts and related theoretical ideas.
Prerequisite: MATH214.
Restriction: Must be a middle school teacher; and permission of CMNS-Mathematics department.
Credit Only Granted for: MATH480 or MATH483.
Additional Information: Not applicable to MATH/STAT major or minor requirements.

MATH481 Statistics and Data Analysis for Middle School Teachers (3 Credits)
Prepares teachers with elementary certification to teach simple data analysis and probability in middle school. Focuses on understanding basic statistics, data analysis, and related theoretical ideas.
Prerequisite: MATH214.
Restriction: Must be a middle school teacher; and permission of CMNS-Mathematics department.
Credit Only Granted for: MATH481 or MATH485.
Additional Information: Not applicable to MATH/STAT major or minor requirements.

MATH484 Geometry for High School Teachers (3 Credits)
Focuses on concepts related to geometry, including several geometry axiom schemes, transformations, and similarity. Includes constructions with Geometer's Sketchpad.
Prerequisite: MATH141; or students who have taken courses with comparable content may contact the department.
Restriction: Senior standing.
Credit Only Granted for: MATH482, MATH484, or MATH498E.
Formerly: MATH498E.

MATH487 Number for Middle Grades Teachers (3 Credits)
The rational number and proportional reasoning concepts developed in the middle grades and the larger mathematical context for these. Multiple representations of relationships, including verbal descriptions, diagrams, tables, graphs, and equations. Common misconceptions.
Prerequisite: Must have admission to M.A. or M.Ed. with concentration in Mathematics Education; or permission of CMNS-Mathematics department.
Restriction: This course may not be used towards the upper level math requirements for the MATH/STAT major.
Credit Only Granted for: MATH487 or MATH498K.
Formerly: MATH498K.

MATH489 Research Interactions in Mathematics (1-3 Credits)
Students participate in a vertically integrated (undergraduate, graduate and/or postdoctoral, faculty) mathematics research group. Format varies. Students and supervising faculty will agree to a contract which must be approved by the department. Up to three credits of MATH489 may be applied to the mathematics degree requirements. See the department's MATH489 online syllabus for further information.
Prerequisite: Permission of CMNS-Mathematics department.
Repeatable to: 10 credits if content differs.

MATH498 Selected Topics in Mathematics (1-9 Credits)
Topics of special interest to advanced undergraduate students will be offered occasionally under the general guidance of the departmental committee on undergraduate studies.
Repeatable to: 9 credits if content differs.

MEES - Marine-Estuarine-Environmental Sciences

MEES432 Physiological Ecology of Animals (3 Credits)
An examination of the influence of environmental constrains on animal function and energetic efficiency in the context of abiotic conditions in the habitats occupied by individuals.
Prerequisite: BSCI361; or students who have taken courses with comparable content may contact the department; or permission of instructor.
Credit Only Granted for: MEES498E, MEES698E, MEES432, or MEES632.
Formerly: MEES498E.

MEES498 Topics in Marine-Estuarine-Environmental Sciences (1-4 Credits)
Lecture and/or laboratory series organized to study a selected area of marine-estuarine-environmental sciences not otherwise considered in formal courses.

MIEH - Maryland Institute for Applied Environmental Health

MIEH300 A Public Health Perspective: Introduction to Environmental Health (3 Credits)
Environmental health is that branch of public health that deals with the human health effects of exposure to chemical, physical, and biological agents in the community, workplace, and home. Activities within Environmental Health Sciences are associated with recognizing, assessing, understanding, and mitigating the impacts of chemical, physical, and biological agents as well as understanding how human behavior and action impacts the environment. This course focuses on the central concepts, principles, issues, and applications of the essential scientific components and strategies of control of major environmental health problems.
Prerequisite: Minimum grade of C- in CHEM131 and CHEM132; and must have completed or be concurrently enrolled in SPHL100 or PHSC300.
Restriction: Must have earned a minimum of 60 credits; and must be in Public Health Science program; or permission of SPHL-School of Public Health.
Credit Only Granted for: SPHL498N or MIEH300.
Formerly: SPHL498N.

MIEH309 Environmental Health Research (1-3 Credits)
This research-based course will provide undergraduates with the opportunity to work closely with one of the faculty researchers in the Maryland Institute for Applied Environmental Health (MIAEH) within the School of Public Health. Our research covers multiple fields within the environmental health sciences (e.g. environmental epidemiology, exposure science, risk assessment, environmental microbiology, environmental microbial genomics, food toxicology, airborne infection transmission, environmental justice, and children's environmental health) that involve either laboratory-based research or non-laboratory based studies. Students will not only gain invaluable research and interpersonal skills but also contribute to MIAEH's ongoing environmental health research programs.
Restriction: Must have completed a minimum of 45 credits; and must have permission of instructor.
Repeatable to: 9 credits if content differs.

MIEH321 Environmental Determinants of Emerging Infectious Diseases (3 Credits)
Examines the influences of environmental factors, economic development, migration, and land use changes on emergence and reemergence of infectious diseases. Explores how population growth, development, and climate change impact natural reservoirs of infectious diseases and how they are transmitted through human populations. Includes historical accounts, newly emerging and reemerging diseases.
Prerequisite: Must have completed or be concurrently enrolled in SPHL100.

MIEH325 Introduction to Clinical Research Methods (3 Credits)
Introduces you to the importance of clinical research, including how studies are developed, structured, and implemented. You will also get hands-on experience with a variety of clinical sample collection methods. We will broadly review topics important to clinical research, including an overview of bioethics in research, the basics of clinical study structure and design, data collection, and the importance of good record keeping. You will apply this knowledge by developing your own clinical research project and creating a proposal in the structure of a grant funding application. You will also learn about topics related to clinical sample collection, including basic anatomy, the tools and procedures used, and the appropriate application of these procedures, as well as learning how to collect some basic clinical samples such as nasal swabs and blood samples.

MIEH330 Environmental Justice, Racism, and Environmental Health Disparities: How where you live can kill you (3 Credits)
Examination of environmental justice history, theory and science; discussion of linkages between the physical, natural, and social environments and environmental injustice; analysis of how environmental injustice can lead to adverse health conditions and environmental health disparities; discuss environmental justice case studies; and understanding of tools that can be used to understand and address environmental justice issues.
Prerequisite: Minimum grade of C- in MIEH300.
Restriction: Must be in a major in SPHL-School of Public Health.
Credit Only Granted for: MIEH210 or MIEH330.
Formerly: MIEH210.

MIEH331 The Built Environment, Sustainability, and Public Health: The Good, the Bad, and the Ugly (3 Credits)
Provides students with a fundamental understanding of theory, concepts, and issues related to the built environment; how the built environment influences behaviors and health outcomes; and opportunities to improve the built environment through planning, zoning, and community development initiatives that can make communities healthier, just, and more sustainable.
Prerequisite: Minimum grade of C- in MIEH300; or permission of instructor.
Credit Only Granted for: MIEH215 or MIEH331.
Formerly: MIEH215.

MIEH333 Every Drop Counts: Water, Food and Global Public Health (3 Credits)
In-depth interdisciplinary study of the public health issues related to water use for global food production. Topics will include accessibility and availability of safe water for agriculture worldwide, potential microbiological and chemical hazards in agricultural water, alternative water sources such as reclaimed wastewater and return flows, food safety approaches to managing agricultural water, and agricultural influences on surface and groundwater quality. Political, social, and economic factors relating to agricultural water will be addressed, with special focus on regions that are leaders in innovative water management and regions where access to clean water for agriculture is a major challenge.
Prerequisite: ENSP101 or MIEH300; or permission of department.
Cross-listed with: ENSP360.
Credit Only Granted for: MIEH333 or ENSP360.

MIEH407 One Health: Food Safety and Security (3 Credits)
This is a collaborative course with the University of Maryland and Cairo University, Cairo, Egypt to explore the One Health Foundation and its application to improving international food safety and security. The purpose of this global undergraduate class is to disseminate knowledge on One Health and its application to improving global food safety and security. Students will apply principles of One Health to ensure food safety and food security in Egypt.
Jointly offered with: MIEH607.
Restriction: Must have earned at least 75 credits .
Credit Only Granted for: MIEH607 or MIEH407.

MIEH480 Introduction to Occupational Health (3 Credits)
Through in-person site visits, hands-on activities and case studies, students will learn about healthy workplaces and their critical role in public health. The course will center on the field of occupational health and safety. Site visits will enable students to hear firsthand from workers, local health & safety professionals, and former students now in the field. Case studies will allow students to explore today's critical work hazards across various work environments and industries.Students will develop and apply essential skills, such as conducting a safety walk-through in a worksite, leading a worker safety training, and writing a safety plan for an employer. Upon course completion, students will be prepared to address traditional workplace problems, as well as emerging hazards like extreme heat, poor indoor air quality, and the mental health challenges of today's workplace.
Prerequisite: Minimum grade of C- in MIEH300 and EPIB301.
Recommended: BSCI201.

MITH - Maryland Institute for Technology in the Humanities

MITH301 Digital Publishing with Minimal Computing: Humanities at a Global Scale (3 Credits)
In this Global Classrooms course, students of the University of Maryland and Universidad del Salvador, Buenos Aires, will come together to learn how to create and assess websites from a critical and humanities-focused perspective. Specifically, the course will introduce "minimal computing" approaches, which privilege the use of open technologies, ownership of data and code, reduction in computing infrastructure and, consequently, environmental impact. The course is structured around a group project with students from both universities. You will collaborate virtually to create a multilingual (Spanish and English) digital edition of a colonial era text, while learning about Digital Humanities approaches to literary studies, digital publishing, history, and postcolonial studies.
Credit Only Granted for: MITH301, ENGL378M, CMLT398M, or LACS348C.
Additional Information: Knowledge of the Spanish language is not required as teaching and collaboration will be conducted in English. In the spirit of fostering a multilingual approach, however, we will not discourage the use of Spanish among students and instructors; mutual respect and cooperation are paramount to the success of your course project.

MITH388 Digital Humanities Research Assistantship (1-3 Credits)
An applied introduction to the theory and practice of digital research. The internship includes regular meetings with MITH staff, including designers, developers, information professionals, project managers, and faculty, to gain knowledge of existing digital scholarship and resources within the arts and humanities. Students may contribute to existing MITH projects or propose a small, independent research project on which they will receive support from MITH staff.
Restriction: Permission of instructor.
Repeatable to: 6 credits.

MITH498 Special Topics in Applied Digital Humanities (3 Credits)
An introduction to special topics, and technical approaches, for theoretically grounded humanities and social sciences digital research. Class meetings will introduce students to a variety of technical approaches potentially applicable to the specific topical foci; the theoretical basis for selecting, evaluating, and modifying technical approaches; and best practices in project management.
Repeatable to: 9 credits if content differs.

MLAW - MPower Undergraduate Law Programs

MLAW100 Justice and the Law (3 Credits)
An exploration into the relationship between justice and law, including psychological, philosophical, political and legal approaches to justice, as well as an analytical framework for understanding human rights.
Restriction: Course enrollment is restricted to first-semester students in the College Park Scholars Justice and Legal Thought Program (CPJT).

MLAW150 Law in a Just Society (3 Credits)
An exploration of the theoretical questions relating to such fundamental questions of jurisprudence as "what is law?" and "how can law be deployed as both an enemy and ally of justice?
Prerequisite: MLAW100.
Restriction: Course enrollment is restricted to students in the College Park Scholars Justice and Legal Thought Program.

MLAW217 Mock Trial (3 Credits)
Experience the excitement and reward of arguing, and perhaps winning your client's case in court. Mock Trial is designed for students who are interested in learning practical techniques for shaping the evidence, using the law, and exploiting the courtroom to create a coherent and convincing case theory.
Cross-listed with: GVPT217.
Credit Only Granted for: MLAW217, GVPT217, or GVPT319A.
Formerly: GVPT319A.

MLAW298 Special Topics in Legal Studies (1-3 Credits)
Substantive and experiential approaches to legal phenomena. Topics vary.
Repeatable to: 6 credits if content differs.

MLAW304 Introduction to Law and Social Inquiry (3 Credits)
An exploration of the relationship between law and society from an interdisciplinary perspective. Major themes cover the impact of law on society, society on law and social change.
Restriction: Must be in the Law and Society (MLAW) minor.

MLAW305 Law and Legal Institutions in Social Context (3 Credits)
An exploration of case law, statutes, and regulations separately and together in their social context.
Prerequisite: MLAW304.
Restriction: Must be a student in the Law and Society Minor.

MLAW315 Citizenship and Naturalization in America (2 Credits)
Notions of who is an American - and who is not - are deeply rooted in the American ethos. Although the United States has long been praised for its inclusiveness vis-a-vis citizenship - including a policy of jus soli, or birthright citizenship - a closer look reveals a difficult history involving the categorical exclusion of many groups from American citizenship. We will examine this history, focusing particularly on Black and Native Americans and immigrants, and drawing upon legal cases, historical texts, and personal narratives detailing the lived experiences of those seeking American citizenship. We will trace this history to the present and explore the current process and requirements for becoming an American citizen. Students will have an opportunity to engage guests and discussions from the Maryland Carey School of Law and other experts.
Restriction: Must be in the Law and Society minor (MLAW); or must be in College Park Scholars Justice and Legal Thought (CPJT).

MLAW325 Naturalization Workshop Practicum (1 Credit)
The focus of this Practicum is a naturalization workshop whereby students will assist eligible Marylanders in applying for citizenship. Students will work with faculty and law students to design, plan, and implement a naturalization workshop, to take place on a Saturday in the spring semester. Students will work directly with law students and faculty.
Prerequisite: MLAW315 or by permission of the department.

MLAW358 Selected Topics in Law and Society (3 Credits)
An interdisciplinary exploration of topics in law and society. Major scholarly interpretations of specific substantive fields of law.
Restriction: Must be in the Law and Society Minor.
Repeatable to: 6 credits if content differs.

MLAW359 Undergraduate Teaching Assistant Experience (3 Credits)
Designed to engage experienced Law and Society students as mentors and class leaders. Students will be involved in lesson planning, course design, field trips, and class discussion as they develop their leadership and public speaking skills.
Prerequisite: MLAW304.
Restriction: Must be enrolled in the Law and Society minor; and permission of program.
Repeatable to: 6 credits.
Formerly: MLAW355.

MLAW378 Special topics in Law and Society (3 Credits)
An interdisciplinary examination in law and society, relying on scholarly interpretations of specific substantive topics of law
Recommended: MLAW304.
Restriction: Must be in Law and Society Minor.
Repeatable to: 6 credits if content differs.

MLAW388 Law and Society Internship (1-4 Credits)
Participation in the Law and Society Internship (LASI) offers students the opportunity to enhance their education through practical skill building in the realm of law-related professionals.
Repeatable to: 7 credits.

MLAW404 Law & Society Capstone (3 Credits)
An exploration of the implications of technology on law and society from a variety of perspectives.Significant issues will be taken from contemporary scholarship and court cases.
Restriction: Student must be enrolled in the Law and Society minor.

MLAW411 Appellate Advocacy I (3 Credits)
By the end of this class, and with proper supervision, students should be able to competently brief and argue an appeal before any appellate court in the country. The skills taught in this class also transfer to other contexts that demand clear legal analysis, efficient and comprehensive legal research, excellent writing and effective oral advocacy. For students interested in pre-law skills, whether they plan to go to law school or some career that requires analytical reasoning, persuasive writing, and advocacy skills.
Recommended: MLAW304.

MLSC - MD Language Science Ctr

MLSC250 Lol that's not funny: Language change and linguistic creativity in online communication (3 Credits)
Recent developments in technology, from texting to Zoom, have created new environments for human language use. Examining how communication is changing in these environments highlights humans' endless linguistic ingenuity -- ranging from new vocabulary and punctuation conventions to the use of hashtags, emoji and memes. At the same time, these linguistic innovations exemplify broader patterns of language change and diversity that have been documented and studied by language scientists. In this course, we will engage with the study of language variation and change through a survey of language use in different online environments, and will apply insights from linguistic research to analyze our own and others' language use in more nuanced ways.

MLSC308 PULSAR Language Science Research Seminar (1 Credit)
Research seminar for students in the PULSAR language science program. Weekly presentations and discussions on diverse topics in language science research, as well as on developing research skills.
Restriction: Must be in PULSAR program or have permission of the instructor.
Repeatable to: 4 credits.
Credit Only Granted for: BSOS338P or MLSC308.
Formerly: BSOS388P.

MUED - Music Education

MUED155 Fundamentals for the Classroom Teacher (3 Credits)
The fundamentals of music theory and practice, related to the needs of the classroom and the kindergarten teacher.
Restriction: Must be in one of the following programs (Early Childhood Education; Elementary Education) ; or must be a Pre-Elementary Education major; or must be a Pre-Early Childhood Education major.

MUED186 Pre-professional Experiences I (2 Credits)
An orientation into the role of the music teacher in the school and community. On-site school visits at elementary, middle and high school levels form the basis for discussion and exploration of all facets of the music education profession.
Restriction: Must be in Music Education program.
Additional Information: Fulfills the College of Arts and Humanities requirement for ARHU158.

MUED187 Pre-Professional Experiences II (1 Credit)
Regular on-site school visitation at elementary, middle and high school levels arranged to expand student understandings and reflections of music instruction in classroom settings.
Prerequisite: MUED186.
Restriction: Must be in Music Education program.

MUED213 String Technique and Pedagogy I (2 Credits)
A study of violin, viola, cello and bass technique and pedagogy; beginning level. Emphasizes group process playing and teaching.
Restriction: Must be in Music Education program.

MUED215 Woodwind Technique and Pedagogy (2 Credits)
Playing experience on instruments of the woodwind family. Historical and acoustical background. Basic concepts of teaching. Methods and materials. Techniques of individual and class instruction.
Restriction: Permission of ARHU-School of Music department.

MUED216 Percussion Technique and Pedagogy (2 Credits)
Playing experience on percussion instruments. Historical and acoustical background. Scoring for percussion. Principles of improvisation. Basic concepts of teaching. Methods and materials. Techniques of individual and class instruction.
Restriction: Must be in Music Education program.

MUED217 Brass Instrument Technique and Pedagogy (2 Credits)
Playing experience on instruments of the brass family. Historical and acoustical background. Principles of improvisation. Basic concepts of teaching. Methods and materials. Techniques of individual and class instruction.
Restriction: Must be in Music Education program.

MUED269 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

MUED305 Marching Band Techniques (2 Credits)
Designed to aid the student in learning how to prepare, organize, teach, and rehearse the contemporary high school marching band. Through class discussions, practical assignments, guest lecturers and audio/visual aids, students will gain a command of the terminology, pedagogy, and structure of a marching ensemble and its potential.
Restriction: Must be in Music Education program.
Credit Only Granted for: MUED499M or MUED305.
Formerly: MUED499M.

MUED311 Teaching Elementary Instrumental Music I (2 Credits)
Prepare instrumental-emphasis music education majors to synthesize the knowledge and skills that will enable them to teach fundamental musical skills at the elementary level.
Prerequisite: MUED187.
Restriction: Must be in Music Education program.

MUED320 Teaching Secondary Instrumental Music I (2 Credits)
Prepare instrumental-emphasis music education majors to synthesize the knowledge and skills that will enable them to extend secondary-level musical skill through planned instruction and development of teaching materials.
Prerequisite: MUED187.
Restriction: Must be in Music Education program.

MUED322 Teaching General Music I (2 Credits)
Teaching General Music I is designed as a fundamental music methods course for students who are preparing for a career in general music. This course will focus on developmentally appropriate teaching practices for building musicianship in a general music setting.
Prerequisite: MUED187 and MUED186.
Restriction: Must be in Music Education program.
Credit Only Granted for: MUED222 or MUED322.
Formerly: MUED222.

MUED333 Classroom Vocal Pedagogy (2 Credits)
An introduction to the fundamentals of group vocal pedagogy for the choral and general classroom teacher, including the teaching of posture, breathing, resonance, registration, articulation and foreign language diction as appropriate to needs of the child or adolescent singer in K-12 classroom settings.
Prerequisite: MUED187 and MUED186.
Restriction: Must be in Music Education program.

MUED342 Technology for Music Education (2 Credits)
Technology has profoundly remade nearly every facet of music, musicianship, and audience experience, including the education of music students. From the impact of recording, to the informational revolution of the internet, to the global economy, technology has accelerated the rate of change in our society and will likely continue to play a central role in the evolution of humanity. This course explores the broad dimensions of technology as they impact the lives of teachers and students in music education.
Restriction: Must be in Music Education program.
Credit Only Granted for: MUED342 or MUED499T.
Formerly: MUED499T.

MUED369 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

MUED386 Experiential Learning (3-6 Credits)
Prerequisite: Must have learning proposal approved by the Office of Experiential Learning Programs, faculty sponsor, and student's internship sponsor.
Restriction: Junior standing or higher.

MUED411 Teaching Elementary Instrumental Music II (4 Credits)
Prepare instrumental-emphasis music education majors to synthesize the knowledge and skills that will enable them to develop and/or maintain an exemplary curricular-oriented, research-based, comprehensive elementary instrumental music program.
Prerequisite: MUED320 and MUED311.
Restriction: Must be in Music Education program.

MUED420 Teaching Secondary Instrumental Music II (4 Credits)
Prepare instrumental-emphasis music education majors to synthesize the knowledge and skills that will enable them to develop and/or maintain an exemplary, curricular-oriented, research-based, comprehensive secondary instrumental program.
Prerequisite: MUED320 and MUED311.
Restriction: Must be in Music Education program.

MUED422 Teaching General Music II (4 Credits)
Designed as an advanced music methods course and field experience for students who are preparing for a career in general music. The field experience is a practicum that is co-supervised by the university instructor and a general music educator.
Prerequisite: MUED322 and MUED333.
Restriction: Must be in Music Education program.
Credit Only Granted for: MUED422 or MUED471.
Formerly: MUED471.

MUED433 Teaching Choral Music (4 Credits)
Preparation for teaching choral classes through the integration of conducting technique, vocal pedagogy, knowledge of repertoire, and the application of appropriate instructional strategies in the context of peer teaching and field experience assignments.
Prerequisite: MUED422.
Restriction: Must be in Music Education program.
Credit Only Granted for: MUED472 or MUED433.
Formerly: MUED472.

MUED473 Teaching General Music for Instrumentalists (2 Credits)
Introduction to current trends, materials and approaches in general music instruction.
Prerequisite: MUED311; and MUED320.
Restriction: Must be in Music Education program.

MUED474 Field Experiences: Pre-Student Teaching (2 Credits)
Field experiences to fulfill teaching requirements in K-12 music teacher education program.
Prerequisite: MUED420 and MUED411; or (MUED472 and MUED471).
Restriction: Permission of ARHU-School of Music department; and senior standing.

MUED484 Student Teaching in Elementary School: Music (6 Credits)
Fulfills elementary teaching requirements in K-12 music teacher education program. Limited to music education majors who have previously applied.
Corequisite: MUED494.
Restriction: Permission of ARHU-School of Music department; and must be in Music Education program.

MUED489 Field Experiences (1 Credit)
Series of field experiences in K-12 settings.
Restriction: Permission of ARHU-School of Music department; and must be in Music Education program.
Repeatable to: 6 credits.

MUED494 Student Teaching in Secondary School: Music (6 Credits)
Fulfill secondary teaching requirements in K-12 music teacher education program. Limited to music education majors who have previously applied.
Corequisite: MUED484.
Restriction: Permission of ARHU-School of Music department; and must be in Music Education program.

MUED499 Workshops, Clinics, Institutes (1-3 Credits)
Innovative and experimental dimensions of music education offered to meet the needs of music teachers and music supervisors allowing students to individualize their programs.
Repeatable to: 6 credits if content differs.

MUET - Ethnomusicology

MUET269 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

MUET369 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

MUSC - School of Music

MUSC102 Class Piano (2 Credits)
Functional piano training for beginners. Development of techniques for school and community playing. Basic piano techniques; chord, arpeggio and scale techniques; melody and song playing; simple accompaniments, improvisation for accompaniments and rhythms; sight reading and transposition and playing by ear.

MUSC103 Beginning Class Piano II (2 Credits)
Functional piano training for beginners. Development of techniques useful for school and community playing. Basic piano techniques; chord, arpeggio, and scale techniques; melody and song playing; simple accompaniments, improvisation for accompaniments and rhythms; sight reading and transposition, and playing by ear. MUSC103 is a continuation of MUSC102; elementary repertoire is begun.
Prerequisite: MUSC102; or permission of ARHU-School of Music department.

MUSC106 Beginning Classical Guitar (2 Credits)
Introduction to classical guitar notation, technique, literature and performance. No previous musical experience required.

MUSC123 Movement for Singers (1 Credit)
Systematic exercises, improvisations and dances in conjunction with artistic vocal expression. Performance and critique of stage deportment, gestures and recital techniques.
Prerequisite: Permission of ARHU-School of Music department.

MUSC126 Vocal Diction: English (1 Credit)
An introduction to the fundamentals of phonetics and sound production as applied to singing English vocal literature through detailed work with IPA, the International Phonetic Alphabet.
Prerequisite: Permission of ARHU-School of Music department.

MUSC127 Vocal Diction: Italian (1 Credit)
Augmentation of private voice study. Phonetics and diction for singers of Italian vocal literature.
Prerequisite: Permission of ARHU-School of Music department.
Restriction: Must be in a major within the ARHU-School of Music department.

MUSC128 Sight Reading For Pianists (2 Credits)
A course to give the piano major an opportunity to develop proficiency in sight reading at the keyboard.
Repeatable to: 4 credits.

MUSC129 Ensemble (1 Credit)
Rehearsal and performance of selected works for small ensembles of instruments, piano, or small vocal groups. After two registrations in MUSC129, the student will elect MUSC229 for two additional semesters and MUSC329 thereafter.

MUSC130 What Does Music Mean? (3 Credits)
An examination of how music creates meaning in different eras, through studying musical sound, biography, and social history.
Restriction: Must not be in any of the following programs (Music (Professional Program); Music Education).

MUSC140 Music Fundamentals I (3 Credits)
Introductory theory course. Notation, scales, intervals, triads, rhythm, form and basic aural skills.
Restriction: Must not be in any of the following programs (Music (Professional Program); Music Education).

MUSC150 Theory of Music I (3 Credits)
A study of basic concepts and skills in tonal melody and harmony through analysis and composition.
Prerequisite: Departmental audition and entrance examination.
Restriction: Must be in one of the following programs (Music (Liberal Arts Program); Music (Jazz Performance Option); Music (Winds & Percussions Performance Option); Music (Voice Performance Option); Music Composition; Music (Professional Program); Music (Piano Performance Option); Music Performance-Winds and Percussion; Music Theory and Composition; Music Performance-Piano; Music Performance-Jazz Studies; Music Performance-Voice; Music Performance-Strings; Music (Strings Performance Option)).

MUSC151 Theory of Music II (3 Credits)
A continuation of MUSC150, including study of more advanced harmonic techniques of the eighteenth century, such as modulation and chromatic harmonies. Emphasis on sight singing, ear training, analysis and compositional skills.
Prerequisite: Minimum grade of C- in MUSC150.

MUSC202 Intermediate Class Piano I (2 Credits)
Advanced keyboard techniques. Continuation of skills introduced in MUSC103. Transposition, modulation and sight reading; methods of teaching functional piano.
Prerequisite: MUSC103; or must have equivalent piano training.

MUSC203 Intermediate Class Piano II (2 Credits)
Advanced keyboard techniques. Continuation of skills introduced in MUSC202. Transposition, modulation and sight reading; methods of teaching functional piano. Development of style in playing accompaniments and in playing for community singing. More advanced repertory.
Prerequisite: MUSC202; or must have equivalent piano training.

MUSC204 Popular Music in Black America (3 Credits)
Traces black popular music in the U.S. with a special focus on spirituals, ragtime, the blues, early jazz, RB, Motown, funk, soul, and rap. Examines how these styles have been borrowed by the American music industry.

MUSC205 History of Popular Music, 1950-Present (3 Credits)
A historical survey of rock music (blues, rock, soul, metal, rap, etc.) from circa 1950 to the present, with emphasis on popular music as music and popular music as social history.

MUSC210 The Impact of Music on Life (3 Credits)
Music as a part of culture. Materials drawn from traditions throughout the globe to illustrate issues of historical and contemporary significance, including the impact of race, class and gender on the study of music.
Credit Only Granted for: MUET210 or MUSC210.
Formerly: MUET210.

MUSC215 World Popular Musics and Identity (3 Credits)
Focus on popular musics in different cultures with an emphasis on cross-cultural comparisons and analysis of how musics and identity intersect.
Credit Only Granted for: MUET200 or MUSC215.
Formerly: MUET200.

MUSC220 Selected Musical Cultures of the World (3 Credits)
A critical and comparative exploration of musical practices from around the world in their social, political and economic contexts.
Restriction: Must not be in any of the following programs: (Music (Professional Program); Music Education).

MUSC226 Vocal Diction: French (1 Credit)
Augmentation of private voice study. Phonetics and diction for singers of French vocal literature.
Prerequisite: Permission of ARHU-School of Music department.
Restriction: Must be in a major within ARHU-School of Music department.

MUSC227 Vocal Diction: German (1 Credit)
Augmentation of private study. Phonetics and diction for singers of German vocal literature.
Prerequisite: Permission of ARHU-School of Music department.
Restriction: Must be in a major within ARHU-School of Music department.

MUSC228 Introduction to Accompanying for Pianists (2 Credits)
A course to introduce the piano major to accompanying at an intermediate level of difficulty. Class instruction will center on rehearsal and coaching geared toward performance, and will be supplemented by experience working as an accompanist in voice classes or applied studios.
Prerequisite: Permission of ARHU-School of Music department.
Restriction: Must be in a major within ARHU-School of Music department.
Repeatable to: 10 credits.

MUSC229 Ensemble (1 Credit)
Rehearsal and performance of selected works for small ensembles of instruments, piano, or small vocal groups. After two registrations in MUSC129, the student will elect MUSC229 for two additional semesters and MUSC329 thereafter.

MUSC240 Elements of Music Composition for Non-Majors (3 Credits)
Emphasizes learning concepts and techniques of music composition through the study of music theory and structure used in both classical and popular music forms. Students will compose music using computer assisted and composition tools. These tools include cloud based digital audio workstations and music notation programs. Compositions will be written in these musical styles but not limited to classical, jazz, and popular. Students will also explore methods of sharing their compositions on various digital platforms.
Prerequisite: MUSC 140, or by permission of instructor.
Recommended: Ability to read music on a grand staff (treble and bass clef).
Restriction: Must not be in any of the following programs: (Music (Professional Program); Music Education).
Credit Only Granted for: MUSC240 or HONR218M.
Formerly: HONR218M.

MUSC248 Selected Topics in Music (1-3 Credits)
Designed to allow a student of theory or music history to pursue a specialized topic or project under the supervision of a faculty member.
Prerequisite: Permission of ARHU-School of Music department.
Repeatable to: 6 credits if content differs.

MUSC250 Advanced Theory of Music I (4 Credits)
A continuation of MUSC 151, with further study of chromatic and modulatory techniques of the nineteenth century. Emphasis on sight singing, ear training, analysis and compositional skills.
Prerequisite: Minimum grade of C- in MUSC151.

MUSC251 Advanced Theory of Music II (4 Credits)
A continuation of MUSC250, concentrating on late nineteenth-century chromatic harmony and an introduction to twentieth-century melody and harmony. Emphasis on sight singing, ear training, analysis and compositional skills.
Prerequisite: Minimum grade of C- in MUSC250.

MUSC260 Music as Global Culture (3 Credits)
Explores how and why people create, transform, and move music around the globe. Taking a comparative approach to Western art musics and other musics of the world, course will examine a variety of musical practices in their social, political, and economic contexts. Experiential knowledge will be developed through hands-on ethnographic research.
Prerequisite: MUSC151.
Restriction: Must be in a major within the ARHU-School of Music department.
Credit Only Granted for: MUSC220 or MUSC260.

MUSC269 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

MUSC289I Exploring the Power of Musical Performance in Social Engagement (3 Credits)
Explores the ways people, across cultures and times, have drawn on music's power to further causes such as revolution and social change or to bring attention to injustices such as discrimination, exclusion, or oppressive working conditions.

MUSC328 Introduction to Chamber Music for Pianists (2 Credits)
A course to introduce the piano major to chamber music at a moderately difficult level. Class instruction will center on actual rehearsal and coaching geared toward performance, and will be supplemented by further experience in applied instrumental studios.
Prerequisite: Permission of ARHU-School of Music department.
Repeatable to: 10 credits.

MUSC329 Ensemble (1 Credit)
Rehearsal and performance of selected works for small ensembles of instruments, piano, or small vocal groups. After two registrations in MUSC129, the student will elect MUSC229 for two additional semesters and MUSC329 thereafter.

MUSC339 Honors in Music (3 Credits)
The production of one or more recitals or lecture-recitals; one or more compositions; or one or more honors theses in addition to regular degree requirements. Two semesters required.
Prerequisite: Permission of ARHU-School of Music department.
Corequisite: MUSC349.
Repeatable to: 6 credits.

MUSC349 Honors Seminar in Music (1 Credit)
Group discussion of projects undertaken in MUSC339. Two semesters required.
Corequisite: MUSC339.
Repeatable to: 2 credits.

MUSC360 Music in Western Culture Before 1900 (3 Credits)
Course will be looking at roughly 800 years of Western art music in Europe and America (ca.1100-1900) through the lens of selected "moments"--intersections of historical space and time, observing music as an art form practiced in a public eye, both as a social event and a cultural practice.
Prerequisite: MUSC260.
Restriction: Must be in a major within the ARHU-School of Music department.
Credit Only Granted for: MUSC310 or MUSC360.

MUSC361 Music in Western Culture After 1900 (3 Credits)
Continuation of MUSC360. A historical study of Western classical music, popular music, and jazz since 1900.
Prerequisite: MUSC360.
Restriction: Must be in a major within the ARHU-School of Music department.
Credit Only Granted for: MUSC330 or MUSC361.

MUSC369 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

MUSC379 Opera Workshop (1 Credit)
Open to music and non-music majors (by audition). Operatic production and performance, performance techniques and coaching, stage direction, set design, costume design and make-up. Repertory will include smaller operatic works, excerpts or scenes.
Restriction: Must complete a departmental audition.
Repeatable to: 4 credits.

MUSC386 Experiential Learning (3-6 Credits)
Prerequisite: Permission of ARHU-School of Music department.
Restriction: Junior standing or higher.

MUSC388 Music Internship (3 Credits)
Pre-professional field work in music.
Prerequisite: Permission of ARHU-School of Music department.
Corequisite: MUSC389.
Repeatable to: 6 credits.

MUSC389 Music Internship Analysis (1 Credit)
Documentation and evaluation of field work experience.
Corequisite: MUSC388.
Repeatable to: 2 credits.

MUSC400 Music Pedagogy (3 Credits)
Conference course. A study of major pedagogical treatises in music, and an evaluation of pedagogical techniques, materials, and procedures.
Prerequisite: MUSP315; and permission of ARHU-School of Music department.

MUSC420 Introduction to Ethnomusicology (3 Credits)
Study of principal concepts and methods in ethnomusicology, covering history of field, linguistics and anthropology, music in various settings, musical cognition and ethnography of performance.
Prerequisite: MUSC210 and MUSC130; or permission of ARHU-School of Music department.
Restriction: Junior standing or higher.

MUSC428 Repertoire Coaching of Vocal or Chamber Music (2 Credits)
A course for piano students who wish to go further than the work offered in MUSC128, MUSC228 and MUSC328 by becoming specialists in the areas of vocal coaching or chamber music coaching. Elements of pedagogy, conducting and responsible artistic decision-making for the entire musical production.
Prerequisite: Must have completed or be concurrently enrolled in MUSC328.

MUSC436 Jazz: Then and Now (3 Credits)
Major styles and influential artists of the past 75 years of jazz.

MUSC438 Area Studies in Ethnomusicology (3 Credits)
Advanced study of musics in selected parts of the world.
Repeatable to: 9 credits if content differs.

MUSC439 Collegium Musicum (1 Credit)
Open to undergraduates and graduates, music majors and non-majors. Procurement, edition and performance of music not belonging to a standard repertory: early music, compositions for unusual performing media, works which demand reconstruction of their original circumstances of performance. Outcome of a semester's work may be one or more performances for the public.
Prerequisite: Permission of ARHU-School of Music department.
Repeatable to: 5 credits.

MUSC442 Creating Historic Woodwinds (3 Credits)
In this class, students will learn the art of woodworking and blend techniques of modern and historic instrument-making methods. Using wood lathes, metalworking tools, 3d scanners and selective laser sintering 3d printers. Student teams will first train to acquire the skills needed to use fabrication equipment. Each mixed team will then share their individual discipline's skills to help contribute to the creation of a completed musical instrument. Along the way, we'll explore the historical and cultural context of instrument making and the musical period.
Cross-listed with: ENES442.
Credit Only Granted for: MUSC442 or ENES442.

MUSC443 Solo Vocal Literature (3 Credits)
The study of solo vocal literature from the Baroque Cantata to the Art Song of the present. The Lied, Melodie, vocal chamber music and the orchestral song are examined.
Prerequisite: MUSC330 and MUSC331; or students who have taken courses with comparable content may contact the department.

MUSC444 Wind and Percussion Literature (1 Credit)
Recital program notes and written projects in wind or percussion literature.
Prerequisite: Permission of ARHU-School of Music department.
Corequisite: MUSP420 or MUSP419.

MUSC445 Survey of the Opera (3 Credits)
A study of the music, librettos and composers of the standard operas.
Prerequisite: MUSC330 and MUSC331; or students who have taken courses with comparable content may contact the department.

MUSC446 String Literature (1 Credit)
Recital program notes and written projects in string literature.
Prerequisite: MUSP316; and permission of ARHU-School of Music department.

MUSC448 Selected Topics in Music (1-3 Credits)
Prerequisite: Permission of ARHU-School of Music department.
Repeatable to: 6 credits if content differs.

MUSC448E Arts Entrepreneurship and the Creative Profession (3 Credits)
Introduces students to arts entrepreneurship in preparation for diverse and ever-changing careers in the creative fields. Students will practice and develop their entrepreneurial mindsets and learn about different frameworks for audience engagement. Topics include financial management, revenue development, business planning, and the "need-to-knows" of the gig economy. Throughout the semester, students will have the opportunity to learn from a variety of entrepreneurs in the arts and to evaluate their future career paths.
Recommended: ARHU240.
Cross-listed with: ARHU340.
Credit Only Granted for: ARHU340 or MUSC448E.

MUSC450 Musical Form (3 Credits)
A study of the principles of organization in music with emphasis on eighteenth and nineteenth century European music. Reading and analysis of scores exemplifying the musical forms.
Prerequisite: MUSC251.

MUSC451 Analysis of Music (3 Credits)
A course in the analysis of music. Discussion of individual works, with emphasis on their unique characteristics and on the relation of analysis to performance.
Prerequisite: MUSC450; or permission of instructor.

MUSC453 Jazz Improvisation I (3 Credits)
Jazz theory, notational conventions, improvisation techniques, reading and analysis of music, and performance in small combo format.
Prerequisite: MUSC251; or students who have taken courses with comparable content may contact the department. And permission of ARHU-School of Music department.
Credit Only Granted for: MUSC345 or MUSC453.
Formerly: MUSC345.

MUSC454 Jazz Improvisation II (3 Credits)
Continuation of MUSC453 including scoring and transcription.
Prerequisite: MUSC453; or students who have taken courses with comparable content may contact the department. And permission of ARHU-School of Music department.
Credit Only Granted for: MUSC346 or MUSC454.
Formerly: MUSC346.

MUSC455 Theory of Jazz (3 Credits)
Analysis of jazz harmony, with emphasis on principles of substitution, reharmonization, and syntax. Topics may also include chord/scale relationships, phrasing and articulation, notation, and introductory arranging concepts such as orchestration and form.
Prerequisite: MUSC250; or permission of ARHU-School of Music department.
Restriction: Must be in a major within ARHU-School of Music department.

MUSC456 Jazz Arranging (3 Credits)
A comprehensive approach to jazz arranging. Topics to include chord scale theory, voicing techniques, part and score layout, and formal construction of an arrangement.
Prerequisite: MUSC455; and permission of ARHU-School of Music department.
Credit Only Granted for: MUSC448N or MUSC456.
Formerly: MUSC448N.

MUSC460 Tonal Counterpoint I (3 Credits)
A course in Eighteenth-Century contrapuntal techniques, analysis and original composition of two-voice dances, preludes, and inventions. Includes an introduction to the study of fugue and canon.
Prerequisite: MUSC251; or permission of ARHU-School of Music department.

MUSC461 Theory and Analysis of Atonal and Twelve-tone Music (3 Credits)
An advanced technical introduction to theory and analysis of atonal and twelve-tone music, with an emphasis on music by Schoenberg, Webern, Bartok, and Stravinsky.
Prerequisite: MUSC251 and MUSC450; and permission of ARHU-School of Music department.
Restriction: Must be in Music Theory and Composition program. Jointly offered with MUSC661.
Credit Only Granted for: MUSC46 1 or MUSC661.

MUSC463 Technology and a Career in Music (3 Credits)
A hands-on introduction to technology as it applies to music creation and recording. Digital audio workstations, music notation software, and cloud-based music technology are used to create and manipulate musical examples with an eye toward their practical applications for professional musicians.
Recommended: Ability to read music on a grand staff (treble and bass clef).
Additional Information: No previous experience with technology is required.

MUSC464 The Theories of Heinrich Schenker (3 Credits)
An advanced analysis course in tonal music with specific emphasis on the theories of the early 20th century theorist Heinrich Schenker. Specific analyses of music by Bach, Mozart, Haydn, Beethoven, Chopin, and Brahms.
Prerequisite: MUSC251 and MUSC450; and permission of ARHU-School of Music department.
Restriction: Must not have completed MUSC651.
Credit Only Granted for: MUSC464 or MUSC651.

MUSC467 Piano Pedagogy I (3 Credits)
A study of major pedagogical treatises in music, and an evaluation of pedagogical techniques, materials, and procedures.
Prerequisite: Permission of ARHU-School of Music department.

MUSC468 Piano Pedagogy II (3 Credits)
Application of the studies begun in MUSC467 to the actual lesson situation. Evaluation of results.
Prerequisite: MUSC467; and permission of ARHU-School of Music department.
Repeatable to: 6 credits.

MUSC469 Orchestral Excerpts for String Players (1 Credit)
In-depth study of the orchestral excerpts required for professional orchestra auditions.
Restriction: Permission of ARHU-School of Music department.
Repeatable to: 6 credits if content differs.
Credit Only Granted for: MUSC469, MUSC448B, MUSC448Q, MUSC448V, or MUSC448X.
Formerly: MUSC448B, MUSC448Q, MUSC448V, and MUSC448X.

MUSC470 Harmonic and Contrapuntal Practices of the Twentieth Century (3 Credits)
A theoretical and analytical study of twentieth century materials.
Prerequisite: MUSC251; or students who have taken courses with comparable content may contact the department. And permission of ARHU-School of Music department.

MUSC471 Contemporary Compositional Techniques (3 Credits)
Continuation of MUSC470, with emphasis on the analysis of individual works written since 1945.
Prerequisite: MUSC470; or permission of ARHU-School of Music department.

MUSC472 Music Composition for Music Majors (3 Credits)
A course for music majors who wish to develop skills and creative abilities in music composition. Student writing projects will be discussed in class and models of compositional techniques will be studied in literature from diverse styles and style periods.
Prerequisite: MUSC450 or equivalent; and permission of instructor.
Restriction: Registration restricted to music majors who are not majoring in music composition (cannot be in Major code: 1004B).
Credit Only Granted for: MUSC448O or MUSC472.
Formerly: MUSC448O.

MUSC481 Music in the Renaissance (3 Credits)
Survey of western music from 1450 to 1600.

MUSC482 Music in the Baroque Era (3 Credits)
Survey of western music from 1600 to 1750.

MUSC484 Music in the Romantic Era (3 Credits)
Survey of western music from 1820 to 1900.

MUSC486 Orchestration I (3 Credits)
A study of the ranges, musical functions and technical characteristics of the instruments and their color possibilities in various combinations. Practical experience in orchestrating for small and large ensembles.
Prerequisite: MUSC251; and permission of ARHU-School of Music department.

MUSC490 Conducting (2 Credits)
Vocal and instrumental baton techniques.
Prerequisite: MUSC251.

MUSC491 Conducting II (2 Credits)
Baton techniques applied to score reading, rehearsal techniques, tone production, style and interpretation.
Prerequisite: MUSC490; or students who have taken courses with comparable content may contact the department.

MUSC492 Keyboard Music I (3 Credits)
The history and literature of harpsichord and solo piano music from its beginning to the romantic period. Emphasis is placed on those segments of repertory which are encountered in performance and teaching situations at the present time.
Prerequisite: Permission of ARHU-School of Music department.

MUSC493 Keyboard Music II (3 Credits)
The history and literature of harpsichord and solo piano music from the Romantic period to the present. Emphasis is placed on those segments of repertory which are encountered in performance and teaching situations at the present time.
Prerequisite: MUSC492; and permission of ARHU-School of Music department.

MUSC499 Independent Studies (1-3 Credits)
Independent research on a topic chosen in consultation with the instructor, which may culminate in a paper or appropriate project.
Prerequisite: Permission of ARHU-School of Music department.
Additional Information: May be repeated once for credit.

MUSP - Music Performance

NOTE ABOUT MUSP COURSES

Undergraduate Music Performance Courses are available in three series:

1. ***Minor Series**: 2-credits each course. Prerequisite: permission of department chairperson. Limited to music majors studying a secondary instrument and to non-music majors. Each course in the series must be taken in sequence. The initial election for all new students, both freshman and transfer, is MUSP 102. Transfer students are evaluated for higher placement after one semester of study. One-half hour private lesson per week plus assigned independent practice. MUSP 102, MUSP 103 Freshman Courses. MUSP 202, 203 Sophomore Courses. MUSP 302, 303 Junior Courses. MUSP 402, 403 Senior Courses.*
2. ***Principal Series**: 2-4 credits each course. Prerequisites: departmental audition, entrance examination, and permission of department chairperson. Limited to majors in music programs other than performance and composition. Each course in the series must be taken in sequence. The initial election for all new students, both freshman and transfer, is 109. Transfer students are evaluated for higher placement after one semester of study. One-hour private lesson per week plus assigned independent practice. Courses 109, 208, and 409 may be repeated once for credit, but only one successful attempt in each course may be applied towards baccalaureate degree requirements. MUSP 109, 110, Freshman Courses. MUSP 207, 208 Sophomore Courses. MUSP 305, 306 Junior Courses. MUSP 409, 410 Senior Courses. Recital required in MUSP 410.*
3. ***Major Series**: 2-4 credits each course. Prerequisites: departmental audition, entrance examination, and permission of department chairperson. Limited to majors in performance and composition. Each course in the series must be taken in sequence. The initial election for all new students, both freshman and transfer, is 119. Transfer students are evaluated for higher placement after one semester of study. One-hour private lesson per week plus assigned independent practice. Courses 119, 218, and 419 may be repeated once for credit, but only one successful attempt in each course may be applied towards baccalaureate degree requirements. MUSP 119, 120 Freshman Courses. MUSP 217, 218 Sophomore Courses. MUSP 315, 316 Junior Courses. MUSP 419, 420 Senior Courses. Recital required in MUSP 420.*

***Instrument designation**: Each student taking a music performance course must indicate the instrument chosen by adding a suffix to the proper course number, such as: MUSP 102A music performance: A--piano; B--voice; C--violin; D--viola; E--cello; F--bass; G--flute; H--oboe; I--clarinet; J--bassoon; K--saxophone; L--horn; M--trumpet; N-- trombone; O--tuba; P--euphonium; Q--percussion; T--composition; U--world instruments; V--harp; W--electronic composition; X--hist inst - keyboard; Y--hist inst - strings; Z--hist inst - winds.*

MUSP102 Music Performance (2 Credits)

MUSP269 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

MUSP302 Music Performance (2 Credits)

MUSP303 Music Performance (2 Credits)

MUSP369 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

MUSP386 Experiential Learning (3-6 Credits)
Prerequisite: Must have Learning Proposal approved by the Office of Experiential Learning Programs, faculty sponsor, and student's internship sponsor.
Restriction: Junior standing or higher.

MUSP402 Music Performance (2 Credits)
Senior course, in the minor series.

MUSP403 Music Performance (2 Credits)
Senior course, in the minor series.

MUSP409 Music Performance (2-4 Credits)
Senior course in the principal series.

MUSP410 Music Performance (2-4 Credits)
Senior course in the principal series. Recital required.

MUSP419 Music Performance (2-4 Credits)
Senior course in the major series.

MUSP420 Senior Recital (4 Credits)
Senior course in the major series. Recital required.

NAVY - Navy

NAVY100 Introduction to Naval Science (3 Credits)
Introduction to the naval profession and concepts of sea power. Major topics explored are the mission, strategy, organization, and descriptions of the U.S. Navy and Marine Corps. Students will gain a basic understanding of warfighting capabilities, required leadership skills, training and education, and the duties and responsibilities of a U.S. Navy and Marine Corps Junior Officer. The student will learn Naval courtesy and customs, military justice, and nomenclature as well as the professional competencies required to become a naval officer.

NAVY101 Sea Power and Maritime Affairs (3 Credits)
Introduces the student to the key themes of naval and maritime history. Curriculum presents an analysis through lectures, reading, and student discussion of the relationship of sea power to American history. Classical concepts and contemporary employment of sea power are examined by viewing historic and current naval and maritime developments.

NAVY108 Naval Science Leadership Lab (1 Credit)
Introduces the student to a variety of instructional sessions and/or activities that will develop the leadership component of the Naval ROTC program. The Naval Science leadership lab may include, but not be limited to, close-order drill, physical fitness training, ceremonial functions, Department of the Navy policy, guest lecturers, general military training (GMT), Anti-Terrorism Force Protection (ATFP), traffic safety, nutrition, stress management, prevention of sexual harassment, and operations security.Corequisite: 1 course from NAVY100-402 course range.
Corequisite: 1 course from NAVY100-402 course range.
Restriction: Permission of UGST-Navy ROTC.
Repeatable to: 8 credits.

NAVY200 Leadership and Management (3 Credits)
Introductory course designed to familiarize students with the theories, processes, and behaviors that enable effective leadership and managerial competence. Students will engage in analytical discussions, review leadership development and education, and Navy/Marine Corps-based case study discussions in order to develop their understanding of personal strengths, values and growth opportunities in the context of team, group and organizational leadership.
Restriction: Permission of UGST-Navy ROTC.
Additional Information: Priority enrollment will be given to students enrolled in the NROTC program.

NAVY201 Navigation (3 Credits)
Introduces the student to a broad yet thorough education in basic surface ship navigation. Curriculum presents an overview of tools of the modern naval watch officer, and topics include celestial navigation, rules of the nautical road, piloting, practical chartwork, tides, instruments, publications, records, and electronic navigation systems. Instructional sessions and/or activities develop the maritime proficiency core competency of the Naval Reserve Officer Training Corps (NROTC) program.
Restriction: Permission of UGST-Navy ROTC.
Additional Information: Priority enrollment will be given to students enrolled in the University of Maryland NROTC program.

NAVY300 Naval Ship Systems I (Engineering) (3 Credits)
Introduces the student to a comprehensive fundamental understanding of United States naval engineering principles and systems. Topics include thermodynamics, incompressible fluid flow, electrical theory, hydraulics and pneumatics, power train components, fluid/lube oil systems, desalination, fundamentals of nuclear power, propulsion systems (internal combustion, gas turbines, and steam), electrical distribution, ship stability and control and damage control. Students will also examine case studies to apply and analyze course topics within naval ships systems contexts.
Recommended: MATH140 and MATH141.
Restriction: Permission of UGST-Navy ROTC.
Additional Information: Priority enrollment will be given to students enrolled in the NROTC program.

NAVY301 Naval Ship Systems II (Weapons) (3 Credits)
Introduces the student to a comprehensive fundamental understanding of United States naval weaponry. Includes theory and employment of weapons systems, including the processes of detection, evaluation, threat analysis, weapon selection, delivery, guidance, and explosives. Radar and sonar systems and major weapon types, including capabilities and limitations. Facets of command, control, and communications as means of weapons system integration. Curriculum presents an in-depth review of surface, sub-surface, aviation, and Marine Corps weapons and platforms.
Recommended: MATH140, MATH141, and PHYS161.
Restriction: Permission of UGST-Navy ROTC.
Additional Information: Priority enrollment will be given to students enrolled in the NROTC program.

NAVY302 Evolution of Warfare (3 Credits)
Traces the development of warfare, from earliest recorded history to the present, with focus on the impact of major military theorists, strategists, tacticians, and technological developments. The student acquires an intermediate sense of strategy and develops an understanding of military alternatives and the impact of historical precedent on military thought and actions.
Recommended: NAVY100 and NAVY101.
Restriction: Permission of UGST-Navy ROTC.
Additional Information: Priority enrollment will be given to students in the NROTC program.

NAVY400 Naval Operations and Seamanship (3 Credits)
Capstone course for senior NROTC Navy-option midshipmen in advanced navigation, communications, naval operations, and naval warfare. Students learn through simulation in a computer classroom known as the Maritime Skills Simulator (MSS), in addition to lectures, discussions, and qualitative and quantitative tests/examinations. Students will engage in discussions regarding the moral and ethical responsibilities or military leaders, as well as the essential attributes of character required for effective leadership.
Recommended: NAVY201.
Restriction: Permission of UGST-Navy ROTC.
Additional Information: Priority enrollment will be given to students enrolled in the NROTC program.

NAVY401 Leadership and Ethics (3 Credits)
Integrates an intellectual exploration of Western moral traditions and ethical philosophy with military leadership, core values, the Uniform Code of Military Justice, and Navy regulations. The course provides students with a basic understanding of major moral traditions including Relativism, Utilitarianism, Kantian Ethics, Natural Law Theory, Divine Command Theory, and Virtue Ethics.
Recommended: NAVY200.
Restriction: Permission of UGST-Navy ROTC.
Additional Information: Priority enrollment will be given to students enrolled in the NROTC program.

NAVY402 Fundamentals of Maneuver Warfare (3 Credits)
A detailed study of the characteristics of modern warfare and their interactions with maneuver warfare doctrine, with a focus on the United States Marine Corps. Throughout the course, there is a strong focus on leadership, as the fundamental purpose of this course is to develop the skills, knowledge, leadership background and mentality necessary for a successful future leadership and service, whether in the military or the civilian sector.
Recommended: NAVY100, NAVY101, NAVY200, and NAVY108.
Restriction: Permission of UGST-Navy ROTC.
Additional Information: Priority in enrollment will be given to students in the NROTC program.

NEUR - Neuroscience

NEUR200 Introduction to Neuroscience (3 Credits)
In an evolutionary sense, the job of the nervous system is to produce, control, and coordinate behaviors that help an animal survive and reproduce. Neuroscience is the study of how the nervous system does that. Provides a broad introduction to neuroscience, always keeping the behavioral consequences in view.
Prerequisite: Minimum grade of C- in BSCI170 and BSCI171.
Cross-listed with: PSYC202.
Credit Only Granted for: PSYC309U, NEUR200, PSYC202 or PSYC301.
Formerly: PSYC309U.

NEUR238 Special Topics in Neuroscience Student Initiated Courses (1 Credit)
Student Initiated Course (STIC) in Neuroscience. Course will be student initiated and taught in a "journal club" style under close supervision of a faculty mentor. Student instructor and faculty mentor must generate proposal and have approval of the Neuroscience Program to offer a NEUR238 STIC. NEUR238 cannot be applied to the degree requirements of any neuroscience major.
Repeatable to: 5 credits if content differs.

NEUR305 Neural Systems and Circuits (3 Credits)
Overview of the fundamental principles underlying the systems and circuits of the human nervous system, with a focus on cognitive processes and how these systems interact. Students will engage in the analysis of case studies, apply their knowledge of the neural circuitry to explain everyday phenomena, hypothesize ways to further investigate the nervous system, and propose how knowledge of neural circuits can be used in human society and the resulting implications.
Prerequisite: Minimum grade of C- in MATH120 or higher MATH course; and a minimum grade of C- in NEUR200 or BSCI353; or equivalent.

NEUR306 Cellular and Molecular Neuroscience (3 Credits)
Students will gain an appreciation of neuroscience as the nexus of chemistry, physics, and biology. Additionally, they will gain an understanding of how: both individual and networks of neurons function as variable electrical circuits; our nervous systems transduce signals from the outside world and sets-off molecular cascades; the behavior of a neuron can be changed and or remain the same in response to changing variables. Techniques used to study the nervous system at a cellular and molecular level will be discussed.
Prerequisite: 1 course with a minimum grade of C- from NEUR200, BSCI207 or BSCI330.
Corequisite: Must have completed or be concurrently enrolled in PHYS132 or equivalent course.
Cross-listed with: BSCI353.
Credit Only Granted for: NEUR306 or BSCI353.

NEUR329 Instructional Assistance Practicum (1-3 Credits)
Students serve as instructional assistants in selected undergraduate neuroscience courses. Roles and responsibilities and pre/co-requisites are determined on a course- specific basis and approved by the Program Curriculum Committee.
Repeatable to: 9 credits.
Additional Information: Course not acceptable toward major requirements in the Neuroscience.

NEUR379 Special Topics: Research in Neuroscience (1-3 Credits)
Research and/or integrated reading in a topic related to neuroscience, under the direction and close supervision of a member of the University of Maryland faculty.
Recommended: At least a 3.0 neuroscience track GPA and no records of academic misconduct.
Restriction: Permission of Neuroscience Program.
Repeatable to: 12 credits.

NEUR398 Neuroscience Honors Seminar (1 Credit)
This seminar provides an opportunity for the honors students to share their research projects and sharpen their communication skills through presentations, discussions, and peer-review thesis writing. Guest speakers will be invited to provide additional information and insights into various topics in professional development practice, graduate school info and application, etc.
Prerequisite: NEUR200.
Corequisite: NEUR379, NEUR479, or equivalent research credit with instructor permission.
Repeatable to: 4 credits.

NEUR405 Neuroscience Laboratory (3 Credits)
Students will utilize neurophysiological techniques to examine fundamental principles of neurons and neural circuits. This course will reinforce content from prerequisite NEUR courses. Students will also strengthen skills in experimental design and scientific writing.
Prerequisite: NEUR306 or BSCI353; and PHYS132.
Recommended: NEUR305.
Cross-listed with: BSCI455.
Credit Only Granted for: PSYC401, NEUR405, BSCI455 or BSCI454.

NEUR479 Advanced Research in Neuroscience (1-3 Credits)
Research and/or integrated reading in neuroscience under the direction and close supervision of a faculty member.
Prerequisite: Complete at least 3 credits of NEUR379 (or equivalent) with the same faculty member as NEUR479 credit.
Recommended: Minimum neuroscience track GPA of 3.0.
Restriction: Permission of the Neuroscience Program.
Repeatable to: 12 credits.

NFSC - Nutrition and Food Science

NFSC100 Elements of Nutrition (3 Credits)
Fundamentals of human nutrition. Nutrient requirements related to changing individual and family needs.
Credit Only Granted for: KNES264, KNES289F or NFSC100.

NFSC103 Nutrition and Sports Performance (3 Credits)
Nutrition and Sports Performance would give students a brief overview of positive health-related outcomes of a physically active lifestyle. Students would design a fitness regimen and be able to describe when and how glycogen, blood glucose, fat, and protein are used to meet energy needs during different types of physical activity. They would be able to differentiate between anaerobic and aerobic use of glucose, and identify advantages and disadvantages of each. This course would outline how to estimate and athlete's calorie need and discuss the general principles for meeting overall nutrient requirements in the training diet. The problems associated with rapid weight loss by dehydration and the importance of water and/or sports drinks during exercise would be examined. An understanding of the importance of staying well-nourished with carbohydrate, protein, and various vitamins and minerals before, during, and after training would be discussed.

NFSC112 Food: Science and Technology (3 Credits)
Introduction to the realm of food science, food technology and food processing. An overview of the largest industry in the U.S. with emphasis on the science of food and the technology of food preservation from harvest through processing and packaging to distribution and consumer utilization.

NFSC220 Diet: Is it a cause or a solution (3 Credits)
If diet is such a straightforward topic, then why and how does this simple matter result in complicated health problems? This course delves deeply into a Big Question at the intersection of diet and health. Diet is a topic that most people know but few people understand. In addition, diet has become one of the most important lenses for looking at a variety of social, economic, and cultural issues. Since the concept of diet is a continuum and has multifaceted aspects, we need to understand it from broad and multidisciplinary perspectives including social, cultural, and economic aspects.

NFSC298 Sports Nutrition Internship Practicum (1 Credit)
This internship allows students to gain hands on experience working in collegiate athletics. Students interact with an interdisciplinary team including registered dietitians, coaches, trainers, physicians and others to develop and enhance nutrition-related knowledge and skills. They also gain invaluable experience and exposure to the day-to-day duties of a collegiate sports dietitian. Students participate in a weekly 50-minute discussion that is held by two sports nutrition dietitians, and complete 9 hours per week hands on activities at Gossett Football Team House, Xfinity Center, and Varsity Team House.
Prerequisite: Must have completed or be concurrently enrolled in NFSC100; and permission of instructor; or students who have taken courses with comparable content may contact the department.
Repeatable to: 8 credits if content differs.

NFSC315 Nutrition During the Life Cycle (3 Credits)
A study of how development throughout life, including prenatal development, pregnancy, lactation, adolescence and aging, alter nutrient requirements. Students will apply this knowledge to the dietary needs and food choices of these different groups.
Prerequisite: Minimum grade of C- in NFSC100.

NFSC341 Fermented Food, Feed, and Pharmaceuticals (3 Credits)
Fermentation is a biochemical process that improves and preserves the organoleptic and nutritional values of various food and feed products. In addition, fermentation is a biotechnology tool which cultivates microorganisms or other raw materials into important pharmaceuticals and other industrial products. The objective of this course is to learn how fermented foods and feeds are produced and study the microbial starter cultures used in creating these probiotic-rich and functional foods. Fermentation techniques in animal feed production will be discussed in this course and the influence of these techniques on the nutritional requirements and digestive physiology of animals as well as the nutritive value of the feedstuffs will be studied. The process of production of pharmaceuticals such as antibiotics, enzymes and insulin and their applications will also be studied.
Prerequisite: AGST130; and CHEM271; or by permission of the instructor.
Jointly offered with: NFSC641.

NFSC350 Foodservice Operations (5 Credits)
Introduction to management. Responsibilities in quantity food production and purchasing in a foodservice operation. Laboratory experience in planning, preparation, and service of meals which meet the nutritional needs of the consumer.
Prerequisite: Minimum grade of C- in BSCI223 and BMGT364.
Restriction: Must be in Nutrition and Food Science: Dietetics program.

NFSC380 Methods of Nutritional Assessment (3 Credits)
Methods of assessing human nutritional status of populations and individuals. These methods include dietary, anthropometric, clinical evaluations and biochemical measurements.
Prerequisite: Minimum of C- in NFSC315 and BCHM461.
Restriction: Must be in Nutrition and Food Science: Food Science program.

NFSC386 Experiential Learning (3-6 Credits)
Prerequisite: Permission of AGNR-Nutrition and Food Science department.
Restriction: Junior standing or higher.
Formerly: FDSC386 and NUTR386.

NFSC388 Honors Thesis Research (3-6 Credits)
Undergraduate honors thesis research conducted under the direction of an AGNR faculty member in partial fulfillment of the requirements of the College of AGNR Honors Program. The thesis will be defended to a faculty committee.
Restriction: Must be admitted to AGNR Honors Program.
Repeatable to: 6 credits if content differs.

NFSC398 Seminar (1 Credit)
Presentation and discussion of current literature and research in food science.
Formerly: FDSC398.

NFSC399 Special Problems in Food Science (1-3 Credits)
Designed for advanced undergraduates. Specific problems in food science will be assigned.
Formerly: FDSC399.

NFSC412 Food Processing Technology (4 Credits)
Provides in-depth study of the major industrial modes of food preservation. It integrates aspects of the biology, microbiology, biochemistry and engineering disciplines as they relate to food processing technology and food science.
Prerequisite: CHEM241, CHEM242, NFSC431, NFSC414, and NFSC434.
Corequisite: NFSC421 and NFSC423.
Recommended: MATH120; or completion of MATH220 recommended.

NFSC414 Mechanics of Food Processing (4 Credits)
Applications in the processing and preservation of foods, of power transmission, hydraulics, electricity, thermodynamics, refrigeration, instruments and controls, materials handling and time and motion analysis.
Prerequisite: PHYS121.
Credit Only Granted for: ENBE414 or NFSC414.
Formerly: ENBE414.

NFSC416 Food Safety System (2 Credits)
Focuses on identifying and reducing biological, chemical and physical risks in food manufacturing and thereby reduce outbreak incidences and improve public health. The course is based on the US FDA recognized curriculum on 'Hazard Analysis and Risk Based Preventive Controls' (HARPC) regulations for manufacturing human foods. A successful completion of this course will result in students becoming 'preventive controls qualified individuals' as defined by the US FDA.
Restriction: Permission of AGNR-Nutrition and Food Science department.
Repeatable to: 0 credit.
Credit Only Granted for: NFSC498T, NFSC416, NFSC679T, or NFSC616.
Formerly: NFSC498T.

NFSC420 Nutritional Biochemistry (4 Credits)
This is a comprehensive course that integrates aspects of biochemistry, nutrition, and molecular biology. This course deals with (1) structure and function of biochemical macromolecules including carbohydrates, proteins, lipids, and nucleic acids; (2) transcriptional and translational regulation focusing on how gene expression is controlled at the level of transcription and translation, particularly in response to nutritional factors; (3) nutritional principles covering impact of digestion and absorption; (4) biochemical metabolism on emphasis of how the body processes nutrients and how metabolic pathways are regulated.
Prerequisite: NFSC315 and BCHM461.

NFSC421 Food Chemistry (3 Credits)
Basic chemical and physical concepts are applied to the composition and properties of foods. Emphasis on the relationship of processing technology to the keeping quality, nutritional value, and acceptability of foods.
Prerequisite: BCHM461.

NFSC422 Food Product Research and Development (3 Credits)
A capstone course for FDSC majors. A study of the research and development of new food products. Application of food technology, engineering, safety and packaging are integrated by teams of students to develop a new food product from concept to pilot plant scale-up. Students will travel to nearby food processing plants on two to four Saturdays during the semester.
Restriction: Senior standing; and must be in a major within AGNR-Nutrition and Food Science department; and permission of AGNR-Nutrition and Food Science department.
Formerly: FDSC422.

NFSC423 Food Chemistry Laboratory (3 Credits)
Analysis of the major and minor constituents of food using chemical, physical and instrumental methods in concordance with current food industry and regulatory practices. Laboratory exercises coincide with lecture subjects in NFSC421.
Prerequisite: Must have completed or be concurrently enrolled in NFSC421.

NFSC426 Current Topics in Nutrition and Chronic Disease (3 Credits)
Analysis of current topics related to diet, nutrition, and human health at cellular, molecular and biochemical level. Further, this course will provide overview of the current methods, and in vitro and in vivo model systems used in nutrition research. Syllabus includes topics relevant to dietary regulation of genes/proteins and their impact on both physiological and pathological conditions including hyperlipidemia, hyperglycemia, fibrosis, food allergy, nutraceuticals, inflammatory diseases (IBD), cardiovascular diseases (atherosclerosis and stenosis), and oncogenesis. This course is designed to help students to understand and apply current scientific concepts and research methods, and to obtain necessary skills in evaluation and interpretation of evidence based scientific data.
Jointly offered with: NFSC621.
Credit Only Granted for: NFSC498F, NFSC426, NFSC678F, or NFSC621.
Formerly: NFSC498F.

NFSC427 Current Topics on Diet, Gut Microbiota Health and Metabolic Disease (3 Credits)
A review of current science linking the gut microbiota/microbiome with general and public health. It covers the composition of a healthy gut microbiota, its acquisition, how it is studied and analyzed; Gut microbiota changes with diet, specific foods, immigration and globalization and exercise; Its links to obesity, liver disease, insulin resistance and diabetes and cardiovascular disease; Links to the immune system; Targeting the gut microbiota composition and function to protect against or treat metabolic diseases. This course will be of use to public health and health care professionals, Food and/or Nutrition scientists, Dieticians, and those generally interested in understanding the health relevance of news reports or scientific reports on the microbiome.
Recommended: BCHM461.
Jointly offered with: NFSC627.
Credit Only Granted for: NFSC678K, NFSC498K, NFSC427, or NFSC627.
Formerly: NFSC498K.

NFSC430 Food Microbiology (3 Credits)
A study of microorganisms of major importance to the food industry with emphasis on food-borne outbreaks, public health significance, bioprocessing of foods, disease control, and the microbial spoilage of foods.
Prerequisite: BSCI223; or permission of instructor.
Credit Only Granted for: ANSC430 or NFSC430.
Formerly: FDSC430.

NFSC431 Food Quality Control (4 Credits)
Definition and organization of the quality control function in the food industry; preparation of specifications; statistical methods for acceptance sampling; in-plant and processed product inspection. Instrumental and sensory methods for evaluating sensory quality, identity and wholesomeness and their integration into grades and standards of quality. Statistical Process Control (SPC).

NFSC434 Food Microbiology Laboratory (3 Credits)
A study of techniques and procedures used in the microbiological examination of foods.
Prerequisite: Must have completed or be concurrently enrolled in NFSC430.
Credit Only Granted for: NFSC434 or ANSC434.
Formerly: FDSC434.

NFSC436 Diet and Optimal Human Health (3 Credits)
Focuses on maintaining optimal health and preventing diseases in humans with attention to diet. Reviews the main causes (nutritional/ behavioral/lifestyle/ environmental/genetic factors) of diseases and nutrient needs, sources, functions and interactions, and deals with the benefits of healthy diets and nutraceutical/pharmaceutical option on human health. The emphasis will be on developing conceptual knowledge, critical thinking and problem solving skills and the application of nutrition in the health promotion.
Prerequisite: NFSC100, BSCI170, and BSCI171 .
Jointly offered with: NFSC636.
Credit Only Granted for: NFSC498L, NFSC678L, NFSC436, or NFSC636.
Formerly: NFSC498L.

NFSC440 Advanced Human Nutrition (4 Credits)
A critical study of physiologic, molecular and metabolic influences on utilization of carbohydrates, lipids, proteins, vitamins, macro-and micro-minerals, and nonnutritive components of food. Interactions of these nutrients and food components will be examined relative to maintaining health.
Prerequisite: Minimum of C- in NFSC100, BCHM462 and BSCI440.

NFSC450 Food and Nutrient Analysis (3 Credits)
Methods and practices of the analysis of foods and nutrients. An overview of the principles and basic mechanisms used in many of the analytical procedures commonly used in food and nutrition research. Emphasis will be placed on hands-on development of skills necessary to complete each analytical procedure; and on the accurate and concise description of the methodology and results from their application and on the regulations governing food analysis for nutritional labeling.
Prerequisite: BCHM461 and NFSC100.
Formerly: NUTR450.

NFSC455 Medical Nutrition Therapy I (4 Credits)
Advanced clinical nutrition course for dietetics or nutrition science majors. Modifications of the normal adequate diet to meet human nutritional needs in acute and chronic diseases and metabolic disorders. Includes energy balance and weight management, nutritional genomics, nutrition counseling, autoimmune disease, nutrition for pediatric conditions.
Prerequisite: NFSC380.
Corequisite: NFSC440.

NFSC456 Medical Nutrition Therapy II (4 Credits)
Modifications of the normal adequate diet to meet human nutritional needs in acute and chronic diseases and metabolic disorders.
Prerequisite: Minimum of C- in NFSC380 and NFSC440; and permission of AGNR-Nutrition and Food Science department.

NFSC470 Community Nutrition (3 Credits)
Perspectives underlying the practice of nutrition services in community settings. Assessment of needs, program planning and evaluation. Programs and strategies to meet nutrition needs outside the acute care setting, such as nutrition education and food assistance. National nutrition policy and federal initiatives in nutrition will be examined. Students will be required to travel to local community nutrition sites during the semester.
Prerequisite: Minimum of C- in NFSC315.

NFSC490 Special Problems in Nutrition (2-3 Credits)
Individually selected problems in the area of human nutrition.
Prerequisite: NFSC440; and permission of AGNR-Nutrition and Food Science department.

NFSC491 Professional Issues and Opportunities in Dietetics (3 Credits)
A capstone course for dietetics majors. Students will integrate knowledge and theory of nutrition, food, management, psychology, and social behaviors necessary to support quality dietetic practice. Working in teams, students will participate in case studies, simulated situations and community projects. Individuals and groups will present cases as well as papers on published research.
Prerequisite: Minimum of C- in NFSC350 and permission of Nutrition and Food Science Dietetics program.
Corequisite: NFSC456.
Restriction: Senior standing or higher; and must be in Nutrition and Food Science: Dietetics program.

NFSC498 Selected Topics (1-3 Credits)
Selected current aspects of food.
Restriction: Permission of AGNR-Nutrition and Food Science department.
Repeatable to: 6 credits if content differs.

OURS - Office of Undergraduate Research

OURS199 Research Internship (3 Credits)
Research and mentorship-centered course designed to provide research experience, technical skill sets, an understanding of the expectations and requirements of research environments, and broad professional development. Students in this course work directly with a faculty mentor and peers in laboratory and other research environments on the design and fulfillment of authentic and discipline-relevant research outcomes. The iterative advancement of final research products contributes to the development of higher capacities in collaboration and teamwork, communication, critical thinking, and discipline-specific training and skill sets.
Repeatable to: 12 credits.

PEER - Health Center

PEER311 Peer Education Mental Health & Wellness (3 Credits)
Designed to train students to become Peer Educators who are responsible for presenting to members of the campus community about issues surrounding stress management, mental illness, appropriate on/ off campus resources, stigma, body image, helping a friend in distress, and other issues related to mental health and wellness, including bystander intervention. Programming is done in classroom settings, residence halls, and at tables during special events.
Prerequisite: Students must complete an interview before enrolling in this course.
Restriction: Permission of instructor; and minimum cumulative GPA of 2.5.
Credit Only Granted for: HLTH381 or PEER311.
Formerly: HLTH 381.
Additional Information: Students are required to attend a 40-hour training the week before classes begin which will equip them with the information and tools necessary to provide outreach as early as the first week of the Fall classes. Some evening and weekend hours may be required.

PEER312 Peer Education: Preventing Power-Based Violence (3 Credits)
Designed to train students to become Peer Educators who are responsible for presenting to members of the campus community about the complex dynamics surrounding issues of power-based personal violence. This includes: sexual assault, relationship violence, stalking, bystander intervention, consent, and rape culture. Students fully learn the on and off-campus resources for victim/survivors. Programming is done in classroom settings, residence halls, Greek life spaces, and at tables during special events.
Prerequisite: Students must complete an interview before enrolling in this course.
Restriction: Permission of instructor; and minimum cumulative GPA of 2.5.
Credit Only Granted for: HLTH382 or PEER312.
Formerly: HLTH382.
Additional Information: Students are required to attend a 40-hour training the week before classes begin which will equip them with the information and tools necessary to provide outreach as early as the first week of the Fall classes. Some evening and weekend hours may be required.

PEER313 Peer Education: Alcohol and Other Drugs Education (3 Credits)
Designed to train students to become Peer Educators who are responsible for presenting to members of the campus community about issues surrounding substance use, including (but not limited to) alcohol, marijuana, and various other drugs, providing information about campus services for those with substance use related issues, and educating students about other topics related to harm reduction strategies and promoting students' overall well-being, including bystander intervention. Programming is done in classroom settings, residence halls, and at tables during special events.
Prerequisite: Students must complete an interview before enrolling in this course.
Restriction: Permission of instructor; and minimum cumulative GPA of 2.5.
Credit Only Granted for: HLTH380 or PEER313.
Formerly: HLTH380.
Additional Information: Students are required to attend a 40-hour training the week before classes begin which will equip them with the information and tools necessary to provide outreach as early as the first week of the Fall classes. Some evening and weekend hours may be required.

PEER314 Peer Education: Sexual Health & Wellness (3 Credits)
Designed to train students to become Peer Educators who are responsible for presenting to members of the campus community about issues surrounding Sexually Transmitted Infections, sexual health testing and screening, birth control options, healthy sexuality, consent and communication, condoms and other barrier protection, campus sexual health services, and other issues related to sexual well being including bystander intervention. Programming is done in classroom settings, residence halls, and at tables during special events.
Prerequisite: Students must complete an interview before enrolling in this course.
Restriction: Permission of instructor; and minimum cumulative GPA of 2.5.
Credit Only Granted for: HLTH383 or PEER314.
Formerly: HLTH383.
Additional Information: Students are required to attend a 40-hour training the week before classes begin which will equip them with the information and tools necessary to provide outreach as early as the first week of the Fall classes. Some evening and weekend hours may be required.

PEER318 CARE Peer Advocacy (3 Credits)
Designed to train students to become Peer Advocates who are responsible for providing crisis and short-term support services for victims of sexual assault, relationship violence, stalking, sexual harassment and child abuse.Students will be meeting with clients and providing emotional support and resources (both on and off campus). During weekly classes, students will be trained in trauma-informed crisis intervention procedures that will not only help them assist clients during in- person sessions but will help them support clients via the crisis cell. Students will be expected to maintain the crisis cell (on a shared basis)throughout the semester as well as maintain 10 hours per week in the CARE office. In addition to maintaining the crisis cell and office hours, during the spring semester students will be tasked with working as a team in planning and executing a Take Back the Night event.
Prerequisite: Students must complete an interview before enrolling in this course; and permission of instructor.
Recommended: PSYC100 and HLTH377.
Restriction: Permission of instructor; and minimum cumulative GPA of 2.5; and students must sign up for the same course in the spring semester; and students are only permitted to enroll in the repeatable year long course once during their academic career. If students wish to continue working with the office after the course has been completed (Fall and Spring), they can do so on a volunteer basis; and must not have taken HLTH382 as a CARE Advocate course.
Repeatable to: 6 credits.
Additional Information: Students are required to attend a 40-hour training the week before classes begin which will equip them with the information and tools necessary to provide outreach as early as the first week of the Fall classes. Some evening and weekend hours may be required (crisis cell and special events).

PEER319 CARE to Stop Violence Outreach Peer Program (3 Credits)
A two semester, 6-credit course designed to train students in the knowledge, values and skills to build professional relationships and become leaders in community development related to the social justice issue of sexual misconduct with emphasis on the college campus environment.
Prerequisite: Permission of instructor; and students must complete an interview before enrolling in this course.
Restriction: Permission of instructor; and minimum cumulative GPA of 2.5; and students must sign up for the same course in the spring semester; and students are only permitted to enroll in the repeatable year long course once during their academic career. If students wish to continue working with the office after the course has been completed (Fall and Spring), they can do so on a volunteer basis; and must not have taken HLTH382 as a CARE Outreach course.
Repeatable to: 9 credits.
Formerly: HLTH382.
Additional Information: Students are required to attend a 40-hour training the week before classes begin which will equip them with the information and tools necessary to provide outreach as early as the first week of the Fall classes. Some evening and weekend hours may be required.

PEER321 Advanced Peer Education Mental Health and Wellness (3 Credits)
PEER 321 is a three-credit, interdisciplinary course building upon the stress management, mental illness, appropriate on/off campus resources, stigma, body image, helping a friend in distress, bystander intervention, and mental health/wellness knowledge gained during PEER 311. Students will gain a fundamental understanding of program planning basics through a series of assignments where they theoretically plan their own prevention or awareness program for the University of Maryland campus community. Students who become a Peer Leader during year two may have the opportunity to implement this program on campus. This course also provides advanced training in the skills necessary to serve as an effective Peer Educator under the University Health Center. Peer Educators will continue to provide outreach and education to the campus community through various outreach events, workshops, and more.
Prerequisite: Students must complete an interview before enrolling in this course; and minimum grade of B- in PEER311.
Restriction: Minimum cumulative GPA of 2.5; and permission of instructor.
Credit Only Granted for: HLTH381 or PEER321.
Formerly: HLTH381.
Additional Information: In addition to the weekly class lectures and experiential learning opportunities facilitating educational outreach on campus, advanced peer educators will meet weekly in groups. These group meetings will provide a space for the students to incorporate class content to enhance the design, development, and evaluation of a sexual assault prevention or awareness program for the University of Maryland campus community. Coordinators will meet with student groups to facilitate and supervise this process.

PEER322 Advanced Peer Education: Preventing Power-Based Violence (3 Credits)
PEER 322 is a three-credit, interdisciplinary course building upon the sexual assault, relationship violence, stalking, bystander intervention, and wellness knowledge gained during PEER 312. Students will gain a fundamental understanding of program planning basics through a series of assignments where they theoretically plan their own prevention or awareness program for the University of Maryland campus community. Students who become a Peer Leader during year two may have the opportunity to implement this program on campus. This course also provides advanced training in the skills necessary to serve as an effective Peer Educator under the University Health Center. Peer Educators will continue to provide outreach and education to the campus community through various outreach events, workshops, and more.
Prerequisite: Students must complete an interview before enrolling in this course; and minimum grade of B- in PEER312.
Restriction: Minimum cumulative GPA of 2.5; and permission of instructor.
Credit Only Granted for: HLTH382 or PEER322.
Formerly: HLTH382.
Additional Information: In addition to the weekly class lectures and experiential learning opportunities facilitating educational outreach on campus, advanced peer educators will meet weekly in groups. These group meetings will provide a space for the students to incorporate class content to enhance the design, development, and evaluation of a sexual assault prevention or awareness program for the University of Maryland campus community. Coordinators will meet with student groups to facilitate and supervise this process.

PEER323 Advanced Peer Education: Alcohol and Other Drugs Education (3 Credits)
PEER 323 is a three-credit, interdisciplinary course building upon the alcohol and other drugs (AOD) education knowledge gained during PEER 313. Students will gain a fundamental understanding of program planning basics through a series of assignments where they theoretically plan their own wellness program for the University of Maryland campus community. Students who become Peer Leaders during year two (PEER338) may have the opportunity to implement this program on campus. This course also provides advanced training in the skills necessary to serve as an effective Peer Educator under the University Health Center. Peer Educators will continue to provide outreach and education to the campus community through various outreach events, workshops, and more.
Prerequisite: Students must complete an interview before enrolling in this course; and minimum grade of B- in PEER313.
Restriction: Minimum cumulative GPA of 2.5; and permission of instructor.
Credit Only Granted for: HLTH380 or PEER323.
Formerly: HLTH380.
Additional Information: In addition to the weekly class lectures and experiential learning opportunities facilitating educational outreach on campus, advanced peer educators will meet weekly in groups. These group meetings will provide a space for the students to incorporate class content to enhance the design, development, and evaluation of an alcohol and other drugs education program for the University of Maryland campus community. Coordinators will meet with student groups to facilitate and supervise this process.

PEER324 Advanced Peer Education: Sexual Health & Wellness (3 Credits)
PEER 324 is a three-credit, interdisciplinary course building upon the sexual health and wellness knowledge gained during PEER 314. Students will gain a fundamental understanding of program planning basics through a series of assignments where they theoretically plan their own wellness program for the University of Maryland campus community. Students who become Peer Leaders during year two (PEER338) may have the opportunity to implement this program on campus. This course also provides advanced training in the skills necessary to serve as an effective Peer Educator under the University Health Center. Peer Educators will continue to provide outreach and education to the campus community through various outreach events, workshops, and more.
Prerequisite: Students must complete an interview before enrolling in this course; and minimum grade of B- in PEER314.
Restriction: Minimum cumulative GPA of 2.5; and permission of instructor.
Credit Only Granted for: HLTH383 or PEER324.
Formerly: HLTH383.
Additional Information: In addition to the weekly class lectures and experiential learning opportunities facilitating educational outreach on campus, advanced peer educators will meet weekly in groups. These group meetings will provide a space for the students to incorporate class content to enhance the design, development, and evaluation of a sexual health and wellness program for the University of Maryland campus community. Coordinators will meet with student groups to facilitate and supervise this process.

PEER338 PEER LEADERSHIP AND EDUCATION (3 Credits)
An interdisciplinary independent study designed to enhance the scope of learning around UHC peer education topics and train students to serve as leaders for those enrolled in first year peer courses, PEER31X and PEER32X. Second year peers are trained to facilitate intersectional and advanced health education dialogue, as well as serve in leadership roles for the course in which they were previously enrolled, PEER31X and PEER32X. Additionally, Peer Leader responsibilities include creating and implementing campus wide events to promote learning around the intersections between UHC peer education group topics (power-based violence, sexual health, alcohol and other drugs, stress and mental health). Peer Leaders will have different responsibilities based on the programmatic needs and goals of the semester.
Prerequisite: 1 course with a minimum grade of B- from (PEER321, PEER322, PEER323, PEER324).
Restriction: Minimum cumulative GPA of 3.0.
Repeatable to: 6 credits.

PERS - Persian

PERS101 Elementary Persian I (4 Credits)
Introduction to the alphabet, pronunciation patterns, greetings, basic structures, and other fundamentals, with emphasis on oral and aural skills.
Prerequisite: Must have appropriate World Language Placement (WLP) score.
Restriction: Must not be native/fluent speaker of Persian.

PERS102 Elementary Persian II (4 Credits)
Continuation of PERS101 with emphasis on the use of formal language, vocabulary building, and reading.
Prerequisite: PERS101; or must have appropriate World Language Placement (WLP) score.
Restriction: Must not be native/fluent speaker of Persian.

PERS103 Beginning Persian I (3 Credits)
Introduction to the fundamental grammatical structures, phonology, and orthography. Students work toward developing foundational communicative and interactional competence in Persian.
Restriction: Must not be a native/fluent speaker of Persian. Native/fluent speakers of Persian or students who have previously attended school in Persian speaking countries should take the World Language Placement (WLP) and see the Persian Program Advisor to identify the correct Persian course for which to register.
Credit Only Granted for: PERS101 or PERS103.

PERS104 Beginning Persian II (3 Credits)
Continuation of PERS103 with sustained emphasis on the simultaneous development of structural and communicative competence in Persian.
Prerequisite: PERS103; or must have appropriate World Language Placement (WLP) score.
Restriction: Must not be a native/fluent speaker of Persian. Native/fluent speakers of Persian or students who have previously attended school in Persian speaking countries should take the World Language Placement and see the Persian Program Advisor to identify the correct Persian course for which to register.
Credit Only Granted for: PERS102 or PERS104.

PERS105 Intensive Elementary Persian I (6 Credits)
Intensive training in spoken and written Persian at elementary level. Basic literacy skills, vocabulary, pronunciation and grammar developed through a highly interactive approach. Substantial cultural component familiarizing students with cultural themes related to Iran and the Persian speaking world. Taught in Persian.
Prerequisite: Must have appropriate World Language Placement (WLP) score.
Restriction: Open to beginning learners of Persian only.

PERS106 Intensive Elementary Persian II (6 Credits)
Intensive training in spoken and written Persian at elementary level (ACTFL Novice High to Intermediate Low). Continues building basic literacy skills, vocabulary, and grammar through highly a interactive approach. Substantial cultural component familiarizing students with cultural themes related to Iran and the Persian speaking world. Taught in Persian.
Prerequisite: Pre-requisite: PERS105, or equivalent, as determined by the World Language Placement (WLP).

PERS201 Intermediate Persian I (3 Credits)
Development of speaking, reading, writing, listening and cultural knowledge through wide variety of activities.
Prerequisite: PERS102; or must have appropriate World Language Placement (WLP).
Restriction: Must not be native/fluent speaker of Persian.

PERS202 Intermediate Persian II (3 Credits)
Further development of speaking, writing, listening and cultural knowledge, with special focus on culture.
Prerequisite: PERS201; or must have appropriate World Language Placement (WLP).
Restriction: Must not be native/fluent speaker of Persian.

PERS205 Intensive Intermediate Persian I (6 Credits)
Development of Persian language proficiency and cultural knowledge at the intermediate level (Intermediate-Mid on ACTFL scale). Taught in Persian.
Prerequisite: PERS106; or equivalent as determined by World Language Placement (WLP).

PERS206 Intensive Intermediate Persian II (6 Credits)
Designed to further develop Persian language proficiency and cultural knowledge at an intermediate level (Intermediate High on ACTFL scale). Taught in Persian.
Prerequisite: PERS205; or equivalent, as determined by the World Language Placement (WLP).

PERS211 Intermediate Conversation (3 Credits)
Development of aural and oral skills in Persian. Various genres and registers of speech. Special focus on contemporary daily life, with use of up-to-date media sources.
Prerequisite: PERS102; or students who have taken courses with comparable content may contact the department.
Recommended: Concurrent enrollment in PERS201.

PERS251 Modern Iran (3 Credits)
General sociopolitical introduction to modern Iran from establishment of the Qajar dynasty in the late 18th century to the present day. Taught in English.
Cross-listed with: HIST219X.
Credit Only Granted for: PERS251 or HIST219X.

PERS252 Gender and Body in Iran (3 Credits)
Multidisciplinary approach to key topics concerning gender and body in Iran, to include insights from religion, history, sociology, anthropology, disability studies, travel literature, arts, and fashion. Taught in English.
Credit Only Granted for: WMST298J, or PERS252.

PERS269 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

PERS280 Art Activism in Iran (3 Credits)
Explores Iranian artists' intent and hope for change and their critical and playful strategies of making a difference through their visual or performing arts created since 1980. While exploring key concepts, contexts, and debates by examining a variety of artworks, we explore diverse and unique transgressive stories, strategies, and styles that these works present to address themes of social justice through the art. We examine how multimedia art forms (dance, theatre, cinema, painting, digital art, and music) empower Iranian artists to practice their identity and exercise their agency as these aspects intersect with race, ethnicity, class, sexuality, ability, and education in a shifting and multilayered context.
Credit Only Granted for: PERS289M, ARTH389O, or PERS280.
Formerly: PERS298M.

PERS283 Iranian Cinema (3 Credits)
Introduction to Iranian cinema, society, and culture. Taught in English.
Cross-listed with: CINE283.
Credit Only Granted for: PERS283, CINE283 or FILM298B.

PERS298 Special Topics in Persian Studies (1-3 Credits)
Special topic to be announced when course is offered.
Repeatable to: 9 credits if content differs.

PERS299 Directed Study in Persian Language (1-3 Credits)
Directed study in Persian. Taught in Persian.
Prerequisite: PERS202; or permission of ARHU-School of Languages, Literatures, and Cultures department.

PERS301 Advanced Persian I (3 Credits)
Development of speaking, reading, writing, listening and cultural knowledge through wide variety of activities, especially reading.
Prerequisite: PERS202; or permission of ARHU-School of Languages, Literatures, and Cultures department.
Restriction: Must not be native/fluent speaker of Persian.

PERS302 Advanced Persian II (3 Credits)
Further development of speaking, reading, writing, listening and cultural knowledge, with special focus on reading, in a variety of literary genres.
Prerequisite: PERS301; or students who have taken courses with comparable content may contact the department.
Restriction: Must not be native/fluent speaker of Persian.

PERS305 Intensive Advanced Persian I (6 Credits)
Development of Persian language proficiency and cultural competence at an advanced level (Advanced Low on ACTFL scale). Taught in Persian.
Prerequisite: Must have completed PERS206; or equivalent as determined by World Language Placement (WLP).

PERS306 Intensive Advanced Persian II (6 Credits)
Continued development of Persian language proficiency at an Advanced Mid level on ACTFL scale through a whole language approach integrating listening, speaking, reading and writing. Taught in Persian.
Prerequisite: PERS305; or equivalent as determined by World Language Placement (WLP).

PERS311 Persian Media (3 Credits)
Examines issues, values, institutions of the contemporary Persian and Persianete world, primarily through analysis and discussion of current events as reported in the written and audiovisual press. Focus will be on increasing content knowledge as well as linguistic competency in Persian. Taught in Persian.
Prerequisite: PERS301; or permission of ARHU-School of Languages, Literatures, and Cultures department.

PERS312 Contemporary Iranian Culture (3 Credits)
Study of the culture of contemporary Iran (post-evolution) with focus on the contemporary social, political, literary and artistic life in Iran. Taught in Persian.
Prerequisite: PERS301; or students who have taken courses with comparable content may contact the department.
Restriction: Must not be native/fluent speaker of Persian.

PERS353 Iranian Life in Literature and Film (3 Credits)
Treats major themes in modern literature and life of Iranians. Topics examined include Iranian identity, religious traditions, modern life, and expatriate communities. Taught in English.

PERS369 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

PERS371 Introduction to Persian Literature in Translation (3 Credits)
Introduction to classical and modern canons of Persian literature in historical, esthetic, and social context. Taught in English.

PERS385 Theatre and Dance in Iran and Afghanistan (3 Credits)
Students will learn about stories, plays, and movements in Iran and Afghanistan from past to present. Through watching performances, readings, and discussions, we explore the relationship between storytelling, body, space, and power in forming and performing identity and life experiences. Looking at case studies from traditional, popular, and western style dance and theater are an exciting part of the course. Note: This course requires no prior knowledge of Persian culture or dance and theatre studies on the part of the students.
Cross-listed with: TDPS358A, THET328W.
Repeatable to: 3 credits if content differs.
Credit Only Granted for: TDPS358A, THET328W, PERS398A, or PERS385.
Formerly: PERS398A.

PERS386 Experiential Learning (3-6 Credits)
Pre-professional experience in research, analysis and writing in a work setting. Project proposal approved by faculty and internship sponsor.
Restriction: Permission of ARHU-School of Languages, Literatures, and Cultures department.

PERS398 Special Topics in Persian Studies (1-3 Credits)
Special topic to be announced when course is offered. Taught in Persian.
Prerequisite: PERS301; or permission of ARHU-School of Languages, Literatures, and Cultures department.

PERS399 Directed Study in Persian (1-3 Credits)
Directed study with faculty supervision.
Prerequisite: Permission of ARHU-School of Languages, Literatures, and Cultures department.
Restriction: Sophomore standing or higher.
Repeatable to: 9 credits if content differs.

PERS405 Media and the Current Issues in Iranian Society (6 Credits)
Develops Persian language proficiency and domain-specific knowledge at advanced-mid to advanced-high level on ACTFL scale. Enhances linguistic and cultural competence. Provides a broad understanding of some of the current social, political and economic issues in modern Iran. Taught in Persian.
Prerequisite: PERS306; or equivalent as determined by World Language Placement (WLP).

PERS406 Practicum in Persian Translation (6 Credits)
Provides opportunities for translation, interpretation, and analysis of various authentic oral and written texts (both English to Persian and Persian to English). Facilitates the development of Persian language proficiency at advanced level through a task-based approach that integrates all the language skills in pedagogical translation activities.
Prerequisite: PERS306; or equivalent as determined by the World Language Placement (WLP).

PERS498 Special Topics in Persian Studies (3 Credits)
Topic and language to be announced when offered.
Prerequisite: Permission of instructor.
Repeatable to: 9 credits if content differs.

PHIL - Philosophy

PHIL100 Introduction to Philosophy (3 Credits)
An introduction to the literature, problems, and methods of philosophy either through a study of some of the main figures in philosophic thought or through an examination of some of the central and recurring problems of philosophy.

PHIL140 Contemporary Moral Issues (3 Credits)
The uses of philosophical analysis in thinking clearly about such widely debated moral issues as abortion, euthanasia, homosexuality, pornography, reverse discrimination, the death penalty, business ethics, sexual equality, and economic justice.

PHIL170 Introduction to Symbolic Logic (3 Credits)
This course will introduce the basic concepts and techniques of modern symbolic logic, with an emphasis on developing skills in two areas: first, translating between ordinary language and logical notation; second, establishing the validity or invalidity of arguments using the methods of truth tables, deductions, and countermodels. Although the subject of symbolic logic was developed by mathematicians and philosophers for their own special purposes (which we will discuss), logical concepts and techniques have found applications in a variety of disciplines, including computer science, economics, law, linguistics, and psychology. We may also consider some of these applications.

PHIL171 Reasoning For Humans: Clear Thinking in an Uncertain World (3 Credits)
Reasoning is a transition in thought in which some beliefs or thoughts provide grounds or reasons for others. What makes certain transitions of thought rational or reasonable and others irrational or erratic is a major focus of investigation in diverse research areas, such as philosophy, logic, artificial intelligence, cognitive science, and psychology. This course is an introduction to logic and probability with a focus on applications to the study of the foundations of human reasoning.
Credit Only Granted for: PHIL171 or PHIL218A.
Formerly: PHIL218A.

PHIL201 Spooky Action at a Distance? Where Physics Meets Metaphysics (3 Credits)
Einstein believed that physics should represent a "reality in space and time, free from spooky action at a distance." He worried that quantum theory failed this test. Later developments suggest that quantum systems really can influence one another instantly, no matter how far apart they are, but the question remains controversial and experiments are not sufficient to provide an answer. This self-contained course will draw on philosophy and physics to investigate the controversy.
Recommended: Students should be comfortable with moderately mathematical presentations. Placement into MATH110 or higher is strongly recommended.
Credit Only Granted for: PHIL201 or PHIL209I.
Formerly: PHIL209I.

PHIL202 Know Thyself: Wisdom Through Cognitive Science (3 Credits)
How do we improve our decision making? Cognitive science demonstrates that self-knowledge isn't as easy as we think, and that there are numerous biases and fallacies that impact our decision-making in ways that are hard for us to be aware of. In this course you will learn what some of these are and how they have been discovered, and you will explore potential strategies for avoiding these fallacies and for making wiser choices.
Credit Only Granted for: PHIL209N or PHIL202.
Formerly: PHIL209N.

PHIL203 The Rights and Wrongs of Killing People (3 Credits)
Virtually everyone thinks it's permissible to kill people only in special circumstances. But why is killing usually wrong? Is it ever acceptable to kill an innocent human being intentionally? This course raises these and related questions and examines cases such as terrorism, suicide, abortion, euthanasia, the death penalty, war. Except for a brief discussion of animals, all the controversies considered deal with killing and causing death to human beings.
Credit Only Granted for: PHIL209J or PHIL203.
Formerly: PHIL209J.

PHIL204 Happiness (3 Credits)
What does the discipline of philosophy teach us about happiness? This course explores how philosophers have addressed questions about the nature of happiness and its role in the good human life. Questions to be addressed include: what is it to be happy? What social, economic, and political institutions foster and support human happiness? Can an immoral person be happy? And is a happy life the same as a meaningful life?
Credit Only Granted for: PHIL209E or PHIL204.
Formerly: PHIL209E.

PHIL205 Are Sports Ethical? (3 Credits)
Things happen routinely in sports that would seem morally unacceptable in other context: violence between the participants, attempts to trick the referee, fans hoping that some players would do embarrassingly badly, spectators feeling anger towards whole nations. Nonetheless, all of this may seem reasonable and even justifiable within a sporting context. This course will investigate the ethical structure of sports, and what it tells us about the ethics of everyday life. Philosophy will provide the primary disciplinary context, but we will also think about sociological, legal and anthropological perspectives on sports. Issues will include the nature of sportsmanship, what types of violence in sports are acceptable, drug use in sports, what it means to be a fan (for example, asking why loyalty to your team is valuable) and how our view of sports interacts with our view of nations. By the end of the course you should have gained familiarity with a variety of ethical concepts and a sensitivity to the ethical issues in sports. You should also find that by thinking about morality in the context of sports, you will look at larger ethical issues in new ways.
Credit Only Granted for: PHIL205, PHIL209G, or HONR229E.
Formerly: HONR229E.

PHIL209 Philosophical Issues (3 Credits)
An examination of selected philosophical issues of general interest.
Repeatable to: 6 credits if content differs.

PHIL210 Philosophy of the Universe (3 Credits)
An exploration of how philosophy can help us understand our place in the cosmos. The course covers a variety of topics at the intersection of science and philosophy, such as: How does the world we observe emerge from the microscopic world science tells us about? What are laws of nature? What is time? What is life? The emphasis is not on leading students to particular conclusions about these topics. Instead, it is to learn how to ask these questions critically and to understand what would count as relevant evidence for an answer.
Credit Only Granted for: PHIL209U or PHIL210.
Formerly: PHIL209U.

PHIL211 AI & ETHICS (3 Credits)
An introduction to a major subfield of contemporary Philosophy, namely applied ethics, and the experience of using some major tools in the practice of philosophy more generally, namely, the construction and formal evaluation of arguments, conceptual analysis, the use of thought experiments, and clear, direct and persuasive writing. Learning how to execute the latter will involve an intense iterative process. The substantive focus of the course will be the ethical evaluation of Artificial Intelligence (AI) in some of its current and potentially future incarnations. We'll examine algorithmic opacity, algorithmic bias and decision-making, autonomous weapons systems, human-robot interaction, and artificial moral agents, in order to uncover what, if any, ethical issues they give rise to.
Credit Only Granted for: PHIL209D or PHIL211.
Formerly: PHIL209D.

PHIL218 Issues in in Epistemology/Metaphysics (3 Credits)
An examination of selected philosophical issues in epistemology or metaphysics.
Repeatable to: 12 credits if content differs.
Additional Information: Counts toward the epistemology/metaphysics requirement for the Philosophy major.

PHIL220 Bioethics: Regulating Right and Wrong (3 Credits)
Bioethicists formulate ethical guidelines. They answer questions such as: When life-saving health resources are scarce, who should get them? Should we increase supply of one such resource, kidneys, by buying them from living "donors"? If drug trials in developing countries benefit patients who consent to participate, are the trials ethical, even if the same research would be forbidden in the US? If a sick person aims to hasten her death, how, if at all, might her doctor permissibly help her? In this course, students construct and defend ethical rules in four domains: research ethics, allocation of scarce resources, markets in organs, and physician-assisted dying.
Credit Only Granted for: PHIL209A or PHIL220.
Formerly: PHIL209A.

PHIL228 Issues in History of Philosophy (3 Credits)
An examination of selected issues in the history of philosophy.
Repeatable to: 12 credits if content differs.
Additional Information: Counts toward the history of philosophy requirement for the Philosophy major.

PHIL234 Fundamental Concepts of Judaism (3 Credits)
A conceptional introduction to Judaism, analyzing its fundamental concepts from both analytical and historical perspectives. Discussion of "normative" Judaism as well as other conceptions of Judaism. Topics include: God, the Jewish people, authority, ethics, the sacred and the profane, particularism and universalism.
Cross-listed with: JWST250, RELS250.
Credit Only Granted for: JWST250, PHIL234, or RELS250.

PHIL235 Authority, Faith, and Reason in Judaism (3 Credits)
A broad survey of the concepts of authority, faith, and reason in Jewish tradition from the Bible to the modern period, and their interrelationships.

PHIL236 Philosophy of Religion (3 Credits)
A philosophical study of some of the main problems of religious thought: the nature of religious experience, the justification of religious belief, the conflicting claims of religion and science, and the relation between religion and morality.
Cross-listed with: RELS236.
Credit Only Granted for: PHIL236 or RELS236.

PHIL238 Issues in Value Theory (3 Credits)
An examination of selected issues in ethics, aesthetics, political philosophy and related areas.
Repeatable to: 12 credits if content differs.
Additional Information: Counts toward the value theory requirement for the Philosophy major.

PHIL245 Political and Social Philosophy I (3 Credits)
A critical examination of such classical political theories as those of Plato, Hobbes, Locke, Rousseau, Mill, Marx, and such contemporary theories as those of Hayek, Rawls, and recent Marxist thinkers.

PHIL250 Philosophy of Science I (3 Credits)
Main issues in the philosophy of science. Special attention to the ways scientific developments have influenced the philosophy of science and how philosophy of science has influenced scientific progress. Case studies of selected historical episodes in which science and philosophy have interacted significantly, focusing on the physical, biological, or social sciences.

PHIL261 Philosophy of the Environment (3 Credits)
An evaluation of different kinds of arguments for the claim that the natural environment should be preserved. Perspectives cut across the disciplines of philosophy (environmental ethics and philosophies of nature); economics (cost-benefit analysis); and biology (evolution, ecology, environmental studies).
Credit Only Granted for: HONR218F or PHIL261.
Formerly: HONR218F.

PHIL269 Speical Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

PHIL271 Symbolic Logic (3 Credits)
This course provides students with a thorough treatment of the basic concepts and techniques of modern symbolic logic, through classical first-order logic with identity. We will concentrate on the construction of natural deduction proofs and on the evaluation of logical statements in semantic models. Along the way, we will study some of the concepts from set theory (sets, functions, relations) used in the definition of semantic models for logical systems. We may also introduce some alternative, or non-classical logics. Although the subject of symbolic logic was developed by mathematicians and philosophers for their own special purposes (which we will discuss), logical concepts and techniques have found applications in a variety of disciplines, including computer science, economics, law, linguistics, and psychology. We may also consider some of these applications.
Recommended: PHIL170.

PHIL282 Free Will & Determinism (3 Credits)
A study of the main positions and arguments in the free will debate in contemporary analytic philosophy.

PHIL308 Studies in Contemporary Philosophy (3 Credits)
Problems, issues, and points of view of current interest in philosophy.
Prerequisite: 6 credits in PHIL courses.
Repeatable to: 6 credits if content differs.

PHIL309 Philosophical Problems (3 Credits)
A focused study of a contemporary philosophical problem or issue. Topics will vary, but the course will encourage students to to generate critical analyses or proposed resolutions of issues in the contemporary philosophical literature.
Prerequisite: 6 credits in PHIL courses.
Repeatable to: 12 credits if content differs.

PHIL310 Ancient Greek and Roman Philosophy (3 Credits)
A study of the origins and development of philosophy in ancient Greece and Rome, focusing on Socrates, Plato, Aristotle, the Epicureans, and Stoics.
Prerequisite: Must have completed 6 credits in philosophy or classics.
Cross-listed with: CLAS310, PHPE308Y.
Credit Only Granted for: PHIL310, CLAS310, or PHPE308Y.

PHIL313 From the Stoa to Silicon Valley: Ancient and Modern Approaches to Stoic Philosophy (3 Credits)
Stoicism, ancient Rome's most popular philosophy, posited that virtue is the only human good and that individuals must detach themselves emotionally from the material world in order to live ethical lives. Principles of Stoic philosophy will be explored together with the wide array of artistic, political, and intellectual traditions that have drawn inspiration from it, from the Haitian revolutionary movement of the late 18th century, to the sexist "manosphere" of Reddit and Twitter, to modern cognitive-behavioral therapy.
Cross-listed with: CLAS313, PHPE313.
Credit Only Granted for: CLAS313, PHIL313, or PHPE313.

PHIL318 Studies in Epistemology/Metaphysics (3 Credits)
Problems, issues, and points of view in epistemology or metaphysics.
Prerequisite: 1 course in PHIL.
Repeatable to: 12 credits if content differs.
Additional Information: Counts toward the epistemology/metaphysics requirement for the Philosophy major.

PHIL320 Knowing Oneself and Knowing the World: Early Modern Philosophy from Descartes to Kant (3 Credits)
A study of major philosophical issues of the 16th, 17th, and 18th centuries through an examination of such philosophers as Descartes, Spinoza, Leibniz, Cavendish, Locke, Berkeley, Hume and Kant
Prerequisite: 6 credits in PHIL courses; or permission of instructor.

PHIL328 Studies in the History of Philosophy (3 Credits)
Problems, issues, and points of view in the history of philosophy.
Prerequisite: 6 credits in PHIL courses.
Repeatable to: 6 credits if content differs.

PHIL332 Philosophy of Beauty (3 Credits)
Philosophical theories, historical and contemporary, of beauty, sublimity, and other aesthetic qualities, of aesthetic experience, and of aesthetic judgment.
Prerequisite: 3 courses in PHIL; or permission of ARHU-Philosophy department.

PHIL338 Studies in Value Theory (3 Credits)
Problems, issues and points of view in ethics, aesthetics, political philosophy and related areas.
Prerequisite: 1 course in PHIL.
Repeatable to: 12 credits if content differs.
Additional Information: Counts toward the value theory requirement for the Philosophy major.

PHIL341 Ethical Theory (3 Credits)
A critical examination of classical and contemporary systems of ethics, such as those of Aristotle, Kant, Mill, and Rawls.
Prerequisite: 6 credits in PHIL courses.

PHIL344 Philosophy of Race (3 Credits)
A survey of philosophical arguments involving race and racism. Guiding questions will include: How have philosophers and scientists conceived of the concept of race? Is race a coherent concept? Does it help us explain differences in performance and behavior? What makes racism, racial prejudice, and discrimination wrong? What is the point of equality? Do we owe reparations to victims of racism?
Credit Only Granted for: PHIL344 or PHIL308Y.
Formerly: PHIL308Y.

PHIL347 Philosophy of Law (3 Credits)
Examination of fundamental concepts related to law, e.g. legal systems, law and morality, justice, legal reasoning, responsibility.
Credit Only Granted for: PHIL347 or PHIL447.
Formerly: PHIL447.

PHIL360 Philosophy of Language (3 Credits)
The nature and function of language and other forms of symbolism from a philosophical perspective.
Prerequisite: LING311; or 2 courses in PHIL and (PHIL170 or PHIL370); or permission of ARHU-Philosophy department.
Cross-listed with: LING350.
Credit Only Granted for: LING350 or PHIL360.

PHIL362 Theory of Knowledge (3 Credits)
Some central topics in the theory of knowledge, such as perception, memory, knowledge, and belief, skepticism, other minds, truth, and the problems of induction.
Prerequisite: 6 credits in PHIL courses; and PHIL170.
Formerly: PHIL462.

PHIL364 Metaphysics (3 Credits)
The study of some central metaphysical concepts and issues including the nature and validity of metaphysical thinking, universals, identity, substance, time, God, and reality.
Prerequisite: 6 credits in PHIL courses.
Formerly: PHIL464.

PHIL366 Philosophy of Mind (3 Credits)
An introduction to core issues in the philosophy of mind, focusing especially on the basic metaphysical question of dualism versus physicalism.
Prerequisite: 6 credits in PHIL courses.

PHIL369 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

PHIL370 Logical Theory I: Metatheory (3 Credits)
This course is an introduction to logical "metatheory", that is, to logical reasoning about logic systems themselves. Topics include alternative alternative proof-theoretic presentations of logical systems as well as soundness and completeness theorems for propositional and first-order logic. Along the way, we will deepen our understanding of the elementary set-theoretic concepts underlying first order logic. Other topics may include basic results in the semantics of first order logic (such as the Craig interpolation theorem, the Beth definability theorem, or the Lowenhein-Skolem theorem).
Prerequisite: PHIL271 or CMSC250; or permission of the instructor.

PHIL386 Experiential Learning (3-6 Credits)
Restriction: Permission of ARHU-Philosophy department; and junior standing or higher.

PHIL408 Topics in Contemporary Philosophy (3 Credits)
An intensive examination of contemporary problems and issues. Source material will be selected from recent books and articles.
Repeatable to: 99 credits if content differs.

PHIL409 Advanced Studies in Contemporary Philosophy (3 Credits)
An in-depth study of a contemporary philosophical problem or issue. Topics will vary, but the course will encourage students to grapple with the primary literature in order to generate sustained critical analyses or proposed resolutions of issues under active consideration in contemporary philosophy.
Prerequisite: 6 credits in PHIL courses.
Repeatable to: 12 credits if content differs.

PHIL412 The Philosophy of Plato (3 Credits)
A critical study of selected dialogues.
Prerequisite: 6 credits in PHIL courses.

PHIL414 The Philosophy of Aristotle (3 Credits)
A critical study of selected portions of Aristotle's writings.
Prerequisite: 6 credits in PHIL courses.

PHIL417 The Golden Age of Jewish Philosophy (3 Credits)
Jewish philosophy from Maimonides in the 12th century to the expulsion of the Jews from Spain at the end of the 15th Century. Topics include the limitations of human knowledge, creation of the world, foreknowledge and free will, and the existence of God.
Prerequisite: 3 credits in PHIL courses; or permission of ARHU-Meyerhoff Program & Center for Jewish Studies; or permission of ARHU-Philosophy department.
Cross-listed with: JWST452.
Credit Only Granted for: JWST452 or PHIL417.

PHIL418 Topics in Epistemology/Metaphysics (3 Credits)
An intensive examination of contemporary problems and issues in epistemology or metaphysics. Source material will be selected from recent books and articles.
Prerequisite: 2 courses in PHIL.
Repeatable to: 12 credits if content differs.

PHIL428 Topics in the History of Philosophy (3 Credits)
Prerequisite: PHIL310 and PHIL320; or permission of ARHU-Philosophy department.
Repeatable to: 99 credits if content differs.

PHIL438 Topics in Value Theory (3 Credits)
An intensive examination of contemporary problems and issues in ethics, aesthetics, political philosophy and related areas. Source material will be selected from recent books and articles.
Prerequisite: 2 courses in PHIL.
Repeatable to: 12 credits if content differs.

PHIL440 Contemporary Ethical Theory (3 Credits)
Contemporary work on fundamental problems in ethical theory, such as whether there are moral truths, whether and how our moral claims can be justified, what exactly makes an act right or wrong, the nature of moral language, and the role of reason and emotion in moral judgment.
Prerequisite: PHIL341; or permission of instructor.

PHIL443 Moral Psychology (3 Credits)
Philosophers often stress reasoning as the appropriate source for practical and moral action. Would a realistic view of human psychology undermine this assumption? This course will examine recent philosophical and empirical work on the relevance of emotion and/or intuition to rationality, moral worth, and moral judgment.
Prerequisite: 2 courses in PHIL.
Recommended: PHIL341 is strongly recommended for background on the historical authors that the readings make reference to.
Credit Only Granted for: PHIL408P or PHIL443.
Formerly: PHIL408P.

PHIL445 Contemporary Political Philosophy (3 Credits)
Major trends in contemporary political philosophy: liberal, libertarian, communitarian, socialist, feminist.
Restriction: Must have completed 3 credits in philosophy or political theory; or permission of ARHU-Philosophy department. And sophomore standing or higher.

PHIL446 Law, Morality, and War (3 Credits)
An exploration of fundamental moral and legal issues concerning war.

PHIL453 Philosophy of Science II (3 Credits)
A comprehensive survey of developments in the main problems of the philosophy of science from logical positivism to the present. The nature of theories, models, laws, and counterfactuals, testing, inductive logic, and confirmation theory, experimental methodology, measurement, explanation, concept formation, growth of scientific knowledge, and scientific realism.
Prerequisite: Students must have completed a minium of two philosophy courses.

PHIL458 Topics in the Philosophy of Science (3 Credits)
A detailed examination of a particular topic or problem in philosophy of science.
Repeatable to: 6 credits if content differs.

PHIL469 Study Abroad Special Topics IV (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

PHIL470 Logical Theory II: Incompleteness and Undecidability (3 Credits)
Introduces the formal theory of computation, and then presents the the central limitative results of modern first-order logic: Church's undecidability theorem and Godel's first and second incompleteness theorems. The primary focus of the course is a thorough technical study of these fundamental results, but we will also discuss some of the philosophical issues they raise. Further topics may include second-order logic.
Prerequisite: PHIL370; or permission of instructor.

PHIL478 Topics in Philosophical Logic (3 Credits)
Philosophical logics result from the application of formal techniques to problems of philosophical interest; these logics often have applications in other areas as well, such as AI, linguistics, psychology, economics, and law. This course will either concentrate on a particular family of philosophical logics (such as modal or temporal or defeasible logics) or else survey a number different logical systems.
Prerequisite: PHIL271; or permission of instructor.
Recommended: PHIL470.
Repeatable to: 9 credits if content differs.

PHIL488 Topics in Philosophy of Cognitive Studies (3 Credits)
Examination of a particular topic or problem in philosophy of cognitive studies.
Prerequisite: 3 credits in PHIL courses; or permission of ARHU-Philosophy department.
Repeatable to: 9 credits if content differs.

PHIL489 Undergraduate Seminar in Philosophy (3-6 Credits)
An intensive examination of a philosophical topic or topics.
Restriction: Permission of ARHU-Philosophy department.
Repeatable to: 6 credits if content differs.

PHIL490 The Practice of Philosophy: How To Develop Your Own Work (3 Credits)
Writing philosophical papers, presenting them to an audience, and responding critically and constructively to the papers and talks of others are skills central to the practice of philosophy. This course will help students to enhance those skills in a seminar-style format. Students should come to the course with a paper of their own (likely from another course) that they would like to develop.
Prerequisite: Three upper-level (300- or 400-level) courses in philosophy or permission of the instructor.
Credit Only Granted for: PHIL408R or PHIL490.
Formerly: PHIL408R.

PHIL498 Topical Investigations (1-3 Credits)

PHIX - Philosophy Education Abroad

PHIX301 Philosophy of Technology and Human Values (3 Credits)
In our age, it is undeniable that human beings are technological creatures. Techne, that is, artful craftsmanship, has increasingly been enhancing our experiences, fulfilling our desires, and broadening our abilities, both on a large scale and in the daily lives of individuals. Do we control technology or does it control us? Is technology part of nature or an instrument to human ends? How can we respond critically to the use and development of technology? In this course, we examine such pressing questions from specifically Scandinavian, ethical, social, environmental, and philosophical perspectives.
Additional Information: This course is offered as part of the Maryland-in-Stockholm study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMStockholm. Education Abroad processes registrations for this course on behalf of students.

PHIX306 Machiavelli Today: Politics, Sociability, Self-fashioning, Cinema, and Graphic Novels (3 Credits)
Takes students from the center of Florence, where Machiavelli was listening to a sermon by a theocratic leader, Girolamo Savonarola, and concluded that it was wrong to mix religion with politics. This principle was to guide Machiavelli's political thought and remained at the core of his teachings. For this reason, Machiavelli has been, and still is, both reviled for the content of his observations, and admired for the clarity of his exposition. Both the author and his books have been a constant presence in Western civilization, with regular patterns of rejection and acceptance, since moral principles have always been sacrificed for a supposed better good.
Additional Information: This course is offered as part of the Maryland-in-Florence study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMFlorence. Education Abroad processes registrations for this course on behalf of students.

PHPE - Philosophy, Politics, and Economics

PHPE308 Special Topics in Philosophy, Politics, and Economics (3 Credits)
A sustained investigation of a topic at the intersection of philosophy, politics and economics.
Repeatable to: 15 credits if content differs.

PHPE308Y Ancient Greek and Roman Philosophy (3 Credits)
A study of the origins and development of philosophy in ancient Greece and Rome, focusing on Socrates, Plato, Aristotle, the Epicureans, and Stoics.
Prerequisite: Must have completed 6 credits in philosophy or classics.
Cross-listed with: PHIL310, CLAS310.
Credit Only Granted for: PHIL310, CLAS310, or PHPE308Y.

PHPE313 From the Stoa to Silicon Valley: Ancient and Modern Approaches to Stoic Philosophy (3 Credits)
Stoicism, ancient Rome's most popular philosophy, posited that virtue is the only human good and that individuals must detach themselves emotionally from the material world in order to live ethical lives. Principles of Stoic philosophy will be explored together with the wide array of artistic, political, and intellectual traditions that have drawn inspiration from it, from the Haitian revolutionary movement of the late 18th century, to the sexist "manosphere" of Reddit and Twitter, to modern cognitive-behavioral therapy.
Cross-listed with: CLAS313, PHIL313.
Credit Only Granted for: CLAS313, PHIL313, or PHPE313.

PHPE350 Careers in Impact (3 Credits)
The impact ecosystem is vast and complex and consists of public, private, and nonprofit sectors engaged in shaping the world around them. Each sector within this ecosystem has its own theory of change and plays a specific role in the broader impact space. As you seek to become a purposeful professional, it is essential to develop a deeper understanding of this ecosystem, the different levers of influence within it, and the intra-relationship between the sectors. This course introduces you to both the impact landscape and working professionals. Through lectures, guest visits, and hands-on projects you come away better equipped to find your place within the impact ecosystem.

PHPE355 Practicum on Civic Engagement (3 Credits)
As a PPE student, you are motivated to shape the world around you. Local governments share this same mission. In "Practicum on Civic Engagement", you will learn the tools of civic engagement and develop a project for a local government that furthers their goals. The class will consist of lectures that cover political, economic, and cultural aspects of civic engagement along with discussion days where you will work with your colleagues on a real-world project. This course is not an internship. Students will work to develop a project to serve their local government over the course of the semester and will have an opportunity to present their work to local government officials at the end of the semester.

PHPE386 Experiential Learning Practicum in Philosophy, Politics, and Economics (3-6 Credits)
For students who wish to gain experience working in research outside the classroom. Pending approval of the department, students may work at a professional site or remotely under professional supervision - your primary supervisor must be a professional in the field. Beyond working at a professional site or under professional supervision, students will have to complete further assignments to receive a passing grade in the course. Students may take PHPE386 for three-six credits, but only three credits will count towards the major requirements. PHPE386 is only open to those with junior standing or above.
Restriction: Junior standing or higher.

PHPE400 Individual and Group Decision-Making (3 Credits)
Foundational issues that arise within the theories of rational choice that underlie the treatments of decision-making found in economics, politics, and the other social sciences. The course is focused on individual decisions (rational choice theory), strategic decisions (game theory) and group decisions (social choice theory). In addition to presenting the formal models of decision making, we also discuss to what extent these mathematical theories explain social interactions. An important aspect of the course is to introduce students to the ways in which economic analysis has been applied to issues in social and political philosophy. Readings will be drawn from the literature in economics, psychology, statistics and political science, as well as philosophy.
Restriction: Must be in the Philosophy, Politics and Economics major; and must have junior standing or higher; or permission of instructor .

PHPE401 Social Philosophy and Political Economy (3 Credits)
Examines capitalism and socialism as differing modes of economic production through several different theoretical lenses. We begin by examining capitalism and socialism as they developed historically, by looking primarily at the work of Adam Smith and Karl Marx. Then, we turn our attention to one of the most important debates in 20th century economics: to what extent rational economic calculation is possible in a socialist commonwealth. After this we turn our attention to how capitalist and socialist modes of production functioned in practice. We end by turning our attention to the ethics of capitalism and socialism: which mode of economic production is most just?
Restriction: Must be in the Philosophy, Politics and Economics major; and must have junior standing or higher; or permission of instructor.

PHPE402 Senior Capstone in Philosophy, Politics, and Economics (3 Credits)
Senior capstone course for the Philosophy, Politics, and Economics major. The exact content of the course will be determined by the instructor who teaches it. The purpose of the course is to pursue sustained inquiry on a narrow philosophical topic, using the tools and methods from economics and political science to help analyze the topic. The course ends with a substantial research paper, where the student should demonstrate an ability to use the tools of philosophy, political science, and economics in his or her analysis.
Restriction: Must be a PHPE (Philosophy, Politics & Economics) major with senior standing; or permission of instructor.

PHPE408 Advanced Topics in Philosophy, Politics, and Economics (3 Credits)
A sustained investigation of a topic at the intersection of philosophy, politics and economics.
Repeatable to: 15 credits if content differs.

PHPX - Philosophy, Politics, and Economics Education Abroad

PHPX300 Facts and Fictions of Climate Change (3 Credits)
Explores theories of knowledge about climate change and how humans attempt to know, experience, and express the phenomenon of climate change. Examines on how "fact" is constructed by cultures in relation to climate change with a particular focus on air conditions and their representation in contemporary China.
Additional Information: This course is offered as part of the Arts & Humanities-in-London study abroad program. Students must apply for this program through Education Abroad: More information at https://globalmaryland.umd.edu/offices/education-abroad/program/11854. Education Abroad processes registrations for this course on behalf of students.

PHPX302 Human Rights in History: Origins, Foundations, Prospects (3 Credits)
What are human rights and where do they come from? In this class students will examine the tangled origins of the concept of human rights, its relation to broader transformations of moral conscience, how it became institutionalized in law and modern world politics, and why its history and prospects have become so fiercely contested today. Students will focus on cases from European, imperial, American and global history that illuminate how human rights became part of the contemporary framework of politics, law, culture, and historiography.
Additional Information: This course is offered as part of the Arts & Humanities-in-London study abroad program. Students must apply for this program through Education Abroad: More information at https://globalmaryland.umd.edu/offices/education-abroad/program/11854. Education Abroad processes registrations for this course on behalf of students.

PHPX303 History of Political Thought (6 Credits)
Explores key questions in the development of the concept of democracy through the study of texts by some of the most important thinkers and debates in the history of political thought, beginning in the ancient world and continuing through the twentieth century. Students will look at arguments and controversies as they unfolded in different historical circumstances, becoming familiar with the concepts, problems, and debates that have shaped political thought.
Additional Information: This course is offered as part of the Arts & Humanities-in-London study abroad program. Students must apply for this program through Education Abroad: More information at https://globalmaryland.umd.edu/offices/education-abroad/program/11854. Education Abroad processes registrations for this course on behalf of students. Please note that this course spans two semesters.

PHPX304 Modernity: Theories of State, Economy and Society (6 Credits)
Reflects on the concept of modernity through the examination of theories of society, economy and the state, and how modernity's promises of liberty, equality, and fraternity have been compromised from the outset. Students will study key theorists and moments in the history of modernity, and consider the dark side of modernity and critiques from both the "left" and the "right", the "culture of modernity", and the distinction between modernity and progress in history.
Additional Information: This course is offered as part of the Arts & Humanities-in-London study abroad program. Students must apply for this program through Education Abroad: More information at https://globalmaryland.umd.edu/offices/education-abroad/program/11854. Education Abroad processes registrations for this course on behalf of students. Please note that this course spans two semesters.

PHPX305 Socialist Political Thought (3 Credits)
Explores how socialism has historically provided the most important ideological and political alternative to capitalism and liberalism. This course examines core ideas in the history of socialist thought through a close reading of selected primary texts and the exploration of themes such as utopia, community, class, ownership and control, culture and identity, equality, and democracy.
Additional Information: This course is offered as part of the Arts & Humanities-in-London study abroad program. Students must apply for this program through Education Abroad: More information at https://globalmaryland.umd.edu/offices/education-abroad/program/11854. Education Abroad processes registrations for this course on behalf of students.

PHSC - Public Health Science

PHSC201 The Pursuit of Career Success in Public Health Science (1 Credit)
Explore the dynamic connection between experiential learning and career readiness in the field of public health by engaging with insightful podcasts that bring real-world perspectives to the forefront. Through active learning, you will evaluate your skill set, reflect on your experiences, analyze industry trends, and uncover best practices essential for success in the public health workforce. This course is designed to help you bridge the gap between your current abilities and your career aspirations. By strategically planning your curricular and co-curricular engagement, you'll develop a roadmap tailored to your unique goals. This personalized action plan will empower you to navigate your career path moving fearlessly forward.
Restriction: Must be in the Public Health Science program.
Credit Only Granted for: PHSC388D or PHSC201.
Formerly: PHSC388D.

PHSC300 Foundations of Public Health (3 Credits)
An overview of the goals, functions, and methods of public health. After an introduction to the core concepts and tools used in public health research and practice, applications of these methodologies are considered in the context of current controversies/problems in public health. Students work together to develop strategies for prevention and control that take into consideration different points of view, outside research, and impacts on individuals and communities.
Restriction: Must be a major within the School of Public Health.
Credit Only Granted for: SPHL100 or PHSC300.

PHSC321 Transfer Success for the Public Health Science Major (3 Credits)
A public health-focused transition course for first year transfer students in UMD's PHSC program at Shady Grove. Students will engage with current public health topics through primary sources, literature reviews, course discussions, analytic writing, and critical thinking. Academic success and professional development in the public health field will be emphasized. Students will also engage with faculty, staff, centers, and resources both at the University of Maryland, College Park and the Universities at Shady Grove.
Restriction: Must be a first year transfer student in UMD's Public Health Science program at Shady Grove.

PHSC388 Special Topics in Public Health Science (1-3 Credits)
Will differ by specific course offering.
Restriction: Must be in Public Health Science program; and must have earned a minimum of 45 credits.
Repeatable to: 9 credits if content differs.

PHSC389 Independent Research Study in Public Health Science (1-6 Credits)
This independent research-based experience will provide the opportunity for students to work with individual research mentors in the area of Public Health Science. Students must identify a mentor prior to obtaining departmental permission.
Restriction: Must be in Public Health Science program; and must have earned a minimum of 45 credits; and permission of instructor.
Repeatable to: 6 credits if content differs.

PHSC399 Public Health Science Internship (1-6 Credits)
The Public Health Science internship will enable students to gain practical experience under conditions conducive to academic, research and professional development. The internship is a time-limited, supervised period of public health professional experience carried out in a related professional organization or research setting.
Restriction: Must be in Public Health Science program; and must have completed a minimum of 75 credits; and must have permission of instructor.
Repeatable to: 6 credits if content differs.
Credit Only Granted for: PHSC491 or SPHL491.
Formerly: SPHL491.
Additional Information: Prospective students must meet with an advisor and complete internship verification, expectations and responsibilities prior to registration. This is generally completed the semester prior to beginning the internship.

PHSC401 History of Public Health (3 Credits)
Emphasis is on the history of public health in the Western world from antiquity to the present. Also examines the influence of public health developments as they relate to the Western world as well as throughout diverse cultures and societies across the globe. Analysis focuses on the interaction among Western and non-Western cultures with respect to health issues, including science, policies, prevention and treatment.
Restriction: Must be in Public Health Science program; and must have earned a minimum of 45 credits.
Credit Only Granted for: PHSC401 or SPHL401.
Formerly: SPHL401.

PHSC405 Policy Advocacy and Public Health (3 Credits)
Students will identify and analyze policy solutions to public health problems and determine advocacy strategies to encourage policy makers to implement the recommendations. Lectures, class discussions, group work and mock advocacy exercises will integrate the principles and practice of public health advocacy. Guest lecturers from a variety of settings will give students a broad range of perspectives and advocacy experiences.
Prerequisite: Minimum grade of C- in HLSA300.
Restriction: Must be in Public Health Science program; and must have earned a minimum of 60 credits.

PHSC410 Public Health Program Planning and Evaluation (3 Credits)
Students will become familiar with the dynamics of public health program planning, and the basic process of identifying unmet needs. They will be able to identify different types of program evaluation, including needs assessment, formative research, process evaluation, impact assessment, and cost analysis.
Restriction: Must be in Public Health Science program; and junior standing or higher.
Credit Only Granted for: PHSC410 or SPHL410.
Formerly: SPHL410.

PHSC412 Food, Policy, and Public Health (3 Credits)
Broad overview of the impact of food and food policy on public health. Course covers topics such as access to food, food systems, influence of food policies on the individual, the cost of food, influences on food selection, food safety risks and responses, nutrition-related health challenges, and a comparison of US food/nutrition issues with those of other nations.
Prerequisite: Must have completed HLSA300 with a C- or higher.
Recommended: NFSC100.
Restriction: Must be in Public Health Science program; and junior standing or higher.
Credit Only Granted for: PHSC412 or SPHL412.
Formerly: SPHL412.

PHSC415 Essentials of Public Health Biology: The Cell, The Individual, and Disease (3 Credits)
Presents the basic scientific and biomedical concepts of modern public health problems and explores in depth mechanisms and models of the major categories of disease. The biologic principles presented are foundations to public health disease prevention, control, or management programs.
Prerequisite: Minimum grade of C- in BSCI202.
Recommended: BSCI223.
Restriction: Must be in Public Health Science program; and junior standing or higher.
Credit Only Granted for: PHSC415, SPHL415 or SPHL498J.
Formerly: SPHL415 and SPHL498J.

PHSC420 Vaccines and Immunology (3 Credits)
An exploration of immunology and vaccines through a public health lens. We will examine the cells, systems, and molecules that comprise the human immune system and defend your body against disease. In addition, we will discuss the strategies used during vaccine development including the history and future of vaccination and how increased understanding of the immune system has allowed scientists to improve and refine the process. Finally we will examine the current social and political situation surrounding vaccination and the roles and responsibility of public health practitioners.
Prerequisite: Minimum grade of C- in BSCI202.
Recommended: CHEM231.
Restriction: Must have earned a minimum of 60 credits. And must be in Public Health Science program; or permission of instructor.

PHSC425 Genetics, Genomics, and Public Health (3 Credits)
Recent advances in genomic science and biomedical technologies have increased our understanding of the genetic basis of disease and the interplay between genetics and environmental and behavioral factors. This course will provide a solid background in basic genetics and genomic science and highlight the role of public health professionals in translating breakthroughs in this rapidly transforming field into the clinical setting, program planning, and policy. Topics covered will include the molecular basis for genetic variation, fetal and newborn screening, genetic risk factors for cancer, pharmacogenetics, the role of pathogen genomics in outbreak investigation, and applications of genetic engineering in solving public health issues.
Prerequisite: Must have completed BSCI170 and 171 with a C- or higher.
Recommended: BSCI222 and BSCI223.
Restriction: Must have earned a minimum of 60 credits; and must be in Public Health Science program.
Credit Only Granted for: SPHL498X OR PHSC425.
Formerly: SPHL498X.

PHSC426 Climate Change and Health (3 Credits)
Climate changes pose significant risks to population health by affecting air quality, the availability of safe drinking water, infectious disease transmission, food security, and access to housing, land, and livelihoods. Students examine the relationship between climate change and human health, focusing on how climate change vulnerability varies between populations by geographic, demographic, and socioeconomic characteristics.
Prerequisite: Minimum grade of C- in MIEH300.
Restriction: Must be in Public Health Science program.

PHSC430 Public Health in the City: Perspectives on Health in the Urban Environment (3 Credits)
Exposure to issues related to city habitation and the health of the public, including how the urban environment impacts the lives and health of city dwellers, including discussion of the social determinants of health. Students are encouraged to think about urban health and policy, and to question the current state of urban public health. Issues of race, class, and equality will be discussed throughout the course as they relate to each of these topics.
Prerequisite: Minimum grade of C- in BSCI202 and MIEH300.
Restriction: Must be in Public Health Science program; and junior standing or higher.
Credit Only Granted for: PHSC430 or SPHL498G.
Formerly: SPHL498G.

PHSC440 Public Health Nutrition (3 Credits)
Engages students in conceptual thinking about the relationship between public health and nutritional health. Students will analyze and interpret "A Framework for Public Health Nutrition." Students will identify determinants of nutritional health, assess nutritional health in individuals and populations, develop strategies to mitigate these issues, and analyze and evaluate public health nutrition policies.
Prerequisite: A minimum of C- in BSCI170, BSCI171, CHEM131, CHEM132 and EPIB301.
Restriction: Must be in Public Health Science program.
Credit Only Granted for: PHSC440 or NFSC498L.

PHSC450 Addressing Social and Structural Inequities Through Public Health (3 Credits)
A focus on addressing social and structural inequities within race, gender, disability, and class through various perspectives in the field of public health. Students explore the causes, challenges, consequences, and extent these injustices have on health disparities from local, national, and global perspectives. Students view these inequities through the lens of the affected populations, and work interactively and collaboratively to interpret, design, and evaluate public health interventions and approaches to address key health disparities within specific communities. The aim of this course is to help students define appropriate research and address structural inequities with innovative approaches through the professional practice of public health.
Prerequisite: Minimum grade of C- in MIEH300; and 1 course with a minimum grade of C- from either SPHL100 or PHSC300.

PHSC497 Public Health Science Capstone (3 Credits)
The capstone course is the culminating experience for Public Health Science students and must be taken only in the final semester of study. The Public Health Science capstone course is designed to challenge students to integrate the five core areas of public health in investigating, researching and addressing public health issues. Throughout the semester, students will be required to evaluate, analyze and synthesize scholarly works as they research and propose solutions to a variety of public health issues. By the conclusion of this research based course, students will understand how the various public health perspectives can combine in addressing and informing public health practices.
Prerequisite: Must have completed the professional writing requirement with a C- or higher; and minimum grade of C- in PHSC450.
Restriction: Must have earned a minimum of 100 credits; and must be in Public Health Science program; and must be in the final semester of undergraduate study.
Credit Only Granted for: SPHL498F or PHSC497.
Formerly: SPHL498F.

PHYS - Physics

PHYS102 Physics of Music (3 Credits)
A study of the physical basis of sound, acoustical properties of sound, the human ear and voice, reproduction of sound, electronic music, acoustical properties of auditoriums, and other selected topics.
Prerequisite: Must have math eligibility of MATH107 or higher.
Credit Only Granted for: PHYS102 and PHYS499C.
Additional Information: CORE Distributive Studies Physical Sciences Laboratory Course only when taken concurrently with PHYS103.

PHYS103 Physics of Music Laboratory (1 Credit)
Optional laboratory to accompany PHYS 102. Laboratory experiments, including the velocity of sound, sound quality and wave shape, traveling and standing waves, fourier synthesis and analysis, musical synthesizer, psychoacoustics, and audio equipment.

PHYS105 A Global Challenge: Energy and Climate Change (3 Credits)
How will the world address the energy needs of a growing population and its impact on climate change? This class will explore potential solutions to mitigate our atmospheric impact, including technological innovations and policy measures. Additionally, we will analyze the roles of economics, government, and industry in shaping our responses within the context of modern science.
Additional Information: This course is aimed at the non-science major.

PHYS106 Light, Perception, Photography, and Visual Phenomena (3 Credits)
Intended for the general student, this course will cover topics in optics which require minimal use of mathematics. Principles of optics, lenses, cameras, lasers and holography, physics of the eye, color vision and various visual phenomena such as rainbows.

PHYS107 Light, Perception, Photography and Visual Phenomena Laboratory (1 Credit)
Optional laboratory to accompany PHYS106. Laboratory experiments include geometrical optics (lenses, cameras, eye), optical instruments (telescope, binoculars), photography, perception, color phenomena, and wave phenomena.

PHYS111 Physics in the Modern World (3 Credits)
A survey course in general physics emphasizing the role that physics plays in science, technology, and society today. The course is concept oriented and minimal use of mathematics is made. Intended for the general student; does not satisfy the requirements of the professional schools.

PHYS115 Inquiry into Physics (4 Credits)
Intended for students majoring in neither the physical nor the biological sciences. Use of laboratory-based and inquiry-based methods to study some of the basic ideas of physical sciences.
Recommended: High School Physics.
Restriction: Must not have completed PHYS117; and must be in one of the following programs (Elementary Education; Early Childhood Education; Middle School Education).
Credit Only Granted for: PHYS115 or PHYS117.

PHYS121 Fundamentals of Physics I (4 Credits)
The first part of a two-semester course in general physics treating the fields of mechanics, heat, sound, electricity, magnetism, optics, and modern physics. Together with PHYS122, this generally satisfies the minimum requirement of medical and dental schools.
Prerequisite: MATH113 or MATH115.
Credit Only Granted for: PHYS121, PHYS131, or PHYS331.

PHYS122 Fundamentals of Physics II (4 Credits)
A continuation of PHYS121, which together with it, generally satisfies the minimum requirement of medical and dental schools.
Prerequisite: PHYS121; or students who have taken courses with comparable content may contact the department.
Credit Only Granted for: PHYS122, PHYS132, or PHYS332.

PHYS131 Fundamentals of Physics for Life Sciences I (4 Credits)
The first part of a two-semester course in general physics specifically oriented towards applications relevant for students in biology and pre-medical programs. The course covers basic mechanics including forces and energy, properties of matter, and thermodynamics done in authentic biological contexts.
Prerequisite: CHEM131; and (MATH136 or MATH140); and (BSCI160 and BSCI161; or BSCI106); and (BSCI170 and BSCI171; or BSCI105).
Credit Only Granted for: PHYS121, PHYS131, or PHYS331.

PHYS132 Fundamentals of Physics for Life Sciences II (4 Credits)
The second part of a two-semester course in general physics specifically oriented towards applications relevant for students in biology and pre-medical programs. The course covers basic statistical physics, electricity and magnetism, and optics done in authentic biological contexts.
Prerequisite: PHYS131; or students who have taken courses with comparable content may contact the department.
Credit Only Granted for: PHYS122, PHYS132, or PHYS332.

PHYS141 Principles of Physics (4 Credits)
The first of a two-semester series in general physics. The first semester covers the fields of mechanics, thermodynamics, and special relativity. This survey course will use calculus and is recommended for chemistry and zoology majors. It also satisfies the requirements of medical and dental schools.
Corequisite: MATH141 or MATH121; or MATH221.
Credit Only Granted for: PHYS141, PHYS161, or PHYS171.

PHYS142 Principles of Physics (4 Credits)
A continuation of PHYS141 covering waves, electricity and magnetism, optics and modern physics.
Prerequisite: PHYS141; or students who have taken courses with comparable content may contact the department.
Credit Only Granted for: PHYS142, (PHYS260 and PHYS261), or PHYS272.

PHYS161 General Physics: Mechanics and Particle Dynamics (3 Credits)
First semester of a three-semester calculus-based general physics course. Laws of motion, force, and energy; principles of mechanics, collisions, linear momentum, rotation, and gravitation.
Prerequisite: Must have completed or be concurrently enrolled in MATH141.
Credit Only Granted for: PHYS141, PHYS161, or PHYS171.
Additional Information: General Education Natural Sciences Lab (DSNL) Course only when taken concurrently with PHYS275.

PHYS165 Introduction to Programming in the Physical Sciences (3 Credits)
Introduction to programming using examples in the physical sciences. Provides instruction in the techniques of upper-level languages such as Fortran, C, and Pascal, as well as an introduction to the object oriented programming techniques used in Python, C++ and Java. Includes strong component of visualization and graphing.
Prerequisite: PHYS171, PHYS141, or PHYS161; or must have scored 3 or higher on AP PHYS exam.

PHYS170 Professional Physics Seminar (1 Credit)
Provides a look at some of the major developments of current interest in physics research and discusses the activities physicists undertake in research, education, industry, government, and other areas of the economy.
Corequisite: MATH140.
Restriction: Must be in Physics program; or must be in Physics-Education program; or permission of instructor.

PHYS171 Introductory Physics: Mechanics (3 Credits)
First semester of a three semester sequence for physics majors and those desiring a rigorous preparation in the physical sciences: kinematics, Newton's laws, energy and work, linear and angular momenta.
Prerequisite: MATH140; or permission of CMNS-Physics department.
Credit Only Granted for: PHYS141, PHYS161, or PHYS171.
Additional Information: General Education Natural Sciences Lab (DSNL) Course only when taken concurrently with PHYS275.

PHYS172 Succeeding in Physics: Applications, Resources and Concepts (1 Credit)
Supplemental instruction and support for students taking PHYS171, especially for students with limited high school physics preparation, or who will benefit from extra review and practice of relevant mathematics and physics concepts and skills.
Corequisite: PHYS171.
Restriction: Permission of CMNS-Physics department.

PHYS174 Physics Laboratory Introduction (1 Credit)
Introduces students to the techniques of data gathering and analysis. This course will lay a foundation for higher-level labs in physics and the physical sciences. Students will learn to use laboratory equipment such as calipers, meters, oscilloscopes, and computer interfaces. Techniques of measurement and error analysis will be presented. Students will be taught to use the computer for data analysis with an emphasis on using spreadsheets.
Corequisite: MATH140.
Recommended: High school physics.

PHYS235 The Manhattan Project (3 Credits)
Introduction to some critical ideas of nuclear physics and a review of some key historical developments starting at the end of the 19th century. Chronological development of nuclear physics from the discovery of radioactivity by Becquerel in 1896 through to the discovery of fission in Germany in 1938 followed by an examination of the programs to develop nuclear weapons in the United States, Britain and Germany. Extensive study of political, ethical, scientific, military, social, and economic issues surrounding the Manhattan Project.
Recommended: Students should be comfortable standard high school algebra II.
Credit Only Granted for: PHYS199M or PHYS235.
Formerly: PHYS199M.

PHYS260 General Physics: Electricity, Magnetism and Thermodynamics (3 Credits)
Second semester of a three-semester calculus-based general physics course. Electrostatics, magnetism, induction, DC and AC circuits; Maxwell's Equations, heat, and thermodynamics.
Prerequisite: PHYS161 and MATH141.
Corequisite: PHYS261.
Credit Only Granted for: PHYS142, PHYS260, or PHYS272.

PHYS261 General Physics: Mechanics, Vibrations, Waves, Heat (Laboratory) (1 Credit)
Lab includes experiments on mechanics, vibrations, waves, and heat. Engineering majors are expected to take PHYS260 and PHYS261 in the same semester.
Prerequisite: PHYS161.

PHYS265 Introduction to Scientific Programming (3 Credits)
Introduction to scientific programming with python. Basic data types, sequences, input/output, and program control flow structures. Evaluation and plotting of mathematical functions and data. Statistical interpretation of data, and fitting of data to models. Introduction to numerical methods including integration, solutions of ordinary differential equations, and linear algebra. Extensive use of the numpy, matplotlib, and scipy packages.
Prerequisite: PHYS171, PHYS141, or PHYS161; or must have scored 3 or higher on AP PHYS C Mechanics exam.
Credit Only Granted for: PHYS165 or PHYS265.
Formerly: PHYS165.

PHYS270 General Physics: Waves, Optics, Relativity and Modern Physics (3 Credits)
Third semester of a three-semester calculus-based general physics course. Waves, sound, electromagnetic waves, optics, special theory of relativity, and modern physics.
Prerequisite: PHYS261, MATH241, and PHYS260.
Corequisite: PHYS271.

PHYS271 General Physics: Electrodynamics, Light, Relativity and Modern Physics (Laboratory) (1 Credit)
Lab includes experiments on ac circuits, magnetism, light and modern physics. PHYS270 and PHYS271 (lab) must be taken in the same semester.
Prerequisite: PHYS261.
Corequisite: PHYS270.

PHYS272 Introductory Physics: Fields (3 Credits)
Second semester of a calculus based general physics course. Universal gravitation, electric and magnetic fields and potentials, simple circuits, Maxwell's equations in integral form. Continues the application of mathematics to conceptual models, now with more abstract components.
Prerequisite: PHYS161 or PHYS171; and MATH141; and must have completed or be concurrently enrolled in MATH241.
Credit Only Granted for: PHYS142, PHYS260, or PHYS272.

PHYS273 Intermediate Oscillations and Waves (3 Credits)
Classical physics at an intermediate level, introducing mathematical tools such as complex variables, linear differential equations, and Fourier series and transforms. Physics of mechanical and electrical oscillators, including damped and driven systems; coupled oscillators and normal modes; the classical wave equation and its Fourier solutions; wave reflection and transmission at boundaries; Maxwell's equations in differential form; electromagnetic waves, and physical optics.
Prerequisite: MATH241 and PHYS272; and must have completed or be concurrently enrolled in one of the following: (PHYS274, MATH243, MATH246 or equivalent).

PHYS274 Mathematical Methods for Physics I (3 Credits)
A first course in mathematical methods for physics. Topics include linear algebra, curvilinear coordinates and vector analysis.
Prerequisite: MATH241 and PHYS272.

PHYS275 Experimental Physics I: Mechanics and Waves (2 Credits)
A first course for physics majors and interested engineering students introducing the methods of experimental science. Students learn to identify various statistical data distributions, carry out rigorous uncertainty analysis, and test whether a given theoretical model adequately describes the observed phenomena. These concepts are applied to sophisticated physical systems that exhibit complex behavior and can yield remarkably precise and accurate results. Experiments are chosen from the areas of mechanics and waves.
Prerequisite: Must have completed or be concurrently enrolled in PHYS171 or PHYS161.
Additional Information: General Education Natural Sciences Lab (DSNL) Course only when taken concurrently with PHYS171 or PHYS161.

PHYS276 Experimental Physics II: Electricity and Magnetism (2 Credits)
Second course in the three semester introductory sequence. Methods and rationale of experimental physics. Experiments chosen from the fields of electricity and magnetism including electrostatics, magnetostatics, magnetic induction, AC circuits.
Prerequisite: PHYS272 and PHYS275.

PHYS298 Special Topics in Physics (1-3 Credits)
Special topics in physics.
Repeatable to: 6 credits if content differs.

PHYS299 Special Problems in Physics (1-6 Credits)
Research or special study to complement courses taken elsewhere which are not fully equivalent to those in departmental requirements. Credit according to work done.
Prerequisite: Permission of CMNS-Physics department.

PHYS299Q Quantum Steampunk Science-Fiction Workshop (3 Credits)
Steampunk is a science-fiction genre in which futuristic technologies populate Victorian-era settings. Recently, steampunk has come to life in the scientific field of quantum thermodynamics. Thermodynamics, the study of energy, grew out of the Industrial Revolution. Two centuries later, quantum physics is transforming computing and cryptography. Quantum science is now revolutionizing 19th-century thermodynamics in quantum thermodynamics, which features quantum engines, automata, and more. Quantum thermodynamics inspired the growing subgenre of quantum steampunk. In this course, you will read science fiction, write quantum steampunk short stories, receive feedback, and critique classmates' writing. In parallel, you will learn about quantum physics, technologies, and thermodynamics.
Cross-listed with: ARHU270, CMSC298Q, ENME299Q.
Credit Only Granted for: ARHU270, ARHU298Q, CHEM298Q, CMSC298Q, ENME299Q or PHYS299Q.

PHYS313 Electricity and Magnetism I (4 Credits)
A first course in electricity and magnetism at an advanced level. Electrostatics; solutions to the Laplace and Poisson equations in cartesian and spherical coordinates; electric fields in matter; and magnetostatics. Study of boundary value problems and extensive use of vector calculus.
Prerequisite: MATH241, PHYS273, and one of the following: PHYS274, MATH240, MATH243, MATH246, or equivalent courses.

PHYS318 Topics in Contemporary Physics (3 Credits)
A survey of topics of current research and public interest. Intended for the non-physics or non-science major. Topics covered will include lasers, quantum liquids, cosmology, elementary particles and geophysics.
Prerequisite: PHYS122 or PHYS111; or permission of CMNS-Physics department.

PHYS331 Physics for Life Sciences I (4 Credits)
The first part of a two-semester course in general physics specifically oriented towards applications relevant for students in biology and pre-medical programs. The course covers basic mechanics including forces and energy, properties of matter, and thermodynamics done in authentic biological contexts.
Prerequisite: CHEM131; and (MATH131 or MATH136); and (BSCI160 and BSCI161; or BSCI106); and (BSCI170 and BSCI171; or BSCI105). Or students who have taken courses with comparable content may contact the department.
Credit Only Granted for: PHYS121, PHYS131 or PHYS 331.

PHYS332 Physics for Life Sciences II (4 Credits)
The second part of a two-semester course in general physics specifically oriented towards applications relevant for students in biology and pre-medical programs. The course covers basic statistical physics, electricity and magnetism, and optics done in authentic biological contexts.
Prerequisite: PHYS331; or PHYS131; or students who have taken courses with comparable content may contact the department.
Credit Only Granted for: PHYS122, PHYS132, or PHYS332.

PHYS371 Modern Physics (3 Credits)
Physics of the early 20th century. Special relativity; particle-wave duality; Compton scattering; the Bohr model; the Schroedinger equation; atomic and nuclear physics phenomena. Includes introductory thermodynamics and the kinetic theory of gases.
Prerequisite: PHYS273; and 1 course from (PHYS274, MATH243, or MATH246).
Credit Only Granted for: PHYS371 or PHYS420.
Additional Information: Intended primarily for physics and astronomy majors.

PHYS373 Mathematical Methods for Physics II (3 Credits)
A second course in mathematical methods for physics. Topics include introduction to ordinary differential equations, partial differential equations, and complex analysis.
Prerequisite: PHYS273 and PHYS274.

PHYS375 Experimental Physics III: Electromagnetic Waves, Optics and Modern Physics (3 Credits)
Third course in the three-semester introductory sequence. Methods and rationale of experimental physics. Experiments chosen from the areas of electromagnetic waves, optics and modern physics.
Prerequisite: PHYS276 and PHYS273.

PHYS386 Experiential Learning (3-6 Credits)

PHYS389 Undergraduate Thesis Research (1-6 Credits)
Independent directed research and study on a topic selected by the student in consultation with his or her advisor. Final written thesis and oral defense will be expected.
Prerequisite: Permission of CMNS-Physics department.
Restriction: Must be in a major within CMNS-Physics department.
Repeatable to: 6 credits.

PHYS398 Independent Studies Seminar (1-16 Credits)
Credit according to work done. Enrollment is limited to students admitted to the independent studies program in physics.

PHYS399 Special Problems in Physics (1-3 Credits)
Selected advanced experiments. (Will be given with sufficient demand.)
Prerequisite: PHYS405; and permission of CMNS-Physics department.

PHYS401 Quantum Physics I (4 Credits)
Introduces some quantum phenomena leading to wave-particle duality. Schroedinger theory for bound states and scattering in one dimension. One-particle Schroedinger equation and the hydrogen atom.
Prerequisite: PHYS371; and (PHYS313 or PHYS373).

PHYS402 Quantum Physics II (3 Credits)
Applications of quantum mechanics to atomic, molecular, and solid state systems. Addition of angular momenta, multiparticle states, perturbation theory and other approximation techniques, scattering, and symmetries.
Prerequisite: PHYS401.

PHYS404 Introduction to Statistical Thermodynamics (3 Credits)
Introduction to basic concepts in thermodynamics and statistical mechanics.
Prerequisite: PHYS371 or PHYS420.

PHYS405 Advanced Experiments (3 Credits)
Advanced laboratory techniques. Selected experiments from many fields of modern physics. Emphasis on self-study of the phenomena, data analysis, and presentation in report form.
Prerequisite: PHYS375.
Restriction: Must be in a major within CMNS-Physics department.

PHYS406 Experimental Research Development (3 Credits)
Part I of a two-semester, independent, experimental research project supervised by a faculty mentor. The student participates significantly in experimental design, set-up, and collection and analysis of real, physical data, including the evaluation of experimental uncertainties. The student maintains a lab notebook and completes an end-of-semester progress report.
Prerequisite: PHYS375.
Restriction: Permsission of CMNS-Physics department.
Additional Information: The student is expected to work on the project for approximately 9 hours per week in a standard semester or a total of 135 hours in a non-standard semester. PHYS406 may not be used to satisfy an advanced physics elective.

PHYS407 Undergraduate Experimental Research (3 Credits)
Students develop and complete an independent, experimental research project with a professor in the Physics Department. The project should be a continuation of work done in PHYS499A. To obtain permission, students must submit a proposal describing the experimental work to be completed and this proposal must be approved by their faculty mentor, the associate chair for undergraduate education and the chair of the laboratory committee. Students must maintain a lab notebook, give an oral presentation and complete a written report on their research that includes data and error analysis.
Prerequisite: PHYS499 and PHYS375; and permission of CMNS-Physics department.
Restriction: Must be in a major within CMNS-Physics department; and senior standing.

PHYS410 Classical Mechanics (3 Credits)
Classical mechanics at a more advanced level, including its Newtonian, Lagrangian, and Hamiltonian formulations. Conservative and non-conservative forces; the calculus of variations; central force motion; non-inertial frames of reference; rigid body rotations; and selected advanced topics.
Prerequisite: PHYS265 and PHYS273; and (MATH243 or MATH246).

PHYS411 Intermediate Electricity and Magnetism (4 Credits)
Foundations of electromagnetic theory, with extensive applications of the methods. Thorough treatment of wave properties of solutions of Maxwell's equations.
Prerequisite: PHYS313 or PHYS373.

PHYS412 Intermediate Electricity and Magnetism I (4 Credits)
The first semester of a two semester course with emphasis on electrostatics and magnetostatics, boundary value problems, fields in matter, electrodynamics, and Maxwell's equations.
Prerequisite: PHYS373.

PHYS413 Electricity and Magnetism II (3 Credits)
The second semester of a two semester course with emphasis on electromagnetic waves, potentials and gauge invariance, and relativistic electrodynamics
Prerequisite: PHYS313 or PHYS412.
Credit Only Granted for: PHYS411 or PHYS413.

PHYS420 Principles of Modern Physics (3 Credits)
A survey of atomic and nuclear phenomena and the main trends in modern physics. Appropriate for students in engineering and other physical sciences.
Prerequisite: MATH246. And PHYS271 and PHYS270; or PHYS273.
Credit Only Granted for: PHYS371 or PHYS420.

PHYS428 Physics Capstone Research (2-4 Credits)
Individual, focused research under the guidance of a faculty member. Discussion, presentations and, if appropriate, research group projects involved. Student must submit final research paper for completion of course. Paper may also serve as thesis required for High Honors in Physics. Not intended as a general "reading course" (see PHYS499).
Restriction: Must be in a major within CMNS-Physics department; and senior standing or higher; and permission of instructor.
Repeatable to: 4 credits.

PHYS429 Atomic and Nuclear Physics Laboratory (3 Credits)
Classical experiments in atomic physics and more sophisticated experiments in current techniques in nuclear physics.
Prerequisite: PHYS405.

PHYS431 Introduction to Solid State Physics (3 Credits)
Classes of materials; introduction to basic ideal and real materials' behavior including mechanical, electrical, thermal, magnetic and optical responses of materials; importance of microstructure in behavior. One application of each property will be discussed in detail.
Prerequisite: PHYS271, PHYS270, and MATH241.
Cross-listed with: ENMA460.
Restriction: Junior standing or higher; and must be in the Engineering: Materials Science program or Physics program.
Credit Only Granted for: ENMA460 or PHYS431.
Additional Information: Materials Engineering students take ENMA460 and Physics students take PHYS431.

PHYS441 Topics in Nuclear and Particle Physics (3 Credits)
A survey of concepts in particle and nuclear physics, with a topical emphasis on the impact of the Weak Interaction and the discovery of Parity Violation.
Prerequisite: PHYS401 or PHYS402.
Corequisite: PHYS402.

PHYS444 Computing Beyond the Standard Model of Particle Physics (3 Credits)
An exploration of the computing languages and techniques used to analyze large data sets in Large Hadron Collider physics with some discussion of applications in unrelated fields.
Prerequisite: PHYS371 and PHYS373; or permission of instructor.

PHYS456 Making Physics Experiments (3 Credits)
Laboratory course emphasizing practical skills used for making Physics experiments within the broader context of the maker movement and the maker culture. Design, fabrication, hands-on skills, repair, and safety. Practical skills not otherwise covered in traditional coursework (e.g.: carpentry, electronics disassembly/assembly, soldering, etc.).
Prerequisite: PHYS276; or permission of instructor.
Restriction: Permission of Physics Department.
Credit Only Granted for: PHYS499X or PHYS456.
Formerly: PHYS499X.

PHYS457 Introduction to Quantum Computing (3 Credits)
An introduction to the concept of a quantum computer, including algorithms that outperform classical computation and methods for performing quantum computation reliably in the presence of noise. As this is a multidisciplinary subject, the course will cover basic concepts in theoretical computer science and physics in addition to introducing core quantum computing topics.
Prerequisite: 1 course with a minimum grade of C- from (MATH240, PHYS274); and 1 course with a minimum grade of C- from (CMSC351, PHYS373).
Restriction: Permission of CMNS-Physics department; or permission of CMNS-Computer Science department. Cross-listed with CMSC4 57.
Credit Only Granted for: PHYS457 or CMSC457. Additional infor mation: No previous background in quantum mechanics is required.

PHYS467 Introduction to Quantum Technology (3 Credits)
Investigates the basic concepts/building blocks of quantum computers, quantum key distribution, quantum networks, and quantum sensors. Examines what is needed to form a working qubit and different hardware platforms that implement them (for example, trapped ions, superconducting microwave circuits, color centers, and neutral atoms.) Conceptual and computational familiarity with complex numbers, vector spaces, bases, matrices, eigenvectors, and eigenvalues will be assumed, as well as quantum states/wave functions, and quantum measurement. Familiarity with spin-1/2 systems, and Pauli matrices is highly recommended.
Prerequisite: MATH141 and MATH240 or equivalent; and one of the following: PHYS360, PHYS401, PHYS457, or ENEE491; or permission of instructor.
Cross-listed with: ENEE492.
Credit Only Granted for: PHYS467 or ENEE492.

PHYS474 Computational Physics (3 Credits)
Introduction to computational physics. Overview of some of the most widely used methods of computational physics and computational methods, including data analysis and statistical methods, visualization, numerical solutions of ordinary and partial differential equations (classical equations of motion, Poisson's equation, time independent and time dependent Schrodinger equations) and Monte Carlo simulations. In addition to giving the students a basic working knowledge of these particular techniques, the goal is to make them proficient in scientific computing and programming in general, so that they will be prepared to tackle other computational and data analysis problems that they may encounter in the future. This course will use the programming language Python.
Prerequisite: PHYS373; and (PHYS165, CMSC106, or CMSC131).
Recommended: PHYS401 (strongly recommended).
Additional Information: Students will need a laptop for this course to run specific software; however, arrangements will be made for those who need them. Students will need to load the Python 3 language on your computer, which will be done in the first week of class. The class will use the "Anaconda" environment/distribution, which is available for Mac/Windows/Linux. Contact the department for more information.

PHYS476 Introduction to Applied Machine Learning (3 Credits)
Introduces machine learning techniques that are becoming pertinent in the technology industry. Focus on hands-on work using popular high-level libraries. Students are expected to have a background in functional programming, linear algebra, calculus, and mathematical modeling.
Prerequisite: PHYS165, PHYS274, and PHYS276; or interested students with backgrounds in functional programming, linear algebra and statistics, should contact the instructors to request permission.

PHYS485 Electronic Circuits (3 Credits)
Theory and application to experimental physics of modern semiconductor analog and digital circuits. Emphasis on understanding passive and active elements in practical circuits. Topics span the range from simple transistor circuits to microcomputers.
Prerequisite: PHYS272 and PHYS276.
Restriction: Must be in a major within CMNS-Physics department.

PHYS487 Computerized Instrumentation (3 Credits)
Concentration on computer interfaces to measurement devices. Includes a review of basic electronic circuits and measurement devices. Extensive work with arduinos, making use of a variety of measurement probes. Includes introduction to the C++ programming language, the Segger development environment, and real-time operating systems (RTOS) used in advanced physics experiments.
Prerequisite: PHYS276 or Permission of Instructor.
Restriction: Departmental Permission.

PHYS499 Special Problems in Physics (1-16 Credits)
Research or special study. Credit according to work done.

PLCY - Public Policy

PLCY100 Foundations of Public Policy (3 Credits)
A survey course, focusing on public policy institutions and analytical issues as well as on overview of key public policy problems. Students will be introduced to public policy as a discipline, with a brief overview of the actors and institutions involved in the process, and familiarize themselves with the kinds of problems typically requiring public action. The course will examine these problems from a multijurisdictional and multisectoral perspective. Specific policy areas examined include education policy, health policy, economic and budgetary policy, criminal justice policy, environmental policy, and national and homeland security policy. The course should permit students to have broad foundational exposure to the field that will give them a solid base for more advanced courses.

PLCY101 Great Thinkers on Public Policy (3 Credits)
Great ideas in public policy, such as equality, efficiency, sovereignty, liberty, bureaucracy, democracy and security are explored through the lens of great thinkers. An introduction to the intellectual foundations of public policy, from ancient theories on collective public action through the more contemporary development of public policy as a discipline. This may start as early as the ancient Greek philosophers and their views on public action through contemporary classics of public policy. At the conclusion of the course, students will have read classic works in the field and will master the key themes that have dominated the intellectual debates about public policy over its history. Emphasis will be on the interdisciplinary foundations of public policy, through examining core disciplinary contributions from economics, political science, management, philosophy, and other relevant disciplines.

PLCY201 Public Leaders and Active Citizens (3 Credits)
Aims to inspire, teach and engage students in the theory and practice of public leadership from the local to the national to the global level. Students will learn and apply diverse approaches to leadership in a multicultural society while developing an understanding of key frameworks and practices necessary to foster collective action across private, public, and nonprofit sectors. This course will allow students to become informed citizens able to reason critically and persuasively about public matters Students will also explore and assess their own personal values, beliefs, and purpose as they develop their leadership potential.
Credit Only Granted for: PLCY201 or PUAF201.
Formerly: PUAF201.

PLCY203 Liberty and Justice for All: Ethics and Moral Issues in Public Policy (3 Credits)
Students will broaden their understanding of the moral dimensions of public policy as well as their own individual moral perspective. Discussions will include the ideal of a just society, and the place of liberty and equality in it, while focusing on contemporary theories of ethics and justice. It will develop students' appreciation of the ethical challenges unique to the public service sector while building their skills in ethical analysis and decision-making. We will explore the increasing ethical challenges in a world in which technology, global risks, and societal developments are accelerating faster than our understanding can keep pace. A framework for ethical decision-making underpins the course.

PLCY213 Foundations of Nonprofit Leadership and Social Innovation (3 Credits)
Through discussions of contemporary trends, challenges and issues, this course provides an introduction to the nonprofit and NGO sectors, social innovation, and the leadership and management skills required to achieve social impact. The course will explore the history, theories, and roles of philanthropy, the nonprofit sector, and social innovation in societies and cultures. Students will be able to demonstrate an understanding of the process and principles of social entrepreneurship and social innovation. Additionally, the course will introduce students to topics in leadership, social innovation, resource development, community mobilization through networks, the role of policy-making in creating change, project management, and overall strategies for achieving social impact. The course will include mini hands-on learning experiences that allow them to apply key learning outcomes.

PLCY214 Leading and Investing in Social Change: Re-defining and Experimenting with Philanthropy (3 Credits)
Defines philanthropy as an exploration of how one develops a vision of the public good and then deploys resources (including donations, volunteers, and voluntary associations) to achieve an impact.
Credit Only Granted for: PLCY214, PUAF214 or PUAF359I.
Formerly: PUAF359I, PUAF214.

PLCY215 Innovation and Social Change: Creating Change for Good (3 Credits)
A team-based, highly interactive and dynamic course that provides an opportunity for students to generate solutions to a wide range of problems facing many communities today. Students in the iGIVE Program will deepen their understanding of entrepreneurship and innovation practices by creating and implementing projects or ventures that address an issue of their choosing while learning topics such as communications, project management, teamwork, leadership, fundraising, project sustainability and next steps in social change.
Credit Only Granted for: PLCY215 or PUAF215.
Formerly: PUAF215.

PLCY240 Ethical, Policy and Social Implications of Science and Technology (3 Credits)
Asks students to think about how society should manage complexity, transformation, and uncertainty with an eye on developing a broader sense of ethics and social responsibility. Introduces analytical frameworks, concepts, and data collection techniques that interdisciplinary scholars use to map relationships among science, technology and society and generate important questions about the future of society.
Cross-listed with: ENES240.
Restriction: Must be in the Science, Technology, Ethics and Policy minor.
Credit Only Granted for: ENES240 or PLCY240.

PLCY288 Introduction to Public Policy Topics (1-3 Credits)
Introductory-level special topics focusing on a Public Policy problem or issue area.
Repeatable to: 6 credits if content differs.

PLCY300 Governance: Collective Action in the Public Interest (3 Credits)
Examination of societal responses to public problems, including actions by government, non-profit and private sector actors, as well as civil society. Students will examine the roles of these various actors, as well as the nature of civic responsibility. The course will examine the various stages of the policy process, asking the following questions: How does something get defined as a problem that requires a public policy response? How do we think about what the options are for this response, and how do we choose among them? What are the factors that contribute to successful policy implementation? How do we evaluate the success of public policies? These questionswill be addressed using examples of current public policy problems, and students will be expected to engage in individual and collaborative work to design responses to those problems.
Prerequisite: PLCY100.
Restriction: Must be in a major in PLCY-School of Public Policy.

PLCY301 Sustainability (3 Credits)
Designed for students whose academic majors would be enhanced by the complementary study of a widely shared but hard-to-operationalize aspiration: that present choices should preserve or improve future options rather than foreclose or degrade them. How should we understand sustainability? How might we achieve it? How would we know if we had achieved it? And how could sustainability activists of a rising generation lead by example?
Cross-listed with: AGNR301.
Credit Only Granted for: AGNR301, PUAF301, or PLCY301.
Formerly: PUAF301.

PLCY302 Examining Pluralism in Public Policy (3 Credits)
Understanding pluralism and how groups and individuals coexist in society is an essential part of the public policy process. This course will examine the ways in which the diverse experiences of race, gender, ethnicity, class, orientation, identity, and religion impact the understanding of and equitable delivery of public policy. The examination of how identity development shapes our understanding of society and influences the decision-making process is central to students' shaping policy that is truly for the people. This course will equip students with the skills needed to analyze pluralism and draw conclusions about the application of various theories to public policy issues.
Credit Only Granted for: PLCY302 or PUAF302.
Formerly: PUAF302.

PLCY303 Public Economics Raising and Spending the People's Money (3 Credits)
Applied course in public finance, including introductions to resource mobilization (including taxation), macroeconomic policy, key public expenditure policies, and government budgetary processes and politics. The course will build on the foundations from ECON 202 to address the specific application of public finance principles to solving public problems. The course will focus on the principles of welfare economics (including market failure), economic principles as applied to particular spending programs and tax choices, and issues and institutions involved in the allocation and management of resources both at a national and subnational level. The focus of the course is on these issues from both a domestic and global perspective.
Prerequisite: ECON200.
Restriction: Must be in a major in PLCY-School of Public Policy.

PLCY304 Evaluating Evidence: Finding Truth in Numbers (4 Credits)
Enables students to understand the research done by others with a sufficiently skeptical eye to allow them to determine whether the findings of the research are valid given the assumptions made and methods used. This will involve, in part, thinking about the various problems in research design or conduct that could lead to faulty conclusions. It will also involve being able to differentiate between credible sources of information and those that are not objective. At the conclusion of the course, students should be able to differentiate objective evidence from political argumentation.
Prerequisite: STAT100.
Restriction: Must be in a major in PLCY-School of Public Policy.

PLCY306 Public Policy Analysis in Action (3 Credits)
Utilizes our unique location in the Washington, D.C. region to create a laboratory within which to analyze local, regional, national and international policy problems. Students will be put into teams and assigned to real and timely policy cases. The course will include meetings and field trips with local leaders in the field, ideally connected to the cases. Student will then expand and apply their use of policy analysis and evaluation skills to define those problems, analyze alternative responses, devise appropriate strategies for implementation, and evaluate the success of the proposed policy and implementation. The course will conclude with team presentations to local leaders and faculty. This distinctive course will serve to prepare students for their client-based senior capstone course.
Restriction: Must have earned a minimum of 60 credits; and must be in a major in PLCY-School of Public Policy.

PLCY309 Internship in Political Institutions: State and Local (3-6 Credits)
Offers students supervised internship placements in state and local political or public policy organizations.
Prerequisite: Permission of PLCY-School of Public Policy.
Repeatable to: 12 credits if content differs.
Formerly: PUAF349 and PLCY349.

PLCY310 Nonprofit Leadership and Social Innovation in Action (3 Credits)
Furthers students understanding of topics in leadership, social innovation, resource development, community mobilization through networks, and the role of policy making in creating change. This course will further students understanding of the creation and leadership of nonprofits, social ventures, governance and boards; strategic planning and partnerships; advocacy and public policy processes; community outreach; working in teams, effective communications, and cross-sector approaches to scaling up social impact.
Prerequisite: PLCY 213.

PLCY311 Women in Leadership (3 Credits)
Examines the role of women in the leadership process including the participation of women as activists, voters, advocates, public leaders and as agents of change through various avenues including, among others, public service (elected and appointed), the media, community service, political organizations, and the nonprofit sector.
Credit Only Granted for: PUAF311, PLCY311 or PUAF359W.
Formerly: PUAF359W.

PLCY313 Advocacy in the American Political System (3 Credits)
Introduces students to the creation of law through the legislative process with a special focus on the Maryland General Assembly.
Credit Only Granted for: PUAF313, PLCY313 or PUAF359C.
Formerly: PUAF359C.

PLCY359 Contemporary Issues in Political Leadership and Participation (3 Credits)
Special topics in political leadership and participation.
Prerequisite: Permission of PLCY-School of Public Policy.
Repeatable to: 9 credits if content differs.
Credit Only Granted for: PLCY359 or PUAF359.
Formerly: PUAF359.

PLCY380 Innovation and Social Change: Do Good Now (3 Credits)
Introduces students to the concept of social innovation while exploring the many mechanisms for achieving social impact. It is team-based, highly interactive and dynamic, and provides an opportunity for students to generate solutions to a wide range of problems facing many communities today. Deepens the students understanding of entrepreneurship and innovation practices by guiding them through the creation and implementation process as applied to a project idea of their choice.
Credit Only Granted for: ARHU380, BSOS388B, PLCY388D, or PLCY380.
Formerly: PLCY388D.

PLCY386 Experiential Learning (1-6 Credits)
Prerequisite: Permission of PLCY-School of Public Policy.
Credit Only Granted for: PLCY386 or PUAF386.
Formerly: PUAF386.

PLCY388 Special Topics in Public Policy (1-3 Credits)
Advanced special topics focusing on an interdisciplinary topic related to Public Policy.
Prerequisite: Permission of PLCY-School of Public Policy.
Restriction: Sophomore standing or higher.
Repeatable to: 6 credits if content differs.
Credit Only Granted for: PLCY388 or PUAF388.
Formerly: PUAF388.

PLCY396 Fellowship Program in Political Leadership (2-6 Credits)
Individual instruction course.
Prerequisite: Permission of PLCY-School of Public Policy.
Restriction: Must be enrolled in the full-time fellowship program.
Credit Only Granted for: PLCY396 or PUAF396.
Formerly: PUAF396.

PLCY398 Fellowship Program in Political Leadership (3-6 Credits)
Prerequisite: Permission of PLCY-School of Public Policy.
Restriction: Must be enrolled in the full-time fellowship program.
Repeatable to: 12 credits if content differs.
Credit Only Granted for: PLCY398 or PUAF398.
Formerly: PUAF398.

PLCY399 Directed Study in Public Policy (1-6 Credits)
Guidance for the advanced student capable on interdisciplinary study on special projects under the supervision of faculty.
Prerequisite: Permission of PLCY-School of Public Policy.
Repeatable to: 12 credits if content differs.
Credit Only Granted for: PLCY399 or PUAF399.
Formerly: PUAF399.

PLCY400 Senior Capstone (3 Credits)
Public Policy students will take the skills and knowledge gained through their curriculum and apply them through their senior capstone course. Students will work in teams on problems and issues presented by outside clients, with guidance from faculty facilitators and interaction with the clients. Each team will work with the client to address a particular problem and produce a mutually agreed upon outcome. These hands on projects will advance students' understanding of the analytical, leadership, communication and problem solving skills necessary to address today's policy problems while allowing them to gain professional level experience that could contribute to their success in their post UMD endeavors. The course will conclude with an event that allows all teams to present their findings and outcomes to their client while being evaluated by faculty and public policy professionals.
Prerequisite: PLCY306.
Restriction: Permission of PLCY-School of Public Policy; and must have earned a minimum of 90 credits.

PLCY401 Contemporary Issues in Public Policy (3 Credits)
An integrative course that allows policy students to explore the complexities of the policy-making process from the perspective of specific policy topics. They will learn about and discuss subject- based issues in a seminar format led by faculty and policy experts. Site visits to federal agencies, guest speakers, and round table sessions ensure that students receive a variety of real-world perspectives on their chosen policy area.
Restriction: Must have earned a minimum of 90 credits.

PLCY488 Advanced Special Topics in Public Policy (3 Credits)
Advanced special topics for upper level students focusing on topics related to Public Policy.
Restriction: Must have earned a minimum of 60 credits.
Repeatable to: 6 credits if content differs.

PLSC - Plant Sciences

PLSC110 Introduction to Horticulture (3 Credits)
An overview to the art and science of horticulture. Relationships between plant science and plant production, the use of horticultural plants and plant stress as influenced by cultural practices.
Credit Only Granted for: PLSC100 or PLSC110 and PLSC111.
Formerly: PLSC100.

PLSC111 Introduction to Horticulture Laboratory (1 Credit)
The goal of this course is to expand your knowledge of the growth and development of horticultural crops. An integrated understanding of horticulture will come from laboratory experiments and field trips. This course is designed to complement lecture material from PLSC 110.
Corequisite: PLSC110 or permission of the Department of Plant Science and Landscape Architecture.

PLSC112 Introductory Crop Science (3 Credits)
Major crop plants including: anatomy, physiology, morphology, history, use, adaptation, culture, improvement and economic importance.
Credit Only Granted for: PLSC101 or PLSC112 and PLSC113.
Formerly: PLSC101.

PLSC113 Introductory Crop Science Laboratory (1 Credit)
An introduction to the growth, function and identification of agronomic crops and the environment in which they are produced. This course is designed to complement the lecture material from PLSC 112.
Corequisite: PLSC112 or permission of the Department of Plant Science and Landscape Architecture.
Credit Only Granted for: PLSC101 or PLSC112 and PLSC113.

PLSC115 How Safe is Your Salad? The Microbiological Safety of Fresh produce (3 Credits)
As food is produced in larger quantities and made to travel longer distances, keeping our food safe in this day and age is an ever growing challenge. This course will focus on the question of what it takes to grow and maintain safe fruits and vegetables, as food travels along the path from the farm to your fork. Food safety of fresh produce will be discussed from the public health, agricultural, economical and policy perspectives.
Recommended: PLSC110 and PLSC111; or (PLSC112 and PLSC113); or BSCI105; or (BSCI170 and BSCI171).

PLSC120 Mushrooms and Molds (3 Credits)
Students will learn about how essential fungi (mushroom, molds, and alikes) are in this world and how they affect our daily lives. They will learn how fungi interact with animals, plants and other organisms in positive and negative ways. Also, they will study the importance of fungi in biotechnology and food and how they have shaped many societies throughout history.

PLSC125 Feeding Ten Billion by 2050: Food Security and Crop Protection (3 Credits)
A big question concerning global food security is "how can we feed 10 billion people in 2050?" This course will stimulate creative thinking about possible solutions particularly from the crop production perspective. The instructors will introduce the concept of food security and different dimensions of this complex issue, identify major constraints to food security, and discuss scientific approaches that may be used to meet the grand challenge. Emphasis will be placed on topical and controversial issues such as the impact of climate change, biofuel production and GM crops on food security, and novel strategies that can improve food security.

PLSC130 Did Yeast Create Civilization? (3 Credits)
Did yeast create civilization? Fermented foods have played a major role in the transition from nomadic to settled agrarian societies, the establishment of social and religious customs, the expansion of empires, and modern economies. To what extent are our past and current attitudes towards fermented foods rooted in historical and cultural imprints? Explore the central role of fermentation in human history and culture, the basic microbiological processes underlying fermentation processes, and the processes used to produce and distribute fermented foods. Find out how the fruits, grains, and dairy products used to produce fermented foods are grown and selected. Students will learn about the development and modern use of fermented dairy products, pickles, bread, tea, chocolate, wine, beer, distilled liquors, and pharmaceutical/ manufactured products.
Recommended: CHEM103, CHEM131, CHEM135, or CHEM146.
Cross-listed with: AGST130.
Credit Only Granted for: AGST130 or PLSC130.

PLSC201 Plant Structure and Function (3 Credits)
The relationship between plant structure and function and how the environment influences changes in the physiology to control higher plant growth and development are studied. Survey of the organizational structure of plants from the molecular to the morphological level and gain an understanding of how the plant functions to grow and reproduce.
Prerequisite: Minimum grade of C- in PLSC110 and PLSC111 or (PLSC112 and PLSC113); and minimum grade of C- in CHEM131 and CHEM132.

PLSC203 Plants, Genes and Biotechnology (3 Credits)
An overview of the history, genetics, and reproductive mechanisms for agronomic and horticultural plants that examines mechanisms of genetic improvement ranging from traditional plant breeding to tissue culture and genetic engineering. Social and political issues such as germplasm preservation and international intellectual property rights will also be discussed.
Prerequisite: Minimum grade of C- in BSCI103; or minimum grade of C- in BSCI170 and BSCI171.

PLSC205 Introduction to Turf Science and Management (4 Credits)
Principals of turf science and culture with emphasis on turfgrass anatomy, morphology, and physiology. The role of cultural interventions in achieving specific aesthetic and functional objectives is examined for multiple turf uses. Pest problems typically encountered in turfgrass management are also covered.
Credit Only Granted for: PLSC205 or PLSC305.
Formerly: PLSC305.

PLSC206 Plant Structure and Function Laboratory (1 Credit)
Provide hands-on experience for students who are concurrently taking PLSC201 or other interested students and train students how to collect quantitative data from plants and perform statistical analysis (i.e., Student's t-test and chi-square analysis) of the data using Excel. The students will also have opportunity to access and analyze biological datasets from publicly available sources to build phylogenetic trees and explore gene expression patterns.
Prerequisite: PLSC201 or permission of instructor .

PLSC226 Plant Diversity (4 Credits)
Students will learn to identify and understand relationships among major plant families of northeastern North America, especially of the Mid-Atlantic region, through lecture, field, and laboratory study. Characteristics and biogeography of and evolutionary relationships among families are emphasized in lecture. These characteristics will be woven together to provide understanding of the ecological and evolutionary drivers of plant diversity and the history of the field. Sight identification of families, genera, and species and keying skills are stressed in field and laboratory sessions.
Prerequisite: Minimum grade of C- in PLSC201 and PLSC206; or permission of instructor.

PLSC244 Herbaceous Plants (3 Credits)
Herbaceous plants are integral components of residential and commercial landscapes. Students will become familiar with 250 annual and perennial plants. The emphasis will be on plant management requirements and seasonal variation in the landscape.
Prerequisite: PLSC110 and PLSC111; or (PLSC112 and PLSC113).
Credit Only Granted for: PLSC244 or PLSC489A.
Formerly: PLSC489A.

PLSC250 Lawns in the Landscape: Environmental Hero or Villain? (3 Credits)
Examination of the lawn as an element in the anthropogenic landscape and its influence on global warming, regional air and water quality, ecological diversity, mammalian pesticide exposure and consumptive water use. Demographic and socioeconomic factors are examined in the context of being predictors of landscape aesthetic desires and lawn management behaviors. Policies that incentivize lawn alternatives or changes in lawn management behavior are discussed.Cross-listed with ENSP250.
Credit Only Granted for: ENSP250 or PLSC250.

PLSC251 Financial Applications for the Green Industry (3 Credits)
An introduction to the application of financial principles in the Green Industry business sector. Accounting, pricing, and estimating, job cost management and production efficiency are discussed and manifested in Scholarship In Practice exercises, case studies and a business plan project.
Credit Only Granted for: PLSC361 or PLSC251.
Formerly: PLSC361.

PLSC253 Woody Plants for Mid-Atlantic Landscapes I (3 Credits)
A field and laboratory study of trees, shrubs, and vines used in ornamental plantings. Major emphasis is placed on native deciduous plant materials.
Prerequisite: Minimum grade of C- in PLSC110 and PLSC111.

PLSC254 Woody Plants for Mid-Atlantic Landscape II (3 Credits)
A field and laboratory study of trees, shrubs, and vines used in ornamental plantings. Major emphasis is placed on introduced and evergreen plant materials.
Prerequisite: Minimum grade of C- in PLSC110, PLSC111, and PLSC253; or permission of instructor.

PLSC271 Plant Propagation (3 Credits)
A study of the principles and practices in the propagation of plants.
Prerequisite: Minimum grade of C- in PLSC110 and PLSC111; or minimum grade of C- in BSCI170 and BSCI171.

PLSC272 Principles of Arboriculture (3 Credits)
The establishment and maintenance of healthy trees in an urban setting will be studied. Lectures will focus on the environmental constraints to tree development in the city, and the role of physiological processes in regulating tree vigor. Laboratory exercises will cover the unique aspects of urban soils, tree valuation procedures, pruning and training, and supervised climbing.
Cross-listed with: INAG272.
Credit Only Granted for: INAG272 or PLSC272.

PLSC303 Global Food Systems (3 Credits)
An introduction to the global food system and its agricultural, biophysical, and socioeconomic domains. The problems and potentials for increasing world food supply based on current agronomic knowledge. Emphasis on international aspects of food crop production as its interrelationships with people and the environment in the developing world.
Prerequisite: Minimum grade of C- in BSCI170 and BSCI171; or students who have taken courses with comparable content may contact the department.

PLSC388 Honors Thesis Research (3-6 Credits)
Undergraduate honors thesis research conducted under the direction of an AGNR faculty member in partial fulfillment of the requirements of the College of AGNR Honors Program. The thesis will be defended to a faculty committee.
Prerequisite: Must be in the AGNR Honors Program.
Repeatable to: 6 credits if content differs.

PLSC389 Internship (1-3 Credits)
Credit will be given for practical work carried out at one or more horticultural, agronomic, landscape industries, botanical gardens, or arboreta under formally arranged internships.
Prerequisite: Permission of AGNR-Plant Science & Landscape Architecture department.
Restriction: Junior standing or higher. And must be in Plant Sciences program; or must be in Landscape Architecture program.
Repeatable to: 6 credits if content differs.

PLSC398 Seminar (1 Credit)
Oral presentation of the results of investigational work by reviewing recent scientific literature in the various phases of natural resource sciences, horticulture and agronomy.
Restriction: Senior standing. And must be in Landscape Architecture program; or must be in Plant Sciences program.

PLSC399 Special Problems in Plant Science (1-3 Credits)
Research projects in Plant Science including field, greenhouse, laboratory, studio and/or library studies. Research is conducted under the direction of a faculty member.
Prerequisite: Permission of the instructor .
Repeatable to: 6 credits.

PLSC400 Plant Physiology (4 Credits)
An in-depth examination of the unique molecular and physiological principles necessary to understand how plants grow and respond to the environment at the cellular and organismal levels. Plants evolved unique metabolism and survival strategies, so students should be prepared to enter a world that may be new to them.
Prerequisite: Minimum grade of C- in BSCI170 and BSCI171; or minimum grade of C- in PLSC201; and minimum grade of C- in CHEM231 and CHEM232; or minimum grade of C- in CHEM237.
Cross-listed with: BSCI442.
Credit Only Granted for: BSCI442 or PLSC400.

PLSC401 Pest Management Strategies for Turfgrass (3 Credits)
Interdisciplinary view of weed, disease, and insect management from an agronomy perspective. Plant responses to pest invasion, diagnosis of pest-related disorders, and principles of weed, disease and insect suppression through cultural, biological and chemical means are discussed.
Prerequisite: PLSC305.

PLSC402 Sports Turf Management (3 Credits)
Sports turf management, including design, construction, soil modification, soil cultural techniques, pesticide use, fertilization, and specialized equipment.
Prerequisite: PLSC305 and PLSC401.

PLSC404 Plant and Fungal Metabolism (3 Credits)
An introduction to biochemistry and metabolism in plants and fungi, covering the biosynthesis of compartments in plant and fungal cells with biological molecules such as nucleic acids, amino acids and lipids. Energy flow processes such as photosynthesis, carbohydrate metabolism and respiration, are covered in the course. The integration of different pathways in plant development and responses to environmental stresses will be discussed.
Prerequisite: Minimum grade of C- in BSCI170 and BSCI171; or minimum grade of C- in PLSC201 and PLSC206.

PLSC405 Agroecology (3 Credits)
How can we balance the multiple, and often competing objectives of sustainable agricultural intensification to promote both agricultural productivity and human wellbeing? The answer to this question requires a transdisciplinary, agroecological perspective. Agroecology is the integrative study of the ecology of the entire food system, encompassing ecological, economic and social dimensions. This course is designed to introduce various topics in agroecology (e.g. organic agriculture, biodiversity, the Farm Bill). We will take an ecosystems approach to the study of agriculture that will enable students to analyze the environmental, social, and economic interconnections within various types of agricultural systems locally and globally.
Prerequisite: At least one course in ecology with a minimum grade of C-; or permission of instructor.
Recommended: BSCI361 or PLSC471; or any BSCI or ENST ecology course.
Credit Only Granted for: PLSC405 or PLSC605.
Additional Information: Class will be held on campus, with two day-long field trips to local farms.

PLSC410 Commercial Turf Maintenance and Production (3 Credits)
Agronomic programs and practices used in hydroseeding, commercial lawn care, sod production and seed production. Current environmental, regulatory and business management issues confronting the turfgrass industry.
Prerequisite: PLSC305; or permission of AGNR-Plant Science & Landscape Architecture department.

PLSC411 Plant Genetics (3 Credits)
An introduction to genetic principles and technologies in plants, centered on linking phenotype to genotype. Topics include Mendelian inheritance of single and complex traits, epigenetics, population genetics and plant breeding. Examples on creating and mapping genetic mutations in both model plants and non-model crops are discussed. Current genetic and genomic approaches are highlighted, such as genome engineering and reprogramming, TILLING, and genome-wide association mapping.
Prerequisite: Minimum grade of C- in BSCI170 and BSCI171.

PLSC420 Principles of Plant Pathology (4 Credits)
An introduction to the causal agents, nature and management of plant diseases with particular attention paid to economically important diseases of horticultural and agronomic crops.
Prerequisite: Minimum grade of C- in CHEM131, CHEM132, and PLSC201; or students who have taken courses with comparable content may contact the department.

PLSC425 Green Roofs and Urban Sustainability (1 Credit)
The integration of disciplines associated with sustainability issues. Topics range from plant science to design to policy, all of which can contribute to improving the urban environment.
Credit Only Granted for: PLSC425 or PLSC489V.
Formerly: PLSC489V.

PLSC427 Plant Microbe Associations (3 Credits)
Encompasses advanced investigation and analyses of the ecology, physiology and molecular genetics of plant-microbe interactions along with their impact on crop production, ecological and food production systems.
Credit Only Granted for: PLSC489W or PLSC427.
Formerly: PLSC489W.

PLSC430 Water and Nutrient Planning for the Nursery and Greenhouse Industry (3 Credits)
Skills will be developed in order to write nutrient management plans for the greenhouse and nursery industry. Completion of this course can lead to professional certification in nutrient planning by the State of Maryland after MDA examinations are passed.
Prerequisite: Minimum grade of C- in CHEM131 and CHEM132; or minimum grade of C- in ENST200; or permission of instructor.
Recommended: PLSC432.

PLSC432 Greenhouse Crop Production (3 Credits)
The commercial production and marketing of ornamental plant crops under greenhouse, plastic houses and out-of-door conditions. Integrating an understanding of basic plant physiological mechanisms into the decision-making process for the design, construction, maintenance and day-to-day management of greenhouse operations.
Prerequisite: Minimum grade of C- in PLSC201 .

PLSC433 Technology of Fruit and Vegetable Production (4 Credits)
A critical analysis of research work and application of the principles of plant physiology, chemistry and botany to practical problems in the commercial production of fruit and vegetable crops.
Prerequisite: Minimum grade of C- in PLSC201, PLSC271, and ENST200; or students who have taken courses with comparable content may contact the department.
Restriction: Junior standing or higher.

PLSC434 The Quest for Color (3 Credits)
Finding sources of color in nature has motivated mindful inquiry and technical innovation across cultures. Yet, the quest for new colors has been both a result of and an excuse for colonization, appropriation of indigenous knowledge, and enslavement. When natural dyestuffs were largely replaced by synthetic dyes derived from coal tar in the late 1800s, color development posed new ecological and cultural challenges. In spite of these threats, practitioners worldwide have maintained their traditional methods without exploitation or petroleum products. This course integrates the history and chemistry of dye materials from plants and insects with hands-on practice in sustainable color creation. Students will hone the practical skills needed to source and process foraged dye materials, and apply them sustainably to fibers. Via this scientific process students will gain insight into the benefits of a naturally sourced approach to color and to life.
Credit Only Granted for: PLSC434 or HONR218R.
Formerly: HONR218R.

PLSC452 Environmental Horticulture (3 Credits)
Environmental horticulture principles used in the establishment and maintenance of plant materials in residential and commercial landscapes will be addressed. The effect of soil conditions, environmental factors, and commercial practices will be discussed in relation to the growth and development of newly-installed plant materials. Field diagnostics will be used by students to assess significant problems of plant decline. Environmental sustainability will be combined with current commercial practices of storm water management, nutrient management, and irrigation management to achieve an integrated approach to plant management.
Prerequisite: Minimum grade of C- in PLSC110 and PLSC111; or minimum grade of C- in PLSC112 and PLSC113; and minimum grade of C- in PLSC253 and PLSC254.

PLSC453 Weed Science (3 Credits)
Weed identification, ecology, and control (cultural, mechanical, biological, and chemical methods).

PLSC460 Application of Knowledge in Plant Sciences (3 Credits)
A capstone course based on interactions with plant science professionals and student-led class discussions. Students will apply their knowledge and experience to practical issues in the discipline, further develop critical thinking ability, and enhance their communication, teamwork, and professional skills. Topics will include nutrient management, integrated pest management, plant interactions with urban and rural ecosystems, planning of public grounds, plant biotechnology, and teaching skills.
Prerequisite: Minimum grade of C- in PLSC110 and PLSC111; or minimum grade of C- in PLSC112 and PLSC113; or minimum grade of C- in PLSC201; or permission of instructor.
Recommended: ENGL393 and ENST200; and (PLSC389 or PLSC399).
Restriction: Senior standing or higher.

PLSC461 Cultural Management of Nursery and Greenhouse Systems: Substrates (1 Credit)
One of three 1-credit modules (PLSC461, PLSC462 and PLSC464)covering the management techniques used in the intensive culture of plants in commercial operations. Specifically, this module covers the composition, handling, physical and chemical properties of substrates and how they should be managed to maximize plant growth.
Credit Only Granted for: PLSC461 or PLSC489T.
Formerly: PLSC489T.
Additional Information: Course material is delivered primarily online, but a four hour face-to-face lecture/lab will be held at the end of the module. PLSC461, PLSC462 and PLSC464 will be taught sequentially during the semester.

PLSC462 Cultural Management of Nursery and Greenhouse Systems; Irrigation (1 Credit)
One of three 1-credit modules (PLSC461, PLSC462 and PLSC464) covering the management techniques used in the intensive culture of plants in commercial operations. Specifically, this module covers water quantity and quality issues, water supply (basic hydraulics), irrigation system design and irrigation system evaluation (performance) to maximize water application efficiency.
Credit Only Granted for: PLSC462 or PLSC489W.
Formerly: PLSC489W.
Additional Information: Course material is delivered primarily online, but a four hour face-to-face lecture/lab will be held at the end of the module. PLSC 461, 462 and 464 will be taught sequentially during the semester.

PLSC464 Cultural Management of Nursery and Greenhouse Systems: Nutrients (1 Credit)
One of three 1-credit modules (PLSC461, PLSC462 and PLSC464) covering the management techniques used in the intensive culture of plants in commercial operations. Specifically, this module covers the basics of fertilization, different fertilization strategies and nutrient use and efficiency, to optimize nutrient application practices in intensive plant production systems.
Credit Only Granted for: PLSC464 or PLSC489Z.
Formerly: PLSC489Z.
Additional Information: Course material is delivered primarily online, but a four hour face-to-face lecture/lab will be held at the end of the module. PLSC 461, 462 and 464 will be taught sequentially during the semester.

PLSC471 Forest Ecology (3 Credits)
An understanding of the forest ecosystem, its structure and the processes that regulate it are provided. It also considers changes that occur in forests, the interaction of environment and genetics in promoting ecosystem sustainability, and the role of human influences on urban forest ecosystems.
Prerequisite: Minimum grade of C- in PLSC201; or minimum grade of C- in BSCI160 and BSCI161; or minimum grade of C- in BSCI106.

PLSC472 Capstone-Urban Forest Project Management (3 Credits)
Students will synthesize the ideas and information learned from their studies in urban forestry. Working in teams, students will complete projects involving real-world issues. Student projects will use scientific, social, political and ethical considerations in an interdisciplinary approach to provide solutions to their problem.
Prerequisite: Minimum grade of C- in ENST200, PLSC272, and PLSC471.
Restriction: Senior standing or higher; and must be in a major within AGNR-Plant Science & Landscape Architecture department.

PLSC473 Woody Plant Physiology (3 Credits)
Concentration is placed on physiological processes important to woody plant growth and development. Emphasis will be placed on current concepts and theories of how woody plants grow and develop, and the critical assessment of current research in woody plant physiology. Course readings will include textbook assignments and selected papers from the current scientific literature.
Prerequisite: Minimum grade of C- in PLSC400 or BSCI442; or minimum grade of C- in PLSC201 and PLSC206; or students who have taken courses with comparable content may contact the department.

PLSC476 Data Wrangling and Visualization Using R (3 Credits)
Through a combination of lecture, hands-on demos, quizzes, and increasingly independent coding exercises and a project, you will learn the fundamentals of using the R statistical language. You will gain experience getting your data into R, wrangling it into the form needed for your chosen analysis, visualizing the data, getting your results out of those analyses, and documenting your workflow greater scientific community. Instead of focusing on a few specific types of analyses, you will learn basic skills and general principles that you can use to analyze data for your field.
Credit Only Granted for: PLSC489R or PLSC476 .
Formerly: PLSC489R.

PLSC480 Urban Ecology (3 Credits)
Cities are rapidly increasing in number and size across the globe, transforming local ecosystems. This course examines urban environments as coupled social-ecological systems at multiple scales, from streets and parks to urban landscapes patterns and global patterns of biodiversity. Ecological principles are applied in the urban context, including habitats, biodiversity, ecological processes, and ecosystem services of urban environments, with applications to problems in urban land management, decision-making and design.
Prerequisite: Minimum grade of C- in PLSC471, ENST360, BSCI363, or BSCI160; or other coursework/experience considered for instructor permission.
Additional Information: Class will be held both on campus and at other locations such as the U.S. Botanic Garden, local parks, and urban and suburban locations off campus.

PLSC481 Vegetation Assessment and Analysis (2 Credits)
An overview of vegetation assessment through the collection of data in the field (e.g. plots and transects) and the analysis of existing data and remotely detected images (e.g. Aerial photographs and GIS layers).
Prerequisite: PLSC110 and PLSC111; or (BSCI160 and BSCI161); or permission of instructor.
Recommended: PLSC201, BSCI360, PLSC226, or PLSC471.

PLSC489 Special Topics in Plant Science (1-3 Credits)
A lecture and or laboratory series organized to study a selected phase of Plant Science not covered by existing courses. Credit according to time scheduled and organization of the course.
Repeatable to: 6 credits if content differs.

PORT - Portuguese

PORT103 Intensive Elementary Portuguese (4 Credits)
Covers speaking, reading, writing, listening, and culture of Portuguese-speaking world.
Prerequisite: Must have appropriate World Language Placement (WLP) score.
Credit Only Granted for: PORT103 or PORT104.
Formerly: PORT104.

PORT104 Intensive Elementary Portuguese (4 Credits)
Covers speaking, reading, writing, listening, and culture of Portuguese-speaking world.
Prerequisite: Must have appropriate World Language Placement (WLP) score.
Credit Only Granted for: PORT103 or PORT104.
Formerly: PORT104.

PORT203 Intensive Intermediate Portuguese (4 Credits)
Covers speaking, reading, writing, listening, and culture of Portuguese-speaking world.
Prerequisite: PORT103 or PORT104; or must have appropriate World Language Placement (WLP) score.
Credit Only Granted for: PORT203 or PORT204.
Formerly: PORT204.

PORT204 Intensive Intermediate Portuguese (4 Credits)
Covers speaking, reading, writing, listening, and culture of Portuguese-speaking world.
Prerequisite: PORT103 or PORT104; or must have appropriate World Language Placement (WLP) score.
Credit Only Granted for: PORT203 or PORT204.
Formerly: PORT204.

PORT205 Intermediate Reading and Conversation in Portuguese I (3 Credits)
Development of spoken Portuguese at intermediate level based on written assignments and exams on readings in a variety of genres.
Prerequisite: PORT203; or permission of ARHU-School of Languages, Literatures, and Cultures department.

PORT207 Intermediate Reading and Conversation in Portuguese II (3 Credits)
Advanced practice of oral and written Portuguese. Reading and discussions of texts, review of grammar, and vocabulary practice.
Prerequisite: PORT205; or students who have taken courses with comparable content may contact the department.
Restriction: Not open to native/fluent speakers of Portuguese.

PORT222 Cannibals, Savages and Carnivalization: The Making of Brazilian National Culture (3 Credits)
Introduction to the main concepts, cultural movements, and ideas that have shaped Brazilian modern culture. Exploring some of the ways in which cultural cannibalism, savagery, and carnivalization have been deployed as symbolic frameworks in the construction of a national identity through analyses of film, literature, music and visual arts. Taught in English.

PORT224 Brazilian Culture (3 Credits)
Pluralistic formation of Brazilian culture, based on European, African and Indian contributions. Lectures, discussions, slides, video, and film presentations. Taught in English.

PORT228 Selected Topics in Latin American Literature and Society (3-6 Credits)
Variable cultural studies topics on literature and society in contemporary Latin America. Taught in English.
Cross-listed with: SPAN228.
Repeatable to: 6 credits if content differs.
Credit Only Granted for: PORT228 or SPAN228.

PORT229 Selected Topics in Latin American Culture (1-3 Credits)
Varied topics in Latin America culture.
Repeatable to: 9 credits if content differs.

PORT230 Brazilian Portuguese through Film (3 Credits)
Intermediate practice of oral and written Portuguese through discussion of Brazilian movies, along with grammar review and vocabulary exercises. Taught in Portuguese.
Prerequisite: PORT205; or permission of ARHU-School of Languages, Literatures, and Cultures department.

PORT234 Issues in Latin American and Caribbean Studies I (3 Credits)
Interdisciplinary study of major issues in Latin America and the Caribbean, including Latin America's cultural mosaic, migration and urbanization. Democratization and the role of religions. Taught in English.
Cross-listed with: LACS234, SPAN234.
Credit Only Granted for: LASC234, PORT234, SPAN234, or LACS234.
Formerly: LASC234.

PORT235 Issues in Latin American and Caribbean Studies II (3 Credits)
Major issues shaping Latin American and Caribbean societies including the changing constructions of race, ethnicity, gender and class as well as expressions of popular cultures and revolutionary practices. Taught in English.
Cross-listed with: LACS235, SPAN235.
Credit Only Granted for: LASC235, PORT235, SPAN235, or LACS235.
Formerly: LASC235.

PORT269 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

PORT320 Survey of Portuguese Literature (3 Credits)
Portuguese poetry, fiction and drama from the Twelfth Century to the present. Taught in English.

PORT332 Brazilian Cinema (3 Credits)
Brazilian films from the late 1950s to the present with a special view to the relationship between cinema, society, historical dates, and social changes in Brazil. Taught in English.
Cross-listed with: CINE332.
Credit Only Granted for: PORT332, CINE332, or FILM332.
Formerly: FILM332.

PORT369 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

PORT386 Experiential Learning (3-6 Credits)
Restriction: Permission of ARHU-School of Languages, Literatures, and Cultures department; and junior standing or higher.

PORT388 Special Topics in Brazilian Studies (3 Credits)
Exposes students to textual, visual and aural products to explore how Brazil has been shaped from within and abroad. Focuses on the broad meaning and impact on Brazilian culture and social formation. Taught in English.
Repeatable to: 6 credits if content differs.

PORT399 Independent Study in Portuguese (1-3 Credits)
Specific readings in literature under the supervision of a faculty member of the department.
Prerequisite: Permission of ARHU-School of Languages, Literatures, and Cultures department.
Repeatable to: 3 credits.

PORT405 Portuguese for Spanish Speakers (3 Credits)
Intensive basic grammar, reading and auditory comprehension. Native or acquired fluency in Spanish required.
Restriction: Must have native or acquired fluency in Spanish.

PORT408 Special Topics in Portuguese Literature (3 Credits)
Major themes and literary developments from the late 18th century to the present.
Repeatable to: 6 credits if content differs.

PORT409 Special Topics in Brazilian Literature (3-6 Credits)
Major themes and literary development from the late eighteenth century to the present. Specific topic to be announced each time the course is offered.

PORT410 Tropical Dreams: Nature and Art in Brazil (3 Credits)
Ideas, images, and representations of the tropics have historically portrayed them as exotic, lush, underdeveloped, and resource-rich places. This course interrogates how concepts of tropicality and nature have influenced the culture, politics, and society of a particular country: Brazil. We examine how nature, a key concept in tropicality, has been represented and understood in different terms throughout history and how these representations have informed environmental discourses and attitudes. Furthermore, we critically analyze how racialized notions of the tropics that shaped structures of oppression have been constructed, perpetuated, and contested. Our objects of analysis will consist of artistic depictions of the tropical world in addition to films, music, literature, and critical thought.
Credit Only Granted for: PORT409A, SPAN609A, LACS448Y, or PORT410.
Formerly: PORT409A.

PORT478 Themes and Movements of Luso-Brazilian Literature in Translation (3 Credits)
A study of specific themes and movements either in Portuguese or Brazilian literature, as announced. Designed for students for whom the literatures would be inaccessible in Portuguese.
Repeatable to: 6 credits if content differs.

PORT480 Machado de Assis (3 Credits)
Fiction of Machado de Assis covering his romantic and realistic periods.
Prerequisite: Permission of ARHU-School of Languages, Literatures, and Cultures department.

PSYC - Psychology

PSYC100 Introduction to Psychology (3 Credits)
A basic introductory course intended to bring the student into contact with the major problems confronting psychology and the more important attempts at their solution.

PSYC123 The Psychology of Getting Hired (1 Credit)
Designed to introduce students to the science behind the hiring process and to prepare individuals with the academic and practical training required. Together we will explore psychological principles that influence the selection process and how individuals can apply them for the competitive edge that makes others Fear the Turtle!
Restriction: Must not be in a Robert H. Smith School of Business degree program.
Additional Information: Cannot be used in place of BMGT367 toward a degree program in the Robert H. Smith School of Business.

PSYC138 Special Topics in Study Abroad I (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

PSYC200 Statistical Methods in Psychology (3 Credits)
A basic introduction to quantitative methods used in psychological research.
Prerequisite: PSYC100; and 1 course with a minimum grade of C- from (STAT100, MATH107, MATH111, MATH120, MATH130, MATH136, or MATH140).

PSYC202 Introduction to Neuroscience (3 Credits)
In an evolutionary sense, the job of the nervous system is to produce, control, and coordinate behaviors that help an animal survive and reproduce. Neuroscience is the study of how the nervous system does that. Provides a broad introduction to neuroscience, always keeping the behavioral consequences in view.
Prerequisite: Minimum grade of C- in BSCI170 and BSCI171.
Cross-listed with: NEUR200.
Credit Only Granted for: PSYC309U, NEUR200, PSYC202 or PSYC301.
Formerly: PSYC309U.

PSYC210 Personality and Temperament: Developmental Origins, Brain Bases, and Clinical Implications (3 Credits)
What is known about what makes each of us unique? How do these differences contribute to enduring differences in health & wealth? We will review recent research in humans and non-humans aimed at understanding the psychological & biological mechanisms underlying stable individual differences in personality. We will discuss the phylogenetic and ontogenetic origins of temperament, measurement issues, fundamental dimensions of personality across the lifespan, neurobiological substrates of temperament/personality, mechanisms contributing to stability and change, implications for psychopathology, & broader implications for public/macroeconomic policy.
Prerequisite: PSYC100.
Restriction: Must be in Psychology program.

PSYC221 Social Psychology (3 Credits)
The influence of social factors on the individual and on interpersonal behavior. Includes topics such as conformity, attitude change, personal perception, interpersonal attraction, and group behavior.
Prerequisite: PSYC100.

PSYC232 Psychology of Racism (3 Credits)
Explores the causes, correlates, and consequences of racial prejudice in the United States and other national contexts. Using lecture, readings, and discussion, we will examine the psychological theory and research on what processes underlie and motivate racial prejudice; how racial prejudice is experienced by its targets; how racial prejudice pervades our culture and social institutions; and how racial prejudice is learned, maintained, and ultimately changed.
Restriction: Limited to Psychology majors; if spaces remain in the course, will open to all majors.

PSYC234 Living the Good Life: The Psychology of Happiness (3 Credits)
What are the secrets to living a happy life? Can happiness be found within the context of war, a depressed economy, violence and other major stressors? Are some people born happier than others? This course will teach you the scientific process that psychologists use to study happiness (and related emotional variables) and give you the opportunity to practice applying that process in a number of ways. You will learn how we (a) gather and critically evaluate research findings in the existing literature, (b) integrate those findings into coherent and testable theories, (c) design and conduct valid scientific research that tests those theories and extends our knowledge, and (d) effectively communicate our theories and findings to a wide range of audiences. The result of the process is a more accurate and objective understanding of happiness, and that is what prepares you to apply your scientific understanding to explain and influence a wide range of outcomes.
Credit Only Granted for: PSYC234 or PSYC289D.
Formerly: PSYC289D.

PSYC237 Psychology of Evil (3 Credits)
Why is there evil in the world? Are some born evil, or do social, environmental and cultural forces create evil? What makes otherwise good people do evil things? The scientific study of evil epitomizes the fundamental challenge that psychology faces in dissecting the role of biology (nature) and the social context (nurture).
Credit Only Granted for: PSYC237 or PSYC289E.
Formerly: PSYC289E.

PSYC238 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

PSYC262 Asian American Psychology (3 Credits)
An overview of how socio-cultural influences impact the development and psychological health of Asian Americans. Other topics include how minority group status, adaptation and identity development influence various aspects of psychological functioning; the role of historic systematic racism; and, how the COVID-19 pandemic has negatively impacted Asian Americans. Students develop a deeper understanding of the role of stereotypes and racism, acculturation, racial identity development, cultural values, gender socialization, behavioral norms, family roles, stressors and social support systems on the mental health, well-being and health of Asian Americans.
Cross-listed with: AAST262.
Credit Only Granted for: PSYC262, AAST262 or PSYC489Z.
Formerly: PSYC489Z.

PSYC300 Research Methods in Psychology Laboratory (4 Credits)
A general introduction and overview to the fundamental theoretical, conceptual, and practical issues in psychological research in both the laboratory and the field.
Prerequisite: PSYC200.
Restriction: Must be in Psychology program or Social Data Science - Psychology Track.

PSYC302 Fundamentals of Learning and Behavior (3 Credits)
Overview of the fundamental types of learning that occur without formal instruction. The course covers fundamentals of classical and instrumental conditioning as studied in a variety of species in addition to more modern theories of learning. We will then explore how these principles influence diverse processes such as memory, attention, extinction, categorization, motivation, and in some cases, how they are implemented in the brain and disrupted in disease.
Prerequisite: PSYC100, BSCI170, and BSCI171.
Restriction: Restricted to psychology majors during the registration period; all other majors will be placed on a hold file.

PSYC303 Professional Development for Psychology Majors (1 Credit)
An investigation of various career and graduate school opportunities available to psychology majors. Students will learn about a wide range of career fields, will learn how to utilize available resources to pursue career goals, and will take steps to advance their professional identity and development.
Prerequisite: PSYC123; or permission from the instructor with a completed resume.
Restriction: Must have earned a minimum of 60 credits; and must be in the Psychology major.

PSYC304 Biological Psychology (3 Credits)
Biological Psychology is the study of the physiological basis of behavior. In this course, we will first cover the basic principles of brain organization and neural transmission. We will then introduce traditional and modern research techniques in the field of behavioral neuroscience. The last portion of the course focuses on specific topics including psychopharmacology, learning and memory, emotion, stress, drug of abuse, neurological disorders (e.g., Alzheimer's disease and Parkinson's disease) and schizophrenia.
Prerequisite: PSYC100, BSCI170 and BSCI171; or equivalent.
Credit Only Granted for: PSYC301 or PSYC304.
Formerly: PSYC301.

PSYC307 Collective Behavior and Decision Making in Human and Animal Groups (3 Credits)
Overview of the fundamental principles underlying the organization of animal societies, mathematical models describing these phenomena, and applications to human societies and decision-making. Students will engage in discussions of case studies, analyze and evaluate mathematical simulations, and apply what they have learned from animal groups to practice solving problems currently facing human society.
Prerequisite: NEUR200, PSYC304 or PSYC221.
Recommended: PSYC200 or equivalent statistics course.
Credit Only Granted for: PSYC207 or PSYC307.
Formerly: PSYC207.

PSYC309 Special Topics in Psychology (1-3 Credits)
Topics of current interest which represent extensions of or additions to topics covered in more general topical courses.
Prerequisite: PSYC100.
Restriction: Must be in Psychology program; and sophomore standing or higher.
Repeatable to: 6 credits if content differs.

PSYC310 Perception (3 Credits)
A survey of phenomena and theories of perception including psychological, anatomical, physiological, and environmental factors important in determining how we perceive the world. Historical background will be examined as well as contemporary research.
Prerequisite: PSYC100. And CHEM103; or PHYS121; or (BSCI160 and BSCI161); or (BSCI170 and BSCI171); or BSCI105; or BSCI106.
Restriction: Must not have completed PSYC410.

PSYC330 Child Psychopathology (3 Credits)
Etiology, diagnosis, prevention and treatment of emotional disorders of childhood and adolescence.
Prerequisite: PSYC100.
Restriction: Must be in Psychology program or Social Data Science - Psychology Track.
Credit Only Granted for: PSYC309B or PSYC330.
Formerly: PSYC309B.

PSYC332 Psychology of Human Sexuality (3 Credits)
A survey of historical and contemporary psychological views on a wide variety of sexual behaviors; theory and research bearing on the relationship between life span psychological development, psychological functioning, interpersonal processes and sexual behaviors; political and social issues involved in current sexual norms and practices.
Prerequisite: PSYC100.

PSYC334 Psychology of Interpersonal Relationships (3 Credits)
Research, theory and their practical applications pertaining to the development, maintenance and dissolution of human relationships. Processes critical to successful relating (e.g., communication, bargaining, conflict resolution), and issues associated with troubled dyadic relations with equal partners (e.g., jealousy, spouse abuse, divorce).
Prerequisite: PSYC100.

PSYC336 Psychology of Women (3 Credits)
A study of the biology, life span development, socialization, personality, mental health, and special issues of women.
Prerequisite: PSYC100.
Cross-listed with: WGSS336.
Credit Only Granted for: PSYC336, WMST336 or WGSS 336.
Formerly: WMST336.

PSYC338 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

PSYC341 Introduction to Memory and Cognition (3 Credits)
An introduction to the basic concepts of cognitive psychology, the scientific study of mental processes. Topics will include perception, attention, memory, reasoning, and language, with an emphasis on how findings from cognitive psychology can inform real-life thinking (e.g., memory strategies for studying, pitfalls of multitasking, and how/why our memories can fail us).
Prerequisite: PSYC200 and PSYC300.

PSYC344 Health Psychology (3 Credits)
An examination of how psychological, biological, and social factors impact physical health and well-being. Students will use the biopsychosocial model to analyze topics including stress, health disparities, pain, addiction, disease states (e.g., cardiovascular disease, diabetes, cancer), and primary prevention.
Prerequisite: PSYC100; or permission of instructor.
Restriction: Must be in the Psychology program; or must be in a major within the School of Public Health; or permission of instructor.
Credit Only Granted for: PSYC489U or PSYC344.
Formerly: PSYC489U.

PSYC346 Death, Dying and Grieving: What Future Healthcare Professionals Need to Know (3 Credits)
What do future healthcare professionals need to know about death dying and grieving? Theories and research related to death, dying and grieving, interventions with the dying and grieving, and communication about end-of-life issues in healthcare settings will be examined. Topics include trajectories of common illnesses, palliative and hospice care, ethical and multicultural issues, suicide, models of grieving, post-traumatic growth, and self-reflection regarding values, biases, and beliefs regarding death. This class will prepare students for careers as psychologists, physicians, nurses, or social workers as they will obtain foundational knowledge, engage in self-reflection, and practice communication skills that can be used with future clients or patients who are dying or grieving the dying/death of a loved one.
Prerequisite: PSYC100.

PSYC353 Adult Psychopathology (3 Credits)
The nature, diagnosis, etiology, and treatment of mental disorders.
Prerequisite: PSYC100.
Restriction: Must be in Psychology program or Social Data Science - Psychology Track.

PSYC354 Multicultural Psychology in the U.S. (3 Credits)
What are the psychological implications of racism, sexism, homophobia and other structures of inequality in the United States? How do socio-cultural privilege and oppression influence individual and group thoughts, feelings, and behaviors? This course will take a current events focus to understanding multicultural and social justice issues in psychology with an emphasis on self-reflection, mental health, cross-cultural communication, and strategies for social change.
Prerequisite: PSYC100.

PSYC355 Developmental Psychology (3 Credits)
Survey of research and theory of psychological development from conception through childhood, stressing physiological, conceptual and behavioral changes, and the social and biological context in which individuals develop.
Prerequisite: PSYC100.

PSYC361 Survey of Industrial and Organizational Psychology (3 Credits)
A general survey of the field of industrial organizational psychology including such topics as organizational entry (recruitment, selection, training, socialization); organizational psychology (motivation, leadership, job attitudes); productivity in the workplace (performance appraisal, absenteeism, turnover), and the role that the larger environment plays in influencing work behaviors and work attitudes.
Prerequisite: PSYC100.

PSYC362 Introduction to Negotiation (3 Credits)
Overview of the field of negotiation and the social-psychological and contextual factors that facilitate and inhibit successful negotiation agreements. Students will engage in a variety of negotiation exercises individually and as a team.
Restriction: Must be in Psychology program or Social Data Science - Psychology Track.

PSYC381 Community Interventions: Domestic Violence I (3 Credits)
Study theories and research related to the dynamics and effects of intimate partner violence on women and children. Learn about community resources and interventions for survivors of domestic violence. Examine theoretical writings and research findings regarding the effects of gender, culture, race/ethnicity, and socioeconomic status on the experiences of intimate partner violence survivors and their children.
Prerequisite: PSYC100.
Restriction: Preference given to majors in Human Development, Psychology, and Women, Gender and Sexuality Studies.
Credit Only Granted for: PSYC318D, PSYC381, WMST498A or WGSS498A.
Formerly: PSYC318D.
Additional Information: Students who successfully complete this course may be eligible to enroll in PSYC319 - a service learning class in which students volunteer in the community to work with children who have experienced domestic violence and/or homelessness.

PSYC389 Experiential Learning (1-6 Credits)
Internship in psychology-related fields.
Prerequisite: PSYC100; and permission of BSOS-Psychology department; and 9 credits in PSYC courses.
Restriction: Minimum cumulative GPA of 2.8; and must have earned a minimum 3.0 Psychology GPA.
Repeatable to: 9 credits.

PSYC391 Community Interventions: Domestic Violence II - Service Learning (3 Credits)
Apply knowledge gained in PSYC318D/PSYC318 to provide interventions to individuals who have experienced domestic violence. Critical analysis of interventions and related research. Ethical and cultural considerations in the provision of services are addressed.
Prerequisite: PSYC381 or PSYC318D.
Restriction: Preference given to majors in Psychology; Women, Gender, and Sexuality Studies; and Human Development; and permission of BSOS-Psychology department.
Credit Only Granted for: PSYC319D or PSYC391.
Formerly: PSYC319D.

PSYC401 Biological Bases of Behavior Laboratory (4 Credits)
Students will study some of the key concepts in neuroscience by combining behavioral experiments with electrode recordings from neurons controlling the behaviors. We will intensively examine concepts like creation of rhythmic behaviors (walking, flight), neurotransmitters' control of aggression, drug effects on synaptic activity, high-speed neural circuits for effective escape from predators, and CNS maps in the visual system for directing prey capture. Students will learn microsurgery and a broad range of neural recording techniques. We work with animals (invertebrates, cold-blooded vertebrates) every week. A strong biology background will be beneficial.
Prerequisite: PSYC300; and (PSYC202, NEUR200, or BSCI353).
Restriction: Permission of instructor; and must be in Psychology program; and must have earned a minimum of 85 credits.
Credit Only Granted for: PSYC401, NEUR405, BSCI455 or BSCI454.

PSYC403 Animal Behavior (3 Credits)
Reviews the theoretical framework underlying the study of animal behavior. The genetic, hormonal and physiological basis of behavior, and the relation to ecological and evolutionary processes will be discussed using examples that range from invertebrate animals to humans.
Prerequisite: PSYC202 or NEUR200.

PSYC404 Introduction to Behavioral Pharmacology (3 Credits)
Theoretical viewpoints on the interaction of drugs and behavior. Basic principles of pharmacology, the effects of drugs on various behaviors, experimental analysis of drug dependence and abuse, and neuropharmacology and behavior.
Prerequisite: PSYC202 or NEUR200.
Restriction: Must be in Psychology program.

PSYC406 Neuroethology (3 Credits)
A merger between the disciplines of neuroscience and ethology (animal behavior) studies the behavioral functions of nervous systems using a comparative and evolutionary approach. Students will learn how the nervous system controls behavioral patterns in a variety of different organisms ranging from insects to mammals.
Prerequisite: PSYC301, PSYC202 or NEUR200.
Restriction: Must be in Psychology program.

PSYC407 Behavioral Neurobiology Laboratory (4 Credits)
In this lab course, you will collect behavioral and physiological data in humans using classic behavioral paradigms, design models of neural circuits that can explain those behaviors, record neural activity from the roach, and write lab reports describing your results and how they relate to patients with psychiatric illnesses.
Prerequisite: PSYC300; and (PSYC202 or NEUR200).
Restriction: Must be in Psychology program; and must have earned a minimum of 85 credits.

PSYC409 Topics in Neurosciences Seminar (1 Credit)
Current research in neurosciences will be presented, read, and discussed. Emphasis will change each term.
Restriction: Permission of BSOS-Psychology department; and junior standing or higher.
Repeatable to: 4 credits if content differs.

PSYC411 Introduction to Functional Magnetic Resonance Imaging (3 Credits)
An introduction to functional magnetic resonance imaging (fMRI). Students will be taught about formulating testable hypotheses with fMRI, utilizing basic methods in fMRI studies, and understanding existing limitations of fMRI studies in the literature.
Prerequisite: PSYC200 and PSYC300; and (PSYC202 or NEUR200).
Restriction: Must be in a major within BSOS-Psychology department.
Credit Only Granted for: NACS728F or PSYC411.

PSYC413 Music Cognition (3 Credits)
Overview of the psychological foundations of musical behavior, focusing on underlying perceptual, cognitive, and neural mechanisms. Students will read and discuss primary behavioral and neuroscience research on how people perceive, remember, enjoy, and use music across the lifespan.
Prerequisite: PSYC300.
Credit Only Granted for: PSYC413 or PSYC489X.
Formerly: PSYC489X.

PSYC414 Science of Sleep and Biological Rhythms (3 Credits)
Sleep is a powerful, inescapable, misunderstood, and mysterious presence in our lives. The course will begin with a review of the basics of sleep and biological rhythms with a focus on the underlying neurobiology. The bulk of the semester will be in-depth discussions of topics in sleep and circadian rhythms primarily chosen by the students. A few examples: narcolepsy, sleep in primitive cultures, lucid dreaming, racial and cultural differences in sleep and sleep disorders, the biology of sleep and circadian rhythms during adolescence, CNS control of dreaming, sleep and states of consciousness, sleeping to remember vs. sleeping to forget, legal ramifications of parasomnias, e.g. sleepwalking, and the relationships between sleep deprivation and obesity.
Prerequisite: PSYC301, PSYC202, or NEUR200; or permission of instructor.
Restriction: Must be in a major within the BSOS-Psychology department; and restricted to psychology majors during the registration period.

PSYC416 Development of Attachment in Infancy and Childhood: Theory, Research, Methods, and Clinical Implications (3 Credits)
Overview of the development of attachment during infancy and childhood, examining theory, research methods, research findings, and clinical implications. Students will observe videos of attachment assessments, lead class discussion of readings, make class presentations, and complete writing assignments.
Prerequisite: PSYC355; or permission of instructor.
Restriction: Must be in a major within the BSOS-Psychology department.

PSYC417 Data Science for Psychology and Neuroscience Majors (4 Credits)
A large number of industry and academic jobs require basic programming and data analysis skills. This class represents an introduction to both. Students will learn to program in R and will briefly be introduced to Python, the two most popular programming languages for data science. Common constructs shared by a variety of procedural programming languages will be emphasized. Basic statistics and probability theory will be reviewed from a computational perspective, and more advanced topics introduced. During the course, students will simulate toy data sets which they will then analyze knowing how the data came about, as well as work with real data. The class is highly hands-on with a large number of in-class lab and homework projects. Expect to work a lot and move quickly. Because of the hands-on nature of the class, the overall focus is more on application and execution rather than theory. However, some theory is covered at a high level so that students are aware of why they are doing something, rather than mindlessly writing code.
Prerequisite: PSYC200 and PSYC300; and (MATH120, MATH130, or MATH140).
Credit Only Granted for: PSYC489D or PSYC417.
Formerly: PSYC489D.

PSYC420 Experimental Psychology: Social Psychology Laboratory (4 Credits)
A laboratory course to provide a basic understanding of experimental methods in social psychology and experience in conducting research on social processes.
Prerequisite: PSYC300 and PSYC221.
Restriction: Must be in Psychology program or Social Data Science - Psychology Track; and must have earned a minimum of 85 credits.

PSYC424 Communication and Persuasion (3 Credits)
Effect of social communication upon behavior and attitudes. Theory and research concerning attitude change and social influence.
Prerequisite: PSYC221 and PSYC200.

PSYC425 Psychology and Law (3 Credits)
An introduction to the intersection of psychology and the criminal justice system, known as the field of legal psychology. The material covered will span the course of the criminal justice process and examine each aspect from a psychological perspective beginning with profiling and moving on to eyewitness memory and judgements through perpetrator memories and interrogation techniques. These aspects will be evaluated with a research lens as well as an applied outlook.
Prerequisite: PSYC100, PSYC200, and PSYC300.
Restriction: Must be in Psychology program or Social Data Science - Psychology Track.
Credit Only Granted for: PSYC325 or PSYC425.

PSYC426 Psychology of Adolescents' Close Relationships: Parents, Peers, and Romantic Partners (3 Credits)
An examination of the development of close relationships during adolescence, including those with parents, peers, and romantic partners. We consider core developmental themes including nature and nurture, stability and change, and individual differences, and discuss theory, research, and clinical applications. Students gain observational skills through discussing extensive video examples of social interactions.
Prerequisite: PSYC355; or permission of the instructor.
Credit Only Granted for: PSYC426 or PSYC489B.
Formerly: PSYC489B.

PSYC431 Human and Animal Intelligence (3 Credits)
The study of intelligence touches upon a broad range of topics from cognition, animal behavior, philosophy, psychology, and linguistics. Through lectures, discussions, and critical evaluation of opposing arguments, we will investigate the construct of intelligence from an evolutionary perspective. An understanding of animal intelligence also has important applications for understanding cognition in general, the design of robotic controls, investigating human health, conserving endangered species, development of artificial intelligence, and assuring animal welfare.
Prerequisite: PSYC300.
Credit Only Granted for: PSYC431 or PSYC489R.
Formerly: PSYC489R.

PSYC432 Counseling Psychology: Theories, Research, and Practice (3 Credits)
Analysis of research and intervention strategies developed and used by counseling psychologists. Historical and current trends in content and methodology.
Prerequisite: PSYC200.

PSYC433 Basic Helping Skills: Research and Practice (4 Credits)
Theories and research regarding effective helping relationships, with a focus on applications to counseling and psychotherapy. Students will practice helping skills with each other and will conduct research projects evaluating their helping skills. Students should be willing to talk about personal issues in class. Attendance in labs is mandatory and contributes to the course grade; thus, students should only enroll in a lab section that they will be able to attend consistently.
Prerequisite: PSYC300.
Restriction: Must be in Psychology program; and must have earned a minimum of 85 credits; and must not have completed or be concurrently enrolled in EDCP 310.
Credit Only Granted for: EDCP210, EDCP310, or PSYC433.

PSYC435 Temperament, Personality, and Psychopathology (3 Credits)
An advanced review of cutting-edge research in humans and animals aimed at understanding the psychological and biological mechanisms underlying stable individual differences in temperament and personality (T&P) and determining their role in adult and child psychopathology, with a major focus on anxiety disorders, depression, and addiction. We will discuss the developmental origins of T&P, measurement issues, fundamental dimensions, heritability, relevance to psychopathology and intervention (treatment and prevention), and broader implications for public policy.
Prerequisite: PSYC200.

PSYC436 Introduction to Clinical Psychology: From Science to Practice (3 Credits)
Critical analysis of clinical psychology, with particular emphasis on current developments and trends.
Prerequisite: PSYC300.

PSYC437 The Assessment and Treatment of Addictive Behaviors (3 Credits)
Explores the current research in assessment and treatment of addictive behaviors. Topics may include addictions in the areas of alcohol, drugs, nicotine, gambling, and eating.
Prerequisite: PSYC100; and 9 credits in PSYC courses.

PSYC438 Special Topics in Study Abroad IV (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

PSYC440 Experimental Psychology: Cognitive Processes and Legal Applications (4 Credits)
A survey of the content, models, and methods in cognitive psychology with an emphasis on attention and encoding, recall, recognition, judgment, signal detection theory, and applying cognitive theories to situations in the legal system. Students integrate scientific theories with real-life legal situations. Course topics include research methodology in assessing and addressing cognitive mechanisms and how this understanding may help eyewitness and victim recall and recognition, perpetrator recall, assessing scientific theories of repression, and real life examples.
Prerequisite: PSYC100, PSYC200, PSYC300 and PSYC341.
Restriction: Must be in Psychology program or Social Data Science - Psychology Track; and must have earned a minimum of 85 credits.

PSYC442 Psychology of Language (3 Credits)
Introductory survey of the psychology of language, focusing on the cognitive processes that enable us to produce and understand language. Topics include speech perception, speech production, syntactic processing, language development, language disorders, and the brain bases of language.
Prerequisite: PSYC300 and PSYC341.
Restriction: Must be in Psychology program.

PSYC447 Diversity in Organizations (3 Credits)
Overview and active discussion of issues related to diversity and discrimination in organizations from several different perspectives, including: the person(s) being stigmatized, the person(s) doing the stigmatizing, the bystander(s) witnessing stigmatization of others, and the organization. Course readings address each of these perspectives, along with an introductory unit that outlines key concepts of diversity.
Prerequisite: PSYC300.
Credit Only Granted for: PSYC489E or PSYC447.
Formerly: PSYC489E.

PSYC450 Applying Psychology to the Workplace: Industrial Organizational Psychology Laboratory (4 Credits)
In this laboratory course, students use data analytic techniques, along with psychology theories and principles, to solve problems and provide recommendations to mock organizations. Along with learning theories in industrial-organizational psychology and statistical analysis, students will improve personal presentation skills that promote effective communication of information.
Prerequisite: PSYC300.

PSYC460 Psychological Foundations of Personnel Selection and Training (3 Credits)
An examination of issues and processes involved in the design and evaluation of personnel selection and training programs in a variety of organizational settings: job, person and organizational analysis; organizational choice; development of predictors; evaluation of instructional and training systems; criteria for performance evaluation, promotion and training.
Prerequisite: PSYC361 and PSYC200.

PSYC464 Psychology of Leaders in Work Organizations (3 Credits)
The psychological assumptions and implications of various theories of management and leadership. Selections and training; development of careers; influence processes; change of managerial behavior; and the impact of the larger environment, nature of product or service, and organization structure on managerial behavior.
Prerequisite: PSYC200 and PSYC361.

PSYC468 Field Experience and Special Assignments in Honors (1-3 Credits)
An individual experience arranged by the honors student and his or her supervisor. A proposal submitted to the honors faculty in the semester preceding registration for the course should state the activities anticipated and the method of evaluation.
Prerequisite: Must have permission of supervisor and honors faculty.
Restriction: Permission of BSOS-Psychology department.
Repeatable to: 6 credits.

PSYC469 Honors Thesis Proposal Preparation (3 Credits)
Development of honors thesis proposal by preliminary research and literature review. Presentation of formal proposal to the thesis committee.
Restriction: Permission of BSOS-Psychology department.
Repeatable to: 3 credits.

PSYC478 Independent Study in Psychology (1-3 Credits)
Restriction: Permission of BSOS-Psychology department; and must have earned a minimum of 9 credits in Psychology; and must have earned a minimum GPA of 3.0 in Psychology; and minimum cumulative GPA of 2.8.
Repeatable to: 9 credits.

PSYC479 Special Research Problems in Psychology (1-3 Credits)
Restriction: Permission of BSOS-Psychology department; and must have earned a minimum of 9 credits in Psychology; and must have earned a minimum GPA of 3.0 in Psychology; and minimum cumulative GPA of 2.8.
Repeatable to: 9 credits.

PSYC488 Advanced Psychology I (Honors) (3 Credits)
Seminar covering topics in sensation, perception, learning, and motivation.
Prerequisite: PSYC200.
Restriction: Permission of BSOS-Psychology department.

PSYC489 Advanced Special Topics in Psychology (3 Credits)
Treatment of a specialized topic in psychology.
Prerequisite: PSYC300.
Repeatable to: 9 credits if content differs.

PSYC498 Advanced Psychology II (Honors) (1 Credit)
Seminar covering topics of current interest in psychology.
Prerequisite: Permission of BSOS-Psychology department.
Repeatable to: 3 credits.

PSYC499 Honors Thesis Research (3 Credits)
Prerequisite: PSYC469; and must have permission of thesis advisor.

QMMS - Quantitative Methodology: Measurement and Statistics

QMMS410 Classroom Assessment (3 Credits)
Developing and using classroom assessments, including tests, performance assessments, rating scales, portfolios, observations and oral interactions; basic psychometric statistics; standard setting; grading; communicating assessment information; testing ethics; locating and evaluating measures; program evaluation and classroom research; assessments used for educational policy decisions.
Restriction: Junior standing or higher.
Formerly: EDMS410.

QMMS451 Applied Educational Statistics (3 Credits)
Introduction to statistical reasoning; location and dispersion measures; data analysis; regression and correlation; formation of hypotheses tests;
Restriction: Sophomore standing or higher.
Credit Only Granted for: EDMS451 or QMMS451.
Formerly: EDMS451.

QMMS489 Field Experiences in Measurement and Statistics (1-4 Credits)
Planned field experience in education-related activities. Credit not to be granted for experiences accrued prior to registration.
Restriction: Permission of EDUC-Human Development and Quantitative Methodology department.
Repeatable to: 4 credits.

QMMS498 Special Problems in Measurement and Statistics (1-3 Credits)
Available only to education majors who have formal plans for individual study of approved problems.
Restriction: Permission of EDUC-Human Development and Quantitative Methodology department.
Repeatable to: 6 credits.

RDEV - Real Estate Development

RDEV250 People, Planet, and Profit: Building Sustainable Places (3 Credits)
An introduction to the four disciplines represented in the School: architecture and urban design, community planning, historic preservation, and real estate development, that work to create a more sustainable environment for the future to create a more sustainable environment for the future using our interpretation of the quadruple bottom line: socio-cultural, economic, environmental, and design sustainability. Students will be provided with an understanding of the fundamental scholarship and processes of each of these disciplines and examine the intersections between them. Additionally, they will learn by applying the approaches of the four disciplines through a series of field studies.
Cross-listed with: ARCH271.
Credit Only Granted for: ARCH271 or RDEV250.

RDEV270 Tax and Accounting for Real Estate Development (3 Credits)
An understanding of key tax and accounting principles and how they impact real estate development for students in the minor in real estate development is the purpose of this course. This course is geared for science, arts and humanities students who otherwise in their major would not take an accounting course as part of their major.
Restriction: Must be in the Real Estate and the Built Environment Major or the Real Estate Development minor; and must have permission of ARCH-Real Estate Development; and must not be in a major in the Robert H. Smith School of Business; and must not have completed BMGT210, BMGT220, or BMGT221.

RDEV350 Real Estate Development: Introduction to Principles, Process, and Practice (3 Credits)
An introduction to the basic principles of real estate development: How real estate and communities get built and how value is created. The emphasis is on entrepreneurship and an experiential learning approach to the entrepreneurial real estate development process, principles, and practice.
Prerequisite: RDEV250 or ARCH271.
Restriction: Must be in the Real Estate and the Built Environment major or the Real Estate Development minor; and permission of ARCH-School of Architecture, Planning, & Preservation.
Credit Only Granted for: RDEV150 or RDEV350.
Formerly: RDEV150.

RDEV410 Legal Foundations of Real Estate (3 Credits)
Provides students with the chance to explore various legal topics related to real estate, including government regulation, rights of property owners, financing real estate purchases, protections for certain classes of people, elements of a real estate contract, title, insurance, taxation, rights of landlords and tenants, premises liability, urban planning, land use regulation, and environmental issues.
Prerequisite: RDEV250 and RDEV350.
Restriction: Must be in the Real Estate and the Built Environment major; and permission of ARCH-Real Estate Development; and must have earned a minimum 60 credits.

RDEV415 Principles, Process and Politics of Planning for Real Estate Development (3 Credits)
Designed to introduce and familiarize students with planning and zoning and the associated processes and requirements that impact the real property development process and products. It will look at the roles the community and politics play in shaping the built environment and the development process.
Prerequisite: RDEV250 and RDEV350.
Restriction: Must be in the Real Estate and Built Environment major; and permission of ARCH-Real Estate Development; and must have earned a minimum 60 credits.

RDEV440 Principles of Urban Design for Real Estate Professionals (3 Credits)
Introduces students to the design issues associated with development of the basic real property asset classes (office, retail, and residential) and the context driven forces that shape these different development types. Also introduces non-design students to the principles of visual literacy and the capacity of different property to support development in the effort to enhance a community.
Prerequisite: RDEV250 and RDEV350.
Restriction: Must be in Real Estate and Built Environment Major; and permission of ARCH-Real Estate Development.

RDEV445 Essentials of Architectural Design and Construction Management for Real Estate Professionals (3 Credits)
Essential terminology, process and substantive knowledge needed by development professionals to effectively move a project through the design and construction process; includes environmental and ethical considerations throughout the process.
Restriction: Must be in the Real Estate and the Built Environment major; and permission of ARCH-Real Estate Development.

RDEV450 Foundations of Real Estate Finance and Investment (3 Credits)
Real Estate Finance and Investment addresses how real estate value is established, the fundamental foundations of the time value of money, as well as more real estate specific applications of return on investment, net operating income, the components of a real estate sources and uses statement, sources of real estate equity and debt financing, commonly used debt ratios and equity returns in real estate, as well as concepts of sensitivity analysis and exit strategies.
Prerequisite: Must have completed RDEV270 or an approved accounting course with a grade of C- or better; and minimum grade of C- in RDEV350.
Restriction: Must be enrolled in RDEV Minor; and permission of ARCH-School of Architecture, Planning, & Preservation.

RDEV470 Real Estate Development Case Studies (3 Credits)
Real Estate Development Case Studies takes the principles learned in RDEV 250, 350 and 450 and takes an in depth look at a selection of local, national and international case studies in residential, commercial office, retail and hospital and critically analyzes the success and failure, short term and long term of the projects.
Prerequisite: RDEV450.
Restriction: Must be in the Real Estate and the Built Environment major or Real Estate Development minor; and permission of ARCH-Real Estate Development.

RDEV473 Real Estate Case Study Competition (3 Credits)
The Colvin Institute of Real Estate Development hosts a case study competition. The Colvin Case Study Challenge is a national intercollegiate real estate case study competition for full or part-time students enrolled in a college or a university real estate program (undergraduate or graduate or a university sanctioned real estate club/organization). The Challenge is to document a recent innovative real estate project within the team's metropolitan region. Unlike many other case competitions, this is a post-development report and documentation of a recently completed project (or project phase). The Challenge is designed to hone professional skills and reveal the knowledge base and understanding of markets, project valuation, finance, urban design and sustainability, entitlement processes and operational issues. This course prepares students to participate in the competition.
Prerequisite: RDEV250, RDEV350, and RDEV450.
Restriction: Must be in the Real Estate and the Built Environment major; and permission of ARCH-Real Estate Development.

RDEV478 Special Topics in Real Property Development (1-3 Credits)
RDEV 478 will address one or more current topics in real property with a focus in one or more of the areas of real estate development from planning and entitlements, to design and construction, to market analysis and valuation, to finance and investment, to operations and property management, or social and economic impacts.
Recommended: RDEV250, RDEV350, and RDEV450.
Restriction: Permission of ARCH-School of Architecture, Planning, & Preservation.
Repeatable to: 6 credits if content differs.

RELS - Religious Studies

RELS120 Islamic Civilization (3 Credits)
Introduction to society and culture in the Middle East since the advent of Islam: as a personal and communal faith; as artistic and literary highlights of intellectual and cultural life; and as the interplay between politics and religion under the major Islamic regimes.
Cross-listed with: HIST120.
Credit Only Granted for: HIST120 or RELS120.

RELS133 God Wills It! The Crusades in Medieval and Modern Perspectives (3 Credits)
An examination of the identities and convictions both of the Western Europeans who participated in the Crusades and of the Easterners (Muslim, Christian, and Jewish) whom they encountered in the Holy Land. Focuses on the era of the first four great Crusades, from about 1095 to 1215. Consideration of the cultural impact of these movements on both Western Europe and the Middle East.
Cross-listed with: HIST133.
Credit Only Granted for: HIST133, RELS133 or RELS289D.
Formerly: RELS289D.

RELS170 Ancient Myths and Modern Lives (3 Credits)
What are myths and why do we tell them? What powers do myths have? We will tackle these questions by looking at the enduring and fascinating myths from ancient Greece and Rome. In addition to studying how they shaped ancient societies, we will also look at their modern influence and reflect upon the power that myths still hold in our contemporary world. Taught in English.
Cross-listed with: CLAS170.
Credit Only Granted for: CLAS170 or RELS170.
Additional Information: This course cannot be taken for language credit.

RELS171 Is Judaism a Religion? (3 Credits)
Jewish identity can be framed in terms of ethnicity, culture, and religious practice, but also in terms of more contemporary social constructions including social action, political engagement, and intellectual pursuit. In the context of such diverse social and individual frames, what does it mean to identify Judaism as a religion? Attention to Jewish society in historical and global perspective will provide a backdrop for a particular focus on contemporary Jews in the United States and Israel.
Cross-listed with: JWST171.
Credit Only Granted for: JWST171 or RELS171.

RELS219 Special Topics in Religious Studies (3 Credits)
Special topics in Religious Studies
Repeatable to: 9 credits if content differs.

RELS219K Reformers, Radicals, and Revolutionaries: The Middle East in the Twentieth Century (3 Credits)
The 20th century was a period of dramatic changes in the Middle East. Within the global context of the two World Wars and the Cold War, countries in the region struggled with the effects of colonialism and painful processes of decolonization. The course offers a thematic-comparative approach to issues such as social and political reform, nationalism, the colonial experience, independence struggles, models of governance, political violence, and Islamism. Course lectures and the analysis and discussion of primary sources will lead students to understand that the peoples of the Middle East found answers to the challenges posed by Western dominance based on their specific historical, cultural and socio-economic circumstances.
Cross-listed with: HIST245.
Credit Only Granted for: RELS219K or HIST245.

RELS225 Religions of the Ancient Near East (3 Credits)
Introduction to ancient Near Eastern religious systems and mythology, from the third millennium BCE through the fourth century BCE. Particular emphasis on Mesopotamia and ancient Israel.
Cross-listed with: HIST219I, JWST225.
Credit Only Granted for: JWST225, HIST219I, RELS225, or RELS219A.
Formerly: RELS219A.

RELS230 Inventing Traditions: The Making of Rabbinic Judaism (3 Credits)
Introduces the dramatic literary and cultural (as well as political and demographic) innovations that reshaped Judaism in late antiquity. Examines the fundamental works and genres of rabbinic literature and the religious movement that produced them. Special emphasis on the rabbinic uses of "tradition" to enhance authority and legitimacy, and to foster group identity.
Cross-listed with: HIST281, JWST230.
Credit Only Granted for: HIST281, JWST230, RELS219C or RELS230.
Formerly: RELS219C.

RELS236 Philosophy of Religion (3 Credits)
A philosophical study of some of the main problems of religious thought: the nature of religious experience, the justification of religious belief, the conflicting claims of religion and science, and the relation between religion and morality.
Cross-listed with: PHIL236.
Credit Only Granted for: PHIL236 or RELS236.

RELS250 Fundamental Concepts of Judaism (3 Credits)
A conceptional introduction to Judaism, analyzing its fundamental concepts from both analytical and historical perspectives. Discussion of "normative" Judaism as well as other conceptions of Judaism. Topics include: God, the Jewish people, authority, ethics, the sacred and the profane, particularism and universalism.
Cross-listed with: JWST250, PHIL234.
Credit Only Granted for: JWST250, PHIL234, or RELS250.

RELS264 Introduction to the New Testament (3 Credits)
A historical and literary introduction to the New Testament focusing on the context of the authors and the development of earliest Christianity.

RELS269 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

RELS271 What is Religion? (3 Credits)
Draws upon examples from a wide variety of religious traditions to explore the question of what religion is and how to best understand it. Engagement with diverse approaches to religion including phenomenology and the study of "the sacred"; sociology and the study of religious communities; and questions of religious experience, ritual, and identity formation.
Credit Only Granted for: RELS289I or RELS271.
Formerly: RELS289I.

RELS273 Jesus, Mani, and Muhammad: The Dynamics of New Religious Movements (3 Credits)
We examine three significant ancient religious figures: Jesus (d. 30s CE), Mani (d. 276 CE), and Muhammad (d. 632). All three were founders of long-lasting religions that were part of a dramatic change in the society and religion of the ancient world. Special areas of focus: the biographies of these founding figures, and how we know them; a historical approach to religious founders; and the sociology of new religious movements.
Cross-listed with: HIST289T.
Credit Only Granted for: RELS273 or RELS289M or HIST289T.
Formerly: RELS289M.

RELS274 Jerusalem in Antiquity: The History of Sacred Space in a Holy City (3 Credits)
Examines the complex history of Jerusalem's status as a holy city, with a focus on constructions of sacred space in Judaism, Christianity, and Islam.
Cross-listed with: JWST274.
Credit Only Granted for: JWST274, RELS274, JWST289J or RELS289J.
Formerly: JWST289J, RELS289J.

RELS289 New Explorations in Religious Studies (3 Credits)
Investigation of critical and innovative responses in Religious Studies. Although the topic will vary, the course will encourage intellectual exploration by students of fundamental problems and critical methods.

RELS289C Jews, Christians, and Muslims in Medieval Spain: Tolerance, Oppression, and the Problematic Past (3 Credits)
For 800 years, medieval Spain was home to one of the most religiously diverse societies in European history. Despite frequent hostilities, the interactions of Spanish Jews, Christians, and Muslims produced a flowering of science, theology, and literature in an often remarkably tolerant climate. Students will learn how medieval Spanish people themselves experienced interreligious contact and conflict. They will also discover the modern pressures, prejudices, and ideals that have shaped historians interpretations of medieval Spain.
Cross-listed with: HIST289A.
Credit Only Granted for: HIST289A or RELS289C.

RELS319 Special Topics in Religious Studies (1-3 Credits)
Special topics in the study of religious history, literature, culture, and thought.
Repeatable to: 6 credits if content differs.

RELS340 Europe in the Making: The Early Medieval West (A.D. 300-1000) (3 Credits)
From one empire to another: Rome to Charlemagne. This period is approached as a crucible in which classical, Christian, and Germanic elements merged, yielding new experimental syntheses. This course will deal with issues of authority, cultural trends, and the formation of group solidarity.
Cross-listed with: HIST330.
Credit Only Granted for: HIST330 or RELS340.

RELS341 Europe in the High Middle Ages: 1000-1500 (3 Credits)
Medieval civilization in the 11th through 15th centuries. Emphasis on cultural and political developments of the high Middle Ages with study of the principal sources of medieval thought and learning, art and architecture, and political theory prior to the Renaissance.
Cross-listed with: HIST331.
Credit Only Granted for: HIST331 or RELS341.

RELS342 Renaissance Europe (3 Credits)
Intellectual developments in Italy and Northern Europe from 1300 to 1550 and their influence on the arts and religion; social and economic trends, including the rise of the commercial economy in cities; the family and the role of women in society; expansion of Europe overseas and the beginnings of colonization; emergence of the state and consequent changes in political theory.
Cross-listed with: HIST332.
Credit Only Granted for: HIST332 or RELS342.

RELS343 The European Reformations (3 Credits)
Examination of developments in European religion between 1450 and 1700; the late-medieval Church and its critics; rise of Protestant thought in Germany and its spread throughout Europe; reform efforts in the Catholic Church; religious wars and violence and their impact on state and society; consequences of religious reform in society and its impact on the family and women.
Cross-listed with: HIST333.
Credit Only Granted for: HIST333 or RELS343.

RELS346 History of Religion in America (3 Credits)
A history of religion, religious movements, and churches in America from the early Colonial period to the present, with special attention to the relation between church and society.
Cross-listed with: HIST306.
Credit Only Granted for: HIST306 or RELS346.

RELS347 Tradition and Change: Jewish Religion in the Modern World (3 Credits)
An exploration of the history of the different modern Jewish religious movements that developed in Europe, starting with messianic movements and ending with Reform and Orthodoxy. Emphasis will be placed on the influence of the academic study of Judaism on the development of modern Jewish religious ideologies and practices.
Cross-listed with: JWST347, HIST429X.
Credit Only Granted for: RELS347, JWST347, HIST429X, or RELS419R.
Formerly: RELS419R.

RELS369 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

RELS370 Ancient Greek Religion: Gods, Myths, Temples (3 Credits)
Survey of Greek religious ideas and practices as they evolve from the Bronze Age to the early Christian period.
Cross-listed with: CLAS330.
Credit Only Granted for: CLAS330 or RELS370.

RELS408 Capstone Seminar for Religions of the Ancient Middle East (3 Credits)
A capstone seminar for majors in Religions of the Ancient Middle East, designed to provide the intellectual framework for a substantial, interdisciplinary research project. Course topics will be thematic and students will be encouraged to explore comparative or interdisciplinary approaches.
Repeatable to: 6 credits if content differs.

RELS419 Advanced Topics in Religious Studies (3 Credits)
The contemporary study of religion in which topics may address specific religious traditions, regional or historical developments, or methodological and theoretical issues.
Recommended: RELS216.
Repeatable to: 9 credits if content differs.

RELS427 The Epic of Gilgamesh (3 Credits)
One of the most famous tales from the ancient world, the Epic of Gilgamesh inspires readers with tales of friendship and loss, mortality, and the search for meaning. The story itself grew and changed over time and took on new meanings. Through study of the epic, its development over time, and the sources it drew from, this class will examine the meaning of the Gilgamesh epic and its impact on ancient Mesopotamian culture.
Prerequisite: JWST225, RELS225, HIST219I, or permission of the instructor.
Recommended: JWST262, ENGL262, or HEBR298B.
Cross-listed with: JWST427.
Credit Only Granted for: JWST419G, RELS419G, RELS427 or JWST427.
Formerly: JWST419G.

RELS429 Advanced Topics in Religious History (3 Credits)
Advanced study of religious history in a particular setting, with attention to particular themes, texts, events, or communities.
Recommended: RELS216 or RELS289.
Repeatable to: 9 credits if content differs.

RELS430 Dead Sea Scrolls (3 Credits)
A study of the Dead Sea Scrolls in their ancient and modern settings, and in terms of contemporary scholarly interpretations of their meaning. Interpretations of the historical significance of these documents, their connections to ancient Jewish sectarian movements, and their implications for our understanding of Judaism, Christianity, and the history of the Bible.
Prerequisite: Must have completed one JWST course or one RELS course; or permission of ARHU-Meyerhoff Program & Center for Jewish Studies. Cross-listed with JWST430.
Credit Only Granted for: JWST430 or RELS430.

RELS439 Advanced Topics in Religious Thought (3 Credits)
Advanced study of religious thought in a particular setting, with attention to particular themes, texts, events, or communities.
Recommended: RELS216 or RELS289.
Repeatable to: 9 credits if content differs.

RELS488 Honors Thesis Research in Religions of the Ancient Middle East (3 Credits)
Guided research on a thesis under the supervision of a faculty mentor.
Repeatable to: 6 credits if content differs.

RELS499 Independent Study in Religious Studies (1-3 Credits)
An advanced independent research project for qualified students, supervised by a faculty member, on a topic not ordinarily covered in available courses.
Prerequisite: Permission of ARHU-Meyerhoff Program & Center for Jewish Studies.
Repeatable to: 6 credits if content differs.

RUSS - Russian

RUSS101 Intensive Elementary Russian I (6 Credits)
This intensive first-year course is intended to develop the four skills: reading, writing, listening and speaking with an emphasis on communicative competence.
Prerequisite: Must have appropriate World Language Placement (WLP) score.
Restriction: Must not be a native/fluent speaker of Russian.

RUSS102 Intensive Elementary Russian II (6 Credits)
A continuation of RUSS101 which will further develop the four skills: reading, writing, listening and speaking with an emphasis on communicative competence.
Prerequisite: RUSS101 or RUSS102; and must have appropriate World Language Placement (WLP) score.
Restriction: Must not be a native/fluent speaker of Russian.

RUSS201 Intermediate Russian I (5 Credits)
Continued activation and expansion of skills and knowledge acquired in an elementary Russian course with the goal of communicative competence.
Prerequisite: RUSS102; or must have appropriate World Language Placement (WLP) score.
Restriction: Must not be a native/fluent speaker of Russian.

RUSS202 Intermediate Russian II (5 Credits)
Continued activation and expansion of skills and knowledge acquired in RUSS201 with the goal of communicative competence.
Prerequisite: RUSS201; or must have appropriate World Language Placement (WLP) score.
Restriction: Must not be a native/fluent speaker of Russian.

RUSS211 Applied Russian Phonetics (3 Credits)
Pronunciation; the sounds and intonational patterns of Russian in contrast with those of English.
Prerequisite: RUSS102.
Restriction: Must not be a native/fluent speaker of Russian.

RUSS223 Dostoevsky and The Russian Soul (3 Credits)
Dostoevsky's exploration of the dark side of the psyche shaped a mythological image of the Russian soul. An examination of his selected works in light of development of psychoanalysis and Russian and European intellectual history. Taught in English.

RUSS269 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

RUSS281 Russian Language and Pre-Revolutionary Culture (3 Credits)
Introduction to the Russian language and a study of Russian nationalism; artistic and social concepts in the development of Russian art, dance, geography, history and literature from the 18th to the 20th centuries. Lectures in English, with third hour devoted to basic language instruction (alphabet, vocabulary, pronunciation and minimal conversational skills).
Restriction: Must not be a native/fluent speaker of Russian.

RUSS287 The Power of the Word: Freedom of Speech in the U.S. and Russia (3 Credits)
The central theme is the abiding human propensity to ask questions, to use language to pursue inquiry. To be a "critical thinker," one must develop the habit and discipline of asking questions and challenging assumptions. Through a comparative approach to the US and Russian experiences, we will explore the role of language and its power in different political and social systems. We will explore such questions as: Why is free speech so fiercely defended in a democracy and such a threat to totalitarianism? What is the relationship between free speech, political power and dissent? Is the pen still mightier than the sword, even in the nuclear age? What has shaped our current attitudes toward freedom of expression? How has the concept of political free speech been extended to include freedom of expression in general, such as in the creative arts? What role do new technologies play in the arena of free speech debates? We will explore how freedom of speech and expression has been defended or its suppression justified in the US and Russia. We will practice the art of questioning and constructing counter-arguments throughout the course.
Credit Only Granted for: RUSS287 or RUSS289I.
Formerly: RUSS289I.
Additional Information: Taught in English.

RUSS298 Special Topics in Russian Language and Literature (3 Credits)
Repeatable to: 6 credits if content differs.

RUSS301 Advanced Russian I (3 Credits)
Advanced training in written Russian communicative structures.
Prerequisite: RUSS202; or students who have taken courses with comparable content may contact the department.
Restriction: Must not be a native/fluent speaker of Russian.

RUSS302 Advanced Russian II (3 Credits)
Advanced training in written Russian communicative structures.
Prerequisite: RUSS301.

RUSS303 Russian Conversation: Functional Skills (3 Credits)
Intended for students who do not anticipate having the opportunity to study in Russia. Skills for daily life (both function and etiquette) and argumentation (rhetoric).
Prerequisite: RUSS202; or students who have taken courses with comparable content may contact the department.

RUSS321 Survey of Russian Literature I (3 Credits)
The first half of a survey of Russian literature.
Prerequisite: RUSS202; or students who have taken courses with comparable content may contact the department.

RUSS328 19th Century Russian Literature in Translation (3 Credits)
Development of Russian literary thought in the Russian novel and short prose of the 19th century. Influence of western literatures and philosophies.
Repeatable to: 6 credits if content differs.

RUSS329 Soviet Literature in Translation (3 Credits)
Russian literature between 1917 and the fall of the Soviet Union, both as a continuation of pre-revolutionary traditions and as a reflection of Soviet ideology.
Repeatable to: 6 credits if content differs.

RUSS334 Soviet Film: Propaganda, Myth, Modernism (3 Credits)
A Survey of Soviet film from the 1920s to 1991, focusing on important directors, genres, themes, and styles. Taught in English.
Cross-listed with: CINE334.
Credit Only Granted for: RUSS334, CINE334, or FILM334.
Formerly: FILM334.

RUSS336 Soviet Cinema and Empire (3 Credits)
Examination of the concepts of "empire" and "nation" through their representation in Soviet cinema. Taught in English.
Cross-listed with: CINE336.
Credit Only Granted for: RUSS336, CINE336, or FILM336.
Formerly: FILM336.

RUSS361 Dostoevsky's Life and Works (3 Credits)
A study of Dostoevsky's major works with reference to related developments in Russian and European culture, literary criticism, and intellectual history. Interdisciplinary investigation of Dostoevsky's contemporary relevance and tremendous international popularity.

RUSS369 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

RUSS386 Experiential Learning (3-6 Credits)
Restriction: Junior standing or higher; and permission of ARHU-School of Languages, Literatures, and Cultures department.

RUSS388 Language House Spring Colloquium (1 Credit)
For students residing in the Language House Immersion Program. Focuses on the development of skills in the target language and acquiring the cultural knowledge of the countries that speak the target language.
Restriction: Must be a resident of Language House.
Repeatable to: 8 credits.

RUSS398 Selected Topics in Russian Language and Literature (3 Credits)
Repeatable to: 6 credits if content differs.

RUSS401 Advanced Russian Composition (3 Credits)
Approaches to argumentation, organization of information, contextualized grammar, appropriateness of lexical choice, genre, and register.
Prerequisite: RUSS302; or students who have taken courses with comparable content may contact the department.
Restriction: Not open to native speakers of Russian.

RUSS402 Practicum in Written Russian (3 Credits)
Designed to improve comprehension of functional varieties of written Russian and develop ability to present in written form concise syntheses of source texts.
Prerequisite: RUSS401; or students who have taken courses with comparable content may contact the department.

RUSS403 Russian Conversation: Advanced Skills (3 Credits)
Advanced spoken production of high-level, abstract language.
Prerequisite: RUSS303; or students who have taken courses with comparable content may contact the department.

RUSS404 Practicum in Spoken Russian (3 Credits)
To improve comprehension of rapidly spoken Russian of various functional styles and to develop ability to synthesize orally the content of spoken material.
Prerequisite: RUSS403; or students who have taken courses with comparable content may contact the department.

RUSS405 Russian-English Translation I (3 Credits)
Introduction to the principles of translation of a particular genre, and is typically diplomatic, business, or literary.
Prerequisite: Must have completed or be concurrently enrolled in RUSS302.

RUSS409 Selected Topics in Russian Language Study (3 Credits)
Presentation of a topic in Russian language study.
Restriction: Permission of ARHU-School of Languages, Literatures, and Cultures department.
Repeatable to: 6 credits if content differs.

RUSS411 Linguistic Analysis of Russian I (3 Credits)
Elucidation of theoretical concepts of modern linguistics through the analysis of problematic concepts in the Russian linguistic system. Phonology and the syntax of the simple sentence.
Prerequisite: Must have completed or be concurrently enrolled in RUSS301.

RUSS439 Selected Topics in Russian Literature (3 Credits)
Presentation of a topic in Russian literature.
Restriction: Permission of ARHU-School of Languages, Literatures, and Cultures department.
Repeatable to: 6 credits if content differs.

RUSS499 Independent Study in Russian (1-3 Credits)
Independent study under faculty supervision.
Prerequisite: Permission of instructor.
Repeatable to: 6 credits if content differs.

SLAA - Second Language Acquisition and Application

SLAA269 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

SLAA369 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

SLAA498 Second Language Research and Practicum (1-3 Credits)
Individualized research and practicum for undergraduate students to work as Undergraduate Research Assistants (UGRA) on existing projects under the supervision of a PhD Graduate Supervisor (GS) in the area of second language acquisition to learn/experience how second language as well as psycholinguistic research is conducted.
Restriction: Permission of ARHU-School of Languages, Literatures, and Cultures department.
Repeatable to: 9 credits if content differs.
Additional Information: UGRAs register for 1-3 credits. A specific weekly schedule will be determined at the beginning of the semester. Throughout the semester, students will meet with the Graduate Supervisor (GS) once per week to discuss the theoretical and methodological background of the project as well as the broader area behind the research. In addition to the training in theoretical background, the first several weeks of the semester will be devoted to hands-on details of running subjects using a particular method and analyzing data. When this training is complete, UGRAs will work more independently to schedule and run research projects and process the data.

SLLC - School of Languages, Literatures and Cultures

SLLC108 Beg Less Commonly Taught Language I (3-6 Credits)
Study of any of the less commonly taught languages at the elementary level. Speaking, listening, reading, and writing a less commonly taught language. Development of an emphasis on oral proficiency skills.
Restriction: Not open to native speakers of the language being taught. Heritage speakers must contact the instructor at the host institution to determine proper placement.
Repeatable to: 12 credits if content differs.
Additional Information: Course is offered remotely via a member institution of the CIC CourseShare arrangement. Instruction may be delivered synchronously or asynchronously. Students register through University of Maryland, and course appears on transcript as a UMd course. No additional fees are associated with this course.

SLLC109 Beg Less Commonly Taught Language II (3-6 Credits)
Study of any of the less commonly taught languages at the elementary level, as a continuation of SLLC108 (in the same language). Speaking, listening, reading, and writing a less commonly taught language. Development of an emphasis on oral proficiency skills.
Restriction: Not open to native speakers of the language being taught. Heritage speakers, or those with previous experience in the language, must contact the instructor at the host institution to determine proper placement.
Repeatable to: 12 credits if content differs.
Additional Information: Course is offered remotely via a member institution of the CIC CourseShare arrangement. Instruction may be delivered synchronously or asynchronously. Students register through University of Maryland, and course appears on transcript as a UMd course. No additional fees are associated with this course.

SLLC169 Special Topics in Study Abroad I (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

SLLC199 Special Topics in Language Study (1-3 Credits)
Language and topic to be announced when offered.
Repeatable to: 6 credits if content differs.

SLLC200 Global Movements (3 Credits)
This interdisciplinary and cross-cultural course introduces students to a variety of frameworks for understanding our interconnected world by focusing on one or more issues of global relevance today, including but not limited to conflict, revolution, and war; democracy, citizenship, and human rights; migration; and climate change. Focusing on the interpretive methods of the humanities, including critical analysis, close readings, and engagement with theoretical approaches, we will discuss the historical, social, and cultural contexts of major global movements in comparative perspective. In addition to examining literary, cultural, and media texts, the class will ask students to make connections between global and local contexts through a group service-learning project.

SLLC208 Intermediate Less Commonly Taught Language I (3-6 Credits)
Intermediate-level work on speaking, reading, and writing a less commonly taught language. Continued development of oral proficiency skills.
Prerequisite: SLLC109; or must have permission of instructor after placement assessment.
Restriction: Not open to fluent/native speakers. Heritage speakers or students with prior knowledge of the language must contact the instructor at the host institution to determine proper placement before enrolling.
Repeatable to: 12 credits if content differs.
Additional Information: Course is offered remotely via a member institution of the CIC CourseShare arrangement. Instruction may be delivered synchronously or asynchronously. Students register through University of Maryland, and course appears on transcript as a UMd course. No additional fees are associated with this course.

SLLC209 Intermediate Less Commonly Taught Language II (3-6 Credits)
Second semester Intermediate-level work on speaking, reading, and writing a less commonly taught language. Continued development of oral proficiency skills.
Prerequisite: Must have completed SLLC208 or have permission of instructor, based on placement assessment.
Restriction: Not open to native speakers of the language being taught. Heritage speakers or students with prior knowledge of the language must contact the instructor at the host institution to determine proper placement before enrolling.
Repeatable to: 12 credits if content differs.
Additional Information: Course is offered remotely via a member institution of the CIC CourseShare arrangement. Instruction may be delivered synchronously or asynchronously. Students register through University of Maryland, and course appears on transcript as a UMd course. No additional fees are associated with this course.

SLLC269 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

SLLC280 Mythology of the Oppressed (3 Credits)
Does information drive human history? Mythological recurrences say much about cultures that had to adapt their world views while attempting to preserve them. This course examines the cognitive or social bases of mythology, to be pursued from insights in cultural and literary studies, linguistics, the cognitive sciences, paleo-anthropology, archeology, etc. The course is designed to help students think about complex problems from a humanistic perspective, making liberal use of the sciences.

SLLC286 Living the Good Life: Chinese Philosophy in the Modern World (3 Credits)
Confucius, Mencius, Zhuangzi and other Chinese thinkers who lived more than 2,000 years ago would argue that the contemporary Western emphasis on self-discovery (Find yourself) and self-acceptance has led you astray. See what they have to say and discuss what relevance it has for the modern world as we study how early Chinese thinkers wrestled with questions of existence, morality, and governance. No previous knowledge of Chinese philosophy and history will be assumed and no prerequisites are required. We will discuss ideas that are both historical and relevant to students' lives. What is "the Way"? How do we cultivate spontaneity? Is there a stable self? How can we be more alive? These are questions important for ancient kings but also for UMD students choosing a major, or wondering how ARHU can benefit them.
Additional Information: Taught in English.

SLLC290 Behavior of the Rich and Powerful, Past and Present (3 Credits)
Through the study of fifteenth- and sixteenth-century courtesy literature, in this course we explore the various forms of behavior of the rich and powerful of the Italian Renaissance, an era that is much closer to our contemporary world than we might initially think, especially in regard to the way political and influential figures act in social situations and the image of themselves they present to others. What can we learn from observing and comparing the behavior of the rich and powerful of the past and present? In the public arena of these two worlds, does appearance matter more than truth?
Restriction: Must be in the Freshmen Connection program.
Credit Only Granted for: SLLC290 OR SLLC299P.
Formerly: SLLC299P.
Additional Information: Taught in English.

SLLC299 Special Topics in World Cultures (1-6 Credits)
Topic to be announced when course is offered.
Repeatable to: 6 credits if content differs.

SLLC305 Language, Identity and Diversity in the U.S. (3 Credits)
Introduces issues of linguistic diversity in the framework of the U.S. as a multilingual society. Special emphasis is placed on attitudes toward language diversity, specifically, how regional, social, generational, ethnic, racial and gender differences in language use contribute to notions of identity.

SLLC309 Language Partner Program (1 Credit)
For intermediate- to advanced-level language study. Conversations entirely in target language with native speaker.
Prerequisite: Permission of ARHU-School of Languages, Literatures, and Cultures department.
Restriction: For intermediate- to advanced-level language majors.
Repeatable to: 3 credits.

SLLC329 Language House Immersion (1 Credit)
Provides credit for students participating in the Language House Living-Learning program. It focuses on the further development of skills in the target language and the acquisition of cultural knowledge of the countries and communities where people speak the target language. It requires hands-on immersive linguistic and cultural activities led by a native-speaking mentor and supplements the learning that takes place in the language classroom and in the living-learning environment of the Language House.
Restriction: Permission of the Language House Director and the related program Faculty Liaison; and must be in the Language House Immersion Program.
Repeatable to: 6 credits.

SLLC342 Film Comedy (3 Credits)
Comedy as a specific cinematic genre.
Prerequisite: ENGL245, FILM245, or CINE245; or permission of ARHU-School of Languages, Literatures, and Cultures department.
Cross-listed with: CINE342.
Credit Only Granted for: SLLC342, CINE342, or FILM342.
Formerly: FILM342.

SLLC344 Film and the Fantastic (3 Credits)
Survey of fantastic cinema, encompassing American classics, Hollywood recent productions, and independent films, as well as Asian horror films, anime, and European fantasy.
Prerequisite: ENGL245, FILM245, or CINE245; or permission of ARHU-School of Languages, Literatures, and Cultures department.
Cross-listed with: CINE344.
Credit Only Granted for: SLLC344, CINE344 or FILM344.
Formerly: FILM344.

SLLC350 Translation in a Global Context (3 Credits)
Provides a theoretical foundation for understanding the history, practice, and ethics of translation in a global context. Students will learn about key movements, theories, and debates in the field of translation studies, with a focus on scholarly readings that examine the role of language, literature, and culture in shaping perception and reality, and compare a variety of published translations in order to examine the role of translation in the negotiation and creation of meaning. A key facet of our readings and discussions will be a critical engagement with how global issues of power, violence, and resistance are intertwined with processes of translation. Students will be able to synthesize what they have learned by undertaking a translation project of their own, in consultation with the course instructor and faculty specialists in their language(s) of choice.
Prerequisite: Basic proficiency in at least one language other than English.
Recommended: SLLC200.
Restriction: Permission of the School of Languages, Literatures, and Cultures.

SLLC360 Cultural Theory in a Global Age (3 Credits)
Examines the need to think beyond established frameworks, including the national-cultural paradigm, for apprehending literature, cinema, and other forms of cultural production in a global age. We will read and discuss theories that respond to and engage with the increased flow of ideas, bodies, and texts in an era characterized by globalization, migration, and neoliberal capitalism. We will also analyze literary texts, films, and cultural movements that emerge from and address the geopolitical transformations and challenges of the present. Students are expected to address topics comparatively across different languages, as appropriate for their level of linguistic proficiency. The range of connections between language and cultural expression and understanding is a central topic of the course.
Prerequisite: SLLC200.

SLLC361 Cinema and Globalization (3 Credits)
Introduction to cinema as a global phenomenon.
Prerequisite: ENGL245, FILM245, or CINE245; or permission of Film Studies program; or permission of ARHU-School of Languages, Literatures, and Cultures department.
Cross-listed with: CINE361.
Credit Only Granted for: SLLC361, CINE361, or FILM361.
Formerly: FILM361.

SLLC362 Vision, Visuality, and the Gaze in Cinema (3 Credits)
Students will build a way of talking critically about film. The prism of seeing, visuality, the gaze, and the like will serve as a way to investigate the way films take on meaning as well as to understand how film participates in a wide network of interconnected ideas, concepts, and modes of thought that have contributed to the audiences' ability to make sense of what a film is conveying.
Prerequisite: ENGL245, FILM245 or CINE245; or permission of Film Studies Program; or permission of ARHU-School of Languages, Literatures, and Cultures department.
Cross-listed with: CINE362.
Credit Only Granted for: SLLC362, CINE362, or FILM362.
Formerly: FILM362.

SLLC368 Special Topics in Film Studies I (3 Credits)
Content varies. Exploration of topics in film studies beyond national traditions, for example through the lens of theory, genre, auteurship, aesthetic movements in cinema, and/or comparative perspectives.

SLLC369 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

SLLC386 Experiential Learning (3 Credits)
Prerequisite: Learning Proposal approved by the Office of Experiential Learning Programs, faculty sponsor and the student's internship sponsor.
Restriction: Junior standing or higher.

SLLC400 Articulatory Phonetics for Second Language Acquisition and Application (3 Credits)
The mechanical capabilities of the human vocal apparatus for producing speech sounds, and their terminology and transcription in the International Phonetic Alphabet. Emphasis is on the practical needs of the teacher and student of foreign language, rather than the theoretical linguist or the hearing-and-speech pathologist. The phonetics of major languages are also introduced, with attention to the pedagogy of their phonetics.
Restriction: Junior standing or higher.

SLLC410 Documentary and Narrative (3 Credits)
An examination of the relationship between film and reality, focusing on documentary film.
Prerequisite: ENGL245, FILM245, or CINE245; or permission of ARHU-School of Languages, Literatures, and Cultures department.
Cross-listed with: CINE410.
Credit Only Granted for: SLLC410, CINE410 or FILM410.
Formerly: FILM410.

SLLC411 Experimental Film (3 Credits)
Introductory survey of European and U.S. American experimental cinema.
Cross-listed with: CINE411.
Credit Only Granted for: SLLC411, CINE411 or FILM411.
Formerly: FILM411.

SLLC461 Political Cinema (3 Credits)
Histories of cinema and politics in the 20th century.
Prerequisite: ENGL245, FILM245, or CINE245; or permission of ARHU-School of Languages, Literatures, and Cultures department.
Cross-listed with: CINE461.
Credit Only Granted for: CINE461, FILM461 or SLLC461.
Formerly: FILM461.

SLLC463 Screening Time: History and Memory in Cinema (3 Credits)
An examination of the ways and techniques with which cinema produces a sense of time in the viewer.
Prerequisite: ENGL245, FILM245, or CINE245; or permission of ARHU-College of Arts & Humanities.
Cross-listed with: CINE463.
Credit Only Granted for: SLLC463, CINE463 or FILM463.
Formerly: FILM463.

SLLC468 Special Topics in Film Studies II (3 Credits)
Exploration of topics in film studies beyond national traditions, for example through the lens of theory, genre, auteurship, aesthetic movements in cinema, and/or comparative perspectives. Courses at the 400-level have higher expectations of independent work, including reading and written assignments.
Repeatable to: 12 credits if content differs.

SLLC471 The Cultural Environment of Global Business (3 Credits)
The goal of this course is to provide students with an understanding of cultural aspects pertaining to global business, and thereby increasing their awareness of the cultural factors that motivate decisions and behavior in the business world. Students will gain an understanding of how the business cultures in the rest of the world diverge from the American, and develop the cultural understanding, attitudes, and communication skills needed to function appropriately within an increasingly global and multicultural working environment.
Restriction: Sophomore standing or higher.
Credit Only Granted for: ARHU439B, ARHU439E, ARHU439T, ENES472, SLLC471, or SLLC473.
Formerly: ARHU439B.

SLLC473 European Business Cultures (3 Credits)
The goal of this course is to provide students with an understanding of cultural aspects pertaining to European business, and thereby increasing their awareness of the cultural factors that motivate decisions and behavior in the European business world. Students will gain an understanding of how the European business cultures diverge from the American, and develop the cultural understanding, attitudes, and communication skills needed to function appropriately within an increasingly global and multicultural working environment.
Restriction: Sophomore standing or higher.
Credit Only Granted for: ARHU439B, ARHU439E, ARHU439T, ENES472, SLLC471, or SLLC473.
Formerly: ARHU439E.

SLLC499 Special Topics in World Cultures (3 Credits)
Interdisciplinary, transnational or cross-language course; specific topic to be announced.
Repeatable to: 12 credits if content differs.

SLLX - School of Languages, Literatures & Cultures Education Abroad

SLLX101 Swedish Language and Culture: Level 1 (3 Credits)
This course is an integrated language and culture course. When studying Swedish language, we will employ a functional approach. The course will focus on spoken everyday Swedish, reading comprehension and basic grammar. We will study different aspects of Swedish culture and we will operate with a complex view on culture through various representations. The focus will be on dominant national narratives, values, and symbolism, which we will approach from both a historical and contemporary perspective.
Additional Information: This course is offered as part of the Maryland-in-Stockholm study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMStockholm. Education Abroad processes registrations for this course on behalf of students.

SLLX102 Swedish Language and Culture: Levels 1 and 2 (6 Credits)
This intensive course covers two semesters of Swedish language content in one, making it an excellent option for students who wish to advance quickly in their knowledge of the language. The emphasis is on speaking, writing, and understanding basic Swedish language. Swedish literature, film, and music are included in the curriculum. Politics, burning cultural issues, and your personal experiences form the cornerstone of class discussions.
Additional Information: This course is offered as part of the Maryland-in-Stockholm study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMStockholm. Education Abroad processes registrations for this course on behalf of students.

SLLX106 Elementary Italian II (4 Credits)
Focuses on vocabulary expansion and strengthening the four language skills of speaking, listening, writing, and reading in order to provide students with the ability to converse on familiar social situations related to school, recreation, and particular interests. This course equips students to provide oral descriptions in the major time frames (past, present, and future), read short written texts, and write short compositions on familiar topics.
Credit Only Granted for: ITAL103 or SLLX106.
Formerly: ITAL103.
Additional Information: This course is offered as part of the Maryland-in-Rome study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMRome. Education Abroad processes registrations for this course on behalf of students.

SLLX200 Spanish Civilization and Culture (3 Credits)
This course starts with an extensive view of the Spanish history and then examines the different cultures within Spain: Castilian, Catalan, Basque and Galician; focusing mainly on language, nationality, and political implications. The rest of the course will travel throughout the various aspects of the Spanish Civilization, understanding civilization as lifestyle and society, and also the various artistic ways of expression. Taught in English.
Credit Only Granted for: SLLC299Z or SLLX200.
Additional Information: This course is offered as part of the Maryland-in-Barcelona study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMBarcelona. Education Abroad processes registrations for this course on behalf of students.

SLLX201 Swedish Language and Culture: Intermediate (3 Credits)
This class is intended to improve your linguistic and communicative skills in Swedish on an intermediate level. It is an integrated language and culture course, and it gives you the opportunity to reflect upon and document intercultural competences gained while studying abroad at DIS. The course makes you develop a critical and analytical understanding of your own as well as of the Swedish culture, and it seeks to explore Swedish history, literature, film, art as well as the burning issues of today - enriching your experience and making you a qualified discussion partner for your Swedish family and friends.
Additional Information: This course is offered as part of the Maryland-in-Stockholm study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMStockholm. Education Abroad processes registrations for this course on behalf of students.

SLLX204 Italian Fashion (3 Credits)
Examines the history of Italy's fashion industry in order to understand how it gained strength and importance in Italian culture. The course will analyze how fashion has been effective historically as a communication system that has represented the development of Italian national identity and in turn has had considerable impact on Italian society and culture. The course makes use of novels, periodicals and films from the late 19th century post-unification period to the present and will highlight the close connection between the massive presence of art in Italy and its influence on the development of a collective sense of aesthetics that finds confirmation in fashion.
Additional Information: This course is offered as part of the Maryland-in-Rome study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMRome. Education Abroad processes registrations for this course on behalf of students.

SLLX205 Italian Food and Culture (3 Credits)
This interdisciplinary course focuses on the social and cultural aspects of food and eating in different geographical areas with a special emphasis on Italy and its history. The course will be taught through a variety of readings, class discussions and presentations and there will also be some practical experiences.
Additional Information: This course is offered as part of the Maryland-in-Rome study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMRome. Education Abroad processes registrations for this course on behalf of students.

SLLX300 Italy Outside Italy: Italian Culture & Identity in Italy, America & the World (3 Credits)
This course is an introduction to the history of Italian emigration and Italian communities around the world as well as to the trans-national culture and identity they developed. The focus will be on Italians in America, and on the Italian emigrants' point of view. We will discuss how they viewed themselves as emigrants (not immigrants), how they thought of their communities as "colonies" (not "Little Italies"), and how they faced prejudice and discrimination to finally integrate into the new country as Italian Americans.
Credit Only Granted for: ITAL369G, ITAX303, or SLLX300.
Formerly: ITAL369G.
Additional Information: This course is offered as part of the Maryland-in-Florence study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMFlorence. Education Abroad processes registrations for this course on behalf of students.

SLLX301 Identity and Culture in Italy: A Comparative Approach (3 Credits)
Introduces the concept of culture in the sociological and anthropological sense. After clarifying the meaning of the word 'culture', other related concepts will be analyzed: values, norms, lifestyles, attitudes, beliefs, stereotypes. Attention will also be drawn to the notion of social and cultural change (de-secularization, globalization, mediatization, individualization). Italian-ness will be compared with traits of the American, Northern European and Mediterranean cultural heritage.
Credit Only Granted for: ITAL369D, ITAX305, or SLLX301.
Formerly: ITAL369D.
Additional Information: This course is offered as part of the Maryland-in-Florence study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMFlorence. Education Abroad processes registrations for this course on behalf of students.

SLLX303 The Grand Tour Then and Now (3 Credits)
Interdisciplinary course that delves into the historical importance and contemporary relevance of the Grand Tour--a transformative expedition undertaken by young adults from the 17th to the 19th centuries. Through a comprehensive and critical exploration of this pivotal period in travel history, coupled with a multi-perspective examination of modern study abroad experiences, students will gain profound insights into the realms of Critical Reception Studies, Early Modern and Modern European History, but also the evolution of travel and the complexities of Coming of Age as a literary and artistic trope and a deeply personal experience. Students will be enabled to look at their experience of studying abroad against the backdrop of a rich and complex cultural history of what it meant to step into the realm of adulthood.
Additional Information: This course is offered as part of the Maryland-in-Florence study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMFlorence. Education Abroad processes registrations for this course on behalf of students.

SMLP - Southern Management Leadership Program

SMLP470 Fundamentals of Entrepreneurial Ventures (3 Credits)
Learn the processes and skills needed to launch and manage start-up ventures, including technology startups. Assess the feasibility of a startup ventures, as well as how to apply best practices for planning, launching, and managing new companies by using real-world examples and in-depth case studies. Discuss a wide range of issues of importance and concern to entrepreneurs and learn to recognize opportunity, assess the skills and talents of successful entrepreneurs, and learn models and approaches that help navigate uncertainty.
Restriction: Restricted to students in the Southern Management Leadership Program.
Credit Only Granted for: HLMN470, SMLP470, ENES460 or BMGT461.
Formerly: HLMN470.
Additional Information: SMLP470 may not count toward any BMGT major or minor degree.

SMLP471 Entrepreneurial Finance (3 Credits)
Examine the elements of entrepreneurial finance, develop and analyze financial statements, focusing on technology-based startup ventures and the early stages of company development. Address key questions that challenge all entrepreneurs: how much money can and should be raised; when it should be raised and from whom; how to define a reasonable valuation of a company; and how to structure funding, develop employment contracts, and make exit decisions. Analyze the variety of financing models across a venture's life cycle, with an aim to understanding the incentives of each type of investor and the relative costs and benefits of each source of funding.
Restriction: Restricted to students in the Southern Management Leadership Program.
Credit Only Granted for: HLMN471, SMLP471, ENES466 or BMGT365.
Formerly: HLMN471.
Additional Information: SMLP471 may not count toward any BMGT major or minor degree.

SMLP472 Strategies for Innovation & Entrepreneurship (3 Credits)
Understand the process of technological change; the ways that firms come up with innovations; the strategies that firms use to benefit from innovation; and how to create new value not only through new products or services, but with novel technologies, business concepts, organizing structures, transaction/financing mechanisms, distribution channels, and market segmentation. Challenge students to think about how to create value and build a productive business organization with available resources (e.g. intelligence, insight, energy, initiative and personal relationships).
Restriction: Restricted to students in the Southern Management Leadership Program.
Credit Only Granted for: HLMN472, SMLP472, BMGT467, or ENES463.
Formerly: HLMN472.
Additional Information: SMLP472 may not count toward any BMGT major or minor degree.

SMLP473 Consulting in Tech Entrepreneurship (3 Credits)
Apply the entrepreneurship/business principles learned in the classroom to real-world consulting projects. Gain practical experience by solving actual business situations and by dealing with ambiguity and uncertainty inherent in fast-moving technical organizations. Develop key skills in negotiation, group dynamics, organization, and planning.
Restriction: Restricted to students in the Southern Management Leadership Program.
Credit Only Granted for: HLMN473 or SMLP473.
Formerly: HLMN473.
Additional Information: HLMN473 may not count toward any BMGT major or minor degree.

SMLP474 Essentials of Negotiations and Marketing for Entrepreneurs (3 Credits)
Building on the innovation and entrepreneurship knowledge acquired in previous SMLP courses, this team-taught course will equip students with the experience to conduct successful negotiations and bring an innovation to market. In the first half of this course, you will learn more about your individual negotiation style and practice the skills and techniques essential to a successful negotiation. You will then apply some of those skills, along with the human-centered mindset cultivated in previous SMLP courses, to introduce an existing product to the marketplace by identifying the promotion, distribution, and pricing tactics that meet the preferences of the intended target market. The course will conclude with a live presentation of your comprehensive go-to-market strategy to a panel of real investors, followed by a mock negotiation for an investment in bringing that product to market.
Restriction: Must be in the Southern Management Leadership Program.

SOCY - Sociology

SOCY100 Introduction to Sociology (3 Credits)
Introduces fundamental concepts and theories of sociology. Guided by C. Wright Mills' "sociological imagination," the course promotes critical thinking; challenges conventional assumptions about culture politics, history, and psychology; and equips students with theoretical approaches and research methods to analyze various sociological topics, including family, work, education, religion, social movements, and issues related to class, gender, race, and ethnic inequalities.

SOCY105 Understanding Contemporary Social Problems - Frameworks for Critical Thinking and Strategies for Solutions (3 Credits)
Embark on an exploration of contemporary social issues and unravel the intricate ways in which these challenges are woven into the fabric of society. Develop a comprehensive understanding of societal organization and partake in a detailed study of selected social problems, with a specific emphasis on issues like social conflict and inequality. This course provides an insightful journey into the nuanced interplay between societal structure and prevalent challenges, fostering a heightened awareness of the dynamics shaping our social landscape.

SOCY120 Veterans in American Society: What Does America Owe Its Veterans? (3 Credits)
An examination of current and past policies toward compensation for military veterans, data and evidence on current and past adjustments to life after military service, historical variations in the mechanisms for staffing the military, and trends in the contours of the lives of those who do not serve.

SOCY158 Special Topics in Study Abroad I (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

SOCY200 Innovation, Exploration and the Evolution of Human Societies (3 Credits)
We will explore the nature of human societies through comparative, historical, and interdisciplinary perspectives. Students will delve into the core of social structures, unravel the defining components of society, and examine their organization, evolution, and impact on collective existence. Students will also explore the socio-historical forces and geopolitical dynamics that drive social change to analyze the complex connections that illuminate our shared social experience across time.

SOCY201 Introductory Statistics for Sociology (4 Credits)
Students will explore descriptive and inferential statistics. You will hone your quantitative analytical skills to construct impactful bivariate tables, craft frequency distributions, and decipher measures of central tendency and dispersion. Additionally, you will master the techniques of hypothesis testing, chi-square, ANOVA, and ordinary least squares regression, equipping you to seamlessly translate data into meaningful research insights.
Prerequisite: SOCY100; and (MATH107 or MATH111).
Restriction: Must not have completed STAT400, BMGT231, or ENEE324.

SOCY202 Introduction to Research Methods in Sociology (4 Credits)
We will examine why social research is needed, explore some of the main quantitative and qualitative techniques to conduct sociological research, and discover how to understand and critically evaluate sociological research on pressing social problems. Students will also learn to use specialized software to analyze and interpret quantitative data in the computer lab.
Prerequisite: SOCY100.

SOCY203 Sociological Theory (3 Credits)
Examines major trends in the history and development of sociological thought, including theories of inequality, the self, institutions, and more. With each theorist students will learn what sociologists assume and focus on when studying societies.
Prerequisite: SOCY100.

SOCY211 The Sociology Major: Mapping the Road to Academic Success (1 Credit)
Designed to assist students in making a successful transition to the major and orient them to departmental, college, and university resources. Students will collaboratively explore avenues and best practices that build self-confidence and lead to academic achievement.
Restriction: Must be in the Sociology major or Sociology minor.

SOCY212 Hate Crimes in the U.S.: What Lt. Richard Collins III Can Teach Us About History, Hope and Healing (3 Credits)
Rooted in the tragic murder of Lt. Richard W. Collins III, a Bowie State student, on the campus of the University of Maryland by a white supremacist student, this course will provide an overview and discussion of the history of bias-motivated violence in the United States, the development of modern hate crime laws, theories and impacts of victimization, domestic terrorism, legal and social responses, and prevention strategies. Students from both Bowie State University and the University of Maryland will engage with experts from multiple disciplines and work together in a collaborative community to generate actionable strategies.

SOCY216 Social Aspects of Artificial Intelligence (3 Credits)
In two generations computers insinuated themselves into the way societies create wealth, wage war, work, and govern their citizens. While scientists across disciplines debate the feasibility of engineering artificial general intelligence, the race is on to create computers (classic and quantum) that match or surpass human intelligence in as many domains as possible. Students in this course will weigh some social consequences of living with smart machines that are everywhere and never sleep, and confront the question of whether AI has gone too far, or not far enough.
Credit Only Granted for: SOCY216 or SOCY416.
Formerly: SOCY416.

SOCY222 Immigration and Ethnicity in America (3 Credits)
The history of immigration and the development of diverse populations in the United States are examined. Topics include related political controversies, the social experiences of immigrants, ethnicity, generations, migration, inter-group relations, race and diversity in American culture.
Cross-listed with: AAST222.
Credit Only Granted for: AAST222, HIST222, or SOCY222.

SOCY224 Why are We Still Talking About Race? (3 Credits)
Explore and discuss the major debates and assumptions that construct perceptions of race and how they matter. Sociological and social science theories will give students a historical and present day frame with which to view race and ethnic relations in the twenty-first century.

SOCY225 Women's Jobs, Men's Jobs: How and Why Do They Differ? (3 Credits)
An exploration of critical issues pertaining to gender differences in the workplace. Overview of theories explaining why some people do better than others in the world of work, and discussions of more specific questions relating to women's and men's job opportunities and experiences.

SOCY227 Introduction to the Study of Deviance (3 Credits)
An introduction to the sociological study of deviant behavior, covering such topics as mental illness, sexual deviance, and the use of drugs.

SOCY230 Sociological Social Psychology (3 Credits)
Why do people do that? Sitting at the nexus of sociology and psychology, this course surveys the various ways in which sociologists have answered this question. We investigate individuals-for example, how they develop and understand themselves in relation to others, how they choose to present themselves to the world, and how they form thoughts and opinions. And we study larger units of analyses, from small groups to the broader society. Topics covered include socialization, identity formation, social influence, group processes, how social processes shape individual behavior, and how human behavior shapes society.

SOCY241 Inequality in American Society (3 Credits)
A broad-based overview of inequality in contemporary U.S. society, focusing on measuring patterns and trends over time. A series of learning modules familiarizes students with how inequality unfolds in relation to social stratification processes along the lines of race, gender, education and social class, income and wealth, and health.
Credit Only Granted for: SOCY241 or SOCY441.

SOCY242 Sociology of Homelessness (3 Credits)
Examines the causes of and solutions for homelessness in society. How social scientists analyze social issues using ethnographic observation, surveys, official statistics, and other research methods. Discusses how policies have responded to the problem of homelessness, and how to evaluate their effectiveness.

SOCY243 The Family: Diversity, Inequality, and Social Change (3 Credits)
An exploration of diversity and inequality in family life, focusing on empirical patterns and trends, political and cultural debates, and policy issues, including the major theories and research methods used in the sociological study of the family in a plural society.
Credit Only Granted for: SOCY243 or SOCY443.
Formerly: SOCY443.

SOCY244 Bridging Perspectives: Critical Conversations Between Students and Police (3 Credits)
This course is a university curriculum created by the International Association of Chiefs of Police to enhance community-police engagement. This course brings university students and police together to engage in facilitated dialogue to learn from one another and build trust. Through this transformative educational course, both groups will enhance their knowledge of the structural and cultural frameworks that influence historical and current events and relationships between communities and police.

SOCY245 The Family in Contemporary American Society (3 Credits)
This is a course in the sociology of the family as an institutional arena in the United States. Students will become familiar with the empirical patterns and trends, political and cultural debates, and policy issues concerning families - and the major theories and research methods used in the sociological study of the family. The readings include a textbook and a research monograph. To succeed, students will attend lectures and participate in discussion; complete quizzes and in-class writing assignments; and take a midterm and final exam.
Credit Only Granted for: SOCY243 or SOCY245.

SOCY258 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program
Repeatable to: 15 credits if content differs.

SOCY265 War and Society, from the American Revolution to the Present (3 Credits)
This course asks, why do nations make war the way they do? And how does the experience of waging war in this manner remake institutions, social and political relationships and even culture? To answer these questions, the course adopts a comparative and historical perspective, highlighting the ways nations organize and mobilize for armed conflict as well as how they define 'the enemy' against whom they direct armed force, and the ways these together shape the social consequences of warfare. Among the range of social consequences, we will focus on three: the experience of combat itself; the impact of war on class, race and gender relations; and the emergence of cultural values around armed conflict and the place of warfare and soldiers in society. The course concludes with almost a month devoted to making sense of the War in Ukraine and considering where to go from here.
Credit Only Granted for: SOCY465 or SOCY265.
Formerly: SOCY465.

SOCY277 Intersectionality and Illness: How do Overarching Social Inequalities Affect Health Outcomes? (3 Credits)
Students will examine the social determinants of disease: the relationship between socioeconomic status and health care access, as well as investigate the links between social status and disease chronicity. Students will further explore how health disparities, health resource distribution, and susceptibility disproportionately affect disadvantaged communities with chronic diseases.
Credit Only Granted for: SOCY277 or SOCY302.
Formerly: SOCY302.

SOCY298 Selected Topics in Sociology (1-3 Credits)
Special topics in Sociology.

SOCY310 Sociology of Race, Class, Gender and Sports (3 Credits)
Examines the institution of sport with an emphasis on race, gender, and class. The course will critically analyze assumptions, historical relationships, and contemporary issues in sports. The course will utilize sports as a platform to understand and explore sociological concepts, theories, and research.

SOCY320 Poverty and African American Children (3 Credits)
The United States has high levels of child poverty compared to other industrialized nations. Poverty rates are particularly high among African American children. This course focuses on how poverty and race intersect to influence the development of children and youth. Specific topics that we will consider include definitions of poverty, theories about the causes of poverty, racial disparities in child poverty, family functioning in the context of poverty, neighborhood influences, risk and protective processes, and social policies and programs designed to mitigate the impact of poverty.
Cross-listed with: AAAS320.
Credit Only Granted for: AASP320, AAAS320, AASP298P or SOCY320.
Formerly: AASP298P.

SOCY322 Immigration and Ethnicity in the US (3 Credits)
Explores historical and contemporary Asian immigration to the US in comparison to and in the context of other immigrant groups. From low-skilled laborers to highly-skilled professionals, Asian and other immigrants have been an integral part of the shifting US economy and society since its inception. The course includes theories on why immigration occurs, determinants of its continuation, the uses of migrant labor, and immigrant adaptation and settlement. The second part of the course focuses on theories of ethnicity and racial formation and how immigrants develop and challenge the definitions of race, ethnicity, the "other", and ultimately, who is American. Students will also have the opportunity to gain first-hand knowledge of the immigrant experience through a life history interview project.
Cross-listed with: AAST322.
Credit Only Granted for: AAST322, SOCY222, HIST322 or SOCY322.
Formerly: AAST222, SOCY222.

SOCY325 The Sociology of Gender (3 Credits)
Institutional bases of gender roles and gender inequality, cultural perspectives on gender, gender socialization, feminism, and gender-role change. Emphasis on contemporary American society.
Prerequisite: 3 credits in SOCY courses.
Cross-listed with: WGSS325.
Credit Only Granted for: SOCY325, WMST325 or WGSS325.
Formerly: WMST325.

SOCY335 Sociology of Health and Illness (3 Credits)
An exploration of the social model to studying health and illness: how meanings and experiences of health and illness are socially produced. How experiences are shaped by the interaction of external social environments (culture, community) and the internal environment (human body), and by socio-demographic variables (race, class, gender, etc.). Disparities in health and healthcare delivery, medicalization of society, determinants of health, social construction of illness, and the social organization of health care.

SOCY336 Gender and Health (3 Credits)
The relationship between gender and health is the central focus of this course. We consider how health disparities between women and men vary by race and ethnicity, sexual and gender minority identity, and social class. We consider how institutional and cultural factors across social and spatial contexts influence gendered associations with physical and mental health. In addition, this is a course on how to do the disciplinary work of sociology. Social discourse and policies about health have been crucial to creating our current understanding of gender and health. This course will provide training in analyzing health disparities and preparing research and policy briefs about how to address these disparities. This will happen through group projects and a peer reviewed process that relies on critical feedback from sociologists engaged in the same project, in this case, the other students in this course.
Credit Only Granted for: SOCY236 or SOCY336.
Formerly: SOCY236.

SOCY340 Globalization's Winners and Losers (3 Credits)
What is the relationship between globalization and inequality? This course examines the factors shaping both between-nation and within-nation household income inequality for the past century. It is divided into four parts, each considering a different factor. First we seek to understand global trade historically. Second, we examine the more recent phenomenon of outsourcing. Third, we examine welfare and taxation policy and its role in shaping domestic inequality. Finally, we analyze the mechanisms for the accumulation of capital within global finance. By the end of the course, students will be able to discuss globalization beyond the "is it good or bad" binary and understand the complex interaction between domestic politics and international trade.

SOCY358 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

SOCY370 Career Exploration and Professional Development for Sociology Majors (1 Credit)
Prepares Sociology majors to make the transition from undergraduate to entering graduate school and/or the professional work world. Topics include career options in Sociology, skills for conducting a job search, resume writing and interview preparation, and the graduate application process.
Restriction: Must be in the Sociology major.

SOCY378 Undergraduate Teaching Assistantship (1-3 Credits)
The Undergraduate Teaching Assistant position offers exceptional Sociology undergraduates the opportunity to actively contribute to the educational process. This hands-on role involves assisting faculty in classroom activities, mentoring fellow students, and supporting academic assignments and assessments. Throughout the course, students develop crucial teaching and communication skills, learn effective time management, and gain valuable teamwork experience. This position not only enhances students' resumes but also equips them with skills vital for future academic and professional roles. This is an individual instruction course; contact the department or instructor to obtain section number.
Restriction: Permission of the Sociology Department.
Repeatable to: 9 credits if content differs.

SOCY380 Honors Independent Reading in Sociology (3 Credits)
This course permits sociology honor students to undertake a program or reading on a particular problem in sociology or a subfield therein. The reading will be done under the supervision of a member of the sociology faculty. Required of sociology honor students.
Restriction: Permission of BSOS-Sociology department.

SOCY381 Honors Independent Research in Sociology (3 Credits)
This course permits sociology students to define a particular problem in sociology or a subfield therein and to develop a research plan for use as a thesis topic. The work will be done under the supervision of a member of the sociology faculty.
Prerequisite: SOCY380.

SOCY383 Honors Thesis Research (3 Credits)
Student research under the direction of a member of the sociology faculty, culminating in the presentation and defense of a thesis reporting the research.
Prerequisite: SOCY381.

SOCY386 Experiential Learning (3-6 Credits)
Restriction: Permission of BSOS-Sociology department; and junior standing or higher.

SOCY391 Surveillance and the Erosion of Privacy (3 Credits)
Our world is under increasing amounts of surveillance, from states, corporations, and other individuals. These activities may affect our sense of privacy since surveilling others is done as a means to gather knowledge. This class examines surveillance and privacy together in order to answer the following questions: Are acts of surveillance in contemporary society eroding our sense of privacy? Are certain populations more or less privileged in terms of having privacy rights? How can we protect privacy rights in an age of surveillance?

SOCY398 Special Topics in Sociology (1-3 Credits)
Topics of special interest to both sociology majors and non-majors.
Prerequisite: 3 credits in SOCY courses.
Repeatable to: 6 credits if content differs.

SOCY398G Global Migration and the Israeli Case Study (3 Credits)
Over 70% of Israel's population is made of first, second or third generation immigrants, who came from over 70 countries, making Israel an ultimate immigrant society. This course will focus on the history of Israel as a case study for the understanding of the historical phenomena of modern immigration.
Cross-listed with: ISRL343.
Credit Only Granted for: ISRL349K, GVPT368G, SOCY398G, SOCY398I, or ISRL343.
Formerly: ISRL349K.

SOCY399 Independent Study in Sociology (1-6 Credits)
Integrated reading or research under the direction and supervision of a faculty member. A maximum of 6 credits may be earned by a student for the same field experience in SOCY386 and SOCY399 combined.
Prerequisite: 12 credits in SOCY courses.
Restriction: Permission of BSOS-Sociology department.
Repeatable to: 6 credits if content differs.

SOCY401 Intermediate Statistics for Sociologists (3 Credits)
This is a course about multiple regression for undergraduate students and presumes that students taking this course will be both producers and consumers of multiple regression results. Students will work with the instructor to produce a research poster presentation based on secondary social science data. In addition to multivariable statistics, students will learn some statistical programming as well as how to organize a research presentation.
Prerequisite: SOCY201 and SOCY202; or permission of the Sociology department.
Restriction: Must not have completed STAT400, BMGT231, or ENEE324.

SOCY407 Explaining Social Change: Fact and Fiction in Understanding Why Our World Looks the Way it Does (3 Credits)
Examines large-scale processes of social change that have produced durable and defining aspects of our contemporary world and asks, How did we get here? It focuses on four key issues: how markets and the pursuit of profit came to organize virtually all aspects of material life and restructured societies around social classes; how democratic forms of governance emerged to direct states and the persistent challenges presented by authoritarian rule; how social revolution erupts and what kinds of changes it yields; and how warfare between states can produce varieties of change not necessarily comprehended in the foregoing domains.
Prerequisite: 6 credits in SOCY courses or permission of Sociology Department.
Credit Only Granted for: SOCY498Y or SOCY407.
Formerly: SOCY498Y.

SOCY410 Social Demography (3 Credits)
Demography is the scientific study of human populations including their size, distribution, composition, and the processes that change these characteristics. Social demography examines how population processes interrelate with institutions in society, such as the family and the economy.
Prerequisite: 6 credits in SOCY courses; or permission of BSOS-Sociology department.

SOCY411 Demographic Techniques (3 Credits)
This is a survey course in techniques that are widely used in demographic analysis. These include techniques that describe population structure and change, that analyze fertility, mortality, and migration, and that evaluate demographic data. In addition, many of the analytic skills and techniques of the course have more general applicability in social science and population health research.
Prerequisite: SOCY201 and SOCY410; or permission of the Sociology department.

SOCY412 Family Demography (3 Credits)
Family and population dynamics. Fertility issues, such as teenage pregnancy, the timing of parenthood, and family size, as they relate to family behavior, such as marital patterns, child care use, and work and the family. Policy issues that relate to demographic changes in the family.
Prerequisite: SOCY201 and SOCY202; or permission of the Sociology department.

SOCY413 Sociology of Aging (3 Credits)
The aging of the population is one of the major demographic changes affecting social institutions during the next century. Research demography, sociology, economics, epidemiology, psychology and public health are integrated to develop a broader understanding of the causes and consequences of population aging. A central focus is the diversity of experiences by age, gender, socioeconomic status and health.
Prerequisite: SOCY201 and SOCY202; or permission of the Sociology department.

SOCY415 Environmental Sociology (3 Credits)
Overview of the field and theoretical themes within the area of environmental sociology and technology. Current issues are explored including: environmental attitudes; environmental movements; environmental justice; globalization; global climate change; and garbage and food.
Prerequisite: 6 credits in SOCY courses.

SOCY418 Research in Family & Demography (3 Credits)
This is a special topics research course for Family and Demography.
Prerequisite: SOCY201 and SOCY202; or permission of the Sociology department.
Repeatable to: 6 credits if content differs.

SOCY420 Qualitative Research Methods in Sociology (3 Credits)
Using the sociological imagination to independently explore research questions as designed by students. Readings will explore dilemmas qualitative researchers confront such as, how to conduct research ethically and how their background influences their findings and analysis. Students will learn how to collect data, analyze it, and present it to others.
Prerequisite: SOCY201 and SOCY202; or permission of the Sociology department.

SOCY424 Sociology of Race Relations (3 Credits)
Encourages sociological thinking about US racial and ethnic minority populations, with a focus on African Americans, Latinos, Asian Americans, and Native Americans. The central concern is to understand and explain racial/ethnic inequality. A wide array of topics are discussed, including prejudice and discrimination, slavery, residential segregation, cultural inequality, skin tone stratification, economic and educational disparities, and assimilation/generational processes.
Prerequisite: 6 credits in SOCY courses; or permission of the Sociology department.
Cross-listed with: AAST424.
Credit Only Granted for: SOCY424 or AAST424.

SOCY428 Research in Inequality (3 Credits)
This is the special topics research course for Stratification and Inequality.
Prerequisite: SOCY201 and SOCY202; or permission of the Sociology department.
Repeatable to: 6 credits if content differs.

SOCY431 Principles of Organizations (3 Credits)
Structural and processual characteristics of organizations that make them effective for different purposes and in different environments. Effects of different institutional environments, small group processes, organizational networks, and leadership. Types of organizations studied include formal bureaucracies, professional organizations, and voluntary associations.
Prerequisite: SOCY201 and SOCY202; or permission of BSOS-Sociology department.

SOCY432 Social Movements (3 Credits)
This course broadens students' understanding of social movements in the United States. Many topics are discussed, including the emergence of social movements, why people join social movements, collective identity, gender, culture, emotions, tactics, repression, and the decline of social movements. Various movements are reviewed, including the civil rights movement, the Chicano movement, the women's movement, the LGBTQ movement, the white power movement, the American Indian movement, and the animal rights movement.
Prerequisite: 6 credits in SOCY courses; or permission of BSOS-Sociology department.

SOCY435 Society, Biology, and Health (3 Credits)
It is not too far-fetched to speak of the pancreas under capitalism or the proletarian lung. Humans are social beings in physical bodies. In this course, we draw on research studies, podcasts, news articles, and best-selling non-fiction to inform conversation and writing on how various dimensions of human biology influence, and are influenced by, our social and cultural environment. We focus on conceptualizing human behavior as an interplay between both nature and nurture, and consider how this approach changes our understanding of modern social problems. This course is appropriate for students with a range of backgrounds in the social and natural sciences; introductory-level supplemental readings on all necessary biological concepts will be provided.
Prerequisite: Must have completed 6 credits in SOCY courses or permission of BSOS Sociology Department.

SOCY441 Social Stratification and Inequality (3 Credits)
The sociological study of social class, status, and power. Topics include theories of stratification, correlates of social position, functions and dysfunctions of social inequality, status inconsistency, and social mobility.
Prerequisite: 6 credits in SOCY courses; or permission of BSOS-Sociology department.
Restriction: Junior standing or higher.

SOCY442 The Black Middle Class (3 Credits)
Students will learn about the Black Middle Class. They will examine and explore the historical context that led to the rise of a Black Middle Class. Innovative avenues into the Black Middle Class will also be examined, including various household and family formations. Finally, the course will cover the consequences of being in the The Black Middle Class, with an emphasis on residential segregation and racial identity.
Prerequisite: 6 credits in SOCY courses.

SOCY445 Sex and Love in Modern Society (3 Credits)
Sociological theories of sex and gender are used to explore empirical research on women's and men's sexual behavior and attitudes; variation in gendered sexuality by key social characteristics and how gendered sexuality is constructed and controlled; changes in sexuality over time and across relationship types, focusing on changes in sexual desire and behaviors and on the changing meaning of sex and marriage in U.S. society and other countries. Contemporary debates about sexuality will also be examined.
Prerequisite: SOCY201, SOCY202, SOCY203, and SOCY230.
Restriction: Must be in Sociology program; or permission of BSOS-Sociology department.

SOCY450 Investigating Women's Empowerment in Low and Middle Income Countries (3 Credits)
Students in this course will learn how the study of women's empowerment in low and middle income countries (LMICs) has developed, its current state of measurement, and new avenues to pursue in the future. Examining the extensive research on gender-based inequalities in educational attainment, employment rates, and health status, students will investigate how power imbalances across individuals, households, and institutional factors result in persistent inequality. Bringing an intersectional perspective to the forefront of the course, we will study how to design effective intervention policies that seek to improve the daily lives of women, girls and their families.
Prerequisite: SOCY201 and SOCY202; or permission of BSOS-Sociology department.

SOCY451 Sociology of Culture (3 Credits)
Analyzes the relationship between society and culture. How do social forces affect cultural objects and products? How do values and meanings shape individual behavior? How can culture be both a source of domination and resistance? These and other topics will be analyzed to show the role of culture in our lives.
Prerequisite: 6 credits in SOCY courses; or permission of the department.
Credit Only Granted for: SOCY498C or SOCY451.
Formerly: SOCY498C.

SOCY452 Sociology of Mental Health (3 Credits)
The class focuses upon the larger question: "What is the balance between people being mentally 'ill' and us having a 'sick' society?" To explore this question, students will utilize sociological approaches toward mental illness and health. This will manifest as a focus on how social organization is related to mental health and illness. Students will consider how sociologists understand the nature, distribution, and treatment of mental illness and health in society, and will develop a personal understanding of what it means to be mentally healthy.
Prerequisite: 6 credits in SOCY courses; or permission of the department.
Credit Only Granted for: SOCY498O or SOCY 452.
Formerly: SOCY498O.

SOCY453 Racial Residential Segregation (3 Credits)
Examines how race and ethnicity have historically shaped residential patterns in the U.S. and their continuing importance today. Students will investigate the causes of residential segregation, including residential preferences, discrimination, and socioeconomic differences between racial and ethnic groups. Significant attention will be paid to how immigration and ensuing ethnic and racial diversity are reshaping the residential landscape. The readings highlight the U.S. context, though residential patterns in different countries are also briefly discussed.
Prerequisite: 6 credits in SOCY courses; or permission of the department.
Credit Only Granted for: SOCY498D or SOCY453.
Formerly: SOCY498D.

SOCY455 Social Dimensions of Privacy and Surveillance (3 Credits)
Today, it is quite common in many spheres of life that we divulge personal information in exchange for something else. This course examines practices of surveillance in contemporary society in relationship to collective understandings of privacy. By the end of this course, students will be able to analyze privacy norms and practices in the age of mass surveillance, how surveillance produces inequalities in relation to privacy, and how definitions and regulations of privacy and surveillance change over time.
Prerequisite: 6 credits in SOCY courses; or permission of the department.
Credit Only Granted for: SOCY391 or SOCY455.

SOCY456 Smart Machines and Human Prospects (3 Credits)
Artificial intelligence is everywhere and never sleeps. It is transforming our social institutions in intended and unintended ways. While scientists debate the feasibility of engineering conscious machines with general intelligence, no one debates that the global race is on to create more potent computers. Through targeted research, discussion, and presentation of findings students will answer a specific question on how, where, and in what ways society is being changed by smart machines.
Prerequisite: SOCY201 and SOCY202; or permission of the Sociology department.
Credit Only Granted for: SOCY416 or SOCY456.

SOCY457 Sociology of Law (3 Credits)
Students will be introduced to sociological theories and frameworks used to examine how the law shapes society and how society shapes the law. Students will explore various approaches to jurisprudence influenced by sociology and investigate: how different social theorists have interpreted the role of law in society, whose interests the law serves, and the law's role in societal transformation. The course will enable students to understand how the law influences and is influenced by power, social change, legitimacy, compliance, deterrence, social reproduction, and inequality (including race, class, gender, and sexuality).
Prerequisite: 6 credits in SOCY courses; or permission of BSOS-Sociology department.

SOCY458 Special Topics in Study Abroad IV (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

SOCY461 Sociology in Action: Research and Community Engagement in Prince George's County (3 Credits)
Sociology in Action is a research course that will use the science of sociology to inform real life issues and contribute to the development of social programs. In this course, students will gain hands-on experience in applying sociology by working with clients in Prince George's County on specific social problems and issues. Please assess your ability to commit to this course and fulfill all requirements. Given that students will be working with Prince George's County organizations, there will be some variation and unpredictability in the nature of the projects.
Prerequisite: SOCY202; or students who have taken courses with similar content may contact the department.

SOCY462 Digital Technology and Society (3 Credits)
Situates digital technology in our social environment and then examines how this relationship reflects, reinforces, or reorders social hierarchies. Students will learn the conceptual and methodological foundations for studying and evaluating how technologies such as health and social media apps, the personal computer, artificial intelligence, and weapons of war have evolved, diffused and impacted social life. Students will explore and then conduct independent research on the relationship between technology and social inequalities through the lens of health and medicine, the environment and climate change, jobs and the workplace, as well as government and criminal justice.
Prerequisite: Must have completed 6 credits in SOCY courses; or permission of BSOS-Sociology department.

SOCY463 Sociology of Masculinity: How Much Has Masculinity Really Changed? (3 Credits)
An examination of the history both feminist social movements and feminist sociology in a specific way. It uses the sociological subfield of men and masculinities as a keyhole through which we will study 'the stalled revolution' for women's equality. Along the way, we will familiarize ourselves with academic and popular reports about changing and contested definitions, ideas, and behaviors of masculinity.
Prerequisite: 6 credits in SOCY courses; or permission of BSOS Sociology department.

SOCY465 The Sociology of War: State and Society since the American Revolution (3 Credits)
Since the American and French Revolutions at the end of the eighteenth century, warfare has been marked by the way national states draw ordinary people into armed conflicts–as members of the military, producers and controllers of resources and supporters or resisters, and also as targets and victims. This course examines how the centering of ordinary people in war has transformed over time, continuing right up to the current conflict in Ukraine. Alongside explaining why states make war the way they do, the course explores the impacts of making war and living through conflict on the societies embroiled in it.
Prerequisite: Must have completed 6 credits in SOCY courses; or permission of BSOS-Sociology department.
Credit Only Granted for: SOCY465 or SOCY265.

SOCY467 Sociology of Education (3 Credits)
Students will examine educational institutions from a sociological perspective by analyzing the latent and manifest functions of schooling. Students will study schools as structured organizations; investigate the various roles and subcultures present among teachers and students; and explore educational disparities in access and achievement.
Prerequisite: 6 credits in SOCY courses; or permission of BSOS-Sociology department.

SOCY470 Pregnancy and Parenthood in an Unequal Society (3 Credits)
Analysis of patterns in sexual activity, contraceptive use, and unintended pregnancy, and how they reinforce or alleviate socioeconomic, gender, and racial inequalities. Emphasis on the role of healthcare providers and contraceptive access, attitudes about motherhood and contraception, policy interventions, and institutional designs. Social and economic consequences of increasing women's ability to control their fertility.
Prerequisite: 6 credits in SOCY courses; or permission of Sociology Department.

SOCY475 Sociology of Emotions (3 Credits)
Emotions are often thought of as purely subjective experiences. How much more personal than one get than their emotions and feelings? In addition to their physiological and psychological aspects, however, emotions have a social side that often go unnoticed. This course will introduce you to the social aspects of emotions. In doing so, we will cover wide-ranging topics including the social causes of emotions, social norms about emotions, disparities in emotionalexperiences, and the ways in which emotions can maintain and reshape society.
Prerequisite: 6 credits in SOCY courses; or permission of BSOS-Sociology Department.
Credit Only Granted for: SOCY498W or SOCY475.
Formerly: SOCY498W.

SOCY480 Researching the Middle East (3 Credits)
Introduces religion, gender, and politics in the Middle East and North Africa. After an overview of the political and social history the focus will be on methods for carrying out research on fundamental issues facing Middle Eastern societies, including national identity, religion, gender relations and the status of women in the family, politics, education, and labor market.
Prerequisite: SOCY201 and SOCY202; or permission of the Sociology department.

SOCY481 Ideology and Social Conditions in the Making of Terrorism in the Middle East and North Africa (3 Credits)
The sociology of terrorism and political violence in the Middle East and North African will be explored in this course.
Prerequisite: Must have completed 6 credits in SOCY courses or permission of the Sociology department.
Restriction: Sophomore standing or higher.

SOCY490 Experimental Research Practicum (3 Credits)
Hands-on experience in designing, conducting, and analyzing experimental research. Introduces students to causal inference in social scientific research, focusing on experimental designs. Students will get hands-on research experience running experimental studies in the group processes lab. Students will also work with the professor and graduate students in the department to develop a research idea that can be executed in the spring semester.
Prerequisite: SOCY201 and SOCY202; or permission of the Sociology department.
Additional Information: This is the first course in the experimental research practicum 2-course sequence.

SOCY491 Experimental Research Design (3 Credits)
Students will finalize the design of their studies from the fall semester and carry out the research in this course. Introduces students to analyzing experimental data and presenting results from these data. Students will continue to get hands-on research experience running experimental studies in the group processes lab and working with the professor and graduate students in the department to further develop their projects.
Prerequisite: SOCY201, SOCY202 and SOCY490; or permission of BSOS-Sociology department.
Additional Information: This is the second course in the experimental research practicum 2-course sequence.

SOCY498 Selected Topics in Sociology (1-3 Credits)
Topics of special interest to advanced undergraduates in sociology. Such courses will be offered in response to student request and faculty interest.
Prerequisite: SOCY201 and SOCY202; or permission of BSOS-Sociology department.
Repeatable to: 6 credits.

SPAN - Spanish

SPAN103 Elementary Spanish for Intercultural Communication I (4 Credits)
Develops students' communicative competence at the novice mid/high level of proficiency. Introduces students to global Hispanophone cultures.
Prerequisite: Must have appropriate World Language Placement (WLP) score.
Restriction: Must not be a native/fluent speaker of Spanish. Native/fluent speakers of Spanish or students who have previously attended school in Spanish speaking countries should take the WLP and see the Spanish Undergraduate Advisor to identify the correct Spanish course for which to register.
Credit Only Granted for: SPAN102 or SPAN103.

SPAN169 Special Topics in Study Abroad I (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

SPAN203 Elementary Spanish for Intercultural Communication II (4 Credits)
Continues to develop students' communicative competence at the novice high/intermediate low level of proficiency. Furthers the introduction to global Hispanophone cultures.
Prerequisite: SPAN103; or must have appropriate World Language Placement (WLP) score.
Restriction: Must not be a native/fluent speaker of Spanish. Native/fluent speakers of Spanish or students who have previously attended school in Spanish speaking countries should take the WLP and see the Spanish Undergraduate Advisor to identify the correct Spanish course for which to register.

SPAN204 Intermediate Spanish for Intercultural Communication (3 Credits)
Further develops students' communicative competence at the intermediate mid/high level of proficiency. Fosters expanded knowledge of and appreciation for global Hispanophone cultures.
Prerequisite: SPAN203; or must have appropriate World Language Placement (WLP) score.
Restriction: Must not be a native/fluent speaker of Spanish. Native/fluent speakers of Spanish or students who have previously attended school in Spanish speaking countries should take the WLP and see the Spanish Undergraduate Advisor to identify the correct Spanish course for which to register.

SPAN206 Spanish for Heritage Speakers I (3 Credits)
Review of oral and written Spanish for students who have native or near native knowledge of, but no formal education in Spanish. Taught in Spanish.
Prerequisite: Native or near native knowledge of and no formal education in Spanish.

SPAN207 Reading and Writing in Spanish (3 Credits)
Selected readings with emphasis on reading comprehension and the development of reading strategies. Work in composition writing and a review of selected grammatical topics. Complements material of SPAN204.
Prerequisite: Must have completed or be concurrently enrolled in SPAN204; or must have appropriate World Language Placement (WLP) score.

SPAN222 Cultural Difference in Contemporary Latin America (3 Credits)
Introduction to representations and expressions in Latin America: cultural stereotypes, representations of difference, forms of discrimination, sublimation of difference into national identity, and the staging of the other. Taught in English.

SPAN224 Violence and Resistance in the Americas (3 Credits)
Indigenous vision of violence and resistance in the Americas. Texts and maps from the European explorers and conquerors are also studied. Readings include primary texts from the 16th as well as from the 20th century. Taught in English.

SPAN228 Selected Topics in Latin American Literature and Society (3-6 Credits)
Variable cultural studies topics on literature and society in contemporary Latin America. Taught in English.
Cross-listed with: PORT228.
Repeatable to: 6 credits if content differs.
Credit Only Granted for: PORT228 or SPAN228.

SPAN229 Selected Topics in Latin American Culture (1-3 Credits)
Varied topics in Latin America culture.
Repeatable to: 9 credits if content differs.

SPAN234 Issues in Latin American and Caribbean Studies I (3 Credits)
Interdisciplinary study of major issues in Latin America and the Caribbean, including Latin America's cultural mosaic, migration and urbanization. Democratization and the role of religions. Taught in English.
Cross-listed with: LACS234, PORT234.
Credit Only Granted for: LASC234, PORT234, SPAN234, or LACS234.
Formerly: LASC234.

SPAN235 Issues in Latin American and Caribbean Studies II (3 Credits)
Major issues shaping Latin American and Caribbean societies including the changing constructions of race, ethnicity, gender and class as well as expressions of popular cultures and revolutionary practices. Taught in English.
Cross-listed with: LACS235, PORT235.
Credit Only Granted for: LASC235, PORT235, SPAN235, or LACS235.
Formerly: LASC235.

SPAN269 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

SPAN301 Advanced Grammar and Composition I (3 Credits)
Practice of complex grammatical structures through reading and writing of compositions and essays. Specific lexical, syntactic, rhetorical, and stylistic devices will be highlighted.
Prerequisite: Must have completed or be concurrently enrolled in SPAN207.

SPAN302 Advanced Grammar and Composition II (3 Credits)
Practice in and writing of different types of compositions and essays, including narrations, descriptions, and persuasive writing. Review of problematic syntactical structures.
Prerequisite: SPAN301.

SPAN303 Approaches to Cultural Materials in the Hispanic World (3 Credits)
Development of proficiency in critical thought through the reading, viewing, and analytical discussion of major genres and styles of cultural materials selected from Spanish-speaking world. Taught in Spanish.
Prerequisite: SPAN301.
Recommended: May elect to take SPAN311 and/or SPAN316 in same semester as SPAN303.

SPAN306 Spanish for Heritage Speakers II (3 Credits)
Practice of complex grammatical structures through reading and writing of compositions and essays. Specific lexical, syntactic, rhetorical and stylistic devices will be highlighted. Designed for Spanish speakers educated in English. Taught in Spanish.
Prerequisite: SPAN206.

SPAN307 Oral Communication Skills for Heritage Speakers of Spanish (3 Credits)
Development of techniques for formal public speaking in Spanish. Writing and delivering oral presentations for varied audiences and purposes. Includes strategies for organization, the use of rhetorical patterns, and the development of effective discourse. Designed for Heritage speakers of Spanish with native or near native knowledge of Spanish, but no formal education in Spanish. Taught in Spanish.
Prerequisite: Native or near native knowledge of and no formal education in Spanish.

SPAN311 Advanced Communication I (3 Credits)
Further development of listening, speaking, and writing skills in Spanish. Opportunity to develop oral and written fluency, improve pronunciation and increase vocabulary. Individual and/or group oral presentations. Taught in Spanish.
Prerequisite: SPAN301; and must have completed or be concurrently enrolled in SPAN303.
Restriction: Must not be a native/fluent speaker of Spanish.

SPAN312 Advanced Conversation II (3 Credits)
Continued mastery of listening and speaking skills in Spanish. Opportunity to develop oral fluency, improve pronunciation, and increase vocabulary. Emphasis on colloquial and technical language as well as development of linguistic accuracy. Individual and/or group oral presentation.
Prerequisite: SPAN311.
Restriction: Must not be a native/fluent speaker of Spanish.

SPAN316 Spanish Translation I (3 Credits)
Translation of texts into Spanish and/or English. Taught in Spanish.
Prerequisite: SPAN301; and must have completed or be concurrently enrolled in SPAN303.

SPAN317 Translation II (3 Credits)
Translation of non-literary, non-technical texts into Spanish and/or English.
Prerequisite: SPAN316.

SPAN318 Translation of Technical Texts (3 Credits)
Specialized texts in law and international affairs into Spanish and/or English. Taught in Spanish.
Prerequisite: SPAN303; and (SPAN311 or SPAN316).
Repeatable to: 6 credits if content differs.

SPAN325 Hispanic Linguistics I: Grammar and Society (3 Credits)
Sociolinguistic approach to Spanish grammar focusing on real-life exploration of the ways linguistic structures change and are used in different parts of the Spanish-speaking world. Taught in Spanish.
Prerequisite: SPAN303; and (SPAN311 or SPAN316).
Credit Only Granted for: SPAN310 or SPAN325.
Formerly: SPAN310.

SPAN331 Spanish Culture, Civilization and Literature I: Medieval Times (3 Credits)
The exploration of cultures of the Iberian Peninsula from its origins until the 15th century as well as the study of historical and political events that gave rise to the Spanish state. Taught in Spanish.
Prerequisite: SPAN303; and (SPAN311 or SPAN316).

SPAN332 Spanish Culture, Civilization and Literature II: Renaissance and Baroque (3 Credits)
An overview of cultural and literary production of Spain from the late 15th through late 17th centuries, exploring the production of literary texts in their socio-historical, political, religious and cultural contexts and development. Taught in Spanish.
Prerequisite: SPAN303; and (SPAN311 or SPAN316).

SPAN333 Spanish Culture, Civilization and Literature III: Modern Times (3 Credits)
An overview of cultural and literary production of Spain from the late 17th century through the present day, exploring the production of literary texts in their socio-historical, political, religious and cultural contexts and development. Taught in Spanish.
Prerequisite: SPAN303; and (SPAN311 or SPAN316).

SPAN335 Cultural History of Seville (4 Credits)
Cultural History of Seville: An exploration of the Iberian, Mediterranean, and transatlantic contexts shaping the history, identity, and cultural and artistic expressions of Seville. Includes texts from the Middle Ages to the twenty first century. Focus on the historical, literary and cultural evolution of Seville from the Roman Empire and the Moorish occupation to the discovery and conquest of America until present times. Taught in Spanish.
Prerequisite: SPAN301.
Recommended: SPAN303.

SPAN359 Spanish for the Professions (3-9 Credits)
Exploration of cultural and linguistic skills for different professional contexts including vocabulary, listening, speaking, reading and strategies. No experience in the professional area necessary. Taught in Spanish.
Prerequisite: SPAN316; or permission of department.
Repeatable to: 9 credits if content differs.

SPAN361 Latin American Literatures and Cultures I: From Pre-Columbian to Colonial Times (3 Credits)
Overview of cultural history of Latin America from pre-Columbian civilizations to the Colonial period, exploring the foundations of the Spanish American cultural and literary tradition to approximately 1770. Taught in Spanish.
Prerequisite: SPAN303; and (SPAN311 or SPAN316).

SPAN362 Latin American Literatures and Cultures II: From Independence to Nation Formation (3 Credits)
An overview of cultural and literary production of Latin America from the 18th Century to approximately 1900, exploring the production of literary texts in their socio-historical, political, and cultural contexts and development. Taught in Spanish.
Prerequisite: SPAN303; and (SPAN311 or SPAN316).

SPAN363 Latin American Literatures and Cultures III: From Modernism to Neo-Liberalism (3 Credits)
An overview of cultural and literary production of Latin America from the late 19th through the early 21st centuries, exploring the production of literary texts in their socio-historical, political, and cultural contexts and development. Taught in Spanish.
Prerequisite: SPAN303; and (SPAN311 or SPAN316).

SPAN369 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

SPAN370 Spanish for Business I (3 Credits)
Business Spanish terminology, vocabulary and practices. Emphasis on everyday spoken and written Spanish. Readings and discussions of Spanish commercial topics. May include exposure to Spanish commercial topics. May include exposure to Spanish business environments. Taught in Spanish.
Prerequisite: SPAN303; and (SPAN311 or SPAN316).

SPAN371 Spanish for the Health Professions (3 Credits)
Exploration of cultural and linguistic skills for the health professions including vocabulary, listening, speaking, reading and strategies. No experience in the professional area necessary. Taught in Spanish.
Prerequisite: SPAN303; and (SPAN311 or SPAN316).

SPAN372 Spanish and the Law (3 Credits)
Offers students the opportunity to enhance Spanish linguistic and intercultural communication skills in contexts of legal practice through the translation of a variety of legal documents. Introduces Spanish legal terminology in areas such as immigration, consumer protection, and criminal/employment/housing/family law. Students will learn how to apply these language and cultural skills as future legal practitioners interacting with clients who possess limited English proficiency. Native or fluent guest participants will expose students to legal terminology, registers, and dialects from various Spanish-speaking countries. The goal of the class is to enable students to, at a minimum, conduct intake interviews in a culturally competent fashion with Spanish-speaking clients without the assistance of interpreters. The course is designed to be beneficial for students with varying levels of Spanish language ability, up to and including students who are native or heritage speakers of Spanish. Taught in Spanish
Prerequisite: SPAN311 or SPAN316.

SPAN373 Spanish in the Media (3 Credits)
Exploration of Spanish in current events in the Hispanic world in local and international press and varied media, and production of journalistic articles.
Prerequisite: SPAN303; and (SPAN311 or SPAN316).

SPAN374 Spanish in the Community (3 Credits)
Provides students with context for understanding, communicating with, and working with the Spanish-speaking community. Topics include Latino/a demographics, cultures, communities, work opportunities and local uses of Spanish. Requires outside service-learning work.
Prerequisite: SPAN303; and (SPAN311 or SPAN316).

SPAN375 Spanish in the Life Sciences (3 Credits)
Communication and critical thinking skills in Spanish through the study of materials related to science. The course engages students in class discussions about a variety of topics in different formats, such as book chapters, articles, film, art, and literary works. The course is divided into five units that will allow the study of specific geographies, topics, and cases in the Spanish-speaking world. Assignments include a research proposal and visits to the National Zoo and the National Museum of Natural History. No technical knowledge is necessary, as we will emphasize the language of science, not the content itself. Taught in Spanish.
Prerequisite: SPAN303 and SPAN311; or SPAN316; or permission of instructor.

SPAN386 Experiential Learning (3-6 Credits)
Prerequisite: Permission of ARHU-School of Languages, Literatures, and Cultures department.
Restriction: Junior standing or higher.

SPAN388W Writing Center Internship (1-6 Credits)
Examines face-to-face and online writing center theory and practice through readings, exercises, and supervised tutoring. Students investigate the writing process and help other writers to negotiate it.
Prerequisite: Permission of the Writing Center (1205 Tawes Hall).
Cross-listed with: ENGL388W.
Repeatable to: 12 credits.
Credit Only Granted for: ENGL388W or SPAN388W.

SPAN399 Independent Study in Spanish (1-3 Credits)
Specific readings in literature or a translation project under the supervision of a faculty member of the department.
Prerequisite: Permission of ARHU-School of Languages, Literatures, and Cultures department.
Repeatable to: 3 credits.

SPAN401 Advanced Composition I (3 Credits)
Compositions and essays with emphasis on stylistics, idiomatic and syntactic structures. Organization and writing of research papers.
Prerequisite: SPAN302; or permission of ARHU-School of Languages, Literatures, and Cultures department.

SPAN402 Advanced Composition II (3 Credits)
Compositions and essays with emphasis on stylistics, idiomatic and syntactic structures. Organization and writing of research papers.
Prerequisite: SPAN401; or permission of ARHU-School of Languages, Literatures, and Cultures department.

SPAN404 The Bright Middle Ages (3 Credits)
The period that precedes the Renaissance has been traditionally labeled as the "dark" Middle Ages and it is common to associate an evil, brutality and barbarian life style with the time span comprised of between the 5th and the 15th centuries. This undergraduate seminar does not intend to embellish the truth or to minimize the hardships of life and death at the time of the Crusades. In fact, an objective timeline of historical events that marked that period as middle will be provided, and the central question to be addressed in this class is, "Middle of what"? As we try to answer it, we will be able to examine many "modern" aspects of the Middle Ages. Some of them have been highlighted since the beginning of the 20th century and justify a view of the Middle Ages as a bright and "modern" period in which, while overcoming despicable difficulties and a lack of facilities, the most precious treasures of our times were intellectually conceived, manufactured, built, and written. Taught in Spanish.
Prerequisite: SPAN331, SPAN332, SPAN333, SPAN361, SPAN362, or SPAN363; or permission of instructor.
Credit Only Granted for: SPAN404, or SPAN408I.
Formerly: SPAN408I.

SPAN405 North American Neomedievalism: the U.S. East Coast and 16th-Century Spain (3 Credits)
The fall of the Roman Empire certainly did not affect North America, but the European Middle Ages created several patterns of expansion that, with considerable transformations, are present in North America and all over the world. Through the study of Neomedievalism, students will be able to better understand today's national and international relations. We will read scholarship that helps us understand that it is not an accident that we have replicas of medieval villas and that we are increasingly interested in developing games and producing movies that replicate medieval life. We will also study why the failure and success of social and economic systems of the past have influenced modern civilizations and why the loaded concepts of "barbarian" and "foreign" have not disappeared. Taught in Spanish.
Prerequisite: SPAN331, SPAN332, SPAN333, SPAN361, SPAN362, or SPAN363; or permission of instructor.
Credit Only Granted for: SPAN405 or SPAN408C.
Formerly: SPAN408C.

SPAN406 Don Juan Manuel's Fictional and Historical Prose (3 Credits)
Dedicated to the literary production of an important author: Don Juan Manuel. By examining the interaction among writing, reading and the oral acquisition of knowledge in his works, special attention will be given to how the border between fact and fiction is constructed in the Middle Ages.
Prerequisite: SPAN333, SPAN361, SPAN331, SPAN332, SPAN362, or SPAN363.

SPAN407 Early Modern US and Early Modern Spain: A Common History (3 Credits)
The impact of Spanish early modern literature, cartography and architecture in the US Atlantic Coast (Labrador Peninsula to Florida). The class will start with readings that will provide a general overview of the Spanish presence in the US and its role in the early history of this country. We will continue reading about the voyages of exploration to the US East Coast of 1521-1526, which were sponsored by a Spaniard, Lucas Vazquez de Ayllon. These voyages subsequently resulted in a territory named "Tierras de Ayllon" (from Florida to the Chesapeake Bay). These Lands of Ayllon were located on the settlement of Chicora and the Missions of Ajacan and San Miguel de Gualdape. We will focus on the history and the geographical location of these Spanish establishments; they paralleled geographically and anteceded chronologically those of the British colony at Roanoke (1585) and the eventual establishment of Jamestown (1607). Taught in Spanish.
Prerequisite: SPAN331, SPAN332, SPAN333, SPAN361, SPAN362, or SPAN363; or permission of instructor.

SPAN408 Special Topics in Iberian and Latin American Studies (3 Credits)
Special topics in (a) the literature and film of Spain, Spanish-speaking Latin America, and U.S. Latina/o communities; (b) Spanish linguistics; and (c) Spanish, Latin American, and U.S. Latino cultural studies. Each topic will be announced when the course is offered.
Prerequisite: SPAN333, SPAN361, SPAN331, SPAN332, SPAN362, or SPAN363.

SPAN410 Libro de Buen Amor: Literary Matchmaking, Theory, and Praxis (3 Credits)
Literary traditions in the Libro de buen amor. Taught in Spanish
Prerequisite: One of the following SPAN331, SPAN332, SPAN333, SPAN361, SPAN362, or SPAN363; or permission of instructor.
Credit Only Granted for: SPAN410 or SPAN413.
Formerly: SPAN413.

SPAN412 Women in the Middle Ages: Myths and Daily Life (3 Credits)
Explores the role of women during the Middle Ages and analyzes the active participation of women in a society in which men's occupation was warfare. Also explores "feminine voices" and female representations in the literature of the times.
Prerequisite: SPAN333, SPAN361, SPAN331, SPAN332, SPAN362, or SPAN363.

SPAN418 Hispanic Literature in Translation (3 Credits)
Repeatable to: 6 credits if content differs.

SPAN420 Spanish and Spanish-Speaking Communities in the US (3 Credits)
Lays the foundations for the historical, linguistic, cultural, sociological, and political study of Spanish in the United States (US). The main goal of the course is to develop critical awareness about the relationship between language, individuals, and society within the diverse Spanish-speaking communities of the US. To this end, the course will analyze issues concerning, first, the historical and dialectal characteristics of the Spanish language in different regions of this country; second, the acquisition of Spanish as a minority language and in contact with both English and a large number of Spanish dialects; and third, the space that Spanish occupies in US public life now and in the future. The design of activities, assignments, and assessment procedures is based on promoting individual and collective awareness about crucial topics related to the present and the future of Spanish as one of the national languages of the US.
Prerequisite: SPAN325, SPAN425, or permission of instructor.
Credit Only Granted for: SPAN478A or SPAN420.
Formerly: SPAN478A.

SPAN422 Intercultural Communication and Negotiation (3 Credits)
Focuses on the relationship of language and culture of those operating in world markets. Particular attention will be given to intercultural communication, linguistic systems, culture specific perceptions of, and negotiation with, the Spanish-speaking world. Taught in Spanish.
Prerequisite: SPAN370 OR SPAN371 OR SPAN373 OR SPAN 374.
Restriction: Junior standing or higher.

SPAN425 Hispanic Linguistics II: Structures of Spanish (3 Credits)
This course begins with an introduction to general concepts in linguistics, from language function and the brain to communication, culture, and thought, and their relation to other disciplines in the social sciences. The main purpose of this course is to provide an overview of Hispanic linguistics through multiple perspectives, while exploring the areas of Spanish morphology, syntax, and semantics. This course will also focus on the structural tendencies of Spanish through a variety of practical activities. Taught in Spanish.
Prerequisite: SPAN303; and SPAN311 or SPAN316 or SPAN325.

SPAN426 Hispanic Linguistics III: Language in Use (3 Credits)
Designed for students without previous experience in Linguistics. Focus on language variation and use, linguistic change, and bilingualism. Taught in Spanish.
Prerequisite: SPAN303; and SPAN311 or SPAN316 or SPAN325. Also offered as: SPAN626.
Credit Only Granted for: SPAN426 or SPAN626.

SPAN427 Visions and Fictions from Spain (3 Credits)
Overview of Spanish Cinema from the end of the 19th century through present day Spain. Exploration of the production of literary and cinematic texts in their sociohistorical, political, religious and cultural contexts. Taught in Spanish.
Prerequisite: SPAN331, SPAN332, or SPAN333; or students who have taken courses with comparable content may contact the department; or permission of ARHU-Spanish & Portuguese Languages & Literatures department.
Cross-listed with: CINE427.
Credit Only Granted for: CINE427, FILM427 or SPAN427.
Formerly: FILM427.

SPAN431 Mexican Women Writers (3 Credits)
Focuses on Mexican women writers from the colonial period to the present. It consists of various types of texts, including poetry, short story, essay, and novel. Its principal themes include the relations among experience, knowledge, and expression; the presence or absence of women in literary histories, including Wikipedia pages; feminism; and the opportunities and challenges presented by the category of women writers. Taught in Spanish.
Prerequisite: SPAN331, SPAN332, SPAN333, SPAN361, SPAN362, or SPAN363; or permission of instructor.

SPAN432 Colonial Latin American Literature (3 Credits)
Examines the key themes, writers, literary movements, and cultural debates of the colonial period.
Prerequisite: SPAN333, SPAN361, SPAN331, SPAN332, SPAN362, or SPAN363.

SPAN433 Women and Culture in Colonial Latin America (3 Credits)
Considers questions of women and historical production, women writers in colonial times, and contemporary literary interpretations of colonial realities. Debates the continued legacy of female archetypes from the colonial period to the present, and epistemological questions regarding the production of knowledge.
Prerequisite: SPAN333, SPAN361, SPAN331, SPAN332, SPAN362, or SPAN363.

SPAN434 The Usable Past: Reflecting on Archives in Contemporary Fictions and Films from the Southern Cone (3 Credits)
Che Guevara on a t-shirt, Eva Peron in a Broadway musical, Bolivar as trans on a postcard, Gabriela Mistral on a peso bill, Pablo Neruda as a postman's friend, Frida Kahlo as a feminist icon, Artigas in a blues band ... The list goes on. Nevertheless, what all these cultural appropriations have in common is that the present has used the past to inscribe a functional narrative for that time. This course will not ask if we can know past events as they really happened, but rather it will explore how contemporary fictions, films, and visual art from the Southern Cone construct usable cultural archives for their present. Also, this seminar traces the ways in which contemporary authors, filmmakers, and visual artists reflect on the past in order to critically read their present. Concentrating on the past as both the subject of fiction and as a force for inscribing fiction, this seminar inscribes an approach to time that moves away from a linearity.
Prerequisite: SPAN331, SPAN332, SPAN333, SPAN361, SPAN362, or SPAN363; or permission of instructor.
Credit Only Granted for: SPAN434 or SPAN408F.
Formerly: SPAN408F.
Additional Information: Taught in Spanish.

SPAN435 Ecuador: Andean Spaces-Traversing the Colonial City and the Natural World (3 Credits)
Introduces students to the history and cultures of Ecuador from the colonial period to the beginning of the 19th century. By studying the socio-spatial configuration of the colonial city as exemplified by Quito, students will be immersed in the art, architecture, and other rich cultural legacies of Ecuador. Quito, a World Heritage site, offers students visually stunning churches, monasteries, colonial squares, a famed tradition of Baroque painting and sculptures, and vibrant indigenous and mestizo communities. As a contrast, students will explore also travel narratives that represent the natural Andean world while visiting Quito's surrounding areas. This course will interrogate the European influence on urban design and representations of the landscape of the Americas. Understanding this colonial past enhances the understanding of the modern history of the Andean region and Latin America as a whole. The students will gain a full appreciation of the European and Indigenous living heritage that composes the region today. Taught in English.
Cross-listed with: ARTH472.
Credit Only Granted for: SPAN435, SPAN448E, ARTH472 or ARTH369E.
Formerly: SPAN448E and ARTH369E.

SPAN436 Representations of Childhood and Youth in Latin American Literature and Film (3 Credits)
Focuses on the representation of childhood and youth in films and works of fiction from various regions of the Spanish-speaking Americas, including Mexico, the Caribbean, the US, and Peru. We are going to read various short stories and novels, and watch two films, all of which develop in different ways the topics of childhood and youth. Taught in Spanish.
Prerequisite: SPAN331, SPAN332, SPAN333, SPAN361, SPAN362, or SPAN363; or permission of instructor.

SPAN437 Love, Science, Religion and the Pursuit of Criollo Independence in 18th-Century Mexico (3 Credits)
Explores the 18th century from the periphery of traditionally studied centers of Enlightenment. By focusing on pre-independence Mexico, we will study the emergence of alternative scientific and religious discourses in an American context that leads to social and political changes at the onset of the 19th century. Students will watch the Mexican telenovela "Alborada" (2005-6), which fictionally explores many of the topics that are relevant for the course. Students will also read a variety of materials on the following subtopics: imperial designs, cultural production, inquisitional realities, medical discourse, individual and political rights, criollo consciousness, etc. All writing and discussion will be in Spanish. Taught in Spanish.
Prerequisite: SPAN331, SPAN332, SPAN333, SPAN361, SPAN362, or SPAN363; or permission of instructor.

SPAN438 Special Topics in Colonial Latin America (3 Credits)
The conquest and colonization of the New World produced a textual corpus of invaluable importance for the foundation of Spanish American literary tradition. Special topics (themes, authors, debates, etc.) relevant to the Colonial period will be addressed.
Prerequisite: SPAN333, SPAN361, SPAN331, SPAN332, SPAN362, or SPAN363.
Repeatable to: 9 credits if content differs.

SPAN440 Speaking Up/Out: Women Writers and Feminist Social Movements in Contemporary Latin America (3 Credits)
This seminar will explore how feminist subversion of naturalized power relationships has become a social force that is reshaping Latin American culture in the last several decades. Also, we will study how contemporary cultural artifacts contest value systems while rejecting entrenched hierarchies and norms. By reading contemporary women writers and by working on contemporary feminist social movements, this course will explore what the anthropologist Rita Segato has defined as "the war against women." Taught in Spanish.
Prerequisite: SPAN331, SPAN332, SPAN333, SPAN361, SPAN362, or SPAN363; or permission of instructor.

SPAN442 Detective Fiction in Latin America (3 Credits)
Focuses on Latin American detective fiction, including novels and short stories, whodunits and thrillers. Detective fiction's origins are primarily from outside of Latin America. Therefore the course will also include important texts from other traditions, including the US, English, and French. Taught in Spanish.
Prerequisite: SPAN303; and SPAN311 or SPAN316; and one from (SPAN331, SPAN332, SPAN333, SPAN361, SPAN362, or SPAN363) or permission of instructor.

SPAN448 Special Topics in Latin American Civilization (3 Credits)
Intensive independent study of a selected topic related to Latin American civilization.
Prerequisite: SPAN333, SPAN361, SPAN331, SPAN332, SPAN362, or SPAN363.
Repeatable to: 6 credits if content differs.

SPAN449 Special Topics in Spanish Civilization (3 Credits)
An intensive study of a selected topic related to Spanish civilization.
Prerequisite: SPAN333, SPAN361, SPAN331, SPAN332, SPAN362, or SPAN363.
Repeatable to: 6 credits if content differs.

SPAN450 The Hispanic Caribbean: What is a Beach? (3 Credits)
Explores the Hispanic Caribbean as "island spaces" of multiple migrations and cultural identities, as sites of colonial experiences and post-colonial debates.
Prerequisite: SPAN333, SPAN361, SPAN331, SPAN332, SPAN362, or SPAN363.

SPAN451 Paradise Lost: Cuban Cinematic Culture (3 Credits)
Explores the cinematic journey of the Cuban revolution from socialist utopia to bitter disillusionment. Taking as a point of departure the national postulates of an "Imperfect Cinema" and the different theorizations of "New Latin American cinema," the course will concentrate on the emergence and development of Cuban cinematic culture that has taken place during the revolution. Our objective is to explore how art and politics collide to reveal contested visions of a social process. Visual materials will include films and documentaries. Readings will include selections from historiographic and literary works, as well as contemporary critical studies. Taught in Spanish
Prerequisite: One course from SPAN331, SPAN332, SPAN333, SPAN361, SPAN362, or SPAN363; or permission of instructor.
Credit Only Granted for: SPAN451 or SPAN408P.
Formerly: SPAN408P.

SPAN452 Reflecting on Neoliberalism and Contemporary Southern Cone Culture (3 Credits)
An exploration of how neoliberalism and its market-driven economy have shaped Latin American culture of the last decades. In particular, we will explore how contemporary cultural artifacts are inscribed into a value system that quantifies the unquantifiable, that is to say, a system that only values a book or an artist based on sales. In this class, we will work with a variety of cultural artifacts from Argentina, Chile, and Uruguay--films, chronicles, music, newspapers, cartoons, literature, and documentaries--to map how culture and markets intersect. Taught in Spanish.
Prerequisite: SPAN331, SPAN332, SPAN333, SPAN361, SPAN362, or SPAN363; or permission of instructor.

SPAN453 Seeking Adventure and Glory: Don Quixote (3 Credits)
Widely acknowledged as the first modern novel, Don Quixote tells the story of a middle-aged Spanish gentleman who, obsessed with the chivalrous ideals found in romantic tales, decides to take up his lance and sword to defend the helpless and destroy the wicked. Seated upon his horse Rocinante and accompanied by his loyal squire Sancho Panza, Don Quixote sets out on the roads of Spain seeking adventure and glory. The course will consist of a close reading of Don Quixote. We will analyze and comment on the novel at the literal and historical levels, as well as in its symbolic and widely anthropological dimensions. We will also establish a dialogue between Don Quixote and the narrative and philosophical traditions of Europe, United States and Latin America. Taught in Spanish.
Prerequisite: One of the following: SPAN331, SPAN332, SPAN333, SPAN361, SPAN362, or SPAN363; or permission of instructor.
Credit Only Granted for: SPAN430 or SPAN453.
Formerly: SPAN430.

SPAN456 Construction of Gender and Sexuality in the Spanish Realist-Naturalist Novel (3 Credits)
Examines 19th-century Spanish normative notions regarding gender expression and identities as well as men's and women's sexualities in the Realist and Naturalist novel. Also, we will discuss representations of men and women whose behavior ran afoul of a heteronormative system that valued domestic privacy as a space of honor and virtuous masculinity and femininity. Taught in Spanish.
Prerequisite: One of the following: SPAN331, SPAN332, SPAN333, SPAN361, SPAN362, or SPAN363; or permission of instructor.
Recommended: SPAN333.

SPAN457 Comedy, Foppery, and Foreignness in Eighteenth-Century Spain (3 Credits)
We will explore the comical and satirical elements in 18th-century Spanish literary works, situating them within the social and historical context of the aesthetic tastes of the Spanish reading public and how those tastes impacted the production of literature and other cultural artifacts. Taught in Spanish.
Prerequisite: One of the following: SPAN331, SPAN332, SPAN333, SPAN361, SPAN362, or SPAN363; or permission of instructor.
Recommended: SPAN333.

SPAN460 The Sublime and the Grotesque in Spanish Romantic Plays and the Visual Arts (3 Credits)
An exploration of the notions of the sublime and the grotesque in theatrical works as well as in the visual arts of the Romantic movement in Spain. Taught in Spanish.
Prerequisite: SPAN331, SPAN332, SPAN333, SPAN361, SPAN362, or SPAN363; or permission of instructor.

SPAN461 Queer Spain (3 Credits)
Explores discursive representations of Spaniards who were judged as non-normative by their society during the modern and contemporary period. Putting a critical lens to various cultural artifacts (visual arts, fiction, film, and journalism), we will interrogate what it means to be "(ab)normal" in terms of gender expression, erotic desire, sexuality, and anatomical sex in Spain at critical junctures in modern history. Taught in Spanish.
Prerequisite: One of the following: SPAN331, SPAN332, SPAN333, SPAN361, SPAN362 or SPAN363; or permission of instructor.
Recommended: SPAN333.

SPAN462 Twentieth Century Drama (3 Credits)
Significant plays of the twentieth century.
Prerequisite: SPAN333, SPAN361, SPAN331, SPAN332, SPAN362, or SPAN363.

SPAN463 Cultural Artifacts of Contemporary Spanish Crises from 1898 to the COVID Pandemic (3 Credits)
An overview of Spain from the end of the 19th century through the present day and studies some of its main crises. The course explores the production of literary, cultural, and cinematic texts in their sociohistorical, political, religious and cultural contexts and development. This interdisciplinary course covers topics such as political, historical, religious, racial, ethnic, gendered/sexual, cultural, and ethno-geographical, literary and cinematic diversities and differences in Contemporary Spain. Taught in Spanish.
Prerequisite: SPAN331, SPAN332, SPAN333, SPAN361, SPAN362, or SPAN363; or permission of instructor.

SPAN464 Contemporary Spanish Poetry (3 Credits)
Spanish poetry from the generation of 1927 to the present.
Prerequisite: SPAN333, SPAN361, SPAN331, SPAN332, SPAN362, or SPAN363.

SPAN465 Spanish Exiles and Totalitarianisms (3 Credits)
An overview of the cultural and literary production regarding the Spanish Civil War (1936-1939) and its aftermath in the context of political exile from the early 20th century through present-day Spain. The course explores the production of literary texts in their sociohistorical, political, and cultural contexts and development as a reflection of that crisis in the conscience of present-day Spain. This interdisciplinary course covers topics such as political, historical, religious, racial, ethnic, gendered/sexual, cultural, and ethno-geographical diversities and differences concerning the Spanish Civil War and its aftermath. Taught in Spanish.
Prerequisite: SPAN331, SPAN332, SPAN333, SPAN361, SPAN362, or SPAN363; or permission of instructor.
Recommended: SPAN333.

SPAN466 The Contemporary Spanish Novel (3 Credits)
The novel and the short story from 1940 to the present.
Prerequisite: SPAN333, SPAN361, SPAN331, SPAN332, SPAN362, or SPAN363.

SPAN467 Visions and Fictions from Spain (3 Credits)
Overview of Spanish cinema from the end of the 19th century through present day Spain. Exploration of the production of literary and cinematic texts in their social, historical, political, religious, and cultural contexts.
Prerequisite: One course from SPAN331, SPAN332, SPAN333, SPAN361, SPAN362 or SPAN363; or permission of instructor.
Recommended: SPAN333.
Cross-listed with: CINE467.
Credit Only Granted for: CINE427, CINE467, FILM427, SPAN427, or SPAN467.
Formerly: FILM427, CINE427, and SPAN427.

SPAN468 Modernism and Post-Modernism in Spain and Spanish-America (3 Credits)
A study of the most important works and authors of both movements in Spain and Spanish-America.
Prerequisite: SPAN333, SPAN361, SPAN331, SPAN332, SPAN362, or SPAN363.
Repeatable to: 9 credits if content differs.

SPAN469 Study Abroad Special Topics IV (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

SPAN471 United States Latina Fiction (3 Credits)
An introduction to United States latina fiction through the study of short stories, novels, poetry, etc. It explores strategies of representation by women of color.
Prerequisite: SPAN333, SPAN361, SPAN331, SPAN332, SPAN362, or SPAN363.

SPAN472 Latina/o Communities and Language Struggles (3 Credits)
Explores the history of Latina/o communities and their language "choices," negotiations, and struggles in the United States, starting with the Spanish conquest of North America through the 21st century. We examine the lasting impact of the War of 1848 by which the U.S. colonized the southwest and consider how the Spanish-American War of 1898 imposed U.S. rule in the Hispanophone Caribbean. In this context of struggle, we examine how language repression and expression gave voice to the Latinx civil rights movements in the 1960s and 1970s as well as current immigration and education movements. Texts include Spanish cronicas, U.S. political treaties, the Hispanic press, manifestos, novels, poetry, spoken word, film, music, among others. Course format consists of lectures, discussions, group work, short essays, presentations, and examinations. Students should expect to participate in a community engagement project. Taught in Spanish and discussions in Spanglish.
Prerequisite: SPAN331, SPAN332, SPAN333, SPAN361, SPAN362, or SPAN363; or permission of the instructor.
Credit Only Granted for: SPAN408T or SPAN472.
Formerly: SPAN408T.

SPAN473 U.S. Latino Performance (3 Credits)
An introduction to United States Latino Performance texts by Chicano, Nuyorican, Cuban-American, Dominican, Central-American and others.
Prerequisite: SPAN333, SPAN361, SPAN331, SPAN332, SPAN362, or SPAN363.

SPAN474 Central American Literatures, Cultures, and Histories (3 Credits)
An overview of Central American history and cultural production, focusing primarily but not exclusively on literary texts.
Prerequisite: SPAN333, SPAN361, SPAN331, SPAN332, SPAN362, or SPAN363.

SPAN475 Central America: 21st-Century Literature & Culture (3 Credits)
Explores the discursive construction of Central America in the 21st century, from banana republic to northern triangle. While we study issues of violence, crime, feminicide, impunity, corruption, migration, human and drug trafficking, and climate change, we will moreover focus on people's struggles for equality, human rights, environmental justice, food security, healthcare, education, and employment in the region. We seek to understand the root cause of local and global conditions in Central America as well as the creative and resilient ways that Central Americans respond to them. Texts include novels, short stories, cronicas, news, films, photography, and other re/sources. Course format consists of lectures, discussions, group work, short essays, presentations, and examinations. Students should expect to participate in a community engagement project. Taught in Spanish and discussions in Spanglish.
Prerequisite: SPAN331, SPAN332, SPAN333, SPAN361, SPAN362, or SPAN363; or permission of instructor.
Credit Only Granted for: SPAN408L or SPAN475.
Formerly: SPAN408L.

SPAN476 Central Americans in the DMV (3 Credits)
Explores the history, migration, and cultural representation of Central Americans in the DMV (DC, Maryland, and Virginia) in the larger context of transnational relations between Central America and the United States. We ask how and why the DMV is home to one of the largest concentrations of Central Americans, especially Salvadorans, in the nation, as well as examine the diaspora as a transnational process. We study plays, short stories, poetry, spoken word/ performances, films, music, photography, zines, social media, and other interdisciplinary re/ sources, and engage one-on-one with local and international artists, activists, and community organizations. Course format consists of lectures, discussions, group work, short essays, presentations, and examinations. Students should expect to participate in a community engagement project. Taught in Spanish and discussions in Spanglish.
Prerequisite: SPAN331, SPAN332, SPAN333, SPAN361, SPAN362, or SPAN363; or permission of instructor.
Credit Only Granted for: SPAN408W or SPAN476.
Formerly: SPAN408W.

SPAN477 Between Worlds: Central American Diasporas (3 Credits)
Examines Central America as a locus of diasporas, from its geological formation as an isthmus to the current movement of peoples across El Salvador, Guatemala, Nicaragua, Honduras, Costa Rica, Panama, Belize, and beyond. It offers a broadscale view of Central American societies, histories, (geo)politics, social and revolutionary movements, and cultural and literary production, and situates diasporic literature in relation to migration, war, genocide, violence, transnationalism, globalization, among others. Because the Washington, D.C. Metropolitan Area is a significant site of the Central American diasporas, we will explore our particular location and engage with local diasporic communities. Course format consists of lectures, discussions, group work, short essays, presentations, and examinations. Students should expect to participate in a community engagement project. Taught in Spanish and discussions in Spanglish.
Prerequisite: SPAN331, SPAN332, SPAN333, SPAN361, SPAN362, or SPAN363; or permission of instructor.
Credit Only Granted for: SPAN408R or SPAN477.
Formerly: SPAN408R.

SPAN478 Special Topics in United States Latino Cultures (3 Credits)
Explores special topics in US Latino Cultures, ranging from Chicano, Nuyorican, Cuban-American, Dominican, Central-American and other border cultural identities.
Prerequisite: SPAN333, SPAN361, SPAN331, SPAN332, SPAN362, or SPAN363.
Repeatable to: 9 credits if content differs.

SPAN479 Honors Thesis (3-6 Credits)
Researching and writing an honors thesis under the direction of a professor.
Restriction: Must be in Spanish and Portuguese Honors.
Repeatable to: 6 credits if content differs.

SPAN480 Spanish for Business II (3 Credits)
Business Spanish terminology, vocabulary and practice. Emphasis on everyday spoken and written Spanish. Readings and discussions of international topics. Cross-cultural considerations relative to international business operations, including exporting and banking. Taught in Spanish.
Prerequisite: Must have completed SPAN370.
Restriction: Sophomore standing or higher.
Credit Only Granted for: SPAN470 or SPAN480.

SPAN495 Honors Reading (3 Credits)
Supervised reading.
Prerequisite: Must be in Spanish and Portuguese Honors; or permission of ARHU-School of Languages, Literatures, and Cultures department.

SPAX - Spanish Education Abroad

SPAX100 Intensive Elementary Spanish I A1 (6 Credits)
This intensive introductory course offers significant exposure to the Spanish language and creates many opportunities to practice language skills. The course covers an introduction to the Spanish alphabet and fundamental skills including reading, writing, listening, and speaking. Students will be able to introduce themselves and be familiar with everyday expressions and basic phrases.
Additional Information: This course is offered as part of the Maryland-in-Barcelona study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMBarcelona. Education Abroad processes registrations for this course on behalf of students.

SPAX101 Elementary Spanish I A1 (3 Credits)
This introductory course covers an introduction to the Spanish alphabet and fundamental skills including reading, writing, listening, and speaking. Students will be able to introduce themselves and be familiar with everyday expressions and basic phrases.
Additional Information: This course is offered as part of the Maryland-in-Barcelona study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMBarcelona. Education Abroad processes registrations for this course on behalf of students.

SPAX102 Intensive Elementary Spanish II A2 (6 Credits)
This intensive elementary course offers significant exposure to the Spanish language and creates many opportunities to practice language skills. The course covers Spanish language intonations, reading, writing, listening, and conversational Spanish. Students will be able to understand sentences and frequently used expressions related to areas of most immediate relevance.
Additional Information: This course is offered as part of the Maryland-in-Barcelona study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMBarcelona. Education Abroad processes registrations for this course on behalf of students.

SPAX103 Elementary Spanish II A2 (3 Credits)
This course covers Spanish language intonations, reading, writing, listening, and conversational Spanish. Students will be able to understand sentences and frequently used expressions related to areas of most immediate relevance.
Additional Information: This course is offered as part of the Maryland-in-Barcelona study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMBarcelona. Education Abroad processes registrations for this course on behalf of students.

SPAX104 Beginner Spanish (6 Credits)
Beginner level course, corresponding to level A1 of the Common European Framework of Reference for Languages which aims, from a communicative perspective, to develop fundamental linguistic skills in an integrated and significant way (listening, reading, speaking and writing). Moreover, the course has a strong focus on lexical and grammatical content whilst always seeking to respond effectively to the communicative and academic needs of the students.
Credit Only Granted for: SPAX104 or SPAN169O.
Additional Information: This course is offered as part of the Maryland-in-Barcelona study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMBarcelona. Education Abroad processes registrations for this course on behalf of students.

SPAX200 Intensive Intermediate Spanish I B1.1 (6 Credits)
This intensive intermediate course offers significant exposure to the Spanish language and creates many opportunities to practice language skills. The course covers pronunciation, expression, reading comprehension, writing, and culture of the Spanish-speaking world. Students will be able to deal with most situations likely to arise while travelling in a Spanish-speaking region and produce simple connected text on topics that are familiar or of personal interest.
Additional Information: This course is offered as part of the Maryland-in-Barcelona study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMBarcelona. Education Abroad processes registrations for this course on behalf of students.

SPAX201 Intermediate Spanish I B1.1 (3 Credits)
This intermediate course covers pronunciation, expression, reading comprehension, writing, and culture of the Spanish-speaking world. Students will be able to deal with most situations likely to arise while travelling in a Spanish-speaking region and produce simple connected text on topics that are familiar or of personal interest.
Additional Information: This course is offered as part of the Maryland-in-Barcelona study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMBarcelona. Education Abroad processes registrations for this course on behalf of students.

SPAX202 Intensive Intermediate Spanish II B1.2 (6 Credits)
This intensive intermediate course offers significant exposure to the Spanish language and creates many opportunities to practice language skills. The course covers communicating with confidence, understanding and writing short texts, and various grammatical structures. Students will be able to describe experiences and events, dreams, hopes and ambitions and briefly give reasons and explanations for opinions and plans.
Additional Information: This course is offered as part of the Maryland-in-Barcelona study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMBarcelona. Education Abroad processes registrations for this course on behalf of students.

SPAX203 Intermediate Spanish II B1.2 (3 Credits)
This intermediate course covers communicating with confidence, understanding and writing short texts, and various grammatical structures. Students will be able to describe experiences and events, dreams, hopes and ambitions and briefly give reasons and explanations for opinions and plans.
Additional Information: This course is offered as part of the Maryland-in-Barcelona study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMBarcelona. Education Abroad processes registrations for this course on behalf of students.

SPAX300 Intensive Upper Intermediate Spanish I B2.1 (6 Credits)
This intensive upper intermediate course offers significant exposure to the Spanish language and creates many opportunities to practice language skills. The course covers more advanced reading and listening comprehension, with a focus on Spanish and Latin American authors; covers more advanced speaking, such as discussions and debates, as well as writing letters, reports, and essays. Students will be able to produce clear, detailed text on a wide range of subjects and explain a viewpoint on a topical issue giving the advantages and disadvantages of various options.
Additional Information: This course is offered as part of the Maryland-in-Barcelona study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMBarcelona. Education Abroad processes registrations for this course on behalf of students.

SPAX301 Upper Intermediate Spanish I B2.1 (3 Credits)
This upper intermediate course covers more advanced reading and listening comprehension, with a focus on Spanish and Latin American authors; covers more advanced speaking, such as discussions and debates, as well as writing letters, reports, and essays. Students will be able to produce clear, detailed text on a wide range of subjects and explain a viewpoint on a topical issue giving the advantages and disadvantages of various options.
Additional Information: This course is offered as part of the Maryland-in-Barcelona study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMBarcelona. Education Abroad processes registrations for this course on behalf of students.

SPAX302 Intensive Upper Intermediate Spanish II B2.2 (6 Credits)
This intensive upper intermediate course offers significant exposure to the Spanish language and creates many opportunities to practice language skills. Students will be able to take part in conversations with native speakers with little or no difficulty and no grammatical errors and using acceptable pronunciation. Students achieving this level are able to handle literary texts and documents on any subject in their field of interest, and write complex texts with very few errors.
Additional Information: This course is offered as part of the Maryland-in-Barcelona study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMBarcelona. Education Abroad processes registrations for this course on behalf of students.

SPAX303 Upper Intermediate Spanish II B2.2 (3 Credits)
This upper intermediate course will allow students to be able to take part in conversations with native speakers with little or no difficulty and no grammatical errors and using acceptable pronunciation. Students achieving this level are able to handle literary texts and documents on any subject in their field of interest, and write complex texts with very few errors.
Additional Information: This course is offered as part of the Maryland-in-Barcelona study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMBarcelona. Education Abroad processes registrations for this course on behalf of students.

SPAX306 Intensive Advanced Spanish I C1.1 (6 Credits)
This intensive advanced course offers significant exposure to the Spanish language and creates many opportunities to practice language skills. Students will be able to understand a wide range of demanding, longer clauses, and recognize implicit meaning as well as express ideas fluently and spontaneously without much obvious searching for expressions.
Additional Information: This course is offered as part of the Maryland-in-Barcelona study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMBarcelona. Education Abroad processes registrations for this course on behalf of students.

SPAX307 Intensive Advanced Spanish II C1.2 (6 Credits)
This intensive advanced course offers significant exposure to the Spanish language and creates many opportunities to practice language skills. Students will be able to use language flexibly and effectively for social, academic and professional purposes as well as produce clear, well-structured, detailed text on complex subjects, showing controlled use of organizational patterns, connectors and cohesive devices.
Additional Information: This course is offered as part of the Maryland-in-Barcelona study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMBarcelona. Education Abroad processes registrations for this course on behalf of students.

SPAX312 Spanish Conversation and Oral Skills I (3 Credits)
Augments student linguistic competence with a special focus on oral skills and linguistic functions. Students will develop the oral abilities and strategies needed to accomplish meaningful interactions with people from the local community with ease and confidence.
Additional Information: This course is offered as part of the USAC Chile study abroad program. Students must apply for this program through Education Abroad: More information at https://globalmaryland.umd.edu/offices/education-abroad/program/10009. Education Abroad processes registrations for this course on behalf of students.

SPHL - Public Health

SPHL100 Foundations of Public Health (3 Credits)
An overview of the goals, functions, and methods of public health. After an introduction to the core concepts and tools used in public health research and practice, applications of these methodologies are considered in the context of current controversies/problems in public health. Students work together to develop strategies for prevention and control that take into consideration different points of view, outside research, and impacts on individuals and communities.
Restriction: Must be in a major in SPHL-School of Public Health.
Credit Only Granted for: SPHL100, PHSC300 or SPHL600.

SPHL240 Public Health Engagement (2 Credits)
Public Health Engagement is a transfer transition course that provides an opportunity for transfer students to engage in the professional culture of the public health field and to build community while navigating a large, public institution. Instructors use research, physical activity, and academic engagement to stimulate community building across all majors within the School of Public Health. Students will engage with public health issues, academic resources, solution-driven grant writing, identity development, faculty and alumni support systems, and group and individual physical activities. A partnership of 3 sectors within the school, this course is taught by an interdisciplinary team fostering public health practice and community building while promoting successful transition, integration and retention.
Restriction: Must be a transfer student with 60 credits or less; and must be in a major in SPHL-School of Public Health.
Additional Information: The course will include a significant physical activity component.

SPHL246 Terp Restoration (1 Credit)
This lab course is designed to assist students in improving academic strategies, learning time management practices, interacting with the faculty and greater campus community, and developing professional career aspirations. The focus will be on an exploration of the academic environment, campus resources, self-discovery tools, and skill development. Utilizing an interactive experience through facilitated discussion that develops positive relationships, students will actively explore academic opportunities offered through the School of Public Health and the University of Maryland.
Restriction: Students must be undergraduate majors within the School of Public Health; and permission of instructor.

SPHL260 Public Health Beyond Borders: Designing Culturally Competent Global Projects (3 Credits)
The skills learned in this course are intended to engage students in critical thinking prior to a study abroad, global health project, or other international service experience in such a way that adds depth for the student and minimizes unintended negative consequences for local communities. The course is designed in three parts to prepare students to think critically about reciprocity in international service projects and develop scholarship in practice. Community members are viewed as partners, educators, and trusted advisors. Furthermore, since global health projects begin long before the plane lands, money is exchanged, and the first of many plastic bottles of water is purchased, the course begins with broad definitions of key concepts to heighten awareness of unintended consequences of well-meaning volunteers, then leads students through reflection and writing to apply these concepts and provides opportunity to integrate key concepts into plans for projects that serve global communities with cultural competence. Students will explore the needs of global communities, design interventions, and reflect on the potential outcomes in improving health in the communities served, while also focusing on their own subjective experience.

SPHL291 Does Science Support Nontraditional Healing Practices? (3 Credits)
Does yoga improve the health of wounded warriors and/or breast cancer survivors? Can mindfulness enhance your business success and family relationships, or is it social media hype? Do you know what reflexology is, and does it help reduce your personal stress level? Increasing numbers of people are using nutritional supplements, meditation, yoga and other forms of exercise, acupuncture and experiences in nature to reduce stress levels and improve overall health and well-being. In the media, scientists to celebrities have alternately endorsed or rejected claims about how these and other nontraditional health practices benefit health and well-being. Students will sample some of these nontraditional health practices and explore whether these practices can enhance their own well-being. General scientific methods for health research will be introduced and students will use this knowledge to evaluate the existing scientific research on these practices. Students will also evaluate whether popular and media translation of scientific research on these practices is fact-based.
Recommended: Successful completion of English composition course.

SPHL298 SPH Ambassador Program (1 Credit)
The purpose of this course is to train students in the methods related to advising, teaching and leading undergraduate current and prospective students. At the end of the course ambassdors will be a resource to these new students in SPH through their knowledge of academic planning, college/university policy, and understanding of what SPH has to offer. Ambassados will have experience working one on one with students who have academic advising questions and concerns. They will develop better public speaking skills and know how to impart new information in an effective way to undergraduate students.
Restriction: Must be in a major in SPHL-School of Public Health; and minimum cumulative GPA of 2.7; and must have earned less then 90 credits.
Repeatable to: 6 credits.

SPHL321 Terrapin Think Tank (1 Credit)
Serves as a broad introduction to Terrapin Think Tank. Students will learn the basic core competencies we use in health policy research, advocacy, and evaluation. Students will be introduced to policy structures at county- and state-level, key players, and best practices in designing policies and interventions that are sustainable and truly community-centric. Students will also have the opportunity to build out an original initiative, program, or piece of legislation over the course of the semester which will culminate in a final presentation with community and faculty leaders.

SPHL333 Fundamentals of Undergraduate Teaching for Education Assistants and Mentors (UTEAM) (1 Credit)
Supports the professional and personal development of UG students in the UTEAM program. Must be completed concurrently with the first semester of providing UTEAM support to a specific course. UTEAM members are dedicated student learners who provide peer education support for specific course as part of the teaching team and emphasizes: 1) introduction to teaching, learning, literature and practice, 2) collaboration with other UTEAM members, faculty and staff as a learning community, and 3) reflection on the knowledge and skills developed through course participation.
Corequisite: SPHL399.
Restriction: Permission of the instructor; and permission of the School of Public Health.
Additional Information: This course must be taken concurrently with SPHL399 the first term in which a student is a UTA. Preference is given to students within an SPHL major.

SPHL386 Experiential Learning (3 Credits)
Prerequisite: Permission of SPHL-School of Public Health.

SPHL399 Academic Peer Teaching and Mentoring in Public Health (1-3 Credits)
An independent study course for the Undergraduate Teaching and Mentoring (UTEAM) program within the School of Public Health. Students will apply evidence-based research while assisting peers with the understanding and application of course content. Specific responsibilities may vary dependent upon the course instructor. The primary roles of the UTEAM members will be to provide in-class support and/or external course support through review sessions, discussions sessions, laboratory support, group tutoring and office hours.
Corequisite: If this course is being taken for the first time, students must concurrently register for SPHL333.
Restriction: Permission of the instructor; and permission of the School of Public Health.
Repeatable to: 6 credits if content differs.
Additional Information: Preference is given to students within an SPHL major.

SPHL478 Special Topics in Public Health (1-4 Credits)
Special topics in the field of public health.
Repeatable to: 8 credits if content differs.

SPHL488 Children's Health and Development Clinic (1-4 Credits)
An opportunity to acquire training and experience in a therapeutically oriented physical education-recreation program for children referred by various education, special education, medical or psychiatric groups.
Prerequisite: Permission of SPHL-School of Public Health.

SPHL498 Special Topics in Public Health (3 Credits)
Topical and interdisciplinary courses of interest to upper level undergraduate students in the field of Public Health not currently covered by the program.
Restriction: Junior standing or higher.
Repeatable to: 9 credits if content differs.
Credit Only Granted for: SPHL498 or SPHL698 of same suffix.

STAT - Statistics and Probability

STAT100 Elementary Statistics and Probability (3 Credits)
Simplest tests of statistical hypotheses; applications to before-and-after and matched pair studies. Events, probability, combinations, independence. Binomial probabilities, confidence limits. Random variables, expected values, median, variance. Tests based on ranks. Law of large numbers, normal approximation. Estimates of mean and variance.
Prerequisite: MATH110, MATH112, MATH113, or MATH115; or permission of CMNS-Mathematics department; or must have math eligibility of STAT100 or higher and math eligibility is based on the Math Placement Exam or the successful completion of Math 003 with appropriate eligibility.
Cross-listed with: DATA100.
Restriction: Must not have completed MATH111; or must not have completed any STAT course with a prerequisite of MATH141.
Credit Only Granted for: DATA100 or STAT100.

STAT110 Applications of R for Data Science (1 Credit)
Intended to prepare students for subsequent courses requiring computation with R, providing powerful and easy to use tools for statistical data analysis. Covers basics of R and R Studio including file handling, data simulation, graphical displays, vector and function operations, probability distributions, and inferential techniques for data analysis.
Prerequisite: DATA100, STAT100, or MATH135; or any 400-level STAT course.
Cross-listed with: DATA110.
Credit Only Granted for: STAT110 or DATA110.

STAT386 Experiential Learning (3-6 Credits)
Prerequisite: Must have learning proposal approved by the CMNS-Mathematics Department.

STAT400 Applied Probability and Statistics I (3 Credits)
Random variables, standard distributions, moments, law of large numbers and central limit theorem. Sampling methods, estimation of parameters, testing of hypotheses.
Prerequisite: 1 course with a minimum grade of C- from (MATH131, MATH141); or students who have taken courses with comparable content may contact the department.
Cross-listed with: DATA400.
Credit Only Granted for: DATA400, ENEE324, or STAT400.
Additional Information: Not acceptable toward graduate degrees in MATH/STAT/AMSC.

STAT401 Applied Probability and Statistics II (3 Credits)
Point estimation - unbiased and consistent estimators. Interval estimation. Minimum variance and maximum likelihood estimators. Testing of hypotheses. Regression, correlation and analysis of variance. Sampling distributions. Elements of non-parametric methods.
Prerequisite: 1 course with a minimum grade of C- from (STAT400, STAT410).
Additional Information: Not acceptable toward graduate degrees in MATH/STAT/AMSC.

STAT410 Introduction to Probability Theory (3 Credits)
Probability and its properties. Random variables and distribution functions in one and several dimensions. Moments. Characteristic functions. Limit theorems.
Prerequisite: 1 course with a minimum grade of C- from (MATH240, MATH461, MATH341); and 1 course with a minimum grade of C- from (MATH340, MATH241).
Cross-listed with: SURV410.
Credit Only Granted for: STAT410 or SURV410.

STAT420 Theory and Methods of Statistics (3 Credits)
Point estimation, sufficiency, completeness, Cramer-Rao inequality, maximum likelihood. Confidence intervals for parameters of normal distribution. Hypothesis testing, most powerful tests, likelihood ratio tests. Chi-square tests, analysis of variance, regression, correlation. Nonparametric methods.
Prerequisite: 1 course with a minimum grade of C- from (SURV410, STAT410).
Cross-listed with: SURV420.
Credit Only Granted for: STAT420 or SURV420.

STAT422 Probability Models (3 Credits)
Random variables, Joint Distributions, Hierarchical Models, Random Samples, Algorithms for generating samples, Markov Chains, Poisson Processes, Stochastic Processes, Simulations.
Prerequisite: STAT400 or STAT410.
Credit Only Granted for: STAT498J or STAT422.
Formerly: STAT498J.

STAT426 Introduction to Data Science and Machine Learning (3 Credits)
An introductory course to the recent developments in the fields of data science and machine learning. Emphasis will be given to mathematical and statistical understanding of commonly used methods and processes.
Prerequisite: Minimum grade of C- in MATH241 or MATH340; and minimum grade of C- in MATH240, MATH461 or MATH341; and minimum grade of C- in STAT400 or STAT410; students who have taken courses with content comparable to STAT400/410 may request permission of the instructor.
Credit Only Granted for: STAT426 or CMSC320.

STAT430 Introduction to Statistical Computing with SAS (3 Credits)
Descriptive and inferential statistics. SAS software: numerical and graphical data summaries; merging, sorting and splitting data sets. Least squares, regression, graphics and informal diagnostics, interpreting results. Categorical data, lifetime data, time series. Applications to engineering, life science, business and social science.
Prerequisite: 1 course with a minimum grade of C- from (STAT400, STAT410); and must have completed or be concurrently enrolled in STAT401 or STAT420; students who do not meet the STAT401 or STAT420 requirement but who have taken a statistics course may contact the math department to confirm eligibility.

STAT440 Sampling Theory (3 Credits)
Simple random sampling. Sampling for proportions. Estimation of sample size. Sampling with varying probabilities. Sampling: stratified, systematic, cluster, double, sequential, incomplete.
Prerequisite: 1 course with a minimum grade of C- from (STAT401, STAT420).
Credit Only Granted for: STAT440 or SURV440.

STAT464 Introduction to Biostatistics (3 Credits)
Probabilistic models. Sampling. Some applications of probability in genetics. Experimental designs. Estimation of effects of treatments. Comparative experiments. Fisher-Irwin test. Wilcoxon tests for paired comparisons.
Prerequisite: Must have completed one semester of calculus.
Restriction: Junior standing or higher.
Credit Only Granted for: BIOE372 or STAT464.
Additional Information: Not acceptable toward degrees in MATH/STAT.

STAT470 Actuarial Mathematics (3 Credits)
Major mathematical ideas involved in calculation of life insurance premiums, including compound interest and present valuation of future income streams; probability distribution and expected values derived from life tables; the interpolation of probability distributions from values estimated at one-year multiples; the 'Law of Large Numbers' describing the regular probabilistic behavior of large populations of independent individuals; and the detailed calculation of expected present values arising in insurance problems.
Prerequisite: 1 course with a minimum grade of C- from (MATH240, MATH461, MATH341); and 1 course with a minimum grade of C- from (MATH340, MATH241).
Recommended: STAT400.

STAT498 Selected Topics in Statistics (1-6 Credits)
Topics of special interest to advanced undergraduate students will be offered occasionally under the general guidance of the MATH/STAT major committee. Students register for reading in statistics under this number.
Restriction: Permission of CMNS-Mathematics department.
Repeatable to: 16 credits.

SURV - Survey and Data Science

SURV400 Fundamentals of Survey and Data Science (3 Credits)
The course introduces the student to a set of principles of survey and data science that are the basis of standard practices in these fields. The course exposes the student to key terminology and concepts of collecting and analyzing data from surveys and other data sources to gain insights and to test hypotheses about the nature of human and social behavior and interaction. It will also present a framework that will allow the student to evaluate the influence of different error sources on the quality of data.
Prerequisite: STAT100; or permission of BSOS-Joint Program in Survey Methodology department.
Restriction: Course open to SURV certificate students, SURV Advanced Special Students, and SURV undergraduate minors. Graduate students from other departments may enroll with permission from the department.
Credit Only Granted for: SURV699M or SURV400.
Formerly: SURV699M.

SURV410 Introduction to Probability Theory (3 Credits)
Probability and its properties. Random variables and distribution functions in one and several dimensions. Moments. Characteristic functions. Limit theorems.
Prerequisite: 1 course with a minimum grade of C- from (MATH240, MATH461, MATH341); and 1 course with a minimum grade of C- from (MATH340, MATH241).
Cross-listed with: STAT410.
Credit Only Granted for: STAT410 or SURV410.

SURV420 Theory and Methods of Statistics (3 Credits)
Point estimation, sufficiency, completeness, Cramer-Rao inequality, maximum likelihood. Confidence intervals for parameters of normal distribution. Hypothesis testing, most powerful tests, likelihood ratio tests. Chi-square tests, analysis of variance, regression, correlation. Nonparametric methods.
Prerequisite: 1 course with a minimum grade of C- from (SURV410, STAT410).
Cross-listed with: STAT420.
Credit Only Granted for: STAT420 or SURV420.

SURV430 Fundamentals of Questionnaire Design (3 Credits)
Introduction to the scientific literature on the design, testing and evaluation of survey questionnaires, together with hands-on application of the methods discussed in class.
Restriction: Permission of BSOS-Joint Program in Survey Methodology department.
Credit Only Granted for: SURV430 or SURV630.

SURV440 Sampling Theory (3 Credits)
Simple random sampling, sampling for proportions, estimation of sample size, sampling with varying probabilities of selection, stratification, systematic selection, cluster sampling, double sampling, and sequential sampling.
Prerequisite: STAT401 or STAT420.
Credit Only Granted for: STAT440 or SURV440.

TDPS - Theatre, Dance and Performance Studies

TDPS201 Introduction to Technical Production (3 Credits)
Students are provided with an overview of topics related to the technical production of theatre and dance including: scenic, prop and costume construction, lighting, sound and video execution and management structures.
Restriction: Must be in a major within the ARHU-Dance department; or must be in a major within the ARHU-Theatre department.
Credit Only Granted for: DANC210 and THET114 or TDPS201.
Formerly: DANC210 and THET114.

TDPS240 Arts Organizations and Audiences in the United States (3 Credits)
An introduction to the history and role of arts organizations in the U.S., as well as the respective audiences and populations they serve. This grounding allows artists and emerging administrators to understand the events and questions that have shaped the field, and develop strategies for advancing sustainable arts organizations in the future.
Cross-listed with: ARHU240.
Credit Only Granted for: TDPS258C, TDSP240 or ARHU240.
Formerly: TDPS258C.

TDPS258 Special Topics in Introductory Performing Arts (1-3 Credits)
Designed for performing arts students. Offers instruction at the introductory level in various aspects of performance such as Voice for the Performing Arts, Movement for the Performing Arts, Acting for the Performing Arts, Partner Dance and a myriad of specific aspects within these genres.
Prerequisite: Permission of ARHU-School of Theatre, Dance & Performance Studies department.
Repeatable to: 9 credits if content differs.

TDPS358 Special Topics in Intermediate Performing Arts (1-3 Credits)
Designed for performing arts students. Offers instruction at the intermediate level in various aspects of performance such as Voice for the Performing Arts, Movement for the Performing Arts, Acting for the Performing Arts, Partner Dance and a myriad of specific aspects within these genres.
Prerequisite: Permission of ARHU-School of Theatre, Dance & Performance Studies department.
Repeatable to: 9 credits if content differs.

TDPS358A Theatre and Dance in Iran and Afghanistan (3 Credits)
Students will learn about stories, plays, and movements in Iran and Afghanistan from past to present. Through watching performances, readings, and discussions, we explore the relationship between storytelling, body, space, and power in forming and performing identity and life experiences. Looking at case studies from traditional, popular, and western style dance and theater are an exciting part of the course. Note: This course requires no prior knowledge of Persian culture or dance and theatre studies on the part of the students.
Cross-listed with: PERS385, THET328W.
Repeatable to: 3 credits if content differs.
Credit Only Granted for: TDPS358A, THET328W, PERS398A, or PERS385.
Formerly: PERS398A.

TDPS362 Alexander Technique (1-3 Credits)
Based on the F.M. Alexander Technique, students will learn to recognize habit patterns that interfere with how they function and express themselves so that they can make conscious choices as a performing artist.
Prerequisite: THET222, THET116, THET223, and TDPS201; or (DANC218 and DANC219). And permission of ARHU-School of Theatre, Dance & Performance Studies department.
Credit Only Granted for: THET399J, THET362 or TDPS362.
Formerly: THET399J and THET362.

TDPS408 Seminar in Theory and Practice of Critical Difference (3 Credits)
This interdisciplinary seminar examines expressive culture as performed in works of dance, theatre, music, and digital media.
Repeatable to: 6 credits if content differs.

TDPS440 Arts Leadership Seminar (3 Credits)
An advanced seminar that connects arts leadership to current trends in technology, demographics, policy, and the economy. Through an investigation of current events, leadership theory, and case studies and guest speakers from the field, students will evaluate arts leadership as a profession and develop their own unique leadership identity. Topics included strategic management, organizational culture, ethics, decision making, and partnerships.
Prerequisite: ARHU240; or permission of instructor.
Cross-listed with: ARHU440.
Credit Only Granted for: ARHU440 or TDPS440.

TDPS441 Arts Entrepreneurship: Theory and Practice (3 Credits)
Establishes arts entrepreneurship as a unique discipline with the goal of connecting creative initiatives (products, artforms, and programs) to audiences, resources, and communities. Introduces students to the ways in which creative initiatives both create value and offer solutions to social, political, environmental, and cultural issues. Students will develop artist impact statements and identify different contexts and ways to apply their talents and creative initiatives in society.
Prerequisite: ARHU240 or TDPS240; or permission of instructor.
Recommended: ARHU440 or TDPS440.
Cross-listed with: ARHU441.
Jointly offered with: ARHU640, TDPS640.
Restriction: Limited to 4 undergraduate students (2 in ARHU and 2 in TDPS).
Credit Only Granted for: TDPS458E, ARHU441, TDPS441, ARHU640 or TDSP640.
Formerly: TDPS458E.

TDPS458 Special Topics in Advanced Performing Arts (1-3 Credits)
Designed for performing arts students. Offers instruction at an advanced level in various aspects of performance such as Voice for the Performing Arts, Movement for the Performing Arts, Acting for the Performing Arts, Partner Dance and a myriad of specific aspects within these genres.
Prerequisite: Permission of ARHU-School of Theatre, Dance & Performance Studies department.
Repeatable to: 9 credits if content differs.

TDPS469 Advanced Practicum in Stage Management (1-3 Credits)
A graded course in stage management for theatre and/or dance productions. A hands-on laboratory experience.
Prerequisite: Minimum of 2 credits from TDPS479.
Restriction: Permission of ARHU-School of Theatre, Dance & Performance Studies department.
Repeatable to: 9 credits.

TDPS470 Production Management (3 Credits)
To familiarize students with techniques and skills required of a Production Manager in a theatrical production. Focus will also be given to the field of event management.
Prerequisite: TDPS201, THET222, THET223, and THET116; and permission of ARHU-School of Theatre, Dance & Performance Studies department.

TDPS479 Production Practicum (1-3 Credits)
A graded course in a specified practical aspect of mounting a theatre or dance production. It is a hands-on, purely laboratory experience.
Prerequisite: TDPS201.
Repeatable to: 10 credits if content differs.
Credit Only Granted for: TDPS479 or THET479.
Formerly: THET479.

THET - Theatre

THET110 Introduction to the Theatre (3 Credits)
In the age of pop music and blockbuster films, of memes and viral videos, we often forget that theatre was one of the original forms of popular entertainment. We will focus on theatre practitioners including actors, directors, designers and backstage personnel to understand how theatre is produced. We will also consider popular entertainment in Europe and America, with a particular focus on musical theatre and Broadway to explore how theatre communicates, resonates, and remains relevant to all audiences.

THET116 Fundamentals of Theatrical Design (3 Credits)
Examines theatre as an environmental art that is realized through collaboration between set, costume, and lighting designers.
Restriction: Permission of ARHU-School of Theatre, Dance & Performance Studies department.

THET120 Introduction to Acting (3 Credits)
Through scene study, exercises, and improvisation, an appreciation is developed for the working habits of actors, which will aid them in rehearsal as well as performance.
Restriction: Must not be in Theatre program.

THET199 Independent Study (1-3 Credits)
An independent study in which each student completes an assigned major theatre project under close faculty supervision. Projects may culminate with term papers, scenic, lighting, or costume designs, or a stage production.
Restriction: Permission of instructor; and freshman standing.
Repeatable to: 6 credits if content differs.

THET222 Foundations of Acting and Performance (3 Credits)
Students will become familiar with the tools and process of acting through the discipline of acting exercises, analyzing character and performing. Students will research various theatre artists that have contributed to the acting process. Through monologue and scene work students will learn listening skills, communicative, collaborative and embodiment skills and will learn how to use the self in the imaginative process and research. And, most importantly, students will learn creative process through practice.
Restriction: Permission of ARHU-School of Theatre, Dance & Performance Studies department.

THET223 Text and Context in Western Theatre (3 Credits)
Introduction to the analysis and critique of the play script. Students will have the opportunity to read, analyze, and interpret western dramatic literature from a range of periods and styles. Texts are analyzed from a variety of theatrical analytical perspectives, with an eye towards choices theatre artists must make in the creation of a theatrical production.
Restriction: Permission of ARHU-School of Theatre, Dance & Performance Studies department.

THET228 Special Topics in Introductory Theatre and Performance (1-3 Credits)
This course is offered as part of the TDPS Artist-in-Residence program. Topics covered may include: Intercultural Theatre; Performance Art; Puppetry; Solo Performance; or Theatrical Design.
Prerequisite: TDPS201, THET116, THET222, and THET223; and permission of ARHU-School of Theatre, Dance & Performance Studies department.
Repeatable to: 3 credits if content differs.

THET251 Broadway Mashup: Remixing America Through Musical Theater (3 Credits)
Interrogate musical theater's political history, investigating how this uniquely American genre uses narrative, song, and dance to weave critical differences across race, ethnicity, immigration status, religion, gender, sexuality, and ability into our national fabric.

THET269 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

THET274 Introduction to Stage Management (3 Credits)
Familiarization with the techniques and skills required of a Stage Manager in a theatrical production, including organization, production meetings, rehearsals, tech and running a show. The outcome at the conclusion of the course is the ability to function as an Assistant Stage Manager in a supervised situation.
Prerequisite: TDPS201; and permission of ARHU-School of Theatre, Dance & Performance Studies department.

THET279 Theatre Workshop I (1 Credit)
Supervised participation in backstage staffing of University Theatre productions.
Restriction: Permission of ARHU-School of Theatre, Dance & Performance Studies department.
Repeatable to: 6 credits if content differs.

THET282 Stage Makeup (3 Credits)
Students learn to design and execute character makeup based on research and script analysis. Studying fundamental facial anatomy, the class learns to manipulate light and shadow with makeup to enhance and alter the shape of facial features. Once these techniques are mastered, the class moves on to more complex exercises, including Old Age, Facial Hair, Wounds and Fantasy.

THET284 Stage Costume Construction I (3 Credits)
Study and practical experience in garment construction and related costume crafts as used in theatre costume design. Flat pattern development, corset construction, theatrical sewing techniques and organization of the costume construction process.
Restriction: Permission of ARHU-School of Theatre, Dance & Performance Studies department.

THET285 The Art of Communication and Presentation (3 Credits)
An introduction to the fundamental practice and theory of public speaking and oral communication using theatrical techniques of both performance and the craft of storytelling.
Credit Only Granted for: COMM107, COMM200, INAG110, JOUR130, or THET285.

THET286 Experiential Learning I (1-3 Credits)
Introductory internship in theatre. Constructed to help students in their sophomore year gain practical experience in a supportive work environment in the theatre. Student must research and propose internship to a Faculty Advisor and Internship Venue.
Prerequisite: THET222, THET223, and THET116. And THET114; or TDPS201. And permission of ARHU-School of Theatre, Dance & Performance Studies department.

THET287 Subversive Cultures and Performance (3 Credits)
Every society has rebels - those who refuse to conform to the mainstream's rigid rules, aesthetics, and beliefs. From unruly skateboarders, punk rockers, bohemian poets, and radical theater performers, to national revolutionary movements and brick-throwing anarchists - such groups form niches that are defined by their exclusion from society. We will look at how their beliefs and actions fit into a particular historical context, and how their actions drive social change.
Credit Only Granted for: THET289I or THET287.
Formerly: THET289I.

THET290 History Plays: From Conquest to Contemporary American Theatre (3 Credits)
Investigates the braided relationship between American history, theatre, and race. In this course, students will destabilize their understandings of each of these three terms by exploring them from two vantage points: from the point of view of historic American plays, and from the vantage of contemporary American "history plays" -- plays that draw on America's past to rewrite its future. Using the lens of Omi & Winant's theory of racial projects, students will explore how theatrical performances of racial difference from 1600 to 1900 were instrumental in crafting American ideologies, identities, and the nation state itself. The class will then telegraph through history to consider each historical play in dialogue with a contemporary "history play." Theatre 290 intentionally pivots between the past and present, page and stage, the political arena and the public sphere in order to demonstrate how America, theatre, and race consistently make and remake one another. The class emphasizes intersectional theories of race, and considers race alongside categories of gender and (dis)ability.
Recommended: THET110 and THET223 .

THET293 Black Theatre and Performance I (3 Credits)
Thematic and historical survey of African-American drama from the late nineteenth century to the 1960s. Emphasis on sociopolitical context, thematic thrust, issues, styles, the aesthetic reflected in the work, impact on African-American and general theatre audiences.

THET294 Black Theatre and Performance II (3 Credits)
Thematic and historical survey of African-American drama from the 1960s to the present. Emphasis on sociopolitical context, thematic thrust, issues, styles, the aesthetic reflected in the work, impact on African-American and general theatre audiences.
Restriction: Sophomore standing or higher.

THET299 Independent Study (1-3 Credits)
An independent study in which each student completes an assigned major theatre project under close faculty supervision. Projects may culminate with term papers; scenic, lighting, or costume designs; or a stage production.
Restriction: Permission of instructor; and sophomore standing or higher.
Repeatable to: 6 credits if content differs.

THET310 Voice for the Actor I (3 Credits)
Freeing the natural voice. In-depth experience of connection of actor's voice to thought, impulse and emotion. Tools for releasing tension, increasing resonance and range, and refining articulation will be explored.
Prerequisite: THET116, THET222, THET223, and TDPS201; and must Interview; and permission of ARHU-School of Theatre, Dance & Performance Studies department.
Restriction: Sophomore standing or higher.

THET324 Character Development (3 Credits)
European-based physical approach to acting. Primary focus on character development, may include creating original characters and learning how to bring to life an already scripted character. Techniques to explore the soul and psychology of characters and their physical qualities, voice, rhythm and movement.
Prerequisite: Must have completed or be concurrently enrolled in THET310.
Restriction: Junior standing or higher; and permission of ARHU-School of Theatre, Dance & Performance Studies department.

THET325 Actor's Process I (3 Credits)
Focus on use of self in creating character. Tools employed include decision-making and use of imagery, personalization, objectives, adjectives, and verbs.
Prerequisite: Must have completed or be concurrently enrolled in THET310; or permission of Instructor. And must audition; and permission of ARHU-School of Theatre, Dance & Performance Studies department.

THET326 Viewpoints (3 Credits)
Viewpoints is a movement-based performance course for students who already have a foundation in the basics of acting and/or dance. The Viewpoints are a set of tools and vocabulary; using 9 categories of time and space, students will fully explore the possibilities of using their physical instruments (the body) to their fullest on stage.
Prerequisite: THET222, THET223, THET116, and TDPS201; and permission of ARHU-School of Theatre, Dance & Performance Studies department.
Credit Only Granted for: THET328V or THET326.
Formerly: THET328V.

THET328 Special Topics in Intermediate Theatre and Performance (1-3 Credits)
Topics covered include: Intercultural Theatre, Performance Art, Puppetry, Solo Performance, or Theatrical Design.
Prerequisite: TDPS201, THET222, THET223, and THET116; and permission of ARHU-School of Theatre, Dance & Performance Studies department.
Restriction: Junior standing or higher.
Repeatable to: 3 credits if content differs.

THET328W Theatre and Dance in Iran and Afghanistan (3 Credits)
Students will learn about stories, plays, and movements in Iran and Afghanistan from past to present. Through watching performances, readings, and discussions, we explore the relationship between storytelling, body, space, and power in forming and performing identity and life experiences. Looking at case studies from traditional, popular, and western style dance and theater are an exciting part of the course. Note: This course requires no prior knowledge of Persian culture or dance and theatre studies on the part of the students.
Cross-listed with: PERS385, TDPS358A.
Repeatable to: 3 credits if content differs.
Credit Only Granted for: TDPS358A, THET328W, PERS398A, or PERS385.
Formerly: PERS398A.

THET330 Play Directing I (3 Credits)
A lecture-laboratory course dealing with the techniques of coordinating, designing and guiding the production of a script through to performance. Study and practice in stage composition, movement, pacing, script and character analysis, and rehearsal routines. Emphasis on methods of communicating a script to an audience.
Prerequisite: TDPS201, THET222, THET223, and THET116. And permission of ARHU-School of Theatre, Dance & Performance Studies department.
Restriction: Junior standing or higher.

THET340 Playwriting I (3 Credits)
Will introduce students to the art of playwriting through exploratory writing exercises, the reading of successful plays, the development of new short scripts, how to make theatrical choices, and how to use the six elements of storytelling.
Prerequisite: THET222, THET223, THET116, and TDPS201.
Restriction: Permission of ARHU-School of Theatre, Dance & Performance Studies department.
Credit Only Granted for: THET340 or THET399P.
Formerly: THET399P.

THET351 Musical Theatre I (3 Credits)
An introduction for students interested in developing their skills with musical theatre, specifically the work of the actor interpreting songs and text in musicals. With a primary focus on American Musical Theatre repertoire, students will prepare and present various solo, duet, and group numbers.
Credit Only Granted for: THET351 or THET328M.
Formerly: THET328M.

THET360 Voice Archetypes (3 Credits)
The student will learn how to apply archetypal characters and expand performance potentialities, increase vocal self knowledge, discover rhythms, pitch variations, and sounds that reflect inner states of being.
Prerequisite: THET310; and permission of ARHU-School of Theatre, Dance & Performance Studies department.

THET363 The Business of the Business (3 Credits)
An in depth study of the business of working in the theatre. Explores early career opportunities and entry-level positions in the entertainment industry. Analyzes publicity, management, union, casting, and agency practices; how they apply to you and your career in the non-profit and commercial theatre.
Prerequisite: THET116, THET222, THET223, and TDPS201; and permission of ARHU-School of Theatre, Dance & Performance Studies department.

THET369 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

THET371 Scenic Design I (3 Credits)
A study of design theory and style. Methods and techniques of coordination of all elements of scenic design for theatre.
Prerequisite: TDPS201, THET222, THET223, and THET116.

THET372 Stage Property Design (3 Credits)
Materials and techniques for the design and execution of stage properties with special emphasis on period research, special materials, and special effects.
Prerequisite: TDPS201; or permission of ARHU-School of Theatre, Dance & Performance Studies department.

THET373 Rendering for the Theatre I (3 Credits)
A study in the techniques and tools of drawing and painting. It is designed for the student to develop rendering and drawing skills for theatrical design presentation.
Restriction: Permission of ARHU-School of Theatre, Dance & Performance Studies department.

THET377 Lighting Design for Performance (3 Credits)
A study of the theories of electrification, instruments, design, color, and control for the stage. Practical work on productions.
Prerequisite: THET222, THET223, THET116, and TDPS201; or permission of ARHU-School of Theatre, Dance & Performance Studies department.

THET380 Sound Design (3 Credits)
Theatre Sound Design is a first course in designing sound for stage productions.
Prerequisite: THET116 and TDPS201; or permission of ARHU-School of Theatre, Dance & Performance Studies department.
Restriction: Sophomore standing or higher.

THET383 Costume Design I (3 Credits)
Basic principles of theatre costume design and introduction to rendering skills. Emphasis on development of design conception, unity, character statement, basic clothing design and period style adaptation.
Prerequisite: TDPS201, THET116, THET222, and THET223.

THET384 Stage Costume Construction II (3 Credits)
Study and practical experience in the construction of stage costumes, props and accessories. Pattern development by draping, millinery, and crafts.
Prerequisite: THET284; or permission of ARHU-School of Theatre, Dance & Performance Studies department.
Credit Only Granted for: THET384 or THET487.
Formerly: THET487.

THET385 Media Design (3 Credits)
Focuses on learning the grammar and conceptual thinking behind multimedia design for live performance. Students will learn how our new multimedia tools can enhance the sense of liveness as well as explore the different ways in which technology can be implemented into preproduction thinking, rehearsal experimenting, and ultimately, effective use in performance.
Prerequisite: THET222, THET223, THET116, and TDPS201; and permission of ARHU-School of Theatre, Dance & Performance Studies department.
Credit Only Granted for: THET399D or THET385.
Formerly: THET399D.

THET386 Experiential Learning (3-6 Credits)
Restriction: Junior standing or higher; and permission of ARHU-School of Theatre, Dance & Performance Studies department.

THET388 Special Topics in Performance Studies (3 Credits)
Performance Studies is a broad discipline that offers strategies for exploring diverse texts from diverse perspectives. Students are encouraged to explore critical and practical approaches to research and performance, including the History and Practice of Festivals and Carnival Performances, Comedy, Performance in Everyday Life, Contemporary Theatre at the Margins, and Stage Adaptation.
Prerequisite: THET222, THET223, THET116, and TDPS201; and permission of ARHU-School of Theatre, Dance & Performance Studies department.
Restriction: Sophomore standing or higher.
Repeatable to: 6 credits if content differs.

THET390 History of Theatre I (3 Credits)
The history of Western theatre from its origins in classical antiquity through the mid-seventeenth century with emphasis on plays and playwrights, architecture and decor, acting and costuming, and significant personalities. Includes explorations of interrelationships between Western theatre and the theatre of other cultures.
Prerequisite: Permission of ARHU-School of Theatre, Dance & Performance Studies department.

THET391 Theatre History II (3 Credits)
The history of Western theatre from the mid seventeenth century to the early twentieth century, with emphasis on plays and playwrights, architecture and decor, acting and costuming, and significant personalities. Includes explorations of interrelationships between Western theatre and the theatre of other cultures.
Prerequisite: Permission of ARHU-School of Theatre, Dance & Performance Studies department.

THET399 Independent Study (1-3 Credits)
An independent study in which each student completes an assigned major theatre project under close faculty supervision. Projects may culminate in term papers, scenic; lighting, or costume designs; or a stage production.
Restriction: Permission of instructor; and junior standing or higher.
Repeatable to: 6 credits if content differs.

THET408 Seminar: Theory and Performance Studies (3 Credits)
Studies in theatre theory and performance studies from classical antiquity to the present.
Repeatable to: 12 credits if content differs.

THET411 Voice for the Actor II (3 Credits)
Learn the International Phonetic Alphabet (IPA) and apply to exploration of sound and language. Designed to increase voice and speech awareness, and create a base knowledge from which to approach any accent or dialect.
Prerequisite: THET324 or THET325; and must audition; and permission of ARHU-School of Theatre, Dance & Performance Studies department.
Restriction: Junior standing or higher.

THET420 Language and the Actor (3 Credits)
Explores the actor's relationship to language, particularly heightened poetic language, in order to: develop the ability to embody language and vocally and physically project the images; apply an intellectual understanding of the inherent structural, poetic, and rhetorical techniques of heightened language in combination with action theory; and access the inner states of character while expressing them through text.
Prerequisite: THET325 or THET324; and must audition; and permission of ARHU-School of Theatre, Dance & Performance Studies department.

THET424 Movement II: Advanced Studies in Movement and Mask Theatre (3 Credits)
A deeper exploration of how to use the actor's instrument for dramatic expression. Continuing work in the F.M. Alexander Technique and foundational exercise to help actors learn what they need to prepare for rehearsal and performance. Other techniques may include theatrical styles, physical character, dramatic use and play with space and rhythm and masks.
Prerequisite: THET325 or THET324; and must audition; and permission of ARHU-School of Theatre, Dance & Performance Studies department.
Restriction: Junior standing or higher.

THET425 Actor's Process II (3 Credits)
A deeper exploration of the work begun in THET325. A continuation of creating a personal process through which the actor can confidently approach any genre of play. Special focus on status and subtext and the world of the playwright.
Prerequisite: THET325; and must audition; and permission of ARHU-School of Theatre, Dance & Performance Studies department.

THET426 Theatrical Clown (3 Credits)
Progression of developing individual clown characters through methods based on European pedagogy which emphasizes a physical and technical approach to actor training.
Prerequisite: THET324 or THET325; and must Audition.
Restriction: Permission of ARHU-School of Theatre, Dance & Performance Studies department.

THET428 Special Topics in Advanced Theatre and Performance (1-3 Credits)
This course is offered as part of the School of Theatre, Dance, and Performance Studies' Artist in Residence program. Topics covered may include: Intercultural Theatre; Performance Art; Puppetry; Solo Performance; or Theatrical Design.
Prerequisite: TDPS201, THET116, THET222, and THET223; and permission of ARHU-School of Theatre, Dance & Performance Studies department.
Restriction: Junior standing or higher.
Repeatable to: 3 credits if content differs.
Additional Information: Incorporate the change from THET 114 to TDPS 201, listing both numbers, as students will take the prerequisite under either number. To change the catalog description to reflect the proper unit name as the School of Theatre, Dance, and Performance Studies.

THET429 Actor's Studio (1-3 Credits)
Participation in dramatic roles executed under faculty supervision in the department's productions. Eligible students must make commitments and plan performances with course instructor during pre-registration.
Restriction: Permission of ARHU-School of Theatre, Dance & Performance Studies department.
Repeatable to: 10 credits.

THET435 Advanced Costume Construction (3 Credits)
The course is taught in a presentation/practical application format. Students will learn advanced techniques in draping and pattern development and develop proficiency in communication of design and construction choices.
Prerequisite: THET284 and THET384; and portfolio review; and permission of ARHU-School of Theatre, Dance & Performance Studies department.
Jointly offered with: THET635.
Credit Only Granted for: THET435 or THET635.

THET440 Advanced Playwriting (3 Credits)
Ensemble-based writer's workshop. It is the second part of a two-course sequence and is designed for students who already have a foundation in the basics of playwriting or who are other wise well-versed in the art of theatre and dramatic structure. Through exploratory writing sequences, the reading of full-length plays, and in-class readings of work-in-progress, students will continue to deepen their craft and develop the script for a new full-length play.
Prerequisite: THET240 or THET340; or permission of instructor. And permission of ARHU-School of Theatre, Dance & Performance Studies department.
Restriction: Permission of ARHU-School of Theatre, Dance & Performance Studies department.
Credit Only Granted for: THET440 or THET499P.
Formerly: THET499P.

THET447 Technologies of Japanese Performance (3 Credits)
Explores technologies of performance in Japan across the centuries. We will focus on concepts of likeness and liveness as they manifest in performance's mythical origins, the traditions of noh drama, the popular, commercial theatres of kabuki, bunraku, and Takarazuka, and contemporary experiments with robotics, Vocaloids, and other new technologies. Taught in English.
Cross-listed with: JAPN447.
Credit Only Granted for: THET447 or JAPN447.

THET451 Musical Theatre Workshop I (3 Credits)
Development of the ability to move, act and express through the media of lyric and music.
Prerequisite: Must audition.
Restriction: Permission of ARHU-School of Theatre, Dance & Performance Studies department.

THET452 Musical Theatre Workshop II (3 Credits)
Development of the ability to move, act and express through the media of lyric and music from the integrated musicals of the 1960s through the development of concert and rock/pop musicals.
Prerequisite: Must audition.
Restriction: Permission of ARHU-School of Theatre, Dance & Performance Studies department.

THET465 History of Fashion for the Theatre (3 Credits)
A survey of Western clothing from the Ancient Worlds through 20th Century. A discussion of the cultural contexts of various trends in fashion through an examination of art, industry and textiles.
Prerequisite: THET116; or permission of instructor.
Restriction: Sophomore standing or higher.

THET469 Study Abroad Special Topics IV (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

THET471 Design Studio in Scenery (3 Credits)
Advanced study of scenic design for the theatre. Particular design projects will vary.
Prerequisite: THET371; and permission of ARHU-School of Theatre, Dance & Performance Studies department. Jointly offered with THET639.
Credit Only Granted for: THET471 or THET639.

THET472 Scene Painting (3 Credits)
Scene painting techniques and materials. Three-dimensional realistic scenery and non-realistic two-dimensional projects.
Prerequisite: TDPS201; or permission of ARHU-School of Theatre, Dance & Performance Studies department.

THET473 Rendering for the Theatre II (3 Credits)
Continued study in rendering techniques and graphic skills for theatrical design presentation. Emphasis on style, technique and use of different artistic media.
Prerequisite: THET373; or permission of instructor.

THET474 Advanced Stage Management (3 Credits)
Intensive practical study of the techniques and procedures for stage management.
Prerequisite: THET274; and permission of ARHU-School of Theatre, Dance & Performance Studies department.
Restriction: Permission of ARHU-School of Theatre, Dance & Performance Studies department; and sophomore standing or higher.

THET475 History of Art, Architecture, and Decor for the Theatre (3 Credits)
Study of Western art, architecture, and decor and their practical application to theatrical production.
Prerequisite: TDPS201, THET116, THET222, and THET223; and permission of ARHU-School of Theatre, Dance & Performance Studies department.
Jointly offered with: THET670.
Credit Only Granted for: THET475 or THET670.

THET477 Design Studio in Lighting (3 Credits)
Designed for students who have successfully completed THET377 and wish to further develop their lighting design skills. Emphasis is on theoretical design of productions and realized light lab projects. Particular design projects will vary.
Prerequisite: THET377; and permission of ARHU-School of Theatre, Dance & Performance Studies department. Jointly offered with THET659.
Credit Only Granted for: THET477 or THET659.

THET480 Advanced Sound Design (3 Credits)
Students will dive deeper into the technical elements of sound design, developing a working understanding of both software editing tools as well as the primary components of a live sound system.
Prerequisite: THET380 and permission of the School of Theatre, Dance, and Performance Studies.

THET481 Theatre Graphics II: Computer Assisted Design (3 Credits)
Study and practical application of computer generated graphical design for use in theatrical production.
Prerequisite: THET114 or TDPS201; and THET116; and permission of ARHU-Theatre department.
Restriction: Sophomore standing or higher.

THET482 Scene Painting II (3 Credits)
Advanced study of theatrical scenic painting.
Prerequisite: THET472; or permission of instructor.
Restriction: Sophomore standing or higher.

THET488 Special Topics in Theatre History Before 1800 (3 Credits)
Topics in the history of world theatre and performance from the Greeks through 1800.
Repeatable to: 12 credits if content differs.

THET489 Special Topics in Theatre History from 1800 to Present (3 Credits)
Topics in the history of world theatre and performance from 1800 to present.
Repeatable to: 12 credits if content differs.

THET491 Theatrical Rendering Using Photoshop (3 Credits)
A studio course in rendering for the theatre. The course focuses primarily on traditional approaches to perspective drawing, space, texture, color and lighting rendering using Photoshop. Photoshop tools and techniques; preparing three-dimensional objects for accurate rendering; and techniques for Photoshop rendering and lighting of three-dimensional objects and architectural forms. This class primarily has an emphasis on rendering/uses for scenic design.
Prerequisite: THET471.
Credit Only Granted for: THET491 or THET428O.
Formerly: THET428O.

THET497 Non-Traditional Theatre (3 Credits)
Seminar exploring American and European experimental performance since 1960. Topics include experimental theatre, performance art, pornography and performance, gender and performance, and popular culture and performance. Topics are treated historically and theoretically. Student-produced performance projects are an important component of the seminar.

THET498 Seminar: Theatre History (3 Credits)
Studies in theatre history from classical antiquity to the present.
Prerequisite: THET488 or THET489.
Restriction: Senior standing; and permission of instructor.
Repeatable to: 6 credits if content differs. Jointly offered with THET698.
Credit Only Granted for: THET498 or THET6 98.

THET499 Independent Study (1-3 Credits)
An independent study course in which each student completes an assigned major theatre project under close faculty supervision. Projects may culminate with term papers, scenic or costume designs, or a stage production.
Restriction: Permission of ARHU-School of Theatre, Dance & Performance Studies department.
Repeatable to: 6 credits.

THEX - Theatre Education Abroad

THEX100 London/Culture/Performance (3 Credits)
Introduces students to aspects of London's cultural resources and history and explores London as a performance site. Examines current issues in cultural politics and engages with the vast cultural resources, history, and global connections of London through analysis of a range of texts, performances and events, and sites around London.
Additional Information: This course is offered as part of the Arts & Humanities-in-London study abroad program. Students must apply for this program through Education Abroad: More information at https://globalmaryland.umd.edu/offices/education-abroad/program/11854. Education Abroad processes registrations for this course on behalf of students.

THEX101 Theatre and Performance in North America (3 Credits)
Studies contemporary drama and live art from countries including the United States, Canada, and Mexico. Explores how forms of and approaches to performance spread across a region and the globe through seminar discussions, readings, film, and television. Analyzes various performance styles and traditions including Indigenous performance, intercultural theatre, and Latinx theatre.
Additional Information: This course is offered as part of the Arts & Humanities-in-London study abroad program. Students must apply for this program through Education Abroad: More information at https://globalmaryland.umd.edu/offices/education-abroad/program/11854. Education Abroad processes registrations for this course on behalf of students.

THEX102 London: Walking the City (3 Credits)
What is a city? This course asks students to consider the different ways that we might define a city and to explore different perspectives on London inflected by mobility, migration, class and gender. Through reading a range of literary and theoretical texts, as well as walking lectures, students will develop an understanding of the role of literature, performance and cultural institutions in producing and contesting urban experience.
Additional Information: This course is offered as part of the Arts & Humanities-in-London study abroad program. Students must apply for this program through Education Abroad: More information at https://globalmaryland.umd.edu/offices/education-abroad/program/11854. Education Abroad processes registrations for this course on behalf of students.

THEX200 Acting (3 Credits)
A workshop on the fundamental techniques of acting, the course stresses methodology, discipline and development. It covers: stimulation of the actor's imagination, analytical insight into script and characters, expressive skills of body and voice, sensitivity, revelation, and expression. Develops emotional range and personal style.
Additional Information: This course is offered as part of the Maryland-in-Rome study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMRome. Education Abroad processes registrations for this course on behalf of students.

THEX300 Race and Racism in Performance (3 Credits)
Explores how race is performed in theater, art, and popular culture. Examines questions about racism in performance casting and practices.
Additional Information: This course is offered as part of the Arts & Humanities-in-London study abroad program. Students must apply for this program through Education Abroad: More information at https://globalmaryland.umd.edu/offices/education-abroad/program/11854. Education Abroad processes registrations for this course on behalf of students.

THEX301 Voice, Gender, Performance (3 Credits)
How do people use their voices, and what does this reveal or conceal about their gendered identities? How do gendered voices intersect with other aspects of identity, such as region, class, nation and race? This course explores how gender is voices in a variety of different spaces by drawing on theoretical material from a range of disciplinary fields, including cultural philosophy, sociolinguistics, film studies, and psychology while equipping students to use the voice creatively through mixed learning methods and attendance at exhibitions and performances.
Additional Information: This course is offered as part of the Arts & Humanities-in-London study abroad program. Students must apply for this program through Education Abroad: More information at https://globalmaryland.umd.edu/offices/education-abroad/program/11854. Education Abroad processes registrations for this course on behalf of students.

THEX302 Show Business: Theatre and Capitalism (3 Credits)
Explores the relationship between theater and capitalism through the examination of key economic problems as they arise in the theater (e.g. "star" performers, box office, theater as entertainment, theater as a "creative industry," theater and real estate). Considers how performance offers a distinctive lens through which to think about broader movements (e.g. neoliberalism, globalization, urban development) that have become central to our everyday lives.
Additional Information: This course is offered as part of the Arts & Humanities-in-London study abroad program. Students must apply for this program through Education Abroad: More information at https://globalmaryland.umd.edu/offices/education-abroad/program/11854. Education Abroad processes registrations for this course on behalf of students.

THEX303 Live Art: Then and Now (3 Credits)
Explores the recent history of Live Art, from the 1970s to the present via the study of significant as well as overlooked artists through audiovisual documentation, oral histories/interviews, and artists' writings, as well as significant scholarship and criticism in the field. Students will analyze performances and gain perspective on key themes for the study of Live Art, including (but not limited to) sexuality, gender, race and ethnicity, the blurring of art and life, extremity, duration, protest, and social engagement.
Additional Information: This course is offered as part of the Arts & Humanities-in-London study abroad program. Students must apply for this program through Education Abroad: More information at https://globalmaryland.umd.edu/offices/education-abroad/program/11854. Education Abroad processes registrations for this course on behalf of students.

THEX304 Scriptwriting: Creativity and Technique (6 Credits)
Delves into the world of scriptwriting through production of an original script and analysis of filmed scripts. Explores the context around reading scripts as well as how to write a short original film script with coherent dialogue, exposition and structure.
Additional Information: This course is offered as part of the Arts & Humanities-in-London study abroad program. Students must apply for this program through Education Abroad: More information at https://globalmaryland.umd.edu/offices/education-abroad/program/11854. Education Abroad processes registrations for this course on behalf of students.

THEX305 The History of Emotions (3 Credits)
We live in an era of angry voters, weeping celebrities, and governments intent on measuring happiness. The course explores the histories of feelings, emotions and passions through the study of a wide range of examples and case studies, and examines many different historical types, including intellectual history, gender history, cultural history, social history, religious history, the history of art, and the histories of science and medicine.
Additional Information: This course is offered as part of the Arts & Humanities-in-London study abroad program. Students must apply for this program through Education Abroad: More information at https://globalmaryland.umd.edu/offices/education-abroad/program/11854. Education Abroad processes registrations for this course on behalf of students.

TLPL - Teaching and Learning, Policy and Leadership

TLPL101 Inquiry Approach to Teaching STEM (Step 1) (1 Credit)
Explore STEM teaching and learning and classroom complexity, and develop teaching skills through discussion-based, collaborative class sessions, and experiences in local schools. To explore/understand the fundamentals of inquiry teaching, students will observe, plan and teach student-centered lessons.
Additional Information: Students must allow for a three-hour window between 7:45 AM and 3:15 PM in their schedule for field experiences in a local school 3-4 times during the semester. A background check is required and will be facilitated by the Terrapin Teacher program coordinator.

TLPL102 Inquiry Teaching of STEM in Middle School (2 Credits)
Second course in the Terrapin Teachers teacher preparation sequence. Students gain field experience and continue exploring teaching as a career by conducting teacher observations, and planning and implementing lessons in local, high-need middle school classrooms. Students work closely with UM master teachers to build upon the inquiry-based teaching practices developed in TLPL 101. Students work with mathematics and science curricula while attending to state and district standards, in order to develop and enact lessons that are responsive to students' reasoning in math and science.
Prerequisite: Must have completed TLPL101.
Additional Information: Attendance at each class session will be vital to student success in the course. To complete the observations and lessons, students must allow a three hour block of time during the local middle school operational hours from 7:45 am to 3:15 pm. A background check is required.

TLPL200 Exploring Teaching as a Career (3 Credits)
Weekly participation as a volunteer tutor in a local school or community program with children or adolescents. Regular campus meetings assist with developing teaching skills and insight.
Credit Only Granted for: EDCI210 or TLPL200.
Formerly: EDCI210.

TLPL202 Good Stories: Teaching Narratives for Peace and Justice (3 Credits)
Through the study and use of oral storytelling and digital technologies explore qualities and characteristics of what makes a good story and how stories can be used to advance peace and justice on both individual and social levels.
Credit Only Granted for: EDCI246 or TLPL202.
Formerly: EDCI246.

TLPL204 Latino and Black Schooling: A History (3 Credits)
The historical, cultural, political and socio-economic factors that shape the school experience and achievement (Kindergarten - college) of Latinos and Blacks in the U.S.
Credit Only Granted for: EDCI286 or TLPL204.
Formerly: EDCI286.

TLPL206 Forbidden Books: Censorship of Children's and Young Adult Literature (3 Credits)
What is the relationship between censorship and intellectual freedom? This course examines the history of censorship from Plato to Fake News with a focus on contemporary censorship analyzed through historical, political, ethical, moral, philosophical, and socio-cultural perspectives. We consider the evolving definition of censorship, forms of censorship, the rationalizations and arguments for censorship, and the consequences and unintended results of censorship.
Credit Only Granted for: TLPL288W or TLPL206.
Formerly: TLPL288W.

TLPL210 Childhood Reimagined: Learning In and Out of Schools (3 Credits)
Surveys innovative approaches to child education, including unschooling, homeschooling, blended instruction, place-based learning, Big Picture Learning, democratic schools, microschools, self-directed learning centers, and other alternatives to traditional schools.
Credit Only Granted for: TLPL288K or TLPL210.
Formerly: TLPL288K.

TLPL250 Historical and Philosophical Perspectives on Education (3 Credits)
An examination of illustrative historical and philosophical examples of the interplay of ideas and events in the shaping of educational aims and practices from ancient cultures to modern technological societies.
Credit Only Granted for: EDPS210 or TLPL250.
Formerly: EDPS210.

TLPL251 Community, Learners, and Classroom Climate (3 Credits)
Focuses on classroom community building as an ethic of caring for students and examines the connection between classroom climate and learning. Topics include students' funds of knowledge, social-emotional competency, and the practices that maintain a safe and inclusive classroom climate. Wellness strategies to support teacher resilience are also addressed.
Additional Information: This course has a field component in a local elementary school.

TLPL252 Students, Schooling, and Communities (3 Credits)
Facilitates pre-service teachers' initial look at their personal backgrounds and the ways in which they view the world. Exploration of schools, students and their connections to communities. Draws on preservice teachers' concurrent field experiences.
Corequisite: TLPL251.
Credit Only Granted for: EDCI297 or TLPL252.
Formerly: EDCI297.

TLPL253 Language Rights and Repression in Education (3 Credits)
Many English-speaking Americans view societal monolingualism and English-speaking in schools as the standard. The proposed course will delve deeply into issues associated with language, language rights, education, and linguistic repression in schooling. The Big Question of our time this course asks is: Are access to education and native language maintenance civil rights? Human rights?

TLPL254 Surmounting School: Democracy, Inequality, and Schooling (3 Credits)
This Big Questions course explores the grandest challenges faced by today's public schools and asks: How do schools shape democracy and inequality in the U.S.? At the conclusion of this course, students will propose practical educational policy recommendations aimed at addressing its big question.

TLPL255 Watch your Language! Decoding the World Around Us (3 Credits)
This Big Questions course addresses the question: What is a "linguistic landscape"? How do we decode and interpret language on signs--buildings, roadways, flyers, storefronts, even t-shirts and what does it mean for our public spaces? How and why are languages displayed, hierarchized and used in social and school settings?

TLPL285 Decolonizing Climate Change Education: Fostering Inclusivity, Equity, and Holistic Understandings (3 Credits)
How climate science is measured, understood, communicated, and taught through Eurocentric and Indigenous lenses to situate climate change education at the nexus of socio-cultural and environmental justice. This course welcomes participants with varying levels of experience and expertise in the subject matter, ensuring an inclusive learning environment suitable for beginners and those with a more advanced understanding of the concepts involved. The curriculum is structured to accommodate a broad range of backgrounds, providing a valuable educational experience for everyone, regardless of prior familiarity with the concepts.

TLPL287 Inquiry Into Issues in US Public Schooling: Policies, Practice and Promise (3 Credits)
Students will inquire into enduring issues faced by US public education, focusing on the forces and stakeholders that have shaped current policy and practice. In addition, students will work to consider the real daily consequences of policy on the lives of students and teachers. Through crafting and researching a question of interest, employing a project based learning approach, students will take a deep dive into the most vexing issues faced by public education in the United States.
Credit Only Granted for: TLPL288T or TLPL287.
Formerly: TLPL288T.

TLPL288 Special Problems in Education (1-6 Credits)
Special and intensive treatment of current topics and issues in teaching, learning, policy and leadership. Available only to freshmen and sophomore students who have definite plans for individual study of approved problems relative to their preparation for teaching.
Restriction: Permission of EDUC-Teaching and Learning, Policy and Leadership department.
Formerly: EDPS288.

TLPL298 Special Problems in Education (1-6 Credits)
Exploration of current problems in teaching, learning, policy and leadership. Available only to students who have definite plans for study of approved problems.
Restriction: Permission of EDUC-Teaching and Learning, Policy and Leadership department.
Repeatable to: 6 credits if content differs.
Formerly: EDCI298.

TLPL300 Digital Learning Tools and Communities (1 Credit)
An exploration of the digital tools available for P12 students and their teachers that enhance learning and help build classroom community. This hybrid course will prepare P12 teachers to incorporate instructional technology, digital learning resources, and social media in P12 classrooms.
Restriction: Minimum cumulative GPA of 2.75; and must be in one of the following programs (Elementary Education; Secondary Educ: Social Studies; Secondary Educ: Art; Secondary Educ: Mathematics; Secondary Educ: Science; Secondary Educ: English Language Arts; Secondary Educ: Foreign Languages).
Credit Only Granted for: EDCI385 or TLPL300.
Formerly: EDCI385.

TLPL312 Curriculum and Instruction in Elementary Education: Mathematics (3 Credits)
Materials and procedures to help children sense arithmetical meanings and relationships. Development of an understanding of the number system and arithmetical processes. Includes laboratory/field experiences.
Prerequisite: TLPL361.
Corequisite: EDCI362, EDCI342, TLPL321, and TLPL362.
Restriction: Must be in Elementary Education program; and minimum cumulative GPA of 2.75; Or permission of EDUC-Teaching and Learning, Policy and Leadership department.
Credit Only Granted for: EDCI352 or TLPL312.
Formerly: EDCI352.

TLPL321 Curriculum and Instruction in Elementary Education: Science (3 Credits)
Objectives, methods, materials and activities for teaching science in the elementary school; emphasis on teaching strategies which help children learn the processes and concepts of science. Includes laboratory/field experiences.
Prerequisite: TLPL361.
Corequisite: TLPL312, EDCI362, EDCI342, and TLPL362.
Restriction: Must be in Elementary Education program; and minimum cumulative GPA of 2.75; Or permission of EDUC-Teaching and Learning, Policy and Leadership department.
Credit Only Granted for: EDCI372 or TLPL321.
Formerly: EDCI372.

TLPL332 Arts Integration in Elementary Classrooms (3 Credits)
An exploration of the theories and core practices associated with integrating the arts in ways that promote student learning in the core subjects.
Corequisite: TLPL362, EDCI362, TLPL361, and EDCI489.
Restriction: Must be in Elementary Education program; and minimum cumulative GPA of 2.75; Or permission of EDUC-Teaching and Learning, Policy and Leadership department.
Credit Only Granted for: TLPL306 or TLPL332.
Formerly: TLPL306.

TLPL340 Introduction to Children's Literature and Critical Literacy (3 Credits)
Analysis of literary materials for children and youth. Timeless and ageless books, and outstanding examples of contemporary publishing. Evaluation of the contributions of individual authors, illustrators and children's book awards.
Restriction: Must be in Elementary Education program; or must be a Pre-Education Major.
Credit Only Granted for: EDCI443 or TLPL340.
Formerly: EDCI443.

TLPL341 Assessing Language and Literacy Development in Elementary Classrooms (3 Credits)
An exploration of the social and cognitive processes involved in reading and writing, the developmental nature of those processes, the foundational concepts associated with effective literacy assessment, a variety of formative and summative literacy assessments, and the nature of individual differences in reading and writing.
Corequisite: TLPL479, EDHD411, and EDSP401.
Restriction: Must be in the Elementary Education program; and permission of EDUC-Teaching and Learning, Policy and Leadership.
Credit Only Granted for: TLPL341 or TLPL488R.
Formerly: TLPL488R.

TLPL342 Promoting Skilled and Motivated Readers in Diverse Elementary Classrooms (Part 1) (3 Credits)
An investigation of the materials, curriculum, teaching and learning practices and assessment methods associated with promoting skilled and motivated readers in diverse elementary classrooms. Teacher candidates will learn to use assessments to design instruction in the core components of reading, in line with students' individual needs and the Maryland College and Career Ready Standards.
Corequisite: TLPL362, TLPL361, TLPL332, and TLPL479.
Restriction: Must be in the Elementary Education program; and permission of EDUC-Teaching and Learning, Policy and Leadership.
Credit Only Granted for: TLPL488L or TLPL342.
Formerly: TLPL488L.

TLPL343 Promoting Skilled and Motivated Readers in Diverse Elementary Classrooms (Part 2) (3 Credits)
Application of the materials, curriculum, teaching and learning practices and assessment methods associated with classroom reading programs designed to promote skilled and motivated readers in diverse elementary classrooms. Teacher candidates will learn to assess and scaffold students' self-regulated literacy learning in line with students' individual needs and Maryland College and Career Ready Standards.
Corequisite: TLPL312, TLPL321, TLPL446, and TLPL489.
Restriction: Must be in the Elementary Education program; and permission of EDUC-Teaching and Learning, Policy and Leadership.
Credit Only Granted for: TLPL343 or TLPL488F.
Formerly: TLPL488F.

TLPL344 Culturally Responsive Language and Literacy Instruction in Diverse Elementary Classrooms (3 Credits)
Application of the asset-based practices associated with culturally responsive language and literacy programs. Teacher candidates will learn to plan, guide and assess students' integrated language and literacy practices (reading, writing, speaking and listening), with emphasis on writing instruction, in line with students' individual needs and Maryland College and Career Ready Standards.
Corequisite: TLPL300, TLPL478, and TLPL489.
Restriction: Must be in the Elementary Education program; and permission of EDUC-Teaching and Learning, Policy and Leadership.
Credit Only Granted for: TLPL488I or TLPL 344.
Formerly: TLPL488I.

TLPL360 Foundations of Education (3 Credits)
Social context of education and conflicts over philosophies, values, an goals that are reflected in educational institutions in our pluralistic society. Helps teachers become reflective, critical thinkers about the social and philosophical issues they face and the choices they make.
Credit Only Granted for: EDPS301 or TLPL360.
Formerly: EDPS301.

TLPL361 Community, Learners, and Classroom Engagement (3 Credits)
Focuses on classroom community building as an ethic of caring for students and examines the connection between classroom engagement and learning. Topics include student agency, the context and design of learning experiences, and the practices that sustain students' engagement in learning. Wellness strategies to support teacher resilience are also addressed.
Corequisite: TLPL332, TLPL362, TLPL342, and TLPL479G.
Restriction: Must be in Elementary Education program; and minimum cumulative GPA of 2.75; Or permission of EDUC-Teaching and Learning, Policy and Leadership department.

TLPL362 Curriculum and Instruction in Elementary Education: Social Studies (3 Credits)
Curriculum, organization and methods of teaching, evaluation of materials, and utilization of environmental resources. Emphasis on multicultural education. Includes laboratory/field experiences.
Corequisite: EDCI362, TLPL361, EDCI489, and TLPL306.
Restriction: Must be in Elementary Education program; and minimum cumulative GPA of 2.75; Or permission of EDUC-Teaching and Learning, Policy and Leadership department.
Credit Only Granted for: EDCI322 or TLPL362.
Formerly: EDCI322.

TLPL379 Professional Engagement In and Beyond the Secondary/MS/K-12 Classroom (1 Credit)
Provides an early field experience (e.g., tutoring young children) in secondary school settings (e.g., middle school). Recommended for students exploring the possibility of or intending to minor in Education or major in Secondary/MS/K-12 education. Credit will not be granted for experience accrued prior to registration. This course is open to all students but best suited for those interested in a career in education. Students need to be prepared to participate in as many as 10 in-person tutoring sessions over the course of the semester. Transportation is provided.
Repeatable to: 3 credits.
Additional Information: Students need to be available for a half day once a week to engage in the field based tutoring experience.

TLPL401 Student-Centered Curriculum and Instruction (3 Credits)
A focus on using student-centered teaching and learning approaches in high school STEM classrooms. Students will develop and implement a multi-day series of lessons, building upon the foundations of inquiry-based practices developed in prior courses. Students will also consider the implications of cultural awareness on teaching practices broadly, as well as in the specific contexts of their fieldwork.
Prerequisite: Permission of instructor; and TLPL102; and must have completed or be concurrently enrolled in TLPL414.
Credit Only Granted for: TLPL488P or TLPL401.
Formerly: TLPL488P.
Additional Information: Field experience for this course will require students to be available for a 2-4 hour block of time at various points throughout the semester to complete observations and teach lessons between 8:00 a.m. and 3:30 p.m. A background check is required and will be facilitated through the Terrapin Teacher program coordinator.

TLPL403 Teaching and Learning High School Mathematics (3 Credits)
Methods of teaching and assessing the high school mathematics curriculum; aligning tasks and activities to curriculum standards; lesson planning; and selection and use of technology. The course also focuses on managing large group dynamics in the high school mathematics classroom.
Prerequisite: Must have 2 semesters of calculus; or permission of EDUC-Teaching and Learning, Policy and Leadership department.
Corequisite: EDCI355.
Restriction: Must be in Secondary Educ: Mathematics program; and minimum cumulative GPA of 2.75; Or permission of EDUC-Teaching and Learning, Policy and Leadership department.
Credit Only Granted for: EDCI455 or TLPL403.
Formerly: EDCI455.

TLPL406 Teaching and Learning Mathematics in the Elementary School, Part 1 (3 Credits)
Focuses on teaching and learning whole numbers. Special emphasis will be placed on developing equitable teaching practices that enable culturally and linguistically diverse students to develop knowledge and skills that promote mathematical proficiency. Mathematical concepts: Content knowledge: some aspects of early numeracy, whole numbers and the four arithmetic operations, some aspects of algebraic thinking.
Jointly offered with: TLPL607.
Credit Only Granted for: TLPL607 or TLPL406.

TLPL407 Teaching and Learning Mathematics in the Elementary School, Part 2 (3 Credits)
Focuses on teaching and learning rational numbers (fractions and decimals) and developing algebraic thinking. Special emphasis will be placed on developing equitable teaching practices that enable culturally and linguistically diverse students to develop knowledge and skills that promote mathematical proficiency. Mathematical concepts: Content knowledge: rational numbers (fractions and decimals) and the four arithmetic operations, algebraic thinking, some aspects of geometry and measurement.
Credit Only Granted for: TLPL488G or TLPL407.

TLPL413 Teaching and Learning Middle School Mathematics (3 Credits)
Methods of teaching and assessing the middle school mathematics curriculum. Understanding the conceptual difficulties students have in moving from whole numbers to rational numbers, additive thinking to multiplicative thinking, and arithmetic to algebra. Lesson planning and selection of technology and other materials are applied in the context of supervised tutoring of students having difficulty in middle school mathematics. Lab and field experience required. Supervised tutoring takes place on site at a local middle school therefore TLPL413 students will be expected to travel to a local middle school for 8-10 of the class meetings.
Restriction: Minimum cumulative GPA of 2.75; and permission of EDUC-Teaching and Learning, Policy and Leadership department.
Credit Only Granted for: EDCI457 or TLPL413.
Formerly: EDCI457.

TLPL414 Knowing and Learning in Mathematics and Science (3 Credits)
Special and intensive treatment of current topics and issues in mathematics and science teaching and learning, policy and leadership. The overall goal of the course is to orient future teachers to the discourses and theories that shape what we know about how students learn math and science.
Prerequisite: Must have completed or be concurrently enrolled in TLPL102.
Credit Only Granted for: TLPL488M or TLPL414.
Formerly: TLPL488M.

TLPL415 Perspectives in Science (3 Credits)
Overview of the history of science and philosophical perspectives on science, particularly as they apply to science teaching.
Prerequisite: Permission of instructor.
Credit Only Granted for: TLPL488W or TLPL415.
Formerly: TLPL488W.

TLPL418 Teaching Residency (3-9 Credits)
An extended teaching internship in an Elementary Professional Development School. School placements to be arranged.
Prerequisite: Must have completed or be concurrently enrolled in TLPL352, TLPL363, TLPL372, TLPL415.
Restriction: Restricted to Elementary Education majors with permission of the Department; 2.75 GPA required.
Repeatable to: 12 credits.
Credit Only Granted for: TLPL418 or EDCI481.

TLPL420 Knowledge, Reasoning, and Learning in Science (3 Credits)
For prospective science teachers. Investigations of the nature of knowledge, reasoning, and learning in middle and secondary science. Readings from cognitive science and science education research; studies of student thinking in interview and classroom observations; analyses of curricula. Includes laboratory and field experiences.
Restriction: Minimum cumulative GPA of 2.75; and permission of EDUC-Teaching and Learning, Policy and Leadership department.
Credit Only Granted for: TLPL420 or EDCI411.
Formerly: EDCI411.

TLPL421 Practices in Secondary School Science Teaching (2 Credits)
Analyses of student thinking, instructional interpretations, strategies, and techniques in the teaching internship.
Prerequisite: TLPL425.
Corequisite: EDCI471 and EDCI474.
Restriction: Permission of EDUC-Teaching and Learning, Policy and Leadership department; and must be in Secondary Educ: Science program. Or minimum cumulative GPA of 2.75.
Credit Only Granted for: TLPL421 or EDCI480.
Formerly: EDCI480.

TLPL423 Interdisciplinary Teaching in the Middle Grades I (3 Credits)
For prospective middle school teachers. Studying and planning interdisciplinary instructional practices in middle school. Utilizes context and experiences from students' field placements. Use of technology and incorporation of technology into instruction.
Prerequisite: TLPL413 and TLPL420; or permission of instructor.
Restriction: Minimum cumulative GPA of 2.75; and must be in the Middle School Teacher Education Program, major code 0804P.
Credit Only Granted for: EDCI413 or TLPL423.
Formerly: EDCI413.

TLPL424 Interdisciplinary Teaching in the Middle Grades II (3 Credits)
For prospective middle school teachers. Planning and implementing interdisciplinary instructional practices in middle school. Draws on the context of and experiences in the student teaching placement. Use of technology and incorporation of technology into instruction.
Prerequisite: TLPL423.
Corequisite: TLPL489.
Restriction: Minimum cumulative GPA of 2.75; and must be in the Middle School Teacher Education Program.
Credit Only Granted for: EDCI414 or TLPL424.
Formerly: EDCI414.

TLPL425 Learning and Teaching in Science (3 Credits)
Studies of student learning and instructional practices in science teaching.
Prerequisite: TLPL420; or permission of instructor.
Restriction: Must be in Secondary Educ: Science program.
Credit Only Granted for: EDCI470 or TLPL425.
Formerly: EDCI470.

TLPL433 Foundations of Art Education (3 Credits)
Introduction to the field of Art Education and the role of the visual arts in grades PreK-12 for today's diverse school populations. The fundamental, historical and philosophic components of art education with an emphasis on arts disciplines and curriculum. Includes a school-based practicum. For those considering art education as a major.
Restriction: Minimum cumulative GPA of 2.75.
Credit Only Granted for: EDCI403 or TLPL433.
Formerly: EDCI403.

TLPL435 Art Education Methods I (3 Credits)
Methods I provides future art teachers with a knowledge base of the theories and best practices of effective pedagogy for: teaching methods and strategies, diversity, motivational techniques, classroom management, assessment and evaluation methods, and accommodating all students including those with special needs.
Restriction: Minimum cumulative GPA of 2.75; and permission of EDUC-Teaching and Learning, Policy and Leadership department. And must be in Secondary Educ: Art program; or must be in Secondary Educ: Art pre-major program.
Credit Only Granted for: EDCI405 or TLPL435.
Formerly: EDCI405.

TLPL436 Studio Processes and Materials: 2D (3 Credits)
A discussion/studio format used to develop skills, materials, resources and education strategies for using technology and two-dimensional art in K-12 programs.
Prerequisite: ARTT210.
Restriction: Minimum cumulative GPA of 2.75; and permission of EDUC-Teaching and Learning, Policy and Leadership department; and junior standing or higher; and must not be in any of the following programs (Early Childhood Education; Elementary Education; Secondary Educ: Science; Secondary Educ: English Language Arts; Secondary Educ: Mathematics; Secondary Educ: Foreign Languages; Secondary Educ: Social Studies; Physical Education; Music Education; Special Education).
Credit Only Granted for: EDCI406 or TLPL436.
Formerly: EDCI406.

TLPL437 Studio Processes and Materials: 3D (3 Credits)
A lecture-studio course to develop skills, material resources, and educational strategies for three-dimensional projects in school settings.
Restriction: Must be in Secondary Educ: Art program; or must be a Pre-Art Education Major.
Credit Only Granted for: EDCI407 or EDCI437.
Formerly: EDCI407.

TLPL440 Foundations of Educating Multilingual Learners (3 Credits)
Investigates historical, theoretical, and public policy issues and current practice in the field of education as it relates to multilingual learners (also known as English Language Learners, English Learners) in K-12 and other settings.
Credit Only Granted for: EDCI432 or TLPL440.
Formerly: EDCI432.

TLPL441 Methods for Teaching Multilingual Learners (3 Credits)
Addresses best practices for supporting multilingual learners across academic contexts. It draws on current research regarding methods of teaching multilingual learners in PreK12 settings. Students analyze and apply classroom instruction.
Credit Only Granted for: EDCI434 or TLPL441.
Formerly: EDCI434.

TLPL442 Foundations of Literacy and Biliteracy Development (3 Credits)
An overview of the research on literacy and biliteracy development for English learners. Specifically, the course explores the theoretical models and processes of teaching reading and writing, current literacy/biliteracy issues, assessment, and strategies for developing literacy and biliteracy skills for English learners.
Credit Only Granted for: EDCI435 or TLPL442.
Formerly: EDCI435.

TLPL443 Cross-Cultural Communication and Multilingual Learners (3 Credits)
Participants will research and critically reflect upon aspects of culture as a basis to understand students and to develop principles to guide culturally inclusive teaching decisions. Participants will better understand the role of culture and language in schooling in order to create classrooms where culturally and linguistically diverse students (also known as English Language Learners, English Learners) can succeed.
Credit Only Granted for: EDCI436 or TLPL443.
Formerly: EDCI436.

TLPL444 Teaching and Understanding English Grammar with Multilingual Learners (3 Credits)
Students will analyze the major grammatical structures of American English and the role of teaching grammar and developing effective classroom methods and techniques for multilingual learners. To do so, students will be exposed to diverse theories, approaches, methods, and practical techniques of grammar instruction in order to assist multilingual learners (also known as English Language Learners, English Learners) K-12 classrooms.
Credit Only Granted for: EDCI437 or TLPL444.
Formerly: EDCI437.

TLPL445 Methods I: World Language Methods and Technology (3 Credits)
Explores Dual Language/World Language Methods and Second Language/Bilingual development. Implications for teaching and initial lesson design are explored through on-campus seminars as well as guided field experiences. Students should reserve a regular half-day per week for the field experience in local schools.
Restriction: Minimum cumulative GPA of 2.75; and permission of EDUC-Teaching and Learning, Policy and Leadership department.
Credit Only Granted for: TLPL445 or TLPL695.

TLPL446 Language Variation and Multilingualism in Elementary Classrooms (3 Credits)
Issues in language variation and multilingualism in elementary classrooms, schools and communities with a focus on classroom practice, assessment, and policy.
Restriction: Must be in Elementary Education program; and minimum cumulative GPA of 2.75. Or permission of EDUC-Teaching and Learning, Policy and Leadership department.

TLPL447 Art Education Methods II (3 Credits)
Methods II builds upon the pedagogical foundation of Methods I and provides future art teachers with the means for developing pre K-12 art lessons and unit plans for a balanced qualitative art program for today's diverse and inclusive schools and classrooms.
Prerequisite: TLPL435; or students who have taken courses with comparable content may contact the department.
Restriction: Minimum cumulative GPA of 2.75; and must be in Secondary Educ: Art program.
Credit Only Granted for: EDCI423, EDCI603, TLPL447 or TLPL633.
Formerly: EDCI423.

TLPL450 Advanced World Language Methods and Technology (3 Credits)
Teaches advanced best practices for effective world language instruction. Topics include: using authentic assessment and materials, applying national standards, teaching writing and culture, motivating students, providing strategy instruction, infusing technology, preparing for PreK-12 employment, and creating a professional portfolio.
Prerequisite: TLPL445.
Corequisite: EDCI438.
Restriction: Must be in Secondary Educ: Foreign Languages program; and minimum cumulative GPA of 2.75. Or permission of EDUC-Teaching and Learning, Policy and Leadership department.
Credit Only Granted for: EDCI433, EDCI688A, TLPL450 or TLPL696.
Formerly: EDCI433.

TLPL451 Teaching and Learning in Secondary Education: English (3 Credits)
An introduction for prospective middle and secondary English teachers into the basic issues, concepts, orientations, and processes that shape the teaching of English for diverse students in schools. Candidates explore their own perspectives in relation to local and national trends and develop basic teaching understanding and skills through on-campus seminars, teaching laboratory experiences, and guided field experiences. Students should reserve one full day or two half days per week for field experience.
Credit Only Granted for: EDCI416 or TLPL451.
Formerly: EDCI416.

TLPL452 Bases for English Language Instruction (3 Credits)
Examines current theory, research, best practice, curricula and materials focused on the teaching of English language to native and non-native English learners. Topics include morphology, syntax, semantics, vocabulary, pragmatics, argument, discourse structure, dialects, edited academic English, English language proficiency (listening, speaking, reading, writing) assessment, and instructional planning. English Language Learner (TESOL and SIOP) and special needs (inclusion) pupil issues considered.
Restriction: Must be in Secondary Educ: English Language Arts program; and minimum cumulative GPA of 2.75; and permission of EDUC-Teaching and Learning, Policy and Leadership department.
Credit Only Granted for: EDCI417 or TLPL452.
Formerly: EDCI417.

TLPL453 Life in Two Languages: Understanding Bilingual Communities and Individuals (3 Credits)
Overview of society and individual multilingualism. Topics include diglossia, language shift, codeswitching, bilingual first language acquisition, language attrition, dual language education policy and practice.

TLPL456 Teaching Writing (3 Credits)
Examines current theory, research, best practice, curricula and materials for teaching written communication in grades K-12. Focuses on analytical, argumentative, informative/explanatory, literary analysis, narrative, descriptive, and research writing. Emphasizes instructional planning, assessment, writer problem-solving strategies, information search, development, organization and style appropriate to task, purpose and audience for both non-digital and digital text. English Language Learner and special needs pupil issues considered.
Corequisite: EDCI447.
Restriction: Must be in Secondary Educ: English Language Arts program; and minimum cumulative GPA of 2.75. Or permission of EDUC-Teaching and Learning, Policy and Leadership department.
Credit Only Granted for: EDCI467 or TLPL456.
Formerly: EDCI467.

TLPL457 Literature for Adolescents (3 Credits)
Reading and analysis of fiction and nonfiction; methods for critically assessing quality and appeal; current theory and methods of instruction; research on response to literature; curriculum design and selection of books.
Restriction: Minimum cumulative GPA of 2.75; and permission of EDUC-Teaching and Learning, Policy and Leadership department.
Credit Only Granted for: EDCI466 or TLPL457.
Formerly: EDCI466.

TLPL460 Materials and Instruction for Creating Skilled and Motivated Readers, Part I (3 Credits)
Explains the educational research that addresses the acquisition of reading and its underlying processes, including research-based reading instruction and materials. Learn how to create a literacy learning environment that helps diverse learners become skilled and motivated readers through phonemic awareness, phonics, fluency, comprehension, vocabulary, and whole and small-group instructional approaches.
Restriction: Must be in Elementary Education program; and junior standing or higher. Or permission of EDUC-Teaching and Learning, Policy and Leadership department.
Credit Only Granted for: EDCI461 or TLPL460.
Formerly: EDCI461.

TLPL461 Materials and Instruction for Creating Skilled and Motivated Readers, Part II (3 Credits)
Selecting, evaluating, and using a variety of materials to create skilled and motivated readers in the elementary grades, particularly in diverse classroom settings; Topics include word analysis, spelling, writing, reading comprehension strategies, directed reading lessons, and explicit instruction.
Prerequisite: TLPL361 and TLPL460.
Corequisite: TLPL312, EDCI342, TLPL321, and TLPL362.
Restriction: Minimum cumulative GPA of 2.75; and permission of EDUC-Teaching and Learning, Policy and Leadership department; and must be in Elementary Education program.
Credit Only Granted for: EDCI462 or TLPL461.
Formerly: EDCI462.

TLPL462 Reading in the Secondary School (3 Credits)
Provides secondary school teachers with understanding the need for and approaches to teaching students to read and learn from content area texts.
Restriction: Minimum cumulative GPA of 2.75; and must be in one of the following programs (Middle School Education; Secondary Educ: Science; Secondary Educ: English Language Arts; Secondary Educ: Mathematics; Secondary Educ: Foreign Languages; Secondary Educ: Social Studies; Secondary Educ: Art) ; and permission of department required for post-baccalaureate students.
Credit Only Granted for: EDCI463 or TLPL462.
Formerly: EDCI463.

TLPL470 Knowledge, Reasoning, and Learning in Secondary Social Studies (3 Credits)
An exploration of the nature of knowledge and reasoning in social studies disciplines as well as how students learn social studies. Assessment and investigation of students' conceptions and misconceptions as well as their disciplinary thinking. Implications for teaching and initial lesson design are explored through on-campus seminars as well as guided field experiences. Students should reserve a regular half-day per week for the field experience in local schools. This course is required for admission to the secondary social studies double major.
Restriction: Permission of EDUC-Teaching and Learning, Policy and Leadership department; and minimum cumulative GPA of 2.75.
Credit Only Granted for: EDCI426 or TLPL470.
Formerly: EDCI426.

TLPL471 Curriculum, Teaching, and Assessment in Secondary Social Studies (3 Credits)
An exploration of curriculum development, teaching, and assessment in secondary history/social studies. Focus on identifying students' conceptions of social studies topics and designing lessons that advance students' disciplinary thinking and understanding.
Prerequisite: TLPL470.
Corequisite: EDCI428.
Restriction: Must be in Secondary Educ: Social Studies program; and minimum cumulative GPA of 2.75. Or permission of EDUC-Center for Learning & Educational Technology.
Credit Only Granted for: EDCI427 or TLPL471.
Formerly: EDCI427.

TLPL475 Equitable Classrooms (2 Credits)
An exploration and application of major theoretical frameworks surrounding equity and critical pedagogy. Creating habits of mind that help teachers see all students as capable of achieving at high levels. Draws on the concurrent field experience.
Prerequisite: TLPL252, TLPL413, and TLPL420.
Corequisite: EDCI360 and TLPL423.
Restriction: Minimum cumulative GPA of 2.75; and must be in Middle School Education program.
Credit Only Granted for: EDCI424 or TLPL475.
Formerly: EDCI424.

TLPL476 Equity and Pedagogy (2 Credits)
An exploration and application of major theoretical frameworks surrounding equity and critical pedagogy. Pedagogical decision making that leads to greater equity and improved student learning for all students. Draws on the concurrent student teaching experience.
Prerequisite: TLPL475.
Corequisite: TLPL424 and EDCI460.
Restriction: Minimum cumulative GPA of 2.75; and must be in one of the following programs (Middle School Education; Early Childhood Education; Elementary Education; Secondary Educ: Science; Secondary Educ: English Language Arts; Secondary Educ: Mathematics; Secondary Educ: Foreign Languages; Secondary Educ: Social Studies; Physical Education; Music Education; Secondary Educ: Art; Special Education).
Credit Only Granted for: EDCI425 or TLPL476.
Formerly: EDCI425.

TLPL477 Teaching Academically, Culturally, and Linguistically Diverse Students in Middle School and Secondary Education (2 Credits)
Instruction on methods of teaching academically, culturally, and linguistically diverse students in middle school and secondary classrooms.
Restriction: Must be in the teacher education program; or permission of EDUC-Teaching and Learning, Policy and Leadership department.
Credit Only Granted for: TLPL488B or TLPL477.
Formerly: TLPL488B.

TLPL478 Professional Seminar in Education (1-3 Credits)
Seminar on the issues and problems teacher candidates encounter in classrooms. Exploration of the skills and strategies that best address these challenges.
Restriction: Must be in a major within the EDUC-Teaching and Learning, Policy and Leadership department.
Repeatable to: 4 credits.
Formerly: EDCI488.

TLPL479 Field Experiences in Education (1-4 Credits)
Field experiences in approved eduation setting with appropriate supervision. Credit not to be granted for experience accrued prior to registration. Open only to students admitted to approved teacher education programs.
Restriction: Permission of EDUC-Teaching and Learning, Policy and Leadership department.
Repeatable to: 2 credits.
Formerly: EDCI489.

TLPL481 Embracing Diversity in the Classroom Community (3 Credits)
An exploration of the richness and complexity of student diversity that teacher candidates will encounter in K-12 classrooms. Students will engage in critical reflection around diversity and equity issues.
Restriction: Admission to teacher education program; or permission of EDUC-Teaching and Learning, Policy and Leadership department.
Credit Only Granted for: TLPL481 or EDCI475.
Formerly: EDCI475.

TLPL488 Special Topics in Education (1-3 Credits)
Special and intensive treatment of current topics and issues in teaching, learning, policy and leadership.
Restriction: Permission of EDUC-Teaching and Learning, Policy and Leadership department.
Credit Only Granted for: EDPS488 or TLPL488.
Formerly: EDPS488.

TLPL489 Internship in Education (1-12 Credits)
Internship or residency experiences in school settings with appropriate supervision. Credit not to be granted for experience accrued prior to registration. Open only to students admitted to approved teacher education programs.
Restriction: Permission of EDUC-Teaching and Learning, Policy and Leadership department.
Repeatable to: 12 credits.
Credit Only Granted for: EDPS489 or TLPL489.
Formerly: EDPS489.

TLPL498 Special Problems in Education (1-3 Credits)
Exploration of current problems in teaching, learning, policy and leadership. Available only to students who have definite plans for study of approved problems.
Restriction: Permission of EDUC-Teaching and Learning, Policy and Leadership department.
Credit Only Granted for: EDPS498 or TLPL498.
Formerly: EDPS498.

TLPL499 Workshops, Clinics, and Institutes (1-6 Credits)
The following type of educational enterprise may be scheduled under this course heading: Workshops conducted by the College of Education (or developed cooperatively with other colleges and universities) and not otherwise covered in the present course listing; clinical experiences in pupil-testing centers, reading clinics, speech therapy laboratories, and special education centers; institutes developed around specific topics or problems and intended for designated groups such as school superintendents, principals, and supervisors.
Credit Only Granted for: EDPS499 or TLPL499.
Formerly: EDPS499.

TLTC - Teaching and Learning Transformation Center

TLTC222 Academic Technologies (3 Credits)
Teaches students the instructional technology skills and strategies needed to support faculty teaching in technology-rich physical environments like the university's TERP classrooms as well as virtual environments such as ELMS-Canvas.
Restriction: Permission of TLTC required - enrollment restriction.
Credit Only Granted for: AGNR270, ARHU299T, BSOS288V, or TLTC222.

TLTC310 Leadership in Collaborative Learning Groups (3 Credits)
Experiential learning opportunity that applies principles of leadership, peer mentoring, and learning theory to the planning and facilitation of peer-led collaborative learning sessions. Incorporates research, reasoning, evidence, and feedback to develop a reflective practice.
Restriction: Restricted to students selected to participate in the Guided Study Sessions through the Teaching and Learning Transformation Center.
Credit Only Granted for: HESI318N or TLTC310.
Formerly: HESI318N.

TLTC333 Fundamentals of Academic Peer Mentoring (1 Credit)
How should scientific research influence the way we study and advance the academic performance of others? Learn about the scholarship of teaching and learning and develop the applied skills to support active learning as an academic peer mentor. Whether or not you ultimately pursue a career as an educator, the more effectively you can coach and support the performance of other people, and the more successful you will be. Guided online and face-to-face participation will culminate in a portfolio of your teaching activities and professional development.

TLTC399 Independent Study in Academic Peer Mentoring (1-3 Credits)
Earn academic credit for the time spent supporting a course in TLTC's Academic Peer Mentoring Program (AMP).
Prerequisite: Must have completed or be concurrently enrolled in TLTC333.
Restriction: Permission of TLTC required - enrollment restriction.
Repeatable to: 6 credits.

TLTC499 Independent Study in Teaching and Learning (1-3 Credits)
Earn academic credit for the time spent supporting TLTC's educational development programs and/or engaging in the scholarship of teaching and learning.
Restriction: Permission of TLTC required - enrollment restriction.
Repeatable to: 6 credits.

UMEI - Maryland English Institute

UMEI001 English as a Foreign Language: Beginning (12 Credits)
Intensive course for the non-native speaker of English who has little or no previous knowledge of English. Focus on the rapid acquisition of the basic features of English grammar and pronunciation and on speaking and understanding American English; reading and writing appropriate to the level will be included. Special fee required for this course. This course does not carry credit towards any degree at the University and does not count in the retention plan.
Restriction: Permission of EDUC-Dean-Maryland English Institute department.

UMEI002 English as a Foreign Language: Intermediate I (12 Credits)
Intensive course for the non-native speaker of English who has had some previous instruction in English. Emphasis on improving listening and speaking skills, on mastering intermediate grammatical structures, and on expanding vocabulary. Includes practice in reading and writing appropriate to the level. Special fee required for this course. This course does not carry credit towards any degree at the University and does not count in the retention plan.
Restriction: Permission of EDUC-Dean-Maryland English Institute department.

UMEI003 English as a Foreign Language: Intermediate II (12 Credits)
Intensive course for the non-native speaker of English who has mastered the essential structures of English grammar. Emphasis on improving communicative skills for a wide range of linguistic situations, on rapid expansion of vocabulary, and on improving reading comprehension and basic writing skills. Special fee required for this course. This course does not carry credit towards any degree at the University and does not count in the retention plan.
Restriction: Permission of EDUC-Dean-Maryland English Institute department.

UMEI004 English as a Foreign Language: Intermediate III (12 Credits)
Intensive course for the non-native speaker of English who has a good command of the basic features of spoken and written English. Emphasis on refining speaking and listening skills, on improving reading speed and comprehension of academic texts, and on developing writing skills for academic courses. Special fee required for this course. This course does not carry credit towards any degree at the University and does not count in the retention plan.
Restriction: Permission of EDUC-Dean-Maryland English Institute department.

UMEI005 Advanced English as a Foreign Language (6 Credits)
Semi-intensive course for the nearly proficient non-native speaker of English needing additional language instruction prior to undertaking full-time academic study. Speaking and listening skills; improvement of reading speed and comprehension; and development of writing skills. Special fee required for this course. This course does not carry credit towards any degree at the University and does not count in the retention plan.

UMEI011 Integrated English: Elementary (5-10 Credits)
English as a Second Language course for students at the elementary level.
Prerequisite: Placement exam; and permission of EDUC-Dean-Maryland English Institute department.

UMEI012 Integrated English: Intermediate (5-10 Credits)
English as a Second Language course for students at the intermediate level.
Prerequisite: Placement exam; and permission of EDUC-Dean-Maryland English Institute department.

UMEI013 Integrated English: Advanced (5-10 Credits)
English as a Second Language for students at the advanced level.
Prerequisite: Placement exam; and permission of EDUC-Dean-Maryland English Institute department.

UMEI028 Special Topics in English as a Second Language (1-2 Credits)
Focuses on particular English language topics for ESL student as indicated by title. Course intended to be taken concurrently with UMEI011, UMEI012, or UMEI013; but may be taken independently with special permission.
Repeatable to: 18 credits if content differs.

UNIV - University Courses

UNIV100 The Student in the University (1 Credit)
Introduces students to University life. In a small classroom setting, students will explore how to successfully bridge the gap between high school and college. Study skills, career decision-making, and student development processes will be explored.
Credit Only Granted for: EDCP108O or UNIV100.
Formerly: EDCP108O.

UNIV101 The Student in the University and Introduction to Computer Resources (2 Credits)
Introduces students to University life and current computer resources. In a small classroom setting, students will explore the world of higher education and current technological advances available to them. Additionally students will explore current resources both internal and external to the University, and how to utilize the World Wide Web as a research tool.

UNIV102 Confidence Building and Study Skills in Mathematics (2 Credits)
A mathematics preparatory class designed to facilitate a student's transition toward fundamental studies mathematics, including study skills and strategies for success.
Restriction: Must be in uTerp Individual Admits program.

UNIV104 Reading and Writing at the College Level (1 Credit)
A workshop designed to enhance students' college level reading and writing abilities to include study skills and strategies for success.
Restriction: Must be in uTerp Individual Admits program.

UNIV106 The Transfer Student in the University (1 Credit)
This course is designed to assist students in making a successful transition to the University of Maryland (UMD) and to serve as an extended orientation to campus living and learning.
Restriction: Must be a first-semester transfer student.
Credit Only Granted for: UNIV106 or EDCP108G.

UNIV107 Science Technology Engineering Mathematics Colloquium (1 Credit)
For students interested in pursuing a STEM related major. Introduces students to the fundamentals of career and major exploration and career development within the various disciplines of STEM.
Restriction: Must be a current student in Letters & Sciences.

UNIV108 Business Exploration Series Colloquium (1 Credit)
For students interested in pursuing a business career. Students learn the fundamentals of career development and what the internship/job search process entails.
Restriction: Must be a current student in Letters and Science.

UNIV110 Grand Challenges of Our Time (1 Credit)
An introduction to and solutions to society's grand challenges. Students meet with President Pines once a week and then in small discussion sections with two instructors. Previous topics have included literacy, Black Lives Matter, Covid, environmental justice, poverty, and voting and civic engagement.
Restriction: Must have Freshmen standing; and permission of instructor.

UNIV190 National Scholarships for International Goals (1 Credit)
Prepares first- and second-year students with international interests such as study abroad, language learning, and international careers to apply for nationally competitive scholarships, including how to write an effective personal statement. The course will help students focus and explore their interests, and connect these interests to current events. It will be of particular interest to students preparing for service-oriented and internationally focused careers.
Restriction: Freshman or Sophomore Standing.

UNIV218 Study Abroad Exploration (3 Credits)
Topics and assignments will vary by travel site.
Restriction: Must be in designated Study Abroad programs.
Repeatable to: 6 credits if content differs.

UNIV269 Connecting Across Cultures (1 Credit)
An examination of culture to guide study abroad students through the stages of cross cultural adjustment and to promote cultural competency by providing the motivation, knowledge and skills necessary to work with diverse individuals and teams.
Restriction: Must be in a study abroad program.

UNIV318 Special Topics in Study Abroad (3 Credits)
Topics and assignments will vary by travel site, as indicated by subtitles such as Italian Art, Chinese History, and French Theater.
Restriction: Must be in a designated Study Abroad program; and must not have six credits of CPSP379 if College Park Scholar student; and freshman standing or higher.

UNIV339 McNair Research Methods and Writing (2-6 Credits)
As an introduction to qualitative and quantitatvie research methods, students will be taught how to: (1) create, analyze, and disseminate knowledge conceptually and empirically; (2) write a research document; (3) use the IRB process; (4) develop research posters; (5) read and evaluate research studies; (6) read and understand statistics; (7) conduct interviews, develop surveys, and design experiments; and (8) communicate effectively to public audiences.
Restriction: Must have earned a minimum of 60 credits.

UNIV348 Federal Semester Seminar (3 Credits)
This topical seminar will approach Federal policy formation through a combination of framework-based and content-specific considerations. Content and themes will vary. The Federal Semester is an offering of the Office of Undergraduate Studies in conjunction with several academic colleges and the University Career Center.
Restriction: Must be in the Federal Semester program; and permission of UGST-Undergraduate Studies; and junior standing or higher.
Repeatable to: 6 credits if content differs.

UNIV349 Federal Semester Experiential Learning (1-6 Credits)
This is the internship component of the Federal Semester program, an offering of the Office of Undergraduate Studies in conjunction with several academic colleges and the University Career Center.
Prerequisite: UNIV348.
Restriction: Must be in the Federal Semester program; and must have a Learning proposal approved by the Office of Undergraduate Studies and student's internship sponsor; and junior standing or higher.
Repeatable to: 6 credits if content differs.

UNIV362 Designing Your Life after College (2 Credits)
Helps students anticipate and prepare for changes in finances, social life, health, and career dynamics they are likely to experience as they transition from college to working full-time. It focuses on understanding what resources students have as they enter the workforce as critical for navigating post-graduation changes successfully. It offers an overview of financial, risk management and professional development approaches to increase students' confidence regarding post-graduation decisions; in addition, it develops their creative problem solving and reflection skills to help them align the outcomes of their decisions with their values.
Restriction: Must have earned a minimum of 60 credits.

UNIV378 Beyond the Classroom Experiential Learning (1-3 Credits)
This is the internship component of the Beyond the Classroom program in which students hold internships at organizations such as governmental units and non-profit agencies.
Prerequisite: UNIV325.
Restriction: Must be in the Beyond the Classroom program; and must have proposal approved by director of Beyond the Classroom.

UNIV389 Special Topics in Undergraduate Studies (3 Credits)
Courses will focus on interdisciplinary topics and will be planned in cooperation with Undergraduate Studies.
Restriction: Freshman standing.
Repeatable to: 6 credits if content differs.

UNIV399 Experiential Learning in Undergraduate Studies (1-3 Credits)
Experiential learning offered in conjunction with certain designated Office of Undergraduate Studies programs.
Restriction: Must have a Learning proposal approved by the Office of Undergraduate Studies and student's internship sponsor; and junior standing or higher.
Repeatable to: 6 credits if content differs.

URSP - Urban Studies and Planning

URSP250 The Sustainable City: Exploring Opportunities and Challenges (3 Credits)
An exploration, through an interdisciplinary approach, of a number of issues related to making cities more sustainable in terms of environmental protection, economic opportunity, and social justice. The course assist students to develop skills in critical analysis and systems thinking and to use those skills in analyzing sustainability related problems and potential solutions, and to expand students' understanding of the political implications of crafting and moving towards a sustainable urban future.

URSP372 Diversity and the City (3 Credits)
Exploration of the different needs of diverse economic, racial/ethnic, and gender groups that live and work in cities, the historical background of differences, the impact of societal structures and group cultures, and how public and private policies do and can affect different groups.

USLT - Latina/o Studies

USLT201 U.S. Latina/o Studies I: An Historical Overview to the 1960's (3 Credits)
Interdisciplinary course focusing on demographics, terminology and social constructs of race, class, ethnicity, indigeneity, gender, and sexuality associated with the historical and political roots of US Latinidades. Examines the formation, evolution an adaptation of US Latina/o communities as critical field of inquiry.

USLT202 US Latina/o Studies II: A Contemporary Overview 1960's to present (3 Credits)
Interdisciplinary course on emerging populations of Latinos in the 20th century with a focus on the multiple waves of latino immigration as a result of neocolonialism, imperialism, globalization and transnationalism. Examines the positioning of immigrant waves in the political, sociocultural and historical contexts of US Latinidades.

USLT269 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

USLT320 Afro-Latinx Diasporas (3 Credits)
Examines the history of the African diaspora and the Afro-Latinx populations in the United States. Explores transnational migrations, comparative slave systems, labor, community formation, gender, sexuality, popular culture, and the changing meanings of blackness and latinidad.
Credit Only Granted for: USLT319A, USLT320, or AMST328E.
Formerly: USLT319A.

USLT369 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.

USLT401 Latinas/os and US Popular Culture (3 Credits)
An examination of the relationship between Latinas/os and popular culture in the United States. Using theoretical lenses drawn from cultural studies, visual culture studies, critical race theory, borderlands theory, and feminism, the course analyzes multiple texts from time frames past and present. Explores issues such as exclusion from and inclusion within US identity, transnational identifications and cultural flows, ethnoracial stereotyping and resistance to it, and intersections of Latina/o identity with aspects of class, race, sexuality, and gender. Investigates art, TV, music, cinema, and everyday lived experience.
Credit Only Granted for: USLT401, USLT498B, or AMST498M.
Formerly: USLT498B.

USLT403 Citizens, Refugees, and Immigrants (3 Credits)
Citizenship, Refugee and Immigrant are guiding categories that often define the Latina/o community in the United States. Employing this analytical lens, this course critically engages with notions of exclusion and inclusion, which included documentation, status, race, gender, and power. To better understand how these ideas and processes work, students are introduced to the history of Latina/o migration, US immigration policies, racial formation theory, gender construction, borderland theory, and the politics of territoriality.
Credit Only Granted for: USLT403, USLT498I, AMST498N, or IMMR419D.
Formerly: USLT498I.

USLT420 U.S. Latinas/os on the Silver Screen: The Silent Era to the Present Day. (3 Credits)
Combining media theory and film history, this course considers the film industry's relationship to Latinidad, examining issues such as the shift from silent film to sound, the impact made on Latina/o images by the Second World War, and Latinas/os in the Red Scare. The second half of the course turns its attention to self-representation by Latina/o filmmakers and empathetic images created by whites in and after the 1970s. Some of the questions that the course addresses include: How have Latinas/os been depicted in Hollywood history? How have inter-American foreign relations shaped the US Latina/o image? How have Latina/o filmmakers confronted issues such as racism and sexism in the United States?
Credit Only Granted for: USLT420, USLT498A or AMST498G.
Formerly: USLT498A.

USLT430 Globalization and the Diversifying U.S. (3 Credits)
While often talked about as a recent phenomenon and one focused on capital, the ebbs and flows of globalization has a long history among Latina/o communities in the United States. The impact and consequences of globalization can be seen in US foreign policy in Latin America. For instance, Operation Bootstrap in Puerto Rico and the Maquiladores on the Mexico and U.S. border. At the same time, it has shaped immigration policies and the social. political and cultural experiences of Latina/o workers in the U.S. Often blamed for "taking " jobs, this course takes a deeper look at the concrete reasons for the rise of globalism and its impact on Latina/o communities in the US.
Credit Only Granted for: USLT430, USLT498N, AMST498W, or IMMR419J.
Formerly: USLT498N.

USLT450 Central Americans and the United States: Culture, Politics, and Community (3 Credits)
With attention to history, memory, politics, and culture, this course examines the relationships, conflicts, and exchanges of people and power between the United States and the Central American isthmus. We will investigate the role of the US government and military, as well as US corporate interests and US-backed dictatorships, in the culture, politics, and economy of nations including El Salvador, Nicaragua, Guatemala, and Honduras. Through literature, feature films, documentary films, theatre, poetry, and other mediums, the class will analyze responses to this history in Central American cultural productions originating both from the isthmus and from Central Americans living in the United States. In addition to US interventions in the Americas, the course will examine migration from Central America to North America and will conclude by exploring the lives and activities of Central Americans living in the USA.
Credit Only Granted for: AMST498C, USLT450 or USLT498D.
Formerly: USLT498D.

USLT460 Revolutions and Diasporas (3 Credits)
How have revolutions in Latin America influenced the history of US immigration, refugee, and asylum policies? How have they changed US history, culture, experience, geography, politics and the future? This course examines both the history of major revolutions in Latin America and their impact on Latinx diasporic and immigrant communities in the US. It investigates questions of slavery and freedom US expansionism, radical politics, Third World liberation movements, and the politics of asylum and US immigration policies. Students in the course will learn transnationalist, diasporic, borderlands and other forms of Latinx historical methods. In addition, the course will focus on race, class, gender, sexuality, and the politics of location.
Credit Only Granted for: USLT460, USLT498R, or AMST498B .
Formerly: USLT498R.

USLT480 Race and Nation in U.S. Cinema (3 Credits)
From the 1915 release of D.W. Griffith's The Birth of a Nation to the present, cinema has been a crucial medium through which cultural producers have advanced and contested concepts of ethnoracial and national identity in the US. This course adopts a historically-grounded practice of media criticism to understand the ideology and iconography of both Hollywood's studio system and independent cinema. The course requires students to examine film and identity through multiple, racial, methodological and theoretical lenses, including film history, and film and media theory. Focus will be the cinematic politics and poetics of racial exclusion and inclusion, empathy and disidentification, power and resistance, and the shaping of a national "imagined community." We will pursue how ideas about class, sexuality, gender, and disability have informed ideologies concerning race and nation. Classes will be divided between lecture, film viewings, and, most importantly, class discussions.
Credit Only Granted for: AMST498P, USLT480, or USLT498C.
Formerly: USLT498C.

USLT488 US Latina/o Senior Seminar (3 Credits)
A variable topics seminar that exposes students to interdisciplinary critical readings, writings, and research in U.S. Latina/o Studies. Interdisciplinary research methodologies are broadly addressed. Students will gain skills and practice in reading critical analytic texts and will develop writing skills.
Recommended: USLT202 or USLT201.
Restriction: Senior standing; and permission of instructor.
Repeatable to: 9 credits if content differs.

USLT498 US Latina/o Studies: Special Topics (3 Credits)
Specific content to be announced when courses are offered.
Prerequisite: USLT202 or USLT201.
Restriction: Junior standing or higher.
Repeatable to: 9 credits if content differs.

VIPS - Vertically Integrated Projects

VIPS208 Starting with Vertically Integrated Projects (1-2 Credits)
Team members beginning their experience with VIP@Maryland will engage on interdisciplinary and vertically-integrated teams with a focus on research, design, industry competition, entrepreneurship, and community engagement projects related to active research and exploration areas of UMD faculty members. Students will also participate in lectures and professional development activities that include topics related to design, research, documentation and technical writing, communication, leadership and teamwork, ethics, project management, intellectual property, information literacy, and introduction to a broad range of applicable research topics, technologies and development tools. Students are expected to maintain involvement with the same project team for multiple terms.
Restriction: Permission of ENGR-Dean-Office of Global Engineering Leadership.
Repeatable to: 8 credits.
Additional Information: Students must apply through the VIP@Maryland application process in order to join a VIP team. For more information: go.umd.edu/vipmaryland.

VIPS308 Engaging with Vertically Integrated Projects (1-2 Credits)
Team members will expand their role and responsibilities on their selected VIP@Maryland team. They will engage on interdisciplinary and vertically-integrated teams with a focus on research, design, industry competition, entrepreneurship, and community engagement projects related to active research and exploration areas of UMD faculty members. Students will also participate in lectures and professional development activities that include topics related to design, research, documentation and technical writing, communication, leadership and teamwork, ethics, project management, intellectual property, information literacy, and introduction to a broad range of applicable research topics, technologies and development tools. Students are expected to maintain involvement with the same project team for multiple terms.
Restriction: Permission of ENGR-Dean-Office of Global Engineering Leadership.
Repeatable to: 8 credits.
Additional Information: Students must apply through the VIP@Maryland application process in order to join a VIP team. For more information visit: go.umd.edu/vipmaryland.

VIPS408 Leading with Vertically Integrated Projects (1-2 Credits)
Advanced team members will take on mentorship and leaderships roles within their VIP@Maryland project. They will engage on interdisciplinary and vertically-integrated teams with a focus on research, design, industry competition, entrepreneurship, and community engagement projects related to active research and exploration areas of UMD faculty members. Students will also participate in lectures and professional development activities that include topics related to design, research, documentation and technical writing, communication, leadership and teamwork, ethics, project management, intellectual property, information literacy, and introduction to a broad range of applicable research topics, technologies and development tools. Students are expected to maintain involvement with the same project team for multiple terms.
Restriction: Permission of ENGR-Dean-Office of Global Engineering Leadership.
Repeatable to: 12 credits.
Additional Information: Students must apply through the VIP@Maryland application process in order to join a VIP team. For more information: go.umd.edu/vipmaryland.

WEID - Words of Engagement Intergroup Dialogue Program

WEID139 Navigating Difference through Intergroup Dialogue (1 Credit)
The goal of intergroup dialogue is for students to develop comfort with, and skill for, discourse on controversial, difficult, and divisive topics in an effort to foster positive, meaningful, and sustained cross-group relationships. Whereas in debate, students learn to listen to gain advantage, in intergroup dialogue, students learn to listen to gain understanding. In so doing, students develop increased capacity for interaction across difference, heightened intergroup awareness and sensitivity, and greater commitment to community engagement.
Prerequisite: Completion of on-line enrollment form.
Cross-listed with: ENES338.
Repeatable to: 6 credits.
Credit Only Granted for: CHSE338, EDHI338, ENES338 or WEID139.
Formerly: CHSE338.

WGSS - Women, Gender, and Sexuality Studies

WGSS105 Introduction to Disability Studies (3 Credits)
Explores theories of disability justice as they intersect with feminist and antiracist struggles. Analyzing how disability has been an important aspect of institutions and social experience in the United States and beyond, the course considers how disability activists have responded to ableism by developing art, political strategies, and subcultures that promote a more just society built for a wider variety of human bodies.

WGSS115 Gender, Race and Computing (3 Credits)
Race and gender have shaped computing from its earliest histories to contemporary debates over bias in search algorithms, surveillance, and AI. As computational processes shape ever more dimensions of everyday life from the personal to the global scale, understanding how they operate and how power operates within them grows ever more important. Combating racism and sexism is not as simple as ensuring the pool of programmers and engineers is more diverse; structures of power are embedded in digital technologies as they are in all aspects of our society, and we must learn to perceive their operation if we hope to transform them. We will examine how racism and sexism operate in the field of computer science and in everyday uses of digital technologies, while studying how feminist and racial justice movements have created alternative approaches. This class is for anyone who wishes to better understand the relationships between digital technology, structural power, and social justice.
Cross-listed with: CMSC115.
Restriction: Must not have taken CMSC216 or higher.
Credit Only Granted for: WGSS115 or CMSC115.

WGSS200 Introduction to WGSS: Gender, Power, and Society (3 Credits)
Examines constructions of race, class, sexuality, ability, and gender relations from a social science multi-disciplinary perspective. The course interrogates the ways that systems of hierarchy and privilege are created, enforced, and intersect through the language of race, class, sexuality, and national belonging. The course will provide students with the skills to examine how systems of power manifest in areas such as poverty, division of labor, health disparities, policing, violence. In addition to examining the impact of systems of power, students will reflect on their own location within the exercise of racialized, and gendered power relations. This course encourages students to understand and critique these systems both personally and politically.
Credit Only Granted for: WMST200 or WGSS200.
Formerly: WMST200.

WGSS205 Reproductive Justice: An Introduction (3 Credits)
Developed by feminists of color, reproductive justice frameworks offer a roadmap for economic, social, and medical justice advocacy attentive to the intersections of race, class, gender, sexuality, and disability. This course reviews the historical, legal, and social bases of reproductive rights in the U.S.; discusses the history of feminist organizing for reproductive freedom; surveys critical theories of reproductive justice that go beyond abortion law to advocate for broader social transformation; and evaluates the possible futures of intersectional feminist activism after the overturning of Roe v. Wade.

WGSS210 Love, Labor, and Citizenship: Women in America to 1880 (3 Credits)
An examination of the economic, family, and political roles of colonial slave, immigrant and frontier women in America from the pre-industrial colonial period through the early stages of 19th-century industrialization and urbanization.
Cross-listed with: HIST210.
Credit Only Granted for: HIST210, WMST210 or WGSS210.
Formerly: WMST210.

WGSS211 Women in America Since 1880 (3 Credits)
An examination of women's changing roles in working class and middle class families, the effects of industrialization on women's economic activities and status, and women's involvement in political and social struggles, including those for women's rights, birth control, and civil rights.
Cross-listed with: HIST211.
Credit Only Granted for: HIST211, WMST211 or WGSS211.
Formerly: WMST211.

WGSS212 Women in Western Europe 1750-Present (3 Credits)
An analysis of the economic, family, and political roles of European women from 1750 to the present. The effects of industrialization on women's work and status, the demographic parameters of women's lives, and women's participation in political events from market riots to suffrage struggles.
Cross-listed with: HIST212.
Credit Only Granted for: HIST212, WMST212 or WGSS212.
Formerly: WMST212.

WGSS230 Introduction to Humanities, Health, and Medicine (3 Credits)
An overview of the historical, cultural, ethical, and spiritual dimensions of medicine, human health, disease, and death from the points of view of various humanistic disciplines.
Cross-listed with: ARHU230, ENGL254, HIST219N.
Restriction: Permission of ARHU-History Department.
Credit Only Granted for: ARHU230 , ENGL289C, ENGL254, ARHU298A, HIST219N, or WGSS230.

WGSS250 Introduction to WGSS: Art and Culture (3 Credits)
Provides students with a critical introduction to the ways that art and art activism have served as a conduit to understanding and challenging systems of inequity and practices of normativity. Interrogating the categories of gender, sexuality, race, class, ability, the course will provide students with an examination of how artists have responded to pressing social justice issues of their eras. While the course centers visual art, students will also engage genres such as music, plays, literature, digital and performance art as arenas of social change.
Credit Only Granted for: WMST250 or WGSS250.
Formerly: WMST250.

WGSS255 Reading Women Writing (3 Credits)
Explores literary and cultural expressions by women and their receptions within a range of historical periods and genres. Topics such as what does a woman need in order to write, what role does gender play in the production, consumption, and interpretation of texts, and to what extent do women comprise a distinct literary subculture. Interpretation of texts will be guided by feminist and gender theory, ways of reading that have emerged as important to literary studies over the last four decades.
Cross-listed with: ENGL250.
Credit Only Granted for: ENGL250, WMST255 or WGSS255.
Formerly: WMST255.

WGSS263 Introduction to Black Women's Studies (3 Credits)
Interdisciplinary exploration of Black women, culture and society in the United States. Drawn primarily from the social sciences and history with complementary material from literature and the arts.
Cross-listed with: AAAS263.
Credit Only Granted for: WMST263, AASP298I, WGSS263, AAAS263 or AASP263.
Formerly: WMST263.

WGSS264 Quare/Queer Contentions: Exploration of Sexualities in the Black Community (3 Credits)
Centering the subjectivities of queer people of color generally and more specifically, Black people (as the word "quare" invites us to do), Quare/Queer Contentions takes up key moments within the history of the Black community and asks us to consider the work and presence of LGBTQ people in these moments. The course also contends with the everyday experiences of LGBTQ subjects in the Black community. Quare/Queer Contentions, therefore, interrogates the material realities of Black queer people in the context of family, religion, cultural/creative work, among others. Interdisciplinary in orientation, the course will employ primary and secondary texts, film, art, autobiographical narratives and policy data.
Cross-listed with: LGBT264, AAAS264.
Credit Only Granted for: LGBT264, AASP264, AAAS264, WMST264 or WGSS264.

WGSS265 Constructions of Manhood and Womanhood in the Black Community (3 Credits)
Investigates the ways that African Americans are represented and constructed in public and private spheres and explores the social constructions and representations of Black manhood and womanhood from various disciplinary perspectives.
Cross-listed with: AAAS265.
Credit Only Granted for: WMST265, AASP298B, AAAS265, WGSS265 or AASP265.
Formerly: WMST265.

WGSS267 Introduction to Black Women's Cultural Studies (3 Credits)
An introduction to black women's cultural production and to an understanding of how the social norms and ideals about women within black communities and in the larger society have shaped black women's own self-perceptions and behaviors and thus their cultural production.
Credit Only Granted for: WMST267 or WGSS267.
Formerly: WMST267.

WGSS269 Special Topics in Study Abroad II (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.
Formerly: WMST269.

WGSS271 Monsters and Racism: Black Horror and Speculative Fiction (3 Credits)
The previous decade has been considered a renaissance for Black Horror. From Get Out to Lovecraft Country, the genre has enjoyed unprecedented mainstream media buzz and accolades. This course looks at contemporary Black horror and speculative fiction as cultural texts which put into question our notions of human(e) and inhuman(e) through critiques of white supremacy and accompanying oppressions. Students will learn a host of critical skills through close reading and analysis of literature and film by Black creators such as Jordan Peele, Misha Green, Toni Morrison, Jewelle Gomez, and Octavia Butler. With the ability to interpret cultural texts using literary criticism, film analysis, history, cultural studies, ethnic studies, feminist theory, and the social sciences, students will connect these texts to continuing historical and contemporary issues of racial and cultural oppression such as medical discrimination, policing and criminalization, misogynoir, and racialized capitalism.
Cross-listed with: AAAS271, ENGL289J.
Credit Only Granted for: AAAS271, ENGL289J, HONR299Y, HNUH238W, WGSS271 or WGSS298W.
Formerly: HNUH238W.

WGSS275 World Literature by Women (3 Credits)
Comparative study of selected works by women writers of several countries, exploring points of intersection and divergence in women's literary representations.
Cross-listed with: CMLT275.
Credit Only Granted for: WMST275, CMLT275 or WGSS275.
Formerly: WMST275.

WGSS280 Gender and Science in Film and Media (3 Credits)
Isaac Azimov once said of science fiction that it is the genre that "deals with the reaction of human beings to changes in science and technology." With this definition in mind, we will embark on a critical exploration of sci-fi film and other media, using it as a lens for analyzing society's deepest fears and most furtive hopes. Our investigation will center on the liminal space between hegemonic culture and its prescribed excesses. These liminal spaces--between self and other, disability and enhancement, cultural hybridization, and gender crossing--shift in response to real-world sociopolitical tensions. We will consider feminist and anti-racist media scholars' concerns over representation, authorship and ideology alongside questions of technological change. Students will use analytical and creative assignments to explore not only how the scientific imaginary serves as fertile ground for feminist, disability, and anti-racist critique, but also provides a locus for alternative futures.
Cross-listed with: ENGL289I.
Credit Only Granted for: ENGL289I or WGSS280.

WGSS290 Bodies in Contention (3 Credits)
Explores the contributions of feminist scholarship in framing and resolving contemporary controversies concerning gendered bodies. It includes the ways in which knowledge about the human body has been shaped by cultural ideas of gender, race, sexuality and ability.
Credit Only Granted for: WMST298D or WGSS290.
Formerly: WMST298D.

WGSS291 Racialized Gender and Rebel Media (3 Credits)
An introduction to the interdisciplinary field of women's studies and an exploration of the ways in which media has been used as a platform for racial justice, feminist activism, and cultural transformation, with a principal focus on the expressions of women of color. The goals of the course are to explore how different forms of media shape the stories which circulate about race, femininities, masculinities, ethnicities, sexualities, religiosity, power and difference, and to examine how various media formats been used to disrupt dominant stories, to tell new stories, and to create differing understandings of citizenship.
Credit Only Granted for: WGSS291 or WMST298N.
Formerly: WMST298N.

WGSS298 Special Topics in Women, Gender, and Sexuality Studies (1-3 Credits)
Thematic exploration of a topic in women, gender, and sexuality studies.
Repeatable to: 6 credits if content differs.
Formerly: WMST298.

WGSS298L History of Sexuality in America (3 Credits)
Explores the social construction of sexualities from the first colonial settlement to the modern era in the United States. Analyzes the implications of these understandings for power relations in U.S history.
Cross-listed with: HIST213.
Credit Only Granted for: HIST213, WMST298L or WGSS298L.

WGSS298N The Politics of Sexuality in America: A Historical Approach (3 Credits)
Why do particular issues about sexuality hold such an important place in American political debates? What animates these controversies and what can a historical perspective on these issues add to our understanding of modern sexual politics? This class explores the historical sexual politics that undergird contemporary debates concerning sexuality in America. It focuses on topics that garner significant public attention - Reproductive rights - LGBTQ rights - Sexting - and explores the histories that undergird Americans disagreements.
Cross-listed with: HIST289N.
Credit Only Granted for: HIST289N or WGSS298N.

WGSS298W Monsters and Racism: Black Horror and Speculative Fiction (3 Credits)
The previous decade has been considered a renaissance for Black Horror. From Get Out to Lovecraft Country, the genre has enjoyed unprecedented mainstream media buzz and accolades. This course looks at contemporary Black horror and speculative fiction as cultural texts which put into question our notions of human(e) and inhuman(e) through critiques of white supremacy and accompanying oppressions. Students will learn a host of critical skills through close reading and analysis of literature and film by Black creators such as Jordan Peele, Misha Green, Toni Morrison, Jewelle Gomez, and Octavia Butler. With the ability to interpret cultural texts using literary criticism, film analysis, history, cultural studies, ethnic studies, feminist theory, and the social sciences, students will connect these texts to continuing historical and contemporary issues of racial and cultural oppression such as medical discrimination, policing and criminalization, misogynoir, and racialized capitalism.
Cross-listed with: HNUH238W.
Credit Only Granted for: HONR299Y, HNUH238W, or WGSS298W.
Formerly: HONR299Y.

WGSS301 Introduction to Research in Gender, Race, and Queer Studies (3 Credits)
Primarily a research skills-building course, focusing especially on interdisciplinary approaches to research. Encompasses basic library skills, conceptualizing a research question. The course is not designed to teach a specific research method but rather to as an introduction to a range of research methods commonly employed in feminist, critical race, and queer studies with some opportunity to begin to apply them. Considers the ethical dilemmas and political implications embedded in research projects.
Restriction: Permission of the Harriet Tubman Department of Women, Gender, and Sexuality Studies; Must be enrolled in a Harriet Tubman Department of Women, Gender, and Sexuality Studies program.
Credit Only Granted for: WMST301 or WGSS301.
Formerly: WMST301.

WGSS302 Feminist, Critical Race, and Queer Theories (3 Credits)
Introduces students to some of the major concepts in feminist, critical race, and queer theories. It examines the questions: What is theory? What forms does theory take? What is the relationship between theory and practice? What is the role of theory in political and social action? In art? In personal life? What does it mean to do theory?
Prerequisite: 6 credits in LGBT, WMST, WGSS or courses that are cross-listed with these.
Credit Only Granted for: WMST302, WGSS302 or WMST400.
Formerly: WMST302.

WGSS310 Transgender Studies (3 Credits)
Introduces students to the interdisciplinary field of transgender studies, providing a history of the field and engaging current debates within it. Students will explore the emergence and consolidation of trans identities, practices, cultures, and knowledges across medical, historical, sociological, cultural, and artistic contexts, paying particular attention to dynamics of race, class, and ability, to global and transnational difference, and to the implications of transgender studies for understanding gender and sexuality overall.
Cross-listed with: LGBT310.
Credit Only Granted for: LGBT310, WMST310 or WGSS310.

WGSS314 Black Women in United States History (3 Credits)
Black American women's history from slavery to the present. Focused on gaining a fuller understanding of the effect of race, class and gender on the life cycles and multiple roles of Black women as mothers, daughters, wives, workers and social-change agents.
Cross-listed with: AAAS313.
Restriction: Sophomore standing or higher.
Credit Only Granted for: AASP313, AAAS313, WMST314 or WGSS314.
Formerly: WMST314.

WGSS315 Intro to Fat Studies: Fatness, Blackness and Their Intersections (3 Credits)
Examines fatness as an area of human difference subject to privilege and discrimination that intersects with other systems of oppression based on gender, race, class, sexual orientation, and ability. Though we will look at fatness as intersectional, this course will particularly highlight the relationship between fatness and Blackness. We approach this area of study through an interdisciplinary humanities and social-science lens which emphasizes fatness as a social justice issue. The course closes with an examination of fat liberation as liberation for all bodies with a particular emphasis on performing arts and activism as a vehicle for liberation and challenging fatmisia.

WGSS319 Workshops in Gender, Race, and Queer Studies (3 Credits)
Topics will change each semester but all workshops will be designed to have students think transdisciplinarily and interdisciplinarily about a specific topic or issue and to understand how differing approaches shape knowledge. Assignments within the workshops are aimed at students developing their skills in forms of presentation beyond the written essay, e.g. oral argument, digital or creative projects. Collaborative work must be central to all workshop courses; these collaborative activities do not preclude the possibility of individual research/writing assignments but the Workshops should emphasize conversation, debate, collaboration, and critique more so than the individually authored essay.
Repeatable to: 9 credits if content differs.
Formerly: WMST319.

WGSS320 Women in Classical Antiquity (3 Credits)
A study of women's image and reality in ancient Greek and Roman societies through an examination of literary, linguistic, historical, legal, and artistic evidence; special emphasis in women's role in the family, views of female sexuality, and the place of women in creative art. Readings in primary sources in translation and modern critical writings.
Cross-listed with: CLAS320, HIST328W.
Credit Only Granted for: CLAS320, WMST320, WGSS320 or HIST328W.

WGSS325 The Sociology of Gender (3 Credits)
Institutional bases of gender roles and gender inequality, cultural perspectives on gender, gender socialization, feminism, and gender-role change. Emphasis on contemporary American society.
Prerequisite: 3 credits in SOCY courses.
Cross-listed with: SOCY325.
Credit Only Granted for: SOCY325, WMST325 or WGSS325.
Formerly: WMST325.

WGSS326 Biology of Reproduction (3 Credits)
The biology of the reproductive system with emphasis on mammals and, in particular, on human reproduction. Hormone actions, sperm production, ovulation, sexual differentiation, sexual behavior, contraception, pregnancy, lactation, maternal behavior and menopause.
Prerequisite: BSCI170 and BSCI171; or BSCI105; or permission of the Harriet Tubman Department of Women, Gender, and Sexuality Studies; or permission of CMNS-Biological Sciences UG Program.
Cross-listed with: BSCI342.
Credit Only Granted for: BSCI342, WMST326 or WGSS326.
Formerly: WMST326.

WGSS336 Psychology of Women (3 Credits)
A study of the biology, life span development, socialization, personality, mental health, and special issues of women.
Prerequisite: PSYC100.
Cross-listed with: PSYC336.
Credit Only Granted for: PSYC336, WMST336 or WGSS 336.
Formerly: WMST336.

WGSS348 Literary Works by Women (3 Credits)
The context, form, style and meaning of literary works by women.
Prerequisite: Must have completed at least one lower-level English literature course and one other lower-level English course; or Permission of the Harriet Tubman Department of Women, Gender, and Sexuality Studies.
Cross-listed with: ENGL348.
Repeatable to: 6 credits if content differs.
Formerly: WMST348.

WGSS358 Undergraduate Teaching Assistantship (3 Credits)
Students work under the supervision of a faculty mentor to assist with an undergraduate LGBT or WGSS course while also becoming conversant in feminist, critical race, and queer pedagogical debates and approaches.
Restriction: Permission of the Harriet Tubman Department of Women, Gender, and Sexuality Studies.
Repeatable to: 9 credits.
Formerly: WMST358.

WGSS360 Caribbean Women (3 Credits)
An interdisciplinary analysis of the lives and experiences of women across the Caribbean region, through an examination of their roles in individual, national, social and cultural formations. Special emphasis on contemporary women's issues and organizations.
Cross-listed with: AAAS361.
Credit Only Granted for: WGSS360, WMST360, AAAS361 or AASP361.
Formerly: WMST360.

WGSS368 Undergraduate WGSS Internship (3-6 Credits)
Undergraduate Internship in a position related to women, gender, and sexuality studies and overseen by a member of the WGSS faculty.
Restriction: Permission of the Harriet Tubman Department of Women, Gender, and Sexuality Studies; and must have Learning Proposal approved by WGSS Academic Advisor; and junior standing or higher.
Repeatable to: 9 credits if content differs.
Formerly: WMST386 and WMST368.

WGSS369 Special Topics in Study Abroad III (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.
Formerly: WMST369.

WGSS370 Black Feminist Thought (3 Credits)
Examines the ideas, words and actions of Black women writers, speakers, artists, and activists in the United States.
Prerequisite: 1 course in AASP; or 1 course in WGSS.
Cross-listed with: AAAS371.
Credit Only Granted for: WMST370, WGSS370, AAAS371 or AASP371.
Formerly: WMST370.

WGSS378 Undergraduate Research and Creative Works Assistantship (1-3 Credits)
The Undergraduate Research Assistant provides an opportunity to develop a deep understanding of specific research methods and topics while involving the student in a professional role that requires ethical responsibility. The precise syllabus for the URA will be personalized to the student's interests and abilities, as well as to the specific research project and the Faculty Mentor's expectations. The student will meet with the Faculty Mentor prior to enrolling for a URA in order to determine the responsibilities and learning goals for the semester.
Restriction: Permission of the Harriet Tubman Department of Women, Gender, and Sexuality Studies.
Repeatable to: 9 credits if content differs.
Formerly: WMST378.

WGSS379 Topics in Women, Gender, and Sexuality Studies (1-3 Credits)
Thematic exploration of a topic in women, gender, and sexuality studies.
Repeatable to: 9 credits if content differs.
Formerly: WMST379.

WGSS408 Literature by Women Before 1800 (3 Credits)
Selected writings by women in the medieval and early modern era.
Prerequisite: Must have completed two English courses in literature; or permission of the Harriet Tubman Department of Women, Gender, and Sexuality Studies.
Cross-listed with: ENGL408.
Repeatable to: 9 credits if content differs.
Formerly: WMST408.

WGSS410 Women of the African Diaspora (3 Credits)
Explores the lives, experiences, and cultures of women of Africa and the African diaspora--African-America, the Caribbean, and Afro-Latin America. A variety of resources and materials will be used providing a distinctive interdisciplinary perspective.
Credit Only Granted for: WMST410 or WGSS410.
Formerly: WMST410.

WGSS420 Asian American Women: The Social Construction of Gender (3 Credits)
Examines the intersection of gender, race and class as it relates to Asian American women in the United States; how institutionalized cultural and social statuses of gender, race, ethnicity and social class produce and reproduce inequality with implications for Asian Americans and the broader society.
Cross-listed with: AAST420.
Restriction: Must not have completed WMST420.
Credit Only Granted for: AAST420, WMST420 or WGSS420.

WGSS425 Gender Roles and Social Institutions (3 Credits)
Relationship between gender roles and the structure of one or more social institutions (e.g., the economy, the family, the political system, religion, education). The incorporation of gender roles into social institutions; perpetuation or transformation of sex roles by social institutions; how changing gender roles affect social institutions.
Credit Only Granted for: SOCY425, WMST425 or WGSS425.
Formerly: WMST425.

WGSS428 Topics in Women, Gender, and Sexuality Studies (1-3 Credits)
Thematic exploration of a topic in women, gender, and sexuality studies.
Repeatable to: 9 credits if content differs.
Formerly: WMST428.

WGSS441 Feminism, AI, and Health (3 Credits)
Situated at the intersection of feminist theory, AI, and health care, this interdisciplinary course will investigate the sociopolitical and ethical implications of emerging technologies in medical contexts. Drawing on feminist critiques of technology, we will explore how systems of oppression--including sexism, racism, ableism, and colonialism--shape the design, deployment, and impact of AI in health care. Students will engage with scholarly texts, discussions, and activities to analyze the historical entanglement of gender, race, and health care; the epistemic foundations of feminist knowledge production; the ethics of datafication and surveillance; and the transformative potential of feminist praxis. Coursework will include case studies, debates, and a final project envisioning inclusive, justice-oriented futures for AI in health care.

WGSS444 Feminist Critical Theory (3 Credits)
Issues in contemporary feminist thought that have particular relevance to textual studies, such as theories of language, literature, culture, interpretation, and identity.
Prerequisite: WMST200, WGSS200, WMST250, WGSS250, or ENGL250.
Cross-listed with: ENGL444.
Credit Only Granted for: ENGL444, WMST444 or WGSS444.
Formerly: WMST444.

WGSS448 Literature by Women of Color (3 Credits)
Literature by women of color in the United States, Britain, and in colonial and post-colonial countries.
Prerequisite: Must complete two English courses in literature; or permission of the Harriet Tubman Department of Women, Gender, and Sexuality Studies.
Cross-listed with: ENGL448.
Repeatable to: 9 credits if content differs.
Formerly: WMST448.

WGSS452 Women in the Media (3 Credits)
Participation and portrayal of women in the mass media from colonial to contemporary times.
Cross-listed with: JOUR452.
Credit Only Granted for: JOUR452, WMST452 or WGSS452.
Formerly: WMST 452.

WGSS454 Women in Africa (3 Credits)
The place of women in African societies: the role and function of families; institutions such as marriage, birthing, and child rearing; ritual markers in women's lives; women in the workplace; women's associates; women's health issues; measures designed to control women's behavior; women and development.
Credit Only Granted for: HIST494, WMST454 or WGSS454.
Formerly: WMST454.

WGSS455 Women in Medieval Culture and Society (3 Credits)
Medieval women's identity and cultural roles: the condition, rank and rights of medieval women; their access to power; a study of women's writings and the constraints of social constructs upon the female authorial voice; and contemporary assumptions about women.
Cross-listed with: HIST495.
Credit Only Granted for: HIST495, WMST455 or WGSS455.
Formerly: WMST455.

WGSS456 Women and Society in the Middle East (3 Credits)
Examines the customs, values and institutions that have shaped women's experience in the Middle East in the past and in the contemporary Middle East.
Recommended: Prior coursework in Middle East studies or gender studies.
Cross-listed with: HIST492.
Credit Only Granted for: HIST492, WMST456 or WGSS456.
Formerly: WMST456.

WGSS457 Redefining Gender in the U.S., 1880-1935 (3 Credits)
Exploring changing perceptions of gender in the U.S., 1880-1935, and the impact of those changes on the day to day lives of men and women.
Credit Only Granted for: WGSS457 or WMST457.
Formerly: WMST457.

WGSS458 Literature by Women After 1800 (3 Credits)
Selected writings by women after 1800.
Prerequisite: Must have completed two English courses in literature; or permission of Harriet Tubman Department of Women, Gender, and Sexuality Studies.
Cross-listed with: ENGL458.
Repeatable to: 9 credits if content differs.
Formerly: WMST458.

WGSS468 Feminist Cultural Studies (3 Credits)
Each version of this course focuses on one or several forms of popular culture -- such as TV, music, film, cyber-culture, or genre fiction (for example, science fiction) -- and demonstrates how feminists value, critique and explain such forms. Tools of feminist cultural studies include economic and social analyses of power, race, sexuality, gender, class, nationality, religion, technology, and globalization processes.
Repeatable to: 9 credits if content differs.
Formerly: WMST468.

WGSS469 Study Abroad Special Topics IV (1-6 Credits)
Special topics course taken as part of an approved study abroad program.
Repeatable to: 15 credits if content differs.
Formerly: WMST469.

WGSS471 Women's Health (3 Credits)
The women's health movement from the perspective of consumerism and feminism. The physician-patient relationship in the gynecological and other medical settings. The gynecological exam, gynecological problems, contraception, abortion, pregnancy, breast and cervical cancer and surgical procedures. Psychological aspects of gynecological concerns.
Cross-listed with: HLTH471.
Restriction: Must be in a program in the Harriet Tubman Department of Women, Gender, and Sexuality Studies; or must be in a major within SPHL-Behavioral & Community Health department.
Credit Only Granted for: HLTH471, WMST471, or WGSS471..
Formerly: WMST471.

WGSS486 Advanced Feminist, Critical Race, and Queer Theories (3 Credits)
Provides undergraduates with a survey of foundational texts in the intersecting fields of feminist, critical race, and queer studies, as well as an overview of current scholarship in order to give students an opportunity to understand the origins and the development of these fields. This course is especially recommended for students interested in pursuing graduate education. Our discussions will be focused on the trajectories of these intellectual conversations as they have developed in the academy.
Prerequisite: WMST301 or permission of the Harriet Tubman Department of Women, Gender, and Sexuality Studies.

WGSS487 Advanced Research Seminar in Gender, Race, and Queer Studies (3 Credits)
A research seminar that allows students to focus their developed skills on a single topic of their own choosing while meeting regularly in seminar to discuss, critique, support, and learn from their peers' projects and assessments. Students choose a topic based on their own interests and prior coursework, perform advanced research appropriate to the question, and formulate an appropriate method of presentation of their research findings. The culminating presentation may take the form of a written paper or a creative, digital, or activist project.
Prerequisite: WMST300 or WGSS301; and WMST400 or WGSS302.
Credit Only Granted for: WMST487 or WGSS487.
Formerly: WMST487.

WGSS488 Senior Seminar (3 Credits)
Seminar for advanced majors in women's studies or other students with appropriate preparation. Interdisciplinary topics will vary each semester.
Restriction: Permission of the Harriet Tubman Department of Women, Gender, and Sexuality Studies.
Repeatable to: 9 credits if content differs.
Formerly: WMST488.

WGSS489 Individual Research in Gender, Race and Queer Studies (3 Credits)
Allows students who wish to continue the research they began in WMST487 or WGSS487 to do so under the guidance of an individual faculty mentor. Each student taking this class will develop an individual syllabus based on the project on which they are working, with the goal of developing a work of scholarship specific to their interests that can serve as an entry point for graduate study or professional work.
Prerequisite: WMST487 or WGSS487.
Repeatable to: 9 credits.

WGSS491 Judaism and the Construction of Gender (3 Credits)
The study of Jewish culture, religious practice, communal authority, and literature through the frame of such critical categories of analysis as gender, sexuality, masculinity, power, ethics, and the feminine.
Prerequisite: 1 course in JWST; or 1 course in LGBT; or 1 course in WMST or WGSS.
Cross-listed with: JWST491.
Credit Only Granted for: JWST491, WMST491 or WGSS491.
Formerly: WMST491.

WGSS492 Sex, Gender, and Jewish Identity (3 Credits)
An exploration of Jewish embodiment, including dynamics related to biological sex, culturally-framed gender, and sexuality. Topics of discussion may include transgender and intersex Jews, stereotypes and gender performance, modesty, genetics, and body alteration. Focus is on contemporary Jewish culture, framed within the larger historical and textual tradition.
Prerequisite: 1 course in WGSS; or 1 course in JWST; or 1 course in LGBT; or permission of instructor.
Cross-listed with: JWST492, LGBT448W.
Credit Only Granted for: JWST492, JWST409G, LGBT448W, WMST498W or WGSS492.
Formerly: WMST498W and JWST409G.

WGSS496 African-American Women Filmmakers (3 Credits)
Examines the cinematic artistry of African-American women filmmakers and the ways in which these films address the dual and inseparable roles of race and gender.
Credit Only Granted for: WMST496 or WGSS496.
Formerly: WMST496.

WGSS497 Professional Development (1 Credit)
To assist students in thinking about the next step post-undergraduate degree and to think long term about the importance of their WMST degree in lifelong career, personal, and political development. This course will provide students an opportunity to reflect upon where they are going beyond the B.A. and develop ways to communicate how their coursework and experiences at UMD have prepared them for the next step. The course will focus on the practicalities of resume writing, internship or job searches, etc. but also on the specific challenges/opportunities of translating interdisciplinary training to professional internship or beyond-the B.A. sites. Students may take this course in preparation for their internship (working to select an appropriate internship that can translate well to post-undergraduate aspirations) or they may take it post-internship as they determine their post-graduation steps.
Prerequisite: 12 credits in LGBT, WMST or WGSS courses.
Restriction: Must have completed a minimum of 75 credits.
Credit Only Granted for: WMST497 or WGSS497.
Formerly: WMST497.

WGSS498 Advanced Special Topics in Women, Gender, and Sexuality Studies (1-3 Credits)
Advanced study of a thematic topic in women, gender, and sexuality studies.
Restriction: Permission of the Harriet Tubman Department of Women, Gender, and Sexuality Studies.
Repeatable to: 9 credits if content differs.
Formerly: WMST498.

WGSS498D Sex, Gender, and Sexuality in the Islamic World (3 Credits)

WGSS499 Independent Study (1-3 Credits)
Research and writing or specific readings on a topic selected by the student and supervised by a faculty member of the Women's Studies Department.
Prerequisite: 1 course in WMST or WGSS.
Restriction: Permission of the Harriet Tubman Department of Women, Gender, and Sexuality Studies.
Repeatable to: 9 credits if content differs.
Formerly: WMST499.

WMSX - Women's Studies Education Abroad

WMSX200 Gender, Equality, and Sexuality in Scandinavia (3 Credits)
Sweden is one of the most gender equal countries in the world and is well-known for its progressive culture supported by forward-thinking laws and legislation. This course explores how concepts of gender, body, sexuality and race intersect in current debates about changing family structures, children's rights, and new ethical dilemmas in a changing Scandinavia.
Cross-listed with: LGBX200.
Credit Only Granted for: WMSX200 or LGBX200.
Additional Information: This course is offered as part of the Maryland-in-Stockholm study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMStockholm. Education Abroad processes registrations for this course on behalf of students.

WMSX201 Sex Education and Sexual Reform in Europe (3 Credits)
Provides insight to the ways in which sexual reform and sex education has shaped not only the history of sexuality in Europe, but also the very core of the various national identities. We will look into the different movements, campaigns, policies, and public debates regarding sexuality. We will discover the ways in which sex and sexuality are conveyed in sexual education aimed at children and youth by reading and watching examples of sex educational material.
Cross-listed with: LGBX201.
Credit Only Granted for: WMSX201 or LGBX201.
Additional Information: This course is offered as part of the Maryland-in-Stockholm study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMStockholm. Education Abroad processes registrations for this course on behalf of students.

WMSX202 Transgender in Scandinavia (3 Credits)
This course explores the history of trans activism with a special focus on Sweden, and how legislative and medical discourses change how we think about gender identities and rights. We also explore topics such as transphobia, gender disclosure and HIV criminalization laws, reproductive rights, gender-neutral pronouns, transgender children and their families, and how race and class intersect with being trans.
Cross-listed with: LGBX202.
Credit Only Granted for: WMSX202 or LGBX202.
Additional Information: This course is offered as part of the Maryland-in-Stockholm study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMStockholm. Education Abroad processes registrations for this course on behalf of students.

WMSX203 Economics of Gender (3 Credits)
Decisions around marriage, children, and work are taken by everyone on the planet. In this class we look at the economic elements that forge those choices. Moreover, while women's roles have changed beyond recognition in a century, we are still plagued with a dramatic under-representation of women in senior economic roles and the fact that they appear underpaid vis a vis men for doing the same work. This course looks at the factors influencing such issues, providing often surprising results.
Additional Information: This course is offered as part of the Maryland-in-Stockholm study abroad program. Students must apply for this program through Education Abroad: More information at ter.ps/UMStockholm. Education Abroad processes registrations for this course on behalf of students.

WMSX204 Nice Girls, Bad Girls, and Bitches: British Women and Gender from the Vote to Thatcher (3 Credits)
Explores the words and experiences of British women in a century of rapid social, economic and cultural transformation - when what it meant to be a 'British woman' was itself revolutionized, through decolonization and immigration. We will determine the constraints on women in war and peace, politics, education and paid work, marriage, motherhood and family, and celebrate rebels and non-conformists.
Additional Information: This course is offered as part of the Arts & Humanities-in-London study abroad program. Students must apply for this program through Education Abroad: More information at https://globalmaryland.umd.edu/offices/education-abroad/program/11854. Education Abroad processes registrations for this course on behalf of students.

WMSX300 Feminism(s) (6 Credits)
Engages with contemporary feminist thought through literature, literary criticism, history and theory of feminism. It examines the significant debates and key concepts of feminist thought through a range of political and philosophical texts and encourages students to develop their own critical understanding of gender and equality issues in the contemporary period. Explores feminism in relation to Marxism, psychoanalysis, sexuality, post-structuralism, neo-liberalism and international feminism.
Additional Information: This course is offered as part of the ARHU-in-London study abroad program. Students must apply for this program through Education Abroad: More information at globalmaryland.umd.edu/offices/education-abroad/program/11854. Education Abroad processes registrations for this course on behalf of students.

WMSX301 The Rising Generation: Youth, Age and Protest in Post-War Britain (3 Credits)
Explores important empirical and methodological questions about age, gender and sexuality, using a case study of post-war Britain. Considers the histories of "muted groups" such as children, adolescents, women and LGBT people, while thinking about how the language used about such groups is used to structure power relations in society. Engages with the ways conservatives and radicals used the language of age and life-stage to construct visions of the future, and how the experience of childhood, adolescence, adulthood and old age changed in Britain between 1945 and 1979.

XPER - xFoundry

XPER433 Xperiment to Address Grand Challenges (3 Credits)
Students will collaborate with each other using creative approaches to address complex real-world challenges. You will develop skills for interdisciplinary teamwork, problem-solving, and idea testing through hands-on experiences and guided discussions and reflections. By the end, you will form a multidisciplinary team of co-innovators ready to design a solution to a well-defined, real-world problem.
Restriction: Permission required by the xFoundry Program.
Additional Information: For more information, and to request permission to enroll, visit https://xfoundry.umd.edu/xperience.

XPER444 Xperiment II: Bringing Your Idea to Life (3 Credits)
Students will work in teams to design, develop, and iterate on solutions for the grand challenge problem. This course aims to equip students with the strategic skills essential for the successful design and implementation of effective solutions. They will explore methodologies for validating the feasibility and viability of proposed solutions, with a strong emphasis on conducting thorough customer feedback analysis to refine and validate product concepts. By the end of this course, students will have a working and tested prototype of their solution, showcasing their applied knowledge and practical skills in addressing complex challenges. This is the second course in xFoundry's signature academic program.
Restriction: Must be in the Xperience academic program; and permission of department.
Additional Information: For more information on Xperiment, visit: xfoundry.umd.edu/programs/xperience/xperiment.

ADMINISTRATORS, OFFICIALS AND FACULTY

A

Abadi, Daniel J
Professor, CMNS-Computer Science; Professor, CMNS-Institute for Advanced Computer Studies; B.S., Brandeis University, 2002; M.Phil., University of Cambridge, 2003; Ph.D., Massachusetts Institute of Technology, 2008; Ph.D., 2008.

Abasi, Ali Reza
Associate Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., University of Tabriz, 1994; M.A., University of Tehran, 1997; Ph.D., University of Ottawa, 2008.

Abbasi, Hossein
Principal Lecturer, BSOS-Economics; B.S., Ferdowsi University of Masshad, 1994; M.S., Institute for Research in Planning and Development, 1997; Ph.D., University of Illinois-Urbana/Champaign, 2009.

Abbott, Kelsey Faith McCurdy
Lecturer, EDUC-Counseling, Higher Education and Special Education; B.A., Washington College, 2016; M.A., University of Maryland-College Park, 2020; Ph.D., 2022.

Abdo, Jamil
Visiting Associate Professor, ENGR-Mechanical Engineering; B.S., Al-Quds University, 1991; M.S., Southern Illinois University-Carbondale, 1997; Ph.D., 2000.

Abdul-Alim, Jamaal
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., University of Wisconsin-Milwaukee, 1996.

Abdul-Malik, Mansur
Lecturer, ARCH-Real Estate Development; B.S., University of Maryland-College Park, 2008; M.S., 2012.

Abed, Eyad H
Professor, ENGR-Electrical & Computer Engineering; B.S., Massachusetts Institute of Technology, 1979; M.S., University of California-Berkeley, 1981; Ph.D., 1982.

Abo Awad, Hani
Lecturer, ARHU-Meyerhoff Center-Israel Studies; B.A., Hebrew University of Jerusalem, 2005; M.A., 2007.

Abraham, Katharine G.
Distinguished University Professor, BSOS-Economics; B.S., Iowa State University, 1976; Ph.D., Harvard University, 1982.

Abrams, Michael Carlos
Clinical Professor, ARCH-Architecture Program; B.A., University of Puerto Rico-Ponce, 1997; M.Arch., University of Michigan-Ann Arbor, 1999.

Abrams, Rina R.T
Lecturer, BSOS-Hearing & Speech Sciences; B.A., University of Colorado-Boulder, 2004; M.S., Medical University of South Carolina, 2009.

Abshire, Pamela A.
Professor, ENGR-Electrical & Computer Engineering; Professor, ENGR-Institute for Systems Research; 2021-2022 Distinguished Scholar-Teacher. B.S., California Institute of Technology, 1992; M.S., Johns Hopkins University, 1997; Ph.D., 2001.

Accilien, Cecile
Professor, ARHU-School of Languages, Literatures, and Cultures; Affiliate Professor, ARHU-American Studies; Affiliate Professor, ARHU-Women, Gender and Sexuality Studies; B.A., Montclair State University, 1995; M.A., University of Louisiana-Lafayette, 1997; Ph.D., Tulane University, 2002.

Acedo Garcia, Ana Isabel
Senior Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., University of Maryland-College Park, 2000; M.A., 2003.

Acharya, Suresh K
Professor of the Practice, BMGT-Decision, Operations & Information Technologies; B.S., Davidson College, 1993; M.S., Clemson University, 1993; M.S., University of North Carolina-Chapel Hill, 1995.

Ackermann, Christopher
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.O., Fachhochschule Mannheim, 2006; M.S., University of Maryland-College Park, 2008; Ph.D., 2010.

Adams, Jeffrey D.
Professor Emeritus, CMNS-Mathematics; B.A., Johns Hopkins University, 1977; Ph.D., Yale University, 1981.

Adams, Joy
Lecturer, BSOS-Geography; B.A., University of Texas-Austin, 1994; M.A., Texas State University, 1999; Ph.D., University of Texas-Austin, 2006.

Adams, Lowell W.
Adjunct Associate Professor, AGNR-Environmental Science & Technology; B.S., Virginia Polytechnic Institute & State University, 1968; M.S., Ohio State University, 1973; Ph.D., 1976.

Adem, Muna
Assistant Professor, BSOS-Sociology; B.A., California State University-Northridge, 2013; M.A., Indiana University, 2017; Ph.D., 2023.

Adeyemi, Olutoyin Y
Lecturer, ARHU-English; B.A., Wells College, 2004; M.F.A., Columbia University, 2015.

Adhikari, Arka
Assistant Professor, CMNS-Mathematics; B.S., Princeton University, 2016; Ph.D., Harvard University, 2021.

Adiraju, Pranav Tejasvi
Lecturer, INFO-College of Information Studies; Lecturer, INFO-College of Information Studies; M.O., University of Maryland-College Park, 2024.

Adler, Eric
Chair, ARHU-Classics; Professor, ARHU-Classics; B.A., Connecticut College, 1995; M.A., SUNY-Buffalo State University, 1998; Ph.D., Duke University, 2005.

Adomaitis, Raymond A.
Professor, ENGR-Chemical & Biomolecular Engineering; Professor, ENGR-Institute for Systems Research; B.S., Illinois Institute of Technology, 1984; Ph.D., 1988.

Adrianvala, Zubin Noshir
Lecturer, ARCH-Real Estate Development; B.Arch., Amravati University, 2004; M.Arch., University of New South Wales-Kensington, 2007; Ph.D., University of Maryland-College Park, 2017.

Afflerbach, Peter P.
Professor Emeritus, EDUC-Teaching and Learning, Policy and Leadership; B.A., SUNY-Albany, 1978; M.S., 1979; Ph.D., 1985.

Agarwal, Rajshree
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Management & Organization; 2017-2018 Distinguished Scholar-Teacher. B.A., University of Bombay, 1986; M.A., 1988; M.A., SUNY-University at Buffalo, 1990; Ph.D., SUNY-Buffalo State University, 1995.

Agarwal, Ritu
Distinguished University Professor Emerita, BMGT-Robert H. Smith School of Business; 2011-2012 Distinguished Scholar-Teacher. B.A., University of Delhi, 1982; M.B.A., Indian Istitute of Management, Calcutta, 1984; M.S., Syracuse University, 1988; Ph.D., 1988.

Agashe, Kaustubh Sadanand
Professor, CMNS-Physics; B.S., Indian Institute of Technology-Mumbai, 1993; B.Tech., Indian Institute of Technology-Bombay, 1993; Ph.D., University of California-Berkeley, 1998.

Aggour, Mohamed Sherif
Professor Emeritus, ENGR-Civil & Environmental Engineering; Lecturer, ENGR-Civil & Environmental Engineering; B.S., University of Cairo, 1964; M.S., 1966; Ph.D., University of Washington-Seattle, 1972.

Agha, Omar Sheheryar
Assistant Professor, ARHU-Linguistics; B.A., University of Chicago, 2016; Ph.D., New York University, 2023.

Agness, Daniel
Assistant Professor, BSOS-Economics; B.A., Stanford University, 2010; M.S., University of California-Berkeley, 2020; Ph.D., 2024.

Agonafer, Damena
Associate Professor, ENGR-Mechanical Engineering; B.S., University of Texas-Arlington, 2004; M.S., Carnegie Mellon University, 2006; D.Engin., University of Illinois-Urbana/Champaign, 2012.

Agrawala, Ashok K.
Professor, CMNS-Computer Science; Affiliate Professor, ENGR-Electrical & Computer Engineering; B.S., Agra University, 1960; B.E., Indian Institute of Science-Bangalore, 1963; M.Eng., 1965; Ph.D., Harvard University, 1970.

Ahmadian, Nahid
Lecturer, ARHU-English; B.A., University of Tehran, 2004; M.A., 2007; Ph.D., 2012.

Ahrens, Richard A.
Professor Emeritus, AGNR-Nutrition and Food Science; B.S., University of Wisconsin-Madison, 1958; Ph.D., University of California-Davis, 1963.

Ahuja, Neel
Professor, ARHU-Women, Gender and Sexuality Studies; Affiliate Professor, ARHU-American Studies; B.A., Northwestern University, 2002; M.A., University of California-San Diego, 2006; Ph.D., University of San Diego, 2008.

Ai, Wei
Assistant Professor, INFO-College of Information Studies; Assistant Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Assistant Professor, CMNS-Computer Science; B.S., Peking University, 2013; B.A., 2013; Ph.D., University of Michigan-Ann Arbor, 2020.

Ainane, Sami
Senior Lecturer, ENGR-Mechanical Engineering; B.S., University of Grenoble, 1979; M.S., University of Maryland-College Park, 1983; Ph.D., 1989.

Ainslie, Adam
Lecturer, ARCH-Architecture Program; B.Arch., Princeton University, 2017; M.Arch., 2020.

Akbar-Williams, Tahirah Z.
Librarian III, LIBR-Libraries; M.L.S., Indiana University, 2006; M.A., 2006; M.A., Ohio State University, 2008.

Akbari-Saneh, Nahal
Assistant Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., University of Tehran, 1995; M.A., 1999; Ph.D., University of Ottawa, 2009.

Akikawa, Kumiko
Senior Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., Tokyo Woman's Christian University, 2000; M.A., Japan Women's University, 2002; M.A., University of York, 2004; M.A., American University, 2008.

Akin, David L.
Professor, ENGR-Aerospace Engineering; B.S., Massachusetts Institute of Technology, 1974; M.O., 1975; Sc.D., 1981.

Al-salami, Samah Ali
Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., Sana'a University, 2004.

Al-Sheikhly, Mohamad I.
Professor, ENGR-Materials Science & Engineering; Affiliate Professor, ENGR-Chemical & Biomolecular Engineering; B.S., University of Baghdad, 1974; Ph.D., University of Newcastle Upon Tyne, 1981.

Alam, Fardina Fathmiul
Lecturer, CMNS-Computer Science; B.S., Other, 2013; M.S., George Mason University, 2022; Ph.D., 2023.

Alberini, Anna
Professor, AGNR-Agricultural & Resource Economics; B.A., University of Venice, 1987; M.A., University of California-San Diego, 1989; Ph.D., 1992.

Albert, Victor V
Adjunct Assistant Professor, CMNS-Institute for Advanced Computer Studies; Adjunct Assistant Professor, CMNS-Physics; B.S., University of Florida, 2010; Ph.D., Yale University, 2017.

Alberto, Cinthya
Lecturer, SPHL-Family Science; B.S., University of Mary Washington, 2013; M.P.H., Drexel University, 2017; Ph.D., 2020.

Albertus, Paul
Associate Professor, ENGR-Chemical & Biomolecular Engineering; Affiliate Associate Professor, ENGR-Materials Science & Engineering; B.E., University of Michigan-Ann Arbor, 2003; Ph.D., University of California-Berkeley, 2009.

Albrecht, Pedro
Professor Emeritus, ENGR-Civil & Environmental Engineering; Ph.D., Lehigh University, 1972.

Alcala, Hector Ernesto
Assistant Professor, SPHL-Behavioral & Community Health; B.A., University of California-Los Angeles, 2009; M.P.H., 2011; D.Pub.Hlth., 2015.

Alcaniz, Isabella
Associate Dean, BSOS-College of Behavioral & Social Sciences; Professor, BSOS-Government & Politics; B.O., Universidad de Belgrano, 1994; M.A., Northwestern University, 1999; Ph.D., 2004.

Aldoory, Linda
Professor Emerita, ARHU-Communication; B.A., George Washington University, 1988; M.A., University of Texas-Austin, 1991; Ph.D., Syracuse University, 1998.

Alexander, Christine Erin
Lecturer, ENGR-A. James Clark School of Engineering; B.A., George Washington University, 2012; M.A., University of Maryland-College Park, 2023.

Alexander, Elizabeth Murice
Assistant Clinical Professor, ARHU-MD Institute for Technology in the Humanities; B.A., Amherst College, 2014; M.A., Cornell University, 2017; Ph.D., 2021.

Alexander, Kerry H
Assistant Professor, EDUC-Teaching and Learning, Policy and Leadership; B.S., University of Texas-Austin, 2009; M.Ed., 2019; Ph.D., 2024.

Alexander, Millard Henry
Distinguished University Professor Emeritus, CMNS-Chemistry & Biochemistry; A.B., Harvard University, 1964; Ph.D., University of Paris, 1967.

Alexander, Patricia A.
Distinguished University Professor, EDUC-Human Development and Quantitative Methodology; 2000-2001 Distinguished Scholar-Teacher. B.A., Bethel University, 1970; M.Ed., James Madison University, 1979; Ph.D., University of Maryland-College Park, 1981.

Alford, Charles Frederick
Professor Emeritus, BSOS-Government & Politics; B.A., Austin College, 1969; M.A., University of Texas-Austin, 1971; Ph.D., 1979.

Ali, Ashraf
Adjunct Professor, CMNS-Physics; B.S., University of Calcutta, 1973; M.S., 1975; Ph.D., Indian Institute of Technology-Kanpur, 1983.

Ali, Asim A
Senior Lecturer, ARHU-American Studies; B.A., University of California-Berkeley, 1989; M.A., University of Maryland-College Park, 1993; Ph.D., 2013.

Ali, Bilal Akhtar
Lecturer, ARCH-Real Estate Development; B.A., University of Rochester, 2014; M.C.P., University of Maryland-College Park, 2019.

Ali, Mir M
Lecturer, SPHL-Health Policy and Management; B.A., SUNY-Health Science Center-Stony Brook, 2002; M.A., 2003; Ph.D., 2007.

Alinsky, Rachel
Adjunct Assistant Professor, SPHL-Behavioral & Community Health; B.A., Case Western Reserve University, 2009; M.D., George Washington University Medical Center, 2013; M.P.H., Johns Hopkins University, 2019.

Aljunaidi, Norah Emad
Lecturer, BSOS-Hearing & Speech Sciences; M.A., George Washington University, 2021.

Alkebsi, Lutf Y.
Senior Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., Dhamar University, 1997.

Alkhamissi, Mai K.
Lecturer, BSOS-Anthropology; B.A., American University-Cairo, 2012; M.A., University of London, 2014; M.A., Princeton University, 2019.

Allee, Todd
Associate Professor, BSOS-Government & Politics; B.A., University of Missouri-Columbia, 1994; M.S., London School of Economics & Political Science, 1996; Ph.D., University of Michigan-Ann Arbor, 2003.

Allen, Edward H
Adjunct Professor, ENGR-Materials Science & Engineering; Ph.D., University of Pennsylvania, 1970.

Allen, Keisha
Assistant Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., Hampton University, 2001; M.A.-Teach., 2002; Ed.D., Teachers College of Columbia University, 2015.

Allen, Stephanie T.
Lecturer, ARHU-English; B.A., Yale University, 1986; M.F.A., University of Maryland-College Park, 2001.

Allen-Klein, Robin Elizabeth
Senior Lecturer, ARHU-English; B.A., University of Southern California, 1986; M.Ed., University of California-Los Angeles, 1989.

Allewell, Norma M.
Professor Emerita, CMNS-Cell Biology & Molecular Genetics; B.S., McMaster University-Hamilton, 1965; Ph.D., Yale University, 1969.

Almazyad, Raquel Taz
Lecturer, EDUC-Counseling, Higher Education and Special Education; B.A., Gallaudet University, 2022.

Almeida e Andrade, Natasha
Senior Lecturer, ENGR-Civil & Environmental Engineering; B.S., University of Maryland-College Park, 2005; M.S., 2008; Ph.D., 2012.

Almon, Clopper
Professor Emeritus, BSOS-Economics; B.A., Vanderbilt University, 1956; Ph.D., Harvard University, 1962.

Aloimonos, John Yiannis
Professor, CMNS-Computer Science; Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Professor, ENGR-Institute for Systems Research; B.S., National & Capodistrian University of Athens, 1981; M.S., University of Rochester, 1984; Ph.D., 1987.

Alp Paukowits, Aysun
Lecturer, BMGT-Finance; B.S., Bogazici University, 2002; M.S., 2004; Ph.D., University of Maryland-College Park, 2010.

Alt, Frank B.
Associate Professor Emeritus, BMGT-Robert H. Smith School of Business; B.S., Johns Hopkins University, 1967; M.S., Georgia Institute of Technology, 1973; Ph.D., 1977.

Altinkilic, Oya
Lecturer, BMGT-Finance; B.S., Istanbul University, 1993; M.B.A., Virginia Polytechnic Institute & State University, 1996; D.O., 2001.

Altschul, Stephen F.
Adjunct Professor, CMNS-Institute for Advanced Computer Studies; Ph.D., Massachusetts Institute of Technology, 1987.

Alvarez, Beth
Librarian Emerita, LIBR-Libraries; B.A., Gettysburg College, 1967; M.A., University of Maryland-College Park, 1980; M.L.S., 1977; Ph.D., 1990.

Alvi, Diba Naureen
Lecturer, ARHU-School of Music; B.A., Oberlin College, 1994; M.Mus., University of Michigan-Ann Arbor, 2003; M.Mus., 2004; D.M.A., University of Maryland-College Park, 2008.

Alvizu, Josh
Assistant Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., University of Colorado-Boulder, 2005; M.A., Johns Hopkins University, 2007; M.A., Yale University, 2012; M.Phil., 2013; Ph.D., 2017.

Alwood, Edward
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., University of North Carolina-Chapel Hill, 1972; M.A., American University, 1999; Ph.D., University of North Carolina-Chapel Hill, 2000.

Amato, Heather Kathleen
Assistant Professor, SPHL-Global, Environmental, and Occupational Health; B.A., Kenyon College, 2013; M.P.H., Emory University, 2016; Ph.D., University of California-Berkeley, 2022.

Amde, Amde M.
Professor Emeritus, ENGR-Civil & Environmental Engineering; B.E.S., Johns Hopkins University, 1970; M.S., University of California-Berkeley, 1971; Ph.D., SUNY-University at Buffalo, 1976.

Amechi, Chinechebem Jude Anthony
Lecturer, SPHL-Kinesiology; B.S., University of Maryland-College Park, 2019; M.S., University of Delaware, 2020; Ph.D., 2021.

Amilivia, Jennifer Marie
Assistant Clinical Professor, EDUC-Counseling, Higher Education and Special Education; B.A., University of Michigan-Ann Arbor, 2009; B.G.S., 2012; M.A., 2014; Ph.D., University of Kansas, 2020.

Amos, Esthus Christopher
Lecturer, ARHU-English; B.A., Howard University, 1997; J.D., University of Michigan-Ann Arbor, 2005.

Anand, Davinder K.
Professor Emeritus, ENGR-Mechanical Engineering; B.S., George Washington University, 1959; M.S., 1961; Ph.D., 1965.

Anand, Tejwansh S
Clinical Professor, BMGT-Decision, Operations & Information Technologies; B.Elect.E., Indian Institute of Technology, 1985; M.S., University of South Carolina-Coastal Carolina, 1987; Ed.D., Columbia University, 2014.

Anandalingam, Anand
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Decision, Operations & Information Technologies; B.A., University of Cambridge, 1975; M.S., Harvard University, 1977; Ph.D., 1991.

Anastos, George
Professor Emeritus, CMNS-Biology; B.S., University of Akron, 1942; M.A., Harvard University, 1947; Ph.D., 1949.

Anderson, Brielle Evelyn
Adjunct Assistant Professor, CMNS-Physics; B.S., University of Rochester, 2006; Ph.D., University of Arizona, 2013.

Anderson, Elaine A.
Professor Emerita, SPHL-Family Science; B.S., University of Nebraska-Lincoln, 1973; M.S., Pennsylvania State University, 1975; Ph.D., 1979.

Anderson, John D.
Professor Emeritus, ENGR-Aerospace Engineering; 1981-1982 Distinguished Scholar-Teacher. B.S., University of Florida, 1959; Ph.D., Ohio State University, 1966.

Anderson, Lindsey B
Associate Professor, ARHU-Communication; B.A., Purdue University-West Lafayette, 2004; M.A., Indiana University, 2010; Ph.D., Purdue University-West Lafayette, 2014.

Anderson, Paul Marcus
Lecturer, ENGR-Fire Protection Engineering; Lecturer, ENGR-Dean-Keystone Program; B.S., University of Illinois-Urbana/Champaign, 2002; M.S., University of Maryland-College Park, 2016; Ph.D., 2019.

Anderson, Rafique Omar
Lecturer, PLCY-Office of Executive Programs; B.A., Michigan State University, 1998; J.D., 2001; L.L.M., George Washington University, 2016; M.B.A., Northwestern University, 2018; M.P.M./M.B.A., University of Maryland-College Park, 2021.

Anderson, Samira Brake
Chair, BSOS-Hearing & Speech Sciences; Professor, BSOS-Hearing & Speech Sciences; Affiliate Professor, ARHU-Dean-MD Language Science Center; B.A., Indiana University, 1979; M.A., 1981; Au.D., University of Florida, 2000; Ph.D., Northwestern University, 2012.

Andrade, Marcos F.
Adjunct Associate Professor, CMNS-Atmospheric & Oceanic Science; B.S., Universidad Mayor de San Andres, 1991; M.S., University of Maryland-College Park, 2001; Ph.D., 2004.

Andrews, Bob
Adjunct Professor, ENGR-Fire Protection Engineering; B.S., University of Maryland-College Park, 1980; M.S., Grand Canyon University, 2002; D.B.A., Temple University, 2022.

Andrews, David Lawrence
Professor, SPHL-Kinesiology; B.Ed., University of Exeter, 1985; M.S., University of Illinois-Urbana/Champaign, 1991; Ph.D., 1993.

Andrews, Norma Windsor
Professor, CMNS-Cell Biology & Molecular Genetics; B.S., University of Sao Paulo, 1977; M.S., 1982; Ph.D., 1983.

Andrusik, Katryna Natalya
Assistant Clinical Professor, EDUC-Counseling, Higher Education and Special Education; B.A., Johns Hopkins University, 2000; M.S., 2003; Ph.D., University of Maryland-College Park, 2011.

Anenson, T Leigh
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Logistics, Business & Public Policy; 2023-2024 Distinguished Scholar-Teacher. B.S., California State University-Long Beach, 1990; J.D., University of Akron, 1994; L.L.M., Georgetown University, 1996.

Angel, Clara Roselina
Professor, AGNR-Animal & Avian Sciences; B.S., Iowa State University, 1984; M.S., 1987; Ph.D., 1990.

Angelella, Ross
Director, ARHU-Dean's-Living Learning Programs; Principal Lecturer, ARHU-Dean's-Living Learning Programs; B.A., Ithaca College, 2002; M.F.A., Bennington College, 2009.

Angueyra, Juan
Assistant Professor, CMNS-Biology; Ph.D., University of Washington-Seattle, 2014.

Anishchenkova, Valerie
Associate Professor, ARHU-School of Languages, Literatures, and Cultures; M.A., St. Petersburg State University, 1997; M.A., University of Michigan-Ann Arbor, 2001; Ph.D., 2007.

Anisimov, Mikhail A.
Distinguished University Professor Emeritus, ENGR-Chemical & Biomolecular Engineering; B.E., Groznyi Institute of Oil, 1964; Ph.D., Moscow State University, 1969.

Ankem, Sreeramamurthy
Professor, ENGR-Materials Science & Engineering; B.E., University of Mysore, 1972; M.Eng., Indian Institute of Science-Bangalore, 1974; Ph.D., Polytechnic Institute New York Univ, 1980.

Anlage, Steven Mark
Professor, CMNS-Physics; 2016-2017 Distinguished Scholar-Teacher. B.S., Rensselaer Polytechnic Institute, 1982; M.S., California Institute of Technology, 1984; Ph.D., 1988.

Anthony, Douglas W.
Visiting Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., University of Maryland-College Park, 1992; M.Ed., 2001; Ed.D., 2016.

Antman, Stuart S.
Distinguished University Professor Emeritus, CMNS-Mathematics; B.S., Rensselaer Polytechnic Institute, 1961; M.S., University of Minnesota-Twin Cities, 1963; Ph.D., 1965.

Antonisse, Margaret J.
Lecturer, ARHU-Dean-MD Language Science Center; Senior Lecturer, ARHU-Linguistics; B.A., Lafayette College, 1973; M.A., University of Michigan-Ann Arbor, 1976; Ph.D., University of Maryland-College Park, 2000.

Antonsen, Thomas M. Jr.
Distinguished University Professor, ENGR-Electrical & Computer Engineering; Distinguished University Professor, CMNS-Physics; Distinguished University Professor, CMNS-Institute for Research in Electronics & Applied Physics; B.S., Cornell University, 1973; M.S., 1976; Ph.D., 1977.

Antoun, Christopher
Assistant Professor, INFO-College of Information Studies; B.A., University of Virginia, 2004; M.S., University of Michigan-Ann Arbor, 2011; Ph.D., 2015.

Aparicio, Elizabeth Marie
Associate Professor, SPHL-Behavioral & Community Health; M.S.W., Catholic University of America, 2005; Ph.D., University of Maryland at Baltimore, 2014.

Apathy, Nate
Assistant Professor, SPHL-Health Policy and Management; B.S., Creighton University, 2011; Ph.D., Indiana University-Purdue University-Indianapolis, 2020.

Apfel, Kenneth Stephen
Professor of the Practice Emeritus, PLCY-School of Public Policy; B.A., University of Massachusetts-Amherst, 1970; M.Ed., Northeastern University, 1973; M.P.A., University of Texas-Austin, 1978.

Apon, Daniel Christopher
Lecturer, ENGR-Maryland Applied Graduate Engineering; Lecturer, CMNS-Computer Science; B.S., University of Arkansas-Fayetteville, 2008; M.S., 2011; Ph.D., University of Maryland-College Park, 2017.

Appel, Michelle
Assistant Vice President & Chief Data Officer, SVPAAP-Office of Instittue, Research Planning & Assessment; B.A., Bloomsburg University of Pennsylvania, 1990; M.A., University of Maryland-Baltimore County, 1995.

Apter, R Charles
Senior Lecturer, AGNR-Animal & Avian Sciences; B.S., Clemson University, 1980; M.S., Texas A&M University-College Station, 1990; Ph.D., 1996.

Aranda-Espinoza, Jose Helim
Associate Chair, ENGR-Fischell Department of Bioengineering; Associate Professor, ENGR-Fischell Department of Bioengineering; Affiliate Associate Professor, ENGR-Materials Science & Engineering; B.S., Universidad de Zacatecas, Mexico, 1990; M.S., Universidad Autonoma de San Luis Potosi, 1993; Ph.D., 1998.

Araneda, Ricardo C.
Professor, CMNS-Biology; B.S., Universidad de Concepcion, 1986; M.S., Yeshiva University, 1992; Ph.D., 1997.

Arbaugh, William
Associate Professor Emeritus, CMNS-Computer Science; B.S., U.S. Military Academy, 1984; M.S., Columbia University, 1985; Ph.D., University of Pennsylvania, 1999.

Archambeault, Marie
Lecturer, BSOS-Anthropology; B.A., Baylor University, 2000; M.A., University of South Florida, 2004.

Archsmith, James
Assistant Professor, AGNR-Agricultural & Resource Economics; B.S., University of Michigan-Ann Arbor, 1999; M.A., 2011; D.O., University of California-Davis, 2018.

Arevalo, Ricardo David Jr.
Professor, CMNS-Geology; B.S., University of Florida, 2005; Ph.D., University of Maryland-College Park, 2010.

Armston, John David
Associate Professor, BSOS-Geography; B.S., Macquarie University-North Ryde, 2001; B.S., University of Queensland-Brisbane, 2004; Ph.D., 2013.

Armstrong, Ronald W.
Professor Emeritus, ENGR-Mechanical Engineering; B.E.S., Johns Hopkins University, 1955; M.S., Carnegie Mellon University, 1957; Ph.D., 1958.

Arnett, Marieh Nicole
Lecturer, EDUC-Human Development and Quantitative Methodology; B.S., University of Maryland-College Park, 2019; M.S., 2020.

Arria, Amelia
Professor, SPHL-Behavioral & Community Health; B.S., Cornell University, 1986; Ph.D., University of Pittsburgh, 1993.

Arsenjuk, Luka
Associate Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., University of Ljubljana, 2002; Ph.D., Duke University, 2010.

Arul, Senthil
Lecturer, ENGR-Mechanical Engineering; B.S., University of Madras, 1985; M.S., University of Iowa, 1989; D.Engin., University of Michigan-Ann Arbor, 2009.

Arun, Nikita
Assistant Clinical Professor, BSOS-Psychology; B.S., University of Illinois-Urbana/Champaign, 2011; M.S., Virginia Polytechnic Institute & State University, 2014; Ph.D., 2016.

Aruoba, Boragan
Professor, BSOS-Economics; B.A., Bogazici University, 1999; M.A., University of Pennsylvania, 2002; Ph.D., 2004.

Asa-Awuku, Akua A.
Associate Dean, ENGR-A. James Clark School of Engineering; Professor, ENGR-Chemical & Biomolecular Engineering; B.S., Massachusetts Institute of Technology, 2003; M.S., Georgia Institute of Technology, 2006; Ph.D., 2008.

Aseri, Manmohan
Assistant Professor, BMGT-Robert H. Smith School of Business; Assistant Professor, BMGT-Decision, Operations & Information Technologies; B.O., Indian Institute of Technology-Kanpur, 2007; Ph.D., University of Texas-Dallas, 2018.

Asgari, Bahar
Assistant Professor, CMNS-Computer Science; Assistant Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Assistant Professor, ENGR-Electrical & Computer Engineering; B.S., Iran University of Science & Technology, 2011; M.S., 2013; Ph.D., Georgia Institute of Technology, 2021.

Asgeirsson, Greta
Lecturer, ARHU-School of Music; B.Mus., Boston University, 2013; M.Mus., Roosevelt University, 2015.

Ashburn, Caroline Rose
Lecturer, BMGT-Accounting; B.S., University of Maryland-College Park, 2022; M.S., 2023.

Ashley, David
Lecturer, BMGT-Other Programs-IBM/Quest; B.A., University of North Carolina-Chapel Hill, 1990; M.B.A., University of New Mexico-Valencia County, 1996.

Ashlock, Jennifer
Lecturer, BSOS-Sociology; B.A., University of North Carolina-Chapel Hill, 1996; M.A., 1999; Ph.D., 2014.

Aston, Jason William
Lecturer, INFO-College of Information Studies; B.A., Pepperdine University, 2003; M.A., New York University, 2011.

Atanasoski, Neda
Chair, ARHU-Women, Gender and Sexuality Studies; Professor, ARHU-Women, Gender and Sexuality Studies; Affiliate Professor, CMNS-AIM; B.A., University of Minnesota-Twin Cities, 2000; M.A., University of California-San Diego, 2003; Ph.D., 2005.

Ater, Renee D.
Associate Professor Emerita, ARHU-Art History & Archaeology; B.A., Oberlin College, 1987; M.A., University of Maryland-College Park, 1993; Ph.D., 2000.

Atlas, Robert M.
Adjunct Professor, CMNS-Atmospheric & Oceanic Science; B.S., St. Louis University, 1970; M.S., New York University, 1973; Sc.D., 1976.

Attia, Alexander Sami
Lecturer, ENGR-Mechanical Engineering; B.E., Alexandria University, 2014; M.Eng., University of Maryland-College Park, 2022.

Attoh-Okine, Nii O
Chair, ENGR-Civil & Environmental Engineering; Professor, ENGR-Civil & Environmental Engineering; M.O., Rostov Institute Civil Engineering, 1986; Ph.D., University of Kansas, 1993.

Auchard, John
Professor Emeritus, ARHU-English; B.A., New York University, 1970; M.A., University of Michigan-Ann Arbor, 1971; Ph.D., University of North Carolina-Chapel Hill, 1980.

Auerbach, Jonathan D.
Professor Emeritus, ARHU-English; B.A., University of California-Santa Cruz, 1976; M.A., Johns Hopkins University, 1978; Ph.D., 1984.

Ault, Steven K
Lecturer, SPHL-Epidemiology & Biostatistics; B.S., University of California-Davis, 1974; M.S., University of Liverpool, 1975; M.S., Liverpool School of Tropical Medicine, 1975.

Auslander, Joseph
Professor Emeritus, CMNS-Mathematics; B.S., Massachusetts Institute of Technology, 1952; M.S., University of Pennsylvania, 1953; Ph.D., 1957.

Austin, Mark A.
Associate Professor, ENGR-Civil & Environmental Engineering; Affiliate Associate Professor, ENGR-Institute for Systems Research; B.E., University of Canterbury-Christ Church, 1980; M.S., University of California-Berkeley, 1982; Ph.D., 1985.

Ausubel, Lawrence M.
Professor, BSOS-Economics; B.A., Princeton University, 1980; M.S., Stanford University, 1982; M.L.S., 1984; Ph.D., 1984.

Avilez, GerShun
Professor, ARHU-English; B.A., Hendrix College, 2002; M.A., Temple University, 2004; Ph.D., University of Pennsylvania, 2009.

Aycock, Marvin K. Jr.
Professor Emeritus, AGNR-Plant Science & Landscape Architecture; B.S., North Carolina State University, 1959; M.S., 1963; Ph.D., Iowa State University, 1966.

Aydilek, Ahmet H.
Professor, ENGR-Civil & Environmental Engineering; B.S., Istanbul University, 1993; M.S., University of Wisconsin-Madison, 1996; Ph.D., 2000.

Ayyub, Bilal M.
Professor, ENGR-Civil & Environmental Engineering; Affiliate Professor, ENGR-Institute for Systems Research; B.S., Kuwait University, 1980; M.S., Georgia Institute of Technology, 1981; Ph.D., 1983.

Azarm, Mira
Lecturer, SVPAAP-Academy of Innovation & Entrepreneurship; B.A., University of Maryland-College Park, 2001; M.F.A., Maryland Institute College of Art, 2013.

Azarm, Shapour
Professor, ENGR-Mechanical Engineering; B.S., University of Tehran, 1977; M.S., George Washington University, 1979; Ph.D., University of Michigan-Ann Arbor, 1984.

Azarnoosh, Jamasp Jimmy
Lecturer, ENGR-Fischell Department of Bioengineering; B.S., University of Tehran, 2012; M.S., University of Tennessee-Chattanooga, 2016; Ph.D., University of Texas-Dallas, 2020.

B

Babadi, Behtash
Associate Chair, ENGR-Electrical & Computer Engineering; Associate Professor, ENGR-Electrical & Computer Engineering; Associate Professor, ENGR-Institute for Systems Research; B.S., Sharif University of Technology, 2006; Ph.D., Harvard University, 2011.

Baballari, Eni
Lecturer, AGNR-Environmental Science & Technology; B.S., University of Maryland-College Park, 2016; M.S., 2019.

Babu, Sudarsanam Suresh
Professor, ENGR-Materials Science & Engineering; B.E., PSG College of Technology, 1986; M.Tech., Indian Institute of Technology Madras, 1988; Ph.D., University of Cambridge, 1992.

Baccus, Ayanna Asha
Associate Clinical Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., Wake Forest University, 1997; M.Ed., University of Maryland-College Park, 1999; Ph.D., 2004.

Bachner, Jennifer
Associate Dean, SPHL-School of Public Health; Clinical Professor, SPHL-School of Public Health; B.S., University of Maryland-College Park, 2005; B.A., 2005; Ph.D., Harvard University, 2011.

Baden, Drew
Professor, CMNS-Physics; B.A., University of Wisconsin-Madison, 1975; B.A., San Francisco State University, 1981; Ph.D., University of California-Berkeley, 1986.

Bader, Uri
Professor, CMNS-Mathematics; B.S., Technion-Israel Institute of Tech, 1999; Ph.D., 2004.

Bae, Soyoung
Senior Lecturer, ARHU-Communication; B.A., Korea University-Seoul, 2003; M.A., Kyungnam University, 2005; M.O., Indiana University, 2009; Ph.D., 2013.

Baecher, Gregory B.
Professor, ENGR-Civil & Environmental Engineering; B.S., University of California-Berkeley, 1968; M.S., Massachusetts Institute of Technology, 1970; Ph.D., 1972.

Baeder, James D.
Professor, ENGR-Aerospace Engineering; B.S., Rice University, 1983; M.S., Stanford University, 1984; Ph.D., 1989.

Baer, Ferdinand
Professor Emeritus, CMNS-Atmospheric & Oceanic Science; B.A., University of Chicago, 1950; M.S., 1954; Ph.D., 1961.

Baer, Hester
Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., Bard College, 1992; M.A., University of Minnesota-Twin Cities, 1994; Ph.D., Washington University in Saint Louis, 2000.

Bailey, Amanda
Chair, ARHU-English; Professor, ARHU-English; B.A., Oberlin College, 1988; M.A., University of Michigan-Ann Arbor, 1992; Ph.D., 1998.

Bailey, Rachel Ellen Squires
Lecturer, ARHU-Communication; B.A., University of Georgia, 1995; M.A., University of Central Florida, 2003; Ph.D., University of Georgia, 2023.

Bailey, Steven
Senior Lecturer, ARHU-School of Music; B.Mus., University of Wisconsin-Madison, 1987; M.Mus., Boston University, 1989.

Bailey, Tighe Donovan
Lecturer, UGST-Navy ROTC; B.S., Rochester Institute of Technology, 2017.

Bainbridge, Mathew Gregory
Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.F.A., Northern Michigan University, 1995.

Baiocchi, Giovanni
Professor, BSOS-Geography; Affiliate Professor, BSOS-Economics; B.O., University of Trieste, 1991; M.A., Virginia Polytechnic Institute & State University, 1993; Ph.D., University of York, 2008.

Bakalian, Cliff
Lecturer, CMNS-Computer Science; B.S., University of Maryland-College Park, 2020; M.S., 2021.

Balachandran, B
Distinguished University Professor, ENGR-Mechanical Engineering; B.Tech., Indian Institute of Technology-Madras, 1985; M.S., Virginia Polytechnic Institute & State University, 1986; Ph.D., 1990.

Balachandran Orihuela, Sharada
Associate Professor, ARHU-English; Affiliate Associate Professor, ARHU-American Studies; B.A., Mills College, 2005; Ph.D., University of California-Davis, 2012; Ph.D., 2012.

Balan, Radu Victor
Professor, CMNS-Mathematics; B.S., Polytechnic University of Bucharest, 1992; B.S., University of Bucharest, 1994; Ph.D., Princeton University, 1998.

Balasubramanian, Ramakrishnan
Lecturer, BMGT-Decision, Operations & Information Technologies; B.E., Birla Institute of Technology & Science, 1994; M.S., 1994; M.S., University of Arizona, 1996; M.O., University of California-Berkeley, 2019.

Balcom, Sarah Anne
Assistant Dean, AGNR-College of Agriculture & Natural Resources; Principal Lecturer, AGNR-College of Agriculture & Natural Resources; B.A., College of William & Mary, 1998; M.S., Tufts University, 2000; D.V.M., 2006.

Baldwin, Andrew H.
Professor, AGNR-Environmental Science & Technology; B.S., Tufts University, 1983; Ph.D., Louisiana State University-Baton Rouge, 1996.

Baldwin, Melinda
Associate Professor, ARHU-History; B.S., Davidson College, 2004; M.A., Princeton University, 2007; Ph.D., 2010.

Baldwin, Thomas R.
Lecturer, ARHU-School of Music; B.Mus., Ithaca College, 1990.

Ball, Gregory F.
Vice President for Research, VPR-VP Research; Professor, BSOS-Psychology; Affiliate Professor, CMNS-Biology; B.A., Columbia University, 1977; Ph.D., Rutgers University, 1983.

Ball, Michael O.
Professor Emeritus, BMGT-Robert H. Smith School of Business; M.S., Johns Hopkins University, 1972; B.E.S., 1972; Ph.D., Cornell University, 1977.

Ballenger, Robert M
Senior Lecturer, AGNR-Institute of Applied Agriculture; B.A., Virginia Polytechnic Institute & State University, 1997; M.A., University of Washington-Seattle, 1999.

Balu, Radhakrishnan
Adjunct Professor, CMNS-Physics; B.S., PSG College of Technology, 1984; B.S., Indian Institute of Science-Bangalore, 1987; M.S., 1991; M.S., Johns Hopkins University, 1998; Ph.D., University of Maryland-Baltimore County, 2007.

Banavar, Jayanth R.
Visiting Professor, CMNS-Physics; B.S., Bangalore University, 1972; M.S., 1974; Ph.D., University of Pittsburgh, 1978.

Bandaru, Varaprasad
Adjunct Associate Professor, BSOS-Geography; B.S., N.G. Ranga Agricultural University, Hyderabad, 2000; M.S., West Texas A&M University, 2005; Ph.D., University of Delaware, 2009.

Bandel, V. Allan
Professor Emeritus, AGNR-Plant Science & Landscape Architecture; B.S., University of Maryland-College Park, 1959; M.S., 1962; Ph.D., 1965.

Banisky, Sandra A.
Lecturer, JOUR-Philip Merrill College of Journalism; B.S., Boston University, 1970; J.D., University of Baltimore, 1994.

Banks, Antoine Jevon
Chair, BSOS-Government & Politics; Professor, BSOS-Government & Politics; B.A., CUNY-Hunter College, 2001; Ph.D., University of Michigan-Ann Arbor, 2009.

Bansal, Tanya
Assistant Clinical Professor, ARCH-Real Estate Development; B.Arch., Guru Nanak Dev University, 2010; M.RED, University of Maryland-College Park, 2014.

Baras, John S.
Distinguished University Professor, ENGR-Electrical & Computer Engineering; Distinguished University Professor, ENGR-Institute for Systems Research; Affiliate Professor, ENGR-Mechanical Engineering; Affiliate Professor, CMNS-Computer Science; B.S., National Technical University of Athens, 1970; M.O., Harvard University, 1971; Ph.D., 1973.

Barbarin, Oscar Anthony
Professor, BSOS-African American Studies; Professor, BSOS-Psychology; B.A., St. Joseph Seminary College, 1968; M.A., New York University, 1971; M.S., Rutgers University, 1973; Ph.D., 1975.

Barbe, David F.
Professor Emeritus, ENGR-Electrical & Computer Engineering; B.S., West Virginia University, 1962; M.S., 1964; Ph.D., Johns Hopkins University, 1969.

Barbee, Brent William
Lecturer, ENGR-Aerospace Engineering; B.S., University of Texas-Austin, 2003; M.S., 2005.

Barber, Raymond E
Lecturer, BMGT-Exec MBA-Office of Online Programs; B.Elect.E., University of Denver, 1967; M.S., North Carolina State University, 1970; Ph.D., New York University, 1976.

Barber, Richard C.
Lecturer, ARHU-School of Music; B.Mus., Peabody Institute of the Johns Hopkins University, 1992.

Barber, Tony Donell
Lecturer, BMGT-Other Programs-IBM/Quest; Lecturer, ENGR-Maryland Applied Graduate Engineering; B.S., University of South Carolina-Columbia, 1999; M.S., George Washington University, 2005; M.B.A., American University, 2010; D.Engin., George Washington University, 2018.

Barbosa, Pedro
Professor Emeritus, CMNS-Entomology; B.S., CUNY-City College of New York, 1966; M.S., University of Massachusetts-Amherst, 1969; Ph.D., 1971.

Bardossy, Maria Gisela
Associate Clinical Professor, BMGT-Decision, Operations & Information Technologies; B.S., Universidad Catolica de Cordoba, 2002; M.S., Clemson University, 2005; Ph.D., University of Maryland-College Park, 2011.

Barg, Alexander
Professor, ENGR-Electrical & Computer Engineering; Professor, ENGR-Institute for Systems Research; Affiliate Professor, CMNS-Computer Science; M.S., Moscow Institute of Engineering & Physics, 1981; Ph.D., Russian Academy of Sciences, 1987.

Barker, Drew
Librarian III, LIBR-Libraries; B.F.A., University of North Carolina-Greensboro, 2004; M.A., University of Maryland-College Park, 2013; M.L.S., 2015.

Barkeshli, Maissam
Professor, CMNS-Physics; B.S., University of California-Berkeley, 2004; B.A., 2004; Ph.D., Massachusetts Institute of Technology, 2010.

Barkley Brown, Elsa
Associate Professor, ARHU-History; Associate Professor, ARHU-Women, Gender and Sexuality Studies; Affiliate Associate Professor, ARHU-American Studies; B.A., DePauw University, 1972; Ph.D., Kent State University-all campuses, 1994.

Barlow, Jewel B.
Associate Professor Emeritus, ENGR-Aerospace Engineering; B.S., Auburn University, 1963; M.S., 1964; Ph.D., University of Toronto, 1970.

Barner, Briana
Assistant Professor, ARHU-Communication; Affiliate Assistant Professor, ARHU-American Studies; B.A., Bennett College, 2012; M.A., University of Texas-Austin, 2016; Ph.D., 2021.

Barnes, Kelsey
Lecturer, BSOS-Government & Politics; B.S., Washington State University, 1980; M.S.W., University of Washington-Seattle, 1985; J.D., University of Denver, 1999.

Barnet, Joseph
Lecturer, BSOS-Psychology; A.A., Montgomery College, 2014; B.A., University of Maryland-College Park, 2015; M.A., East Tennessee State University, 2019; Ph.D., 2021.

Barnewitz, Max
Visiting Lecturer, UGST-HCOL-University Honors Program; M.F.A., California College of the Arts, 2023.

Baron, Jason R.
Professor of the Practice, INFO-College of Information Studies; B.A., Wesleyan University, 1977; J.D., Boston University, 1980.

Baron, Sabrina Alcorn
Principal Lecturer, ARHU-History; B.A., Hanover College, 1981; M.A., University of Chicago, 1982; Ph.D., 1995.

Barrenechea, Francisco
Associate Professor, ARHU-Classics; B.O., National Autonomous University of Mexico-Mexico Cty, 1996; M.A., Columbia University, 1999; M.O., 2003; Ph.D., 2005; Ph.D., 2005.

Barrie, Rabiatu E
Assistant Professor, SPHL-Family Science; Ph.D., Loyola University of Chicago, 2012.

Bartlett, Aaron Michael
Lecturer, ARHU-English; B.A., Northeastern University, 2015; M.A., University of Victoria, 2018.

Bartol, Kathryn M.
Professor Emerita, BMGT-Robert H. Smith School of Business; 1989-1990 Distinguished Scholar-Teacher. B.A., Marygrove College, 1963; M.A., University of Michigan-Ann Arbor, 1966; Ph.D., Michigan State University, 1972.

Barton, Reka Cathy
Assistant Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., University of Virginia, 2010; M.A.-Teach., 2010; Ph.D., San Diego State University, 2022.

Barua, Rajeev K.
Professor, ENGR-Electrical & Computer Engineering; B.S., Indian Institute of Technology-Delhi, 1992; M.S., Massachusetts Institute of Technology, 1994; Ph.D., 2000.

Basile, Abbie Jan
Lecturer, INFO-College of Information Studies; B.A., SUNY-University at Buffalo, 1987; M.L.S., 1991.

Basili, Victor R.
Professor Emeritus, CMNS-Computer Science; B.S., Fordham University, 1961; M.S., Syracuse University, 1963; Ph.D., University of Texas-Austin, 1970.

Basu, Progyan
Clinical Professor, BMGT-Accounting; B.E., Jadavpur University, 1983; M.B.A., University of Missouri-Kansas City, 1986; Ph.D., University of Nebraska-Lincoln, 1992.

Battistin, Erich
Professor, AGNR-Agricultural & Resource Economics; B.O., Universita degli Studi di Padova, 1997; D.O., 2002.

Battle, Leilani
Adjunct Assistant Professor, CMNS-Computer Science; B.S., University of Washington-Seattle, 2011; M.S., Massachusetts Institute of Technology, 2013; Ph.D., 2017.

Batts, Anthony Tyrone II
Lecturer, ARHU-English; B.A., University of Maryland-College Park, 2010; M.Ed., Grand Canyon University, 2013.

Bauer, Ralph R.
Professor, ARHU-English; B.A., University of Erlangen-Nurnberg, 1991; M.A., Michigan State University, 1993; Ph.D., 1997.

Baum, Howell S.
Professor Emeritus, ARCH-School of Architecture, Planning, & Preservation; B.A., University of California-Berkeley, 1967; M.A., University of Pennsylvania, 1968; M.C.P., University of California-Berkeley, 1971; Ph.D., 1974.

Baum, J Robert
Associate Professor Emeritus, BMGT-Robert H. Smith School of Business; B.S., Lehigh University, 1964; M.B.A., Northwestern University, 1966; Ph.D., University of Maryland-College Park, 1994.

Baur, Cynthia E
Director, SPHL-Dean-Horowitz Center for Health Literacy; Professor, SPHL-Behavioral & Community Health; B.A., University of California-Davis, 1983; M.A., University of California-San Diego, 1992; Ph.D., 1995.

Baxter, Isabella Jane
Librarian II, LIBR-Libraries; M.L.I.S., Syracuse University, 2017.

Baykoucheva, Svetla
Librarian Emerita, LIBR-Libraries; B.A., University of Sofia, 1969; M.L.S., Kent State University-all campuses, 1997; M.S., University of Sofia, 1970; Ph.D., Other, 1977.

Bayly, Catherine Angelina
Principal Lecturer, ARHU-English; B.A., University of Maryland-College Park, 2004; M.F.A., 2012.

Baz, Amr M.
Professor, ENGR-Mechanical Engineering; 2015-2016 Distinguished Scholar-Teacher. B.S., University of Cairo, 1966; M.S., University of Wisconsin-Madison, 1970; Ph.D., 1973.

Bazaco, Sara
Lecturer, SPHL-Dean-Public Health Science; M.P.H., University of Pittsburgh, 2010; Ph.D., 2013.

Bazargan, Mohammad Navid
Assistant Clinical Professor, ARHU-School of Languages, Literatures, and Cultures; M.A., Islamic Azad University, 1993; Ph.D., 1997.

Beans, Jeffrey
Lecturer, SPHL-Kinesiology; B.S., Towson University, 2005.

Beasley, Maurine
Professor Emerita, JOUR-Philip Merrill College of Journalism; M.S., Columbia University, 1963; Ph.D., George Washington University, 1974.

Beaton, Robert J.
Lecturer, ENGR-Institute for Systems Research; Lecturer, ENGR-Institute for Systems Research; B.A., Mount Saint Mary's University, 1977; M.S., Villanova University, 1980; Ph.D., Virginia Polytechnic Institute & State University, 1984.

Bechhoefer, William B.
Professor Emeritus, ARCH-School of Architecture, Planning, & Preservation; A.B., Harvard University, 1963; M.Arch., 1967.

Beck, Evelyn T.
Professor Emerita, ARHU-Women, Gender and Sexuality Studies; B.A., CUNY-Brooklyn College, 1954; M.A., Yale University, 1955; Ph.D., University of Wisconsin-Madison, 1969.

Beck, Kenneth H.
Professor Emeritus, SPHL-Behavioral & Community Health; B.S., Pennsylvania State University, 1972; M.A., Syracuse University, 1975; Ph.D., 1977.

Beckman, Paula J.
Professor Emerita, EDUC-Counseling, Higher Education and Special Education; Lecturer, EDUC-Dean-Outreach; B.A., Hastings College, 1974; M.A., University of Nebraska at Omaha, 1977; Ph.D., University of North Carolina-Chapel Hill, 1980.

Becnel, Andrew
Senior Lecturer, ENGR-Aerospace Engineering; B.S., Louisiana State University-Baton Rouge, 2007; Ph.D., University of Maryland-College Park, 2014.

Bedaque, Paulo Sergio Fortes
Professor, CMNS-Physics; B.S., University of Sao Paulo, 1985; M.S., 1989; Ph.D., University of Rochester, 1994.

Bederson, Ben
Professor Emeritus, CMNS-Computer Science; B.S., Rensselaer Polytechnic Institute, 1986; M.S., New York University, 1989; Ph.D., 1992.

Bedingfield, James P.
Professor Emeritus, BMGT-Robert H. Smith School of Business; B.S., University of Maryland-College Park, 1966; M.B.A., 1968; D.B.A., 1972.

Beets, Becca
Assistant Professor, ARHU-Communication; B.A., Smith College, 2010; M.S., University of Minnesota-Twin Cities, 2016; Ph.D., University of Wisconsin-Madison, 2024.

Beicken, Peter U.
Professor Emeritus, ARHU-School of Languages, Literatures, and Cultures; M.A., University of Munich, 1968; Ph.D., Stanford University, 1971.

Beigel, Thomas Howard
Senior Lecturer, ENGR-Dean-Keystone Program; B.S., University of Maryland-College Park, 1997; M.S., 2001.

Beise, Elizabeth
Associate Provost, SVPAAP-Office of the Senior Vice President & Provost; Professor, CMNS-Physics; 2012-2013 Distinguished Scholar-Teacher. B.A., Carleton College, 1981; Ph.D., Massachusetts Institute of Technology, 1988.

Bejleri, Dori
Assistant Professor, CMNS-Mathematics; B.S., California Institute of Technology, 2013; Ph.D., Brown University, 2018.

Belenkiy, Maksim
Lecturer, BSOS-Economics; B.A., University of California-Davis, 2005; M.A., University of California-Santa Cruz, 2007; Ph.D., 2010.

Beliaeva Solomon, Maria
Assistant Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., University of British Columbia, 2010; M.A., Rutgers University, 2013; M.A., New York University, 2014; Ph.D., 2019.

Bell, Matthew J.
Professor, ARCH-School of Architecture, Planning, & Preservation; Professor, ARCH-Architecture Program; Affiliate Professor, ARHU-American Studies; B.Arch., University of Notre Dame, 1983; M.Arch., Cornell University, 1989.

Bell, Richard
Professor, ARHU-History; B.A., University of Cambridge, 1999; M.A., Harvard University, 2001; Ph.D., 2006.

Bellama, Jon M.
Professor Emeritus, CMNS-Chemistry & Biochemistry; B.S., Allegheny College, 1960; Ph.D., University of Pennsylvania, 1965.

Belloni, Alberto
Associate Professor, CMNS-Physics; B.S., University of Pisa, 2002; B.O., Scuola Normale Superiore di Pisa, 2002; Ph.D., Massachusetts Institute of Technology, 2007; Ph.D., 2007.

Belov, George A.
Professor, AGNR-Veterinary Medicine Program; M.S., Moscow Lomonosov State University, 1992; Ph.D., 2001.

Belta, Calin
Professor, ENGR-Electrical & Computer Engineering; Professor, CMNS-Computer Science; Affiliate Professor, ENGR-Institute for Systems Research; Ph.D., University of Pennsylvania, 2003; M.S., 2010.

Bely, Alexandra E.
Professor, CMNS-Biology; B.S., University of Maryland-College Park, 1991; Ph.D., SUNY-Stony Brook, 1999.

Belyeu, Zulema Shiniqua
Lecturer, UGST-HCOL-ACES Cybersecurity Program; M.Elect.E., University of Maryland-College Park, 2009; D.O., Capella University, 2016.

Belz, Herman J.
Professor Emeritus, ARHU-History; B.A., Princeton University, 1959; M.A., University of Washington-Seattle, 1963; Ph.D., 1966.

Benavides, Brandon
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., St. Edward's University, 2003; M.A., American University, 2004.

Bendell, Mollye
Assistant Professor, ARHU-Art; B.A., University of Glasgow, 2012; M.F.A., University of Maryland-Baltimore County, 2018.

Bender, Filmore E.
Professor Emeritus, AGNR-Agricultural & Resource Economics; B.S., University of California-Davis, 1961; M.S., North Carolina State University, 1965; Ph.D., 1966.

Benedetto, John J.
Professor Emeritus, CMNS-Mathematics; B.A., Boston College, 1960; M.A., Harvard University, 1962; Ph.D., University of Toronto, 1964.

Benharrech, Sarah
Associate Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., University of Bordeaux, 1991; M.A., University of Missouri-Columbia, 1995; Ph.D., Princeton University, 2002.

Benito-Vessels, Carmen
Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., Universidad de Salamanca, 1975; M.A., 1977; Ph.D., University of California-Santa Barbara, 1988.

Bennett, Abbie
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., University of North Carolina-Chapel Hill, 2012.

Bennett, Ralph D. Jr.
Professor Emeritus, ARCH-School of Architecture, Planning, & Preservation; B.A., Princeton University, 1961; M.F.A., 1966.

Bennett, Robert L.
Associate Professor Emeritus, BSOS-Economics; B.A., University of Texas-Austin, 1951; M.A., 1955; Ph.D., 1963.

Bensi, Michelle T
Associate Professor, ENGR-Civil & Environmental Engineering; Affiliate Associate Professor, ENGR-Mechanical Engineering; B.A., University of Toledo, 2004; M.O., University of Delaware, 2006; Ph.D., University of California-Berkeley, 2010.

Bentley, William E.
Director, ENGR-Maryland Technology Enterprise Institute; Distinguished University Professor, ENGR-Fischell Department of Bioengineering; Distinguished University Professor, CMNS-IBBR; Distinguished University Professor, CMNS-IBBR; Distinguished University Professor, ENGR-Maryland Technology Enterprise Institute; B.S., Cornell University, 1982; M.Eng., 1983; Ph.D., University of Colorado-Boulder, 1989.

Benton, Grace
Visiting Lecturer, BSOS-Dean-MLAW Programs; B.A., University of Alabama-Birmingham, 2011; M.A., Georgetown University, 2014; J.D., 2020.

Bera, Aniket
Adjunct Associate Professor, CMNS-Computer Science; B.Tech., Jaypee Institute of Information Technology, 2011; M.B.A., Jaypee Business School, 2012; M.S., University of North Carolina-Chapel Hill, 2016; Ph.D., 2017.

Berg, Kenneth R.
Associate Professor Emeritus, CMNS-Mathematics; B.S., University of Minnesota-Twin Cities, 1960; Ph.D., 1967.

Berger, Bruce S.
Professor Emeritus, ENGR-Mechanical Engineering; B.S., University of Pennsylvania, 1954; M.S., 1959; Ph.D., 1962.

Berglund, Alix Kay
Assistant Professor, AGNR-Veterinary Medicine Program; B.S., Washington State University, 2010; D.V.M., 2014; Ph.D., North Carolina State University, 2018.

Bergmeyer, Marie Luise
Lecturer, CMNS-College of Computer, Math & Natural Sciences; B.S., University of Maryland-College Park, 2011; D.O.M., Lake Erie College of Osteopathic Medicine, 2017.

Berhanu, Shiferaw
Visiting Professor, CMNS-Mathematics; B.S., Addis Ababa University, 1980; Ph.D., Rutgers University, 1987.

Berland, Allison
Senior Lecturer, BSOS-Government & Politics; B.A., Reed College, 1993; M.A., Tufts University, 2000; Ph.D., University of Maryland-College Park, 2013.

Berlin, Adele
Professor Emerita, ARHU-English; B.A., University of Pennsylvania, 1964; Ph.D., 1976.

Berman, Louise M.
Professor Emerita, EDUC-Education Policy and Leadership; A.B., Wheaton College, 1950; M.A., Columbia University, 1953; Ed.D., 1960.

Bermingham, Katherine R.
Visiting Associate Professor, CMNS-Geology; B.S., Australian National University-Canberra, 2006; Ph.D., University of Munster, 2011.

Bernard, Peter S.
Professor Emeritus, ENGR-Mechanical Engineering; B.E., CUNY-City College of New York, 1972; M.S., University of California-Berkeley, 1973; Ph.D., 1977.

Bernat, Edward
Associate Professor, BSOS-Psychology; Affiliate Associate Professor, ARCH-Architecture Program; B.A., University of Arizona, 1989; M.A., University of Michigan-Ann Arbor, 1993; Ph.D., 1997.

Bernish, Andrew
Lecturer, ARCH-Urban Studies & Planning Program; B.A., University of North Carolina-Asheville, 2001; Ph.D., Universidad Politecnica de Madrid, 2008; M.C.P., University of Maryland-College Park, 2012.

Berry, Deborah
Lecturer, JOUR-Philip Merrill College of Journalism; B.S., University of Maryland-College Park, 1985.

Bersani, Bianca Elizabeth
Associate Professor, BSOS-Criminology & Criminal Justice; B.A., University of Nebraska-Lincoln, 2002; M.A., 2004; Ph.D., University of Maryland-College Park, 2010.

Bertot, John
Associate Provost, SVPAAP-Office of the Senior Vice President & Provost; Professor, INFO-College of Information Studies; B.A., SUNY-Albany, 1986; M.A., 1988; Ph.D., Syracuse University, 1996.

Bertram, Lillian-Yvonne
Associate Professor, ARHU-English; B.A., Carnegie Mellon University, 2006; M.F.A., University of Illinois-Urbana/Champaign, 2009; Ph.D., University of Utah, 2015.

Besharov, Douglas J.
Professor, PLCY-School of Public Policy; B.A., CUNY-Queens College, 1965; J.D., New York University, 1968; L.L.M., 1971.

Beste, Charles Edward
Associate Professor Emeritus, AGNR-Plant Science & Landscape Architecture; B.S., Purdue University-West Lafayette, 1961; M.S., 1969; Ph.D., 1971.

Betancourt, Roger R.
Professor Emeritus, BSOS-Economics; B.A., Georgetown University, 1965; Ph.D., University of Wisconsin-Madison, 1969.

Bettag, Tom
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., University of Notre Dame, 1966; M.A., Columbia University, 1967.

Beyens, Edouard
Lecturer, ARHU-School of Music; B.Mus., Arizona State University, 2015; M.Mus., 2017.

Beyrouty, Craig
Dean, AGNR-College of Agriculture & Natural Resources; Professor, AGNR-Plant Science & Landscape Architecture; B.S., California Polytech State University-San Luis Obispo, 1977; M.S., Purdue University-West Lafayette, 1980; Ph.D., 1984.

Bezejouh, Ben Nkafu
Lecturer, CMNS-Mathematics; B.S., University of Liverpool, 1991; M.S., 1992.

Bezilla, Charlee Myranda
Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., Pennsylvania State University, 2012; B.A., 2012; M.A., University of Maryland-College Park, 2017; Ph.D., 2021.

Bhagat, Satindar M.
Professor Emeritus, CMNS-Physics; B.A., University of Jammu, 1950; B.O., Punjab University, 1948; M.S., University of Delhi, 1953; Ph.D., 1956.

Bhargava, Alok
Professor, PLCY-School of Public Policy; B.A., University of Delhi, 1974; B.S., London School of Economics & Political Science, 1977; M.S., 1978; Ph.D., 1982.

Bhatele, Abhinav
Associate Professor, CMNS-Computer Science; Associate Professor, CMNS-Institute for Advanced Computer Studies; B.O., Indian Institute of Technology-Kanpur, 2005; M.S., University of Illinois-Urbana/Champaign, 2007; Ph.D., 2010.

Bhattacharjee, Samrat
Professor, CMNS-Computer Science; B.S., Georgia College and State University, 1994; Ph.D., Georgia Institute of Technology, 1999.

Bhattacharya, Sayan
Assistant Professor, ARHU-Women, Gender and Sexuality Studies; B.A., University of Calcutta, 2007; M.A., 2010; M.O., Jadavpur University, 2015; Ph.D., University of Minnesota-Twin Cities, 2022.

Bhattacharyya, Shuvra S.
Professor, ENGR-Electrical & Computer Engineering; Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Professor, CMNS-Computer Science; B.S., University of Wisconsin-Madison, 1987; Ph.D., University of California-Berkeley, 1994.

Bhogal, Harjit Singh
Associate Professor, ARHU-Philosophy; B.A., University of Oxford, 2008; M.A., 2010; Ph.D., New York University, 2017.

Bi, Hongsheng
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., Louisiana State University-Baton Rouge, 2005.

Bianchini, Janna
Associate Professor, ARHU-History; Affiliate Associate Professor, ARHU-Women, Gender and Sexuality Studies; B.A., Wellesley College, 1999; M.A., Harvard University, 2003; Ph.D., 2007.

Bickham, Theresa Rose
Assistant Professor, ARHU-School of Music; B.Mus., Towson University, 2002; M.Mus., University of Houston, 2004; D.M.A., University of Maryland-College Park, 2019.

Bieber, Rebecca
Lecturer, BSOS-Hearing & Speech Sciences; B.S., Emerson College, 2012; Au.D., University of Maryland-College Park, 2017.

Bierbaum, Ariel H.
Associate Professor, ARCH-School of Architecture, Planning, & Preservation; Associate Professor, ARCH-Center for Smart Growth Research & Education; Associate Professor, ARCH-Urban Studies & Planning Program; B.A., University of Pennsylvania, 2000; M.C.P., Massachusetts Institute of Technology, 2005; Ph.D., University of California-Berkeley, 2016.

Bierman, Hilary Susan
Principal Lecturer, CMNS-Biology; Ph.D., University of Chicago, 2007.

Bies, Angela
Associate Professor, PLCY-School of Public Policy; B.A., Butler University, 1988; M.A., University of Wisconsin-Madison, 1990; Ph.D., University of Minnesota-Twin Cities, 2003.

Bigio, David I.
Professor, ENGR-Mechanical Engineering; B.S., Case Western Reserve University, 1971; M.S., Massachusetts Institute of Technology, 1976; D.Engin., 1978; Ph.D., 1986.

Birkner, Francis B.
Professor Emeritus, ENGR-Civil & Environmental Engineering; B.S., New Jersey Institute of Technology, 1961; M.S., University of Florida, 1962; Ph.D., 1965.

Birnbaum, Robert
Professor Emeritus, EDUC-Education Policy and Leadership; B.A., University of Rochester, 1958; M.A., Columbia University, 1964; Ed.D., 1967.

Birnir, Johanna K
Professor, BSOS-Government & Politics; B.A., University of California-Irvine, 1993; M.A., University of California-Los Angeles, 1998; Ph.D., 2001.

Bischoff, Andrew
Lecturer, UGST-Army ROTC; B.Mus.Ed., Clarkson University, 2001; M.S., Missouri University of Science & Technology, 2005; M.A., Norwich University, 2023.

Bisesi, Jonathan
Lecturer, ARHU-School of Music; B.Mus., University of Cincinnati, 2000; M.Mus., Boston University, 2002.

Biswas, Debabrata
Professor, AGNR-Animal & Avian Sciences; B.S., University of Rajshahi, 1991; M.S., University of Dhaka, 1994; M.S., University of Tokyo, 1998; Ph.D., 2001.

Bjarnadottir, Margret Vilborg
Associate Professor, BMGT-Robert H. Smith School of Business; Associate Professor, BMGT-Decision, Operations & Information Technologies; B.S., University of Iceland-Reykjavik, 2001; Ph.D., Massachusetts Institute of Technology, 2008.

Blackistone, Kevin
Professor of the Practice, JOUR-Philip Merrill College of Journalism; B.A., Northwestern University, 1981; M.A., Boston University, 2007.

Blair, Brian Gerard
Lecturer, ENGR-Fischell Department of Bioengineering; B.S., Syracuse University, 2001; Ph.D., University of California-San Diego, 2009.

Blair, Daniel Lee
Lecturer, ARHU-Philosophy; B.A., Kent State University-all campuses, 1989; M.A., University of Connecticut-all campuses, 1996.

Blake, Benjamin Scott
Librarian II, LIBR-Libraries; B.A., Hampshire College, 1979; M.A., Cleveland State University, 2000; M.L.S., University of Pittsburgh, 2010.

Blake, Hassanatu Bih
Associate Clinical Professor, SPHL-Global, Environmental, and Occupational Health; B.A., Tufts University, 2004; M.B.A., Plymouth State University, 2015; Ph.D., University of Alabama-Birmingham, 2023.

Blakemore, Myles Julian
Assistant Professor, ARHU-School of Music; B.Mus., Southern Methodist University, 2015; M.Mus., Manhattan School of Music, 2018.

Blanchard, Jack J.
Associate Provost, SVPAAP-Office of the Senior Vice President & Provost; Professor, BSOS-Psychology; B.S., Arizona State University, 1984; Ph.D., SUNY-Stony Brook, 1991.

Blaustein, Ryan Andrew
Assistant Professor, AGNR-Nutrition and Food Science; B.S., University of Maryland-College Park, 2011; M.S., 2014; Ph.D., University of Florida, 2017.

Blazar, David
Associate Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., Harvard University, 2006; M.O., Fordham University, 2008; M.Ed., Harvard University, 2011; Ed.D., 2016.

Bleam, Tonia
Senior Lecturer, ARHU-Linguistics; B.A., Central College, 1991; M.A., University of Delaware, 1994; Ph.D., 1999.

Blocki, Zbigniew P
Visiting Professor, CMNS-Mathematics; M.S., Jagiellonian University-Cracow, 1991; Ph.D., 1995.

Blough, Neil V.
Professor, CMNS-Chemistry & Biochemistry; B.S., University of Pittsburgh, 1977; Ph.D., Northwestern University, 1983.

Blumler, Jay G.
Professor Emeritus, JOUR-Philip Merrill College of Journalism; B.A., Antioch College, 1947; Ph.D., University of Oxford, 1962.

Bock, Kevin Christopher
Lecturer, UGST-HCOL-ACES Cybersecurity Program; B.S., University of Maryland-College Park, 2017; M.S., 2018; Ph.D., 2022.

Bockstael, Nancy E.
Professor Emerita, AGNR-Agricultural & Resource Economics; B.A., Connecticut College, 1971; M.A., Brown University, 1973; Ph.D., University of Rhode Island, 1976.

Bodaken, MIchael
Lecturer, PLCY-School of Public Policy; B.A., University of Iowa, 1973.

Bodin, Lawrence D.
Professor Emeritus, BMGT-Robert H. Smith School of Business; B.S., Northeastern University, 1962; M.S., University of California-Berkeley, 1966; Ph.D., 1967.

Boehm, Christopher Gregory
Lecturer, UGST-Navy ROTC; B.S., United States Naval Academy, 2005; M.S., Duquesne University, 2012; M.A., Air University, 2022.

Boge, Andrew Parayil
Assistant Professor, ARHU-Communication; B.A., Hastings College, 2018; M.A., University of Iowa, 2020; Ph.D., 2024.

Bohlmann, Vijaya Koilpillai
Lecturer, ARHU-Communication; B.A., Washington Adventist University, 1985; M.A., University of Maryland-College Park, 1988.

Bolatto, Alberto Daniel
Professor, CMNS-Astronomy; M.A., Boston University, 1997; Ph.D., 2001.

Bolger, Donald Joseph
Associate Professor, EDUC-Human Development and Quantitative Methodology; Affiliate Associate Professor, ARHU-Dean-MD Language Science Center; B.A., University of Massachusetts-Amherst, 1998; M.S., University of Pittsburgh, 2002; Ph.D., 2007.

Bolgiano, Anne Taylor
Lecturer, ARHU-English; B.A., Guilford College, 2014; M.F.A., George Mason University, 2019.

Bolles, Augusta Lynn
Professor Emerita, ARHU-Women, Gender and Sexuality Studies; A.B., Syracuse University, 1971; M.A., Rutgers University, 1978; Ph.D., 1981.

Boltersdorf, Jonathan Andrew
Adjunct Assistant Professor, ENGR-Chemical & Biomolecular Engineering; B.S., James Madison University, 2011; Ph.D., North Carolina State University, 2016.

Bonanti, Christopher
Lecturer, PLCY-Office of Executive Programs; B.S., Rutgers University, 1993; M.Eng., Pennsylvania State University, 1995; M.B.A., Northwestern University, 2017.

Bond, Eric Eldon
Lecturer, ARHU-English; B.A., University of Maryland-College Park, 1988; M.A., 1992.

Bonenberger, Robert Joseph Jr.
Senior Lecturer, ENGR-Dean-Keystone Program; B.S., University of Maryland-Baltimore County, 1988; M.S., University of Maryland-College Park, 1990; Ph.D., 1994.

Bonetti, Santiago
Lecturer, ENGR-Civil & Environmental Engineering; B.S., Universidad de Carabobo, 1999; M.S., University of Kansas, 2002; Ph.D., 2008.

Bonner, Christopher James
Associate Professor, ARHU-History; B.A., Howard University, 2008; M.A., Yale University, 2011; Ph.D., 2014.

Bono, John
Clinical Professor, BMGT-Decision, Operations & Information Technologies; B.S., Catholic University of America, 2001; M.S., University of Maryland-Global Campus, 2004; Ph.D., Nova Southeastern University, 2012.

Booker, Carmen D
Lecturer, SPHL-Dean-Public Health Science; B.A., University of Virginia, 1996; D.O., Virginia Commonwealth University, 2001.

Borgia, Gerald
Professor Emeritus, CMNS-Biology; B.S., University of California-Berkeley, 1970; M.S., University of Michigan-Ann Arbor, 1973; Ph.D., 1978.

Borrut, Antoine
Associate Professor, ARHU-History; M.A., University of Toulouse, 1998; Ph.D., University of Paris, 2007.

Bory, Patricia Ann
Associate Clinical Professor, PLCY-School of Public Policy; M.O., American University, 2013.

Botanov, Yevgeny
Assistant Clinical Professor, BSOS-Psychology; B.A., SUNY-Stony Brook, 2004; M.A., Columbia University, 2005; M.A., University of Kansas, 2011; Ph.D., 2014.

Boudreaux, Michel
Associate Professor, SPHL-Health Policy and Management; B.A., Augsburg College, 2003; M.S., University of Minnesota-Twin Cities, 2009; Ph.D., 2014.

Boules, Caroline R.
Senior Lecturer, AGNR-College of Agriculture & Natural Resources; B.S., University of Maryland-College Park, 2003; M.I.M., Columbia University, 2009; Ph.D., George Mason University, 2017.

Boutla, Mrim
Lecturer, ARHU-English; B.A., Catholic University of Louvain-Dutch, 1999; M.A., University of Rochester, 2002; Ph.D., 2003.

Bouwkamp, John C.
Associate Professor Emeritus, AGNR-Plant Science & Landscape Architecture; B.S., Michigan State University, 1964; M.S., 1966; Ph.D., 1969.

Bovill, Carl H.
Professor Emeritus, ARCH-School of Architecture, Planning, & Preservation; B.S., University of California-Santa Barbara, 1969; M.Arch., University of Hawaii at Manoa, 1976; M.S., University of California-Berkeley, 1970.

Bowden, Mary L.
Senior Lecturer, ENGR-Aerospace Engineering; B.A., Cornell University, 1978; M.S., Massachusetts Institute of Technology, 1981; Sc.D., 1988.

Bowen, David
Lecturer, ENGR-Electrical & Computer Engineering; B.E., Cornell University, 2006; B.S., 2006; Ph.D., University of Maryland-College Park, 2011.

Bowerman, William Wesley IV
Professor, AGNR-Environmental Science & Technology; B.A., Western Michigan University, 1985; M.A., Northern Michigan University, 1991; Ph.D., Michigan State University, 1993.

Boyd, Alfred C. Jr.
Associate Professor Emeritus, CMNS-Chemistry & Biochemistry; B.S., Canisius College, 1951; M.S., Purdue University-West Lafayette, 1953; Ph.D., 1957.

Boyd, Derek A.
Professor Emeritus, CMNS-Physics; B.S., University of Cape Town, 1965; B.S., 1964; M.S., 1967; Ph.D., Stevens Institute of Technology, 1973.

Boyd, Henry Clifford III
Clinical Professor, BMGT-Marketing; B.A., Princeton University, 1986; M.B.A., University of California-Berkeley, 1988; Ph.D., Duke University, 1996; L.L.D., University of Wisconsin-Madison, 2005.

Boyle, Benjamin Thomas
Assistant Professor, CMNS-Chemistry & Biochemistry; B.O., Whitman College, 2021; Ph.D., Colorado State University-Fort Collins, 2021.

Boyle, McBlaine Michael
Professor Emeritus, CMNS-Mathematics; A.B., University of California-Berkeley, 1977; B.A., Stanford University, 1974; Ph.D., University of Washington-Seattle, 1983.

Bradbury, Jill Marie
Visiting Professor, ARHU-School of Theatre, Dance & Performance Studies; B.A., University of California-Irvine, 1994; B.A., 1994; M.A., Brown University, 1996; Ph.D., 2003; M.A., George Mason University, 2020.

Bradley, Benjamin Thomas
Librarian II, LIBR-Libraries; B.A., Sacred Heart University, 2012; M.A., Catholic University of America, 2014; M.L.S., University of Maryland-College Park, 2017.

Bradley, Karen Kohn
Associate Professor Emerita, ARHU-School of Theatre, Dance & Performance Studies; B.A., Boston University, 1974; M.A., University of Oregon, 1977.

Braguinsky, Serguey
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Management & Organization; Affiliate Professor, BSOS-Economics; B.A., Moscow State University, 1982; Ph.D., Keio University, 1997.

Brame, Robert W. Jr.
Professor, BSOS-Criminology & Criminal Justice; B.A., University of North Carolina-Charlotte, 1988; M.S., 1991; Ph.D., University of Maryland-College Park, 1997.

Brami, Joseph
Professor Emeritus, ARHU-School of Languages, Literatures, and Cultures; B.A., University of Paris III, 1974; M.A., 1976; Ph.D., New York University, 1984.

Brammer, Robert F
Adjunct Professor, CMNS-Atmospheric & Oceanic Science; B.S., University of Michigan-Ann Arbor, 1968; M.A., University of Maryland-College Park, 1970; Ph.D., 1972.

Branigan, Amelia R
Associate Professor, BSOS-Sociology; B.A., New York University, 2004; M.A., Northwestern University, 2009; Ph.D., 2014.

Brannigan, Vincent M.
Professor Emeritus, ENGR-Fire Protection Engineering; B.A., University of Maryland-College Park, 1973; J.D., Georgetown University, 1975.

Brantley, William
Lecturer, ENGR-Civil & Environmental Engineering; B.A., Eastern Kentucky University, 1990; M.A., George Washington University, 1996; M.B.A., Jones International University, 2002; Ph.D., Walden University, 2009.

Brantlinger, Andrew Morgan
Associate Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., Macalester College, 1991; M.O., Indiana University, 1994; M.Ed., University of Illinois-Chicago, 1997; Ed.D., Northwestern University, 2007; Ph.D., 2007.

Bratcher, Tegan Rae
Lecturer, ARHU-Communication; B.A., West Virginia University, 2014; M.A., 2018; Ph.D., University of North Carolina-Chapel Hill, 2021.

Brauth, Steven E.
Professor Emeritus, BSOS-Psychology; B.S., Rensselaer Polytechnic Institute, 1967; Ph.D., New York University, 1973.

Bravo, Jorge J. III
Associate Professor, ARHU-Classics; B.A., Princeton University, 1990; M.A., University of California-Berkeley, 1996; Ph.D., 2006; Ph.D., 2006.

Brecht, Richard Domenick
Professor Emeritus, ARHU-School of Languages, Literatures, and Cultures; B.A., Pennsylvania State University, 1965; M.A., Harvard University, 1969; Ph.D., 1972.

Brehm, Christoph
Associate Professor, ENGR-Aerospace Engineering; B.S., Universitat Stuttgart, 2005; M.S., University of Arizona, 2006; Ph.D., 2011.

Bremenstuhl, Heather-Erin
Senior Lecturer, ARHU-Dean's-Living Learning Programs; B.A., Lehigh University, 2003; M.A., University of Arizona, 2011.

Breslow, Marvin A.
Associate Professor Emeritus, ARHU-History; B.A., University of Nebraska-Lincoln, 1957; M.A., Harvard University, 1958; Ph.D., 1963.

Bresnick, Adam Lee
Senior Lecturer, ARCH-Architecture Program; B.S., University of Maryland-College Park, 1988; M.Arch., Princeton University, 1990; Ph.D., Universidad Politecnica de Madrid, 2008.

Brewer, Holly
Associate Professor, ARHU-History; B.A., Harvard University, 1986; M.A., University of California-Los Angeles, 1989; Ph.D., 1994.

Brewster, Chanai
Lecturer, EDUC-Counseling, Higher Education and Special Education; B.A., Gallaudet University, 2020; M.S.W., 2021.

Briber, Robert M.
Professor Emeritus, ENGR-Materials Science & Engineering; 2012-2013 Distinguished Scholar-Teacher. B.S., Cornell University, 1979; M.S., University of Massachusetts-Amherst, 1981; Ph.D., 1984.

Briggs, Alan W
Lecturer, BMGT-Decision, Operations & Information Technologies; B.A., Emory & Henry College, 2002; M.S., North Carolina State University, 2011.

Briggs, Michael S.
Lecturer, SPHL-Kinesiology; B.A., Pennsylvania State University, 2009; M.A., West Chester State College, 2012.

Brighton, Stephen Anthony
Associate Chair, BSOS-Anthropology; Associate Professor, BSOS-Anthropology; B.A., Montclair State University, 1992; Ph.D., Boston University, 2005.

Briken, Volker
Professor, CMNS-Cell Biology & Molecular Genetics; B.S., Constance University, 1993; Ph.D., University of Paris VII, 1998.

Brill, Dieter R.
Professor Emeritus, CMNS-Physics; B.A., Princeton University, 1954; Ph.D., 1959.

Brin, Michael
Professor Emeritus, CMNS-Mathematics; B.A., Moscow M.V. Lomonosov State University, 1970; Ph.D., Kharkov State University, 1975.

Brinck, Tom
Lecturer, INFO-College of Information Studies; B.S., California Institute of Technology, 1988; M.S., Stanford University, 1990.

Brindle, Margaret
Senior Lecturer, PLCY-School of Public Policy; Ph.D., Carnegie Mellon University, 1992.

Britton, Joe W
Adjunct Assistant Professor, CMNS-Physics-Joint Quantum Institute; B.A., University of Chicago, 1999; Ph.D., University of Colorado-Boulder, 2008.

Broadbent, Andrew James
Assistant Professor, AGNR-Animal & Avian Sciences; Affiliate Assistant Professor, AGNR-Veterinary Medicine Program; M.A., University of Cambridge, 2002; D.V.M., 2005; Ph.D., Imperial Coll of Science & Tech-London, 2010.

Brodie, Herbert L.
Professor Emeritus, AGNR-Environmental Science & Technology; B.S., Rutgers University, 1964; M.S., University of Maryland-College Park, 1972.

Brody, Evan Barrett
Lecturer, SPHL-Kinesiology; B.S., SUNY-College at Cortland, 1980; M.A., University of Maryland-College Park, 1985; Ph.D., 1993.

Bromberg, Jonathan S
Adjunct Professor, ENGR-Fischell Department of Bioengineering; B.O., Harvard University, 1977; M.D., 1983.

Brooks, Jesse Lee
Lecturer, ARHU-English; B.A., University of North Florida, 2011; M.F.A., University of Maryland-College Park, 2015.

Brookshire, David J.
Lecturer, ARHU-English; B.S., University of Kansas, 1988; M.A., Kansas State University, 1997; Ph.D., University of Maryland-College Park, 2009.

Brosnan, Patrick
Professor, CMNS-Mathematics; B.A., Princeton University, 1991; M.A., University of Chicago, 1993; Ph.D., 1998.

Brown, Amy
Professor Emerita, CMNS-Entomology; B.S., University of Florida, 1975; M.S., Michigan State University, 1980; Ph.D., University of Maryland-College Park, 1993.

Brown, Andrea E.
Associate Professor, ARHU-School of Music; B.S., Austin Peay State University, 1998; M.Mus., University of North Carolina-Greensboro, 2000; M.Mus., 2001; D.M.A., 2010.

Brown, DeNeen L.
Professor, JOUR-Philip Merrill College of Journalism; B.A., University of Kansas, 1986.

Brown, Earl H.
Professor Emeritus, AGNR-Agricultural & Resource Economics; B.S., University of Minnesota-Twin Cities, 1956; M.S., 1957; Ph.D., Michigan State University, 1961.

Brown, Elizabeth Y.
Instructor, SPHL-Kinesiology; B.S., Kent State University-all campuses, 1965; M.Ed., 1967; Ed.D., University of Houston, 1973.

Brown, John H.
Associate Professor Emeritus, ARHU-Philosophy; B.A., Princeton University, 1952; M.A., 1957; Ph.D., 1959.

Brown, Lauren Robert
Librarian Emerita, LIBR-Libraries; B.A., San Diego State University, 1968; M.A., University of Washington-Seattle, 1973; M.L.S., University of California-Berkeley, 1978.

Brown, Madeline
Associate Professor, BSOS-Anthropology; A.B., Brown University, 2010; M.A., Stanford University, 2013; Ph.D., 2017.

Brown, Michael D.
Chair, SPHL-Kinesiology; Professor, SPHL-Kinesiology; B.S., California State University-Long Beach, 1985; M.S., 1989; Ph.D., University of Maryland-College Park, 1995.

Brown, Michael
Distinguished University Professor, CMNS-Geology; Affiliate Professor, CMNS-Earth System Science Interdisciplinary Center; B.A., University of Keele, 1969; Ph.D., 1975.

Brown, Paul Edmund
Associate Clinical Professor, PLCY-The Civic Innovation Center; B.A., Kenyon College, 1986; M.A., University of Texas-Austin, 1991.

Brown, Tara
Associate Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., Lesley University, 1997; M.A., 1999; M.Ed., Harvard University, 2001; Ed.D., 2005.

Browne, Jyana S.
Assistant Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., Yale University, 1998; Ph.D., University of Washington-Seattle, 2017.

Browne, Shannon P.
Senior Lecturer, AGNR-Environmental Science & Technology; B.S., Texas A&M University-College Station, 2007; M.S., Virginia Polytechnic Institute & State University, 2013; Ph.D., University of Maryland-College Park, 2021.

Broydo, Dina
Lecturer, BMGT-Dean-Career Management; B.S., University of Maryland-College Park, 2016.

Brubaker, Kaye L.
Professor, ENGR-Civil & Environmental Engineering; B.A., Eastern Mennonite College, 1979; B.S., University of Maryland-College Park, 1989; M.S., Massachusetts Institute of Technology, 1991; Ph.D., 1995.

Bruce, La Marr Jurelle
Associate Professor, ARHU-American Studies; B.A., Columbia University, 2003; Ph.D., Yale University, 2013.

Bruck, Hugh Alan
Associate Dean, ENGR-A. James Clark School of Engineering; Professor, ENGR-Mechanical Engineering; 2016-2017 Distinguished Scholar-Teacher. B.S., University of South Carolina-Columbia, 1988; M.S., 1989; Ph.D., California Institute of Technology, 1995.

Bruner, Jaclyn
Assistant Clinical Professor, SVPAAP-Office of Undergraduate Research; B.S., Syracuse University, 2010; M.A., Baylor University, 2013; Ph.D., University of Maryland-College Park, 2019.

Bruns, Emily Louise
Assistant Professor, CMNS-Biology; B.S., University of California-Santa Cruz, 2005; Ph.D., University of Minnesota-Twin Cities, 2012.

Brunson, Rod K.
Chair, BSOS-Criminology & Criminal Justice; Professor, BSOS-Criminology & Criminal Justice; B.S., University of Missouri-St. Louis, 1996; M.A., 1998; Ph.D., University of Illinois-Chicago, 2003.

Brush, Stephen G.
Distinguished University Professor Emeritus, ARHU-History; A.B., Harvard University, 1955; Ph.D., University of Oxford, 1958.

Brusylovska, Olga
Visiting Professor, BSOS-Government & Politics; Ph.D., National Academy of Science of Ukraine, 2008.

Bryan, John L.
Professor Emeritus, ENGR-Fire Protection Engineering; B.S., Oklahoma State University-Stillwater, 1953; M.S., 1954; Ed.D., American University, 1965.

Bryant, Garnett Woodruff
Adjunct Professor, CMNS-Physics; B.S., University of Kentucky, 1972; Ph.D., Indiana University, 1978.

Bryer, Jackson R.
Professor Emeritus, ARHU-English; B.A., Amherst College, 1959; M.A., Columbia University, 1960; Ph.D., University of Wisconsin-Madison, 1965.

Bub, Jeffrey
Distinguished University Professor Emeritus, ARHU-Philosophy; B.S., University of Cape Town, 1961; B.S., 1962; Ph.D., University of London, 1966.

Buchanan, Robert L.
Professor Emeritus, AGNR-Nutrition and Food Science; B.S., Rutgers University, 1969; M.S., 1971; M.S., 1973; Ph.D., 1974.

Bucher, Gregory S.
Principal Lecturer, ARHU-Classics; Ph.D., Brown University, 1997.

Buchner, John
Senior Lecturer, CMNS-Cell Biology & Molecular Genetics; B.S., University of Wisconsin-Madison, 1996; Ph.D., University of Georgia, 2008.

Buckley, Frank T. Jr.
Professor Emeritus, ENGR-Mechanical Engineering; B.S., University of Maryland-College Park, 1959; Ph.D., 1968.

Budhani, Ramesh Chandra
Adjunct Professor, CMNS-Physics; B.S., Kumaun University, 1974; M.S., University of Allahabad, 1976; Ph.D., Indian Institute of Technology-Delhi, 1982.

Budhathoki, Milan
Librarian III, LIBR-Libraries; B.S., Tribhuvan University-Kirtipur, 2006; M.S., Pokhara University, 2008; M.S., Salem State University, 2012.

Buehrle, David C.
Senior Lecturer, CMNS-Physics; B.S., Lehigh University, 1992; M.S., Johns Hopkins University, 2004.

Bui Wright, Linh
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., University of Maryland-College Park, 2007.

Bulmash, Gary F.
Clinical Professor Emeritus, BMGT-Robert H. Smith School of Business; B.S., University of Maryland-College Park, 1966; M.B.A., 1968; D.B.A., 1974.

Buntain, Cody
Assistant Professor, INFO-College of Information Studies; Affiliate Assistant Professor, CMNS-Institute for Advanced Computer Studies; B.S., University of Alabama-Huntsville, 2007; M.S., 2010; Ph.D., University of Maryland-College Park, 2016.

Burgess, Harold A.
Adjunct Assistant Professor, BSOS-Dean-Neuroscience and Cognitive Science; B.S., University of Melbourne, 1994; Ph.D., Weizmann Institute of Science, 2001.

Burgess, Harold F. II
Senior Lecturer, ARHU-Dean's-Living Learning Programs; B.A., University of Maryland-College Park, 1997; M.F.A., 2004.

Burghardt, Karin Twardosz
Associate Professor, CMNS-Entomology; B.S., University of Delaware, 2007; M.S., Yale University, 2012; Ph.D., 2016.

Burk, Amy O.
Professor, AGNR-Animal & Avian Sciences; B.S., James Madison University, 1995; M.S., Virginia Polytechnic Institute & State University, 1998; Ph.D., 2001.

Burke, Frank G.
Professor Emeritus, INFO-College of Information Studies; M.A., University of Chicago, 1959; Ph.D., 1969.

Burke, Juan Luis
Associate Professor, ARCH-School of Architecture, Planning, & Preservation; Associate Professor, ARCH-Architecture Program; B.Arch., Universidad de las Americas-Puebla, 2000; M.A., Gothenburg University, 2006; M.Arch., McGill University-Montreal, 2011; Ph.D., 2016.

Burke, Philip J.
Professor, EDUC-Counseling, Higher Education and Special Education; B.S., University of Scranton, 1963; M.S., 1965; Ph.D., Syracuse University, 1971.

Burkhauser, Nora A
Lecturer, CMNS-Computer Science; B.S., Drexel University, 1988; M.Ed., Lehigh University, 1996.

Burns, Alison
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., University of Maryland-College Park, 1993; Ed.D., 2023.

Busse, Michael D.
Lecturer, PLCY-School of Public Policy; M.A., University of Chicago, 1989; B.A., 1989.

Bustad, Kendall M.
Senior Lecturer, SPHL-Dean-Public Health Science; B.S., Virginia Polytechnic Institute & State University, 2008; M.S., James Madison University, 2010; Ph.D., Morgan State University, 2016.

Bustamante, Maria Cecilia
Associate Professor, BMGT-Robert H. Smith School of Business; Associate Professor, BMGT-Finance; B.S./M.S., Universidad Torcuato Di Tella, 2003; M.Econ., Universitat Pompeu Fabra, 2004; Ph.D., University of Lausanne, 2009.

Butch, Nicholas P
Adjunct Professor, CMNS-Physics; B.S., Rutgers University, 2001; M.S., University of California-San Diego, 2003; Ph.D., 2008.

Butler, James III
Associate Professor, SPHL-Behavioral & Community Health; B.S., Gwynedd Mercy College, 1991; M.Ed., Temple University, 1994; D.Pub.Hlth., University of Pittsburgh, 1999.

Butler, Lucas Payne
Associate Professor, EDUC-Human Development and Quantitative Methodology; Affiliate Associate Professor, ARHU-Dean-MD Language Science Center; B.A., Harvard University, 2005; M.A., Stanford University, 2009; Ph.D., 2012.

Butterworth, Charles E.
Professor Emeritus, BSOS-Government & Politics; B.A., Michigan State University, 1959; M.A., University of Chicago, 1962; Ph.D., 1966; D.O., University of Nancy I, 1961.

Butts, Daniel A.
Associate Professor, CMNS-Biology; Affiliate Associate Professor, ENGR-Institute for Systems Research; Affiliate Associate Professor, ENGR-Electrical & Computer Engineering; B.A., Oberlin College, 1994; M.A., University of California-Berkeley, 1997; Ph.D., 2000.

Buursma, Joshua Graham
Lecturer, ARHU-English; B.A., Southern Illinois University-Carbondale, 2005; M.F.A., University of Michigan-Ann Arbor, 2009.

Byrne, Catherine Ann
Lecturer, ARHU-English; B.A., University of California-Davis, 1995; M.A., Trinity College Dublin, 2019.

Byrne, Mary Colleen
Clinical Professor, BSOS-Psychology; B.A., University of Virginia, 1992; M.A., Emory University, 1996; Ph.D., 1998.

C

Cabrera, Natasha J.
Professor, EDUC-Human Development and Quantitative Methodology; B.S., University of Toronto, 1985; M.A., 1989; Ph.D., University of Denver, 1994.

Cabrera Casillas, Alberto F.
Professor Emeritus, EDUC-Counseling, Higher Education and Special Education; B.S., National Autonomous University of Mexico-Mexico Cty, 1979; M.S., University of Wisconsin-Madison, 1982; Ph.D., 1987.

Cadou, Christopher
Professor, ENGR-Aerospace Engineering; B.S., Cornell University, 1989; M.S., University of California-Los Angeles, 1991; Ph.D., 1996.

Cai, Jing
Associate Professor, AGNR-Agricultural & Resource Economics; B.S., Beijing Normal University, 2004; M.S., Peking University, 2006; M.A., University of California-Berkeley, 2009; Ph.D., 2012.

Cain, Matthew
Librarian I, LIBR-Libraries; B.Arch., Eastern Illinois University, 2014; M.A., 2015.

Calabrese, Justin Marco
Visiting Professor, CMNS-Biology; B.S., University of Wisconsin-Parkside, 1997; Ph.D., University of Maryland-College Park, 2005.

Calabrese, Richard V.
Professor Emeritus, ENGR-Chemical & Biomolecular Engineering; B.S., University of Rochester, 1969; M.S., University of Massachusetts-Amherst, 1971; Ph.D., 1976.

Calabro, Kevin Michael
Principal Lecturer, ENGR-Dean-Keystone Program; B.S., University of Maryland-College Park, 2005; M.S., 2010.

Calderon Cervantes, M Apolonia
Assistant Professor, PLCY-School of Public Policy; Ph.D., Texas A&M University-College Station, 2018.

Call, Douglas M.
Lecturer, PLCY-School of Public Policy; B.S., Brigham Young University, 2004; M.P.P., University of Maryland-College Park, 2007.

Callcott, George H.
Professor Emeritus, ARHU-History; B.A., University of South Carolina-Columbia, 1950; M.A., Columbia University, 1951; Ph.D., University of North Carolina-Chapel Hill, 1956.

Calloway, Alexandra
Senior Lecturer, ARHU-English; B.S., Florida Institute of Technology-Melbourne, 1994; M.S., Johns Hopkins University, 2003.

Callura, Jarred Matthew
Lecturer, ENGR-Fischell Department of Bioengineering; B.S., Duke University, 2007; Ph.D., Boston University, 2012.

Calvo, Ernesto F.
Professor, BSOS-Government & Politics; Affiliate Professor, ARHU-Dean-Latin American and Caribbean Studies Center; B.A., Universidad de Buenos Aires, 1990; Ph.D., Northwestern University, 2001.

Cameron, Maria K.
Professor, CMNS-Mathematics; Affiliate Professor, CMNS-Computer Science; M.S., Moscow Institute of Physics & Technology, 1998; Ph.D., University of California-Berkeley, 2007.

Cameron, Sarah
Associate Professor, ARHU-History; B.A., Stanford University, 1999; M.A., 2002; M.A., Yale University, 2006; Ph.D., 2010.

Campangne, Herve T.
Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., Universite Francois Rabelais, Tours, France, 1984; M.A., Rutgers University, 1989; Ph.D., 1992.

Campbell, Chris
Lecturer, ENGR-Fire Protection Engineering; B.S., University of Maryland-College Park, 2012; M.S., 2013.

Campbell, Gretchen
Adjunct Professor, CMNS-Physics; B.A., Wellesley College, 2001; Ph.D., Massachusetts Institute of Technology, 2006.

Campbell, Patricia F.
Professor Emerita, EDUC-Teaching and Learning, Policy and Leadership; B.S., University of St. Francis, 1970; M.S., Michigan State University, 1972; Ph.D., Florida State University, 1976.

Campbell, Susan Grace
Senior Lecturer, INFO-College of Information Studies; B.S., Carnegie Mellon University, 2000; M.A., University of Maryland-College Park, 2007; Ph.D., 2011.

Campo, Eva M
Adjunct Professor, ENGR-Materials Science & Engineering; M.S., Universidad Complutense de Madrid, 1998; Ph.D., Lehigh University, 2003.

Canabal-Torres, Evelyn
Principal Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., University of Maryland-College Park, 1982; M.A., 1984; Ph.D., 1996.

Candela, Philip A.
Professor Emeritus, CMNS-Geology; B.S., CUNY-Brooklyn College, 1977; Ph.D., Harvard University, 1982.

Caneque, Alejandro
Professor, ARHU-History; B.A., Universidad de Sevilla, 1982; M.A., New York University, 1992; Ph.D., 1999.

Canty, Timothy
Associate Professor, CMNS-Atmospheric & Oceanic Science; B.A., Hartwick College, 1994; B.S./M.S., New Mexico Institute of Mining & Technology, 2000; Ph.D., 2002.

Cao, Kan
Associate Chair, CMNS-Cell Biology & Molecular Genetics; Professor, CMNS-Cell Biology & Molecular Genetics; B.S., Nanjing University/ Nanking University, 1997; Ph.D., Johns Hopkins University, 2005.

Cao, Sean
Associate Professor, BMGT-Robert H. Smith School of Business; Associate Professor, BMGT-Accounting; Ph.D., University of Illinois-Urbana/Champaign, 2011.

Capp, Christopher Lee
Senior Lecturer, CMNS-Chemistry & Biochemistry; B.S., Creighton University, 2003; Ph.D., Duke University, 2011.

Caramello, Charles A.
Professor Emeritus, ARHU-English; B.A., Wesleyan University, 1970; M.A., University of Wisconsin-Milwaukee, 1973; Ph.D., 1978.

Caras, Melissa Lynne
Assistant Professor, CMNS-Biology; B.S., Brandeis University, 2007; Ph.D., University of Washington-Seattle, 2013.

Carcelli, Shannon P
Assistant Professor, BSOS-Government & Politics; B.A., Carleton College, 2008; Ph.D., University of California-San Diego, 2018.

Carey, Carleen
Lecturer, BSOS-African American Studies; B.A., Williams College, 2005; B.A., 2005; M.A., Michigan State University, 2014; Ph.D., 2015; B.A., Williams College, 2005.

Cariani, Fabrizio
Chair, ARHU-Philosophy; Professor, ARHU-Philosophy; B.A., Universita di Bologna, 2003; M.A., 2005; Ph.D., University of California-Berkeley, 2009.

Carignan, Craig R.
Lecturer, ENGR-Aerospace Engineering; B.S., Massachusetts Institute of Technology, 1981; M.S., 1982; Sc.D., 1987.

Carleton, Karen
Professor, CMNS-Biology; 2017-2018 Distinguished Scholar-Teacher. B.S., Yale University, 1980; Ph.D., University of Colorado-Boulder, 1987.

Carlson, Allie
Lecturer, ARCH-Architecture Program; B.S., Virginia Tech, 2011; M.Arch., Clemson University, 2016.

Carmo Pena Martinez, Andressa
Assistant Professor, ARCH-School of Architecture, Planning, & Preservation; Assistant Professor, ARCH-Architecture Program; M.S., UFRJ- FEDERAL UNIVERSITY OF RIO DE JANEIRO, 2008; Ph.D., UFRJ - FEDERAL UNIVERSITY OF RIO DE JANEIRO, 2013.

Carpenter, Dylan Talbot
Lecturer, ARHU-English; B.A., Colorado College, 2014; M.F.A., Johns Hopkins University, 2017.

Carpenter, Faedra C
Professor, ARHU-School of Theatre, Dance & Performance Studies; B.A., Spelman College, 1992; M.A., Washington State University, 1994; Ph.D., Stanford University, 2005.

Carpenter, Lindsay Inge
Librarian III, LIBR-Libraries; B.A., American University, 2012; M.A./M.L.S., University of Maryland-College Park, 2016.

Carpuat, Marine
Associate Professor, CMNS-Computer Science; Associate Professor, CMNS-Institute for Advanced Computer Studies; B.S., Ecole Sainte Genevieve, 1998; M.S., Ecole Speciale de Mecanique et d'Electricite, 2000; M.Phil., Hong Kong University of Science & Technology, 2002; Ph.D., 2008.

Carr, Catherine Emily
Distinguished University Professor, CMNS-Biology; B.S., University of Cape Town, 1976; M.A., SUNY-University at Buffalo, 1977; Ph.D., University of California-San Diego, 1984.

Carretta, Vincent Albert
Professor Emeritus, ARHU-English; B.A., SUNY-Binghamton, 1968; M.A., 1971; Ph.D., University of Iowa, 1977.

Carroll, James Robert
Senior Lecturer, JOUR-Philip Merrill College of Journalism; B.A., Boston University, 1973; M.A., 1982.

Carroll, Mark J.
Director, AGNR-Dean-Environmental Science & Policy Program; Associate Professor, AGNR-Plant Science & Landscape Architecture; Associate Professor, AGNR-Dean-Environmental Science & Policy Program; B.S., California Polytech State University-San Luis Obispo, 1979; M.S., Michigan State University, 1982; Ph.D., Cornell University, 1989.

Carroll, Sean B.
Distinguished University Professor, CMNS-Biology; B.A., Washington University in Saint Louis, 1979; Ph.D., Tufts University, 1983.

Carroll, Stephen J. Jr.
Professor Emeritus, BMGT-Robert H. Smith School of Business; B.S., University of California-Los Angeles, 1957; M.A., University of Minnesota-Twin Cities, 1959; Ph.D., 1964.

Carruthers, Peter M.
Professor, ARHU-Philosophy; B.A., University of Leeds, 1975; M.A., 1977; Ph.D., University of Oxford, 1980.

Carter, Charly
Lecturer, PLCY-School of Public Policy; M.P.A., George Washington University, 1984; B.S., Cornell University, 1987.

Carter, Niambi Michele
Associate Professor, PLCY-School of Public Policy; B.A., Temple University, 1999; M.A., Duke University, 2002; Ph.D., 2007.

Carter-Pokras, Olivia Denise
Professor Emerita, SPHL-Epidemiology & Biostatistics; B.S., Tulane University, 1979; M.H.S., Johns Hopkins University, 1982; Ph.D., 1994.

Carton, James A.
Professor, CMNS-Atmospheric & Oceanic Science; Affiliate Professor, CMNS-Earth System Science Interdisciplinary Center; B.S., Princeton University, 1976; M.S., University of Washington-Seattle, 1979; M.A., Princeton University, 1980; Ph.D., 1983.

Cartwright, Kent
Professor Emeritus, ARHU-English; B.A., University of Michigan-Ann Arbor, 1965; M.A., 1968; Ph.D., Case Western Reserve University, 1979.

Casey, Donald Francis
Lecturer, UGST-Army ROTC; B.A., Columbia College (Missouri), 2019.

Casey, Maud
Professor, ARHU-English; B.A., Wesleyan University, 1991; M.F.A., University of Arizona, 1995.

Cassidy, Jude Anne
Professor, BSOS-Psychology; 2014-2015 Distinguished Scholar-Teacher. B.A., Duke University, 1973; M.A., University of Virginia, 1983; Ph.D., 1986.

Castro, Mark S.
Visiting Associate Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., University of Virginia, 1991.

Catona, Danielle
Lecturer, SPHL-School of Public Health; B.A., College of New Jersey, 2008; M.A., Pennsylvania State University, 2010; Ph.D., Rutgers University, 2015; M.S., University of Delaware, 2019.

Cattaneo, Maurizio V
Adjunct Associate Professor, ENGR-Fischell Department of Bioengineering; B.S., University of Toronto, 1982; M.Eng., McGill University-Montreal, 1986; Ph.D., 1990.

Caudillo, Monica L.
Associate Professor, BSOS-Sociology; B.O., Centro De Investigacion y Docencia Economicas, 2008; M.A., New York University, 2014; Ph.D., 2017.

Caughey, John L.
Professor Emeritus, ARHU-American Studies; B.A., Harvard University, 1963; M.A., University of Pennsylvania, 1967; Ph.D., 1970.

Cenko, Stephen Bradley
Adjunct Professor, CMNS-Astronomy; B.A., Harvard University, 2002; Ph.D., California Institute of Technology, 2008.

Centorbi, Tracey L.
Lecturer, CMNS-Geology; B.S., University of Maryland-College Park, 2003; M.S., 2020.

Cermeno, Sabrina
Lecturer, SPHL-Family Science; B.S., University of Maryland-College Park, 2019.

Cerrai, Sandra
Associate Chair, CMNS-Mathematics; Professor, CMNS-Mathematics; M.A., University of Pisa, 1992; Ph.D., Scuola Normale Superiore di Pisa, 1998.

Cerza, Martin
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.Mech.E., Rutgers University, 1973; B.Mech.E., 1975; D.Engin., 1983.

Chacko, Zackaria
Professor, CMNS-Physics; B.S., Indian Institute of Technology-Kharagpur, 1992; M.S., 1994; Ph.D., University of Maryland-College Park, 1999.

Chadwick, Steven Greg
Senior Lecturer, CMNS-Mathematics; Ph.D., Indiana University, 2012.

Chambers, Erve
Professor Emeritus, BSOS-Anthropology; B.A., Western Washington University, 1969; M.A., University of Oregon, 1972; Ph.D., 1973.

Chambers, Robert G.
Professor, AGNR-Agricultural & Resource Economics; B.S., Georgetown University, 1972; M.S., University of Maryland-College Park, 1975; Ph.D., University of California-Berkeley, 1979.

Chambliss, Marilyn J.
Associate Professor Emerita, EDUC-Teaching and Learning, Policy and Leadership; B.A., University of California-Berkeley, 1964; B.A., San Jose State University, 1982; Ph.D., Stanford University, 1990.

Chan, Joel
Associate Professor, INFO-College of Information Studies; Affiliate Associate Professor, CMNS-Computer Science; B.S., University of the Ozarks, 2009; M.S., University of Pittsburgh, 2012; Ph.D., 2014.

Chandarana, Shikha
Lecturer, SPHL-Family Science; Ph.D., George Washington University, 2025.

Chandrashaker, Amith
Assistant Professor, ARHU-School of Theatre, Dance & Performance Studies; B.F.A., Rutgers University, 2005; M.F.A., New York University, 2012.

Chandrashekar, Karthikeyan
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.E., Bangalore University, 1999; M.S., University of Maryland-College Park, 2002.

Chang, Caren
Professor, CMNS-Cell Biology & Molecular Genetics; B.A., University of California-Berkeley, 1982; Ph.D., California Institute of Technology, 1988.

Chang, Chia-Cheh
Professor Emeritus, CMNS-Physics; B.S., Tunghai University, 1961; M.A., University of Southern California, 1966; Ph.D., 1968.

Chang, Chung-Yun
Professor Emeritus, CMNS-Physics; B.S., National Taiwan University, 1954; Ph.D., Columbia University, 1965.

Chang, Dean
Associate Vice President, VPR-Economic Development & Innovation; B.S., Massachusetts Institute of Technology, 1989; M.S., Stanford University, 1991; Ph.D., 1995; M.B.A., University of Pennsylvania, 2004.

Chang, Gang-Len
Professor, ENGR-Civil & Environmental Engineering; B.E., National Cheng Kung University-Taiwan, 1975; M.S., National Chiao Tung University-Hsinchu, 1979; Ph.D., University of Texas-Austin, 1985.

Chang, Peter C.
Associate Professor, ENGR-Civil & Environmental Engineering; B.S., Texas A&M University-College Station, 1975; M.S., University of Illinois-Urbana/Champaign, 1979; Ph.D., 1982.

Chang, Tommy Y M
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.Elect.E., University of Maryland-College Park, 1997; B.S., 1998; M.S., Johns Hopkins University, 2008; D.Engin., Purdue University-West Lafayette, 2019.

Chao, John C.
Professor, BSOS-Economics; B.S., University of Pennsylvania, 1987; Ph.D., Yale University, 1994.

Charifa, Samer
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.S., University of Aleppo, 2001; M.S., Petroleum and Minerals University-Dhahran, 2005; Ph.D., North Carolina Agricultural & Technical State University, 2009.

Charity, Crystal
Lecturer, EDUC-Teaching and Learning, Policy and Leadership; B.S., University of California-Davis, 2011; M.A., University of Maryland-College Park, 2020; Ph.D., 2024.

Charpentier, Caroline J
Assistant Professor, BSOS-Psychology; B.S., Ecole Normale Superieur de Lyon, 2009; M.S., 2011; M.S., University College-London, 2012; Ph.D., 2016.

Chatter, Snigdhansu Bhusan
Adjunct Professor, BSOS-Joint Program in Survey Methodology; B.S., Indian Statistical Institute, 1993; M.S., 1995; Ph.D., 2000.

Chatti, Mounira
Adjunct Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., University of Aix-Marseille, 1989; M.A., 1991; Ph.D., 1995.

Chaverri, Priscila
Adjunct Associate Professor, ENGR-Civil & Environmental Engineering; B.S., Technological Institute of Costa Rica, 1993; Ph.D., Pennsylvania State University, 2003.

Chazan, Daniel I.
Professor, EDUC-Teaching and Learning, Policy and Leadership; 2023-2024 Distinguished Scholar-Teacher. B.A., Brandeis University, 1981; M.A., 1981; M.A., Harvard University, 1982; M.A., Worcester Polytechnic Institute, 1984; Ed.D., Harvard University, 1989.

Che, Sunoh
Assistant Professor, AGNR-Animal & Avian Sciences; D.V.M., Chonnam National University, 1996; M.S., Murdoch University in Perth, 2012; M.S., University of Prince Edward Island, 2019; Ph.D., University of Guelph-Ontario, 2022.

Cheek, Nathan
Assistant Professor, BSOS-Psychology; B.A., Swarthmore College, 2015; M.A., Princeton University, 2019; Ph.D., 2021.

Chellappa, Ramalingam
College Park Professor, ENGR-Electrical & Computer Engineering; 2003-2004 Distinguished Scholar-Teacher. B.E., University of Madras, 1975; M.S., Indian Institute of Science-Bangalore, 1977; M.S., Purdue University-West Lafayette, 1978; Ph.D., 1981.

Chembo, Yanne K.
Director, CMNS-Institute for Research in Electronics & Applied Physics; Professor, ENGR-Electrical & Computer Engineering; Professor, CMNS-Institute for Research in Electronics & Applied Physics; B.S., Universite de Yaounde I, 1997; M.S., 2001; Ph.D., 2005.

Chen, Alexander
Associate Professor Emeritus, ARCH-School of Architecture, Planning, & Preservation; B.A., New York University, 1973; M.O., 1976; Ph.D., University of Michigan-Ann Arbor, 1981.

Chen, Cathy Yi
Associate Clinical Professor, BMGT-Marketing; Ph.D., University of California-Los Angeles, 2004.

Chen, Feng
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., Austin College, 1995.

Chen, Gilad
Associate Dean, BMGT-Management & Organization; Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Management & Organization; 2014-2015 Distinguished Scholar-Teacher. B.A., Pennsylvania State University, 1996; M.A., George Mason University, 1998; Ph.D., 2001.

Chen, Jie
Chair, SPHL-Health Policy and Management; Professor, SPHL-Health Policy and Management; B.S., Shanghai University, 2001; M.A., SUNY-Stony Brook, 2006; Ph.D., 2008.

Chen, Lei
Visiting Assistant Professor, CMNS-Mathematics; B.S., Peking University, 2013; Ph.D., University of Illinois-Chicago, 2018.

Chen, Po-Yen
Assistant Professor, ENGR-Chemical & Biomolecular Engineering; Affiliate Assistant Professor, ENGR-Institute for Systems Research; B.S., National Taiwan Normal University-Taipei, 2009; Ph.D., Massachusetts Institute of Technology, 2015.

Chen, Shuo
Visiting Professor, SPHL-Epidemiology & Biostatistics; B.S., Harbin Institute of Technology, 2003; M.S., East Tennessee State University, 2004; Ph.D., Emory University, 2012.

Chen, Yizheng
Assistant Professor, CMNS-Computer Science; Assistant Professor, CMNS-Institute for Advanced Computer Studies; B.S., Fudan University-Shanghai, 2011; Ph.D., Georgia Institute of Technology, 2017.

Chen, Zhi-Long
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Decision, Operations & Information Technologies; Ph.D., Princeton University, 1997.

Cheng, Lin
Assistant Professor, ENGR-Mechanical Engineering; B.S., Xi'an Jiaotong University, 2011; M.S., Shanghai Jiaotong University, 2014; Ph.D., University of Pittsburgh, 2019.

Chernela, Janet
Professor Emerita, BSOS-Anthropology; B.A., University of Wisconsin-Madison, 1965; M.A., Columbia University, 1978; Ph.D., 1983.

Cherniak, Christopher
Professor Emeritus, ARHU-Philosophy; B.A., Harvard University, 1966; B.O., University of Oxford, 1973; M.A., University of California-Berkeley, 1971; Ph.D., 1977.

Chernikov, Artem
Professor, CMNS-Mathematics; B.S., St. Petersburg State University of Telecommunication, 2007; M.S., Humboldt University of Berlin, 2009; Ph.D., University of Claude Bernard I, 2010.

Chester, Robert Keith
Senior Lecturer, ARHU-American Studies; B.A., University of Nottingham, 1999; B.A., 1999; M.A., University of Wyoming, 2003; Ph.D., University of Maryland-College Park, 2011.

Chey, Mary Somontha
Assistant Clinical Professor, SVPAAP-Office of Undergraduate Research; B.S., Indiana University of Pennsylvania, 2017; Ph.D., University of Maryland-College Park, 2023; Ph.D., 2023.

Chicas, Himedes V
Visiting Lecturer, BSOS-Dean-MLAW Programs; B.S., University of Scranton, 2005; J.D., University of Maryland at Baltimore, 2010.

Chicherio, Talia Alisa
Lecturer, ARHU-Classics; B.A., Oberlin College, 2013; M.A., University of Maryland-College Park, 2016.

Chico, Tita
Professor, ARHU-English; A.B., Vassar College, 1991; M.A., New York University, 1994; Ph.D., 1998.

Chicoli, Amanda
Lecturer, BSOS-Psychology; B.S., Brooklyn College, 2010; Ph.D., University of Maryland-College Park, 2016.

Childs, Andrew
Professor, CMNS-Computer Science; Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Professor, CMNS-Physics; B.S., California Institute of Technology, 2000; Ph.D., Massachusetts Institute of Technology, 2004.

Chiles, Robert Elliot
Senior Lecturer, ARHU-History; B.A., Towson University, 2004; Ph.D., University of Maryland-College Park, 2012.

Chinoy, Ira H.
Associate Professor Emeritus, JOUR-Philip Merrill College of Journalism; B.A., Harvard University, 1977; Ph.D., University of Maryland-College Park, 2010.

Chiu, Kevin Nathan
Lecturer, ENGR-Dean-Keystone Program; M.Eng., Carnegie Mellon University, 2017; D.Engin., University of Maryland-College Park, 2024.

Cho, Jennifer
Senior Lecturer, UGST-Asian American Studies Program; B.A., New York University, 2003; M.A., 2005; Ph.D., George Washington University, 2010.

Cho, Minkyoung
Visiting Associate Professor, CMNS-Computer Science; B.S., Seoul National University, 1999; Ph.D., University of Maryland-College Park, 2010.

Choe, Eun Kyoung
Associate Professor, INFO-College of Information Studies; Affiliate Associate Professor, CMNS-Computer Science; Ph.D., University of Washington-Seattle, 2014.

Choflet, Robert Thomas
Senior Lecturer, BSOS-African American Studies; B.A., Metropolitan State University of Denver, 2005; Ph.D., University of Maryland-College Park, 2019.

Choi, Deokhyo
Assistant Professor, ARHU-History; B.A., Rikkyo University (St. Paul's), 2000; M.A., University of Tokyo, 2003; M.A., Cornell University, 2009; Ph.D., 2013.

Choi, Jason
Assistant Professor, BMGT-Robert H. Smith School of Business; Assistant Professor, BMGT-Marketing; B.S., Korea Advanced Institute of Science & Technology, 2012; M.S., Columbia University, 2014; Ph.D., 2020.

Choi, Ji Young
Lecturer, CMNS-Cell Biology & Molecular Genetics; B.S., Pennsylvania State University, 2011; M.S., 2013; Ph.D., University of Maryland-College Park, 2018.

Choi, Kyu Yong
Professor, ENGR-Chemical & Biomolecular Engineering; B.S., Seoul National University, 1976; M.S., 1978; Ph.D., University of Wisconsin-Madison, 1984.

Cholet, Valerie Ann
Associate Clinical Professor, SPHL-Kinesiology; B.S., Pennsylvania State University, 1990; M.Ed., Arcadia University, 1996; Ed.D., Pennsylvania State University, 2020.

Chopra, Inderjit
Distinguished University Professor, ENGR-Aerospace Engineering; B.S., Punjab Engineering College, 1965; M.Eng., Indian Institute of Science-Bangalore, 1968; Sc.D., Massachusetts Institute of Technology, 1977.

Chopra, Nikhil
Professor, ENGR-Mechanical Engineering; Affiliate Professor, ENGR-Institute for Systems Research; B.E., Indian Institute of Technology-Kharagpur, 2001; M.S., University of Illinois-Urbana/Champaign, 2003; Ph.D., 2006.

Chorbajian, Christie Alexis
Lecturer, SPHL-Family Science; M.S., University of Massachusetts-Boston, 2012.

Christou, Aristos
Professor Emeritus, ENGR-Materials Science & Engineering; B.A., Columbia University, 1967; Ph.D., University of Pennsylvania, 1971.

Chronis-Tuscano, Andrea
Professor, BSOS-Psychology; B.S., Loyola University of Chicago, 1993; M.A., SUNY-University at Buffalo, 1998; Ph.D., 2002.

Chu, Jun
Visiting Assistant Professor, SPHL-Health Policy and Management; B.S., University of Maryland-College Park, 2013; M.P.H., 2017; D.Pub.Hlth., 2022.

Chuang, Julia
Associate Professor, BSOS-Sociology; B.A., Harvard University, 2003; M.A., University of California-Berkeley, 2009; Ph.D., 2014.

Chung, Jum Sook
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., Texas A&M University-College Station, 1991.

Chung, Patrick
Assistant Professor, ARHU-History; B.A., Pennsylvania State University, 2009; M.A., Brown University, 2011; Ph.D., 2017.

Chung, Peter W
Professor, ENGR-Mechanical Engineering; B.S., University of Virginia, 1994; M.S., University of Minnesota-Twin Cities, 1996; Ph.D., 1999.

Chung, Wilbur C.
Associate Professor, BMGT-Robert H. Smith School of Business; Associate Professor, BMGT-Logistics, Business & Public Policy; B.S., Carnegie Mellon University, 1986; M.B.A., 1990; Ph.D., University of Michigan-Ann Arbor, 1997.

Ciampaglia, Giovanni Luca
Assistant Professor, INFO-College of Information Studies; B.S., University of Rome, 2006; M.S., 2006; Ph.D., Universita della Svizzera Italiana, 2012.

Cicchetto, Steven Charles
Lecturer, UGST-AFROTC-Air Science; B.A., American Public University System, 2012; M.S., Joint Military Intelligence College, 2014.

Cicerone, Marcus T.
Adjunct Professor, CMNS-Institute for Physical Science & Technology; B.S., Brigham Young University, 1989; Ph.D., University of Wisconsin-Madison, 1994.

Cichello, Michael Samuel
Clinical Professor, BMGT-Finance; B.A., Tufts University, 1990; M.A., Michigan State University, 1994; Ph.D., 2000.

Cirillo, Cinzia
Professor, ENGR-Civil & Environmental Engineering; Affiliate Professor, ENGR-Mechanical Engineering; M.S., University of Naples, 1994; Ph.D., Politecnico di Torino, 1998.

Cirrincione, Joseph
Associate Professor Emeritus, BSOS-Geography; B.S., SUNY-College at Oswego, 1962; M.A., CUNY-Brooklyn College, 1965; M.A., Ohio State University, 1967; Ph.D., 1970.

Cirruzzo, Chelsea Lynn
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., American University, 2017.

Cissna, Andrew Robert
Assistant Clinical Professor, ARHU-School of Theatre, Dance & Performance Studies; B.F.A., University of North Caroina School of the Arts, 2006; M.F.A., University of Maryland-College Park, 2014.

Clague, Christopher K.
Professor Emeritus, BSOS-Economics; B.A., Swarthmore College, 1960; Ph.D., Harvard University, 1966.

Clague, Monique W.
Professor Emerita, EDUC-Education Policy and Leadership; B.A., Swarthmore College, 1959; Ph.D., Harvard University, 1969.

Clark, Brian
Assistant Professor, CMNS-Physics; B.O., University of Washington-Seattle, 2014; M.S., Ohio State University, 2016; D.O., 2019.

Clark, Charles Winthrop
Adjunct Professor, CMNS-Physics; B.A., Western Washington University, 1974; Ph.D., University of Chicago, 1979.

Clark, Denise J.
Associate Vice President, VPR-VP Research; B.S., Utica College, 1984.

Clark, Jane E.
Professor Emerita, SPHL-Kinesiology; B.S., SUNY-College at Brockport, 1968; M.Ed., University of Washington-Seattle, 1970; Ph.D., University of Wisconsin-Madison, 1976.

Clark, Jessica M
Assistant Professor, BMGT-Robert H. Smith School of Business; Assistant Professor, BMGT-Decision, Operations & Information Technologies; B.S., Worcester Polytechnic Institute, 2007; Ph.D., New York University, 2017.

Clark, Lawrence
Associate Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., Hampton University, 1989; M.Ed., Emory University, 1998; Ph.D., 2004; Ph.D., 2005.

Clark, Patrina M
Lecturer, PLCY-School of Public Policy; Ed.D., George Washington University, 2018.

Clark, Willie E. Jr.
Lecturer, ARHU-School of Music; B.Mus., University of Illinois-Urbana/Champaign, 2000; M.Mus., University of Georgia, 2002.

Clarke, David H.
Professor Emeritus, SPHL-Kinesiology; B.S., Springfield College, 1952; M.S., 1953; Ph.D., University of Oregon, 1959.

Cleanthous, Aris Costaki
Associate Clinical Professor, ENGR-Mechanical Engineering; B.S., University of Maryland-College Park, 1996; M.S., Stanford University, 1997; M.B.A., Johns Hopkins University, 2005.

Clegg, Tamara Lynnette
Professor, INFO-College of Information Studies; B.S., North Carolina State University, 2002; Ph.D., Georgia Institute of Technology, 2010.

Clement, Cindy
Principal Lecturer Emerita, BSOS-Economics; B.A., Smith College, 1984; M.A., University of Maryland-College Park, 1988; Ph.D., 1997.

Clements, Roxanne S
Lecturer, ARHU-English; B.A., Cornell University, 1980; J.D., George Washington University, 1985.

Clignet, Remi
Professor Emeritus, BSOS-Sociology; B.A., University of Paris, 1948; L.L.B., 1951; Ph.D., 1963.

Clinton-McCausland, Sarah
Librarian II, LIBR-Libraries; B.A., Earlham College, 2012; M.L.S., St. Catherine University, 2018.

Clyne, Alisa Morss
Associate Chair, ENGR-Fischell Department of Bioengineering; Professor, ENGR-Fischell Department of Bioengineering; B.S., Stanford University, 1996; M.S., University of Cincinnati, 1999; Ph.D., Massachusetts Institute of Technology, 2006.

Coale, Frank J.
Acting Assistant Dean, AGNR-College of Agriculture & Natural Resources; Professor, AGNR-Environmental Science & Technology; B.S., University of Maryland-College Park, 1981; M.S., University of Kentucky, 1983; Ph.D., 1986.

Cochran, Diana
Assistant Clinical Professor, AGNR-Plant Science & Landscape Architecture; B.S., Auburn University, 2005; M.S., 2007; Ph.D., Mississippi State University, 2012.

Cochran, Erica Nicole
Lecturer, ARHU-English; B.A., University of Alabama-Birmingham, 2015; M.A., University of Maryland-College Park, 2018.

Cochrane, Mark Alan
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., Pennsylvania State University, 1998.

Cocker, Joshua John
Lecturer, ENGR-Dean-Keystone Program; B.S., University of Maryland-College Park, 2019; M.S., 2021.

Coffee, Melvin
Lecturer, JOUR-Philip Merrill College of Journalism; B.S., Northwestern University, 1984; M.S., 2004.

Cohan, Steven M.
Clinical Professor Emeritus, AGNR-Plant Science & Landscape Architecture; B.S., Iowa State University, 1964; M.S., Pennsylvania State University, 1966; Ph.D., 1969.

Cohen, Avis H.
Professor Emerita, CMNS-Biology; B.S., University of Michigan-Ann Arbor, 1964; Ph.D., Cornell University, 1977.

Cohen, Emily Beth
Visiting Assistant Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., University of Southern Mississippi, 2011.

Cohen, H Robert
Professor Emeritus, ARHU-School of Music; B.A., New York University, 1963; M.A., 1967; Ph.D., 1973.

Cohen, Hananya Aryeh
Lecturer, INFO-College of Information Studies; B.S., Ner Isreal Rabbinical College, 1996; M.L.S., University of Maryland-College Park, 2004.

Cohen, Helene Kalson
Lecturer, EDUC-Dean-Outreach; B.A., University of Michigan-Ann Arbor, 1975; M.Ed., Lesley University, 1978; Ed.D., Harvard University, 1990.

Cohen, James R.
Senior Lecturer Emeritus, ARCH-School of Architecture, Planning, & Preservation; B.A., University of Michigan-Ann Arbor, 1969; M.R.P., Cornell University, 1985; Ph.D., 1991.

Cohen, Jeffrey I.
Adjunct Professor, CMNS-Cell Biology & Molecular Genetics; B.A., University of Pennsylvania, 1976; M.D., Johns Hopkins University Medical School, 1981.

Cohen, Joel M.
Professor Emeritus, CMNS-Mathematics; B.S., Brown University, 1963; Ph.D., Massachusetts Institute of Technology, 1966.

Cohen, Kenneth
Lecturer, ARHU-History; B.A., Allegheny College, 1998; M.A., University of Delaware, 2002; Ph.D., 2008.

Cohen, Melanie Paige
Lecturer, BMGT-Management & Organization; B.A., University of Maryland-College Park, 1983; M.G.A., University of Maryland-Global Campus, 1989; D.O., 2006.

Cohen, Philip N.
Professor, BSOS-Sociology; B.A., University of Michigan-Ann Arbor, 1992; M.A., University of Massachusetts-Amherst, 1994; Ph.D., University of Maryland-College Park, 1999.

Cohen, Thomas D.
Associate Chair, CMNS-Physics; Professor, CMNS-Physics; 2005-2006 Distinguished Scholar-Teacher. A.B., Harvard University, 1980; Ph.D., University of Pennsylvania, 1985.

Cohen, William A.
Dean, UGST-Undergraduate Studies; Associate Provost, SVPAAP-Office of the Senior Vice President & Provost; Professor, ARHU-English; Affiliate Professor, ARHU-American Studies; B.A., Swarthmore College, 1985; Ph.D., University of California-Berkeley, 1993.

Colakis, Minna
Lecturer, ARCH-Architecture Program; B.A., Barnard College, 2003; B.A., 2003; M.Arch., Yale University, 2008; M.Arch., 2008.

Colantuono, Anthony Dominic
Professor, ARHU-Art History & Archaeology; B.A., Rutgers University, 1980; M.A., Johns Hopkins University, 1982; Ph.D., 1987.

Colburn, Alexandra Kelly
Lecturer, ARHU-School of Theatre, Dance & Performance Studies; B.F.A., New York University, 2007; M.F.A., University of Maryland-College Park, 2018.

Coleman, Gary D.
Associate Professor, AGNR-Plant Science & Landscape Architecture; B.S., Colorado State University-Fort Collins, 1978; M.S., 1986; Ph.D., University of Nebraska-Lincoln, 1989.

Coleman, Kristen
Assistant Professor, SPHL-Global, Environmental, and Occupational Health; Affiliate Assistant Professor, AGNR-Veterinary Medicine Program; B.A., University of Toledo, 2013; Ph.D., 2017.

Coleman, Linda K.
Associate Professor, ARHU-English; Affiliate Associate Professor, ARHU-Dean-MD Language Science Center; M.A., University of Michigan-Ann Arbor, 1973; B.A., 1973; Ph.D., University of California-Berkeley, 1982.

Coles, Kim
Professor, ARHU-English; B.A., Columbia University, 1994; M.A., 1996; M.A., University of Oxford, 1998; Ph.D., Aberystwyth University, 2003.

Coles, Victoria J.
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; B.S., University of California-San Diego, 1991; Ph.D., University of Miami, 1998.

Coletti, Theresa M.
Professor Emerita, ARHU-English; B.A., University of Pittsburgh, 1971; M.A., University of Rochester, 1973; Ph.D., 1975.

Collier, Michael R.
Professor Emeritus, ARHU-English; B.A., Connecticut College, 1976; M.F.A., University of Arizona, 1979.

Collier, Wiehrs Lewis
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.S., University of North Carolina-Chapel Hill, 1983; M.S., University of Rhode Island, 1986; Ph.D., 2014.

Collins, Merle
Professor Emerita, ARHU-English; B.A., University of the West Indies-Mona, Kingston, 1972; M.A., Georgetown University, 1980; Ph.D., London School of Economics & Political Science, 1990.

Collins, Patricia Hill
Distinguished University Professor Emerita, BSOS-Sociology; B.A., Brandeis University, 1969; M.A.-Teach., Harvard University, 1970; Ph.D., Brandeis University, 1984.

Collis, Shannon Leah
Associate Professor, ARHU-Art; B.A., University of Alberta-Edmonton, 2001; M.F.A., University of New South Wales, 2003; M.A., Concordia University-Montreal, 2012.

Colombini, Marco
Professor Emeritus, CMNS-Biology; B.S., McGill University-Montreal, 1970; Ph.D., 1974.

Colwell, Rita R.
Distinguished University Professor Emerita, CMNS-Cell Biology & Molecular Genetics; B.S., Purdue University-West Lafayette, 1956; M.S., 1958; Ph.D., University of Washington-Seattle, 1961; Sc.D., Purdue University-West Lafayette, 1993.

Comanda, Bridgette Diann
Lecturer, INFO-College of Information Studies; B.A., Goucher College, 2009; M.L.S., University of Maryland-College Park, 2013; M.Ed., Trinity Washington University, 2019.

Compton, Reid S.
Principal Lecturer Emeritus, CMNS-Biology; B.S., College of William & Mary, 1978; Ph.D., University of Virginia, 1984.

Comstock, Meghan Colleen
Assistant Professor, EDUC-Teaching and Learning, Policy and Leadership; B.S., University of Virginia, 2010; Ph.D., University of Pennsylvania, 2023.

Connor, Brian T
Senior Lecturer, BSOS-Sociology; B.A., Tulane University, 2003; M.A., University of Massachusetts-Amherst, 2007; Ph.D., 2014.

Conover, Emily S.
Senior Lecturer, ARHU-Art; B.S., Purdue University-West Lafayette, 1985; B.A., University of Maryland-College Park, 1996; M.F.A., 1999.

Conrad, Mark
Lecturer, INFO-College of Information Studies; B.A., MacMurray College, 1978; M.A., University of Illinois-Springfield, 1988.

Conroy, Joseph
Lecturer, ENGR-Aerospace Engineering; B.S., University of Maryland-College Park, 2003; M.S., 2005; Ph.D., 2010.

Conroy, Marianne
Lecturer, ARHU-English; B.A., Ohio State University, 1981; M.A., 1984; Ph.D., University of Chicago, 1993.

Conway, Charles Andrew
Lecturer, SPHL-Family Science; B.A., University of Maryland-College Park, 2007; M.S.W., University of Maryland at Baltimore, 2012; Ph.D., University of Maryland-College Park, 2022.

Conway, Daniel L.
Professor Emeritus, ARHU-School of Theatre, Dance & Performance Studies; B.S., SUNY-College at Brockport, 1978; M.F.A., George Washington University, 1982.

Conway, James Irwin
Lecturer, CMNS-Mathematics; B.A., University of Cambridge, 2009; M.S., 2010; Ph.D., Georgia Institute of Technology, 2016.

Cook, David Jonathan
Lecturer, BSOS-Geography; B.A., Northwestern College, 1992; M.S., Carnegie Mellon University, 1997.

Cook, Thomas M.
Professor Emeritus, CMNS-Cell Biology & Molecular Genetics; B.S., University of Maryland-College Park, 1955; M.S., 1957; Ph.D., Rutgers University, 1963.

Cooke, Todd J.
Professor Emeritus, CMNS-Cell Biology & Molecular Genetics; B.S., Antioch College, 1974; Ph.D., Cornell University, 1979.

Cooksey, Gregory Alan
Adjunct Professor, ENGR-Fischell Department of Bioengineering; B.S., University of Kansas, 1999; Ph.D., University of Washington-Seattle, 2005.

Coomber, Nicole M.
Clinical Professor, BMGT-Management & Organization; B.A., University of the South-Sewanee, 2001; M.A., Middlebury College, 2002; Ph.D., University of Maryland-College Park, 2012.

Coomber, Robert
Lecturer, BMGT-Logistics, Business & Public Policy; B.A., Colgate University, 2001; J.D., Catholic University of America, 2007.

Cooper, Jeffery M.
Professor Emeritus, CMNS-Mathematics; B.A., Haverford College, 1962; M.S., University of Illinois-Urbana/Champaign, 1964; Ph.D., 1967.

Cooper, Lee William
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., University of Alaska-Fairbanks, 1987.

Cooperman, Bernard D.
Associate Professor, ARHU-History; Affiliate Associate Professor, ARHU-Meyerhoff Program & Center for Jewish Studies; B.A., University of Toronto, 1968; M.A., Brandeis University, 1969; M.A., Harvard University, 1972; Ph.D., 1976.

Copelman, Martina
Senior Lecturer, BSOS-Economics; B.A., University of California-Berkeley, 1988; Ph.D., Massachusetts Institute of Technology, 1994.

Coplan, Michael A.
Professor Emeritus, CMNS-Institute for Physical Science & Technology; 2004-2005 Distinguished Scholar-Teacher. B.A., Williams College, 1960; M.S., Yale University, 1961; Ph.D., 1963.

Corbin, Joshua
Adjunct Professor, BSOS-Dean-Neuroscience and Cognitive Science; B.A., Rutgers University, 1989; Ph.D., University of North Carolina-Chapel Hill, 1996.

Corby, Kathryn E
Lecturer, ARCH-Real Estate Development; B.A., Washington Adventist University, 2005; M.P.P./M.S., Georgetown University, 2018.

Cornelius, Adrian R.
Executive Director of Enrollment Management & University Registrar, SVPAAP-Office of the Registrar Main; B.S., Universidad De Oriente, Venezuela, 1989; MS.Ed., CUNY-Bernard M. Baruch College, 1998; Ed.S., Georgia Southern University, 2009; Ed.D., 2012.

Coronado, Humberto Carlos
Senior Lecturer, BMGT-Logistics, Business & Public Policy; M.A., University of Pennsylvania, 2012.

Corsi, Thomas M.
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Logistics, Business & Public Policy; B.A., Case Western Reserve University, 1971; M.A., Kent State University-all campuses, 1974; Ph.D., University of Wisconsin-Madison, 1976.

Cortez, Diana
Lecturer, AGNR-Plant Science & Landscape Architecture; B.S., University of Maryland-College Park, 2010; M.S., University of Maryland-Global Campus, 2015; M.B.A., 2016.

Cossard, Patricia Kosco
Librarian III, LIBR-Libraries; B.A., Rutgers University, 1981; M.A., University of Toronto, 1983; M.A., Rutgers University, 1987.

Cossin, Zev Alexander
Lecturer, BSOS-Anthropology; B.A., University of Maryland-College Park, 2010; M.A., University of Illinois-Urbana/Champaign, 2015.

Cosso, Jimena
Assistant Professor, EDUC-Human Development and Quantitative Methodology; Ph.D., Purdue University-West Lafayette, 2022.

Costa, Jose M.
Professor Emeritus, AGNR-Plant Science & Landscape Architecture; B.S., Universidad Nacional de La Plata, 1978; M.S., Oregon State University, 1989; Ph.D., 1990.

Costello, Darcy Gail
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., University of Maryland-College Park, 2016; B.A., 2016.

Cote, Paul
Senior Lecturer, ARHU-English; B.A., University of Colorado-Boulder, 2006; M.A., University of Maryland-College Park, 2009; Ph.D., 2016.

Cote, Rachel Vorona
Lecturer, ARHU-English; B.A., College of William & Mary, 2007; M.A., George Washington University, 2010.

Cottrell, Elizabeth
Adjunct Professor, CMNS-Geology; B.S., Brown University, 1997; Ph.D., Columbia University, 2004.

Coudron, Matthew R
Adjunct Assistant Professor, CMNS-Institute for Advanced Computer Studies; Adjunct Assistant Professor, CMNS-Computer Science; B.S., University of Minnesota-Twin Cities, 2011; Ph.D., Massachusetts Institute of Technology, 2017.

Coughlin, Peter J.
Associate Professor, BSOS-Economics; B.A., SUNY-Albany, 1973; M.A., 1974; Ph.D., 1976.

Coulbourne, Mark
Librarian II, LIBR-Libraries; M.L.S., University of Maryland-College Park, 2019.

Coutts, Jacob Joseph
Lecturer, BSOS-Psychology; B.S., Northern Arizona University, 2018; M.S., Ohio State University, 2020; Ph.D., 2023.

Cowart, Jim S
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.S., University of California-Davis, 1988; M.S., Massachusetts Institute of Technology, 1990; Ph.D., 2000.

Craig, Patrick M.
Associate Professor, ARHU-Art; B.F.A., Western Michigan University, 1974; M.F.A., University of Cincinnati, 1976.

Crain, Cathleen
Adjunct Professor, BSOS-Anthropology; B.A., McMaster University-Hamilton, 1975; M.A., 1978.

Crain, Lena Kavaliauskas
Lecturer, ENGR-Dean-Office of Global Engineering Leadership; B.A., Baldwin Wallace University, 2006; M.S., Oklahoma State University-Stillwater, 2012; Ed.D., University of Maryland-College Park, 2016.

Cram, Jacob Adrian
Visiting Assistant Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., University of Southern California, 2014.

Cramton, Peter
Professor Emeritus, BSOS-Economics; B.S., Cornell University, 1980; Ph.D., Stanford University, 1984.

Crane, Christopher E
Principal Lecturer, ARHU-English; Principal Lecturer, ARHU-English; B.S., United States Naval Academy, 1990; M.A., George Mason University, 1997; Ph.D., Catholic University of America, 2004.

Crawford, Nia Cara
Senior Lecturer, ARHU-English; B.A., Temple University, 1995; M.Ed., 1999; M.A., Bowie State University, 2018.

Crawford, Samuel Walter
Lecturer, ARHU-School of Theatre, Dance & Performance Studies; A.S., Indiana University, 2003; B.A., 2003.

Cristofaro-Gardiner, Daniel
Professor, CMNS-Mathematics; B.S., Harvard University, 2007; Ph.D., University of California-Berkeley, 2013.

Crocker, Jon
Clinical Professor, BMGT-Logistics, Business & Public Policy; B.S., U.S. Military Academy, 1988; J.D., University of Miami, 1994; M.B.A., University of Maryland-College Park, 2016.

Croco, Sarah Elizabeth
Professor, BSOS-Government & Politics; B.A., University of Illinois-Urbana/Champaign, 2000; Ph.D., University of Michigan-Ann Arbor, 2008.

Croninger, Robert G.
Associate Professor Emeritus, EDUC-Teaching and Learning, Policy and Leadership; B.A., Valparaiso University, 1973; M.A., College of William & Mary, 1976; Ph.D., University of Michigan-Ann Arbor, 1997.

Cronrath, David
Professor Emeritus, ARCH-School of Architecture, Planning, & Preservation; B.Arch., Pennsylvania State University, 1971; M.Arch., University of California-Berkeley, 1976.

Cropper, Maureen L.
Distinguished University Professor, BSOS-Economics; Affiliate Professor, AGNR-Agricultural & Resource Economics; B.A., Bryn Mawr College, 1969; M.A., Cornell University, 1972; Ph.D., 1973.

Cross, Marcus Allen
Lecturer, ARCH-Architecture Program; B.S., University of Illinois-Urbana/Champaign, 2003; M.Arch., University of Maryland-College Park, 2005.

Cross, Richard K.
Professor Emeritus, ARHU-English; B.A., Princeton University, 1962; M.A., Stanford University, 1965; Ph.D., 1967.

Crowell McQuarrie, Susanna Jane
Assistant Clinical Professor, BSOS-Psychology; B.S., Vanderbilt University, 2011; M.A., Georgia State University/Perimeter College, 2016; Ph.D., 2019.

Crowley, Kenyon
Lecturer, BMGT-Decision, Operations & Information Technologies; B.S., University of North Carolina-Wilmington, 1998; M.B.A., University of Maryland-College Park, 2009; M.S., 2009.

Cruz, Gabriel Abisai
Lecturer, INFO-College of Information Studies; B.S., University of Maryland-College Park, 2018; M.Info.M., 2021.

Cuffy, Nicole A.
Lecturer, ARHU-English; B.A., Columbia University, 2010; M.F.A., The New School, 2012.

Cui, Qingbin
Professor, ENGR-Civil & Environmental Engineering; Affiliate Professor, PLCY-School of Public Policy; B.E., Tianjin University, 1993; M.S., 2000; Ph.D., Purdue University-West Lafayette, 2005.

Cukier, Michel
Director, UGST-HCOL-ACES Cybersecurity Program; Professor, ENGR-Mechanical Engineering; Affiliate Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Professor, CMNS-Computer Science; B.S., European School in Brussels, Belgium, 1986; M.Eng., Free University of Brussels-Flemish, 1991; Ph.D., Institut National Polytechnique, 1996.

Cullen, Graham Tyson
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., Shepherd University, 2005; M.A., University of Maryland-College Park, 2019.

Culver, James N.
Professor, AGNR-Plant Science & Landscape Architecture; Professor, CMNS-IBBR; Professor, CMNS-IBBR; B.S., Oklahoma State University-Stillwater, 1985; M.S., 1987; Ph.D., University of California-Riverside, 1991.

Cumings, John
Associate Professor, ENGR-Materials Science & Engineering; Affiliate Associate Professor, CMNS-Physics; B.A., Boston University, 1997; Ph.D., University of California-Berkeley, 2002.

Cummings, Kelli D.
Associate Professor, EDUC-Counseling, Higher Education and Special Education; B.A., Oregon State University, 1999; M.S., University of Oregon, 2003; Ph.D., 2004.

Cummings, Michael P.
Professor, CMNS-Biology; Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Professor, CMNS-Computer Science; B.S., University of California-Davis, 1983; Ph.D., Harvard University, 1992.

Cunniff, Patrick F.
Professor Emeritus, ENGR-Mechanical Engineering; B.C.E., Manhattan College, 1955; M.S., Virginia Polytechnic Institute & State University, 1956; Ph.D., 1962.

Cunningham, David E.
Professor, BSOS-Government & Politics; B.A., Wake Forest University, 1998; M.S., George Mason University, 2001; Ph.D., University of California-San Diego, 2010.

Cunningham, Kathleen Gallagher
Professor, BSOS-Government & Politics; B.A., University of California-San Diego, 1999; M.A., 2002; Ph.D., 2007.

Currie, Douglas George
Professor Emeritus, CMNS-Physics; B.E.P., Cornell University, 1958; Ph.D., University of Rochester, 1962.

Curry, Daniel B.
Lecturer, ARCH-Architecture Program; B.S., University of Virginia, 1996; M.Arch., University of Maryland-College Park, 2000.

Curry, David G. II
Lecturer, EDUC-Dean-Outreach; B.S., Florida A&M University, 1998; M.S., 2000; Ed.D., University of Maryland-College Park, 2018.

Curry, Lacey
Assistant Clinical Professor, BSOS-Hearing & Speech Sciences; B.A., Rutgers University, 2003; B.S., Towson University, 2011; Au.D., James Madison University, 2015.

Curtis, Wayne Ricardo
Lecturer, ARCH-Real Estate Development; B.A., Harvard University, 1976; M.S., Columbia University, 1989; Ph.D., Antioch Graduate School of Education, 2013.

Cushnie, Monica Sherri
Assistant Chair, BSOS-Psychology; Lecturer, BSOS-Psychology; B.A., University of Maryland-College Park, 2013; M.S., 2015; Ph.D., 2019.

Cypess, Sandra M.
Professor Emerita, ARHU-School of Languages, Literatures, and Cultures; B.A., Brooklyn College, 1963; M.A., Cornell University, 1965; Ph.D., University of Illinois-Urbana/Champaign, 1968.

Czaja, Wojciech
Professor, CMNS-Mathematics; M.S., Wroclaw University, 1995; M.A., Washington University in Saint Louis, 1997; Ph.D., 2000.

D

Daberkow, Julie A.
Senior Lecturer, CMNS-Mathematics; B.A., University of California-Davis, 1971; M.A., 1973.

Dabu, Adina
Lecturer, BMGT-Ctrs-Ed Snider Center for Enterprise & Markets; B.A., Academy of Economic Studies of Bucharest, 1994; B.A., University of Bucharest, 1996; M.S., Virginia Polytechnic Institute & State University, 2002; M.A., University of Illinois-Urbana/Champaign, 2003; D.O., 2009.

Dachman-Soled, Dana
Associate Professor, ENGR-Electrical & Computer Engineering; Associate Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Associate Professor, ENGR-Institute for Systems Research; Affiliate Associate Professor, CMNS-Computer Science; B.A., Yeshiva University, 2006; M.S., Columbia University, 2008; Ph.D., 2011.

Dachs, Stephanie Rachel
Lecturer, UGST-HCOL-ACES Cybersecurity Program; M.S., CUNY-John Jay College of Criminal Justice, 2017.

Dagenais, Mario
Professor, ENGR-Electrical & Computer Engineering; B.S., University of Montreal, 1974; M.S., University of Rochester, 1976; Ph.D., 1978.

Dahl, David
Librarian III, LIBR-Libraries; B.S., Indiana University, 2005; M.L.S., 2008.

Daley, Liam Thomas
Lecturer, ARHU-English; B.A., Washington College, 2003; M.A., University of St. Andrews, 2008.

Dalglish, Lucy A.
Professor, JOUR-Philip Merrill College of Journalism; B.A., University of North Dakota, 1980; M.St., Yale University, 1988; J.D., Vanderbilt University, 1995.

Dallal, Cher M.
Associate Professor, SPHL-Epidemiology & Biostatistics; B.A., University of California-Berkeley, 1998; M.P.H., Yale University, 2002; M.S., University of Southern California, 2005; Ph.D., University of Pittsburgh, 2009.

Dally, James W.
Professor Emeritus, ENGR-Mechanical Engineering; 1993-1994 Distinguished Scholar-Teacher. B.S., Carnegie Institute of Technology, 1951; M.S., 1953; Ph.D., Illinois Institute of Technology, 1958.

Dammeyer, Sarah
Senior Lecturer, ARHU-English; B.A., University of Maryland-College Park, 2003; M.A., 2008.

Dance, Eola Lewis
Lecturer, ARCH-Historic Preservation Program; B.A., Southern University A+M College, 2001; M.A., Savannah College of Art & Design, 2015.

Dancis, Jerome
Associate Professor Emeritus, CMNS-Mathematics; B.A., Polytechnic Institute New York Univ, 1961; M.S., University of Wisconsin-Madison, 1963; Ph.D., 1966.

Daniels, Amber Marie
Lecturer, ARHU-School of Theatre, Dance & Performance Studies; A.A., Florida State College at Jacksonville, 2012; B.F.A., Jacksonville University, 2014; M.F.A., University of Maryland-College Park, 2022.

Daniels, Kevin M
Associate Professor, ENGR-Electrical & Computer Engineering; Associate Professor, CMNS-Institute for Research in Electronics & Applied Physics; B.S., University of South Carolina-Columbia, 2009; M.Elect.E., 2012; Ph.D., 2014.

Danko, Christina M
Associate Clinical Professor, BSOS-Psychology; B.A., University of Virginia, 2005; M.A., University of Colorado-Denver, 2008; Ph.D., DePaul University, 2014.

Dankowicz, Harry
Chair, ENGR-Mechanical Engineering; Professor, ENGR-Mechanical Engineering; M.S., Royal Institute of Technology-Stockholm, 1991; Ph.D., Cornell University, 1995.

Dapherede-Otusanya, Ayodeji
Lecturer, ARHU-Communication; B.A., University of Lagos, 2006; M.A., West Chester University of Pennsylvania, 2016; Ph.D., George Mason University, 2020.

Darden, Lindley
Professor Emerita, ARHU-Philosophy; B.A., Southwestern University, 1968; M.A., University of Chicago, 1969; M.O., 1972; Ph.D., 1974.

DarouieHaghighi, Nasim
Lecturer, ARHU-English; B.A., Allameh Tabataba'i University, 2009; M.A., 2012; Ph.D., SUNY-Binghamton, 2020.

Darvas, Tamas
Professor, CMNS-Mathematics; B.S., Babes-Bolyai University, Cluj-Napoca, 2008; M.S., 2009; Ph.D., Purdue University-West Lafayette, 2014.

Das, Siddhartha
Professor, ENGR-Mechanical Engineering; B.S., Indian Institute of Technology-Kharagpur, 2005; Ph.D., 2010.

Das Sarma, Sankar
Director, CMNS-Physics; Distinguished University Professor, CMNS-Physics; Distinguished Faculty Research Fellow. B.S., Presidency University, 1973; M.S., Brown University, 1976; Ph.D., 1979.

Daschle, Edward Sebastian
Lecturer, ARHU-English; B.A., Whitman College, 2015; M.F.A., University of Maryland-College Park, 2024.

Dasgupta, Abhijit
Professor, ENGR-Mechanical Engineering; B.S., Indian Institute of Technology-Madras, 1976; M.S., Villanova University, 1981; Ph.D., University of Illinois-Urbana/Champaign, 1988.

Dash, Anmol
Lecturer, INFO-College of Information Studies; B.S., University of Maryland-Baltimore County, 2019; M.S., 2021.

Dastidar, Protiti
Clinical Professor, BMGT-Management & Organization; B.A., University of Bombay, 1986; M.B.A., Webster University, 1990; Ph.D., Ohio State University, 2002.

Datar, Reva
Lecturer, SPHL-Behavioral & Community Health; B.S., University of Florida, 2012; M.P.H., King's College-London, 2014; D.Pub.Hlth., University of Maryland-College Park, 2023.

Datta, Anubhav
Professor, ENGR-Aerospace Engineering; B.S., Indian Institute of Technology-Kharagpur, 1998; M.S., University of Maryland-College Park, 2002; Ph.D., 2004.

Daume, Hal III
Professor, CMNS-Computer Science; Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Professor, CMNS-AIM; Professor, ARHU-Dean-MD Language Science Center; B.S., Carnegie Mellon University, 2001; M.S., University of Southern California, 2003; Ph.D., 2006.

Daus, Gemirald P
Adjunct Assistant Professor, UGST-Asian American Studies Program; B.A., University of Virginia, 1988; M.A., Marymount University, 1996.

Davidsburg, Joshua
Senior Lecturer, JOUR-Philip Merrill College of Journalism; B.A., University of Maryland-College Park, 2001.

Davidson, Eric Atlas
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., North Carolina State University, 1986.

Davidson, John A.
Professor Emeritus, CMNS-Entomology; B.A., Washington Adventist University, 1955; M.S., University of Maryland-College Park, 1957; Ph.D., 1960.

Davidson, Neil A.
Professor Emeritus, EDUC-Teaching and Learning, Policy and Leadership; B.S., Case Western Reserve University, 1961; M.Ed., University of Maryland-College Park, 1982; M.S., University of Wisconsin-Madison, 1963; Ph.D., 1970.

Davis, Allen P.
Professor, ENGR-Civil & Environmental Engineering; B.S., University of Delaware, 1984; M.S., 1986; Ph.D., 1989.

Davis, Crystal U
Associate Professor, ARHU-School of Theatre, Dance & Performance Studies; B.A., Emory University, 2000; M.F.A., Texas Woman's University, 2003; M.F.A., New York University, 2004.

Davis, Jeffery T.
Professor, CMNS-Chemistry & Biochemistry; 2018-2019 Distinguished Scholar-Teacher. B.A., Colby College, 1981; Ph.D., Massachusetts Institute of Technology, 1987.

Davis, Jocelyn S
Lecturer, ENGR-Civil-Center for Excellence on Project Management; B.A., College of William & Mary, 1975.

Davis, John R
Librarian II, LIBR-Libraries; B.O., University of Maryland-College Park, 1999; M.L.S., Catholic University of America, 2012.

Davis, Larry S.
Distinguished University Professor Emeritus, CMNS-Computer Science; B.A., Colgate University, 1970; M.S., University of Maryland-College Park, 1972; Ph.D., 1976.

Davis, Lisa Jean
Lecturer, EDUC-Human Development and Quantitative Methodology; B.A., Frostburg State University, 1991; M.S., McDaniel College, 1995.

Davis, Melvette Melvin
Lecturer, ARHU-English; B.A., Bennett College, 2002; M.A., Pennsylvania State University, 2004; Ph.D., 2009.

Davisson, Lee D.
Professor Emeritus, ENGR-Electrical & Computer Engineering; B.S., Princeton University, 1958; M.S., University of California-Los Angeles, 1961; Ph.D., 1964.

Davoudi, Zohreh
Associate Professor, CMNS-Physics; B.S., Sharif University of Technology, 2007; M.S., 2009; Ph.D., University of Washington-Seattle, 2014.

Dawkins, Casey J
Associate Dean, ARCH-School of Architecture, Planning, & Preservation; Professor, ARCH-School of Architecture, Planning, & Preservation; Professor, ARCH-Center for Smart Growth Research & Education; Professor, ARCH-Urban Studies & Planning Program; B.S., Georgia Institute of Technology, 1995; M.C.P., 1999; Ph.D., 2003.

Day, Betty H.
Librarian Emerita, LIBR-Libraries; B.A., Hiram College, 1969; M.A., Georgetown University, 1973; M.L.S., University of Maryland-College Park, 1979; Ph.D., 1992.

Day-Marshall, Maria K
Associate Clinical Professor, ARCH-Real Estate Development; B.A., Fisk University, 1978; J.D., Catholic University of America, 1981; L.L.M., Georgetown University, 1992.

Dayie, Theodore Kwaku
Professor, CMNS-Chemistry & Biochemistry; B.A., Hamilton College, 1990; Ph.D., Harvard University, 1996.

Dayton, C Mitchell
Professor Emeritus, EDUC-Human Development and Quantitative Methodology; B.A., University of Chicago, 1955; M.A., University of Maryland-College Park, 1963; Ph.D., 1964.

De Claris, Nicholas null
Professor Emeritus, ENGR-Electrical & Computer Engineering; B.S., Texas A&M University-College Station, 1952; M.S., Massachusetts Institute of Technology, 1954; Sc.D., 1959.

De Floriani, Leila
Professor, BSOS-Geography; Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Professor, CMNS-Computer Science; Ph.D., Universita degli Studi di Perugia, 1977.

De Freitas Cardoso, Fabiana
Assistant Professor, AGNR-Animal & Avian Sciences; B.S., Federal University of Lavras, 2015; M.S., 2018; Ph.D., University of Illinois-Urbana/Champaign, 2022.

De Grano, Melanie L
Lecturer, BMGT-Decision, Operations & Information Technologies; B.S., Pennsylvania State University, 2002; M.S., 2004; D.Engin., 2007.

De Keyser, Robert M.
Professor Emeritus, ARHU-School of Languages, Literatures, and Cultures; M.A., Stanford University, 1982; Ph.D., 1986.

De Leo, Pierre
Assistant Professor, BSOS-Economics; B.A., University of Milan, 2011; M.A., 2013; M.A., Boston College, 2015; Ph.D., 2019.

De Loatch, Nicole T.
Director, BSOS-Sociology; Lecturer, BSOS-Sociology; B.A., University of Maryland-College Park, 2002; M.A., 2012; Ph.D., 2020.

De Lorenzo, William E.
Associate Professor Emeritus, EDUC-Teaching and Learning, Policy and Leadership; B.A., Montclair State University, 1959; M.A., 1964; Ph.D., Ohio State University, 1971.

De Los Reyes, Andres
Professor, BSOS-Psychology; B.S., Florida International University, 2001; B.A., 2001; M.S., Yale University, 2004; M.O., 2006; Ph.D., 2008.

De Pinillos, Hernan SM
Associate Professor Emeritus, ARHU-School of Languages, Literatures, and Cultures; B.A., University of Madrid, 1987; M.Phil., Columbia University, 1992.

De Saint Felix, Skye Cambre
Lecturer, ARHU-Communication; B.A., University of Arkansas-Fayetteville, 2015; M.A., 2017; Ph.D., University of Maryland-College Park, 2022.

Deane, Anil E.
Lecturer, UGST-HCOL-Gemstone Program; B.Tech., Indian Institute of Technology-Kanpur, 1979; M.S., Virginia Polytechnic Institute & State University, 1981; Ph.D., University of Colorado-Boulder, 1987.

Dearstyne, Bruce W.
Lecturer, INFO-College of Information Studies; B.A., Hartwick College, 1966; Ph.D., Syracuse University, 1974.

Decker, Stacey Ruth
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., University of Maryland-College Park, 2008.

Dedova, Larissa
Professor, ARHU-School of Music; M.Mus., Moscow State Conservatory, 1974; D.M.A., 1977.

Deffner, Sebastian
Adjunct Assistant Professor, CMNS-Physics-Joint Quantum Institute; B.S., Other, 2008; Ph.D., 2011; Ph.D., 2011.

Deinert, Emily Cranwell
Librarian II, LIBR-Libraries; B.A., Roanoke College, 2013; M.A., University of South Carolina-Columbia, 2017; M.L.S., 2017.

Deinert, Gregory William
Lecturer, ARHU-English; B.A., Grove City College, 2013; M.A., University of South Carolina-Columbia, 2016.

Delfino, Andrew S
Senior Lecturer, ARHU-English; B.A., University of California-Davis, 2002; M.A., Georgia State University/Perimeter College, 2007.

DeLio, Thomas J.
Professor, ARHU-School of Music; B.Mus., New England Conservatory of Music, 1972; Ph.D., Brown University, 1979.

Della Gatta, Carla
Associate Professor, ARHU-School of Theatre, Dance & Performance Studies; B.A., University of California-Berkeley, 1998; M.A., San Francisco State University, 2010; M.A., Northwestern University, 2012; D.F.A., 2015.

Delle Monache, Giovanni
Visiting Associate Professor, CMNS-Physics; M.S., University of Rome, 1992; Ph.D., Universita degli studi di Roma Tor Vergata, 2023.

Delwiche, Charles Francis
Professor, CMNS-Cell Biology & Molecular Genetics; Affiliate Professor, CMNS-Biology; B.A., University of California-Berkeley, 1984; Ph.D., University of Wisconsin-Madison, 1990.

Demaria, Laura
Professor, ARHU-School of Languages, Literatures, and Cultures; Affiliate Professor, ARHU-Dean-Latin American and Caribbean Studies Center; B.A., Universidad Nacional de Cordoba, 1988; M.A., Washington University in Saint Louis, 1990; Ph.D., 1997.

Demonte, Claudia
Professor Emerita, ARHU-Art; B.A., Notre Dame of Maryland University, 1969; M.F.A., Catholic University of America, 1971.

Demuren, Oludolapo Arnold
Lecturer, ARHU-Dean's-Living Learning Programs; B.A., Johns Hopkins University, 2015; M.F.A., Columbia University, 2015.

Dennison, Darlene Kathryn
Lecturer, BMGT-Accounting; B.S., Arizona State University, 1979; M.B.A., San Diego State University, 1995.

Dennison, William C.
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., University of Chicago, 1984.

Denny, Karen Ellen
Senior Lecturer, JOUR-Philip Merrill College of Journalism; B.S., University of Maryland-College Park, 1991.

DeNola, Paul
Lecturer, ARHU-School of Music; B.Mus., Indiana University, 2000; M.Mus., University of Southern California, 2003.

DePope, Leigh Ann
Librarian III, LIBR-Libraries; B.A., Pennsylvania State University, 1997; M.L.S., Clarion University of Pennsylvania, 2003.

Dernoeden, Peter H.
Professor Emeritus, AGNR-Plant Science & Landscape Architecture; B.S., Colorado State University-Fort Collins, 1970; M.S., 1976; Ph.D., University of Rhode Island, 1980.

Desai, Naman Kiran
Associate Clinical Professor, BMGT-Accounting; M.Acc., University of Alabama-Tuscaloosa, 2003; Ph.D., Florida State University, 2008.

Desai, Sonalde
Distinguished University Professor Emerita, BSOS-Sociology; B.A., University of Bombay, 1978; M.A., Case Western Reserve University, 1980; Ph.D., Stanford University, 1987.

DeShong, Philip R.
Professor Emeritus, CMNS-Chemistry & Biochemistry; Lecturer, UGST-HCOL-Gemstone Program; 1996-1997 Distinguished Scholar-Teacher. B.S., University of Texas-Austin, 1971; Ph.D., Massachusetts Institute of Technology, 1976.

Deshpande, Amol
Associate Chair, CMNS-Computer Science; Professor, CMNS-Computer Science; Professor, CMNS-Institute for Advanced Computer Studies; B.O., Indian Institute of Technology-Mumbai, 1998; B.S., 1998; M.S., University of California-Berkeley, 2001; Ph.D., 2004.

DeSilva, Alan W.
Professor Emeritus, CMNS-Physics; B.S., University of California-Los Angeles, 1954; Ph.D., University of California-Berkeley, 1961.

DeSoto, Maushami John
Lecturer, SPHL-Health Policy and Management; Ph.D./J.D., Savitribai Phule Pune University, 2004; M.H.A., University of Maryland-College Park, 2009.

DeStefano, Jeffrey J.
Professor, CMNS-Cell Biology & Molecular Genetics; B.S., University of Connecticut-all campuses, 1983; Ph.D., 1990.

Destler, I M Mac
Professor Emeritus, PLCY-School of Public Policy; B.A., Harvard University, 1961; M.O., Princeton University, 1965; Ph.D., 1971.

Devlin, Anna Gloria
Lecturer, BMGT-Exec MBA-Office of Online Programs; B.S., Johns Hopkins University, 2008; M.S., 2009; Sc.D., University of Maryland-College Park, 2014.

DeVoe, Don
Associate Chair, ENGR-Mechanical Engineering; Professor, ENGR-Mechanical Engineering; Affiliate Professor, ENGR-Chemical & Biomolecular Engineering; 2023-2024 Distinguished Scholar-Teacher. B.S., University of Maryland-College Park, 1991; M.S., 1993; Ph.D., University of California-Berkeley, 1997.

DeVoe, Howard J.
Associate Professor Emeritus, CMNS-Chemistry & Biochemistry; B.A., Oberlin College, 1955; Ph.D., Harvard University, 1960.

Dezso, Cristian
Area Chair, BMGT-Logistics, Business & Public Policy; Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Logistics, Business & Public Policy; B.S./M.S., Babes-Bolyai University, Cluj-Napoca, 1996; M.O., Central European University, 2000; D.O., New York University, 2006.

Dhanesh, Ganga S
Associate Professor, ARHU-Communication; B.A., University of Kerala, 1994; M.B.A., Cochin University of Scienc & Technology, 1997; Ph.D., National University of Singapore, 2011.

Dhulipala, Laxman J
Assistant Professor, CMNS-Computer Science; Assistant Professor, CMNS-Institute for Advanced Computer Studies; B.S., Carnegie Mellon University, 2014; Ph.D., 2020.

Diaz, Zaida M.
Librarian III, LIBR-Libraries; B.A., University of Puerto Rico-Rio Piedras, 1984; M.A., 1987.

Diaz-Mercado, Yancy
Associate Professor, ENGR-Mechanical Engineering; Affiliate Associate Professor, ENGR-Institute for Systems Research; B.S., University of Puerto Rico-Mayaguez, 2011; M.S., Georgia Institute of Technology, 2014; Ph.D., 2016.

DiCiesare, Leah
Librarian I, LIBR-Libraries; B.A., University of Denver, 2010; B.A., 2010; M.L.S., University of Illinois-Urbana/Champaign, 2022.

Dickerson, John Paul
Adjunct Associate Professor, CMNS-Computer Science; B.S., University of Maryland-College Park, 2008; B.S., 2008; M.S., Carnegie Mellon University, 2014; Ph.D., 2016.

Dickerson, Russell R.
Professor, CMNS-Atmospheric & Oceanic Science; Affiliate Professor, CMNS-Earth System Science Interdisciplinary Center; B.A., University of Chicago, 1975; M.S., University of Michigan-Ann Arbor, 1978; Ph.D., 1980.

Dickey, Seth
Assistant Professor, AGNR-Veterinary Medicine Program; B.S., Michigan State University, 2007; Ph.D., Johns Hopkins University, 2014.

Diemer, Benedikt
Assistant Professor, CMNS-Astronomy; M.S., University of Manchester, 2008; Ph.D., University of Illinois-Chicago, 2015.

Dienes, Keith Roger
Visiting Professor, CMNS-Physics; B.A., Princeton University, 1985; M.S., Cornell University, 1989; Ph.D., 1991.

Diep, Madeline
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.S., University of Nebraska-Lincoln, 2001; M.S., 2004; Ph.D., 2009.

Diker, Vedat G.
Principal Lecturer, INFO-College of Information Studies; B.S., Istanbul University, 1991; M.S., Bogazici University, 1995; M.S., Technical University of Istanbul, 1998; Ph.D., SUNY-Albany, 2003.

DiLutis, Robert
Professor, ARHU-School of Music; B.Mus., Juilliard School of Music, 1989.

diMarzo, Marino
Professor Emeritus, ENGR-Mechanical Engineering; D.Engin., University of Naples, 1976; Ph.D., Catholic University of America, 1982.

Dimitrakopoulos, Panagiotis
Associate Professor, ENGR-Chemical & Biomolecular Engineering; B.S., National Technical University of Athens, 1991; M.S., University of Illinois-Urbana/Champaign, 1996; Ph.D., 1998.

Dineen, Thomas
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.S., Rutgers University, 1995; M.S., American University, 1998.

Ding, Chengri
Professor, ARCH-School of Architecture, Planning, & Preservation; Professor, ARCH-Urban Studies & Planning Program; B.S., Beijing Normal University, 1986; M.S., The Chinese Academy of Sciences, 1989; Ph.D., University of Illinois-Urbana/Champaign, 1996.

Ding, Waverly
Associate Professor, BMGT-Robert H. Smith School of Business; Associate Professor, BMGT-Management & Organization; B.A., Beijing Foreign Studies University, 1993; M.A., 1996; M.A., New York University, 1999; Ph.D., University of Chicago, 2004; M.B.A., 2004.

Dinman, Jonathan D.
Director, CMNS-IBBR; Director, CMNS-IBBR; Professor, CMNS-Cell Biology & Molecular Genetics; B.O., Oberlin College, 1980; Ph.D., Johns Hopkins University, 1989.

Dively, Galen P. II
Professor Emeritus, CMNS-Entomology; B.S., Juniata College, 1966; M.S., Rutgers University, 1968; Ph.D., 1974.

Dixon, Bonnie Lynn
Principal Lecturer, CMNS-Chemistry & Biochemistry; B.A., University of New Hampshire, 1992; Ph.D., University of Vermont, 1998; M.S., University of Pennsylvania, 2001.

Dixon, Kara M
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., University of Maryland-College Park, 2014.

Doan, Long
Associate Professor, BSOS-Sociology; B.A., University of Georgia, 2009; M.A., Indiana University, 2010; M.S., 2013; Ph.D., 2016.

Doboszczak, Stefan
Senior Lecturer, CMNS-Mathematics; B.S., Rensselaer Polytechnic Institute, 2010; Ph.D., University of Maryland-College Park, 2016.

Doctor, Allan
Lecturer, UGST-HCOL-Gemstone Program; Adjunct Professor, ENGR-Fischell Department of Bioengineering; B.A., University of Virginia, 1984; M.D., 1989.

Dodge, Georgina
Vice President, PRES- Office of Diversity and Inclusion; B.A., University of California-Irvine, 1991; M.A., University of California-Los Angeles, 1993; Ph.D., 1996.

Dodson, Leah G
Assistant Professor, CMNS-Chemistry & Biochemistry; B.S., Case Western Reserve University, 2010; Ph.D., California Institute of Technology, 2016.

Doerr, John A.
Associate Professor Emeritus, AGNR-Animal & Avian Sciences; B.A., North Carolina State University, 1968; B.S., 1972; M.S., 1975; Ph.D., 1978.

Dohe, Kate
Librarian IV, LIBR-Libraries; M.L.S., University of Hawaii Maui College, 2009.

Doherty, Allison Virginia
Lecturer, ARHU-Communication; B.S., Clarion University of Pennsylvania, 2012; M.A., San Diego State University, 2017.

Doherty, Lillian E.
Professor Emerita, ARHU-Classics; B.A., St. Mary's College, 1974; M.A., University of Chicago, 1977; Ph.D., 1982.

Dolbilov, Mikhail
Associate Professor, ARHU-History; M.A., Voronezh State University, 1993; Ph.D., 1996.

Dolgopyat, Dmitry
Distinguished University Professor, CMNS-Mathematics; M.S., Moscow State University, 1994; Ph.D., Princeton University, 1997.

Donahue, Brandon J
Assistant Professor, ARHU-Art; B.F.A., Tennessee State University, 2009; M.F.A., University of Tennessee, 2013.

Donaldson, Bruce K.
Professor Emeritus, ENGR-Civil & Environmental Engineering; A.B., Columbia University, 1954; B.O., 1955; M.S., Wichita State University, 1962; M.O., 1963; Ph.D., University of Illinois-Urbana/Champaign, 1968.

Donawerth, Jane L.
Professor Emerita, ARHU-English; B.A., Miami University, 1969; M.A., University of Wisconsin-Madison, 1970; Ph.D., 1975.

Dooling, Robert J.
Professor Emeritus, BSOS-Psychology; 2002-2003 Distinguished Scholar-Teacher. B.S., Creighton University, 1967; M.S., St. Louis University, 1969; Ph.D., 1975.

Doran, Chad James
Lecturer, INFO-College of Information Studies; B.A., University of Notre Dame, 1999; M.B.A., Johns Hopkins University, 2006; M.Info.M., University of Maryland-College Park, 2010; Ph.D., 2015.

Dorfman, Jay Robert
Professor Emeritus, CMNS-Physics; B.A., Johns Hopkins University, 1957; Ph.D., 1961.

Dorner, Zachary
Associate Professor, ARHU-History; B.A., Dartmouth College, 2008; M.A., Brown University, 2011; Ph.D., 2016.

Dorothy, Michael Charles
Lecturer, SPHL-Kinesiology; B.S., University of Maryland-College Park, 2004.

Dorr, Bonnie J.
Professor Emerita, CMNS-Computer Science; B.A., Boston University, 1984; M.S., Massachusetts Institute of Technology, 1987; Ph.D., 1990.

Dotson, Charles O.
Professor Emeritus, SPHL-Kinesiology; B.A., Morehead State University, 1963; M.S., Purdue University-West Lafayette, 1964; Ph.D., 1968.

Dougherty, Lea Rose
Professor, BSOS-Psychology; B.A., University of Delaware, 2001; Ph.D., SUNY-Stony Brook, 2008.

Dougherty, Michael R
Chair, BSOS-Psychology; Professor, BSOS-Psychology; B.S., Kansas State University, 1993; M.S., University of Oklahoma, 1996; Ph.D., 1999.

Doughty, Shirelle Maya
Lecturer, ARHU-Meyerhoff Center-Israel Studies; B.A., University of Maryland-College Park, 2011; M.A., 2014.

Douglass, Larry W.
Professor Emeritus, AGNR-Animal & Avian Sciences; B.S., Purdue University-West Lafayette, 1964; M.S., 1966; Ph.D., Oregon State University, 1969.

Dow, Dawn Marie
Associate Professor, BSOS-Sociology; Associate Professor, BSOS-Criminology & Criminal Justice; B.A., Bryn Mawr College, 1996; J.D., Columbia University, 2000; M.A., University of California-Berkeley, 2007; Ph.D., 2012.

Dow-Burger, Kathy
Clinical Professor, BSOS-Hearing & Speech Sciences; B.A., University of Maryland-College Park, 1986; M.A., 1992.

Drabinski, John E.
Professor, BSOS-African American Studies; Professor, ARHU-English; B.A., Seattle University, 1991; M.A., University of Memphis, 1993; Ph.D., 1996.

Draganescu, Marilena
Lecturer, EDUC-Dean-Maryland English Institute; B.A., University of Bucharest, 1992; M.A., University of Illinois-Urbana/Champaign, 1999; M.A., 2001.

Dragt, Alex J.
Professor Emeritus, CMNS-Physics; A.B., Calvin College, 1958; Ph.D., University of California-Berkeley, 1963.

Drake, James F.
Distinguished University Professor, CMNS-Physics; Distinguished University Professor, CMNS-Institute for Research in Electronics & Applied Physics; Distinguished University Professor, CMNS-Institute for Physical Science & Technology; B.S., University of California-Los Angeles, 1969; M.S., 1972; Ph.D., 1975.

Drake, Steven E.
Lecturer, ARHU-Communication; B.S., University of Maryland-College Park, 1983; M.A., 1994.

Drake, Zach Mark
Lecturer, INFO-College of Information Studies; B.S., Kennesaw State University, 2015; M.A., George Mason University, 2017.

Drazen, Allan
Professor, BSOS-Economics; B.S., Massachusetts Institute of Technology, 1972; Ph.D., 1976.

Drechsel, Thomas Arne
Assistant Professor, BSOS-Economics; B.S., University of Frankfurt, 2010; M.S., Aberystwyth University, 2011; M.O., London School of Economics & Political Science, 2014; Ph.D., 2019.

Dreher, Mariam Jean
Professor Emerita, EDUC-Teaching and Learning, Policy and Leadership; B.A., University of California-Riverside, 1970; M.A., 1976; Ph.D., 1980.

Dresner, Martin E.
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Logistics, Business & Public Policy; B.Comm., University of Toronto, 1979; M.B.A., York University, 1980; Ph.D., University of British Columbia, 1989.

Drew, Howard Dennis
Professor Emeritus, CMNS-Physics; B.S., University of Pittsburgh, 1962; Ph.D., Cornell University, 1968.

Drosinos, David
Lecturer, ARHU-School of Music; B.Mus., Peabody Institute of the Johns Hopkins University, 1988.

Druin, Allison J.
Professor Emerita, INFO-College of Information Studies; B.F.A., Rhode Island School of Design, 1985; M.S., Massachusetts Institute of Technology, 1987; Ph.D., University of New Mexico-Albuquerque, 1997.

Drummond, Steven
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., University of Michigan-Ann Arbor, 1983; M.A., 1987; M.A., 1993.

Dubayah, Ralph O.
Professor, BSOS-Geography; A.B., University of California-Berkeley, 1982; M.A., University of California-Santa Barbara, 1985; Ph.D., 1991.

Dubinsky, Joan Elise
Lecturer, PLCY-Office of Executive Programs; J.D., University of Texas-Austin, 1979.

Dudash, Michele R.
Professor Emerita, CMNS-Biology; B.A., Millersville University, 1977; Ph.D., University of Illinois-Chicago, 1987.

Dudley, James
Professor Emeritus, EDUC-Counseling, Higher Education and Special Education; B.A., Southern Illinois University-Carbondale, 1951; M.S., 1957; Ed.D., University of Illinois-Urbana/Champaign, 1964.

Duffy, Pamela Chamblee
Lecturer, INFO-College of Information Studies; B.S., Mississippi State University, 1982.

Duke, Elizabeth M
Clinical Professor, PLCY-School of Public Policy; B.A., Rutgers University, 1958; M.A., Northwestern University, 1959; Ph.D., George Washington University, 1969.

Dumitras, Tudor
Associate Professor, ENGR-Electrical & Computer Engineering; Associate Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Associate Professor, CMNS-Computer Science; B.S., Polytechnic University of Bucharest, 2001; M.S., Carnegie Mellon University, 2003; Ph.D., 2008; Ph.D., 2010.

Dunbar, Angelica
Assistant Professor, BSOS-African American Studies; Affiliate Assistant Professor, BSOS-Psychology; B.A., University of Delaware, 2010; M.S., University of North Carolina-Greensboro, 2012; Ph.D., 2016.

Duncan, Candice M.
Assistant Professor, AGNR-Environmental Science & Technology; B.S., University of North Carolina-Greensboro, 2003; B.S., North Carolina Central University, 2005; M.S., 2008; Ph.D., University of Arizona, 2014.

Duncan, Gregg
Associate Professor, ENGR-Fischell Department of Bioengineering; B.S., Florida State University, 2009; Ph.D., Johns Hopkins University, 2014.

Duncan, James H.
Professor Emeritus, ENGR-Mechanical Engineering; 2004-2005 Distinguished Scholar-Teacher. B.S., Brown University, 1971; M.A., Johns Hopkins University, 1973; Ph.D., 1979.

Duncanson, Laura Innice
Associate Professor, BSOS-Geography; B.S., Queen's University at Kingston, 2007; M.S., University of Victoria, 2009; Ph.D., University of Maryland-College Park, 2015.

Dunham, Michael Jr.
Lecturer, EDUC-Counseling, Higher Education and Special Education; B.S., Gallaudet University, 2007; M.A., 2020.

Dunning, Claire
Associate Professor, PLCY-School of Public Policy; B.A., Dartmouth College, 2008; M.A., Harvard University, 2012; Ph.D., 2016.

Dunning, Eric M
Senior Lecturer, AGNR-Institute of Applied Agriculture; B.A., Rhodes College, 1994; M.A., University of Alabama-Tuscaloosa, 2010; Ph.D., 2012.

Duquette, Charles Medard
Lecturer, EDUC-Dean-Maryland English Institute; B.S., Georgetown University, 1978; M.A.-Teach., American University, 2006.

Duraiswami, Ramani
Professor, CMNS-Computer Science; Professor, CMNS-Institute for Advanced Computer Studies; B.S.-RT, Indian Institute of Technology-Mumbai, 1985; Ph.D., Johns Hopkins University, 1991.

Durbin, Allison Reisinger
Assistant Clinical Professor, ARHU-School of Music; B.Mus., University of Maryland-College Park, 2015; M.A., Columbia University, 2016; M.Ed., 2018; Ph.D., University of Maryland-College Park, 2023.

Dutt, Avik
Assistant Professor, ENGR-Mechanical Engineering; Assistant Professor, CMNS-Institute for Physical Science & Technology; B.O., Indian Institute of Technology-Kharagpur, 2011; M.Elect.E., Cornell University, 2015; D.O., 2017.

Dutta, Sanghamitra
Assistant Professor, ENGR-Electrical & Computer Engineering; Affiliate Assistant Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Assistant Professor, CMNS-Computer Science; B.Elect.E., Indian Institute of Technology-Kharagpur, 2015; M.S., Carnegie Mellon University, 2021; D.O., 2021.

Dutta, Sheetij
Adjunct Professor, ENGR-Chemical & Biomolecular Engineering; B.S., University of Lucknow, 1991; M.S., Savitribai Phule Pune University, 1993; Ph.D., University of Lucknow, 1998.

Dwivedi, Vivek Hari
Adjunct Assistant Professor, ENGR-Chemical & Biomolecular Engineering; B.S., University of Maryland-College Park, 1999; M.S., Bowie State University, 2002; M.S., University of Maryland-College Park, 2007; Ph.D., 2010.

Dwyer, Susan Jane
Associate Professor, ARHU-Philosophy; Affiliate Associate Professor, ARHU-Women, Gender and Sexuality Studies; B.A., University of Adelaide, 1985; Ph.D., Massachusetts Institute of Technology, 1991.

Dwyer, Thomas Bernard
Lecturer, ARCH-Real Estate Development; B.A., University of Maryland-College Park, 1985; M.S., Johns Hopkins University, 2001.

Dyer, Typhanye Vielka
Associate Professor, SPHL-Epidemiology & Biostatistics; B.A., University of California-Los Angeles, 1995; M.P.H., California State University-Long Beach, 2002; Ph.D., University of California-Los Angeles, 2009.

E

Eades, Caroline
Professor, ARHU-School of Languages, Literatures, and Cultures; M.A., Universite de Paris-Sorbonne, 1978; B.O., L'Ecole normale superieure de jeunes filles, 1979; M.O., University of Paris III, 1980; M.F.A., University of California-Los Angeles, 1982; M.O., Universite Pantheon-Assas Paris I, 1983; Ph.D., University of Paris III, 1987.

Eagle, W Ethan Lick
Lecturer, ENGR-Mechanical Engineering; B.S., University of Maryland-College Park, 2006; M.S., 2007; Ph.D., University of Michigan-Ann Arbor, 2012.

Eaker, Lisa
Assistant Clinical Professor, EDUC-Teaching and Learning, Policy and Leadership; B.S., Florida State University, 1984; M.S., 1987; Ph.D., Virginia Polytechnic Institute & State University, 2000; Ph.D., 2003.

Earl, James A.
Professor Emeritus, CMNS-Astronomy; B.S., Massachusetts Institute of Technology, 1953; Ph.D., 1957.

Eastman, Roger D.
Professor of the Practice, CMNS-Computer Science; B.S., University of Missouri-Columbia, 1980; M.S., University of Maryland-College Park, 1984; Ph.D., 1990.

Ebrahimian, Roohollah
Principal Lecturer, CMNS-Mathematics; Ph.D., Yale University, 2010.

Eckstein, Arthur
Distinguished University Professor Emeritus, ARHU-History; B.A., University of California-Los Angeles, 1968; M.A., 1970; Ph.D., University of California-Berkeley, 1978.

Economo, Evan P
Chair, CMNS-Entomology; Professor, CMNS-Entomology; B.S., University of Arizona, 2002; Ph.D., University of Texas-Austin, 2009.

Eddington, Angelica
Lecturer, BSOS-Psychology; B.S., University of Texas-Arlington, 2007; M.S/Ph.D., Oklahoma State University-Oklahoma City, 2012.

Edelstein, Lauren Michelle
Senior Lecturer, ARHU-Communication; B.A., University of Pennsylvania, 2004; M.A., Georgetown University, 2008.

Edmonds, Christina M.
Lecturer, EDUC-Human Development and Quantitative Methodology; Sc.D., University of Maryland-College Park, 2005.

Edmonds, James A.
College Park Professor, PLCY-Center for Global Sustainability; B.S., Kalamazoo College, 1969; M.S., Duke University, 1972; Ph.D., 1974.

Edmonds, Sadie MacDonald
Lecturer, BMGT-Dean-Career Management; B.S., West Virginia University, 2006.

Egan, Emily Catherine
Associate Professor, ARHU-Art History & Archaeology; B.A., Brown University, 2002; M.Phil., University of Cambridge, 2005; M.A., University of Cincinnati, 2008; Ph.D., 2015.

Egan, Toby
Associate Professor, PLCY-School of Public Policy; B.A., University of Wisconsin-Milwaukee, 1990; M.A., University of Minnesota-Twin Cities, 1992; Ph.D., 2002.

Egel, Andrew L.
Professor Emeritus, EDUC-Counseling, Higher Education and Special Education; B.A., University of California-Santa Barbara, 1976; M.A., 1977; Ph.D., 1979.

Egelanian, Nick
Lecturer, ARCH-Real Estate Development; B.S., University of Maryland-College Park, 1979; J.D., George Mason University, 1982.

Ehrlich, Gertrude
Professor Emerita, CMNS-Mathematics; B.S., Georgia College and State University, 1943; M.A., University of North Carolina-Chapel Hill, 1945; Ph.D., University of Tennessee-Knoxville, 1953.

Ehrlich, Max
Adjunct Assistant Professor, CMNS-Institute for Advanced Computer Studies; Adjunct Assistant Professor, CMNS-Computer Science; B.S., Rutgers University, 2011; M.S., Stevens Institute of Technology, 2015; Ph.D., University of Maryland-College Park, 2022.

Ehrman, Sheryl H.
Professor Emerita, ENGR-Chemical & Biomolecular Engineering; B.S., University of California-Santa Barbara, 1991; Ph.D., University of California-Los Angeles, 1997.

Eichhorn, Bryan W.
Professor Emeritus, CMNS-Chemistry & Biochemistry; B.A., Rollins College, 1983; Ph.D., Indiana University, 1987.

Eifert, Justin D
Lecturer, ARCH-Architecture Program; B.S., University of Kansas, 2013; M.S., 2014.

Einstein, Theodore L
Professor Emeritus, CMNS-Physics; B.A., Harvard University, 1969; M.A., 1969; Ph.D., University of Pennsylvania, 1973.

Eisenbach, Ronit
Professor, ARCH-School of Architecture, Planning, & Preservation; Professor, ARCH-Architecture Program; B.F.A., Rhode Island School of Design, 1985; B.Arch., 1986; M.Arch., Cranbrook Academy of Art, 1993.

Eisenstein, Edward
Associate Professor, ENGR-Fischell Department of Bioengineering; Associate Professor, CMNS-IBBR; Associate Professor, CMNS-IBBR; B.S., St. Joseph's College, 1979; Ph.D., Georgetown University, 1985.

El Hilali, Mounya
Visiting Professor, ENGR-Institute for Systems Research; M.S., University of Maryland-College Park, 2003; Ph.D., 2004.

El-Sayed, Najib M.
Professor, CMNS-Cell Biology & Molecular Genetics; Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Professor, CMNS-Institute for Health Computing; B.S., American University of Beirut-Lebanon, 1985; M.S., Tulane University, 1987; Ph.D., Yale University, 1993.

Elby, Andrew
Professor, EDUC-Teaching and Learning, Policy and Leadership; Affiliate Professor, CMNS-Physics; B.A., Harvard University, 1988; M.Phil., University of Cambridge, 1989; M.A., University of California-Berkeley, 1991; Ph.D., 1995; M.A., 1997.

Eldredge, Ginette Alomar
Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., University of Puerto Rico-Rio Piedras, 1994; M.A., 2003; Ph.D., University of Maryland-College Park, 2017.

Eley, George Jr.
Associate Professor Emeritus, EDUC-Teaching and Learning, Policy and Leadership; B.S., Ohio State University, 1952; M.Ed., 1957; Ph.D., 1966.

Eliot, John
Professor Emeritus, EDUC-Human Development and Quantitative Methodology; A.B., Harvard University, 1956; M.A.-Teach., 1958; Ed.D., Stanford University, 1966.

Elkashouty, Mennatallah Fouad Mohamed Ahmed
Visiting Assistant Professor, ENGR-Mechanical Engineering; B.S., Arab Academy for Science & Technology, 2008; M.S., 2012; Ph.D., Lancaster University, 2020.

Elkin, Stephen L.
Professor Emeritus, BSOS-Government & Politics; B.A., Alfred University, 1961; M.A., Harvard University, 1963; Ph.D., 1969.

Ellingson, Robert G.
Professor Emeritus, CMNS-Atmospheric & Oceanic Science; B.S., Florida State University, 1967; M.S., 1968; Ph.D., 1972.

Ellis, Christopher D.
Professor, AGNR-Plant Science & Landscape Architecture; B.S., University of Massachusetts-Amherst, 1988; M.L.Arch., Cornell University, 1993; Ph.D., University of Illinois-Urbana/Champaign, 1998.

Ellis, Emilie
Lecturer, SPHL-Family Science; B.A., McGill University-Montreal, 2013; B.Mus., McGill University, 2013; M.A., University of San Diego, 2015; Ph.D., University of Georgia, 2022.

Ellis, Marina Luray
Lecturer, ARHU-English; B.A., Indiana University of Pennsylvania, 2018; Ph.D., University of Maryland-College Park, 2023.

Ellis, Rachel
Professor, BSOS-Criminology & Criminal Justice; B.A., Georgetown University, 2010; M.A., University of Pennsylvania, 2012; Ph.D., 2017.

Ellis, Robert L.
Professor Emeritus, CMNS-Mathematics; A.B., Miami University, 1960; Ph.D., Duke University, 1966.

Ellsworth, Robert W.
Visiting Professor, CMNS-Physics; B.S., Yale University, 1960; Ph.D., University of Rochester, 1965.

Elmaghraby, Wedad Jasmine
Assistant Dean, BMGT-Decision, Operations & Information Technologies; Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Decision, Operations & Information Technologies; B.S., Cornell University, 1992; B.A., 1992; M.S., University of California-Berkeley, 1995; Ph.D., 1998.

Elman, Howard C.
Professor, CMNS-Computer Science; Professor, CMNS-Institute for Advanced Computer Studies; B.A., Columbia University, 1975; M.A., 1977; M.S., Yale University, 1979; Ph.D., 1982.

Elmore, Andrew James
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., Brown University, 2003.

Elmqvist, Niklas E
Adjunct Professor, INFO-College of Information Studies; Adjunct Professor, CMNS-Computer Science; M.S., Chalmers University of Technology, 2001; B.S., 2001; Ph.D., 2006.

Elpus, Kenneth
Associate Director, ARHU-School of Music; Professor, ARHU-School of Music; B.Mus., College of New Jersey, 2001; M.Mus., Northwestern University, 2006; Ph.D., 2011.

Elsing, Evelyn L.
Professor Emerita, ARHU-School of Music; B.Mus., University of Michigan-Ann Arbor, 1970; M.Mus., 1971.

Eltinge, John
Adjunct Associate Professor, BSOS-Joint Program in Survey Methodology; B.S., Vanderbilt University, 1982; M.S., Purdue University-West Lafayette, 1984; Ph.D., Iowa State University, 1987.

ElZoghbi, Riem
Lecturer, ARCH-Urban Studies & Planning Program; B.S., American University-Cairo, 1995; M.S., Columbia University, 1999; Ph.D., University of California-Berkeley, 2018.

Emad, Fawzi P. Sr.
Professor Emeritus, ENGR-Electrical & Computer Engineering; B.S., American University of Beirut-Lebanon, 1961; M.S., Northwestern University, 1963; Ph.D., 1966.

Emad, Fawzi Jr.
Principal Lecturer, CMNS-Computer Science; A.A., Prince Georges Community College, 1990; B.S., University of Maryland-College Park, 1992; M.A., 1997.

Emmert, Elizabeth
Lecturer, CMNS-College of Computer, Math & Natural Sciences; Ph.D., University of Wisconsin-Madison, 1999.

Ennis, Catherine D.
Professor Emerita, SPHL-Kinesiology; B.S., University of Lynchburg, 1975; M.S., University of North Carolina-Greensboro, 1977; Ph.D., University of Georgia, 1984.

Eno, Sarah C.
Professor, CMNS-Physics; Professor, SVPAAP-Office of Undergraduate Research; 2014-2015 Distinguished Scholar-Teacher. B.A., Gettysburg College, 1984; M.A., University of Rochester, 1986; Ph.D., 1990.

Enoch, Jessica
Professor, ARHU-English; B.A., University of Iowa, 1996; M.A., Pennsylvania State University, 1999; Ph.D., 2003.

Epanchin-Niell, Becky
Associate Professor, AGNR-Agricultural & Resource Economics; B.S., Stanford University, 1997; M.S., University of Nevada-Reno, 2001; M.S., 2003; Ph.D., University of California-Davis, 2009.

Ephremides, Anthony
Distinguished University Professor Emeritus, ENGR-Electrical & Computer Engineering; B.S., National Technical University of Athens, 1967; M.S., 1969; Ph.D., Princeton University, 1971.

Epstein, Meredith Brooke
Principal Lecturer, AGNR-Institute of Applied Agriculture; B.A., St. Mary's College of Maryland, 2008; M.S., Tufts University, 2013.

Epstein, Norman B.
Professor Emeritus, SPHL-Family Science; B.A., University of California-Los Angeles, 1969; M.A., 1970; Ph.D., 1974.

Erdman, Richard A.
Professor Emeritus, AGNR-Animal & Avian Sciences; B.S., University of Wisconsin-River Falls, 1974; M.S., University of Kentucky, 1977; Ph.D., 1979.

Erete, Sheena
Associate Professor, INFO-College of Information Studies; Affiliate Associate Professor, CMNS-Computer Science; Affiliate Associate Professor, CMNS-AIM; B.S., Spelman College, 2005; M.S., Georgia Institute of Technology, 2007; Ph.D., Northwestern University, 2013.

Ernst, Thomas H
Assistant Professor, BMGT-Robert H. Smith School of Business; Assistant Professor, BMGT-Finance; B.A., University of Wisconsin-Madison, 2015; D.O., Massachusetts Institute of Technology, 2020.

Erwin, John Enos
Chair, AGNR-Plant Science & Landscape Architecture; Professor, AGNR-Plant Science & Landscape Architecture; B.S., Delaware Valley College of Science & Agriculture, 1983; M.S., Michigan State University, 1986; Ph.D., 1989.

Eshleman, Keith N.
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., Massachusetts Institute of Technology, 1985.

Espindola, Anahi
Associate Professor, CMNS-Entomology; M.S., Universite de Neuchatel, 2006; Ph.D., 2010.

Espino, Michelle M
Associate Professor, EDUC-Counseling, Higher Education and Special Education; B.A., St. Mary's University, 1996; M.A., Bowling Green State University, 1998; Ph.D., University of Arizona, 2008.

Espy-Wilson, Carol Y.
Professor, ENGR-Electrical & Computer Engineering; Professor, ENGR-Institute for Systems Research; 2012-2013 Distinguished Scholar-Teacher. B.S., Stanford University, 1979; M.S., Massachusetts Institute of Technology, 1981; M.Elect.E., 1984; Ph.D., 1987.

Estes, Alexander Stewart
Assistant Professor, BMGT-Robert H. Smith School of Business; Assistant Professor, ENGR-Institute for Systems Research; Assistant Professor, BMGT-Decision, Operations & Information Technologies; B.S., University of Nebraska-Lincoln, 2013; Ph.D., University of Maryland-College Park, 2018.

Etlin, Richard A.
Distinguished University Professor Emeritus, ARCH-School of Architecture, Planning, & Preservation; A.B., Princeton University, 1969; M.Arch., 1972; Ph.D., 1978.

Eubanks, Segun
Professor of the Practice, EDUC-College of Education; B.A., University of Massachusetts-Amherst, 1989; M.S., Springfield College, 1990; Ed.D., University of Maryland-College Park, 2012.

Eun, Jongwan
Assistant Professor, ENGR-Civil & Environmental Engineering; B.S., Yonsei University-Seoul, 2002; M.S., 2007; M.S., University of Texas-Austin, 2010; Ph.D., University of Wisconsin-Madison, 2014.

Evans, Gerard Emmett
Lecturer, PLCY-School of Public Policy; B.S., Frostburg State University, 1977; M.A., University of Maryland-College Park, 1983; J.D., University of Maryland at Baltimore, 1985.

Evans, Michael N.
Professor, CMNS-Geology; Professor, CMNS-Earth System Science Interdisciplinary Center; Affiliate Professor, CMNS-Atmospheric & Oceanic Science; B.A., Harvard University, 1992; Ph.D., Columbia University, 1999.

Evans, William C.
Lecturer, ARHU-School of Music; B.S., Clarion University of Pennsylvania, 1976; M.Mus., Johns Hopkins University, 1978.

Eveleigh, Timothy John
Lecturer, BMGT-Decision, Operations & Information Technologies; Lecturer, ENGR-Maryland Applied Graduate Engineering; B.S., University of Delaware, 1982; M.S., 1984; A.S., Community College of the Air Force, 1985; Ph.D., George Washington University, 2005.

Everett, Jeffrey
Lecturer, ARHU-Art; B.F.A., American University, 1999; M.F.A., School of Visual Arts, 2004.

Evers, Philip Todd
Associate Professor, BMGT-Robert H. Smith School of Business; Associate Professor, BMGT-Logistics, Business & Public Policy; B.S., Trine University, 1987; M.B.A., University of Notre Dame, 1988; Ph.D., University of Minnesota-Twin Cities, 1993.

Everts, Kathryne L.
Professor, AGNR-Plant Science & Landscape Architecture; B.S., Colorado State University-Fort Collins, 1981; M.S., 1984; Ph.D., Michigan State University, 1989.

Ewing, Annemarie Mott
Lecturer, ARHU-English; B.A., University of Pennsylvania, 1999; M.S., Northwestern University, 2001.

Ezban, Michael
Associate Clinical Professor, ARCH-Architecture Program; B.S., University of Virginia, 1998; M.Arch., University of Michigan-Ann Arbor, 2007; M.L.Arch., Harvard University, 2013.

F

Fabian, Ellen S.
Professor Emerita, EDUC-Counseling, Higher Education and Special Education; B.A., University of Wisconsin-Madison, 1973; M.A., 1980; Ph.D., University of Maryland-College Park, 1988.

Fagan, Bill
Distinguished University Professor, CMNS-Biology; 2010-2011 Distinguished Scholar-Teacher. B.A., University of Delaware, 1992; Ph.D., University of Washington-Seattle, 1996.

Fagan, Drew S.
Clinical Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., American University, 2001; M.A., San Diego State University, 2005; Ed.D., Columbia University, 2013.

Fahnestock, Jeanne D.
Professor Emerita, ARHU-English; B.A., University of Illinois-Urbana/Champaign, 1966; M.A., Indiana University, 1967; Ph.D., University of London, 1970.

Fakharifar, Mostafa
Lecturer, ARCH-Architecture Program; B.S., Islamic Azad University, 2005; M.S., Semnan University Science and Technology Park, 2010; Ph.D., Missouri University of Science & Technology, 2015.

Falconier, Mariana Karin
Professor, SPHL-Family Science; B.S., Universidad de Buenos Aires, 1992; M.S., University of Maryland-College Park, 2002; Ph.D., 2005.

Falk, William W.
Professor Emeritus, BSOS-Sociology; B.A., North Texas State University, 1969; M.A., 1970; Ph.D., Texas A&M University-College Station, 1975.

Fallon, Daniel
Professor Emeritus, PLCY-School of Public Policy; B.A., Antioch College, 1961; M.A., University of Virginia, 1963; Ph.D., 1965.

Falvey, Daniel E.
Professor, CMNS-Chemistry & Biochemistry; B.S., North Dakota State University-Fargo, 1983; Ph.D., University of Illinois-Urbana/Champaign, 1988.

Falvo, Joseph D.
Associate Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., Loyola University, 1974; M.A., Catholic University of America, 1977; M.A., 1979; M.A., Johns Hopkins University, 1984; Ph.D., 1986.

Fang, Adriane
Associate Professor, ARHU-School of Theatre, Dance & Performance Studies; B.A., University of Wisconsin-Stevens Point, 1997; M.F.A., George Mason University, 2009.

Fanning, Delvin S.
Professor Emeritus, AGNR-Plant Science & Landscape Architecture; B.S., Cornell University, 1954; M.S., 1959; Ph.D., University of Wisconsin-Madison, 1964.

Faradji, Sara
Lecturer, ARHU-English; B.A., Carnegie Mellon University, 2013; M.A., 2014.

Faraji-Rad, Ali
Assistant Professor, BMGT-Robert H. Smith School of Business; Assistant Professor, BMGT-Marketing; B.S., Iran University of Science & Technology, 2005; Ph.D., BI Norwegian Business School, 2012.

Farcuh Yuri, Macarena Patricia
Assistant Professor, AGNR-Plant Science & Landscape Architecture; B.S., Universidad de Chile, 2005; M.S., 2007; Ph.D., University of California-Davis, 2017.

Fard, Pedram J.
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.S., Sharif University of Technology, 1991; M.S., University of Maryland-College Park, 1997; M.S., Johns Hopkins University, 2004; Ph.D., University of Maryland-College Park, 2007.

Fardanesh, M Bagher
Lecturer, PLCY-Office of Executive Programs; M.P.A., University of Colorado-Boulder, 1977; B.S., 1977; Ph.D., 1984.

Farman, Jason A.
Professor, ARHU-American Studies; B.A., Westmont College, 2000; B.A., 2000; M.A., Claremont Graduate University, 2002; Ph.D., University of California-Los Angeles, 2006.

Farquhar, James
Chair, CMNS-Geology; Distinguished University Professor, CMNS-Geology; Distinguished University Professor, CMNS-Earth System Science Interdisciplinary Center; B.S., Washington & Lee University, 1987; M.S., University of Chicago, 1990; Ph.D., University of Alberta-Edmonton, 1995.

Farrell, Sinead Louise
Associate Professor, BSOS-Geography; Associate Professor, CMNS-Atmospheric & Oceanic Science; M.S., University of London, 2002; Ph.D., 2007.

Farshchi, Nima
Lecturer, BMGT-Management & Organization; B.S., University of Maryland-College Park, 2014.

Farvardin, Nariman
Professor Emeritus, ENGR-Electrical & Computer Engineering; B.S., Rensselaer Polytechnic Institute, 1979; M.S., 1980; Ph.D., 1983.

Fass, Daniel
Director, UGST-Army ROTC; Lecturer, UGST-Army ROTC; B.A., University of New Mexico-Albuquerque, 2003; M.A., Webster University, 2020.

Fassinger, Ruth E.
Professor Emerita, EDUC-Counseling, Higher Education and Special Education; B.A., SUNY-College at Fredonia, 1973; M.A., 1978; M.A., Ohio State University, 1984; Ph.D., 1987.

Fatemi, Fredrik K
Adjunct Professor, CMNS-Physics; B.A., University of Virginia, 1993; Ph.D., 1998.

Fathy, Hosam Kadry
Professor, ENGR-Mechanical Engineering; B.S., American University-Cairo, 1997; M.S., Kansas State University, 1999; Ph.D., University of Michigan-Ann Arbor, 2003.

Faulkender, Michael
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Finance; B.S., University of California-Davis, 1994; Ph.D., Northwestern University, 2002.

Fawole, Kristen Esohe
Lecturer, ENGR-Chemical & Biomolecular Engineering; B.S., Cornell University, 2017.

Fayad, Bassam
Professor, CMNS-Mathematics; B.S., Ecole Polytechnique, 1995; M.S., Universite Paris-Saclay, 1996; Ph.D., Ecole Polytechnique, 2000.

Fazelpour, Mohammad
Lecturer, ENGR-Mechanical Engineering; B.Mech.E., Islamic Azad University, 2005; M.S., Iran University of Science & Technology, 2008; Ph.D., Clemson University, 2016.

Fei, Yingwei
Adjunct Professor, CMNS-Geology; B.S., Zhejiang University, 1982; Ph.D., CUNY-Graduate Center, 1989.

Feijo, Jose A.
Professor, CMNS-Cell Biology & Molecular Genetics; B.S., University of Lisbon, 1986; M.S., 1989; Ph.D., 1995.

Feizi, Soheil
Associate Professor, CMNS-Computer Science; Associate Professor, CMNS-Institute for Advanced Computer Studies; M.S., Massachusetts Institute of Technology, 2010; Ph.D., 2016.

Felbain, Leslie C
Associate Professor Emerita, ARHU-School of Theatre, Dance & Performance Studies; B.A., University of Wisconsin-Madison, 1975; B.S., 1975; M.F.A., Ecole Jacques Lecoq, 1980.

Feldman, Naomi
Professor, ARHU-Linguistics; Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Professor, CMNS-Computer Science; B.A., University of Chicago, 2003; Ph.D., Brown University, 2011.

Feldman, Robert H.
Professor Emeritus, SPHL-Behavioral & Community Health; B.A., CUNY-Brooklyn College, 1964; M.A., Pennsylvania State University, 1966; M.S., Syracuse University, 1972; Ph.D., 1974.

Feldstein, Mark
Professor, JOUR-Philip Merrill College of Journalism; Affiliate Professor, ARHU-American Studies; B.A., Harvard University, 1979; Ph.D., University of North Carolina-Chapel Hill, 2002.

Fendley, Ed
Lecturer, UGST-Dean-Federal Fellows and Global Fellows; B.S., University of Illinois-Urbana/Champaign, 1987; M.N.R.M., Virginia Polytechnic Institute & State University, 2012.

Feng, Jinjuan
Visiting Professor, INFO-College of Information Studies; B.A., Huazhong University of Science & Technology, 1996; M.A., Central University of Finance & Economics, 1999; Ph.D., University of Maryland-Baltimore County, 2005.

Feng, Kuishuang
Associate Professor, BSOS-Geography; B.S., Heilongjiang University, 2003; B.A., University of Leeds, 2006; M.O., 2007; Ph.D., 2011.

Fenlon, Katrina Simone
Assistant Professor, INFO-College of Information Studies; M.L.S., University of Illinois-Urbana/Champaign, 2009; Ph.D., 2017.

Fennell, Tiara M
Assistant Clinical Professor, SPHL-Family Science; M.S., Northwestern University, 2018.

Fenselau, Catherine
Distinguished University Professor Emerita, CMNS-Chemistry & Biochemistry; A.B., Bryn Mawr College, 1961; Ph.D., Stanford University, 1965.

Fenster, Charles B.
Professor Emeritus, CMNS-Biology; B.A., Amherst College, 1979; Ph.D., University of Chicago, 1988.

Ferdinand, Jason Max
Associate Professor, ARHU-School of Music; B.A., Oakwood University, 1999; M.A., Morgan State University, 2001; D.M.A., University of Maryland-College Park, 2015.

Ferguson, Carinna
Assistant Clinical Professor, SVPAAP-Office of Undergraduate Research; B.A., West Virginia University, 2018; M.A., 2020; Ph.D., 2023.

Fernandes, Jonathan Francis
Senior Lecturer, CMNS-Mathematics; M.S., Indian Institute of Science-Bangalore, 2011; B.S., 2011; Ph.D., University of Maryland-College Park, 2019.

Fernandez, Eduardo
Lecturer, BSOS-Anthropology; B.S., Universidad Argentina John F Kennedy, 1987; M.S., Pontifical Catholic University of Peru-Lima, 2012; Ph.D., 2016.

Ferraro, Rosellina
Associate Professor, BMGT-Robert H. Smith School of Business; Associate Professor, BMGT-Marketing; B.A., Cornell University, 1994; M.S., 1998; Ph.D., Duke University, 2005.

Fetter, Steve
Professor, PLCY-School of Public Policy; B.S., Massachusetts Institute of Technology, 1981; M.S., University of California-Berkeley, 1983; Ph.D., 1985.

Fey, James T.
Professor Emeritus, CMNS-Mathematics; B.S., University of Wisconsin-Madison, 1962; M.S., 1963; Ph.D., Columbia University, 1968.

Fidyk, Steve
Lecturer, ARHU-School of Music; B.Mus.Ed., Wilkes University, 1990; M.Mus., University of Maryland-College Park, 2002.

Filiz Ozbay, Emel
Professor, BSOS-Economics; B.S., Bogazici University, 1998; M.A., 2000; M.Phil., Columbia University, 2004; Ph.D., 2007.

Filler, Kenneth Paul
Assistant Clinical Professor, ARCH-Architecture Program; B.S., University of Maryland-College Park, 2014; M.Arch., 2016.

Findlay, David B.
Lecturer, ENGR-Mechanical Engineering; Lecturer, ENGR-Maryland Applied Graduate Engineering; Lecturer, ENGR-Mechanical Engineering; B.S., SUNY-College at Fredonia, 1983; B.S., SUNY-University at Buffalo, 1985; M.S., Pennsylvania State University, 1989; Ph.D., Georgia Institute of Technology, 1999.

Fink, Edward Laurence
Professor Emeritus, ARHU-Communication; B.A., Columbia University, 1966; M.S., University of Wisconsin-Madison, 1969; Ph.D., 1975.

Finkelstein, Barbara J.
Professor Emerita, EDUC-Teaching and Learning, Policy and Leadership; B.A., Barnard College, 1959; M.A., Columbia University, 1960; Ed.D., 1970.

Finkle, Aaron
Lecturer, BSOS-Economics; B.A., Reed College, 1998; M.A., University of Washington-Seattle, 2002; Ph.D., 2004.

Finsterbusch, Kurt
Professor Emeritus, BSOS-Sociology; B.A., Princeton University, 1957; B.D., Grace College and Seminary, 1960; Ph.D., Columbia University, 1969.

Fiorellino, Nicole
Assistant Professor, AGNR-Plant Science & Landscape Architecture; B.S., Rutgers University, 2008; M.S., University of Maryland-College Park, 2010; Ph.D., 2015.

Fischbach, Gerald F.
Professor Emeritus, ARHU-School of Music; B.F.A., University of Wisconsin-Milwaukee, 1964; M.Mus., University of Illinois-Urbana/Champaign, 1965; D.M.A., University of Iowa, 1972.

Fish, Jessica N.
Associate Professor, SPHL-Family Science; B.S., Central Michigan University, 2008; M.S., Purdue University-Calumet, 2010; Ph.D., Florida State University, 2014.

Fisher, Amy L.
Lecturer, AGNR-Institute of Applied Agriculture; M.A., George Mason University, 2008.

Fisher, Cortney
Lecturer, BSOS-Criminology & Criminal Justice; B.A., Pennsylvania State University, 1999; J.D., New England School of Law-Boston, 2002; Ph.D., University of Maryland-College Park, 2015.

Fisher, Dana R
Professor Emerita, BSOS-Sociology; B.A., Princeton University, 1993; M.A., University of Wisconsin-Madison, 1999; Ph.D., 2001.

Fisher, John P
Chair, ENGR-Fischell Department of Bioengineering; Professor, ENGR-Fischell Department of Bioengineering; Affiliate Professor, ENGR-Chemical & Biomolecular Engineering; 2021-2022 Distinguished Scholar-Teacher. B.S., Johns Hopkins University, 1995; M.S., University of Cincinnati, 1998; Ph.D., Rice University, 2003.

Fisk, Lennard A
College Park Professor, CMNS-Physics; B.A., Cornell University, 1965; Ph.D., University of California-San Diego, 1969.

Fitzgerald, Mark T
Senior Lecturer, ARHU-English; B.A., Franklin & Marshall College, 1994; M.F.A., George Mason University, 2001.

Fitzpatrick, Matthew C.
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., University of Tennessee, 2008.

Fitzpatrick, Patrick M.
Professor Emeritus, CMNS-Mathematics; B.A., Rutgers University, 1966; Ph.D., 1971.

Flamm, Emily Lyons
Senior Lecturer, ARHU-English; B.A., Arizona State University, 2004; M.F.A., University of Maryland-College Park, 2013.

Flank, Sharon
Lecturer, ENGR-Maryland Technology Enterprise Institute; B.A., Cornell University, 1979; M.A., Harvard University, 1982; Ph.D., 1995.

Flatau, Alison
Chair, ENGR-Aerospace Engineering; Professor, ENGR-Aerospace Engineering; B.S., University of Connecticut-Avery Point, 1978; M.S., University of Utah, 1985; Ph.D., 1990.

Flatter, Charles H.
Associate Professor Emeritus, EDUC-Human Development and Quantitative Methodology; B.A., DePauw University, 1961; Ed.D., University of Maryland-College Park, 1968; Ed.D., University of Toledo, 1965.

Fleming, Julius B Jr.
Associate Professor, ARHU-English; B.A., Tougaloo College, 2009; M.A., University of Pennsylvania, 2011; Ph.D., 2014.

Fleming, Kelly Elizabeth
Assistant Clinical Professor, AGNR-Plant Science & Landscape Architecture; B.L.A., University of Maryland-College Park, 1996; M.L.Arch., Harvard University, 2004; M.Des., 2012.

Fleming, Paul Burton
Lecturer, EDUC-College of Education; B.A., College of Wooster, 1987; M.Ed., George Mason University, 1991; Ed.D., Vanderbilt University, 2010.

Fletcher, Nicholas Keech
Lecturer, CMNS-Biology; B.A., University of California-Berkeley, 2009; Ph.D., Cornell University, 2019.

Flieger, Verlyn B.
Professor Emerita, ARHU-English; B.A., George Washington University, 1955; M.A., Catholic University of America, 1972; Ph.D., 1977.

Flores, Alejandro
Assistant Professor, BSOS-Government & Politics; Affiliate Assistant Professor, BSOS-Psychology; B.A., University of Chicago, 2007; M.A., 2009; Ph.D., 2021.

Flores, Thomas Martin
Lecturer, AGNR-Nutrition and Food Science; B.S., University of Maryland-College Park, 1992; M.S., University of California-Davis, 1997.

Floyd, Joni Jones
Librarian II, LIBR-Libraries; B.A., American University, 1989; M.A., University of California-Los Angeles, 1994; Ph.D., 1998; M.L.S., University of Maryland-College Park, 2006.

Fogle, David P.
Professor Emeritus, ARCH-School of Architecture, Planning, & Preservation; A.B., Princeton University, 1951; M.O., University of California-Berkeley, 1958.

Fohringer, Christian
Adjunct Assistant Professor, BSOS-Geography; B.S., Universitat Innsbruck, 2014; M.S., Other, 2016; Ph.D., Swedish University of Agro Sciences-Uppsala, 2021.

Folsom, Elizabeth
Lecturer, BMGT-Accounting; B.A., Lehigh University, 1988; M.B.A., Georgia State University/Perimeter College, 1992.

Ford, Bill
Lecturer, BMGT-Accounting; B.B.A., California State University-Sacramento, 1981; M.B.A., University of Maryland-College Park, 2014.

Ford, Constance J
Lecturer, JOUR-Philip Merrill College of Journalism; B.S., University of Maryland-College Park, 1977; M.A., SUNY-Stony Brook, 1979.

Forman, Barton
Visiting Associate Professor, ENGR-Civil & Environmental Engineering; B.S., University of Virginia, 1998; M.S., University of California-Berkeley, 1999; Ph.D., University of California-Los Angeles, 2010.

Forni, Giovanni
Professor, CMNS-Mathematics; M.O., Universita di Bologna, 1988; Ph.D., Princeton University, 1993.

Forrester, Mark A.
Principal Lecturer, ARHU-English; B.A., Lycoming College, 1992; M.A., University of Maryland-College Park, 1994.

Foster, Daniel H.
Lecturer, ARHU-School of Music; B.Mus., Oberlin College, 1991.

Foster, Daniel Landon
Lecturer, ARHU-Communication; B.A., Northern Arizona University, 2003; B.A., 2003; Ph.D., University of Denver, 2013.

Foster, Elizabeth
Lecturer, EDUC-College of Education; B.A., Trinity College, 1990; M.A., Harvard University, 1997.

Foster, Jeffrey S.
Adjunct Professor, CMNS-Computer Science; B.S., Cornell University, 1995; M.Eng., 1996; Ph.D., University of California-Berkeley, 2002.

Fotouhi, Babak
Adjunct Assistant Professor, INFO-College of Information Studies; B.S., Sharif University of Technology, 2010; M.S., University of Waterloo, 2011; Ph.D., McGill University-Montreal, 2014; M.A., 2015.

Fouladi, Negin
Associate Clinical Professor, SPHL-Health Policy and Management; B.S., University of Houston-Clear Lake, 1996; M.S., 2002; M.P.H., University of Texas - Health Science Center - Houston, 2008; Ph.D., 2012.

Fourkas, John T.
Associate Dean, CMNS-College of Computer, Math & Natural Sciences; Professor, CMNS-Chemistry & Biochemistry; Professor, CMNS-Institute for Physical Science & Technology; M.S., California Institute of Technology, 1986; B.S., 1986; Ph.D., Stanford University, 1991; Ph.D., 1992.

Fourney, William L.
Professor Emeritus, ENGR-Mechanical Engineering; B.S., West Virginia University, 1962; M.S., 1963; Ph.D., University of Illinois-Urbana/Champaign, 1966.

Fox, Caitlin Moira
Senior Lecturer, CMNS-Biology; B.A., Oberlin College, 2008; Ph.D., Johns Hopkins University, 2016.

Fox, Nathan A.
Distinguished University Professor, EDUC-Human Development and Quantitative Methodology; 2005-2006 Distinguished Scholar-Teacher. A.B., Williams College, 1970; Ph.D., Harvard University, 1975.

Fox, William
Assistant Professor, CMNS-Physics; Assistant Professor, CMNS-Institute for Research in Electronics & Applied Physics; B.A., Princeton University, 2001; Ph.D., Cambridge College, 2009; Ph.D., Massachusetts Institute of Technology, 2009.

Fraistat, Neil R.
Professor Emeritus, ARHU-English; B.A., University of Connecticut-all campuses, 1974; M.A., University of Pennsylvania, 1976; Ph.D., 1979.

Francescato, Guido
Professor Emeritus, ARCH-School of Architecture, Planning, & Preservation; B.Arch., University of Illinois-Urbana/Champaign, 1959; M.Arch., 1966.

Franceschi, Herve J
Senior Lecturer, CMNS-Computer Science; M.S., Stanford University, 1982; M.S., 1982; M.S., University of Maryland-Baltimore County, 1999.

Franch, Belen
Adjunct Associate Professor, BSOS-Geography; B.S., Universitat de Valencia, 2007; M.S., 2009; Ph.D., 2013.

Francis, Mary Ann
Lecturer, INFO-College of Information Studies; B.A., Trinity Washington University, 1975; M.L.S., University of Maryland-College Park, 1981.

Francis, Nikolas Alejandro
Assistant Professor, CMNS-Biology; B.A., University of Iowa, 2003; Ph.D., Harvard-MIT Program in Health Science & Tech, 2011.

Franco, Jeffrey Irving
Lecturer, PLCY-School of Public Policy; B.A., American University, 1997; M.B.A., 2005.

Franco, Marisa Gina
Lecturer, UGST-HCOL-University Honors Program; B.A., New York University, 2011; M.S., University of Maryland-College Park, 2013; Ph.D., 2017.

Franco Sevilla, Manuel
Assistant Professor, CMNS-Physics; B.S., Universidad Pontifica Comillas, 2004; Ph.D., Stanford University, 2012.

Frank, Cindy G.
Librarian III, LIBR-Libraries; B.A., Lafayette College, 1982; M.Arch., University of Maryland-College Park, 1987.

Franklin, Debra Gray
Lecturer, CMNS-Mathematics; B.A., College of William & Mary, 1978; A.A., Prince Georges Community College, 1978; M.A., University of Maryland-College Park, 1981.

Franklin, Manoj
Associate Professor, ENGR-Electrical & Computer Engineering; B.S., University of Kerala, 1984; M.S., University of Wisconsin-Madison, 1990; Ph.D., 1993.

Franzini, Luisa
Professor, SPHL-Health Policy and Management; B.S., London School of Economics & Political Science, 1977; M.S., 1978; Ph.D., 1983.

Frauwirth, Kenneth
Senior Lecturer, CMNS-Cell Biology & Molecular Genetics; B.S., Brown University, 1992; Ph.D., University of California-Berkeley, 1997.

Frederiksen, Elke P.
Professor Emerita, ARHU-School of Languages, Literatures, and Cultures; B.A., University of Kiel, 1962; M.A., 1962; M.A., University of Wisconsin-Madison, 1965; Ph.D., University of Colorado-Boulder, 1973.

Freed, Eric O.
Adjunct Associate Professor, CMNS-Cell Biology & Molecular Genetics; B.S., Pennsylvania State University, 1985; Ph.D., University of Wisconsin-Madison, 1990.

Freedman, Dylan
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., Harvard University, 2015; M.A., Stanford University, 2018.

Freidenberg, Judith N.
Professor Emerita, BSOS-Anthropology; M.A., Universidad de Buenos Aires, 1969; Ph.D., CUNY-Graduate School & University Center, 1978.

Freidlin, Mark I.
Distinguished University Professor Emeritus, CMNS-Mathematics; M.S., Moscow State University, 1959; Ph.D., Russian Academy of Sciences, 1962; D.O., Moscow State University, 1970.

Freishtat, Steve
Lecturer, BMGT-Management & Organization; Lecturer, BMGT-Management & Organization; B.A., University of Maryland-College Park, 1991.

Frels, Judy K.
Clinical Professor, BMGT-Marketing; M.B.A., University of Texas-Austin, 1988; Ph.D., 1999.

Frengs, Julia Lynne
Adjunct Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., University of Oklahoma, 2005; B.A., 2005; M.A., 2009; Ph.D., University of Maryland-College Park, 2013.

Fretz, Thomas A.
Dean Emeritus, AGNR-Plant Science & Landscape Architecture; B.S., University of Maryland-College Park, 1964; M.S., University of Delaware, 1966; Ph.D., 1970.

Freund, David
Associate Professor, ARHU-History; Affiliate Associate Professor, ARHU-American Studies; B.A., University of California-Berkeley, 1987; M.A., Columbia University, 1991; Ph.D., University of Michigan-Ann Arbor, 1999.

Frezzo, Dennis Charles
Senior Lecturer, INFO-College of Information Studies; M.Elect.E., Stanford University, 1994; B.E., Brown University, 1996; Ph.D./J.D., University of Hawaii Maui College, 2009.

Frias Martinez, Vanessa
Professor, INFO-College of Information Studies; Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Professor, CMNS-Computer Science; B.S., Universidad de Valladolid, 1999; M.S., Columbia University, 2003; Ph.D., 2008.

Friedel, Robert D.
Professor Emeritus, ARHU-History; B.A., Brown University, 1971; M.S., University of London, 1972; Ph.D., Johns Hopkins University, 1977.

Friedman, Adina
Lecturer, ARHU-Meyerhoff Center-Israel Studies; B.S., San Jose State University, 1992; M.A., Tel Aviv University, 2001; Ph.D., George Mason University, 2006.

Friedman, Lee
Director, CMNS-Chemistry & Biochemistry; Principal Lecturer, CMNS-Chemistry & Biochemistry; B.A., Johns Hopkins University, 1995; M.S., California Institute of Technology, 1997; Ph.D., University of Virginia, 2002.

Friedman, Michael
Lecturer, SPHL-Kinesiology; B.A., Tufts University, 1992; M.A., University of Maryland-College Park, 2000; Ph.D., 2008.

Fries-Britt, Sharon LaVonne
Professor, EDUC-Counseling, Higher Education and Special Education; 2019-2020 Distinguished Scholar-Teacher. B.S., University of Maryland-College Park, 1981; M.A., Ohio State University, 1983; Ph.D., University of Maryland-College Park, 1994.

Frisch, Andrea Marie
Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., University of Wisconsin-Madison, 1988; Ph.D., University of California-Berkeley, 1996.

Frisof, Sarah
Associate Professor, ARHU-School of Music; B.Mus., University of Rochester, 2004; M.Mus., Juilliard School, 2006; D.M.A., University of Michigan-Ann Arbor, 2009.

Fritz, Megan Lindsay
Associate Professor, CMNS-Entomology; Affiliate Associate Professor, CMNS-Institute for Advanced Computer Studies; B.S., Michigan State University, 2005; B.A., 2005; Ph.D., 2011.

Fromm, Megan Elizabeth
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., Colorado Mesa University, 2005; Ph.D., University of Maryland-College Park, 2010.

Fryer, Craig Scott
Associate Professor, SPHL-Behavioral & Community Health; B.S., Case Western Reserve University, 1992; M.P.H., University of Pittsburgh, 1997; D.Pub.Hlth., Columbia University, 2006.

Fu, Michael C.
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Decision, Operations & Information Technologies; Professor, ENGR-Institute for Systems Research; Affiliate Professor, ENGR-Electrical & Computer Engineering; 2004-2005 Distinguished Scholar-Teacher. M.S., Massachusetts Institute of Technology, 1985; B.S., 1985; M.S., Harvard University, 1986; Ph.D., 1989.

Fuchsman, Clara Agnes
Visiting Assistant Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., University of Washington-Seattle, 2010.

Fuegi, John B.
Professor Emeritus, ARHU-School of Languages, Literatures, and Cultures; B.A., Pomona College, 1961; Ph.D., University of Southern California, 1967.

Fuentes, Gabrielle L
Associate Professor, ARHU-English; B.A., Brown University, 2008; M.F.A., University of Colorado-Boulder, 2013; Ph.D., University of Georgia, 2017.

Fuentevilla, Daphne Anne
Adjunct Assistant Professor, ENGR-Chemical & Biomolecular Engineering; B.S., University of Maryland-College Park, 2002; M.S., 2007; Ph.D., 2012.

Fuerst, Thomas
Professor, CMNS-Cell Biology & Molecular Genetics; Professor, CMNS-IBBR; Professor, CMNS-IBBR; B.A., University of California-Berkeley, 1980; Ph.D., Cornell University, 1984; M.B.A., George Washington University, 1992.

Fuller, Kenneth Donald
Lecturer, BMGT-Finance; B.A., SUNY-University at Buffalo, 1983; M.A., 1984; M.B.A., University of Chicago, 1990.

Furst, Mary Beth
Clinical Professor, BMGT-Marketing; B.A., Loyola University Maryland, 1988; M.B.A., 1993; Ed.D., Johns Hopkins University, 2016.

Fushman, David
Professor, CMNS-Chemistry & Biochemistry; Affiliate Professor, CMNS-Institute for Advanced Computer Studies; M.S., Kazan State University, 1978; Ph.D., 1985.

G

Gabriel, Steven Adam
Professor, ENGR-Mechanical Engineering; Affiliate Professor, ENGR-Institute for Systems Research; Affiliate Professor, PLCY-School of Public Policy; B.A., Middlebury College, 1981; M.S., Stanford University, 1984; M.A., Johns Hopkins University, 1989; Ph.D., 1992.

Gabrielli, Julie E
Associate Clinical Professor, ARCH-Architecture Program; B.S., University of Virginia, 1984; M.Arch., 1987.

Gaines, Robert N.
Professor Emeritus, ARHU-Communication; B.A., University of California-Davis, 1972; M.A., 1975; Ph.D., University of Iowa, 1982.

Galczynski, Michael Christopher
Senior Lecturer, ENGR-Dean-Keystone Program; B.S., University of Maryland-College Park, 2012; M.S., University of California-Berkeley, 2013.

Galecka, Agnieszka Joanna
Lecturer, BMGT-Dean-Career Management; B.S., University of Maryland-College Park, 2014; B.S., 2014.

Galiani, Sebastian F.
Professor, BSOS-Economics; B.A., Universidad de Buenos Aires, 1990; M.A., Universidad Torcuato Di Tella, 1992; Ph.D., University of Oxford, 2000.

Galiano, Anita
Lecturer, BMGT-Dean-Career Management; B.S., George Washington University, 2003.

Galindo, Claudia Lucia
Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., Pontifical Catholic University of Peru-Lima, 1996; Ph.D., Pennsylvania State University, 2005.

Galitski, Victor M
Professor, CMNS-Physics; B.S., Moscow Institute of Engineering & Physics, 1997; M.S., 1998; Ph.D., 1999; Ph.D., University of Minnesota-Twin Cities, 2002.

Galledari, Manizhe
Lecturer, ARHU-School of Languages, Literatures, and Cultures; M.A., Shahid Beheshti University, 1999.

Galliano, John Sr.
Lecturer, INFO-College of Information Studies; B.S., City University of Seattle, 1998; M.S., Bowie State College, 2001; Ph.D., College of William & Mary, 2017.

Gallo, Henry Travis
Assistant Professor, AGNR-Environmental Science & Technology; B.S., Texas A&M University-Corpus Christi, 2005; M.S., 2008; Ph.D., Colorado State University-Fort Collins, 2016.

Gambhir, Vineet
Lecturer, BMGT-Management & Organization; Lecturer, BMGT-Management & Organization; B.S., Delhi Technological University, 1993; M.B.A., University of Maryland-College Park, 1996.

Gammons, Rachel
Librarian IV, LIBR-Libraries; B.A., University of Tennessee-Knoxville, 2010; M.L.S., University of Tennessee, 2012; M.A., West Chester State College, 2014; Ph.D., University of Maryland-College Park, 2024.

Gandhi, Alka
Senior Lecturer, BSOS-Economics; B.A., Duke University, 1994; M.A., University of Kansas, 1996; Ph.D., Ohio State University, 2003.

Gandolfo, Yuriko
Lecturer, ARHU-School of Music; B.A., San Diego State University, 1984; M.A., George Washington University, 1986.

Ganginis DelPino, Heather Victoria
Lecturer, BSOS-Psychology; B.S., University of Maryland-College Park, 2004; M.S., 2008; Ph.D., 2011.

Gannier, Odile
Adjunct Professor, ARHU-School of Languages, Literatures, and Cultures; B.S./M.S., Ecole Normale Superieure de Fontenay-Aux, 1985; Ph.D., University of Bordeaux, 1993.

Gannon, Martin J.
Professor Emeritus, BMGT-Robert H. Smith School of Business; B.A., University of Scranton, 1961; Ph.D., Columbia University, 1969.

Gantt, Elisabeth
Distinguished University Professor Emerita, CMNS-Cell Biology & Molecular Genetics; B.A., Blackburn College, 1958; M.S., Northwestern University, 1960; Ph.D., 1963.

Gao, Ge
Assistant Professor, INFO-College of Information Studies; Assistant Professor, CMNS-Institute for Advanced Computer Studies; B.S., Peking University, 2007; M.A., 2010; Ph.D., Cornell University, 2017.

Gao, George
Visiting Clinical Professor, BMGT-Finance; B.A., Hangzhou University, 2001; M.B.A., University of Chicago, 2009; Ph.D., 2010; M.S., University of Tennessee-Knoxville, 2022.

Gao, Ruohan
Assistant Professor, CMNS-Computer Science; B.E., Chinese University of Hong Kong, 2015; Ph.D., University of Texas-Austin, 2021.

Gard, Arianna
Assistant Professor, BSOS-Psychology; B.A., University of California-Los Angeles, 2010; Ph.D., University of Michigan-Ann Arbor, 2019.

Gardner, Albert H.
Associate Professor Emeritus, EDUC-Human Development and Quantitative Methodology; B.S., SUNY-College at Cortland, 1958; M.A., Syracuse University, 1964; Ph.D., 1967.

Gardner, Amy E.
Clinical Professor Emerita, ARCH-School of Architecture, Planning, & Preservation; Clinical Professor, ARCH-Architecture Program; B.S., University of Virginia, 1981; M.Arch., 1985.

Gardner, Leland
Principal Lecturer, BMGT-Logistics, Business & Public Policy; B.S., University of Maryland-College Park, 1970; M.B.A., 1976.

Garfinkel, Chloe Frost
Lecturer, CMNS-Entomology; B.S., University of Maryland-College Park, 2018; Ph.D., University of Colorado-Boulder, 2023.

Garnier, Stephan
Lecturer, ARHU-Communication; B.A., Universite Paul Valery, 2001; M.A., Universite de Paris-Sorbonne, 2004; M.P.S., University of Maryland-College Park, 2023.

Garnier, Xavier
Adjunct Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., Ecole Normale Superieure de Fontenay-Aux, 1981; M.A., Nanterre University, 1982; Ph.D., Universite de Paris-Sorbonne, 1992.

Garza, Mary Alice
Visiting Assistant Professor, SPHL-Behavioral & Community Health; B.A., University of California-San Diego, 1974; M.P.H., San Diego State University, 1989; Ph.D., Johns Hopkins University, 2002.

Gasarch, William
Professor, CMNS-Computer Science; B.S., SUNY-Stony Brook, 1980; M.S., Harvard University, 1982; Ph.D., 1985.

Gashi, Qendrim
Visiting Professor, CMNS-Mathematics; B.A., University of Prishtina, 2002; M.A., University of Cambridge, 2003; Ph.D., University of Chicago, 2008.

Gass, Saul I.
Professor Emeritus, BMGT-Robert H. Smith School of Business; Ph.D., University of California-Berkeley, 1965.

Gates, Sylvester James Jr.
Distinguished University Professor, CMNS-Physics; Distinguished University Professor, PLCY-School of Public Policy; 2002-2003 Distinguished Scholar-Teacher. B.S., Massachusetts Institute of Technology, 1973; Ph.D., 1977.

Gathings, Jennifer L
Librarian II, LIBR-Libraries; B.A., Indiana University, 2000; M.L.S., University of Pittsburgh, 2002.

Gatlin, Jessica V
Assistant Professor, ARHU-Art; B.F.A., Florida State University, 2009; M.F.A., University of Tennessee, 2017.

Gaudry, Quentin
Visiting Associate Professor, CMNS-Biology; B.S., Emory University, 2002; Ph.D., University of California-San Diego, 2008.

Gaul, Anny
Assistant Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., Yale University, 2007; M.A., Georgetown University, 2012; Ph.D., 2019.

Gavagni, Alessandra
Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., University of Florence, 1985; M.A., Luiss Guido Carli University, 1988.

Gaycken, Oliver
Associate Professor, ARHU-English; B.A., Princeton University, 1994; M.A., University of Chicago, 1996; Ph.D., 2005.

Gayton, Cynthia M
Lecturer, ENGR-Civil-Center for Excellence on Project Management; B.A., George Washington University, 1984; J.D., George Mason University, 1995.

Gebremariam, Hailu Bantu
Lecturer, CMNS-Physics; B.S., Addis Ababa University, 1992; M.S., 1996; M.S., Syracuse University, 2000; Ph.D., University of Maryland-College Park, 2005.

Gekker, Paul C.
Distinguished University Professor, ARHU-School of Music; B.Mus., University of Rochester, 1976; M.Mus., University of Maryland-College Park, 1981.

Gelfand, Michele Joy
Distinguished University Professor Emerita, BSOS-Psychology; B.A., Colgate University, 1989; M.A., University of Illinois-Urbana/Champaign, 1992; Ph.D., 1996.

Gelman, Boris
Visiting Associate Professor, CMNS-Physics; B.A., Yeshiva University, 1996; M.S., University of Maryland-College Park, 2000; Ph.D., 2002.

Gelso, Charles J.
Professor Emeritus, BSOS-Psychology; B.S., Bloomsburg University of Pennsylvania, 1963; M.S., Florida State University, 1964; Ph.D., Ohio State University, 1970.

Genovese, Ilse
Lecturer, ARHU-Communication; M.A., Charles University, 1974; B.A., University of Maryland-College Park, 2016; M.A., University of Baltimore, 2021.

Gensheimer, Maryl B
Associate Professor, ARHU-Art History & Archaeology; Ph.D., New York University, 2013.

Gentili, Rodolphe J.
Associate Professor, SPHL-Kinesiology; Affiliate Associate Professor, ENGR-Institute for Systems Research; B.S., University of Burgundy, 1997; M.S., 1999; Ph.D., 2005.

Gentry, James W.
Professor Emeritus, ENGR-Chemical & Biomolecular Engineering; B.S., Oklahoma State University-Stillwater, 1961; M.S., University of Birmingham, 1963; Ph.D., University of Texas-Austin, 1969.

Geores, Martha E.
Associate Professor Emerita, BSOS-Geography; B.A., Bates College, 1973; Ph.D., University of North Carolina-Chapel Hill, 1993; J.D., New York University, 1977.

George, Melinda G.
Lecturer, EDUC-College of Education; B.A., Vassar College, 1990; M.P.A., American University, 1995.

Georgievska-Shine, Aneta
Senior Lecturer, ARHU-Art History & Archaeology; B.A., Yugoslavia Cyzel & Methodius University, 1986; M.A., University of Maryland-College Park, 1993; Ph.D., 1999.

Gerhardt, Pamela Jean
Principal Lecturer, ARHU-English; B.S., University of Missouri-Columbia, 1983; M.F.A., Virginia Commonwealth University, 1993.

German, Jennifer Rebecca
Lecturer, SPHL-Dean-Public Health Science; B.S., Cedar Crest College, 2005; Ph.D., University of Maryland-College Park, 2013.

Gerus-Vernola, Zhanna R
Senior Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., Moscow State University, 1992; M.A., University of Maryland-College Park, 2001; M.A., 2001.

Gessler, Paul Joseph
Lecturer, JOUR-Philip Merrill College of Journalism; M.A., Johns Hopkins University, 2016.

Gete, Yantenew Gedle
Lecturer, ENGR-Fischell Department of Bioengineering; B.S., Metropolitan State University of Denver, 2012; Ph.D., University of Maryland-College Park, 2021.

Getoor, Lise
Adjunct Professor, CMNS-Computer Science; B.S., University of California-Santa Barbara, 1986; M.S., University of California-Berkeley, 1989; Ph.D., Stanford University, 2002.

Getrich, Christina Marisa
Associate Professor, BSOS-Anthropology; B.A., College of Wooster, 1997; M.A., Northern Arizona University, 2001; Ph.D., University of New Mexico-Albuquerque, 2008.

Gettman, Hilary J.
Lecturer, BMGT-Executive MBA; B.A., Eastern Nazarene College, 1992; J.D., Harvard University Extension School, 1995.

Ghammraoui, Bahaa
Visiting Lecturer, ENGR-Fischell Department of Bioengineering; B.S., Lebanese University-Beirut, 2008; M.S., Universite Blaise Pascal, 2009; Ph.D., Institut National des Science Appliquees de Lyon, 2012.

Ghanem, Mostafa
Assistant Professor, AGNR-Veterinary Medicine Program; B.S., Alexandria University, 2007; M.S., 2010; Ph.D., Ohio State University, 2017.

Gharipour, Mohammad
Area Chair, ARCH-Architecture Program; Professor, ARCH-School of Architecture, Planning, & Preservation; Professor, ARCH-Architecture Program; B.Arch., University of Tehran, 1999; M.Arch., 2001; Ph.D., Georgia Institute of Technology, 2009.

Ghebrehawariat, Stefanos
Lecturer, BMGT-Decision, Operations & Information Technologies; B.O., Metropolitan State University of Denver, 2005; M.B.A., University of Maryland-College Park, 2010.

Ghodssi, Reza
Executive Director, ENGR-A. James Clark School of Engineering; Distinguished University Professor, ENGR-Electrical & Computer Engineering; Professor, ENGR-Institute for Systems Research; Professor, ENGR-A. James Clark School of Engineering; Affiliate Professor, ENGR-Fischell Department of Bioengineering; 2014-2015 Distinguished Scholar-Teacher. B.S., University of Wisconsin-Madison, 1990; M.S., 1992; Ph.D., 1996.

Gholampour, Amin
Professor, CMNS-Mathematics; B.S., Sharif University of Technology, 2000; M.S., 2002; Ph.D., University of British Columbia, 2008.

Gibson, Amelia N.
Associate Professor, INFO-College of Information Studies; B.A., Dartmouth College, 2002; M.S., Florida State University, 2007; Ph.D., 2013.

Gibson, Robert L.
Professor Emeritus, ARHU-School of Music; B.Mus., University of Miami, 1972; M.Mus., Catholic University of America, 1975; D.M.A., University of Maryland-College Park, 1980.

Giebelhausen, Robin
Assistant Professor, ARHU-School of Music; B.Mus., University of Illinois-Urbana/Champaign, 2004; M.Mus., Northwestern University, 2008; Ph.D., Michigan State University, 2015.

Gilbert, James B.
Distinguished University Professor Emeritus, ARHU-History; B.A., Carleton College, 1961; M.A., University of Wisconsin-Madison, 1963; Ph.D., 1966.

Gill, Douglas E.
Professor Emeritus, CMNS-Biology; B.S., Marietta College, 1965; M.A., University of Michigan-Ann Arbor, 1967; Ph.D., 1971.

Gill, Jadvir
Lecturer, BSOS-Psychology; B.A., Central Washington University, 2019; M.A., Seattle Pacific University, 2021; Ph.D., 2023.

Gill, Meredith Jane
Professor Emerita, ARHU-Art History & Archaeology; B.A., University of Melbourne, 1980; B.A., 1981; M.A., Princeton University, 1985; Ph.D., 1991.

Gillespie, Patti P.
Professor Emerita, ARHU-School of Theatre, Dance & Performance Studies; B.S., University of Kentucky, 1958; M.A., Western Kentucky University, 1962; Ph.D., Indiana University, 1970.

Gillett, Cary L.
Lecturer, BMGT-Decision, Operations & Information Technologies; B.A., University of Maryland-College Park, 1998.

Gilmore, Brian Guy
Senior Lecturer, BSOS-Dean-MLAW Programs; B.S., Frostburg State University, 1987; J.D., University of the District of Columbia, 1992.

Gimpel, James G.
Professor, BSOS-Government & Politics; B.A., Drake University, 1984; M.A., University of Toronto, 1985; Ph.D., University of Chicago, 1990.

Ginsberg, Sharona
Librarian II, LIBR-Libraries; B.A., Ithaca College, 2008; M.L.S., University of Michigan-Ann Arbor, 2013.

Giovacchini, Saverio
Professor, ARHU-History; B.A., Smith College, 1985; M.A., University of Florence, 1990; Ph.D., New York University, 1998.

Gironzetti, Elisa
Associate Professor, ARHU-School of Languages, Literatures, and Cultures; Affiliate Associate Professor, ARHU-Dean-MD Language Science Center; B.A., Universita' Cattolica del Sacro Cuore, Milan, Italy, 2006; M.A., Universidad d' Alicant, 2007; M.A., University of Milan, 2010; Ph.D., Universidad d' Alicant, 2013; Ph.D., Texas A&M University-Commerce, 2017.

Girvan, Michelle
Professor, CMNS-Physics; Professor, CMNS-Institute for Research in Electronics & Applied Physics; Professor, CMNS-Institute for Physical Science & Technology; 2022-2023 Distinguished Scholar-Teacher. B.S., Massachusetts Institute of Technology, 1999; Ph.D., Cornell University, 2004; Ph.D., 2004.

Glancy, Sarah
Assistant Professor, SPHL-Kinesiology; B.S., Rutgers University, 2008; Ph.D., Arizona State University, 2012.

Glanville, Peter
Associate Professor, ARHU-School of Languages, Literatures, and Cultures; Affiliate Associate Professor, ARHU-Dean-MD Language Science Center; B.A., Aberystwyth University, 1997; M.S., University of Edinburgh, 2001; Ph.D., University of Texas-Austin, 2011.

Glass, James M.
Professor Emeritus, BSOS-Government & Politics; B.A., University of California-Berkeley, 1961; M.A., 1964; Ph.D., 1970.

Glasz, Kevin W.
Lecturer, SPHL-Dean-Public Health Science; B.S., University of Nebraska at Omaha, 1986; M.H.A., Virginia Commonwealth University, 1995; M.S., Air University, 2010; M.S., National Defense University, 2015.

Glaz, Harland M.
Professor Emeritus, CMNS-Mathematics; B.A., University of Pennsylvania, 1971; M.A., University of California-Berkeley, 1975; Ph.D., 1977.

Glenn, Donald Scott
Associate Professor Emeritus, AGNR-Plant Science & Landscape Architecture; B.S., University of Kentucky, 1975; Ph.D., 1980.

Glenn, Jason
Adjunct Professor, CMNS-Astronomy; B.S., University of New Mexico-Albuquerque, 1992; Ph.D., University of Arizona, 1997.

Glennan, Kathy
Librarian IV, LIBR-Libraries; B.A., Swarthmore College, 1982; M.A./M.L.S., University of California-Los Angeles, 1985.

Glibert, Patricia M.
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; B.A., Skidmore College, 1974; M.S., University of New Hampshire, 1976; Ph.D., Harvard University, 1982.

Gloeckler, George
Distinguished University Professor Emeritus, CMNS-Physics; B.S., University of Chicago, 1960; M.S., 1961; Ph.D., 1965.

Glotfelter, Angela Marie
Assistant Professor, ARHU-English; B.A., York College of Pennsylvania, 2015; M.A., Miami University, 2017; Ph.D., 2022.

Glover, Elbert D.
Professor Emeritus, SPHL-Behavioral & Community Health; B.A., Texas Tech University, 1969; B.S., 1969; M.A., Texas A&M University-Kingsville, 1972; Ph.D., Texas Woman's University, 1977.

Godley, Louise E
Lecturer, EDUC-Dean-Maryland English Institute; B.A., University of Winchester, 1994; M.A., American University, 2015.

Godoy, Sebastian
Lecturer, SPHL-Dean-Public Health Science; B.S., Texas A&M University-Central Texas, 2020; M.P.H., University of Maryland-College Park, 2022.

Goering, Jacob D.
Professor Emeritus, EDUC-Human Development and Quantitative Methodology; B.A., Bethel College, 1941; Ph.D., University of Maryland-College Park, 1959.

Goffney, Imani Dominique
Assistant Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., Spelman College, 2000; M.A., University of Michigan-Ann Arbor, 2002; Ph.D., 2010.

Goger, Joanna B.
Principal Lecturer, AGNR-College of Agriculture & Natural Resources; B.A., Duke University, 1995; J.D., University of Maryland-College Park, 2000.

Golbeck, Jennifer Ann
Professor, INFO-College of Information Studies; Affiliate Professor, CMNS-Computer Science; B.S., University of Chicago, 1999; M.S., 2001; Ph.D., University of Maryland-College Park, 2005.

Gold, Paul B.
Associate Professor, EDUC-Counseling, Higher Education and Special Education; B.A., Wesleyan University, 1981; M.A., University of Texas-Austin, 1984; Ph.D., University of Missouri-Columbia, 1994.

Gold, Robert S.
Professor Emeritus, SPHL-Behavioral & Community Health; A.S., Orange County Community College, 1967; B.S., SUNY-College at Brockport, 1969; M.S., 1971; Ph.D., University of Oregon, 1976; D.Pub.Hlth., University of Texas Health Science Dental Center-Houston, 1980.

Goldberg, Deborah Sweet
Senior Lecturer, ENGR-Fischell Department of Bioengineering; B.S., University of Maryland-College Park, 2006; Ph.D., 2010.

Goldberg, Jessica
Associate Professor, BSOS-Economics; B.A., Stanford University, 2001; M.P.A., Princeton University, 2005; M.A., University of Michigan-Ann Arbor, 2008; Ph.D., 2011.

Golden, Bruce L.
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Decision, Operations & Information Technologies; Affiliate Professor, ENGR-Civil & Environmental Engineering; 2000-2001 Distinguished Scholar-Teacher. B.A., University of Pennsylvania, 1972; M.O., Massachusetts Institute of Technology, 1974; Ph.D., 1976.

Goldfarb, Brent
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Management & Organization; B.A., Tel Aviv University, 1995; M.S., 1996; Ph.D., Stanford University, 2002.

Goldhar, Julius
Professor, ENGR-Electrical & Computer Engineering; B.S., Massachusetts Institute of Technology, 1971; Ph.D., 1976.

Goldman, Aaron
Lecturer, ARHU-School of Music; B.Mus., University of Rochester, 1999.

Goldman, William Mark
Professor, CMNS-Mathematics; 2007-2008 Distinguished Scholar-Teacher. A.B., Princeton University, 1977; Ph.D., University of California-Berkeley, 1980.

Goldschmidt, Elizabeth
Adjunct Assistant Professor, CMNS-Physics; B.A., Harvard University, 2006; Ph.D., University of Maryland-College Park, 2014.

Goldsman, Neil
Professor, ENGR-Electrical & Computer Engineering; B.A., Cornell University, 1981; M.Elect.E., 1983; Ph.D., 1988.

Goldsmith, Dan
Lecturer, BMGT-Marketing; B.A., University of Maryland-College Park, 2003; M.B.A., 2016.

Goldsmith, Peter
Lecturer, ARCH-Real Estate Development; B.A., University of Maryland-College Park, 2004; B.S.-DH, 2004; J.D., University of Maryland at Baltimore, 2012.

Goldstein, Jay D.
Senior Lecturer, SPHL-Kinesiology; B.S., Tulane University, 1986; M.A., University of Maryland-College Park, 2005; Ph.D., 2015.

Goldstein, Rachel Elizabeth Rosenberg
Assistant Professor, SPHL-Global, Environmental, and Occupational Health; B.A., University of North Carolina-Chapel Hill, 2005; M.P.H., University of Maryland-College Park, 2010; Ph.D., 2013.

Goldstein, Thomas Aaron
Professor, CMNS-Computer Science; Professor, CMNS-Institute for Advanced Computer Studies; M.S., University of California-Los Angeles, 2007; Ph.D., 2010.

Gollub, Lewis R.
Professor Emeritus, BSOS-Psychology; A.B., University of Pennsylvania, 1955; Ph.D., Harvard University, 1958.

Golub, Evan
Principal Lecturer, CMNS-Computer Science; B.S., Brooklyn College, 1991; M.S., University of Maryland-College Park, 1995; Ph.D., 1999.

Gomery, Douglas
Professor Emeritus, JOUR-Philip Merrill College of Journalism; B.S., Lehigh University, 1967; M.A., University of Wisconsin-Madison, 1970; Ph.D., 1975.

Gomez, Romel Del Rosario
Professor, ENGR-Electrical & Computer Engineering; B.S., University of the Philippines-Quezon, 1980; M.S., Wayne State University, 1984; M.S., University of Maryland-College Park, 1987; Ph.D., 1990.

Gomezplata, Albert
Professor Emeritus, ENGR-Chemical & Biomolecular Engineering; B.Chem.Engr., Brooklyn Polytechnic Institute, 1952; M.Chem.Engr., Rensselaer Polytechnic Institute, 1954; Ph.D., 1958.

Gong, Cheng
Associate Professor, ENGR-Electrical & Computer Engineering; Associate Professor, CMNS-Physics; Affiliate Associate Professor, ENGR-Materials Science & Engineering; B.S., Huazhong University of Science & Technology, 2008; Ph.D., University of Texas-Dallas, 2013.

Gonsior, Michael
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., University of Otago, 2008.

Gonzalez, Elias Jonatan
Lecturer, CMNS-Computer Science; B.S., University of Maryland-College Park, 2017; M.Ed., 2018.

Gonzalez, Ileana Aimee
Assistant Clinical Professor, EDUC-Counseling, Higher Education and Special Education; B.A., University of Florida, 1998; M.Ed., 2000; Ph.D., University of Maryland-College Park, 2013.

Gonzalez Valdivia, Cady
Assistant Professor, BSOS-Anthropology; Ph.D., University of Florida, 2023.

Gonzalez- Juarbe, Norberto
Assistant Professor, CMNS-Cell Biology & Molecular Genetics; B.S., University of Puerto Rico-Arecibo, 2010; Ph.D., University of Texas Health Science Center-San Antonio, 2015.

Goodings, Deborah J.
Professor Emerita, ENGR-Civil & Environmental Engineering; B.S., University of Toronto, 1975; Ph.D., University of Cambridge, 1979.

Goodman, Jordan A.
Distinguished University Professor, CMNS-Physics; Distinguished Faculty Research Fellow; 1999-2000 Distinguished Scholar-Teacher. B.S., University of Maryland-College Park, 1973; M.S., 1975; Ph.D., 1978.

Goodson, Sarah
Lecturer, ARHU-English; B.A., Concordia University, 2014; M.A., University of Hawaii at Manoa, 2017.

Goodwin, James Michael
Lecturer, ARHU-English; B.A., University of Illinois-Chicago, 2002; M.A., Pennsylvania State University, 2005; Ph.D., University of Maryland-College Park, 2011.

Gor, Kira
Professor, ARHU-School of Languages, Literatures, and Cultures; Affiliate Professor, ARHU-Dean-MD Language Science Center; M.A., Leningrad State University, 1977; Ph.D., 1983; Ph.D., Bryn Mawr College, 1993.

Gordon, Kalani
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., University of North Texas, 2011.

Gordon, L Suzanne
Lecturer, ARHU-Communication; B.A., University of Maryland-College Park, 1968; M.A., Johns Hopkins University, 1969; M.A., University of Maryland-College Park, 1996; Ph.D., 2007.

Gordon, Lawrence A.
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Accounting; Affiliate Professor, CMNS-Institute for Advanced Computer Studies; B.S., SUNY-Albany, 1966; M.B.A., 1967; Ph.D., Rensselaer Polytechnic Institute, 1973.

Gordon-Salant, Sandra
Professor Emerita, BSOS-Hearing & Speech Sciences; 2017-2018 Distinguished Scholar-Teacher. B.S., SUNY-Albany, 1974; M.A., Northwestern University, 1976; Ph.D., 1981.

Gore, Meredith L.
Professor, BSOS-Geography; B.A., Brandeis University, 1999; M.A., George Washington University, 2001; Ph.D., Cornell University, 2006.

Gormong, David
Lecturer, AGNR-Institute of Applied Agriculture; B.A., Asbury University, 1982; M.A., Wheaton College, 1984; M.A., St. John's University, 1999.

Gorshkov, Alexey V.
Adjunct Associate Professor, CMNS-Institute for Advanced Computer Studies; Adjunct Associate Professor, CMNS-Physics; B.A., Harvard University, 2004; M.S., 2006; Ph.D., 2010.

Gottesman, Daniel Eric
Professor, CMNS-Computer Science; Professor, CMNS-Institute for Advanced Computer Studies; B.A., Harvard University, 1992; Ph.D., California Institute of Technology, 1997.

Gottfredson, Denise C.
Professor Emerita, BSOS-Criminology & Criminal Justice; B.A., Fairleigh Dickinson University, 1974; Ph.D., Johns Hopkins University, 1980.

Gottfredson, Gary D
Professor Emeritus, EDUC-Counseling, Higher Education and Special Education; B.A., University of California-Berkeley, 1969; M.A., Johns Hopkins University, 1975; Ph.D., 1976.

Goulias, Dimitrios
Associate Professor, ENGR-Civil & Environmental Engineering; B.O., Universita degli Studi di Perugia, 1987; M.S., University of Michigan-Ann Arbor, 1988; Ph.D., University of Texas-Austin, 1992.

Goupell, Matthew Joseph
Professor, BSOS-Hearing & Speech Sciences; Affiliate Professor, CMNS-Physics; 2024-2025 Distinguished Scholar-Teacher. B.S., Hope College, 2001; M.S., Michigan State University, 2003; Ph.D., 2005.

Gourevitch, Rebecca A
Assistant Professor, SPHL-Health Policy and Management; B.A., Carleton College, 2012; M.S., Harvard University, 2016; Ph.D., 2022.

Gournay, Isabelle J.
Associate Professor Emerita, ARCH-School of Architecture, Planning, & Preservation; M.Arch., Beaux-Arts de Paris, 1980; M.A., Yale University, 1981; Ph.D., 1989.

Goward, Samuel N.
Professor Emeritus, BSOS-Geography; A.O., Boston University, 1967; B.A., 1967; M.A., 1974; Ph.D., Indiana State University-Terre Haute, 1979.

Gowen, Bradford P.
Associate Professor, ARHU-School of Music; B.Mus., University of Rochester, 1968; M.Mus., 1969.

Goytia, Maira
Senior Lecturer, CMNS-Biology; B.S., University of Paris VII, 2002; M.S., University of Paris VI, 2003; Ph.D., 2007.

Grady, Michael
Lecturer, AGNR-Institute of Applied Agriculture; B.A., Catholic University of America, 1974; J.D., 1979.

Graeber, Anna O.
Associate Professor Emerita, EDUC-Teaching and Learning, Policy and Leadership; B.S., SUNY-University at Buffalo, 1964; M.S., Indiana State University-Terre Haute, 1965; Ed.D., Columbia University, 1974.

Graf, Chiara Francesca
Assistant Professor, ARHU-Classics; B.A., University of Illinois-Chicago, 2013; Ph.D., University of Toronto, 2020.

Graham, Carol Lee
College Park Professor, PLCY-School of Public Policy; B.A., Princeton University, 1984; M.A., Johns Hopkins University, 1986; Ph.D., University of Oxford, 1989.

Graham, Mark
Lecturer, PLCY-Office of Executive Programs; B.A., University of Pittsburgh, 1972; J.D., 1979.

Graham, Robert
Assistant Clinical Professor, UGST-HCOL-University Honors Program; B.A., Howard University, 2001; M.A., California State Polytech University-Pomona, 2012; Ph.D., George Mason University, 2020.

Graham, Samuel Jr.
Dean, ENGR-A. James Clark School of Engineering; Professor, ENGR-Mechanical Engineering; B.Mech.E., Georgia Institute of Technology, 1993; M.S., 1995; D.Engin., 1999.

Grajzl, Peter
Visiting Associate Professor, BSOS-Economics; B.A., University of Ljubljana, 2000; Ph.D., University of Maryland-College Park, 2005.

Granatstein, Victor L.
Professor Emeritus, ENGR-Electrical & Computer Engineering; B.S., Columbia University, 1960; M.S., 1961; Ph.D., 1963.

Grand, James Andrew
Associate Professor, BSOS-Psychology; B.A., Auburn University, 2006; M.A., Michigan State University, 2008; Ph.D., 2012.

Grant, Cara Danielle
Lecturer, SPHL-Kinesiology; B.S., University of Maryland-College Park, 2001; M.Ed., Bowie State University, 2006.

Grant, John
Adjunct Professor, CMNS-Computer Science; Visiting Professor, CMNS-Institute for Advanced Computer Studies; B.S., CUNY-City College of New York, 1966; Ph.D., New York University, 1970.

Grant, Kenneth Wayne
Adjunct Professor, BSOS-Dean-Neuroscience and Cognitive Science; B.A., Washington University in Saint Louis, 1976; M.S., University of Washington-Seattle, 1980; Ph.D., Washington University in Saint Louis, 1985.

Grant, Lee P.
Associate Professor Emeritus, AGNR-Environmental Science & Technology; B.S., University of Connecticut-all campuses, 1962; M.S., Pennsylvania State University, 1971; Ph.D., 1974.

Gray, Breanna Crystene
Assistant Professor, BSOS-Government & Politics; B.A., University of Virginia, 2011; M.A., 2012; Ph.D., University of Pennsylvania, 2022.

Gray, David C
Visiting Professor, BSOS-Dean-MLAW Programs; B.A., University of Virginia, 1995; M.A., Northwestern University, 1998; J.D., New York University, 2003; Ph.D., Northwestern University, 2004.

Gray, Matthew Whitney
Visiting Assistant Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., Oregon State University, 2016.

Grebmeier, Jacqueline Mary
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., University of Alaska-Fairbanks, 1987.

Green, Amy Elizabeth
Assistant Clinical Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., University of Maryland-College Park, 2002.

Green, Carlton Everett
Assistant Clinical Professor, EDUC-Counseling, Higher Education and Special Education; B.A., Southern Methodist University, 1993; M.A., Boston College, 2006; Ph.D., 2012.

Green, James Vaughn
Clinical Professor, ENGR-Maryland Technology Enterprise Institute; B.E., Georgia Institute of Technology, 1997; M.S., University of Maryland-Global Campus, 2000; D.O., 2008.

Green, John H
Lecturer, PLCY-School of Public Policy; Ph.D., University of Pennsylvania, 1984.

Green, Kerry M.
Acting Chair, SPHL-Behavioral & Community Health; Professor, SPHL-Behavioral & Community Health; B.S., College of William & Mary, 1995; M.A., University of Maryland-College Park, 1998; M.A., 1999; Ph.D., Johns Hopkins University, 2004.

Green, Kim Y
Adjunct Associate Professor, CMNS-Cell Biology & Molecular Genetics; B.S., Lipscomb University, 1976; Ph.D., University of Tennessee, 1986.

Green, Lester Shields Jr.
Lecturer, ARHU-School of Music; B.Mus., University of South Carolina-Columbia, 1995; M.Mus., Peabody Institute of the Johns Hopkins University, 1997; D.M.A., University of Maryland-College Park, 2005.

Green, Meghan Rebecca Finney
Lecturer, EDUC-Counseling, Higher Education and Special Education; Lecturer, EDUC-Counseling, Higher Education and Special Education; B.A., American University, 2010; M.A., University of Maryland-College Park, 2015; Ph.D., 2018.

Green, Paul S.
Professor Emeritus, CMNS-Mathematics; B.A., Cornell University, 1959; M.A., Harvard University, 1960; Ph.D., Cornell University, 1964.

Greenberg, Jerrold S.
Professor Emeritus, SPHL-Behavioral & Community Health; B.S., CUNY-City College of New York, 1964; M.S., 1965; Ed.D., Syracuse University, 1969.

Greenberg, Kenneth R.
Associate Professor Emeritus, EDUC-Counseling, Higher Education and Special Education; B.S., Ohio State University, 1951; M.A., 1952; Ph.D., Case Western Reserve University, 1960.

Greenberg, Oscar Wallace
Professor Emeritus, CMNS-Physics; B.S., Rutgers University, 1952; M.A., Princeton University, 1954; Ph.D., 1957.

Greenberg, Stephen
Lecturer, INFO-College of Information Studies; B.A., CUNY-City College of New York, 1971; M.A., The New School, 1975; M.A., Fordham University, 1979; Ph.D., 1983; M.A./M.L.S., Columbia University, 1991.

Greene, Catie
Lecturer, EDUC-Counseling, Higher Education and Special Education; B.A., St. Bonaventure University, 2010; M.A., 2013; Ph.D., College of William & Mary, 2016.

Greene, Daniel Marcus
Associate Professor, INFO-College of Information Studies; B.A., University of Maryland-College Park, 2009; M.A., 2012; Ph.D., 2016.

Greene, Julie
Professor, ARHU-History; Affiliate Professor, ARHU-American Studies; Affiliate Professor, ARHU-Dean-Latin American and Caribbean Studies Center; 2023-2024 Distinguished Scholar-Teacher. B.A., University of Michigan-Ann Arbor, 1980; B.A., University of Cambridge, 1982; M.A., Yale University, 1986; M.A., University of Cambridge, 1987; Ph.D., Yale University, 1990.

Greene, Richard L.
Professor, CMNS-Physics; B.S., Massachusetts Institute of Technology, 1960; Ph.D., Stanford University, 1967.

Greenspan, Patricia S.
Professor Emerita, ARHU-Philosophy; B.A., Columbia University, 1966; M.A., Harvard University, 1968; Ph.D., 1972.

Greer, Sandra C.
Professor Emerita, ENGR-Chemical & Biomolecular Engineering; B.S., Furman University, 1966; M.S., University of Chicago, 1968; Ph.D., 1969.

Greer, Thomas V.
Professor Emeritus, BMGT-Robert H. Smith School of Business; B.A., University of Texas-Austin, 1953; M.B.A., Ohio State University, 1957; Ph.D., University of Texas-Austin, 1964.

Greybush, Steven J.
Adjunct Assistant Professor, CMNS-Atmospheric & Oceanic Science; B.S., Pennsylvania State University, 2007; M.S., University of Maryland-College Park, 2009; Ph.D., 2011.

Gribbin, Michael Thomas
Lecturer, BMGT-Dean-Career Management; B.S., SUNY-Stony Brook, 2019.

Griffin, Kimberly Anne
Dean, EDUC-College of Education; Professor, EDUC-Counseling, Higher Education and Special Education; B.A., Stanford University, 1999; M.A., University of Maryland-College Park, 2001; M.A., University of California-Los Angeles, 2005; Ph.D., 2008.

Griffin, Matthew
Lecturer, CMNS-Mathematics; B.A., Wesleyan University, 1992; M.S., Southern Connecticut State University, 2009.

Griffith, Elizabeth Campbell
Senior Lecturer, CMNS-Chemistry & Biochemistry; Ph.D., University of Colorado-Boulder, 2014.

Grillakis, Manoussos
Professor, CMNS-Mathematics; B.A., National Technical University of Athens, 1981; M.A., Brown University, 1983; Ph.D., 1986.

Grimm, Robert Thornton Jr.
Professor of the Practice, PLCY-School of Public Policy; B.A., Monmouth College, 1996; Ph.D., Indiana University, 2002.

Grimmer, Jessica Helen
Lecturer, INFO-College of Information Studies; B.Mus., University of Cincinnati, 2011; M.Mus., 2013; Ph.D., University of Michigan-Ann Arbor, 2020.

Grimmer, Joseph Patrick Denali
Assistant Professor, ARHU-School of Music; B.Mus., University of Cincinnati, 2011; M.Mus., Rice University, 2013.

Grimsted, David A.
Associate Professor Emeritus, ARHU-History; A.B., Harvard University, 1957; M.A., University of California-Berkeley, 1958; Ph.D., 1963.

Griner, Lily G.
Librarian III, LIBR-Libraries; M.L.S., University of Maryland-College Park, 1973; M.G.A., University of Maryland-Global Campus, 1992.

Gromov, Andrey
Adjunct Assistant Professor, CMNS-Physics; B.S., St. Petersburg State University, 2009; Ph.D., SUNY-Stony Brook, 2015.

Gross, Adam
Lecturer, ARCH-Architecture Program; B.Arch., Syracuse University, 1977.

Grosser-Clarkson, Dana Lynn
Senior Lecturer, CMNS-College of Computer, Math & Natural Sciences; M.A., Western Michigan University, 2007; Ph.D., University of Maryland-College Park, 2016.

Grossman, Elyse Rachelle
Lecturer, SPHL-Dean-Public Health Science; B.A., Cornell University, 2005; M.P.P., University of Maryland-Baltimore County, 2008; Ph.D., 2014; J.D., University of Maryland-College Park, 2022.

Grossman, Jeremy R
Lecturer, ARHU-Communication; B.A., Colorado State University-Global Campus, 2008; M.A., 2011; Ph.D., University of Georgia, 2017.

Grossman, Maxine
Director, ARHU-Meyerhoff Program & Center for Jewish Studies; Associate Professor, ARHU-Meyerhoff Program & Center for Jewish Studies; B.A., Duke University, 1990; A.O., 1990; M.A., University of Pennsylvania, 1993; Ph.D., 2000.

Grossnickle, Dane Clayton
Lecturer, AGNR-Institute of Applied Agriculture; B.S., University of Maryland-College Park, 2017; M.Ed., 2018.

Groth, Katrina
Professor, ENGR-Mechanical Engineering; B.S., University of Maryland-College Park, 2004; M.S., 2008; Ph.D., 2009.

Grove, Philip Alfred
Lecturer, BMGT-Ctrs-Center for Global Business; B.S., Towson University, 2007; M.B.A., University of Maryland-College Park, 2015.

Gruber, Sean
Lecturer, CMNS-Mathematics; B.S., University of Maryland-College Park, 2013; M.Ed., 2014; Ph.D., 2022.

Gruner, Daniel S.
Professor, CMNS-Entomology; B.S., Hamilton College, 1993; Ph.D., University of Hawaii at Manoa, 2004.

Grunig, James Elmer
Professor Emeritus, ARHU-Communication; B.S., Iowa State University, 1964; M.S., University of Wisconsin-Madison, 1966; Ph.D., 1968.

Grunig, Larissa A.
Professor Emerita, ARHU-Communication; B.A., North Dakota State University-Fargo, 1967; M.A., University of Maryland-College Park, 1978; Ph.D., 1985.

Grutter, Karen E
Adjunct Assistant Professor, ENGR-Electrical & Computer Engineering; B.S., Case Western Reserve University, 2008; D.O., University of California-Berkeley, 2013.

Grybauskas, Arvydas P.
Associate Professor Emeritus, AGNR-Plant Science & Landscape Architecture; B.S., University of Illinois-Urbana/Champaign, 1976; M.S., 1977; Ph.D., Oregon State University, 1983.

Grybauskas, Peter
Principal Lecturer, ARHU-English; B.A., University of Maryland-College Park, 2008; M.A., 2010.

Gu, Yu
Professor, CMNS-Mathematics; B.S., Tsinghua University/Qinghua University, 2009; M.S., Brown University, 2010; Ph.D., Columbia University in the City of New York, 2014.

Guay, Beth
Librarian III, LIBR-Libraries; B.A., Catholic University of America, 1982; M.L.S., University of Maryland-College Park, 1988.

Guerrero, Perla M
Associate Professor, ARHU-American Studies; B.A., University of Central Arkansas, 2003; M.A., University of Southern California, 2007; M.A., 2007; Ph.D., 2010; Ph.D., 2010.

Guest, Christiana Addei Maanu
Lecturer, CMNS-Chemistry & Biochemistry; Ph.D., Georgetown University, 2014.

Guevara, Emilia Mercedes
Lecturer, BSOS-Anthropology; M.A., George Mason University, 2011; Ph.D., University of Maryland-College Park, 2023.

Guha, Saikat
Professor, ENGR-Electrical & Computer Engineering; B.Elect.E., Indian Institute of Technology-Kanpur, 2002; M.S., Massachusetts Institute of Technology, 2004; Ph.D., 2008.

Guinness, Katherine Hunt
Assistant Professor, ARHU-Art; B.A., St. Louis University, 2005; M.A., University of North Carolina-Chapel Hill, 2009; D.O., University of Manchester, 2013.

Gulick, Denny
Professor Emeritus, CMNS-Mathematics; B.A., Oberlin College, 1958; M.A., Yale University, 1960; Ph.D., 1963.

Gullans, Michael J
Adjunct Assistant Professor, CMNS-Physics; Adjunct Assistant Professor, CMNS-Computer Science; Adjunct Assistant Professor, CMNS-Institute for Advanced Computer Studies; B.S., University of California-Berkeley, 2007; Ph.D., Harvard University, 2013.

Gullickson, Gay L.
Professor Emerita, ARHU-History; B.A., Pomona College, 1965; B.O., Yale University, 1968; M.O., 1970; Ph.D., University of North Carolina-Chapel Hill, 1978.

Gumel, Abba B
Distinguished University Professor, CMNS-Mathematics; Distinguished University Professor, CMNS-Institute for Physical Science & Technology; Affiliate Professor, CMNS-Institute for Health Computing; B.S., Bayero University Kano, 1989; Ph.D., Brunel University, 1994.

Gunatilleka, Mestiyage Don Danul Kavindra
Senior Lecturer, CMNS-Mathematics; B.S., University of Colombo, 2009; M.S., Louisiana State University-Baton Rouge, 2011; Ph.D., University of Maryland-College Park, 2019.

Gunduzhan, Emre
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.S., Bilkent University, 1992; M.S., 1994; D.Engin., University of Maryland-College Park, 1998.

Gundy, Shannon
Assistant Vice President, SVPAAP-Enrollment Management; B.A., Howard University, 1984.

Gunnulfsen, Jennifer
Lecturer, AGNR-Environmental Science & Technology; B.S., James Madison University, 1992; M.S., University of Maryland-College Park, 1999.

Guo, Xiaojia
Assistant Professor, BMGT-Robert H. Smith School of Business; Assistant Professor, BMGT-Decision, Operations & Information Technologies; B.S., Ocean University of China, 2011; M.S., University College-London, 2012; M.S., 2014; Ph.D., 2020.

Gupta, Anil K.
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Management & Organization; 1997-1998 Distinguished Scholar-Teacher. B.Tech., Indian Institute of Technology-Kanpur, 1970; M.B.A., Indian Institute of Management-Vastrapur, 1972; D.B.A., Harvard University, 1980.

Gupta, Ashwani K.
Distinguished University Professor, ENGR-Mechanical Engineering; B.S., Punjab University, 1966; M.S., University of Southampton, 1970; Ph.D., University of Sheffield, 1973; Sc.D., 1986.

Gupta, Ayush
Adjunct Associate Professor, CMNS-Physics; B.S., Indian Institute of Technology-Kharagpur, 2000; B.A., 2000; Ph.D., University of Maryland-College Park, 2006.

Guthrie, John T.
Professor Emeritus, EDUC-Human Development and Quantitative Methodology; B.A., Earlham College, 1964; M.A., University of Illinois-Urbana/Champaign, 1966; Ph.D., 1968.

Guyer, Jonathan Eric
Lecturer, ENGR-Materials Science & Engineering; B.S., Northwestern University, 1986; Ph.D., 1997.

Guzman, Julio Armando
Visiting Clinical Professor, PLCY-School of Public Policy; B.S., Pontifical Catholic University of Peru-Lima, 1996; M.P.P., Georgetown University, 2002; Ph.D., University of Maryland-College Park, 2008.

H

Haag, Eric S
Professor, CMNS-Biology; B.A., Oberlin College, 1990; Ph.D./J.D., Indiana University, 1997.

Haag, Regina
Associate Clinical Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., University of Maryland-Baltimore County, 2005; M.A., 2006; Ph.D., University of Maryland-College Park, 2015.

Haas, David
Lecturer, ENGR-Aerospace Engineering; B.S., University of Maryland-College Park, 1983; M.S., 1985; Ph.D., 1989.

Haber, Rachel Elise
Senior Lecturer, BSOS-Geography; B.S., University of Maryland-College Park, 2008; Ph.D., 2014.

Hackshaw, Alana C.
Clinical Professor, PLCY-School of Public Policy; B.A., University of Rochester, 1998; M.A., University of Michigan-Ann Arbor, 2004; Ph.D., 2008.

Hacquard, Valentine C
Professor, ARHU-Linguistics; Affiliate Professor, ARHU-Dean-MD Language Science Center; B.A., University of California-Los Angeles, 2000; Ph.D., Massachusetts Institute of Technology, 2006.

Hadley, Nicholas J.
Professor Emeritus, CMNS-Physics; B.S., Yale University, 1976; M.A., University of California-Berkeley, 1978; Ph.D., 1983.

Hafezi, Mohammad
Professor, ENGR-Electrical & Computer Engineering; Professor, CMNS-Physics; B.S./M.S., Ecole Polytechnique, 2002; B.O., Sharif University of Technology, 2003; M.O., Ecole d'Ingenieurs, 2005; Ph.D., Harvard University, 2008; Ph.D., 2009.

Hagan, Ampson Paul
Assistant Professor, BSOS-Anthropology; Ph.D., University of North Carolina-Chapel Hill, 2022.

Hagberg, James M.
Professor, SPHL-Kinesiology; 2002-2003 Distinguished Scholar-Teacher. B.A., Carthage College, 1972; M.S., University of Wisconsin-Madison, 1974; Ph.D., 1976.

Hage, Jerald Thore
Professor Emeritus, BSOS-Sociology; B.B.A., University of Wisconsin-Madison, 1955; Ph.D., Columbia University, 1963.

Hageman, Eva
Assistant Professor, ARHU-American Studies; Assistant Professor, ARHU-Women, Gender and Sexuality Studies; A.A., Manhattan College, 2005; B.A., Smith College, 2007; Ph.D., New York University, 2016.

Haggh-Huglo, Barbara H.
Professor, ARHU-School of Music; B.Mus., University of Illinois-Urbana/Champaign, 1978; M.Mus., 1980; Ph.D., 1988.

Haghani, Ali
Professor, ENGR-Civil & Environmental Engineering; B.S., Pahlavi University-Shiraz, 1976; M.S., Northwestern University, 1982; Ph.D., 1986.

Haghani, Sasan
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.S., Isfahan University of Technology, 2000; M.S., University of Alberta-Edmonton, 2002; Ph.D., 2007.

Hahn, Jin-Oh
Professor, ENGR-Mechanical Engineering; B.S., Seoul National University, 1997; M.S., 1999; Ph.D., Massachusetts Institute of Technology, 2008.

Haider, Muhiuddin
Clinical Professor, SPHL-Global, Environmental, and Occupational Health; B.A., University of Dhaka, 1964; M.A., 1969; M.A., Michigan State University, 1974; M.S., University of Michigan-Ann Arbor, 1976; Ph.D., 1980.

Haines, Thomas J.
Professor, CMNS-Mathematics; B.S., University of Michigan-Ann Arbor, 1990; M.S., University of Chicago, 1991; Ph.D., 1997.

Hajiaghayi, Mohammad Taghi
Professor, CMNS-Computer Science; Professor, CMNS-Institute for Advanced Computer Studies; Lecturer, UGST-HCOL-Gemstone Program; B.S., Sharif University of Technology, 2000; M.S., University of Waterloo, 2001; Ph.D., Massachusetts Institute of Technology, 2005.

Hakenkamp, Christine Claire
Senior Lecturer, AGNR-Animal & Avian Sciences; B.S., University of Nebraska at Omaha, 1988; M.S., University of Maryland-College Park, 1991; Ph.D., 1997.

Haldey, Olga
Associate Professor, ARHU-School of Music; B.Mus., Moscow State Conservatory, 1991; M.A., University of Sydney, 1996; Ph.D., Ohio State University, 2002.

Hall, Amanda Hoffman
Adjunct Assistant Professor, BSOS-Geography; B.S., University of Oklahoma, 2011; Ph.D., University of Maryland-College Park, 2020.

Hall, Brantley
Assistant Professor, CMNS-Cell Biology & Molecular Genetics; Assistant Professor, CMNS-Institute for Advanced Computer Studies; B.S., Virginia Polytechnic Institute & State University, 2012; Ph.D., 2016.

Hall, Carter
Associate Chair, CMNS-Physics; Professor, CMNS-Physics; B.S., Virginia Polytechnic Institute & State University, 1996; Ph.D., Harvard University, 2002.

Hall, Cherisse La-Jae
Assistant Clinical Professor, SVPAAP-Office of Undergraduate Research; B.A., Lawrence University, 2007; Ph.D., Medical College of Wisconsin, 2014.

Hall, Ricco Bernard
Lecturer, PLCY-Office of Executive Programs; B.S., University of Tennessee-Chattanooga, 1999; M.Ed., Tennessee Technological University, 2004; M.B.A., University of Phoenix, 2008.

Hall, Sarah Beth
Lecturer, ARHU-School of Theatre, Dance & Performance Studies; B.A., University of Cincinnati, 2015.

Hall, William S.
Professor Emeritus, BSOS-Psychology; A.B., Roosevelt University, 1957; Ph.D., University of Chicago, 1968.

Hallett, Judith Peller
Professor Emerita, ARHU-Classics; A.B., Wellesley College, 1966; M.A., Harvard University, 1967; Ph.D., 1971.

Halperin, Steve
Professor, CMNS-Mathematics; B.S., University of Toronto, 1965; M.S., 1966; Ph.D., Cornell University, 1970.

Halsted, Christopher
Lecturer, ARHU-History; B.A., Oberlin College, 2014; M.A., University of Virginia, 2017; Ph.D., 2021.

Haltiwanger, John C.
Distinguished University Professor, BSOS-Economics; 2008-2009 Distinguished Scholar-Teacher. B.S., Brown University, 1977; Ph.D., Johns Hopkins University, 1981.

Hamada, Mari
Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., Macalester College, 1983; M.A., SUNY-New Paltz, 1991.

Hambrecht, George N.
Associate Professor, BSOS-Anthropology; B.A., Bard College, 1995; M.A., City University of New York-New York City Comm College, 2009; Ph.D., 2011.

Hamby, Kelly A
Associate Professor, CMNS-Entomology; B.S., University of California-Davis, 2009; Ph.D., 2014; M.S., 2014.

Hamel, Catherine M.
Senior Lecturer, ENGR-Dean-Keystone Program; B.S., University of Maryland-College Park, 2015; M.S., 2016.

Hamer, Mika
Assistant Professor, SPHL-Health Policy and Management; B.S., Tufts University, 2008; M.P.H., University of Colorado-Denver, 2013; Ph.D., 2022.

Hamidzadeh, Babak
Lecturer, INFO-College of Information Studies; B.S., University of Minnesota-Technical Instit, 1987; M.S., 1989; Ph.D., 1993.

Hamill, Russell E. III
Lecturer, BSOS-Criminology & Criminal Justice; B.A., University of Maryland-College Park, 1983; J.D., Howard University, 1994.

Hamilton, David H.
Professor, CMNS-Mathematics; B.S., University of Tasmania, 1977; M.S., University of London, 1978; Ph.D., 1980.

Hamilton, Donna B.
Professor Emerita, ARHU-English; B.A., St. Olaf College, 1963; Ph.D., University of Wisconsin-Madison, 1968.

Hamilton, Douglas C.
Professor Emeritus, CMNS-Physics; A.B., University of Kansas, 1969; M.O., University of Chicago, 1971; Ph.D., 1977.

Hamilton, Douglas P.
Professor, CMNS-Astronomy; B.S., Stanford University, 1988; M.S., Cornell University, 1990; Ph.D., 1994.

Hamilton, Gary D.
Associate Professor Emeritus, ARHU-English; B.A., St. Olaf College, 1962; M.A., University of Wisconsin-Madison, 1965; Ph.D., 1968.

Hamilton, Len
Adjunct Associate Professor, ENGR-Mechanical Engineering; M.S., University of Maryland-College Park, 1984; B.S., United States Naval Academy, 1984; Ph.D., U.S. Naval Postgraduate School-Monterey, 2003.

Hamilton, Phoebe M
Assistant Professor, CMNS-Physics; B.S., Youngstown State University, 2007; M.S., University of Maryland-College Park, 2011; Ph.D., 2013.

Hammond, Eugene R.
Associate Professor Emeritus, ARHU-English; B.A., University of Oxford, 1973; B.A., University of Notre Dame, 1969; Ph.D., Yale University, 1977.

Hamza, Iqbal
Professor, AGNR-Animal & Avian Sciences; B.S., University of Bombay, 1989; M.S., 1991; Ph.D., SUNY-University at Buffalo, 1997.

Han, Bongtae
Professor, ENGR-Mechanical Engineering; B.S., Seoul National University, 1981; M.S., 1983; Ph.D., Virginia Polytechnic Institute & State University, 1991.

Han, Ruibo
Principal Lecturer, BSOS-Geography; B.E., China University of Mining & Technology, 2004; M.S., Beijing Normal University, 2006; Ph.D., University of Ottawa, 2012.

Han, Yueyang
Assistant Professor, BMGT-Robert H. Smith School of Business; Assistant Professor, BMGT-Finance; B.S., Peking University, 2011; M.S., London School of Economics & Political Science, 2013; Ph.D., 2019.

Hanafy, Ahmed
Senior Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., University of Alexandria, 2011; M.A., University of Maryland-College Park, 2024.

Hancock, Gregory R.
Professor, EDUC-Human Development and Quantitative Methodology; 2013-2014 Distinguished Scholar-Teacher. B.S., University of Washington-Seattle, 1986; M.Ed., 1989; Ph.D., 1991.

Handwerger, Samuel David
Lecturer, BMGT-Accounting; M.S., University of Maryland-College Park, 1975; M.O., University of Baltimore, 1987.

Hanges, Paul John
Professor, BSOS-Psychology; B.A., New York University, 1980; M.A., University of Akron, 1984; Ph.D., 1987.

Hanhardt, Christina B.
Associate Professor, ARHU-American Studies; Affiliate Associate Professor, ARHU-Women, Gender and Sexuality Studies; B.A., Brown University, 1994; M.A., San Francisco State University, 1998; M.Phil., New York University, 2003; Ph.D., 2007.

Hanif, Zachary
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.S., Georgia Institute of Technology, 2012; M.S., University of Maryland-College Park, 2020.

Hankerson, Shenika
Assistant Professor, EDUC-Teaching and Learning, Policy and Leadership; Affiliate Assistant Professor, ARHU-Dean-MD Language Science Center; B.S., Eastern Michigan University, 1999; M.A., 2002; Ph.D., Michigan State University, 2016.

Hanmer, Michael J.
Professor, BSOS-Government & Politics; B.A., SUNY-College at Geneseo, 1995; M.S., University of Wisconsin-Madison, 1996; M.A., University of Michigan-Ann Arbor, 2000; Ph.D., 2004.

Hann, Il-Horn
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Decision, Operations & Information Technologies; B.S., Technische Universitat Darmstadt, 1994; Ph.D., University of Pennsylvania, 2000.

Hann, Rebecca N
Assistant Dean, BMGT-Accounting; Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Accounting; B.A., CUNY-Queens College, 1993; M.A., University of Pennsylvania, 1995; Ph.D., 2000.

Hanna, Jeanne L.
Lecturer, BSOS-Anthropology; B.A., University of Memphis, 2013; M.A., American University, 2017.

Hanninen, Dora A.
Professor, ARHU-School of Music; B.A., University of Virginia, 1983; M.A., University of Rochester, 1988; Ph.D., 1996.

Hansen, John Norman
Professor Emeritus, CMNS-Chemistry & Biochemistry; B.A., Drake University, 1964; Ph.D., University of California-Los Angeles, 1968.

Hansen, Matthew C.
Professor, BSOS-Geography; B.Elect.E., Auburn University, 1988; M.A., University of North Carolina-Charlotte, 1993; M.S., 1994; Ph.D., University of Maryland-College Park, 2002.

Hansen, Sarah
Lecturer, UGST-Navy ROTC; B.S., Gettysburg College, 2017.

Hanson, Christopher T.
Associate Professor, JOUR-Philip Merrill College of Journalism; B.A., Reed College, 1975; M.A., University of Oxford, 1985; Ph.D., University of North Carolina-Chapel Hill, 1999.

Hanson, James C.
Professor Emeritus, AGNR-Agricultural & Resource Economics; B.S., University of Maryland-College Park, 1972; M.S., University of Minnesota-Twin Cities, 1974; M.S., University of Maryland-College Park, 1978; Ph.D., 1983.

Hao, Ling
Associate Professor, CMNS-Chemistry & Biochemistry; Ph.D., University of Wisconsin-Madison, 2017.

Hao, Oliver J.
Professor Emeritus, ENGR-Civil & Environmental Engineering; B.S., National Cheng Kung University-Taiwan, 1968; M.S., Colorado State University-Fort Collins, 1971; Ph.D., University of California-Berkeley, 1982.

Harden, Brenda Jones
Professor Emerita, EDUC-Human Development and Quantitative Methodology; B.A., Fordham University, 1979; M.S.W., New York University, 1980; M.S., Yale University, 1991; Ph.D., 1996.

Hardie, Ian W.
Professor Emeritus, AGNR-Agricultural & Resource Economics; B.S., University of California-Davis, 1960; Ph.D., University of California-Berkeley, 1965.

Harding, James M.
Professor, ARHU-School of Theatre, Dance & Performance Studies; B.A., University of Texas-San Antonio, 1982; M.A., San Diego State University, 1987; Ph.D., University of Maryland-College Park, 1991.

Hardman, Inna A
Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., Pedagagical University of Leningrad-St. Petersburg, 1989; M.A., University of Maryland-College Park, 1995.

Hardy, Robert C.
Professor Emeritus, EDUC-Human Development and Quantitative Methodology; B.S., Bucknell University, 1961; M.S., Indiana University, 1964; Ed.D., 1969.

Hardy-Skeberdis, Melanie
Lecturer, EDUC-Teaching and Learning, Policy and Leadership; B.A., Clark University, 2008; M.A., Georgia State University/Perimeter College, 2019; Ph.D., University of Maryland-College Park, 2024.

Harger, Robert O.
Professor Emeritus, ENGR-Electrical & Computer Engineering; B.S., University of Michigan-Ann Arbor, 1955; M.S., 1959; Ph.D., 1961.

Harley, Sharon
Professor, BSOS-African American Studies; B.A., St. Mary-of-the-Woods College, 1970; M.A., Antioch College, 1971; Ph.D., Howard University, 1981.

Harlig, Alexandra
Lecturer, ENGR-A. James Clark School of Engineering; Visiting Assistant Clinical Professor, UGST-HCOL-University Honors Program; Ph.D., Ohio State University, 2019.

Harness, Blake S
Lecturer, UGST-AFROTC-Air Science; B.Arch., Howard University, 2009.

Harnish, Darian A
Lecturer, BMGT-Accounting; B.S., Eastern Mennonite College, 2013; M.S., James Madison University, 2014.

Harrell, Reginal M.
Director, AGNR-Environmental Science & Technology; Professor, AGNR-Environmental Science & Technology; B.S., Clemson University, 1975; M.S., 1977; Ph.D., University of South Carolina-Columbia, 1984.

Harrigan, Connor
Lecturer, ENGR-Dean-Women in Engineering Program; B.E., Stevens Institute of Technology, 2018.

Harring, Jeffrey
Professor, EDUC-Human Development and Quantitative Methodology; B.A., Macalester College, 1986; M.S., University of Minnesota-Twin Cities, 2004; Ph.D., 2005.

Harrington, James Patrick
Professor Emeritus, CMNS-Astronomy; B.S., University of Chicago, 1961; M.S., Ohio State University, 1964; Ph.D., 1967.

Harris, Andrew I.
Chair, CMNS-Astronomy; Professor, CMNS-Astronomy; B.S., University of California-Davis, 1979; M.A., University of California-Berkeley, 1982; Ph.D., 1986.

Harris, Daman Luron
Lecturer, EDUC-Dean-Outreach; B.S., University of Delaware, 1996; M.Ed., Goucher College, 2004.

Harris, Lora Anna
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., University of Rhode Island, 2006.

Harris, Robert Louis
Lecturer, ARHU-English; B.S., Winthrop University, 2012; M.Ed., South Carolina State University, 2015; M.Ed., University of South Carolina-Columbia, 2017; Ed.D., 2021.

Harris, Tasha
Lecturer, BSOS-African American Studies; B.A., University of Kentucky, 2002; M.A., University of Louisville, 2006; M.A., Georgetown University, 2013.

Harris, Wesley L.
Professor Emeritus, AGNR-Environmental Science & Technology; B.S., University of Georgia, 1953; M.S., 1958; Ph.D., Michigan State University, 1960.

Harrison, Regina
Professor Emerita, ARHU-School of Languages, Literatures, and Cultures; B.S., University of Massachusetts-Amherst, 1965; M.A., University of Illinois-Urbana/Champaign, 1973; Ph.D., 1979.

Hart, Evan E
Assistant Professor, BSOS-Psychology; B.A., University of Connecticut-all campuses, 2012; M.A., University of California-Los Angeles, 2014; Ph.D., 2019.

Hartsock, Thomas G.
Associate Professor Emeritus, AGNR-Animal & Avian Sciences; B.S., Pennsylvania State University, 1968; M.S., 1969; Ph.D., 1974.

Hartzell, Christine M
Professor, ENGR-Aerospace Engineering; B.S., Georgia Institute of Technology, 2008; Ph.D., University of Colorado-Boulder, 2012.

Harvey, Christine D.
Principal Lecturer, JOUR-Philip Merrill College of Journalism; B.S., University of Maryland-College Park, 1980.

Hasan, Syed Saif
Visiting Assistant Professor, CMNS-IBBR; Visiting Assistant Professor, CMNS-IBBR; B.S., Aligarh Muslim University, 2004; M.S., University of Pune, 2006; Ph.D., Purdue University-West Lafayette, 2013.

Haslem, John A.
Professor Emeritus, BMGT-Robert H. Smith School of Business; A.B., Duke University, 1956; M.B.A., University of North Carolina-Chapel Hill, 1961; Ph.D., 1967.

Haspo, Beatriz
Lecturer, INFO-College of Information Studies; B.A., University of Vienna, 1986; M.A., Fundacao Armando Alvares Penteado, 1993.

Hassam, Adil
Professor Emeritus, CMNS-Physics; S.B./S.M., Massachusetts Institute of Technology, 1974; M.A., Princeton University, 1976; Ph.D., 1978.

Hassan, Naeemul
Associate Professor, JOUR-Philip Merrill College of Journalism; Associate Professor, INFO-College of Information Studies; B.S., Bangladesh University of Engineering & Technology, 2009; Ph.D., University of Texas-Arlington, 2016.

Hassassian, M.
Visiting Associate Professor, BSOS-GVPT-Center for Intntl Development & Conflict Mgmt; B.A., American University of Beirut-Lebanon, 1975; M.A., University of Toledo, 1976; Ph.D., University of Cincinnati, 1986.

Hassouneh, Munther A.
Lecturer, ENGR-Mechanical Engineering; M.S., University of Maryland-College Park, 1999; Ph.D., 2003.

Hatcher, Tom
Senior Lecturer, ARHU-English; B.S., Towson University, 2010; M.F.A., American University, 2017.

Hatfield, Agnes B.
Professor Emerita, EDUC-Human Development and Quantitative Methodology; B.A., University of California-Berkeley, 1948; M.A., University of Denver, 1954; Ph.D., 1959.

Hatfield, Bradley D.
Professor, SPHL-Kinesiology; Affiliate Professor, SPHL-HPAM-Center on Aging; B.P.E., University of New Brunswick-Fredericton, 1974; B.A., 1975; M.S., Pennsylvania State University, 1976; Ph.D., 1982; M.S.A., Ohio University-all campuses, 1982.

Hathaway, Jonathon Ken
Lecturer, BSOS-Geography; B.A., George Mason University, 2006; M.A., 2009; M.B.A., Shenandoah University, 2013.

Haufler, Virginia Ann
Professor, BSOS-Government & Politics; B.A., Pennsylvania State University, 1979; M.A., Cornell University, 1985; Ph.D., 1991.

Hawkins, William
Lecturer, ENGR-Electrical & Computer Engineering; B.S., Cornell University, 1967; M.S., Massachusetts Institute of Technology, 1971.

Hawthorne, David J.
Associate Professor, CMNS-Entomology; B.A., Kent State University-all campuses, 1983; B.S., 1983; M.S., North Carolina State University, 1986; Ph.D., Cornell University, 1993.

Hayes, Corinne
Lecturer, ARHU-School of Music; B.A., University of Missouri-Columbia, 2007; M.Mus., Florida State University, 2010.

Hayes-Gehrke, Melissa N
Principal Lecturer, CMNS-Astronomy; B.S., Massachusetts Institute of Technology, 1996; B.S., 1996; M.A., Boston University, 2001; Ph.D., 2004.

Hazkani, Shay
Associate Professor, ARHU-Meyerhoff Program & Center for Jewish Studies; Associate Professor, ARHU-History; B.A., Tel Aviv University, 2008; M.A., Georgetown University, 2010; Ph.D., New York University, 2016.

He, Belinda Qian
Assistant Professor, ARHU-School of Languages, Literatures, and Cultures; Affiliate Assistant Professor, ARHU-Women, Gender and Sexuality Studies; B.A., Beijing Normal University, 2010; M.A., The Chinese University of Hong Kong, 2012; Ph.D., University of Washington-Seattle, 2020.

He, Xi
Assistant Professor, BMGT-Robert H. Smith School of Business; Assistant Professor, BMGT-Finance; B.S., Tsinghua University/Qinghua University, 2013; B.A., 2013; D.O., Massachusetts Institute of Technology, 2019.

He, Xiaoming
Professor, ENGR-Fischell Department of Bioengineering; B.S., Xi'an Jiaotong University, 1995; M.S., 1998; Ph.D., University of Minnesota-Twin Cities, 2004.

He, Xin
Associate Professor, SPHL-Epidemiology & Biostatistics; B.S., Peking University, 2003; B.A., 2003; Ph.D., University of Missouri-Columbia, 2007.

He, Yulei
Lecturer, SPHL-Epidemiology & Biostatistics; B.S., University of Science and Technology of China (.....), 1997; B.S., 1997; M.P.H., University of Illinois at Chicago Circle, 2000; M.S., University of Illinois-Chicago, 2000; Ph.D., University of Michigan-Ann Arbor, 2005; M.S., 2005.

He, Zhongyu
Visiting Associate Professor, ARCH-Architecture Program; B.Arch., Tsinghua University/Qinghua University, 2006; M.Eng., 2009; Ph.D., University of Tokyo, 2012.

Head, Emerson W.
Professor Emeritus, ARHU-School of Music; B.Mus., University of Michigan-Ann Arbor, 1957; M.Mus., 1961; D.M.A., Catholic University of America, 1980.

Healy, Liam
Lecturer, ENGR-Aerospace Engineering; B.S., Harvard University, 1979; M.S., University of Maryland-College Park, 1981; Ph.D., 1986.

Heap, Sara Ridgway
Adjunct Professor, CMNS-Astronomy; B.A., Wellesley College, 1964; Ph.D., University of California-Los Angeles, 1970.

Heath, James L. III
Professor Emeritus, AGNR-Animal & Avian Sciences; B.S., Louisiana State University-Baton Rouge, 1963; M.S., 1968; Ph.D., 1970.

Hebert, Mitchell
Professor Emeritus, ARHU-School of Theatre, Dance & Performance Studies; B.F.A., University of Wisconsin-Milwaukee, 1980; M.F.A., University of Washington-Seattle, 1983.

Hegland, Thomas Allen
Lecturer, BSOS-Economics; B.A., St. Olaf College, 2013; M.A., University of Maryland-College Park, 2016; Ph.D., 2019.

Heidarian, Aria
Lecturer, CMNS-Physics; B.A., University of Isfahan, 2010; M.S., University of Toledo, 2016; Ph.D., 2017.

Heim, Norman M.
Professor Emeritus, ARHU-School of Music; B.O., University of Evansville, 1951; M.Mus., University of Rochester, 1952; D.M.A., 1962.

Heinemann, Robert
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.S., West Chester University of Pennsylvania, 1998; M.S., George Mason University, 2005; M.S., 2005.

Hellerstein, Judith K.
Professor, BSOS-Economics; B.S., Brown University, 1987; M.A., Harvard University, 1992; Ph.D., 1994.

Helz, George R.
Professor Emeritus, CMNS-Chemistry & Biochemistry; 2001-2002 Distinguished Scholar-Teacher. B.A., Princeton University, 1964; Ph.D., Pennsylvania State University, 1970.

Helzer, Garry A.
Associate Professor Emeritus, CMNS-Mathematics; B.A., Portland State University, 1959; M.A., Northwestern University, 1962; Ph.D., 1964.

Henderson, Bethany Rubin
Lecturer, PLCY-School of Public Policy; B.A., University of Pennsylvania, 1998; M.A., 1998; J.D., Harvard University, 2002.

Henderson, Kibbi
Visiting Lecturer, INFO-College of Information Studies; B.A., University of Maryland-Global Campus, 2013; M.S., 2016; M.L.S., Clarion University of Pennsylvania, 2018.

Hendricks, Marccus D
Associate Professor, ARCH-School of Architecture, Planning, & Preservation; Associate Professor, ARCH-Urban Studies & Planning Program; Affiliate Associate Professor, ARCH-Environmental Finance Center; B.A., University of North Texas, 2010; M.P.H., Texas A&M University-College Station, 2013; Ph.D., 2017.

Henkel, Ramon E.
Associate Professor Emeritus, BSOS-Sociology; M.A., University of Wisconsin-Madison, 1961; Ph.D., 1967; D.O., University of North Dakota, 1958.

Henkelman, James H.
Associate Professor Emeritus, EDUC-Teaching and Learning, Policy and Leadership; B.S., Miami University, 1955; M.A., Whitworth University, 1981; Ed.D., Harvard University, 1965.

Henretta, James A.
Professor Emeritus, ARHU-History; B.A., Swarthmore College, 1962; M.A., Harvard University, 1963; Ph.D., 1968.

Henry, Stephen
Librarian III, LIBR-Libraries; B.A., Youngstown State University, 1999; M.Mus., University of Wisconsin-Madison, 2003; M.A./M.L.S., 2003.

Henson-Darko, Sarah
Senior Lecturer, CMNS-College of Computer, Math & Natural Sciences; B.A., College of St. Rose, 2004; M.Ed., University of Maryland-College Park, 2007.

Herb, Rebecca A.
Professor Emerita, CMNS-Mathematics; B.A., University of Oregon, 1969; M.A., 1970; Ph.D., University of Washington-Seattle, 1974.

Herberholz, Jens
Associate Chair, BSOS-Psychology; Professor, BSOS-Psychology; B.S., University of Freiburg, 1992; M.S., 1995; Ph.D., Technische Universitat Munchen, 1999.

Herbert, Dina
Lecturer, INFO-College of Information Studies; B.A., Columbia University, 2005; M.L.S., University of Maryland-College Park, 2011.

Herf, Jeffrey C
Distinguished University Professor Emeritus, ARHU-History; B.A., University of Wisconsin-Madison, 1969; M.A., SUNY-University at Buffalo, 1971; Ph.D., Brandeis University, 1981.

Herman, Larry
Lecturer, CMNS-Computer Science; B.S., University of Maryland-College Park, 1985; B.A., 1986; M.S., 1990.

Herold, Keith E.
Associate Professor Emeritus, ENGR-Fischell Department of Bioengineering; B.O., University of Akron, 1977; M.S., Ohio State University, 1979; Ph.D., 1985.

Herr, Gurtajbir Singh
Lecturer, ENGR-Aerospace Engineering; B.E., PEC University of Technology, 2012; B.O., University of Maryland-College Park, 2020; M.S., 2022; Ph.D., 2024.

Herrera Arvay, Maria Victoria
Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., National University of La Rioja Argentina, 2017; Ph.D., University of Maryland-College Park, 2024.

Herschbach, Dennis R.
Associate Professor Emeritus, EDUC-Teaching and Learning, Policy and Leadership; B.A., San Jose State University, 1960; M.S., University of Illinois-Urbana/Champaign, 1968; Ph.D., 1973.

Hershenson, David B.
Professor Emeritus, EDUC-Counseling, Higher Education and Special Education; A.B., Harvard University, 1955; M.A., Boston University, 1960; Ph.D., 1964.

Herwatic, Joseph Benjamin
Lecturer, UGST-AFROTC-Air Science; B.A., Pennsylvania State University, 2005; M.S., Ohio University-all campuses, 2014; M.S., Western Governors University, 2023.

Herzberg, Osnat
Professor, CMNS-Chemistry & Biochemistry; Professor, CMNS-IBBR; Professor, CMNS-IBBR; B.S., Technion-Israel Institute of Tech, 1971; M.S., Weizmann Institute of Science, 1976; Ph.D., 1981.

Hess, Michael E
Lecturer, BSOS-Government & Politics; B.S., U.S. Military Academy, 1971; M.A., Columbia University, 1981; M.B.A., New York University, 1982.

Heston, Steven Lawrence
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Finance; B.S., University of Maryland-College Park, 1983; M.S., Carnegie Mellon University, 1985; M.S., 1987; Ph.D., 1990.

Heurtin-Roberts, Suzanne
Adjunct Professor, BSOS-Anthropology; B.A., University of New Orleans, 1974; M.A., 1979; Ph.D., University of California-San Francisco, 1988; M.S.W., University of California-Berkeley, 1992.

Hewitt, Mike
Professor, ARHU-School of Music; B.Mus., State University College of Education-Potsdam, 1988; M.Mus., Michigan State University, 1992; Ph.D., University of Arizona, 2000.

Hewlett, Christopher Erik
Lecturer, BSOS-Anthropology; B.A., St. Andrews University, 2003; M.A., University of Sussex-Falmer, 2004; M.A., University of Virginia, 2007; Ph.D., University of St. Andrews, 2014.

Hickman, Caroline Mesrobian
Lecturer, ARCH-Architecture Program; B.A., Duke University, 1975; M.A., Tulane University, 1978; Ph.D., University of North Carolina-Chapel Hill, 2011.

Hicks, Michael W.
Professor Emeritus, CMNS-Computer Science; B.S., University of Pennsylvania, 1993; M.S., 1996; Ph.D., 2001.

Hidalgo, Chila Beatriz
Senior Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., Kean University, 1984; M.A., University of Maryland-College Park, 1999; Ph.D., 2015.

Hiebert, Miriam Elizabeth
Lecturer, ENGR-Materials Science & Engineering; B.S., University of Richmond, 2014; Ph.D., University of Maryland-College Park, 2019.

Higgins, William J.
Associate Professor Emeritus, CMNS-Biology; B.S., Boston College, 1969; Ph.D., Florida State University, 1973.

Hight Walker, Angela
Adjunct Professor, CMNS-Physics; B.A., Capital University, 1990; Ph.D., Wesleyan University, 1995.

Highton, Richard
Professor Emeritus, CMNS-Biology; B.A., New York University, 1950; M.S., University of Florida, 1953; Ph.D., 1956.

Hilderbrand, Robert H.
Visiting Associate Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., Utah State University, 1998.

Hill, Mark D.
Professor Emeritus, ARHU-School of Music; B.Mus., University of North Caroina School of the Arts, 1974; M.Mus., SUNY-Stony Brook, 1976.

Hill, Quentin Kristina Woloschuk
Lecturer, PLCY-School of Public Policy; M.Ed., Queen's University at Kingston, 1999.

Hill, Renee F
Principal Lecturer, INFO-College of Information Studies; B.A., Florida Atlantic University, 1997; M.S., Florida State University, 2000; Ph.D., 2006.

Hill, Robert Lee
Professor, AGNR-Environmental Science & Technology; B.S., North Carolina State University, 1974; M.S., 1981; Ph.D., Iowa State University, 1984.

Hill, Russell T.
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., University of Cape Town, 1988.

Hill, Wendell T. III
Professor, CMNS-Institute for Physical Science & Technology; Affiliate Professor, CMNS-Physics; B.A., University of California-Irvine, 1974; M.S., Stanford University, 1976; Ph.D., 1980.

Hilliard, Lyra
Principal Lecturer, ARHU-English; B.A., Eckerd College, 2007; M.A., Utah State University, 2009.

Hilton, David Andrew
Lecturer, BMGT-Accounting; Lecturer, BMGT-Accounting; B.A., University of Plymouth, 2001; M.O., BPP University, 2011.

Hilton, Shannon
Assistant Clinical Professor, SVPAAP-Office of Undergraduate Research; B.S., Brigham Young University, 2013; Ph.D., Arizona State University, 2019.

Himmelsbach, Joshua Luke
Lecturer, CMNS-Mathematics; B.A., Harvard University, 1999; B.A., 1999; M.S., University of Maryland-College Park, 2013.

Hinc-Powell, Danuta Ewa
Principal Lecturer, ARHU-English; M.A., Gdansk University, 1991; M.F.A., Bennington College, 2016.

Hinton, Denise
Visiting Associate Professor, SPHL-School of Public Health; B.S., Florida State University, 1993; M.S., Boston University, 2013.

Hirsch, Aron
Assistant Professor, ARHU-Linguistics; B.A., McGill University-Montreal, 2011; Ph.D., Massachusetts Institute of Technology, 2017.

Hirschauer, Sonia
Lecturer, CMNS-Chemistry & Biochemistry; B.S., University of Arizona, 2009; Ph.D., Ohio State University, 2014.

Hirzel, Robert K.
Associate Professor Emeritus, BSOS-Sociology; B.A., Pennsylvania State University, 1946; M.A., 1950; Ph.D., Louisiana State University-Baton Rouge, 1954.

Histed, Mark H
Adjunct Assistant Professor, BSOS-Dean-Neuroscience and Cognitive Science; B.S., Massachusetts Institute of Technology, 1999; Ph.D., 2005.

Hitchens, Brooklynn K
Assistant Professor, BSOS-Criminology & Criminal Justice; B.A., University of Delaware, 2013; M.A., Rutgers University, 2016; Ph.D., 2020.

Hnatov, Christina
Lecturer, SVPAAP-Academy of Innovation & Entrepreneurship; B.S., University of Maryland-College Park, 2019; M.P.P., 2021.

Ho, Ping-Tong
Professor Emeritus, ENGR-Electrical & Computer Engineering; B.S., Massachusetts Institute of Technology, 1973; M.S., 1975; Sc.D., 1978.

Hobart, Peter M
Adjunct Professor, CMNS-Cell Biology & Molecular Genetics; B.A., Colby College, 1968; Ph.D., Wesleyan University, 1978.

Hockersmith, Kelly Sue
Lecturer, BSOS-Anthropology; B.A., Heidelberg University, 2001; M.A., University of South Florida-New College, 2004.

Hodgson, Jennifer R
Associate Clinical Professor, SPHL-Behavioral & Community Health; B.S., University of Maryland-College Park, 2005; M.P.H., 2008; D.O., Frostburg State University, 2021.

Hodos, William
Distinguished University Professor Emeritus, BSOS-Psychology; B.S., CUNY-Brooklyn College, 1955; M.A., University of Pennsylvania, 1957; Ph.D., 1960.

Hofferth, Sandra L.
Professor Emerita, SPHL-Family Science; B.A., Swarthmore College, 1967; M.A., University of North Carolina-Chapel Hill, 1971; Ph.D., 1976.

Hoffman, Kara
Professor, CMNS-Physics; B.S., University of Kentucky, 1992; M.S., Purdue University-West Lafayette, 1994; Ph.D., 1998.

Hoffman, Mary Ann
Professor Emerita, EDUC-Counseling, Higher Education and Special Education; B.A., Macalester College, 1971; Ph.D., University of Minnesota-Twin Cities, 1975.

Hoffman, Robert L.
Lecturer, BMGT-Exec MBA-Office of Online Programs; B.S., Boston University, 1991; Ph.D., University of Maryland-College Park, 1997.

Hoffmann, Diane
Visiting Professor, BSOS-Dean-MLAW Programs; B.A., Duke University, 1976; M.S., Harvard University, 1980; J.D., 1986.

Holden, Rebecca J
Principal Lecturer, ARHU-English; B.S., Northwestern University, 1989; M.A., University of Wisconsin-Madison, 1991; Ph.D., 1999.

Holder, Sharifah Safiya
Lecturer, SPHL-Behavioral & Community Health; M.P.H., University of Maryland-College Park, 2016; Ph.D., 2022.

Holiday, John Thomas Jr.
Associate Professor, ARHU-School of Music; B.Mus., Southern Methodist University, 2007; M.Mus., University of Cincinnati, 2012.

Holland, Margaret Buck
Visiting Associate Professor, CMNS-Marine & Estuarine-Environmental Science Prog; B.A., Middlebury College, 1999; M.S., University of Wisconsin-Madison, 2004; Ph.D., 2009.

Holley-Kline, Samuel Thomas
Visiting Assistant Clinical Professor, UGST-HCOL-University Honors Program; B.A., DePauw University, 2012; M.A., Stanford University, 2015; Ph.D., 2019.

Holliday, William G.
Professor Emeritus, EDUC-Teaching and Learning, Policy and Leadership; B.S., Purdue University-West Lafayette, 1963; M.S., 1968; Ph.D., University of Texas-Austin, 1970.

Hollingsworth, Jeffrey K.
Vice President & Chief Information Officer, DIT-Division of Information Technology; Professor, CMNS-Computer Science; Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Professor, ENGR-Electrical & Computer Engineering; B.S., University of California-Berkeley, 1988; M.S., University of Wisconsin-Madison, 1990; Ph.D., 1994.

Holloway, David C.
Professor Emeritus, ENGR-Mechanical Engineering; B.S., University of Illinois-Urbana/Champaign, 1966; M.S., 1969; Ph.D., 1971.

Holmes, Gerard
Lecturer, ARHU-English; B.A., Goddard College, 1989; M.A., CUNY-Hunter College, 2003; Ph.D., University of Maryland-College Park, 2020.

Holtz, Thomas Richard Jr.
Principal Lecturer, CMNS-Geology; B.A., Johns Hopkins University, 1987; M.Phil., Yale University, 1990; Ph.D., 1992.

Holzer Bilbao, Jorge G.
Associate Professor, AGNR-Agricultural & Resource Economics; B.S., Pontifica Universidad Catolica De Chile, 1994; M.S., 1996; M.B.A., University of Oxford, 2000; M.S., University of Maryland-College Park, 2009; Ph.D., 2010.

Homer, Tricia D.
Lecturer, BMGT-Executive MBA; B.A., Wesleyan University, 2003.

Hong, Jongsup
Visiting Associate Professor, ENGR-Mechanical Engineering; M.S., Massachusetts Institute of Technology, 2009; Ph.D., 2013.

Honig, Elizabeth Alice
Professor, ARHU-Art History & Archaeology; B.A., Bryn Mawr College, 1982; M.A., Yale University, 1984; M.O., 1986; Ph.D., 1992.

Hood, Raleigh R.
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; B.S., University of Washington-Seattle, 1983; Ph.D., University of California-San Diego, 1990.

Hook, Anson
Associate Professor, CMNS-Physics; B.A., Princeton University, 2008; Ph.D., Stanford University, 2012.

Hooks, Cerruti RR
Professor, CMNS-Entomology; B.S., North Carolina Central University, 1987; M.S., North Carolina State University, 1994; Ph.D., University of Hawaii at Manoa, 2000.

Hoover, Eric Christopher
Assistant Professor, BSOS-Hearing & Speech Sciences; B.A., University of California-San Diego, 2002; Ph.D., Northwestern University, 2014.

Horiuchi, Timothy
Associate Professor, ENGR-Electrical & Computer Engineering; Affiliate Associate Professor, ENGR-Institute for Systems Research; B.S., California Institute of Technology, 1989; Ph.D., 1997.

Horlacher, Gretchen Grace
Associate Director, ARHU-School of Music; Associate Professor, ARHU-School of Music; B.A., Cornell University, 1984; M.Phil., Yale University, 1987; Ph.D., 1990.

Hornstein, Norbert R.
Professor Emeritus, ARHU-Linguistics; B.A., McGill University-Montreal, 1975; Ph.D., Harvard University, 1979.

Horstman, Franklin R.
Lecturer, EDUC-Teaching and Learning, Policy and Leadership; B.A., University of Maryland-College Park, 1973; M.A., 1982; Ph.D., 1989.

Horty, John
Professor, ARHU-Philosophy; Affiliate Professor, CMNS-Computer Science; Affiliate Professor, CMNS-Institute for Advanced Computer Studies; B.A., Oberlin College, 1977; Ph.D., University of Pittsburgh, 1986.

Hovde, Sarah
Librarian II, LIBR-Libraries; B.A., University of Maryland-Baltimore County, 2011; M.L.S., University of Maryland-College Park, 2013.

Howard, Andrew McKenzie
Lecturer, ARHU-English; B.A., Texas Tech University, 2005; M.A., 2007; M.F.A., Georgia College and State University, 2010.

Howard, Donna E
Associate Professor Emerita, SPHL-Behavioral & Community Health; B.S., University of Massachusetts-Amherst, 1978; M.A., Jawaharlal Nehru University, 2002; M.P.H., University of Hawaii at Manoa, 1980; D.Pub.Hlth., Johns Hopkins University, 1994.

Howard, John D.
Professor Emeritus, ARHU-English; B.A., Washington College, 1956; M.A., University of Maryland-College Park, 1962; Ph.D., 1967.

Howell, Kathryn
Director, ARCH-Center for Smart Growth Research & Education; Associate Professor, ARCH-School of Architecture, Planning, & Preservation; Associate Professor, ARCH-Center for Smart Growth Research & Education; B.A., University of Georgia, 2001; M.P.P., Johns Hopkins University, 2005; Ph.D., University of Texas-Austin, 2013.

Howland, Marie
Professor Emerita, ARCH-School of Architecture, Planning, & Preservation; B.A., University of California-Berkeley, 1972; M.C.P., 1974; Ph.D., Massachusetts Institute of Technology, 1981.

Howrey, John L
Director, UGST-Navy ROTC; Lecturer, UGST-Navy ROTC; B.S., Iowa State University, 1994; M.S., University of Colorado-Boulder, 2001.

Hrybyk, Rosalie Faith
Assistant Clinical Professor, ENGR-Fire Protection Engineering; B.S., University of Maryland-College Park, 2013; M.S., 2015.

Hsu, Madeline
Professor, ARHU-History; B.A., Pomona College, 1989; M.A., Yale University, 1993; Ph.D., 1996.

Hsu, Yih-Yun
Professor Emeritus, ENGR-Materials Science & Engineering; B.S., National Taiwan Ocean University, 1952; M.S., University of Illinois-Urbana/Champaign, 1957; Ph.D., 1958.

Hsueh, Chun-Tu
Professor Emeritus, BSOS-Government & Politics; L.L.B., Chaoyang University of Technology, 1946; M.A., Columbia University, 1953; Ph.D., 1958.

Hu, Bei Lok Bernard
Professor, CMNS-Physics; A.B., University of California-Berkeley, 1967; M.A., Princeton University, 1969; Ph.D., 1972.

Hu, Guiling
Senior Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., Guangzhou Institute of Foreign Languages, 1998; M.A., Victoria University of Wellington, 2002; Ph.D., Georgia State University/Perimeter College, 2009.

Hu, Mengjun
Associate Professor, AGNR-Plant Science & Landscape Architecture; B.S., China Agricultural University, 2008; Ph.D., Huazhong Agricultural University, 2013.

Hu, Ming
Associate Clinical Professor, ARCH-Architecture Program; B.Arch., Southeast University, 1998; M.Arch., Tsinghua University/Qinghua University, 2001; M.Arch., University of Notre Dame, 2003.

Huang, Furong
Associate Professor, CMNS-Computer Science; Associate Professor, CMNS-Institute for Advanced Computer Studies; B.S., Zhejiang University, 2010; M.S., University of California-Irvine, 2012; Ph.D., 2016.

Huang, Helen Q.
Professor, ARHU-School of Theatre, Dance & Performance Studies; B.F.A., Central Academy Of Drama-Beijing, 1982; M.F.A., University of Missouri-Kansas City, 1988.

Huang, Heng
Professor, CMNS-Computer Science; Professor, ENGR-Electrical & Computer Engineering; Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Professor, CMNS-Institute for Health Computing; B.S., Shanghai Jiaotong University, 1997; M.S., 2001; Ph.D., Dartmouth College, 2005.

Huang, Huang Chiao
Associate Professor, ENGR-Fischell Department of Bioengineering; B.S., National Taipei University of Technology, 2005; Ph.D., Arizona State University, 2012.

Huang, Jia-Bin
Associate Professor, CMNS-Computer Science; Associate Professor, CMNS-Institute for Advanced Computer Studies; B.S., National Chiao Tung University-Hsinchu, 2006; M.S., University of Illinois-Urbana/Champaign, 2013; Ph.D., 2016.

Huang, Mong-Han
Associate Professor, CMNS-Geology; B.S., National Taiwan University, 2005; B.S., 2005; M.S., 2006; Ph.D., University of California-Berkeley, 2014.

Huang, Peng
Associate Professor, BMGT-Robert H. Smith School of Business; Associate Professor, BMGT-Decision, Operations & Information Technologies; B.S., Fudan University-Shanghai, 2000; M.S., Catholic University of Louvain-Dutch, 2004; Ph.D., Georgia Institute of Technology, 2010.

Huang, Shuo
Lecturer, SPHL-Health Policy and Management; M.P.H., Brown University, 2014; Ph.D., University of Maryland-College Park, 2023.

Huang, Xiaofang
Lecturer, ARHU-English; B.A., Sun Yat Sen University, 2006; M.A., 2008; Ph.D., Catholic University of America, 2017.

Huang, Yi Ting
Director, ARHU-Dean-MD Language Science Center; Professor, BSOS-Hearing & Speech Sciences; B.A., Northwestern University, 2003; M.A., Harvard University, 2005; Ph.D., 2009.

Hubacek, Klaus
Adjunct Professor, BSOS-Geography; M.B.A., Other, 1991; M.S., Rensselaer Polytechnic Institute, 1998; Ph.D., 2000.

Hubbard, James E. Jr.
Professor Emeritus, ENGR-Aerospace Engineering; B.S., Massachusetts Institute of Technology, 1977; M.S., 1979; Ph.D., 1982.

Hubbard, Mark Francis
Lecturer, PLCY-Office of Executive Programs; M.B.A., Loyola University Maryland, 1997; J.D., University of Maryland-College Park, 2003.

Hudson, Robert D.
Professor Emeritus, CMNS-Atmospheric & Oceanic Science; B.S., University of Reading, 1956; Ph.D., 1959.

Huebner, Robert W.
Associate Professor Emeritus, EDUC-Human Development and Quantitative Methodology; B.S., Concordia University, 1957; M.A., 1960; Ph.D., University of Maryland-College Park, 1969.

Huertas Cerdeira, Cecilia
Assistant Professor, ENGR-Mechanical Engineering; B.S., Universidad Politecnica de Madrid, 2014; M.S., Ecole National Superieure de Mecanique et D'Aerotechnique, 2014; M.S., California Institute of Technology, 2015; D.O., 2019.

Hueth, Darrell L.
Professor Emeritus, AGNR-Agricultural & Resource Economics; B.S., Montana State University, 1959; M.S., 1969; Ph.D., University of California-Berkeley, 1973.

Huffman, Benjamin David
Assistant Clinical Professor, SVPAAP-Office of Undergraduate Research; B.A., Western Washington University, 1998; M.A., Nagoya University, 2014; Ph.D., 2018.

Hughes, James Patrick
Adjunct Professor, ENGR-Fischell Department of Bioengineering; B.S., Northwestern University, 1999; M.S., Johns Hopkins University, 2006; J.D., George Washington University, 2010.

Hughes, Paul D.
Lecturer, BSOS-Government & Politics; B.A., Colorado State University-Fort Collins, 1975; M.A., U.S. Army Command, General Staff College, 1987; M.A., 1988.

Hughes-Watkins, Lae'l
Librarian III, LIBR-Libraries; B.A., Youngstown State University, 2004; M.A., 2008; M.L.S., Kent State University-all campuses, 2010.

Hui, Bronson
Assistant Professor, ARHU-School of Languages, Literatures, and Cultures; Affiliate Assistant Professor, ARHU-Dean-MD Language Science Center; B.O., University of Hong Kong, 2009; B.A., 2009; M.S., Aberystwyth University, 2013; Ph.D., Michigan State University, 2021.

Hulten, Charles R.
Professor Emeritus, BSOS-Economics; A.B., University of California-Berkeley, 1965; Ph.D., 1973.

Hultgren, Francine H.
Professor Emerita, EDUC-Teaching and Learning, Policy and Leadership; B.S., University of Minnesota-Twin Cities, 1968; M.S., North Dakota State University-Fargo, 1977; Ph.D., Pennsylvania State University, 1982.

Hultman, Nathan E
Professor, PLCY-School of Public Policy; B.A., Carleton College, 1996; M.S., University of California-Berkeley, 1999; Ph.D., 2003.

Humphrey, Margo
Associate Professor Emerita, ARHU-Art; B.F.A., California College of the Arts, 1973; M.F.A., Stanford University, 1974.

Humud, Sarah Bonnie
Assistant Clinical Professor, ARHU-Dean's-Living Learning Programs; B.A., Tufts University, 2010; M.A., New York University, 2011; Ph.D., University of Maryland-College Park, 2019.

Hung, Eric Hing-Tao
Lecturer, INFO-College of Information Studies; B.A., Wesleyan University, 1996; Ph.D., Stanford University, 2003; M.L.S., University of Maryland-College Park, 2018.

Hunt, Brian R.
Professor Emeritus, CMNS-Mathematics; M.A., University of Maryland-College Park, 1983; Ph.D., Stanford University, 1989.

Hunt, Janet G.
Associate Professor Emerita, BSOS-Sociology; B.A., University of Redlands, 1962; M.A., Indiana University, 1966; Ph.D., 1973.

Hunt, Larry L.
Associate Professor Emeritus, BSOS-Sociology; B.S., Ball State University, 1961; M.A., Indiana University, 1964; Ph.D., 1968.

Hurley, Ben F.
Professor Emeritus, SPHL-Kinesiology; B.A., University of South Florida, 1972; M.A., 1975; Ph.D., Florida State University, 1981.

Hurley, Bonnie Jo
Librarian Emerita, LIBR-Libraries; B.A., American University, 1963; M.L.S., University of Maryland-College Park, 1971; M.Mus., 1993.

Hurley, Megan McCale
Lecturer, EDUC-Human Development and Quantitative Methodology; B.S., Ithaca College, 1991; M.A., Pennsylvania State University, 1993; Ph.D., 1998.

Hurst, William Reuben
Assistant Professor, BMGT-Robert H. Smith School of Business; Assistant Professor, BMGT-Management & Organization; B.A., Dartmouth College, 2008; M.S., London School of Economics & Political Science, 2015; Ph.D., University of Michigan-Ann Arbor, 2024.

Hurtado, Agustin Miguel
Assistant Professor, BMGT-Robert H. Smith School of Business; Assistant Professor, BMGT-Finance; B.A., Universidad de Chile, 2013; M.A., 2016; Ph.D., University of Chicago, 2024.

Hurtado Choque, Ghaffar Ali
Associate Professor, SPHL-Family Science; Associate Professor, SPHL-Family Science (AGNR); M.Ed., University of Minnesota-Twin Cities, 2010; Ph.D., 2014.

Hurtt, George C.
Associate Chair, BSOS-Geography; Professor, BSOS-Geography; 2019-2020 Distinguished Scholar-Teacher. B.A., Middlebury College, 1990; M.S., University of Connecticut-all campuses, 1992; M.A., Princeton University, 1994; Ph.D., 1997.

Hurtt, Steven W.
Professor Emeritus, ARCH-School of Architecture, Planning, & Preservation; A.B., Princeton University, 1963; M.Arch., Cornell University, 1967; M.F.A., Princeton University, 1965.

Hutchins, Richard A.
Lecturer, BMGT-Logistics, Business & Public Policy; B.P.A., University of Mississippi, 1967; M.B.A., University of West Florida-Pensacola, 1974.

Huth, Paul K.
Professor, BSOS-Government & Politics; B.A., University of Wisconsin-Milwaukee, 1981; M.A., Yale University, 1984; Ph.D., 1986.

Hyland, Kristen M
Lecturer, BMGT-Dean-Career Management; B.S., Rider University, 2003; M.B.A., Loyola University Maryland, 2017.

Hyman, Mark
Professor of the Practice, JOUR-Philip Merrill College of Journalism; B.A., University of Pennsylvania, 1978; J.D., University of Maryland at Baltimore, 1995.

I

Ibrahim, Hassan
Clinical Professor, BMGT-Decision, Operations & Information Technologies; B.S., King Saud University, 1980; M.Eng., George Washington University, 1984; Sc.D., 1988.

Ibrahimi, Sahra
Lecturer, SPHL-Family Science; B.A., Smith College, 2017; M.P.H., Adelphi University, 2020; Ph.D., University of Maryland-College Park, 2024.

Ide, Kayo
Associate Professor, CMNS-Atmospheric & Oceanic Science; Associate Professor, CMNS-Mathematics; Associate Professor, CMNS-Institute for Physical Science & Technology; Affiliate Associate Professor, CMNS-Earth System Science Interdisciplinary Center; B.S., Nagoya University, 1984; M.S., California Institute of Technology, 1985; Ph.D., 1990.

Idler, Jose Enrique
Lecturer, PLCY-Office of Executive Programs; Ph.D., University of Maryland-College Park, 2005.

Idsardi, William James
Professor, ARHU-Linguistics; Affiliate Professor, ARHU-Dean-MD Language Science Center; B.A., University of Toronto, 1988; Ph.D., Massachusetts Institute of Technology, 1992.

Igel, Regina
Professor Emerita, ARHU-School of Languages, Literatures, and Cultures; M.A., Iowa State University, 1969; Ph.D., University of New Mexico-Albuquerque, 1973.

Iliadis, Agisilaos
Professor, ENGR-Electrical & Computer Engineering; B.S., Aristotelian University of Salonika, 1975; M.S., Victoria University of Manchester, 1976; Ph.D., 1980.

Imig, David Gregg
Professor of the Practice Emeritus, EDUC-Teaching and Learning, Policy and Leadership; A.A., Joliet Junior College, 1959; B.A., University of Illinois-Urbana/Champaign, 1961; M.A., 1964; Ph.D., 1969.

Inbar, Yael
Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.F.A., School of Visual Theatre, 1993; M.F.A., Bournemouth University, 2001.

Infante, Chad B
Assistant Professor, ARHU-English; B.A., CUNY-City College of New York, 2011; M.A., Northwestern University, 2013; Ph.D., 2018.

Infantino, Robert L. Jr.
Senior Lecturer, CMNS-Biology; B.A., University of San Diego, 1985; Ph.D., University of Massachusetts-Amherst, 1992.

Ingram, Kenneth B.
Lecturer, AGNR-Institute of Applied Agriculture; A.S., University of Massachusetts-Amherst, 1978; A.S., Montgomery College, 1985; B.S., University of Maryland-College Park, 1989; M.S., 1995.

Inoue, Makiko
Senior Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., Fukuoka Women's University, 2001; M.A., Ohio State University, 2005.

Inouye, David W.
Professor Emeritus, CMNS-Biology; B.A., Swarthmore College, 1971; Ph.D., University of North Carolina-Chapel Hill, 1976.

Intepe Tingir, Seyma
Assistant Clinical Professor, EDUC-Counseling, Higher Education and Special Education; B.A., Eskisehir Osmangazi University, 2009; M.Ed., University of Texas-Austin, 2013; Ph.D., Florida State University, 2019.

Irazabal Zurita, Clara Elena
Area Chair, ARCH-Urban Studies & Planning Program; Professor, ARCH-School of Architecture, Planning, & Preservation; Professor, ARCH-Urban Studies & Planning Program; M.A., University of California-Berkeley, 1994; Ph.D., 2002.

Isaacs, Lyle D.
Professor, CMNS-Chemistry & Biochemistry; B.S., University of Chicago, 1991; M.S., University of California-Los Angeles, 1992; Ph.D., Swiss Federal Institute of Tech-Zurich, 1995.

Isaacs, Neil D.
Professor Emeritus, ARHU-English; A.B., Dartmouth College, 1953; M.A., University of California-Berkeley, 1956; Ph.D., Brown University, 1959.

Isaacs, Olivia Rose
Librarian II, LIBR-Libraries; B.A., University of Florida, 2016; M.L.S., University of Maryland-College Park, 2020.

Iseki, Hiroyuki
Associate Professor, ARCH-School of Architecture, Planning, & Preservation; Associate Professor, ARCH-Urban Studies & Planning Program; B.E., Kyoto University, 1991; M.Eng., University of Tokyo, 1994; M.A., University of California-Los Angeles, 1998; Ph.D., University of California-Med Los Angeles, 2004.

Islam, Sabrina
Senior Lecturer, ARHU-English; B.A., University of Richmond, 2014; M.F.A., University of Maryland-College Park, 2017.

Isman, Kenneth Edward
Clinical Professor Emeritus, ENGR-Fire Protection Engineering; Clinical Professor, ENGR-Fire Protection Engineering; B.S., University of Maryland-College Park, 1986; M.S., University of Maryland-Global Campus, 2003.

Iso-Ahola, Seppo E.
Professor, SPHL-Kinesiology; B.S., University of Jyvaskyla, 1971; M.S., University of Illinois-Urbana/Champaign, 1972; M.S., University of Jyvaskyla, 1973; Ph.D., University of Illinois-Urbana/Champaign, 1976.

Isoke, Zenzele
Associate Professor, ARHU-Women, Gender and Sexuality Studies; B.A., Clark Atlanta University, 1997; M.A., University of Michigan-Ann Arbor, 2001; Ph.D., Rutgers University, 2007.

Israel, Ari
Lecturer, EDUC-Counseling, Higher Education and Special Education; B.A., Yeshiva University, 1992; M.A., 1993; M.A., 1996.

Israel, David J.
Lecturer, ENGR-Aerospace Engineering; B.S., Johns Hopkins University, 1989; M.S., George Washington University, 1996.

Israel, Michael
Associate Professor, ARHU-English; Affiliate Associate Professor, ARHU-Dean-MD Language Science Center; B.A., University of California-Berkeley, 1989; Ph.D., University of California-San Diego, 1998.

Isto, Raino Eetu
Lecturer, ARHU-Art History & Archaeology; B.A., Willamette University, 2008; M.A., University of Maryland-College Park, 2014; Ph.D., 2019.

Itzkowitz Shifrinson, Joshua Richard
Associate Professor, PLCY-School of Public Policy; B.A., Brandeis University, 2006; Ph.D., Massachusetts Institute of Technology, 2013.

Ivey, Charmaine Nakia
Lecturer, SPHL-Health Policy and Management; B.S., Temple University, 2018; M.P.H., Emory University, 2020; Ed.D., Teachers College of Columbia University, 2023.

Iwamoto, Derek
Associate Professor, BSOS-Psychology; B.A., University of California-Irvine, 2001; M.A., University of Nebraska-Lincoln, 2003; Ph.D., 2007.

Iyyer, Mohit
Associate Professor, CMNS-Computer Science; B.S., Washington University in Saint Louis, 2012; Ph.D., University of Maryland-College Park, 2017.

Izursa, Jose-Luis
Senior Lecturer, AGNR-Environmental Science & Technology; B.S., University of San Simon-Cochabamba, 1988; M.S., University Amazonica of Pando, 1997; M.S., University of Maryland-College Park, 2002; Ph.D., 2008.

J

Jabeen, Shabnam
Associate Clinical Professor, SVPAAP-Office of Undergraduate Research; M.S., Government College University Lahore, 1996; B.S., Islamia University, 1996; M.O., Quaid-i-Azam University, 1998; Ph.D., University of Kansas, 2006.

Jackson, Carleton L
Librarian Emeritus, LIBR-Libraries; B.A., University of Maryland-College Park, 1972; M.L.S., 1977.

Jackson, Cecily Renee
Assistant Professor, BSOS-African American Studies; B.S., Pennsylvania State University, 2002; Ph.D., University of North Carolina-Chapel Hill, 2009.

Jackson, Fatimah L.C.
Professor Emerita, BSOS-Anthropology; B.A., Cornell University, 1972; M.A., 1978; Ph.D., 1981.

Jackson, Scott
Lecturer, INFO-College of Information Studies; B.A., University of Texas-Austin, 2000; B.A., 2001; Ph.D., University of Arizona, 2007.

Jackson, Sheila Michelle
Lecturer, EDUC-Dean-Outreach; B.A., University of Virginia, 1983; M.A., McDaniel College, 1997; Ed.D., University of Maryland-College Park, 2016.

Jacobs, Alan
Lecturer, BMGT-Finance; J.D., University of Baltimore, 1975.

Jacobs, Bruno
Assistant Professor, BMGT-Robert H. Smith School of Business; Assistant Professor, BMGT-Marketing; B.S., Erasmus University of Rotterdam, 2011; M.S., 2012; Ph.D., 2017.

Jacobs, David
Professor, CMNS-Computer Science; Professor, CMNS-Institute for Advanced Computer Studies; B.A., Yale University, 1982; M.S., Massachusetts Institute of Technology, 1988; Ph.D., 1992.

Jacobs, Wendy A.
Senior Lecturer, ARHU-Art; B.F.A., Edinboro State College, 1980; M.F.A., Cranbrook Academy of Art, 1984.

Jacobsen, Timothy M
Senior Lecturer, JOUR-Philip Merrill College of Journalism; B.A., Winona State University, 1988.

Jacobsen, Wade C
Associate Professor, BSOS-Criminology & Criminal Justice; B.S., Brigham Young University, 2009; M.S., 2011; Ph.D., Pennsylvania State University, 2017.

Jacobson, Theodore A.
Distinguished University Professor, CMNS-Physics; 2008-2009 Distinguished Scholar-Teacher. B.A., Reed College, 1977; Ph.D., University of Texas-Austin, 1983.

Jaeger, Paul T.
Professor, INFO-College of Information Studies; 2023-2024 Distinguished Scholar-Teacher. B.A., University of South Florida-New College, 1996; M.Ed., University of North Florida, 1998; J.D., Florida State University, 2001; M.S., 2003; Ph.D., 2006.

Jaeger, Theodore
Lecturer, ENGR-Aerospace Engineering; Ph.D., University of Iowa, 2010; B.S., University of Wisconsin-Eau Claire, 2022.

Jaffe, Joshua Benjamin
Lecturer, EDUC-Human Development and Quantitative Methodology; B.S., Binghamton University, 2018; Ph.D., University of Maryland-College Park, 2024.

Jaffe, Paul Iven
Lecturer, ENGR-Aerospace Engineering; B.S., University of Maryland-College Park, 1996; M.S., 2007; Ph.D., 2013.

Jaffee, Steven
Lecturer, AGNR-Agricultural & Resource Economics; B.A., University of Pennsylvania, 1982; Ph.D., University of Oxford, 1990.

Jagus, Rosemary
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., University College-London, 1976.

Jahani, Eaman
Assistant Professor, BMGT-Robert H. Smith School of Business; Assistant Professor, BMGT-Decision, Operations & Information Technologies; B.S., University of Michigan-Ann Arbor, 2008; M.S., 2011; Ph.D., Massachusetts Institute of Technology, 2022.

JaJa, Joseph F.
Professor Emeritus, ENGR-Electrical & Computer Engineering; B.S., American University of Beirut-Lebanon, 1974; M.S., Harvard University, 1976; Ph.D., 1977.

Jakobson, Michael
Professor, CMNS-Mathematics; M.A., Moscow M.V. Lomonosov State University, 1967; Ph.D., 1970.

Jalehmahmoudi, Bahareh
Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., San Diego State University, 2009; M.F.A., University of Maryland-College Park, 2013.

James, Bruce R.
Professor Emeritus, AGNR-Environmental Science & Technology; B.A., Williams College, 1973; M.S., University of Vermont, 1979; Ph.D., 1981.

Jamin, Michelle A
Lecturer, SPHL-Kinesiology; B.S., University of Maryland-College Park, 2016; D.P.T., Elon University, 2019.

Janis, Jennifer Lyn
Lecturer, AGNR-Plant Science & Landscape Architecture; B.S., University of Georgia, 1999; M.L.Arch., Harvard University, 2009.

Jarmon, Renina
Lecturer, BSOS-African American Studies; B.A., New York University, 2000; M.A., University of Maryland-College Park, 2022.

Jarzynski, Christopher
Distinguished University Professor, CMNS-Chemistry & Biochemistry; Distinguished University Professor, CMNS-Physics; Distinguished University Professor, CMNS-Institute for Physical Science & Technology; B.A., Princeton University, 1987; Ph.D., University of California-Berkeley, 1994.

Jawahery, Abolhassan
Distinguished University Professor, CMNS-Physics; Distinguished Faculty Research Fellow. B.S., University of Tehran, 1976; M.S., Tufts University, 1977; Ph.D., 1981.

Jawed, Aysha Inam
Lecturer, ARHU-English; Lecturer, SPHL-Dean-Public Health Science; B.A., University of Maryland-College Park, 2009; M.S.W., University of Maryland at Baltimore, 2011; M.P.H., 2015.

Jawin, Rachel A
Lecturer, AGNR-Plant Science & Landscape Architecture; Lecturer, AGNR-Plant Science & Landscape Architecture; B.S., Lewis & Clark College, 2008; M.L.Arch., Cornell University, 2017.

Jay, Steven M.
Associate Professor, ENGR-Fischell Department of Bioengineering; B.E., University of Georgia, 2004; M.S., Yale University, 2006; M.O., 2007; Ph.D., 2009.

Jefferson, Brian Niels
Lecturer, BMGT-Accounting; B.S., University of Maryland-College Park, 2001; M.S., University of Baltimore, 2006.

Jefferson, Leslie
Lecturer, PLCY-School of Public Policy; B.S., Lincoln University, 2010; M.A., Kaplan University, 2015.

Jeffery, William Richard
Distinguished University Professor, CMNS-Biology; B.S., University of Illinois-Chicago, 1967; Ph.D., University of Iowa, 1971.

Jeka, John Joseph
Professor Emeritus, SPHL-Kinesiology; B.A., Tufts University, 1979; M.A., 1988; Ph.D., Florida Atlantic University, 1992.

Jelveh, Zubin
Assistant Professor, INFO-College of Information Studies; Assistant Professor, BSOS-Criminology & Criminal Justice; B.A., University of Chicago, 1999; M.S., Columbia University in the City of New York, 2003; M.A., 2011; Ph.D., New York University, 2017.

Jenkins, Eric John
Senior Lecturer, ARCH-Architecture Program; B.S., University of Maryland-College Park, 1986; M.Arch., 1989; M.A., Harvard University, 1999.

Jenkins, Gregory S.
Adjunct Associate Professor, CMNS-Physics-Quantum Materials Center; B.S., University of Texas-Austin, 1993; M.S., University of Maryland-College Park, 1998; Ph.D., 2003.

Jenkins, Kana K
Librarian II, LIBR-Libraries; B.A., Kansai Gaidai University, 2002; M.A., College of Charleston, 2007.

Jette, Shannon Leigh
Associate Professor, SPHL-Kinesiology; B.S., Simon Fraser University-Burnaby, 1998; M.A., University of British Columbia, 2004; Ph.D., 2009.

Ji, Xiangdong
Distinguished University Professor, CMNS-Physics; B.S., Tongji University/Tungchai University, 1982; M.S., Drexel University, 1985; Ph.D., 1987.

Jiang, Nan
Professor, ARHU-School of Languages, Literatures, and Cultures; Affiliate Professor, ARHU-Dean-MD Language Science Center; B.A., Nanjing University/Nanking University, 1984; M.A., East China Normal University, 1987; Ph.D., University of Arizona, 1998; Ph.D., 1998.

Jiang, Ting
Lecturer, CMNS-Computer Science; B.S., Liaoning Normal University, 2016; M.S., Illinois Institute of Technology, 2018.

Jiao, Hong
Professor, EDUC-Human Development and Quantitative Methodology; B.S., Shanghai Jiaotong University, 1989; M.A., 1992; Ph.D., Florida State University, 2003.

Jin, Ginger Zhe
Professor, BSOS-Economics; B.E., University of Science & Technology-Hong Kong, 1992; M.A., Tsinghua University/Qinghua University, 1995; M.A., University of California-Los Angeles, 1998; Ph.D., 2000.

Jin, Younggeon
Assistant Professor, AGNR-Animal & Avian Sciences; D.V.M., Jeju National University, 2009; Ph.D., North Carolina State University, 2014.

Johnson, Amanda N
Lecturer, UGST-HCOL-ACES Cybersecurity Program; M.S., Champlain College, 2022.

Johnson, Arthur T.
Professor Emeritus, ENGR-Fischell Department of Bioengineering; B.S., Cornell University, 1964; M.S., 1967; Ph.D., 1969.

Johnson, Brian D
Professor, BSOS-Criminology & Criminal Justice; B.A., Lawrence University, 1997; M.A., Pennsylvania State University, 2000; Ph.D., 2003.

Johnson, Chloe
Assistant Professor, ENGR-Aerospace Engineering; B.S., University of Wisconsin-Madison, 2018; M.S., University of Texas-Austin, 2020; Ph.D., 2023.

Johnson, Colin
Lecturer, ARHU-School of Music; B.Mus., University of Iowa, 1999; M.Mus., Shenandoah University, 2015; D.M.A., 2020.

Johnson, David R
Visiting Associate Professor, ENGR-Civil & Environmental Engineering; B.S., North Carolina State University, 2003; M.O., University of Cambridge, 2005; Ph.D., Pardee RAND Graduate School, 2013.

Johnson, Jordan Lea
Visiting Lecturer, UGST-HCOL-University Honors Program; B.A., Southwestern University, 2011; Ph.D., Emory University, 2020.

Johnson, Lea R
Adjunct Assistant Professor, AGNR-Plant Science & Landscape Architecture; B.A., University of New Mexico-Albuquerque, 1996; M.S., New Mexico Highlands University, 2004; M.A., City University of New York-New York City Comm College, 2005; Ph.D., Rutgers University, 2013.

Johnson, Lena Dabney
Assistant Clinical Professor, SVPAAP-Office of Undergraduate Research; B.S., University of Maryland-College Park, 2014; M.S., 2016; D.O., 2022.

Johnson, Marcus Aaron Jr.
Assistant Professor, BSOS-Government & Politics; B.A., University of Maryland-College Park, 2011; M.A., Princeton University, 2013; Ph.D., 2017.

Johnson, Martin L.
Professor Emeritus, EDUC-Teaching and Learning, Policy and Leadership; B.S., Morris College, 1962; M.Ed., University of Georgia, 1968; Ed.D., 1971.

Johnson, Philip Lee Falk
Associate Professor, CMNS-Biology; B.A., Harvard University, 2001; Ph.D., University of California-Berkeley, 2009.

Johnson, Raymond L.
Professor Emeritus, CMNS-Mathematics; B.A., University of Texas-Austin, 1963; Ph.D., Rice University, 1969.

Johnson, Timothy
Visiting Professor, CMNS-Geology; B.S., Aberystwyth University, 1991; Ph.D., 1999.

Johnson Cooper, Ebonie
Associate Clinical Professor, PLCY-School of Public Policy; B.S., North Carolina Agricultural & Technical State University, 2005; M.S., New York University, 2013.

Jollie, David R.
Lecturer, CMNS-Entomology; B.S., University of Illinois-Urbana/Champaign, 1981; B.S., 1982; Ph.D., University of Minnesota-Twin Cities, 1992.

Jones, Alexandra L
Assistant Clinical Professor, CMNS-Atmospheric & Oceanic Science; B.S., SUNY-Albany, 2007; M.S., University of Illinois-Urbana/Champaign, 2010; Ph.D., 2016.

Jones, Benjamin R.
Lecturer, BSOS-Psychology; B.A., College of New Jersey, 2014; M.S., Georgia Institute of Technology, 2016; Ph.D., 2019.

Jones, Calvert W
Associate Professor, BSOS-Government & Politics; B.A., Columbia University, 2003; M.A., Yale University, 2011; Ph.D., 2013.

Jones, Erin Raashel
Assistant Clinical Professor, BSOS-Psychology; B.S., Towson University, 2007; M.A., Loyola University Maryland, 2012; M.Ed., 2014; Ph.D., University of North Carolina-Chapel Hill, 2021.

Jones, Everett
Associate Professor Emeritus, ENGR-Aerospace Engineering; B.O., Rensselaer Polytechnic Institute, 1956; M.O., 1960; Ph.D., Stanford University, 1968.

Jones, Jack C.
Professor Emeritus, CMNS-Entomology; B.S., Auburn University, 1942; M.S., 1947; Ph.D., Iowa State University, 1950.

Jones, Loren
Associate Clinical Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., University of South Florida, 2010; M.Ed., University of Miami, 2014; Ph.D., 2018.

Jones, Marvin Quenten Jr.
Lecturer, CMNS-Astronomy; B.S., North Carolina Agricultural & Technical State University, 2009; M.S., Indiana University, 2021; M.A., 2022.

Jones, Rebecca
Visiting Lecturer, UGST-HCOL-University Honors Program; B.A., University of Wisconsin-River Falls, 2012; M.A., De Montfort University, 2014; Ph.D., 2022.

Jose, Antony Merlin
Professor, CMNS-Cell Biology & Molecular Genetics; B.S., Anna University, 1999; Ph.D., Yale University, 2005.

Joseph, Sammy W.
Professor Emeritus, CMNS-Cell Biology & Molecular Genetics; B.S., University of Florida, 1956; M.S., St. John's University, 1964; Ph.D., 1970.

Josephson, Anna M
Lecturer, ARHU-English; B.A., Concordia University-Montreal, 2006; M.C.P., Massachusetts Institute of Technology, 2010.

Joshi, Katherine
Senior Lecturer, ARHU-English; B.A., Union University, 2009; M.A., Southeast Missouri State University, 2011; M.F.A., University of Maryland-College Park, 2014.

Joshi, Yogesh
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Marketing; B.Tech., Indian Institute of Technology-Bombay, 1998; M.S., Massachusetts Institute of Technology, 2000; Ph.D., University of Pennsylvania, 2007.

Joshua, Roy
Lecturer, CMNS-Mathematics; M.S., Indian Institute of Technology-Madras, 1976; B.S., University of Kerala, 1976; Ph.D., Northwestern University, 1983.

Jourdan, Dawn Eve
Dean, ARCH-School of Architecture, Planning, & Preservation; Professor, ARCH-School of Architecture, Planning, & Preservation; B.S., Bradley University, 1996; M.A., University of Kansas, 2000; Ph.D., Florida State University, 2004.

Joyce, Nick M
Associate Professor, ARHU-Communication; B.A., Lewis & Clark College, 2004; M.A., University of Massachusetts-Boston, 2009; Ph.D., Arizona State University, 2014.

Joyce, Philip G.
Professor, PLCY-School of Public Policy; B.A., Thiel College, 1978; M.O., Pennsylvania State University, 1979; Ph.D., Syracuse University, 1990.

Julienne, Paul Sebastian
Adjunct Professor, CMNS-Physics; B.S., Wofford College, 1965; Ph.D., University of North Carolina-Chapel Hill, 1969.

Julin, Douglas A.
Associate Professor Emeritus, CMNS-Chemistry & Biochemistry; B.A., Haverford College, 1978; Ph.D., University of California-Berkeley, 1984.

Juntti, Scott A.
Associate Professor, CMNS-Biology; B.S., University of Wisconsin-Madison, 2001; Ph.D., University of California-San Francisco, 2010.

Jurisa, Joseph Thomas
Visiting Assistant Professor, CMNS-Marine & Estuarine-Environmental Science Prog; D.O., Rutgers University, 2012.

Just, Richard E.
Distinguished University Professor Emeritus, AGNR-Agricultural & Resource Economics; B.S., Oklahoma State University-Stillwater, 1969; M.A., University of California-Berkeley, 1971; Ph.D., 1972.

Justice, Chris
Distinguished University Professor, BSOS-Geography; B.A., University of Reading, 1973; Ph.D., 1977.

K

Kabra, Ashish Santosh
Assistant Professor, BMGT-Robert H. Smith School of Business; Assistant Professor, BMGT-Decision, Operations & Information Technologies; B.E., Birla Institute of Technology & Science, 2009; M.S., Insead University, 2013; Ph.D., 2018.

Kachman, Misha
Professor, ARHU-School of Theatre, Dance & Performance Studies; B.F.A., Moscow Institute of Industrial Arts, 1988; M.F.A., St. Petersburg State Academy of Theater Art, 1994.

Kacorri, Hernisa
Associate Professor, INFO-College of Information Studies; Associate Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Associate Professor, CMNS-Computer Science; B.S., National & Capodistrian University of Athens, 2007; M.S., 2011; M.S., CUNY-Graduate Center, 2014; Ph.D., 2016.

Kacser, Claude
Associate Professor Emeritus, CMNS-Physics; B.A., University of Oxford, 1955; Ph.D., 1959.

Kadry, Abdel-Razak M
Adjunct Professor, SPHL-Global, Environmental, and Occupational Health; B.S., University of Cairo, 1975; M.V.Sc., Zagazig University, 1979; Ph.D., 1981.

Kagan, Abram M.
Professor Emeritus, CMNS-Mathematics; M.A., Other, 1958; Ph.D., 1963; Sc.D., 1967.

Kahn, Jason D.
Associate Professor, CMNS-Chemistry & Biochemistry; Affiliate Associate Professor, ENGR-Fischell Department of Bioengineering; B.A., Harvard University, 1983; Ph.D., University of California-Berkeley, 1990.

Kahn, Joan R.
Professor Emerita, BSOS-Sociology; B.A., Stanford University, 1978; M.A., University of Michigan-Ann Arbor, 1982; Ph.D., 1985.

Kahn, Ralph Ansel
Adjunct Professor, CMNS-Atmospheric & Oceanic Science; Ph.D., Harvard University, 1980.

Kaiser, Anne R.
Clinical Professor, PLCY-School of Public Policy; B.A., University of Chicago, 1990; M.P.P., University of Michigan-Ann Arbor, 1995; M.Ed., 1995.

Kaiser, Thomas
Lecturer, ARHU-History; B.A., University of Michigan-Ann Arbor, 1968; Ph.D., Harvard University, 1976.

Kalan, Ebbie
Assistant Professor, SPHL-Behavioral & Community Health; M.S., Other, 2013; M.S., North Carolina Agricultural & Technical State University, 2017; Ph.D., Florida International University, 2021.

Kalantari Khandani, Mehdi
Lecturer, ENGR-ECE-Telecommunications Program; Adjunct Assistant Professor, ENGR-Electrical & Computer Engineering; B.S., Sharif University of Technology, 1996; M.S., 1998; Ph.D., University of Maryland-College Park, 2005.

Kalavagunta, Kirtana
Lecturer, INFO-College of Information Studies; B.S., University of Texas-Dallas, 2021; M.S., University of Maryland-College Park, 2023.

Kalinski, David
Lecturer, ARCH-Real Estate Development; A.O., Princeton University, 1979; J.D., Cornell University, 1983.

Kalnay, Eugenia E.
Distinguished University Professor Emerita, CMNS-Atmospheric & Oceanic Science; B.S./M.S., Universidad de Buenos Aires, 1965; Ph.D., Massachusetts Institute of Technology, 1971.

Kaloshin, Vadim
Visiting Professor, CMNS-Mathematics; B.A., Moscow State University, 1994; M.A., Princeton University, 1997; Ph.D., 2001.

Kammeyer, Kenneth C.W.
Professor Emeritus, BSOS-Sociology; B.A., University of Northern Iowa, 1953; M.A., University of Iowa, 1958; Ph.D., 1960.

Kamran, Neha
Lecturer, ARHU-Communication; B.A., Bryn Mawr College, 2015; Ph.D., University of Maryland-College Park, 2024.

Kanal, Laveen N.
Professor Emeritus, CMNS-Computer Science; B.S., University of Washington-Seattle, 1951; M.S., 1953; Ph.D., University of Pennsylvania, 1960.

Kane, Shannon Maura
Assistant Clinical Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., Catholic University of America, 1998; M.A., George Washington University, 2000; Ed.D., University of Pennsylvania, 2013.

Kane, Stacey Lynn Goebel
Assistant Professor, BSOS-Hearing & Speech Sciences; B.A., Washington University in Saint Louis, 2010; Au.D., 2014.

Kang, Veronica
Assistant Professor, EDUC-Counseling, Higher Education and Special Education; B.S., University of Washington-Seattle, 2015; M.Ed., University of Illinois-Chicago, 2020; M.Ed., 2021; Ph.D., 2022.

Kanigowski, Adam Mariusz
Professor, CMNS-Mathematics; M.S., Nicolas Copernicus University, Torun, 2012; Ph.D., Polish Academy of Sciences-Warsaw, 2015.

Kannan, Pallassana K.
Associate Dean, BMGT-Marketing; Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Marketing; 2018-2019 Distinguished Scholar-Teacher. B.Tech., Banaras Hindu University, 1980; M.S., National Institute for Training in Industrial Engineering, 1982; Ph.D., Purdue University-West Lafayette, 1988.

Kanold, Patrick
Professor Emeritus, CMNS-Biology; M.S., Technical University of Berlin, 1994; Ph.D., Johns Hopkins University, 2000.

Kapach, Avi N
Lecturer, ARHU-Classics; B.A., Cornell University, 2016; Ph.D., Brown University, 2021.

Kaplan, Ethan Daniel
Professor, BSOS-Economics; B.A., University of California-Berkeley, 1992; M.A., Stanford University, 1999; Ph.D., University of California-Berkeley, 2005.

Kaplan, Gerardo
Adjunct Professor, AGNR-Veterinary Medicine Program; M.S., Universidad de Buenos Aires, 1981; Ph.D., 1986.

Kaptchuk, Gabriel
Assistant Professor, CMNS-Computer Science; Assistant Professor, CMNS-Institute for Advanced Computer Studies; B.S., Johns Hopkins University, 2015; M.S., 2018; Ph.D., 2020.

Karake, Zeinab A
Clinical Professor, BMGT-Decision, Operations & Information Technologies; M.A., Catholic University of America, 1982; Ph.D., George Washington University, 1987.

Karamustafa, Ahmet Targon
Chair, ARHU-History; Professor, ARHU-History; Affiliate Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., Hamilton College, 1978; M.A., McGill University-Montreal, 1981; Ph.D., 1987.

Karatayev, Vadim
Assistant Professor, CMNS-Biology; B.S., Cornell University, 2014; Ph.D., University of California-Davis, 2019.

Karlsson, Amy J.
Associate Professor, ENGR-Chemical & Biomolecular Engineering; Affiliate Associate Professor, ENGR-Fischell Department of Bioengineering; B.S., Iowa State University, 2003; Ph.D., University of Wisconsin-Madison, 2009.

Karol, David
Associate Professor, BSOS-Government & Politics; B.A., Grinnell College, 1992; M.A., Iowa State University, 1994; Ph.D., University of California-Los Angeles, 2005.

Karpman, Avital
Associate Clinical Professor, ARHU-Meyerhoff Program & Center for Jewish Studies; Associate Clinical Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., University of Winnipeg, 2002; M.A., Brandeis University, 2004; Ph.D., York University, 2007.

Kasischke, Eric S.
Professor Emeritus, BSOS-Geography; B.S., University of Michigan-Ann Arbor, 1974; M.S., 1980; Ph.D., 1992.

Kasler, Franz J.
Professor Emeritus, CMNS-Chemistry & Biochemistry; Ph.D., Universitat Wien, 1959.

Kass, David I.
Clinical Professor, BMGT-Finance; B.S., Cooper Union for Advancement of Science & Art, 1965; M.Elect.E., New York University, 1967; M.A., Harvard University, 1975; Ph.D., 1977.

Kass, Jason M
Senior Lecturer, ARHU-Art; B.A., Tufts University, 2003; M.F.A., School of Visual Arts, 2011; Ph.D., University of Southampton, 2017.

Kastner, Scott
Professor, BSOS-Government & Politics; B.A., Cornell University, 1995; M.A., University of California-San Diego, 1998; Ph.D., 2003.

Kaufer, Mollie
Lecturer, ARHU-Communication; B.A., Chatham University, 2011; M.A., Carnegie Mellon University, 2015.

Kauffman, Christopher D
Senior Lecturer, CMNS-Computer Science; B.S., University of Minnesota-Twin Cities, 2004; M.S., 2010; Ph.D., 2013.

Kauffman, Linda
Professor Emerita, ARHU-English; B.A., University of California-Santa Barbara, 1971; Ph.D., 1978.

Kaufman, Alan Jay
Distinguished University Professor, CMNS-Geology; Affiliate Professor, CMNS-Earth System Science Interdisciplinary Center; 2014-2015 Distinguished Scholar-Teacher. B.S., Louisiana State University-Baton Rouge, 1982; B.A., 1982; M.S., Indiana University, 1986; Ph.D., 1990.

Kaushal, Sujay
Professor, CMNS-Geology; Professor, CMNS-Earth System Science Interdisciplinary Center; B.A., Cornell University, 1997; Ph.D., University of Colorado-Denver, 2003.

Kazungu Sigel, Conny
Lecturer, BSOS-Government & Politics; B.A., Heidelberg University, 2008; M.S., Miami University, 2012; Ph.D., University of Tennessee-Knoxville, 2021.

Ke, Fengfeng
Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., Beijing International Studies University, 1997; M.S., Northern Illinois University, 2002; Ph.D., Pennsylvania State University, 2006.

Kearney, Melissa Schettini
Professor, BSOS-Economics; B.A., Princeton University, 1996; Ph.D., Massachusetts Institute of Technology, 2002.

Kearney, Michael S.
Professor Emeritus, AGNR-Environmental Science & Technology; A.B., University of Illinois-Urbana/Champaign, 1973; M.A., Western Illinois University, 1976; Ph.D., University of Western Ontario-London, 1981.

Kedem, Benjamin
Professor Emeritus, CMNS-Mathematics; B.S., Roosevelt University, 1968; M.S., Carnegie Mellon University, 1970; Ph.D., 1973.

Keefe, Maura
Professor, ARHU-School of Theatre, Dance & Performance Studies; B.A., Hobart and William Smith Colleges, 1985; M.F.A., Smith College, 1992; Ph.D., University of California-Riverside, 2002.

Keener, Cy E
Associate Professor, ARHU-Art; B.A., Colorado College, 1998; M.Arch., University of California-Berkeley, 2005; M.F.A., Stanford University, 2016.

Keeney, Kate
Associate Professor, ARHU-School of Theatre, Dance & Performance Studies; B.Mus., James Madison University, 2003; M.A., American University, 2005; D.F.A., Virginia Polytechnic Institute & State University, 2014.

Keleher, Peter
Associate Professor, CMNS-Computer Science; B.S., Rice University, 1986; M.S., 1992; Ph.D., 1994.

Keller, Michael John
Senior Lecturer, CMNS-Cell Biology & Molecular Genetics; A.S., Schenectady County Community College, 1987; B.S., State University College of Education-New Paltz, 1989; M.S., Villanova University, 1993; Ph.D., University of Missouri-Columbia, 2000.

Kellett, Andrew James
Lecturer, ARHU-History; B.A., Ohio University-all campuses, 2001; M.A., University College Dublin, 2003; Ph.D., University of Maryland-College Park, 2008.

Kelley, Warren L.
Associate Vice President, VPSA-VP Student Affairs; Affiliate Assistant Professor, EDUC-Counseling, Higher Education and Special Education; B.O., University of Maryland-College Park, 1981; B.Arch., 1981; M.G.A., 1993; M.A., University of Maryland-College Park, 2003; Ph.D., 2006.

Kellner, Jesse Daniel
Lecturer, BMGT-Management & Organization; M.B.A., University of Maryland-College Park, 2016.

Kelly, Brian Paul
Associate Dean, ARCH-School of Architecture, Planning, & Preservation; Professor, ARCH-School of Architecture, Planning, & Preservation; Professor, ARCH-Architecture Program; B.Arch., University of Notre Dame, 1981; M.Arch., Cornell University, 1987.

Kelly, Bridget T
Associate Professor, EDUC-Counseling, Higher Education and Special Education; B.S., University of Tennessee, 1995; M.Ed., University of Maryland-College Park, 1996; Ph.D., 2001.

Kelly, Jerae Hutchison
Lecturer, EDUC-Dean-Outreach; B.A., Evergreen State College, 2011; M.A., Lesley University, 2014.

Kelly, Robert Gordon
Professor Emeritus, ARHU-American Studies; B.A., DePauw University, 1961; M.A., Claremont Graduate University, 1962; Ph.D., University of Iowa, 1970.

Kemper, Samantha Kay
Lecturer, INFO-College of Information Studies; B.S., Northern Arizona University, 1998.

Kempton, Eliza
Professor, CMNS-Astronomy; B.A., Middlebury College, 2003; Ph.D., Harvard University, 2009.

Kennedy, Ann Marie
Lecturer, ARHU-School of Music; B.S., University of Maryland-College Park, 1985.

Kent, Bretton W.
Principal Lecturer Emeritus, CMNS-Entomology; B.S., Oregon State University, 1973; M.S., 1976; Ph.D., University of Maryland-College Park, 1981.

Kenworthy, William J.
Professor Emeritus, AGNR-Plant Science & Landscape Architecture; B.S., Purdue University-West Lafayette, 1970; M.S., North Carolina State University, 1972; Ph.D., 1976.

Kerkham, Harol Eleanor
Associate Professor Emerita, ARHU-School of Languages, Literatures, and Cultures; B.A., Pomona College, 1961; M.A., Stanford University, 1963; Ph.D., Indiana University, 1974.

Kern, Susan A
Director, ARCH-Historic Preservation Program; Associate Professor, ARCH-School of Architecture, Planning, & Preservation; Associate Professor, ARCH-Historic Preservation Program; B.A., West Chester University of Pennsylvania, 1986; M.A., University of Virginia, 1990; Ph.D., College of William & Mary, 2005.

Kerner, Hannah R
Adjunct Assistant Professor, BSOS-Geography; B.S., University of North Carolina-Chapel Hill, 2014; M.S., 2015; Ph.D., Arizona State University, 2019.

Kerstein, Samuel J.
Professor, ARHU-Philosophy; B.A., Wesleyan University, 1987; M.A., Columbia University, 1990; M.Phil., 1991; Ph.D., 1995.

Keshavarz-Karamustafa, Fatemeh
Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., Pahlavi University-Shiraz, 1976; M.L.S., 1979; M.A., University of London, 1981; Ph.D., 1985.

Kessel, Woodie
Professor of the Practice, SPHL-Family Science; Visiting Clinical Professor, BSOS-College of Behavioral & Social Sciences; B.S., Drexel University, 1970; M.D., Yeshiva University, 1974; M.P.H., Johns Hopkins University, 1982.

Kestnbaum, Meyer
Associate Professor, BSOS-Sociology; B.A., Harvard University, 1986; M.A., 1989; Ph.D., 1997.

Ketelhut, Diane Jass
Professor, EDUC-Teaching and Learning, Policy and Leadership; B.S., Brown University, 1975; M.Ed., University of Virginia, 1988; Ed.D., Harvard University, 2006.

Kettl, Donald F.
Professor Emeritus, PLCY-School of Public Policy; B.A., Yale University, 1974; M.A., 1976; Ph.D., 1978.

Key, Antwon D
Assistant Professor, ARHU-Art; B.A., University of Alabama-Tuscaloosa, 2014; M.F.A., Vermont College of Fine Arts, 2017.

Khaligh, Alireza
Acting Director, ENGR-Institute for Systems Research; Professor, ENGR-Electrical & Computer Engineering; Professor, ENGR-Institute for Systems Research; B.S., Sharif University of Technology, 1999; M.S., 2001; Ph.D., Illinois Institute of Technology, 2006.

Khamis, Sahar Mohamed
Associate Professor, ARHU-Communication; Affiliate Associate Professor, ARHU-Women, Gender and Sexuality Studies; B.A., American University-Cairo, 1986; M.A., 1989; Ph.D., University of Manchester, 2000.

Kharel, Madan K.
Visiting Associate Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., University of Kentucky, 2010.

Khilnani, Manoj K
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.Elect.E., University of Bombay, 1996; M.S., University of Maryland-Global Campus, 2007; M.B.A., 2009.

Khuller, Samir
Professor Emeritus, CMNS-Computer Science; B.Tech., Indian Institute of Technology-Madras, 1986; M.S., Cornell University, 1989; Ph.D., 1990.

Khurana, Archana
Senior Lecturer, CMNS-Mathematics; B.A., University of Delhi, 1996; M.A., 1998; Ph.D., 2004.

Kibbee, Brendan
Assistant Clinical Professor, ARHU-School of Music; B.Mus., Rutgers University, 2005; M.A., CUNY-Graduate Center, 2017; M.Phil., 2021; Ph.D., 2022.

Kiely, Lisa J.
Associate Dean, UGST-Undergraduate Studies; Affiliate Assistant Professor, EDUC-Counseling, Higher Education and Special Education; B.S., Westfield State university, 1984; M.S., St. Michael's College, 1986; Ph.D., University of Maryland-College Park, 1997.

Kier, Craig
Director, ARHU-College of Arts & Humanities; Professor, ARHU-School of Music; M.Mus., University of Cincinnati, 2001.

Kiger, Ken
Associate Dean, ENGR-A. James Clark School of Engineering; Professor, ENGR-Mechanical Engineering; B.S., University of Southern California, 1991; M.S., University of California-San Diego, 1993; Ph.D., 1995.

Killen, Melanie A.
Distinguished University Professor, EDUC-Human Development and Quantitative Methodology; 2008-2009 Distinguished Scholar-Teacher. B.A., Clark University, 1978; M.A., University of California-Berkeley, 1981; Ph.D., 1985.

Killion, Patrick J
Director, SVPAAP-Sr VP Academic Affairs & Provost; Assistant Clinical Professor, CMNS-Cell Biology & Molecular Genetics; B.S., Texas A&M University-College Station, 1997; Ph.D., University of Texas-Austin, 2007.

Kim, Anthony J.
Adjunct Associate Professor, ENGR-Fischell Department of Bioengineering; B.S., Pennsylvania State University, 2001; M.S., University of Pennsylvania, 2004; Ph.D., 2006.

Kim, Byung-Eun
Professor, AGNR-Animal & Avian Sciences; B.S., Kangwon National University, 1993; M.S., 1996; Ph.D., University of Missouri-Columbia, 2004.

Kim, Doyeon
Visiting Assistant Professor, CMNS-Geology; B.S., Yonsei University-Seoul, 2010; M.S., 2012; Ph.D., Cornell University, 2018.

Kim, Hong Jin
Lecturer, BSOS-Economics; B.A., Korea University-Seoul, 1987; M.A., University of California-Davis, 1989; Ph.D., 1994.

Kim, Hyunki
Lecturer, BSOS-Government & Politics; B.A., Ewha Women's University, 2015; M.A., University of Chicago, 2016; Ph.D., University of Maryland-College Park, 2022.

Kim, Jeong H.
Professor of the Practice, ENGR-Electrical & Computer Engineering; B.S., Johns Hopkins University, 1982; M.S., 1989; Ph.D., University of Maryland-College Park, 1991.

Kim, Jeongeun
Associate Professor, EDUC-Counseling, Higher Education and Special Education; B.A., Korea University-Seoul, 2007; M.A., 2009; Ph.D., University of Michigan-Ann Arbor, 2015.

Kim, Jinhee
Associate Dean, AGNR-College of Agriculture & Natural Resources; Professor, SPHL-Family Science; B.A., Seoul National University, 1993; M.A., 1995; Ph.D., Virginia Polytechnic Institute & State University, 2000.

Kim, Jiyoun
Associate Professor, ARHU-Communication; B.A., Korea University-Seoul, 2003; M.A., 2006; Ph.D., University of Wisconsin-Madison, 2014.

Kim, John J
Principal Lecturer, ARHU-English; B.A., Columbia University, 2000; J.D., University of California-Berkeley, 2004; M.F.A., University of California-Irvine, 2013.

Kim, Jungho
Professor, ENGR-Mechanical Engineering; B.S., University of California-Berkeley, 1982; M.S., University of Minnesota-Twin Cities, 1986; Ph.D., 1990.

Kim, Ki-Yong
Professor, CMNS-Physics; B.A., Korea University-Seoul, 1995; B.S., 1995; Ph.D., University of Maryland-College Park, 2003.

Kim, Seung-Kyung
Professor Emerita, ARHU-Women, Gender and Sexuality Studies; B.A., Yonsei University-Seoul, 1977; M.A., CUNY-Hunter College, 1986; Ph.D., CUNY-Graduate School & University Center, 1990.

Kim, Sujin
Associate Clinical Professor, BMGT-Decision, Operations & Information Technologies; B.S., Ewha Women's University, 1995; M.S., University of Washington-Seattle, 2001; M.S., Cornell University, 2005; Ph.D., 2006.

Kim, Taejun James
Lecturer, ARCH-Architecture Program; B.Arch., Hong Ik University, 2006; M.Arch., University of Missouri-St. Louis, 2010.

Kim, Young Suh
Professor Emeritus, CMNS-Physics; B.S., Carnegie Institute of Technology, 1958; Ph.D., Princeton University, 1961.

Kimbrough, Michael D
Chair, BMGT-Accounting; Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Accounting; B.A., Washington University in Saint Louis, 1991; Ph.D., Indiana University, 2002.

Kindaichi, Mai
Lecturer, BSOS-Psychology; B.A., Georgetown University, 1998; M.Ed., Teachers College of Columbia University, 2002; M.A., 2002; Ph.D., 2010.

King, Henry C.
Professor Emeritus, CMNS-Mathematics; A.B., Brown University, 1969; M.A., University of California-Berkeley, 1973; Ph.D., 1974.

King, Katie
Professor Emerita, ARHU-Women, Gender and Sexuality Studies; B.A., University of California-Santa Cruz, 1975; Ph.D., 1987.

King, Marques
Lecturer, ARCH-Architecture Program; B.S., Lawrence Technological University, 2011; M.Arch., University of Maryland-College Park, 2014.

King, Richard G.
Associate Professor Emeritus, ARHU-School of Music; B.Mus., University of Alberta-Edmonton, 1981; M.Mus., 1984; Ph.D., Stanford University, 1992.

King-Marshall, Evelyn Claire
Assistant Clinical Professor, SPHL-Behavioral & Community Health; B.S., University of Florida, 2005; M.P.H., 2007; Ph.D., 2013.

Kini, Gananand Ganesh
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.S., Virginia Polytechnic Institute & State University, 2006; M.S., Carnegie Mellon University, 2011.

Kintiba, George Imongo
Senior Lecturer, BSOS-African American Studies; B.A., Post-Secondary Business Institute, 1991; Ph.D., Howard University, 2014.

Kirk, James A.
Professor Emeritus, ENGR-Mechanical Engineering; B.S., Ohio University-all campuses, 1967; M.S., Massachusetts Institute of Technology, 1969; Sc.D., 1972.

Kirk-Davidoff, Daniel B
Adjunct Associate Professor, CMNS-Atmospheric & Oceanic Science; B.S., Yale University, 1990; Ph.D., Massachusetts Institute of Technology, 1998.

Kirkley, Donald H. Jr.
Associate Professor Emeritus, ARHU-College of Arts & Humanities; B.A., University of Maryland-College Park, 1960; M.A., 1962; Ph.D., Ohio University-all campuses, 1967.

Kirkpatrick, Theodore R.
Professor Emeritus, CMNS-Physics; B.S., University of California-Los Angeles, 1977; Ph.D., The Rockefeller University, 1981.

Kirmani, Amna
Chair, BMGT-Marketing; Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Marketing; B.A., University of Maryland-College Park, 1979; M.B.A., Cornell University, 1984; Ph.D., Stanford University, 1988.

Kirsch, David A.
Associate Professor, BMGT-Robert H. Smith School of Business; Associate Professor, BMGT-Management & Organization; B.A., Harvard University, 1988; M.A., State University of Limburg, 1992; Ph.D., Stanford University, 1997.

Kirschenbaum, Matthew G.
Distinguished University Professor, ARHU-English; B.A., SUNY-Albany, 1992; M.A., University of Virginia, 1994; Ph.D., 1999.

Kirschner, Sara
Assistant Clinical Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., Pennsylvania State University, 2003; M.A., Teachers College of Columbia University, 2005; Ph.D., George Mason University, 2023.

Kirwan, William E.
Professor, CMNS-Mathematics; A.B., University of Kentucky, 1960; M.S., Rutgers University, 1962; Ph.D., 1964.

Kiss, Elinda F
Lecturer, BMGT-Finance; B.A., Washington University in Saint Louis, 1969; M.A., University of Rochester, 1972; Ph.D., 1983.

Kivlighan, Dennis M. Jr.
Professor, EDUC-Counseling, Higher Education and Special Education; B.S., College of William & Mary, 1975; M.S., Virginia Commonwealth University, 1980; Ph.D., 1982.

Kjellerup Shirtliff, Birthe Veno
Professor, ENGR-Civil & Environmental Engineering; Affiliate Professor, ENGR-Fischell Department of Bioengineering; M.S., Aalborg Universitet, 1997; Ph.D., 2004.

Klauda, Jeffery B.
Professor, ENGR-Chemical & Biomolecular Engineering; B.S., Rensselaer Polytechnic Institute, 1998; Ph.D., University of Delaware, 2003.

Klees, Steven J.
Professor, EDUC-Counseling, Higher Education and Special Education; Affiliate Professor, ARHU-Women, Gender and Sexuality Studies; Affiliate Professor, ARHU-Dean-Latin American and Caribbean Studies Center; 2020-2021 Distinguished Scholar-Teacher. B.A., CUNY-Queens College, 1968; M.A., Stanford University, 1971; M.B.A., 1971; Ph.D., 1975.

Klein, Elisa L.
Associate Professor Emerita, EDUC-Human Development and Quantitative Methodology; B.A., Kalamazoo College, 1975; M.S., Pennsylvania State University, 1977; Ph.D., 1980.

Klein, Jesse
Lecturer, INFO-College of Information Studies; B.S., Florida State University, 2010; M.S., 2012; Ph.D., 2015; M.S., 2019.

Kleiner, Samuel Aaron
Lecturer, BSOS-Economics; B.A., Northwestern University, 2001; M.A., Brown University, 2004; M.P.P., Carnegie Mellon University, 2009; Ph.D., 2010.

Kleinman, Dushanka V.
Professor Emerita, SPHL-Epidemiology & Biostatistics; B.S., University of Wisconsin-Madison, 1969; D.D.S., University of Illinois-Chicago, 1973; M.S., Boston University, 1976.

Kleiss, Michael Carlos Barrios
Associate Professor, ARCH-School of Architecture, Planning, & Preservation; Associate Professor, ARCH-Architecture Program; M.Arch., Pratt Institute, 1990; B.Arch., University of the Andes-Merida, 1993; Ph.D., Massachusetts Institute of Technology, 2006.

Kleist, Daryl T
Adjunct Assistant Professor, CMNS-Atmospheric & Oceanic Science; B.S., University of Wisconsin-Milwaukee, 1999; M.S., University of Wisconsin-Madison, 2003; Ph.D., University of Maryland-College Park, 2012.

Kleykamp, Meredith A.
Associate Dean, BSOS-College of Behavioral & Social Sciences; Professor, BSOS-Sociology; B.A., University of Texas-Austin, 1998; M.A., Princeton University, 2001; Ph.D., 2007.

Klineberg, Julia M
Lecturer, ARCH-Architecture Program; B.A., Rice University, 2015; M.Arch., University of California-Berkeley, 2018.

Klose, Kevin
Professor Emeritus, JOUR-Philip Merrill College of Journalism; B.A., Harvard University, 1962.

Klossner, Joanne C.
Senior Lecturer, SPHL-Kinesiology; B.S., Indiana University, 1993; M.S., University of North Carolina-Chapel Hill, 1995; Ph.D., Indiana University, 2004.

Klotz, Kelsey
Assistant Professor, ARHU-School of Music; Affiliate Assistant Professor, ARHU-American Studies; B.A., Truman State University, 2010; Ph.D., Washington University in Saint Louis, 2016.

Klotz, Kenneth W.
Senior Lecturer, SPHL-Kinesiology; B.S., University of Maryland-College Park, 1987.

Klumpp, James F.
Professor Emeritus, ARHU-Communication; B.A., University of Kansas, 1968; M.A., University of Minnesota-Twin Cities, 1971; Ph.D., 1973.

Knaap, Gerrit J.
Professor, ARCH-School of Architecture, Planning, & Preservation; Professor, ARCH-Center for Smart Growth Research & Education; Professor, ARCH-Urban Studies & Planning Program; B.S., Willamette University, 1978; M.S., University of Oregon, 1982; Ph.D., 1982.

Knight, Matthew M
Adjunct Assistant Professor, CMNS-Astronomy; B.S., University of Virginia, 2000; M.S., University of Maryland-College Park, 2003; Ph.D., 2008.

Knight, Tim
Director, AGNR-College of Agriculture & Natural Resources; Lecturer, AGNR-College of Agriculture & Natural Resources; M.S., Oregon State University, 2002.

Knott, Cheryl L.
Professor, SPHL-Behavioral & Community Health; B.S., SUNY-College at Brockport, 1995; M.S., East Tennessee State University, 1997; Ph.D., St. Louis University, 2001.

Koblinsky, Sally A.
Professor Emerita, SPHL-Family Science; A.B., University of California-Santa Cruz, 1971; M.A., San Francisco State University, 1973; Ph.D., Oregon State University, 1977.

Kocher, Thomas David
Professor, CMNS-Biology; B.A., Yale University, 1981; Ph.D., University of Colorado-Boulder, 1986.

Koeth, Timothy W.
Assistant Professor, ENGR-Materials Science & Engineering; Affiliate Assistant Professor, CMNS-Physics; Affiliate Assistant Professor, CMNS-Institute for Physical Science & Technology; B.S., Rutgers University, 1997; B.S., 1997; Ph.D., 2009.

Kofinas, Peter
Chair, ENGR-Chemical & Biomolecular Engineering; Professor, ENGR-Chemical & Biomolecular Engineering; Affiliate Professor, ENGR-Fischell Department of Bioengineering; Affiliate Professor, ENGR-Materials Science & Engineering; B.S., Massachusetts Institute of Technology, 1989; M.S., 1989; Ph.D., 1994.

Koh, Kyung
Lecturer, ENGR-Fischell Department of Bioengineering; B.S., Hong Ik University, 2006; M.S., University of Pennsylvania, 2008; Ph.D., University of Maryland-College Park, 2015.

Koh, Seong Minne
Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., Yonsei University-Seoul, 1994; M.A., 1996.

Kohl, Frances L.
Associate Professor Emerita, EDUC-Counseling, Higher Education and Special Education; B.S., University of Wisconsin-Madison, 1973; M.Ed., Temple University, 1975; Ph.D., University of Illinois-Urbana/Champaign, 1979.

Kohn, Richard A.
Professor, AGNR-Animal & Avian Sciences; B.S., Cornell University, 1985; M.S., University of New Hampshire, 1987; Ph.D., Michigan State University, 1993.

Kohout, Andrew Joseph
Lecturer, ENGR-Fire Protection Engineering; B.S., University of Maryland-College Park, 2006; B.S., 2006; M.S., 2011.

Koivisto, Joseph Andrew
Librarian III, LIBR-Libraries; M.L.S., Catholic University of America, 2014.

Kolakoski, Mike K
Senior Lecturer, ARHU-English; B.A., James Madison University, 1999; M.A., George Mason University, 2003; Ph.D., University of Arizona, 2013.

Koliji, Hooman
Associate Clinical Professor, UGST-HCOL-University Honors Program; Associate Clinical Professor, ARCH-Architecture Program; B.Arch., Shahid Beheshti University, 1997; M.Arch., 2000; M.Arch., Virginia Polytechnic Institute & State University, 2009; Ph.D., 2013.

Kolker, Robert P.
Professor Emeritus, ARHU-English; B.A., CUNY-Queens College, 1962; M.A., Syracuse University, 1964; Ph.D., Columbia University, 1969.

Kollar, Alicia J.
Assistant Professor, CMNS-Physics; Affiliate Assistant Professor, ENGR-Electrical & Computer Engineering; B.A., Princeton University, 2010; Ph.D., Stanford University, 2016.

Kolling, Christopher
Lecturer, BMGT-Dean-Career Management; M.B.A., University of Maryland-College Park, 2012.

Kolodny, Richard
Professor Emeritus, BMGT-Robert H. Smith School of Business; B.S., Northwestern University, 1965; M.B.A., New York University, 1967; Ph.D., 1972.

Komacek, Thaddeus David
Adjunct Assistant Professor, CMNS-Astronomy; B.A., University of Chicago, 2013; B.S., 2013; M.S., University of Arizona, 2015; Ph.D., 2018.

Komives, Susan R.
Professor Emerita, EDUC-Counseling, Higher Education and Special Education; B.S., Florida State University, 1968; M.S., 1969; Ed.D., University of Tennessee-Knoxville, 1973.

Konana, Prabhudev C.
Dean, BMGT-Robert H. Smith School of Business; Professor, BMGT-Robert H. Smith School of Business; B.E., University of Mysore, 1983; M.B.A., University of Arizona, 1991; Ph.D., 1995.

Kondo, Beatrice
Senior Lecturer, ENGR-Fischell Department of Bioengineering; B.A., Loyola University Maryland, 1987; Ph.D., University of Maryland-Baltimore County, 2006.

Kong, Mei
Senior Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., Nanjing University/Nanking University, 1986; M.A., 1989; M.A., Georgetown University, 2004.

Konstantinou, Lee
Associate Professor, ARHU-English; B.A., Cornell University, 2000; M.A., Stanford University, 2008; Ph.D., 2009.

Konzak, Michael
Lecturer, BSOS-Anthropology; B.A., University of California-Berkeley, 2002; M.A., University of Sheffield, 2004.

Konzak, Sandra Massey
Lecturer, BSOS-Anthropology; B.A., Sonoma State University, 2000; M.A., 2006.

Kootbally, Zeid
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.S., Universite de la Reunion, 2002; M.S., University of Burgundy, 2005; Ph.D., 2008.

Kopania, Alanna Jessica
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., University of Maryland-College Park, 2015.

Kopelentova Rehak, Jana
Lecturer, BSOS-Anthropology; B.A., Academy of Performing Arts (FAMU), 1993; M.F.A., University of Delaware, 1997; Ph.D., American University, 2006.

Koppa, Akash
Assistant Professor, AGNR-Environmental Science & Technology; B.E., College of Engineering Trivandrum, 2012; M.Tech., Indian Institute of Technology Kharagpur, 2014; Ph.D., University of Southern California, 2019; Ph.D., University of California-Los Angeles, 2019.

Koppel, Andrea
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., Middlebury College, 1985.

Koppel, Monique
Senior Lecturer, CMNS-Chemistry & Biochemistry; B.S., University of Maryland-College Park, 2001; Ph.D., Georgetown University, 2014.

Koralov, Leonid
Associate Chair, CMNS-Mathematics; Professor, CMNS-Mathematics; B.A., Moscow State University, 1991; Ph.D., SUNY-Stony Brook, 1998.

Korenman, Victor
Professor Emeritus, CMNS-Physics; B.A., Princeton University, 1958; M.A., Harvard University, 1959; Ph.D., 1965.

Korobkin, Tess
Assistant Professor, ARHU-Art History & Archaeology; B.A., Yale University, 2006; M.O., 2014; M.A., 2014; Ph.D., 2018.

Korzeniewicz, Roberto Patricio
Associate Dean, BSOS-College of Behavioral & Social Sciences; Professor, BSOS-Sociology; Affiliate Professor, ARHU-Dean-Latin American and Caribbean Studies Center; B.A., University of California-Santa Cruz, 1980; M.A., SUNY-Binghamton, 1985; Ph.D., 1989.

Koser, Julie
Associate Professor, ARHU-School of Languages, Literatures, and Cultures; Affiliate Associate Professor, ARHU-Women, Gender and Sexuality Studies; B.A., Trinity University, 1999; M.A., University of California-Berkeley, 2002; Ph.D., 2007.

Kosicki, Piotr H
Associate Professor, ARHU-History; B.A., Stanford University, 2005; M.A., Princeton University, 2008; Ph.D., 2011.

Kotkin, Lauren
Lecturer, ARHU-Meyerhoff Program & Center for Jewish Studies; B.A., Duke University, 1990; M.Ed., Lesley University, 1999.

Kousa, Youssef
Lecturer, UGST-HCOL-Gemstone Program; B.S., Kean University, 2005; M.S., 2007; Ph.D., Michigan State University, 2014.

Kovanen, Arto Tapani
Lecturer, BSOS-Economics; M.S., University of Jyvaskyla, 1984; Ph.D., Purdue University-West Lafayette, 1988.

Kozak, Serhiy
Associate Professor, BMGT-Robert H. Smith School of Business; Associate Professor, BMGT-Finance; M.S., L'viv State University, 2005; B.S., 2005; M.A., Charles University, 2008; Ph.D., University of Chicago, 2013.

Koziol, Stephen M Jr.
Professor Emeritus, EDUC-Teaching and Learning, Policy and Leadership; B.A., University of Rochester, 1965; M.A., 1967; Ph.D., Stanford University, 1971.

Kramarczuk, Kristina Anna
Assistant Clinical Professor, SVPAAP-Office of Undergraduate Research; B.S., University of Wisconsin-Madison, 2016; M.S., University of Miami, 2018.

Kramp, Philip
Lecturer, ARHU-School of Music; B.Mus., Curtis Institute of Music, 2009.

Krapfel, Robert E.
Associate Professor Emeritus, BMGT-Robert H. Smith School of Business; B.A., University of Connecticut-all campuses, 1970; M.B.A., 1975; Ph.D., Michigan State University, 1979.

Kratochvil, Robert James
Associate Professor Emeritus, AGNR-Plant Science & Landscape Architecture; B.S., Montana State University, 1972; M.S., University of Maryland-College Park, 1988; Ph.D., 1994.

Kraus, Kari
Associate Professor, INFO-College of Information Studies; Associate Professor, ARHU-English; B.A., Texas A&M University-College Station, 1991; M.A., 1995; Ph.D., University of Rochester, 2006.

Kreuter, Frauke
Professor Emerita, BSOS-Joint Program in Survey Methodology; M.A., Universitat Mannheim, 1996; Ph.D., University of Konstanz, 2001.

Krishnan, Niranjana
Assistant Professor, CMNS-Entomology; B.S., University of Mumbai, 2011; M.S., Vellore Institute of Technology University, 2013; Ph.D., Iowa State University, 2021.

Krishnaprasad, Perinkulam
Professor, ENGR-Electrical & Computer Engineering; Professor, ENGR-Institute for Systems Research; B.Tech., Indian Institute of Technology-Mumbai, 1972; M.S., Syracuse University, 1973; Ph.D., Harvard University, 1977.

Krivtsov, Vasiliy Vasilievich
Adjunct Professor, ENGR-Mechanical Engineering; Ph.D., Kharkiv Polytechnic Institute, 1991; Ph.D., University of Maryland-College Park, 2000.

Kroncke, Sarah H.
Senior Lecturer, BMGT-Finance; B.S., Virginia Polytechnic Institute & State University, 1993; M.B.A., University of Maryland-College Park, 2000.

Kruglanski, A W.
Distinguished University Professor, BSOS-Psychology; Affiliate Professor, ARHU-Communication; B.A., University of Toronto, 1966; M.A., University of California-Los Angeles, 1967; Ph.D., 1968.

Krupenkin, Maria Timofei
Visiting Assistant Professor, INFO-College of Information Studies; Ph.D., Stanford University, 2019.

Kruskal, Clyde P.
Associate Professor, CMNS-Computer Science; B.A., Brandeis University, 1976; M.S., New York University, 1978; Ph.D., 1981.

Kubale, John Travis
Adjunct Assistant Professor, BSOS-Joint Program in Survey Methodology; M.P.H., University of Michigan-Ann Arbor, 2017; Ph.D., 2020; B.A., Xavier University (Ohio), 2023.

Kueker, David W.
Professor Emeritus, CMNS-Mathematics; A.B., University of California-Los Angeles, 1964; M.A., 1966; Ph.D., 1967.

Kuersteiner, Guido M
Professor, BSOS-Economics; B.O., Universitat Bern, 1991; M.S., London School of Economics & Political Science, 1993; M.A., Yale University, 1995; M.Phil., 1996; Ph.D., 1997.

Kukla, Maija M.
Adjunct Professor, ENGR-Materials Science & Engineering; M.S., University of Latvia, 1993; Ph.D., 1996.

Kules, William M III
Principal Lecturer, INFO-College of Information Studies; B.A., Colby College, 1986; M.S., University of Maryland-College Park, 2002; Ph.D., 2006.

Kulin, Simone-Gunde
Lecturer, CMNS-Physics; M.O., University of Konstanz, 1994; B.S./M.S., 1994; Ph.D., University of Paris VI, 1997.

Kumar, Sujith S.
Senior Lecturer, BSOS-Government & Politics; B.A., Lehigh University, 1998; M.S., London School of Economics & Political Science, 1999; Ph.D., 2006.

Kunkel, Gerard F.
Lecturer, ARHU-School of Music; B.A., Shepherd University, 1975; M.Mus., Howard University, 2003.

Kunkel, Jeremy Thomas
Lecturer, ARHU-Art; B.F.A., George Mason University, 2012; M.F.A., University of Maryland-College Park, 2020.

Kuo, Catherine K.
Associate Professor, ENGR-Fischell Department of Bioengineering; B.S., University of Michigan-Ann Arbor, 1997; Ph.D., 2002.

Kuo, Jason C.
Professor, ARHU-Art History & Archaeology; B.A., National Taiwan University, 1971; M.A., 1973; Ph.D., University of Michigan-Ann Arbor, 1980.

Kuo, Paulina
Adjunct Associate Professor, CMNS-Physics; B.S., Massachusetts Institute of Technology, 2000; M.S., Stanford University, 2002; Ph.D., 2008.

Kurtzweil, George Orville
Lecturer, AGNR-Institute of Applied Agriculture; B.A., University of Wisconsin-Whitewater, 1995; M.A., University of Wisconsin-Superior, 2016.

Kutz, Eric
Associate Director, ARHU-School of Music; Associate Professor, ARHU-School of Music; B.Mus., Rice University, 1994; M.Mus., Juilliard School, 1996; D.M.A., 2002.

Kwak, Saerom
Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., Sookmyung Women's University-Seoul, 2008; M.A., Korea University-Seoul, 2012.

Kweon, Byoung-Suk
Professor, AGNR-Plant Science & Landscape Architecture; M.L.Arch., Cornell University, 1992; Ph.D., University of Illinois-Urbana/Champaign, 1999.

Kwon, Julia
Lecturer, ARHU-Art; B.A., Georgetown University, 2012; M.F.A., School of Museum of Fine Arts, 2016.

Kwon, Yonghwi
Assistant Professor, ENGR-Electrical & Computer Engineering; Assistant Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Assistant Professor, CMNS-Computer Science; Ph.D., Purdue University-West Lafayette, 2018.

Kyei-Asare, Aaron Abe
Lecturer, CMNS-College of Computer, Math & Natural Sciences; B.S., University of Maryland-College Park, 2020; M.S., 2021.

Kyle, Albert S.
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Finance; B.S., Davidson College, 1974; B.A., University of Oxford, 1976; Ph.D., University of Chicago, 1981.

L

La, Richard J.
Professor, ENGR-Electrical & Computer Engineering; Professor, ENGR-Institute for Systems Research; B.S., University of Maryland-College Park, 1994; M.S., University of California-Berkeley, 1997; Ph.D., 2000.

La Touche-Howard, Sylvette Antonia
Associate Clinical Professor, SPHL-School of Public Health; B.A., McGill University-Montreal, 1998; M.A., Andrews University, 2002; Ph.D., University of Maryland-College Park, 2012.

Labovich, Laura Michelle
Lecturer, BMGT-Dean-Career Management; Lecturer, BMGT-Dean-Career Management; B.A., Michigan State University, 1994; M.O., 1999.

Labovitz, Franklin
Lecturer, ARHU-School of Theatre, Dance & Performance Studies; B.A., Middlebury College, 2001; M.F.A., University of Maryland-College Park, 2010.

Lacey, Brett
Lecturer, BSOS-Criminology & Criminal Justice; B.A., Illinois State University, 2015; M.S., 2017; Ph.D., Southern Illinois University-Carbondale, 2021.

LaChance, Jim
Visiting Lecturer, UGST-HCOL-University Honors Program; M.A., Brown University, 2012; Ph.D., University of California-Berkeley, 2022.

Lacorte, Manel
Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., Universitat de Barcelona, 1991; M.A., University of Illinois-Chicago, 1994; Ph.D., University of Edinburgh, 2000.

LaFree, Gary D.
Distinguished University Professor Emeritus, BSOS-Criminology & Criminal Justice; 2012-2013 Distinguished Scholar-Teacher. B.A., Indiana University, 1973; M.A., 1975; Ph.D., 1979.

Lafrenz Samuels, Kathryn
Associate Professor, BSOS-Anthropology; B.A., Bryn Mawr College, 2001; M.A., University of South Florida, 2004; Ph.D., Stanford University, 2010.

Lage de Sousa, Filipe
Senior Lecturer, BSOS-Economics; B.A., Federal University of Rio, 1998; M.S., Fundacao Getulio Vargas, 2002; Ph.D., London School of Economics & Political Science, 2009.

Lager, James M
Lecturer, BMGT-Accounting; B.A., Michigan State University, 1981; J.D., American University, 1984; M.S., 1999.

Lahiri, Partha
Director, BSOS-Joint Program in Survey Methodology; Professor, BSOS-Joint Program in Survey Methodology; Professor, CMNS-Mathematics; B.S., Presidency University, 1979; M.S., University of Calcutta, 1982; Ph.D., University of Florida, 1986.

Laird, Chryl
Associate Professor, BSOS-Government & Politics; B.A., University of Maryland-College Park, 2005; M.A., Ohio State University, 2008; Ph.D., 2014.

Lamb, Rachel
Adjunct Assistant Professor, BSOS-Geography; B.A., Wheaton College, 2012; B.S., 2012; M.P.P., University of Maryland-College Park, 2015; M.S., 2015; Ph.D., 2021.

Lamichhane, Chinta M.
Adjunct Professor, AGNR-Veterinary Medicine Program; B.O., Haryana Agricultural University, 1980; Ph.D., James Cook University, 1988.

Lamp, Bill
Professor, CMNS-Entomology; B.S., University of Nebraska-Lincoln, 1972; M.S., Ohio State University, 1976; Ph.D., University of Nebraska-Lincoln, 1980.

Lampe, John R.
Professor Emeritus, ARHU-History; B.A., Harvard University, 1957; M.A., University of Minnesota-Twin Cities, 1964; Ph.D., University of Wisconsin-Madison, 1971.

Lampel, Keith A.
Lecturer, CMNS-College of Computer, Math & Natural Sciences; B.A., Rutgers University, 1975; Ph.D., University of Miami, 1979; Ph.D./J.D., 1979.

Lamprakos, Michele
Associate Professor, ARCH-School of Architecture, Planning, & Preservation; Associate Professor, ARCH-Architecture Program; B.A., Princeton University, 1983; M.Arch., University of California-Berkeley, 1991; Ph.D., Massachusetts Institute of Technology, 2006.

Lampropoulos, Leonidas
Assistant Professor, CMNS-Computer Science; Assistant Professor, CMNS-Institute for Advanced Computer Studies; B.S., National Technical University of Athens, 2012; Ph.D., University of Pennsylvania, 2018.

Landa, Edward R.
Adjunct Professor, AGNR-Environmental Science & Technology; B.S., CUNY-City College of New York, 1970; M.S., University of Minnesota-Twin Cities, 1972; M.P.H., 1974; Ph.D., 1975.

Landau, Paul S.
Professor, ARHU-History; B.A., Wesleyan University, 1984; M.A., University of Wisconsin-Madison, 1986; Ph.D., 1992.

Landry, Lewis Bartholomew
Professor Emeritus, BSOS-Sociology; B.A., Urbana University, 1966; B.A., St. Mary's Seminary and University, 1961; Ph.D., Columbia University, 1971.

Lang, Megan Weiner
Adjunct Associate Professor, BSOS-Geography; B.S., College of Charleston, 1997; M.S., University of Maryland-College Park, 2000; Ph.D., 2005.

Langa, Lesley Anne
Lecturer, INFO-College of Information Studies; M.A., Florida State University, 2006.

Langa Basit, Gosia Anna
Senior Lecturer, BMGT-Management & Organization; B.S., University of Delaware, 1998; M.S., University of Maryland-College Park, 2007.

Lansing, Stephanie
Professor, AGNR-Environmental Science & Technology; B.S., University of Oklahoma, 2000; M.S., Ohio State University, 2005; Ph.D., 2008.

Lao, Eugenia You-Ching
Lecturer, ARHU-Classics; B.A., Harvard University, 1996; M.St., University of Oxford, 1999; Ph.D., Princeton University, 2008.

Lape, Kisa Marie
Senior Lecturer, ARHU-English; B.A., Washington & Jefferson College, 2003; M.A., Ohio University-all campuses, 2005.

Lapham, Laura Lee
Visiting Associate Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D./J.D., University of North Carolina-Chapel Hill, 2007.

Lapin, Hayim
Professor, ARHU-History; Professor, ARHU-Meyerhoff Program & Center for Jewish Studies; B.A., Columbia University, 1986; M.A., Jewish Theological Seminary, 1987; B.A., 1987; Ph.D., Columbia University, 1994.

Lapinski, Tadeusz A.
Professor Emeritus, ARHU-Art; B.A., Other, 1953; M.F.A., 1955.

LaRonde, Nicole A.
Adjunct Professor, CMNS-Chemistry & Biochemistry; B.S., Rivier University, 1995; Ph.D., Johns Hopkins University Medical School, 2002.

Larsson, Johan
Professor, ENGR-Mechanical Engineering; M.S., University of Lund, 1999; Ph.D., University of Waterloo, 2006.

Laskowski, Michael C.
Professor, CMNS-Mathematics; 2023-2024 Distinguished Scholar-Teacher. B.A., University of Wisconsin-Madison, 1978; Ph.D., University of California-Berkeley, 1987.

Laskowski, Nicholas George
Assistant Professor, ARHU-Philosophy; B.A., Rutgers University, 2006; M.A., 2008; Ph.D., University of Southern California, 2017.

Lasnik, Howard B.
Distinguished University Professor Emeritus, ARHU-Linguistics; B.S., Carnegie Institute of Technology, 1967; M.A., Harvard University, 1969; Ph.D., Massachusetts Institute of Technology, 1972.

Lasota, Alice Manning
Librarian Emerita, LIBR-Libraries; B.Mus., West Virginia University, 1966; M.Mus., Indiana University, 1968; M.L.S., University of Maryland-College Park, 1989.

Laszlo, Istvan
Adjunct Professor, CMNS-Atmospheric & Oceanic Science; M.S., Eotvos Lorand University, 1978; Ph.D., 1985.

Lathrop, Daniel Perry
Professor, CMNS-Physics; Professor, CMNS-Institute for Physical Science & Technology; Professor, CMNS-Geology; Professor, CMNS-Institute for Research in Electronics & Applied Physics; Affiliate Professor, ENGR-Mechanical Engineering; 2019-2020 Distinguished Scholar-Teacher. B.A., University of California-Berkeley, 1987; Ph.D., University of Texas-Austin, 1991.

Lau, Ellen
Associate Professor, ARHU-Linguistics; B.S., Michigan State University, 2003; Ph.D., University of Maryland-College Park, 2009.

Laub, John H.
Distinguished University Professor Emeritus, BSOS-Criminology & Criminal Justice; B.A., University of Illinois at Chicago Circle, 1975; M.A., SUNY-Albany, 1976; Ph.D., 1980.

Laurence, Stuart
Professor, ENGR-Aerospace Engineering; B.S., University of Auckland, 2001; B.S., 2001; M.S., California Institute of Technology, 2002; Ph.D., 2006.

Lavery, Michael
Assistant Professor, ARHU-School of Languages, Literatures, and Cultures; B.S., Georgetown University, 2012; M.A., University of California-Los Angeles, 2014; Ph.D., 2021.

Lavine, Roberta Z.
Associate Professor Emerita, ARHU-School of Languages, Literatures, and Cultures; B.A., CUNY-Queens College, 1974; M.A., Catholic University of America, 1976; Ph.D., 1983.

Lawrie, Andrew Wetherell
Professor, CMNS-Mathematics; B.S., Columbia University, 2007; M.S., University of Chicago, 2009; Ph.D., 2013.

Lawson, Lewis A.
Professor Emeritus, ARHU-English; B.S., East Tennessee State University, 1957; M.A., 1959; Ph.D., University of Wisconsin-Madison, 1964.

Lawson, Wesley Grant
Professor, ENGR-Electrical & Computer Engineering; Affiliate Professor, CMNS-Institute for Research in Electronics & Applied Physics; B.Elect.E., University of Maryland-College Park, 1980; M.S., 1981; Ph.D., 1985.

Layton, Richard Douglas
Lecturer, ARHU-School of Music; B.S., West Chester University of Pennsylvania, 1979; M.Mus., University of Maryland-College Park, 1985; D.M.A., 1991.

Lazar, Amanda
Associate Professor, INFO-College of Information Studies; Affiliate Associate Professor, CMNS-Computer Science; B.S., University of California-San Diego, 2011; Ph.D., University of Washington-Seattle, 2015.

Lazar, Jonathan K
Professor, INFO-College of Information Studies; B.S., Loyola University Maryland, 1995; M.S., University of Maryland-Baltimore County, 1998; Ph.D., 1999; L.L.M., University of Pennsylvania, 2018.

Lazar, Radu
Senior Lecturer, BMGT-Decision, Operations & Information Technologies; B.S., University of Bucharest, 1995; M.S., University of Minnesota-Twin Cities, 2000; Ph.D., 2005.

Lea-Cox, John D.
Professor Emeritus, AGNR-Plant Science & Landscape Architecture; Visiting Professor, AGNR-Plant Science & Landscape Architecture; B.S., University of Natal-Durban, 1983; M.S., 1989; Ph.D., University of Florida, 1993.

Leach, Jonathan David
Lecturer, ARHU-Communication; B.A., Ohio State University, 2015; M.A., Texas Tech University, 2018.

Leal Lima, Thayse
Associate Professor, ARHU-School of Languages, Literatures, and Cultures; Ph.D., Brown University, 2014.

Leanizbarrutia, Iker
Adjunct Assistant Professor, CMNS-Computer Science; B.S., Universidad del Pais Vasco, 2012; M.S., 2013; Ph.D., 2019.

Leathers, Howard D.
Associate Professor Emeritus, AGNR-Agricultural & Resource Economics; B.A., Princeton University, 1974; M.S., University of Minnesota-Twin Cities, 1978; Ph.D., University of Wisconsin-Madison, 1986.

Leber, Dennis D
Lecturer, ENGR-Mechanical Engineering; B.S., Bloomsburg University of Pennsylvania, 1997; M.S., Rutgers University, 1999; M.S., University of Maryland-College Park, 2007; Ph.D., 2016.

Lee, Chi Hsiang
Professor Emeritus, ENGR-Electrical & Computer Engineering; B.S., National Taiwan University, 1959; M.S., Harvard University, 1962; Ph.D., 1967.

Lee, Frances
Professor Emerita, BSOS-Government & Politics; B.A., University of Southern Mississippi, 1991; Ph.D., Vanderbilt University, 1997.

Lee, Heera
Lecturer, INFO-College of Information Studies; B.A., Hanyang University-Seoul, 2008; M.A., University of Maryland-Baltimore County, 2012; M.S., 2016; Ph.D., 2022.

Lee, Hugh M.
Professor Emeritus, ARHU-Classics; B.A., St. Mary's College of California, 1966; M.A., Stanford University, 1971; Ph.D., 1972.

Lee, Jay
Professor, ENGR-Mechanical Engineering; M.S., University of Wisconsin-Madison, 1983; M.S., SUNY-Health Science Center-Stony Brook, 1987; Sc.D., George Washington University, 1992.

Lee, Jinwoo
Assistant Professor, CMNS-Chemistry & Biochemistry; B.S., Hanyang University-Seoul, 2006; M.S., Lehigh University, 2008; Ph.D., 2013.

Lee, Mei-Ling Ting
Professor, SPHL-Epidemiology & Biostatistics; B.S., National Taiwan University, 1975; M.S., National Tsing Hua University-Hsinchu, 1977; M.A., University of Pittsburgh, 1978; Ph.D., 1980.

Lee, Myungin
Lecturer, CMNS-Computer Science; B.S., Hanyang University-Seoul, 2015; M.S., 2017; Ph.D., University of California-Santa Barbara, 2023.

Lee, Sangbok
Professor, CMNS-Chemistry & Biochemistry; Affiliate Professor, ENGR-Chemical & Biomolecular Engineering; Affiliate Professor, CMNS-Institute for Research in Electronics & Applied Physics; Affiliate Professor, ENGR-Materials Science & Engineering; B.S., Seoul National University, 1990; M.S., 1992; Ph.D., 1997.

Lee, Sarah Christine
Senior Lecturer, CMNS-Biology; B.S., Brown University, 2002; Ph.D., University of North Carolina-Chapel Hill, 2009.

Lee, Saymin
Lecturer, ARHU-Communication; B.A., Ewha Women's University, 2009; M.A., 2011.

Lee, Seokwoo
Visiting Assistant Professor, BMGT-Finance; B.S., University of Michigan-Ann Arbor, 2003; M.S., 2005; M.S., University of Chicago, 2008; Ph.D., University of Michigan-Ann Arbor, 2013.

Lee, Seong-Ho
Professor, AGNR-Nutrition and Food Science; B.S., Korea University-Seoul, 1991; M.S., 1993; Ph.D., 1999.

Lee, Sun Young
Associate Professor, ARHU-Communication; B.A., Ewha Women's University, 2005; M.A., University of Georgia, 2007; Ph.D., University of North Carolina-Chapel Hill, 2012.

Lee, Sung W.
Professor, ENGR-Aerospace Engineering; B.S., Seoul National University, 1966; M.S., Massachusetts Institute of Technology, 1974; Ph.D., 1978.

Lee, Vincent T.
Professor, CMNS-Cell Biology & Molecular Genetics; B.S., University of Maryland-College Park, 1995; Ph.D., University of California-Los Angeles, 2001.

Lee, Woei-jyh
Associate Clinical Professor, BMGT-Decision, Operations & Information Technologies; B.S., National Taiwan University, 1993; M.S., New York University, 1998; Ph.D., University of Maryland-College Park, 2008.

Lee, Yewon
Associate Clinical Professor, EDUC-Counseling, Higher Education and Special Education; B.A., University of North Carolina-Chapel Hill, 2011; M.S., Johns Hopkins University, 2012; Ph.D., University of Maryland-College Park, 2019.

Lee-Heitz, Jungjung
Senior Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., Feng Chia University, 1990; M.A., University of Iowa, 1995; M.A., 1998.

Lee-Kim, Jennie H.
Assistant Clinical Professor, EDUC-Human Development and Quantitative Methodology; B.O., Vanderbilt University, 1994; B.A., 1994; Ph.D., University of Maryland-College Park, 2004.

Leeds, Jack Peter
Lecturer, BSOS-Psychology; A.A., Daytona State College, 1986; B.S., University of Central Florida, 1989; B.A., 1990; M.S., Florida Institute of Technology-Melbourne, 1993; Ph.D., 2007.

Leete, Burt A.
Professor Emeritus, BMGT-Robert H. Smith School of Business; B.S., Juniata College, 1962; M.B.A., University of Maryland-College Park, 1964; J.D., American University, 1969.

Lefkoff, Roxanne
Clinical Professor, BMGT-Marketing; B.S., West Virginia University, 1980; M.B.A., University of Houston, 1982; Ph.D., University of North Carolina-Chapel Hill, 1990.

Lehman, Alan Robertson
Lecturer, BSOS-Criminology & Criminal Justice; B.A., University of Maryland-College Park, 1981; M.A., The New School, 1983; M.A., Catholic University of America, 1987; Ph.D., University of Maryland-College Park, 1994.

Lei, David K. Y.
Professor, AGNR-Nutrition and Food Science; B.S., University of London, 1968; M.S., University of Guelph-Ontario, 1970; Ph.D., Michigan State University, 1973.

Lei, Ren
Adjunct Professor, ENGR-Fischell Department of Bioengineering; B.S., Tsinghua University/Qinghua University, 2003; Ph.D., Duke University, 2009.

Leinwand, Theodore B.
Professor Emeritus, ARHU-English; B.A., Hamilton College, 1973; M.A., Johns Hopkins University, 1978; Ph.D., 1980.

Leishman, John G.
Professor Emeritus, ENGR-Aerospace Engineering; B.S., University of Glasgow, 1980; Ph.D., 1984.

Leisnham, Paul T.
Chair, AGNR-Environmental Science & Technology; Professor, AGNR-Environmental Science & Technology; B.S., University of Otago, 2000; M.S., 2001; Ph.D., 2005.

Leitch, Alex
Lecturer, INFO-College of Information Studies; B.F.A., McMaster University-Hamilton, 2006; M.A., Ontario College of Art & Design, 2014.

Leizman, Danielle
Lecturer, ARHU-Art; M.F.A., University of Maryland-College Park, 2024.

Lejeune, Miguel
Visiting Professor, ENGR-Mechanical Engineering; B.O., University of Liege, 1997; M.O., 1998; Ph.D., Rutgers University, 2004; M.B.A., 2004.

Lekic, Vedran
Professor, CMNS-Geology; B.A., Harvard University, 2004; Ph.D., University of California-Berkeley, 2009.

Lele, Shreevardhan
Clinical Professor Emeritus, BMGT-Robert H. Smith School of Business; B.Tech., Indian Institute of Technology-Madras, 1987; M.A., University of Michigan-Ann Arbor, 1991; Ph.D., 1996.

Lemay, Edward
Professor, BSOS-Psychology; B.S., Worcester State University, 1990; M.S., Rutgers University, 2002; M.S., Yale University, 2007; Ph.D., 2008.

Lent, Robert W.
Professor, EDUC-Counseling, Higher Education and Special Education; B.A., SUNY-Albany, 1975; M.A., Ohio State University, 1977; Ph.D., 1979.

Leonard, Kenneth L.
Chair, AGNR-Agricultural & Resource Economics; Professor, AGNR-Agricultural & Resource Economics; B.A., Swarthmore College, 1989; Ph.D., University of California-Berkeley, 1997.

Leonardi, Susana
Professor Emerita, ARHU-English; B.A., Immaculata University, 1968; M.A., University of California-Davis, 1982; Ph.D., 1986.

Leone, Peter E.
Professor Emeritus, EDUC-Counseling, Higher Education and Special Education; B.A., University of Iowa, 1972; M.A., 1974; Ph.D., University of Washington-Seattle, 1981.

Leslie, Leigh A.
Associate Professor Emerita, SPHL-Family Science; B.S., Texas Tech University, 1975; M.S., 1977; Ph.D., Pennsylvania State University, 1982.

Lester, Christopher
Director, PRES-ODI-Office of Multi-Ethnic Student Education; B.S., Westfield State university, 1994; M.Ed., University of Massachusetts-Amherst, 1997; Ed.D., 2004.

Lett, Paul David
Adjunct Professor, CMNS-Physics; B.S., Marquette University, 1980; M.A., University of Rochester, 1982; Ph.D., 1986.

Leventon, Isaac T
Visiting Lecturer, ENGR-Fire Protection Engineering; B.S., University of Maryland-College Park, 2010; M.S., 2011; Ph.D., 2016.

Levin, Alla
Lecturer, INFO-College of Information Studies; M.S., Stevens Institute of Technology, 2002; D.B.A., University of Maryland-Global Campus, 2022.

Levin, Daniel Matthew
Associate Clinical Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., Brandeis University, 1989; M.A., Towson University, 1997; Ph.D., University of Maryland-College Park, 2008.

Levin, Dave
Associate Professor, CMNS-Computer Science; Affiliate Associate Professor, ENGR-Electrical & Computer Engineering; Associate Professor, CMNS-Institute for Advanced Computer Studies; B.S., University of Maryland-College Park, 2002; Ph.D., 2010.

Levin, Maxine J
Lecturer, AGNR-Environmental Science & Technology; B.S., University of California-Berkeley, 1975; M.S., Iowa State University, 2017.

Levine, Robert S.
Distinguished University Professor, ARHU-English; Affiliate Professor, ARHU-American Studies; 2007-2008 Distinguished Scholar-Teacher. B.A., Columbia University, 1975; M.A., Stanford University, 1977; Ph.D., 1981.

Levine, William S.
Lecturer, ENGR-Electrical & Computer Engineering; B.S., Massachusetts Institute of Technology, 1962; M.S., 1965; Ph.D., 1969.

Levinson, Jerrold
Distinguished University Professor Emeritus, ARHU-Philosophy; B.S., Massachusetts Institute of Technology, 1969; Ph.D., University of Michigan-Ann Arbor, 1974.

Leviten, Melissa Emily
Lecturer, BSOS-Hearing & Speech Sciences; B.A., University of Maryland-College Park, 2009; M.S., Boston University, 2011.

Levy, Doron
Chair, CMNS-Mathematics; Professor, CMNS-Mathematics; 2013-2014 Distinguished Scholar-Teacher. B.S., Tel Aviv University, 1991; M.S., 1994; Ph.D., 1997.

Lewin, Amy B.
Associate Professor, SPHL-Family Science; B.A., Duke University, 1989; D.O., Rutgers University, 1995.

Lewin, Ross D.
Associate Vice President, SVPAAP-Office of International Affairs; B.A., University of California-Santa Cruz, 1984; M.S., Stanford University, 1986; Ph.D., 2000.

Lewis, Chris
Assistant Clinical Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., Brigham Young University, 2006; M.A., 2010; Ph.D., University of Maryland-College Park, 2021.

Lewis, Demar Francis IV
Assistant Professor, BSOS-Criminology & Criminal Justice; B.A., University of St. Thomas, 2011; M.P.P., University of Michigan-Ann Arbor, 2016; Ph.D., Yale University, 2023.

Lewis, Jioni Agene
Associate Professor, EDUC-Counseling, Higher Education and Special Education; B.S., University of California-Davis, 2002; M.A., California State University-Sacramento, 2006; Ph.D., University of Illinois-Urbana/Champaign, 2013.

Lewis, Mark J.
Professor Emeritus, ENGR-Aerospace Engineering; M.S., Massachusetts Institute of Technology, 1985; Ph.D., 1988.

Lewis, Sydney F
Senior Lecturer, ARHU-Women, Gender and Sexuality Studies; B.A., University of Maryland-Baltimore County, 1999; M.A., University of California-Santa Cruz, 2002; Ph.D., University of Washington-Seattle, 2012.

Li, Ang
Assistant Professor, ENGR-Electrical & Computer Engineering; Affiliate Assistant Professor, CMNS-Computer Science; B.O., Henan University, 2010; M.Eng., Peking University, 2013; D.O., University of Arkansas-Little Rock, 2018; D.O., Duke University, 2022.

Li, Anna Xuan
Associate Professor, BSOS-Psychology; B.S., Ocean University of China, 2005; Ph.D., Rosalind Franklin University of Medicine and Science, 2012.

Li, Guangbin
Assistant Professor, ENGR-Civil & Environmental Engineering; B.E., Harbin Engineering University, 2009; M.S., 2012; M.S., Arizona State University, 2014; Ph.D., University of Arizona, 2016.

Li, Ming
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; B.E., Hohai University, 1983; Ph.D., University of Oxford, 1991.

Li, Shaobo
Visiting Associate Professor, CMNS-IBBR; Visiting Associate Professor, CMNS-IBBR; B.O., Hunan University-Changsha, 1999; M.S., 2002; Ph.D., Wuhan University, 2006.

Li, Stella
Lecturer, SPHL-Family Science; M.A., Converse College, 2020.

Li, Teng
Professor, ENGR-Mechanical Engineering; B.S., Tsinghua University/Qinghua University, 1996; M.A., Princeton University, 2003; Ph.D., Harvard University, 2006.

Li, Yan
Professor, SPHL-Epidemiology & Biostatistics; B.S., Beijing Institute of Technology, 1997; M.S., 2000; M.S., University of Nebraska-Lincoln, 2002; Ph.D., University of Maryland-College Park, 2006.

Li, Yang
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.S., Nankai University-Tientsin, 1984; D.Engin., Wayne State University, 1996.

Li, Yantao
Visiting Associate Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., University of Hong Kong, 2007.

Li, Yuanyuan
Assistant Professor, AGNR-Nutrition and Food Science; B.S., Shanxi Normal University, 2000; M.S., Dalian University, 2003; Ph.D., Peking University, 2006.

Li, Yuxing
Adjunct Professor, CMNS-IBBR; Adjunct Professor, CMNS-IBBR; B.S., Sichuan University, 1989; M.S., Other, 1992; Ph.D., Iowa State University, 1996.

Li, Zhanqing
Distinguished University Professor, CMNS-Atmospheric & Oceanic Science; Distinguished University Professor, CMNS-Earth System Science Interdisciplinary Center; B.S., Nanjing University/Nanking University, 1983; M.S., 1986; Ph.D., McGill University-Montreal, 1991.

Li, Zhiwei
Assistant Professor, CMNS-Chemistry & Biochemistry; B.S., Soochow University, 2011; Ph.D., University of California-Riverside, 2019.

Liang, Menglu
Assistant Clinical Professor, SPHL-Epidemiology & Biostatistics; M.S., Johns Hopkins University, 2014; M.S., University of Minnesota-Crookston, 2019; Ph.D., Pennsylvania State University, 2023.

Liang, Shunlin
Professor Emeritus, BSOS-Geography; B.S., Nanjing University/Nanking University, 1983; M.S., 1986; Ph.D., Boston University, 1993.

Liang, Xin-Zhong
Professor, CMNS-Atmospheric & Oceanic Science; Professor, CMNS-Earth System Science Interdisciplinary Center; B.S., Zhejiang University, 1983; Ph.D., The Chinese Academy of Sciences, 1987.

Liao, Hui
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Management & Organization; B.A., People's University of China/Ren Min University of China, 1997; Ph.D., University of Minnesota-Twin Cities, 2002.

Liberto, Andrea Romeo
Lecturer, SPHL-Kinesiology; B.S., University of Maryland-College Park, 2010; M.P.H., 2016; Ed.D., Frostburg State University, 2024.

Liberto, Hallie
Professor, ARHU-Philosophy; B.A., Columbia University, 2004; Ph.D., University of Wisconsin-Madison, 2011.

Lichbach, Mark
Professor Emeritus, BSOS-Government & Politics; B.A., Brooklyn College, 1973; M.A., Brown University, 1975; Ph.D., Northwestern University, 1978.

Lichtenberg, Erik
Professor, AGNR-Agricultural & Resource Economics; B.A., University of Chicago, 1973; Ph.D., University of California-Berkeley, 1985.

Lichtman, Marc L
Adjunct Assistant Professor, CMNS-Computer Science; B.S., Virginia Polytechnic Institute & State University, 2011; M.S., 2012; Ph.D., 2016.

Liddle, James Alexander
Adjunct Professor, ENGR-Materials Science & Engineering; B.A., University of Oxford, 1986; Ph.D., 1989.

Lidz, Jeffrey
Chair, ARHU-Linguistics; Professor, ARHU-Linguistics; Affiliate Professor, ARHU-Dean-MD Language Science Center; 2015-2016 Distinguished Scholar-Teacher. B.S., Northwestern University, 1990; M.A., University of Delaware, 1992; Ph.D., 1996.

Lie, Siv B.
Associate Professor, ARHU-School of Music; Affiliate Associate Professor, BSOS-Anthropology; B.A., Boston University, 2008; M.A., New York University, 2012; Ph.D., 2017.

Lieber, Joan
Professor Emerita, EDUC-Counseling, Higher Education and Special Education; B.A., Rutgers University, 1969; M.S., University of Pennsylvania, 1970; Ph.D., University of California-Santa Barbara, 1986.

Lieberman, Elli
Lecturer, ARHU-Meyerhoff Center-Israel Studies; B.A., University of Maryland-Baltimore County, 1978; M.A., University of Chicago, 1987; Ph.D., 1993.

Lieder, K Frances
Assistant Clinical Professor, UGST-HCOL-University Honors Program; B.A., University of Chicago, 2009; M.A., New York University, 2011; Ph.D., University of Wisconsin-Madison, 2018.

Liesener, James W.
Professor Emeritus, INFO-College of Information Studies; B.A., Wartburg College, 1955; M.A., University of Northern Iowa, 1960; M.A., University of Michigan-Ann Arbor, 1962; Ph.D., 1967.

Lightman, David
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., University of Maryland-College Park, 1971; M.A., 1973.

Lim, Adriene
Librarian IV, LIBR-Libraries; B.F.A., Wayne State University, 1993; M.L.S., 1996; Ph.D., Simmons College, 2012.

Lin, Chan
Lecturer, CMNS-Biology; B.S., National Chung Hsing University-Taichang, 2002; M.S., National Taiwan University, 2004; Ph.D., University of Arizona, 2014.

Lin, Chuan-Fu
Adjunct Assistant Professor, ENGR-Materials Science & Engineering; B.S., National Central University-Chungli, 2000; Ph.D., University of Maryland-College Park, 2012.

Lin, Huang
Assistant Professor, SPHL-Epidemiology & Biostatistics; B.S., Xiamen University, 2015; Ph.D., University of Pittsburgh, 2020.

Lin, Jing
Professor, EDUC-Counseling, Higher Education and Special Education; Affiliate Professor, ARHU-Women, Gender and Sexuality Studies; B.A., Guangxi University, 1983; M.A., Michigan State University, 1987; Ed.D., University of Michigan-Ann Arbor, 1990.

Lin, Lingnan
Assistant Professor, ENGR-Mechanical Engineering; B.E., University of Science & Technology of China, 2013; Ph.D., Shanghai Jiaotong University, 2018.

Lin, Lizhen
Professor, CMNS-Mathematics; B.S., Sichuan University, 2006; Ph.D., University of Arizona, 2012.

Lin, Loewi
Lecturer, ARHU-School of Music; B.Mus., University of Ottawa, 2006; M.Mus., New England Conservatory of Music, 2008.

Lin, Ming C
Distinguished University Professor, CMNS-Computer Science; Affiliate Professor, ENGR-Electrical & Computer Engineering; Affiliate Professor, ENGR-Institute for Systems Research; B.S., University of California-Berkeley, 1988; M.S., 1991; Ph.D., 1993.

Lindemann, Marilee
Executive Director, UGST-College Park Scholars; Associate Professor, ARHU-English; Affiliate Associate Professor, ARHU-Women, Gender and Sexuality Studies; Affiliate Associate Professor, ARHU-American Studies; B.A., Indiana University, 1981; M.A., Rutgers University, 1983; Ph.D., 1991.

Lindle, Rosemary Schaffner
Lecturer, SPHL-Kinesiology; B.S., University of Maryland-College Park, 1986; M.S., 1989; Ph.D., 1997.

Lindquist, Eric Nils
Librarian III, LIBR-Libraries; B.A., University of Massachusetts-Amherst, 1975; Ph.D., Harvard University, 1984.

Linduska, James J.
Professor Emeritus, CMNS-Entomology; B.S., University of Maryland-College Park, 1965; M.S., 1968; Ph.D., 1973.

Lindvall, Mikael
Lecturer, ENGR-Maryland Applied Graduate Engineering; Adjunct Assistant Professor, CMNS-Computer Science; M.S., Linkoping University, 1994; Ph.D., 1997.

Linebaugh, Donald W.
Professor, ARCH-School of Architecture, Planning, & Preservation; Professor, ARCH-Historic Preservation Program; Affiliate Professor, ARHU-American Studies; B.S., Grand Valley State College, 1979; M.A., College of William & Mary, 1982; Ph.D., 1996.

Ling, Jiqiang
Associate Professor, CMNS-Cell Biology & Molecular Genetics; B.S., Fudan University-Shanghai, 2003; Ph.D., Ohio State University, 2008.

Linke, Norbert Matthias
Adjunct Assistant Professor, CMNS-Physics; B.A., University of Ulm, 2007; B.A., 2008; Ph.D., University of Oxford, 2013.

Linn, Joshua
Professor, AGNR-Agricultural & Resource Economics; B.A., Yale University, 2000; D.O., Massachusetts Institute of Technology, 2005.

Lipman, Brandon Eliott
Lecturer, ARCH-Architecture Program; B.Arch., Cornell University, 1979.

Lips, Karen R.
Professor, CMNS-Biology; Affiliate Professor, ARHU-Dean-Latin American and Caribbean Studies Center; B.S., University of South Florida, 1988; Ph.D., University of Miami, 1995.

Lipsitz, Michael
Lecturer, BMGT-Logistics, Business & Public Policy; D.O., Boston University, 2017.

Lipsman, Ronald L.
Professor Emeritus, CMNS-Mathematics; B.S., CUNY-City College of New York, 1964; Ph.D., Massachusetts Institute of Technology, 1967.

Lipton, Douglas W.
Associate Professor Emeritus, AGNR-Agricultural & Resource Economics; B.S., SUNY-Stony Brook, 1976; M.A., College of William & Mary, 1979; Ph.D., University of Maryland-College Park, 1989.

Lisfi, Abdellah
Adjunct Associate Professor, ENGR-Materials Science & Engineering; B.S., International University of Rabat, 1988; M.S., University of Paris, 1989; Ph.D., 1992.

Lising, Laura J.
Lecturer, CMNS-Physics; B.S., University of Virginia, 1992; M.A., University of California-Berkeley, 1994; Ph.D., 1999.

Lissitz, Robert W.
Professor Emeritus, EDUC-Human Development and Quantitative Methodology; B.A., Northwestern University, 1963; Ph.D., Syracuse University, 1969.

Little, Barbara J.
Adjunct Professor, BSOS-Anthropology; B.A., Pennsylvania State University, 1980; M.A., SUNY-University at Buffalo, 1984; Ph.D., 1987.

Little, Robert David
Lecturer, JOUR-Philip Merrill College of Journalism; B.S., Towson University, 1991; M.S., Columbia University, 1998.

Little, Ryan Erin
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., University of Central Florida, 2011.

Liu, Brooke Fisher
Professor, ARHU-Communication; 2024-2025 Distinguished Scholar-Teacher. B.A., Washington University in Saint Louis, 2001; M.A., University of Missouri-Columbia, 2003; M.A., 2003; Ph.D., University of North Carolina-Chapel Hill, 2006.

Liu, Chuan Sheng
Professor Emeritus, CMNS-Physics; B.S., Tunghai University, 1960; M.A., University of California-Berkeley, 1964; Ph.D., 1968.

Liu, Dongxia
Visiting Professor, ENGR-Materials Science & Engineering; Visiting Professor, ENGR-Chemical & Biomolecular Engineering; B.S., Shandong University, 2000; M.S., The Chinese Academy of Sciences, 2003; Ph.D., University of Rochester, 2009.

Liu, Hongjie
Professor, SPHL-Epidemiology & Biostatistics; B.A., Fudan University-Shanghai, 1993; M.S., University of California-Los Angeles, 1998; Ph.D., 2002.

Liu, Jing
Associate Professor, EDUC-Teaching and Learning, Policy and Leadership; Affiliate Associate Professor, ARHU-Dean-MD Language Science Center; B.A., Peking University, 2011; M.A., 2013; M.A., Stanford University, 2016; Ph.D., 2018.

Liu, Rossina Zamora
Assistant Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., University of Maryland-College Park, 1998; M.F.A., University of Iowa, 2007; Ph.D., 2015.

Liu, William Ming
Chair, EDUC-Counseling, Higher Education and Special Education; Professor, EDUC-Counseling, Higher Education and Special Education; B.A., University of California-Irvine, 1990; M.A., University of Maryland-College Park, 1995; Ph.D., 2000.

Liu, Yang
Associate Professor, EDUC-Human Development and Quantitative Methodology; B.S., Peking University, 2009; M.A., University of North Carolina-Chapel Hill, 2011; M.S., 2014; Ph.D., 2015.

Liu, Yanxin
Assistant Professor, CMNS-Chemistry & Biochemistry; Assistant Professor, CMNS-IBBR; Assistant Professor, CMNS-IBBR; B.S., Xi'an Jiaotong University, 2004; M.S., Florida International University, 2007; Ph.D., University of Illinois-Urbana/Champaign, 2013.

Liu, Yi-Kai
Adjunct Associate Professor, CMNS-Institute for Advanced Computer Studies; Adjunct Associate Professor, CMNS-Computer Science; B.A., Princeton University, 2002; Ph.D., University of California-San Diego, 2007.

Liu, Yu
Assistant Professor, CMNS-Chemistry & Biochemistry; B.S., University of Nevada-Las Vegas, 2014; Ph.D., Harvard University, 2020.

Liu, Yun
Lecturer, ENGR-Materials Science & Engineering; B.S., Tsinghua University/Qinghua University, 1997; M.S., 1999; Ph.D., Massachusetts Institute of Technology, 2005.

Liu, Zaoxing
Assistant Professor, CMNS-Computer Science; Assistant Professor, CMNS-Institute for Advanced Computer Studies; B.E., Southeast University, 2011; M.S.W.E, Johns Hopkins University, 2013; Ph.D., 2018.

Liu, Zhicheng
Assistant Professor, CMNS-Computer Science; B.S., National University of Singapore, 2006; Ph.D., Georgia Institute of Technology, 2012.

Liu, Zhongchi
Professor Emerita, CMNS-Cell Biology & Molecular Genetics; B.S., Wuhan University, 1982; M.A., Harvard University, 1985; Ph.D., 1990.

Liverani, Carlangelo
Visiting Professor, CMNS-Mathematics; B.A., Universita di Bologna, 1980; Ph.D., Rutgers University, 1988.

Livingston, Richard A
Adjunct Professor, ENGR-Materials Science & Engineering; B.A., Dartmouth College, 1968; B.E., 1969; M.S., Stanford University, 1970; Ph.D., University of Maryland-College Park, 1990.

Lloyd, Adam M
Lecturer, ARHU-English; B.A., University of California-San Diego, 1992; M.A., Georgetown University, 1997; M.A., 2004; Ph.D., University of Maryland-College Park, 2017.

Lloyd, Isabel K.
Associate Professor, ENGR-Materials Science & Engineering; Affiliate Associate Professor, CMNS-Institute for Research in Electronics & Applied Physics; B.S., Pennsylvania State University, 1975; Ph.D., Massachusetts Institute of Technology, 1980.

Lo, Kuan-Hung
Lecturer, ENGR-A. James Clark School of Engineering; M.S., Virginia Polytechnic Institute & State University, 2015; Ph.D., 2022.

Lo, Yangming Martin
Adjunct Professor, ENGR-Chemical & Biomolecular Engineering; B.S., National Taiwan University, 1989; M.A., Ohio State University, 1993; Ph.D., 1995.

Lobb, Christopher J.
Professor Emeritus, CMNS-Physics; Visiting Professor, CMNS-Physics; 2000-2001 Distinguished Scholar-Teacher. B.A., Rutgers University, 1974; M.S., Harvard University, 1976; Ph.D., 1980.

Loboda, Tatiana V.
Chair, BSOS-Geography; Professor, BSOS-Geography; B.A., Moscow State Pedagogical University, 1995; Ph.D., University of Maryland-College Park, 2008.

Locke, Edwin A.
Professor Emeritus, BMGT-Robert H. Smith School of Business; B.A., Harvard University, 1960; M.A., Cornell University, 1962; Ph.D., 1964.

Loeb, Martin
Professor Emeritus, BMGT-Robert H. Smith School of Business; B.S., SUNY-Stony Brook, 1970; M.S., Northwestern University, 1972; Ph.D., 1975.

Loeb, Stephen E.
Professor Emeritus, BMGT-Robert H. Smith School of Business; B.S., University of Pennsylvania, 1961; M.B.A., University of Wisconsin-Madison, 1963; Ph.D., 1970.

Loewenstein, Mark V.
Associate Professor, BMGT-Robert H. Smith School of Business; Associate Professor, BMGT-Finance; B.A., University of California-Los Angeles, 1983; M.B.A., Columbia University, 1992; Ph.D., 1996.

Lofton, Nathan
Lecturer, ARHU-School of Music; B.Mus., New England Conservatory of Music, 2008; M.Mus., Temple University, 2014; D.M.A., University of Maryland-College Park, 2024.

Logan, Shirley W.
Professor Emerita, ARHU-English; B.A., Johnson C. Smith University, 1964; M.A., University of North Carolina-Chapel Hill, 1966; Ph.D., University of Maryland-College Park, 1988.

Lohr, Justin Charles
Principal Lecturer, ARHU-English; B.A., St. Joseph's University, 2008; M.F.A., University of Maryland-College Park, 2011.

Loizeaux, Elizabeth Bergmann
Professor Emerita, ARHU-English; B.A., Mount Holyoke College, 1972; M.A., University of Michigan-Ann Arbor, 1974; Ph.D., 1980.

Lombardi, Doug
Associate Dean, EDUC-College of Education; Professor, EDUC-Human Development and Quantitative Methodology; B.S., University of Colorado-Boulder, 1987; M.S., University of Tennessee-Knoxville, 1996; M.S., 2000; Ph.D., University of Nevada-Las Vegas, 2012.

Lombardi, Sara Ann
Principal Lecturer, CMNS-Biology; B.S., Juniata College, 2007; Ph.D., University of Maryland-College Park, 2012.

Long, Ryan
Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., Macalester College, 1994; Ph.D., Duke University, 2002.

Long, Terence Dyer
Senior Lecturer, CMNS-Mathematics; B.S., University of Tennessee-Knoxville, 2007; B.S., 2007; Ph.D., University of Maryland-College Park, 2015.

Longo, Thomas
Adjunct Assistant Professor, CMNS-Institute for Physical Science & Technology; B.S., Villanova University, 2019; Ph.D., University of Maryland-College Park, 2023.

Lopez, Andrea M
Associate Professor, BSOS-Anthropology; B.A., San Francisco State University, 2003; M.A., University of New Mexico-Albuquerque, 2007; Ph.D., 2014.

Lorente, Rafael
Dean, JOUR-Philip Merrill College of Journalism; Professor of the Practice, JOUR-Philip Merrill College of Journalism; B.A., University of Miami, 1990; M.A., University of Maryland-College Park, 1998.

Lorimer, George H.
Distinguished University Professor Emeritus, CMNS-Chemistry & Biochemistry; B.S., University of St. Andrews, 1965; M.S., University of Illinois-Chicago, 1968; Ph.D., Michigan State University, 1972.

Losert, Wolfgang
Associate Dean, CMNS-College of Computer, Math & Natural Sciences; Professor, CMNS-Physics; Professor, CMNS-Institute for Physical Science & Technology; M.S., University of Munich, 1995; Ph.D., CUNY-City College of New York, 1998.

Loss, John C.
Professor Emeritus, ARCH-School of Architecture, Planning, & Preservation; B.Arch., University of Michigan-Ann Arbor, 1954; M.Arch., 1960.

Lothian, Alexis
Associate Professor, ARHU-Women, Gender and Sexuality Studies; M.A., Aberystwyth University, 2003; M.A., University of Sussex-Falmer, 2005; Ph.D., University of Southern California, 2012.

Loup, Francois IV
Associate Professor Emeritus, ARHU-School of Music; M.O., Conservatoire de Musique de Genève, 1963.

Love, Johnnieque B.
Librarian Emerita, LIBR-Libraries; B.S., Emporia State University, 1963; M.A., University of Colorado-Denver, 1977; M.A., University of Denver, 1984.

Love, Kathryn M
Lecturer, UGST-AFROTC-Air Science; B.A., Mississippi State University, 2019; M.A., University of Alabama-Tuscaloosa, 2022.

Lovell, David J.
Director, UGST-HCOL-Gemstone Program; Professor, ENGR-Civil & Environmental Engineering; Professor, ENGR-Institute for Systems Research; B.A., Portland State University, 1990; M.S., University of California-Berkeley, 1993; Ph.D., 1997.

Lowe, Tao L
Professor, ENGR-Fischell Department of Bioengineering; B.S., Nanjing University of Science & Technology, 1990; M.S., Tianjin University, 1995; Ph.D., University of Helsinki, 1998.

Lowry, Charles B.
Professor Emeritus, INFO-College of Information Studies; B.S., Spring Hill College, 1964; M.A., University of North Carolina-Chapel Hill, 1974; M.O., University of Alabama-Tuscaloosa, 1965; Ph.D., University of Florida, 1979.

Lozner, Ruth J.
Associate Professor Emerita, ARHU-Art; B.F.A., Carnegie Mellon University, 1972; M.F.A., American University, 1979.

Lu, Jessica H.
Lecturer, ARHU-Dean's-Living Learning Programs; B.A., Villanova University, 2011; Ph.D., University of Maryland-College Park, 2018.

Lu, Shuning
Assistant Professor, JOUR-Philip Merrill College of Journalism; B.A., Fudan University-Shanghai, 2010; M.A., 2013; Ph.D., University of Texas-Austin, 2019].

Lucas, Henry C. Jr.
Professor Emeritus, BMGT-Robert H. Smith School of Business; B.S., Yale University, ; M.S., Massachusetts Institute of Technology, 1968; Ph.D., Yale University, 1970.

Lucas, Jeffrey W.
Professor, BSOS-Sociology; B.A., University of Iowa, 1992; M.A., 1996; Ph.D., 2000.

Lucas, Melissa A.
Associate Clinical Professor, ARHU-Communication; B.A., University of California-San Diego, 2011; M.A., San Diego State University, 2013; Ph.D., University of Maryland-College Park, 2019.

Lucci, Robert R
Senior Lecturer, ARHU-English; B.A., University of North Carolina-Chapel Hill, 2015; M.A., University of Maryland-College Park, 2018.

Luckert, Yelena
Librarian IV, LIBR-Libraries; B.A., SUNY-Binghamton, 1985; M.A., 1989; M.L.S., SUNY-Albany, 1992.

Lund, Neil
Lecturer, BSOS-Government & Politics; B.S., Middle Tennessee State University, 2010; M.A., University of Maryland-College Park, 2020.

Lung Amam, Willow S.
Associate Professor, ARCH-School of Architecture, Planning, & Preservation; Associate Professor, ARCH-Center for Smart Growth Research & Education; Associate Professor, ARCH-Urban Studies & Planning Program; B.A., Stanford University, 2000; M.C.P., University of Maryland-College Park, 2007; Ph.D., University of California-Berkeley, 2012.

Luo, Yaguang
Adjunct Professor, ENGR-Fischell Department of Bioengineering; B.S., Sichuan Agricultural University, 1982; M.S., Huazhong Agricultural University, 1986; Ph.D., Washington State University, 1992.

Lushniak, Boris D
Dean, SPHL-School of Public Health; Professor, SPHL-Global, Environmental, and Occupational Health; B.S., Northwestern University, 1981; M.D., Northwestern University Medical School, 1983; M.P.H., Harvard University, 1984.

Lutters, Wayne
Professor, INFO-College of Information Studies; B.A., Connecticut College, 1992; M.S., University of California-Irvine, 1995; Ph.D., 2001.

Lynch, Lori
Professor, AGNR-Agricultural & Resource Economics; B.A., University of California-Davis, 1984; M.S., 1989; Ph.D., University of California-Berkeley, 1996.

Lynn, Jeffrey W.
Adjunct Professor, CMNS-Physics; B.S., Georgia Institute of Technology, 1969; M.S., 1970; Ph.D., 1974.

Lyons, Clare A.
Associate Professor, ARHU-History; Affiliate Associate Professor, ARHU-Women, Gender and Sexuality Studies; B.S., Lewis & Clark College, 1980; M.A., University of California-Santa Barbara, 1989; Ph.D., Yale University, 1996.

Lyons, Zachary D
Lecturer, BMGT-Dean-Career Management; B.S., Pennsylvania State University, 2018.

Lyzinski, Vincent Paul
Professor, CMNS-Mathematics; B.S., University of Notre Dame, 2006; M.A., Johns Hopkins University, 2007; M.S., 2011; Ph.D., 2013.

M

Ma, Lan
Senior Lecturer, ENGR-Fischell Department of Bioengineering; M.S., Johns Hopkins University, 2001; Ph.D., 2004.

Ma, Li
Professor, AGNR-Animal & Avian Sciences; B.S., Fudan University-Shanghai, 2002; M.S., University of Minnesota-Twin Cities, 2010; Ph.D., 2010.

Ma, Lin
Lecturer, ARHU-School of Music; B.Mus., Oberlin College, 2011; M.Mus., Rice University, 2013.

Ma, Liye
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Marketing; B.E., Tsinghua University/Qinghua University, 1998; M.S., Carnegie Mellon University, 2008; M.S., 2011; Ph.D., 2011.

Ma, Tianzhou
Associate Professor, SPHL-Epidemiology & Biostatistics; B.S., University of Toronto, 2010; M.S., Yale University, 2013; Ph.D., University of Pittsburgh, 2018.

Mabbs, Linda
Professor Emerita, ARHU-School of Music; B.Mus., Northwestern University, 1968; M.Mus., 1970.

MacDevitt, Brian
Associate Professor Emeritus, ARHU-School of Theatre, Dance & Performance Studies; B.F.A., SUNY-College at Purchase, 1980.

Machado, Carlos A.
Professor, CMNS-Biology; Affiliate Professor, ARHU-Dean-Latin American and Caribbean Studies Center; B.S., National University of Colombia-Bogota, 1992; Ph.D., University of California-Irvine, 1998.

Machedon, Matei
Professor, CMNS-Mathematics; B.A., University of Chicago, 1982; Ph.D., Princeton University, 1986.

Macias Sevde, Marco York
Lecturer, CMNS-College of Computer, Math & Natural Sciences; M.S., Johns Hopkins University, 2021.

Macintosh, John Andrew
Lecturer, ARHU-English; B.A., University of Minnesota-Twin Cities, 2007; Ph.D., University of Maryland-College Park, 2019.

Mack, Daniel C.
Librarian IV, LIBR-Libraries; B.A., Youngstown State University, 1988; M.A./M.L.S., Kent State University-all campuses, 1989.

Mack, Maynard Jr.
Professor Emeritus, ARHU-English; B.A., Yale University, 1964; Ph.D., 1969.

MacKo, Richard
Adjunct Professor, SPHL-Kinesiology; B.A., Hiram College, 1979; M.D., Ohio State University, 1987.

Mackwell, Stephen Joseph
Adjunct Professor, CMNS-Geology; B.S., University of Canterbury-Christ Church, 1977; M.S., 1979; Ph.D., Australian National University-Canberra, 1985.

Maclary, Edward
Professor Emeritus, ARHU-School of Music; B.Mus., University of Delaware, 1974; M.Mus., Boston University, 1980; D.M.A., Indiana University, 1985.

Macleod, Anne S.
Professor Emerita, INFO-College of Information Studies; B.A., University of Chicago, 1949; M.L.S., University of Maryland-College Park, 1966; Ph.D., 1973.

Macready, George B.
Professor Emeritus, EDUC-Human Development and Quantitative Methodology; B.A., Willamette University, 1965; M.A., University of Oregon, 1967; Ph.D., University of Minnesota-Twin Cities, 1972.

MacSwan, Jeff
Professor, EDUC-Teaching and Learning, Policy and Leadership; Affiliate Professor, ARHU-Dean-MD Language Science Center; A.A., Cerritos College, 1984; B.A., California State University-Long Beach, 1985; A.A., Cerritos College, 1986; M.A., California State University-Long Beach, 1987; Ph.D., University of California-Los Angeles, 1997.

Madan, Dilip B.
Professor Emeritus, BMGT-Robert H. Smith School of Business; B.Comm., University of Bombay, 1967; Ph.D., University of Maryland-College Park, 1971; Ph.D., 1975.

Maddux, Kristjana Lyn
Executive Director, UGST-Honors College; Professor, ARHU-Communication; Affiliate Professor, ARHU-Women, Gender and Sexuality Studies; B.A., University of Puget Sound, 2001; M.A., University of Georgia, 2003; Ph.D., 2007.

Madhavan, Sangeetha
Chair, BSOS-African American Studies; Professor, BSOS-African American Studies; B.A., Barnard College, 1988; M.A., University of Pennsylvania, 1994; Ph.D., 1998.

Madoo, Justine McDavid
Principal Lecturer, BSOS-Criminology & Criminal Justice; B.A., University of Maryland-College Park, 2004; M.A., Rutgers University, 2007; Ph.D., 2015.

Magalong, Michelle G
Assistant Professor, ARCH-School of Architecture, Planning, & Preservation; Assistant Professor, ARCH-Historic Preservation Program; B.A., University of California-San Diego, 2001; M.A., University of California-Los Angeles, 2003; Ph.D., 2017.

Magidson, Jessica
Director, BSOS-Center for Substance Use, Addiction & Health Research; Associate Professor, BSOS-Psychology; B.A., Dartmouth College, 2006; M.S., University of Maryland-College Park, 2010; Ph.D., 2013.

Magrab, Edward B.
Professor Emeritus, ENGR-Mechanical Engineering; B.O., CUNY-City College of New York, 1960; M.O., New York University, 1961; Ph.D., Catholic University of America, 1966.

Magro, Jose Luis
Assistant Clinical Professor, ARHU-School of Languages, Literatures, and Cultures; B.S., Universidad Complutense de Madrid, 1995; M.Ed., CUNY-Queens College, 2012; Ph.D., CUNY-Graduate Center, 2016.

Maguire, Ross Ronan
Visiting Assistant Professor, CMNS-Geology; Ph.D., University of Michigan-Ann Arbor, 2018.

Mahalel, Adi
Adjunct Assistant Professor, ARHU-Meyerhoff Program & Center for Jewish Studies; B.A., University of Haifa, 2007; M.A., Columbia University, 2010; Ph.D., 2014.

Mahalingappa, Laura Jahnavi
Associate Professor, EDUC-Teaching and Learning, Policy and Leadership; Affiliate Associate Professor, ARHU-Dean-MD Language Science Center; B.A., American University, 1997; M.A., University of Texas-Austin, 2004; Ph.D., 2009.

Mainali, Kumar
Lecturer, SPHL-Epidemiology & Biostatistics; B.S., Tribhuvan University-Kirtipur, 1996; M.S., 1999; M.S., University of Toledo, 2007; M.S., University of Texas-Austin, 2014; Ph.D., 2014.

Mains, Luke Christopher
Lecturer, UGST-HCOL-ACES Cybersecurity Program; B.S., Arizona State University, 2019.

Maisel, Katharina
Associate Professor, ENGR-Fischell Department of Bioengineering; B.S., University of Michigan-Dearborn, 2010; Ph.D., Johns Hopkins University, 2014.

Major, Leon
Professor Emeritus, ARHU-School of Music; B.A., University of Toronto, 1955.

Makowski, Armand M.
Professor, ENGR-Electrical & Computer Engineering; Affiliate Professor, ENGR-Institute for Systems Research; B.S., Universite Libre de Bruxelles-Belgium, 1975; M.S., University of California-Los Angeles, 1976; Ph.D., University of Kentucky, 1981.

Maksimovic, Vojislav
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Finance; B.S., London School of Economics & Political Science, 1976; M.S., 1977; Ph.D., Harvard University, 1986.

Malackany, Christopher Alan
Lecturer, BSOS-Sociology; B.S., Miami University, 2006; M.S., Purdue University-West Lafayette, 2009; Ph.D., 2016.

Malewski, Margaret
Lecturer, BMGT-Ctrs-Ed Snider Center for Enterprise & Markets; M.B.A., Insead University, 2007.

Malik Sakil, Mohammad
Lecturer, EDUC-Counseling, Higher Education and Special Education; B.A., University of Dhaka, 1992; B.A., Aligarh Muslim University, 1993; M.A., 1995; M.A., University of Maryland-College Park, 2010.

Malkin, Sairah
Visiting Associate Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., University of Waterloo, 2008.

Mallada, Enrique
Visiting Professor, ENGR-Institute for Systems Research; B.S., Universidad ORT Uruguay, 2005; Ph.D., Cornell University, 2014.

Mallett, Bobbie J.
Librarian II, LIBR-Libraries; M.L.S., University of Southern Mississippi, 1978.

Mallinson, Edward T.
Professor Emeritus, AGNR-Veterinary Medicine Program; D.V.M., University of Pennsylvania, 1956.

Mallios, Peter Lancelot
Associate Professor, ARHU-English; B.A., University of California-Berkeley, 1990; M.A., University of Chicago, 1992; J.D., 1994; Ph.D., Stanford University, 2000.

Maloney-Franklin, Candace
Lecturer, ARCH-Architecture Program; B.Arch., New York Institute of Technology-Manhattan, 2011.

Mamat, Anwar
Senior Lecturer, CMNS-Computer Science; B.E., Chang'an University, 2000; M.S., 2002; Ph.D., University of Nebraska-Lincoln, 2011.

Mamidipudi, Ramakrishna Sharan
Assistant Professor, AGNR-Agricultural & Resource Economics; B.A., University of Delhi, 2009; M.A., 2011; D.O., Harvard University, 2020.

Manekin, Charles H.
Professor Emeritus, ARHU-Philosophy; B.A., Yale University, 1975; M.A., Columbia University, 1979; Ph.D., 1984.

Manekin, Rachel
Professor Emerita, ARHU-Meyerhoff Program & Center for Jewish Studies; B.A., Hebrew University of Jerusalem, 1982; M.A., University of Maryland-College Park, 1992; Ph.D., Hebrew University of Jerusalem, 2001.

Mani, Mahesh
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.S., Annamalai University, 1998; Ph.D., National University of Singapore, 2005.

Manildi, Donald E.
Librarian II, LIBR-Libraries; B.Mus., University of Washington-Seattle, 1969; M.Mus., Cleveland Institute of Music, 1971.

Manly, Jennifer N
Lecturer, CMNS-Computer Science; Lecturer, CMNS-Computer Science; B.A., University of Georgia, 2011.

Mannes, Aaron Wolf
Lecturer, PLCY-School of Public Policy; B.S., Emerson College, 1992; M.L.A., St. John's College, 1997; Ph.D., University of Maryland-College Park, 2014.

Manning, Tracey T.
Lecturer, SPHL-Health Policy and Management; B.A., DePaul University, 1966; M.A., Catholic University of America, 1969; Ph.D., 1973.

Manocha, Dinesh
Distinguished University Professor, CMNS-Computer Science; Distinguished University Professor, CMNS-Institute for Advanced Computer Studies; Distinguished University Professor, ENGR-Electrical & Computer Engineering; Affiliate Professor, ENGR-Institute for Systems Research; B.Tech., Indian Institute of Technology-Delhi, 1987; M.S., University of California-Berkeley, 1990; Ph.D., 1992.

Mansbach, Steven
Distinguished University Professor Emeritus, ARHU-Art History & Archaeology; B.A., Cornell University, 1972; M.A., 1976; Ph.D., 1978.

Manzo, Anthony L
Lecturer, ARHU-School of Music; B.Mus., Boston University, 1991.

Maqbool, Daanish
Lecturer, ENGR-Dean-Keystone Program; B.S., Massachusetts Institute of Technology, 2008; M.S., University of Maryland-College Park, 2011; Ph.D., 2016.

Marando, Vincent L.
Professor Emeritus, BSOS-Government & Politics; B.S., SUNY-Buffalo State University, 1960; M.A., Michigan State University, 1964; Ph.D., 1967.

Marciano, Richard
Professor, INFO-College of Information Studies; Affiliate Professor, ENGR-Institute for Systems Research; Affiliate Professor, CMNS-Computer Science; B.S., National School of Civil Aviation, 1986; M.S., University of Iowa, 1989; Ph.D., 1992.

Marcus, Steven I.
Professor Emeritus, ENGR-Electrical & Computer Engineering; B.A., Rice University, 1971; M.S., Massachusetts Institute of Technology, 1972; Ph.D., 1975.

Marcuse, Michael J.
Associate Professor Emeritus, ARHU-English; B.A., University of Pittsburgh, 1966; M.A., University of Michigan-Ann Arbor, 1967; Ph.D., 1971.

Margetis, Dionisios
Professor, CMNS-Mathematics; Professor, CMNS-Institute for Physical Science & Technology; B.S., National Technical University of Athens, 1992; M.S., Harvard University, 1994; Ph.D., 1999.

Maring, Elisabeth Fost
Clinical Professor, SPHL-Dean-Global Health; B.A., Emory University, 1993; M.Ed., Harvard University, 1996; Ph.D., University of Maryland-College Park, 2006.

Marino, John P
Interim Co-Director, CMNS-IBBR; Interim Co-Director, CMNS-IBBR; Professor, CMNS-IBBR; Adjunct Professor, CMNS-Chemistry & Biochemistry; Professor, CMNS-IBBR; B.A., Princeton University, 1989; M.A., Yale University, 1991; Ph.D., 1995.

Mariuzza, Roy A.
Professor, CMNS-Cell Biology & Molecular Genetics; Professor, CMNS-IBBR; Professor, CMNS-IBBR; M.S., Yale University, 1978; B.S., 1978; Ph.D., University of Paris VII, 1985.

Mark, Gideon E.
Associate Professor, BMGT-Robert H. Smith School of Business; Associate Professor, BMGT-Logistics, Business & Public Policy; B.A., Brandeis University, 1979; J.D., University of California-Hastings College of Law, 1993; M.B.A., Columbia University, 1995; M.P.A., Harvard University, 2000; L.L.M., New York University, 2005.

Markowitz, Judith S.
Librarian III, LIBR-Libraries; B.S., University of Maryland-College Park, 1978; M.L.S., 1982.

Marks, Colin H.
Professor Emeritus, ENGR-Mechanical Engineering; B.S., Carnegie Institute of Technology, 1956; M.S., 1957; Ph.D., University of Maryland-College Park, 1965.

Marks, Rachel Marie Moore
Lecturer, BSOS-Geography; B.S., University of Maryland-College Park, 2009; M.S., 2011.

Marks, Zachary
Lecturer, ARCH-Real Estate Development; B.A., University of Richmond, 1999; M.Ed., Johns Hopkins University, 2001.

Marquez, Bayley J
Associate Professor, ARHU-American Studies; B.A., Stanford University, 2007; M.A., 2011; Ph.D., University of California-Berkeley, 2019.

Marr, Gregory David
Senior Lecturer, BMGT-Management & Organization; B.A., University of Waterloo, 2003; M.S., University of London, 2008.

Marr, Jennifer Carson
Associate Professor, BMGT-Robert H. Smith School of Business; Associate Professor, BMGT-Management & Organization; Ph.D., Aberystwyth University, 2012.

Marsh, Diana E.
Assistant Professor, INFO-College of Information Studies; B.F.A., Rutgers University, 2009; M.Phil., University of Cambridge, 2010; Ph.D., University of British Columbia, 2014.

Marsh, Kris
Professor, BSOS-Sociology; Affiliate Professor, ARHU-Women, Gender and Sexuality Studies; B.A., San Diego State University, 1996; M.A., California State University-Dominguez Hills, 2000; Ph.D., University of Southern California, 2005.

Marsh, Michael Alan
Senior Lecturer, CMNS-Computer Science; B.A., Cornell University, 1994; B.A., 1994; M.S., University of Illinois-Urbana/Champaign, 1995; Ph.D., 2001.

Marshall, Caitlin
Assistant Professor, ARHU-School of Theatre, Dance & Performance Studies; B.A., Brown University, 2005; Ph.D., University of California-Berkeley, 2016.

Marshall, Elizabeth Lynn
Lecturer, ARHU-English; B.A., University of Virginia, 1984; M.A., University of Pittsburgh, 1999; M.P.H., Ohio State University, 2003.

Marsiglia, Dawn Dawsey
Lecturer, BSOS-Hearing & Speech Sciences; B.A., Ohio State University, 1993; M.A., 1997; Au.D., A.T. Still University of Health Sciences, 2017.

Martin, Dawn M
Associate Clinical Professor, EDUC-Counseling, Higher Education and Special Education; B.A., University of Connecticut-all campuses, 2005; M.S., American University, 2007; Ph.D., University of Maryland-College Park, 2011.

Martin, John R
Assistant Professor, ENGR-Aerospace Engineering; B.A., University of North Carolina-Chapel Hill, 2018; B.S., 2018; M.S., University of Colorado-Boulder, 2021; Ph.D., 2023.

Martin, Pino
Professor, ENGR-Aerospace Engineering; B.E., Boston University, 1994; M.S., University of Minnesota-Crookston, 1995; Ph.D., 1999.

Martin, Raymond F.
Professor Emeritus, ARHU-Philosophy; B.A., Ohio State University, 1962; M.A., 1964; Ph.D., University of Rochester, 1968.

Martin, Thomas A
Lecturer, ENGR-Mechanical Engineering; B.S., Georgia Institute of Technology, 1991; M.S., Mercer University, 1999; D.Engin., University of Maryland-College Park, 2011.

Martin-Beltran, Melinda
Associate Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., University of Michigan-Ann Arbor, 1997; M.Ed., University of Texas Rio Grande Valley, 1999; Ph.D., Stanford University, 2006.

Martinez, Elizabeth Hope
Lecturer, EDUC-Counseling, Higher Education and Special Education; B.A., Gallaudet University, 2008; M.A., 2014.

Martinez, Grit
Lecturer, BSOS-Anthropology; A.A.T., Friedrich-Schiller-Universitat Jena, 1989; M.B.A., Manchester Business School, 1995; Ph.D., University of Erlangen-Nurnberg, 1993; A.A.T., Friedrich-Schiller-Universitat Jena, 1989; M.B.A., Manchester Business School, 1995.

Martinez Guzman, Juan Pablo
Assistant Professor, PLCY-School of Public Policy; Ph.D., University of Maryland-College Park, 2017.

Martinez-Miranda, Luz J
Professor, ENGR-Materials Science & Engineering; B.S., University of Puerto Rico-Rio Piedras, 1977; B.Mus., 1979; M.S., 1979; Ph.D., Massachusetts Institute of Technology, 1985.

Martins, Desirae Lynn
Lecturer, UGST-AFROTC-Air Science; B.A., Rutgers University, 2008; M.A., Our Lady of the Lake University, 2012.

Martins, Nuno Miguel L C
Professor, ENGR-Electrical & Computer Engineering; Professor, ENGR-Institute for Systems Research; B.S./M.S., University of Lisbon, 1997; Ph.D., Massachusetts Institute of Technology, 2004.

Marton, Adam Robert
Senior Lecturer, JOUR-Philip Merrill College of Journalism; B.S., Towson University, 1995; M.A., University of Baltimore, 2009.

Marx, George L.
Professor Emeritus, EDUC-Counseling, Higher Education and Special Education; B.A., Yankton College, 1953; M.A., Iowa State University, 1958; Ph.D., 1959.

Marzullo, Keith Ansel
Dean, INFO-College of Information Studies; Professor, INFO-College of Information Studies; Affiliate Professor, CMNS-Computer Science; B.A., Occidental College, 1975; M.S., Stanford University, 1978; Ph.D., 1984.

Masatlioglu, Yusuf C.
Professor, BSOS-Economics; B.A., Bogazici University, 1995; M.A., 1999; M.A., New York University, 2001; Ph.D., 2005.

Mason, Ann Michele
Senior Lecturer, ARHU-English; B.A., University of North Carolina-Chapel Hill, 1986; M.A., 1992; Ph.D., University of Maryland-College Park, 2008.

Mason, Glenn M.
Professor Emeritus, CMNS-Physics; B.A., Harvard University, 1965; M.S., University of Chicago, 1967; Ph.D., 1971.

Mason, Michele Marie
Associate Professor, ARHU-School of Languages, Literatures, and Cultures; Affiliate Associate Professor, ARHU-Women, Gender and Sexuality Studies; B.A., University of Oregon, 1989; M.A., University of California-Los Angeles, 1995; Ph.D., University of California-Irvine, 2005.

Massey, Elizabeth Diana
Assistant Clinical Professor, SVPAAP-Office of Undergraduate Research; B.A., Gettysburg College, 2012; M.Mus., Peabody Institute of the Johns Hopkins University, 2015; Ph.D., University of Maryland-College Park, 2022.

Massey, Sheri Anita
Lecturer, INFO-College of Information Studies; B.S., University of Pittsburgh-Johnstown, 1998; M.L.S., University of Maryland-College Park, 2003; M.A./M.L.S., 2003; Ph.D., 2009.

Massoud, Mahmoud
Lecturer, ENGR-Mechanical Engineering; B.S., University of Tehran, 1974; M.S., Massachusetts Institute of Technology, 1978; Ph.D., University of Maryland-College Park, 1985.

Matar, Marilyn
Assistant Clinical Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., Saint Joseph University-Beirut, 2000; M.A., 2005; Ph.D., University of Maryland-College Park, 2014.

Mather, Ian
Professor Emeritus, AGNR-Animal & Avian Sciences; B.S., Aberystwyth University, 1966; Ph.D., 1971.

Mather, John C.
College Park Professor, CMNS-Physics; B.A., Swarthmore College, 1968; Ph.D., University of California-Berkeley, 1974.

Mathews, Richmond David
Associate Professor, BMGT-Robert H. Smith School of Business; Associate Professor, BMGT-Finance; B.A., Duke University, 1996; M.S., University of Rochester, 2002; Ph.D., 2003.

Matthews, Georgeanne N.
Assistant Professor, ARCH-School of Architecture, Planning, & Preservation; Assistant Professor, ARCH-Architecture Program; B.A., University of Pennsylvania, 1995; M.Arch., University of Maryland-College Park, 1998; Ph.D., 2018.

Matysiak, Silvina R.
Associate Professor, ENGR-Fischell Department of Bioengineering; B.A., Instituto Technologico de Buenos Aires, 2001; M.A., Rice University, 2007; Ph.D., 2008.

Mauriello, Thomas P.
Senior Lecturer, BSOS-Criminology & Criminal Justice; B.A., Suffolk University, 1973; M.Fin., George Washington University, 1976.

May, Lindsey M
Associate Clinical Professor, ARCH-Architecture Program; B.S., University of Michigan-Ann Arbor, 2010; M.Arch., Princeton University, 2014.

May, Peter
Lecturer, AGNR-Environmental Science & Technology; B.S., University of Maryland-College Park, 1992; Ph.D., 2007.

May, Willie Eugene
Adjunct Professor, CMNS-Chemistry & Biochemistry; B.S., University of Tennessee-Knoxville, 1968; Ph.D., University of Maryland-College Park, 1977.

Mayer, Diana N
Lecturer, SPHL-Family Science; M.S., University of Rochester, 2006.

Mayer, Dirk
Adjunct Associate Professor, ENGR-Fischell Department of Bioengineering; B.S./M.S., University of Bonn, 1996; Ph.D., Bremen University, 2000.

Mayergoyz, Isaak
Distinguished University Professor, ENGR-Electrical & Computer Engineering; 1995-1996 Distinguished Scholar-Teacher. M.Elect.E., Polytechnical Institute-Novocherkask, 1963; D.O., 1968; D.O., National Academy of Science of Ukraine, 1975.

Mayes, Alvin
Principal Lecturer, ARHU-School of Theatre, Dance & Performance Studies; B.A., University of Michigan-Ann Arbor, 1969.

Mayfield, Catherine Dayrit
Librarian II, LIBR-Libraries; M.A./M.L.S., San Jose State University, 2013.

Mayo, Kristina Pelham
Lecturer, AGNR-Animal & Avian Sciences; B.Arch., College of William & Mary, 1991; D.V.M., Virginia Polytechnic Institute & State University, 1996.

Mayo, Marlene J.
Associate Professor Emerita, ARHU-History; B.A., Wayne State University, 1954; M.A., Columbia University, 1957; Ph.D., 1961.

Mays-Williams, Chelsea G
Senior Lecturer, AGNR-Institute of Applied Agriculture; B.A., Bowie State University, 2010; M.A., 2014.

Maytum, Jeremy
Lecturer, ARHU-School of Music; B.A., Colorado State University-Pueblo, 2007; M.Mus., 2009.

Maziad, Marwa
Lecturer, ARHU-Meyerhoff Program & Center for Jewish Studies; B.A., American University-Cairo, 2000; M.A., 2004; Ed.D., University of Washington-Seattle, 2019.

Mazurek, Michelle
Associate Professor, CMNS-Computer Science; Associate Professor, CMNS-Institute for Advanced Computer Studies; M.S., Carnegie Mellon University, 2013; Ph.D., 2014.

Mazzocchi, Paul H.
Professor Emeritus, CMNS-Chemistry & Biochemistry; B.S., CUNY-Queens College, 1961; Ph.D., Fordham University, 1966.

Mazzone, Raphael
Associate Clinical Professor, ARHU-Communication; B.A., Salisbury University, 2003; M.L.S., University of Maryland-College Park, 2006; Ph.D., George Mason University, 2017.

Mazzone, Thomas Jacob
Lecturer, AGNR-Institute of Applied Agriculture; A.A., Carroll Community College, 2010; B.S., University of Maryland-College Park, 2013; M.S., University of Florida, 2021.

Mazzullo, Susan Claire
Lecturer, CMNS-Mathematics; B.A., University of North Carolina-Wilmington, 1987; B.S., 1987; M.S., Georgian Technical University, 1989.

McAvoy, Patrick Charles
Senior Lecturer, ENGR-Dean-Keystone Program; B.S., University of Maryland-College Park, 2003; M.S., 2007; Ph.D., 2008.

McAvoy, Thomas J.
Professor Emeritus, ENGR-Chemical & Biomolecular Engineering; B.A., Polytechnic Institute New York Univ, 1961; M.A., Princeton University, 1963; Ph.D., 1964.

McBride, Alison A
Adjunct Professor, CMNS-Cell Biology & Molecular Genetics; Ph.D., University of London, 1986.

McBryde, Brynne Darby
Visiting Lecturer, UGST-HCOL-University Honors Program; Ph.D., Pennsylvania State University, 2020.

McCabe, Margaret M.
Clinical Professor Emerita, BSOS-Hearing & Speech Sciences; B.S., University of Wisconsin-Madison, 1974; M.S., 1976; Au.D., University of Florida, 2006.

McCann, Samuel Anthony
Lecturer, PLCY-School of Public Policy; B.A., Lake Forest College, 1966; M.A., Syracuse University, 1969.

McCarthy, Daniel Minh
Associate Professor, BMGT-Robert H. Smith School of Business; Associate Professor, BMGT-Marketing; B.S., University of Pennsylvania, 2006; B.O., 2006; Ph.D., 2017.

McCatharn, Jennifer Marie
Visiting Assistant Clinical Professor, EDUC-Counseling, Higher Education and Special Education; B.B.A., Texas A&M University-College Station, 2010; M.Ed., Lesley University, 2012; M.Ed., Harvard University, 2015; Ph.D., University of Maryland-College Park, 2021.

McCauley, John F.
Professor, BSOS-Government & Politics; B.A., College of William & Mary, 1996; M.A., Yale University, 2004; Ph.D., University of California-Los Angeles, 2010.

McClanahan, Pamela Annette
Librarian II, LIBR-Libraries; B.A., Hood College, 2005; M.A./M.L.S., University of Maryland-College Park, 2014.

McClurg, Charles A.
Associate Professor Emeritus, AGNR-Plant Science & Landscape Architecture; B.S., Iowa State University, 1966; M.S., Pennsylvania State University, 1968; Ph.D., 1970.

McCluskey, Francis Patrick
Professor, ENGR-Mechanical Engineering; B.S., Lafayette College, 1984; M.S., Lehigh University, 1986; Ph.D., 1991.

McConico, Nicole
Visiting Lecturer, UGST-HCOL-University Honors Program; D.Pub.Hlth., Johns Hopkins University, 2024.

McConnell, Kenneth E.
Professor Emeritus, AGNR-Agricultural & Resource Economics; B.A., University of Florida, 1964; M.A., 1966; Ph.D., University of Maryland-College Park, 1973.

McCoy, James Richard
Lecturer, BMGT-Decision, Operations & Information Technologies; Lecturer, BMGT-Decision, Operations & Information Technologies; B.A., University of South Carolina-Columbia, 2012; M.A., American University, 2015.

McCoy, Rozalina G.
Adjunct Professor, SPHL-Health Policy and Management; B.A., Harvard University, 2004; M.D., Johns Hopkins University Medical School, 2009; M.S., Mayo Clinic School of Health Sciences, 2015.

McCuen, Richard H.
Professor Emeritus, ENGR-Civil & Environmental Engineering; B.S., Carnegie Mellon University, 1967; M.S., Georgia Institute of Technology, 1970; Ph.D., 1971.

McDaniel, Stephen R.
Associate Professor, SPHL-Kinesiology; Affiliate Associate Professor, ARHU-Communication; B.S., Minnesota State University-Moorhead, 1985; M.A., University of South Florida, 1991; Ph.D., Florida State University, 1995.

McDonald, Celina Nichols
Librarian III, LIBR-Libraries; B.A., Lehigh University, 2000; M.A./M.L.S., University of Michigan-Ann Arbor, 2004.

McDonald, Ronald K
Lecturer, ARCH-Real Estate Development; B.S., United States Naval Academy, 1984.

McDonough, William F.
Professor Emeritus, CMNS-Geology; Visiting Professor, CMNS-Geology; B.A., University of Massachusetts-Boston, 1979; M.S., Sul Ross State University, 1983; Ph.D., Australian National University-Canberra, 1988.

McElrath, Douglas P.
Librarian III, LIBR-Libraries; B.A., Earlham College, 1977; M.L.S., University of Maryland-College Park, 1984; M.A., 1984.

McEnery, Julie E.
Adjunct Professor, CMNS-Physics; B.S., University of Manchester, 1993; Ph.D., University College Dublin, 1997.

McEwen, Abigail
Director, UGST-Dean-Carillon Communities; Associate Professor, ARHU-Art History & Archaeology; B.A., Brown University, 2002; M.A., New York University, 2005; Ph.D., 2010.

McEwen, Marylu K.
Associate Professor Emerita, EDUC-Counseling, Higher Education and Special Education; B.S., Purdue University-West Lafayette, 1968; M.S., Indiana University, 1970; Ph.D., Purdue University-West Lafayette, 1973.

McFarland, Margaret
Clinical Professor Emerita, ARCH-School of Architecture, Planning, & Preservation; B.A., Andrews University, 1971; M.A., University of Chicago, 1974; J.D., University of Michigan-Ann Arbor, 1980.

McFarlane Geisen, Emily
Lecturer, BSOS-Joint Program in Survey Methodology; B.O., Mount Holyoke College, 2002; M.O., University of Michigan-Ann Arbor, 2004.

McGarry, Kevin James
Clinical Professor, BMGT-Logistics, Business & Public Policy; B.S., Florida State University, 2004; M.S., 2005; J.D., St. Thomas University, 2009; M.B.A., University of Florida, 2015.

McGilpin, Colleen
Lecturer, EDUC-Counseling, Higher Education and Special Education; B.A., Gallaudet University, 2018; M.Ed., Boston University, 2021.

McGloin, Jean M
Professor, BSOS-Criminology & Criminal Justice; A.B., Bryn Mawr College, 1999; M.A., Rutgers University, 2001; Ph.D., 2004.

McGregor, Davis J
Assistant Professor, ENGR-Mechanical Engineering; B.S., University of Phoenix, 2017; Ph.D., University of Illinois-Urbana/Champaign, 2022.

McGrew, Sarah
Associate Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., Swarthmore College, 2007; M.A., Stanford University, 2008; Ph.D., 2019.

McHale, Heather Moreland
Director, AGNR-Institute of Applied Agriculture; Principal Lecturer, AGNR-Institute of Applied Agriculture; B.A., Michigan State University, 2001; M.A., University of Maryland-College Park, 2004; Ph.D., 2011.

McIntosh, Marla S.
Professor Emerita, AGNR-Plant Science & Landscape Architecture; B.S., University of Illinois-Urbana/Champaign, 1974; M.S., 1976; Ph.D., 1978.

McIntosh, Wayne V.
Professor Emeritus, BSOS-Government & Politics; B.A., University of South Carolina-Columbia, 1973; M.A., Wichita State University, 1974; Ph.D., Washington University in Saint Louis, 1981.

McIver, Kevin S.
Chair, CMNS-Cell Biology & Molecular Genetics; Professor, CMNS-Cell Biology & Molecular Genetics; B.S., James Madison University, 1985; Ph.D., University of Tennessee, 1994.

McKechnie, Jessica Diaz
Associate Clinical Professor, EDUC-Counseling, Higher Education and Special Education; B.A., University of Maryland-College Park, 2003; M.A., 2007; Ph.D., 2012.

McKee, Jessica
Lecturer, ARHU-School of Music; B.Mus., University of Michigan-Ann Arbor, 2004; M.Mus., University of Maryland-College Park, 2006; D.M.A., 2012.

McKinney, James J
Clinical Professor, BMGT-Accounting; B.S., University of Nevada-Las Vegas, 1981; M.S., Georgetown University, 1990; Ph.D., University of Maryland-College Park, 2002.

McKnight, Monifa Bellinger
Visiting Professor, EDUC-College of Education; B.S., South Carolina State University, 1999; M.S., Bowie State University, 2004; Ed.D., University of Maryland-College Park, 2014.

McLain, Sally
Lecturer, ARHU-School of Music; B.Mus., Indiana University, 1982; M.Mus., 1984.

McLaren, Karen
Principal Lecturer, CMNS-Mathematics; B.S., Wheaton College, 1982; M.A., University of Maryland-College Park, 1985; Ph.D., 2005.

McLaughlin, Amy E.
Lecturer, BSOS-Sociology; B.A., University of California-Irvine, 1991; M.A., University of Maryland-College Park, 1996; Ph.D., 2000.

McLaughlin, Margaret J.
Professor Emerita, EDUC-Counseling, Higher Education and Special Education; B.A., University of Denver, 1968; M.A., University of Northern Colorado, 1971; Ph.D., University of Virginia, 1977.

McLaughlin, Matthew
Senior Lecturer, ARHU-Art; B.F.A., Ringling School of Art & Design, 2007; M.F.A., Arizona State University, 2011.

McLoone, Eugene P.
Professor Emeritus, EDUC-Education Policy and Leadership; B.A., La Salle University, 1951; M.S., University of Denver, 1952; Ph.D., University of Illinois-Urbana/Champaign, 1961.

McMahon, Richard F
Lecturer, BMGT-Finance; B.A., Duquesne University, 1983; M.B.A., Modern School of Music, 1987.

McMillan, Michael George
Associate Clinical Professor, BMGT-Accounting; M.B.A., Stanford University, 1983; Ph.D., George Washington University, 2002.

McMillian, Jeanette Johnson
Lecturer, ENGR-Institute for Systems Research; J.D., Washington University in Saint Louis, 2000.

McNamee, Patrick
Lecturer, BMGT-Accounting; B.S., University of Southern California, 1980; M.S., University of Virginia, 2002.

McReynolds, Leigha High
Lecturer, ENGR-A. James Clark School of Engineering; Lecturer, UGST-HCOL-University Honors Program; Ph.D., George Washington University, 2016.

Medintz, Igor
Adjunct Associate Professor, ENGR-Fischell Department of Bioengineering; B.S., CUNY-John Jay College of Criminal Justice, 1990; M.S., 1993; M.A., CUNY-Queens College, 1996; M.O., CUNY-Graduate School & University Center, 1996; Ph.D., CUNY-Queens College, 1999.

Meeker, Barbara F.
Professor Emerita, BSOS-Sociology; B.A., University of Kansas, 1961; M.A., Stanford University, 1964; Ph.D., 1966.

Mehrtens, Heather A.
Lecturer, EDUC-Dean-Maryland English Institute; B.A., University of Illinois-Urbana/Champaign, 2009; M.A.-Teach., 2012.

Meinzer, Michael Christopher
Assistant Clinical Professor, BSOS-Psychology; B.A., Boston University, 2010; M.S., Florida International University, 2012; Ph.D., 2016.

Meissner, Shelbi Nahwilet
Assistant Professor, ARHU-Women, Gender and Sexuality Studies; B.A., New Mexico State University-Las Cruces, 2014; Ph.D., Michigan State University, 2019.

Mellet, Antoine
Professor, CMNS-Mathematics; B.S., Ecole Normale Superieur de Lyon, 1999; M.S., University of Toulouse III, 1999; Ph.D., 2002.

Melngailis, John
Professor Emeritus, ENGR-Electrical & Computer Engineering; B.S., Carnegie Mellon University, 1960; M.S., 1962; Ph.D., 1965.

Melnick, Karin H.
Visiting Professor, CMNS-Mathematics; B.A., Reed College, 1999; M.S., University of Chicago, 2000; Ph.D., 2006.

Mendelsohn, Julia Elizabeth
Visiting Assistant Professor, INFO-College of Information Studies; Ph.D., University of Michigan-Ann Arbor, 2024.

Meng, Jianghong
Director, AGNR-Nutrition and Food Science; Professor, AGNR-Nutrition and Food Science; D.V.M., Sichuan University, 1983; M.S., University of California-Davis, 1989; Ph.D., 1992.

Menzer, Robert E.
Professor Emeritus, CMNS-Entomology; B.S., University of Pennsylvania, 1960; M.S., University of Maryland-College Park, 1962; Ph.D., University of Wisconsin-Madison, 1964.

Merck, John W Jr.
Principal Lecturer, CMNS-Geology; B.A., Oberlin College, 1977; Ph.D., University of Texas-Austin, 1997.

Merediz, Eyda M
Associate Professor, ARHU-School of Languages, Literatures, and Cultures; Affiliate Associate Professor, ARHU-Dean-Latin American and Caribbean Studies Center; B.A., University of Southern California, 1989; M.A., Princeton University, 1991; Ph.D., 1998.

Mereish, Ethan H.
Associate Professor, BSOS-Psychology; B.S., George Mason University, 2006; M.A., University of Maryland-College Park, 2008; Ph.D., Boston College, 2014.

Mergerson, Christoph
Assistant Professor, JOUR-Philip Merrill College of Journalism; B.A., California State University-Northridge, 2008; M.O., University of Texas-Austin, 2010; Ph.D., Rutgers University, 2022.

Merritt, Cullen C.
Associate Professor, PLCY-School of Public Policy; B.A., Texas A&M University-College Station, 2009; M.P.A., University of Kansas, 2012; Ph.D., 2014.

Messersmith, Donald H.
Professor Emeritus, CMNS-Entomology; B.Ed., University of Toledo, 1951; M.S., University of Michigan-Ann Arbor, 1953; Ph.D., Virginia Polytechnic Institute & State University, 1962.

Messina, Lauren
Lecturer, SPHL-Family Science; B.A., Villanova University, 2005; M.S., University of Maryland-College Park, 2010.

Messing, Jacqueline
Lecturer, BSOS-Anthropology; B.A., University of Massachusetts-Amherst, 1990; M.A., University of Arizona, 1995; Ph.D./J.D., 2003.

Metcalf, Greg
Lecturer, ARHU-Art; Lecturer, ARHU-Art History & Archaeology; B.A., St. Olaf College, 1979; M.F.A., Bowling Green State University, 1985; Ph.D., University of Maryland-College Park, 1993.

Metzler, Christopher Allan
Assistant Professor, CMNS-Computer Science; Assistant Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Assistant Professor, ENGR-Electrical & Computer Engineering; B.S., Rice University, 2013; M.S., 2014; Ph.D., 2019.

Meyer, Paul A.
Associate Professor Emeritus, BSOS-Economics; B.A., Johns Hopkins University, 1961; Ph.D., Stanford University, 1966.

Meyssami, Behrouz
Lecturer, AGNR-Nutrition and Food Science; B.S., University of Maryland-College Park, 1984; Ph.D., University of Florida, 1992; M.S., University of Maryland-College Park, 1997.

Micallef, Shirley
Professor, AGNR-Plant Science & Landscape Architecture; B.S., University of Malta, 1991; M.S., 1996; Ph.D., University of Massachusetts-Boston, 2008.

Michel, Sonya Alice
Professor Emerita, ARHU-History; B.A., Barnard College, 1964; M.A., San Francisco State University, 1975; Ph.D., Brown University, 1986.

Michelato, Barbara
Lecturer, CMNS-Mathematics; M.S., University of Trieste, 2004; B.S., 2004; Ph.D., 2007.

Midgette, Greg
Associate Professor, BSOS-Criminology & Criminal Justice; B.S., University of Connecticut-all campuses, 2004; M.P.P., University of California-Los Angeles, 2009; Ph.D., Rand Graduate School of Policy Studies, 2014.

Miers, Ian
Assistant Professor, CMNS-Computer Science; Assistant Professor, CMNS-Institute for Advanced Computer Studies; B.S., Johns Hopkins University, 2010; Ph.D., 2017.

Migdall, Alan L.
Adjunct Professor, CMNS-Physics; B.S., University of Maryland-College Park, 1978; Ph.D., Massachusetts Institute of Technology, 1984.

Mignerey, Alice C.
Professor, CMNS-Chemistry & Biochemistry; 1988-1989 Distinguished Scholar-Teacher. B.S., University of Rochester, 1971; M.S., 1973; Ph.D., 1975.

Milchberg, Howard M.
Distinguished University Professor, ENGR-Electrical & Computer Engineering; Distinguished University Professor, CMNS-Institute for Research in Electronics & Applied Physics; Distinguished University Professor, CMNS-Physics; 2005-2006 Distinguished Scholar-Teacher. B.E., McMaster University-Hamilton, 1979; Ph.D., Princeton University, 1985.

Miler, Kristina
Associate Professor, BSOS-Government & Politics; B.A., College of William & Mary, 1996; Ph.D., University of Michigan-Ann Arbor, 2003.

Miles, David Scott
Lecturer, ARHU-English; B.A., Georgia State University/Perimeter College, 2012; M.F.A., Indiana University, 2015.

Milgram, Judah Henry
Lecturer, ENGR-Aerospace Engineering; B.S., Massachusetts Institute of Technology, 1979; Ph.D., University of Maryland-College Park, 1997.

Milke, James A.
Professor Emeritus, ENGR-Fire Protection Engineering; B.S., Ursinus College, 1974; B.S., University of Maryland-College Park, 1976; M.S., 1981; Ph.D., 1991.

Milkie, Melissa A.
Professor Emerita, BSOS-Sociology; B.A., Indiana University, 1987; M.A., 1990; Ph.D., 1995.

Miller, Alexander Williams
Lecturer, ARHU-School of Theatre, Dance & Performance Studies; B.F.A., Carnegie Mellon University, 2012; M.A., University of California-Santa Cruz, 2014.

Miller, Carl Alexander
Adjunct Associate Professor, CMNS-Institute for Advanced Computer Studies; Adjunct Associate Professor, CMNS-Computer Science; B.S., Duke University, 2001; Ph.D., University of California-Berkeley, 2007.

Miller, Gregory E.
Professor, ARHU-School of Music; B.Mus., Oberlin College, 1990.

Miller, Jeff
Senior Lecturer, BMGT-Logistics, Business & Public Policy; B.A., University of Maryland-College Park, 1991.

Miller, Mary R.
Professor Emerita, ARHU-English; B.A., University of Iowa, 1941; M.A., University of Denver, 1959; Ph.D., Georgetown University, 1969.

Miller, Matthew Thomas
Assistant Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., Washington University in Saint Louis, 2007; M.A., 2009; Ph.D., 2016.

Miller, Michael Coleman
Professor, CMNS-Astronomy; B.S., Hillsdale College, 1984; M.S., California Institute of Technology, 1986; Ph.D., 1990.

Miller, Raymond J.
Professor Emeritus, AGNR-Environmental Science & Technology; B.S., University of Alberta-Edmonton, 1957; M.S., Washington State University, 1960; Ph.D., Purdue University-West Lafayette, 1962.

Miller, Ross Herbert
Associate Professor, SPHL-Kinesiology; B.S., Iowa State University, 2003; M.S., 2005; M.S., 2006; Ph.D., University of Massachusetts-Amherst, 2011.

Miller, Stevens R
Lecturer, CMNS-Computer Science; B.A., Amherst College, 1980; M.S., Stevens Institute of Technology, 1988.

Miller, Thomas J.
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; B.S., University of York, 1981; M.S., North Carolina State University, 1984; Ph.D., 1990.

Mills, Quincy
Associate Dean, ARHU-College of Arts & Humanities; Associate Professor, ARHU-History; B.S., University of Illinois-Urbana/Champaign, 1997; M.A., University of Chicago, 1999; M.B.A., DePaul University, 2004; Ph.D., University of Chicago, 2006.

Millson, John J.
Professor Emeritus, CMNS-Mathematics; B.S., Massachusetts Institute of Technology, 1968; Ph.D., University of California-Berkeley, 1973.

Milton, Donald K.
Distinguished University Professor, SPHL-Global, Environmental, and Occupational Health; B.A., University of Maryland-Baltimore County, 1976; M.D., Johns Hopkins University, 1980; M.O., Harvard University, 1985; D.Pub.Hlth., 1989.

Milton, Jeffrey J
Associate Clinical Professor, BMGT-Accounting; B.A., Michigan State University, 1968; J.D., American University, 1971; L.L.M., Georgetown University, 1975.

Mintz, Lawrence E.
Associate Professor Emeritus, ARHU-American Studies; B.A., University of South Carolina-Columbia, 1966; M.A., Michigan State University, 1967; Ph.D., 1969.

Mirabal, Nancy Raquel
Associate Professor, ARHU-American Studies; B.A., University of California-Berkeley, 1988; M.A., University of Michigan-Ann Arbor, 1991; Ph.D., 2001.

Miralles-Wilhelm, Fernando R.
Adjunct Professor, CMNS-Earth System Science Interdisciplinary Center; Visiting Professor, CMNS-Atmospheric & Oceanic Science; B.O., Universidad de Simon Bolivar-Caracas, 1987; M.S., University of California-Irvine, 1989; Ph.D., Massachusetts Institute of Technology, 1992.

Mislevy, Robert J.
Professor Emeritus, EDUC-Human Development and Quantitative Methodology; B.S., Northern Illinois University, 1972; M.S., 1974; Ph.D., University of Chicago, 1981.

Mitchell, Alice A
Lecturer, EDUC-Counseling, Higher Education and Special Education; B.Mus., Heidelberg University, 1978; M.A., Bowling Green State University, 1982; Ph.D., University of Maryland-College Park, 1997.

Mitchell, Emily Brandchaft
Associate Professor, ARHU-English; B.A., Middlebury College, 1997; M.F.A., Brooklyn College, 2005.

Mitchell, Steven Edward
Senior Lecturer, ENGR-Mechanical Engineering; B.S., University of Maryland-College Park, 2005; Ph.D., University of Colorado-Boulder, 2014.

Mitchell, Tania D.
Associate Provost, SVPAAP-Office of the Senior Vice President & Provost; Professor, EDUC-Counseling, Higher Education and Special Education; B.A., Baylor University, 1995; M.S., University of Massachusetts-Amherst, 2002; Ed.D., 2005.

Mitchelmore, Carys Louise
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., University of Birmingham, 1997.

Mittal, Mona
Associate Professor, SPHL-Family Science; M.S.W., Tata Institute of Fundamental Research, 1998; Ph.D., Texas Tech University, 2002.

Mitter, Charles
Professor Emeritus, CMNS-Entomology; B.S., Stanford University, 1970; Ph.D., SUNY-Stony Brook, 1977.

Mix, Kelly S.
Associate Dean, EDUC-College of Education; Professor, EDUC-Human Development and Quantitative Methodology; B.A., Western Michigan University, 1987; M.A., University of Chicago, 1993; Ph.D., 1995.

Miyoshi, Takemasa
Visiting Professor, CMNS-Atmospheric & Oceanic Science; B.S., Kyoto University, 2000; M.S., University of Maryland-College Park, 2004; Ph.D., 2005.

Mo, Yifei
Professor, ENGR-Materials Science & Engineering; Affiliate Professor, CMNS-Physics; B.S., Peking University, 2005; Ph.D., University of Wisconsin-Madison, 2010.

Moaddel, Mansoor
Professor, BSOS-Sociology; B.A., Pahlavi University-Shiraz, 1976; M.A., Western Michigan University, 1979; Ph.D., University of Wisconsin-Madison, 1986.

Moctezuma, Edgar
Senior Lecturer, CMNS-Cell Biology & Molecular Genetics; B.S., University of California-Irvine, 1991; Ph.D., University of California-Berkeley, 1998.

Modaresnezhad, Minoo
Associate Clinical Professor, BMGT-Decision, Operations & Information Technologies; B.S., Ferdowsi University of Masshad, 2007; M.S., 2011; Ph.D., University of North Carolina-Greensboro, 2017.

Modarres, Mohammad
Professor, ENGR-Mechanical Engineering; 1994-1995 Distinguished Scholar-Teacher. B.S., Tehran Polytechnic, 1974; M.S., Massachusetts Institute of Technology, 1976; Ph.D., 1979.

Modica, Frank
Visiting Lecturer, ENGR-Fischell Department of Bioengineering; B.S., Massachusetts Institute of Technology, 1988.

Moe, Wendy W.
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Marketing; B.S., University of Pennsylvania, 1992; M.B.A., Georgetown University, 1996; M.S., University of Pennsylvania, 1999; Ph.D., 2000.

Moeller, Susan D.
Professor, JOUR-Philip Merrill College of Journalism; B.A., Yale University, 1979; M.A., Harvard University, 1985; Ph.D., 1987.

Moghadam, Linda L.
Principal Lecturer Emerita, BSOS-Sociology; B.A., University of Maryland-College Park, 1976; M.A., 1981; Ph.D., 1989.

Mogul, Nicole F
Senior Lecturer, ENGR-Electrical & Computer Engineering; Senior Lecturer, ENGR-A. James Clark School of Engineering; B.A., Colby College, 1992; M.S., Rensselaer Polytechnic Institute, 1997; Ph.D., 2002.

Mohan, Swarna
Senior Lecturer, CMNS-Cell Biology & Molecular Genetics; B.S., University of Pittsburgh, 2006; Ph.D., 2012.

Mohanty, Sashi B.
Professor Emeritus, AGNR-Veterinary Medicine Program; B.O., University of Bihar, 1956; M.S., University of Maryland-College Park, 1961; Ph.D., 1963.

Mohapatra, Rabindra N.
Distinguished University Professor Emeritus, CMNS-Physics; Distinguished Faculty Research Fellow; 2001-2002 Distinguished Scholar-Teacher. B.S., Utkal University, 1964; M.S., University of Delhi, 1966; Ph.D., University of Rochester, 1969.

Mohr, Jonathan J.
Associate Professor, BSOS-Psychology; B.A., University of California-Santa Cruz, 1988; M.A., California State University-East Bay, 1995; Ph.D., University of Maryland-College Park, 2001.

Mokhtari, Manouchehr
Associate Chair, SPHL-Family Science; Professor, SPHL-Family Science; B.S., University of Tehran, 1977; M.A., University of Houston, 1984; Ph.D., 1986.

Molina, Maria Janeth
Assistant Professor, CMNS-Atmospheric & Oceanic Science; Affiliate Assistant Professor, CMNS-Institute for Advanced Computer Studies; B.S., Florida State University, 2005; M.A., Columbia University, 2015; Ph.D., Central Michigan University, 2019.

Molinari, Sara
Assistant Professor, ENGR-Fischell Department of Bioengineering; Affiliate Assistant Professor, ENGR-Chemical & Biomolecular Engineering; B.S., Universita degli Studi di Perugia, 2011; M.S., Universita Degli Studi Di Milano Bicocca, 2013; Ph.D., Rice University, 2019.

Moller, Dan
Professor, ARHU-Philosophy; B.A., Vassar College, 1998; M.A., University of Oxford, 2000; Ph.D., Princeton University, 2005.

Molloy, Dawn Eddy
Lecturer, EDUC-Dean-Outreach; B.S., University of Maryland-College Park, 1987; M.Ed., 1990; Ph.D., 1996.

Molloy, Erin
Assistant Professor, CMNS-Computer Science; Assistant Professor, CMNS-Institute for Advanced Computer Studies; B.A., University of Chicago, 2011; Ph.D., University of Illinois-Urbana/Champaign, 2020.

Moncrieffe, Michelle V.
Lecturer, ARHU-English; B.A., University of Wolverhampton, 1993; M.A., University of Iowa, 2003.

Monfaredi, Reza
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.S., Amirkabir University of Technology, 2003; M.S., 2006; Ph.D., 2011.

Monroe, Christopher
College Park Professor, CMNS-Physics; B.O., Massachusetts Institute of Technology, 1987; Ph.D., University of Colorado-Denver, 1992.

Monroe, Hunter Kelly
Lecturer, BSOS-Economics; B.S., Davidson College, 1984; M.A., University of Oxford, 1987; Ph.D., 1994.

Mont, Eusebia Victoria
Associate Clinical Professor, BSOS-Hearing & Speech Sciences; B.A., Hampton University, 2000; M.S., California State University-Northridge, 2004.

Montague-Smith, Michael P
Principal Lecturer Emeritus, CMNS-Chemistry & Biochemistry; B.A., University of Colorado-Boulder, 1989; M.S., University of Oregon, 1994; Ph.D., 1994.

Montatsky, Boris
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.S., Northern Illinois University, 2002; M.S., DePaul University, 2006; M.S., National Defense University, 2022.

Montelongo Valencia, Ofelia
Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., Tecnologico de Monterrey, 2004; M.B.A., CEU Escuela de Negocios, 2007; B.A., Arizona State University, 2016; M.A., University of Maryland-College Park, 2020.

Montesi, Laurent G.J.
Professor, CMNS-Geology; B.S., Pierre & Marie Curie University, 1994; M.S., Universite de Paris XI, 1996; Ph.D., Cambridge College, 2002.

Montgomery, Fielding Edmund
Lecturer, ARHU-Communication; B.A., Baylor University, 2017; M.A., 2019.

Montroso, Alan
Lecturer, ARHU-English; B.A., Cleveland State University, 2007; M.L.S., Kent State University-all campuses, 2009; Ph.D., George Washington University, 2019.

Moody, Erin Elizabeth
Senior Lecturer, BSOS-Economics; B.A., Miami University, 2007; B.S., 2007; M.A., University of Maryland-College Park, 2010; Ph.D., 2013.

Moon, Kee-Young
Librarian II, LIBR-Libraries; M.L.S., University of Maryland-College Park, 2002.

Moon, Martha Sherril
Professor Emerita, EDUC-Counseling, Higher Education and Special Education; B.A., Randolph College, 1974; M.Ed., James Madison University, 1976; Ed.D., University of Virginia, 1983.

Mooney, Joan H
Lecturer, ARHU-English; B.A., Vassar College, 1977.

Mooney, Kate Elizabeth
Assistant Professor, ARHU-Linguistics; B.A., University of Chicago, 2017; Ph.D., New York University, 2023.

Moore, Candace Maddox
Associate Clinical Professor, EDUC-Counseling, Higher Education and Special Education; B.A., University of Georgia, 2002; M.Ed., 2004; Ph.D., 2011.

Moore, Dani Rhielle
Lecturer, AGNR-College of Agriculture & Natural Resources; B.A., Swarthmore College, 2006; Ph.D., Arizona State University, 2012.

Moore, Erika
Assistant Professor, ENGR-Fischell Department of Bioengineering; B.S., Johns Hopkins University, 2013; M.S., Duke University, 2015; Ph.D., 2018.

Moore, John R.
Professor Emeritus, AGNR-Agricultural & Resource Economics; B.S., Ohio State University, 1951; M.S., Cornell University, 1955; Ph.D., University of Wisconsin-Madison, 1959.

Moore, Marcus Joel
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., Bowie State University, 2004.

Moore, Sarah C.K.
Assistant Clinical Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., Guilford College, 2000; M.Ed., Arizona State University, 2003; Ph.D., 2008.

Moore-Pewu, Jamila
Assistant Professor, ARHU-American Studies; B.A., Tufts University, 2003; Ph.D., University of California-Davis, 2014.

Moosavi, Marjan
Assistant Clinical Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., Shahid Bahonar University of Kerman, 2002; M.A., University of Tehran, 2005; M.A., York University, 2013; Ph.D., University of Toronto, 2020.

Morabito, Jessica
Lecturer, BSOS-Criminology & Criminal Justice; B.A., University of Maryland-College Park, 2015; M.A., 2017.

Morawski, Maksym Meeker
Lecturer, CMNS-Computer Science; B.S., University of Maryland-Baltimore County, 2010; M.S., 2013.

Morgan, Amy A
Assistant Professor, SPHL-Family Science; B.A., University of New Hampshire, 2010; M.S., 2012; Ph.D., Virginia Polytechnic Institute & State University, 2020.

Mori, Ryo
Assistant Professor, CMNS-Physics; B.S., Keio University, 2012; Ph.D., University of California-Berkeley, 2021.

Morici, Peter G.
Professor Emeritus, BMGT-Robert H. Smith School of Business; B.S., SUNY-College at Plattsburgh, 1970; M.A., 1971; Ph.D., SUNY-Albany, 1974.

Moro, Jeffrey
Assistant Clinical Professor, ARHU-MD Institute for Technology in the Humanities; B.A., Amherst College, 2013; B.A., 2013; Ph.D., University of Maryland-College Park, 2022.

Morris, Christopher Warren
Professor Emeritus, ARHU-Philosophy; B.A., Vassar College, 1971; M.A., University of Toronto, 1974; Ph.D., 1977.

Morse, Brandon
Chair, ARHU-Art; Associate Professor, ARHU-Art; B.F.A., University of Wisconsin-Stevens Point, 1997; M.F.A., Ohio State University, 2000.

Mosely, Erin
Assistant Professor, ARHU-History; B.A., Northwestern University, 2003; M.S., London School of Economics & Political Science, 2006; M.A., Harvard University, 2012; Ph.D., 2016.

Moser, Thomas Colborn Jr.
Associate Professor, ARHU-English; B.A., Harvard University, 1977; M.A., Yale University, 1979; Ph.D., Stanford University, 1987.

Moser-Veillon, Phylis B.
Professor Emerita, AGNR-Nutrition and Food Science; B.S., University of Maryland-College Park, 1969; M.S., 1973; Ph.D., 1976.

Moses, Claire G.
Professor Emerita, ARHU-Women, Gender and Sexuality Studies; A.B., Smith College, 1963; M.Phil., George Washington University, 1972; Ph.D., 1978.

Moses, Jay
Lecturer, BSOS-Center for Substance Use, Addiction & Health Research; B.A., Azusa Pacific University, 1994; M.O., Fuller Theological Seminary, 2000; M.O., Chicago Theological Seminary, 2013.

Moses, Phillip Scott
Principal Lecturer, ARHU-English; B.A., Southern Methodist University, 2003; M.A., Boston College, 2005; M.S., London School of Economics & Political Science, 2006.

Mosleh, Ali
Professor Emeritus, ENGR-Mechanical Engineering; B.S., Other, 1975; M.S., University of California-Los Angeles, 1978; Ph.D., 1981.

Mosley, Will
Assistant Professor, ARHU-Women, Gender and Sexuality Studies; B.A., Amherst College, 2012; M.A., University of Texas-Austin, 2015; Ph.D., 2019.

Moss, Alfred A. Jr.
Associate Professor Emeritus, ARHU-History; B.A., Lake Forest College, 1965; M.A., University of Chicago, 1972; M.O., Episcopal Divinity School-Cambridge, 1968; Ph.D., University of Chicago, 1977.

Moss, Bernard
Adjunct Professor, CMNS-Cell Biology & Molecular Genetics; B.A., New York University, 1957; M.D., 1961; Ph.D., Massachusetts Institute of Technology, 1967.

Moss, Cynthia F.
Professor Emerita, BSOS-Psychology; B.S., University of Massachusetts-Amherst, 1979; Ph.D., Brown University, 1986.

Moss, Michael
Lecturer, CMNS-Astronomy; B.S., University of Maryland-College Park, 2017; M.Phys., George Washington University, 2020; Ph.D., 2023.

Moss, Robert E
Lecturer, CMNS-College of Computer, Math & Natural Sciences; B.S., University of Pennsylvania, 1980; Ph.D., Harvard University, 1985; B.S., University of Pennsylvania, 1980; Ph.D., Harvard University, 1985.

Mosser, David M.
Professor, CMNS-Cell Biology & Molecular Genetics; B.S., University of Bridgeport, 1973; M.S., 1975; Ph.D., North Carolina State University, 1983.

Mossman, Carol A.
Professor Emerita, ARHU-School of Languages, Literatures, and Cultures; B.A., University of New Mexico-Albuquerque, 1975; M.A., Rice University, 1979; Ph.D., 1982.

Mote, C D. Jr.
Professor Emeritus, ENGR-Mechanical Engineering; B.S., University of California-Berkeley, 1959; M.S., 1960; Ph.D., 1963.

Mote, Safa
Visiting Assistant Professor, CMNS-Atmospheric & Oceanic Science; B.E., Sharif University of Technology, 2005; B.S., 2005; M.S., University of Maryland-College Park, 2008; M.S., 2009; Ph.D., 2014; Ph.D., 2018.

Moten, Victoria Merriweather
Lecturer, ARHU-English; B.A., Clark Atlanta University, 2006; M.A., 2009.

Motwani, Bharti
Associate Clinical Professor, BMGT-Decision, Operations & Information Technologies; B.S., Devi Ahilya Vishwavidyalaya, 1995; M.B.A., 1997; Ph.D., 2016.

Moult, John
Professor, CMNS-Cell Biology & Molecular Genetics; Professor, CMNS-IBBR; Professor, CMNS-IBBR; B.S., University of London, 1965; Ph.D., University of Oxford, 1970.

Mount, David
Professor, CMNS-Computer Science; Professor, CMNS-Institute for Advanced Computer Studies; B.S., Purdue University-West Lafayette, 1977; Ph.D., 1983.

Mount, Stephen M.
Associate Professor, CMNS-Cell Biology & Molecular Genetics; B.A., Rice University, 1978; Ph.D., Yale University, 1983.

Mower, Ronald Lee
Senior Lecturer, SPHL-Kinesiology; B.S., University of Maryland-College Park, 2006; M.S., University of Memphis, 2008; Ph.D., University of Maryland-College Park, 2014.

Mowrer, Frederick W.
Associate Professor Emeritus, ENGR-Fire Protection Engineering; B.S., Illinois Institute of Technology, 1976; M.S., University of California-Berkeley, 1981; Ph.D., 1987.

Moye, Chantay Parks
Lecturer, ARHU-Communication; B.S., East Carolina University, 1998; M.S., University of Maryland-Global Campus, 2011.

Moye, Neta Arlene
Clinical Professor, BMGT-Management & Organization; B.S., Florida State University, 1987; M.A., University of Illinois-Urbana/Champaign, 1988; Ph.D., University of Maryland-College Park, 2001.

Moyer, Alene
Professor Emerita, ARHU-School of Languages, Literatures, and Cultures; B.O., University of Texas-Austin, 1983; M.A., 1989; Ph.D., 1995.

Mueller, Collin W
Assistant Professor, BSOS-Sociology; B.A., Rice University, 2009; M.A., Duke University, 2015; Ph.D., 2017.

Mueller, Jenna L.
Assistant Professor, ENGR-Fischell Department of Bioengineering; B.S., Rice University, 2009; M.S., Duke University, 2013; Ph.D., 2015.

Muir, Suzanne Mimi
Lecturer, EDUC-Human Development and Quantitative Methodology; B.A., Vanderbilt University, 1989; M.A., George Washington University, 1990; Ed.D., 1998.

Mukhina, Maria
Assistant Professor, CMNS-Physics; Assistant Professor, CMNS-Institute for Physical Science & Technology; B.E., Other, 2008; M.Eng., 2010; Ph.D., 2013.

Mulchi, Charles L.
Professor Emeritus, AGNR-Plant Science & Landscape Architecture; B.S., North Carolina State University, 1964; M.S., 1967; Ph.D., 1970.

Mulholland, George William
Visiting Professor, ENGR-Chemical & Biomolecular Engineering; B.S., Case Western Reserve University, 1965; M.S., Wichita State University, 1969; Ph.D., Cornell University, 1973.

Mullin, Amy S.
Professor, CMNS-Chemistry & Biochemistry; B.A., University of California-Santa Cruz, 1985; Ph.D., University of Colorado-Boulder, 1991.

Mullinax, Jennifer M.
Associate Professor, AGNR-Environmental Science & Technology; B.S., Clemson University, 1998; M.S., University of Tennessee-Knoxville, 2001; Ph.D., University of Tennessee, 2007.

Mumm, Hans Pieter
Adjunct Associate Professor, CMNS-Physics; B.A., University of California-Berkeley, 1995; M.A., University of Washington-Seattle, 1998; Ph.D., 2004.

Muncy, Robyn Leigh
Professor, ARHU-History; Affiliate Professor, ARHU-Women, Gender and Sexuality Studies; Affiliate Professor, ARHU-American Studies; 2025-2026 Distinguished Scholar-Teacher. B.A., Lindenwood University, 1977; M.A., University of Idaho, 1980; Ph.D., Northwestern University, 1987.

Mund, Jeffrey Charles
Professor of the Practice, BMGT-Logistics, Business & Public Policy; B.S., United States Naval Academy, 2002; M.B.A., University of Pennsylvania, 2016.

Mundy, Lee G.
Director, CMNS-Astronomy; Professor, CMNS-Astronomy; B.S., California Institute of Technology, 1977; Ph.D., University of Texas-Austin, 1984.

Mundy, William Zachariah
Lecturer, BSOS-Government & Politics; B.A., University of Maryland-College Park, 2007; J.D., University of California-Los Angeles, 2012.

Munno, Frank J.
Professor Emeritus, ENGR-Materials Science & Engineering; B.S., Waynesburg University, 1957; M.S., University of Florida, 1962; Ph.D., 1964.

Munoz, Kimberli Dawn
Lecturer, ARHU-Communication; B.S., Excelsior University, 2013; M.P.S., University of Maryland-College Park, 2023.

Munoz, Trevor
Librarian III, ARHU-MD Institute for Technology in the Humanities; B.A., Harvard University, 2005; M.A., King's College-London, 2010; M.A./M.L.S., University of Illinois-Urbana/Champaign, 2011.

Muravchik, Madeline
Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.F.A., New York University, 1997; M.A., George Mason University, 2012.

Murdock, Katherine H.
Professor Emerita, ARHU-School of Music; B.Mus., Boston University, 1977.

Muresanu, Irina
Professor, ARHU-School of Music; Affiliate Professor, CMNS-Institute for Advanced Computer Studies; B.Mus., Music University, 1994; M.Mus., University of Illinois-Urbana/Champaign, 1996; D.M.A., New England Conservatory of Music, 2009.

Muro, Silvia
Adjunct Professor, ENGR-Chemical & Biomolecular Engineering; B.S., Universidad de Granada, 1995; Ph.D., Universidad Autonoma de Madrid, 1999.

Murphy, Angus Stuart
Professor Emeritus, AGNR-Plant Science & Landscape Architecture; B.A., University of California-Santa Cruz, 1993; Ph.D., 1996.

Murphy, Christine
Lecturer, ARHU-School of Music; B.A., Juilliard School of Music, 2016; M.Mus., Rice University, 2019.

Murphy, Thomas E.
Associate Chair, ENGR-Electrical & Computer Engineering; Professor, ENGR-Electrical & Computer Engineering; Professor, CMNS-Institute for Research in Electronics & Applied Physics; Affiliate Professor, CMNS-Physics; 2020-2021 Distinguished Scholar-Teacher. B.S., Rice University, 1994; B.A., 1994; M.S., Massachusetts Institute of Technology, 1997; Ph.D., 2001.

Murray, Colleen Marie
Lecturer, ENGR-Aerospace Engineering; B.Mech.E., University of Delaware, 2019; M.S., 2020.

Murrell, Peter
Professor, BSOS-Economics; B.S., London School of Economics & Political Science, 1971; M.S., 1972; Ph.D., University of Pennsylvania, 1977.

Murtugudde, Raghu Gopalrao
Professor Emeritus, CMNS-Atmospheric & Oceanic Science; B.S., Indian Institute of Technology, 1983; M.S., University of Texas-Arlington, 1986; Ph.D., Columbia University, 1994.

Mushotzky, Richard
Professor, CMNS-Astronomy; B.S., Massachusetts Institute of Technology, 1968; M.S., University of California-San Diego, 1971; Ph.D., 1976.

Mussenden, Sean L
Principal Lecturer, JOUR-Philip Merrill College of Journalism; B.A., St. Mary's College of Maryland, 1999; M.A., University of Maryland-College Park, 2000.

Mussington, David A
Professor of the Practice, PLCY-School of Public Policy; B.A., University of Toronto, 1984; M.A., 1985; Ph.D., Carleton University-Ottawa, 1994.

Mutz, Jessie
Lecturer, CMNS-Entomology; Ph.D., Florida State University, 2020.

Myers, David N.
Associate Professor, AGNR-Plant Science & Landscape Architecture; B.S., Clemson University, 1978; M.L.Arch., University of Georgia, 1984; Ph.D., 1994.

Myers, James C.
Lecturer, ENGR-Civil & Environmental Engineering; B.S., University of Maryland-College Park, 1990.

Myers, Jennifer Rae
Assistant Professor, BSOS-Hearing & Speech Sciences; B.S., Bowling Green State University, 2008; M.S., Howard University, 2011; Ph.D., 2017.

Myers, Lucas Frederick
Lecturer, ENGR-Mechanical Engineering; B.S., University of Maryland-College Park, 2017.

Myricks, Noel
Associate Professor Emeritus, SPHL-Family Science; B.A., San Francisco State University, 1965; M.S., 1967; Ed.D., American University, 1974; J.D., Howard University, 1970.

N

Nagle, Thomas J
Lecturer, SPHL-Kinesiology; B.S., University of Maryland-College Park, 2002; M.S., University of Maryland-Global Campus, 2011.

Naharro-Calderon, Jose M.
Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., Allegheny College, 1974; M.A., University of Pennsylvania, 1977; Ph.D., 1985.

Nakalembe, Catherine Lilian
Assistant Professor, BSOS-Geography; B.S., Makerere University, 2007; M.S., Johns Hopkins University, 2009; Ph.D., University of Maryland-College Park, 2017.

Nam, Yunseong
Adjunct Assistant Professor, CMNS-Physics; B.A., Wesleyan University, 2012; Ph.D., 2016.

Namkoong, Kang
Associate Professor, ARHU-Communication; B.A., Korea University-Seoul, 1992; M.A., 2005; Ph.D., University of Wisconsin-Madison, 2011.

Nan, Xiaoli
Professor, ARHU-Communication; 2020-2021 Distinguished Scholar-Teacher. B.A., Beijing Normal University, 2000; M.A., University of Minnesota-Twin Cities, 2003; Ph.D., 2005.

Napp-Avelli, Carolina
Associate Clinical Professor, EDUC-Teaching and Learning, Policy and Leadership; M.A., Universidad de Buenos Aires, 2002; Ph.D., University of Maryland-College Park, 2014.

Narayan, Prakash
Professor, ENGR-Electrical & Computer Engineering; Professor, ENGR-Institute for Systems Research; B.E., Indian Institute of Technology-Madras, 1976; M.S., Washington University in Saint Louis, 1978; Ph.D., 1981.

Narayanaswamy, Narayanaswamy S
Visiting Professor, CMNS-Computer Science; B.S., University of Madras, 1989; M.Eng., Indian Institute of Science Education & Research Kolkata, 1993; Ph.D., 2001.

Nardin, William
Visiting Associate Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., Universita degli studi di Roma La Sapienza, 2013.

Narvaez, Alfonso
Lecturer, ARCH-Historic Preservation Program; B.S., Cornell University, 1984; M.S., Columbia University, 1993.

Nash, Ariana N
Lecturer, ARHU-English; B.A., Swarthmore College, 2006; M.F.A., University of North Carolina-Wilmington, 2011; M.A., University of Chicago, 2013.

Nash, Philip Tajitsu
Adjunct Assistant Professor, UGST-Asian American Studies Program; B.A., New York University, 1978; J.D., Rutgers University, 1982.

Nathans, Lisa E
Associate Professor, ARHU-School of Theatre, Dance & Performance Studies; B.F.A., Boston University, 2008; M.F.A., University of London, 2015.

Nau, Dana S.
Professor Emeritus, CMNS-Computer Science; B.S., Missouri University of Science & Technology, 1974; M.A., Duke University, 1976; Ph.D., 1979.

Navarro Cebrian, Ana
Lecturer, BSOS-Psychology; B.S., Universidad Complutense de Madrid, 2003; M.S., 2005; Ph.D., Universidad de Granada, 2010.

Ndumu, Ana
Assistant Professor, INFO-College of Information Studies; B.A., University of Florida, 2004; M.L.S., Florida State University, 2007; Ph.D., 2018.

Neal, Jason David
Lecturer, ARCH-Architecture Program; B.S., Islamic Azad University, 2005; M.S., Semnan University Science and Technology Park, 2010; Ph.D., Missouri University of Science & Technology, 2015.

Needelman, Brian A.
Associate Professor, AGNR-Environmental Science & Technology; B.I.S., School for International Training, 1993; M.S., University of Illinois-Urbana/Champaign, 1997; Ph.D., Pennsylvania State University, 2002.

Neel, Maile C
Professor, AGNR-Plant Science & Landscape Architecture; Professor, CMNS-Entomology; B.S., Humboldt State University, 1985; M.A., University of California-Santa Barbara, 1994; Ph.D., University of California-Riverside, 2000.

Neelakandan, Harish
Lecturer, BMGT-Decision, Operations & Information Technologies; Lecturer, BMGT-Decision, Operations & Information Technologies; Lecturer, BMGT-Decision, Operations & Information Technologies; M.S., Massachusetts Institute of Technology, 1994.

Neely, David
Professor, ARHU-School of Music; B.Mus., Indiana University, 1986; M.Mus., 1988.

Neer, Emily Mikayla
Lecturer, EDUC-Human Development and Quantitative Methodology; Ph.D./J.D., University of California-Los Angeles, 2024; Psy.D., 2024.

Negahban-Azar, Masoud
Associate Professor, AGNR-Environmental Science & Technology; B.S., Islamic Azad University, 2003; M.S., University of Tehran, 2007; Ph.D., Colorado State University-Fort Collins, 2012.

Nelson, Anna Rose
Lecturer, ARHU-School of Music; B.Mus., St. Olaf College, 2012; M.A., University of Minnesota-Twin Cities, 2015.

Nelson, Daniel C
Professor, AGNR-Veterinary Medicine Program; Professor, CMNS-IBBR; Professor, CMNS-IBBR; B.S., University of California-Irvine, 1993; Ph.D., University of Georgia, 1999; M.B.A., CUNY-Bernard M. Baruch College, 2003.

Nelson, David Matthew
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., University of Illinois-Urbana/Champaign, 2005.

Nelson, Deborah J.
Professor, JOUR-Philip Merrill College of Journalism; B.S., Northern Illinois University, 1975; J.D., DePaul University, 1987.

Nelson, Judd O.
Associate Professor Emeritus, CMNS-Entomology; B.S., University of Wisconsin-Madison, 1969; M.S., 1972; Ph.D., 1974.

Nelson, Kevin M
Lecturer, ARCH-Urban Studies & Planning Program; B.A., University of Notre Dame, 1993; M.A., University of Illinois-Urbana/Champaign, 1995.

Nelson, Patrick R.
Lecturer, ARHU-English; B.A., University of Maryland-College Park, 1991; M.Ed., University of South Carolina-Columbia, 1993.

Nemes, Peter
Professor, CMNS-Chemistry & Biochemistry; M.S., Eotvos Lorand University, 2004; Ph.D., George Washington University, 2009.

Nenkova, Ani
Adjunct Professor, CMNS-Computer Science; Ph.D., Columbia University, 2007.

Nepaul, Anumeet
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.S., University of Maryland-College Park, 2015; B.S., 2015.

Neri, Umberto
Professor Emeritus, CMNS-Mathematics; B.S., University of Chicago, 1961; M.S., 1962; Ph.D., 1966.

Neubert, Debra Ann
Professor Emerita, EDUC-Counseling, Higher Education and Special Education; B.S., University of Wisconsin-Madison, 1976; M.Ed., University of Maryland-College Park, 1981; Ph.D., 1985.

Neufeld, David A.
Adjunct Professor, CMNS-Astronomy; B.A., University of Cambridge, 1981; M.S., University of Sussex-Falmer, 1983; Ph.D., Harvard University, 1987.

Neuman, M Delia
Associate Professor Emerita, INFO-College of Information Studies; B.A., Chestnut Hill College, 1966; M.A., University of Michigan-Ann Arbor, 1972; Ph.D., Ohio State University, 1986.

Neustadtl, Alan
Associate Professor Emeritus, BSOS-Sociology; B.A., Bates College, 1979; M.A., University of Massachusetts-Amherst, 1982; Ph.D., 1987.

Newburn, David Allen
Associate Professor, AGNR-Agricultural & Resource Economics; B.S., University of Maryland-College Park, 1991; Ph.D., University of California-Berkeley, 2002.

Newby, Ashley Luetisha
Senior Lecturer, BSOS-African American Studies; B.A., Michigan State University, 2009; B.A., 2009; M.A., New York University, 2011; Ph.D., Michigan State University, 2016.

Newcomb, Robert Wayne
Professor Emeritus, ENGR-Electrical & Computer Engineering; B.S., Purdue University-West Lafayette, 1955; M.S., Stanford University, 1957; Ph.D., University of California-Berkeley, 1960.

Newcombe, Megan Eve
Associate Professor, CMNS-Geology; M.S., California Institute of Technology, 2011; Ph.D., 2016.

Newhagen, John E.
Associate Professor Emeritus, JOUR-Philip Merrill College of Journalism; B.A., University of Colorado-Boulder, 1976; M.A., Stanford University, 1989; M.A., University of Colorado-Boulder, 1979; Ph.D., Stanford University, 1990.

Newman, Rayya Renee
Lecturer, ARCH-Architecture Program; B.S., Catholic University of America, 2002; M.Arch., Virginia Polytechnic Institute & State University, 2010.

Newman, Rochelle S.
Professor, BSOS-Hearing & Speech Sciences; Affiliate Professor, ARHU-Dean-MD Language Science Center; 2020-2021 Distinguished Scholar-Teacher. B.S., Northwestern University, 1991; M.A., SUNY-University at Buffalo, 1995; Ph.D., 1997.

Newsham, Jennifer Barclay
Associate Professor, ARHU-School of Theatre, Dance & Performance Studies; B.S., Northwestern University, 1999; M.F.A., University of California-San Diego, 2009.

Ng, Timothy J
Professor Emeritus, AGNR-Plant Science & Landscape Architecture; B.S., University of California-Berkeley, 1969; M.S., Purdue University-West Lafayette, 1972; Ph.D., 1976.

Nguyen, Dong Quan Ngoc
Visiting Associate Professor, CMNS-Mathematics; B.S., Ho Chi Minh City University of Education, 2005; M.S., Arizona State University, 2007; Ph.D., University of Arizona, 2012.

Nguyen, Huy Quang
Assistant Professor, CMNS-Mathematics; B.S., University of Ho Chi Minh City, 2012; M.S., University of Orleans, 2013; Ph.D., University of Paris, 2016.

Nguyen, Nicole Kristen
Associate Clinical Professor, BSOS-Hearing & Speech Sciences; B.A., University of Maryland-College Park, 2004; Au.D., 2009.

Nguyen, Tam
Assistant Professor, ENGR-Aerospace Engineering; B.S., Massachusetts Institute of Technology, 2013; M.S., 2015; Ph.D., 2018.

Nguyen, Thu Thi Xuan
Associate Professor, SPHL-Epidemiology & Biostatistics; B.A., Stanford University, 2005; M.P.H., University of North Carolina-Chapel Hill, 2008; Sc.D., Harvard University, 2014.

Nguyen, Vincent Phuc
Senior Lecturer, ENGR-Mechanical Engineering; B.S., University of Maryland-College Park, 2003; M.S., 2005; Ph.D., 2011.

Ni, Shuna
Assistant Professor, ENGR-Fire Protection Engineering; Affiliate Assistant Professor, ENGR-Mechanical Engineering; B.S., Central South University, 2009; M.S., Tongji University/Tungchai University, 2013; Ph.D., Texas A&M University-College Station, 2018.

Nichols, Jason Anthony
Senior Lecturer, BSOS-African American Studies; B.A., University of Maryland-College Park, 2000; M.A., 2006; Ph.D., 2012.

Nickel, Christine
Lecturer, CMNS-Mathematics; B.S., University of Alabama-Huntsville, 1997; M.S., 1999; M.S., Johns Hopkins University, 2002; Ph.D., 2007.

Nickels, William G.
Associate Professor Emeritus, BMGT-Robert H. Smith School of Business; B.S., Ohio State University, 1962; M.B.A., Case Western Reserve University, 1966; Ph.D., Ohio State University, 1969.

Nicolas, Abigail
Lecturer, BSOS-Psychology; B.S., SUNY-Stony Brook, 2009; M.S., Fordham University, 2012; Ph.D., SUNY-Albany, 2018.

Niemeier, Deb A
Professor, ENGR-Civil & Environmental Engineering; Affiliate Professor, CMNS-Atmospheric & Oceanic Science; B.S., University of Texas-Austin, 1982; M.S., University of Maine at Orono, 1991; D.Engin., University of Washington-Seattle, 1994.

Nigam, Sumant
Chair, CMNS-Atmospheric & Oceanic Science; Professor, CMNS-Atmospheric & Oceanic Science; Professor, CMNS-Earth System Science Interdisciplinary Center; M.S., Indian Institute of Technology-Kanpur, 1978; Ph.D., Princeton University, 1984.

Nirula, Gagan
Lecturer, JOUR-Philip Merrill College of Journalism; B.S., University of Maryland-Global Campus, 1995.

Nishida, Jun
Assistant Professor, CMNS-Computer Science; Assistant Professor, CMNS-Institute for Advanced Computer Studies; B.S., University of Tsukuba, 2014; Ph.D., 2019.

Niu, Danielle Jing-Yi
Assistant Clinical Professor, SVPAAP-Office of Undergraduate Research; Ph.D., Dartmouth College, 2022.

Niu, Murphy Yuezhen
Adjunct Assistant Professor, CMNS-Institute for Advanced Computer Studies; Adjunct Assistant Professor, CMNS-Computer Science; B.S., Peking University, 2012; Ph.D., Massachusetts Institute of Technology, 2018.

Nixon, Adam Wayne
Senior Lecturer, ARHU-Communication; B.A., Occidental College, 1990; M.F.A., Virginia Commonwealth University, 1997; M.A., New York University, 2000; Ph.D., University of Maryland-College Park, 2018.

Njar, Vincent
Adjunct Professor, CMNS-IBBR; Adjunct Professor, CMNS-IBBR; B.S., University of Ibadan, 1976; Ph.D., University College-London, 1980.

Nochetto, Ricardo H.
Professor, CMNS-Mathematics; M.S., Universidad del Rosario, 1976; M.S., 1979; Ph.D., Universidad de Buenos Aires, 1983.

Nola, Dennis R.
Lecturer, AGNR-Plant Science & Landscape Architecture; B.S., Pennsylvania State University, 1979.

Noonan, Peter Vincent
Professor of the Practice, ARCH-Architecture Program; B.S., University of Maryland-College Park, 1988; M.Arch., 1992.

Norcross, Janet Lynn
Lecturer, CMNS-Entomology; B.A., Lafayette College, 1984; M.A., College of William & Mary, 1986; Ph.D., University of Maryland-College Park, 1994.

Norman, Howard
Professor Emeritus, ARHU-English; B.A., Western Michigan University, 1972; M.A., Indiana University, 1976.

North, Elizabeth W.
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; B.A., Swarthmore College, 1991; M.S., Johns Hopkins University, 1996.

Norton, Brynne
Librarian II, LIBR-Libraries; B.A., Haverford College, 2005; M.A./M.L.S., University of Pittsburgh, 2010; M.L.A., McDaniel College, 2016.

Norwood, Earta
Assistant Clinical Professor, BSOS-Psychology; B.S., University of Warsaw, 1999; B.S., Brigham Young University, 2001; M.S., 2003; Ph.D., University of Maryland-College Park, 2015.

Novick, Jared M
Professor, BSOS-Hearing & Speech Sciences; Affiliate Professor, ARHU-Dean-MD Language Science Center; B.A., University of Rochester, 1998; M.A., University of Pennsylvania, 2001; Ph.D., 2005.

Novikov, Sergei
Distinguished University Professor Emeritus, CMNS-Mathematics; Ph.D., Russian Academy of Sciences, 1964; Sc.D., 1965.

Nuriely Kimel, Ayala
Lecturer, CMNS-Mathematics; B.S., University of Maryland-College Park, 2004; M.A., 2013.

Nusraty, Temim Hashim
Lecturer, UGST-HCOL-University Honors Program; B.S., University of Maryland-College Park, 1991; J.D., Touro University, 1995; L.L.M., Georgetown University, 2000.

Nussinov, Ruth
Adjunct Professor, CMNS-Chemistry & Biochemistry; B.S., University of Washington-Seattle, 1966; M.S., Rutgers University, 1967; Ph.D., 1977.

Nyamekye-Frazier, Farhaana
Assistant Clinical Professor, EDUC-Teaching and Learning, Policy and Leadership; B.S., University of Miami, 2002; M.Ed., University of Texas-Austin, 2003; Ph.D., University of Maryland-College Park, 2010.

O

O'Brien, Daune Marie
Senior Lecturer, ARHU-English; A.A., Anne Arundel Community College, 2004; B.A., University of Maryland-College Park, 2014; M.A., 2017.

O'Brien, Karen
Professor, BSOS-Psychology; Affiliate Professor, ARHU-Women, Gender and Sexuality Studies; B.S., Loyola University of Chicago, 1983; M.A., University of Missouri-Kansas City, 1988; Ph.D., Loyola University of Chicago, 1993.

O'Brien, Terrence M
Visiting Assistant Clinical Professor, BMGT-Finance; M.B.A., University of Delaware, 2017; Ph.D., Pennsylvania State University, 2023.

O'Brochta, David A.
Professor Emeritus, CMNS-Entomology; B.S., University of Kansas, 1977; Ph.D., University of California-Irvine, 1984.

O'Connell, Kenneth J.
Lecturer, ENGR-Civil & Environmental Engineering; B.S., University of Maryland-College Park, 1981; M.S., 1982; Ph.D., 1991.

O'Connor, Nekeya M
Lecturer, PLCY-School of Public Policy; B.S., Howard University, 2006; M.P.A., Long Island University, 2015.

O'Flahavan, John F.
Associate Professor Emeritus, EDUC-Teaching and Learning, Policy and Leadership; B.A., University of Colorado-Boulder, 1981; M.A., 1982; Ph.D., University of Illinois-Urbana/Champaign, 1989.

O'Grady, Kevin E.
Associate Professor Emeritus, BSOS-Psychology; B.A., Washington & Lee University, 1972; M.S., Old Dominion University, 1976; Ph.D., University of Connecticut-all campuses, 1980.

O'Grady, Ryan
Lecturer, INFO-College of Information Studies; B.A., Brown University, 2005; M.S., Towson University, 2013; M.L.S., University of Maryland-College Park, 2015.

O'Hara, Jessica K.
Assistant Clinical Professor, SVPAAP-Office of Undergraduate Research; B.S., Carnegie Mellon University, 2007; Ph.D., Princeton University, 2013.

O'Haver, Thomas C.
Professor Emeritus, CMNS-Chemistry & Biochemistry; B.S., Spring Hill College, 1963; D.Engin., University of Florida, 1968.

O'Leary, Dianne P.
Distinguished University Professor Emerita, CMNS-Computer Science; B.S., Purdue University-West Lafayette, 1972; Ph.D., Stanford University, 1976.

O'Malley, Matthew Daniel
Lecturer, ARCH-Real Estate Development; B.S., University of Virginia, 2000; M.B.A., University of Maryland-College Park, 2006.

O'Meara, KerryAnn
Professor Emerita, EDUC-Counseling, Higher Education and Special Education; B.A., Loyola University Maryland, 1993; M.Ed., Ohio State University, 1995; Ph.D., University of Maryland-College Park, 2000.

O'Neal, Colleen R.
Associate Professor, EDUC-Counseling, Higher Education and Special Education; B.A., Cornell University, 1990; M.S., Auburn University, 1995; M.A., Long Island University, 1997; Ph.D., 2000.

O'Neill, Danielle Louise
Lecturer, BSOS-Criminology & Criminal Justice; B.S., CUNY-John Jay College of Criminal Justice, 2006; M.S., Pace University - New York, 2012.

O'Shea, Patrick
Professor, ENGR-Electrical & Computer Engineering; Affiliate Professor, CMNS-Institute for Research in Electronics & Applied Physics; Affiliate Professor, CMNS-Physics; 2009-2010 Distinguished Scholar-Teacher. B.S., National University of Ireland-Dublin, 1979; M.S., University of Maryland-College Park, 1982; Ph.D., 1986.

Oard, Douglas William
Professor, INFO-College of Information Studies; Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Professor, CMNS-Computer Science; M.Elect.E., Rice University, 1979; B.A., 1979; Ph.D., University of Maryland-College Park, 1996.

Oates, Sarah Ann
Professor, JOUR-Philip Merrill College of Journalism; 2021-2022 Distinguished Scholar-Teacher. B.A., Yale University, 1985; M.A., Emory University, 1996; Ph.D., 1998.

Obanda, Diana N.
Associate Professor, AGNR-Nutrition and Food Science; B.S., Moi University, 2005; M.S., Louisiana State University-Baton Rouge, 2007; Ph.D., 2008; Ph.D., 2017.

Oda, Tomohiro
Adjunct Professor, CMNS-Atmospheric & Oceanic Science; B.S., Kwansei Gakuin Univ, 2002; M.Eng., Osaka University, 2004; Ph.D., 2011.

Odell, Stanley J.
Associate Professor Emeritus, ARHU-Philosophy; B.A., University of Kansas, 1960; M.A., University of Illinois-Urbana/Champaign, 1962; Ph.D., 1967.

Oehrlein, Gottlieb
Professor, ENGR-Materials Science & Engineering; Professor, CMNS-Institute for Research in Electronics & Applied Physics; Affiliate Professor, CMNS-Physics; 2024-2025 Distinguished Scholar-Teacher. B.S., Wurzburg University, 1976; Ph.D., SUNY-Albany, 1981.

Ofek, Gilad Adi
Associate Professor, CMNS-Cell Biology & Molecular Genetics; Associate Professor, CMNS-IBBR; Associate Professor, CMNS-IBBR; B.A., University of Chicago, 1993; Ph.D., Columbia University, 2001.

Ogwo, Ashley
Lecturer, EDUC-Counseling, Higher Education and Special Education; B.A., University of Michigan-Ann Arbor, 2016; M.A., Teachers College of Columbia University, 2019.

Ohadi, Michael
Professor, ENGR-Mechanical Engineering; B.S., University of Tehran, 1977; M.S., Southern Illinois University-Carbondale, 1980; M.Ed., Northeastern University, 1982; Ph.D., University of Minnesota-Twin Cities, 1986.

Okada, Morihiro
Visiting Professor, CMNS-Chemistry & Biochemistry; B.S., University of Tokyo, 1985; Ph.D., 1997.

Olaisen, Rho Henry
Lecturer, SPHL-Epidemiology & Biostatistics; B.S., Ohio State University, 1997; M.P.H., San Jose State University, 2010; Ph.D., Case Western Reserve University, 2018.

Oler, Greg
Vice President for Finance and Chief Financial Officer, PRES-VPF-VP Finance; B.O., Loyola University, 1985.

Oliver, Craig S.
Professor Emeritus, AGNR-Plant Science & Landscape Architecture; B.S., Pennsylvania State University, 1957; M.Ed., 1960; Ph.D., Ohio State University, 1968.

Oliver, David L
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., University of Maryland-College Park, 2014; M.A., Johns Hopkins University, 2019.

Olmert, Michael
Professor of the Practice, ARHU-English; B.A., University of Maryland-College Park, 1962; M.A., Georgetown University, 1965; Ph.D., University of Maryland-College Park, 1980.

Olney, Matthew Brant
Lecturer, UGST-HCOL-ACES Cybersecurity Program; B.S., University of Maryland-Global Campus, 2011.

Olsen, Porter
Lecturer, ARHU-English; B.A., Utah Valley University, 2004; M.A., University of Utah, 2007.

Olsen, Sara H
Lecturer, SPHL-Behavioral & Community Health; M.P.H., University of Maryland-College Park, 2017; D.Pub.Hlth., 2022.

Olson, Alison G.
Professor Emerita, ARHU-History; B.A., University of California-Berkeley, 1952; M.A., 1953; Ph.D., University of Oxford, 1956.

Olson, Charles E.
Professor of the Practice Emeritus, BMGT-Robert H. Smith School of Business; B.A., University of Wisconsin-Madison, 1964; M.S., 1966; Ph.D., 1968.

Olson, Jade
Associate Clinical Professor, ARHU-Communication; B.A., Willamette University, 2009; M.A., University of Maryland-College Park, 2011; Ph.D., 2017.

Olson, Keith W.
Professor Emeritus, ARHU-History; B.A., SUNY-Albany, 1957; M.A., University of Wisconsin-Madison, 1959; Ph.D., 1964.

Olson, Lars J.
Professor, AGNR-Agricultural & Resource Economics; B.A., Eckerd College, 1981; M.A., Cornell University, 1985; Ph.D., 1988.

Olver, Frank W.J.
Professor Emeritus, CMNS-Mathematics; B.S., University of London, 1945; M.S., 1948; Sc.D., 1961.

Omogbadegun, Alexandra A
Lecturer, ARHU-English; B.A., Covenant University, 2017; M.A., Bowie State University, 2021.

Oneill, Katherine Anne II
Senior Lecturer, ARHU-English; B.S., Emmanuel College, 1976; Ph.D., University of Rhode Island, 1983.

Ontiveros, Randy James
Associate Professor, ARHU-English; Affiliate Associate Professor, ARHU-American Studies; Affiliate Associate Professor, ARHU-Women, Gender and Sexuality Studies; Affiliate Associate Professor, ARHU-Dean-Latin American and Caribbean Studies Center; B.A., Biola University, 1997; M.A., University of California-Irvine, 2001; Ph.D., 2006.

Opoku-Edusei, Justicia
Instructor, CMNS-Biology; B.S., University of Ghana, 1982; M.S., Virginia State University, 1985; Ph.D., Virginia Commonwealth University, 1990.

Oppenheim, Sarah Beth
Lecturer, ARHU-School of Music; B.F.A., University of Florida, 2007; M.F.A., University of Maryland-College Park, 2017.

Oppenheimer, Joe A.
Professor Emeritus, BSOS-Government & Politics; B.A., Cornell University, 1963; M.A., University of Michigan-Ann Arbor, 1964; Ph.D., Princeton University, 1971.

Opsomer, Jean Didier
Adjunct Professor, CMNS-Mathematics; M.S., KU Leuven, 1986; M.B.A., University of Chicago, 1987; Ph.D., Cornell University, 1995.

Orantes, Marlene L.
Associate Clinical Professor, SPHL-Dean-Horowitz Center for Health Literacy; M.D., The Evangelical University of El Salvador, 1996.

Orban, John P.
Professor, CMNS-Chemistry & Biochemistry; Professor, CMNS-IBBR; Professor, CMNS-IBBR; B.S., University of Adelaide, 1980; Ph.D., Australian National University-Canberra, 1985.

Orel, Pam A
Principal Lecturer, ARHU-English; B.A., Monmouth University, 1978; M.B.A., 1991.

Orlando, Valerie K.
Professor, ARHU-School of Languages, Literatures, and Cultures; Affiliate Professor, ARHU-Women, Gender and Sexuality Studies; 2023-2024 Distinguished Scholar-Teacher. B.A., University of Redlands, 1984; M.A., George Mason University, 1993; Ph.D., Brown University, 1996.

Orloff, Jon H.
Professor Emeritus, ENGR-Electrical & Computer Engineering; B.S., Massachusetts Institute of Technology, 1964; Ph.D., Oregon Graduate Institute, 1977.

Orozco, Luis A.
Professor Emeritus, CMNS-Physics; B.S., Instituto Tecnologico y de Estudios Superiores de Occidente ITESO, 1980; Ph.D., University of Texas-Austin, 1987.

Orr, Kathleen Kozina
Senior Lecturer, ARHU-English; B.A., Heidelberg University, 1980; M.S., National University, 1991; Ph.D., Capella University, 2013.

Orr, Robert C
Dean, PLCY-School of Public Policy; Professor, PLCY-School of Public Policy; B.A., University of California-Los Angeles, 1987; M.P.A., Princeton University, 1992; Ph.D., 1996.

Ors Cirik, Selda
Visiting Professor, AGNR-Plant Science & Landscape Architecture; B.S., Other, 2001; M.S., 2004; Ph.D., 2011.

Ortiz, Jose Antonio
Assistant Professor, BSOS-Hearing & Speech Sciences; B.A., University of Connecticut-all campuses, 2004; M.A., University of Massachusetts-Amherst, 2007; Ph.D., University of Maryland-College Park, 2022.

Oruc, Yavuz A.
Professor, ENGR-Electrical & Computer Engineering; B.S., The Middle East Tech University-Ankara, 1976; M.S., Aberystwyth University, 1978; Ph.D., Syracuse University, 1983.

Osborn, Kevin D
Adjunct Associate Professor, CMNS-Physics; B.S., University of Mary Washington, 1992; M.S., University of Tennessee-Knoxville, 1995; Ph.D., University of Illinois-Urbana/Champaign, 2001.

Osei Fordjour, Nana Kwame
Assistant Professor, ARHU-Communication; B.A., University of Ghana, 2011; M.A., 2014; Ph.D., University of New Mexico-Albuquerque, 2023.

Oshan, Taylor Matthew
Associate Professor, BSOS-Geography; B.A., University of Delaware, 2010; M.A., CUNY-Hunter College, 2013; Ph.D., Arizona State University, 2017.

Osorio, Peter
Assistant Professor, ARHU-Classics; B.A., Dartmouth College, 2012; B.A., University of Pennsylvania, 2014; Ph.D., Cornell University, 2020.

Osuji, Chinyere K.
Associate Professor, BSOS-African American Studies; B.A., University of Illinois-Urbana/Champaign, 2000; M.A., Harvard University, 2005; Ph.D., University of California-Los Angeles, 2011.

Otis, Hailey Nicole
Assistant Professor, ARHU-Communication; B.A., University of Northern Colorado, 2015; M.A., Colorado State University-Fort Collins, 2017; Ph.D., 2021.

Ott, Edward
Distinguished University Professor Emeritus, ENGR-Electrical & Computer Engineering; B.S., Cooper Union for Advancement of Science & Art, 1963; M.S., Polytechnic Institute New York Univ, 1965; Ph.D., 1967.

Otte, Michael Wilson
Associate Professor, ENGR-Aerospace Engineering; Affiliate Associate Professor, ENGR-Institute for Systems Research; Affiliate Associate Professor, CMNS-Computer Science; B.S., Clarkson University, 2005; M.S., University of Colorado-Boulder, 2007; Ph.D., 2011.

Ottinger, Mary Ann
Professor Emerita, AGNR-Animal & Avian Sciences; B.S., University of Maryland-College Park, 1972; M.S., 1974; Ph.D., 1977.

Ottonello, Pablo
Professor, BSOS-Economics; B.A., Universidad de la Republica-Uruguay, 2006; Ph.D., Columbia University, 2015.

Ouyang, Min
Professor, CMNS-Physics; B.S., Peking University, 1995; M.S., 1996; M.A., Harvard University, 1999; Ph.D., 2001.

Ovadia, David Alexander
Lecturer, BSOS-Economics; B.S., Massachusetts Institute of Technology, 2006; B.S., 2007; Ph.D., Northwestern University, 2015.

Overton, Courtney Danielle
Assistant Clinical Professor, BSOS-Hearing & Speech Sciences; B.A., University of Pittsburgh, 2010; M.S., Emerson College, 2013.

Oxford, Rebecca L.
Professor Emerita, EDUC-Teaching and Learning, Policy and Leadership; B.A., Vanderbilt University, 1968; M.A., Yale University, 1972; Ph.D., University of North Carolina-Chapel Hill, 1978.

Ozbay, Erkut Y.
Professor, BSOS-Economics; B.A., Bogazici University, 1998; M.A., 2000; Ph.D., New York University, 2007.

P

Pacuit, Eric
Professor, ARHU-Philosophy; B.S., Ohio University-all campuses, 1998; M.S., Case Western Reserve University, 2000; Ph.D., New York University, 2005.

Paczolt, Kimberly
Senior Lecturer, CMNS-Biology; B.S., University of Illinois-Urbana/Champaign, 2004; Ph.D., Texas A&M University-College Station, 2012.

Padhi, Michael
Senior Lecturer, BMGT-Finance; B.A., Emory University, 1997; M.Ed., Georgia State University/Perimeter College, 2001; Ph.D., University of Maryland-College Park, 2010.

Padmanabhan, Balaji
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Decision, Operations & Information Technologies; B.O., Indian Institute of Technology-Madras, 1993; M.O., New York University, 1997; Ph.D., 1999.

Padua-Perez, Nelson
Principal Lecturer, CMNS-Computer Science; B.S., University of Puerto Rico-Mayaguez, 1990; M.S., University of Maryland-College Park, 1996.

Page-Voth, Tori
Associate Clinical Professor, EDUC-Counseling, Higher Education and Special Education; B.S., Lewis & Clark College, 1982; M.S., Portland State University, 1986; Ph.D., University of Maryland-College Park, 1992.

Paglione, Johnpierre
Director, CMNS-Physics; Professor, CMNS-Physics; B.S., Queen's University at Kingston, 1999; M.S., University of Toronto, 2000; Ph.D., 2004.

Paik, Ho Jung
Professor Emeritus, CMNS-Physics; Regents Professor, CMNS-Physics; B.S., Seoul National University, 1966; M.S., Stanford University, 1970; Ph.D., 1974.

Pal, Utpal
Professor, AGNR-Veterinary Medicine Program; M.S., University of Calcutta, 1988; Ph.D., 1993.

Paletz, Susannah B.F.
Associate Professor, INFO-College of Information Studies; B.A., Wesleyan University, 1994; M.A., University of California-Berkeley, 1999; Ph.D., 2003.

Paley, Derek A.
Professor, ENGR-Aerospace Engineering; Professor, ENGR-Institute for Systems Research; Affiliate Professor, ENGR-Electrical & Computer Engineering; 2020-2021 Distinguished Scholar-Teacher. B.S., Yale University, 1997; M.A., Princeton University, 2004; Ph.D., 2007.

Palmer, Benjamin Stephen
Adjunct Associate Professor, CMNS-Physics; B.A., Reed College, 1995; Ph.D., University of Maryland-College Park, 2003.

Palmer, Christopher Allan
Assistant Professor, CMNS-Physics; B.S., University of Southern California, 2007; M.S., University of California-San Diego, 2009; Ph.D., 2014.

Palmer, Margaret A.
Director, CMNS-National Socio-Environmental Synthesis Center; Distinguished University Professor, CMNS-Entomology; Distinguished University Professor, CMNS-National Socio-Environmental Synthesis Center; 1993-1994 Distinguished Scholar-Teacher. B.S., Emory University, 1977; M.S., University of South Carolina-Columbia, 1979; Ph.D., 1983.

Palumbo, Dominic J.
Lecturer, ENGR-Aerospace Engineering; B.S., Polytechnic Institute of New York-Brooklyn, 1966; M.S., 1967; Ph.D., 1970.

Palus, Matthew M.
Senior Lecturer, BSOS-Anthropology; B.A., University of Maine at Orono, 1993; B.A., 1994; M.A., University of Maryland-College Park, 2001; Ph.D., Columbia University, 2010.

Panichas, George A.
Professor Emeritus, ARHU-English; B.A., American International College, 1951; M.A., Trinity College, 1952; Ph.D., University of Nottingham, 1961.

Pantelis, Irene Noemi
Lecturer, ARHU-Art; B.A., University of Maryland-College Park, 1993; M.F.A., 2019.

Panzer, Richard Alan
Lecturer, INFO-College of Information Studies; B.F.A., Rochester Institute of Technology, 1996; M.S., 1998.

Paoletti, Jo B.
Professor Emerita, ARHU-American Studies; B.S., Syracuse University, 1971; M.S., University of Rhode Island, 1976; Ph.D., University of Maryland-College Park, 1980.

Paolisso, Michael J.
Professor Emeritus, BSOS-Anthropology; B.A., University of California-Los Angeles, 1976; M.A., 1978; Ph.D., 1985.

Papadopoulos, Konstantinos
Professor Emeritus, CMNS-Physics; B.S., National & Capodistrian University of Athens, 1960; M.S., Massachusetts Institute of Technology, 1965; Ph.D., University of Maryland-College Park, 1968.

Papamarcou, Adrianos
Associate Professor, ENGR-Electrical & Computer Engineering; B.A., University of Cambridge, 1981; M.S., Cornell University, 1983; Ph.D., 1987.

Papazian, Elizabeth A.
Associate Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., Wesleyan University, 1991; M.A., Yale University, 1994; Ph.D., 2000.

Papoian, Garegin
Professor, CMNS-Chemistry & Biochemistry; Professor, CMNS-Institute for Physical Science & Technology; B.S., Russian Academy of Sciences, 1994; Ph.D., Cornell University, 1999.

Parara, Polyvia
Senior Lecturer, ARHU-Classics; B.A., Athens College, 1990; M.A., Nanterre University, 2000; Ph.D., 2006.

Paredes Castro, Pablo E
Assistant Professor, CMNS-Computer Science; Assistant Professor, CMNS-Institute for Advanced Computer Studies; B.S., Universidad Politecnica Salesiana Ecuador, 2000; M.S., Georgia Institute of Technology, 2003; Ph.D., University of California-Berkeley, 2015.

Parham, Dirk
Lecturer, BSOS-Psychology; B.S., University of Maryland-Global Campus, 2012; M.A.A., University of Maryland-College Park, 2015.

Parham, Marisa
Associate Director, ARHU-MD Institute for Technology in the Humanities; Professor, ARHU-English; B.A., Washington University in Saint Louis, 1996; B.A., 1996; M.Phil., Columbia University, 2004; Ph.D., 2004; M.A., 2004.

Park, Jaekeun
Assistant Professor, AGNR-Veterinary Medicine Program; B.S., Konkuk University, 2010; Ph.D., Kon-Kuk University, 2014.

Park, John
Assistant Professor, ARCH-School of Architecture, Planning, & Preservation; Assistant Professor, ARCH-Real Estate Development; B.S., Hanyang University-Seoul, 2007; M.S., 2009; M.S., University of Texas-Austin, 2011; Ph.D., Texas A&M University-College Station, 2017.

Park, Julie J.
Professor, EDUC-Counseling, Higher Education and Special Education; B.A., Vanderbilt University, 2004; M.A., University of California-Los Angeles, 2005; Ph.D., 2009.

Park, Julie
Associate Professor, BSOS-Sociology; B.A., University of California-Davis, 1994; M.A., University of Southern California, 1998; M.A., 2003; Ph.D., 2003.

Parker, Jennifer
Adjunct Professor, SPHL-Epidemiology & Biostatistics; M.A., University of California-Santa Barbara, 1986; Ph.D., 1990.

Parker, Susan Wendy
Professor, PLCY-School of Public Policy; B.A., Franklin & Marshall College, 1987; M.A., Yale University, 1990; Ph.D., 1993.

Parks, Sheri L.
Associate Professor Emerita, ARHU-American Studies; B.A., University of North Carolina-Chapel Hill, 1978; M.A., University of Massachusetts-Amherst, 1983; Ph.D., 1985.

Parry-Giles, Shawn J.
Chair, ARHU-Communication; Professor, ARHU-Communication; Affiliate Professor, ARHU-Women, Gender and Sexuality Studies; B.F.A., Emporia State University, 1984; M.A., University of New Mexico-Albuquerque, 1987; Ph.D., Indiana University, 1992.

Parry-Giles, Trevor S.
Associate Dean, ARHU-College of Arts & Humanities; Professor, ARHU-Communication; B.A., Ripon College, 1985; M.A., University of New Mexico-Albuquerque, 1987; Ph.D., Indiana University, 1992.

Parsells-Johnson, Jeffrey Lynhurst
Lecturer, BSOS-Sociology; B.A., Shippensburg State College, 2006; Ph.D., George Mason University, 2017.

Parsons, Christi
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., University of Alabama-Tuscaloosa, 1989; L.L.M., Yale University, 2001.

Parsons, Clare
Lecturer, ARHU-English; B.A., SUNY-Albany, 1983; M.A., Harvard University, 1990; Ph.D., 1996.

Parvathala, Srikanth
Lecturer, INFO-College of Information Studies; B.Tech., SRM Institute of Science and Technology, 2019; MIM, University of Maryland-College Park, 2024.

Pasch, Alan
Professor Emeritus, ARHU-Philosophy; B.A., University of Michigan-Ann Arbor, 1949; M.A., The New School, 1952; Ph.D., Princeton University, 1955.

Pasquetto, Irene V
Assistant Professor, INFO-College of Information Studies; B.S., Universita degli studi di Verona, 2009; M.S., 2013; B.S., University of California-Los Angeles, 2018; Ph.D., 2018.

Passannante, Gerard
Professor, ARHU-English; B.A., Yale University, 2000; Ph.D., Princeton University, 2006.

Passeri, Stefano
Lecturer, ARHU-Art; B.S., University College-London, 2010; M.Arch., Southern California Institute of Architecture, 2013.

Pasternak, Avia
Associate Professor, ARHU-Philosophy; B.A., Hebrew University of Jerusalem, 2000; M.A., 2003; Ph.D., University of Oxford, 2007.

Pati, Jogesh C.
Professor Emeritus, CMNS-Physics; B.S., Ravenshaw University, 1955; M.S., University of Delhi, 1957; Ph.D., University of Maryland-College Park, 1961.

Patrick, David E
Lecturer, INFO-College of Information Studies; B.S., Loyola University Maryland, 1994; M.S., Towson University, 2004.

Patrick, Matthew David
Lecturer, INFO-College of Information Studies; M.S., University of Maryland-College Park, 2021.

Patro, Robert Scott
Associate Professor, CMNS-Computer Science; Associate Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Associate Professor, ENGR-Electrical & Computer Engineering; B.S., University of Maryland-College Park, 2006; Ph.D., 2012.

Patterson, William V.
Associate Professor Emeritus, ARHU-School of Theatre, Dance & Performance Studies; B.F.A., University of Oklahoma, 1970; M.F.A., University of Utah, 1972.

Patwardhan, Anand
Professor, PLCY-School of Public Policy; B.S., Indian Institute of Technology, 1987; M.S., Carnegie Mellon University, 1991; Ph.D., 1993.

Paudyal, Binod
Senior Lecturer, UGST-Asian American Studies Program; B.A., Tribhuvan University, 2002; M.A., Tribhuvan University-Kirtipur, 2006; M.A., Utah State University, 2010; Ph.D., University of Utah, 2017.

Paukstelis, Paul
Associate Professor, CMNS-Chemistry & Biochemistry; B.S., University of Kansas, 1997; Ph.D., University of Texas-Austin, 2005.

Pavao-Zuckerman, Barnet
Chair, BSOS-Anthropology; Professor, BSOS-Anthropology; B.A., Binghamton University, 1996; Ph.D., University of Georgia, 2001.

Pavao-Zuckerman, Mitchell Adam
Associate Professor, AGNR-Environmental Science & Technology; B.S., Binghamton University, 1995; M.S., University of Tennessee, 1998; Ph.D., University of Georgia, 2003.

Pavlovsky, Julie Alex
Senior Lecturer, BMGT-Finance; B.A., University of Maryland-College Park, 1995; M.B.A., 2000.

Payne, Lara E.
Senior Lecturer, ARHU-English; B.A., St. Mary's College of Maryland, 1995; M.F.A., New York University, 2001.

Payne-Sturges, Devon Corcia
Visiting Professor, SPHL-Global, Environmental, and Occupational Health; B.S., University of Virginia, 1989; M.Eng., 1990; M.P.H., Johns Hopkins University, 1997; Ph.D., 2002.

Pearson, Barry L.
Professor, ARHU-English; Affiliate Professor, ARHU-American Studies; B.A., University of Michigan-Ann Arbor, 1968; M.A., Indiana University, 1970; Ph.D., 1976.

Pearson, Margaret M.
Professor, BSOS-Government & Politics; 2013-2014 Distinguished Scholar-Teacher. A.B., Smith College, 1980; M.A., Yale University, 1982; M.Phil., 1983; Ph.D., 1986.

Pearson, Sara R
Professor, ARHU-School of Theatre, Dance & Performance Studies; B.A., University of Minnesota-Twin Cities, 1971.

Pearson-Merkowitz, Shanna
Professor, PLCY-School of Public Policy; Affiliate Professor, BSOS-Government & Politics; B.A., Hampshire College, 1998; M.A., University of Maryland-College Park, 2006; Ph.D., 2009.

Pease, John
Associate Professor Emeritus, BSOS-Sociology; B.S., Western Michigan University, 1960; M.A., Michigan State University, 1963; Ph.D., 1968.

Peay, Periloux C.
Assistant Professor, BSOS-African American Studies; B.S., Lamar University, 2008; M.A., Sam Houston State University, 2016; Ph.D., University of Oklahoma, 2020.

Pecht, Michael G.
Distinguished University Professor, ENGR-Mechanical Engineering; B.Elect.E., University of Wisconsin-Madison, 1976; M.Mech.E., 1979; Ph.D., 1982.

Peckerar, Martin C.
Professor Emeritus, ENGR-Electrical & Computer Engineering; B.S., SUNY-Stony Brook, 1968; M.S., University of Maryland-College Park, 1971; Ph.D., 1976.

Peel, Alan C
Senior Lecturer, CMNS-Astronomy; B.A., Occidental College, 1990; M.S., San Francisco State University, 1996; Ph.D., University of California-Davis, 2003.

Peer, Wendy Ann
Associate Professor, AGNR-Environmental Science & Technology; B.S., California State University-Bakersfield, 1989; B.S., 1989; Ph.D., University of California-Santa Cruz, 1996.

Peercy, Megan Madigan
Special Assistant to the Provost, SVPAAP-Office of the Senior Vice President & Provost; Professor, EDUC-Teaching and Learning, Policy and Leadership; 2025-2026 Distinguished Scholar-Teacher. B.S., Trinity University, 1995; M.A.-Teach., University of Utah, 2000; Ph.D., 2004.

Peitzmeier, Sarah Melissa
Associate Professor, SPHL-Behavioral & Community Health; B.S., University of Maryland-College Park, 2010; B.A., 2010; M.S., Johns Hopkins University, 2012; D.Pub.Hlth., 2017.

Peled, Ron
Professor, CMNS-Mathematics; B.S., Open University, 2002; M.S., Tel Aviv University, 2004; Ph.D., University of California-Berkeley, 2008.

Peng, Huaishu
Assistant Professor, CMNS-Computer Science; Assistant Professor, CMNS-Institute for Advanced Computer Studies; B.E., Beihang University, 2010; M.S., Carnegie Mellon University, 2012; Ph.D., Cornell University, 2019.

Penner, Merrilynn
Professor Emerita, BSOS-Psychology; B.A., Harvard University, 1966; Ph.D., University of California-San Diego, 1970.

Penniston-Dorland, Sarah C
Professor, CMNS-Geology; B.A., Harvard University, 1986; M.Ed., 1990; M.S., University of Texas-Austin, 1997; M.A., Johns Hopkins University, 1999; Ph.D., 2005.

Penrose, Mehl A.
Associate Professor, ARHU-School of Languages, Literatures, and Cultures; Affiliate Associate Professor, ARHU-Women, Gender and Sexuality Studies; Affiliate Associate Professor, ARHU-Dean-Latin American and Caribbean Studies Center; B.A., University of Missouri-Columbia, 1990; M.A., University of Kansas, 1993; Ph.D., University of California-Los Angeles, 2000.

Pentney, Ryan
Lecturer, UGST-HCOL-ACES Cybersecurity Program; B.S., Concordia University, 2006.

Pereira, Rebecca Lee
Lecturer, BSOS-Hearing & Speech Sciences; B.A., University of Maryland-College Park, 2016; M.A., George Washington University, 2019.

Perez Belda, Antonio Alejandro
Assistant Clinical Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., University of Castilla La Mancha, 2008; M.A., Universidad de Jaen, 2013; M.A., University of Iowa, 2017; Ph.D., 2021.

Perfetti, Joseph
Lecturer, BMGT-Finance; B.S., University of Pennsylvania, 1998.

Peri, Yoram
Professor Emeritus, ARHU-Meyerhoff Program & Center for Jewish Studies; B.A., Hebrew University of Jerusalem, 1968; M.A., 1973; Ph.D., London School of Economics & Political Science, 1981.

Perillo, Patricia
Vice President for Student Affairs, VPSA-VP Student Affairs; B.A., University of Delaware, 1986; M.Ed., 1988; Ph.D., University of Maryland-College Park, 2002.

Perkins, Moreland
Professor Emeritus, ARHU-Philosophy; A.B., Harvard University, 1948; M.A., 1949; Ph.D., 1953.

Perlis, Donald R.
Professor Emeritus, CMNS-Computer Science; B.S., Purdue University-West Lafayette, 1966; Ph.D., University of Rochester, 1981; Ph.D., New York University, 1972.

Perman, Jay A.
Chancellor, USMO-Chancellor's Office; B.A., Northwestern University, 1968; M.D., 1972; B.A., Northwestern University, 1968; M.D., 1972.

Pessoa, Luiz
Acting Director, CMNS-Brain and Behavior Institute; Director, BSOS-Dean-Maryland Neuroimaging Center; Professor, BSOS-Psychology; B.S., Federal University of Rio, 1989; M.S., 1990; Ph.D., Boston University, 1996.

Peters, Robert R.
Professor Emeritus, AGNR-Animal & Avian Sciences; B.S., University of Minnesota-Twin Cities, 1973; M.S., 1975; Ph.D., Michigan State University, 1980.

Petersen, John
Adjunct Professor, CMNS-Chemistry & Biochemistry; B.S., Adams State University, 1978.

Peterson, Carla L.
Professor Emerita, ARHU-English; B.A., Radcliffe College, 1965; Ph.D., Yale University, 1976.

Peterson, Margaret Polizos
Associate Clinical Professor, ARHU-Dean-MD Language Science Center; B.A., St. Mary's College of Maryland, 1994; M.A., Johns Hopkins University, 2000; Ph.D., University of Maryland-College Park, 2014.

Peterson, William S.
Professor Emeritus, ARHU-English; B.A., Walla Walla College, 1961; M.A., University of Wisconsin-Madison, 1962; Ph.D., Northwestern University, 1968.

Pfersmann, Andreas
Adjunct Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., Universitat Wien, 1987; B.A., 1987; Ph.D., 1988.

Pfister, Damien S
Associate Professor, ARHU-Communication; B.A., University of Alabama-Tuscaloosa, 2000; M.A., University of Pittsburgh, 2004; Ph.D., 2009.

Pham, Mai-Linh
Senior Lecturer, ARHU-School of Music; B.Mus., Oberlin College, 1994; M.Mus., San Francisco Conservatory of Music, 1997; D.M.A., University of Minnesota-Twin Cities, 2000.

Phaneuf, Raymond J.
Professor, ENGR-Materials Science & Engineering; Affiliate Professor, ENGR-Electrical & Computer Engineering; Affiliate Professor, CMNS-Physics; B.A., College of the Holy Cross, 1978; M.S., 1981; Ph.D., University of Wisconsin-Madison, 1985.

Phetmisy, Cassandra Nicole
Assistant Professor, BSOS-Psychology; B.S., University of Houston, 2018; M.A., Rice University, 2022; Ph.D., 2024.

Philbin, John C.
Lecturer, SPHL-Kinesiology; M.A., University of Maryland-College Park, 1982.

Philippov, Alexander
Assistant Professor, CMNS-Physics; Assistant Professor, CMNS-Institute for Research in Electronics & Applied Physics; M.S., Moscow Institute of Physics & Technology, 2012; M.A., Princeton University, 2014; Ph.D., 2017.

Phillips, Aryn
Visiting Assistant Professor, SPHL-Health Policy and Management; B.A., Emory University, 2012; M.P.H., Harvard University, 2016; Ph.D., University of California-Berkeley, 2020.

Phillips, Colin
Professor, ARHU-Linguistics; 2011-2012 Distinguished Scholar-Teacher. B.A., University of Oxford, 1990; Ph.D., Massachusetts Institute of Technology, 1996.

Phillips, Pepper E.
Assistant Clinical Professor, EDUC-Counseling, Higher Education and Special Education; B.A., Hanover College, 1982; M.A., Indiana State University-Terre Haute, 1984; Ph.D., 1990.

Phillips, Ruth Anne
Senior Lecturer, ARHU-English; B.A., CUNY-Hunter College, 1995; M.A., CUNY-Brooklyn College, 2001; M.Phil., CUNY-Graduate Center, 2002; Ph.D., 2007.

Phillips, Sally J.
Associate Professor Emerita, SPHL-Kinesiology; B.S., Slippery Rock University of Pennsylvania, 1964; M.Ed., Colorado State University-Fort Collins, 1969; Ph.D., University of Wisconsin-Madison, 1978.

Phillips, Warren R.
Professor Emeritus, BSOS-Government & Politics; B.A., Northwestern University, 1963; M.S., California State University-San Francisco, 1966; Ph.D., University of Hawaii at Manoa, 1969.

Phillips, William Daniel
Distinguished University Professor & College Park Prof, CMNS-Physics; B.S., Juniata College, 1970; Ph.D., Massachusetts Institute of Technology, 1976.

Picerno, Nicholas Mario
Lecturer, BSOS-Criminology & Criminal Justice; B.S., Pennsylvania State University, 2002; M.A., Hood College, 2011.

Pick, Leslie
Professor, CMNS-Entomology; Affiliate Professor, CMNS-Cell Biology & Molecular Genetics; 2015-2016 Distinguished Scholar-Teacher. B.A., Wesleyan University, 1977; Ph.D., Yeshiva University, 1986.

Picon, Mario
Lecturer, PLCY-School of Public Policy; B.A., Pontifical Catholic University of Peru-Lima, 1999; M.S., Pennsylvania State University, 2004.

Pierce, Brian
Associate Professor, CMNS-Cell Biology & Molecular Genetics; Associate Professor, CMNS-IBBR; Associate Professor, CMNS-IBBR; B.S., Duke University, 2000; Ph.D., Boston University, 2008.

Pierce, Sidney K. Jr.
Professor Emeritus, CMNS-Biology; B.Ed., University of Miami, 1966; Ph.D., Florida State University, 1970.

Pierdinock-Weed, Amber
Librarian II, LIBR-Libraries; B.A., Stockton University, 2015; M.L.S., University of Maryland-College Park, 2020.

Pierre, Darren Eric
Senior Lecturer, ENGR-Dean-Office of Global Engineering Leadership; Affiliate Assistant Professor, EDUC-Counseling, Higher Education and Special Education; B.S., Wingate University, 2004; M.A., University of Maryland-College Park, 2006; Ph.D., University of Georgia, 2013.

Pierre, Percy A.
Adjunct Professor, ENGR-Electrical & Computer Engineering; B.E., University of Notre Dame, 1961; M.S., 1963; Ph.D., Johns Hopkins University, 1967.

Pierson, James Joseph
Visiting Associate Professor, CMNS-Marine & Estuarine-Environmental Science Prog; B.S., University of New Hampshire, 1996; Ph.D., University of Washington-Seattle, 2006.

Pietroski, Paul M.
Distinguished University Professor Emeritus, ARHU-Philosophy; B.A., Rutgers University, 1986; Ph.D., Massachusetts Institute of Technology, 1990.

Pilachowski, Timothy John
Senior Lecturer, CMNS-Mathematics; B.A., Loyola University Maryland, 1978; M.A., Boston College, 1986.

Pilzer, Leigh
Lecturer, ARHU-School of Music; B.Mus., Berklee College of Music, 1988; M.Mus., University of Maryland-College Park, 2001; M.Mus., 2005; D.M.A., George Mason University, 2020.

Pines, Darryll J.
President, SVPAAP-Office of the Senior Vice President & Provost; Professor, ENGR-Aerospace Engineering; B.S., University of California-Berkeley, 1986; M.S., Massachusetts Institute of Technology, 1988; Ph.D., 1992.

Pinker, Rachel T.
Professor Emerita, CMNS-Atmospheric & Oceanic Science; M.S., Hebrew University of Jerusalem, 1965; Ph.D., University of Maryland-College Park, 1976.

Piomelli, Ugo
Professor Emeritus, ENGR-Mechanical Engineering; M.S., University of Notre Dame, 1984; D.Engin., Universita degli Studi di Napoli Federico II, 1979; Ph.D., Stanford University, 1988.

Pirnapasov, Abror
Lecturer, CMNS-Mathematics; B.S., Other, 2013; M.S., 2015; Ph.D., 2021.

Pittman, William Francis Jr.
Senior Lecturer, ARHU-English; B.A., Boston University, 1987; M.A., Portland State University, 2001.

Place, Allen R.
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., Johns Hopkins University, 1979.

Plane, Jandelyn Dawn
Principal Lecturer Emerita, CMNS-Computer Science; B.S., Wartburg College, 1987; M.S., University of Wisconsin-Milwaukee, 1989; Ph.D., University of Maryland-College Park, 2010.

Pleasants, Kara Matteson
Lecturer, ARHU-English; B.A., University of Maryland-College Park, 2008; M.Ed., 2009; M.A., 2016.

Plotkin, Larry
Lecturer, SPHL-Kinesiology; B.S., Towson State College, 1990; B.S., National University of Health Sciences, 1991; Sc.D., 1993.

Plough, Louis Valentine
Visiting Associate Professor, CMNS-Marine & Estuarine-Environmental Science Prog; B.A., Bowdoin College, 2003; Ph.D., University of Southern California, 2011.

Polat, Nihat
Chair, EDUC-Teaching and Learning, Policy and Leadership; Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., Marmara University, 1997; M.A., Georgian Technical University, 1999; Ph.D., University of Texas-Austin, 2007.

Polinsky, Maria
Professor Emerita, ARHU-Linguistics; B.A., Moscow State University, 1979; M.A., Russian Academy of Sciences, 1983; Ph.D., 1986.

Polito, Francesca
Lecturer, INFO-College of Information Studies; B.S., SUNY-Empire State College, 2020; M.S., Iowa State University, 2021; Ph.D., 2024.

Polyakov, Sergey
Adjunct Associate Professor, CMNS-Physics; M.S., Moscow State University, 1998; B.S., 1998; B.S./M.S., 1998; M.S., University of Central Florida, 2000; M.S., 2001; Ph.D., 2003.

Pomplon, William Anthony
Lecturer, ENGR-Mechanical Engineering; B.S., University of Maryland-College Park, 2013.

Ponce, Audaldo
Senior Lecturer, ENGR-Materials Science & Engineering; B.S., Universidad de Concepcion, 1995; Ph.D., Kansas State University, 2002.

Pop, Mihai
Director, CMNS-Institute for Advanced Computer Studies; Professor, CMNS-Computer Science; B.S., Polytechnic University of Bucharest, 1994; M.S., Johns Hopkins University, 1998; Ph.D., 2000.

Pope, Cassondra N
Senior Lecturer, ARHU-Communication; B.Mech.E., Georgia Institute of Technology, 1993; B.S., Spelman College, 1993; M.F.A., Howard University, 1998.

Pope, Nolan
Associate Professor, BSOS-Economics; B.A., Brigham Young University, 2011; Ph.D., University of Chicago, 2017.

Popper, Arthur N.
Professor Emeritus, CMNS-Biology; B.A., New York University, 1964; Ph.D., CUNY-Graduate School & University Center, 1969.

Porges, Stephen
Professor Emeritus, EDUC-Human Development and Quantitative Methodology; B.A., Drew University, 1966; M.S., Michigan State University, 1968; Ph.D., 1970.

Portee, Jenese Elizabeth
Lecturer, EDUC-Counseling, Higher Education and Special Education; B.A., University of North Carolina-Greensboro, 2006; M.S., University of North Florida, 2016.

Porter, Adam A.
Professor, CMNS-Computer Science; Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Professor, ENGR-Institute for Systems Research; B.A., California State University-Dominguez Hills, 1986; M.S., University of California-Irvine, 1988; Ph.D., 1991.

Porter, Lauren Caroline
Associate Professor, BSOS-Criminology & Criminal Justice; B.A., Dickinson College, 2006; M.A., SUNY-Albany, 2010; Ph.D., 2012.

Porter, Tom E.
Professor, AGNR-Animal & Avian Sciences; B.S., University of Minnesota-Duluth, 1983; Ph.D., University of Minnesota-Twin Cities, 1988.

Portier, Kendra Eve
Associate Professor, ARHU-School of Theatre, Dance & Performance Studies; B.F.A., Ohio State University, 2002; M.F.A., University of Illinois-Urbana/Champaign, 2018.

Porto, Trey
Adjunct Professor, CMNS-Physics; B.S., University of North Carolina-Chapel Hill, 1990; Ph.D., Cornell University, 1996.

Poterjoy, Jonathan
Associate Professor, CMNS-Atmospheric & Oceanic Science; B.S., Millersville University, 2009; Ph.D., Pennsylvania State University, 2014.

Potter, Craig G.
Senior Lecturer, ARHU-School of Music; B.Mus., University of Kentucky, 2008; M.Mus., University of Louisville, 2013; D.M.A., University of Maryland-College Park, 2018.

Poulin, Myles
Associate Professor, CMNS-Chemistry & Biochemistry; B.S., University of Northern British Columbia, 2007; Ph.D., University of Alberta-Edmonton, 2012.

Pourgol, Mohammad
Adjunct Associate Professor, ENGR-Mechanical Engineering; B.S., University of Tabriz, 1995; M.S., Amirkabir University of Technology, 1999; M.S., University of Maryland-College Park, 2005; Ph.D., University of Maryland-Global Campus, 2006.

Powell, Danielle Sturgeon
Assistant Professor, BSOS-Hearing & Speech Sciences; B.S., Northwestern University, 2009; Au.D., University of North Carolina-Chapel Hill, 2013; Ph.D., Johns Hopkins University, 2021.

Powell, Emma
Lecturer, SPHL-Kinesiology; B.S., University of Georgia, 2021; M.P.H., University of Maryland-College Park, 2023.

Powell, Susan Chong
Lecturer, BMGT-Dean-Career Management; B.A., University of Maryland-College Park, 1995.

Powell, Tim
Assistant Clinical Professor, ARHU-School of Music; B.S., Pennsylvania State University, 2003; M.Mus., University of Maryland-College Park, 2006; D.M.A., 2012.

Power, Paul W.
Professor Emeritus, EDUC-Counseling, Higher Education and Special Education; B.A., St. Paul's College, 1953; M.S., San Diego State University, 1971; Sc.D., Boston University, 1975.

Pradhan, Abani K
Professor, AGNR-Nutrition and Food Science; B.S., Orissa University of Agriculture & Techn, 1998; M.S., Indian Institute of Technology-Kharagpur, 2001; Ph.D., University of Arkansas-Fayetteville, 2006.

Prajapati, Ashok K
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.S., Kamla Nehru Institute of Technology, 2002; M.S., National Institute of Technology - Durgapur, 2006; Ph.D., Oakland University, 2011.

Pramschufer, Susan Marie
Senior Lecturer, ARHU-American Studies; Senior Lecturer, ARHU-English; B.A., University of California-Los Angeles, 2000; M.A., Claremont Graduate University, 2002.

Prather, M. Elizabeth S.
Professor Emerita, AGNR-Nutrition and Food Science; B.S., Auburn University, 1951; M.S., 1955; Ph.D., Iowa State University, 1963.

Prather, Richard William II
Associate Professor, EDUC-Human Development and Quantitative Methodology; B.S., Massachusetts Institute of Technology, 2002; Ph.D., University of Wisconsin-Madison, 2009.

Pratt, Michael Reed
Lecturer, ENGR-Maryland Technology Enterprise Institute; B.A., East Carolina University, 1973; M.B.A., Massey University, 1992; M.S., Johns Hopkins University, 1998.

Preece, Jennifer J.
Professor Emerita, INFO-College of Information Studies; B.S., University of Ulster, 1971; Ph.D., The Open University, 1985.

Prentice, Ann E.
Professor Emerita, INFO-College of Information Studies; A.B., University of Rochester, 1954; M.L.S., 1964; D.O., Columbia University, 1972.

Preonas, Louis Demetri
Associate Professor, AGNR-Agricultural & Resource Economics; B.A., University of Michigan-Ann Arbor, 2007; M.S., University of California-Berkeley, 2013; D.O., 2018.

Presser, Stanley
Distinguished University Professor, BSOS-Sociology; A.B., Brown University, 1971; Ph.D., University of Michigan-Ann Arbor, 1977.

Pressly, William L.
Professor Emeritus, ARHU-Art History & Archaeology; B.A., Princeton University, 1966; Ph.D., New York University, 1974.

Presson, Joelle C.
Instructor, CMNS-College of Computer, Math & Natural Sciences; B.A., University of South Florida, 1974; M.A., 1977; Ph.D., University of Oregon, 1982.

Prestegaard, Karen L.
Associate Professor, CMNS-Geology; B.A., University of Wisconsin-Madison, 1976; M.S., University of California-Berkeley, 1979; Ph.D., 1982.

Price, Richard N.
Professor Emeritus, ARHU-History; B.A., University of Sussex-Falmer, 1965; Ph.D., 1968.

Price, Selena Rae
Lecturer, BSOS-Criminology & Criminal Justice; B.A., Pennsylvania State University, 2001; M.A., 2006.

Prichard, Stephanie
Associate Professor, ARHU-School of Music; B.Mus.Ed., University of Maryland-College Park, 2005; M.Mus., Northwestern University, 2009; Ph.D., University of Colorado-Boulder, 2013.

Priest, Dana Louise
Professor, JOUR-Philip Merrill College of Journalism; B.A., University of California-Santa Cruz, 1981.

Prince, Stephen D.
Professor Emeritus, BSOS-Geography; B.S., University of Bristol, 1966; Ph.D., Lancaster University, 1971.

Prior, Steven J.
Associate Professor, SPHL-Kinesiology; B.S., University of Pittsburgh-Bradford, 1999; M.A., Ohio State University, 2001; Ph.D., University of Maryland-College Park, 2005.

Prochno, Paulo
Clinical Professor, BMGT-Management & Organization; B.E., University of Sao Paulo, 1994; M.B.A./M.S., Vanderbilt University, 1997; M.S/Ph.D., Insead University, 2002.

Provine, Robert C.
Professor Emeritus, ARHU-School of Music; B.A., Harvard University, 1966; M.A., 1972; M.A., 1970; Ph.D., 1979.

Prucha, Ingmar R.
Distinguished University Professor, BSOS-Economics; M.A., Technische Universitat Wien, 1973; Ph.D., 1977.

Przygrodzka, Emilia
Assistant Professor, AGNR-Animal & Avian Sciences; M.S., Other, 2009; Ph.D., Polish Academy of Sciences-Warsaw, 2016.

Puett, Robin
Associate Dean, SPHL-School of Public Health; Professor, SPHL-Global, Environmental, and Occupational Health; B.A., Emory University, 1991; M.P.H., 1997; Ph.D., University of South Carolina-Columbia, 2004; Ph.D., 2004.

Pugh, William
Professor Emeritus, CMNS-Computer Science; B.S., Syracuse University, 1980; Ph.D., Cornell University, 1988.

Pugsley, James H.
Associate Professor Emeritus, ENGR-Electrical & Computer Engineering; B.A., Oberlin College, 1956; M.S., University of Illinois-Urbana/Champaign, 1958; Ph.D., 1963.

Puranik, Purushottamachar
Adjunct Assistant Professor, CMNS-IBBR; Adjunct Assistant Professor, CMNS-IBBR; B.S., Gulbarga University, 1996; M.S., Rajiv Ghandi University, 1998; Ph.D., University of Mumbai, 2004.

Purtilo, James M.
Associate Professor, CMNS-Computer Science; B.A., Hiram College, 1978; M.A., Kent State University-all campuses, 1980; Ph.D., University of Illinois-Urbana/Champaign, 1986.

Q

Qi, Yiping
Professor, AGNR-Plant Science & Landscape Architecture; B.S., Nankai University-Tientsin, 2000; M.S., Shanghai Jiaotong University, 2003; Ph.D., University of Minnesota-Twin Cities, 2009.

Qian, Jingyi
Assistant Professor, BMGT-Robert H. Smith School of Business; Assistant Professor, BMGT-Accounting; B.O., Nankai University-Tientsin, 2015; M.S., Boston College, 2016; Ph.D., Emory University, 2021.

Qin, Xuanzi
Assistant Professor, SPHL-Health Policy and Management; B.E., South China University of Technology, 2012; M.P.H., Emory University, 2014; Ph.D., University of Minnesota-Twin Cities, 2020.

Qiu, Yueming Lucy
Associate Dean, PLCY-School of Public Policy; Professor, PLCY-School of Public Policy; B.E., Tsinghua University/Qinghua University, 2007; M.A., Stanford University, 2012; Ph.D., 2012.

Qu, Gang
Professor, ENGR-Electrical & Computer Engineering; Professor, ENGR-Institute for Systems Research; B.S., Hefei University of Technology, 1992; M.S., 1994; M.S., University of Oklahoma, 1996; M.S., University of California-Los Angeles, 1998; Ph.D., 2000.

Qu, Yan
Assistant Professor, ARHU-Communication; B.A., Shandong University, 2014; M.P.P., University of Maryland-College Park, 2016; Ph.D., University of North Carolina-Chapel Hill, 2021.

Quader, Faisal
Lecturer, INFO-College of Information Studies; B.S., University of Wisconsin-Oshkosh, 1995; M.S., Johns Hopkins University, 2003; Ph.D., University of Maryland-Baltimore County, 2020.

Quander, Fatima
Lecturer, ARHU-School of Theatre, Dance & Performance Studies; B.A., Beloit College, 2001; M.F.A., The New School, 2005.

Quinlan, Elizabeth M.
Visiting Professor, CMNS-Biology; B.S., University of Iowa, 1986; Ph.D., University of Illinois-Chicago, 1993.

Quinn, Sandra Crouse
Professor Emerita, SPHL-Family Science; B.S., Virginia Commonwealth University, 1973; M.Ed., American University, 1977; Ph.D., University of Maryland-College Park, 1993.

Quintana, Isadora
Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., University of Maryland-College Park, 2021; M.A., 2024.

Quintero-Herencia, Juan Carlos
Professor, ARHU-School of Languages, Literatures, and Cultures; Affiliate Professor, ARHU-Dean-Latin American and Caribbean Studies Center; Affiliate Professor, ARHU-American Studies; B.A., University of Puerto Rico-Rio Piedras, 1986; M.A., Princeton University, 1988; Ph.D., 1995.

Quintiere, James G.
Professor Emeritus, ENGR-Fire Protection Engineering; B.S., New Jersey Institute of Technology, 1962; M.S., New York University, 1966; Ph.D., 1970.

Quintos Alonso, Beatriz Eugenia
Associate Clinical Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., University of the Americas-Mexico City, 1999; M.A., University of Arizona, 2002; Ph.D., 2008.

Quiros Alcala, Lesliam
Adjunct Assistant Professor, SPHL-Global, Environmental, and Occupational Health; B.S., Texas A&M University-College Station, 2000; M.S., 2001; Ph.D., University of California-Berkeley, 2010.

Quraishi, Qudsia Sara
Adjunct Assistant Professor, CMNS-Physics; B.A., University of Colorado-Boulder, 2000; B.A., 2000; Ph.D., University of Colorado-Denver, 2008.

R

Rabe, Nathan
Director, UGST-AFROTC-Air Science; Lecturer, UGST-AFROTC-Air Science; B.A., Ohio State University, 1998; M.S., National Defense University, 2009; M.S., United States Marine Corps University, 2016.

Rabenhorst, Martin Capell
Professor, AGNR-Environmental Science & Technology; B.S., University of Maryland-College Park, 1975; M.S., 1978; Ph.D., Texas A&M University-College Station, 1983.

Rabin, Herbert
Professor Emeritus, ENGR-Electrical & Computer Engineering; B.S., University of Wisconsin-Madison, 1950; M.S., University of Illinois-Urbana/Champaign, 1951; Ph.D., University of Maryland-College Park, 1959.

Rabin, Oded
Associate Professor, ENGR-Materials Science & Engineering; Associate Professor, CMNS-Institute for Research in Electronics & Applied Physics; B.A., Technion-Israel Institute of Tech, 1996; M.S., Weizmann Institute of Science, 1998; Ph.D., Massachusetts Institute of Technology, 2004.

Racz, Sarah Jensen
Assistant Clinical Professor, BSOS-Psychology; B.A., Cornell University, 2003; M.S., University of Washington-Seattle, 2008; Ph.D., 2012.

Radhakrishnan, Rakesh
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.S., University of Virginia, 1995; Ph.D., Virginia Polytechnic Institute & State University, 2001; M.Eng., Rensselaer Polytechnic Institute at Hartford, 2006; M.B.A., Carnegie Mellon University, 2009.

Rady, Dina A
Lecturer, SPHL-Family Science; B.A., Ain Shaims University-Cairo, 1992; M.A., 1996; Ph.D., 2000; M.A., American University, 2017.

Raffan Montoya, Fernando
Assistant Professor, ENGR-Fire Protection Engineering; Affiliate Assistant Professor, ENGR-Mechanical Engineering; B.S., Florida Institute of Technology-Melbourne, 2005; M.S., University of Maryland-College Park, 2008; Ph.D., 2016.

Ragan, Robert M.
Professor Emeritus, ENGR-Civil & Environmental Engineering; B.S., Virginia Military Institute, 1955; M.S., Massachusetts Institute of Technology, 1959; Ph.D., Cornell University, 1965.

Raghavan, Raghu
Professor, BMGT-Robert H. Smith School of Business; Professor, ENGR-Institute for Systems Research; Professor, BMGT-Decision, Operations & Information Technologies; B.E., Indian Institute of Technology, 1987; M.S., Rensselaer Polytechnic Institute, 1988; Ph.D., Massachusetts Institute of Technology, 1995.

Raghavan, Srinivasa R.
Professor, ENGR-Chemical & Biomolecular Engineering; Affiliate Professor, ENGR-Materials Science & Engineering; Affiliate Professor, ENGR-Fischell Department of Bioengineering; 2017-2018 Distinguished Scholar-Teacher. B.S., Indian Institute of Technology-Madras, 1992; Ph.D., North Carolina State University, 1998.

Rahaman, Shaik
Professor, AGNR-Nutrition and Food Science; Affiliate Professor, AGNR-Veterinary Medicine Program; B.Mus.Ed., University of Calcutta, 1991; M.S., 1993; D.O., Jadavpur University, 1999.

Rai, Aneesh
Assistant Professor, BMGT-Robert H. Smith School of Business; Assistant Professor, BMGT-Management & Organization; B.A., Princeton University, 2016; Ph.D., University of Pennsylvania, 2023.

Raianu, Mircea C.
Associate Professor, ARHU-History; B.A., University of California-Berkeley, 2009; M.A., Harvard University, 2013; Ph.D., 2017.

Raimond, Austin
Lecturer, ARCH-Architecture Program; B.S., University of Maryland-College Park, 2014; M.Arch., 2016.

Rainsford, TJ
Lecturer, INFO-College of Information Studies; B.A., Mount Saint Mary's University, 1995; M.A., Shippensburg University of Pennsylvania, 1998.

Raissi-Dehkordi, Majid
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.S., Sharif University of Technology, 1989; M.S., Iran University of Science & Technology, 1994; Ph.D., University of Maryland-College Park, 2002.

Rajan, Sindhu
Lecturer, BMGT-Decision, Operations & Information Technologies; B.E., University of Kerala, 1991; M.B.A., University of Maryland-College Park, 2001.

Ram, Natalie
Visiting Professor, BSOS-Dean-MLAW Programs; B.A., Princeton University, 2004; J.D., Yale University, 2008.

Ramachandran, Niranjan
Professor, CMNS-Mathematics; B.S., Massachusetts Institute of Technology, 1991; M.A., Brown University, 1995; Ph.D., 1996.

Ramani, Geetha B
Professor, EDUC-Human Development and Quantitative Methodology; B.A., Bryn Mawr College, 1998; M.S., University of Pittsburgh, 2002; Ph.D., 2005.

Ramaprasad, Jui
Associate Professor, BMGT-Robert H. Smith School of Business; Associate Professor, BMGT-Decision, Operations & Information Technologies; B.S., University of Southern California, 2001; D.O., University of California-Irvine, 2009.

Ramirez, Ariel
Lecturer, BMGT-Accounting; Lecturer, BMGT-Accounting; B.S., Tampa College, 1992; M.B.A., 1994.

Ramos, Adan Jose
Lecturer, ARCH-Architecture Program; B.S., University of Maryland-College Park, 2015; M.RED, 2020.

Ramos, Ivan A.
Visiting Assistant Professor, ARHU-Women, Gender and Sexuality Studies; B.A., University of California-San Diego, 2008; Ph.D., University of California-Berkeley, 2015.

Ramsey, Samuel Robert
Professor Emeritus, ARHU-School of Languages, Literatures, and Cultures; B.C.E., Georgia Institute of Technology, 1966; M.A., Yale University, 1972; M.Phil., 1972; Ph.D., 1975.

Rana, Manit
Lecturer, INFO-College of Information Studies; M.S., University of Maryland-College Park, 2024.

Ranade, Priyanka Sudesh
Lecturer, UGST-HCOL-ACES Cybersecurity Program; B.S., University of Maryland-Baltimore County, 2018; M.S., 2019.

Ranadive, Sushant Mohan
Associate Professor, SPHL-Kinesiology; B.S., King Edward Memorial Hospital & Seth G.S. Medical College, 2005; M.S., University of Illinois-Chicago, 2007; Ph.D., University of Illinois-Urbana/Champaign, 2012.

Randolph, Suzanne M.
Associate Professor Emerita, SPHL-Family Science; B.S., Howard University, 1974; M.A., University of Michigan-Ann Arbor, 1977; Ph.D., 1981.

Rankel, Peter
Lecturer, BMGT-Other Programs-IBM/Quest; B.S., Boston College, 2000; Ph.D., University of Maryland-College Park, 2016.

Rankin, Mary Ann
Professor, CMNS-Biology; B.S., Louisiana State University-Baton Rouge, 1966; Ph.D., University of Iowa, 1972.

Raschid, Louiqa
Professor, BMGT-Robert H. Smith School of Business; Professor, CMNS-Institute for Advanced Computer Studies; Professor, BMGT-Decision, Operations & Information Technologies; Affiliate Professor, CMNS-Computer Science; B.Tech., Indian Institute of Technology-Madras, 1980; M.Eng., University of Florida, 1982; Ph.D., 1987.

Ratcliff, William II
Adjunct Associate Professor, ENGR-Materials Science & Engineering; B.E., University of Michigan-Ann Arbor, 1997; Ph.D., Rutgers University, 2003.

Rath, Jessica Miller
Adjunct Assistant Professor, SPHL-Behavioral & Community Health; B.A., University of Arizona, 1998; M.P.H., Emory University, 2000; Ph.D., Johns Hopkins University, 2005.

Rathinasamy, Meera
Lecturer, BSOS-Hearing & Speech Sciences; B.S., University of Wisconsin-Madison, 2005; M.A., Northwestern University, 2008.

Ratnapala, Narendra D
Lecturer, ARHU-Art; B.A., University of Maryland-College Park, 1977; M.F.A., 1990.

Ratner, Nan Bernstein
Distinguished University Professor, BSOS-Hearing & Speech Sciences; Affiliate Professor, ARHU-Dean-MD Language Science Center; B.A., Tufts University, 1974; M.A., Temple University, 1976; Ed.D., Boston University, 1982.

Ratner, Rebecca K.
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Marketing; B.A., Williams College, 1992; M.A., Princeton University, 1995; Ph.D., 1999.

Raupp, Michael J.
Professor Emeritus, CMNS-Entomology; B.S., Rutgers University, 1975; M.S., 1977; Ph.D., University of Maryland-College Park, 1981.

Ravishankar, C
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.E., Bangalore University, 1985; M.Tech., Indian Institute of Technology-Mumbai, 1986; Ph.D., Purdue University-West Lafayette, 1991.

Rawat, Nidhi
Associate Professor, AGNR-Plant Science & Landscape Architecture; B.S., Hemvati Nandan Bahuguna Garhwal University, 2002; M.S., 2004; Ph.D., Indian Institute of Technology, 2009.

Ray, Billie
Lecturer, AGNR-Agricultural & Resource Economics; B.S., University of Tennessee-Knoxville, 2021; M.S., 2023.

Ray, Deep
Assistant Professor, CMNS-Mathematics; Assistant Professor, CMNS-Institute for Physical Science & Technology; B.S., University of Delhi, 2010; M.S., Tata Institute of Fundamental Research, 2012; Ph.D., 2017.

Ray, Rashawn
Professor, BSOS-Sociology; B.A., University of Memphis, 2003; M.A., Indiana University, 2005; D.O., 2010.

Ray, Sangeeta
Professor, ARHU-English; Affiliate Professor, ARHU-American Studies; Affiliate Professor, ARHU-Women, Gender and Sexuality Studies; B.A., University of Calcutta, 1980; M.A., 1983; M.A., University of Miami, 1987; Ph.D., University of Washington-Seattle, 1991.

Raynor, Michael
Lecturer, ENGR-Civil-Center for Excellence on Project Management; B.A., Harvard University, 1990; M.A., University of Western Ontario, 1994; D.B.A., Harvard University, 2000.

Razzak, Samir
Lecturer, EDUC-Teaching and Learning, Policy and Leadership; B.A., University of Maryland-College Park, 2021; M.Ed., 2024.

Reaka, Marjorie Lindquist
Professor Emerita, CMNS-Biology; Visiting Professor, CMNS-Biology; B.A., University of Kansas, 1965; M.S., 1969; Ph.D., University of California-Berkeley, 1975.

Rearick, William R.
Professor Emeritus, ARHU-Art History & Archaeology; B.A., New York University, 1953; M.A., 1955; Ph.D., Harvard University, 1968.

Reck, Daniel Holtmann
Associate Professor, BSOS-Economics; B.A., University of Oklahoma, 2010; M.A., University of Michigan-Ann Arbor, 2013; Ph.D., 2016.

Redcay, Elizabeth
Professor, BSOS-Psychology; B.S., Duke University, 2001; M.A., University of California-San Diego, 2003; Ph.D., 2008.

Redmond, Adam
Lecturer, BSOS-Hearing & Speech Sciences; B.A., University of Washington-Seattle, 2007; B.S., 2013; M.A., University of Maryland-College Park, 2016.

Reed, Joel Christian
Lecturer, BSOS-Anthropology; B.A., University of Kentucky, 1998; M.P.H., University of South Florida, 2005; Ph.D., Michigan State University, 2016.

Reed, William
Assistant Provost, SVPAAP-Office of the Senior Vice President & Provost; Professor, BSOS-Government & Politics; B.A., Emory University, 1992; M.A., Florida State University, 1996; Ph.D., 1998.

Reedy, Timothy Duane
Lecturer, ENGR-A. James Clark School of Engineering; B.S., University of Central Missouri, 2009; M.S., Washington University in Saint Louis, 2015; Ph.D., University of Maryland-College Park, 2021.

Reese, Scot M.
Professor, ARHU-School of Theatre, Dance & Performance Studies; 2023-2024 Distinguished Scholar-Teacher. B.A., University of California-Los Angeles, 1981; M.F.A., Northwestern University, 1994.

Regan, Thomas M.
Professor Emeritus, ENGR-Chemical & Biomolecular Engineering; B.S., Tulane University, 1963; Ph.D., 1967.

Reggia, James A.
Professor Emeritus, CMNS-Computer Science; B.S., University of Maryland-College Park, 1971; M.D., University of Maryland at Baltimore, 1975; Ph.D., University of Maryland-College Park, 1981.

Regli, William C III
Professor, CMNS-Computer Science; Affiliate Professor, ENGR-Institute for Systems Research; Affiliate Professor, ENGR-Mechanical Engineering; Affiliate Professor, ENGR-Electrical & Computer Engineering; B.S., St. Joseph's University, 1989; M.S., University of Maryland-College Park, 1994; Ph.D., 1995.

Reid, Carlene Daisy
Lecturer, BSOS-Hearing & Speech Sciences; B.A., Hampton University, 2006; M.S., Florida State University, 2008; Ed.D., Drexel University, 2019.

Reiff, Joseph S
Assistant Professor, BMGT-Robert H. Smith School of Business; Assistant Professor, BMGT-Marketing; B.A., Tufts University, 2015; Ph.D., University of California-Los Angeles, 2023.

Reilly, Allison Coffey
Associate Professor, ENGR-Civil & Environmental Engineering; B.S., Johns Hopkins University, 2005; M.S., Cornell University, 2008; Ph.D., 2011.

Reitz, Galina Madjaroff
Senior Lecturer, INFO-College of Information Studies; B.A., University of Maryland-Baltimore County, 2008; M.A., 2010; Ph.D., 2018.

Ren, Joan JianJian
Professor, CMNS-Mathematics; B.S., Peking University, 1982; M.A., University of Montana, 1987; M.S., University of North Carolina-Chapel Hill, 1989; Ph.D., 1990.

Ren, Shenqiang
Professor, ENGR-Materials Science & Engineering; B.E., Nanjing University/Nanking University, 2004; Ph.D., University of Maryland-College Park, 2009.

Rendall, Michael S.
Director, BSOS-Dean-Maryland Population Research Center; Professor, BSOS-Sociology; B.S., Massey University, 1981; M.A., University of California-Santa Barbara, 1987; M.A., Brown University, 1990; Ph.D., 1993.

Rengifo-Caicedo, Fernando
Lecturer, BSOS-Hearing & Speech Sciences; M.P.H., Tulane University, 1997; Au.D., Salus University, 2015.

Resmini, Mauro
Associate Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., Universita' Cattolica del Sacro Cuore, Milan, Italy, 2003; M.A., 2006; Ph.D., Brown University, 2014.

Resnik, Philip
Professor, ARHU-Linguistics; Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Professor, CMNS-Computer Science; A.B., Harvard University, 1987; M.S., University of Pennsylvania, 1990; Ph.D., 1993.

Resop, Jonathan Patrick
Principal Lecturer, BSOS-Geography; B.S., University of Maryland-College Park, 2004; B.S., 2004; M.Ed., 2006; Ph.D., Virginia Polytechnic Institute & State University, 2010.

Reuning, Charles
Associate Vice President, VPA-VP Administration; M.S., U.S. Naval Postgraduate School-Monterey, 2001.

Reuter, Peter H.
Distinguished University Professor, PLCY-School of Public Policy; Distinguished University Professor, BSOS-Criminology & Criminal Justice; B.A., University of New South Wales, 1966; M.Phil., Yale University, 1971; Ph.D., 1980.

Reutt-Robey, Janice
Chair, CMNS-Chemistry & Biochemistry; Professor, CMNS-Chemistry & Biochemistry; B.A., Haverford College, 1980; Ph.D., University of California-Berkeley, 1986.

Reveal, James L.
Professor Emeritus, CMNS-Cell Biology & Molecular Genetics; B.S., Utah State University, 1963; M.S., 1965; Ph.D., Brigham Young University, 1969.

Reyna, Justin Marcos
Associate Clinical Professor, BMGT-Logistics, Business & Public Policy; B.A., University of Rochester, 1999; J.D., Loyola University, 2004.

Reynnells, Richard D
Lecturer, ARHU-English; A.A.S., Southwestern Michigan College, 1972; B.S., Michigan State University, 1974; M.S., 1976; Ph.D., 1979.

Reynolds, Christopher S.
Distinguished University Professor, CMNS-Astronomy; B.A., Aberystwyth University, 1992; Ph.D., 1996.

Reynolds, Sue
Senior Lecturer, SPHL-Behavioral & Community Health; B.S., East Carolina University, 1986; M.A., 1988; Ph.D., University of Maryland-College Park, 1994.

Rhee, Moon-Jhong
Professor Emeritus, ENGR-Electrical & Computer Engineering; B.S., Seoul National University, 1958; M.S., 1960; Ph.D., Catholic University of America, 1970.

Rhue, Lauren A
Assistant Professor, BMGT-Robert H. Smith School of Business; Assistant Professor, BMGT-Decision, Operations & Information Technologies; B.S., Stanford University, 2004; Ph.D., New York University, 2014.

Riaz, Amir
Associate Professor, ENGR-Mechanical Engineering; B.S., Pakistan University of Engineering & Technology - Lahore, 1994; M.S., University of Southern California, 2002; Ph.D., University of California-Santa Barbara, 2003.

Rice, Jennifer King
Senior Vice President & Provost, SVPAAP-Office of the Senior Vice President & Provost; Professor, EDUC-Teaching and Learning, Policy and Leadership; 2017-2018 Distinguished Scholar-Teacher. B.S., Marquette University, 1990; M.S., Cornell University, 1993; Ph.D., 1995.

Richard, Jean-Paul
Professor Emeritus, CMNS-Physics; B.A., Laval University-Quebec, 1956; B.S., 1960; Ph.D., University of Paris, 1963.

Richards, Crystal Janell
Lecturer, ENGR-Civil-Center for Excellence on Project Management; B.A., Georgetown University, 1999; M.A., University of North Carolina-Chapel Hill, 2003.

Richardson, Brian E.
Professor, ARHU-English; Affiliate Professor, ARHU-American Studies; B.A., University of Washington-Seattle, 1982; M.A., 1984; Ph.D., 1988.

Richardson, Christopher J.
Adjunct Professor, ENGR-Materials Science & Engineering; B.S., University of Maine at Orono, 1995; M.S., Johns Hopkins University, 1998; Ph.D., 2000.

Richardson, Derek Charles
Professor, CMNS-Astronomy; 2019-2020 Distinguished Scholar-Teacher. B.S., University of British Columbia, 1990; Ph.D., University of Cambridge, 1993.

Richardson, Joseph B Jr.
Professor, BSOS-African American Studies; Professor, BSOS-Anthropology; B.A., University of Virginia, 1990; M.A., Rutgers University, 1992; Ph.D., 2003.

Richardson-Deppe, Charlotte Rachel
Lecturer, ARHU-Art; B.A., Grinnell College, 2019; M.F.A., University of Maryland-College Park, 2023.

Richmond, Jordan
Assistant Professor, BMGT-Robert H. Smith School of Business; Assistant Professor, BMGT-Finance; M.A., Princeton University, 2020; Ph.D., 2024.

Richter, Daniel
Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., University of Texas-Austin, 2001; M.A., Universidad Torcuato Di Tella, 2007; Ph.D., University of Maryland-College Park, 2016.

Rick, Jonathan
Lecturer, ARHU-English; B.A., Hamilton College, 2005.

Rickard, Lisa
Assistant Clinical Professor, BSOS-Hearing & Speech Sciences; B.S., Pennsylvania State University, 1981; M.A., Hahnemann University, 1986; Au.D., University of Florida, 2010.

Ricotti, Massimo
Professor, CMNS-Astronomy; B.S./M.S., University of Florence, 1996; M.S., University of Colorado-Boulder, 1999; Ph.D., 2001.

Ridge, Clark
Adjunct Professor, CMNS-Chemistry & Biochemistry; B.S., University of Delaware, 2005; Ph.D., University of California-Irvine, 2010.

Ridgway, Whitman H.
Associate Professor Emeritus, ARHU-History; A.B., Kenyon College, 1963; M.A., San Francisco State University, 1967; Ph.D., University of Pennsylvania, 1973; J.D., University of Maryland at Baltimore, 1985.

Riggins, Tracy
Professor, BSOS-Psychology; B.S., University of California-San Diego, 2000; Ph.D., University of Minnesota-Twin Cities, 2005.

Riley, Donald R.
Professor Emeritus, BMGT-Robert H. Smith School of Business; B.S., Purdue University-West Lafayette, 1969; M.S., 1970; Ph.D., 1976.

Riley, Sean
Associate Professor, AGNR-Veterinary Medicine Program; B.S., University of Illinois-Urbana/Champaign, 2002; Ph.D., University of Kentucky, 2008.

Rinehart, Geoffrey Jordan
Senior Lecturer, AGNR-Institute of Applied Agriculture; B.S., Virginia Polytechnic Institute & State University, 1997; M.S., Michigan State University, 2000.

Rinzel, John M.
Visiting Professor, ENGR-Institute for Systems Research; B.S., University of Florida, 1967; M.S., New York University, 1968; Ph.D., 1973.

Rios, Fernando
Associate Professor, ARHU-School of Music; B.A., MacMurray College, 1989; M.Mus., Southern Illinois University-Carbondale, 1997; Ph.D., University of Illinois-Urbana/Champaign, 2005.

Rios Ocampo, Carlos Andres
Assistant Professor, ENGR-Materials Science & Engineering; Assistant Professor, CMNS-Institute for Research in Electronics & Applied Physics; B.S., Universidad de Antioquia, 2010; M.S., Karlsruher Institut fur Technologie, 2013; Ph.D., University of Oxford, 2017.

Risco, Cristina Maria
Associate Clinical Professor, BSOS-Psychology; B.S., University of Florida, 2004; M.A., University of Maryland-College Park, 2008; Ph.D., 2011.

Risen, James Edward
Visiting Professor, JOUR-Philip Merrill College of Journalism; B.A., Brown University, 1977; M.A., Northwestern University, 1978.

Ritter, Ronald L.
Professor Emeritus, AGNR-Plant Science & Landscape Architecture; B.S., University of Delaware, 1975; M.S., North Carolina State University, 1977; Ph.D., 1979.

Ritzer, George
Distinguished University Professor Emeritus, BSOS-Sociology; B.A., CUNY-City College of New York, 1962; M.B.A., University of Michigan-Ann Arbor, 1964; Ph.D., Cornell University, 1968.

Rivera, Susan Michelle
Dean, BSOS-College of Behavioral & Social Sciences; Professor, BSOS-Psychology; B.A., Indiana University, 1991; Ph.D., University of California-Berkeley, 1998.

Roberson, Bob S.
Professor Emeritus, CMNS-Cell Biology & Molecular Genetics; B.A., University of North Carolina-Chapel Hill, 1951; Ph.D., 1960.

Roberts, David W
Lecturer, ENGR-Mechanical Engineering; B.S., Virginia Polytechnic Institute & State University, 1989; M.S., Florida Institute of Technology-Melbourne, 1995.

Roberts, Doug A.
Associate Dean, UGST-Undergraduate Studies; Associate Professor, CMNS-Physics; B.S., California Institute of Technology, 1988; M.S., University of California-Los Angeles, 1992; Ph.D., 1994.

Roberts, Eugene L.
Professor Emeritus, JOUR-Philip Merrill College of Journalism; B.A., University of North Carolina-Chapel Hill, 1954; L.L.D., Colby College, 1989.

Roberts, Jennifer D.
Associate Professor, SPHL-Kinesiology; Affiliate Associate Professor, ENGR-Civil & Environmental Engineering; B.A., Brown University, 1996; M.P.H., Emory University, 2000; D.Pub.Hlth., Johns Hopkins University, 2004.

Robertson, Kellie
Professor, ARHU-English; B.A., University of Virginia, 1990; M.A., Yale University, 1993; Ph.D., 1998.

Robertson, Lawrence Vernon
Lecturer, BMGT-Management & Organization; B.A., Stanford University, 1987; M.O., Northwestern University, 1991.

Robin, William
Associate Professor, ARHU-School of Music; B.Mus., Northwestern University, 2010; M.A., University of North Carolina-Chapel Hill, 2013; Ph.D., 2016.

Robinson, Jeffrey Michael
Lecturer, CMNS-College of Computer, Math & Natural Sciences; Lecturer, CMNS-College of Computer, Math & Natural Sciences; B.S., University of Maryland-Baltimore County, 1999; M.S., Johns Hopkins University, 2008; Ph.D., Dartmouth College, 2015.

Rocco, Melissa L.
Lecturer, EDUC-Counseling, Higher Education and Special Education; B.S., Ohio State University, 2005; M.A., 2011; Ph.D., University of Maryland-College Park, 2017.

Roderick, Jessie A.
Professor Emerita, EDUC-Teaching and Learning, Policy and Leadership; B.S., Wilkes College, 1956; M.A., Columbia University, 1957; Ed.D., Temple University, 1967.

Rodgers-Koukoui, Angela Denise
Lecturer, INFO-College of Information Studies; B.A., University of Baltimore, 2019; M.L.S., University of Maryland-College Park, 2021.

Rodriguez, Ana Patricia
Associate Professor, ARHU-School of Languages, Literatures, and Cultures; Affiliate Associate Professor, ARHU-American Studies; Affiliate Associate Professor, ARHU-Women, Gender and Sexuality Studies; Affiliate Associate Professor, ARHU-Dean-Latin American and Caribbean Studies Center; B.A., University of California-Berkeley, 1987; M.A., University of California-Santa Cruz, 1994; Ph.D., 1998.

Rodriguez, Awilda
Associate Professor, EDUC-Counseling, Higher Education and Special Education; B.O., Princeton University, 2003; M.O., Harvard University, 2004; Ph.D., University of Pennsylvania, 2013.

Rodriguez, Efrain E.
Professor, CMNS-Chemistry & Biochemistry; Professor, ENGR-Materials Science & Engineering; 2023-2024 Distinguished Scholar-Teacher. B.S., Massachusetts Institute of Technology, 2003; Ph.D., University of California-Santa Barbara, 2009.

Rodriguez, Sophia
Visiting Associate Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., Marquette University, 2004; M.A., Sonoma State University, 2007; M.O., Fordham University, 2009; Ph.D., Loyola University of Chicago, 2014.

Rodriguez Leal, Daniel
Assistant Professor, AGNR-Plant Science & Landscape Architecture; B.S., Universidad Autonoma de Occidente, 2008; M.S., The National Laboratory of Genomics for Biodiversity, 2010; Ph.D., 2015.

Roe, Yvonne Sasse
Lecturer, ARHU-English; B.A., Florida State University, 2006; M.A.-Teach., George Mason University, 2009.

Roesch, Matthew Ryan
Director, BSOS-Dean-Neuroscience and Cognitive Science; Professor, BSOS-Psychology; Affiliate Professor, CMNS-Biology; B.S., University of Pittsburgh, 1997; Ph.D., 2004.

Rogers, KenYatta
Assistant Professor, ARHU-School of Theatre, Dance & Performance Studies; B.A., Clark Atlanta University, 1994; M.F.A., University of Pittsburgh, 1997.

Rolstad, Kellie
Professor, EDUC-Teaching and Learning, Policy and Leadership; Affiliate Professor, ARHU-Dean-MD Language Science Center; B.A., University of California-Los Angeles, 1986; M.A., 1993; Ph.D., 1998.

Rolston, Steven
Chair, CMNS-Physics; Professor, CMNS-Physics; B.A., Wesleyan University, 1980; Ph.D., SUNY-Stony Brook, 1986.

Romanski, Susan
Lecturer, BSOS-Government & Politics; B.S., University of Florida, 1990; M.A., Boston University, 1992; M.A., 1994.

Romeo, Rachel R.
Assistant Professor, EDUC-Human Development and Quantitative Methodology; Affiliate Assistant Professor, ARHU-Dean-MD Language Science Center; B.A., University of Pennsylvania, 2011; M.S., University College-London, 2012; Ph.D., Harvard University, 2018.

Romero, Danilo B.
Senior Lecturer, ENGR-Electrical & Computer Engineering; B.S., University of the Philippines-Quezon, 1981; B.S., 1983; Ph.D., University of Maryland-College Park, 1989.

Romero Talamas, Carlos Alejandro
Visiting Associate Professor, CMNS-Institute for Research in Electronics & Applied Physics; B.S., Institute of Tech & Higher Education of Monterey, 1995; M.S.S., International Space University, 1998; M.S., California Institute of Technology, 2000; Ph.D., 2005; M.Mech.E., 2005.

Ronquillo, John C.
Associate Professor, PLCY-School of Public Policy; Ph.D., University of Georgia, 2011.

Roos, Philip G.
Professor Emeritus, CMNS-Physics; B.A., Ohio Wesleyan University, 1960; Ph.D., Massachusetts Institute of Technology, 1964.

Rosca, Raluca I.
Lecturer, CMNS-Mathematics; B.S., University of Bucharest, 1990; M.S., 1996; Ph.D., University of Florida, 2001.

Rose, Kenneth Alan
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., University of Washington-Seattle, 1985.

Rosemblatt, Karin
Professor, ARHU-History; B.A., Dartmouth College, 1986; M.A., University of Wisconsin-Madison, 1990; Ph.D., 1996.

Rosenberg, Jonathan M.
Professor, CMNS-Mathematics; A.B., Harvard University, 1972; M.O., University of Cambridge, 1973; Ph.D., University of California-Berkeley, 1976.

Rosendal, Christian
Professor, CMNS-Mathematics; M.S., University of Paris, 2000; M.S., University of Oslo, 2002; Ph.D., University of Paris, 2003.

Rosenfelt, Deborah S.
Professor Emerita, ARHU-Women, Gender and Sexuality Studies; B.A., Goucher College, 1964; M.A., Columbia University, 1965; Ph.D., University of California-Los Angeles, 1972.

Rosenfield, Sylvia A.
Professor Emerita, EDUC-Counseling, Higher Education and Special Education; B.A., Cornell University, 1960; M.A., University of Illinois-Urbana/Champaign, 1961; Ph.D., University of Wisconsin-Madison, 1967.

Rosenstiel, Thomas
Professor of the Practice, JOUR-Philip Merrill College of Journalism; B.A., Oberlin College, 1978; M.A., Columbia University, 1980.

Rosenthal, Daniel Rosenthal
Lecturer, UGST-HCOL-University Honors Program; J.D., George Washington University, 2003.

Rosenthal, Geoffrey
Lecturer, SPHL-Kinesiology; Visiting Professor, SPHL-Kinesiology; B.A., Boston University, 1984; M.S., Georgetown University, 1987; M.D., University of Maryland at Baltimore, 1992.

Rosenthal, Laura J.
Professor, ARHU-English; Affiliate Professor, ARHU-Women, Gender and Sexuality Studies; B.A., Johns Hopkins University, 1983; M.A., Northwestern University, 1985; Ph.D., 1990.

Ross, David S.
Professor Emeritus, AGNR-Environmental Science & Technology; B.S., Pennsylvania State University, 1969; M.S., 1971; Ph.D., 1973.

Ross, Matthew
Lecturer, ARHU-School of Music; B.Mus., University of Cincinnati, 2014; M.Mus., 2016.

Ross, Michael
Professor, ARHU-History; B.A., Skidmore College, 1986; J.D., Duke University, 1989; M.A., University of Massachusetts-Amherst, 1992; Ph.D., University of North Carolina-Chapel Hill, 1999.

Rossi, Clifford V.
Professor of the Practice, BMGT-Finance; B.A., University of Denver, 1979; M.A., Cornell University, 1983; Ph.D., 1985.

Roth, Froma P.
Professor Emerita, BSOS-Hearing & Speech Sciences; B.A., CUNY-Hunter College, 1970; M.A., CUNY-Queens College, 1973; Ph.D., CUNY-Graduate School & University Center, 1980.

Roth, Stephen M.
Associate Provost & Dean, GRAD-Graduate School; Professor, SPHL-Kinesiology; B.S., University of Montana, 1996; M.A., University of Maryland-College Park, 1998; Ph.D., 2000.

Rothman, Korey R.
Senior Lecturer, BSOS-College of Behavioral & Social Sciences; B.A., University of Florida, 1994; M.Ed., 1995; Ph.D., University of Maryland-College Park, 2005.

Roush, Marvin L.
Professor Emeritus, ENGR-Materials Science & Engineering; B.S., Other, 1956; Ph.D., University of Maryland-College Park, 1964.

Roussopoulos, Nicholas
Professor Emeritus, CMNS-Computer Science; B.A., National & Capodistrian University of Athens, 1969; M.S., University of Toronto, 1973; Ph.D., 1977.

Rowe, Christopher L.
Visiting Associate Professor, CMNS-Marine & Estuarine-Environmental Science Prog; B.S., Pennsylvania State University, 1989; Ph.D., 1994.

Rowland, Todd Westley
Lecturer, CMNS-Mathematics; B.S., Massachusetts Institute of Technology, 1992; Sc.D., University of Chicago, 1999.

Rowley, Michelle V
Associate Professor, ARHU-Women, Gender and Sexuality Studies; Affiliate Associate Professor, ARHU-American Studies; B.A., University of West Indies Trinidad-St. Augustine, 1992; M.S., University of the West Indies-Mona, Kingston, 1996; Ph.D., Clark University, 2003.

Roy, Anindo
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.Elect.E., Jamia Millia Islamia, 1998; B.Tech., 1998; M.Phil., University of Sussex-Falmer, 2000; Ph.D., University of Arkansas-Little Rock, 2005.

Roy, Kevin M.
Professor, SPHL-Family Science; B.S., George Washington University, 1988; M.A., Northwestern University, 1995; Ph.D., 1999.

Roy, Nirupam
Associate Professor, CMNS-Computer Science; Associate Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Associate Professor, ENGR-Electrical & Computer Engineering; B.E., Bengal Engineering and Science University, 2008; M.S., University of South Carolina-Columbia, 2013; Ph.D., University of Illinois-Urbana/Champaign, 2018.

Roy, Rajarshi
Professor Emeritus, CMNS-Physics; B.S., University of Delhi, 1973; M.S., 1975; M.A., University of Rochester, 1977; Ph.D., 1981.

Roy, Sougata
Associate Professor, CMNS-Cell Biology & Molecular Genetics; B.S., University of Calcutta, 1995; M.S., 1997; M.Tech., Jadavpur University, 2000; Ph.D., Indian Institute of Science-Bangalore, 2006.

Roytburd, Alexander
Professor Emeritus, ENGR-Materials Science & Engineering; M.D., National University of Science and Technology MISIS, 1956; Ph.D., Russian Academy of Sciences, 1962; D.O., 1972.

Rozenblit, Marsha L.
Professor, ARHU-History; Affiliate Professor, ARHU-Meyerhoff Program & Center for Jewish Studies; Professor, UGST-Dean-National Scholarships Office; B.A., Barnard College, 1971; M.A., Columbia University, 1974; Ph.D., 1980.

Rozin, Rellie Rachel
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Management & Organization; 2025-2026 Distinguished Scholar-Teacher. B.A., Tel Aviv University, 2005; M.S., Technion-Israel Institute of Tech, 2007; Ph.D., Aberystwyth University, 2012.

Rubiano Acosta, Andres
Senior Lecturer, ENGR-Dean-Keystone Program; B.S., Universidad del los Andes, 2008; M.S., 2014; Ph.D., University of Florida, 2018.

Rubin, Kenneth H.
Professor Emeritus, EDUC-Human Development and Quantitative Methodology; B.A., McGill University-Montreal, 1968; M.S., Pennsylvania State University, 1969; Ph.D., 1971.

Rubin, Roger H.
Associate Professor Emeritus, SPHL-Family Science; B.A., CUNY-Brooklyn College, 1965; M.S., Pennsylvania State University, 1966; Ph.D., 1970.

Rubin, Samuel Bruce
Lecturer, AGNR-Institute of Applied Agriculture; B.A., University of Maryland-College Park, 1978; M.A., 1980; B.S., 1987.

Rubinstein, Yanir A.
Professor, CMNS-Mathematics; B.A., Technion-Israel Institute of Tech, 1999; Ph.D., Massachusetts Institute of Technology, 2008.

Rubloff, Gary W.
Distinguished University Professor, ENGR-Materials Science & Engineering; Distinguished University Professor, ENGR-Institute for Systems Research; Affiliate Professor, ENGR-Electrical & Computer Engineering; Affiliate Professor, CMNS-Institute for Research in Electronics & Applied Physics; B.A., Dartmouth College, 1966; M.S., University of Chicago, 1967; Ph.D., 1971.

Rudinger, Rachel
Assistant Professor, CMNS-Computer Science; Assistant Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Assistant Professor, ARHU-Linguistics; B.S., Yale University, 2013; M.S.W.E, Johns Hopkins University, 2016; Ph.D., 2019.

Rudlosky, Scott D.
Adjunct Assistant Professor, CMNS-Earth System Science Interdisciplinary Center; B.S., Ohio State University, 2004; M.S., Florida State University, 2007; Ph.D., 2011.

Rudnick, Roberta L.
Distinguished University Professor Emerita, CMNS-Geology; B.S., Portland State University, 1980; M.S., Sul Ross State University, 1983; Ph.D., Australian National University-Canberra, 1988.

Rudy, Jason R
Professor, ARHU-English; B.A., Princeton University, 1997; M.A., Rutgers University, 2000; Ph.D., 2004.

Ruggeri, Deni
Associate Professor, AGNR-Plant Science & Landscape Architecture; Affiliate Associate Professor, ARCH-Architecture Program; M.L.Arch., Cornell University, 2001; Ph.D., University of California-Berkeley, 2009.

Ruhi, Kazim
Clinical Professor, BMGT-Decision, Operations & Information Technologies; B.S., Gazi University, 1980; M.S., 1983; Ph.D., 1987.

Ruppert, John H.
Professor Emeritus, ARHU-Art; B.A., Miami University, 1974; M.F.A., Rochester Institute of Technology, 1977.

Ruschoff, Carlen M.
Librarian Emerita, LIBR-Libraries; B.A., University of Minnesota-Twin Cities, 1974; M.A., 1977.

Russell, Charles C.
Professor Emeritus, ARHU-School of Languages, Literatures, and Cultures; B.A., Oberlin College, 1956; M.A., Bryn Mawr College, 1964; Ph.D., Harvard University, 1970.

Russell, Katherine Ford
Associate Dean, BSOS-College of Behavioral & Social Sciences; Research Professor, BSOS-Anthropology; B.A., Harvard University, 1985; M.A., Northern Illinois University, 1987; Ph.D., Kent State University, 1996.

Rust, Roland T.
Distinguished University Professor, BMGT-Robert H. Smith School of Business; Distinguished University Professor, BMGT-Marketing; B.A., DePauw University, 1974; M.B.A., University of North Carolina-Chapel Hill, 1977; Ph.D., 1979.

Rutledge, Steven H.
Associate Professor Emeritus, ARHU-Classics; B.A., University of Massachusetts-Boston, 1989; Ph.D., Brown University, 1996.

Ryan, Leigh
Principal Lecturer Emerita, ARHU-English; B.S., Western Connecticut State University, 1965; M.A., University of Maryland-College Park, 1974; Ph.D., 1986.

Rylatko, Oleg V.
Lecturer, ARHU-School of Music; B.Mus., Other, 1988; M.Mus., Moscow State Conservatory, 1992.

Ryzhov, Ilya O.
Chair, BMGT-Decision, Operations & Information Technologies; Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Decision, Operations & Information Technologies; B.S., Cornell University, 2004; M.Eng., 2005; M.S., Stanford University, 2006; M.A., Princeton University, 2008; Ph.D., 2011.

S

Saalfeld, Daniel A
Senior Lecturer, ARHU-English; B.A., University of North Carolina-Charlotte, 1992; M.F.A., American University, 1998.

Sabihi, Samantha Sama
Lecturer, ENGR-Dean-Women in Engineering Program; B.S., Ohio State University, 2017; M.S., University of Maryland-College Park, 2020.

Sachs, Naomi A.
Associate Professor, AGNR-Plant Science & Landscape Architecture; Affiliate Associate Professor, ARCH-Architecture Program; B.A., Brown University, 1992; M.L.Arch., University of California-Berkeley, 1999; Ph.D., Texas A&M University-College Station, 2017.

Sadeghian, Pedram
Senior Lecturer, CMNS-Computer Science; B.A., Transylvania University, 2000; M.S., University of Louisville, 2003; Ph.D., 2006.

Saeedi, Osamah
Adjunct Associate Professor, ENGR-Fischell Department of Bioengineering; B.S., University of Pennsylvania, 2002; M.D., University of Texas Southwestern Medical Center-Dallas, 2007; M.S., University of Maryland at Baltimore, 2018.

Saegusa, Takumi
Associate Professor, CMNS-Mathematics; L.L.B., University of Tokyo, 2002; M.S., California State University-Northridge, 2005; Ph.D., University of Washington-Seattle, 2012.

Saetti, Umberto
Assistant Professor, ENGR-Aerospace Engineering; B.S., Politecnico di Milano, 2014; M.S., Pennsylvania State University, 2016; M.S., 2019; Ph.D., 2019.

Safarpour, Alauna Claire
Visiting Assistant Professor, BSOS-Government & Politics; B.A., University of North Carolina-Chapel Hill, 2013; M.A., American University, 2015; Ph.D., University of Maryland-College Park, 2021.

Safronova, Marianna
Adjunct Professor, CMNS-Physics-Joint Quantum Institute; M.S., Moscow State University, 1994; B.S., 1994; Ph.D., University of Notre Dame, 2001.

Sagdeev, Roald Z.
Distinguished Professor Emeritus, CMNS-Physics; B.S., Moscow State University, 1955; Ph.D., Institute for Physical Problems, 1960; D.O., Siberian Branch of the Russian Academy of Sciences, 1962.

Saggese, Jordana Moore
Director, ARHU-David C. Driskell Center; Professor, ARHU-Art History & Archaeology; B.A., Vanderbilt University, 2001; M.A., University of Illinois-Urbana/Champaign, 2003; Ph.D., 2008.

Saginor, Jesse
Associate Professor, ARCH-School of Architecture, Planning, & Preservation; Associate Professor, ARCH-Real Estate Development; B.A., Michigan State University, 1997; M.P.A., Ohio State University, 2001; M.O., Cleveland State University, 2006.

Sahinalp, Suleyman
Adjunct Professor, CMNS-Computer Science; B.S., Bilkent University, 1990; M.S., 1991; Ph.D., University of Maryland-College Park, 1997.

Sahinoglu, Hatice
Senior Lecturer, CMNS-Mathematics; B.S., Bilkent University, 2005; M.S., 2007; M.S., Brown University, 2009; Ph.D., 2012; M.S., London School of Economics & Political Science, 2015.

Sahyoun, Nadine R.
Professor, AGNR-Nutrition and Food Science; Professor, SPHL-HPAM-Center on Aging; B.A., University of Massachusetts-Boston, 1974; M.S., University of Iowa, 1979; Ph.D., Tufts University, 1995.

Sakelaris, Christopher John
Lecturer, UGST-HCOL-ACES Cybersecurity Program; M.S., Johns Hopkins University, 2009.

Saksvig, Brit Irene
Clinical Professor, SPHL-School of Public Health; B.A., St. Olaf College, 1989; M.H.S., Johns Hopkins University, 1996; Ph.D., 2002.

Salahuddin, Nazish M.
Principal Lecturer, BSOS-Psychology; B.A., University of Maryland-College Park, 2001; M.A., 2005; Ph.D., 2008.

Salako, Olubukola Y
Lecturer, ARHU-English; B.A., University of Maryland-College Park, 2001; M.A., Inter American University Puerto Rico, 2004; Ph.D., Indiana University of Pennsylvania, 2015.

Salamanca-Riba, Lourdes G.
Professor Emerita, ENGR-Materials Science & Engineering; B.S., Universidad Autonoma Metropolitana, 1978; Ph.D., Massachusetts Institute of Technology, 1985.

Salawitch, Ross J.
Professor, CMNS-Atmospheric & Oceanic Science; Professor, CMNS-Earth System Science Interdisciplinary Center; Professor, CMNS-Chemistry & Biochemistry; B.S., Cornell University, 1981; Ph.D., Harvard University, 1987.

Salazar, Rebecca Leigh Sr.
Lecturer, BMGT-Dean-Career Management; M.B.A., University of Maryland-College Park, 2001.

Salehi Zadeh, Hamed
Lecturer, ENGR-Fire Protection Engineering; B.S., Amirkabir University of Technology, 2015; M.S., University of Maryland-College Park, 2019.

Salem, David Ira
Senior Lecturer, BSOS-Criminology & Criminal Justice; B.A., SUNY-Albany, 1978; M.B.A./J.D., University of Maryland-College Park, 1982; M.B.A., 1982.

Salem, Mohamed
Associate Professor, AGNR-Animal & Avian Sciences; B.S., Zagazig University, 1988; M.S., 1995; Ph.D., West Virginia University, 2004.

Salness, David
Professor, ARHU-School of Music;

Salvato, Maria S.
Adjunct Professor, AGNR-Veterinary Medicine Program; B.A., University of California-Los Angeles, 1972; Ph.D., University of California-Berkeley, 1977.

Samet, Hanan
Distinguished University Professor, CMNS-Computer Science; Distinguished University Professor, CMNS-Institute for Advanced Computer Studies; B.S., University of California-Los Angeles, 1970; Ph.D., Stanford University, 1975; M.S., 1975.

Sampson, Rachelle
Associate Professor, BMGT-Robert H. Smith School of Business; Associate Professor, BMGT-Logistics, Business & Public Policy; B.Bus., Queensland University of Technology, 1992; L.L.B., 1992; Ph.D., University of Michigan-Ann Arbor, 1999.

Sanchez, Delida
Associate Professor, EDUC-Counseling, Higher Education and Special Education; B.A., Binghamton University, 1994; M.Ed., Harvard University, 1995; Ph.D., Columbia University, 2002.

Sandalon, Aliza
Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., Tel Aviv University, 1990; M.A., Hebrew University of Jerusalem, 1995; M.A., Middlebury College, 2018.

Sandborn, Peter A.
Professor, ENGR-Mechanical Engineering; B.S., University of Colorado-Boulder, 1982; M.S., University of Michigan-Ann Arbor, 1983; Ph.D., 1987.

Sanders, Jim
Lecturer, BMGT-Management & Organization; B.A., New York University, 1973; M.S., Columbia University, 1974.

Sanders, Martin
Lecturer, PLCY-School of Public Policy; M.Ed., St. John's University, 2015.

Sanford, Lawrence Paul
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; B.S., Brown University, 1978; Ph.D., Massachusetts Institute of Technology, 1984.

Sanford, Robert J.
Professor Emeritus, ENGR-Mechanical Engineering; B.O., George Washington University, 1962; M.S., 1965; Ph.D., Catholic University of America, 1971.

Sanhai, Wendy R.
Visiting Professor of the Practice, BMGT-Management & Organization; B.S., University of Florida, 1994; Ph.D., University of Buffalo, 1999; M.B.A., University of Maryland-College Park, 2009.

Sankavaram, Kavitha
Adjunct Assistant Professor, AGNR-Nutrition and Food Science; B.S., Acharya N.G. Ranga. Agricultural University, 1998; M.O., Sri Venkateswara University, 2001; M.S., Oklahoma State University-Stillwater, 2005; Ph.D., University of Connecticut-all campuses, 2010.

Sanner, Robert Michael
Associate Chair, ENGR-Aerospace Engineering; Associate Professor, ENGR-Aerospace Engineering; B.S., Massachusetts Institute of Technology, 1985; M.S., 1988; Ph.D., 1993.

Santorio, Paolo
Professor, ARHU-Philosophy; M.A., Universita di Bologna, 2005; Ph.D., Massachusetts Institute of Technology, 2011.

Santoro, Wayne Arthur
Associate Professor, BSOS-Sociology; B.A., University of Illinois-Urbana/Champaign, 1991; Ph.D., Ohio State University, 1999.

Santosh, Shrihari
Associate Professor, BMGT-Robert H. Smith School of Business; Associate Professor, BMGT-Finance; B.A., University of Pennsylvania, 2006; B.S., 2006; Ph.D., University of Chicago, 2013; M.B.A., 2013.

Sanyal, Anita
Senior Lecturer, CMNS-College of Computer, Math & Natural Sciences; B.S., University of Massachusetts-Amherst, 2000; M.Ed., University of Maryland-College Park, 2004; Ph.D., 2009.

Saperstein, Sandra L.
Lecturer, SPHL-Behavioral & Community Health; B.A., Binghamton University, 1983; M.S., Boston University, 1986; Ph.D., University of Maryland-College Park, 2010.

Sapkota, Amir
Chair, SPHL-Epidemiology & Biostatistics; Professor, SPHL-Epidemiology & Biostatistics; Ph.D., Johns Hopkins University, 2004.

Sapkota, Amy Rebecca
Chair, SPHL-Global, Environmental, and Occupational Health; Professor, SPHL-Global, Environmental, and Occupational Health; Professor, SPHL-Epidemiology & Biostatistics; B.S., University of Maryland-College Park, 1997; M.P.H., Yale University, 1999; Ph.D., Johns Hopkins University, 2005.

Saponaro, Maggie Z
Librarian IV, LIBR-Libraries; B.A., California State University-Northridge, 1990; M.A., University of California-Los Angeles, 1992.

Saracho, Olivia N.
Professor, EDUC-Teaching and Learning, Policy and Leadership; B.S., Texas Woman's University, 1967; M.Ed., 1972; Ph.D., University of Illinois-Urbana/Champaign, 1978.

Sarna, Naveen
Senior Lecturer, BSOS-Economics; B.A., University of Delhi, 1979; M.A., 1981; M.A., University of Maryland-College Park, 1991; Ph.D., 1997.

Sartorius, David
Associate Professor, ARHU-History; Affiliate Associate Professor, ARHU-Women, Gender and Sexuality Studies; Affiliate Associate Professor, ARHU-Dean-Latin American and Caribbean Studies Center; B.A., Trinity University, 1995; M.A., University of North Carolina-Chapel Hill, 1997; Ph.D., 2003.

Satana, Nil S.
Visiting Associate Professor, BSOS-GVPT-Center for Intntl Development & Conflict Mgmt; B.A., Bogazici University, 1999; M.A., SUNY-University at Buffalo, 2003; Ph.D., 2006.

Satelmajer, Ingrid I.
Lecturer, UGST-HCOL-University Honors Program; B.A., Atlantic Union College, 1992; M.A., Simmons College, 1994; Ph.D., University of Maryland-College Park, 2004.

Sather, Jerome O.
Associate Professor Emeritus, CMNS-Mathematics; B.S., University of Minnesota-Twin Cities, 1957; M.S., 1959; Ph.D., 1963.

Sau, Jay Deep
Director, CMNS-Physics; Professor, CMNS-Physics; B.S., Indian Institute of Technology-Kanpur, 2002; Ph.D., University of California-Berkeley, 2008.

Sauret, Alban
Associate Professor, ENGR-Mechanical Engineering; B.S., Ecole Normale Superieure de Fontenay-Aux, 2007; M.S., 2009; Ph.D., University of Aix-Marseille, 2013.

Sauter, M R
Assistant Professor, INFO-College of Information Studies; B.A., University of Pittsburgh, 2010; M.S., Massachusetts Institute of Technology, 2013; Ph.D., McGill University-Montreal, 2019.

Sax, Steven Paul
Lecturer, CMNS-Mathematics; B.S., Cornell University, 1992; M.Eng., 1994.

Sayer, Liana C.
Chair, BSOS-Sociology; Professor, BSOS-Sociology; B.A., University of Texas-Austin, 1983; M.A., University of Pennsylvania, 1991; Ph.D., University of Maryland-Global Campus, 2001.

Sayre, Clifford L. Jr.
Professor Emeritus, ENGR-Mechanical Engineering; B.S., Duke University, 1947; M.S., Stevens Institute of Technology, 1950; Ph.D., University of Maryland-College Park, 1961.

Scandizzo, Stefania
Principal Lecturer, BSOS-Economics; B.O., Universita Commerciale Luigi Bocconi, 1991; Ph.D., University of Pennsylvania, 1997.

Scarcelli, Giuliano
Professor, ENGR-Fischell Department of Bioengineering; B.O., University of Bari, 2001; M.S., University of Maryland-Baltimore County, 2003; Ph.D., 2006.

Schaaf, Christine Masterson
Lecturer, BMGT-Management & Organization; B.A., Villanova University, 1986; M.S., Johns Hopkins University, 2000.

Schablitsky, Julie M.
Adjunct Assistant Professor, BSOS-Anthropology; B.A., University of Minnesota-Twin Cities, 1993; M.A., Oregon State University, 1996; Ph.D., Portland State University, 2002.

Schachtner-Appel, Amy E
Lecturer, AGNR-Nutrition and Food Science; B.S., Boston University, 2007; M.S., Sage Colleges, 2010; Ph.D., University of Maryland-College Park, 2019.

Schafer, James A.
Professor Emeritus, CMNS-Mathematics; B.S., University of Rochester, 1961; M.S., University of Chicago, 1962; Ph.D., 1965.

Schafer, William D.
Associate Professor Emeritus, EDUC-Human Development and Quantitative Methodology; B.A., University of Rochester, 1964; M.A., 1965; Ed.D., 1969.

Schaff, Josef B
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.S., Pennsylvania State University, 1983; M.Eng., 1990; Sc.D., Capitol Technology University, 2015.

Schech, Amanda J.
Lecturer, CMNS-Chemistry & Biochemistry; B.S., Allegheny College, 2007; Ph.D., University of Maryland at Baltimore, 2012.

Schechter, Elizabeth Sara
Associate Professor, ARHU-Philosophy; B.A., Vassar College, 2001; Ph.D., University of Maryland-College Park, 2009.

Schempp, Paul
Lecturer, ENGR-Civil-Center for Excellence on Project Management; B.S., University of Bridgeport, 1976; M.S., Ithaca College, 1977; Ed.D., Boston University, 1981.

Scherbarth, Eric Douglas
Lecturer, ENGR-Mechanical Engineering; B.S., University of Maryland-College Park, 2013.

Schertzing, Nancy
Visiting Lecturer, BSOS-Dean-MLAW Programs; B.A., James Madison University, 1984; M.S., Michigan State University, 2011.

Schick, Allen
Distinguished Professor Emeritus, PLCY-School of Public Policy; B.A., CUNY-Brooklyn College, 1956; M.A., Yale University, 1959; Ph.D., 1965.

Schiffmacher, Andrew Thomas
Assistant Professor, AGNR-Animal & Avian Sciences; B.S., Cornell University, 1998; Ph.D., University of Maryland-College Park, 2010.

Schijf, Johan
Visiting Associate Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Sc.D., Universiteit Utrecht, 1992.

Schildknecht, William R.
Lecturer, CMNS-Mathematics; B.S., Washington & Lee University, 1972; M.A., University of Maryland-College Park, 1974; Ph.D., 1989.

Schine, Nathan Alexander
Assistant Professor, CMNS-Physics; B.A., Williams College, 2013; Ph.D., University of Chicago, 2019.

Schine, Rachel Nicole
Assistant Professor, ARHU-School of Languages, Literatures, and Cultures; Assistant Professor, ARHU-History; B.A., Williams College, 2013; M.A., University of Chicago, 2016; Ph.D., 2019.

Schlake, Oliver
Clinical Professor, BMGT-Management & Organization; M.B.A./M.S., University of Paderborn, 1993; Ph.D., 1999.

Schlesinger, B. Frank
Professor Emeritus, ARCH-School of Architecture, Planning, & Preservation; B.S., University of Illinois-Urbana/Champaign, 1950; M.Arch., Harvard University, 1954.

Schlimme, Donald V. Jr.
Professor Emeritus, AGNR-Nutrition and Food Science; B.S., University of Maryland-College Park, 1956; M.S., 1961; Ph.D., 1964.

Schlossberg, Nancy K.
Professor Emerita, EDUC-Counseling, Higher Education and Special Education; B.A., Barnard College, 1951; Ed.D., Columbia University, 1961.

Schmerr, Nicholas C.
Associate Professor, CMNS-Geology; B.S., Beloit College, 2001; Ph.D., Arizona State University, 2008.

Schmidt, Michael D
Lecturer, ARHU-English; B.A., SUNY-Albany, 1999; M.A., American University, 2006.

Schmidt, Scott Alan
Lecturer, ENGR-Mechanical Engineering; B.S., University of Maryland-College Park, 1987.

Schmidtlein, Frank A.
Professor Emeritus, EDUC-Education Policy and Leadership; B.S., Kansas State University, 1954; M.A., University of California-Berkeley, 1970; Ph.D., 1979.

Schneider, Anton
Lecturer, SPHL-Global, Environmental, and Occupational Health; B.S., University of Chicago, 1974.

Schneider, Benjamin
Professor Emeritus, BSOS-Psychology; B.A., Alfred University, 1960; M.B.A., CUNY-Bernard M. Baruch College, 1962; Ph.D., University of Maryland-College Park, 1967.

Schneider, David I.
Associate Professor Emeritus, CMNS-Mathematics; A.B., Oberlin College, 1959; Ph.D., Massachusetts Institute of Technology, 1964.

Schollaert, Jeannette
Librarian II, LIBR-Libraries; B.A., Chatham University, 2015; M.A., University of Nebraska-Lincoln, 2017; Ph.D., University of Maryland-College Park, 2023.

Scholnick, Ellin K.
Professor Emerita, BSOS-Psychology; A.B., Vassar College, 1958; Ph.D., University of Rochester, 1963.

Schonebaum, Andrew
Associate Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., Brown University, 1997; M.A., Columbia University, 1999; M.Phil., 2001; Ph.D., 2004.

Schonfeld, Paul M.
Professor, ENGR-Civil & Environmental Engineering; B.S., Massachusetts Institute of Technology, 1974; M.S., 1974; Ph.D., University of California-Berkeley, 1978.

Schuba, Andrea Elizabeth
Librarian II, LIBR-Libraries; B.A., Indiana University, 2012; M.L.S., 2015.

Schull, Christine Pegorraro
Principal Lecturer, SPHL-Family Science; B.A., Michigan State University, 1993; M.A., 1999; Ph.D., University of Maryland-College Park, 2006.

Schulman, Neil R.
Lecturer, ENGR-Civil & Environmental Engineering; B.S., University of Maryland-College Park, 1964; M.S., Long Island University, 1970.

Schutz, J
Director of Alumni Affairs, Emeritus, SVPAAP-Office of the Senior Vice President & Provost;

Schwab, Robert M.
Professor Emeritus, BSOS-Economics; B.A., Grinnell College, 1969; M.A., University of North Carolina-Chapel Hill, 1971; Ph.D., Johns Hopkins University, 1980.

Schwab, Susan C.
Professor Emerita, PLCY-School of Public Policy; B.A., Williams College, 1976; M.A., Stanford University, 1977; Ph.D., George Washington University, 1993.

Schwartz, Charles W.
Professor Emeritus, ENGR-Civil & Environmental Engineering; B.O., Massachusetts Institute of Technology, 1974; M.O., 1977; Ph.D., 1979.

Sclafani, Stephen
Lecturer, BMGT-Exec MBA-Office of Online Programs; Lecturer, BMGT-Decision, Operations & Information Technologies; Lecturer, BMGT-Management & Organization; B.A., University of Pennsylvania, 1993.

Scott, Edward Elkanah
Lecturer, BMGT-Accounting; B.S., Point Park University, 1989; M.B.A., Texas Christian University, 2003; Ph.D., Ohio State University, 2021.

Scott, Heidi CM
Senior Lecturer, ARHU-English; Associate Clinical Professor, SPHL-Global, Environmental, and Occupational Health; B.S., University of North Carolina-Chapel Hill, 2001; B.A., 2001; Ph.D., University of Maryland-College Park, 2009.

Scott, John Hamilton Gordon
Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., University of Washington-Seattle, 2001; B.A., 2001; M.A., Indiana University, 2008; Ph.D., 2019.

Scott, Leland E.
Professor Emeritus, AGNR-Plant Science & Landscape Architecture;

Scott, Rion Amilcar
Associate Professor, ARHU-English; B.A., Howard University, 2002; M.F.A., George Mason University, 2008.

Scott, Terry
Lecturer, ARHU-History; B.A., Arizona State University, 1995; M.A., Southern Methodist University, 2002; Ph.D., University of Chicago, 2016.

Scribner, Campbell Frank
Associate Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., Haverford College, 2003; M.A., University of Wisconsin-Madison, 2009; Ph.D., 2013.

Scripko, Patricia
Associate Clinical Professor, ARHU-Philosophy; B.A., Bucknell University, 2001; M.A., Case Western Reserve University, 2007; M.D., 2010.

Scull, Margaret Adele
Associate Professor, CMNS-Cell Biology & Molecular Genetics; B.S., Duke University, 2001; Ph.D., University of North Carolina-Chapel Hill, 2009.

Scullen, Mel
Director, ARHU-School of Languages, Literatures, and Cultures; Associate Professor, ARHU-School of Languages, Literatures, and Cultures; Affiliate Associate Professor, ARHU-Dean-MD Language Science Center; B.A., Kalamazoo College, 1984; B.A., Francois Rabelais University, 1987; M.A., 1988; M.A., Indiana University, 1990; Ph.D., 1993.

Seale, Melvin Lamar
Assistant Clinical Professor, SPHL-Health Policy and Management; B.S., DeVry University Georgia, 2008; M.A.-Teach., Marygrove College, 2011; D.H.Sc., A.T. Still University of Osteopathic Medicine, 2016.

Seate, Anita Atwell
Associate Professor, ARHU-Communication; B.A., Georgia State University/Perimeter College, 2004; M.A., 2008; Ph.D., University of Arizona, 2012.

Sebenick, Carole Warren
Lecturer, BSOS-Psychology; B.A., Dickinson College, 1984; M.Ed., University of Maryland-College Park, 1989; Ph.D., 1998.

Secor, David H.
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., University of South Carolina-Columbia, 1990.

Sedlacek, William E.
Professor Emeritus, EDUC-Counseling, Higher Education and Special Education; B.S., Iowa State University, 1960; M.S., 1961; Ph.D., Kansas State University, 1966.

Sedwick, Ray
Professor, ENGR-Aerospace Engineering; B.S., Pennsylvania State University, 1992; M.S., Massachusetts Institute of Technology, 1994; Ph.D., 1997.

Sefton, Lori A
Senior Lecturer, AGNR-Institute of Applied Agriculture; B.S., Southern Illinois University-Carbondale, 1986; M.A., 1989; Ph.D., 1999.

Segal, David R.
Professor Emeritus, BSOS-Sociology; B.A., Harpur College, 1962; M.A., University of Chicago, 1964; Ph.D., 1967; D.O., Towson University, 1991.

Segal, Mady W.
Professor Emerita, BSOS-Sociology; B.A., CUNY-Queens College, 1965; M.A., University of Chicago, 1967; Ph.D., 1973.

Seguin, Linda
Librarian III, LIBR-Libraries; B.A., Pennsylvania State University, 1990; M.L.S., University of South Carolina-Columbia, 2000.

Selden, Steven
Professor Emeritus, EDUC-Teaching and Learning, Policy and Leadership; B.S., SUNY-College at Oswego, 1963; M.A., Columbia University, 1970; M.S., CUNY-Brooklyn College, 1967; Ed.D., Columbia University, 1971.

Seller, Charles Anthony
Assistant Professor, CMNS-Cell Biology & Molecular Genetics; B.S., University of California-Los Angeles, 2010; Ph.D., University of California-San Francisco, 2018.

Semanoff, Jason Henry
Lecturer, SPHL-Kinesiology; M.S., SUNY-Health Science Center-Stony Brook, 2005.

Sengers, Jan V.
Distinguished University Professor Emeritus, CMNS-Institute for Physical Science & Technology; B.S., Universiteit van Amsterdam, 1952; M.S., 1955; Ph.D., 1962.

Seo, Eun-Suk
Professor, CMNS-Physics; Professor, CMNS-Institute for Physical Science & Technology; B.S., Korea University-Seoul, 1984; M.S., 1986; Ph.D., Louisiana State University-Baton Rouge, 1991.

Seo, Heewon
Assistant Professor, AGNR-Animal & Avian Sciences; B.S., Yonsei University-Seoul, 2005; M.S., 2007; Ph.D., 2012.

Seo, Myeong-Gu
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Management & Organization; B.S., Yonsei University-Seoul, 1988; M.A., 1990; M.B.A., Boston College, 1997; Ph.D., 2003.

Serbin, Ian Michael
Lecturer, UGST-HCOL-ACES Cybersecurity Program; B.S., University of Maryland-College Park, 2017; M.S., 2018.

Severson, Matt
Lecturer, CMNS-Physics; B.S., University of South Alabama, 2002; B.S., 2008; Ph.D., University of Maryland-College Park, 2015.

Seward, James K
Lecturer, BMGT-Finance; B.S., George Washington University, 1976; M.B.A., University of Maryland-College Park, 1980; Ph.D., University of Wisconsin-Madison, 1987.

Seybert, Nick
Associate Professor, BMGT-Robert H. Smith School of Business; Associate Professor, BMGT-Accounting; B.S., University of Maryland-College Park, 2003; M.S., Cornell University, 2005; Ph.D., 2008.

Shackel, Paul A.
Professor, BSOS-Anthropology; Affiliate Professor, ARHU-American Studies; B.A., SUNY-University at Buffalo, 1981; M.A., 1984; Ph.D., 1987.

Shackman, Alexander Joseph
Professor, BSOS-Psychology; B.A., University of Wisconsin-Madison, 1997; M.S., University of Wisconsin, Medical-Madison, 2004; Ph.D., 2008.

Shaffer, L Jen
Associate Professor, BSOS-Anthropology; Affiliate Associate Professor, AGNR-Environmental Science & Technology; B.S., Cornell University, 1994; M.S., University of Oregon, 1999; Ph.D., University of Georgia, 2009.

Shah, Sahil S
Assistant Professor, ENGR-Electrical & Computer Engineering; B.Elect.E., Manipal University, 2011; M.Elect.E., Arizona State University, 2014; D.Engin., Georgia Institute of Technology, 2018.

Shah, Tejal A
Lecturer, BSOS-Hearing & Speech Sciences; B.S., Georgetown University, 2010; M.A., University of Maryland-College Park, 2014.

Shah, Waqas Ali
Lecturer, INFO-College of Information Studies; B.S., George Mason University, 2014; B.S., 2018.

Shah, Yasmeen Faroqi
Professor, BSOS-Hearing & Speech Sciences; Affiliate Professor, ARHU-Dean-MD Language Science Center; B.S., All India Institute of Medical Sciences, 1995; M.S., 1997; Ph.D., Northwestern University, 2004.

Shahar, Anat
Adjunct Professor, CMNS-Geology; B.S., Cornell University, 2002; M.Eng., 2003; Ph.D., University of California-Los Angeles, 2008.

Shaikhanov, Zhambyl
Assistant Professor, ENGR-Electrical & Computer Engineering; B.S., University of Texas-Austin, 2015; M.S., Rice University, 2020; Ph.D., 2024.

Sham, Foon V.
Professor, ARHU-Art; B.F.A., California College of the Arts, 1978; M.F.A., Virginia Commonwealth University, 1981.

Shamma, Shihab
Professor, ENGR-Electrical & Computer Engineering; Professor, ENGR-Institute for Systems Research; B.S., Imperial Coll of Science & Tech-London, 1976; M.S., Stanford University, 1977; M.A., 1980; Ph.D., 1980.

Shankar, A Udaya
Professor Emeritus, CMNS-Computer Science; B.Tech., Indian Institute of Technology-Kanpur, 1976; M.S., Syracuse University, 1978; Ph.D., University of Texas-Austin, 1982.

Shannon, Jackson Lee
Lecturer, ENGR-Aerospace Engineering; B.S., University of Maryland-College Park, 2017; M.S., 2019; Ph.D., 2021.

Shannon, Joshua A
Professor, ARHU-Art History & Archaeology; B.A., Columbia University, 1994; M.A., University of California-Berkeley, 1998; Ph.D., 2003.

Shapiro, Debra L.
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Management & Organization; B.A., University of Maryland-College Park, 1982; M.S., Northwestern University, 1983; Ph.D., 1986.

Shapiro, Leo H.
Senior Lecturer, CMNS-Entomology; B.A., Sarah Lawrence College, 1986; Ph.D., SUNY-Stony Brook, 1996.

Shapiro, Paul T
Associate Clinical Professor, BMGT-Decision, Operations & Information Technologies; B.S., University of Buffalo, 1997; M.B.A., George Mason University, 2006; Ph.D., 2013.

Shar, David Eric
Lecturer, BSOS-Psychology; B.S., Colorado State University-Global Campus, 2017; M.P.S., University of Maryland-College Park, 2018.

Sharp, Katherine
Clinical Professor, SPHL-Behavioral & Community Health; B.S., University of Maryland-College Park, 1990; M.P.H., Emory University, 1996; Ph.D., Kent State University-all campuses, 2005.

Sharpstene, Sydney I
Lecturer, ARHU-English; B.A., Appalachian State University, 2019; M.A., 2020.

Shaw, Benjamin Alexander
Librarian I, LIBR-Libraries; B.A., University of Maryland-College Park, 2016; M.L.S., 2021.

Shawhan, Peter
Professor, CMNS-Physics; 2021-2022 Distinguished Scholar-Teacher. A.B., Washington University in Saint Louis, 1990; M.S., University of Chicago, 1992; Ph.D., 1999.

Shayman, Mark A.
Professor, ENGR-Electrical & Computer Engineering; B.A., Yale University, 1975; M.S., Harvard University, 1977; Ph.D., 1981.

Shea, John
Associate Professor, BSOS-Economics; B.A., Northwestern University, 1986; Ph.D., Massachusetts Institute of Technology, 1990.

Shea, Marybeth
Principal Lecturer, ARHU-English; B.A., Santa Clara University, 1982; M.P.M., University of Maryland-College Park, 1986.

Sheehan, Robert M Jr.
Senior Lecturer, BMGT-Management & Organization; B.A., Westminster College, 1979; M.A., Ohio State University, 1989; Ph.D., 1994.

Sheikh, Sabeen
Lecturer, ARHU-Communication; B.A., University of Baltimore, 2003; M.A., George Mason University, 2010.

Shelton, Cecilia D
Assistant Professor, ARHU-English; B.A., Winston-Salem State University, 2005; M.A., North Carolina State University, 2007; Ph.D., East Carolina University, 2019.

Shen-Bayh, Fiona
Assistant Professor, BSOS-Government & Politics; B.A., Vassar College, 2011; M.A., University of California-Berkeley, 2012; Ph.D., 2018.

Shenassa, Edmond
Professor, SPHL-Epidemiology & Biostatistics; B.A., University of California-Los Angeles, 1986; M.A., 1990; Sc.D., Harvard University, 2000.

Sherman, Jules P
Adjunct Professor, ENGR-Fischell Department of Bioengineering; B.F.A., Rhode Island School of Design, 1994; M.F.A., Stanford University, 2012.

Shi, Elaine Runting
Adjunct Associate Professor, CMNS-Computer Science; B.S., Tsinghua University/Qinghua University, 2003; M.S., Carnegie Mellon University, 2006; Ph.D., Carlow University, 2008; Ph.D., Carnegie Mellon University, 2008.

Shi, Meiqing
Professor, AGNR-Veterinary Medicine Program; D.V.M., Hunan Agricultural University, 1985; M.S., South China Agricultural University, 1988; Ph.D., Justus Liebig University in Giessen, 2000.

Shi, Xiaodong
Professor, CMNS-Chemistry & Biochemistry; B.S., Nankai University-Tientsin, 1994; M.S., 1997; Ph.D., University of Maryland-College Park, 2002.

Shields, Christina Kim
Assistant Clinical Professor, BSOS-Hearing & Speech Sciences; B.A., University of Maryland-College Park, 2009; Au.D., 2013.

Shikarpurya, Sehrish
Assistant Professor, EDUC-Counseling, Higher Education and Special Education; B.A., Emory University, 2014; M.A., University College-London, 2016; M.O., 2016; Ph.D., Texas A&M University-College Station, 2023.

Shilton, Katie
Professor, INFO-College of Information Studies; Affiliate Professor, CMNS-Institute for Advanced Computer Studies; B.A., Oberlin College, 2003; M.A./M.L.S., University of California-Los Angeles, 2007; Ph.D., 2011.

Shim, Jae Kun
Professor, SPHL-Kinesiology; B.A., Kyunghee University-Seoul, 1999; M.S., Ball State University, 2002; Ph.D., Pennsylvania State University, 2005.

Shim, Janet
Lecturer, ARHU-English; B.A., University of Maryland-College Park, 1997; M.A., University of California-Los Angeles, 1999.

Shin, Kate Jae
Lecturer, SPHL-Kinesiology; B.A., University of Maryland-College Park, 2008; M.S., Florida International University, 2010.

Shin, Richard Quentin
Associate Professor, EDUC-Counseling, Higher Education and Special Education; B.A., Western Washington University, 1995; M.A., West Chester University of Pennsylvania, 1998; Ph.D., Loyola University of Chicago, 2005.

Shiota, Lisa
Librarian II, LIBR-Libraries; B.Mus., Peabody Institute of the Johns Hopkins University, 1992; M.Mus., University of Michigan-Ann Arbor, 1994; M.L.I.S., Drexel University, 2001.

Shirmohammadi, Adel
Professor, AGNR-Environmental Science & Technology; Affiliate Professor, ENGR-Civil & Environmental Engineering; B.S., University of Rezaeiyeh-Iran, 1974; M.S., University of Nebraska-Lincoln, 1977; Ph.D., North Carolina State University, 1982.

Shneiderman, Ben A.
Distinguished University Professor Emeritus, CMNS-Computer Science; B.S., CUNY-City College of New York, 1968; M.S., SUNY-Stony Brook, 1972; Ph.D., 1973; Sc.D., University of Guelph-Ontario, 1995.

Shockley, Ebony Terrell
Associate Dean, EDUC-College of Education; Clinical Professor, EDUC-College of Education; B.S., Florida A&M University, 1999; M.S., McDaniel College, 2002; M.S., 2004; Ph.D., University of Maryland-College Park, 2012.

Shonekan, Stephanie
Dean, ARHU-College of Arts & Humanities; Professor, ARHU-School of Music; Affiliate Professor, ARHU-Women, Gender and Sexuality Studies; Affiliate Professor, ARHU-American Studies; B.A., University of Jos-Nigeria, 1988; M.A., University of Ibadan, 1990; Ph.D., Indiana University, 2003.

Short, Kevin C.
Associate Professor, ARHU-School of Music; B.S., Morgan State College, 1984; M.Mus., Curtis Institute of Music, 1986.

Shrewsbury, Paula M.
Professor, CMNS-Entomology; B.S., University of Rhode Island, 1985; M.S., University of California-Riverside, 1991; Ph.D., University of Maryland-College Park, 1996.

Shrivastava, Abhinav
Associate Professor, CMNS-Computer Science; Associate Professor, CMNS-Institute for Advanced Computer Studies; B.Tech., Jaypee Institute of Information Technology, 2010; M.S., Carnegie Mellon University, 2011; Ph.D., 2017.

Shroff, Hari
Adjunct Associate Professor, CMNS-Physics; B.S., University of Washington-Seattle, 2001; Ph.D., University of California-Berkeley, 2006.

Shultz, Jeffrey W.
Associate Professor, CMNS-Entomology; B.S., Michigan State University, 1982; M.S., Ohio University-all campuses, 1985; Ph.D., Ohio State University, 1990.

Sidman, Daniel G
Lecturer, ARHU-English; B.A., Colby College, 2011; M.F.A., Columbia University, 2017.

Siegel, Eliot L.
Adjunct Professor, ENGR-Fischell Department of Bioengineering; B.S., University of Maryland-College Park, 1978; M.D., University of Maryland at Baltimore, 1982.

Siegfried, Alan N.
Lecturer, BMGT-Accounting; B.S., Kings College (PA), 1973; M.B.A., University of Maryland-College Park, 1977.

Siegrist Jr., Henry G. Jr.
Professor Emeritus, CMNS-Geology; B.A., Lehigh University, 1956; M.S., Pennsylvania State University, 1959; Ph.D., 1961.

Sies, Mary C.
Associate Professor Emerita, ARHU-American Studies; A.B., Michigan State University, 1974; M.A., University of Michigan-Ann Arbor, 1977; Ph.D., 1987.

Sigall, Harold F.
Professor Emeritus, BSOS-Psychology; B.S., CUNY-City College of New York, 1964; Ph.D., University of Texas-Austin, 1968.

Sigalo, Nekabari
Lecturer, INFO-College of Information Studies; B.S., Georgia State University/Perimeter College, 2012; M.S., Emory University, 2015; Ph.D., University of Maryland-College Park, 2022.

Silbaugh, Benjamin Scott
Lecturer, ENGR-Aerospace Engineering; A.A., Western Wisconsin Technical College, 2001; B.S., University of Alaska-Fairbanks, 2005; M.S., University of Maryland-College Park, 2007.

Silberholz, John Michael
Assistant Professor, BMGT-Robert H. Smith School of Business; Assistant Professor, BMGT-Decision, Operations & Information Technologies; B.S., University of Maryland-College Park, 2010; Ph.D., Massachusetts Institute of Technology, 2015.

Silberman, Neil
Lecturer, BSOS-Anthropology; B.A., Wesleyan University, 1972.

Silfen, Eric
Lecturer, SPHL-Dean-Public Health Science; M.D., Georgetown University, 1978; M.H.A., Virginia Commonwealth University, 1996; M.A., Columbia University in the City of New York, 2006.

Silio, Charles B. Jr.
Associate Professor Emeritus, ENGR-Electrical & Computer Engineering; B.S., University of Notre Dame, 1965; M.S., 1967; Ph.D., 1970.

Silk, Eric A
Senior Lecturer, ENGR-Aerospace Engineering; B.S., University of Notre Dame, 1993; M.Eng., Howard University, 1998; Ph.D., University of Maryland-College Park, 2006.

Silver, Richard Martin
Adjunct Professor, CMNS-Physics; B.A., University of California-Berkeley, 1986; Ph.D., University of Texas-Austin, 1992.

Silvert, Colby Jordan
Assistant Professor, AGNR-Plant Science & Landscape Architecture; Assistant Professor, AGNR-Ag Education; B.S., University of Illinois-Urbana/Champaign, 2014; M.S., University of Florida, 2020; Ph.D., 2023.

Simmons, Jeremy A
Assistant Professor, ARHU-History; B.A., University of California-Berkeley, 2013; M.A., Columbia University in the City of New York, 2015; Ph.D., 2020.

Simon, Anne Elizabeth
Professor, CMNS-Cell Biology & Molecular Genetics; 2018-2019 Distinguished Scholar-Teacher. B.A., University of California-San Diego, 1978; Ph.D., Indiana University, 1982.

Simon, David
Associate Professor, ARHU-English; B.A., Brown University, 2004; Ph.D., University of California-Berkeley, 2012.

Simon, Jonathan Z
Professor, ENGR-Electrical & Computer Engineering; Professor, CMNS-Biology; Professor, ENGR-Institute for Systems Research; B.A., Princeton University, 1985; M.S., University of California-Santa Barbara, 1987; Ph.D., 1990.

Simon, Madlen Goldstine
Professor, ARCH-School of Architecture, Planning, & Preservation; Professor, ARCH-Architecture Program; B.A., Princeton University, 1974; M.Arch., 1977.

Simon, Susan Whyte
Senior Lecturer, ARHU-Communication; B.A., University of Southern California, 1978; M.A., 1981.

Simpkins, Scott David
Lecturer, ENGR-Institute for Systems Research; Lecturer, ENGR-Institute for Systems Research; B.S., West Virginia University, 1990; M.S., U.S. Naval Postgraduate School-Monterey, 2001; M.S., Johns Hopkins University, 2014.

Simpson, Sally S.
Distinguished University Professor Emerita, BSOS-Criminology & Criminal Justice; B.S., Oregon State University, 1976; M.A., Washington State University, 1978; Ph.D., University of Massachusetts-Amherst, 1985.

Sims, Henry P. Jr.
Professor Emeritus, BMGT-Robert H. Smith School of Business; B.S., Purdue University-West Lafayette, 1961; M.B.A., University of Detroit/Mercy, 1967; Ph.D., Michigan State University, 1971.

Singer, Alison
Lecturer, ARHU-Art History & Archaeology; B.A., Indiana University, 2010; M.A., University of Texas-Austin, 2012; Ph.D., University of Maryland-College Park, 2021.

Singer, Joshua
Chair, CMNS-Biology; Professor, CMNS-Biology; B.S., Brown University, 1993; Ph.D., University of Washington-Seattle, 1998.

Singer, Leo Pound
Adjunct Assistant Professor, CMNS-Astronomy; B.S., University of Maryland-College Park, 2009; Ph.D., California Institute of Technology, 2015.

Singh, Nevil John
Adjunct Professor, ENGR-Fischell Department of Bioengineering; B.S., University of Kerala, 1991; M.S., Devi Ahilya Vishwavidyalaya, 1993; Ph.D., Tata Institute of Fundamental Research, 1998.

Singh, Sheetal
Associate Clinical Professor, BMGT-Management & Organization; Ph.D., University of Maryland-College Park, 2010.

Singpurwalla, Rachel
Associate Professor, ARHU-Philosophy; B.A., George Washington University, 1993; M.A., University of Colorado-Boulder, 1999; Ph.D., 2002.

Sinks, Thomas Jr.
Adjunct Professor, SPHL-Global, Environmental, and Occupational Health; D.O., Ohio State University, 1985.

Sisler, Hugh D.
Professor Emeritus, CMNS-Cell Biology & Molecular Genetics; B.S., University of Maryland-College Park, 1949; M.S., 1951; Ph.D., 1953.

Sisskin, Vivian D.
Clinical Professor Emerita, BSOS-Hearing & Speech Sciences; B.A., University of California-Los Angeles, 1974; M.S., Chapman University, 1979.

Sita, Lawrence R.
Professor, CMNS-Chemistry & Biochemistry; B.S., Carnegie Mellon University, 1981; Ph.D., Massachusetts Institute of Technology, 1985.

Sivan-Sevilla, Ido
Assistant Professor, INFO-College of Information Studies; B.A., Technion-Israel Institute of Tech, 2005; M.A., University of Minnesota-Twin Cities, 2014; Ph.D., Hebrew University of Jerusalem, 2019.

Skakun, Sergii
Associate Professor, BSOS-Geography; Associate Professor, INFO-College of Information Studies; B.S., Kyiv Polytechnic Institute, 2002; M.S., 2004; Ph.D., National Academy of Science of Ukraine, 2005.

Skibniewski, Miroslaw J.
Professor, ENGR-Civil & Environmental Engineering; M.Eng., Technical University of Warsaw, 1981; M.S., Carnegie Mellon University, 1983; Ph.D., 1986.

Skudrna, Radford Joseph
Senior Lecturer, ARHU-English; B.A., Roger Williams University, 2010; B.F.A., 2010; M.F.A., University of Maryland-College Park, 2014.

Skuja, Andris
Professor, CMNS-Physics; B.S., University of Toronto, 1966; Ph.D., University of California-Berkeley, 1972.

Slater, Wayne H
Associate Professor, EDUC-Teaching and Learning, Policy and Leadership; B.S., University of Minnesota-Duluth, 1967; M.A., 1972; Ph.D., University of Minnesota-Twin Cities, 1982.

Slaughter, Brandi Nicole
Associate Clinical Professor, PLCY-School of Public Policy; B.A., Morgan State University, 2000; J.D., Capital University, 2008.

Slavin, Margaret
Associate Professor, AGNR-Nutrition and Food Science; B.S., University of Pittsburgh, 2006; Ph.D., University of Maryland-College Park, 2011.

Slawson, Kristin Kay
Associate Clinical Professor, BSOS-Hearing & Speech Sciences; B.S., Pennsylvania State University, 2001; M.A., University of Maryland-College Park, 2003.

Slevc, Robert
Associate Chair, BSOS-Psychology; Associate Professor, BSOS-Psychology; Affiliate Associate Professor, ARHU-Dean-MD Language Science Center; B.A., University of Colorado-Boulder, 1999; Ph.D., University of California-San Diego, 2007.

Sloan, Rita
Professor, ARHU-School of Music; B.S., Juilliard School of Music, 1969; M.Mus., 1971.

Slocum, Tyson T.
Lecturer, UGST-HCOL-University Honors Program; Lecturer, UGST-HCOL-University Honors Program; B.A., University of Texas-Austin, 1996.

Slud, Eric Victor
Professor, CMNS-Mathematics; B.A., Harvard University, 1972; Ph.D., Massachusetts Institute of Technology, 1976.

Slutzky, Pablo
Assistant Professor, BMGT-Robert H. Smith School of Business; Assistant Professor, BMGT-Finance; B.S., Universidad de Buenos Aires, 2008; M.B.A., Universidad Austral, 2009; Ph.D., Columbia University, 2017.

Sly, Jordan S
Librarian III, LIBR-Libraries; B.A., University of Maryland-College Park, 2008; M.L.S., Simmons College, 2011; M.A., University of Maryland-College Park, 2023.

Smead, Howard
Principal Lecturer, ARHU-History; B.A., University of Maryland-College Park, 1970; M.A., 1972; Ph.D., 1979.

Smela, Elisabeth
Professor, ENGR-Mechanical Engineering; B.S., Massachusetts Institute of Technology, 1985; M.S., University of Pennsylvania, 1987; Ph.D., 1992.

Smiley, Leigh Wilson
Associate Professor Emerita, ARHU-School of Theatre, Dance & Performance Studies; B.A., Marlboro College, 1982.

Smith, B.F.
Professor Emerita, ENGR-Materials Science & Engineering; B.S., University of Arkansas-Fayetteville, 1951; M.S., University of Tennessee-Knoxville, 1956; Ph.D., University of Minnesota-Twin Cities, 1960; Ph.D., 1965.

Smith, Barry D.
Professor Emeritus, BSOS-Psychology; B.S., Pennsylvania State University, 1962; M.A., Bucknell University, 1967; Ph.D., University of Massachusetts-Amherst, 1964.

Smith, Cory
Assistant Professor, AGNR-Agricultural & Resource Economics; B.S., Massachusetts Institute of Technology, 2011; Sc.D., 2020.

Smith, Hannah Pascale
Lecturer, BSOS-Anthropology; B.A., Bucknell University, 2010; M.A., East Carolina University, 2014.

Smith, Holly Christine
Lecturer, ARHU-English; B.A., University of Maryland-College Park, 1993; M.A., Johns Hopkins University, 1998.

Smith, J Carson
Professor, SPHL-Kinesiology; B.S., Arizona State University, 1993; Ph.D., University of Georgia, 2000.

Smith, Ken G.
Professor Emeritus, BMGT-Robert H. Smith School of Business; B.S., University of Rhode Island, 1970; M.B.A., 1972; Ph.D., University of Washington-Seattle, 1983.

Smith, Martha Nell
Professor, ARHU-English; Affiliate Professor, ARHU-Women, Gender and Sexuality Studies; Affiliate Professor, ARHU-American Studies; 2010-2011 Distinguished Scholar-Teacher. B.A., Rutgers University, 1977; M.A., 1982; Ph.D., 1985.

Smith, Nicholas Chad
Assistant Professor, BSOS-Sociology; B.A., University of Maryland-College Park, 2016; M.A., Indiana University, 2018; Ph.D., 2023.

Smith, Paul John
Associate Professor Emeritus, CMNS-Mathematics; B.S., Drexel University, 1965; M.S., Case Western Reserve University, 1967; Ph.D., 1969.

Smith, Raymond
Lecturer, EDUC-Dean-Maryland English Institute; B.A., Fordham University, 1990; M.A., CUNY-Hunter College, 1993.

Smith, Robert Bowen
Lecturer, ARHU-School of Theatre, Dance & Performance Studies; B.A., Southern Virginia University, 2004; M.F.A., Mary Baldwin University, 2008.

Smith, Robert William
Lecturer, BMGT-Exec MBA-Office of Online Programs; M.S., University of Maryland-Global Campus, 1990; B.A., Saint Vincent College, 1990; M.B.A., University of Maryland-College Park, 2014.

Smith, Theodore G.
Professor Emeritus, ENGR-Chemical & Biomolecular Engineering; B.E.S., Johns Hopkins University, 1956; M.E.S., 1958; Sc.D., Washington University in Saint Louis, 1960.

Smith-Bynum, Mia A
Chair, SPHL-Family Science; Professor, SPHL-Family Science; B.A., University of North Carolina-Chapel Hill, 1993; M.A., University of Virginia, 1996; Ph.D., 1999.

Soares, Joseph H. Jr.
Professor Emeritus, AGNR-Animal & Avian Sciences; B.S., University of Maryland-College Park, 1964; M.S., 1966; Ph.D., 1969.

Soares, Leigh
Assistant Professor, ARHU-History; B.A., Duke University, 2010; M.A., College of William & Mary, 2012; M.A., Northwestern University, 2013; Ph.D., 2019.

Sochol, Ryan Daniel
Associate Professor, ENGR-Mechanical Engineering; Affiliate Associate Professor, ENGR-Fischell Department of Bioengineering; Affiliate Associate Professor, ENGR-Institute for Systems Research; B.S., Northwestern University, 2006; M.S., University of California-Berkeley, 2009; Ph.D., 2011.

Soeder, Janna
Senior Lecturer, ARHU-Communication; B.A., University of Munster, 2009; M.Ed., 2011; M.A., Ball State University, 2013; Ph.D., University of Maryland-College Park, 2019.

Soergel, Dagobert
Professor Emeritus, INFO-College of Information Studies; B.S., University of Freiburg, 1960; M.S., 1964; Ph.D., 1970.

Soergel, Philip M
Professor, ARHU-History; B.A., Muskingum College, 1980; M.A., University of Michigan-Ann Arbor, 1982; Ph.D., 1988.

Sohns, Sarah
Associate Clinical Professor, BSOS-Hearing & Speech Sciences; B.A., University of Connecticut-Hartford, 2007; Au.D., University of Pittsburgh, 2011.

Solomon, Brent Stewart
Lecturer, BMGT-Accounting; B.S., Johns Hopkins University, 1984; M.S., University of Maryland-College Park, 1999.

Solomos, Theophanes
Professor Emeritus, AGNR-Plant Science & Landscape Architecture; B.S., Other, 1956; M.S., 1957; Ph.D., University of Cambridge, 1963.

Soltani, Darya
Lecturer, SPHL-Dean-Public Health Science; M.P.H., University of Maryland-College Park, 2022.

Song, Hee-Jung
Professor, AGNR-Nutrition and Food Science; B.S., Sookmyung Women's University-Seoul, 1992; M.S., Korea University-Seoul, 1994; Ph.D., Johns Hopkins University, 2008.

Song, Jiuzhou
Professor, AGNR-Animal & Avian Sciences; B.A., Northwest Agricultural University, 1983; M.S., 1986; Ph.D., Beijing Agric. U/North China Agric. U, 1995.

Song, Shin Eui
Lecturer, CMNS-Mathematics; B.S., University of California-Los Angeles, 2015; Ph.D., University of Maryland-College Park, 2024.

Song, Sining
Assistant Professor, BMGT-Robert H. Smith School of Business; Assistant Professor, BMGT-Logistics, Business & Public Policy; B.S., Shanghai International Studies Univ, 2011; M.S., University of Maryland-College Park, 2012; Ph.D., Arizona State University, 2018.

Song, Wenxia
Professor, CMNS-Cell Biology & Molecular Genetics; M.S., Academia Sinica-Beijing, 1986; Ph.D., Kansas State University, 1991.

Song, Xiaopeng
Assistant Professor, BSOS-Geography; B.S., Peking University, 2008; Ph.D., University of Maryland-College Park, 2015.

Soppelsa, Maria Edisa
Director, AGNR-Agricultural & Resource Economics; Lecturer, AGNR-Agricultural & Resource Economics; B.A., Universidad Nacional del Litoral, 2002; M.O., University of Illinois-Urbana/Champaign, 2012; D.O., 2017.

Sosnowski, Saul
Professor, ARHU-School of Languages, Literatures, and Cultures; Affiliate Professor, ARHU-Dean-Latin American and Caribbean Studies Center; 2020-2021 Distinguished Scholar-Teacher. B.A., University of Scranton, 1967; M.A., University of Virginia, 1968; Ph.D., 1970.

Souna, Amanda Jane
Lecturer, CMNS-Chemistry & Biochemistry; B.S., Cornell University, 2001; B.S., St. Cloud State University, 2012; Ph.D., University of Maryland-College Park, 2018.

Sousa, Veronica M
Lecturer, BSOS-Anthropology; B.A., University of California-Berkeley, 2011; M.A., The New School, 2016.

Spear, Anne
Lecturer, EDUC-Counseling, Higher Education and Special Education; B.S., Radford University, 2003; M.A., University of Wyoming, 2010; M.S., University of Miami, 2014; Ph.D., University of Maryland-College Park, 2019.

Speece, Deborah L.
Professor Emerita, EDUC-Counseling, Higher Education and Special Education; B.S., Bowling Green State University, 1974; M.Ed., 1978; Ph.D., University of North Carolina-Chapel Hill, 1984.

Speer, Colenso M.
Associate Professor, CMNS-Biology; B.S., Arizona State University, 2004; Ph.D., University of California-Davis, 2010.

Spielman, Ian B.
Adjunct Professor, CMNS-Physics; B.S., University of Oklahoma, 1998; Ph.D., California Institute of Technology, 2004.

Spirito, Catherine
Associate Clinical Professor, SVPAAP-Office of Undergraduate Research; B.E., McGill University-Montreal, 2010; M.S., Cornell University, 2014; Ph.D., 2017.

Spivak, Steven M.
Professor Emeritus, ENGR-Fire Protection Engineering; B.S., Philadelphia University, 1963; M.S., Georgia Institute of Technology, 1965; Ph.D., Victoria University of Manchester, 1967.

Spivey, Michael
Senior Lecturer, BSOS-Government & Politics; B.A., Birmingham Southern College, 1977; M.A., University of Illinois-Chicago, 1979; Ph.D., University of Maryland-College Park, 2015.

Spivy, Annette Leah
Senior Lecturer, AGNR-College of Agriculture & Natural Resources; B.O., University of Central Florida, 2012; M.S., University of Maryland-College Park, 2015.

Splaine, John E.
Associate Professor Emeritus, EDUC-Education Policy and Leadership; B.A., University of New Hampshire, 1963; M.A., 1965; Ed.D., Boston University, 1973.

Sprangle, Phillip Allen
Professor, ENGR-Electrical & Computer Engineering; Professor, CMNS-Institute for Research in Electronics & Applied Physics; Professor, CMNS-Physics; B.S., Polytechnic Institute New York Univ, 1967; M.A., University of Puerto Rico-Rio Piedras, 1969; Ph.D., Cornell University, 1973.

Spreen, Thomas Luke
Associate Professor, PLCY-School of Public Policy; B.A., University of Florida, 2009; M.A., Johns Hopkins University, 2012; Ph.D., Indiana University, 2017.

Sprinkle, Robert Hunt
Associate Professor, PLCY-School of Public Policy; A.B., Dartmouth College, 1971; M.D., University of Cincinnati, 1975; M.A., Princeton University, 1989; Ph.D., 1990.

Srebric, Jelena
Associate Dean, ENGR-A. James Clark School of Engineering; Professor, ENGR-Mechanical Engineering; B.S., University of Belgrade, 1994; M.S., 1997; Ph.D., Massachusetts Institute of Technology, 2000.

Srinivasan, Aravind
Distinguished University Professor, CMNS-Computer Science; Distinguished University Professor, CMNS-Institute for Advanced Computer Studies; B.S., Indian Institute of Technology-Madras, 1989; M.S., Cornell University, 1993; Ph.D., 1993.

Srinivasan, Kartik
Adjunct Professor, CMNS-Physics; B.S., California Institute of Technology, 2000; M.S., 2002; Ph.D., 2006.

Sriram, Ganesh
Associate Professor, ENGR-Chemical & Biomolecular Engineering; B.S., Indian Institute of Technology-Mumbai, 1997; M.S., 1999; Ph.D., Iowa State University, 2004.

Srivastava, Ankur
Professor, ENGR-Electrical & Computer Engineering; Professor, ENGR-Institute for Systems Research; B.Elect.E., Indian Institute of Technology-Delhi, 1998; M.S., Northwestern University, 2000; Ph.D., University of California-Los Angeles, 2002.

Srivastava, Puneet
Professor, AGNR-Environmental Science & Technology; B.S., University of Allahabad, 1992; M.S., University of Arkansas-Fayetteville, 1995; Ph.D., Pennsylvania State University, 1999.

St Jean, Beth L
Associate Professor, INFO-College of Information Studies; B.A., Smith College, 1988; M.S., University of Michigan-Ann Arbor, 2006; Ph.D., 2011.

Stachura, Frederick
Lecturer, ARCH-Historic Preservation Program; B.A., Boston College, 1981; J.D., St. Louis University, 1986; M.A., Boston University, 1996.

Stairs, Allen
Professor Emeritus, ARHU-Philosophy; B.A., University of New Brunswick-Fredericton, 1973; M.A., University of Western Ontario-London, 1975; Ph.D., 1978.

Staley, Gregory A.
Professor Emeritus, ARHU-Classics; Lecturer, ARHU-Classics; B.A., Dickinson College, 1970; M.A., Princeton University, 1973; Ph.D., 1975.

Stangor, Charles G.
Professor Emeritus, BSOS-Psychology; B.A., Beloit College, 1973; M.A., New York University, 1984; Ph.D., 1986.

Stanwyck, Liz
Senior Lecturer, BMGT-Decision, Operations & Information Technologies; B.S., Georgia State University/Perimeter College, 2005; Ph.D., University of Maryland-Baltimore County, 2011.

Stapleton, Laura M
Chair, EDUC-Human Development and Quantitative Methodology; Professor, EDUC-Human Development and Quantitative Methodology; B.A., University of Michigan-Ann Arbor, 1988; M.Ed., George Mason University, 1992; Ph.D., University of Maryland-College Park, 2001.

Starr, Evan Penniman
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Management & Organization; B.A., Denison University, 2007; M.A., University of Michigan-Ann Arbor, 2009; Ph.D., 2014.

Steel, Donald H.
Professor Emeritus, SPHL-Kinesiology; B.A., Trenton State College, 1955; M.A., University of Maryland-College Park, 1957; Ph.D., Louisiana State University-Baton Rouge, 1964.

Steele, Catherine Knight
Associate Professor, ARHU-Communication; Affiliate Associate Professor, ARHU-Women, Gender and Sexuality Studies; B.A., University of Illinois-Urbana/Champaign, 2007; M.A., DePaul University, 2008; Ph.D., University of Illinois-Chicago, 2014.

Steenland, Maria Ward
Assistant Professor, SPHL-Family Science; B.A., Emory University, 2006; M.A., University of Michigan-Ann Arbor, 2009; Sc.D., Harvard University, 2018.

Stehle, Eva Marie
Professor Emerita, ARHU-Classics; B.A., University of Pennsylvania, 1966; Ph.D., University of Cincinnati, 1971.

Stein, Daniel C.
Professor, CMNS-Cell Biology & Molecular Genetics; B.S., University of Notre Dame, 1977; Ph.D., University of Rochester, 1981; M.S., 1981.

Steinberg, Julia Renee
Associate Professor, SPHL-Family Science; B.A., University of Toledo, 2001; M.A., Arizona State University, 2004; Ph.D., 2008.

Steiner, Linda
Professor, JOUR-Philip Merrill College of Journalism; Affiliate Professor, ARHU-Women, Gender and Sexuality Studies; 2024-2025 Distinguished Scholar-Teacher. B.A., Smith College, 1972; Ph.D., University of Illinois-Urbana/Champaign, 1979.

Steiner, Peter
Professor, EDUC-Human Development and Quantitative Methodology; M.S., University of Vienna, 2000; Ph.D., 2005.

Steinman, Robert Martin
Professor Emeritus, BSOS-Psychology; M.A., The New School, 1962; D.D.S., St. Louis University, 1948; Ph.D., The New School, 1964.

Stephens, E. Robert
Professor Emeritus, EDUC-Education Policy and Leadership; B.S., Morningside College, 1952; M.S., Drake University, 1958; Ph.D., University of Iowa, 1966.

Stepp, Carl Sessions
Professor Emeritus, JOUR-Philip Merrill College of Journalism; B.A., University of South Carolina-Columbia, 1970; M.A., 1972.

Stern, James
Professor, ARHU-School of Music; 2025-2026 Distinguished Scholar-Teacher. B.Mus., Juilliard School of Music, 1984; M.Mus., 1985; D.Music, 1991.

Sternbach, Aaron
Assistant Professor, CMNS-Physics; B.A., Boston University, 2013; Ph.D., Columbia University, 2020.

Sternberg, Yaron M.
Professor Emeritus, ENGR-Civil & Environmental Engineering; B.S., University of Illinois-Urbana/Champaign, 1961; M.S., University of California-Davis, 1963; Ph.D., 1965.

Sternheim, Charles E.
Professor Emeritus, BSOS-Psychology; B.A., CUNY-Brooklyn College, 1961; Ph.D., University of Rochester, 1967.

Steven, Adams Brima
Assistant Professor, BMGT-Robert H. Smith School of Business; Assistant Professor, BMGT-Logistics, Business & Public Policy; B.S., Fourah Bay College, 2002; Ph.D., University of Maryland-College Park, 2013.

Stevens, George A.
Professor Emeritus, AGNR-Agricultural & Resource Economics; B.S., Virginia Polytechnic Institute & State University, 1941; Ph.D., University of Maryland-College Park, 1957.

Stevens, L Luminita
Associate Professor, BSOS-Economics; B.A., Dartmouth College, 2003; Ph.D., Columbia University, 2012.

Stevens, Melissa Aileene
Lecturer, BSOS-Anthropology; M.A.A., University of Maryland-College Park, 2008; Ph.D., 2014.

Stevens, Nathaniel Scott
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., University of Kentucky, 2000; M.S., 2018.

Stewart, Gilbert W.
Distinguished University Professor Emeritus, CMNS-Computer Science; A.B., University of Tennessee-Knoxville, 1962; Ph.D., 1968.

Stewart, Kathleen E
Professor, BSOS-Geography; B.S., McMaster University-Hamilton, 1982; M.S., University of British Columbia, 1984; Ph.D., University of Maine at Orono, 1999.

Stewart, Larry E.
Associate Professor Emeritus, AGNR-Environmental Science & Technology; B.S., West Virginia University, 1960; M.S., 1961; Ph.D., University of Maryland-College Park, 1972.

Stewart, Robert
Assistant Professor, BSOS-Criminology & Criminal Justice; B.A., University of Minnesota-Twin Cities, 2012; M.A., 2018; Ph.D., 2020.

Stiavelli, Massimo
Adjunct Professor, CMNS-Astronomy; M.S., University of Pisa, 1983; Ph.D., Other, 1986.

Stickle, Wendy
Principal Lecturer, BSOS-Criminology & Criminal Justice; B.A., St. Mary's College of Maryland, 2002; M.A., University of Maryland-College Park, 2005; Ph.D., 2009.

Stifel, Peter B.
Associate Professor Emeritus, CMNS-Geology; B.S., Cornell University, 1958; Ph.D., University of Utah, 1964.

Stillwell, James Lee
Associate Clinical Professor, PLCY-School of Public Policy; B.A., Harvard University, 2006; M.S., University of Maryland-College Park, 2012; M.P.P., 2012.

Stinson, Morgan Callan
Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., University of Maryland-College Park, 2009; M.A., 2015; Ph.D., 2020.

StLeger, Raymond J.
Distinguished University Professor, CMNS-Entomology; 2009-2010 Distinguished Scholar-Teacher. B.S., University of Exeter, 1978; M.S., University of London, 1980; Ph.D., Aberystwyth University, 1987.

Stocker, Lenea Hope
Senior Lecturer, CMNS-Chemistry & Biochemistry; B.A., McDaniel College, 2007; B.S., 2007; M.S., University of Maryland-College Park, 2008; Ph.D., 2013.

Stoliarov, Stanislav I.
Professor, ENGR-Fire Protection Engineering; Affiliate Professor, ENGR-Mechanical Engineering; B.S./M.S., Mendeleev University of Chemical Technology, 1993; Ph.D., Catholic University of America, 2000.

Stoltz, Angela Christine
Associate Clinical Professor, EDUC-Teaching and Learning, Policy and Leadership; M.Ed., Wilmington University, 2006; B.A., University of Delaware, 2007; Ph.D., University of Maryland-College Park, 2019.

Stone, Clarence N.
Professor Emeritus, BSOS-Government & Politics; A.B., University of South Carolina-Columbia, 1957; M.A., Duke University, 1960; Ph.D., 1963.

Strand, Ivar E. Jr.
Professor Emeritus, AGNR-Agricultural & Resource Economics; B.A., University of Rochester, 1967; M.A., University of Rhode Island, 1972; Ph.D., 1975.

Straney, David C.
Associate Professor, CMNS-Cell Biology & Molecular Genetics; B.S., Brown University, 1982; M.S., Yale University, 1984; Ph.D., 1987.

Strassle, Paula D
Assistant Professor, SPHL-Epidemiology & Biostatistics; B.S., University of Maryland-Baltimore County, 2010; M.P.H., Emory University, 2014; Ph.D., University of North Carolina-Chapel Hill, 2019.

Straub, John David
Senior Lecturer, BSOS-Economics; B.A., Boston College, 1988; M.A., University of Wisconsin-Madison, 1997; Ph.D., 2002.

Strauch, Gabriele L.
Associate Professor Emerita, ARHU-School of Languages, Literatures, and Cultures; B.A., Other, 1969; M.A., Southern Illinois University-Carbondale, 1975; Ph.D., University of Wisconsin-Madison, 1984.

Strein, Bill
Associate Professor Emeritus, EDUC-Counseling, Higher Education and Special Education; B.S., Pennsylvania State University, 1970; M.S., 1973; Ed.D., 1979.

Streltsov, Alexander
Visiting Associate Professor, CMNS-Institute for Advanced Computer Studies; B.S., Universitat Wurzburg, 2009; Ph.D., Heinrich Heine Universitat Dusseldorf, 2013.

Strey, Sara Theresa
Assistant Clinical Professor, SVPAAP-Office of Undergraduate Research; B.S., Central Michigan University, 2007; Ph.D., University of Illinois-Urbana/Champaign, 2016.

Striffler, Charles D.
Professor Emeritus, ENGR-Electrical & Computer Engineering; B.S., University of Michigan-Ann Arbor, 1961; M.S., 1963; Ph.D., 1972.

Stroka, Kimberly Murley
Associate Professor, ENGR-Fischell Department of Bioengineering; B.S., Denison University, 2006; Ph.D., University of Maryland-College Park, 2011.

Strom, Justin
Associate Professor, ARHU-Art; B.A., Columbia College (Missouri), 1998; M.F.A., University of Wisconsin-Madison, 2003.

Stromquist, Nelly
Professor Emerita, EDUC-Counseling, Higher Education and Special Education; B.A., Middlebury Institute International Studies, 1966; M.A., 1968; Ph.D., Stanford University, 1975.

Struna, Nancy L.
Professor Emerita, ARHU-American Studies; B.S., University of Wisconsin-Madison, 1972; M.A., University of Maryland-College Park, 1975; Ph.D., 1979.

Stupina, Vera A
Lecturer, CMNS-Cell Biology & Molecular Genetics; B.S., University of Massachusetts-Amherst, 1997; Ph.D., Harvard University, 2003.

Sturge, Jennifer Jane
Lecturer, INFO-College of Information Studies; B.S., Clarion University of Pennsylvania, 1994; M.S., Mansfield University, 2006; D.O., Point Park University, 2021.

Suadin, I Ketut
Lecturer, ARHU-School of Music; B.A., Konservatory Karawitan, Conservatory for the Performing Arts, 1985.

Suarez, Gerald
Professor of the Practice, BMGT-Management & Organization; B.S., Inter American University-Puerto Rico-Fajardo, 1984; M.A., 1987; Ph.D., 1992.

Subasi, Musa
Associate Professor, BMGT-Robert H. Smith School of Business; Associate Professor, BMGT-Accounting; B.S., Bilkent University, 2005; M.S., University of Texas-Austin, 2007; Ph.D., University of Texas-Dallas, 2012.

Subramaniam, Mega
Professor, INFO-College of Information Studies; M.S., Indiana University, 1998; Ph.D., Florida State University, 2007.

Sudina, Ekaterina
Assistant Professor, ARHU-School of Languages, Literatures, and Cultures; B.O., M.V. Lomonosov Moscow State University, 2013; M.A., Southern Illinois University-Carbondale, 2016; Ph.D., Northern Arizona University, 2022.

Suh, Timothy
Lecturer, INFO-College of Information Studies; B.Elect.E., University of Virginia, 1991; M.S., George Mason University, 2003.

Sukharev, Sergei I.
Professor, CMNS-Biology; M.S., Moscow State University, 1980; Ph.D., 1987.

Sullivan, Gregory W.
Professor, CMNS-Physics; 2024-2025 Distinguished Scholar-Teacher. B.S., Southern Illinois University-Carbondale, 1983; M.S., 1985; M.S., University of Illinois-Urbana/Champaign, 1986; Ph.D., 1990.

Sullivan, Jack
Associate Professor, AGNR-Plant Science & Landscape Architecture; Affiliate Associate Professor, ARHU-American Studies; B.F.A., Ohio State University, 1975; M.L.Arch., University of Virginia, 1980.

Sullivan, Joseph H.
Associate Dean, AGNR-College of Agriculture & Natural Resources; Professor, AGNR-Plant Science & Landscape Architecture; B.A., Erskine College, 1978; M.S., Western Carolina University, 1980; Ph.D., Clemson University, 1985.

Sumida, Jon T.
Professor Emeritus, ARHU-History; B.A., University of California-Santa Cruz, 1971; M.A., University of Chicago, 1974; Ph.D., 1982.

Sun, Laixiang
Professor, BSOS-Geography; B.S., Peking University, 1978; M.S., 1985; Ph.D., The Hague University, 1997.

Sundaramoorthy, Robin
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., Newberry College, 1995; B.A., 1995; M.A., Michigan State University, 1998; Ph.D., University of Maryland-College Park, 2023.

Sunderland, Peter B.
Professor, ENGR-Fire Protection Engineering; Affiliate Professor, ENGR-Mechanical Engineering; B.S., Cornell University, 1983; M.S., University of Massachusetts-Amherst, 1986; M.S., University of Michigan-Ann Arbor, 1993; Ph.D., 1995.

Sundrum, Raman
Director, CMNS-Physics; Distinguished University Professor, CMNS-Physics; B.S., University of Sydney, 1984; Ph.D., Yale University, 1990.

Sunny, Nishanth E
Associate Professor, AGNR-Animal & Avian Sciences; B.S., Kerala Agricultural University, 2001; M.S., University of Maryland-College Park, 2005; Ph.D., 2008.

Sunshine, Jessica M
Professor, CMNS-Astronomy; Professor, CMNS-Geology; B.S., Brown University, 1988; M.S., 1989; Ph.D., 1993.

Suppe, Frederick
Professor Emeritus, ARHU-Philosophy; A.B., University of California-Riverside, 1962; M.A., University of Michigan-Ann Arbor, 1964; Ph.D., 1967.

Surbatovich, Milijana
Assistant Professor, CMNS-Computer Science; Assistant Professor, CMNS-Institute for Advanced Computer Studies; B.S., University of Rochester, 2017; M.S., Carnegie Mellon University, 2020; Ph.D., 2023.

Suriano, Matthew
Associate Professor, ARHU-Meyerhoff Program & Center for Jewish Studies; B.A., University of Illinois-Urbana/Champaign, 1993; M.A., Jerusalem University College, 2000; M.A., University of California-Los Angeles, 2004; Ph.D., 2008.

Surla, Stacy Merrill
Lecturer, INFO-College of Information Studies; B.S., American University, 1991; M.A., 1991.

Sussman, Alan L.
Associate Chair, CMNS-Computer Science; Professor, CMNS-Computer Science; B.Elect.E., Princeton University, 1982; Ph.D., Carnegie Mellon University, 1991.

Sutherland, Donald
Professor Emeritus, ARHU-History; B.A., Carleton University-Ottawa, 1965; M.A., University of Sussex-Falmer, 1967; Ph.D., University of London, 1974.

Sutula, Jason Anthony
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.S., University of Maryland-College Park, 1997; M.S., 1998; Ph.D., University of Edinburgh, 2009.

Suzuki, Tokinori
Visiting Assistant Professor, CMNS-Institute for Advanced Computer Studies; B.S., Senshu University, 2012; M.Eng., Tokyo Institute of Technology, 2014; Ph.D., Kyushu University, 2021.

Suzuki, Yui
Visiting Associate Professor, ARHU-Art History & Archaeology; B.A., Sophia University, 1989; M.A., 1994; Ph.D., University of California-Los Angeles, 2005.

Swackhamer, Amy
Librarian II, LIBR-Libraries; B.F.A., Ohio Wesleyan University, 2001; M.L.S., University of Pittsburgh, 2004.

Swagel, Phillip L.
Professor, PLCY-School of Public Policy; B.A., Princeton University, 1987; M.A., Harvard University, 1990; Ph.D., 1993.

Sweet, Tracy Morrison
Associate Professor, EDUC-Human Development and Quantitative Methodology; B.S., Bucknell University, 2000; M.A., Morgan State University, 2007; M.S., Carnegie Mellon University, 2008; Ph.D., 2012.

Sweeting, Andrew
Chair, BSOS-Economics; Professor, BSOS-Economics; B.A., University of Oxford, 1995; M.Phil., 1997; Ph.D., Massachusetts Institute of Technology, 2004.

Swingle, Brian
Adjunct Assistant Professor, CMNS-Physics; B.S., Georgia Institute of Technology, 2005; Ph.D., Massachusetts Institute of Technology, 2011.

Swistak, Piotr T.
Associate Professor, BSOS-Government & Politics; M.S., University of Warsaw, 1978; M.A., 1979; M.A., University of Chicago, 1985; Ph.D., 1987.

Szczekutowicz, Anna
Lecturer, CMNS-Mathematics; B.A., Rutgers University, 2014; Ph.D., University of Texas-Austin, 2021.

Szczepaniec-Bialas, Anna
Senior Lecturer, ARHU-English; M.A., Silesian University, 1989.

Sze, Heven
Professor Emerita, CMNS-Cell Biology & Molecular Genetics; B.S., National Taiwan University, 1968; M.S., University of California-Davis, 1970; Ph.D., Purdue University-West Lafayette, 1975.

Szendro Sevilla, Anat
Lecturer, INFO-College of Information Studies; B.A., Bezalel Academy of Art, 2010; M.S., University of Maryland-College Park, 2022.

T

Tablante, Nathaniel L. Jr.
Professor Emeritus, AGNR-Veterinary Medicine Program; M.P.V.M., University of California-Davis, 1985; M.S., University of Guelph-Ontario, 1995; D.V.M., University of the Philippines-Quezon, 1976.

Taboada Barber, Ana M
Professor, EDUC-Counseling, Higher Education and Special Education; B.A., Centro de Altos Estudios en Ciencias Exactas, 1991; M.Ed., Temple University, 1998; Ph.D., University of Maryland-College Park, 2003.

Tadmor, Eitan
Distinguished University Professor, CMNS-Mathematics; Distinguished University Professor, CMNS-Institute for Physical Science & Technology; B.S., Tel Aviv University, 1973; M.S., 1975; Ph.D., 1979.

Tahamont, Sarah
Associate Professor, BSOS-Criminology & Criminal Justice; B.A., Vassar College, 2004; M.P.P., University of California-Berkeley, 2009; Ph.D., 2013.

Takeuchi, Ichiro
Acting Chair, ENGR-Materials Science & Engineering; Professor, ENGR-Materials Science & Engineering; Affiliate Professor, ENGR-Electrical & Computer Engineering; 2018-2019 Distinguished Scholar-Teacher. B.S., California Institute of Technology, 1987; Ph.D., University of Maryland-College Park, 1996.

Tal, Aner
Lecturer, ARHU-Meyerhoff Center-Israel Studies; B.A., Tel Aviv University, 1998; M.B.A., 2002; Ph.D., Duke University, 2009.

Talaat, Mostafa E.
Professor Emeritus, ENGR-Mechanical Engineering; B.S., University of Cairo, 1946; M.S., University of Pennsylvania, 1947; Ph.D., 1951.

Talin, Albert Alec
Adjunct Associate Professor, ENGR-Materials Science & Engineering; B.S., University of California-San Diego, 1989; Ph.D., University of California-Los Angeles, 1995.

Tambe, Ashwini
Professor Emerita, ARHU-Women, Gender and Sexuality Studies; B.S., Bangalore University, 1991; M.S., 1992; Ph.D., American University, 2000; Ph.D., Ohio State University, 1995.

Tamboli, Prabahkar M.
Adjunct Professor, AGNR-Environmental Science & Technology; B.S., Agra University, 1950; M.S., Indian Agricultural Research Institute, 1952; Ph.D., Iowa State University, 1961.

Tamburri, Mario N.
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; B.A., University of California-Santa Barbara, 1989; M.S., University of South Carolina-Columbia, 1991; Ph.D., 1996.

Tamvakis, Harry
Professor, CMNS-Mathematics; B.A., National & Capodistrian University of Athens, 1990; Ph.D., University of Chicago, 1997.

Taneyhill, Lisa Anne
Professor, AGNR-Animal & Avian Sciences; B.A., McDaniel College, 1995; M.S., Princeton University, 1997; Ph.D., 2000.

Tangirala, Subrahmaniam
Chair, BMGT-Management & Organization; Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Management & Organization; B.E., Osmania University, 1995; M.S., Xavier Labor Relations Institute, 1997; Ph.D., Purdue University-West Lafayette, 2006.

Tanner, Kandice Danielle
Adjunct Assistant Professor, CMNS-Physics; B.S., South Carolina State University, 2002; M.S., University of Illinois-Urbana/Champaign, 2003; Ph.D., 2006.

Tao, Runzhou
Assistant Professor, CMNS-Computer Science; B.E., Tsinghua University/Qinghua University, 2019; M.S., Columbia University, 2021; Ph.D., 2024.

Tao, Wei-Kuo
Adjunct Professor, CMNS-Earth System Science Interdisciplinary Center; B.S., National Central University-Chungli, 1974; Ph.D., University of Illinois-Urbana/Champaign, 1983; M.S., Johns Hopkins University, 1987.

Tao, Xin
Lecturer, BSOS-Geography; B.S., Peking University, 2006; M.Eng., 2009; Ph.D., University of Maryland-College Park, 2015.

Tao, Yang
Professor, ENGR-Fischell Department of Bioengineering; B.S., Nanjing University/Nanking University, 1982; M.S., University of Nebraska-Lincoln, 1988; Ph.D., Pennsylvania State University, 1991.

Tapp, Austin
Visiting Lecturer, ENGR-Fischell Department of Bioengineering; B.S., College of William & Mary, 2017; Ph.D., Old Dominion University, 2021.

Tashima, Nathaniel
Adjunct Professor, BSOS-Anthropology; B.A., University of California-San Diego, 1973; M.A., 1976; D.S.W., Northwestern University, 1985.

Tate, Geoffrey A
Chair, BMGT-Finance; Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Finance; B.A., Rutgers University, 1998; Ph.D., Harvard University, 2003.

Taylor, Jacob
Adjunct Professor, CMNS-Institute for Advanced Computer Studies; Adjunct Professor, CMNS-Physics; B.A., Harvard University, 2000; Ph.D., 2006.

Taylor, Mary Susan
Professor Emerita, BMGT-Robert H. Smith School of Business; B.A., University of South Alabama, 1973; M.S., Iowa State University, 1975; Ph.D., Purdue University-West Lafayette, 1978.

Taylor, Mercedes Kelleher
Assistant Professor, CMNS-Chemistry & Biochemistry; B.A., Amherst College, 2011; Ph.D., University of California-Berkeley, 2018.

Taylor, Terrill O.
Assistant Professor, BSOS-Psychology; B.S., University of Houston, 2015; M.A., University of North Dakota, 2020; Ph.D., 2023.

Tchangalova, Nedelina
Librarian IV, LIBR-Libraries; M.S., University of Chemical Technology and Metallurgy Sofia, 1995; B.S., 1995; M.A./M.L.S., University of Maryland-College Park, 2004.

Tchetcherina, Natalia F.
Lecturer, CMNS-Mathematics; B.A., Moscow State University, 1992; M.S., Pennsylvania State University, 2007.

Teglasi, Hedwig
Professor, EDUC-Counseling, Higher Education and Special Education; B.A., Rutgers University, 1969; M.A., Temple University, 1971; Ph.D., Hofstra University, 1975.

Teixeira, Jose Luis
Lecturer, BMGT-Management & Organization; B.A., University of Maryland-College Park, 2010.

Telhami, Shibley
Professor, BSOS-Government & Politics; 2018-2019 Distinguished Scholar-Teacher. B.A., CUNY-Queens College, 1974; M.A., Graduate Theological Union, 1978; Ph.D., University of California-Berkeley, 1986.

Teli, Mohammad Nayeem
Senior Lecturer, CMNS-Computer Science; B.E., National Institute of Technology, Srinagar, 2000; M.S., Colorado State University-Fort Collins, 2007; Ph.D., 2013.

Terchek, Ronald J.
Professor Emeritus, BSOS-Government & Politics; B.A., University of Chicago, 1958; M.A., 1960; Ph.D., University of Maryland-College Park, 1965.

Terpos, Colleen Marie
Lecturer, CMNS-Mathematics; B.S., University of Miami, 1988; M.A., Boston College, 1990.

Testa, Jeremy Mark
Visiting Associate Professor, CMNS-Marine & Estuarine-Environmental Science Prog; B.S., SUNY-College of Environmental Science & Forestry, 2003.

Thakker, Rikin
Lecturer, ENGR-ECE-Telecommunications Program; B.E., Gujarat University, 2000; M.S., University of Maryland-College Park, 2002; Ph.D., George Washington University, 2013.

Thamire, Chandrasekhar
Principal Lecturer, ENGR-Mechanical Engineering; B.Tech., Jawharlal Nehru Technical University, 1987; Ph.D., University of Maryland-Baltimore County, 1997; M.S., 1997.

Theim, Rebecca Ann
Lecturer, ARHU-Communication; B.S., Northwestern University, 1984; M.A., Ohio State University, 1993; M.S., Northwestern University, 1994.

Therrien, Madeleine B.
Professor Emerita, ARHU-School of Languages, Literatures, and Cultures; Ph.D., Michigan State University, 1966.

Thiel, Eric S
Senior Lecturer, ARHU-English; B.A., Colorado State University-Fort Collins, 1998; M.A., American University, 2008.

Thoma, Marie Elizabeth
Associate Professor, SPHL-Family Science; B.A., University of Pennsylvania, 2000; M.H.S., Johns Hopkins University, 2010; Ph.D., 2010.

Thomann, Matthew A.
Associate Professor, BSOS-Anthropology; B.A., DePaul University, 2007; M.S., Pace University - New York, 2009; Ph.D., American University, 2014.

Thomas, David Luther
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.Elect.E., Virginia Polytechnic Institute & State University, 1996; M.Eng., Johns Hopkins University, 1999.

Thomas, Jannel S
Lecturer, SPHL-Family Science; B.A., University of Maryland-College Park, 2014.

Thomas, Stephen B.
Director, SPHL-Health Policy and Management; Professor, SPHL-Health Policy and Management; B.S., Ohio State University, 1980; M.S., Illinois State University, 1981; Ph.D., Southern Illinois University-Carbondale, 1985.

Thomason, Roy
Lecturer, BMGT-Management & Organization; M.M., University of Nevada-Las Vegas, 2006.

Thompson, Anne
Adjunct Professor, CMNS-Atmospheric & Oceanic Science; B.A., Swarthmore College, 1970; M.A., Princeton University, 1972; Ph.D., Bryn Mawr College, 1978.

Thompson, Derek
Associate Professor Emeritus, BSOS-Geography; B.A., Victoria University of Manchester, 1960; M.A., 1962; Ph.D., Indiana University, 1966.

Thompson, Eliza Akua
Associate Clinical Professor, BSOS-Hearing & Speech Sciences; B.S., George Washington University, 1999; M.S., Howard University, 2005.

Thompson, Elizabeth-Ann Smith
Lecturer, BSOS-African American Studies; B.A., University of Maryland-College Park, 2009; J.D., North Carolina Central University, 2012; M.P.S., Georgetown University, 2014.

Thompson, Hilary H
Librarian IV, LIBR-Libraries; B.A., Vanderbilt University, 2008; M.S., Pratt Institute, 2011; M.L.S., 2011.

Thompson, Katerina V.
Instructor, CMNS-Biology; B.S., Virginia Polytechnic Institute & State University, 1982; M.S., 1985; Ph.D., University of Maryland-College Park, 1992.

Thompson, Le-Marie Vanessa Joan
Lecturer, BMGT-Management & Organization; B.S., University of Maryland-College Park, 2001; M.A., Georgetown University, 2003.

Thompson, Tracy
Lecturer, PLCY-School of Public Policy; B.A., Newberry College, 1998; M.S., University of South Carolina-Columbia, 2000; Ph.D., Walden University, 2020.

Thornberry, Terence P
Distinguished University Professor, BSOS-Criminology & Criminal Justice; B.A., Fordham University, 1966; Ph.D., University of Pennsylvania, 1971; M.A., 1971.

Thorne, Barbara L.
Professor Emerita, CMNS-Entomology; B.A., Brown University, 1976; M.A., Harvard University, 1978; Ph.D., 1983.

Tielens, Alexander
Adjunct Professor, CMNS-Astronomy; B.S./M.S., Universiteit Leiden, 1977; Ph.D., 1982.

Tiesinga, Eite
Adjunct Professor, CMNS-Physics; B.S./M.S., University of Groningen, 1988; Ph.D., Eindhoven University of Technology, 1993.

Tiglao, Nestor Michael C.
Lecturer, ENGR-Electrical & Computer Engineering; B.Elect.E., University of the Philippines-Diliman, 1995; M.Elect.E., 2005; D.O., University of Lisbon, 2013.

Tikekar, Rohan V.
Professor, AGNR-Nutrition and Food Science; B.S., Institute of Chemical Technology, 2004; M.S., Rutgers Biomedical & Health Sciences, 2006; Ph.D., Pennsylvania State University, 2010.

Tilghman, James W
Lecturer, ARCH-Architecture Program; B.A., University of Pennsylvania, 1982; M.Arch., Harvard University, 1986.

Tilley, David R.
Associate Professor, AGNR-Environmental Science & Technology; B.S., North Carolina State University, 1992; B.S., 1992; M.Eng., University of Florida, 1996; Ph.D., 1999.

Tirrell-Corbin, Christy
Clinical Professor, EDUC-Human Development and Quantitative Methodology; B.A., Connecticut College, 1980; M.S., East Carolina University, 1984; Ph.D., University of Maryland-College Park, 1996.

Tismaneanu, Vladimir
Professor, BSOS-Government & Politics; 2003-2004 Distinguished Scholar-Teacher. B.A., University of Bucharest, 1974; Ph.D., 1980.

Tits, Andre L.
Professor, ENGR-Electrical & Computer Engineering; Professor, ENGR-Institute for Systems Research; B.S., University of Liege, 1974; M.S., University of California-Berkeley, 1979; Ph.D., 1980.

Titus, Marvin A.
Lecturer, EDUC-Counseling, Higher Education and Special Education; B.A., CUNY-York College, 1979; M.A., University of Wisconsin-Milwaukee, 1982; Ph.D., University of Maryland-College Park, 2003.

Tiwari, Vijay K
Associate Professor, AGNR-Plant Science & Landscape Architecture; B.S., Purvanchal University, 1998; M.S., 2003; Ph.D., Indian Institute of Technology, 2009.

Tiwary, Pratyush
Professor, CMNS-Chemistry & Biochemistry; Professor, CMNS-Institute for Physical Science & Technology; Affiliate Professor, ENGR-Materials Science & Engineering; B.S., Banaras Hindu University, 2007; M.S., California Institute of Technology, 2008; Ph.D., 2012.

Tjaden, Robert L. Jr.
Principal Agent Emeritus, AGNR-Environmental Science & Technology; A.O., University of Maine at Augusta, 1976; B.S., 1978; M.O., Duke University, 1986; Ph.D., University of Maryland-College Park, 2002.

Tobin, John Constantine
Lecturer, ARHU-English; B.A., University of Michigan-Ann Arbor, 2014; M.F.A., University of Baltimore, 2018.

Todd, David Yandell
Senior Lecturer, ARHU-English; B.A., Wesleyan University, 1981; J.D., University of Connecticut-all campuses, 1985; M.F.A., University of Florida, 1993.

Tohidi, Ali
Assistant Professor, ENGR-Fire Protection Engineering; Affiliate Assistant Professor, ENGR-Mechanical Engineering; B.S., Islamic Azad University, 2009; M.S., Sharif University of Technology, 2011; Ph.D., Clemson University, 2016.

Tokekar, Pratap
Associate Professor, CMNS-Computer Science; Associate Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Associate Professor, ENGR-Institute for Systems Research; B.Tech., College of Engineering, Pune, 2008; Ph.D., University of Minnesota-Twin Cities, 2014; B.S., Budapest University of Technology & Econ, 2021.

Tomblin, David
Principal Lecturer, ENGR-A. James Clark School of Engineering; B.S., Old Dominion University, 1991; M.S., Virginia Polytechnic Institute & State University, 1994; Ph.D., 2009.

Tomlinson, Tracy Darlene
Principal Lecturer, BSOS-Psychology; B.A., Reed College, 2003; M.S., University of Maryland-College Park, 2007; Ph.D., 2009.

Toor, Abdul Hameed
Visiting Professor, CMNS-Physics; B.S., Quaid-i-Azam University, 1986; M.Phys., 1989; M.Phys., 1991; D.O., 1996.

Toor, Gurpal
Professor, AGNR-Environmental Science & Technology; B.S., Punjab Agricultural University-Ludhiana, 1993; M.S., 1996; Ph.D., Lincoln University, 2002.

Topper, Julia
Lecturer, ARHU-School of Music; B.A., Nazareth College, 2009; M.A., University of Rochester, 2011; Ph.D., University of Maryland-College Park, 2018.

Toprak, Vasfiye Betul
Visiting Lecturer, UGST-HCOL-University Honors Program; B.A., Hacettepe University-Ankara, 2011; M.A., Florida International University, 2017; M.A., University of Virginia, 2019; Ph.D., 2023.

Torney-Purta, Judith
Professor Emerita, EDUC-Human Development and Quantitative Methodology; A.B., Stanford University, 1959; M.A., University of Chicago, 1962; Ph.D., 1965.

Torp, Lyle C.
Lecturer, BSOS-Anthropology; B.A., Wake Forest University, 1988; M.A., University of South Florida, 1992.

Torrents Capdevila, Alba
Professor, ENGR-Civil & Environmental Engineering; B.S., Universitat de Barcelona, 1985; M.A., Johns Hopkins University, 1988; Ph.D., 1992.

Toth, Elizabeth L.
Professor Emerita, ARHU-Communication; B.S., Northwestern University, 1966; M.A., Purdue University-West Lafayette, 1969; Ph.D., 1975.

Townshend, John R.
Professor Emeritus, BSOS-Geography; B.S., University College-London, 1967; B.S., 1967; Ph.D., 1971.

Trakhman, Lauren Melissa
Assistant Clinical Professor, EDUC-Human Development and Quantitative Methodology; Ph.D., University of Maryland-College Park, 2019.

Tran, Erin EH
Senior Lecturer, CMNS-Cell Biology & Molecular Genetics; B.S., University of Kansas, 2001; Ph.D., University of Wisconsin-Madison, 2008.

Tran, Jorinna Zuber
Lecturer, EDUC-Counseling, Higher Education and Special Education; B.A., University of Maryland-College Park, 2003; M.A., 2007.

Trapuzzano, Natalie
Librarian I, LIBR-Libraries; B.A., University of Pittsburgh, 2015; B.A., 2015; M.S., University of British Columbia, 2021; M.A./M.L.S., 2021.

Travers, Christopher S
Visiting Assistant Clinical Professor, EDUC-Counseling, Higher Education and Special Education; B.S., Frostburg State University, 2009; M.A., Towson University, 2011; Ph.D., Ohio State University, 2018.

Tremblay-Boire, Joannie
Assistant Professor, PLCY-School of Public Policy; B.A., Concordia University-Montreal, 2007; M.P.A., 2009; Ph.D., University of Washington-Seattle, 2015.

Tretter, Steven Alan
Associate Professor Emeritus, ENGR-Electrical & Computer Engineering; B.S., University of Maryland-College Park, 1962; M.A., Princeton University, 1964; Ph.D., 1966.

Trevino, Rodrigo
Assistant Professor, CMNS-Mathematics; B.S., University of Texas-Austin, 2007; Ph.D., University of Maryland-College Park, 2012.

Trevitt, Jamie Lynne
Assistant Clinical Professor, SPHL-Epidemiology & Biostatistics; B.A., Duke University, 2003; M.P.P., Georgetown University, 2006; Ph.D., Johns Hopkins University, 2010.

Trielli, Daniel
Assistant Professor, JOUR-Philip Merrill College of Journalism; B.A., Universidade Metodista de Sao Paulo, 2005; M.A., University of Maryland-College Park, 2016; Ph.D., Northwestern University, 2022.

Tripp, Kerry W.
Principal Lecturer, SPHL-Family Science; B.S., University of Pittsburgh, 1982; J.D., University of Notre Dame, 1985.

Tritschler, John Kirwin
Lecturer, ENGR-Aerospace Engineering; B.S., University of Notre Dame, 2005; M.S., University of Maryland-College Park, 2010; Ph.D., 2012.

Trivisa, Konstantina
Director, CMNS-Institute for Physical Science & Technology; Professor, CMNS-Mathematics; Professor, CMNS-Institute for Physical Science & Technology; B.S., University of Patras, 1990; M.S., Brown University, 1992; Ph.D., 1996.

Troilo, Christopher Fox
Lecturer, BMGT-Other Programs-IBM/Quest; B.S., University of Maryland-College Park, 2004; M.Ed., Vanderbilt University, 2011; Ph.D., Indiana University, 2016.

Trouve, Arnaud C.
Chair, ENGR-Fire Protection Engineering; Professor, ENGR-Fire Protection Engineering; M.S., Ecole Centrale Des Arts Et Manufac-Paris, 1985; Ph.D., 1989.

Trudell, Scott A.
Associate Professor, ARHU-English; B.A., Tufts University, 2002; M.A., Rutgers University, 2009; Ph.D., 2012.

Truelove, Ann
Lecturer, SPHL-Dean-Public Health Science; B.S., University of Maryland-Baltimore County, 1998; M.S., Johns Hopkins University, 2002; M.P.H., 2007.

Truman, Kathryn E.
Senior Lecturer, CMNS-Mathematics; B.S., Saint Norbert College, 2000; M.S., University of Maryland-College Park, 2003; M.A., 2003; Ph.D., 2007.

Trusov, Michael S.
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Marketing; B.A., Riga Technical University, 1993; M.A., 1995; M.B.A., California State University-Northridge, 2002; Ph.D., University of California-Los Angeles, 2007.

Tsai, Emily
Lecturer, ARHU-School of Music; B.Mus., University of Rochester, 2010; M.Mus., University of Maryland-College Park, 2013.

Tsong, Mayron Kacy
Associate Professor, ARHU-School of Music; B.Mus., University of Calgary, 1991; M.Mus., 1994; M.Mus., Rice University, 2001; D.M.A., 2002.

Tubaldi, Eleonora
Assistant Professor, ENGR-Mechanical Engineering; Affiliate Assistant Professor, ENGR-Institute for Systems Research; B.S., Politecnico di Milano, 2010; M.S., 2013; M.S., Ecole Polytechnique de Montreal, 2013; Ph.D., McGill University-Montreal, 2017.

Tucker, Compton J. III
Adjunct Professor, BSOS-Geography; B.S., Colorado State University-Fort Collins, 1969; M.S., 1973; Ph.D., 1975.

Tully, Kate
Associate Professor, AGNR-Plant Science & Landscape Architecture; B.A., Kenyon College, 2004; M.S., University of Virginia, 2007; Ph.D., 2011.

Tunca, Tunay
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Decision, Operations & Information Technologies; M.S., University of Rochester, 1997; M.S., Stanford University, 2000; Ph.D., 2002.

Tungtisanont, Niratcha
Associate Clinical Professor, BMGT-Logistics, Business & Public Policy; B.A., University of Arizona, 2008; M.S., 2010; Ph.D., Clemson University, 2017.

Turitto, Candace
Lecturer, BSOS-Government & Politics; B.A., James Madison University, 2005; Ph.D., University of Maryland-College Park, 2018.

Turkos, Anne S.
Librarian Emerita, LIBR-Libraries; B.A., Dickinson College, 1977; M.A., Case Western Reserve University, 1980; M.L.S., 1980.

Turner, Erica Rose
Lecturer, SPHL-Family Science; M.A., Virginia Polytechnic Institute & State University, 2013.

Turner, Jennifer Danridge
Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., University of Pennsylvania, 1994; M.Ed., Temple University, 1995; Ph.D., Michigan State University, 2003.

Turner, Paul C.
Associate Professor, SPHL-Global, Environmental, and Occupational Health; Associate Professor, SPHL-Epidemiology & Biostatistics; B.S., University of Surrey-Guildford, 1990; Ph.D., University of Edinburgh, 1995.

Turso, James Anthony
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.S., SUNY-Maritime College, 1984; M.S., Manhattan College, 1990; M.S., Pennsylvania State University, 1993; Ph.D., 1995; M.S., University of Idaho, 2009.

Turzillo, Adele Marie
Chair, AGNR-Animal & Avian Sciences; Professor, AGNR-Animal & Avian Sciences; B.A., Cornell University, 1984; Ph.D., 1992.

Tycko, Robert
Adjunct Professor, CMNS-Physics; B.A., Princeton University, 1980; Ph.D., University of California-Berkeley, 1984.

Tyler, Bonnie B.
Associate Professor Emerita, EDUC-Human Development and Quantitative Methodology; B.A., DePauw University, 1948; M.A., Ohio State University, 1949; Ph.D., 1954.

Tyrell, Fanita A
Assistant Professor, BSOS-Psychology; B.A., Northern Arizona University, 2006; M.A., 2009; Ph.D., University of California-Riverside, 2017.

U

Udahogora, Margaret
Lecturer, AGNR-Nutrition and Food Science; B.S., University of New Hampshire, 2001; M.S., 2003; Ph.D., University of Maryland-College Park, 2011.

Uler, Neslihan
Associate Professor, AGNR-Agricultural & Resource Economics; B.S., The Middle East Tech University-Ankara, 2001; M.A., New York University, 2005; D.O., 2007.

Ulitin, Alexei
Lecturer, ARHU-School of Music; B.Mus., Other, 2008; M.Mus., 2008; B.Mus., Rowan University, 2010; D.M.A., University of Maryland-College Park, 2016.

Ulukus, Sennur
Chair, ENGR-Electrical & Computer Engineering; Distinguished University Professor, ENGR-Electrical & Computer Engineering; 2016-2017 Distinguished Scholar-Teacher. B.S., Bilkent University, 1991; M.S., 1993; Ph.D., Rutgers University, 1998.

Unal, Haluk
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Finance; B.A., Istanbul University, 1973; D.O., 1976; M.A., Ohio State University, 1981; Ph.D., 1985.

Upadhyaya, Arpita
Professor, CMNS-Physics; Professor, CMNS-Institute for Physical Science & Technology; M.S., Birla Institute of Technology & Science, 1994; Ph.D., University of Notre Dame, 2000.

Upchurch, Mia Roper
Lecturer, EDUC-Counseling, Higher Education and Special Education; B.A., Gallaudet University, 2022; M.A., 2024.

Urban, E. Louise
Professor Emerita, ARHU-School of Music; B.A., College of Wooster, 1957; M.A., Columbia University, 1959.

Uriagereka, Juan
Professor, ARHU-Linguistics; Professor, ARHU-School of Languages, Literatures, and Cultures; Affiliate Professor, ARHU-Dean-MD Language Science Center; B.A., Universidad de Deusto, 1983; M.A., University of Connecticut-all campuses, 1986; Ph.D., 1988.

Urzua, Sergio
Professor, BSOS-Economics; B.A., Universidad de Chile, 2000; M.A., 2001; M.A., University of Chicago, 2003; Ph.D., 2007.

Uslaner, Eric M.
Professor Emeritus, BSOS-Government & Politics; B.A., Brandeis University, 1968; M.A., Indiana University, 1970; Ph.D., 1973.

V

Vacante, Dennis F.
Lecturer, SPHL-Kinesiology; B.A., University of West Florida-Pensacola, 1971; M.A., Washington Theological Union, 1979.

Vadrevu, Krishna Prasad
Adjunct Professor, BSOS-Geography; B.S., Osmania University, 1993; M.S., 1996; Ph.D., Other, 2000.

Vaganek, Megan Michelle
Lecturer, EDUC-Counseling, Higher Education and Special Education; B.A., Pennsylvania State University, 2007; M.A., University of Maryland-College Park, 2012; Ph.D., 2015.

Vaglio, Mirella
Lecturer, ARHU-School of Languages, Literatures, and Cultures; M.A., Other, 1989; Ph.D., University College of Swansea, 1996.

Valencia Valencia, Stephanie
Assistant Professor, INFO-College of Information Studies; M.S., Carnegie Mellon University, 2020; Ph.D., 2023.

Valentine, Brian G.
Lecturer, ENGR-Maryland Applied Graduate Engineering; B.S., Siena College, 1973; M.Eng., Rensselaer Polytechnic Institute, 1981; Ph.D., 1986.

Valentine, Curtis Chavis
Lecturer, PLCY-School of Public Policy; M.P.P., Harvard University, 2008.

Valentino, Gianna M
Assistant Professor, ENGR-Materials Science & Engineering; Affiliate Assistant Professor, ENGR-Mechanical Engineering; B.S., St. Joseph's University, 2014; M.S., Johns Hopkins University, 2016; Ph.D., 2019.

Valerio, Miguel Alejandro
Associate Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., St. John's University, 2008; M.A., 2010; Ph.D., Ohio State University, 2017.

Valiavitcharska, Vessela
Associate Professor, ARHU-English; Affiliate Associate Professor, ARHU-Dean-MD Language Science Center; B.O., University of Sofia, 1995; M.A., University of Chicago, 1997; Ph.D., University of Texas-Austin, 2007.

Valli, Linda R.
Professor Emerita, EDUC-Teaching and Learning, Policy and Leadership; B.A., Mercy College, 1970; M.A., Johns Hopkins University, 1976; Ph.D., University of Wisconsin-Madison, 1983.

Valnes, Matthew
Visiting Assistant Professor, ARHU-School of Music; B.A., Youngstown State University, 2006; Ph.D., University of Pennsylvania, 2012.

Van der Weele, Corine
Lecturer, CMNS-Biology; M.S., Universiteit Utrecht, 1995; Ph.D., University of Missouri-Columbia, 2001.

Van Horn, David
Associate Professor, CMNS-Computer Science; Associate Professor, CMNS-Institute for Advanced Computer Studies; B.S., University of Vermont, 2003; M.S., 2006; Ph.D., Brandeis University, 2009.

Van Hyning, Victoria
Assistant Professor, INFO-College of Information Studies; B.A., Goucher College, 2006; M.A., University of Oxford, 2008; Ph.D., University of Sheffield, 2013.

van Zee, Emily H.
Associate Professor Emerita, EDUC-Teaching and Learning, Policy and Leadership; B.A., Harvard University, 1964; M.S., University of Washington-Seattle, 1982; Ph.D., 1989.

VanderGoot, Jana Kristina
Associate Professor, ARCH-School of Architecture, Planning, & Preservation; Associate Professor, ARCH-Architecture Program; B.Arch., University of Notre Dame, 2001; M.Arch., University of Virginia, 2010; M.L.Arch., Harvard University, 2013.

Vanderheiden, Gregg Charles
Professor Emeritus, INFO-College of Information Studies; B.S., University of Wisconsin-Madison, 1972; M.S., 1974; Ph.D., 1984.

vanEngelsdorp, Dennis
Professor, CMNS-Entomology; B.S., University of Guelph-Ontario, 1992; M.S., 1995; Ph.D., Pennsylvania State University, 2011.

VanKlompenberg, Monica
Senior Lecturer, AGNR-Animal & Avian Sciences; B.S., Michigan State University, 2008; Ph.D., University of California-Davis, 2013.

Vann, Robert L.
Professor Emeritus, ARCH-School of Architecture, Planning, & Preservation; Lecturer, ARCH-Architecture Program; B.S., University of Texas-Austin, 1968; D.O., Cornell University, 1976.

Vannoy, Donald W.
Professor Emeritus, ENGR-Civil & Environmental Engineering; B.S., West Virginia University Institute of Technology, 1970; M.S., University of Virginia, 1971; Ph.D., 1975.

VanWagner, Adam B
Lecturer, BMGT-Dean-Career Management; Lecturer, BMGT-Dean-Career Management; M.P.S., University of Maryland-College Park, 2015.

Varner, Mark A.
Professor Emeritus, AGNR-Animal & Avian Sciences; B.S., University of Minnesota-Crookston, 1975; M.S., Washington State University, 1977; Ph.D., North Carolina State University, 1982.

Varner, Stephanie
Lecturer, EDUC-Human Development and Quantitative Methodology; B.S., University of Maryland-College Park, 2009; M.A., Notre Dame of Maryland University, 2014; M.Ed., Loyola University Maryland, 2019.

Varshney, Amitabh
Dean, CMNS-College of Computer, Math & Natural Sciences; Professor, CMNS-Computer Science; Professor, CMNS-Institute for Advanced Computer Studies; B.S., Indian Institute of Technology-Delhi, 1989; M.S., University of North Carolina-Chapel Hill, 1991; Ph.D., 1994.

Vasudev, Kapil
Librarian II, LIBR-Libraries; M.L.S., University of North Carolina-Greensboro, 2017.

Vasudevan, Krishnan
Associate Professor, JOUR-Philip Merrill College of Journalism; B.A., College of William & Mary, 2006; M.A., New York University, 2010; Ph.D., University of Texas-Austin, 2017.

Vaughan, Mary Kay
Professor Emerita, ARHU-History; B.A., Cornell University, 1964; M.A., University of Wisconsin-Madison, 1970; Ph.D., 1973.

Vaziri Rahimi, Alireza
Assistant Professor, ARHU-Art; B.F.A., University of Tehran, 2010; M.F.A., University of California-Davis, 2021.

Veatch, Elizabeth Grace
Lecturer, BSOS-Anthropology; Ph.D., Emory University, 2021.

Vedernikov, Andrei
Professor, CMNS-Chemistry & Biochemistry; M.S., Kazan State University, 1983; Ph.D., 1986; Sc.D., 1999.

Vega-Vila, Juan Carlos
Assistant Professor, ENGR-Chemical & Biomolecular Engineering; B.S., University of Puerto Rico-Mayaguez, 2014; Ph.D., Purdue University-West Lafayette, 2019.

Veilleux, Sylvain
Director, CMNS-Astronomy; Professor, CMNS-Astronomy; B.S., University of Montreal, 1984; M.S., University of California-Santa Cruz, 1986; Ph.D., 1989.

Velez, Maria Beatriz
Associate Professor, BSOS-Criminology & Criminal Justice; B.A., St. Mary's University, 1992; M.A., University of Texas-Austin, 1994; Ph.D., Ohio State University, 2002.

Venkataramani, Vijaya
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Management & Organization; 2024-2025 Distinguished Scholar-Teacher. B.O., University of Delhi, 1998; M.B.A., Management Development Institute Gurgaon, 2000; Ph.D., Purdue University-West Lafayette, 2008.

Verdaguer, Pierre M.
Professor Emeritus, ARHU-School of Languages, Literatures, and Cultures; B.O., University of Paris, 1974; M.O., University of Paris III, 1972; Ph.D., University of Virginia, 1981.

Via, Sara
Professor, CMNS-Entomology; 2001-2002 Distinguished Scholar-Teacher. B.A., Duke University, 1974; M.S., Australian National University-Canberra, 1976; Ph.D., Duke University, 1983.

Vijay, Inder K.
Professor Emeritus, AGNR-Animal & Avian Sciences; B.S., Punjab University, 1961; M.S., University of Saskatchewan-Saskatoon, 1966; Ph.D., University of California-Davis, 1971.

Vilan, Diego
Lecturer, BSOS-Economics; B.A., Universidad de San Andres, 2000; M.A., Duke University, 2008; Ph.D., University of Southern California, 2015.

Vilar, Miguel G.
Assistant Professor, BSOS-Anthropology; B.A., Haverford College, 1997; M.S., Columbia University, 1999; M.S., Binghamton University, 2006; M.A., 2007; Ph.D., 2010.

Villani, Stefano
Professor, ARHU-History; B.A., University of Pisa, 1991; M.A., 1993; Ph.D., Scuola Normale Superiore di Pisa, 1999.

Vincent, Daniel R.
Professor, BSOS-Economics; B.A., University of Toronto, 1981; B.A., University of Oxford, 1983; Ph.D., Princeton University, 1987.

Visconti, Giancarlo
Assistant Professor, BSOS-Government & Politics; B.A., Pontifica Universidad Catolica De Chile, 2010; Ph.D., Columbia University, 2018.

Vishkin, Uzi
Professor, ENGR-Electrical & Computer Engineering; Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Professor, CMNS-Computer Science; B.S., Hebrew University of Jerusalem, 1974; M.S., 1975; Sc.D., Technion-Israel Institute of Tech, 1981.

Visser, Johannes Hendrik
Assistant Clinical Professor, ARHU-School of Music; B.Mus., University of Cape Town, 2017; M.Mus., University of Louisville, 2019; M.Mus., 2020; D.M.A., University of Maryland-College Park, 2024.

Viswanathan, Siva
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Decision, Operations & Information Technologies; M.S., New York University, 2000; Ph.D., 2002.

Vitak, Jessica
Professor, INFO-College of Information Studies; B.A., Elon University, 2002; M.A., Georgetown University, 2008; Ph.D., Michigan State University, 2012.

Vitzthum, Richard Carleton
Professor Emeritus, ARHU-English; B.A., Amherst College, 1957; M.A., Harvard University, 1958; Ph.D., Stanford University, 1963.

Vivona, Joseph F.
Senior Administrator Emeritus, SVPAAP-Office of the Senior Vice President & Provost; B.A., St. John's University, 1972; M.P.A., New York University, 1974.

Vogel, Stuart
Professor Emeritus, CMNS-Astronomy; B.A., Williams College, 1975; Ph.D., University of California-Berkeley, 1983.

Volchok, Mikhail
Lecturer, ARHU-School of Music; B.Mus., Moscow State Conservatory, 1972; M.Mus., St. Petersburg State Conservatory, 1974; Ph.D., 1976.

Volk, Alicia
Professor, ARHU-Art History & Archaeology; B.A., University of Virginia, 1994; M.A., Yale University, 1999; M.O., 2001; Ph.D., 2005.

Von Euw, Michelle Helene
Senior Lecturer, ARHU-English; B.A., George Washington University, 1996; M.F.A., University of Maryland-College Park, 2005.

von Petersdorff, Tobias
Associate Professor, CMNS-Mathematics; B.O., Technische Universitat Darmstadt, 1987; Ph.D., 1989.

Votta, Michael Jr.
Professor, ARHU-School of Music; 2025-2026 Distinguished Scholar-Teacher. B.S., University of Michigan-Ann Arbor, 1979; B.Mus., 1979; M.Mus., 1980; M.Mus., 1981; D.M.A., University of Rochester, 1986.

Vough, Lester R.
Associate Professor Emeritus, AGNR-Plant Science & Landscape Architecture; B.S., Pennsylvania State University, 1966; M.S., University of Minnesota-Twin Cities, 1969; Ph.D., Purdue University-West Lafayette, 1972.

W

Wachsman, Eric D.
Director, ENGR-Materials Science & Engineering; Director, ENGR-Chemical & Biomolecular Engineering; Distinguished University Professor, ENGR-Materials Science & Engineering; Distinguished University Professor, ENGR-Chemical & Biomolecular Engineering; B.S., University of California-Berkeley, 1982; M.S., Stanford University, 1986; Ph.D., 1990.

Wagner, Daniel MacLean
Professor Emeritus, ARHU-School of Theatre, Dance & Performance Studies; B.A., University of Maryland-College Park, 1979; M.A., 1982.

Wagner, Janet
Associate Professor Emerita, BMGT-Robert H. Smith School of Business; B.S., Cornell University, 1970; M.A., 1973; Ph.D., Kansas State University, 1982.

Waguespack, David M.
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Management & Organization; B.A., University of California-Santa Barbara, 1989; D.Pol.Sc., University of Oregon, 1998; M.Pol.Sc., 1998.

Wain, Lance B
Lecturer, BMGT-Marketing; B.A., University of Maryland-Baltimore County, 1994; M.I.M., University of Maryland-Global Campus, 2020.

Wakefield, John E.
Associate Professor Emeritus, ARHU-School of Music; B.Mus., University of Michigan-Ann Arbor, 1963; M.Mus., 1964.

Waks, Edo
Professor, ENGR-Electrical & Computer Engineering; Professor, CMNS-Physics; Professor, CMNS-Institute for Research in Electronics & Applied Physics; B.S., Johns Hopkins University, 1995; M.S., 1996; Ph.D., Stanford University, 2003.

Waks, Leah
Principal Lecturer, ARHU-Communication; B.A., Tel Aviv University, 1980; Ph.D., University of Michigan-Ann Arbor, 1991.

Walcott, Rianna
Assistant Professor, ARHU-Communication; M.A., University of Edinburgh, 2016; M.S., 2017; Ph.D., King's College-London, 2023.

Walden, Elizabeth Danielle
Lecturer, UGST-HCOL-ACES Cybersecurity Program; M.S., Marymount University, 2018.

Waldron, Selvon Malcolm
Lecturer, PLCY-School of Public Policy; M.Ed., University of Maryland-College Park, 2020.

Waldrop, Christopher Adams
Lecturer, SPHL-Dean-Public Health Science; B.A., Texas Tech University, 1995; M.P.H., Johns Hopkins University, 2007.

Walejko, Gina
Adjunct Assistant Professor, BSOS-Joint Program in Survey Methodology; B.S., University of Wisconsin-Madison, 2002; M.S., 2005; M.S., 2005; Ph.D., Northwestern University, 2010.

Walker, Margaret Anne
Associate Clinical Professor, EDUC-Teaching and Learning, Policy and Leadership; B.S., University of Maryland-College Park, 1991; M.S., McDaniel College, 1994; Ed.D., Teachers College of Columbia University, 2008; Ed.D., Columbia University, 2010.

Walker, Olga L
Lecturer, EDUC-Human Development and Quantitative Methodology; B.A., University of Miami, 2005; M.S., 2008; Ph.D., 2011.

Walker, Richard Ernest
Associate Professor Emeritus, ARHU-School of Languages, Literatures, and Cultures; B.A., West Virginia University, 1966; M.A., 1968; Ph.D., University of Chicago, 1973.

Walker, Richard J.
Distinguished University Professor, CMNS-Geology; B.S., College of William & Mary, 1979; M.S., SUNY-Stony Brook, 1981; Ph.D., 1984.

Walkoe, Janet
Associate Professor, EDUC-Teaching and Learning, Policy and Leadership; B.A., University of Chicago, 1994; M.S., University of Illinois-Chicago, 2008; Ph.D., Northwestern University, 2013.

Wallace, James M.
Professor Emeritus, ENGR-Mechanical Engineering; B.C.E., Georgia Institute of Technology, 1962; M.S., 1964; D.O., University of Oxford, 1969.

Wallace, Jennifer
Senior Lecturer, BSOS-Government & Politics; B.A., Sarah Lawrence College, 2002; M.A., Graduate Institute of International Development Studies, 2004; Ph.D., University of Maryland-College Park, 2017.

Wallace, Stephen J.
Professor Emeritus, CMNS-Physics; B.S., Case Western Reserve University, 1961; M.S., University of Washington-Seattle, 1969; Ph.D., 1971.

Wallen, Jacqueline
Associate Professor Emerita, SPHL-Family Science; B.A., Lake Forest College, 1965; M.A., University of Chicago, 1967; M.S.W., Catholic University of America, 1989; Ph.D., University of Chicago, 1976.

Wallis, John Joseph
Professor, BSOS-Economics; B.A., University of Washington-Seattle, 1975; M.A., 1978; Ph.D., 1981.

Walls, Anita Chloette
Lecturer, EDUC-Dean-Outreach; B.A., Hampton University, 2002; M.Ed., 2003; M.S., Coppin State University, 2007; Ed.D., University of Maryland-College Park, 2020.

Wallsten, Thomas S.
Professor Emeritus, BSOS-Psychology; B.S., University of Wisconsin-Madison, 1964; M.A., University of Pennsylvania, 1966; Ph.D., 1969.

Walsemann, Katrina
Professor, PLCY-School of Public Policy; B.A., University of California-Davis, 1997; M.P.H., University of Michigan-Ann Arbor, 2000; Ph.D., 2005.

Walsh, Christopher S.
Professor Emeritus, AGNR-Plant Science & Landscape Architecture; B.A., Middlebury College, 1969; M.S., Cornell University, 1977; Ph.D., 1980.

Walsh, Shane Bolles
Lecturer, BSOS-African American Studies; M.A., Morgan State University, 2012; Ph.D., University of Maryland-College Park, 2019.

Walston, William H. Jr.
Associate Professor Emeritus, ENGR-Mechanical Engineering; B.Mech.E., University of Delaware, 1959; M.S., 1961; Ph.D., 1964.

Walsworth, Ronald L Jr.
Professor, ENGR-Electrical & Computer Engineering; Professor, CMNS-Physics; Affiliate Professor, ENGR-Fischell Department of Bioengineering; B.S., Duke University, 1984; Ph.D., Harvard University, 1991.

Walter, Christina
Associate Professor, ARHU-English; Ph.D., University of Illinois-Urbana/Champaign, 2008.

Walters, Barbara S.
Lecturer, CMNS-Chemistry & Biochemistry; B.S., University of Illinois-Urbana/Champaign, 1961; B.S., University of Illinois-Chicago, 1961; M.S., 1962; M.S., University of Illinois-Urbana/Champaign, 1962.

Walters, William B.
Professor Emeritus, CMNS-Chemistry & Biochemistry; B.S., Kansas State University, 1960; Ph.D., University of Illinois-Urbana/Champaign, 1964.

Wang, Chunsheng
Distinguished University Professor, ENGR-Chemical & Biomolecular Engineering; Affiliate Professor, ENGR-Materials Science & Engineering; B.S., Jiamusi University, 1982; M.S., Harbin Institute of Technology, 1988; Ph.D., Zhejiang University, 1995.

Wang, Cixin
Associate Professor, EDUC-Counseling, Higher Education and Special Education; B.S., Peking University, 2004; M.S., University of Nebraska-Lincoln, 2006; M.A., 2008; Ph.D., 2011.

Wang, Jian
Associate Professor, CMNS-Entomology; B.S., Nanjing University/Nanking University, 1984; M.S., 1988; Ph.D., Shanghai Agricultural University, 1998.

Wang, Kuanting
Visiting Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., National Taiwan University, 2012; M.A., 2017.

Wang, Lai-Xi
Distinguished University Professor, CMNS-Chemistry & Biochemistry; Sc.D., Hokkaido University, 1996.

Wang, Min Qi
Professor, SPHL-Behavioral & Community Health; B.S., Peking University, 1974; M.S., Florida State University, 1981; Ph.D., Arizona State University, 1987.

Wang, Min
Professor, EDUC-Human Development and Quantitative Methodology; Affiliate Professor, ARHU-Dean-MD Language Science Center; B.S., Hangzhou University, 1987; M.A., 1990; Ph.D., University of Toronto, 2000.

Wang, Nam Sun
Associate Professor, ENGR-Chemical & Biomolecular Engineering; B.S., University of California-Berkeley, 1979; M.S., California Institute of Technology, 1982; Ph.D., 1988.

Wang, Orrin
Professor, ARHU-English; Affiliate Professor, ARHU-American Studies; B.A., Reed College, 1979; M.A., University of Chicago, 1984; Ph.D., 1989.

Wang, Pin
Assistant Professor, SPHL-Global, Environmental, and Occupational Health; B.O., Sichuan University, 2006; M.P.H., Chinese University of Hong Kong, 2012; Ph.D., 2016.

Wang, Ping
Associate Professor, INFO-College of Information Studies; B.S., Renmin University of China, 1995; M.B.A., University of Maryland-College Park, 1998; Ph.D., University of California-Los Angeles, 2005.

Wang, Qin
Professor, AGNR-Nutrition and Food Science; B.S., Nanjing University/Nanking University, 1992; M.S., 1997; Ph.D., University of Illinois-Urbana/Champaign, 2004.

Wang, Sebastian S
Lecturer, ARHU-School of Music; B.A., Korea Advanced Institute of Science & Technology, 2007.

Wang, Shihua
Lecturer, AGNR-Plant Science & Landscape Architecture; B.L.A., Shenyang Agricultural University, 2010; M.L.Arch., Auburn University, 2013.

Wang, Weimeng
Lecturer, EDUC-Human Development and Quantitative Methodology; B.A., Beijing Foreign Studies University, 2014; M.Ed., University of Maryland-College Park, 2016; M.A., 2018.

Wang, Wen
Assistant Professor, BMGT-Robert H. Smith School of Business; Assistant Professor, BMGT-Decision, Operations & Information Technologies; B.O., Nankai University-Tientsin, 2016; Ph.D., Carnegie Mellon University, 2022.

Wang, YuHuang
Professor, CMNS-Chemistry & Biochemistry; B.S., Xiamen University, 1996; M.S., Emory University, 2000; Ph.D., Rice University, 2004.

Wang, Yuli
Lecturer, ARHU-School of Languages, Literatures, and Cultures; B.A., Tianjin University, 1992; M.A., Central Academy of Fine Arts, 1997.

Warfield, Patrick R.
Professor Emeritus, ARHU-School of Music; B.Mus., Lawrence University, 1994; M.A., Indiana University, 1997; Ph.D., 2003.

Warren, Anne W.
Professor Emerita, ARHU-School of Theatre, Dance & Performance Studies; B.A., Ohio State University, 1966; M.Ed., Wayne State University, 1969.

Wasdin, Katherine
Associate Professor, ARHU-Classics; B.A., Brown University, 2003; M.A., Yale University, 2006; M.Phil., 2007; Ph.D., 2009.

Washburn, Kevin Martin Matney
Lecturer, INFO-College of Information Studies; B.A., University of Virginia's College at Wise, 1985; M.L.S., University of North Carolina-Greensboro, 2004; Ed.D., Western Carolina University, 2016.

Washburn, Susannah L
Clinical Professor, PLCY-School of Public Policy; B.A., Wesleyan University, 1993; M.P.P., Georgetown University, 1998.

Washington, Lawrence C.
Associate Chair, CMNS-Mathematics; Professor, CMNS-Mathematics; 2011-2012 Distinguished Scholar-Teacher. M.A., Johns Hopkins University, 1971; B.A., 1971; Ph.D., Princeton University, 1974.

Washington, Mary Helen
Distinguished University Professor Emerita, ARHU-English; B.A., Notre Dame College, 1962; M.A., University of Detroit/Mercy, 1966; Ph.D., 1976.

Watson, Lakeshia Mone'T
Lecturer, SPHL-Dean-Public Health Science; M.P.H., University of Illinois-Chicago, 2015; Ph.D., University of Maryland-College Park, 2021.

Waugh, Rachel Louise
Senior Lecturer, ARHU-English; M.A., University of Glasgow, 1991; M.S., The New School, 1998.

Weaver, Kathy
Senior Lecturer, INFO-College of Information Studies; B.S., Miami University, 1988; M.A., University of Maryland-Baltimore County, 2007; Ph.D., 2014.

Weaver, Scott
Adjunct Associate Professor, CMNS-Atmospheric & Oceanic Science; B.S., Rutgers University, 2000; M.S., University of Maryland-College Park, 2003; Ph.D., 2007.

Webb, Ashley Lorraine
Assistant Clinical Professor, BSOS-Hearing & Speech Sciences; B.A., University of North Texas, 2004; M.B.A./M.S., Texas Woman's University, 2007.

Webster-Trotman, Shana
Lecturer, ENGR-Civil & Environmental Engineering; B.A., George Mason University, 1996; M.A., 1997; M.S., University of Maryland-Global Campus, 2006; Ph.D., Walden University, 2010.

Wedel, Michel
Distinguished University Professor, BMGT-Robert H. Smith School of Business; Distinguished University Professor, BMGT-Marketing; 2013-2014 Distinguished Scholar-Teacher. M.A., Delft University of Technology, 1980; M.S., Universiteit Leiden, 1981; Ph.D., Wageningen University, 1990.

Weeks, Ann Carlson
Professor of the Practice Emerita, PLCY-School of Public Policy; B.S., Indiana State University-Terre Haute, 1971; M.L.S., 1973; Ph.D., University of Pittsburgh, 1982.

Weeks, John D.
Distinguished University Professor Emeritus, CMNS-Chemistry & Biochemistry; B.A., Harvard University, 1965; Ph.D., University of Chicago, 1969.

Weeks, Virginia Lynn
Lecturer, CMNS-College of Computer, Math & Natural Sciences; B.A., Notre Dame of Maryland University, 2006; M.S., University of Maryland-College Park, 2019.

Wegmann, Hannah Katherine
Assistant Clinical Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., Hillsdale College, 2009; M.A., University of Maryland-College Park, 2013; Ph.D., 2018.

Wei, Cheng-I
Acting Chair, AGNR-Nutrition and Food Science; Professor, AGNR-Nutrition and Food Science; B.S., Tunghai University, 1970; M.S., National Taiwan University, 1972; Ph.D., University of California-Davis, 1979.

Weil, Raymond R.
Professor, AGNR-Environmental Science & Technology; B.S., Michigan State University, 1970; M.S., Purdue University-West Lafayette, 1972; Ph.D., Virginia Polytechnic Institute & State University, 1977.

Weinberg, Amy S.
Professor Emerita, ARHU-Linguistics; B.A., McGill University-Montreal, 1976; Ph.D., Massachusetts Institute of Technology, 1988.

Weiner, Halli S.
Assistant Clinical Professor, SVPAAP-Office of Undergraduate Research; B.S., North Carolina State University, 2010; B.S., 2010; Ph.D., University of Maryland-College Park, 2015.

Weiner, Jenna
Lecturer, UGST-Navy ROTC; B.S., University of Miami, 2017; M.S., Illinois State University, 2019.

Weiner, Joshua
Professor, ARHU-English; B.A., Northwestern University, 1985; M.A., University of California-Berkeley, 1988; Ph.D., 1998.

Weiner, Ronald M.
Professor Emeritus, CMNS-Cell Biology & Molecular Genetics; B.S., CUNY-Brooklyn College, 1964; M.S., Long Island University, 1967; Ph.D., Iowa State University, 1970.

Weiner Mansfield, Megan Lesser
Visiting Assistant Professor, CMNS-Astronomy; B.S., Massachusetts Institute of Technology, 2016; M.S., University of Chicago, 2018; Ph.D., 2021.

Weinstein, Debra L.
Clinical Professor, SPHL-School of Public Health; B.S., Tulane University, 1980; M.S., University of Maryland-College Park, 1983; Ph.D., Uniformed Services University of Health Sciences School of Medicine, 1989.

Weintrop, David
Associate Professor, EDUC-Teaching and Learning, Policy and Leadership; Associate Professor, INFO-College of Information Studies; Affiliate Associate Professor, CMNS-Computer Science; B.S., University of Michigan-Ann Arbor, 2005; Ph.D., Northwestern University, 2016.

Weismiller, Richard A.
Professor Emeritus, AGNR-Environmental Science & Technology; B.S., Purdue University-West Lafayette, 1964; M.S., 1966; Ph.D., Michigan State University, 1969.

Weiss, Gene S.
Associate Professor Emeritus, ARHU-College of Arts & Humanities; B.A., Brandeis University, 1961; M.A., New York University, 1965; Ph.D., Ohio State University, 1970.

Weiss, Joshua J
Senior Lecturer, ARHU-English; B.A., University of Iowa, 2003; M.A., Pennsylvania State University, 2006; Ph.D., University of Chicago, 2015.

Weiss, Sarah Rosa
Librarian I, LIBR-Libraries; B.S., University of Wisconsin-Madison, 2016; M.A./M.L.S., 2022.

Weitz, Joshua Stephen
Professor, CMNS-Biology; Affiliate Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Professor, CMNS-Institute for Health Computing; B.A., Princeton University, 1997; Ph.D., Massachusetts Institute of Technology, 2003.

Wellford, Charles F.
Professor Emeritus, BSOS-Criminology & Criminal Justice; B.A., University of Maryland-College Park, 1961; M.A., 1963; Ph.D., University of Pennsylvania, 1969.

Wells, Rob
Associate Professor, JOUR-Philip Merrill College of Journalism; B.A., California State University-Sacramento, 1984; M.A., St. John's College, 2013; Ph.D., University of Maryland-College Park, 2016.

Wellstood, Frederick C.
Professor Emeritus, CMNS-Physics; A.B., University of California-Berkeley, 1979; Ph.D., 1988.

Welsh, Melissa Leiden
Assistant Clinical Professor, AGNR-Ag Education; B.S., Indiana University of Pennsylvania, 1999; M.Ed., Pennsylvania State University, 2009; Ph.D., Purdue University-West Lafayette, 2014.

Wendland, Amber M
Lecturer, ARCH-Urban Studies & Planning Program; B.S., University of Maryland-College Park, 2010; M.Arch., 2013; B.S., 2010; M.Arch., 2013.

Wenegrat, Jacob
Assistant Professor, CMNS-Atmospheric & Oceanic Science; B.S., Stanford University, 2006; M.S., University of Washington-Seattle, 2013; M.S., 2014; Ph.D., 2015.

Wentworth, Richard Alan
Professor, CMNS-Mathematics; B.S., University of Wisconsin-Madison, 1985; Ph.D., Columbia University, 1990.

Wentzel, Kathryn R.
Professor Emerita, EDUC-Human Development and Quantitative Methodology; B.A., University of Minnesota-Twin Cities, 1982; Ph.D., Stanford University, 1987.

Wereley, Norman M.
Professor, ENGR-Aerospace Engineering; B.E., McGill University-Montreal, 1983; M.S., Massachusetts Institute of Technology, 1987; Ph.D., 1990.

Wermers, Russell R.
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Finance; M.B.A., University of California-Los Angeles, 1989; Ph.D., 1995.

Werner, Tim
Lecturer, SPHL-Kinesiology; B.S., Ohio State University, 2004; M.S., 2006; Ph.D., Virginia Polytechnic Institute & State University, 2013.

Wertz, Jessica Moore
Assistant Clinical Professor, BSOS-Hearing & Speech Sciences; B.A., James Madison University, 2010; M.A., University of Maryland-College Park, 2012.

Wesley, Clarence V
Senior Lecturer, BMGT-Management & Organization; B.S., University of Michigan-Ann Arbor, 1989; M.B.A., Harvard University, 1994.

Wessel, Jennifer Leah
Associate Professor, BSOS-Psychology; B.A., Rice University, 2006; M.A., Michigan State University, 2008; Ph.D., 2012.

Westgard, Joshua Allan
Librarian III, LIBR-Libraries; B.A., Augustana University, 1994; M.A., Western Michigan University, 1999; Ph.D., University of North Carolina-Chapel Hill, 2006; M.L.S., University of Maryland-College Park, 2014.

Westhoff, Dennis C.
Professor Emeritus, AGNR-Animal & Avian Sciences; A.A.S., SUNY-College of Agr & Tech-Cobleskill, 1964; B.S., University of Georgia, 1966; M.S., North Carolina State University, 1968; Ph.D., 1970.

Wexler, Jade
Professor, EDUC-Counseling, Higher Education and Special Education; B.A., James Madison University, 1997; M.S., Johns Hopkins University, 2002; Ph.D., University of Texas-Austin, 2007.

Wharton, Arielle Elizabeth
Lecturer, SPHL-Global, Environmental, and Occupational Health; B.S., University of Maryland-College Park, 2015; M.S., University of Birmingham, 2019.

White, Ann Bryant
Lecturer, PLCY-School of Public Policy; M.Eng., Johns Hopkins University, 1995.

White, Christine A
Senior Lecturer, BSOS-Dean-MLAW Programs; B.A., University of Pennsylvania, 1997; J.D., American University, 2000.

White, Frank F. Jr.
Lecturer, ENGR-Civil & Environmental Engineering; A.A.S., Essex Comm Coll (SEE BELOW for CC OF BALT CNTY), 2001.

White, Gary W.
Librarian IV, LIBR-Libraries; B.S., Youngstown State University, 1988; M.A./M.L.S., Kent State University-all campuses, 1991; M.B.A., University of Akron, 1995.

White, Ian
Associate Chair, ENGR-Fischell Department of Bioengineering; Professor, ENGR-Fischell Department of Bioengineering; B.S., University of Missouri-Columbia, 1997; M.S., Stanford University, 2000; Ph.D., 2002.

White, Marilyn D.
Associate Professor Emerita, INFO-College of Information Studies; B.A., Our Lady of the Lake University, 1962; M.S., University of Wisconsin-Madison, 1963; Ph.D., University of Illinois-Urbana/Champaign, 1971.

White, Natalia L.
Senior Lecturer, CMNS-Chemistry & Biochemistry; M.S., Moscow State Open University, 1979; M.A., 1994.

White, Susan A.
Clinical Professor Emerita, BMGT-Robert H. Smith School of Business; Clinical Professor, BMGT-Finance; Ph.D., University of Texas-Austin, 1990.

White Whilby, Kellee
Associate Professor, SPHL-Health Policy and Management; B.A., Vassar College, 2001; M.P.H., Columbia University, 2003; Ph.D., 2008.

Whitehead, Tony L.
Professor Emeritus, BSOS-Anthropology; B.A., Shaw University, 1965; M.S., University of Pittsburgh, 1969; Ph.D., 1976.

Whittemore, Edward R.
Professor Emeritus, ARHU-English; B.A., Yale University, 1941.

Wible, Scott
Associate Professor, ARHU-English; B.A., Duquesne University, 2000; M.A., Pennsylvania State University, 2002; Ph.D., 2006.

Wickner, Amy
Librarian III, LIBR-Libraries; B.Arch., Princeton University, 2005; M.L.S., University of Maryland-College Park, 2016.

Widrig, Patrik
Professor, ARHU-School of Theatre, Dance & Performance Studies; B.A., Padagogische Hochschule Rorschach, 1981.

Wien, Peter
Professor, ARHU-History; M.A., University of Heidelberg, 1999; M.A., University of Oxford, 2000; Ph.D., University of Bonn, 2003.

Wigfield, Allan L.
Professor Emeritus, EDUC-Human Development and Quantitative Methodology; B.S., University of Illinois-Urbana/Champaign, 1974; M.A., 1977; Ph.D., 1982.

Wilberg, Michael J
Visiting Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., Michigan State University, 2005.

Wilcox, Jay P
Lecturer, ARHU-English; B.S., University of Maryland-Baltimore County, 2012; M.F.A., Bennington College, 2016.

Wilder, Blake Aaron
Senior Lecturer, ARHU-English; B.A., Oberlin College, 2003; M.A., North Carolina State University, 2008; Ph.D., Ohio State University, 2017.

Wilder, Sara
Assistant Professor, ARHU-English; B.A., University of California-Davis, 2010; M.A., Ohio State University, 2013; Ph.D., 2017.

Wiley, Robert C.
Professor Emeritus, AGNR-Plant Science & Landscape Architecture; B.S., University of Maryland-College Park, 1949; M.S., 1950; Ph.D., Oregon State University, 1953.

Wilfong Cullen, Kiley
Lecturer, ENGR-Civil & Environmental Engineering; Lecturer, ARCH-Architecture Program; M.Arch., University of Maryland-College Park, 2012.

Wilkenfeld, Jonathan
Professor Emeritus, BSOS-Government & Politics; 2009-2010 Distinguished Scholar-Teacher. B.S., University of Maryland-College Park, 1964; M.A., George Washington University, 1966; Ph.D., Indiana University, 1969.

Wilkins, Caroline A
Principal Lecturer, ARHU-English; B.A., Wesleyan University, 1985; M.A., George Mason University, 1991.

Wilkinson, Gerald S.
Professor, CMNS-Biology; 1997-1998 Distinguished Scholar-Teacher. B.S., University of California-Davis, 1977; Ph.D., University of California-San Diego, 1984.

Williams, Alexander E
Associate Professor, ARHU-Linguistics; Associate Professor, ARHU-Philosophy; Affiliate Associate Professor, ARHU-Dean-MD Language Science Center; B.A., Princeton University, 1992; Ph.D., University of Pennsylvania, 2005.

Williams, Brittany L
Lecturer, ARCH-Architecture Program; Associate Clinical Professor, ARCH-Architecture Program; B.A., University of Maryland-College Park, 2005; M.A., 2007.

Williams, Clarence
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., George Mason University, 1993; M.A., Northwestern University, 1997.

Williams, Daryle
Associate Professor Emeritus, ARHU-History; A.B., Princeton University, 1989; B.A., 1989; M.A., Stanford University, 1991; Ph.D., 1995.

Williams, David Lee
Associate Professor Emeritus, EDUC-Teaching and Learning, Policy and Leadership;

Williams, Ellen D.
Distinguished University Professor Emerita, CMNS-Physics; Distinguished Faculty Research Fellow. B.S., Michigan State University, 1976; Ph.D., California Institute of Technology, 1981.

Williams, Gareth Thomas
Lecturer, ARHU-Communication; B.A., Towson University, 2001; M.A., St. John's College, 2008; Ph.D., University of Maryland-College Park, 2022.

Williams, Joseph Chandler
Associate Professor, ARCH-School of Architecture, Planning, & Preservation; Associate Professor, ARCH-Architecture Program; B.A., Bates College, 2009; M.A., University of London, 2010; Ph.D., Duke University, 2017.

Williams, Kendall Ryan Ashford
Senior Lecturer, CMNS-Mathematics; B.S., Howard University, 2005; M.S., 2007; Ph.D., 2010.

Williams, Laura Camille
Senior Lecturer, ARHU-English; B.A., University of Southern California, 1989; B.A., 1989; M.L.A., Johns Hopkins University, 2000; M.A., University of Maryland-College Park, 2005; Ph.D., 2012.

Williams, Maggie
Lecturer, ARHU-Communication; B.A., Trinity College, 2002; M.A., Temple University, 2007; Ph.D., University of Illinois-Chicago, 2012.

Williams, Natasha
Lecturer, SPHL-Family Science; B.S., Florida State University, 2013; M.S., Purdue University-Calumet, 2016; Ph.D., University of Maryland-College Park, 2023.

Williams, Roberton C III
Professor, AGNR-Agricultural & Resource Economics; Affiliate Professor, BSOS-Economics; B.A., Harvard University, 1994; Ph.D., Stanford University, 1999.

Williams, Stacey C.
Senior Lecturer, EDUC-Counseling, Higher Education and Special Education; B.S., University of Delaware, 1993; M.Ed., Loyola University Maryland, 1997.

Williams, Walter F.
Professor Emeritus, AGNR-Animal & Avian Sciences; B.A., University of Missouri-Columbia, 1951; M.S., 1952; Ph.D., 1955.

Williams-Forson, Psyche A
Chair, ARHU-American Studies; Professor, ARHU-American Studies; B.A., University of Virginia, 1987; M.A., University of Maryland-College Park, 1994; Ph.D., 2002.

Williams-Pierce, Caro
Assistant Professor, INFO-College of Information Studies; B.A., University of Maine at Fort Kent, 2004; M.A., University of Wisconsin-Madison, 2010; Ph.D., 2016.

Willis, Derek P
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., University of Pittsburgh, 1992.

Willis, Henry
Assistant Professor, BSOS-Psychology; B.S., Howard University, 2013; M.A., Columbia University, 2015; M.A., University of North Carolina-Chapel Hill, 2017; Ph.D., 2021.

Wilmoth, Jared Lee
Assistant Professor, AGNR-Environmental Science & Technology; B.S., West Virginia University, 2006; M.S., 2009; Ph.D., University of Georgia, 2016.

Wilson, Aaron M.
Librarian II, LIBR-Libraries; B.A., Washington Adventist University, 2011; M.L.I.S., University of Maryland-College Park, 2024.

Wilson, Gran
Professor, ARHU-School of Music; B.Mus., Samford University, 1976; M.Mus., Indiana University, 1980.

Wilson, Laura B.
Professor Emerita, SPHL-Health Policy and Management; B.A., Simmons College, 1969; M.A., University of Pennsylvania, 1970; Ph.D., 1974.

Wilson, Mark E.
Associate Professor, ARHU-School of Music; B.A., University of California-Los Angeles, 1970; M.A., 1972; Ph.D., 1974.

Wilson, Michelle Elizabeth
Librarian II, LIBR-Libraries; B.A., Tufts University, 2012; M.A., Boston University, 2014; M.L.I.S., Rutgers University, 2018.

Wilson, Peggy Lynn
Associate Clinical Professor, EDUC-Teaching and Learning, Policy and Leadership; B.S., Bowie State University, 1996; B.A., 1997; M.L.A., St. John's College, 1998; Ph.D., University of Maryland-College Park, 2011.

Wilson, Peter Alexander
Lecturer, ARCH-Architecture Program; B.A., Kenyon College, 1986; M.Arch., Washington University in Saint Louis, 1990.

Wilson, Sacoby
Professor, SPHL-Global, Environmental, and Occupational Health; B.S., Alabama Agricultural & Mechanical University, 1998; M.S., University of North Carolina-Chapel Hill, 2000; Ph.D., 2005.

Wiltz, Alcine J.
Professor Emeritus, ARHU-School of Theatre, Dance & Performance Studies; B.A., University of Southwestern Louisiana, 1964; M.F.A., University of Wisconsin-Madison, 1967.

Windle, Robert J.
Professor Emeritus, BMGT-Robert H. Smith School of Business; B.A., College of William & Mary, 1977; M.S., University of Wisconsin-Madison, 1981; Ph.D., 1984.

Winkelmann, Allen E.
Associate Professor, ENGR-Aerospace Engineering; B.S., University of Minnesota-Twin Cities, 1965; M.S., 1967; Ph.D., University of Maryland-College Park, 1976.

Winkler, Wade C.
Professor, CMNS-Cell Biology & Molecular Genetics; B.S., University of Central Florida, 1995; Ph.D., Ohio State University, 2002.

Winston, Dennis L.
Senior Lecturer, ARHU-English; B.A., North Carolina Agricultural & Technical State University, 2002; M.A., 2004; Ph.D., Texas A&M University-College Station, 2012.

Winton, Calhoun
Professor Emeritus, ARHU-English; A.B., University of the South-Sewanee, 1948; M.A., Princeton University, 1954; M.A., Vanderbilt University, 1950; Ph.D., Princeton University, 1955.

Wiseman, Donna L.
Professor, EDUC-Teaching and Learning, Policy and Leadership; B.S., Oklahoma State University-Stillwater, 1968; M.Ed., Arkansas State University, 1976; Ph.D., University of Missouri-Columbia, 1979.

Wish, Eric D.
Associate Professor, BSOS-Criminology & Criminal Justice; Associate Professor, BSOS-College of Behavioral & Social Sciences; B.S., University of Massachusetts-Amherst, 1968; Ph.D., Washington University in Saint Louis, 1977.

Wisniewski, Kevin Anthony
Lecturer, ARHU-English; B.A., Stevenson University, 2003; M.A., University of Pennsylvania, 2009; Ph.D., University of Maryland-Baltimore County, 2018.

Witheridge, William
Assistant Professor, BSOS-Economics; B.Econ., Australian National University-Canberra, 2010; M.O., 2015; M.Phil., New York University, 2022; Ph.D., 2024.

Withers, Josephine
Associate Professor Emerita, ARHU-Art History & Archaeology; B.A., Oberlin College, 1960; M.A., Columbia University, 1965; Ph.D., 1971.

Witte, Peter Henri
Senior Lecturer, ARHU-English; B.S., Southern Illinois University-Edwardsville, 2007; M.F.A., University of Maryland-College Park, 2017.

Wittner, Michael Andrew
Lecturer, ENGR-Maryland Applied Graduate Engineering; M.Eng., University of Maryland-College Park, 2021.

Witzleben, John Lawrence
Professor Emeritus, ARHU-School of Music; B.A., University of California-Santa Barbara, 1976; M.A., University of Hawaii at Manoa, 1983; Ph.D., University of Pittsburgh, 1987.

Woehl, Taylor J
Associate Professor, ENGR-Chemical & Biomolecular Engineering; B.S., Missouri University of Science & Technology, 2009; Ph.D., University of California-Davis, 2013.

Woehlke, Stefan Francis
Assistant Clinical Professor, ARCH-Historic Preservation Program; B.A., George Mason University, 2006; M.A.A., University of Maryland-College Park, 2013; Ph.D., 2021.

Wohlfarth, Patrick Charles
Professor, BSOS-Government & Politics; B.A., University of Maryland-Baltimore County, 2004; M.A., University of North Carolina-Chapel Hill, 2006; Ph.D., 2010.

Woldemariam, Michael Habte
Associate Professor, PLCY-School of Public Policy; B.S., Beloit College, 2005; M.A., Princeton University, 2007; Ph.D., 2011.

Wolek, Sarah
Lecturer, BMGT-Management & Organization; B.S., University of Maryland-College Park, 2001; B.A., 2001; M.B.A., Columbia University, 2004; M.A., University of Chicago, 2010.

Wolfe, Glenn Mitchell
Adjunct Assistant Professor, CMNS-Atmospheric & Oceanic Science; B.A., Johns Hopkins University, 2004; Ph.D., University of Washington-Seattle, 2010.

Wolfe, Peter
Professor Emeritus, CMNS-Mathematics; M.S., Northwestern University, 1961; Ph.D., New York University, 1965.

Wolfe, Sonney
Lecturer, ARHU-English; A.A., Shasta College, 2010; B.A., Grand Canyon University, 2014; M.A., National University, 2016.

Wolniak, Stephen M.
Professor Emeritus, CMNS-Cell Biology & Molecular Genetics; B.A., SUNY-College at Oswego, 1972; M.S., University of Illinois-Urbana/Champaign, 1974; Ph.D., University of California-Berkeley, 1979.

Wolpert, Scott A.
Professor Emeritus, CMNS-Mathematics; 1992-1993 Distinguished Scholar-Teacher. B.S., Johns Hopkins University, 1972; M.S., Stanford University, 1974; Ph.D., 1976.

Wolvin, Andrew D.
Professor Emeritus, ARHU-Communication; B.S., University of Nebraska-Lincoln, 1962; M.A., 1963; Ph.D., Purdue University-West Lafayette, 1968.

Wong, Edlie L.
Professor, ARHU-English; B.A., University of California-Berkeley, 1995; Ph.D., 2003.

Wong, Janelle
Director, UGST-Asian American Studies Program; Professor, ARHU-American Studies; Professor, BSOS-Government & Politics; B.A., University of California-Los Angeles, 1995; M.A., Yale University, 1998; Ph.D., 2001.

Wong, Wiseley
Principal Lecturer, CMNS-Mathematics; Ph.D., University of Delaware, 2013.

Wonnacott, Paul
Professor Emeritus, BSOS-Economics; B.A., University of Western Ontario-London, 1955; M.A., Princeton University, 1957; Ph.D., 1959.

Woo, Deokoh
Assistant Professor, ARCH-School of Architecture, Planning, & Preservation; Assistant Professor, ARCH-Architecture Program; B.Arch., Yonsei University-Seoul, 2012; M.S., 2014; Ph.D., University of Michigan-Ann Arbor, 2021.

Wood, Bradford Johns
Adjunct Professor, ENGR-Fischell Department of Bioengineering; B.A., University of Virginia, 1987; M.D., 1991.

Woodham, Hadiya
Senior Lecturer, CMNS-Biology; B.S., Bucknell University, 1998; Ph.D., Johns Hopkins University, 2004.

Woodland, Ryan J.
Visiting Associate Professor, CMNS-Marine & Estuarine-Environmental Science Prog; B.S., Massachusetts Maritime Academy, 1999; D.O., University of Maryland-College Park, 2010.

Woodman, Taylor C.
Assistant Clinical Professor, EDUC-Counseling, Higher Education and Special Education; B.A., Virginia Polytechnic Institute & State University, 2009; M.A., University of Maryland-College Park, 2012; Ph.D., 2019.

Woods, Carly S.
Associate Professor, ARHU-Communication; Affiliate Associate Professor, ARHU-Women, Gender and Sexuality Studies; B.A., University of Mary Washington, 2004; M.A., University of Pittsburgh, 2006; Ph.D., 2010.

Woods, Colleen
Associate Professor, ARHU-History; B.A., University of Michigan-Ann Arbor, 2003; M.A., CUNY-Graduate Center, 2006; Ph.D., University of Michigan-Ann Arbor, 2012.

Woodworth, Graeme F.
Adjunct Professor, ENGR-Fischell Department of Bioengineering; B.S., Tufts University, 1997; M.D., Johns Hopkins University Medical School, 2005.

Worsley, Benjamin Leonard
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., University of Maryland-College Park, 2010.

Worsnop, Alec
Associate Professor, PLCY-School of Public Policy; B.A., Colby College, 2007; Ph.D., Massachusetts Institute of Technology, 2016.

Worsnop, Catherine Z.
Assistant Professor, PLCY-School of Public Policy; B.A., Colby College, 2008; Ph.D., Brandeis University, 2016.

Worthington, Colleen K.
Clinical Professor Emerita, BSOS-Hearing & Speech Sciences; B.A., University of Maryland-College Park, 1979; M.S., Loyola University Maryland, 1980.

Worthington, Roger L.
Professor, EDUC-Counseling, Higher Education and Special Education; A.A., Fullerton College, 1984; B.A., California State University-Fullerton, 1987; M.A., University of California-Santa Barbara, 1990; Ph.D., 1995.

Worthy, D'Lisa
Lecturer, EDUC-Human Development and Quantitative Methodology; M.Ed., Pennsylvania State University, 1991.

Wray IV, John William
Lecturer, AGNR-Plant Science & Landscape Architecture; Lecturer, AGNR-Plant Science & Landscape Architecture; Lecturer, AGNR-Plant Science & Landscape Architecture; B.S., West Virginia University, 2015; M.L.Arch., Harvard University, 2017.

Wrenn, Jerry P.
Associate Professor Emeritus, SPHL-Kinesiology; B.S., East Carolina University, 1961; M.S., University of Tennessee-Knoxville, 1963; Ph.D., University of Maryland-College Park, 1970.

Wright, Cindy
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., Rollins College, 1986; J.D., University of Baltimore, 1991.

Wu, Ching-Sheng
Professor Emeritus, CMNS-Institute for Physical Science & Technology; B.S., National Taiwan Normal University-Taipei, 1954; M.S., Virginia Polytechnic Institute & State University, 1956; Ph.D., Princeton University, 1959.

Wu, Jerry
Lecturer, ENGR-Electrical & Computer Engineering; B.S., National Chiao Tung University-Hsinchu, 1993; M.S., New York University, 1996; Ph.D., George Washington University, 2008.

Wu, Louisa P.
Associate Professor, CMNS-Cell Biology & Molecular Genetics; B.A., Johns Hopkins University, 1988; Ph.D., University of California-San Diego, 1995.

Wu, Min
Associate Dean, ENGR-A. James Clark School of Engineering; Distinguished University Professor, ENGR-Electrical & Computer Engineering; Distinguished University Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Professor, ENGR-Institute for Systems Research; 2013-2014 Distinguished Scholar-Teacher. B.A., Tsinghua University/Qinghua University, 1996; B.Elect.E., 1996; M.A., Princeton University, 1998; Ph.D., 2001.

Wu, Xiaodi
Associate Professor, CMNS-Computer Science; Associate Professor, CMNS-Institute for Advanced Computer Studies; B.S., Tsinghua University/Qinghua University, 2008; Ph.D., University of Michigan-Ann Arbor, 2013.

Wyatt, David M.
Professor Emeritus, ARHU-English; B.A., Yale University, 1970; Ph.D., University of California-Berkeley, 1975.

Wyatt, Natasha A
Associate Clinical Professor, EDUC-Counseling, Higher Education and Special Education; B.S., Cornell University, 1993; M.S., Syracuse University, 1997; Ph.D., University of North Carolina-Greensboro, 2001.

Wydra, Maria Ann
Lecturer, BSOS-Psychology; B.F.A., Edinboro University of Pennsylvania, 1995; B.A., 1995; M.A., Towson University, 2007; Ph.D., University of Maryland-College Park, 2013.

Wylie, Ann G.
Professor Emerita, CMNS-Geology; 1994-1995 Distinguished Scholar-Teacher. B.A., Wellesley College, 1966; Ph.D., Columbia University, 1972.

Wysong, John W.
Professor Emeritus, AGNR-Agricultural & Resource Economics; B.S., Cornell University, 1953; M.S., University of Illinois-Urbana/Champaign, 1954; Ph.D., Cornell University, 1957.

Wyss-Gallifent, Justin Olav
Principal Lecturer, CMNS-Computer Science; B.A., Millersville University, 1991; Ph.D., University of Maryland-College Park, 2000.

Wyszomirska, Jowita
Senior Lecturer, ARHU-Art; B.F.A., Illinois State University, 2003; M.F.A., University of Maryland-College Park, 2016.

X

Xiao, Shunyuan
Professor, AGNR-Plant Science & Landscape Architecture; Professor, CMNS-IBBR; Professor, CMNS-IBBR; B.S., Huazhong University of Science & Technology, 1984; M.S., 1987; Ph.D., 1992.

Xiao, Zhengguo
Professor, AGNR-Animal & Avian Sciences; D.V.M., Nanjing University/Nanking University, 1988; B.S., 1988; M.S., 1991; Ph.D., University of Minnesota-Twin Cities, 2004.

Xie, Hua
Visiting Assistant Professor, BSOS-Psychology; B.E., Jinan University, 2013; Ph.D., Texas Tech University, 2018.

Xie, Min
Professor, BSOS-Criminology & Criminal Justice; B.A., Peking University, 1997; M.A., 2000; Ph.D., SUNY-Albany, 2007.

Xie, Weizhen
Assistant Professor, BSOS-Psychology; B.S., Renmin University of China, 2013; M.A., University of California-Riverside, 2015; Ph.D., 2018.

Xie, Yiqun
Assistant Professor, BSOS-Geography; M.A., University of Minnesota-Twin Cities, 2015; M.S., 2018; Ph.D., 2020.

Xu, Alexander Minyi
Assistant Professor, ENGR-Fischell Department of Bioengineering; B.S., Massachusetts Institute of Technology, 2010; M.S., Stanford University, 2014; Ph.D., 2015.

Xu, Jennifer
Lecturer, ARCH-Architecture Program; M.Arch., Virginia Polytechnic Institute & State University, 1990; B.S., Tongji University/Tungchai University, 1999; Ph.D., Virginia Polytechnic Institute & State University, 2003.

Xu, Jian Lun
Adjunct Professor, CMNS-Mathematics; B.S., Fuzhou University, 1982; M.A., University of Maryland-College Park, 1989; Ph.D., 1993.

Xu, Mumu
Associate Professor, ENGR-Aerospace Engineering; Associate Professor, ENGR-Institute for Systems Research; M.S., California Institute of Technology, 2008; Ph.D., 2013.

Xu, Yi
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Decision, Operations & Information Technologies; B.E., Beijing University of Aeronautics & Astronautics, 1993; M.S., 1996; M.Eng., Louisiana State University-Baton Rouge, 1998; M.A., University of Pennsylvania, 2003; Ph.D., 2003.

Y

Yager, David D.
Associate Professor Emeritus, BSOS-Psychology; B.A., Wesleyan University, 1972; Ph.D., Cornell University, 1989.

Yaider, Abbigale Elizabeth
Lecturer, EDUC-Counseling, Higher Education and Special Education; B.A., University of Maryland-College Park, 2024.

Yakovenko, Victor M.
Professor, CMNS-Physics; M.S., Moscow Institute of Physics & Technology, 1984; Ph.D., Landau Institute for Theoretical Physics, 1987.

Yakubova, Gulnoza
Associate Professor, EDUC-Counseling, Higher Education and Special Education; B.A., Tashkent State Pedagogical Institute of Foreign Languages, 2006; M.S., Purdue University-West Lafayette, 2010; Ph.D., 2013.

Yang, Arthur
Adjunct Professor, ENGR-Chemical & Biomolecular Engineering; B.S., Fu Jen Catholic University-Taipei, 1970; Ph.D., Brown University, 1975.

Yang, Bao
Professor, ENGR-Mechanical Engineering; B.S., University of Science & Technology of China, 1993; Ph.D., 1998; Ph.D., University of California-Los Angeles, 2003.

Yang, Chenyu
Assistant Professor, BSOS-Economics; B.A., Gustavus Adolphus College, 2010; Ph.D., University of Michigan-Ann Arbor, 2016.

Yang, Chunyan
Associate Professor, EDUC-Counseling, Higher Education and Special Education; B.S., Central China Normal University, 2006; M.S., University of Bristol, 2008; M.A., University of Delaware, 2011; Ed.D., 2014; Ph.D., 2015.

Yang, Fumeng
Assistant Professor, CMNS-Computer Science; B.S., Shandong University, 2013; M.S., Tufts University, 2016; Ph.D., Brown University, 2022.

Yang, Grace L.
Professor Emerita, CMNS-Mathematics; B.A., National Taiwan University, 1960; M.A., University of California-Berkeley, 1963; Ph.D., 1966.

Yang, Haizhao
Associate Professor, CMNS-Mathematics; Affiliate Associate Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Associate Professor, CMNS-Computer Science; B.S., Shanghai Jiaotong University, 2010; M.S., University of Texas-Austin, 2012; Ph.D., Stanford University, 2015.

Yang, Jackson C.S.
Professor Emeritus, ENGR-Mechanical Engineering; B.S., University of Maryland-College Park, 1958; M.A., 1961; Ph.D., 1963.

Yang, Ji Seung
Associate Professor, EDUC-Human Development and Quantitative Methodology; B.A., Yonsei University-Seoul, 2005; M.A., 2007; Ph.D., University of California-Los Angeles, 2012.

Yang, Liu
Associate Professor, BMGT-Robert H. Smith School of Business; Associate Professor, BMGT-Finance; B.A., Peking University, 1997; M.S., University of Illinois-Urbana/Champaign, 2000; Ph.D., University of Maryland-College Park, 2006.

Yang, Ruoke
Lecturer, BMGT-Finance; M.S., Stanford University, 2014; B.S., 2014; M.O., Columbia University, 2017; Ph.D., Columbia University in the City of New York, 2019.

Yang, Terry
Associate Professor, ENGR-Civil & Environmental Engineering; B.E., Tsinghua University/Qinghua University, 2009; M.S., University of Maryland-College Park, 2011; Ph.D., 2015.

Yang, Yun
Associate Professor, CMNS-Mathematics; B.S., Tsinghua University/Qinghua University, 2011; Ph.D., Duke University, 2014.

Yaqub, Sajeela
Lecturer, ARHU-English; B.A., University of Maryland-College Park, 1993; M.A., 1997.

Yaros, Ronald A.
Associate Professor, JOUR-Philip Merrill College of Journalism; B.A., University of Wisconsin-Madison, 1980; M.A.-Teach., Webster University, 1991; Ph.D., University of Wisconsin-Madison, 2005.

Yarwood, Stephanie A
Professor, AGNR-Environmental Science & Technology; A.S., Blue Mountain Community College, 1998; B.A., Whitman College, 2001; Ph.D., Oregon State University, 2007.

Yasharoff, Joseph
Lecturer, JOUR-Philip Merrill College of Journalism; B.G.S., University of Maryland-College Park, 1987.

Yashinski, Allan Anthony
Senior Lecturer, CMNS-Mathematics; B.S., Bucknell University, 2007; Ph.D., Pennsylvania State University, 2013.

Yavasoglu, Huseyin Ayhan
Visiting Assistant Professor, ENGR-Electrical & Computer Engineering; B.S., Yildiz Teknik University, 2003; M.S., 2005; M.S., 2013; Ph.D., Technical University of Istanbul, 2016.

Yaveroglu, Idil
Associate Clinical Professor, BMGT-Marketing; B.S., The Middle East Tech University-Ankara, 1995; M.B.A., Bilkent University, 1997; Ph.D., Georgia State University/Perimeter College, 2002.

Ye, Hongzhou
Assistant Professor, CMNS-Chemistry & Biochemistry; Assistant Professor, CMNS-Institute for Physical Science & Technology; B.S., Peking University, 2015; Ph.D., Massachusetts Institute of Technology, 2020.

Yearwood, Keith
Lecturer, BSOS-Geography; B.A., University of Guyana-Georgetown, 1982; M.A., University of Florida, 2001; Ph.D., 2010.

Yee, Stephanie Elza
Lecturer, BSOS-Psychology; B.A., University of New Hampshire, 2016; M.A., 2019; Ph.D., University of Maryland-College Park, 2022.

Yeni-Komshian, Grace H.
Professor Emerita, BSOS-Hearing & Speech Sciences; B.A., American University of Beirut-Lebanon, 1957; M.S., Cornell University, 1962; Ph.D., McGill University-Montreal, 1965.

Yeon, Jieun
Assistant Professor, INFO-College of Information Studies; B.A., Yonsei University-Seoul, 2014; M.L.S., 2019; Ph.D., Syracuse University, 2024.

Yeung, Donald
Associate Chair, ENGR-Electrical & Computer Engineering; Professor, ENGR-Electrical & Computer Engineering; Affiliate Professor, CMNS-Computer Science; B.S., Stanford University, 1990; M.S., Massachusetts Institute of Technology, 1993; Ph.D., 1997.

Yglesias, Caren
Lecturer, AGNR-Plant Science & Landscape Architecture; B.A., Virginia Polytechnic Institute & State University, 1976; M.A., Georgetown University, 1981; M.S., University of Virginia, 1998; Ph.D., 2002.

Yi, Paul Hyunsoo
Adjunct Assistant Professor, ENGR-Fischell Department of Bioengineering; B.A., Boston University, 2010; M.D., 2014.

Yin, Xiaoshan
Lecturer, ARHU-School of Music; B.A., Communication University of China, 2009; M.A., Hong Kong Baptist College, 2011; M.Mus., School of Oriental and African Studies University of London, 2017.

Ying, Jordan Boyd-Graber
Professor, CMNS-Computer Science; Professor, CMNS-Institute for Advanced Computer Studies; Professor, ARHU-Dean-MD Language Science Center; B.S., California Institute of Technology, 2004; M.A., Princeton University, 2006; Ph.D., 2010.

Yonkos, Lance T.
Associate Professor, AGNR-Environmental Science & Technology; B.S., Washington & Lee University, 1986; M.S., University of Maryland-College Park, 1999; Ph.D., 2005.

Yoon, Ilchul
Lecturer, CMNS-Computer Science; B.S., Sogang University-Seoul, 1999; M.S., Korea Advanced Institute of Science & Technology, 2001; Ph.D., University of Maryland-College Park, 2010.

Yorke, James A.
Distinguished University Professor Emeritus, CMNS-Mathematics; A.B., Columbia University, 1963; Ph.D., University of Maryland-College Park, 1966.

Yotova, Denitsa Haralampieva
Lecturer, JOUR-Philip Merrill College of Journalism; M.A., University of Nevada-Las Vegas, 2014.

Yotsukura, Lindsay A.
Associate Professor, ARHU-School of Languages, Literatures, and Cultures; Affiliate Associate Professor, ARHU-Dean-MD Language Science Center; B.A., Williams College, 1984; M.Ed., Harvard University, 1987; M.A., Ohio State University, 1991; Ph.D., 1997.

Young, Jarred Alexander
Senior Lecturer, ENGR-Dean-Keystone Program; B.S., University of Maryland-College Park, 2009; M.S., 2013; Ph.D., 2017.

Young, Rachel
Lecturer, ARHU-School of Music; B.Mus., New England Conservatory of Music, 1991; M.Mus., Peabody Institute of the Johns Hopkins University, 1993.

Youngs, Madeleine Kendall
Assistant Professor, CMNS-Atmospheric & Oceanic Science; B.S., California Institute of Technology, 2015; Ph.D., Massachusetts Institute of Technology, 2020.

Yu, Cunxi
Assistant Professor, ENGR-Electrical & Computer Engineering; Affiliate Assistant Professor, CMNS-Computer Science; Ph.D., University of Massachusetts-Amherst, 2017.

Yu, Kenneth H.
Professor, ENGR-Aerospace Engineering; B.S., University of California-Berkeley, 1985; M.S., 1988; Ph.D., 1989.

Yu, Liangli
Professor, AGNR-Nutrition and Food Science; B.S., China Pharmaceutical University, 1984; M.S., 1989; Ph.D., Purdue University-West Lafayette, 1999.

Yu, Miao
Professor, ENGR-Mechanical Engineering; Professor, ENGR-Institute for Systems Research; B.S., Tsinghua University/Qinghua University, 1996; M.S., 1998; Ph.D., University of Maryland-College Park, 2002.

Yu, Yihua Bruce
Visiting Professor, CMNS-IBBR; Visiting Professor, CMNS-IBBR; B.S., Peking University, 1987; Ph.D., Johns Hopkins University, 1996.

Yuan, Robert T.
Professor Emeritus, CMNS-Cell Biology & Molecular Genetics; B.S., Antioch College, 1960; Ph.D., Yeshiva University, 1966.

Yue, Dahai
Assistant Professor, SPHL-Health Policy and Management; M.D., Shandong University, 2012; M.S., Peking University, 2015; Ph.D., University of California-Los Angeles, 2020.

Yunger Halpern, Nicole
Adjunct Assistant Professor, CMNS-Institute for Advanced Computer Studies; Adjunct Assistant Professor, CMNS-Institute for Physical Science & Technology; B.S., Dartmouth College, 2011; M.S., University of Waterloo, 2013; Ph.D., California Institute of Technology, 2018.

Yusko, Kenneth Paul
Assistant Clinical Professor, BSOS-Psychology; B.S., Georgetown University, 1985; M.A., University of Maryland-College Park, 1992; Ph.D., 2001.

Z

Zachariah, Michael R.
Professor Emeritus, ENGR-Chemical & Biomolecular Engineering; B.S., University of California-Los Angeles, 1979; M.S., 1981; Ph.D., 1986.

Zakharia, Zeena
Associate Professor, EDUC-Counseling, Higher Education and Special Education; B.A., Yale University, 1994; M.Ed., Harvard University, 1997; Ed.D., Columbia University, 2008.

Zaki, Kawthar A.
Professor Emerita, ENGR-Electrical & Computer Engineering; B.S., Ain Shaims University-Cairo, 1962; M.S., University of California-Berkeley, 1966; Ph.D., 1969.

Zakim, Eric
Associate Professor, ARHU-School of Languages, Literatures, and Cultures; Associate Professor, ARHU-English; Affiliate Associate Professor, ARHU-Meyerhoff Program & Center for Jewish Studies; B.Mus., Oberlin College, 1982; B.A., 1982; M.A., University of California-Berkeley, 1989; Ph.D., 1996.

Zakota, Mark
Assistant Professor, BMGT-Robert H. Smith School of Business; Assistant Professor, BMGT-Accounting; B.S., University of South Florida, 2016; M.O., 2018; Ph.D., 2023.

Zambrana, Ruth Enid
Distinguished University Professor, ARHU-Women, Gender and Sexuality Studies; Affiliate Professor, ARHU-American Studies; Affiliate Professor, ARHU-Dean-Latin American and Caribbean Studies Center; B.A., CUNY-Queens College, 1969; M.S.W., University of Pennsylvania, 1971; Ph.D., Boston University, 1977.

Zambriski, Jennifer A
Lecturer, SPHL-Global, Environmental, and Occupational Health; B.S., Tufts University, 2000; D.V.M., 2006; Ph.D., Cornell University, 2013.

Zan, Xin
Assistant Professor, ENGR-Electrical & Computer Engineering; Ph.D., University of Michigan-Ann Arbor, 2022.

Zapata, Miguelina
Lecturer, BSOS-Hearing & Speech Sciences; B.A., Oberlin College, 2001; M.S., Teachers College of Columbia University, 2007; Ph.D., Howard University, 2013; B.A., Oberlin College, 2001; M.S., Teachers College of Columbia University, 2007.

Zdravkovska, Nevenka
Librarian III, LIBR-Libraries; B.S., University of St. Cyril & Methodius, Skopje, 1973; M.A./M.L.S., Texas Woman's University, 1994.

Zeeger, Tracy Marie
Clinical Professor, SPHL-Behavioral & Community Health; B.S., University of Maryland-College Park, 2004; M.P.H., 2006; Ph.D., 2020.

Zeidan, Quira
Assistant Clinical Professor, SVPAAP-Office of Undergraduate Research; B.S., Central University of Venezuela-Caracas, 1999; Ph.D., Johns Hopkins University, 2018.

Zeigler, Ronald
Director, PRES-VP for Diversity & Inclusion; B.A., State University of New York-Health Science Center-Stony Brook, 1972; M.A., 1973; Ph.D., University of Maryland-College Park, 1983.

Zelaya, Carina
Assistant Professor, ARHU-Communication; B.A., University of Kentucky, 2016; M.A., 2018; Ph.D., 2022.

Zelkowitz, Marvin V.
Professor Emeritus, CMNS-Computer Science; B.S., Rensselaer Polytechnic Institute, 1967; M.S., Cornell University, 1969; Ph.D., 1971.

Zellars Strohl, Shannon
Lecturer, ARHU-English; B.A., Florida State University, 2006; M.A., Indiana University, 2011.

Zeller, Thomas
Professor, ARHU-History; M.A., University of Munich, 1995; Ph.D., 1999.

Zelner, Bennet
Associate Professor, BMGT-Robert H. Smith School of Business; Associate Professor, BMGT-Logistics, Business & Public Policy; B.A., Brown University, 1990; M.S., University of California-Berkeley, 1999; Ph.D., 2001.

Zeng, Ning
Professor, CMNS-Atmospheric & Oceanic Science; Affiliate Professor, CMNS-Earth System Science Interdisciplinary Center; B.S., University of Science & Technology of China, 1987; M.S., University of Arizona, 1991; Ph.D., 1994.

Zhang, Boyu
Assistant Professor, CMNS-Mathematics; B.S., Peking University, 2013; Ph.D., Harvard University, 2018.

Zhang, Chen
Associate Professor, ENGR-Chemical & Biomolecular Engineering; B.S., Nanjing Tech University, 2007; M.S., Tianjin University, 2009; Ph.D., Georgia Institute of Technology, 2014.

Zhang, Da-Lin
Professor, CMNS-Atmospheric & Oceanic Science; Affiliate Professor, CMNS-Earth System Science Interdisciplinary Center; B.S., University of Science & Technology-Hong Kong, 1976; M.S., Pennsylvania State University, 1981; Ph.D., 1985.

Zhang, Hongyi
Senior Lecturer, BMGT-Logistics, Business & Public Policy; M.S.W.E, George Mason University, 1989; B.S., Shendong University of Technology, 1989; M.A., Liaoning Normal University, 1994.

Zhang, Jie
Professor, BMGT-Robert H. Smith School of Business; Professor, BMGT-Marketing; B.A., People's University of China/Ren Min University of China, 1992; M.A., University of Chicago, 1995; Ph.D., Northwestern University, 1999.

Zhang, Kaiqing
Assistant Professor, ENGR-Electrical & Computer Engineering; Assistant Professor, ENGR-Institute for Systems Research; Affiliate Assistant Professor, CMNS-Institute for Advanced Computer Studies; Affiliate Assistant Professor, CMNS-Computer Science; B.S., Tsinghua University/Qinghua University, 2015; M.S., University of Illinois-Urbana/Champaign, 2017; M.S., 2017; Ph.D., 2021.

Zhang, Kunpeng
Associate Professor, BMGT-Robert H. Smith School of Business; Associate Professor, BMGT-Decision, Operations & Information Technologies; M.S., University of Arizona, 2009; Ph.D., Northwestern University, 2013.

Zhang, Li-Qun
Professor, ENGR-Fischell Department of Bioengineering; B.S., Tsinghua University/Qinghua University, 1982; M.S., Vanderbilt University, 1988; Ph.D., 1990.

Zhang, Lu
Lecturer, BMGT-Accounting; B.S., Shanghai University of Finance and Economics, 2007; M.S., Pace University - New York, 2012; Ph.D., Rutgers University, 2021.

Zhang, Ting
Associate Professor, ARHU-History; B.A., Peking University, 2004; M.A., 2007; Ph.D., Johns Hopkins University, 2014.

Zhang, Xin
Visiting Associate Professor, CMNS-Marine & Estuarine-Environmental Science Prog; Ph.D., Yale University, 2013.

Zhang, Yanjin
Associate Professor, AGNR-Veterinary Medicine Program; D.V.M., Shandong Agricultural University, 1984; M.S., China Institute of Veterinary Drug Control, 1989; Ph.D., Iowa State University, 1998.

Zhang, Yichao
Assistant Professor, ENGR-Materials Science & Engineering; B.S., Kansas State University, 2016; Ph.D., University of Minnesota-Twin Cities, 2021.

Zhang, Yunfeng
Professor, ENGR-Civil & Environmental Engineering; B.S., Tongji University/Tungchai University, 1993; M.S., Tsinghua University/Qinghua University, 1996; Ph.D., California Institute of Technology, 2001.

Zhao, Frank
Visiting Assistant Professor, CMNS-Physics-Quantum Materials Center; B.S., University of Toronto, 2008; M.O., Columbia University, 2014; D.O., Harvard University, 2021.

Zhao, Xinzhi
Lecturer, ARHU-Philosophy; L.L.B., Peking University, 2012; B.O., 2012; L.L.M., 2015; M.A., Duke University, 2017; Ph.D., University of Wisconsin-Madison, 2024.

Zhao, Yunfei
Assistant Professor, ENGR-Mechanical Engineering; B.S., Shandong University, 2011; D.Engin., Tsinghua University/Qinghua University, 2016.

Zheng, Ming
Adjunct Professor, CMNS-Chemistry & Biochemistry; B.S., Peking University, 1984; M.S., 1987; M.S., University of Utah, 1990; Ph.D., Princeton University, 1995.

Zhou, Bo
Associate Professor, BMGT-Robert H. Smith School of Business; Associate Professor, BMGT-Marketing; B.A., Tsinghua University/Qinghua University, 2006; M.A., University of Southern California, 2009; Ph.D., Duke University, 2014.

Zhou, Minglang
Professor, ARHU-School of Languages, Literatures, and Cultures; Affiliate Professor, ARHU-Dean-MD Language Science Center; B.A., Guangdong University of Foreign Studies, 1978; M.A., Portland State University, 1988; Ph.D., Michigan State University, 1993.

Zhou, Naijun
Senior Lecturer, BSOS-Geography; B.S., Wuhan University, 1993; M.S., Beijing City University, 1996; M.S., University of Wisconsin-Madison, 2003; Ph.D., 2005.

Zhou, You
Assistant Professor, ENGR-Materials Science & Engineering; Affiliate Assistant Professor, CMNS-Physics; B.S., Peking University, 2010; Ph.D., Harvard University, 2015.

Zhu, Junyong
Adjunct Professor, ENGR-Materials Science & Engineering; B.S., Beijing University of Aeronautics & Astronautics, 1983; M.S., Arizona State University, 1988; Ph.D., University of California-Irvine, 1991.

Zhu, Mengqiang
Associate Professor, CMNS-Geology; Affiliate Associate Professor, AGNR-Environmental Science & Technology; B.S., North China Electric Power University, 2002; M.S., Other, 2005; Ph.D., University of Delaware, 2010.

Zhu, Wenlu
Professor, CMNS-Geology; B.S., Peking University, 1986; M.S., 1989; Ph.D., SUNY-Stony Brook, 1996.

Zhu, Xiaoping
Chair, AGNR-Veterinary Medicine Program; Professor, AGNR-Veterinary Medicine Program; D.V.M., Ningxia University, China, 1984; M.S., China Agricultural University, 1987; Ph.D., University of Wisconsin-Madison, 1997.

Zia, Lamia
Lecturer, ARHU-Communication; B.A., University of the Punjab-Lahore, 1998; M.A., 2002; M.A., University of Iowa, 2012; M.A., University of Texas-Tyler, 2016.

Zickert, Christian Krogager
Professor, CMNS-Mathematics; B.S., Aarhus Universitet, 2002; M.S., 2005; Ph.D., Columbia University, 2008.

Ziegler, Delores
Professor, ARHU-School of Music; 2012-2013 Distinguished Scholar-Teacher. B.Mus., Maryville College, 1973; M.Mus., University of Tennessee, 1978.

Zierden, Hannah C
Assistant Professor, ENGR-Chemical & Biomolecular Engineering; Affiliate Assistant Professor, ENGR-Fischell Department of Bioengineering; B.S., Ohio State University, 2015; Ph.D., Johns Hopkins University, 2020.

Zilfi, Madeline C.
Professor Emerita, ARHU-History; B.A., Mount Holyoke College, 1964; M.A., University of Chicago, 1971; Ph.D., 1976.

Zimmerman, Daniel J.
Lecturer, ARHU-School of Music; B.A., Yale University, 1985; M.A., University of Chicago, 1989; Ph.D., 2002.

Zimmerman, Jo B.
Senior Lecturer, SPHL-Kinesiology; B.S., George Mason University, 1994; M.S., 1996.

Zinn, Aubrey V.
Lecturer, ARHU-English; B.A., University of Delaware, 1995; M.A., Towson University, 2018.

Zipp, Daniel Yoder
Visiting Lecturer, UGST-HCOL-University Honors Program; Ph.D., University of California-Los Angeles, 2022.

Ziring, Neal
Lecturer, UGST-HCOL-ACES Cybersecurity Program; M.S., Washington University in Saint Louis, 1986.

Zitzewitz, Karin J
Chair, ARHU-Art History & Archaeology; Professor, ARHU-Art History & Archaeology; B.A., Oberlin College, 1996; M.Phil., Columbia University, 2001; Ph.D., 2006.

Zocal Da Silva, Barbara
Assistant Clinical Professor, ARHU-School of Languages, Literatures, and Cultures; B.A., Universidade Estadual Paulista, 2010; M.A., University of Sao Paulo, 2015; Ph.D., 2023.

Zotkin, Dmitry
Adjunct Associate Professor, CMNS-Institute for Advanced Computer Studies; M.S., Moscow Institute of Physics & Technology, 1996; M.S., University of Maryland-College Park, 1999; Ph.D., 2002.

Zou, Linda
Assistant Professor, BSOS-Psychology; B.A., College of William & Mary, 2012; Ph.D., University of Washington-Seattle, 2019.

Zremski, Jerry
Lecturer, JOUR-Philip Merrill College of Journalism; B.A., Syracuse University, 1982; M.A., American University, 1996.

Zsak, Sarah
Lecturer, BSOS-Hearing & Speech Sciences; B.S., University of Maryland-College Park, 2004; M.A., 2014.

Zur, Emanuel
Associate Professor, BMGT-Robert H. Smith School of Business; Associate Professor, BMGT-Accounting; D.B.A., New York University, 2002.

Zwicker, Matthias
Chair, CMNS-Computer Science; Professor, CMNS-Computer Science; Professor, CMNS-Institute for Advanced Computer Studies; M.S., Swiss Federal Institute of Tech-Zurich, 1998; Ph.D., 2003.

Zwolak, Justyna P.
Adjunct Assistant Professor, CMNS-Institute for Advanced Computer Studies; M.S., Other, 2007; Ph.D., 2011.

Zwolak, Michael
Adjunct Assistant Professor, CMNS-Physics; B.S., Virginia Polytechnic Institute & State University, 2002; B.A., 2002; B.S., 2002; M.S., 2003; Ph.D., California Institute of Technology, 2008.

UNDERGRADUATE PROGRAMS

Majors

- Accounting Major (p. 295)
- Accounting Major at Shady Grove (p. 512)
- Aerospace Engineering Major (p. 406)
- African American and Africana Studies Major (p. 248)
- Agricultural and Resource Economics Major (p. 95)
- Agricultural Science and Technology Major (p. 125)
- American Studies Major (p. 150)
- Animal Sciences Major (p. 102)
- Anthropology Major (p. 253)
- Arabic Studies Major (p. 206)
- Architecture Major (p. 138)
- Art History Major (p. 159)
- Astronomy Major (p. 311)
- Atmospheric and Oceanic Science Major (p. 315)
- Biochemistry Major (p. 328)
- Biocomputational Engineering Major (p. 428)
- Biocomputational Engineering Major at Shady Grove (p. 488)
- Bioengineering Major (p. 429)
- Biological Sciences Major (p. 317)
- Biological Sciences Major at Shady Grove (p. 493)
- Chemical Engineering Major (p. 410)
- Chemistry Major (B.A., B.S.) (p. 329)
- Chinese Major (p. 208)
- Cinema and Media Studies Major (ENGL) (p. 173)
- Cinema and Media Studies Major (SLLC) (p. 210)
- Civil Engineering Major (p. 412)
- Classical Languages and Literatures Major (p. 162)
- Communication Major (p. 166)
- Communication Major at Shady Grove (p. 506)
- Computer Engineering Major (p. 416)
- Computer Science Major (p. 332)
- Criminology and Criminal Justice Major (p. 256)
- Criminology and Criminal Justice Major at Shady Grove (p. 495)
- Cyber-Physical Systems Engineering Major (p. 419)
- Cyber-Physical Systems Engineering Major at Shady Grove (p. 489)
- Dance Major (p. 239)
- Early Childhood/Early Childhood Special Education Major (p. 375)
- Economics Major (p. 258)
- Electrical Engineering Major (p. 421)
- Elementary Education Major (p. 382)
- Elementary/Middle Special Education Major (p. 370)
- English Language and Literature Major (p. 176)
- Environmental Science and Policy Major (p. 109)
- Environmental Science and Technology Major (p. 116)
- Family Health Major (p. 468)
- Fermentation Science Major (p. 121)
- Fermentation Science Major at Shady Grove (p. 508)
- Finance Major (p. 300)
- Fire Protection Engineering Major (p. 424)
- French Language and Literature Major (p. 213)
- Geographical Sciences Major (p. 263)
- Geology Major (p. 344)
- German Studies Major (p. 215)

- Korean Studies Minor (p. 221)
- Landscape Management Minor (p. 132)
- Latin American and Caribbean Studies Minor (p. 198)
- Latin Language and Literature Minor (p. 164)
- Law and Society Minor (p. 277)
- Leadership Studies Minor (p. 373)
- LGBTQ Studies Minor (p. 182)
- Linguistics Minor (p. 201)
- Mathematics Minor (p. 358)
- Media, Technology and Democracy Minor (p. 461)
- Meteorology Minor (p. 317)
- Middle East Studies Minor (p. 189)
- Military Studies Minor (p. 527)

- Music and Culture Minor (p. 234)
- Music Performance Minor (p. 237)
- Nanoscale Science and Technology Minor (p. 437)
- Naval Science Minor (p. 527)
- Neuroscience Minor (p. 281)
- Nonprofit Leadership and Social Innovation Minor (p. 480)
- Nuclear Engineering Minor (p. 436)
- Paleobiology Minor (ENTM) (p. 340)
- Paleobiology Minor (GEOL) (p. 348)
- Persian Studies Minor (p. 224)
- Philosophy Minor (p. 203)
- Physics Minor (p. 362)
- Planetary Sciences Minor (ASTR) (p. 313)
- Planetary Sciences Minor (GEOL) (p. 349)
- Portuguese and Brazilian Studies Minor (p. 225)
- Professional Writing Minor (p. 178)
- Project Management Minor (p. 415)
- Public Leadership Minor (p. 481)
- Quantum Science and Engineering Minor (p. 423)
- Real Estate Development Minor (p. 143)
- Religious Studies Minor (p. 196)
- Remote Sensing of Environmental Change Minor (p. 265)
- Rhetoric Minor (COMM) (p. 170)
- Rhetoric Minor (ENGL) (p. 179)
- Robotics and Autonomous Systems Minor (CMSC) (p. 338)
- Robotics and Autonomous Systems Minor (ENGR) (p. 437)
- Russian Studies Minor (p. 228)
- Science, Technology, Ethics and Policy Minor (ENGR) (p. 438)
- Science, Technology, Ethics and Policy Minor (INFO) (p. 445)
- Science, Technology, Ethics and Policy Minor (PLCY) (p. 483)
- Secondary Education Minor (p. 397)
- Sociology Minor (p. 289)
- Soil Science Minor (p. 119)
- Spanish Minor 1: Literature, Linguistics, and Culture (p. 233)
- Spanish Minor 2: Language, Culture, and Professional Contexts (p. 233)
- Spanish Minor 3: Heritage Language and Latina/o Culture (p. 232)
- Statistics Minor (p. 359)
- Surficial Geology Minor (p. 350)
- Survey Methodology Minor (p. 289)
- Sustainability Studies Minor (AGNR) (p. 114)
- Sustainability Studies Minor (PLCY) (p. 484)
- Teaching English for Speakers of Other Languages (TESOL) Education Minor (p. 398)
- Technology Entrepreneurship and Corporate Innovation Minor (p. 439)
- Technology Innovation Leadership Minor (p. 451)
- Technology Innovation Leadership Minor at Shady Grove (p. 505)
- U.S. Latina/o Studies Minor (p. 151)

Certificates

- African American and Africana Studies Certificate (p. 247)
- Applied Agriculture Certificate (p. 105)
- East Asian Studies Certificate (HIST) (p. 187)
- East Asian Studies Certificate (SLLC) (p. 211)
- International Agriculture and Natural Resources Certificate (p. 120)
- Latin American and Caribbean Studies Certificate (p. 197)
- Leadership Studies Certificate (p. 373)
- LGBTQ Studies Certificate (p. 182)
- Secondary Education Certificate (p. 385)
- Women, Gender, and Sexuality Studies Certificate (p. 183)

ADDENDA TO THIS CATALOG

The Undergraduate Catalog is published each academic year in June prior to the fall semester. The provisions of the Undergraduate Catalog are not to be regarded as a contract between the student and the University of Maryland. The university reserves the right to change its policies, rules, regulations, requirements for graduation, course offerings, tuition, fees, other charges, or any other contents of this catalog at any time.

When necessary, the university will track changes to the Undergraduate Catalog in this addenda section:

- For addenda related to policies, rules, regulations, tuition, fees and general information, see **General Addenda**
- For addenda related to curricula (i.e., descriptions, learning outcomes, and requirements for majors, minors, and certificates), see **Curricular Addenda**

Note: Updates to course offerings (e.g., course description changes), will be reflected in the following year's catalog and are not tracked in this addenda section.

GENERAL ADDENDA

This section contains addenda related to policies, rules, regulations, tuition, fees and general information. Each addendum contains an excerpt from the catalog as it was originally published as well as the change that was made. To view the full original text, see the catalog page referenced in the addendum.

Division of Administration

Under Division of Administration *(*p. 14*)*

- Effective October 1, 2025, the Interim Vice President and Chief Administrative Officer was appointed as Vice President and Chief Administrative Officer *(published October 21, 2025).*

Original

Vice President and Chief Administrative Officer: C. Robert Reuning (Interim)

Change

Vice President and Chief Administrative Officer: Charles R. Reuning

Office of Diversity and Inclusion

Under Office of Diversity and Inclusion *(*p. 15*)*

- Effective August 7, 2025, the Office of Diversity and Inclusion was renamed to Belonging & Community at UMD, and the office description was updated *(published January 12, 2026).*

Original

Office of Diversity and Inclusion

Phone: 301-405-2838
Fax: 301-314-9992
DiverseTerps@umd.edu
http://diversity.umd.edu

Vice President for Diversity & Inclusion: Georgina Dodge, Ph.D.

The Office of Diversity and Inclusion (ODI) provides leadership and expertise for helping the university achieve its diversity, equity and inclusion goals. ODI houses several units that offer support to students, including ADA Compliance, Bias Incident Support Services (BISS), the LGBTQ+ Equity Center, the Nyumburu Cultural Center, the Office of Multi-ethnic Student Education (OMSE) and TerrapinSTRONG Education. ODI also coordinates with the Diversity Officers and other partners across campus. Students may reach out to ODI at DiverseTerps@umd.edu for support or to be connected to resources.

For more information about ODI, please visit http://diversity.umd.edu (http://diversity.umd.edu).

Change

Belonging & Community at UMD

Phone: 301-405-2838
Fax: 301-314-9992
Belonging@umd.edu
http://belonging.umd.edu

Vice President for Belonging: Georgina Dodge, Ph.D.

Belonging & Community at UMD works to cultivate well-being, belonging, and a vibrant learning and working community for the entire UMD community. Belonging offers community-building and learning opportunities, academic support, restorative practices for those who have experienced hate or bias and more. Belonging houses several units that offer support to students, including Bias Incident Support Services (BISS), the LGBTQ+ Equity Center, the Nyumburu Cultural Center, the Office of the ADA Coordinator, the Office of Multi-ethnic Student Education (OMSE) and TerrapinSTRONG Education, as well as coordinating with partners across campus.

Visit belonging.umd.edu (http://belonging.umd.edu) for more information, or contact belonging@umd.edu to be connected with resources.

University Administration and Deans

Under University Administration and Deans *(*p. 14*)*

1. Effective October 1, 2025, the Interim Vice President and Chief Administrative Officer was appointed as Vice President and Chief Administrative Officer *(published October 21, 2025).*
2. Effective September 1, 2025, a new Dean of the School of Public Policy was appointed *(published November 6, 2025).*

Original

(1) Vice President and Chief Administrative Officer **Charles Reuning (Interim)**

(2) Dean of the School of Public Policy **Steven Fetter, Ph.D. (Interim)**

Change

(1) Vice President and Chief Administrative Officer **Charles R. Reuning**

(2) Dean of the School of Public Policy **Gustavo Flores-Macías, Ph.D.**

CURRICULAR ADDENDA

This section contains a list of addenda related to undergraduate program changes. Each listing details changes that have been made to the program or indicates if the program is new.

- American Sign Language (ASL) Minor (p. 1150)
- Artificial Intelligence in Architecture Minor (p. 1150)
- Astronomy Major (p. 1151)
- Atmospheric Chemistry Minor (p. 1153)
- Cinema and Media Studies Major (p. 1154)
- Climate Change Fluency Minor (p. 1156)
- Communication Major (p. 1157)
- Cyber-Physical Systems Engineering Major (p. 1157)
- General Business Minor (p. 1158)
- Global and Foreign Policy Major (p. 1159)
- Global Culture and Thought Major (p. 1160)
- Global Health Major (p. 1161)
- Human Development Major (p. 1163)
- Latin American and Caribbean Studies Minor (p. 1164)
- LGBTQ Studies Minor (p. 1165)
- Public Policy Major (p. 1166)
- Public Service Interpreting and Translation Major (p. 1166)
- School of Public Policy (p. 1167)
- Teaching English for Speakers of Other Languages (TESOL) Education Minor (p. 1167)
- Video Production and Documentary Filmmaking Minor (p. 1168)
- Women, Gender, and Sexuality Studies Minor (p. 1168)

American Sign Language (ASL) Minor

- Effective Spring 2026, the American Sign Language (ASL) Minor was established *(published November 4, 2025)*.

Program Director: Michael Dunham

The American Sign Language (ASL) minor is designed for students interested in acquiring intermediate expressive and receptive ASL skills with in-depth understanding of Deaf Culture. The program plan includes four required classes and one elective (5-courses total). Emphasis on engaging with native signers from varied backgrounds is a foundation of the program. Throughout the sequence, experiential learning connects to the rich Deaf Culture in the DMV area known for one of the nation's largest Deaf communities. Participants develop communication skills while examining accessibility for greater advocacy and inclusivity. The core classes focus on sign language skills, Deaf Culture, and immersive community experiences. Electives include offerings in linguistics, world languages, education, and hearing and speech sciences. The coursework, immersion opportunities, and capstone project will benefit students in all fields of study.

Program Learning Outcomes

1. Develop competency of expressive and receptive American Sign Language (ASL) skills (e.g., visual gestures, facial expressions, fingerspelling) at the intermediary level.
2. Recognize intersectionality of identities in Deaf community through exposure to multiple dialects and signing styles.
3. Demonstrate understanding of Deaf culture, history, and community through responsive and respectful interactions.
4. Engage in advocacy and accessibility efforts aligned to goals of Deaf led organizations (e.g., accessible spaces).
5. Students Planning to Continue Studies Post Graduation: Following completion of the American Sign Language Proficiency Assessment achieve a score of 2.0 or higher (pragmatics and linguistics).

Requirements

Program plan includes four required classes and one elective (5-courses total).

Course	Title	Credits
Core Courses		
CHSE376	Fundamentals of Sign Language	3
CHSE476	Communicating with Sign Language	3
CHSE477	ASL III: Intermediate Sign Language Communication	3
CHSE480	Deaf Culture, History, and Community	3
Elective Course (choose one from below)		**3**
TLPL253	Language Rights and Repression in Education	
TLPL441	Methods for Teaching Multilingual Learners	
TLPL442	Foundations of Literacy and Biliteracy Development	
TLPL443	Cross-Cultural Communication and Multilingual Learners	
HESP420	Deaf Culture and ASL for the CSD Professional	
EDHD241	Are Two Languages Better than One: The Science and Controversy of Bilingualism	
EDHD310	Your Brain on Education: The Neuroscience of Learning and Development	
EDHD411	Child Growth and Development	
EDHD425	Language Development and Reading Acquisition	
EDSP411	Foundations of Technology Integration for Curriculum Access	
LING200	Introductory Linguistics	
LING240	Language and Mind	
Total Credits		**15**

Artificial Intelligence in Architecture Minor

- Effective Spring 2026, the Artificial Intelligence in Architecture Minor was established (*published December 15, 2025*).

Program Director: Hooman Koliji Ph.D.

The AI in Architecture minor explores how artificial intelligence is transforming building design as well the larger built environment. Students engage with methods of design that incorporate generative AI while developing an ethical foundation for integrating AI into design thinking. With an emphasis on the many ways that AI is being integrated into design workflows in the academy and in practice, the Minor prepares students to apply AI creatively, critically, and responsibly in advancing sustainable and human-centered architectural practice. The AI in

Architecture minor is restricted to students in the ARCH BA and BS degree programs.

Program Learning Outcomes

1. AI and the Built Environment: Students will analyze and apply AI technologies to understand their increasing influence on the design, planning, and management of the built environment and the public realm.
2. AI, Ethics, and Societal Impact: Students will critically assess the ethical implications and societal consequences of deploying AI in architecture, including issues of equity, privacy, and social responsibility.
3. AI and Architectural Design Workflows: Students will integrate AI-driven tools and methods into architectural design processes to enhance efficiency, innovation, and design decision-making.
4. AI and Sustainability Strategies: Students will leverage AI to develop and evaluate sustainable design strategies, optimizing environmental performance and resource efficiency in architectural projects.
5. AI and Representational Techniques: Students will utilize AI-based techniques for architectural representation, including generative visualization, parametric modeling, and immersive media, to communicate complex design concepts effectively.

Requirements

Course	Title	Credits
ARCH230	(AI and the Built Environment)	3
PHIL211	AI & ETHICS	3
ARCH418	Selected Topics in Architectural Technology (ARCH418J: AI and Architecture)	3
ARCH418	Selected Topics in Architectural Technology (ARCH418D: AI and Sustainability)	3
ARCH470	Computer Applications in Architecture	3
Total Credits		**15**

Astronomy Major

Under Astronomy Major

1. **Description:** Effective Spring 2026, the program description was updated *(published January 16, 2026)*.
2. **Program Learning Outcomes:** Effective Spring 2026, the program learning outcomes were updated *(published January 16, 2026)*.
3. **Requirements:** Effective Spring 2026, the major now offers three specializations. *(published January 16, 2026)*.

Original

(1) Description: The Astronomy Department offers courses leading to a Bachelor of Science in Astronomy as well as a series of courses of general interest to non-majors. Astronomy majors are given a strong undergraduate preparation in Astronomy, Mathematics, and Physics. The degree program is designed to prepare students for positions in government and industry laboratories or for graduate work in Astronomy or related fields. Courses offered by this department may be found under the following acronym: ASTR.

(2) Program Learning Outcomes:

1. Identify basic concepts from the many areas of astronomy, including motions in the sky, gravity, electromagnetic radiation, solar system, stars, and galaxies.
2. Develop mathematical skills, acquire physics knowledge, and practice applying these skills and knowledge in astrophysical situations.
3. Use astronomical telescopes/instruments and reduce astronomical data using modern computational methods.
4. Demonstrate advanced level knowledge in several different areas of astronomy.
5. Describe the current demographic composition of people working in the field of astronomy and how this affects its practice and presents barriers to broader inclusion.

(3) Requirements: See Astronomy Major (p. 312)

Change

(1) Description: Astronomy is the scientific study of the universe and its contents, including planets, stars, galaxies, and other celestial objects. Astronomers not only study what the universe is like right now, but they seek to understand the origins and evolution of the universe and the objects within it. At the University of Maryland, astronomers use a variety of tools, including telescopes (both ground-based and space-based) for imaging and spectroscopy, and other specialized instruments to study celestial objects as well as creating theoretical and computational models to better understand those objects.

The Astronomy Department offers courses leading to a Bachelor of Science in three specializations: Astrophysics, Astronomy - Data Science, and Astronomy - Physical Science. The department also offers a series of courses of general interest to non-majors. Astronomy majors are given a strong undergraduate preparation in astronomy, mathematics, and physics. Our class sizes are small and all courses are led by our enthusiastic faculty, developing a strong peer community. The degree program is designed to prepare students for positions in government, industry laboratories, science communication, science policy, science education, or for graduate work in Astronomy or related fields.

(2) Program Learning Outcomes:

1. Use and explain fundamental concepts from the many areas of astronomy, including motions in the sky, gravity, electromagnetic radiation, solar system, stars, galaxies, and cosmology.
2. Assess and solve unfamiliar problems in astrophysics using the knowledge and skills acquired in their astronomy, physics, and mathematics courses.
3. Use astronomical telescopes/instruments and reduce astronomical data using modern computational methods.
4. Summarize scientific literature and nuanced concepts, demonstrating in-depth knowledge in specific sub-fields corresponding to upper-level electives.
5. Describe the current demographic composition of people working in the field of astronomy and how this affects its practice and presents barriers to broader inclusion.

(3) Requirements:

Courses Required for All Specializations

Course	Title	Credits
Required Introductory Astronomy Courses		
ASTR130	(Introductory Astrophysics 1 - Foundations)	3
ASTR131	(Introductory Astrophysics 2 - Planets and Stars)	3

ASTR232	(Introductory Astrophysics 3 - The Milky Way and Beyond)	4
ASTR310	Observational Astronomy	4
Required Introductory Physics Courses		
PHYS171	Introductory Physics: Mechanics	3
PHYS265	Introduction to Scientific Programming [1]	3
PHYS272	Introductory Physics: Fields	3
PHYS273	Intermediate Oscillations and Waves	3
PHYS275	Experimental Physics I: Mechanics and Waves	2
PHYS276	Experimental Physics II: Electricity and Magnetism	2
Supporting Mathematics Courses		
MATH140	Calculus I	4
MATH141	Calculus II	4
MATH241	Calculus III	4
MATH243	Introduction to Linear Algebra and Differential Equations [2]	4
Specialization (see below)		**24-29**
Total Credits		**70-75**

Astrophysics Specialization

Course	Title	Credits
Advanced Astronomy Courses		
ASTR320	Theoretical Astrophysics	3
Three of the following:		**9**
ASTR406	Stellar Structure and Evolution	
ASTR410	Radio Astronomy	
ASTR415	Computational Astrophysics	
ASTR421	Galaxies	
ASTR422	Cosmology	
ASTR430	The Solar System	
ASTR435	Astrophysics of Exoplanets	
ASTR450	Orbital Dynamics	
ASTR480	High Energy Astrophysics	
Three credits of: [3]		**3**
ASTR288	Special Projects in Astronomy	
ASTR498	Special Problems in Astronomy	
ASTR399	Honors Seminar	
ASTR086	(Experiential Learning)	
Advanced Physics Courses		**0**
PHYS313	Electricity and Magnetism I	4
PHYS371	Modern Physics	3
Two of the following:		6-7
PHYS401	Quantum Physics I	
PHYS404	Introduction to Statistical Thermodynamics	
PHYS410	Classical Mechanics	
Total Credits		**28-29**

Astronomy - Data Science Specialization

Course	Title	Credits
Advanced Astronomy Courses		**9**
Three of the following: [4]		
ASTR320	Theoretical Astrophysics	
ASTR406	Stellar Structure and Evolution	
ASTR410	Radio Astronomy	
ASTR415	Computational Astrophysics	
ASTR421	Galaxies	
ASTR422	Cosmology	
ASTR430	The Solar System	
ASTR435	Astrophysics of Exoplanets	
ASTR450	Orbital Dynamics	
ASTR480	High Energy Astrophysics	
ASTR498	Special Problems in Astronomy [5]	
Advanced Data Science Courses		
DATA320	Introduction to Data Science [4]	3
DATA350	Data Visualization and Presentation [4]	3

NOTE: Prerequisites are required in order to enroll in DATA320 and DATA350 (click on the course to see its prerequisites). The prerequisite courses align with the Data Science minor, although completing the Data Science minor is not required for this specialization.

Three of the following: [4]		9
MATH416	Applied Harmonic Analysis: An Introduction to Signal Processing	
MATH423	Linear Optimization	
MATH464	Transform Methods	
STAT401	Applied Probability and Statistics II	
STAT430	Introduction to Statistical Computing with SAS	
Total Credits		**24**

Astronomy - Physical Science Specialization

Course	Title	Credits
Advanced Astronomy Courses		**9**
Three of the following: [4]		
ASTR320	Theoretical Astrophysics	
ASTR406	Stellar Structure and Evolution	
ASTR410	Radio Astronomy	
ASTR415	Computational Astrophysics	
ASTR421	Galaxies	
ASTR422	Cosmology	
ASTR430	The Solar System	
ASTR435	Astrophysics of Exoplanets	
ASTR450	Orbital Dynamics	
ASTR480	High Energy Astrophysics	
ASTR498	Special Problems in Astronomy [5]	
Complementary Science Courses		**9**
Three of the following: [4]		
AOSC360	(How to solve the climate change problem?)	
AOSC375	Introduction to the Blue Ocean	
AOSC401	Climate Dynamics and Earth System Science	
AOSC431	Atmospheric Thermodynamics	
AOSC432	Dynamics of the Atmosphere and Ocean	
AOSC433	Atmospheric Chemistry and Climate	
AOSC434	Air Pollution and Environmental Justice	

AOSC475	Carbon Cycle and Climate: Past, Present, and Future
BSCI331	(Cell Biology and Physiology)
BSCI361	Principles of Ecology
BSCI464	Microbial Ecology
ENST333	Ecosystem Health and Protection
ENST360	Ecosystem Ecology
ENST405	Energy and Environment
ENST415	Renewable Energy
ENST436	Emerging Environmental Threats
ENST485	Water Management in Urban Environment
GEOG301	Advanced Geographical Environmental Systems
GEOG373	Geographic Information Systems
GEOG415	Land Use, Climate Change, and Sustainability
GEOG417	Land Cover Characterization Using Multi-Spectral Remotely Sensed Data Sets
GEOL322	Mineralogy
GEOL340	Geomorphology
GEOL341	Structural Geology
GEOL412	Geology of the Terrestrial Planets
GEOL446	Geophysics
GEOL457	Seismology
GEOL472	Active Tectonics
Societal Implications/Communication/Science Applications	**6**
Choose one course from two of the following three groups (two courses total): [4]	
Societal Implications (Group 1)	
AREC345	Global Poverty and Economic Development
AREC365	World Hunger, Population, and Food Supplies
ENSP360	Every Drop Counts: Water, Food and Global Public Health
GVPT273	Introduction to Environmental Politics
GVPT373	Geographic Information Systems for Redistricting
GVPT392	Introduction to Geographic Information Systems for Social Science Research
GVPT393	Intermediate Geographic Information Systems
LARC461	People and the Environment
PLCY301	Sustainability
PLCY380	Innovation and Social Change: Do Good Now
Communication (Group 2)	
COMM341	Environmental Communication
COMM345	Foundations of Public Dialogue and Deliberation
COMM365	Social Media & Digital Culture
COMM385	Influence
COMM459C	(Special Topics in Science Communication: Misinformation, Society, and Science Communication (3))
COMM475	Persuasion
COMM498R	(Risk Communication (3))
ENGL387	Visual Rhetoric
ENGL388C	Writing for Change
ENGL398N	Writing for Non-Profit Organizations
ENGL398R	Writing Non-Fictional Narratives
ENGL398V	Writing About the Environment
ENGL491	Digital Rhetoric
ENGL493	Writing Genres as Social Action
Science Applications (Group 3)	
AOSC424	Remote Sensing of the Atmosphere and Ocean
AOSC447	Machine Learning in Earth Science
BSCI374	Mathematical Modeling in Biology
GEOG377	Artificial Intelligence for Spatial Data
GEOG440	Polar Remote Sensing
GEOG472	Remote Sensing: Digital Processing and Analysis
GEOG473	Geographic Information Systems and Spatial Analysis
GEOG475	Geographic Visualization and Digital Mapping
GEOL447	Observational Geophysics
MATH401	Applications of Linear Algebra
MATH462	Partial Differential Equations
STAT426	Introduction to Data Science and Machine Learning
Total Credits	**24**

- All of the above courses must be completed with a C- or better.
- Astronomy majors may not minor in Physics. Astronomy majors who choose the BS Astrophysics Specialization may double-major in one of the Physics specializations.
- Astronomy majors who choose the BS Astrophysics Specialization or the BS Astronomy - Physical Science Specialization may double-major in Computer Science.
- Once a student has begun the Astronomy major at the University of Maryland, no more than one course at the 300/400-level from a "study abroad" type program may be used in place of a ASTR-prefix course required for the major.

1 For students with extensive experience with computer programming, this course can be replaced by PHYS474 (Computational Physics) or ASTR415 (Computational Astrophysics). If students complete ASTR415 for this requirement, it cannot be counted as an Advanced Astronomy Course requirement.

2 MATH240 and MATH246 may be substituted for MATH243.

3 ASTR399 and ASTR086 require special permission of the Astronomy advisor. ASTR086 may be used if a student has completed a suitable paid summer internship. In this case, the student must complete an additional 300/400-level Astronomy or Physics major course, since ASTR086 is 0 credits.

4 Students are required to adhere to the prerequisites for all courses.

5 ASTR498 for the Astronomy - Data Science Specialization and for the Astronomy - Physical Science Specialization must be approved by the Astronomy advisor. At least 3 credits must be completed over 1 or more semesters.

Atmospheric Chemistry Minor

Under Atmospheric Chemistry Minor

- Effective Spring 2026, course requirements were restructured to make the requirements less ambiguous, and a course that is no longer offered was removed *(published January 12, 2026).*

Original

See Atmospheric Chemistry Minor (p. 316)

Change

A total of 15 credits is required. All courses presented for the minor must be passed with a grade of "C-" or better.

Course	Title	Credits
Select two electives from the following:		6
AOSC123	Causes and Consequences of Global Change	
AOSC200	Weather and Climate	
Any AOSC 400 level course offered below as elective		
At least two of the following:		6
AOSC431	Atmospheric Thermodynamics	
AOSC433	Atmospheric Chemistry and Climate	
AOSC434	Air Pollution and Environmental Justice	
Select one of the following electives:		3
Other 400 level courses offered in the Department of Atmospheric and Oceanic Science on a regular basis, or from a list of non-permanent electives that will be offered by Research Scientists, regular faculty from Atmospheric and Oceanic Science, or members of the Earth System Science Interdisciplinary Center (ESSIC)		
Courses offered by the Departments of Geographical Sciences and Geology such as:		
GEOG472	Remote Sensing: Digital Processing and Analysis	
GEOL437	Global Climate Change: Past and Present	
GEOL452	Watershed and Wetland Hydrology	
GEOL471	Geochemical Methods of Analysis	
Total Credits		**15**

Cinema and Media Studies Major

Under Cinema and Media Studies Major (ENGL) ***(***p. 173***)*** *and* Cinema and Media Studies Major (SLLC) ***(***p. 210***)***

1. **Description:** Effective Spring 2026, the program description was updated *(published November 4, 2025)*.
2. **Program Learning Outcomes:** Effective Spring 2026, the program learning outcomes were updated *(published November 4, 2025)*.
   - Program learning outcomes #1, #2, and #3 were changed.
   - Program learning outcomes #4 and #5 have been removed.
   - Five new program learning outcomes were added.
3. **Requirements:** Effective Spring 2026, the major has been restructured from a single program into two tracks: Critical Studies and Film Production and "Other Requirements for the Major" section has been updated *(published November 4, 2025)*.

Original

(1) Description: Cinema and Media Studies is an interdisciplinary program in the humanities that enables students to explore an influential global art form in its aesthetic, cultural, economic, historical, and technological dimensions. The major takes a critical, textual approach to film, emphasizing scholarly viewing, interpreting, and writing about moving images. It provides students with a solid background in theoretical, critical, and aesthetic aspects of the study of film, including the history of the medium and the analysis of national cinemas, always keeping in view questions of how new media have changed both cinema itself and the study of cinema. The Cinema and Media Studies major brings together courses in cinema from varied nations, languages, and cultures and challenges students to understand the systems of transnational exchange that have characterized this medium from its inception.

Courses offered by this program may be found under the following acronyms: FILM (being phased out), CINE, ENGL, and SLLC.

(2) Program Learning Outcomes:

1. Students will be able to analyze and interpret film aesthetics and technical structures of editing, cinematography, sound, and mise-en-scene.
2. Students will be able to identify and analyze diverse genres and movements in the history of film.
3. Students will be able to situate films produced in various parts of the world in relation to larger historical and cultural developments.
4. Students will understand the various uses of the moving image in its relation to the political, economic, and social history of the world over the past century.
5. Students will be able to conduct research in Cinema and Media Studies and to write persuasively.

(3) Requirements: See Cinema and Media Studies Major (ENGL) (p. 174) and Cinema and Media Studies Major (SLLC) (p. 210).

Change

(1) Description: Cinema and Media Studies is an interdisciplinary program in the humanities that enables students to explore all types of moving-image media in their aesthetic, cultural, economic, historical, and technological dimensions. The major is committed to engaging students intellectually in the critical analysis of culture and cultural forms, while at the same time preparing them for the workforce by developing their skills and fluency in written, oral, and visual communication. Students critically analyze cinema and moving-image media as a cultural experience that spans the entire globe, seeking to understand the ways that this experience might be different and similar across cultures, languages, socio-economic conditions, and historical periods. The program includes two tracks: the Critical Studies Track and the Film Production Track. In both tracks, students will acquire a solid background in theoretical, critical, and aesthetic aspects of the study of cinema and media, including the history of moving image media and the analysis of national and international cinemas, always keeping in view questions of how new media have changed both cinema itself and the study of cinema. The Critical Studies Track focuses on the critical analysis of genres, forms, and theories in the field of cinema and media, bringing together courses in cinema from varied nations, languages, and cultures, and challenges students to understand the systems of transnational exchange that have characterized this medium from its inception. The Film Production Track introduces students to filmmaking techniques and practices, enabling them to apply this analytical training to their personal and creative approach to filmmaking with the support of current technology and with an emphasis on team-building, and providing them with skills they will use in their professional environment as well as for artistic and/or social purposes. Courses offered by this program may be found under the following prefixes: CINE, ENGL, and SLLC.

(2) Program Learning Outcomes:

1. Broad Foundation: Students will demonstrate critical fluency and knowledge of the basic conceptual framework and lexicon of analysis--namely the concepts and terms used in describing and critically analyzing the four main areas of cinematic structure: editing; cinematography; mise-en-scène; and sound--by deploying this analytical lexicon in the audiovisual analysis of a scene. Students enrolled in the Film Production Track will be able to apply basic concepts and terminology in cinema and media analysis to their filmmaking practice.
2. Close Analysis: Students will produce analyses of media that integrate knowledge of how the material production, technologies, and cultural practices of diverse types of media shape meaning, by deploying close analysis of formal structures of moving-image media for the purposes of developing critical arguments about cinema and media. Students enrolled in the Film Production Track will use formal structures of moving-image media in their production of audiovisual material in various media.
3. Contextual analysis: Students will be able to demonstrate a critical understanding of cinema and media's relation to contexts that originate outside of the formal history of the development of cinematic aesthetics and technique. CMS defines "outside" as discourses, discussions, and histories surrounding those issues that have always engaged cinematic media: race; gender; ethnicity; sexuality; politics; social activism and change; violence and war; disabilities and social stigma; climate and the environment. Whether making fiction films or producing documentaries, students in the Film Production Track will be able to address, develop, and comment on issues and discourses that have always engaged cinematic media (such as race; gender; ethnicity; sexuality; politics; social activism and change; violence and war; disabilities and social stigma; climate and the environment) through their narrative and aesthetic choices.
4. Diversity: Students will be able to identify and analyze genres and movements in the history of film; identify formal and cultural components of films produced in various parts of the world; understand film as a transnational visual medium; and analyze the ways that cinema and media express cultural, social, and political diversity. Students in the Film Production Track will demonstrate how they are able to express, implement, and champion issues of diversity, equity, and justice in their own practice according to the specificities of their medium of choice.
5. Exposure: Students will demonstrate their breadth of exposure in watching and encountering a broad diversity of representations of people, places, and lived experience. Students will display facility in comparing cinematic representations of diverse experiences in the world-- and how cinema would enable the expression of different lived experience. Students in the Film Production Track will be able to work in a team and assume various responsibilities and positions on shooting sets throughout the semester regardless of their own professional aspirations, personal inclinations, and performing abilities. Students will learn to practice collaboration and fruitful exchanges on diverse cultural, aesthetic, and ethical perspectives.
6. Communication Skills: Students will demonstrate their ability to convey effective critical and analytical arguments in writing and through video presentation geared toward myriad target audiences (both academic and popular), as well as to communicate through oral presentation leadership in directing critical conversations in the classroom. Students in the Film Production Track will be able to improve their writing expression and narrative in the screenwriting course, and practice communication through the audiovisual medium in the filmmaking/sound/editing courses.
7. Technical Skills: Students in the Film Production Track will be able to use effectively basic skills in cinematography and screenwriting, update their knowledge as the technology evolves, and apply these skills in various contexts, for various purposes, and towards diverse objectives required by the professional field as well as their own creative engagement.
8. Creative Engagement: Students in the Film Production Track will demonstrate their use of media and film production as a source of innovation, challenge, and change in their social environment, and will be able to combine knowledge and skills acquired in their training with their personal motivations and commitment. Students will be able to produce individual work and participate in collective projects that demonstrate their new training in a concrete and effective manner.

(3) Requirements:

The Cinema and Media Studies major offers two tracks: the Critical Studies Track, and the Film Production Track. Both tracks begin with the same three-course Foundation Sequence, made up of a prerequisite course in Film Form (ENGL245/CINE245), a course in Media History (CINE301), and a Theory Foundation course (CINE302). The Foundation Sequence assures that students have the necessary analytical tools and historical background to interpret diverse global cinematic traditions. The Foundation Sequence is followed by a Core Sequence of 4 courses in Cinema and Media Criticism that offer all students the opportunity to explore genres, themes, and movements across different historical periods, and to develop their skills in analysis, writing, and research.

Students pursuing the Critical Studies Track select 2 additional courses in Cinema and Media Criticism from the Core Sequence, and 4 Cinema and Media Studies Electives, which may be taken outside the program in consultation with the Advisor.

Students pursuing the Film Production Track select 4 Film Production Required Courses: CINE376 (Screenwriting) CINE310 (Introduction to Filmmaking), formerly CINE319M, CINE415 (Advanced Filmmaking), CINE499 (Capstone Course), and two Cinema and Media Electives, which may be taken outside the program in consultation with the Advisor.

General Policies

- The Cinema and Media Studies major requires 39 credits (13 courses).
- A grade of "C-" or better is required in each of the courses making up the 39 credits of the major.
- Up to nine (9) credits may be taken at the 2xx-level.
- At least 6 of the 39 credits must be at the 4xx-level.

The Cinema and Media Studies major requires 39 credits, distributed as follows:

Core Program

Course	Title	Credits
Foundation Courses		
CINE/ENGL245	Film Form and Culture [1]	3
Equivalent by permission of department		
CINE301	Cinema History I: The Silent Era [2]	3
CINE302	Cinema History II: The Sound Era [2]	3
Program Core Courses		

One course in Film Theories	3
One course in Documentary, Animation, Experimental Cinema or other Visual Media	3
One course in National/International Cinemas	3
One course in Genres/Auteurs/Movements	3
Track: Select Either Critical Studies Track or Film Production Track (see track requirements below)	**18**
Total Credits	**39**

Critical Studies Track (18 Credits)

Course	Title	Credits
Critical Studies Track Requirements [3]		
One courses in Genres/Auteurs/Movements		3
One course in National/International Cinemas		3
Four Cinema and Media Studies Electives [4]		12
Total Credits		**18**

Film Production Track (18 Credits)

Course	Title	Credits
Film Production Track Requirements		
Two Cinema and Media Studies Electives [5]		6
CINE310	Introduction to Filmmaking 1	3
CINE376	Writing the Feature Film	3
CINE415	Advanced Filmmaking	3
CINE499	Directed Study in Cinema and Media Studies	3
Total Credits		**18**

1. Fulfills Gen Ed req. in Humanities. Cinema and Media Studies majors must take ENGL245/CINE245 before they take other 3xx or 4xx-level Cinema and Media Studies courses. We recommend that it be taken no later than sophomore year.
2. Students may take the two courses in any order.
3. At least one course in this category must be taken at the 4xx-level. The courses must be selected either from the pre-approved CINE rubrics or from a list of film electives available from the Cinema and Media Studies Advisor. Please consult the full list of courses accepted for the major: https://sllc.umd.edu/fields/cinema-media/courses/.
4. Up to two courses may be taken at the 200-level. Students select either two courses from pre- approved CINE rubrics and two courses in this area from other programs with the approval of the advisor; or four courses in consultation with the Cinema and Media Studies Advisor to explore a specific area of interest or an area related to their future academic or professional plans.
5. Up to two courses may be taken at the 200-level . Students select select two CINE courses (CINE315, CINE317) or two courses from other programs in a similar area of studies with the approval of the Cinema and Media Studies Advisor.

Other Requirements for the Major

In both the Critical Studies Track and the Production Track, CINE245 is a prerequisite for many 3xx-level courses in the major. Students are advised to complete that course early in their academic careers. Successful completion of CINE245 allows students to proceed to two courses required for both tracks: CINE301 and CINE302.

Students in both tracks are required to take 4 program core courses in the following four rubrics: National/International Cinemas; Film Theories; Genres/Authors/ Movements; Documentary, Animation, Experimental Cinema and Other Media.

Students in the Critical Studies Track are required to take 1 additional course in National/International Cinemas and 1 additional course in Genres/Auteurs/Movements, as well as 4 Cinema and Media Studies electives. Students in the Film Production Track are required to take 4 courses: CINE376 (screenwriting), CINE310 (introduction to filmmaking), CINE415 (advanced filmmaking) and CINE499 (capstone course), as well as 2 Cinema and Media electives.

Climate Change Fluency Minor

- Effective Spring 2026, the Climate Change Fluency Minor was established (*published December 15, 2025*).

Program Director: Alexandra Jones

This minor program is intended for non-science majors, but open to all majors other than atmospheric and oceanic science. It is designed to fill a critical need for climate literacy among professionals whose careers can benefit, such as journalists, policy makers, public health practitioners, investment and insurance professionals, etc. Students will be introduced to the science behind and evidence of both natural and anthropogenic climate factors and learn how to distinguish between climate science and climate policy as it relates to their intended career field.

It will provide the students with a general background in weather and climate as offered by the lower level courses and exposure to deeper exploration in the elective areas of the student's choosing. This will include the ocean's role in the climate system, climate change mitigation, visualizing climate data, climate attribution of extreme events, climate dynamics, paleoclimate, air quality, and more.

Program Learning Outcomes

1. Clearly distinguish between and describe to a non-scientific audience the natural greenhouse effect, the mechanism and structure of anthropogenic climate change, climate feedback mechanisms, multidecadal climate variability, natural sources of climate change in earth's history, and the evidence that supports each.
2. Evaluate how the facts of climate change apply to your discipline and identify climate change policy recommendations and opinions and evaluate their potential impact on your discipline.
3. Discuss the complexity involved in climate attribution of extreme events such as fires, droughts, floods, and severe storms.
4. Discuss the role of a variety of climate subtopics (based on electives) in the climate system and their relation to your career field, ocean, biogeochemical, polar, mitigation, climate data analysis, internal variability, extreme event attribution, etc.

Requirements

Course	Title	Credits
Required Courses		
AOSC/GEOL123	Causes and Consequences of Global Change	3
AOSC365	(Climate change – cutting through the noise)	3

Electives (choose at least 3; 2 of which need to be at the upper level); one 3 credit course not listed but in a closely related subject area may be used as an elective with approval of the undergaduate program director		**9**
AOSC200	Weather and Climate	
AOSC247	Scientific Programming: Python	
AOSC360	(How to Solve the Climate Change Problem)	
AOSC/ GEOL375	Introduction to the Blue Ocean	
AOSC401	Climate Dynamics and Earth System Science	
AOSC/ CHEM433	Atmospheric Chemistry and Climate	
AOSC/ GEOL437	Global Climate Change: Past and Present	
AOSC/ GEOG440	Polar Remote Sensing	
Total Credits		**15**

Communication Major

Under Communication Major *(*p. 166*)*

- **Admission to the Major**: Effective Fall 2025, the Communication major is no longer classified as a Limited Enrollment Program (LEP). As such, the Admission to the Major section is no longer applicable. *(Published July 25, 2025)*

Original

Admission to the Major

First-time Freshman

All first-time freshmen who designate Communication as a major prior to the end of the final exam period of their first semester will be admitted directly to the program. They must sign a Memorandum of Understanding that states that they understand that by the semester in which they attain 45 University of Maryland credits (excluding AP), they must meet the following gateway requirements:

1. Complete one of the following courses with a grade of "C-" or better: BMGT230, CCJS200, EDMS451, PSYC200, SOCY201, STAT100, or equivalent.
2. Complete COMM107, COMM200, or COMM230 with a grade of "C-" or better
3. Complete COMM250 with a grade of "C-" or better and
4. A GPA of 2.0 or better

Students may repeat only one of the gateway requirements and that requirement may be repeated only once in their attempt to meet the requirements. Students who fail to meet the gateway requirements by the semester in which they attain 45 credits will be dismissed from the program and cannot reapply.

Transfer Students

Internal and external transfer students who meet the gateway requirements specified above must also have a cumulative GPA of 2.70 in all college-level coursework to apply to the program.

Appeals

All students may appeal admission decisions. Students directly admitted as freshmen, who are dismissed because of failure to meet gateway requirements or a failure to be in good academic standing at 45 credits, may appeal directly to the undergraduate director in the Department of Communication. All other students who are denied admission may appeal to the university's Office of Undergraduate Admissions.

Change

Admission to the Major: This section is no longer applicable.

Cyber-Physical Systems Engineering Major

Under Cyber-Physical Systems Engineering Major *(*p. 420*) and* Cyber-Physical Systems Engineering Major at Shady Grove *(*p. 490*)*

- Effective Spring 2026, ENEB352 became an elective option rather than a required course and was added as an elective option to all four tracks *(published January 12, 2026).*

Original

See Cyber-Physical Systems Engineering Major (p. 420) and Cyber-Physical Systems Engineering Major at Shady Grove (p. 490)

Change

First & Second Year

Prior to being admitted to the Cyber-Physical Systems Engineering major, students should have completed the Engineering LEP gateway courses, basic math/science courses, lower-level General Education requirements, and at least 60 credits.

Course	Title	Credits
MATH140	Calculus I	4
MATH141	Calculus II	4
ENGL101	Academic Writing	3
CHEM135	General Chemistry for Engineers	3
PHYS161	General Physics: Mechanics and Particle Dynamics	3
PHYS260	General Physics: Electricity, Magnetism and Thermodynamics	3
PHYS261	General Physics: Mechanics, Vibrations, Waves, Heat (Laboratory)	1
Programming Requirement [1]		2-4
ENES100	Introduction to Engineering Design	3
One of the following MATH2xx courses:		3-4
MATH246	Differential Equations for Scientists and Engineers	
MATH241	Calculus III	
MATH240	Introduction to Linear Algebra	
General Education Requirements/Additional Electives		28-31

[1] Any of the following programming courses or their equivalents will be accepted:

- ENEE140
- CMSC131
- CMSC106
- Any introductory course in C, C++, Java, or Python (student must submit the course to ECE Department for Evaluation)

General Track

The General Track offers a general focus of course content with classes from each of the three tracks. While there are no specific required or elective courses for this track, the General Track requires 15 credits, which is the same as the other three tracks. Consult with an advisor for details.

General Business Minor

Under General Business Minor *(*p. 301*)*

1. **Description:** Effective Spring 2026, the program description was updated *(published January 12, 2026).*
2. **Requirements:** Effective Spring 2026, BMGT301 is replaced with BMIN305. In addition, the text in footnote 1 was adjusted to further clarify the BMGT220 and BMGT221 substitution for BMIN210 *(published January 12, 2026).*

Original

1. **Description:** The General Business minor provides the business savvy to complement the depth of knowledge acquired in the students' chosen area of major, so they excel in their careers after graduation. Note: The General Business minor is not open to declared Business majors.

2. **Requirements:** See General Business Minor (p. 301)

Change

1. **Description:** The General Business minor provides the business savvy to complement the depth of knowledge acquired in the students' chosen area of major, so they excel in their careers after graduation. Note: The General Business minor is not open to declared Business majors. In addition, BMIN courses for the General Business minor cannot be applied to a Robert H. Smith School of Business degree.
2. **Requirements:**

Course	Title	Credits
Core (3 credits each, 4 courses/12 credits required)		
BMIN210	Foundations of Accounting for Non Business Majors [1]	3
BMIN345	Foundations of Financial Management for Non Business Majors (BMGT340 can substitute) [2]	3
BMIN355	Foundations of Marketing for Non Business Majors (BMGT350 can substitute)	3
BMIN395	Principles of Management for Non Business Majors (BMGT364 can substitute)	3
Electives (3 credits each, 1 course required)		3
BMIN375	Supply Chain Management for Non Business Majors (BMGT372 can satisfy)	
BMGT301	Introduction to Information Systems	
Total Credits		**15**

[1] BMGT220 and BMGT221 will meet the BMIN210 requirement.
[2] Prerequisite of BMIN210 required

Global and Foreign Policy Major

- Effective Spring 2026, the Global and Foreign Policy Major was established *(published October 21, 2025)*.

Program Director: Catherine Z. Worsnop, Ph.D.

The Global and Foreign Policy major is an interdisciplinary major collaboratively offered by the School of Public Policy, the School of Languages, Literatures, and Culture, the Department of History, and the Department of Agricultural and Resources Economics. Students enrolled in the major will leverage insights from international policy, history, language and cultural studies, and economics to gain an understanding of the forces shaping global and foreign policy challenges, and options for advancing solutions to such challenges. This interdisciplinary approach is anchored by the belief that diversity in outlook, in research expertise, in background, and beyond will empower students to tackle the grand global challenges of today and tomorrow. To these ends, the major offers (1) foundational classes that equip students with the frameworks, tools, and techniques needed to unpack global and foreign policy debates and solutions, alongside (2) targeted classes enabling students to concentrate in one of three substantive areas (Security, Conflict, Diplomacy; Human Security and Migration; Development and Sustainability). Classroom experience is supplemented by an array of experiential learning opportunities. Ultimately, the major will prepare students for careers in government, the private sector (especially businesses with a strong global focus), non-profits, non-governmental organizations (NGOs), international institutions, think tanks, and beyond while connecting students to a robust network of partners eager to help them prepare for a career in the global and foreign policy space.

Program Learning Outcomes

1. Analyze the complexity and range of historical and contemporary global and foreign policy and policymaking challenges.
2. Explain how foreign and global policymaking institutions, processes, and structures shape policy solutions and outcomes.
3. Demonstrate in-depth knowledge of one or more global and foreign policy challenges and solutions, by applying insights and frameworks from different disciplines while engaging relevant policymaking processes.
4. Interrogate how identities - including national, caste, ethnic, gender, racial, religious, socio-economic, political, and beyond - and their intersections shape global and foreign policy challenges and solutions.
5. Examine the role of values, ethics, justice, access, and the structural and systemic sources of (in)equality in and across global and foreign policy domains.
6. Utilize appropriate research tools, analysis, writing, and presentation skills to assess global and foreign policy challenges, and apply these techniques to an experiential learning endeavor to better understand the dynamics of policymaking.
7. Demonstrate a minimum of basic proficiency in a second world language.

Requirements

Students must earn a minimum grade of C- in all major courses. At least 15 credits must be taken at the 300-level or higher for the major.

Course	Title	Credits
Core Courses		
GFPL100	(War, Peace and Crisis: Foundations of Global Policy) [1]	3
GFPL102	(Global Order and Policy Structures: Power, Access and Influence)	3
GFPL203	(Ethics of Global Action)	3
AREC345	Global Poverty and Economic Development	3
Pluralism and Global Policy - Choose one of the following:		3
PLCY302	Examining Pluralism in Public Policy	
GLBC200	(Global Movements)	
Historical Grounding - Choose one of the following:		3
HIST113	The Making of Modern Europe	
HIST120	Islamic Civilization	
HIST123	Sub-Saharan Africa Since 1800	
HIST240	Europe in the Twentieth Century	
HIST245	Reformers, Radicals, and Revolutionaries: The Middle East in the Twentieth Century	
HIST251	Latin America Since Independence	
HIST266	The United States in World Affairs	
HIST284	East Asian Civilization I	
HIST285	East Asian Civilization II	
Skill Courses		
World Language Requirement (at least two semesters--see footnote) [2]		6
Statistical Analysis Course [3]		3-4
PLCY304	Evaluating Evidence: Finding Truth in Numbers	4

PLCY306	Public Policy Analysis in Action [1]	3
Thematic Tracks and Electives (for specific track information see below)		**15**
Track Anchor Course [4]		
Track Elective Course One		
Track Elective Course Two		
Track or General Elective Course One		
Track or General Elective Course Two		
Experiential Applications - Choose one of the following:		**3**
PLCY400	Senior Capstone	
PLCY309	Internship in Political Institutions: State and Local	
Approved study abroad		
Total Credits		**52-53**

1 Benchmark requirement: Must be completed within the first 2 semesters in the major.

2 Note on Languages: Students will inevitably enter the major with varying familiarity with a second world language. Given this, the program seeks to ensure that students demonstrate a minimum of a basic proficiency in a second world language. To meet the language requirement, students will take the language placement exam for a chosen language offered by SLLC. If students place into an elementary or intermediate level of a language, students will take both the appropriate course and the following course in the targeted language sequence (e.g., Spanish 103, followed by Spanish 203). If students test at a more advanced level, students will speak with an SLLC language advisor to determine an appropriate language course in the sequence (including SLLC electives), or can opt to start a new language; students with AP or IB credit may also receive credit for up to one language course. Finally, students demonstrating native or near-native proficiency may test out of the language requirement and receive credit consistent with existing SLLC/ARHU guidelines (see https://drive.google.com/file/d/1Lk076FdbP8aXNku8kzuKZkkMnQeEZGkI/view (https://drive.google.com/file/d/1Lk076FdbP8aXNku8kzuKZkkMnQeEZGkI/view/)). Please note that some languages may require more than 3 credits per course per semester so the minimum number of credits may exceed 6 for some languages.

3 Statistical analysis course options: BMGT230 (https://umd-test.courseleaf.com/search/?P=BMGT230) (AR), CCJS200 (https://umd-test.courseleaf.com/search/?P=CCJS200) (AR), EDMS451 (https://umd-test.courseleaf.com/search/?P=EDMS451) (AR), PSYC200 (https://umd-test.courseleaf.com/search/?P=PSYC200) (AR), SOCY201 (https://umd-test.courseleaf.com/search/?P=SOCY201)(AR), or STAT100 (https://umd-test.courseleaf.com/search/?P=STAT100) (MA & AR). Students may also petition to receive credit for a statistics or research methods course offered by another unit.

4 Benchmark Requirement: Students must declare a track and take the associated anchor course. The anchor course must be completed within the first six semesters in the major.

Tracks

Students will select a track by taking (a) the required anchor course for a given track, and (b) 2 electives linked to that track. A list of available tracks and associated electives can be found here: [website]. An additional 2 electives can be taken within the selected track and/or from among other tracks (including anchor courses). Note that courses taken to meet the language requirement cannot be used as elective credit.

Security, Conflict, and Diplomacy

Course	Title	Credits

Global Culture and Thought Major

- Effective Fall 2025, the Global Culture and Thought Major was established *(published November 4, 2025)*.

Program Director: Hester Baer, Ph.D.

Global Cultures is an interdisciplinary program in the humanities that fosters multilingual study of the cultures of the globalized world through classroom and experiential learning. The major enables students to explore and interpret the histories, institutions, values, practices, varieties, and intersections of global cultures as they are produced and received across national and regional boundaries. Combining a strong focus on race, equity, and justice with an emphasis on cultural theory, the major provides students with a solid background in the terminology and interpretive methods of humanities disciplines and cultivates the critical skills necessary to understand and analyze global movements and literary, cultural, and media texts, as well as an intermediate-range level of proficiency in at least one language other than English. Courses offered by this program may be found under the prefixes GLBC, SLLC, ARAB, CHIN, CINE, FREN, GERS, HEBR, ITAL, JAPN, KORA, PERS, PORT, RUSS, and SPAN.

Program Learning Outcomes

1. Demonstrate knowledge of the histories, institutions, values, practices, varieties, and intersections of global cultures as they are produced and received across national and regional boundaries.
2. Use the terminology and interpretive methods of humanities disciplines, including cultural theory, to interpret and analyze global movements and literary, cultural, and media texts.

3. Critically analyze issues of power related to gender, sexuality, class, race/ethnicity, and/or mental and physical disability with attention to differences across time, geography, and culture and with critical awareness of one's own worldview, values, and biases.
4. Critically interpret literary, cultural, and media texts reflecting a diversity of perspectives in a variety of genres with specific attention to their social, historical, and linguistic contexts, and formulate original arguments with reference to appropriate evidence and secondary sources.
5. Communicate effectively in written, oral, and digital forms, with the academic community and with the broader public.
6. Demonstrate an appropriate level of proficiency in at least one language other than English.

Requirements

Course	Title	Credits
Core Courses		**6**
GLBC200	Course GLBC200 Not Found (Global Movements)	
GLBC360	Course GLBC360 Not Found (Cultural Theory in a Global Age)	
Language Study [1]		**12**
Select 12 credits at the 200-level or above in one language		
OR Select 6 credits at the 200-level or above in each of two languages		
Experiential Learning [2]		**6**
This requirement may be satisfied through approved education abroad; domestic or international internships; and/or participation in on-campus learning communities, including the Language Partner Program or the Language House Living-Learning Program.		
Upper-Division Electives [3]		**15**
Select 15 credits at the 300-level or above in one SLLC program		
OR Select 9 credits at the 300-level or above in one SLLC program AND 6 credits at the 300-level or above in another SLLC program		
GLBC350	Course GLBC350 Not Found (Translation in a Global Context) [4]	
Total Credits		**39**

1 Language study may be undertaken in courses offered under the following prefixes: ARAB, CHIN, FREN, GERS, HEBR, ITAL, JAPN, KORA, PERS, PORT, RUSS, SPAN.

2 Students will determine which option(s) to pursue in consultation with the program advisor.

3 Electives are to be selected from the existing course offerings of one, or a maximum of two, SLLC programs offered under the following prefixes: ARAB, CHIN, CINE, FREN, GERS, HEBR, ITAL, JAPN, KORA, PERS, PORT, RUSS, and SPAN.

4 May substitute any of the SLLC Upper-Division Elective courses and will be strongly encouraged.

The major consists of 39 credits. Besides taking the two core courses GLBC200 and GLBC360, students majoring in Global Cultures are required to take 12 credits in Language Study, 6 credits in Experiential Learning, and 15 credits in Upper-Division Electives. The same course cannot be counted towards different requirements of the program (e.g., students are not allowed to overlap credits for the Experiential Learning and Upper-Division Electives categories); however, the same course can count towards the requirements of two different programs (e.g., for a student double majoring in Global Cultures and Spanish, the same courses in can be counted for credits in both programs). One- credit "microcourses" may be used to offer supplemental language instruction (tied to a course held in English); as standalone short or block-format courses related to current events or relevant topics; as practicums focused on skills and professionalization; and as service-learning opportunities, among other possibilities. Students will be allowed to take microcourses for credit toward the Experiential Learning and Upper-Division Elective requirements.

Global Health Major

Under Global Health Major *(*p. 471*)*

1. **Description:** Effective Spring 2026, the program description was updated *(published November 4, 2025)*.
2. **Program Learning Outcomes:** Effective Spring 2026, program learning outcomes #1–8 were updated, and #9–22 were removed *(published November 4, 2025)*.
3. **Requirements:** Effective Spring 2026, the Global Health Experiential Learning courses and Global Health Options courses were updated *(published November 4, 2025)*.

Original

(1) Description: The Global Health major offers rigorous scholarly and applied experiences designed to embolden future leaders to achieve the level of critical thinking, analysis, and application essential to improve worldwide social, environmental, and health outcomes. Specifically, students apply structurally competent, collaborative, multidisciplinary perspectives to the understanding, assessment, and intervention of sustainable strategies necessary to effectively address current and future global health issues within local, national, and global arenas. The Global Health major prepares students for multiple career paths from biomedical to public policy, including scientific and applied research, medicine, and allied health and social service professions in the public, private, and non-profit employment sectors throughout the state, nation, and world.

(2) Program Learning Outcomes:

1. Understand the concepts, theoretical frameworks, and analytical methodologies underlying successful and sustainable global health strategies.
2. Understand the scientific bases for infectious disease.
3. Demonstrate beginning and/or intermediate ability in a second language.
4. Demonstrate competence in the development, recognition, and utilization of big data within global health applications.
5. Understand the social and cultural complexities inherent in global collaborations.
6. Demonstrate the ability to establish respectful, trusting relationships with people, communities, and institutions around the globe.
7. Understand globalization and its social and political foundations, with particular emphasis on effects on health and healthcare among populations in distinct locations.
8. Apply a multidisciplinary perspective to the appreciation, understanding, assessment, intervention, and sustainability of strategies designed to effectively address global health issues.
9. Utilize ethical, structurally competent, collaborative approaches to understanding, researching and contributing to community-supported interventions relevant to global health challenges.

10. Critically analyze the qualitative and quantitative impacts of racism on the prevention, assessment, and treatment of illness around the world.
11. Develop macro and micro strategies to combat racism and proactively promote health equity.
12. Reflect upon what it means to be anti-racist.
13. Demonstrate clear, incisive, verbal and written communication skills within the context of specific cultures, languages, and sociopolitical systems.
14. Demonstrate proficiency in a variety of electronic and digital media.
15. Recognize and critically evaluate current theories and practices within the discipline of global health.
16. Utilize peer-reviewed literature and apply it to research as well as to formulating effective program planning and evaluation strategies.
17. Apply introductory statistical methodology and big data approaches to solve global health problems.
18. Create and implement successful, novel approaches to global health issues based upon critical evaluations of historical underpinnings and previous challenges.
19. Reflect upon and integrate required academic experiential learning into a deeper understanding of professional and personal responsibility.
20. Understand the interconnected network and the major initiatives and priorities of global health organizations at the local, national and world levels.
21. Recognize the various roles, responsibilities, and opportunities available throughout the public, private, and nonprofit sectors.
22. Implement a strategy to enhance long-term career development.

(3) Requirements: See Global Health Major (p. 471)

Change

(1) Description:

In the interdisciplinary Global Health major, students explore health challenges through the lens of environmental, biological, geopolitical, socioeconomic, and cultural factors. Combining classroom learning with real-life opportunities through research, internships, and field experiences, students develop cross-cultural and practical skills and competencies to address complex concerns in an evolving global health landscape. Course themes include epidemiology, policy, management, data analysis, world languages, as well as interpersonal and digital communication.

Students in the Global Health major are advised in the School of Public Health's Department of Global, Environmental, and Occupational Health (GEOH). Courses are taught by faculty across the university and in partnership with six UMD colleges and schools (Agriculture and Natural Resources; Arts and Humanities; Behavioral and Social Sciences; Computer, Mathematical, and Natural Sciences; Information; and Public Health).

The Global Health major prepares students for multiple career paths from biomedical to public policy, including scientific and applied research, public health, law, allied health and social service professions in the public, private, and non-profit employment sectors throughout the state, nation, and world.

(2) Program Learning Outcomes:

1. Understand the underlying science of human health and disease including opportunities for promoting and protecting health across the lifespan.
2. Analyze historical foundations interactions between global health, colonialism, economic development, biological sciences, social determinants of health, power dynamics, technology innovations, One Health, and historical contexts that trace its evolution of health practice and initiatives shape global health approaches.
3. Apply research and epidemiology to analyze global health challenges, and develop comprehensive evidence-based interventions and strategies.
4. Employ data collection, statistical analysis, technology, and interpretation of health indicators across diverse contexts to map and understand global health disparities.
5. Assess intersectional factors and diverse health needs of populations across different cultural, social, biological, economic, political, environmental, digital, and geographical contexts influencing global health outcomes.
6. Develop culturally and context-appropriate, community-based global health intervention strategies and policies.
7. Demonstrate skills in scientific writing, oral presentation, cross-cultural communication, narratives and media resources that promote health awareness and behavioral change.
8. Engage in interdisciplinary collaboration to create, design, implement, and disseminate diverse cultural and linguistic health information and communication strategies.

(3) Requirements:

Students will need to have math eligibility of MATH120 or higher to complete the Global Health Supporting Courses.

Course	Title	Credits
Global Health Supporting Courses (19-25 credits)		
BSCI170	Principles of Molecular & Cellular Biology	3
BSCI171	Principles of Molecular & Cellular Biology Laboratory	1
2 levels of a world language [1]		6-12
BSCI213	The Public Microbe [2]	3
NFSC100	Elements of Nutrition	3
GVPT200	International Political Relations [3]	3
or GVPT282	The Politics of Global Development	
Global Health Core (40 Credits)		
GBHL200	Introduction to Global Health (Introduction to Global Health)	3
GBHL210	Careers in Global Health (Careers in Global Health: Understanding the Public, Private, and Non-Profit Sectors)	1
SPHL100	Foundations of Public Health	3
FMSC110	Families and Global Health	3
HLTH230	Introduction to Health Behavior	3
ANTH210	Introduction to Medical Anthropology and Global Health	3
EPIB301	Epidemiology for Public Health Practice	3
EPIB315	Biostatistics for Public Health Practice	3
ANTH310	Method & Theory in Medical Anthropology and Global Health	3

GBHL310	Introduction to Global Health Literacy (Introduction to Global Health Literacy)	3
MIEH321	Environmental Determinants of Emerging Infectious Diseases	3
HLSA320	(Comparative Global Health Care Delivery Systems)	3
INST420	(Data Applications in Global Health)	3
GBHL497	Global Health Capstone (The Global Health Experience (Capstone))	3
Global Health Experiential Learning (6-9 Credits) [4]		
Global health experiential learning (subject to advisor approval) [4]		3
GBHL386	Global Health Experiential Learning (Global Health Experiential Learning) [4]	3-6
Global Health Options (12 Credits)		
2 GBHL Option courses of choice (100-400 level) [5]		6
2 GBHL Option courses of choice (300-400 level) [5]		6
Total Credits		**77-86**

1. Students take at least 2 courses in the same language. See Global Health major website for world language guidance, approved course list and exceptions, https://sph.umd.edu/gbhl-bs (https://sph.umd.edu/gbhl-bs/).
2. Students considering allied health professions may substitute BSCI223 for BSCI213, but may not receive credit for both courses.
3. If a student completes both GVPT200 and GVPT282, one will apply towards GBHL Supporting and the other towards GBHL Option.
4. Students complete two different experiential learning courses (at least 3 credits each) with prior approval of the Global Health program. These may include an internship, research, independent study, global classroom, field experience, or study abroad. Additional guidance and examples of Global Health Experiential Learning courses may be found at sph.umd.edu/gbhl-bs (https://sph.umd.edu/undergraduate-degrees/bs-global-health/)
5. Students select from a menu of approved 3 credit Global Health Options courses. At least 2 courses (6 credits) must be at the 300 or 400 level. A single course cannot satisfy both an Option and Experiential Learning requirement. See Global Health major website for approved Options course list: https://sph.umd.edu/gbhl-bs (https://sph.umd.edu/undergraduate-degrees/bs-global-health/).

Human Development Major

Under Human Development Major *(*p. 378*)*

- Effective Spring 2026, EDHD 489 and EDHD 426 were removed, and EDHD 488 and EDHD 251 were added *(published January 12, 2026)*.

Original

See Human Development Major (p. 378)

Change

Course	Title	Credits
Statistics and Methods Courses		
EDHD306	Research Methods in Human Development	3
EDMS451	Introduction to Educational Statistics	3
Core Courses		**9**
Select three of the following five courses:		
EDHD411	Child Growth and Development	
EDHD412	Infant Development	
EDHD413	Adolescent Development	
EDHD440	Adult Development	
EDHD460	Educational Psychology	
Elective Courses [1,2]		**12**
Select four of the following elective courses:		
EDHD221	Aggression and Violence in Everyday Life: Can Violence Be Prevented?	
EDHD230	Human Development and Societal Institutions	
EDHD231	Inside 21st Century Creativity: How Creative Ideas, Concepts, and Products are Generated	
EDHD241	Are Two Languages Better than One: The Science and Controversy of Bilingualism	
EDHD251		
EDHD310	Your Brain on Education: The Neuroscience of Learning and Development	
EDHD400	Introduction to Gerontology	
EDHD405	Information Weaponization: Thinking Critically in a Changing World	
EDHD402	Social Development	
EDHD414	Development of the Scientific Mind Across the Lifespan	
EDHD420	Cognitive Development and Learning	
EDHD421	Developmental Perspectives on Peer Interactions, Relationships, and Groups	
EDHD425	Language Development and Reading Acquisition	
EDHD488	Special Topics in Human Development	
Pro-Seminar and Internship/Field Experience [3]		
EDHD390	Career Paths and Internship Preparation in Human Development	1
To be completed in the final year.		
EDHD398	Internship in Human Development	6
Total Credits		**43**

Course	Title	Credits
Gateway Courses		
EDHD200	Paradigms and Perspectives in Human Development	3
EDHD201	Learning How to Learn	3
EDHD320	Human Development Through the Life Span	3

1. Any core course listed above for which core course credit was not given may serve as an elective. This set of courses should be chosen to align with the student's individual program goals and could include extradepartmental course offerings.
2. Students may, at the invitation of individual faculty, substitute EDHD489 OR EDHD498, for three of the required 12 credit elective component. For situations in which students wish to pursue a double major, Family Science Majors may substitute FMSC302 for EDHD306, and Psychology Majors may substitute PSYC300 for EDHD306 and PSYC200 for EDMS451 in the Human Development major
3. Students may elect to substitute six credits of upper (400 level) electives in place of the internship experience, although internship experience is strongly recommended.
4. Students may complete EDHD398 in one semester or over two semesters. Students may also take EDHD398 for three credits and

another 400-level elective for three credits in order to satisfy this requirement.

Psychology Electives

Course	Title	Credits
PSYC200	Statistical Methods in Psychology	3
PSYC221	Social Psychology	3
PSYC300	Research Methods in Psychology Laboratory	4
PSYC330	Child Psychopathology	3
PSYC332	Psychology of Human Sexuality	3
PSYC334	Psychology of Interpersonal Relationships	3
PSYC336	Psychology of Women	3
PSYC341	Introduction to Memory and Cognition	3
PSYC346	Death, Dying and Grieving: What Future Healthcare Professionals Need to Know	3
PSYC353	Adult Psychopathology	3
PSYC381	Community Interventions: Domestic Violence I	3
PSYC391	Community Interventions: Domestic Violence II - Service Learning	3
PSYC436	Introduction to Clinical Psychology: From Science to Practice	3

Sociology Electives

Course	Title	Credits
SOCY227	Introduction to the Study of Deviance	3
SOCY230	Sociological Social Psychology	3
SOCY241	Inequality in American Society	3
SOCY325	The Sociology of Gender	3
SOCY412	Family Demography	3
SOCY424	Sociology of Race Relations	3
SOCY442	The Black Middle Class	3
SOCY467	Sociology of Education	3

Family Science Electives

Course	Title	Credits
FMSC290	Family Economics	3
FMSC330	Family Health: Health Happens in Families	3
FMSC332	Children in Families	3
FMSC430		3
FMSC431	Family Crises, Emergencies and Interventions	3
FMSC460	Violence in Families	3

Other Possible Electives

Electives approved by program advisor from the following departments to satisfy individual students' program goals:

- AAAS – African American and Africana Studies
- AAST - Asian American Studies
- AMST – American Studies
- ANTH - Anthropology
- BMGT – Business and Management
- CCJS – Criminology and Criminal Justice
- ECON - Economics
- GVPT – Government and Politics
- HESP – Hearing and Speech Sciences
- HLTH - Health LING - Linguistics
- RELS – Religious Studies
- SLLC – School of Languages Literatures and Cultures
- SPHL – Public Health
- STAT – Statistics and Probability
- WGSS – Women, Gender, and Sexuality Studies

Latin American and Caribbean Studies Minor

Under Latin American and Caribbean Studies Minor ***(***p. 198***)***

1. **Program Learning Outcomes:** Effective Spring 2026, learning outcomes were added *(published January 12, 2026).*
2. **Requirements:** Effective Spring 2026, the range of acceptable courses was expanded *(published January 12, 2026).*

Original

(1) Program Learning Outcomes: No learning outcomes are listed

(2) Requirements: See Latin American and Caribbean Studies Minor (p. 198)

Change

(1) Program Learning Outcomes:

1. Students will develop an understanding of the diverse histories, cultures, and societies of Latin America and the Caribbean. Students will understand how these diverse experiences are shaped by political, economic, geographic, ethnic, racial, and linguistic variations and commonalities within the region. The legacies of colonialism and the hemispheric influence of the United States are a primary point of reference for students' knowledge of the region. Also relevant are the histories of Latin American and Caribbean nation-states in relation to varying degrees of independence from world powers, including those within the region. These legacies, influence, and history include structural racism and sexism, for example the enslavement of people of African and Indigenous descent, persistent colorism, and stubborn patriarchal norms. They also include successful efforts to combat oppressive structures, including the liberation of Haiti from France, instances of Indigenous autonomy, and a burgeoning, recent, and region-wide feminist movement. Students will learn to understand these and other aspects of the region through a variety of sources from diverse origins, media, and genres, including texts in different languages, music, literature, film, and academic scholarship from various disciplines.
2. Students will learn how to investigate and analyze a specific topic related to Latin America and the Caribbean and communicate clearly and persuasively their arguments, conclusions, and the significance of their research. This communication will take written and oral form, for example short and extensive research papers and in-class presentations. Ideally, it will also involve collaborative projects.
3. Students will speak proficiently one of the region's many languages, not including English. Examples include but are not limited to Spanish, Portuguese, Quechua, Haitian Creole, and French.
4. Students will understand different aspects of the field of Latin American and Caribbean Studies, including the structural inequalities

of knowledge production that have significantly shaped the field. Students' knowledge of the field will also include important primary and secondary sources, academic terminology related to different disciplines, and the most effective means of conducting research, such as relevant journals, reference works, and databases produced and located in Latin America and the Caribbean and the United States.

(2) Requirements:

The undergraduate minor in Latin American and Caribbean Studies will be awarded to students who have completed 15 credits with a cumulative GPA of 2.0 or better in the following areas:

Course	Title	Credits
LACS/SPAN234	Issues in Latin American and Caribbean Studies I	3
or LACS/SPAN235	Issues in Latin American and Caribbean Studies II	
HIST/LACS250	History of Colonial Latin America	3
or HIST251	Latin America Since Independence	
Select one of the following:		**3**
LACS486	Internship in Latin American/Caribbean Studies	
LACS369	Special Topics in Study Abroad III [1]	
LACS499	Independent Study in Latin American and Caribbean Studies	
Upper Level Electives		**6**
ELECTIVE	Two 300 or 400 level elective courses [2]	
Total Credits		**15**

[1] LACS369 may be substituted with an approved 3-credit study abroad course with permission of department.

[2] Elective courses will contain at least 75% Latin American-related content and will be from two different departments.

Additional Requirement

In addition to English, students must demonstrate competence in one of the other languages of the Americas: indigenous languages, a creolized language such as Haitian Creole, colonial languages - Spanish, Portuguese, French - or other language considered by the program administration to be relevant to study of Latin America and the Caribbean. Other languages may be used to fulfill this goal with the permission of the LACS undergraduate advisor. Competency may be proven with a grade of "C+" or better in an intermediate-level course or higher. Native speakers of a language of Latin America and the Caribbean, or students with extensive experience in these languages, should consult with the Latin American Studies advisor to demonstrate competence through a placement exam.

LGBTQ Studies Minor

Under LGBTQ Studies Minor *(*p. 182*)*

1. **Description:** Effective Spring 2026, the term "LGBT people" has been changed to "LGBTQ people" (*published November 4, 2025)*.
2. **Requirements:** Effective Spring 2026, the required core curriculum course LGBT 386 has been removed, and LGBT 310 has been added (*published November 4, 2025*).

Original

(1) Description: The LGBTQ minor in the Department of Women, Gender, and Sexuality Studies is a 15 credit program which provides students an opportunity for interdisciplinary study of the lives, experiences, identities, and representations of LGBT people. This course of study provides solid grounding in the major concepts and methods that define studies of sex, gender, and gender identity today. Any student in good standing in the university may enroll in the LGBTQ Studies minor. In consultation with the Department of Women, Gender, and Sexuality Studies academic advisor, students will design a minor program that complements their major field of study.

(2) Requirements: See LGBTQ Studies Minor (p. 183).

Change

(1) Description: The LGBTQ minor in the Department of Women, Gender, and Sexuality Studies is a 15 credit program which provides students an opportunity for interdisciplinary study of the lives, experiences, identities, and representations of LGBTQ people. This course of study provides solid grounding in the major concepts and methods that define studies of sex, gender, and gender identity today. Any student in good standing in the university may enroll in the LGBTQ Studies minor. In consultation with the Department of Women, Gender, and Sexuality Studies academic advisor, students will design a minor program that complements their major field of study.

(2) Requirements

Course	Title	Credits
Required Core Curriculum		
Foundation Courses		6
LGBT200	Introduction to Lesbian, Gay, Bisexual, and Transgender Studies	
LGBT310	Transgender Studies	
Capstone Course (approved 400 level LGBT Course)		3
LGBT488	Seminar in Lesbian, Gay, Bisexual, and Transgender Studies	
Elective Courses [1]		6
Total Credits		**15**

[1] **Elective Courses**: Courses with an LGBT Prefix are automatically approved as electives. 3 of the 6 elective credits must be upper level.

Other Program Requirements:

- No course earned with a grade below "C-" will count toward the minor in LGBTQ Studies.
- An overall GPA of 2.0 in the minor is required for graduation.
- Students may use a maximum of six credits (or two courses) to satisfy the requirements of both their major and the minor in LGBTQ Studies. However, courses taken to complete the minor in LGBTQ Studies may not be used to satisfy the requirements of another minor.
- No more than six of the required credits (or two courses) may be taken at an institution other than the University of Maryland, College Park. However, at least six 3xx or 4xx-level credits applied to the minor must be taken at this university.

Public Policy Major

Under Public Policy Major *(*p. 482*)*

- Effective Spring 2026, PLCY306 was replaced with a 200-level research methods course *(published January 12, 2026).*

Original

See Public Policy Major (p. 482)

Change

C- or better is required in all major courses and the cumulative average of these courses must be a 2.0.

Course	Title	Credits
Benchmark Requirement One [1]

Introduction to Public Policy Focus		3
Students must choose one introductory public policy elective		
Focus/PLCY Elective Course 2		3
Focus/PLCY Elective Course 3		3
Focus/PLCY Elective Course 4		3
Total Credits		**58-61**

[1] Must be completed by the end of **two semesters** into the major
[2] Must be completed by the end of **four semesters** into the major
[3] Taken after 90 credits

Public Service Interpreting and Translation Major

- Effective Fall 2025, the Public Service Interpreting and Translation Major was established *(published October 21, 2025)*.

Program Director: Leah Waks, Ph.D.

The B.A. in Public Service Interpreting and Translation (PSIT) provides students with a fundamental understanding of how to communicate messages between speakers of one language and speakers of a different language through the spoken (interpreting) and written word (translation) in community-based settings. Students must be able to speak and write in English and one other language that is featured in the PSIT program (e.g., Spanish). At present, the PSIT program features one language combination with a focus on Spanish and English interpreting and translation with the option of adding other languages in the future. As a joint major with 45 credits, PSIT features coursework in the history, theory, and practice of Communication, Languages, and Interpreting and Translation with in-depth study of intercultural communication. Students will deepen their language and vocabulary skills in speaking and writing in their working languages (English and Spanish).

Students will gain training in both interpreting and translation and can specialize in one or the other in their senior year. Students can also specialize in different communication contexts by taking coursework in legal, health, and/or organizational communication.

Graduates of the PSIT program will fulfill a diversity of community needs in business, education, health, and law. Students will gain real-world experience through their practicum credits as they prepare for their multicultural careers in interpreting and translation. As bilingual speakers, for example, interpreters and translators will ensure patients understand their medical needs, clients gain proper legal advice, parents learn of children's educational needs, drivers take driving tests, survivors of violence receive proper protections, refugees obtain housing and food, victims of natural disasters are kept safe, and consumers access business services across the DMV's diverse communities.

Program Learning Outcomes

1. Show advanced competence in speaking, reading, writing, and understanding English in order to communicate in culturally sensitive ways.
2. Show advanced competence in speaking, reading, writing, and understanding at least one other language spoken in the United States in order to communicate in culturally sensitive ways.
3. Translate and interpret written and verbal messages from one language to another for public service agencies (e.g., medical, education, community services, and law enforcement).
4. Apply major theories and concepts that could facilitate the effective use of intercultural communication competence skills within diverse cultural and professional communities.
5. Demonstrate specialized knowledge in health, education, law, and/or institutional operations and terminologies.

Requirements

Course	Title	Credits
Oral Communication		**3**
COMM107	Oral Communication: Principles and Practices	
Modes of Communication Inquiry		**3**
COMM250	Introduction to Communication Inquiry	
Public Service Interpreting and Translation

School of Public Policy

Under School of Public Policy ***(***p. 479***)***

- Effective September 1, 2025, a new Dean of the School of Public Policy was appointed *(published November 6, 2025).*

Original

Dean: Robert Orr, Ph.D.

Change

Dean: Gustavo Flores-Macías, Ph.D.

Teaching English for Speakers of Other Languages (TESOL) Education Minor

Under Teaching English for Speakers of Other Languages (TESOL) Education Minor **(**p. 398**)**

1. **Program Name:** Effective Spring 2026, the program was renamed to Teaching English for Speakers of Other Languages (TESOL) and Dual Language Education Minor (*published December 15, 2025).*
2. **Description:** Effective Spring 2026, the program description was updated (*published December 15, 2025)*.
3. **Requirements:** Effective Spring 2026, a dual language education track has been added. (*published December 15, 2025*).

Original

(1) Program Name: Teaching English for Speakers of Other Languages (TESOL) Education Minor

(2) Description: The minor in TESOL Education provides opportunities for undergraduate subject area majors to complete a sequence of courses that helps them prepare for careers as teachers of English as a second language in US schools and/or prepare them for roles as teachers of English as a foreign language in international settings. If the undergraduate pursuing the minor desires to enter the ESOL teacher preparation track, the candidate may apply for the Five Year Integrated Program option or the one year MCERT Program option; in either case, satisfactorily completed courses in the minor that meet program requirements will be applied to the certification program requirements. Individuals should consult with an advisor in Student Services to identify the most appropriate option leading to teacher certification and to review the specific admission requirements associated with that program.

The minor in TESOL Education includes coursework from Curriculum and Instruction. The curriculum provides a foundation in second language learning and pedagogy, cross-cultural issues and understanding, and curricular and pedagogical issues which support biliteracy development across contexts. A number of the courses include field components that provide candidates with direct experience in working with multilingual learners. The minor incorporates coursework required for TESOL certification from the Maryland State Department of Education.

(3) Requirements: See Teaching English for Speakers of Other Languages (TESOL) Education Minor (p. 398)

Change

(1) Program Name: Teaching English for Speakers of Other Languages (TESOL) and Dual Language Education Minor

(2) Description: The minor in TESOL and Dual Language Education provides opportunities for 1) undergraduate subject area majors to complete a sequence of courses that helps them prepare for careers as teachers of English as a second language in US schools and/or prepare them for roles as teachers of English as a foreign language in international settings (TESOL Track), and 2) undergraduate subject area majors, such as students majoring in elementary education and/or in language studies (e.g., Chinese, French, Spanish), to complete a sequence of courses that helps them prepare for careers as Dual Language teachers in US schools.

If the undergraduate pursuing the minor desires to enter the ESOL or World Languages teacher preparation track, the candidate may apply for the Five Year Integrated Program option or the one year MCERT Program option; in either case, satisfactorily completed courses in the minor that meet program requirements will be applied to the licensure program requirements. Individuals should consult with an advisor in Student Services to identify the most appropriate option leading to teacher certification and to review the specific admission requirements associated with that program.

The minor in TESOL and Dual Language Education includes coursework from Curriculum and Instruction. The curriculum provides a foundation in second language learning and pedagogy, cross-cultural issues and understanding, and curricular and pedagogical issues which support biliteracy development across contexts.

A number of the courses include field components that provide candidates with direct experience in working with multilingual learners.

The minor incorporates coursework required for TESOL certification from the Maryland State Department of Education.

(3) Requirements:

Courses required for the minor are:

Course	Title	Credits
Core Courses		
TLPL440	Foundations of Educating Multilingual Learners	3
TLPL442	Foundations of Literacy and Biliteracy Development [1]	3
TLPL443	Cross-Cultural Communication and Multilingual Learners	3
Choose either TESOL Education or Dual Language Education Track:		**6**
TESOL Education Track:		
TLPL441	Methods for Teaching Multilingual Learners [1]	
TLPL444	Teaching and Understanding English Grammar with Multilingual Learners	
Dual Language Education Track:		
TLPL445	Methods I: World Language Methods and Technology	
Course Chosen with Advisor in Language of Specialization		
Total Credits		**15**

[1] Courses that include required field experiences

Video Production and Documentary Filmmaking Minor

- Effective Spring 2026, the Video Production and Documentary Filmmaking Minor was established (*published December 15, 2025*).

Program Director: Alexander Pyles

The Video Production and Documentary Filmmaking minor helps students develop practical skills and understand the legal and ethical issues inherent in visual media production and independent filmmaking. Students get hands-on experience with camera and audio equipment, learn visual storytelling and editing techniques and work individually and in teams to create compelling digital content.

Program Learning Outcomes

1. Understand the ethical guidelines and practices that govern media production and the legal implications and considerations that inform that work.
2. Demonstrate the ability to apply appropriate tools and technology, including the creation and editing of video and other images.
3. Understand the importance of deadlines and timelines in video production.

Requirements

Course	Title	Credits
Required Courses		
JOUR347	News Videography	3
JOUR281	Media Law and Ethics in the Digital Age	3
or JOUR402	Journalism Law and Ethics	
Introductory Courses		**3**
Choose one course:		
JOUR368	Topics in Broadcast and Electronic Media (JOUR368L: Introduction to Studio Production)	
JOUR368	Topics in Broadcast and Electronic Media (JOUR368T: Documentary Video Production and Cinematography)	
Upper-Level Electives		**6-15**
Choose two-to-five courses:		
JOUR368	Topics in Broadcast and Electronic Media (JOUR368E: Streaming and Broadcast Design)	
JOUR368	Topics in Broadcast and Electronic Media (JOUR368O: Advanced Studio Production)	
JOUR368	Topics in Broadcast and Electronic Media (JOUR368I: Motion Graphics)	
JOUR368	Topics in Broadcast and Electronic Media (JOUR368J: Promo Production)	
JOUR368	Topics in Broadcast and Electronic Media (JOUR 368U: Virtual Production Using Unreal Engine)	
JOUR368	Topics in Broadcast and Electronic Media (JOUR368T: Documentary Video Production and Cinematography)	
JOUR368	Topics in Broadcast and Electronic Media (JOUR 368X: Documentary Filmmaking)	
JOUR370	Photojournalism	
JOUR383	Advanced Photojournalism	
CINE310	Introduction to Filmmaking 1	
CINE415	Advanced Filmmaking	
Total Credits		**15-24**

Women, Gender, and Sexuality Studies Minor

- Effective Spring 2026, the Women, Gender, and Sexuality Studies Minor was established *(published October 21, 2025)*.

Program Director: Neda Atanasoski, Ph.D.

Rooted in the liberatory traditions of Women's Studies, the Women, Gender, and Sexuality Studies minor can supplement any student's program of study at the University of Maryland. It allows students to explore structural inequities based on intersecting hierarchies of colonialism, gender, caste, race, sexuality, ethnicity, nationality, and ability, with the aim of transforming systems of oppression and imagining freer futures. Students will take courses informed by intersectional and anti-colonial scholarship and methodologies from the arts and humanities, social sciences, and many other fields. Women, Gender, and Sexuality Studies offers students a flexible program of study in which there is focused attention on building students' analysis of varied modes of structural and interlinked oppressions and devising visions for critiquing, resisting, and dismantling such modes of systemic violence.

Courses offered by this department may be found under the following acronyms: WGSS, LGBT. They were previously also offered under WMST.

Program Learning Outcomes

1. Students will be able to critically analyze issues of power related to women, race/ethnicity, gender, sexuality, and class.
2. Students will understand and be able to critique key developments in gender, critical race, and queer thought as strategies for social change.
3. Students will demonstrate familiarity with major concepts and vocabulary of gender, critical race, and queer thought in the field of Women, Gender, and Sexuality Studies.

Requirements

Students will earn a total of 15 credit hours, distributed as indicated below. At least 9 credits must be at or above the 3xx level. No course with a grade less than "C-" may be used to satisfy the minor. An overall GPA of 2.0 in the minor is required for graduation. Students will design their programs in consultation with a Women, Gender, and Sexuality Studies advisor.

Students may use a maximum of six credits (or two courses) to satisfy the requirements of both their major and the minor in WGSS. However, courses taken to complete the minor in WGSS may not be used to satisfy the requirements of another minor. No more than six of the required credits (or two courses) may be taken at an institution other than the University of Maryland, College Park. However, at least six 3xx or 4xx-level credits applied to the minor must be taken at this university.

Course	Title	Credits
Introductory Course		**3**
Select one of the following courses:		
LGBT200	Introduction to Lesbian, Gay, Bisexual, and Transgender Studies	
WGSS105	Introduction to Disability Studies (Introduction to Disability Studies)	
WGSS200	Introduction to WGSS: Gender, Power, and Society	
WGSS205	Reproductive Justice: An Introduction	
WGSS250	Introduction to WGSS: Art and Culture	
WGSS263	Introduction to Black Women's Studies	
Lower Level core or elective [1]		**3**
WGSS301	**Introduction to Research in Gender, Race, and Queer Studies**	**3**
Upper Level Requirements [2]		**6**
3 credits from the UL Core or Elective List		
3 credits of 4xx level from the UL Core list		
Total Credits		**15**

1. Please refer to the WGSS major in the Undergraduate Catalog for the full list of Lower Level Core and Elective Courses
2. Please refer to the WGSS major in the Undergraduate Catalog for the full list of Upper Level Core and Elective Courses
